

Ancient God

Chapter 5681: Strange Palace

At this moment Ye Feng does not want to stay here, because according to the core area of the ancient Demon Dragon, there is a huge risk in this core area. Dare not dare to run into this core area.

At this time, Ye Feng was directly holding the storage ring given to himself with the ancient Demon Dragon, and re-entered the stars and stars.

Ye Feng has now completely analyzed this big star in the stars, so Ye Feng naturally can easily shuttle in the stars and stars, and return to the abyss of Wanzhang.

Ye Feng is ready to return to the ground directly.

However, when Ye Feng had just left the stars of the Tiantian Tian, he came to the abyss of Wanzhang.

Boom! Intersection

Suddenly, a terrible space fluctuated not far from a certain direction.

The next moment, a huge palm is like a giant's palm, and it is just like a mountain, grabbing Ye Feng, to grab Ye Feng's whole person and completely wipe it.

"What?"

At this moment, when I saw this huge palm, Ye Feng seemed to think of something, and immediately said in shock: "It is the ancient abyss giant who was released before, and the giant emperor of the giant family! "

At this moment, Ye Feng retreats quickly, and even runs the talent of dark void, so he escaped the attack of this big hand.

At this moment, the direction of not far away is just a huge abyss giant who came over. It has tens of thousands of meters of majesty. I do n't know how many times the size of the giant zombie that the giant zombies before Ye Feng. Just like Taiku Mountain, it gives people a very terrifying sense of oppression.

At this time, Ye Feng looked at this huge ancient giant, and suddenly it showed a deep anger in his eyes. He said, "You are the giant emperor of the abyss giant family before, why should you sneak attack?"

Hearing Ye Feng said so, the abyss giant immediately showed a ridicule with a ridicule on his face, saying, "You are a little ant, what qualifications to ask me? You have the terrorist array that can be freely shuttled through this terrorist array. The ability of Fa, I want to kill you and graft your talent to me. In this case, I will become stronger. "

At this moment, when I heard this abyss giant say this, Ye Feng's eyes suddenly showed a anger, and said, "I did not expect you to be such a person who had no faith. Before, the predecessors of the ancient Demon Dragon had let the predecessors of the ancient Dragon Dragon have let the predecessors have let the ancient demon dragon have let the predecessors have let the ancient demon dragon have let the ancient demon dragons have let the predecessors have let the ancient Dragon Dragon have let the predecessors have let the ancient Dragon Dragon have let the predecessors have let the ancient Dragon Dragon have let the predecessors have asked Don't target us anymore, but I didn't expect you to follow us in secret, watching me all the time, and the plot is not track. "

Hearing Ye Feng said so, the abyss giant immediately smiled coldly and said, "The guy who has the ancient magic dragon protects you, I naturally can't shoot you, but now he has completely entered the core area. There are countless buildings in the core area. He may have been lost in it now. There is no way to come out to help you again. Now you will die. Your talent is too old. It should belong to me. You have a waste of this kind of talent on the body.

At this moment, after the phonetic of this abyss giant fell, he continued to attack Yefeng. The horrible power and suffocating pressure allowed Ye Feng to retreat quickly. Continuously avoid.

But Ye Feng knew that it was not a way.

Ye Feng immediately returned to the heavenly stars and stars, and he could only temporarily stay in this ancient formation. In this case, the abyss giant could not catch himself.

At this moment, when I saw Ye Feng hid in the stars of the celestial stars, the eyes of the abyss giant were full of envy and jealousy. The ability to travel array is really incredible, but your talent ability will sooner or later belong to me. "

Hearing the abyss giant said so, Ye Feng smiled coldly and said, "If you have a kind of, you enter the formation method and continue chase me."

Naturally, the abyss giant dare not bear the power of the stars and stars, and can only stay outside.

But at this time, the abyss giant stared at Ye Feng in the formation, sneered and said, "You can still stay inside for a lifetime? I just stay here and wait for the rabbit. I caught it, kill you directly, plunder your incredible talent. "

At this time, when he heard the abyss giant saying this, Ye Feng frowned suddenly.

If this abyss giant is guarding the outside of this star, then he can't escape.

At this point, Ye Feng's eyes suddenly showed a hint of ugly.

Ye Feng did not expect that the giant emperor of the abyss giant family had such a chicken thief who had been secretly staring at the actions of herself and the ancient magic dragon.

After the ancient demon dragon left, he shot directly, trying to kill himself, plundering his talent ability.

At this time, Ye Feng did not hesitate to hesitate, and it was directly flying towards the core area of the previous core, that is, the other side of the stars and stars.

When Ye Feng returned to the core area, looking at the densely packed buildings floating in the void, Ye Feng prepared to look for the ancient magic dragon and let the ancient magic dragon help him fight against the abyss giant who did not keep his promise.

Swish!

At this moment, Ye Feng flew into the building complex in this core area.

When Ye Feng just walked into the first building, he immediately saw a golden Buddha covered in blood. He looked extremely ferocious and weird. His body was covered with dense blood-colored palms. As soon as he saw Ye Feng, he released a ferocious and monstrous breath, which almost shattered Ye Feng in an instant.

Ye Feng was shocked and quickly retreated and left this weird palace.

When Ye Feng entered the second palace, he immediately saw a weird creature with seven heads in this palace. His body was pitch black, and his eyes were emitting a faint green light. The breath he exuded was still suffocating and terrifying.

Ye Feng saw that there was such a strange creature in every palace in the core area, and it was extremely terrifying. Ye Feng naturally did not dare to continue exploring and quickly retreated.

At this moment, Ye Feng returned to the Great Array of Stars and Heavens, and there was no hope for him to find the Ancient Demon Dragon for help.

At this time, Ye Feng thought for a moment, and suddenly felt that the strength of this abyss giant was much worse than that of the Ancient Demon Dragon. Perhaps as long as he could continue to improve his strength, he could fight against this abyss giant.

At this moment, Ye Feng no longer hesitated, and found a secret place in the Great Array of Stars and Heavens, and directly took out the storage ring given to him by the Ancient Demon Dragon, ready to see how many cultivation resources the Ancient Demon Dragon left for him, and see if it could help him grow to be able to fight against the Abyss Giant waiting outside.

Chapter 5682: Strengthening Strength

At this time, there was a powerful enemy like the Abyss Giant waiting outside the Great Array of Stars.

Ye Feng could only open the storage ring given to him by the Ancient Demon Dragon in the internal space of the Great Array of Stars to see if there were any advanced cultivation resources in it that he could swallow and make his cultivation as strong as possible.

At this moment, Ye Feng opened the storage ring left by the Ancient Demon Dragon, and his eyes lit up immediately.

Because this storage ring was not empty, but full of all kinds of good things.

First, Ye Feng saw a beast core of some kind of ancient monster that was as big as a human head, floating in the space of this storage ring, emitting an extremely strong ancient demonic aura.

Ye Feng could feel in an instant that the beast core of this ancient monster contained very rich energy.

At this moment, Ye Feng naturally did not hesitate at all, and directly swallowed the ancient beast core the size of this human head.

At this moment, Ye Feng immediately felt that his skills had been greatly improved.

Because the demonic energy contained in the beast core of this ancient monster is so rich that it is just like a vast ocean.

At this time, Ye Feng could immediately feel that his cultivation aura was rapidly improving, and he directly broke through from the seventh level of the ethereal realm to the eighth level of the ethereal realm.

A small beast core allowed his cultivation to directly break through a whole level, which made Ye Feng very happy.

Because Ye Feng's strength is closely related to his cultivation realm, and Ye Feng's strength improvement is many times stronger than that of ordinary practitioners every time he breaks through.

So at this time, even if he only broke through one level, Ye Feng could feel that his combat power had been enhanced several times.

But this is far from enough.

Because Ye Feng knew very well that the abyss giant guarding outside the great formation of the stars in the sky was the giant emperor of the ancient abyss giant clan. Even though tens of thousands of years had passed and a lot of power had been lost, he was still very powerful. Although he was not as powerful as the ancient magic dragon, he was definitely a very terrifying guy.

So at this time, Ye Feng continued to explore the storage ring given to him by the ancient magic dragon.

At this moment, Ye Feng immediately found another good thing.

Ye Feng saw a pill as big as a human head. The pill was golden yellow, and there were many ancient symbols printed on the surface of the pill.

Seeing this scene, Ye Feng immediately understood that this pill was definitely very precious. It was very likely to be the legendary Dragon Soul Golden Pill. Only the ancient dragon clan could refine this high-level pill.

Ye Feng had seen the pattern of this high-level pill in an ancient book, but he didn't expect to see it in person one day.

At this time, Ye Feng naturally had no hesitation and swallowed the Dragon Soul Golden Pill as big as a human head.

