

Ancient God

Chapter 5691

Ancient God

At this moment, Murong Qingqing's third uncle Murong Nan walked into the room of the main government of the city. When he saw that Ye Feng had arrived, he immediately showed a joy in his eyes. I couldn't help patting Ye Feng's shoulder, and said sighingly, "Sure enough heroes are young."

At this moment, Murong Nan and everything that Murong and Ye Feng first met Ye Feng was completely different.

When Ye Feng had just came to the city of the moon, and Murong Qingqing came to see his third uncle Murong Nan, Murong Nan was the city owner of a large city. Although he also saw Ye Feng alone, more It was because of his niece, and Murong Nan performed very indifferently at the time.

After all, in Murong Nan's eyes, Ye Feng was just a mediocre young man.

But at this time, Murong Nan obviously had treated Ye Feng as a very important character, and his attitude towards Ye Feng could be described as 180 degrees.

However, Ye Feng's impression of Murong Nan was pretty good. After all, he was just a small disciple of a small dark god court at that time. He followed Murong Qingqing to the Sun City, and Murong Nan also saw himself alone.

So at this time, Ye Feng hugged his fist slightly, and said with a humble voice: "The predecessors are praised."

At this moment, Ye Feng once again faced Murong Nan, the lord of the city, and never had the first feeling that the other person was unpredictable for the first time.

At this time, Ye Feng could feel that Murong Nan's cultivation was indeed much stronger than herself, but far less than the first time.

The first time Ye Feng faced the main character of the lunar city like Murong Nan, he only felt that the other party was unpredictable, and he was afraid that he could suppress it by one hand by the other party.

But this time, although Ye Feng still felt a lot of pressure from Murong Nan, a well-known elderly strong man like Murong Nan, Ye Feng felt that if he could fully explore his own cultivation, and all the means were used all the means When you come out, you may be able to play with Murongnan.

At this time, Ye Feng can feel that Murong Nan's realm is a great realm of six or seven higher than himself. It is a lot stronger than the chairman of the Black Wind. The city owner is really extraordinary.

Even if Ye Feng has grown quickly to the present, the means are exhausted. It is estimated that at most, he can only tie the hand with Murong Nan.

At this moment, Murong Nan didn't know how powerful Ye Feng's true strength was.

But he learned that Ye Feng was destroyed by the entire black wind, and even the chairman of the Black Wind would die in the hands of Ye Feng. Naturally, Murong Nan felt very incredible.

So he quickly invited Ye Feng to come here, and naturally he had to win Ye Feng.

And with the relationship between Murong Qingqing, Murong Nan felt that Ye Feng would definitely give him face.

Sure enough, Ye Feng arrived as scheduled.

At this moment, Ye Feng asked with a lot of curiosity: "I don't know that the predecessors of Murong Nan invited me to come over. Is there anything particularly important to discuss it?"

Murong Nan nodded slightly, and his face became very solemn again. He slowly said, "I don't know the assassination that Ye Feng brothers can't remember the girl and Qingqing girl before?"

Hearing Murong Nan said so, Ye Feng thought about it, and then thought of it, and couldn't help nodding and said, "I still remember that when I just came to Mu Rong to the moon city, I hadn't arrived At the gate of the city of the city, there was an ambush and assassination. The person who shot was the master of the old -headed Head Cottage of the Moon City, and the leader of the Hei Cottage seemed to be called the old black mountain demon. Strong existence, survive in the Dark Mountains.

Hearing Ye Feng's saying that, Murong Nan immediately nodded, couldn't help but sigh, and said, "Now the old black mountains in the Dark Mountains combined with several other demons in the dark mountains, attempting I want to attack us, but I have not had enough helpers to fight them. This time I discovered that Ye Feng's brother. You have such a strong strength, which can help me deal with the black cottage and the old monster of Heishan. And the group of demons in the Dark Mountains, of course, I will not let Ye

Feng brothers be in danger. The oldest demon of the old black mountain demon is the most powerful demon. I will deal with it in person. Just compete with other demons in the Dark Mountains together. "

Hearing Murong Nan said so, Ye Feng's eyes showed a surprise, and he couldn't help but say, "The meaning of the predecessor is that you want to actively attack these demons in the Dark Mountains?"

