

# Ancient God

## Chapter 5661 Devouring the Palace

At this time, Hongdie gave Yefeng a great reward in order to win Yefeng over to her side and help her.

Yefeng said in surprise: "Director Hongdie, I have seen you take action before. You are very powerful, much stronger than me. Why do you need me as a burden?"

Hearing what Yefeng said, Hongdie suddenly smiled on her beautiful face and said: "Your cultivation is indeed a little worse, but I know that your real combat power is definitely not weak, and you have the ability to freely shuttle through the formation. This ability is very useful for me to explore the nest of the abyss next, because according to the places where treasures may be hidden as indicated on the map, they are basically protected by the formation set up by the great formation master of the ancient abyss giant clan. So you are of great use to me now, and you and my good friend Murong Qingqing are senior brothers and sisters, so I naturally have to take special care of you."

Hearing Hongdie's words, Yefeng knew that the other party was a very calculating woman.

However, this is indeed good for him. Ye Feng did not say much, but nodded and followed Hongdie to continue to move forward quickly in the deep area under the abyss.

At this moment, Hongdie looked at the map in her hand and said: "Let's go to the first place indicated on the map where wealth may be hidden, which is a few kilometers away."

Swish!

After Hongdie finished speaking, she took Ye Feng and flew quickly in a certain direction.

When they came to the first place marked on the map where wealth may be hidden, they saw a collapsed palace here.

This palace has been empty for a long time.

"Huh?"

Seeing this scene, Hongdie's face became a little ugly, and she said: "It seems that someone has explored this place before, and plundered this first place where wealth may be hidden."

Ye Feng said at this time: "Since we are here, let's go in and take a look. Maybe there are some places that are missed."

Hongdie nodded, and walked directly into the collapsed palace with Ye Feng.

At this moment, Hongdie said, "This palace should have been preserved intact until now, but someone came here before and wanted to get the wealth in it, so he used a strong external force to collapse the palace and completely shattered it."

Buzz!

At this moment, Ye Feng released his soul power and covered the surroundings.

Hongdie looked around and found that there was no wealth. She said angrily, "Damn it!"

At this time, Ye Feng's eyes lit up.

Because Ye Feng sensed that the entire palace was made of an ancient ore that contained energy.

In other words, although there were no treasures or wealth in the entire palace, the palace itself was a good thing for Ye Feng.

Swish!

At this moment, Ye Feng directly stretched out his hand and touched the wall of the palace in front of him, and then directly released the swallowing field and began to swallow the ore energy contained in the stone in the building materials of the palace.

"Boom boom!"

At this moment, Ye Feng immediately felt a huge amount of energy, which was immediately injected into his Dantian, rapidly strengthening his power.

You know, this palace was built by the ancient abyss giants. The ore materials used to build this palace must be very precious.

At this moment, Ye Feng immediately absorbed enough energy, which directly made his power grow rapidly.

Ye Feng's cultivation aura also began to rise step by step.

Before, Ye Feng's cultivation was in the second level of Tiandan Realm, but at this time, Ye Feng's cultivation began to break through small levels rapidly.

After all, the ore materials used in this entire palace are still very large. Ye Feng swallowed them all, and naturally he could obtain extremely rich energy.

Boom!

The third level of Tiandan Realm!

Boom!

The fourth level of Tiandan Realm!

Boom!

The fifth level of Tiandan Realm! !

At this moment, Ye Feng's cultivation broke through three small levels at once and entered the fifth level of Tiandan Realm.

At this moment, Ye Feng immediately felt that his skills had been strengthened unprecedentedly, and his cultivation aura had also been rapidly broken through.

At this time, Ye Feng could feel that his combat power had also been greatly enhanced.

At this moment, Ye Feng broke through three small levels in succession and entered the fifth level of Tiandan Realm. He released the aura of breakthrough three times in succession, which made Hongdie standing beside him suddenly show a deep look of astonishment.

The next moment, Hongdie saw Ye Feng's palm touching the wall of the palace, and immediately understood something, and couldn't help but said in admiration: "Ye Feng, although this is not the first time I have seen you. I have used this ability to directly absorb external energy, but I still feel very amazing. This ability is really amazing. It's unbelievable. In my long career, I have seen countless so-called geniuses and superpowers, but none of them are as evil as you. Your ability is simply rare and unbelievable. , it feels incredible, even scary, to think about it."

At this time, when he heard Hongdie next to him say this, Ye Feng smiled slightly and said, "Let's just leave here."

Hongdie nodded and followed Ye Feng out of the palace.

And the moment they walked out of the palace, the rest of the palace completely collapsed.

Because the energy of the ore had been swallowed up by Ye Feng, it was already extremely fragile. Naturally, it turned into fly ash and completely collapsed into ruins.

Hongdie looked at the map in his hand and said aloud: "Let's go to the second location that may contain wealth."

Ye Feng was a little curious and couldn't help but ask: "Where did you buy this map? If someone drew this map in advance, why didn't he look for these treasures himself?"

When Hongdie heard what Ye Feng said, she smiled mysteriously and said, "I didn't buy this map. It's a map passed down from generation to generation in our family."

Ye Feng's eyes were stunned and he said, "Are you a descendant of the ancient abyss giant clan?"

Hongdie immediately couldn't help but roll her eyes at Ye Feng and said loudly: "How can I be so slender and beautiful and belong to the ancient abyss giant clan? What I mean is that the ancestors of our family participated in the lair of the ancient abyss giant clan. The ancestors of our clan were the construction workers of this old nest place. Our ancestors left this map specially to benefit the descendants of our clan. "

Hearing what Hongdie said, Ye Feng's eyes suddenly showed a look of surprise. No wonder Hongdie had such a detailed map, and was so confident this time that he brought so many experts here, hoping to get the ancient The treasure of the abyss giant clan.

But it's a pity that an ancient magic dragon was accidentally unblocked, causing all the masters to get separated. Now only Ye Feng and Hongdie are left to 'depend on each other'.

## Chapter 5662: Please help me

At this time, Ye Feng and Hongdie quickly flew towards the second place on the map that might contain wealth.

At this moment, while walking on the road, Ye Feng released his soul power and covered the surroundings to prevent dangers that might come at any time and react quickly.

Hongdie knew that Ye Feng's sensing power was terrifying, so she kept following Ye Feng.

At this time, Hongdie looked at the map in his hand and suddenly said: "We have reached the second place that may contain wealth."

Ye Feng looked around, and suddenly there was a look of surprise in his eyes, and he said loudly: "Are you mistaken? There is nothing here at all, it is completely empty space."

At this moment, Hongdie pointed to a certain place marked on the map and said loudly: "See for yourself, this is where the map says it is."

Ye Feng took a look at the map, and it was indeed here.

Then Ye Feng said aloud: "Let me feel it carefully."

Buzz!

At this time, Ye Feng strengthened his soul power perception, covering the surroundings deeply.

Suddenly, Ye Feng sensed special fluctuations under the ground.

Ye Feng immediately said: "There seems to be special energy fluctuations under the ground in the area where we are."

When Hongdie heard what Ye Feng said, she naturally didn't hesitate at all. She took out a fiery red long knife from her storage ring and immediately slashed at the ground in front of her.

Boom!

As Hongdie slashed with this knife, a large red blade suddenly burst out from the long crimson knife in her hand. It had extremely terrifying destructive and cutting power, and it suddenly destroyed the two people standing on it. A huge crack was cut directly into the ground.

The next moment, Ye Feng suddenly saw that the entire ground was shattered, and an underground warehouse made entirely of steel appeared.

The entire underground warehouse is made of steel and is buried under the ground like an iron house.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of astonishment.

At this moment, Hongdie couldn't help but said in surprise: "It seems that this place has not been discovered yet."

At this moment, Hongdie jumped directly into the ruins below the ground, and Ye Feng also jumped down and came to the door of the steel warehouse.

At this moment, Hongdie didn't hesitate at all. He immediately held the red long knife in his hand and slashed towards the door of the steel warehouse.

Click! Click!

The next moment, the steel door of the steel warehouse was directly chopped into pieces by the red long knife in Hongdie's hand.

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise.

Because Ye Feng had just sensed that the material of this steel warehouse was very strong, and it was impossible to destroy it casually.

But the red long knife in Hongdie's hand was simply terrifying to the extreme. It seemed that this Hongdie was much more complicated than he thought.

Ye Feng knew very well that this Hongdie came here with a family mission. It seemed that their family had been planning for many years in order to obtain the wealth left by the entire ancient abyss giant family.

