

## **A Father 951**

Chapter 951: Years of Journeying Through This World to Illuminate the True Heart, Cat Face's Intuition About to Shine (5)

"Eliminate them."

"These assassins, if they dare to target me now... they will surely target my daughter in the future. Therefore, they all must die." Li Che said indifferently.

Li Qingshan took a deep breath.

Using oneself as bait?

Entering the game alone, just to eliminate all the Godhunting Pavilion assassins who might threaten Xi Xi's safety?!

"By the way, there's another piece of news..."

Li Qingshan thought for a moment, looked at Li Che, and said, "Because you became the first Divine Sculpture Half-Saint of Qian Yuan Divine Sect in hundreds of years at only twenty-five years of age, a Divine Sculpture Half-Saint from the Little Lingyin Temple in Xiling Road has come, seeking to compete with you."

"This Divine Sculpture Half-Saint... is obviously here for you. Your emergence has severely impacted the Divine Sculpture business of Little Lingyin Temple in the Lingnan Circuit. They want to defeat you in the competition of Divine Carving Techniques, to diminish your rising fame, so that their business can recover greatly in Lingnan Circuit. Additionally... they aim to suppress the Divine Sculpture business of Qian Yuan Divine Sect."

"After all, the Qian Yuan Divine Sect's most prosperous period was known for its Divine Sculptures..."

Upon hearing these words, Li Che couldn't help but roll his eyes, "I just won't compete then?"

Li Qingshan was amused and helpless by Li Che's words.

That's easier said than done...

Seeing that Li Che was genuinely uninterested in this topic, Li Qingshan chose not to say more.

However, when the time comes, Li Che might find it difficult to refuse the challenge from Little Lingyin Temple's Divine Sculpture Half-Saint...

Buzzz

Three shadows swiftly flickered, landing in the courtyard.

It was the Soul Capturing of Yellow Sword Wine, You Liqing, and Dragon Queen Consort Ao Yuxin.

These three Soul Capturing were dispatched by Li Che to watch over and seek traces of the hidden Corpse God Cult outside Divine Carving Ridge.

Li Che was more interested in those Evil People from Corpse God Cult lurking outside Divine Carving Ridge.

After all, the threat of Corpse God Cult was very real.

For the past half month, Li Che had been quite busy, being a Divine Sculpture Half-Saint indeed involves many mundane matters.

He had yet to thoroughly investigate Divine Carving Ridge.

But tonight, he intended to go and check it out, wondering if the lv5 level Heaven and Earth chessboard could uncover the hidden strongholds of Corpse God Cult around Divine Carving Ridge.

Yellow Sword Wine scratched his head, "I've almost overturned the entire area around Divine Carving Ridge, but those evil people of Corpse God Cult showed no signs at all, not even when I and Old You used the Corpse God Seal to provoke... no reaction whatsoever."

Upon hearing this, Li Che frowned slightly, feeling a bit puzzled at heart.

"Where would the Corpse God Cult hide?"

You Liqing grasped the eight-foot snake spear, his body gleaming in golden armor, looked at Li Che with a solemn face.

"Lord, although no trace of Corpse God Cult was found..."

"But your subordinate has an unexpected gain."

Beside him, Dragon Maiden leaned close to You Liqing, also raised a hand, "Lord, I too have an unexpected gain!"

Li Che paused, looking at the two.

His gaze fell on Dragon Queen Consort, and he said solemnly, "You speak first."

Dragon Maiden immediately became excited, reporting earnestly, "I sensed my Seventh Brother's aura!"

"The Dragon God Clan, Seventh Dragon Son... Ao Lie!"

"He has come to Qianyuan Taoist City!"

"Qingqing is his daughter."

Dragon Maiden mentioned Ao Qingqing, even though she is Soul Capturing, couldn't help but show a touch of distress on her face.

Dragon Son?!

"The Dragon God Clan, this line has nine Dragon Sons, each is comparable to a Martial Saint Dragon King powerhouse, among them the first Dragon Son, the Dragon God Crown Prince, is extremely strong, ranked ninth in Martial Saint Heavenly Gate..."

You Liqing spoke solemnly.

He had quite an understanding of the Dragon God Clan.

Li Che squinted his eyes. Ao Qingqing's father? A Dragon Son of the Dragon God Clan?

Came to Qianyuan Taoist City, stealthily?

He looked at You Liqing, "And your gain?"

You Liqing took a deep breath, his golden armor clashed, making a clang sound.

"Lord, I discovered Ji Lishou's aura! Although he hid his aura and came to Qianyuan Taoist City, he couldn't evade me!"

Li Che's face gradually grew serious.

"King of Quelling Chaos Ji Molie's fourth son, Ji Lishou!"

One Seventh Dragon Son Ao Lie, one King of Quelling Chaos prince Ji Lishou!

Li Che couldn't help but think of the Dragon Queen Consort, You Liqing, Su Huaili and others whom he killed.

But, if they came for revenge...

Why hide their aura, secretly infiltrate Qianyuan Taoist City?

"Why did they infiltrate Dao City? Does Taibai Sect Master know?!"

"No matter what... both of you continue to stalk them, observe discretely."

Li Che instructed.

You Liqing and Dragon Maiden bowed, the next moment again turned into black light and shot out.

On one side, Li Qingshan hearing this news, was greatly shocked.

Whether it's Ji Lishou or Dragon Son Ao Lie, their identities are no ordinary...

"They might have come to deal with the Underworld, but definitely not just for that, perhaps... for the Heart-following Gold Iron Divine Rod."

Li Che mused.

"To deal with my Cat Face's Underworld?!" Li Qingshan shivered, a strong sensation flooded his heart.

His Cat Face might make another appearance!

"Bull Demon, I need my Cat Face to secretly spread the news that they came to Dao City..."

Li Qingshan squinted, he indeed had a knack for making troublesome things happen.

You secretly come, with impure intentions, then I shall not let you succeed.

Li Che's eyes flickered, but he shook his head slightly.

"Currently, they do not know that we are aware of their arrival... in fact, they are in the open, we are in the dark, the advantage is ours."

"Let's observe for a while to determine their actions and purpose before deciding."

Upon hearing this, Li Qingshan's feeling that Cat Face is about to dazzle grew stronger.

Li Che stood up, intending to grasp the Thunder Chess Piece, teleport to Divine Carving Ridge, hide his aura, and investigate where the Corpse God Cult's evil people are hiding.

Suddenly.

Li Che's heart stirred slightly.

Five fingers gripping the Thunder Chess Piece.

Directly teleported from Thunder Alley to the courtyard in Liuxiang Lane.

With the sound of a door being knocked.

Li Che slowly walked out from the study, opened the courtyard door.

In his view, was a figure with full purple hair, a burly and robust body over two meters tall, carrying a giant sword.

Li Che took one glance, instantly understood the identity of the visitor.

"Sect Master's fourth direct disciple, Lao Liu, Xi Xi's fourth senior brother, the prince of Da Li Royal Court... Chi Kuang!"

Chi Kuang's purple hair fluttered, his gaze fell upon Li Che.

He respectfully cupped his fists and bowed.

"Elder Li."

"Master wants me to call you over..."

"The Five Elders Middle Rank [Small Divine Sky Five Thunder Shocking Killing Talisman] has been completed!"

Chapter 952: Emperor Xi Xi Masters the Wind Fire Golden Wheel, Heaven and Earth Chessboard Seeks the Corpse God Realm

The Little Divine Sky Five Thunders Shocking Killing Talisman has been successfully drawn?!

Li Che's eyes instantly lit up. He had originally planned to explore around the Divine Carving Ridge to investigate the hidden base of the Corpse God Cult's evil people, but immediately scrapped this plan.

That is a divine talisman of the Five Elders Middle Rank!

Although Li Che has the assistance of the Dao Fruit of the [Fairy in the Painting], he can now draw divine talismans of the Six Divisions Rank. However, attempting to draw the Five Elders Lower Rank talismans is nearly impossible.

Let alone the Five Elders Middle Rank Little Divine Sky Five Thunders Shocking Killing Talisman!

Moreover, this talisman is of extraordinary significance to Li Che, too important!

Besides being used to refine the Lei-Ci Dao Body, it has another vast use, which is to fully exert the newly acquired power of the divine power [Shenxiao].

Given Li Che's current level of talisman making, he cannot create the Five Elders Middle Rank Little Divine Sky Thunder Talisman. However, relying on the prototype of the Shenxiao divine powers, he might be able to replicate them again and again, as if conjuring them out of thin air...