Murong Nan nodded, and said, "I have a secret visit, and I have learned that the demon in these dark mountains will attack us in the city after one month. Except for me in the whole moon city, it is difficult to have the second person who can share pressure for me, but Ye Feng, you appear, let me see hope, even if your strength is worse than me, it will not be much worse than me, it will not be much worse than me, it will not be much worse than me, Your strength is enough to lead our masters in the city of the city, fighting against the demon demon from the dark mountains other than the old monster of Heishan, the most powerful demon of the dark old demon, I will handle it in person, I do n't know the little brother of Ye Feng. Will you help me, this time, as long as you can completely eradicate these demon in the Dark Mountains and kill the biggest culprit of the old monster in Heishan.

Hearing Murong Nan said so, Ye Feng thought about it, and then suddenly said, "I can help Murong Nan, you can eradicate the demon in the dark mountains, but if this time I can succeed, I hope my return is to let me let let it be allowed I get the wealth of the entire Hei Cottage.

Since Ye Feng wiped out the entire Black Wind Association, he has obtained many cultivation resources in the Black Wind Club Treasure House, and has greatly improved his ability to cultivate his cultivation. Ye Feng is naturally very embarrassed to this treasure house of this kind of vicious forces.

At this moment, when Ye Feng proposed this condition, Murong Nan first froze, then thought a moment, and nodded, and said, "Okay, a word is determined, as long as you can help me completely eradicate my eradication The threat of a group of demons in the Dark Mountains, as well as the threat of the old monster in Heishan and the dark mountains, is equivalent to giving us a treasure house for at least hundreds of years, the black cottage and the black mountain monster, and the treasure house resources of other demons. All of you to Ye Feng. "

Hearing Murong Nan's simple response, Ye Feng was also interested in. He quickly said with a smile: "Okay, the predecessors of Murong Nan are indeed a hero, and it is really bold, so fixed, I will do my best. I can help you. "

Chapter 5692 Arrogant words

At this time, I heard that Ye Feng was sure that he would help himself. Murong Nan, the city owner of the city, even a very well-known big man, at this time he felt very happy.

Murong Nan quickly patted Ye Feng's shoulder and said, "Sure enough, the hero is young, you can rest assured, as long as you can help me eradicate all the demon in the dark mountains, you can use all the demon in the dark mountains. Everyone's wealth is handled by you, all for you, in addition, what else do you want to mention me at any time."

Seeing that the other party was so bold, Ye Feng also smiled and said, "As long as I can get the wealth of these demons in the Dark Mountains, it is enough. "" "

Hearing Ye Feng's saying that, Murong Nan suddenly laughed, and then his expression suddenly became serious, saying: "But the premise is that only by completely eliminating all the demons can you get all this."

When Ye Feng heard Murong Nan said so, he naturally understood what the other party meant, and immediately nodded and said, "As long as you are sure, I will help you all the time."

Murong Nan nodded, and said, "There are a lot of demons in this dark mountains. There are more than a dozen demon heads, but the most powerful is the old black mountain monster. The same is the same, the blood of the old monster in Heishan is very advanced. It is said that the blood of a very powerful old monster in the ancient times was inherited in ancient times. The headquarters of the Murong family behind, applying for a very powerful treasure, you can definitely suppress the old black mountain monster, but I need to concentrate on dealing with the old black monster in Heishan, so I cannot distraction, so the other helper of the old black mountain demon, the dark mountains of the dark mountains, The other demon heads of the demon are going to pick up the beam depends on Ye Feng. Although I have also called a lot of masters, none of them can satisfy me, but Ye Feng's record is enough to explain your strength, it is worth me to make me rest assured."

Hearing Murong Nan said so, Ye Feng nodded immediately, and then asked, "When will we go to the Dark Mountains?"

When Murong Nan saw that Ye Feng was so executive, he was going to go to the Dark Mountains to start fighting. Suddenly he glanced at Ye Feng very much, and then said, "Three days later, the night after three days, we secretly secretly we secretly. Starting, first attack the most important demon gathered forces in Hei Shanzhai, and the old monster in Heishan was caught off guard. "

Hearing Murong Nan said so, Ye Feng nodded, and then said, "In the past three days, I needed to see one face with other masters you called Murong Nan in advance, and then they would cooperate with each other. "

Hearing Ye Feng said so, Murong Nan's eyes flickered, and then said with a smile: "Those people will definitely not convince you a young man, even if they know that you have destroyed the Black Feng meeting, so In these three days, you need to use some special means to let them listen to you, and then listen to your arrangements.

Hearing Murong Nan said so, Ye Feng smiled and said, "Don't worry, I will deal with this matter."