Boom!

At this moment, Ye Feng once again got a huge amount of energy.

This huge energy was completely the medicinal power in the pill, very powerful, and also had the energy of the dragon source of the ancient dragon clan.

So at this time, after Ye Feng absorbed such a huge amount of medicinal power from the Dragon Soul Golden Pill, his cultivation power once again increased greatly.

The eighth level of the Void Realm that he had just broken through was accompanied by two rumbling sounds. Ye Feng broke through two levels in a row and stepped into the tenth level of the Void Realm.

At this time, Ye Feng clenched his fists and felt that his skills had been greatly improved again, and his combat power had increased by dozens of times.

But this was still far from enough.

Ye Feng needed to be even stronger to fight against the abyss giant outside.

At this time, Ye Feng continued to explore the storage ring given to him by the ancient demon dragon.

Finally, among a pile of things, Ye Feng once again found a good thing that could greatly enhance his skills.

It was a bottle of golden blood.

Ye Feng could sense the breath of very pure dragon blood in this bottle of golden blood.

Ye Feng even guessed that this bottle of golden blood must be the precious blood cultivated by the ancient demon dragon itself. It was left here for the purpose of using it to recover when he was seriously injured in the future, but now it has become a good thing for Ye Feng to strengthen his power.

At this moment, Ye Feng did not hesitate at all and immediately began to swallow the whole bottle of golden blood.

Boom!

At this moment, a huge amount of dragon energy was immediately injected into his dantian, and Ye Feng's power once again grew rapidly.

At this moment, Ye Feng's cultivation has broken through to the tenth level of the ethereal realm, and is at a bottleneck of a great realm.

But at this time, with the help of the golden blood in the whole bottle, Ye Feng's power broke through, directly breaking through the bottleneck of the tenth level of the ethereal realm, and stepped into a new level of cultivation above the ethereal realm, the first level of the divine realm.

At this moment, Ye Feng even broke through the bottleneck of the half-step divine realm in one fell swoop, and directly broke through to the real first level of the divine realm.

It has to be said that this bottle of golden blood is extremely precious. It allows Ye Feng to directly cross an entire realm and enter a new level of cultivation.

At this moment, after Ye Feng entered the first level of the Divine Heaven Realm, he felt the power of this new realm of cultivation and felt that his strength had increased hundreds of times compared to before.

At this time, Ye Feng finally had a little confidence and was able to fight the abyss giant outside.

However, at this time, Ye Feng did not blindly rush out of the Stars Array of the Heavens to fight the abyss giant, because Ye Feng wanted to continue to explore all the things in the storage ring left by the ancient magic dragon to see if there were other things that could enhance his real combat power.

Although in the end, Ye Feng did not find other good things that could directly improve his cultivation skills, but Ye Feng still found two key things that could improve his overall strength.

These two things are an ancient book, which is the powerful inheritance of the ancient magic dragon itself, the Ten Thousand Dragons Magic Heavenly Art.

In addition to this set of the ancient magic dragon's life inheritance, the second thing Ye Feng felt that could greatly enhance his overall strength was a long sword made entirely of bones.

A long sword made of bones exudes the breath of an ancient demon dragon. There is even ancient dragon blood on it, which is stained on the blade, giving people a very evil, but also very terrifying feeling.

Ye Feng suspected that this bone long sword was a weapon made by the ancient demon dragon using its own dragon bones. The weapon fluctuations contained in it are extremely terrifying, and are many times more powerful than the ice giant sword that Ye Feng had obtained before.

This is definitely a super magic weapon from tens of thousands of years ago.

At this moment, Ye Feng directly began to comprehend the peerless inheritance left to him by the ancient demon dragon, the Ten Thousand Dragons Demon Heavenly Art. At the same time, Ye Feng separated another part of his mind and began to refine the dragon bone long sword.

Chapter 5683 Deeply shocked

Ye Feng's mind was divided into two parts at this moment. One part was used to practice the peerless inheritance left by the ancient magic dragon, the Ten Thousand Dragons Magic Heavenly Art, and the other part was used to refine the super magic weapon left by the ancient magic dragon, the dragon bone long sword.

Ye Feng even suspected that the ancient magic dragon might know that there might be a very powerful existence who wanted to trouble him, so he specially left his inheritance and the most powerful magic weapon in the storage ring.

After all, for the ancient magic dragon, as long as he could successfully find what he needed in the deepest part of this core area and then enter the world of the higher dimensional world, his inheritance and magic weapons in the lower world would no longer be important, so it would be better to give them to Ye Feng.

At this moment, Ye Feng was naturally very grateful to the ancient magic dragon for considering so much for him and giving him all his wealth.

At this moment, Ye Feng was concentrating on refining.

With Ye Feng's continuous comprehension, Ye Feng finally successfully practiced the peerless inheritance of the ancient magic dragon, the Ten Thousand Dragons Magic Heavenly Art.

This set of inheritance is very powerful, much more powerful than the inheritance that Ye Feng practiced before, after all, it is the inheritance of an old monster tens of thousands of years ago.

In addition, after Ye Feng mastered the dragon bone long sword, he could sense that as long as he wielded the dragon bone long sword, he could burst out the terrifying power of the ancient dragon contained in this long sword.

At this moment, Ye Feng no longer hesitated, and directly raised the dragon bone long sword in his hand and flew quickly outside the great array of stars in the sky.

It was time for Ye Feng to settle accounts with the abyss giant who had always wanted to hunt him down.

At this moment, Ye Feng did not hesitate at all and rushed out of the great array of stars in the sky.

When Ye Feng left the great array of stars, he really saw the abyss giant, with a towering body of tens of thousands of meters, standing outside the great array of stars in the sky, waiting for him.

Seeing Ye Feng coming out on his own initiative, the Abyss Giant immediately sneered and said, "You kid finally ran out of strength and had to come out."

After the Abyss Giant finished speaking, he suddenly seemed to have discovered something. He couldn't help but stare at Ye Feng in surprise and said, "Something's wrong. How come your cultivation aura has suddenly become so strong? I didn't expect that you could break through a whole realm in just a few hours. It seems that you are really extraordinary, but this is useless. My cultivation realm is a full dozen realms higher than yours."

Ye Feng laughed at this time and said, "You have lost most of your strength in tens of thousands of years of imprisonment. I'm afraid your current cultivation strength is not even half of your peak period."

Hearing what Ye Feng said, the Abyss Giant immediately sneered and said, "Even if my current strength is less than half of my peak period, it's easy to kill an ant like you."

Almost at this moment, the Abyss Giant finished speaking and attacked directly.

A mighty wave of power like the ocean suddenly burst out from his body, and it directly covered Ye Feng.

Moreover, one of his palms was just like an ancient mountain, full of terrifying oppression, and it directly hit Ye Feng's head fiercely, trying to wipe out Ye Feng instantly.

Boom! !

However, at this moment, Ye Feng suddenly displayed the peerless inheritance taught to him by the ancient magic dragon, the Ten Thousand Dragons Magic Heavenly Art.

Boom!

At this moment, waves of terrifying power burst out from Ye Feng's body, and directly condensed tens of thousands of ancient magic dragons' power phantoms around Ye Feng, containing the power of the ancient magic dragon, and directly bombarded forward, and collided directly with the palm of the abyss giant.

Boom!

At this moment, a terrifying roar suddenly sounded.

At this moment, Ye Feng immediately felt an extremely terrifying power, and directly shattered the ancient magic dragon phantom he condensed.

But at this moment, Ye Feng also successfully resisted the mighty power of the abyss giant.

"What?"

At this time, the abyss giant saw that Ye Feng successfully resisted the attack of one of his hands, and immediately showed deep astonishment in his eyes.

Then he stared at the phantoms of the thousands of demon dragons roaring in the void around Ye Feng, and immediately understood something. He couldn't help but said in astonishment: "The ancient demon dragon actually passed on his life inheritance to you."

How is this possible? That guy is very arrogant and never takes anyone in his eyes. His life inheritance is even more impossible to reveal. I didn't expect that he actually passed on his life inheritance to you, and you kid actually learned it."

At this time, the emperor of the abyss giant clan was deeply shocked.

Because the ancient demon dragon was a very famous existence tens of thousands of years ago, and was famous for its arrogance.

Unexpectedly, after tens of thousands of years, the ancient demon dragon could actually take a fancy to such a young boy, and even passed on his inheritance to Ye Feng.

At this moment, Ye Feng smiled coldly and didn't say anything more.

Swish!

At this moment, Ye Feng directly took out the super magic weapon left to him by the ancient magic dragon, the dragon bone long sword.

At this moment, a long sword made of bones appeared in Ye Feng's hand, and he chopped fiercely in front of him.