In other words, in the path of Thunder Skill divine talismans, he, Li Che, is almost like a Divine Talisman Half-Saint!

Additionally, this talisman is the key for Li Che to conquer the [Namo Immortal Artisan Super Electromagnetic Cannon]!

"Alright, let's embark on this journey together."

Li Che dusted off his ink-colored robe embroidered with golden lotus patterns, which was handwoven by his wife Zhang Ya. It was Li Che's favorite garment at the moment.

However, in future battles, he needed to be careful, as this ink-colored robe cannot withstand the impact of his body's growth and would be torn apart.

"Elder Li, please."

Chi Kuang's close-cropped purple hair fluttered, his spine abnormally sturdy, resembling a giant dragon, and the muscles on his neck bulged like a cobra's extended hood.

Meanwhile, Nie Yang had already driven over.

Li Che climbed into the carriage, initially inviting Chi Kuang to ride with him, but Chi Kuang shook his head and refused, opting instead to sit on the shaft of the carriage alongside Nie Yang.

Chi Kuang glanced at Nie Yang: "The teacher said, Fifth Junior Brother is dead. Currently, within the Divine Sect, only you can match Fifth Junior Brother in swordsmanship expertise. You still have a chance to step into the realm of the Sword Saint."

Hearing this, Nie Yang remained expressionless on his stoic face, merely nodding in acknowledgment.

"I'll do my best."

Chi Kuang nodded, his eyes as large as bronze bells shifting to rest on Li Chengzhou.

"Your disciple? His talent is lacking."

"My talent is also lacking. It's purely with effort that I compensate, along with a heart aspiring for the Sword Dao."

Nie Yang said protectively.

He naturally knew that Li Chengzhou's talent was lacking, but since he chose Li Chengzhou, he must have his reasons.

Chi Kuang stopped speaking further, whipping the Flood Dragon Horse, and the wheels of the carriage turned, crushing the dust beneath and galloping rapidly towards the Divine Sect.

Throughout the journey, Chi Kuang and Nie Yang exchanged little conversation. Both seemed to be the quiet type.

The carriage directly entered the Divine Sect, arriving beneath the Divine Talisman Tower.

"Elder Li, we're here."

Nie Yang bowed with the sword in his embrace.

The curtain lifted, and Li Che stepped out of the carriage. After thanking Nie Yang, he looked towards the Divine Talisman Tower.

Clang clang clang—!

It sounded as if metal pieces were violently scraping against each other, sparks flying in all directions. Then, Li Che raised his head, his jet-black hair swirling in the gusts.

What he saw was Xi Xi with her hands on her hips, her small belly protruding, her bare feet stepping on the Prison Lotus Wind Fire Golden Light Wheel, leaping down from the high floor of the Divine Talisman Tower.

"Papa—Emperor Xi Xi is coming!"

"Ahahahaha~ hiccup~"

As Xi Xi flew, she laughed heartily, suddenly letting out a burp and hastily covering her mouth.

She had eaten too many delicious treats in the Divine Talisman Tower...

Li Che's face softened into a gentle smile as he watched Xi Xi speed toward him on the Wind Fire Golden Light Wheel.

Xi Xi lunged at Li Che, diving into his embrace, while the two golden light wheels continued rotating automatically, sparking and quietly hovering in the air.

Li Che held Xi Xi, ruffling her hair.

Xi Xi had made rapid progress, following Lv Taibai in cultivation. She had already mastered the control of the Prison Lotus Wind Fire Golden Light Wheel...

Li Che suspected that Lv Taibai might also sense the mythical weapon hidden in Xi Xi's arms.

The aura of the Purple Flame Serpentine Spear was too intense to escape the senses of a Divine Fetus Great God.

However, even a Divine Fetus Great God couldn't enable Xi Xi to wield this divine weapon, which had merged into her body, at such a young age.

A divine weapon that merges into the physical body implies the weapon choosing its master, differing greatly from ordinary people who merely wield the weapon superficially and requiring higher standards.

But once she is able to summon the divine weapon's true form, the power she can unleash is also immense!

Like Xi Xi, stepping on the Prison Lotus Wind Fire Golden Light Wheel, even if encountering a Master of Divine Gang, though unable to counterkill, escaping is certainly within her capability.

After exchanging pleasantries with Xi Xi, Xi Xi spotted Chi Kuang, her eyes brightening.

"Fourth Senior Brother!"

Xi Xi showed a sweet smile.

Chi Kuang's hulking and fierce face softened into a gentle smile: "Xi Xi."

Li Che took a glance, noting that the pair of senior and junior siblings seemed to get along quite well.

Li Che and Chi Kuang entered the Divine Talisman Tower, while Nie Yang took Li Chengzhou to guard downstairs.

"I've heard that the Sect Master has six disciples?" Li Che inquired.

Chi Kuang nodded: "Senior Brother Zhuang You, as the teacher mentioned, is a Reincarnated Temple God... He has been in the Divine Capital for a long time, and since Lingnan Circuit is quite far from the Divine Capital, much news is unknown."

"The second senior brother is a special case, an outer ancient clan, specifically from the Star Clan of the outer ancient clans, extremely powerful... Years ago, after the master split his defense with a sword, he stubbornly insisted on becoming the master's disciple, so the master had no choice but to accept him... Currently, he is training within the Mysterious Temple of Xiansheng Monarch."

Chapter 953: Emperor Xi Xi Masters the Wind Fire Golden Wheel, Heaven and Earth Chessboard Searches for Corpse God Realm (2)

Chi Kuang introduced Li Che, while Xi Xi was hugged in Li Che's arms, continuously nodding and adding on.

"Yes, yes, I haven't seen Second Senior Brother yet. Master Sect Leader said before I go to the Divine Capital to attend the Flat Peach Victory Meeting, he would take me to see Second Senior Brother, saying he would give me something good..."

Hearing this, Chi Kuang scratched his head. Should he also prepare something good?

"Then what about your Third Senior Brother?"

Li Che asked.

Upon hearing this, Chi Kuang suddenly fell silent, while Xi Xi put her hands on her hips, righteously indignant: "Third Senior Brother is a bad person, he betrayed Master Sect Leader, seems like... seems like he even joined the evil Corpse God Cult!"

Upon hearing this, Li Che's eyes suddenly narrowed.

"Betrayed the Sect Leader? And joined the Corpse God Cult?"

Li Che's expression grew considerably colder.

"Third Senior Brother's name is Wei Yuan... I don't understand why he would betray Master. Originally, Third Senior Brother was Master's most favored Heavenly Pride in Sword Dao, even Fifth Junior Brother couldn't compare to him."

Chi Kuang said sullenly.

Ascending the circular wooden stairs, Li Che and others arrived at the top floor.

Lv Taibai was sitting in a chair, flipping through an old book enveloped in Divinity.

This was a good item excavated from the Strange Que within the Mysterious Temple.

Lv Taibai closed the book, his silver hair tied casually with a military rope.

"You've come?"

"The Small Divine Sky Five Thunder Shocking Killing Talisman is still quite difficult... my wife failed many times before finally succeeding."

Lv Taibai said with a smile.

"How could it be many failures, husband, don't reveal my weaknesses!"

From behind the screen, Sect Master's Wife Xuan Qisha floated out with dark circles under her eyes, her delicate makeup gone, and her hair disheveled, appearing somewhat sloppy.

Upon seeing Li Che, she immediately took out a sandalwood box and tossed it to Li Che.

"Take it! A bet is a bet, here's the Small Divine Sky Five Thunder Shocking Killing Talisman I promised you, a Five Elders Middle Rank Talisman!"

"Be careful, this talisman is extremely powerful... and it's a Thunder Talisman, among many talismans, it ranks first in lethality. If used, the explosive power of this Five Elders Middle Rank Talisman exceeds that of a cultivator using full force of a Divine Secret Technique at the Divine Embryo One Divine Transformation stage!"

Xuan Qisha warned Li Che.

Li Che accepted the sandalwood box, and after Xi Xi wiggled her big toes in curiosity and retracted her Golden Light Wheel, she stretched her neck intrigued to look at the talisman inside the sandalwood box.

After thanking the Sect Master's Wife, Li Che set Xi Xi down and opened the sandalwood box.

"Wow"

"So complex, so beautiful..."

Xi Xi's eyes lit up, exclaiming in surprise.

Just a glance made Xi Xi feel like her eyes saw something her brain couldn't understand at all.

Inside the sandalwood box, a Xuanhuang Talisman over half a foot long lay quietly, with cinnabar ink that looked like glass, its intricate Divine Rune patterns meticulously drawn with a single stroke.