At this moment, Ye Feng was secretly thinking that Hongdie had already opened the door of the steel warehouse and was about to go in.

"boom!"

But suddenly at this moment, a very terrifying steel repeating crossbow arrow struck out from the steel warehouse and pierced the void in an instant. Even an expert like Hongdie had no time to react. It penetrated Hongdie's left shoulder and instantly pinned it to the ground.

"ah!"

At this time, even a strong woman like Hongdie, who had experienced strong winds and heavy rains, couldn't help but scream.

Uh-huh!

Ye Feng quickly flew over and came to Hongdie's side, trying to pull out the steel repeating crossbow arrow on her shoulder.

"don't want!"

But Hongdie immediately grabbed Ye Feng's hand and said in a rather painful voice: "Don't pull out this steel arrow. This kind of steel arrow was used by our ancestors in the past." As introduced in the training, it is a highly poisonous crossbow arrow that pierces into the human body. It will not cause fatal harm to people, but once it is pulled out, the steel repeater arrow will automatically disintegrate, and the toxins in it will instantly enter my blood, killing me instantly. This is a It's a very ancient toxin that I simply can't handle."

Hearing what Hongdie said, Ye Feng's eyes suddenly showed a look of astonishment, and he couldn't help but said: "Then what should I do now?"

Hongdie said loudly at this time: "Hel me up first."

Ye Feng nodded and helped Hongdie up.

For Ye Feng, now that Hongdie holds the map in his hands, whether he can get out of this abyss depends on Hongdie. Moreover, Hongdie is a good friend of his junior sister Murong Qingqing, so he can't just abandon him like this. She left alone.

At this time, Ye Feng helped Hongdie up. There was a poisonous crossbow arrow stuck in Hongdie's left shoulder.

Hongdie's willpower was still very firm at this time, and she didn't say a word, but followed Ye Feng and continued to walk into the steel warehouse.

This time there was no mechanism. After the two walked into the steel warehouse, they immediately saw that there was a lot of wealth in the entire steel warehouse.

There are huge armors and weapons created by the ancient abyss giants, such as steel giant swords that are as tall as several people, and majestic war giant puppets that are hundreds of meters tall. There are also many ancient abyss giants from the abyss. The special energy crystals mined from the depths are specially installed in the grooves of the War Giant Puppet, allowing the War Giant Puppet to have the ability to move and gain a source of power.

In addition, Ye Feng also saw a lot of things like iron pots placed on the ground. Each iron pot was filled with a whole pot of red liquid, exuding a spicy and stimulating aroma. The smell may be something highly poisonous.

At this time, Hongdie was very happy when she saw the scene in front of her. She resisted the pain of being pierced by the iron arrow on her left shoulder and said loudly: "I finally got part of the wealth left by the ancient abyss giant clan. With this arrow, I It's not in vain."

At this time, Ye Feng looked at Hongdie looking like a strong woman and couldn't help but shake his head and smile, and said in a dumb voice: "What you are thinking about now is how to deal with the poisonous arrow on your left shoulder. The danger of the arrow."

Hongdie shook his head and said aloud: "There is no solution to this problem for the time being. We can only wait until we return to the auction and find the alchemy master at our auction to see if he can refine an antidote pill specifically for me, which can cure And prevent the ancient poison in this poisonous arrow."

When Hongdie said this, she looked at Ye Feng beside her, with a hint of helplessness on her pale but beautiful face due to excessive blood loss, and said loudly: "Ye Feng, I Now that this iron arrow has penetrated the entire shoulder, I can't If I use my power too much, otherwise, I may be slowly invaded by poisonous poison, so I need more help from you, Ye Feng. Don't worry, I won't let you help me in vain. We found it. I will give you half of all the wealth."

At this moment, Hongdie could be said to be risking everything. In order to retain Ye Feng, he gave Ye Feng great benefits.

At this time, Ye Feng smiled and said: "Don't worry, you are a good friend of my junior sister Murong Qingqing. This time you gave me such a good opportunity to come to a place like this to find opportunities, and you also gave me such a good friend." If you pay more, even if you don't give me half of your wealth, I will try my best to help you."

Hearing what Ye Feng said at this moment, Hongdie was quite moved, and then said: "Don't worry, I will do what I say, and I will definitely give you half of my wealth."

At this time, Hongdie looked at the wealth in the steel warehouse in front of her and said aloud: "The things you need are generally resources that can directly improve your cultivation skills. You choose these resources first, and I will put away the other things. , brought back to the auction."

## Chapter 5663 Seven Locations

At this time, Ye Feng didn't hesitate at all and nodded immediately.

Because Ye Feng really needs these training resources that can directly improve his cultivation skills.

At this moment, Ye Feng looked at all the good things in the entire steel warehouse and started picking out the ones that could improve his skills.

First, Ye Feng picked a huge dark green inner elixir.

This inner elixir is the size of a human head, very large, and contains very powerful energy.

Ye Feng knew that this should be the inner elixir condensed by the strong men of the ancient abyss giant family. It was condensed from the essence of the skills of an ancient abyss giant. The energy contained in it was naturally very powerful and huge.

So at this time, Ye Feng first noticed this very precious giant inner elixir, which could definitely provide a huge amount of energy for his own skills.

Next, Ye Feng continued to select, and selected many things that could directly improve his skills, such as mineral vein crystals that contain rich energy. Most of these energy crystals should be used on giant puppets, but Ye Feng You can directly absorb and improve your own skills.

Next, Ye Feng found many huge pills refined by the ancient abyss giant clan.

These elixirs are different from those refined by ordinary people. They are all refined by the ancient abyss giant clan. They are very large, so the power contained in them is naturally more powerful. One elixir is estimated to have the power of ordinary human practitioners. The refined elixir is dozens of times larger.

Next, Ye Feng found many elixirs grown by the ancient abyss giant clan, which were all sealed here and well preserved.

After finding these things at this moment, Ye Feng immediately started to devour them.

Because there are only so many cultivation resources in this warehouse that can directly improve one's skills.

In fact, most of the items in this warehouse are war equipment, weapons, armors, etc. that were built by the ancient abyss giant clan.

After all, according to records in history books, the ancient abyss giant clan has been in a state of conquest and war all year round, so most of the things they left behind are related to war.

At this time, Ye Feng began to devour these cultivation resources, and immediately absorbed a very large amount of energy, which was injected into his Dantian, rapidly strengthening his cultivation skills.

At this time, Hongdie was helping Ye Feng protect the law, while enduring the pain of the iron arrow piercing her left shoulder, she put all the other things in the warehouse into her storage ring.

Hongdie was still very happy. In this second place that might contain wealth, she successfully found a small warehouse left by the ancient abyss giant clan and got a lot of good things.

If these things are brought back to the auction, they will definitely fetch extremely high prices.

At this moment, Ye Feng gained more and more energy as he devoured it. The change in Ye Feng's skill caused a qualitative change, and the aura of his cultivation also began to rapidly grow and improve.

boom!

The sixth level of Tiandan Realm!

boom!

Heavenly Dan Realm Seventh Heaven! !

At this time, Ye Feng's cultivation relied on these cultivation resources to directly break through two heavens in a row, from the fifth heaven of the Heavenly Pill Realm to the seventh heaven of the Heavenly Pill Realm. His skill and combat effectiveness were greatly enhanced.

At this time, Ye Feng looked not far away and found that Hongdie had put all the other things in the steel warehouse into his storage ring, and had finished collecting them all.

At this time, Hongdie immediately smiled and said: "Ye Feng, we can go to the third location."

Ye Feng nodded, and then asked curiously: "How many locations are marked on the map in your hand?"

Hongdie said aloud: "There are a total of seven locations marked. These are the guidance markings left by our ancestors, so these seven locations may contain the wealth left and stored by the ancient abyss giant family."

When Ye Feng heard what Hongdie said, he immediately sighed and said: "Your ancestors really had the foresight back then to mark all the places where these good things are buried. Otherwise, these Good things may be buried deep underground forever, unable to be used."

Hongdie nodded, then let Ye Feng support her, and the two of them flew quickly towards the third location.

For Ye Feng, cooperating with Hongdie now has huge benefits, so Ye Feng is naturally ready to ensure Hongdie's safety.

At this moment, Ye Feng exuded soul power and covered the surrounding area, while he supported the red butterfly and flew quickly in this underground desolate area.

But this time, before they reached the third location, suddenly a tomb nearby exploded.

Uh-huh!