At this time, Ye Feng actually took the initiative to attack the abyss giant.

Ye Feng input his magic power into the dragon bone long sword in his hand, and saw a terrifying blood-red sword light burst out from the dragon bone long sword immediately.

In this blood-red sword light, there seemed to be thousands of demon dragons roaring.

It must be said that whether it is the inheritance or the magic weapon left by the ancient demon dragon, it contains the power of the ancient demon dragon itself.

So whether Ye Feng is using the ancient demon dragon's life inheritance, the Ten Thousand Dragons Demon Heavenly Art, or activating the dragon bone long sword in his hand, he can exert the power of the ancient demon dragon.

So this kind of power is extremely terrifying. Even the abyss giant in front of Ye Feng, facing this crazy attack at this moment, can't help but retreat quickly.

"Impossible! Even if you have learned the inheritance of the ancient magic dragon and possessed his magic weapon, you can't burst out such a terrifying power!"

At this moment, the abyss giant felt deeply incredible.

Because he never thought that Ye Feng, a seemingly ordinary boy, actually possessed the power to repel him.

But what the ancient magic dragon didn't know was that Ye Feng's strength was not only based on the inheritance and super magic weapon he had obtained. Ye Feng's own combat power was far beyond Ye Feng's current cultivation level, so he could burst out such a terrifying power.

If it was really just an ordinary boy who used the inheritance and magic weapon of the ancient magic dragon, it would be impossible to exert such a powerful attack power.

Ancient God

Chapter 5684: Kidnapped

At this moment, although the ancient abyss giant felt very unbelievable about Ye Feng's true strength, this is a fact that cannot be changed and is a definite thing.

Ye Feng really has such a powerful force!

So at this time, the ancient abyss giant could only roar wildly: "Ancient giant power!"

Boom!

At this moment, the abyss giant seemed to have completely activated the power of the giant blood in his body and obtained the great power of the giant in ancient times.

I saw that his whole body size quickly increased again, directly from more than 10,000 meters before, directly increased to more than 30,000 meters, almost filling the entire underground space, full of extreme oppression, as if he could cause the mountains to collapse and the earth to crack with his hands and feet.

Seeing this scene, Ye Feng's eyes suddenly showed a look of surprise, as if he didn't expect that this ancient abyss giant actually had such a powerful blood power.

But at this time, before the other party could say anything, Ye Feng laughed and said, "Not only you have the power of the giant, I also have it!"

Boom! !

Almost at this moment, Ye Feng directly exploded the power of the giant inheritance bone that he had fused.

In the abyss giant's horrified eyes, Ye Feng's whole body began to expand rapidly, and directly expanded into a majestic giant with a height of more than 20,000 meters.

"What?"

The abyss giant saw this scene, and his eyes suddenly showed astonishment, and he couldn't help but exclaimed: "How is this possible?? How can you, a small human boy, have such a strong giant power? Did you fuse the inheritance bone of our abyss giant? This is impossible! The inheritance bone of our abyss giant clan can only be successfully fused by our own clan, how can you fuse it?"

At this moment, the abyss giant was extremely horrified, and it was unbelievable that Ye Feng could also become an ancient giant as powerful as him.

At this time, Ye Feng smiled coldly and said, "There are still many things you don't know."

Almost at this moment, Ye Feng directly activated the purple jade bracelet he had obtained before.

At this moment, Ye Feng activated the power of the Abyss Giant Clan King in the purple jade bracelet.

On the head of the giant that Ye Feng turned into, a huge giant crown suddenly condensed, allowing Ye Feng to possess the power of the ancient giant king.

Although the opponent is also the king of the ancient giant clan, Ye Feng's purple jade bracelet should be the super magic weapon left by the first generation of the king of the Abyss Giant Clan.

At this moment, Ye Feng activated the inheritance bone. After turning into this giant, Ye Feng can give full play to the power of the Abyss Giant Clan King in the purple jade bracelet.

At this moment, Ye Feng seems to be the real king of the giant clan.

Wearing a crown and holding the super magic weapon of the ancient magic dragon, the bone sword in his hand, Ye Feng directly bombarded the Abyss Giant in front of him fiercely.

Ye Feng released almost all his trump cards and strength this time. Even though the Abyss Giant was an ancient strongman from tens of thousands of years ago, he was no longer Ye Feng's opponent because his power was lost too seriously. He was directly beheaded by Ye Feng in the chaos and died completely.

At this time, Ye Feng's eyes were full of excitement. He didn't expect that he could kill such a powerful ancient strongman by fully exerting all his means and trump cards.

At this time, Ye Feng naturally would not waste anything. He directly released the Devouring Domain and began to frantically devour the blood energy and power of the Abyss Giant's body.

You know, this Abyss Giant is not an ordinary giant, but the emperor of the Abyss Giant Clan.

Although it is not known which generation of emperor he is, being able to become the emperor of the Giant Clan is enough to show that this Abyss Giant is definitely an extremely powerful existence.

After his death, the giant power contained in his body was still very powerful, and its energy was like the vast ocean. After Ye Feng swallowed it, he could immediately feel that the power in his Dantian was rapidly and continuously improving at an incredible speed.

At this moment, Ye Feng's cultivation bottleneck of the first level of the Divine Heaven Realm, which he had just broken through, began to break through rapidly and continuously.

Boom!

The second level of the Divine Heaven Realm!

Boom!

The third level of the Divine Heaven Realm!

Boom!

The fourth level of the Divine Heaven Realm!

Boom!

The fifth level of the Divine Heaven Realm!!

At this moment, Ye Feng's cultivation broke through several levels in a row and directly broke through to the fifth level of the Divine Heaven Realm.

At this moment, Ye Feng could feel that his power had increased hundreds of times.

This made Ye Feng couldn't help but sigh that he was worthy of being a living abyss giant. The energy contained in his body was indeed magnificent and terrifying to the extreme.

At this moment, Ye Feng left the scene directly, because there was nothing to find here.

Ye Feng was very fast, and in a blink of an eye he left the abyss and returned to the ground.

Ye Feng did not hesitate and quickly returned to Luoyue City, a large city in the battlefield outside the dark domain.

When Ye Feng returned to Luoyue City again, looking at the bustling crowd around him and the various buildings in Luoyue City, he felt that things had changed.

Because Ye Feng only felt that the experience of following Hongdie to the ruined city and the abyss was too shocking.

However, Ye Feng's experience this time has also improved Ye Feng's strength and comprehensive skills a lot. Not to mention Ye Feng's improved powerful skills, just the inheritance of the ancient dragon and the natal magic weapon that Ye Feng has obtained are enough to make Ye Feng It's well worth the trip, these things are absolutely priceless.

Because even in an auction in a large city like Luoyue City, it is impossible to have such a high-level peerless inheritance and peerless magic weapon from an old monster tens of thousands of years ago.

At this moment, Ye Feng re-entered Luoyue City and returned to the auction.

Ye Feng is going to find his old friend Hongdie and ask her to pay him.

After all, this time Hongdie was able to find so much wealth from the map left by his ancestors, and Ye Feng also helped a lot. Otherwise, Hongdie might have encountered mishaps just by relying on Hongdie alone.

But just when Ye Feng returned to the auction and was about to ask where Hongdie was.

People inside the auction told Ye Feng that Director Hongdie never returned.

"What?"

This news suddenly revealed a look of surprise in Ye Feng's eyes.

Logically speaking, Hongdie should have returned to the auction in Luoyue City from the abyss.

At this moment, Ye Feng took out the summons token that Hongdie had given him before, and wanted to use this summons token to ask where Hongdie was at this time.

After all, Hongdie still owes Ye Feng 10 million in compensation.

But at this time, when Ye Feng took out the summons token that Hongdie had given to him before, the voice that came out was not Hongdie's, but the voice of a man with a very fierce tone: "You are the auctioneer where Hongdie is?" A member of the Very good. They are probably Hongdie's companions when they went to the abyss giant's lair to hunt for treasure this time. Hongdie has been captured by our Black Wind Society people. If Hongdie doesn't die, he must pay a ransom of 30 million. Come to redeem and bring all the wealth that Hongdie obtained from the location marked on her ancestor's map."

At this moment, when he heard the strange man's voice coming from the communication token, Ye Feng immediately understood that Hongdie had the secret of the special map left by his ancestors, and had leaked the information, allowing the forces of the Black Wind Society to find out, so Hongdie was kidnapped.

Chapter 5685 Black Wind Society

Ye Feng never thought at this time that Hongdie, the person in charge of the auction, would be kidnapped by a force called the Black Wind Society.

At this time, Ye Feng suddenly understood. It seemed that the map left by the ancestors of Hongdie was too eye-catching. After revealing the news, he was immediately targeted by vicious forces like the Black Wind Society. .