Swift and flowing, a single stroke forms the talisman.

Within the talisman, Li Che even felt familiar Heaven and Earth's power, vaguely forming a unique field that continuously drew the Heaven and Earth's power into the talisman.

Li Che's eyes suddenly brightened, the [Lei-Ci Dao Body] and [Fairy in the Painting]'s Dao Fruits in his chest thumping rhythmically!

"Good!"

Li Che praised.

The floating Sect Master's Wife rolled her eyes.

"Of course it's good, with a Five Elders Middle Rank Talisman, there's no room for the slightest error, a mistake would render the entire talisman useless, failing to draw Heaven and Earth's power would waste it again..."

"As long as you're satisfied, as a Half-Saint Divine Sculpture, you should be aware of the difficulty in creating a Half-Saint Divine Sculpture."

Sect Master's Wife stretched lazily.

"It exhausted me, you must have your wife make me something delicious as compensation!" Sect Master's Wife said.

"I want it too, I want it too!"

Talking about food got Xi Xi immediately energized.

Upon hearing this, Li Che immediately smiled: "Sure, no problem, I'll have my wife prepare it when I get back, and we'll bring it tomorrow for Mrs. Sect Master to taste."

Sect Master's Wife was immediately delighted: "There must be wine too!"

"No problem!"

Li Che lovingly fiddled with the sandalwood box containing the talisman, his eyes exceptionally bright.

Lv Taibai took a sip of tea, patted the cover of the ancient book, and looked at Li Che: "A Che, you should prepare well. The Two-Minder Great Saint Temple God Divine Sculpture you carved has reached the Half-Saint Divine Sculpture level, so this time for exploring the Strange Que to seek divine weapons, after discussions with the Inner Sect Elders, a spot is reserved for you as well."

"This period, you can enhance your cultivation properly and make some preparations."

"During its prime, the Equal Heaven Temple's Divine Talismans, Divine Weapons, Divine Sculptures, and Divine Pills all stood unrivaled in the world, with many Saint Hands overseeing the four great daos to their peak."

"Thus, there's a foundation in the divine sculpture dao. Later, when the Great Vista attacks Qi Tian City, drives out the Demon Emperors occupying the city, our Qian Yuan Divine Sect will recommend you. Of course, if you could gain recognition from the Heart-following Gold Iron Divine Rod in the Two Hearted Great Saint Mysterious Temple, that would be best, even saving the recommendation step."

Lv Taibai looked at Li Che with meaningful eyes.

Upon hearing this, Li Che's eyes flickered, and he solemnly nodded.

Equal Heaven Temple?

Li Che inhaled and exhaled.

In the Heaven and Earth's chessboard.

That broken Face Equal to Heaven trembled slightly.

...

The sunlight was bright and beautiful. As spring gradually warmed, the rainfall began to decrease, and occasionally there was fierce sunlight as the sun rose high.

Li Che returned from the Divine Talisman Tower to the Elder Court within the Outer Disciple City.

His wife Zhang Ya had just returned from cultivating under Jiao Shaoqiu, and Li Che recounted the matter of inviting the Sect Master's Wife to a banquet.

"That's easy, I'll go buy groceries now!"

Chapter 954: Emperor Xi Xi Masters the Wind Fire Golden Wheel, Heaven and Earth Chessboard Searches for Corpse God Realm (3)

Zhang Ya was delighted, because the banquet hosted by the Sect Master's wife gave her a chance to see Xi Xi, whom she hadn't seen for several days.

Xi Xi was diligently cultivating, and as a mother, she was also working hard on her cultivation, so as not to lag behind her husband and Xi Xi.

Zhang Ya went to buy groceries.

Li Che entered the study, instructing Nie Yang to guard it and not allow anyone to disturb him.

Once inside the study, Li Che clenched his five fingers, leaving behind a Painting Immortal Avatar, while he himself had disappeared.

The candle flame flickered dimly, and the Two-Mind Great Saint Divine Sculpture sat quietly on the altar.

Li Che appeared inside the Two-Mind Great Saint Mysterious Temple.

It felt like returning home, with which he was already very familiar.

Walking to the entrance of the Mysterious Temple, outside, the Mysterious Fog was churning continuously, incredibly fierce, filled with a destructive aura, stirred up by the rioting power of Strange Que.

At this moment, anyone entering Strange Que would have to withstand a god-like consumption that was ten to a hundred times the original.

Thus, at this time, even a Divine Fetus Great God would not choose to enter unless absolutely necessary.

No wonder one has to wait for the Mysterious Fog to calm down first.

Back inside the temple, gazing at the Six-Eared Prison Lotus Divine Monkey Two-Mind Great Saint Temple Divine Sculpture on the altar, Li Che's eyes flickered.

Then his toes touched the ground, and his entire body leaped onto the altar.

"It's been a long time since I've drawn the Temple God's divinity..."

"Let's have a touch."

Then, Li Che extended his demonic claws!

This Two-Mind Great Saint is at the Five Elders Upper Rank of the Mysterious Temple, and naturally, its Temple God Divinity is at the Five Elders Upper Rank level.

[Immortal Artisan] Dao Fruit, [Chess Saint] Dao Fruit throbbed intensely.

Star Plucking Pupil activated.

The flesh at the center of the brow tore open from the sides, and a golden pupil emerged, spinning swiftly!

Endless Analysis, Peering into Illusion and Returning to Truth!

A vast siphoning power erupted, and the Prototype of Divine Powers Thousand Analyzing Hands was also activated, with the hand transforming like Thousand Analyzing Hands, presenting a jade-like color.

The Two-Mind Great Saint Temple God Divine Sculpture shattered violently.

Then returned to silence.

Li Che closed his eyes, and the entire Mysterious Temple fell into a dead silence.

Even Li Che's breathing seemed to disappear.

Maintaining his position, it felt as if he had merged with the Statue of the Deity.

Uncertain of how much time had passed.

Li Che finally slowly opened his eyes, the Star Plucking Pupil at the center of the brow closed.

The Thousand Analyzing Hands detached.

Li Che exhaled.

His mind settled, and within the Heaven and Earth chessboard, a quiet Divine Chess Piece with Buddha Light circulated and sat peacefully there.

The chess piece appeared black, but its surface was covered with a faint Buddha Light color.

"Buddha Light Chess Piece..."

Li Che's eyes narrowed.

In the area where the chess piece resided, the lines of the chessboard had collapsed, as if distorted by a peculiar field.

Li Che was very satisfied.

Leaping off the altar, it seemed this Two-Mind Great Saint had something to offer...

It's been a long time since I've touched the Temple God; the feel was really nice.

Li Che smiled, sat cross-legged, and took out the Small Divine Sky Thunder Talisman from the sandalwood box.

Crackle crackle crackle crackle—

The surging thunder arc fiercely struck Li Che's palm, making even Li Che, with his Lei-Ci Dao Body, feel a bit numb!

"Is this... the Nine Heavens Divine Thunder encountered in the Three Calamities and Nine Tribulations of a Divine Tribulation Realm cultivator?"

"Little Divine Sky Thunder... it should be a weakened version of the Nine Heavens Divine Thunder!"

"But its power shouldn't be underestimated, so refreshing—"

Li Che's Lei-Ci Dao Body vibrated, with every inch of skin trembling.

However, Li Che didn't activate this incredibly precious Small Divine Sky Thunder Talisman.

After all, being a Five Elders Middle Rank divine talisman, Li Che was reluctant to use it.

The Fruit of the Heavenly Dao from Within the Painting vibrated.

Pure Heart Divinity and Seven Emotions and Six Desires Divinity fused together, forming a kind of Divine Ink, with which one could imitate all things in heaven and earth!

Rustle—

A scroll of painting floated into the air, and Li Che flicked his fingers.

From within the scroll, a Little Divine Sky Five Thunders Shocking Killing Talisman floated out.

With two fingers together, grasping this talisman.

Li Che activated the Prototype of Divine Powers [Shenxiao]!

Instantly, his entire body burst into dazzling electric light!

Every pore expanded, as if emitting electric light, surrounding Li Che with numerous surging thunder arcs.

Crackle crackle crackle crackle—

Like a thousand birds chirping!

The entire dim Mysterious Temple was illuminated by countless electric lights, like high-wattage bulbs fully lit!

Li Che's black, robust hair twirled wildly, feeling the thunder force within the Lei-Ci Dao Body frantically flowing into the divine talisman!

Li Che felt himself...

Like a human-shaped power bank!