A corpse of a Buddhist monk wearing cassocks but with an ashen face rushed out of the tomb. He was full of sinister energy, and his fingernails had grown three meters long.

They were pitch-black and obviously highly poisonous. He was immediately there. He rushed towards Ye Feng and Hongdie quickly.

Seeing this scene at this time, Hongdie's expression immediately changed and she said: "The graves of ordinary Buddhist and Taoist practitioners generally do not undergo corpse transformation. It seems that my left shoulder was penetrated by an iron arrow and the blood flowed out. The blood and the smell of blood caused a riot in the underworld here, causing these ancient Buddhist monks lying in the tombs to directly transform into corpses. "

Ye Feng shook his head at this time and said loudly: "It shouldn't be the smell of your blood that caused the corpse transformation here. Look at the fingernails of this ancient Buddhist practitioner who rushed towards us. They have grown enough It is more than three meters long, which shows that he has been accumulating for many years. It has turned into a corpse, but now it may have been directly attracted by the smell of your blood. It broke open the tomb and flew out. It is getting deeper and deeper into the deepest part of the abyss, so the Yin Qi is getting heavier and heavier. These ancient Foshan's corpse cannot withstand the infection of the underworld over the years."

Hongdie nodded. His left shoulder was pierced by an iron arrow and he could not move. He could only hold the crimson sword in his right hand and be wary of the corpse of the ancient Buddhist monk who was rushing towards him.

Ye Feng smiled slightly at this moment and said: "Don't worry, you are seriously injured now, just leave everything to me."

At this time, Ye Feng looked at the ancient Buddhist monk who had turned into a corpse and rushed towards him. Without any hesitation, he stretched out a hand and blasted forward.

Ye Feng's hand immediately turned into a big golden hand and collided with the corpse of the ancient Buddhist monk.

Boom! !

A huge roar suddenly sounded across the entire field, and the corpse of the ancient Buddhist monk was blown away by Ye Feng's big golden hand.

During this period, Ye Feng's cultivation level has improved a lot, and his combat effectiveness has been greatly enhanced.

Therefore, Ye Feng's fighting power cannot be resisted by ordinary zombie-turned ancient Buddhist monks.

But the two of them were not happy yet.

suddenly.

Boom!

The dozen or so tombs around him suddenly exploded.

A dozen or so gloomy corpses of Buddhist monks immediately swarmed towards the two of them.

Seeing this scene, even Ye Feng's expression changed slightly, and Hongdie even said loudly: "Ye Feng, you can't get involved with these ancient Buddhist monks who have turned into corpses. There must have been hundreds of ancient Buddhist monks buried here. If all the Buddhist monks wake up and besiege us, even if we have three heads and six arms, we will not be able to resist them. Let us attack together to open a breakthrough, and we should leave here as soon as possible. We cannot be entangled with these ancient Buddhist monks who have turned into corpses for too long. "

After finishing speaking, Hongdie endured the pain in her left shoulder, and used her right hand to activate the power of the red sword in her hand. The sword light rushed out, ready to take action.

## Ancient God

### Chapter 5664 Giant Tomb

For Hongdie, she just wants to get out of trouble as soon as possible, and then go to the third location that may contain wealth, find the wealth, and leave directly.

But at this time, Ye Feng was the first to take action.

Buzz!

At this moment, Ye Feng released a huge amount of soul power, which immediately covered the corpses of more than a dozen corpse-turned Buddhist monks that rushed over.

At this moment, Ye Feng immediately sensed that there was a trace of residual soul among the corpses of these Buddhist monks, controlling their actions.

This immediately made Ye Feng's eyes reveal a look of deep surprise. He quickly released his soul power, directly extinguished the remaining souls in the corpses of these Buddhist monks, and then took control of the corpses of these Buddhist monks.

The next moment, under Hong Die's stunned gaze, Ye Feng didn't even make a move, he just stood there and stopped the corpses of a dozen Buddhist monks who were rushing towards him.

Then, under Hong Die's even more astonished gaze, Ye Feng casually pointed at the corpses of a dozen transformed Buddhist monks not far away, and rushed quickly in that direction.

"What?"

Seeing this scene, Hong Die suddenly showed a look of deep disbelief in his eyes. He stared at Ye Feng in front of him and couldn't help but said: "You... you can actually control these zombies." The corpse of a Buddhist monk?"

Ye Feng nodded, smiled and said: "I have learned a special inheritance that allows me to forcibly control this kind of zombie that has transformed into a corpse. I just tried it casually, but I didn't expect it to succeed."

Hearing what Ye Feng said at this time, Hongdie immediately showed deep astonishment in his eyes.

Because even the director of an extremely powerful large-scale auction like Hongdie did not expect that Ye Feng actually had such incredible abilities, which was really unbelievable.

At this moment, Ye Feng smiled slightly and said: "Our crisis is gone now and we can go to the third location safely. Moreover, I now control the corpses of these ancient Buddhist monks and can let them give us Open the way and warn us of danger ahead."

At this time, Ye Feng directly controlled a dozen corpses of Buddhist monks that had transformed into corpses, and then asked them to explore the road ahead like a vanguard team.

Ye Feng followed Hongdie and used the map in Hongdie's hand to fly quickly in a certain direction.

When they arrived at the third location, they immediately saw that the third location turned out to be a small underground mountain.

This mountain is not big, but the fact that a mountain can appear in this underground space really makes people feel the uncanny workmanship of nature.

At this moment, Ye Feng looked at the mountain in front of him and said, "Is this the third place that may contain wealth?"

Hongdie nodded and said loudly: "According to the markings on the map left by my family's ancestors, the third location among the seven locations that may contain wealth is right here. It should be in this mountain. We Go in and take a look."

Ye Feng nodded and followed Hongdie and flew directly into the mountain in front of him.

When the two flew in, they immediately saw that there were many corpses inside.

"Um?"

Seeing this scene, Ye Feng's eyes showed surprise and he said aloud: "It seems that in the past years, strong people have also come here, trying to find what is in this extraordinary-looking mountain range. Things, but it's a pity that they have died here."

Seeing this scene, Hongdie's eyes became wary. It seemed that this mountain was very dangerous.

Because the clothes these strong men wore were extremely luxurious, they were obviously very powerful masters or strong men from certain big families back then. When they came here, they all died.

At this moment, Ye Feng squatted down and carefully inspected the corpses.

It's a pity that all the life energy of these corpses has been lost over the long years, and they are no longer worth devouring.

In addition, Ye Feng discovered that the storage rings on the fingers of these powerful men were also missing.

Ye Feng thought in his mind that there might be latecomers who came here and plundered all the good things from the corpses of the original strong men, which made Ye Feng feel quite regretful and couldn't pick them up.

Next, Ye Feng and Hongdie continued to move forward.

The dozen corpses of Buddhist monks in front of them explored the path, allowing the two to predict many dangers, such as some traps or formations in the jungle, which may appear at any time, but the first thing they attacked was the corpses of Buddha who were exploring the path ahead. , allowing the two of them to escape many traps without any danger.

Along the way, Ye Feng and Hongdie also saw the bodies of many other strong men lying on the ground.

Finally, they arrived at a place where the mountain was about to reach the top.

There they saw a very ordinary-looking thatched house on the top of the mountain.

"Um?"

Seeing this scene, Ye Feng and Hongdie both had surprised expressions in their eyes.

Hongdie couldn't help but said: "Could it be that there was someone living in this thatched house back then?"

Ye Feng shook his head and said aloud: "I didn't feel any breath of life."

When the two came to the thatched house, they immediately saw a small stone tablet appearing in the small thatched house.

This stone tablet turned out to be a tombstone.

On this stone tablet, an ancient name is carved.

Neither Ye Feng nor Hongdie could understand this ancient name. It might be the name of a big shot in the ancient abyss giant clan.

Seeing this scene, Hongdie seemed to have thought of something, and she couldn't help but said in surprise: "It seems that this is not a mountain, but the tomb of an important figure from the ancient abyss giant family. This so-called mountain, It's just a grave."

Hearing what Hongdie said, Ye Feng first showed a look of astonishment in his eyes, then nodded and said: "The bodies of the ancient giants are very huge, as towering as mountains, and their tombs are indeed Like a mountain."

At this moment, Hongdie said aloud: "Since this place is marked on this map left by my ancestors, it means that there are good things here."

Hearing what Hongdie said, Ye Feng's eyes flickered and he said, "Maybe the ancient abyss giant buried in this mountain is itself a huge treasure."