At this moment, Murong Nan nodded, and directly took Ye Feng to the middle area of the city's main palace.

A huge square appeared here, with dozens of powerful masters gathered on this square.

Murong Nan pointed at the dozens of masters of these groups and said, "These are the masters I have called. Although they are not members of our main city, they are all from all places in the moon city. The masters in other cities are gathered by me. "

Hearing Murong Nan said so, Ye Feng nodded, and then and Murong Nan flew directly to this group of masters.

At this moment, Murongnan looked at these dozens of masters and said, "Everyone, the leader I have been mentioning with you, is the young man next to me, called Ye Feng. Three days later, the action after three days later You have to listen to him, cooperate together to compete for other demons except the old black monster. "

"What??"

Hearing Murong Nan said so, dozens of masters present suddenly showed a deep surprise in their eyes.

A burly man wearing a black armor, holding a wide silver sword in his hand, was directly staring at Ye Feng, and couldn't help but say, "Murong City, you find it, and find such a one. The young boy is our leader?

Hearing the complaints of everyone, Murong Nan smiled slightly and said, "The little brother Ye Feng brothers just destroyed the entire black wind."

"What?"

After hearing Murong Nan's words, dozens of masters present were shocked at once.

Although these masters come from various places, there are even masters from other cities outside the moon city.

But the name of the Black Wind will be very loud, because this is a very powerful and vicious force, and the chairman of the Black Wind will also be an extremely powerful existence. Such a person was destroyed.

But at this time, many masters around me did not believe it.

A swordsman who carried the black gold sword came to the front and said, "I don't believe in the words of Murong City, how can such a young boy have such a strong strength. He led the actions of destroying the Black Wind, and I think Murong City will definitely help. "

此时此刻慕容南正想说些什么，但叶风只是突然间笑着出声说道：“我也不想废话太多，三天之后的行动非常的重要，所以你们必须要听我的，当然， I will prove my strength, that is, dozens of masters of you attack me together, I will suppress all of you. ”

"What?"

Hearing Ye Feng's saying so, let alone dozens of masters, even if Murong Nan couldn't help but show a stunning color in her eyes, it seemed that Ye Feng would say such a arrogant words.

At this moment, Murong Nan couldn't help whispering: "Brother Ye Feng, I know that you are very powerful, and even a person destroys the entire Black Wind Club, but the dozens of masters I have gathered together They are well -known strong people. Their strength is not weaker than the chairman of the Black Wind. If dozens of them join forces together, they are much better than all the strong men in the Black Wind Club. Even I may not be able to block these dozens of masters at the same time. "

Hearing Murong Nan said so, Ye Feng smiled slightly, saying, "So, Senior Murong, you underestimated my means and strength, you must think that my strength is much weaker than you, but in fact, my means are doing their best to make every means. If you can, you may be able to play with you. "" "" ""."

"What?"

Hearing Ye Feng said so, Murong Nan's face suddenly showed a shocking color.

Alas!

At this moment, Ye Feng has no expression in Guan Murongnan, but flew directly to the square in front of him. Looking at the dozens of masters present, he was so arrogant, and said with a smile: "You can take a shot together. Let's, if you shot together, you can defeat me, I turn my head and go, but if you do dozens of shots and be suppressed by me alone, then you will listen to me! "

At this moment Ye Feng said, his tone was full of deep domineering!

Chapter 5693: Full Fighting Power

At this moment, after Ye Feng's voice fell, there was a rushing sound of the audience.

No one expected that Ye Feng, a young boy, dared to declare war on all the masters.

This really made all the masters present feel deeply stunned.

But I also felt deep shame.

Because Ye Feng is too looking down on them.

At this moment, a young man in a red robe on his body came out of dozens of masters at once. He headed his head, his eyes were deeply arrogant, staring at Ye Feng, and said, " I don't need a dozen people to deal with you, it is a bit exaggerated, I can defeat you alone. "

At this time, when the young man who heard this red robe said, Ye Feng's eyes flickered, and then said with a smile: "That line, then you will challenge me alone. I want to see Murong Nan You who selected you in the predecessor are really real. "

Hearing Ye Feng said so, this young man wearing a red robe immediately said with a furious anger and said, "Boy, you are so arrogant! Let me learn lessons for the big characters of the city owner of the city, to teach lessons. You who do not know the thick and high -level junior, let you know what is called basic respect. "

At this moment, the moment the young man wearing a red robe fell, he suddenly burst into a very large flames of flames.

boom!