When all the thunder force of the Lei-Ci Dao Body poured into the divine talisman.

Light flickered intermittently, the [Painting Immortal] replicated Little Divine Sky Five Thunders Shocking Killing Talisman surged with electric arcs!

"Due to the Divine Talisman Patterns, after charging, this replicated Little Divine Sky Five Thunders Shocking Killing Talisman has at least seventy percent of the original talisman's power!"

Li Che's smile couldn't be suppressed any longer.

His guess had indeed come true!

Feeling the thunder force in the body's acupoints slowly recovering in the Lei-Ci Dao Body.

Li Che felt extremely pleased in his heart!

Divine Talisman Half-Saint... Li Che, he barely counted as one!

Gripped a Five Elders Divine Crystal, divinity frantically poured in, accelerating the recovery of thunder force!

According to Li Che's estimation, in one day, he could charge two Little Divine Sky Five Thunders Shocking Killing Talismans.

In other words, he could inscribe two Five Elders Rank divine talismans in one day!

"The issue of insufficient firepower for Namo Immortal Artisan Super Electromagnetic Cannon... isn't it solved?"

Li Che clenched his five fingers, holding a bullet made of Mystic Fire Black Phoenix Thunder Wood for the electromagnetic cannon, though it was called a bullet, there was no Divine Chess Piece inside.

Chapter 956: Emperor Xi Xi Falls into the Demon Cave, Flying Thunder Chess Saint Gains a Corpse God Realm

The pitch-black clouds rolled over the sky, blocking out the starlight and severing the moonlight.

The fierce wind howled and roared.

Li Che's black robe fluttered incessantly in the night wind; he stood there, his eyes completely transformed into a pitch-black hue, as if they connected to the Netherworld, witnessing the other side and its splendor.

"Found it."

The Heaven and Earth chessboard spread out, almost enveloping the area around Divine Carving Ridge for dozens of miles, spanning nearly a thousand miles. For Li Che, expanding the Heaven and Earth chessboard to such a large range was a bit strenuous.

Li Che's pitch-black Soul Capturing eyes locked onto the swirling vortex that continuously spread death qi.

With the Heaven and Earth chessboard's probing, enhanced by Soul Capturing, he finally found traces!

Standing at the Heavenly Yuan Position of the intersecting lines of the Heaven and Earth chessboard, all around was silent; all soul capturers vanished. Li Che's eyes swept quietly.

All was desolate around, trees withered, and the sky turned blood-red, as if after severing blood vessels, it spattered, painting the sky in a blood-red scene.

"Is that... a Small Cave Heaven?"

Li Che pondered, looking at the closed vortex emitting faint death qi, sensing through the Heaven and Earth chessboard, he could feel a vast world connected beyond that death vortex.

In reality, he couldn't even see this obscure death vortex; only by observing using Soul Capturing amidst the world's decay did he finally glimpse a corner.

No wonder...

No wonder Yellow Sword Wine, You Liqing, and others searched around Divine Carving Ridge for so long, but couldn't find it...

It turned out to be hidden in a Small Cave Heaven.

Similar to the Qiankun Dao Yun Plaque's grandmaster's Qiankun Small Cave Heaven.

The opening of that Small Cave Heaven also required Lv Taibai to personally use means to open it, and this Corpse God Cult's Small Cave Heaven evidently was similar.

Li Che didn't continue to maintain the Soul Capturing state; after marking a position on the Heaven and Earth chessboard, he then relieved Soul Capturing.

Buzz—

The whole person seemed to return to reality.

Yellow Sword Wine, You Liqing, and the Dragon Maiden, the three strongest under Li Che's command, all looked at Li Che with strange eyes.

Just now, Li Che seemed to vanish from the world; no matter how they perceived or probed, they couldn't sense him, seemingly like the Corpse God Cult's evil people's disappearance methods.

Lord... how did you do it?

"Lord... you..."

You Liqing frowned, couldn't help but ask.

And Li Che nodded, yet before he issued the inquiry, he already opened his mouth and said, "Found it."

As the words fell.

The sword box beside Yellow Sword Wine vibrated, murderous aura rampant.

You Liqing grasped his five fingers, the eight-foot snake spear suddenly swept by, and the Dragon Maiden on the other side let out a long cry, transforming into a deep blue bone-armored true dragon, meandering in the air!

Roar—!

As the dragon's chant exploded, Li Che's toes gently tapped, ring-like ripples immediately spread, Li Che's body soared, landed on the Dragon Maiden's back, who transformed into a ten-zhang divine dragon.

Five fingers spread open, like five sharp divine spears, slicing through the fierce currents, took out the cute bull mask from the Qiankun Jade, and placed it on his face.

Li Che raised his hand and tapped the position between the mask's eyebrows.

The spot between the brow of the Bull Demon mask had already been cut open by Li Che.

The split opened, and the Star Plucking Pupil instantly appeared, connecting with the Heaven and Earth chessboard; the entrance of the Corpse God Cult evil ones' hiding place in the Small Cave Heaven was clearly visible in his eyes!

Li Che wasn't quite sure about the cultivation and combat power hidden in the Corpse God Cult evil ones' Small Cave Heaven.

However, once he makes a move, the hidden strength of the Corpse God Cult materializes inevitably.

No matter if it truly hides top-tier experts...

So what?

Regarding fleeing, Li Che deems himself unparalleled!

And if a top-tier expert really emerges and exposes himself.

It would inevitably attract the attention of Qian Yuan Divine Sect's experts, and once they notice... that's sufficient!

If it alerts Lv Taibai, to rush over and act personally, a full-force action by the Divine Fetus Great God, it might be enough to annihilate these Corpse God Cult's evil ones, or at least gravely wound them!

This is also a steady move.

Expose the hidden crisis in advance, let true experts deal with it.

Once thought of this...

Li Che no longer hesitated!

"Go!"

"Observe the position I attack."

Under the Bull Demon mask, Li Che's body rose tall and hefty, resembling a mountain filled with oppressiveness. He grasped his five fingers, and a divine bow appeared in his hand.

Qi-blood rushed out madly, as if it outlined a fire phoenix, soaring behind the black robe of the Bull Demon.

Fire Phoenix Burning Sky!

Divine Seed Martial Arts!

Tears Blood Divine Phoenix Life and Death Arrow!

The longbow suddenly drew full moon, with an arrow nocked on it, the arrowhead containing the equivalent of hundreds of Divine Element Chess's Great Avalanche, the arrow energy charging, creaking like thunder booming.

Under the Bull Demon mask, Li Che's eyes condensed with towering murderous intent; Corpse God Cult... no matter their schemes, no matter their plans, in Li Che's heart, they're targets to kill!

Even though the Corpse God Cult's evil people currently hidden around Divine Carving Ridge show no action.

Yet, Li Che understands well, Corpse God Cult and the Underworld are mortal enemies, and with him, Li Che's family, they might be eternally locked in battle.

Xi Xi has now become Lv Taibai's direct disciple, of noble status, those targeting her, and threats have long been significantly fewer than before.

Chapter 955: Emperor Xi Xi Masters the Wind Fire Golden Wheel, Heaven and Earth Chessboard Searches for Corpse God Realm (4)

Because there is no need...

Moreover, the explosive power of the Great Avalanche and Black and White Collapse would instead dissipate the impact force of the electromagnetic cannonball.

The destructive power of the electromagnetic gun relies not on explosions, but on the terrifying kinetic impact of the bullets!

Previously, Li Che couldn't solve the problem of thunder force explosion.

Now, it's possible to use the thunder burst from the Little Divine Sky Thunder Talisman to propel the bullet.

It can unleash a terrifying impact at ten times the speed of sound!

"Almost there..."

Li Che's emotions couldn't help but surge, yet the super electromagnetic cannon had one more flaw, which was the precision issue of firing.

But for Li Che, who possesses the Heaven and Earth chessboard, this issue is no issue at all!

"Additionally, only the material issue remains. The Xuanhuo Black Phoenix Thunder Wood is a lower fifth-order spiritual wood... Due to its thunder attribute, thunder bursts won't destroy it, but it has a carrying limit... We just don't know how many Small Divine Sky Five Thunders Shocking Killing Talismans it can withstand..."

These all require experimentation and research.

The spirit of research as an Immortal Artisan in Li Che was suddenly ignited.

In the Mysterious Temple, he began to restore his Lei-Ci Dao Body strength while simulating the experimentation and research of the electromagnetic cannon in his mind.

...

...

Qianyuan Dao City.

Daoist Master Mansion.