Hearing what Ye Feng said, Hongdie couldn't help but shook his head and said: "Tens of thousands of years have passed since the time of our ancestors. In such a long time, even the ancient abyss giant clan His body is absolutely rotting into ashes."

Ye Feng said aloud: "Since the mark of this place left by your ancestors shows that there must be such a good thing in this mountain, maybe the ancient abyss giant buried in this mountain may have used some special This way, his giant body can be preserved intact to this day."

Hongdie nodded and said expectantly: "Anyway, let's dig it up and take a look."

## Ancient God

## Chapter 5665: Same Level

Hearing what Ye Feng said at this moment, Hongdie nodded and started digging with Ye Feng.

When they dug out the entire mountain, they suddenly saw that there was a huge coffin made entirely of bronze inside, which was several kilometers long.

"Huh?"

Seeing this rather shocking scene, Hongdie couldn't help but show deep amazement in her eyes, and said aloud: "My ancestors must have participated in the creation of this bronze coffin, so they left the mark of this place."

Ye Feng nodded and opened the entire bronze coffin directly.

As the towering coffin of several kilometers in size was completely opened by Ye Feng, a body of an ancient abyss giant clan indeed appeared inside, and it was also very well preserved, as if it was preserved by some special method.

Seeing this scene, both Hongdie and Ye Feng showed deep joy in their eyes.

Hongdie showed joy because the body of the ancient abyss people has great value.

Ye Feng was delighted that this ancient abyss giant was still so well preserved. The giant's power was very huge. Ye Feng swallowed this giant's power, which would definitely improve his cultivation.

At this moment, Hongdie seemed to see what Ye Feng was thinking and said, "Young Master Ye Feng, you should first swallow the power of this ancient abyss giant. After swallowing his power, I need to bring his remaining body back to the auction."

Hearing what Hongdie said, Ye Feng immediately looked at Hongdie with gratitude and said, "Thank you."

Ye Feng knew very well that he could find these good things basically by relying on the markings in the map left by Hongdie's ancestors, and he was only an auxiliary.

However, Hongdie was able to let him get what he wanted first every time. It can be said that Hongdie took great care of Ye Feng.

However, Hongdie's left shoulder was severely injured and her strength declined seriously. Hongdie really needed to give Ye Feng some benefits to stabilize Ye Feng and his willingness to continue to explore the wealth under the abyss with her.

Swish!

At this moment, Ye Feng naturally did not hesitate at all, and immediately flew to the front of this ancient abyss giant, wanting to devour the giant power contained in the body of this ancient abyss giant.

However, just when Ye Feng approached this ancient abyss giant.

Boom!

A terrifying power suddenly burst out from the body of this ancient abyss giant.

The next moment, a ray of light suddenly appeared between the eyebrows of this ancient abyss giant.

Buzz!

Then, a towering shadow of will appeared in the entire underground space. It was the soul and will of this ancient abyss giant that appeared, staring directly at Ye Feng and Hongdie, and issued a majestic voice: "You ants, you dare to covet my body, you are really bold, today I will kill all of you ants."

At this moment, Hongdie saw this scene and was immediately frightened and her face turned pale.

Even though Hongdie was the director of the auction and a big shot in Luoyue City, she still felt as small as an ant in front of the will shadow of the ancient giant. Her soul was trembling at this moment, as if it was about to be completely broken.

But just when Hongdie was about to pull Ye Feng away from here, she saw a scene that she would never forget.

Buzz!

Ye Feng snorted coldly, and then a dark soul giant with the same majestic and majestic appearance suddenly appeared above Ye Feng's head, and directly smashed the will shadow of the ancient abyss giant with one punch.

"What??"

Seeing this scene, Hongdie's eyes immediately showed an extremely horrified look.

Hongdie never thought that Ye Feng actually had such a magical ability to directly fight against the will shadow of the ancient abyss giant. This was really incredible to the extreme.

At this time, Hongdie suddenly realized that she didn't know anything about Ye Feng, the young man.

Originally, Hongdie thought she knew Ye Feng very well, but as she got along with Ye Feng, the cards that Ye Feng showed one after another made Hongdie unable to see through who this young man Ye Feng was.

At this time, Hongdie suddenly realized that Ye Feng might not just be an ordinary disciple of the Dark God Court. Ye Feng must have other identities, otherwise, it would be impossible for him to have so many incredible cards.

At this moment, Hongdie's cognition of Ye Feng changed again.

At this time, Ye Feng easily destroyed the will phantom of the ancient abyss giant, without feeling any sense of accomplishment, because the will phantom of the ancient abyss giant was just a remnant soul left after many years, so his current soul power was so huge that he could naturally destroy the other party easily.

At this moment, after destroying the remnant soul of the ancient abyss giant, Ye Feng had no obstacles and began to quickly devour the giant power and energy contained in the body of the ancient abyss giant.

At this moment, Hongdie did not ask any more questions, but stood quietly not far away to protect Ye Feng.

At this time, in Hongdie's eyes, Ye Feng had already become a synonym for mystery.

Hongdie now truly placed Ye Feng on the same level as her, and regarded Ye Feng as a partner, not as a hired subordinate.

At this moment, Hongdie's beautiful eyes fell on Ye Feng not far away, full of deep curiosity and wonder.

Because Hongdie never thought that she had recruited so many masters, and in the end she relied on such a young man who looked inconspicuous at the beginning.

At this time, Ye Feng had begun to devour the giant energy contained in the body of this ancient abyss giant.

Ye Feng's cultivation skills were immediately greatly improved at this moment.

At this moment, Ye Feng's cultivation realm also began to break through rapidly and continuously.

After all, the body of this ancient abyss giant was so well preserved, and the giant energy contained in it gave Ye Feng a great power blessing, and Ye Feng's cultivation aura began to break through rapidly at this moment.

Boom!

Tiandan Realm Eighth Heaven!

Boom!

Tiandan Realm Nineth Heaven!

Boom!

Tiandan Realm Tenth Heaven Great Perfection! !

At this moment, Ye Feng's cultivation broke through the three heavens and entered the tenth heaven of Tiandan Realm.

Ye Feng immediately felt that his skills and combat power were incomparably strengthened at this moment.

Swish!

At this moment, Ye Feng flew down from the giant's body and came to Hongdie. He smiled slightly and said, "Thank you, Director Hongdie."

Hongdie couldn't help but reveal an inexplicable smile on her beautiful face. She stared at Ye Feng and said, "Mr. Ye Feng seems to be more mysterious than I thought. I am very interested in exploring the secrets of Mr. Ye Feng in the future."

## Chapter 5666 Strong sense of crisis

Hearing Hongdie's words, Ye Feng just smiled and said nothing more.

At this moment, Hongdie put all the things left on the ancient giant into her storage ring.

Even if Ye Feng had devoured all the giant's power, the remaining giant body of such an ancient abyss giant had great value in every part, and it would definitely be auctioned at a sky-high price in the auction.

At this moment, after Hongdie had packed up, she immediately looked at the map in her hand and flew quickly towards the fourth location.

Ye Feng also hurriedly followed.

For Ye Feng, this time, following Hongdie to explore the wealth in the deep area under this abyss, although it was full of danger, it also contained huge opportunities.

In a short period of time, Ye Feng's cultivation strength has been greatly improved.

So at this time, Ye Feng was naturally more and more interested in the next place where wealth might be hidden.

Along the way, the two did not encounter any special dangers and soon came to the fourth location indicated on the map.

When the two arrived at the destination, they immediately saw a shocking scene.

On the land here, a number of palaces that looked very magnificent and classical were built.

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise, and he couldn't help but said: "This is the place where the ancient abyss giants are buried. There is such a magnificent and classical palace complex, which looks like an ancient imperial palace."

Hongdie nodded and said: "It seems that my ancestors specially marked this place because so many palaces were built here, which must store huge wealth. This must be the symbol of the imperial power of the ancient abyss giants."

Hearing what Hongdie said, Ye Feng nodded, his eyes also showed a look of expectation, and said: "Then let's look for it quickly."

Hearing what Ye Feng said, Hongdie nodded, and flew directly into this palace complex with Ye Feng.

The purpose of the two was very simple, that is, to see if there were any treasures left by the ancient abyss giants in these palaces.

At this moment, Ye Feng and Hong Die came directly to the palace group.

Hong Die said: "Let's act separately, otherwise, we don't know when we will finish searching such a large space group. We will meet at the end of this palace group."

Hearing what Hong Die said, Ye Feng nodded. After all, this palace group was too large. If two people acted together, it would be too inefficient.