At this time, Ye Feng naturally did not hesitate at all. He directly followed the guidance of the voice in the summons token and soon arrived at a remote place in the southwest area of Luoyue City.

This is already the most fringe place in Luoyue City, and the power of the city lord's palace sometimes cannot reach this place.

Because this place is connected to the chaotic area of the battlefield outside the dark territory, the three religions and nine streams and various forces here are very complicated. The Black Wind Society is a very powerful and vicious force in this chaotic land.

At this moment, Ye Feng walked directly in front of the Black Wind Club.

Ye Feng naturally did not notify Hongdie of the auction, because there was no need for it. Ye Feng was now strong enough, and Ye Feng would not have any fear when attending the auction alone.

At this moment, Ye Feng arrived at the headquarters of the Black Wind Society. He came directly to the gate of the Black Wind Society, and then shouted directly to the inside and said: "I am Hongdie's friend, and it was you who passed the summons." Let me come here."

Hearing Ye Feng's words at this time, the Black Wind Club seemed to have been prepared. At this moment, a large group of masters wearing black clothes, who should be members of the Black Wind Club, suddenly swarmed towards Ye Feng. The attack came from a different direction and instantly surrounded Ye Feng.

At this moment, Ye Feng sensed the cultivation strength of these people, which was still very good. They were worthy of being extremely powerful and vicious forces in Luoyue City, and their overall background was pretty good.

If it were Ye Feng before, he might have been a huge threat, but for Ye Feng, whose cultivation strength has undergone a qualitative transformation, these masters are nothing in Ye Feng's eyes.

At this moment, Ye Feng just smiled coldly, stared at the many masters of the Black Wind Association, and said loudly: "There is no use for someone who is qualified to talk to me to rely on some trash fish."

Hearing what Ye Feng said, a group of masters from the Black Wind Society around him immediately showed cold expressions on their faces and said loudly: "Boy, are you a little too confident? Your cultivation is not as good as ours." That's about it, but we have dozens of experts."

At this moment, a young man holding a snow-white sword in his hand, who was a master of the Black Wind Society, came directly in front of Ye Feng and said, "I'll give you a blow first."

Boom! !

Almost at the moment when the young man finished speaking, he held the long knife in his hand and slashed directly in the direction of Ye Feng. He wanted to cut off one of Ye Feng's arms first and give Ye Feng a small chance. A small lesson.

But almost at this moment, when Ye Feng faced this master of the Black Wind Society whose cultivation level was much higher than his own, there was no fear on his face. Instead, he smiled faintly and said: "You can't help but You think too highly of yourself. Although your cultivation level is much higher than mine, in my eyes, you are just a waste."

Almost at the moment when Ye Feng's words fell, Ye Feng faced the steel knife that the young man was slashing at and casually flicked his fingers.

Ye Feng's finger was like an indestructible iron rod in the world. It instantly shattered the steel knife in the young man's hand, and then shattered the young man's entire head. He was killed on the spot in an instant.

"What??"

Seeing this scene, a group of dozens of Black Wind Club masters around them couldn't help but take a breath of air.

They never thought that Ye Feng's cultivation level was not that high, but his true combat power was so powerful and terrifying.

At this moment, an old man wearing a black robe stepped out from the crowd.

The old man in black robes also held a skull scepter in his hand. He seemed to have a very extraordinary status in the Black Wind Society.

The old man in black robe with the skull scepter in his hand immediately stared at Ye Feng, smiled coldly, and said loudly: "As expected of Hongdie's partner this time, he is indeed extremely powerful, but it is of no use. , Red Butterfly is in our hands. If you want your friend to survive, you have to do it yourself now. I have torn off one of my arms as the price for provoking our Black Wind Society, and then donated all of your wealth, especially the wealth of the abyss giants that you and Hongdie obtained in the abyss. Come out, so that I can let your friend Hongdie leave."

Hearing the black-robed old man threatening himself with Hongdie's life, Ye Feng suddenly laughed and said, "Threats are of no use to me."

Boom!

At this moment, the moment Ye Feng finished speaking, a terrifying force burst out from his body, and he stretched out a hand.

This hand immediately turned into the palm of a giant, completely destroying the entire headquarters base of the Black Wind Society, and then grabbed a prison cell under the ground, directly imprisoning the prisoner. The red butterfly was captured.

During the nonsense of Ye Feng and the masters of these black winds just now, Ye Feng has already secretly released his huge soul power, covering all parts of the headquarters of the entire Black Wind Club. Essence

So now the old man who holds the skeleton scepter, who wants to use the life of Red Butterfly to threaten himself, naturally has no use.

Ye Feng's sudden attack now broke the defense of the entire Black Wind with a strong brute force and rescued the red butterfly. Threat Ye Feng.

"What? This kid is so powerful?"

"And he also found the position of the imprisonment of the Red Butterfly. How could this be? How did he do it?"

At this moment, all the masters of the black wind showed a deep surprise on their faces.

Because Ye Feng's move was too shocking.

At this moment, Ye Feng just smiled coldly and awakened the red butterfly from a coma.

At this time, the Red Butterfly saw that Ye Feng came here alone and rescued himself. He even had to face the entire black wind party alone. It was very moved. Sorry, I will bother you. "".

Ye Feng grinned and said, "You still owe me 10 million in the executive of Red Butterfly, I will naturally not let you die."

When he heard Ye Feng's so ridiculous words, the Red Butterfly was extremely moved.

Chapter 5686 Nine Elders

At this time, Ye Feng talked to Hongdie, and then his eyes turned very cold. He stared at the entire Black Wind Society not far away, and said with a smile: "Next, it's time for revenge."

At this time, Ye Feng awakened Hongdie's consciousness and crushed all the chains that restricted Hongdie's cultivation.

At this moment, Hongdie also recovered all her strength, and a terrifying murderous aura emanated from her body.

At this time, Hongdie's eyes were extremely cold, and she said, "This Black Wind Club is really too much, but Ye Feng, it may be difficult for the two of us to defeat the entire Black Wind Club. After all, the Black Wind Club has a very deep foundation, and the president of the Black Wind Club is an extremely powerful existence, a well-known strong man in Luoyue City."

Hearing Hongdie say this at this moment, Ye Feng smiled confidently and said, "Don't worry, this time I came back from the abyss, my strength has undergone earth-shaking changes, and I don't need to rely on the power of the auction behind you."

Ye Feng knew very well that if he left here now, the Black Wind Club would probably make active preparations, and it would be many times more difficult to break through the Black Wind Club at that time.

In addition, Ye Feng also had some selfish motives of his own.

Because Ye Feng knew very well that if he and Hongdie returned to the auction where Hongdie was now, and let the strong men behind the auction take action, most of the wealth of the Black Wind Club would probably be obtained by the auction behind Hongdie.

But now there are only two of them, so if they can kill the Black Wind Club, the wealth is basically obtained by Ye Feng alone.

So Ye Feng laughed loudly at this time, and rushed directly towards the direction of the Black Wind Society, saying: "The Black Wind Society is nothing, I am enough."

At this moment, Ye Feng did not hesitate at all, and immediately burst out the power of the Abyss Giant Inheritance Bone that he had merged.

Boom!

At this moment, Ye Feng's whole body began to expand rapidly, and he expanded directly on the spot into a towering giant with a height of more than 20,000 meters.

After that, after Ye Feng turned into the real body of the Abyss Giant, he directly destroyed the Black Wind Society crazily.

Ye Feng has now become the real body of the Abyss Giant, and both his defense and attack power are terrifying to an extreme.

Although the foundation of this Black Wind Society is very good and there are many masters, after Ye Feng turned into the Abyss Giant, under this terrifying attack, there is no way to defend, and they are directly killed one by one.

Because these people can't even break Ye Feng's defense.

At this moment, seeing Ye Feng's powerful strength, Hongdie, who was not far away, immediately showed a look of surprise in her eyes. It seemed that she did not expect that in just a few days, Ye Feng would become so powerful in the abyss.

At this moment, Hongdie suddenly became a little curious. She didn't know what Ye Feng had experienced in the abyss during this period of time, and he became so powerful all of a sudden.

At this time, Hongdie no longer hesitated. Seeing that Ye Feng had such a powerful strength, she also gave it her all and attacked the members of the Black Wind Society with Ye Feng quickly.

In fact, Hongdie's own strength is not weak. After all, to be able to become the director of a large auction, Hongdie's own cultivation is still very high.

It's just that on her way back, she was secretly attacked by the people of the Black Wind Society, which restricted her cultivation, so she has been imprisoned in the prison of the Black Wind Society.

Now Ye Feng has awakened Hongdie's consciousness and helped Hongdie open the shackles on her body. Hongdie can naturally exert her due strength.