The night was deep and silent, but the lights were brightly lit.

The whole city was enveloped in silence, yet a dark shadow suddenly appeared, drifting in and entering Dao City.

Su Daoling, dressed in black night attire and wearing a hat, floated into the Daoist Master Mansion.

As soon as he landed, he saw a figure waiting early.

It was none other than the young Taoist Master Yue Weizheng, standing with his hands behind his back, his eyes deep and bathed in moonlight, looking at Su Daoling, a smile on his face, yet he seemed like a smiling man-eating tiger.

"Young Taoist Master... What is the reason for calling me here in the dead of night?"

Su Family's current Family Head Su Daoling clasped his hands in salute and asked.

"It's not me who invited you; someone else wants to invite you to join in a mission."

Upon hearing this, Su Daoling's eyes narrowed.

He looked into the distance.

He saw two distinguished figures.

With just a sense of their aura, his expression subtly changed.

One was wearing a Star Constellation Killer mask from the Hunting God Pavilion, while the other exuded divine majesty with a dragon horn on his head, possessing potent and fierce qi-blood.

"Dragon Son of the Dragon God's lineage!"

Su Daoling, with extraordinary insight, immediately recognized Ao Lie's identity.

Ao Lie slowly turned, his gaze falling on Su Daoling.

"There is a matter – are you interested in participating?"

Ao Lie said coldly.

Su Daoling took a deep breath; when did the Dragon God's lineage's Dragon Son silently arrive at Qianyuan Dao City?

Was it for revenge for the Dragon Queen Consort?

Then why seek out Su Daoling?

"May I ask, Dragon Prince... what matter requires my involvement?" Su Daoling asked with a salute.

Dragon Son Ao Lie looked at Su Daoling, as the mirror-like purple Divine Eyes faintly glowed.

"I suspect that this Li Che is the Horse Face of the Underworld..."

"He is skilled in Mechanical Techniques and possesses high-level Divine Sculpture skills."

"No! Li Che is definitely the Horse Face of the Underworld; it's basically an open secret... Regardless of whether he is or isn't, having this suspicion is enough."

Ao Lie said coldly.

"The Underworld killed my sister, killed my daughter... this hatred is irreconcilable!"

"However, I came to Qianyuan Dao City with another plan and cannot reveal my whereabouts... I heard that the Su Family also has deep grudges with the Underworld, so I wanted to invite the Su Family Master to join in the mission."

After the words fell.

The Star Constellation Assassin next to Ao Lie flicked his finger, and a Star Constellation Assassin mask from the Hunting God Pavilion shot toward Su Daoling.

Su Daoling caught it, his eyes narrowing.

And Ao Lie's voice coldly resonated.

"Together..."

"Assassinate the Divine Sculpture Half-Saint, Li Che!"

...

...

Engrossed in studying the Namo Immortal Artisan Super Electromagnetic Cannon, Li Che exhausted his Lei-Ci Dao Body completely.

When he returned to his courtyard in Thunder Alley, all the thunder in Li Che's body was completely depleted.

A sense of emptiness surged within him.

The night was oppressive, lead clouds rolling high in the sky, obscuring the shy moon plate, revealing faint moonlight.

In the small courtyard.

"Phew—"

"Inhale—"

Li Che's breath drew in and out like thunder rolling, his Lei-Ci Dao Body drained of thunder, taking advantage of the slow recovery process, Li Che began toughening his physique and cultivating the Divine Seed Martial Arts.

Swapping the Lotus Ink Robe sewn by his wife Zhang Ya, Li Che was naked, enveloped by the Heaven and Earth chessboard, isolating qi machinations.

Then, his physical body transformed, qi-blood rolling like a Jiao Long, his body swelling, towering like mountains, veins bulging, muscles layered!

A martial arts pill shot into his mouth, swallowed into the stomach, the strong gastric wall force crushed the pill coating, releasing its medicinal properties.

The surging medicinal power washed over Li Che's physical body like a flood breaking its banks!

Li Che suddenly stepped forward, spread his five fingers, and fiercely smacked them out, causing the air to ripple and vibrate as if unable to contain the force, spreading uncontrollably!

The intense qi-blood exploded, transforming into a mighty blood-colored crocodile, roaring up at the heavenly dome, as if it wanted to tear the sky apart!

Utterly domineering, wild, and violent!

Divine Seed Martial Art [Blood Crocodile Sky Splitting Palm]!

This past month, Li Che immersed his whole body and mind into the cultivation of this martial art.

Now, Li Che has already integrated three Divine Seeds into the Qi Gate, achieving three hundred and twenty-seven levels of Innate True Gang!

Incredibly domineering and mighty!

Yet Li Che is still unsatisfied, because he has not reached the limits of his body refining!

He wants to continue opening Qi Gates!

The blood crocodile roared upwards, instantly transforming into densely packed palm prints, as if the sky was shrouded by a blood light, fiercely clapping down, the air waves exploding instantly, spreading in all directions!

The air seemed to emit a cracking sound under unbearable pressure!

Li Che's eyes slightly narrowed, as if sensing something, a brilliance ignited in his eyes.

Continuing to practice martial arts, the Dragon Elephant Vajra Dao Fruit thumped, exploding like thunder!

A blood-colored crocodile accompanied Li Che's blood-stained palms, striking out continuously, countless palm prints flickering and transforming in an instant!

Boom!!!

Behind Li Che, the phantom of a roaring blood crocodile suddenly appeared, darting out fiercely as if cracking the sky open with a fissure.

Impossible to heal for a long time!

Li Che swallowed another martial arts pill, standing still, feeling the surging and transformation of qi-blood.

He stood in the center of the courtyard, his whole body like a branding iron, emitting steaming heat, every inch of flesh and blood impossibly red, with beads like glass rolling in the veins visible!

"Master realm..."

"The fourth Divine Seed!"

Li Che exhaled, closed his eyes, and guided his mind.

Without hesitation, he began to lead the fourth Divine Seed into the meridian node of the human Qi Gate!

The fourth Divine Seed...

Even Li Che, during the guiding process, finally felt the difficulty.

Fearsome pain, like a mountain torrent and sea surge, swept across his whole body!

Hard!

Extremely difficult!

Moving inch by inch, Li Che did not know how long it took to finally complete the induction of the fourth Divine Seed.

Boom!!!

Upon completion, Li Che suddenly opened his eyes, the entire courtyard filled with overwhelming qi-blood rolling and boiling, as if covered by a blood-colored ocean!

"Corpse God Cult..."

Opening his eyes, Li Che's qi-blood surged!

In the next moment, with a grasp of his five fingers, his whole person transformed into a blood line, disappearing instantly from where he stood.

Outside Divine Carving Ridge.

The night was silent.

Li Che appeared out of thin air, his body surging with wild qi-blood.

Beside him was Huang Jianjiu, carrying a sword box and holding a wine gourd, while in the distance, You Liqing and the Dragon Maiden, both at the Martial Saint level, were rushing over rapidly.

"Lord!"

The three Soul Capturing respectfully said.

Li Che nodded slightly, feeling the spirit growing stronger and boiling from the Divine Seed's guidance at this moment!

Li Che looked up, his black hair wildly tossed, spreading his arms.

Within the explosive muscles, terrifying power surged like rolling thunder, the veins bulging like a Jiao Long's furious roar!

However, in just an instant, these forces and auras all vanished without a trace.

Dragon Elephant Vajra Dao Fruit, Slumbering Dragon Elephant!

Absolute Breath Concealment!

Completely gathering his aura, Li Che raised his hand and pointed at his forehead, to avoid alerting the snakes.

"Let me see, where these Corpse God Cult insects...are hiding?"

Reaching level 5 of the Chess Saint Heaven and Earth chessboard.

Immediately, at Li Che's feet, as the center position, it expanded outward in a spiral!

Silently and covers everything!

Expanding, expanding, expanding further...

Sweeping over mountains, over rivers, over dense forests...

All of creation seemed to be reflected and made manifest in the chessboard's woven coordinates!

Li Che stood within the fully expanded Heaven and Earth chessboard.

Suddenly, Li Che raised his head, his rugged black hair wildly flying, his pupils turned pure black, even the whites of his eyes became pure black!

"Tong You!!!"

Boom

Suddenly, within the Heaven and Earth chessboard, the heavens and earth changed colors!

An endlessly swirling vortex of death energy appeared within the chessboard.

Li Che's eyes turned extremely dark, exhaling softly...

"Found them..."