After all, there might be other dangers under this abyss, so it would be the best choice for the two to explore all the palaces in this palace group as soon as possible.

At this moment, Hong Die stared at Ye Feng and said with a smile: "Be careful next time."

After that, Hong Die took out a token that seemed to be specially made from her storage ring and threw it directly to Ye Feng.

At this time, Hongdie said: "Take this token, you can keep in touch with me at any time. If there is anything particularly important, just activate the small communication array in this token, and you can talk to me over a long distance."

Ye Feng held the token in his hand at this time, and there was a curiosity in his eyes.

It seems that Hongdie is indeed very well prepared for this expedition.

Ye Feng took the token in his hand and nodded immediately, saying: "Okay, if there is anything particularly important, I will contact you. Also, Director Hongdie, if you are in danger, you can call me at any time, and I will rush to rescue you immediately."

You know, Hongdie's left shoulder is still pierced by the iron arrow, so her strength has declined very seriously, and she may not be as strong as Ye Feng now.

Hongdie smiled slightly at this time and said: "I also have other means to protect myself. Next, it depends on who is luckier between the two of us and who can get more wealth. Whoever gets it is his."

Swish!

After Hongdie finished speaking, she immediately flew quickly to the left.

Ye Feng nodded and flew to the right.

Ye Feng soon arrived at the first palace and walked in directly.

However, Ye Feng saw that there was nothing else in the first palace except some ancient sculptures.

This made Ye Feng's eyes suddenly reveal a disappointment, and he left the palace directly.

Ye Feng then flew quickly to the second palace.

When Ye Feng rushed into the second palace, he immediately saw that there were several weapons placed in the second palace.

Although these weapons have been around for many years, perhaps tens of thousands of years, they still emit a faint spiritual light.

"Huh?"

Seeing this scene, Ye Feng's eyes lit up.

Because Ye Feng knew very well that this kind of weapon that can still emit light after tens of thousands of years is definitely the most powerful weapon of that era, and the materials used must be the best, otherwise it would not be able to withstand the erosion of time.

However, Ye Feng now has the Ice Giant Sword in his hand, as well as the purple jade bracelet he got in the ruined city of the ancient abyss giant clan. Ye Feng's current weapons are already very powerful.

However, the weapons in this palace are still very advanced, and Ye Feng still put all of these weapons into his storage ring.

After all, if these things are exchanged in the auction, they should be able to exchange for a lot of cultivation resources.

At this moment, Ye Feng quickly searched for these weapons in this palace and immediately flew towards the third palace.

When Ye Feng came to the third palace, he actually found that the third palace was shrouded by an ancient formation.

As long as you get closer, there will be an extremely sharp golden sword energy that will pierce the invader.

Seeing this scene, Ye Feng was not surprised but happy.

Because Ye Feng knew very well that a place guarded by such a powerful formation must have something very good, otherwise it would be impossible for the ancient abyss giant clan to specially engrave a formation here.

Ye Feng naturally did not hesitate at this moment, and directly activated the Eye of Heaven and Earth to see through this protective formation and walk into the palace covered by this formation.

Ye Feng's Eye of Heaven and Earth can naturally see through all battle methods.

So at this time, Ye Feng passed through this ancient formation very smoothly and entered the range of the third palace.

However, before Ye Feng could explore a palace properly, suddenly a young man in a blood-red robe, with an extremely strange appearance, appeared not far from Ye Feng in an instant.

"Huh?"

When Ye Feng saw the young man in a blood-red robe, his eyes suddenly changed.

Because Ye Feng saw that behind this young man in a blood-red robe, in the void, there was a towering and boundless phantom of an ancient demon dragon, roaring and roaring.

The feeling given by this young man in a blood-red robe is that his breath is extremely terrifying.

Ye Feng immediately understood something and couldn't help but say, "Are you the ancient dragon that was accidentally released before?"

At this moment, Ye Feng felt a strong sense of crisis.

## Chapter 5667 What do you want me to do?

At this time, Ye Feng never thought that he would be able to encounter the ancient dragon that was accidentally released before.

Previously, Ye Feng felt that in the deepest part of this abyss, the ancient dragon could not come here.

But now it seems that the other party can enter here at will, but now it is in human form, not the original form of the ancient dragon.

At this moment, Ye Feng was very sure that the young man in blood-red robes in front of him was the extremely ferocious ancient dragon.

At this moment, when Ye Feng heard this question, the young man in blood-red robes immediately smiled faintly and said, "You are very good. You saw through my identity in an instant."

Ye Feng pointed at the ancient demon dragon roaring in the void behind the young man in blood-red robes, and said, "Isn't this obvious?"

Hearing what Ye Feng said, the young man in blood-red robes immediately showed a look of surprise in his eyes and said loudly: "The vision of life behind me is not something I actively release and display. It only exists at a deep level. The void in the avenue is not something that ordinary people can see. I didn't expect you to be able to see the shadow of the ancient dragon roaring in the void in an instant. It seems that you are more extraordinary than I imagined. "

Hearing what the other party said, Ye Feng spoke up and said: "With your strength, you can kill me at any time, but you didn't kill me, why?"

The young man in the blood red robe smiled slightly and said loudly: "You and I have no grievances, why should I kill you?"

Ye Feng shook his head and said: "When you just escaped from the seal, you threatened to kill all of us and become your food."

The young man in the blood-red robe suddenly showed a demonic smile on his face, and said loudly: "I have hunted down those people, and they taste really good, but I don't want to kill you and eat you because you treat me badly." It has a huge effect."

Hearing what the young man in the blood-red robe said, Ye Feng's eyes flickered slightly, and then he said, "What do you want me to do?"

The young man in blood red robes came to Ye Feng in a blink of an eye. Ye Feng didn't even have time to react, and the other party had already appeared within easy reach of him.

This made Ye Feng even more surprised. The opponent's strength was absolutely terrifying to the extreme.

However, it was able to survive for tens of thousands of years in the ancient seal, and even wiped out the entire ancient abyss giant clan back then, which is enough to show that the strength of this ancient dragon is at an unimaginably powerful level.

At this moment, the young man in the blood red robe just stared at Ye Feng, smiled slightly, and said loudly: "I admire your courage and your determination very much. In the face of a being who is countless times more powerful than you, you still remain calm." To be able to talk to me so calmly, I have to say that although you look young, you must have gone through a lot of hardships, otherwise you would not have developed this kind of tolerance. "

Ye Feng smiled faintly and said, "What exactly do you want from me?"

In fact, Ye Feng still has his own trump card, which is Emperor Chu in his mind, so Ye Feng is not as afraid of the ancient dragon in front of him as the other party imagined.

Seeing Ye Feng's indifferent look at this moment, the young man in the blood red robe smiled and said loudly: "I really need your ability to pass through the formation directly, I want to take you to a place , as long as you help me pass through a very terrifying ancient formation safely, I will let you leave freely, and I will also give you a huge reward."

Ye Feng asked aloud: "Where? How much is the reward?"

"Um?"

When the young man in blood red robe heard Ye Feng suddenly ask two such concise questions, his eyes suddenly revealed a look of surprise. It seemed that he did not expect Ye Feng to ask the two key questions without even thinking. .

At this moment, the young man in blood red robe stared at Ye Feng, his eyes full of admiration, and said loudly: "Quick, if you and I were in the same era, we would definitely be able to become friends."

At this moment, after the man in the blood-red robe finished speaking, he pointed in a certain direction not far away and said loudly: "The place I want to take you to is the most mysterious place of the ancient abyss giant clan. There are A very mysterious area, which is the core area of the connection between the ancient abyss giant clan and the higher-dimensional practice world. I need to go there to find something, but This core area is guarded by the most terrifying array of stars in the sky among the ancient abyss giants. Even with my strength, I cannot forcefully enter it, so I need your ability to safely shuttle through any array. Help me enter that core area. As long as you enter that core area, the reward I will give you will definitely make you feel it is worth your money."

Hearing what the ancient demon dragon in front of him said, Ye Feng suddenly showed a look of surprise in his eyes and said: "Since senior said he would give me generous rewards, then I am willing to believe senior. After all, senior is so super powerful. There is no need to lie to a little person like me."

Hearing what Ye Feng said, the Ancient Demonic Dragon immediately smiled and said: "It's cool, then it's settled."

At this moment, Ye Feng looked around and said, "But I have promised my friend Hongdie that I will help her explore the seven locations on the map in his hand. Now is only the fourth location, so I can't go there with you for the time being. After all this is done, I will go with you, but you need to let my friend Hongdie leave here, and you can't kill her."