At this moment, Hongdie followed behind Ye Feng, quickly killing those members of the Black Wind Society who were not particularly powerful.

And Ye Feng was naturally the main force, frantically destroying and killing the members of the entire Black Wind Society.

On the one hand, Ye Feng was avenging Hongdie, and on the other hand, the cultivation strength of these members of the Black Wind Society was still very good. After killing them, they could provide Ye Feng with huge blood energy.

In addition, this Black Wind Society has been doing evil in Luoyue City for so many years, and getting rid of the Black Wind Society is also a favor to the Lord of Luoyue City.

In addition, the Black Wind Society, such a vicious force, must have stored huge wealth in the accumulation of so many years. After Ye Feng was ready to destroy the entire Black Wind Society, he must find the treasure house of the Black Wind Society to see if there is a huge amount of wealth in the Black Wind Society treasure house.

At this moment, just as Ye Feng was constantly killing, suddenly nine old men in golden robes flew out from the inner area of the Black Wind Society.

These nine old men in golden robes should be the nine elders of the Black Wind Society. They have extremely powerful strength. Each of them is three or four realms higher than Ye Feng. They are definitely the top masters in Luoyue City.

They stared at Ye Feng in an instant. Seeing that Ye Feng had destroyed the headquarters of the Black Wind Society, they immediately said angrily: "Good boy, you are so bold! You will definitely die today!"

At this moment, the nine golden-robed elders of the Black Wind Society immediately formed a ring and surrounded Ye Feng in the sky.

At this moment, a golden sword appeared in the hands of each golden-robed elder of the Black Wind Society.

When the nine swords were combined, they immediately condensed into an extremely huge golden giant sword, just like the sword of the ancient sword god was revived, with terrifying power that could cut the sky and the earth.

At this moment, this golden giant sword gathered the terrifying power of the nine golden robe elders and rushed towards Ye Feng, making Ye Feng feel that his giant body was about to be chopped to pieces.

At this time, Ye Feng was not afraid, but laughed out loud and said: "Finally, there are a few people who can make me serious."

At this moment, Ye Feng directly performed the Ten Thousand Dragons Demon Heavenly Art. In addition, Ye Feng also took out the peerless magic weapon dragon bone long sword left to him by the ancient magic dragon.

Ye Feng held the bone sword in his hand and chopped at the golden giant sword that was bombarding from the front.

Boom! !

The two giant swords collided with each other, and immediately a terrifying roar broke out on the field.

The next moment, what shocked the nine golden-robed elders of the Black Wind Society was that the seemingly inconspicuous bone sword in Ye Feng's hand actually shattered the golden giant sword formed by the nine swords combined.

"What?"

Seeing this scene, one of the golden-robed elders suddenly widened his eyes and couldn't help but said in horror: "This is impossible! The nine golden swords in our hands are fragments of ancient magic weapons. They can exert the power of ancient magic weapons when they are condensed together. How can this ordinary-looking bone sword in your hand fight against the magic weapons in our hands?"

At this time, Ye Feng laughed and said: "The sword in my hand is not an ordinary bone sword, but an old monster tens of thousands of years ago, an ancient magic dragon made a peerless magic weapon with its own dragon bones. These fragments of ancient magic weapons in your hands, barely put together, can't exert the real power of ancient magic weapons at all. It's normal that they were broken by my sword."

Ancient God

Chapter 5687 Saint Throne

At this time, the nine elders of the Black Wind Club were deeply shocked in their eyes.

Because they did not expect that Ye Feng's strength was so powerful, and a long sword of a bone bone that Ye Feng took out casually had such horrible sharpness and destructive power. The soldiers were fragmented.

At this moment, Ye Feng smiled coldly, and he did not give any time to the nine old robe elders at all, and rushed directly to the elder of the Golden Robe.

"Oh!"

The elder of the golden robe even had no time to respond. It was directly cut off the neck by the keel sword in Ye Feng's hand and fell directly from the high altitude.

"Run !!"

At this time, the remaining elders of the remaining gold robe were frightened at once.

They know that they cannot be Ye Feng's opponent at all.

So at this time, even these powerful elders couldn't help but flee around quickly.

At this time, Ye Feng would not give them a chance to escape.

Because of the members of these black winds, Ye Feng naturally wants to kill them all, otherwise, leaving one is a disaster.

So at this time, Ye Feng was directly exerting the inheritance of the powerful ancient magic dragon to himself, and the dragon magic.

At this moment, the skill in Ye Feng's body was like boiling water, and it was boiling at once, and then the black dragon virtual shadow was condensed around Ye Feng.

Although it is only a virtual shadow, it has the power of the ancient magic dragon, which is directly impacted by the madness around, and suddenly the eight elders who have escaped the remaining eight gold robes are all killed.

At this moment, Ye Feng was directly released in the field of swallowing, and all the blood and energy of the strong men who were killed by himself were devoured.

Ye Feng's skills immediately started to grow rapidly.

boom!

Shen Tianjing Six Sky!

boom!

Shen Tianjing Seven Heaven! Intersection

At this moment, Ye Feng's Xiuwei suddenly broke the two days and stepped into the seven days of Shentian.

At this moment, Ye Feng's skills have grown up, naturally very happy.

The members of these black winds will eventually contribute a lot of power to themselves.

And when Ye Feng thought about it.

Boom!

Suddenly at the deepest part of the dark wind, a golden landscape suddenly impacted on the sky.

The next moment, a figure sitting on the golden throne appeared in this golden light, like an ancient god, overlooking all beings.

Alas!

At this moment, the Red Butterfly flew over not far away, flying to Ye Feng's body, and his face said very dignifiedly: "Ye Feng, this person is the chairman of the Black Wind Club, it is the city of the city. The well-known strong is very powerful. You are careful. It is said that he also got a prefecture left by the ancient saint from the outbound battlefield.

Ye Feng nodded, and there was no fear at all, but looked at the president of the black wind, smiled slightly, and said, "You are the chairman of the Black Wind? Dare to come out early? "

Hearing that Ye Feng seems to be a little ironic, the chairman of this black wind will not be angry. He just stared at Ye Feng coldly and said, "You are very courageous. Before I was in the retreat, I did not expect that the elders of the nine majority fell in your hands, but you will be killed by my own hands and sacrifice their heroic spirit. "

The chairman of the Hengfeng meeting said that Ye Feng's eyes did not fluctuate, but just smiled and said, "Then see the true chapter of your hand."

Boom!

Almost at this moment, Ye Feng was directly urging the power of the giant's true body. He held the long sword in his hand and chopped it in front of him. Each sword light contained the power of the ancient demon dragon. It was directly bombarding to the chairman of the Black Wind Council.

At this moment, the president of the Black Wind Club seemed to have a very flat expression, and he didn't care about Ye Feng's attack.

He just waved his hand casually, and the golden light shrouded in him directly formed a layer of energy barrier to block Ye Feng's sword gas and sword light.

The long sword in Ye Feng's hand could not break the golden energy barrier of the President of the Black Wind Council.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly showed a surprise.

Ye Feng can feel that although the chairman of the black wind will be four or five high than himself, Ye Feng is now in a giant state, and he still holds the keels given to himself with the ancient demon dragon to himself. Long sword, in reason, Ye Feng's attack power is enough to hurt the chairman of this black wind. I did not expect to be blocked by the other party so easily.

At this time, Ye Feng seemed to see something through, and suddenly said, "The reason why this layer of golden barrier is so strong is not your own strength, but the power of the golden seat you sit in. Your golden seat is not used for decoration, but a very powerful magic weapon, isn't it? "

Hearing Ye Feng said so, the president of the black wind seemed to finally show a surprise, and then said, "Your eyesight is good, but this has no use. You even have my defense. If you can't open it, you have no threat to me at all, and you will only be killed by me in the end. "

Alas!

At this moment, a huge bow and arrow suddenly appeared in the hands of the chairman of the black wind.

He pulled the bow string sharply, and a golden arrow immediately condensed on his bow string, directly piercing the void, impacted by the leaves of the leaves, and "fluttered" in an instant. One arm of Ye Feng.

Ye Feng's giant is true, he can directly break the defense.

At this moment, Ye Feng felt the pain, but did not scream, but said with a cold smile: "Your attack is not related to me."

At this moment, Ye Feng had no hesitation. He rushed forward, holding the long sword in his hand, and madly slashed towards the golden barrier around the black wind chairman.

Seeing this scene, the president of the Black Wind Society smiled coldly and said, "No matter how many swords you cut out, you can't break the golden barrier released by my golden seat. This is the throne of the saints of the ancient saints. You can't even open my defense. Today you will die. "

But at this time, Ye Feng just showed a strange smile on his face, and said, "This is just my means to interfere with you."