Chapter 957: Emperor Xi Xi Falls into the Demon Cave, Flying Thunder Chess Saint Gains 1 Corpse God Realm

But, the Corpse God Cult is certainly not among them. For the Corpse God Cult, Xi Xi being Li Che's direct disciple might even become a kill target...

The ambition of the Corpse God Cult is vast. It has begun to infiltrate Lingnan Circuit. In the future, it will inevitably clash with the Qian Yuan Divine Sect, and Xi Xi's identity is destined to become a target of the Corpse God Cult.

Therefore, as Xi Xi's father, Li Che must do his best to protect Xi Xi from being targeted and schemed against by the Corpse God Cult.

Only...

Helping his daughter make the first move to snuff out the crisis in its cradle!

Boom!!!

The five fingers suddenly loosened, and the Divine Phoenix Life and Death Arrow, cultivated by Li Che to a level of major accomplishment, at this moment seemed to transform into an extremely brilliant meteor, driving an extraordinarily fierce and dazzling tail flame!

The firelight shot up to the sky, the rapidly spinning arrowhead full of piercing power, as if tearing the air wide open!

An ember fire phoenix bloomed in the night sky!

Spreading its wings with a resounding call, its momentum grand!

The speed seemed slow, but in a flash, it spanned hundreds of feet!

You Liqing's eyes couldn't help but narrow. He was familiar with the Green Bird's ultimate archery skill, this secret kill shot was the Divine Archer Green Bird's most skillful ultimate killer arrow.

The power is extremely terrifying, known as a Divine Seed Martial Art.

But how long has Lord had this Divine Seed Martial Art, and he can already unleash such terrifying archery power!

Lord's talent in cultivation is truly astounding!

Dying at the hands of such a Lord, You Liqing felt no surprise at all.

Rumble

The arrow's brilliance speedily shot out, piercing through a void.

At the moment of impact against the void, the arrowhead began to shatter, and the divine primordial chess amount of the great avalanche contained within began to erupt, with each divine primordial chess violently colliding and rubbing, producing an intense reaction!

Releasing boundless light and heat, and immense energy!

"Boom!!!"

The explosion occurred immediately!

A ring of invisible shockwaves and gaseous waves blasted open in mid-air!

Such a grand momentum, Li Che had no intention of restraining, he wanted this grandeur, like a Vast Sun Golden Crow rising into the sky, breaking the tranquility of the night!

"Bloom, fireworks!"

...

...

Divine Carving Ridge.

In the ancient city at the foot of the mountain.

A stretch of Divine Carving Ridge architecture, many divine carvers were rushing overnight to complete the divine wood carvings.

Because Li Che, the youngest elder in the history of Divine Sculpture Ridge, had been promoted to a Divine Sculpture Half-Saint, the divine wood carving orders at Qian Yuan Divine Sect Divine Sculpture Ridge increased severalfold during this time.

Most importantly, the orders seeking a divine sculpture by the Divine Sculpture Half-Saint were what excited Gongshu Jingjun the most.

Each candle illuminated the dim study.

Gongshu Jingjun was meticulously sorting through order messages from several other Dao Cities near the Lingnan Circuit for Li Che.

The orders arriving from Dao Cities were certainly not ordinary, their purpose simple, to request a divine sculpture from Li Che, the Divine Sculpture Half-Saint.

Most of those issuing such orders were Divine Fetus Practitioners, needing to observe divine sculptures to capture the Dao Yun, accelerating the transformation of their divine fetuses.

Therefore, they were extremely willing to offer resources.

Suddenly.

Gongshu Jingjun sharply looked towards the heavenly dome outside Divine Sculpture Ridge, in the dim night, a bright flame-like divine phoenix spread its wings high in the sky, spanning the night sky.

Such momentum, extremely grand!

It exploded boldly, enveloped by magnificent innate true gang, the martial dao will integrally fused within, as if with one arrow to pierce through the towering mountains, causing collapse, taking one's breath away!

This arrow...

Exquisitely marvelous!

But, one arrow burst, the divine phoenix soared into the sky, directly grinding into a point in the sky.

In the next moment, the space seemingly pierced open into a vast hole, faintly, a grand vortex appeared.

An extremely dense death qi and corpse qi surged out from the vortex!

The void around the vortex seemed to continuously shatter and fragment!

Covering the sky, eroding everything!

However, this black vortex was but a flash.

And then, tumbling and grand, a rampant gale exploded a wave throughout the entire Divine Sculpture Ridge area!

And a mushroom cloud, supremely brilliant, erupted with dazzling light and heat, slowly rising and expanding!

"This explosion... this mushroom cloud... Underworld!"

Gongshu Jingjun's eyes narrowed.

But thinking about that terrifying death qi vortex, his face suddenly changed.

His entire person had disappeared, and on the other side, Tang Xiejia also shot out from the architecture like a cannonball, hovering in mid-air.

"Corpse God Cult!"

Such dense death qi and corpse qi!

And the space behind that rippling vortex...

Is this Small Cave Heaven?!

The Corpse God Cult unexpectedly set up a Small Cave Heaven unnoticed around Divine Sculpture Ridge!

Detected by the Underworld...

And launched an attack towards the Corpse God Cult's Small Cave Heaven! <subtxt> </subtxt>

The two top powerhouses of Divine Sculpture Ridge exchanged glances, the horrified intention in their eyes lingering for a long time.

"What is this? A method of the Corpse God Cult? It's somewhat similar to the Grandmaster of Qian Yuan Divine Sect opening a Small Cave Heaven with Qiankun Dao Yun!"

"Underworld... actually discovered earlier than us?! How did the Underworld discover it, the Corpse God Cult's stronghold, hidden within the void, we can't perceive it at all!"

"But the Underworld could detect and precisely launch an attack!"

"Such grand momentum, the Underworld's purpose is likely to make the entire city aware, just to expose the hidden forces of the Corpse God Cult!"

Chapter 958: Emperor Xi Xi Falls into the Demon Cave, Flying Thunder Chess Saint Gains 1 Corpse God Realm

Gongshu Jingjun said in a deep voice, and immediately analyzed the purpose of the underworld from the mushroom cloud, which bloomed between heaven and earth like a blazing sun illuminating the night.

Tang Xiejia's black hair flew as the blood and flesh on his robust body slightly trembled.

No more words were exchanged; the two, though surprised and bewildered, moved without hesitation toward the direction where the mushroom cloud bloomed, against the shockwave and the fierce wind!

...

...

The mushroom cloud blooming in the night was indeed too conspicuous!

And with Li Che not using the Heaven and Earth chessboard to conceal it, its brilliant glow almost turned the night into daytime, with extreme light and heat rushing into the sky, seemingly dispersing the dark clouds.

Qianyuan Taoist City.

Most cultivators observed the dazzling mushroom cloud tearing through the night!

Rising up to a hundred feet high, the rolling smoke mixed with light and heat, bursting forth with an eye-catching glare!

In the Daoist Master Mansion, Temple Control Bureau, Qintian Observatory, and the noble mansions, powerful entities released their formidable perception.

Martial Saints and Divine Fetus Practitioners' expressions changed slightly as their minds seemed to leap into the sky, gazing at the mushroom cloud.

"Is that... in the direction of Divine Carving Ridge?!"

"This mushroom cloud seems to be the handiwork of the underworld, doesn't it? Earthly Hell's Evil made a move again? Who are they going to kill this time?"

"Divine Carving Ridge... Could the underworld be trying to interfere with the matter of the Two-Minded Great Saint Mysterious Temple there, aiming to seize that Heart-following Gold Iron Divine Rod?!"

"Doesn't seem like it; the underworld is clearly out to kill. Once this mushroom cloud appears, they're going all out!"

...

The cultivators in Qianyuan Taoist City were no longer unfamiliar with the underworld and were aware of their various methods.

The explosion of the mushroom cloud was already the underworld's top killing technique.

Even from dozens of miles away, one could feel the terrifying shockwaves and annihilation energy contained within the explosion!

The underworld's mushroom cloud seemed stronger than before!

This power, even a Great True Man with Fetal Breath Transformation might be severely injured and dying if caught in it, let alone a Divine Fetus Practitioner undergoing One God Transformation, who might not dare to take one head-on!

Whoosh, whoosh, whoosh—

The sound of breaking the sky exploded; within Qianyuan Taoist City, powerful entities twisted their bodies, exploding into motion, rushing towards Divine Carving Ridge.

For Martial Saints and cultivators of Divine Embryo Realm, a distance of dozens of miles wasn't too far; they could arrive quickly at full speed.

In Liuxiang Lane.