Hearing what Ye Feng said, the young man in the blood-red robe transformed by the ancient magic dragon just shrugged casually and said, "It doesn't matter, you finish your business first, and I will follow you. Anyway, I have been waiting for tens of thousands of years, and it doesn't matter for a while."

Hearing what the ancient magic dragon said, Ye Feng nodded slightly, and then continued to explore the palace in front of him.

The young man in the blood-red robe transformed by the ancient magic dragon followed Ye Feng, and did not disturb Ye Feng, but just watched everything quietly.

At this moment, Ye Feng felt that this ancient magic dragon would not force him if it came to him for help, because the other party probably knew that he was a soft-hearted person. If the other party used force, Ye Feng would definitely rather die than live in disgrace, and would definitely fight to the death.

At this moment, Ye Feng did not care about the threat of the ancient magic dragon, but concentrated on searching his palace.

In the next palace, Ye Feng searched out a lot of good things one after another, but most of them were some ancient weapons left behind, and various treasures left by the ancient abyss giants, etc., and Ye Feng did not find any resources that could directly improve his cultivation skills.

However, being able to find these weapons and treasures has made Ye Feng quite happy.

Because after returning to Luoyue City, these things can be sold in large shops or at the auction of Red Butterfly, and then exchanged for the cultivation resources he needs.

## Chapter 5668 Giant Corpse Transformation

For Ye Feng, the most important thing now is to continue to explore various wealth and treasures in this palace.

The young man in a blood-red robe transformed by the ancient magic dragon followed Ye Feng not far away. Looking at what Ye Feng did, he seemed to have an inexplicable smile on his face.

Obviously, the wealth that Ye Feng had collected at this time was nothing in the eyes of this ancient magic dragon. It was just a trivial thing, so he felt very casual and indifferent to Ye Feng doing this.

At this moment, Ye Feng didn't care what this ancient magic dragon thought, but concentrated on collecting his wealth.

Next, Ye Feng collected a lot of good things in the palace group.

However, what made Ye Feng quite disappointed was that all the cultivation resources that could improve the cultivation power in these palace groups were basically gone. Obviously, most of the cultivation resources that could directly improve the power were some things with energy, such as the medicinal energy contained in the elixir, and the energy contained in the crystal.

These things will slowly disappear over the long years and eventually decay into ashes.

However, Ye Feng was able to obtain a lot of inheritance, treasures, and weapons, which made Ye Feng very happy.

Because these things can be exchanged for the cultivation resources he needs when Ye Feng returns to Luoyue City.

During the looting process, Ye Feng also encountered many ancient formations in many palace groups.

Ye Feng entered the formation easily every time.

This made the young man in the blood-red robe transformed by the ancient magic dragon who was following and observing Ye Feng not far away feel very incredible.

This ancient magic dragon has lived for many years, and its strength is unfathomable and terrifying to an extreme. It has experienced many things in its life and will not have any psychological fluctuations.

But every time he saw Ye Feng being safe and sound, and even very casually entering and exiting various formations, it still made this ancient magic dragon feel very incredible.

The young man in the blood-red robe transformed by the ancient magic dragon at this time couldn't help but ask: "Young man, how did you cultivate this ability?"

Hearing the ancient magic dragon ask this, Ye Feng showed a look of surprise in his eyes.

After all, the Ancient Demon Dragon had always been very casual about everything he did, and I didn't expect him to ask me such a question.

Ye Feng did not ignore it, but smiled slightly and said: "This is my natural ability, which others cannot cultivate."

Hearing what Ye Feng said, the Ancient Demon Dragon suddenly laughed and said: "It should be that your eyes have this talent, which can see through the trajectory of the formation, so you can safely pass through each formation every time."

Hearing what the Ancient Demon Dragon said, Ye Feng's eyes suddenly showed a look of surprise, and then nodded and said: "You are right, it seems that the senior is indeed an unfathomable big man, and he can see at a glance that my talent is in my eyes."

The Ancient Demon Dragon nodded, and then suddenly showed an inexplicable look on his face, and said: "If I kill you, dig out your two eyeballs, and merge them into my eyes, I don't know if I can have your natural ability to see through the formation."

"What?"

Hearing the Ancient Demon Dragon say this calmly, as if he was talking about a very simple little thing, Ye Feng's face suddenly changed.

But before Ye Feng could say anything, the young man in the blood-red robe transformed by the ancient magic dragon smiled slightly and said, "Don't be afraid, I'm just joking, just saying it casually."

Hearing what the ancient magic dragon said, Ye Feng's eyes flickered, but he didn't respond.

Because Ye Feng knew that cooperating with such an unpredictable old monster still required vigilance and attention.

Because such an unpredictable old monster could do things that ordinary people couldn't understand at any time.

At this moment, Ye Feng didn't respond much, but concentrated on finding wealth in these palaces.

Suddenly, when Ye Feng found a palace, the soil next to this palace suddenly exploded.

Swish!

Then, a huge zombie with a cyan body rushed towards Ye Feng immediately, with a dark blue palm, as if it was filled with molten iron, very solid, very sharp, and rushed to Ye Feng's front, grabbing Ye Feng's heart, as if to grab Ye Feng's heart in an instant.

Ye Feng immediately understood that this must be another zombie formed by the corpse transformation of the ancient abyss giants.

Ye Feng did not dare to be careless at this moment. After all, the zombies transformed by the ancient abyss giants must be much more powerful than the ordinary zombies transformed by the ancient Buddhist monks he had encountered before.

After all, the ancient abyss giants themselves are very terrifying, not to mention that after the corpses are transformed into zombies, they are even harder and more terrifying.

So at this time, even if Ye Feng used the power of the immortal body of the gods and his hands turned into golden palms, he was hit by a terrifying force in an instant after colliding with this huge zombie. The whole person flew backwards in an instant and fell to the ground not far away.

"What?"

After seeing this scene, Ye Feng's eyes suddenly showed a look of astonishment, and he couldn't help but say aloud: "This zombie is so powerful?"

The young man in a blood-red robe transformed by the ancient dragon who was watching this scene not far away smiled faintly and said, "Of course, this is a zombie transformed from the ancient abyss giant clan. Of course, it is very strong and terrifying."

At this moment, this huge zombie roared and rushed towards Ye Feng, trying to tear Ye Feng apart.

But at this moment, Ye Feng directly took out the ice giant sword he had obtained before, and directly stimulated the power of the ice giant clan saint.

Boom! !

A terrifying cold wave burst out from the ice giant sword in Ye Feng's hand, and directly froze the huge zombie in front of him into the ice.

Seeing this scene, Ye Feng's eyes suddenly showed a look of joy.

But before Ye Feng could feel the surprise, there was a sudden bang.

The entire ice block shattered instantly, and the huge zombie transformed from the ancient abyss giant broke through the ice and continued to charge towards Ye Feng, almost tearing Ye Feng into pieces.

At this moment, Ye Feng knew that the ice giant sword could no longer deal with this terrifying giant zombie transformed from the ancient abyss giant clan.

Ye Feng used the purple jade bracelet he had obtained in the ruined city without hesitation to bless himself with strength.

It contained the royal power of the ancient abyss giant clan, which could instantly enhance Ye Feng's combat effectiveness.

## Chapter 5669 Don't let me down

This small purple jade bracelet is not an ordinary bracelet, but a special treasure that Ye Feng obtained from the ruined city he passed through when he first entered this abyss.

At that time, this purple jade bracelet was guarded by a very terrifying formation, and no one could get it.

In the end, Ye Feng relied on the Eye of Heaven and Earth to obtain this purple jade bracelet.

At that time, Ye Feng tested the power of this purple jade bracelet.

When Ye Feng activates his magic power and enters this purple jade bracelet, the purple jade bracelet will immediately manifest a huge shadow of the will of the ancient abyss giant emperor, guarding Ye Feng's surroundings, providing Ye Feng with extraordinary The power of a powerful emperor.

So at this time, Ye Feng was in a hurry and could only quickly use this extremely powerful magic weapon.

At this moment, when Ye Feng's mana was injected into the purple jade bracelet on his wrist, sure enough, a huge and towering figure suddenly appeared on Ye Feng's body, containing the power of the ancient abyss giant emperor.

At this moment, Ye Feng gained the power of the emperor of the ancient abyss giant family, and naturally he could feel that his power had been strengthened like never before.