The next moment, the power of the flames on his body even condensed a huge red -red Suzaku on the top of the young man's head.

At this moment, when I saw this at this moment, Ye Feng's eyes suddenly showed a surprise, and couldn't help laughing and said, "It was the inheritor who inherited the blood of the ancient Suzaku gods. It's really powerful, but it's not much for me ""

Hearing Ye Feng's saying that, the young man wearing a red robe had no fluctuations in his face, but just smiled and said, "You will know that I am great."

Almost at this moment, the young man of this red robe immediately yelled: "Suzaku burning the sky!"

At this moment, this red robe young man directly showed his powerful inheritance of his destiny. It is an ancient exercise method with flame attributes. It is extremely terrifying to cooperate with the Suzaku blood veins in his body.

Boom!

He was shrouded in a huge pearl shadow with a huge burning flame, as if he could burn the heavens and the earth, and burned everything in the terrible red flame.

Seeing this scene, many masters around him immediately said in surprise: "This person should be a master in Suzaku City. He has the blood of Suzaku God Beasts in the legend. Suzaku city should also be extraordinary."

At this time, Ye Feng faced the blossoming flames and the shadow of the huge Suzaku god beast, which was the power of his own god immortal body that broke out.

Ye Feng did not even use his other strength, just the power of his body.

Om!

Ye Feng stretched out one hand, and this hand immediately became a big golden hand, as if it was able to cover the sky, just like the big golden hand of the ancient Buddha, like being able to suppress everything, it was directly to bombard the young man's attack attack. Above the power.

Boom!

The next moment, Ye Feng's golden hand is like a huge golden grinding plate, and it looks like the Taikoo Mountain Yue. It has the power of towering and heavy. With the height of the flames, it was directly suppressed under his golden hand.

It's like everything, under the heavy golden hand of Ye Feng, it must be completely crushed.

Boom!

The next moment, Ye Feng's golden hand red crushed all the means of the young man, and then attacked the young man. Suddenly, he bombarded him out, sprayed blood directly on the high altitude, and dropped it. On the ground.

"What??"

"It's really so powerful?"

"One trick defeated this young talent from Suzaku City!"

At this moment, the other masters around him suddenly showed a deep color in his eyes.

At this time, several other masters who had a better relationship with the young man with Suzaku blood, quickly came to the young man in front of the young man, and couldn't help exclaiming and said, "Brother, are you okay?"

But at this time, this young man with Suzaku blood stood up from the ground.

He suddenly stared at Ye Feng not far away, took a deep breath, his face seemed to be struggling, but in the end his face became deeply admired. You're merciless just now, otherwise, I may have died all the meridians now. "

"What??"

At this moment, when I heard this young man with the blood of Suzaku, the other masters present suddenly showed a deep horror in his eyes.

No one expected that Ye Feng's strength was amazing and so powerful. In the face of such a powerful young man with Suzaku blood, he defeated him directly.

But at this time, someone in the crowd couldn't help but say: "Perhaps this young man with the blood of Suzaku is just a shill hired by this kid named Ye Feng from Suzaku City to help him promote himself."

"What?"

Hearing such a voice in the crowd, the young man with the blood of Suzaku immediately said angrily: "Your thoughts are so dark! Ye Feng's strength is really that strong. When I faced him just now, it was just like facing some well-known old figures. That kind of overwhelming strength and The power of martial arts is so powerful that it is frightening. "

At this moment, Ye Feng suddenly smiled, looked at the crowd, and said: "I just tried my hand, and everyone should have some understanding of my strength, so next, please all of you will attack together, I will deal with all of you dozens of strong men by myself, so that you can be convinced, in order not to waste time, I will not talk nonsense with you, I will attack directly, you can resist or not, anyway, I will knock you down one by one, so that you will believe me. "

Boom!

Almost at this moment, Ye Feng directly exploded the power of his Abyss Giant inheritance bone, and directly expanded on the spot into a real body of the Abyss Giant with a length of more than 20,000 meters.

Then, Ye Feng also took out the dragon bone long sword left to him by the ancient magic dragon, and then directly released the inheritance he had obtained before, the Ten Thousand Dragons Magic Sky Art.

At this moment, Ye Feng can be said to be fully combat-ready, madly attacking dozens of masters.

Ye Feng suddenly took the initiative to attack, and suddenly displayed such a powerful inheritance and means. The terrifying power and destructive power made dozens of masters present feel as if their bodies were destroyed and died.