Om!

Almost at the moment Ye Feng's tone fell, Ye Feng instantly released his soul power.

Ye Feng directly released the soul attack, and instantly attacked the spirit and soul of the President of the Black Wind Council, so that the other party was invincible.

Although the golden barrier released by this golden seat has a very powerful defense force, it can only defend the physical attack, and it is impossible to defend the attack on the spirit and soul.

So at this moment, the president of the black wind would not have a proud smile, and was attacked by Ye Feng's huge soul. It was hit hard.

"ah!!"

His painful howl said, "It's impossible! How could you be a legendary soulmate?"

Chapter 5688: A close relationship

At this moment, the chairman of the Black Wind Club is extremely incredible.

Because he did not expect that Ye Feng not only had a powerful martial arts power, but also could directly attack the enemy's soul power. Essence

At this time, Ye Feng did not give any time to this Black Wind.

Seeing the spirit and soul of the black wind meeting, the soul was hit hard. Ye Feng immediately immediately took a fierce sword and chopped it out.

At this time, the soul and spirit of the President of the Black Wind Society suffered serious injuries, so he never had the previous control of the golden sage throne under his seat. Breaking the defense of the golden barrier, and slashing fiercely on the chairman of the Black Wind Club.

"Well"!

The chairman of the black wind will make a shocking scream.

He was directly split into two halves by Ye Feng, and instantly died under the attention.

"What?"

Seeing this scene, the red butterfly eyes not far away suddenly showed a surprise. It seemed that Ye Feng did not expect that Ye Feng would solve the chairman of the Black Wind.

Ye Feng attacked the spirit and soul of President Black Wind with his soul power. Other people around him couldn't find it at all. He only thought that Ye Feng and the Black Wind Association were in the battle between various inheritance.

So even the Red Butterfly, I still don't know that Ye Feng just won by his strong soul.

At this time, Ye Feng was directly released the chairman of the devouring field and began to devour the black wind.

Boom!

At this moment, a huge energy was instantly injected into the Dantian of Ye Feng.

You know, the chairman of this black wind will be four or five major realms higher than Ye Feng, so the skills and energy he provide are extremely majestic and magnificent.

After Ye Feng got the power of the President of the Black Feng Council, he devoured it into his body. Naturally, Ye Feng's ability to cultivate the skill, and immediately he would grow quickly.

boom!

God of Heaven Eight Heaven!

boom!

Shen Tianjing Nine Heaven!

boom!

The gods of the sky are all the heavens! Intersection

At this time, Ye Feng's cultivation was to be crazy to the heavenly realm of the world, so that Ye Feng felt his skills and combat effectiveness, all of which had gained unprecedented growth.

At this moment, Ye Feng can feel that his strength has also increased by hundreds of times.

I have to say that the president of this black wind will indeed be a very powerful strong. The energy he provides can be said to be very huge. It is indeed a controller of a fierce force.

At this moment, after Ye Feng devoured the chairman of the Black Wind, his eyes fell on the throne of the sage who floated on the sky alone.

This golden throne is said to be the throne of ancient saints, with the power of very powerful saints.

At this moment, Ye Feng was still very interested in the throne of this sage. After all, the golden barrier inspired by the throne of the saint, the defensive power was amazing, and the super magic weapon left to his own dragon left by the ancient demon dragon could not break the sage. The defense of the golden barrier released by the throne.

And you know, the golden barrier of this sage is still the barrier that is not too powerful in Black Wind.

If the throne of the saints is used by Ye Feng, maybe more powerful defense or other forces can be burst.

After all, Ye Feng does not believe that the function of an ancient saint's throne is just as simple as defense.

At this moment, Ye Feng did not hesitate to hesitate, and he directly paid the throne of the sage to his storage ring.

After Ye Feng is ready to wait for the solution here, you can study whether there are other functions and functions of this sage throne.

At this moment, Ye Feng killed the members of the entire Black Wind Club, and even the chairman of the Black Wind Association was killed.

Alas!

At this time, the Red Butterfly flew in front of Ye Feng, and said very excitedly: "Ye Feng, you really did it, fighting the entire black wind party with one person, and even the chairman of the Black Wind Club The well -known big characters in the city are beheaded by you under the sword. "

And when the two said, a group of people suddenly flew not far away.

This group of people is wearing golden armor.

Ye Feng recognized at a glance that this was the guards in the main house of the moon city.

At this moment, a young man in a golden armor headed was very heroic.

He came to not far away for a moment, watching the whole black wind was destroyed, and his eyes suddenly showed a deep shock.

At this moment, even the strong guards in the main house of the city of the city of the city are very noble. At this time, the whole black wind will be destroyed, and it will show an incredible look on his face.

He stared at Ye Feng and couldn't help but say, "Is all this done?"

Ye Feng smiled slightly at this time and said, "Of course."

Hearing Ye Feng's answer, this young man wearing golden armor did not dare to have any impression of Ye Feng at all.

Because he knew very well that he was able to destroy the huge vicious forces of the entire dark wind in an instant. Ye Feng, a young man who seemed to be mediocre, how terrifying his strength.

So at this time, the young man wearing a golden armor immediately couldn't help holding his punch and said, "In the main house of the city of the city, I now represent the main city of the city. I want to ask. Is it the enemy of our entire moon city? "

At this moment, even if he knows that Ye Feng may be an enemy, the golden armor guard did not dare to shoot Ye Feng as soon as he came up, but maintained a very respectful and politeness.

Because he knows that people like Ye Feng cannot provoke it at all. Even if the moon city is a large city in the field of field battlefields, in the face of Ye Feng's level of combat power, you dare not declare war casually. Instead, you must ask. To determine the situation, even he might still be willing to pay some costs to let Ye Feng's evil stars hurry away and leave the moon city.

At this moment, when I heard the other party asking, Ye Feng laughed, and then said with a smile: "Don't worry, there is no grievances with the main house of the city of your lunar city. The fierce forces of everyone shouted by the wind will be removed because he provokes my friends, and I and your city's main house have a lot of origin. My sister Murong Qingqing is the niece of the master of the city of your lunar city. Murong South City, the master of your city, also had a relationship with one side, my name is Ye Feng. "

At this moment, after Ye Feng said such a word, he was directly facing with the red butterfly, and the internal area of the Black Wind would fly quickly.

Because Ye Feng wanted to find the treasure house of Heifeng.

This black wind will be the huge and vicious forces in the lunar city, and it must have accumulated huge wealth. Naturally, Ye Feng will not miss it.

At this moment, seeing the back of Ye Feng and Red Butterfly, this golden armor young man's eyes showed a deep shock.

He didn't expect that this horrible character turned out to be the brother of Murong Qingqing, the main palace of their city.

After all, in the eyes of everyone, Ye Feng was just a very ordinary young man, but it was just an ordinary outside disciple in the Dark God.

However, I did not expect that the opponent's strength was so horrible.

At this time, this golden armor guard immediately couldn't help but murmured, "I have to report this situation to the city master."

Ancient God

At this time, Ye Feng didn't care what the guards of the City Lord's Mansion thought, but followed Hongdie and flew directly to the deepest area of the Black Wind Society.

At this moment, Hongdie's eyes also showed a trace of expectation, and said: "The Black Wind Society is a very well-known vicious force in our Luoyue City, but because the Black Wind Society is very vicious, it has accumulated a lot of money and various treasures over the years, which should be piled up in the treasure house of the Black Wind Society. If we can find the treasure house of the Black Wind Society, then Ye Feng, you will really make a fortune. The wealth of the Black Wind Society is probably not much less than our auction."

Hearing Hongdie say this, Ye Feng nodded immediately, and his eyes also showed a trace of expectation. He directly emitted a huge soul power and covered the surroundings, trying to find where the treasure house in the Black Wind Society headquarters was.

At this moment, Ye Feng quickly found the specific location of the Black Wind Society's treasure house.

Swish!

At this moment, Ye Feng flew directly towards a building below.

Ye Feng soon landed in front of a building that looked like an ancient castle.

At the entrance of this castle, there was a large golden iron gate, which was completely closed. Ye Feng sensed the fluctuations of many treasures, including the fluctuations of some cultivation resources, all of which were emitted from this building that looked like an ancient castle.

In other words, this ancient castle should be the treasure house of the Black Wind Society.

At this moment, Hongdie's eyes lit up and said, "Yes, this is the treasure house of the Black Wind Society. The auction behind me once sent people here and had a transaction with the Black Wind Society. I was in this team at that time, but I had not yet become the director of our auction."

Hearing Hongdie say this, Ye Feng immediately nodded, holding the dragon bone long sword in his hand, and chopped directly at the golden gate of the castle in front.

Boom! !