At this moment, Ye Feng was preparing to use this powerful power to deal with this zombie of the ancient abyss giant family.

But the moment Ye Feng just used this purple jade bracelet, the giant zombie that was charging towards Ye Feng very fiercely to kill Ye Feng suddenly seemed to be in danger. It looked like something very scary, and he knelt down in front of Ye Feng.

"What?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise.

At this time, Ye Feng suddenly understood that perhaps it was the power of the giant king released from the purple jade bracelet that he had inspired, which made the transformed giant zombie feel the surrender and surrender from the depths of his blood. There was pressure, so he knelt down in front of him.

At this time, Ye Feng naturally did not hesitate at all, and directly used the purple jade bracelet on his wrist to control the giant zombie in his hands.

At this moment, Ye Feng's eyes suddenly revealed a look of deep surprise.

Unexpectedly, the royal power of the ancient abyss giant clan contained in this purple jade bracelet was so terrifying, and had such a magical effect that it could even control the transformed giant zombies.

Ye Feng was naturally very happy at this time. He could get help from such a powerful giant zombie, which would be of great benefit to his overall strength.

After all, Ye Feng had already fought against this giant zombie just now. It was very powerful. It was many times more powerful than the corpses of ordinary Buddhist monks that Ye Feng had encountered before. It was able to compete with his immortal body. He opened it and even faintly suppressed his immortal body.

So this giant zombie is absolutely terrifying.

At this moment, Ye Feng used the royal power of the ancient giant family in the purple jade bracelet to control this giant zombie, which naturally gave Ye Feng a huge boost.

At this time, the young man in blood-red robes who had just seen this scene from the ancient demon dragon also had a look of surprise in his eyes. It seemed that Ye Feng had not expected that Ye Feng was actually possessed by the emperor of the ancient abyss giant clan. What was left behind, through the power and majesty of the emperor, controlled and subdued the transformed giant zombies.

But at this time, the ancient demon dragon finally felt that this was just a small scene, so he just shook his head and smiled, without saying anything else at all.

Ye Feng was very happy at this time, having controlled such a powerful and ferocious giant zombie from the ancient abyss giant family.

At this moment, Ye Feng continued to explore the next palace group.

But at the end of the exploration, Ye Feng didn't find anything particularly good.

It seems that most of the remains of this fourth location that may contain wealth are ancient weapons and some treasures that the ancient abyss giants had not had time to take away and destroy.

At this moment, Ye Feng has arrived at the end of the palace complex.

At this time, Ye Feng saw a beautiful figure flying from the left direction, it was Hongdie.

Previously, Hongdie and Ye Fengbing split into two groups at the starting point of this palace complex, searching the palace complex on the left and right respectively.

Now Hongdie has also arrived at the end of this palace complex.

Hongdie saw Ye Feng again.

But when Hong Die saw Ye Feng for the first time, his eyes showed surprise.

The first thing that caught Hongdie's attention was the iron-blue zombie standing behind Ye Feng, who was as tall as a mountain.

Hongdie understood something immediately and couldn't help but said: "Ye Feng, it seems that you have subdued another zombie, and it is also such a rare giant zombie."

Ye Feng nodded, smiled and said: "Yes, this giant zombie's attack power is very terrifying, and it has turned into a zombie. It doesn't know pain. It is an excellent fighting machine."

Hearing what Ye Feng said, Hongdie nodded and was not surprised.

After all, Hongdie had seen before that Ye Feng could use special means to control the corpses of ancient Buddhist monks who had turned into corpses in the tombs.

So at this time, seeing Ye Feng controlling another giant zombie, he was naturally not too surprised.

At this time, Hongdie saw a young man in a blood-red robe not far away who seemed to be uninterested in everything. He couldn't help but asked in surprise: "Ye Feng, who is this?"

Ye Feng glanced at the young man in blood-red robes who had been transformed by the ancient demon dragon, and felt that it would be better for Hongdie not to know the true identity of this young man in blood-red robes.

If Hongdie knew that the other party was the ancient demonic dragon from before, he might be frightened and run away in an instant, or he might develop deep hostility and conflict with this ancient demonic dragon.

When the time comes, Ye Feng is afraid that the ancient dragon will be unhappy, so he will kill Hongdie directly.

Now it seems that the ancient magic dragon does not want to interfere in his own affairs, which is just right.

So at this time, Ye Feng lied casually and said: "It's a friend I met on the way who is also exploring this abyss. He is temporarily following me and wants to explore this underground place with me." The lair of the ancient abyss giants."

Hearing what Ye Feng said, Hongdie nodded and said, "Since I am your friend, that's fine."

Hongdie took out his map at this time and said aloud: "We can go to the next location now. The next location is the fifth location among the seven locations. I hope we can gain something. This palace I didn't get anything particularly good from the group, so don't let me down at the next location."

## Chapter 5670 Priority Satisfaction

At this time, Hongdie did not doubt Ye Feng's explanation, nor did she doubt the true identity of the young man in the blood-red robe.

After all, Hongdie could never have imagined that this young man in the blood-red robe would be the extremely vicious ancient dragon that was accidentally released before.

At this moment, Hongdie looked at the map in her hand, and continued to fly quickly with Ye Feng towards the fifth of the seven locations.

Along the way, Ye Feng did not worry at all, because Ye Feng had now subdued such a powerful giant zombie. Even if he encountered some danger, this giant zombie who was not afraid of pain or death could definitely solve the problem instantly.

And just when Ye Feng and Hongdie had just flown to the fifth location, they immediately saw a huge pit in front of them.

This huge pit gave people the feeling that there was a terrible explosion here that year, which razed the entire ground to the ground, and then the entire explosion caused the ground to collapse, directly forming such a huge pit.

At this moment, Ye Feng could see that under this pit, there appeared an underground passage that looked very mysterious.

Seeing this scene, Hongdie and Ye Feng looked at each other and knew that the fifth location where wealth might be hidden was in this underground passage.

Swish!

At this time, Ye Feng did not hesitate at all, and jumped directly into the passage under the huge pit with Hongdie.

Soon, the two of them fell quickly and finally came to the bottom of the underground passage.

The young man in the blood-red robe transformed by the ancient magic dragon seemed to be afraid that Ye Feng would run away, so he followed him like a ghost.

Seeing this scene, Hongdie seemed to want to ask something, but she didn't ask it after all.

After all, Ye Feng had just said that this young man in the blood-red robe was not an enemy, but his friend, so Hongdie should not pay too much attention to it.

At this moment, Hongdie looked around and took out a token from her storage ring directly, emitting a bright light for lighting.

When the light illuminated the entire underground space, the two were surprised to find that the underground space led to by the underground passage was filled with boxes of iron boxes.

The two did not know what was in these iron boxes.

But they always felt that these iron boxes must be the wealth left by the giants.

Thinking of this, the two of them showed deep expectations in their eyes, and they ran up excitedly.

The young man in the blood-red robe who followed them like a shadow did not have any inner fluctuations in front of him.

Because this young man in the blood-red robe, as a peerless beast in ancient times, an ancient magic dragon, had no interest in these ordinary resources and wealth. The only thing he was interested in now was Ye Feng, because he wanted to use Ye Feng's innate ability to shuttle into the formation safely.

At this moment, Ye Feng and Hongdie came to these iron boxes, without any hesitation, and began to open them one by one.

When Hongdie and Ye Feng opened the first iron box, their eyes lit up immediately.

Because they saw that the first iron box contained pieces of diamonds emitting blood-red light.

Ye Feng couldn't help but say: "This is blood diamond! It is countless times more advanced than ordinary energy crystals. The energy contained in it is very huge, and these energy diamonds are the best among energy crystals. These are probably stained with the blood of ancient gods for the time being, so they can become this rare blood diamond."

Hearing Ye Feng say this, Hongdie nodded and said: "You need these things the most. This box of blood diamonds is for you."

Hearing Hongdie say this, Ye Feng was quite happy, and immediately nodded and began to swallow directly.

At this moment, Ye Feng directly stretched out his palm and pressed it on the iron box.

The first iron box was filled with blood diamonds, so Ye Feng could start to absorb and swallow them all.

"Boom..."

A huge amount of energy was immediately injected into Ye Feng's dantian.

Ye Feng's cultivation had previously broken through to the Tenth Heavenly Perfection of the Heavenly Dan Realm, which was a big bottleneck and was very difficult to break through.

But now that Ye Feng had obtained the energy of a whole box of diamonds, he naturally broke through the bottleneck of the Tenth Heavenly Perfection of the Heavenly Dan Realm

and stepped into the First Heavenly Realm of the Void Realm above the Heavenly Dan Realm!