Dozens of masters immediately said in horror: "What a terrifying power! We must defend ourselves, otherwise we will be beaten down by this kid!"

At this moment, dozens of masters no longer dared to hesitate and released their own power.

Many masters also began to display their inheritance one by one, wanting to use it to fight against Ye Feng.

Chapter 5694 All listen to me

Boom!

At this moment, all the masters present burst out their inheritance and power and began to attack Ye Feng.

Because Ye Fa was now actively attacking them, they could only respond passively.

And all the masters felt that if they attacked together, they would definitely be able to defeat Ye Feng.

Because even though Ye Feng had just shown a very powerful force, these dozens of masters still did not believe that Ye Feng could fight against dozens of famous masters by himself.

At this moment, Ye Feng laughed and said, "You guys are doing very well. In this way, I can suppress all of you legitimately. Then you will all listen to me."

Boom!

At this moment, Ye Feng burst out his power with all his strength and covered the surroundings.

At this moment, after Ye Feng turned into the true body of the abyss giant, holding the dragon bone sword in his hand, it can be said that his combat power was amazing to the extreme.

However, these dozens of masters were not weak practitioners. They were all well-known masters found by Murong Nan, the lord of Luoyue City, from other places.

So at this moment, every master began to display their own extremely powerful inheritance and power, and endless powerful inheritances began to be displayed continuously.

"Nine Heavens Thunder Master Technique!"

At this moment, among these masters, there was a thunder attribute inheritance practitioner, who held a silver spear in his hand at this moment, and stabbed out fiercely, which actually caused the arrival of the thunder power above the nine heavens, and directly merged into the silver spear in his hand.

And this master also displayed the extremely powerful thunder attribute technique of the Nine Heavens Thunder Master Technique, and a phantom of the will of the ancient Thunder Master appeared behind him, majestic and boundless, like a real thunder god descending. Every stab out of the spear seemed to be able to trigger a thunder tribulation, with terrifying destructive power.

Those terrifying thunder tribulations and thunder power struck Ye Feng's abyss giant, making Ye Feng feel numb all over for a while.

In addition, among these masters, there is also a master of the demon clan, a woman in a purple-red long skirt. She performed a kind of inheritance called the Ten Thousand Demons True Secret. She actually used her own power to condense the will of ancient demon beasts in the void behind her. With the power of each ancient demon beast, they attacked Ye Feng together, as if facing the attack of thousands of demon beasts.

Among these masters, there is also a master holding a long sword shining with the light of the stars. This long sword should be made of the stars above the nine heavens.

At this moment, this master held the starry sword in his hand and chopped at Ye Feng, which actually triggered the galaxy power of the Big Dipper above the sky.

In his sword light, there are even ancient star maps flashing out, just like the falling of stars, with a terrifying oppressive force.

Among this group of masters, there are also practitioners who practice powerful strange fire. An ancient strange fire called Liuli Fiery Fire came out of his body. This fire is extremely terrifying and can instantly melt the strongest steel in the world into molten iron. In addition, a fan appeared in his hand, which seemed to be an ancient Fiery Fan.

Both the fan blades and the fan bones were cast from special materials. The moment this fan was fanned out, a phoenix phantom completely condensed by flames appeared, with terrifying burning power.

Among these masters, there are also practitioners who practice ice-attributed skills. They hold two long swords made of ice in their hands. The moment the two long swords made of ice chopped out, the terrifying sword energy could freeze the land for hundreds of miles in an instant, and the whole world seemed to be frozen.

It must be said that among these dozens of masters, there are still some masters who are very powerful and have their own unique inheritance.

At this moment, even Ye Feng felt powerless for a while.

However, Ye Feng was not afraid at this time, but laughed loudly and said: "The stronger your strength is, the more helpful it will be for the next action, but you will still be defeated by me in the end."

At this moment, facing the overwhelming terrorist attack, even Murong Nan, the city lord of Luoyue City, was sweating for Ye Feng.

But at this time, Ye Feng directly roared and madly burst out the power of his immortal body.

In addition, Ye Feng also directly used the Saint Throne that he had plundered from the president of the Black Wind Society before.

Buzz!

At this moment, a huge golden chair suddenly appeared in the sky.

Ye Feng sat on this golden throne, and a thick golden barrier immediately appeared around him, blocking all the attacks of all masters outside. Whether it was sword light and sword energy, or knife light and knife energy, or fire and ice, all kinds of power, attacking the golden barrier condensed by the Saint Throne, could not break the defense at all.