Li Qingshan's eyes reflected the mushroom cloud that had exploded, lingering in the night sky as he chuckled, slowly putting on his cat face mask, his body moving up and down as he leaped out of the courtyard.

Qian Yuan Divine Sect.

Taibai Peak.

Upon Daping.

Lv Taibai was instructing Xi Xi, wielding the Prison Lotus Yang Divine Sword and stepping on the Wind Fire Golden Wheel, frenziedly dancing in mid-air.

Lv Taibai was very satisfied with Xi Xi, his direct disciple.

Not only because Xi Xi was young and highly moldable, but mainly because of Xi Xi's talent and disposition.

A good disposition was most important for Lv Taibai.

Primarily because Xi Xi's family education was excellent, as Li Che and Zhang Ya were very good parents.

As for the mythical weapons integrated into Xi Xi's body, for Lv Taibai, they were the icing on the cake.

"Purple Flame Serpentine Fire Tip Spear... and that [God-beating Gold Brick], no wonder the physical body strength of my disciple improved so rapidly, fusion soldier body refining, the power of divine weapons tempered and nurtured the physique, naturally accelerating the enhancement."

"However, obtaining so many divine weapons isn't easy either, this little girl has an extremely high compatibility with the Third Prince Temple God."

"I hope... it's a blessing and not a curse."

Lv Taibai watched Xi Xi, excitedly skimming through the air on the Wind Fire Golden Wheel, his eyes gleaming with sharp sword light.

"Wow!!!"

"It's fireworks!"

"It's Master Niu Niu lighting fireworks!"

Xi Xi suddenly paused, the two golden wheels beneath her feet spinning rapidly, lifting her form, as she looked at the mushroom cloud fireworks blooming in the distance with glee, clapping continuously in amazement.

Lv Taibai also saw it, his silver hair fluttering and eyebrows slightly furrowed.

Powerful Heaven and Earth Soul instantly rolled out.

Soon, he felt a surge of dense death qi and corpse qi from the mushroom cloud dozens of miles away!

"Courting death."

Lv Taibai immediately understood the reason for the underworld's firework explosion.

Sword light swirled, enveloping Xi Xi's form as he skimmed down from Taibai Peak Mountain straight into the Elder Court.

Great Elder Fang Hanshu was flipping through Confucian classic books when he noticed Lv Taibai appearing with Xi Xi.

"Han Shu, watch over Xi Xi's safety for me," Lv Taibai said.

"I've sensed the presence of the Corpse God Realm, I'll go take a look..."

Corpse God Realm?!

Fang Hanshu's eyes narrowed, immediately rolling up the books, nodding solemnly: "Sect Master go ahead, the Young Sect Master is safe with me, unless I die, no one will be able to harm the Young Sect Master."

Lv Taibai trusted Fang Hanshu more than anyone in Qian Yuan Divine Sect.

Even more worthy of trust than his own wife.

After receiving Fang Hanshu's assurance, Lv Taibai smiled warmly, sword light swirling, and then shot into the sky, swiftly skimming away, crossing the mountain rivers of dozens of miles almost in a thought.

Xi Xi watched with envy: "Xi Xi also wants to see the fireworks..."

Sadly, she knew, it would probably be difficult.

Lv Taibai was worried that the Corpse God Cult might pull a diversion tactic, aiming directly for Xi Xi, so he sent Xi Xi to Great Elder Fang Hanshu.

Fang Hanshu waved his hand toward Xi Xi.

Chapter 959: Emperor Xi Xi Falls into the Demon Cave, Flying Thunder Chess Saint Gains 1 Corpse God Realm

"Young Sect Master, come, just in time... I'll teach you to read."

"Enjoy the fireworks while reading the Holy Sage Book, it's pleasant."

Xi Xi hopelessly covered her little head.

Emperor Xi Xi has fallen into the Demon Cave!

Daddy save me!

...

...

Boom!!!

The terrifying and scorching explosion ravaged and intertwined, rolling high temperatures, the shock wave erupted forming extremely dreadful winds and waves, violently sweeping across!

A gigantic mushroom cloud sprawled between heaven and earth.

Li Che wore the Bull Demon Mask, his black robe flapping like a stout figure as if Tower Mountain, his muscles bulging, golden smoke slowly diffusing from his eyes.

In the distant.

In the center of the explosion, under the twisting high heat, even space was turbulent.

A constantly spiraling black vortex unleashed icy death qi and corpse qi, akin to the cold air drawn from the eternal snow-capped mountain.

The black vortex could no longer hide, as if cracks floating around appeared, behind the cracks, amidst the pervasive death qi, one figure after another sitting cross-legged, suddenly opened their eyes.

"Who did this?!"

A voice, deep to the extreme, exploded out.

Corpse God Realm...

It was exposed, forced into appearance by someone using such a method!

"Underworld!!!"

In the death vortex, within the Corpse God Realm, pairs of crimson eyes opened, seeing Li Che floating in mid-air, standing on the cerulean Bone Armor Divine Dragon.

Also saw the unkempt Yellow Sword Wine, You Liqing in golden armor.

Exposed!

The powerful figures hidden within the Corpse God Cult turned pale with fright!

Buzz

Space twisted for a moment, then an extremely terrifying presence stepped out from the small Cave Heaven overflowing with death qi and corpse qi beyond the vortex!

"Seeking death!"

Boom!!!

Instantly, the entire world became utterly silent.

Li Che's eyes under the Bull Demon Mask shrank sharply, his body wrapped in qi-blood burst trembled slightly, the hairs stood on end.

The sound alone... was terrifying to such an extent?!

Just one rebuke had wiped out the explosive sound of fireworks bursting, the collapsing air explosion, the diffuse noise of turbulent shock waves, all vanished without a trace!

A forceful will so strong it rendered people unable to move a single finger descended upon the world!

Like a mountain, crashing down, oppressing Li Che's heart!

As strong as Yellow Sword Wine and You Liqing, who had broken through to the Martial Saint Realm, felt their inner energy operations incredibly difficult.

And the figure that stepped across from the small Cave Heaven, the imposing aura and terrifying will was directly pressing towards the Bull Demon.

Within Li Che's Inner Scene of the Energy Center, the Ape God slumbering inside the Golden Core seemed to roar, shaking open invisible divinity waves, assisting Li Che in dispersing that will oppression!

The Dragon Maiden beneath Li Che, transformed into the Bone Armor Divine Dragon, was even momentarily dazed, almost unable to control her form, about to plummet thousands of feet!

So terrifying!

This will...

This aura...

Li Che's pupils regained clear awareness, his whole being incredibly solemn, this kind of existence... definitely not something he could contend with at the moment!

Strong... too strong...

Li Che's forehead burned intensely, the Dao Fruits in his chest shook violently, the surrounding crisis almost took physical form, like waves, impacting his emotions.

He hadn't felt such a strong sense of oppression and crisis for a long time!

"Two Flower Demigod Corpse? No! Far beyond that!"

"This Demigod Corpse is definitely not the Two Flower Demigod Corpse battling Yellow Sword Wine!"

"Four Imperial Lower Rank Corpse God Envoy?!"

"Seems like... something extraordinary has been forced out!"

Despite being struck by intense crisis, Li Che's heart was incredibly clear and lucid at this moment.

Five fingers clenched, Flying Thunder Move!

But in the instant Li Che's thought moved, a Thunder Chess Piece was grasped in his palm.

Yet, the terrifying presence that stepped out from the death vortex, its crimson eyes swept across, the fair and jade-like hand emitted a ferocious black pattern, spreading out, seemingly smacking space, causing intense oscillation and trembling!

Space was sealed!

This was intended to limit Li Che's escape!

However, the instant Li Che sensed it, he moved his mind and entered Tong You, as if the world rotated and shifted.

In Tong You's world, Li Che sped through swiftly, quickly pulling away, achieving a distant escape.

Boom!

And in the instant Li Che fled into the Netherworld.

The position Li Che originally occupied was engulfed directly by terrifying death qi and corpse qi, transforming into an enormous hand, crushing the void, exploding air currents.

Yellow Sword Wine, You Liqing and the Dragon Maiden, three equivalents to Martial Saint First Level realm Soul Capturing, were utterly unable to resist, exploding into three black fogs, vanishing without a trace.

"Disappeared?!"

"How is it possible to escape?!"

"I clearly... had already sealed and confined the space!"

"Damn Underworld... how did they find the Corpse God Realm's position anchor?!"

"Damn it!"

This extremely powerful expert of the Corpse God Cult was enraged, roaring repeatedly.