At this time, Ye Feng's eyes suddenly showed deep excitement.

I didn't expect that this box of blood diamonds was so precious. Just by swallowing a box of energy diamonds, his cultivation was improved so much. He directly broke through the entire bottleneck from the Tenth Heavenly Perfection of the Heavenly Dan Realm, and even directly broke through the Half-Step Void Realm and stepped into the First Heavenly Realm of the Void Realm above the real Heavenly Dan Realm!

At this moment, Ye Feng could feel that his strength had increased by hundreds of times.

The young man in a blood-red robe who was following not far away, the ancient magic dragon, saw the whole process of Ye Feng's breakthrough, and his eyes also showed a look of surprise.

You know, this ancient magic dragon has experienced a lot of things, a lot of storms, and has long been indifferent to many things.

But for the first time, he was surprised twice by Ye Feng, the same young man.

The first surprise was that Ye Feng could shuttle through various formations safely without triggering the attack of the formation.

The second surprise was that this time, he saw Ye Feng, who was very simple and rough, could directly devour the energy from the outside world for his own use and become the nourishment for strengthening his own skills.

This special devouring ability made the ancient magic dragon feel deeply surprised.

At this moment, Ye Feng did not know that the ancient magic dragon was surprised by him twice.

Ye Feng was just very happy.

This time, he was able to follow Hongdie here and get so many good things, which made his cultivation get a huge breakthrough and stepped into a new realm of cultivation, the first level of the ethereal realm.

At this time, Ye Feng looked at the side and found that Hongdie had opened the other boxes one after another.

There were no cultivation resources that could directly improve the skills in the other boxes. Most of them were some inheritance books left by the ancient abyss giants, some

ancient weapons, various totems symbolizing the civilization of the ancient abyss giants, etc.

Ye Feng naturally gave all these things to Hongdie.

After all, the two of them have always had a clear division of labor, and the wealth they have obtained has also prioritized meeting everyone's needs.

What Ye Feng needs are all kinds of cultivation resources that can directly improve his skills, such as heavenly and earthly elixirs, ancient elixirs, energy crystals, ores, etc.

And what Hongdie needs are all kinds of rare ancient artifacts and magic weapons that can be sold at high prices at auctions, as well as inheritance books, etc.

At this moment, Hongdie seemed to have found something extraordinary from other boxes, and couldn't help but say: "Ye Feng, come and see, what is this?"

## Chapter 5671 The Power of Giants

Hearing what Hongdie said at this time, Ye Feng's eyes suddenly showed a look of surprise, and he quickly walked towards Hongdie's direction.

Ye Feng knew very well that as the manager of a large-scale auction, Hongdie had seen strong winds and waves, so it was rare for Hongdie to express such a surprised tone.

Ye Feng immediately walked over at this time, and immediately saw Hongdie looking at an iron box in front of him, lost in thought.

Ye Feng walked over and found that the iron box contained a palm-sized bone.

But this bone, at this moment, is like a living thing, actually squirming rapidly.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise, and he said loudly: "What kind of bone is this bone? It looks like a living thing."

Hongdie also nodded at this time and said loudly: "That's why I was very surprised. It scared me just now. I thought it was some special creature with terrifying attack power, but now it doesn't seem like it." No special attack power."

Hearing what Hongdie said, Ye Feng nodded, then glanced at the young man in a blood-red robe not far away, and suddenly asked: "What do you think this is?"

Ye Feng asked the young man in blood-red robes at this time. As an ancient demon dragon, he had fought against the ancient abyss giants, so he should know what it was.

Hearing Ye Feng's question, the ancient demon dragon seemed to be quite interested. He glanced at the squirming bone in the box that looked like a living thing, and immediately a look of surprise appeared in his eyes. He said in a loud voice: "This is a piece of giant inheritance bone. I didn't expect that there is still a very rare inheritance bone left here by the ancient abyss giant clan."

"Inherited bone?"

Hearing what the young man in blood-red robe said, both Ye Feng and Hongdie had a look of surprise in their eyes.

At this time, the ancient demon dragon continued to speak: "Normal physiques cannot fuse this kind of bone. You should give up. Although after fusing this bone, the fusion person can gain the power of a giant, but only the ancient The descendants of the abyss giants If practitioners of other races can successfully fuse this kind of inheritance bone, if they forcibly fuse this kind of giant inheritance bone, they will not only lose the power of the giant, but will also be instantly shocked by the huge energy of the terrifying abyss giant in the inheritance valley. Break all the bones in the body."

Hearing what the young man in the blood-red robe said, Hongdie's eyes showed deep shock at first, but then she was very surprised. She didn't seem to expect that this friend Ye Feng accidentally met had seen so much. , he recognized this special bone at a glance. It turned out to be the rare and extremely rare inheritance bone left by the legendary ancient abyss giant family.

At this moment, Hongdie couldn't help but said: "Ye Feng, it seems that we can't use this inheritance bone directly. It's such a pity. It seems that I can only take it back and sell it in the auction. , but this kind of thing can only be used by the descendants of the ancient abyss giant family, and cannot be used by others. It is estimated that it will not fetch a high price. After all, although the value of this giant's inherited bone is very high, it cannot be used by others. If most people use it, it has no value."

Hearing what Hongdie said, Ye Feng's eyes suddenly flickered and he said, "Let me give it a try."

"What's the meaning?"

Hearing what Ye Feng said, not to mention Hongdie, even the young man in blood-red robe who had been standing very calmly by the side couldn't help but have a look of surprise in his eyes, and said loudly: "What are you going to do?"

Ye Feng smiled, glanced at the squirming bone in the iron box, and said loudly: "Of course I am trying to fuse this piece of giant inheritance bone. I want to get the power of the

legendary ancient giant. So for me, Improving overall strength will definitely be of unparalleled help.”

"Are you crazy?"

At this moment, not to mention the red butterfly, even the young man in blood-red robes transformed by the ancient demon dragon couldn't help but said in shock: "You are really crazy! You rashly fused this piece of bone without any... No matter how useful it is, it will harm yourself and cause you to die suddenly, and all the bones in your body will be damaged. Being oppressed and broken by the inheritance bone of the abyss giant, as I said just now, except for the descendants of the ancient abyss giant family, any other race who wants to forcibly fuse this inheritance bone will be killed instantly. The body of any other race, None of them can carry the power of the giant in this giant inheritance bone.”

At this moment, although the ancient magic dragon and Hongdie both felt that it was impossible for Ye Feng to fuse this piece of inherited bone from the ancient abyss giant family, Ye Feng smiled slightly at this moment and said loudly: "Let me try. Try it.”

Uh-huh!

At this time, the ancient magic dragon flew directly in front of Ye Feng, and an extremely terrifying cultivation aura burst out from it, just like a majestic mountain, restraining Ye Feng, his eyes were very serious, He said aloud: "If you die later, what will I do in the future? If you don't consider your own safety, you should also consider my feelings!"

At this moment, the ancient demon dragon naturally does not want Ye Feng to die, because he still needs to rely on Ye Feng's innate ability to see through any formation in the world to go to the deepest part of the ancient abyss giant family's lair to get something.

But at this moment, Hongdie who was standing aside saw the two people so close. The ancient demon dragon, a handsome young man, said such words to Ye Feng, which made Hongdie's eyes slightly stunned. one time.

But the next moment, Ye Feng smiled and said: "Don't worry, it's okay. If there is a problem, if you stop me again, I believe that with your strength, you can stop me instantly.”

Hearing what Ye Feng said, the ancient demon dragon saw the confident look in Ye Feng's eyes, and could only nod his head and said: "If any problems arise, I will immediately stop you. Don't blame me for forcing you to do so." Take action against you.”

Hearing what the ancient demon dragon said at this time, Ye Feng nodded, and then directly pulled the inherited bones of the ancient abyss giant family that were squirming in the iron box in front of him into his own body, and began to fuse them with his own bones. among.

Buzz!

At this moment, along with the fusion process, Ye Feng immediately felt that the seemingly palm-sized bone contained extremely powerful power.

That is the power of the legendary giant!

When the Ancient Demonic Dragon and Hongdie standing aside saw that Ye Feng had really begun to fuse with the giant's inheritance bone, their eyes showed deep astonishment, as if they did not expect that Ye Feng could really fuse. The inherited bones of the ancient abyss giants are really beyond the scope of normal people's reasonable understanding.