This made all the masters present look stunned, as if they had never expected that a young man like Ye Feng could possess such a powerful treasure.

It must be said that this Saint's Throne was indeed a chair made by an ancient saint, and it possessed the power of an ancient saint.

When the president of the Black Wind Club used this Saint Throne before, if Ye Feng did not have a huge soul power and could directly attack the spirit and soul of the president of

the Black Wind Club invisibly, he would probably be unable to do anything to the president of the Black Wind Club who had the Saint's Chair.

So now that Ye Feng uses this Saint Throne, the golden barrier condensed is more solid. Although the attacks of these dozens of masters are extremely fierce, they cannot break through the golden barrier defense released by Ye Feng's Saint Throne.

At this moment, Ye Feng used the Saint Throne to block everyone's attacks, and then madly injected his mana into the dragon bone sword in his hand.

In the end, this dragon bone sword actually began to deform directly and turned into a white bone dragon, with terrifying attack power. With the power of an old monster like the ancient magic dragon, it was a dragon tail swing, and all the masters present were blasted back and fell from the sky to the square on the ground. All of them were defeated by Ye Feng at once.

"What?"

Seeing this scene at this moment, not to mention the dozens of defeated masters, even Murong Nan, the city lord of Luoyue City, widened his eyes at once, as if he couldn't believe what was happening before his eyes.

At this time, everyone understood that what Ye Feng said just now was not arrogant, but Ye Feng really had this ability, to challenge everyone alone and completely defeat them all, which was really too shocking!

Ancient God

Chapter 5695 Bloody Cave

At this time, everyone finally realized that Ye Feng's strength was extremely powerful, enough to become the leader of everyone.

At this time, dozens of masters present, no matter where they came from, they hugged their punch very convincingly and said, "We are willing to listen to Ye Feng now."

At this moment, when he saw the scene in front of him, Ye Feng nodded, and said with a smile: "As long as everyone cooperates, it will definitely complete this task."

Murong Nan, the city owner of the city, couldn't help but nodded at this moment.

He originally thought that Ye Feng would need at least two or three days to run this team.

But now it seems that Ye Feng used his own unique way to directly use such violence and simple and direct methods to condense the entire team together.

So at this time, Murong Nan immediately said, "Since everyone is ready, then we should not be too late. We do n't have to wait until three days later. Can't sneak attack on Hei Sinzhai, hit them unwillingly. "

Hearing Murong Nan said so, many masters present nodded, saying: "This group of demons in the Dark Mountains, especially the Black Cottage and Black Mountain Old Demon, have been burning and looting around our city. It should indeed eradicate these demons. "

At this moment, many masters are boiling, apparently can't help but want to shoot, destroying these abominable demons.

At this time Murong Nan nodded, and then waved his hand, saying, "Let's go directly now."

Next, Murong Nan convened a full hundred golden armor guards in the entire moon city.

The cultivation of these golden armor guards is definitely not as good as dozens of masters present.

However, they are all trained and unified, so they can also play a huge role in the command of hundreds of golden armor.

At this moment, Murong Nan took hundreds of golden armor guards, and Ye Feng was a master who hired with dozens of hired, and flew quickly in the direction of the Dark Mountains.

For Ye Feng, his main purpose is to resist other demons in the Dark Mountains for Murong Nan, the owner of Murong Nan, so Ye Feng's task is still very arduous.

Because in the entire Dark Mountains, although the Old Demon of the Black Mountains in Hei Cottage and the Black Cottage is the most powerful, the other demons are also quite powerful, and the power of the monsters of the Majesty must be very large.

Therefore, Ye Feng's next pressure is definitely second only to Murong Nan, the owner of the city.

At this moment, the entire team soon approached the Dark Mountains.

When the entire team came to the edge of the Dark Mountains, I immediately felt a dark mist covering the entire Dark Mountains.

And these black fogs are corrosive, and they are highly toxic. When they touch it, they will soon be poisoned.

However, all of them were masters present, including the many golden armor guards trained by Murong Nan, which were also very powerful.

Therefore, these toxic fogs have no big effects for them.

At this moment, Ye Feng did not hesitate to hesitate. He directly took dozens of masters, and also entered the dark mountains.

At this moment, Ye Feng looked at Murongnan beside him and asked: "Senior Murong, do we act together or separate?"

When I heard Ye Feng asked, Murong Nan thought about it, and then said, "Let's take a lead in action. I took hundreds of golden armor guards and moved directly in the direction of the black cottage and the old black mountain demon. Prior to this, Ye Feng, you brought so many masters, first unplugged other demons forces one by one.