Accompanied by a huge roar, the golden gate of the castle was directly split in half by Ye Feng with the dragon bone long sword.

Although the door of this treasure house is made of special golden metal, it is very strong and can defend against most damage.

But the dragon bone sword in Ye Feng's hand is a peerless magic weapon left by the ancient magic dragon to Ye Feng, which contains the power of the ancient magic dragon.

Even the sturdy door of the treasure house of a big force like the Black Wind Society cannot stop the attack of Ye Feng's dragon bone sword.

At this moment, Ye Feng split the door of the treasure house and walked directly into it.

At this moment, Ye Feng immediately saw a lot of wealth piled up in it.

Ye Feng was about to look for it.

But suddenly at this time, many other practitioners from the chaotic area of Luoyue City flew in one after another.

These should be wandering warriors mixed in the surroundings, including some vicious killers and so on.

They all gathered here, their eyes were full of greed, staring at the treasure house of the Black Wind Society.

At this moment, Ye Feng saw this scene and was too lazy to pay attention to anything, and was ready to enter the treasure house of the Black Wind Society directly.

But suddenly, at this moment, several fierce-looking warriors among the hundreds of wandering warriors in the chaotic zone gathered around, took the lead and said: "The treasure house of the Black Wind Society is the place with the most wealth in our chaotic zone. Isn't it a bit bad for you to take it all by yourself?"

Although these people knew that Ye Feng was very powerful, there were hundreds of fierce and powerful people present.

These leading warriors seemed to want to put pressure on Ye Feng and let him share the treasure house of the Black Wind Society.

This situation is very common in this chaotic zone. If a big force suddenly collapses, it will cause many fierce wandering warriors to fight for wealth.

But at this time, Ye Feng didn't even look at these fierce and powerful people who took the lead, and directly chopped them from behind with a sword.

Boom!

A terrifying sword light burst out from the dragon bone long sword in Ye Feng's hand, and instantly cut these fierce and powerful people into several pieces.

The leaders were killed instantly by Ye Feng, which made the other hundreds of fierce warriors around them look deeply horrified.

The fierce warriors who led the group just now were all well-known warriors in this chaotic area, but they were unexpectedly killed by Ye Feng with one sword.

At this time, everyone finally understood that a warrior like Ye Feng could not win by relying on the human wave tactics.

So at this moment, the hundreds of fierce wandering warriors who were surrounded by them all looked terrified and left here in a hurry, fearing that Ye Feng would kill them all in anger.

At this moment, Ye Feng dealt with this episode and directly entered the treasure house of the Black Wind Society.

At this moment, Ye Feng directly released a huge soul force, covering the entire internal space of the Black Wind Society's treasure house.

Ye Feng gave priority to those cultivation resources that could directly improve his cultivation skills.

It has to be said that the Black Wind Society is indeed an extremely vicious force in the surrounding area. The wealth accumulated in their treasury is enormous, which naturally includes a lot of cultivation resources.

For example, there are many high-level elixirs robbed from some alchemy forces around, and there are many high-level ores in the veins, which should have been robbed from the surrounding mining areas.

These things are very rich in energy for Ye Feng.

At this moment, Ye Feng began to devour directly, and a huge energy immediately made Ye Feng's cultivation stronger.

Boom!

At this moment, Ye Feng's body suddenly burst out with an extremely powerful cultivation momentum.

At this moment, Ye Feng's cultivation realm directly crossed the bottleneck of the tenth level of the God Realm, and directly broke through to a new realm of cultivation above the God Realm, the God Hall Realm!

At this moment, Ye Feng took advantage of the extremely rich cultivation resources in the Black Wind Club's treasure house, not only directly crossed the bottleneck of the tenth level of the God Realm, stepped into the real God Hall Realm, and even directly broke through to the third level of the God Hall Realm, which made Ye Feng's cultivation undergo a qualitative transformation.

At this moment, Ye Feng could feel that his combat power had increased by hundreds of times after crossing a whole realm.

At this time, Ye Feng plundered all the other treasures in the Black Wind Society's treasury, such as powerful weapons, high-level inheritances, and many ancient artifacts, all of which were plundered into his storage ring, which was equivalent to emptying the entire Black Wind Society's treasury, and then quickly left the scene.

When Ye Feng and Hong Die returned to the auction where Hong Die was, the golden armored guard of the City Lord's Mansion that Ye Feng had seen before actually came to the door of the Red Butterfly Auction in advance and waited.

When he saw Ye Feng, he immediately said very respectfully: "Lord Ye Feng, our City Lord invites Lord Ye Feng to the City Lord's Mansion to have a chat, saying that there is something important to discuss with Lord Ye Feng."

Ancient God

Chapter 5690 It's nothing

At this moment, when he heard this golden armor guard said, Ye Feng's eyes suddenly showed a surprise.

Ye Feng did not expect that the city owner of the city, the third uncle of Murong Qingqing. Such a big man would invite himself to go to the main house of the city in person. He had to discuss with himself and not know what it was.

At this time, Ye Feng thought about it, and then said, "You go back and tell you the master of the city, I will definitely go to the appointment, but now I still have some things in this auction. past."

Hearing Ye Feng's saying so, the guard of the golden armor hugged and held his punch respectfully, saying, "Okay, I will convey the meaning of Lord Ye Feng to the city master."

After speaking, this golden armor guard continued to say, "Then I will go directly to the main government of the city now, and I will not disturb the things of Lord Ye Feng in this auction."

At this moment, after the golden armor guard said, he left the scene directly.

At this time, the red butterfly looked at the figure of the golden armor of the far away and looked at the Ye Feng beside him. He couldn't help laughing and said, "Ye Feng, it seems that you will destroy the entire Black Wind will this time. It is completely famous in the whole moon city. Even if it is a place where the main house of the city is so powerful, you will invite you to go. "

When I heard Hong Die said this, Ye Feng smiled and said, "It doesn't make much sense for me, what I want is the actual benefit."

At this time, Ye Feng looked at the red butterfly and said with a smile: "Then you owe my 10 million compensation, now you should give it to me."

When he heard Ye Feng said, the Red Butterfly smiled slightly and said, "Of course, you follow me."

At this moment, the Red Butterfly came to the deepest part of the auction with Ye Feng and came to the auction warehouse.

Next, the Red Butterfly took 10 million to Ye Feng from his own storage ring, and then said, "This million, do you want to continue to buy things in the warehouse of our auction?"

When I heard Red Butterfly said, Ye Feng nodded and said, "Of course, the reason why the city of the ruined city was exploring the abyss with you before, just to earn enough remuneration, and in the warehouse of your auction, you can be able to earn enough compensation. , Buy all the cultivation resources I have n't bought before.

Next, Ye Feng directly re -gave the Red Butterfly again, and then from the warehouse of this auction, all the cultivation resources he had not purchased before were purchased.

At this time, Ye Feng was naturally very happy.

Ye Feng did not hesitate in the following, and directly swallowed these cultivation resources.

"Boom Rondon ..."

A huge energy was injected into Ye Feng's Dantian again.

Ye Feng has just broken the three days, and once again began to improve quickly.

boom!

Shentang realm!

boom!

The five days of Kamitta!

boom!

Six Heavens in Kamitta!

boom!

Kamitta Seven Heaven! Intersection

At this time, Ye Feng's cultivation was based on the entire 10 million cultivation resources, which directly broke through the full four days and stepped into the seven days of Kamitt.

At this time, Ye Feng's power has once again increased, making Ye Feng very happy.

At this moment, looking at Ye Feng's rapid improvement, the red butterfly standing aside is naturally incredible. Energy becomes your own skill, allowing your cultivation to quickly improve, this ability is a bit incredible. "

At this time, the Red Butterfly can be said to have sincerely admired, because she has been following Ye Feng's body during this time, and she saw Ye Feng's strength with his own eyes. Know how many times it will be increased.

This is just a few days!

At this moment, Ye Feng just smiled slightly, looked at the red butterfly, and said, "Since the matter here is over, then I should leave."

Red Butterfly couldn't help asking, "Will you come back in the future?"

Ye Feng said with a smile: "As long as there are good things, help me keep it, I will definitely come back. After all, we are a good friend now."

Hearing Ye Feng's answer, Red Butterfly is naturally very happy.

Because in the eyes of Red Butterfly today, Ye Feng is not just as simple as friends. It can be able to do a good relationship with young people with unlimited potential with Ye Feng. For the red butterfly itself, the entire auction behind the Red Butterfly is the entire auction. It has great significance.

Alas!

At this moment, Ye Feng bid farewell to the Red Butterfly, and flew quickly towards the main house of the city of the city.

Ye Feng was a little curious. I do n't know that the master of the city owner in the city of the moon, so he asked his golden armor guard to come to himself, saying that there was something to discuss, and I do n't know what it would be discussed.