Behind, the Corpse God Realm's entrance exposed by the explosion of the Avalanche Lotus Bullet, death qi and corpse qi instantly poured outward vigorously.

In the Corpse God Realm, floating and hidden, the evil people of the Corpse God Cult absorbing death qi and corpse qi for cultivation awoke one by one, astonished beyond measure.

"Quickly exit, I'm going to reclaim the Corpse God Realm and shift its position!"

The deep voice spoke from the mouth of the expert who first forced Li Che to flee.

The Corpse God Realm, such a small Cave Heaven, during teleportation, will cause extreme imbalance inside, causing constant turmoil, so it is necessary to expel everyone from the Corpse God Realm to relocate.

Chapter 960: Emperor Xi Xi Falls into the Demon Cave, Flying Thunder Chess Saint Gains a Corpse God Realm (5)

Beneath the mask of this Four Imperial Corpse God Envoy, the color of anger and shame churned incessantly.

He still couldn't understand why the Corpse God Realm was exposed.

The Corpse God Cult had already been discreet enough upon reaching Qianyuan Dao City.

Yet, the adversary somehow managed to trace and uncover the layout of the Corpse God Cult in Divine Carving Ridge and the hidden location of the Corpse God Realm!

Inside the Corpse God Realm.

Two Two Flower Demigod Corpses quickly darted out, followed by three One Flower Demigod Corpses; this was the entire setup of the Corpse God Cult in Qianyuan Dao City.

After reclaiming the Corpse God Realm.

"Go!"

No time to search for the vanished trace of the Bull Demon.

The eyes beneath the mask of this Four Imperial Corpse God Envoy were intensely scarlet and cold, as he shouted angrily.

Subsequently, the Demigod Corpses behind him exploded towards all directions, transforming into black streaks of light, darting swiftly away!

Two Two Flower Demigod Corpses, three One Flower Demigod Corpses!

And many Curse Jade Corpses, Cursed Golden Corpses,

This lineup was indeed formidable, showing that the Corpse God Cult also valued this highly!

"Corpse God Cult..."

"Did they really send a Quasi Corpse God here?"

Between heaven and earth.

A faint voice suddenly arose, devoid of emotion, extremely cold.

"Ji Moli in Jizhou seems unaware attempting something... letting the Corpse God Cult have the spare power to dispatch a Quasi Corpse God to my Qian Yuan Divine Sect?"

"Or perhaps... Ji Moli colluded with the Corpse God Cult, intentionally letting you out?"

The merciless voice suddenly halted all the mushroom clouds rolling and exploding, as if freezing them in place.

The Four Imperial Corpse God Envoy's hair stood on end, and his skin like jade instantly expanded with death qi patterns, as a terrifying shadow distortedly appeared behind him, an overwhelming Corpse God Will sweeping in like a mountain crashing down!

Buzz—

But a sword light fell instantly!

Like a divine thunder descending from the nine heavens, slicing through the dark night, moving at an unimaginable speed.

One slash cut down, Yin Yang separates twilight!

The sound of wind and thunder erupted suddenly, shaking heaven and earth, resonating across the eight corners!

The Four Imperial Corpse God Envoy roared furiously, soaring skyward, ascending upwards, transforming into a black lightning, piercing through the Cloud Dome, attempting escape from high altitude, leveraging his robust physical body against the powerful Heaven and Earth's Power impact, to shake off Lv Taibai's pursuit!

Countless strong people arrived, eyes fixed.

Only seeing silver hair flying, Lv Taibai in white clothes pure as snow, one hand behind him, stepping through the air, like a carefree Sword Immortal approaching, the leaden clouds behind torn open, moonlight pouring down.

Grasping a splendid silver sword artifact, a flick causes the sword to sing through the nine heavens!

A sword qi majestic and vast rose erupting from the earth, surging into the Heavenly Dome.

Slashing through the airflow, moonlight, night, the Cloud Dome, and everything standing before the sword light!

In just a moment.

The Four Imperial Corpse God Envoy merging into the Cloud Dome let out a muffled sound, already heavily injured by the sword qi!

As Lv Taibai stomped down, countless clinking sword qi emanated from beneath his foot, like stepping on a somersault, instantly splitting the Heavenly Dome, killing into the Cloud Dome.

Bang—!!!

Roaring sword light, dazzling to the extreme, numerous Cloud Domes exploded completely, countless streaks of light converged raging in the night sky, forming a hundreds-zhang grand sword qi, akin to a sword qi Tianhe crashing down!

Then...

There was the Quasi Corpse God of the Corpse God Cult, bleeding in the void, amidst the powerful Quasi Corpse God physical body, countless sword lights pierced through.

Exploding into countless corpse chunks!

Just one sword.

...

...

Lv Taibai's intervention shocked everyone, this Great God List fifth-ranked Divine Fetus Great God revealing a terrifying unstoppable posture and immensely powerful capability for the first time!

With the sword, Yin Yang separates, splits the twilight!

Just one sword light, such terrifying power!

A Quasi Corpse God, high-ranking within the Corpse God Cult, was thus slain!

The gap, too large!

Not even in the same league!

Lv Taibai, being both on the Great God List and with the Heavenly Gate, without flaws, at the absolute peak, really terrifying!

There might not be many strong ones in the Divine Sect, but with just him, he supports the Divine Sect's foundation!

However, what surprised more was the Corpse God Cult's arrangement of so many experts outside Divine Carving Ridge of Qian Yuan Divine Sect!

Secretly placing so many strong individuals...

If there wasn't someone aiding, it would be impossible to do this quietly!

Many people felt trepidation.

There was a Four Imperial Corpse God Envoy, a Quasi Corpse God-level existence!

Although not matching Lv Taibai's level on the Great God List, yet comparable to a Four-Open Martial Saint level existence!

Such existence would generally have a strong individual tracking them, impossible to infiltrate a Divine Sect's heartland quietly.

Many dared not think deeply.

Thinking too deeply chills the heart.

In Qianyuan Dao City.

The Temple Control Bureau, Divine Guard Army, and Divine Sect strong individuals darted shattering through the sky, to encircle and damn the Corpse God Cult evil people.

Together with Gongshu Jingjun and Tang Xiejia.

The Corpse God Cult's strong individuals had no intent of fighting, each grasping a Corpse God Pearl, constraining death qi and Corpse Qi, plunged into Divine Carving Ridge's dense woods to begin fleeing.

...

...

Li Che, wearing a Bull Demon Mask, retreated from the Netherworld.

Gripping a Flying Thunder Chess Piece in his five fingers, he vanished, arriving at the Two-Minded Great Sage's Mysterious Temple.

Slowly exhaling a breath.

"Quasi Corpse God? Comparable to a Four-Open Martial Saint capable of opening the Heavenly Gate of a Martial Artist? Truly... frighteningly powerful, but Taibai Sect Master... even more terrifying!"

"While both are Heavenly Gate opening Martial Saints, there's still a distinction; those listed in Heavenly Gate are definitely a higher level."

Just one sword to slay a Four Imperial Corpse God Envoy that made Li Che's hair stand on end, feeling no confidence to counter.

Only frightening describes it.

Xi Xi having such a master for protection, indeed reassures Li Che much, yet he couldn't help but feel pressure.

Through the Heaven and Earth chessboard, observing the situation outside.

Sensing those grasping Corpse God Pearls, plunging into dense woods, beginning to flee Corpse God Cult evil people.

Li Che sat cross-legged within the Two-Minded Great Sage's Mysterious Temple, coldness in his eyes.

The Corpse God Pearl could indeed perfectly hide death qi and corpse qi, but couldn't escape the lock of the Heaven and Earth chessboard!

Don't even think of escaping!

However, just as Li Che prepared to sense those fleeing Corpse God Cult evil people.

Li Che's eyes suddenly narrowed slightly.

The next moment, as if pinching a Flying Thunder Chess Piece, a snap sounded, placing it on the Heaven and Earth chessboard.

He teleported freely to the placement of the Heaven and Earth chessboard.

Simultaneously triggering the Slumbering Dragon Elephant, completely disappearing from the world.

Looking up...

The scattered corpse remains of the Corpse God Cult Quasi Corpse God slain by Lv Taibai's sword, akin to torrential rain, pattering down.

Li Che's spirit swept past, regretfully finding no Qiankun Jade...

Yet...

His keen eyes noticed amidst the white jade blood chunks falling rhythmically, a transparent pearl resembling a whirl of death qi swirling inside, fist-sized.

The Corpse God Realm...

Seems to be hidden inside this pearl.