Hearing Murong Nan said so, Ye Feng nodded and said, "Let's kill the other helpers of the old black mountain monster first, it is indeed the best choice. When Murong, when you fight with the old black monster in Heishan, he There is no help from external forces, but I don't know how much the demon forces in these dark mountains are. "

Hearing Ye Feng said so, Murong Nan immediately took a map from his own storage ring, which marked the entire five locations on it. In addition to the most powerful demon forces in the Old Demon of Heishan, each demon forces have a leading demon strong, very powerful, but I think the strength is definitely not as good as you, so you should bring dozens of masters. It can be removed by all these five demon forces, but it will definitely take a lot of time, but you don't have to worry, because I will take hundreds of golden armor guards to reach the final location of the Black Cottage. The time, if we really have any problems, you can always contact the signal bomb or send a message to the token at any time. "

Hearing Murong Nan said so, Ye Feng nodded immediately, directly taking the map in Murong Nan's hand, and then quickly flew towards somewhere around the Dark Mountains.

Murong Nan walked in another direction with hundreds of golden armor guards.

At this moment, Ye Feng and Murongnan split up.

Ye Feng has to do to eliminate the five demon forces other than Black Cottage.

Of course, Ye Feng was not alone.

The dozens of masters recruited by Murong Nan were all deployed by Ye Feng.

At this moment, the dozens of masters behind Ye Feng were also eager to do something to eliminate all the demon forces in the entire Dark Mountains.

At this moment, Ye Feng looked at the map in his hand, and marked a total of five locations, representing the other five most powerful demons in the entire Demon Mountains besides the Black Mountain Old Demon.

They are the Nine-headed Demon Face Spider in the Bloody Cave, the Ghost Demon in the Corrosion Swamp, the Black Flame Demon Dragon in the Black Fire Magma, the Nether Centipede in the Dark Abyss, and the last Gold-eating Queen Bee in the Desolate Scorched Earth.

There were experts around looking at Ye Feng and asked, "Master Ye Feng, which one should we deal with first?"

Ye Feng said at this moment, "Let's start with the one closest to us, otherwise, we might alert the enemy. The one closest to us is the Nine-headed Demon Face Spider among the five demon forces. It lives in the Bloody Cave. Let's go to the Bloody Cave first."

Chapter 5696 Nine-headed Demonic Spider

At this time, Ye Feng did not hesitate at all. He took dozens of masters and flew quickly towards the nearest bloody cave on the map.

For Ye Feng, as long as he eliminated these demon forces one by one, it would be much easier for Murong Nan to deal with the Black Mountain Village and the Black Mountain Old Demon.

At this moment, Ye Feng knew that his speed must not be slow. Once he slowed down, he would alert the other demon forces and make preparations in advance. That would be troublesome.

So what Ye Feng had to do now was to fight quickly and eliminate these five powerful demon forces with dozens of carefully selected masters.

And the most powerful demon leaders among these demon forces must be killed completely.

This was not only a mission for Ye Feng, but also a good opportunity to eliminate harm for the people.

In addition, Ye Feng knew very well that the demon leaders who could dominate this dark mountain range must have very powerful cultivation.

If they could be killed, Ye Feng would definitely get five very huge energy skills.

At this moment, Ye Feng did not hesitate at all, and soon brought dozens of masters to the first demon force on the map, the Bloody Cave.

At this moment, Ye Feng looked at the dozens of masters beside him and said, "This is the place where the first demon is located. This place is called the Bloody Cave. There lives a very terrifying demon in the cave, called the Nine-headed Demon Face Spider. According to the description on the map, this spider-like demon has nine heads and the blood of the ancient god and demon spider flows in its body. It is very powerful, so we must be careful."

Hearing what Ye Feng said, dozens of masters around nodded one after another, and then rubbed their hands, each releasing their own power, ready to go.

At this moment, Ye Feng also exuded his soul power, covering the surroundings to prevent dangers and changes that may occur at any time.

At this time, after Ye Feng prepared everything, he took dozens of masters who were ready to go and walked directly to the front.

Soon, everyone saw a cave in front of them. Sure enough, there was blood-red gas emanating from the cave, giving people a very bloodthirsty feeling.

At this moment, Ye Feng instantly sensed that there was a very strong fluctuation of life energy in the depths of this bloody cave.