However, the other person is extraordinary, and he is the third uncle of his sister Murong Qingqing, so Ye Feng will naturally give a face. In the past, take a look.

Soon Ye Feng came to the main government of the city.

When Ye Feng came to the main palace of the city again, he found that some of the strong atmosphere that he had been afraid of him before is now nothing for Ye Feng.

This made Ye Feng sigh in his heart. This time, he followed Hongdie to the ruined city and entered the lair of the ancient abyss giants under the abyss. He did get a lot of good things, and his overall strength was unprecedentedly improved.

Today, Ye Feng is in Luoyue City, even if he faces some old strongmen, he has enough confidence.

At this time, Ye Feng did not hesitate at all and immediately walked into the city lord's mansion.

What surprised Ye Feng was that he did not encounter any obstacles on the way to the residence of the city lord.

Obviously, Murong Qingqing's third uncle Murong Nan, the city lord of Luoyue City, had already instructed in advance that no one would stop him from entering the city lord's mansion.

Soon Ye Feng came to the place where Murong Nan, the city lord, who had come with Murong Qingqing before, lived.

Ye Feng walked in and immediately saw a familiar figure.

It was Murong Qingqing.

Murong Qingqing was a disciple of the Dark Court whom Ye Feng met during the trial in the battlefield outside the domain, and also his junior sister.

Seeing Ye Feng coming at this moment, Murong Qingqing's beautiful face immediately showed a happy expression, and she hurried to Ye Feng, staring at him with big eyes, and said excitedly: "Brother Ye Feng, I have heard about your deeds. You can destroy the most difficult and vicious force in Luoyue City, the Black Wind Society, by yourself. This is really incredible, because even my third uncle, as the lord of Luoyue City, dare not easily move such a huge force. I didn't expect that you, Brother Ye Feng, did it alone."

Ye Feng smiled slightly at this time and said: "Your third uncle is still very powerful, much more powerful than me. He has never moved the Black Wind Society. Fenghui, it may be for the overall consideration, afraid of causing unrest in the entire city, but I have been training outside with Hongdie during this period, and my strength has indeed improved a lot. "

Hearing Ye Feng say this, Murong Qingqing nodded her head immediately, and then couldn't help but said excitedly: "Brother Ye Feng, after you return to the Dark God Court this time, let alone the inner disciples, I am afraid you can be directly certified as a core disciple of our Dark God Court. With your current strength, Brother Ye Feng, even among the core disciples of our Dark God Court, you are definitely a very powerful existence. "

And just as the two were talking, a majestic middle-aged man in a purple robe walked in from outside.

It was Murong Qingqing's third uncle, Murong Nan, who was also the city lord of Luoyue City!

Ancient God

At this moment, Murong Qingqing's third uncle Murong Nan walked into the room of the main government of the city. When he saw that Ye Feng had arrived, he immediately showed a joy in his eyes. I couldn't help patting Ye Feng's shoulder, and said sighingly, "Sure enough heroes are young."

At this moment, Murong Nan and everything that Murong and Ye Feng first met Ye Feng was completely different.

When Ye Feng had just came to the city of the moon, and Murong Qingqing came to see his third uncle Murong Nan, Murong Nan was the city owner of a large city. Although he also saw Ye Feng alone, more It was because of his niece, and Murong Nan performed very indifferently at the time.

After all, in Murong Nan's eyes, Ye Feng was just a mediocre young man.

But at this time, Murong Nan obviously had treated Ye Feng as a very important character, and his attitude towards Ye Feng could be described as 180 degrees.

However, Ye Feng's impression of Murong Nan was pretty good. After all, he was just a small disciple of a small dark god court at that time. He followed Murong Qingqing to the Sun City, and Murong Nan also saw himself alone.

So at this time, Ye Feng hugged his fist slightly, and said with a humble voice: "The predecessors are praised."

At this moment, Ye Feng once again faced Murong Nan, the lord of the city, and never had the first feeling that the other person was unpredictable for the first time.

At this time, Ye Feng could feel that Murong Nan's cultivation was indeed much stronger than herself, but far less than the first time.

The first time Ye Feng faced the main character of the lunar city like Murong Nan, he only felt that the other party was unpredictable, and he was afraid that he could suppress it by one hand by the other party.

But this time, although Ye Feng still felt a lot of pressure from Murong Nan, a well - known elderly strong man like Murong Nan, Ye Feng felt that if he could fully explore his own cultivation, and all the means were used all the means When you come out, you may be able to play with Murongnan.

At this time, Ye Feng can feel that Murong Nan's realm is a great realm of six or seven higher than himself. It is a lot stronger than the chairman of the Black Wind. The city owner is really extraordinary.

Even if Ye Feng has grown quickly to the present, the means are exhausted. It is estimated that at most, he can only tie the hand with Murong Nan.

At this moment, Murong Nan didn't know how powerful Ye Feng's true strength was.

But he learned that Ye Feng was destroyed by the entire black wind, and even the chairman of the Black Wind would die in the hands of Ye Feng. Naturally, Murong Nan felt very incredible.

So he quickly invited Ye Feng to come here, and naturally he had to win Ye Feng.

And with the relationship between Murong Qingqing, Murong Nan felt that Ye Feng would definitely give him face.

Sure enough, Ye Feng arrived as scheduled.

At this moment, Ye Feng asked with a lot of curiosity: "I don't know that the predecessors of Murong Nan invited me to come over. Is there anything particularly important to discuss it?"

Murong Nan nodded slightly, and his face became very solemn again. He slowly said, "I don't know the assassination that Ye Feng brothers can't remember the girl and Qingqing girl before?"

Hearing Murong Nan said so, Ye Feng thought about it, and then thought of it, and couldn't help nodding and said, "I still remember that when I just came to Mu Rong to the moon city, I hadn't arrived At the gate of the city of the city, there was an ambush and assassination. The person who shot was the master of the old -headed Head Cottage of the Moon City, and the leader of the Hei Cottage seemed to be called the old black mountain demon. Strong existence, survive in the Dark Mountains.

Hearing Ye Feng's saying that, Murong Nan immediately nodded, couldn't help but sigh, and said, "Now the old black mountains in the Dark Mountains combined with several other demons in the dark mountains, attempting I want to attack us, but I have not had enough helpers to fight them. This time I discovered that Ye Feng's brother. You have such a strong strength, which can help me deal with the black cottage and the old monster of Heishan. And the group of demons in the Dark Mountains, of course, I will not let Ye Feng brothers be in danger. The oldest demon of the old black mountain demon is the most powerful demon. I will deal with it in person. Just compete with other demons in the Dark Mountains together. "

Hearing Murong Nan said so, Ye Feng's eyes showed a surprise, and he couldn't help but say, "The meaning of the predecessor is that you want to actively attack these demons in the Dark Mountains?"

Murong Nan nodded, and said, "I have a secret visit, and I have learned that the demon in these dark mountains will attack us in the city after one month. Except for me in the whole moon city, it is difficult to have the second person who can share pressure for me, but Ye Feng, you appear, let me see hope, even if your strength is worse than me, it will not be much worse than me, it will not be much worse than me, it will not be much worse than me , Your strength is enough to lead our masters in the city of the city, fighting against the demon demon from the dark mountains other than the old monster of Heishan, the most powerful demon of the dark old demon, I will handle it in person, I do n't know the little brother of Ye Feng. Will you help me, this time, as long as you can completely eradicate these demon in the Dark Mountains and kill the biggest culprit of the old monster in Heishan.

Hearing Murong Nan said so, Ye Feng thought about it, and then suddenly said, "I can help Murong Nan, you can eradicate the demon in the dark mountains, but if this time I can succeed, I hope my return is to let me let it be allowed I get the wealth of the entire Hei Cottage.

Since Ye Feng wiped out the entire Black Wind Association, he has obtained many cultivation resources in the Black Wind Club Treasure House, and has greatly improved his ability to cultivate his cultivation. Ye Feng is naturally very embarrassed to this treasure house of this kind of vicious forces.

At this moment, when Ye Feng proposed this condition, Murong Nan first froze, then thought a moment, and nodded, and said, "Okay, a word is determined, as long as you can help me completely eradicate my eradication The threat of a group of demons in the Dark Mountains, as well as the threat of the old monster in Heishan and the dark mountains, is equivalent to giving us a treasure house for at least hundreds of years, the black cottage and the black mountain monster, and the treasure house resources of other demons. All of you to Ye Feng. "

Hearing Murong Nan's simple response, Ye Feng was also interested in. He quickly said with a smile: "Okay, the predecessors of Murong Nan are indeed a hero, and it is really bold, so fixed, I will do my best. I can help you. "