Ye Feng knew that this very strong fluctuation of life energy was definitely the first powerful demon indicated on the map, the nine-headed demon-faced spider.

At this moment, Ye Feng led everyone slowly into the cave.

Along the way, everyone saw that the entire cave was very dim.

And at this moment, suddenly a master seemed to have stepped on something and made a "puff" sound.

"This is..."

The next moment, everyone immediately looked at the ground and found that the entire ground was covered with dense insect eggs.

What the master just stepped on was an insect egg.

After stepping on it, a small spider with blood-red lines all over its body suddenly appeared in the insect egg. It actually had extremely sharp claws and teeth, and it immediately bit the sole of the master's foot to pieces, and then drilled into one of the

master's legs from the sole of the master's foot, and was drilling quickly towards his heart.

Puff!

Almost at this moment, the expert made a prompt decision and cut off his entire thigh in one go, preventing the scary little spider from drilling into his heart.

Then a nearby expert was a fire expert, and he released a terrifying flame, burning the thigh containing the little spider into ashes. The little spider was also burned into ashes in an instant, uttered a miserable howl, and died instantly.

"What a scary spider!"

At this moment, the expert who lost a thigh suddenly turned extremely pale.

He never thought that there would be so many dense insect eggs on the ground in this cave.

Among these insect eggs, there were actually all very scary little spiders.

At this moment, Ye Feng saw this scene and immediately said, "Everyone must be careful of everything around them. The Dark Mountains are probably much more terrifying and complicated than we imagined. The environment here is where demons live. It is very scary. Everyone must be careful."

Everyone nodded.

The master who had lost his thigh before was put into the storage ring by his companion. He could only recuperate in the storage ring space temporarily and could not participate in the next battle.

When everyone saw this scene, their faces were a little gloomy.

Because they had just approached the territory of the first demon, and had not even encountered the first demon, they had already lost the fighting power of a master.

This cast a shadow on everyone's heart.

It seems that this time, it is a very difficult thing to destroy the five most powerful demons in the entire Demon Mountain Range, which is much more complicated and difficult than they imagined.

At this moment, Ye Feng quickly led everyone to fly towards the deepest part of the cave.

Everyone did not dare to continue walking on the ground.

Now there was no time to alarm the enemy, so everyone released their powerful strength and rushed into the deepest part of the cave in an instant.

The next moment, everyone's vision suddenly became clear.

The deepest part of the cave was a huge underground space.

On a stone platform deep in the cave not far away, a huge spider was lying at this moment.

Ordinary spiders were only the size of human fingers, and slightly larger, mutated spiders were only the size of a human palm or a human head at most.

But the spider in the deepest part of the cave at this time was very majestic, as big as a small mountain.

Whether it was the natural lines formed on the surface of the spider, like the face of a demon, or the spider claws that seemed to be cast from black iron, and the ice-blue spider fangs, they all gave people a very scary feeling.

At this moment, everyone saw this scene and immediately understood that this huge spider should be the first powerful demon leader they wanted to eradicate, that is, the nine-headed demon-faced spider.

Because the spider's head is covered with nine smaller spider heads, giving people a terrible feeling of intensive phobia.

In addition, there is a huge spider web on the head of this nine-headed demon-faced spider, on which hang many corpses of practitioners, wrapped in the spider web, and the whole scene looks weird and dark.

At this moment, Ye Feng immediately said: "Everyone, attack this nine-headed demon-faced spider directly. As long as this demon leader is solved, there is no need to worry about anything here!"

Chapter 5697 Mental Illusion

Boom!

At this time, Ye Feng and a group of masters had almost no hesitation. They directly released their powerful inheritance power and bombarded in front.

The various attacks and power light waves are instantly poured into the body of this nine-headed demon spider.

At this time, everyone saw that everyone's attack was hit, and suddenly there was a joyful look on their faces.

Some masters couldn't help but say, "The attacks of so many people have attacked all the nine -headed demon spiders. Even if he was not dead, he would definitely be seriously injured."

However, at the moment when the sound of everyone's words fell, all the light of the power dissipated.

The next moment, what was deeply shocked in the eyes of everyone was that the powerful demon, the nine -headed demon spider, the whole body was still intact.

The attack of everyone does not seem to have any effect on him.

"What?"

"How is this possible?"

Seeing this at this moment, all the masters present showed a deep color in the eyes.

No one expected that they did not hurt the nine -headed demon spider spider.

At this moment, even if it is Ye Feng, there is a surprise in the eyes.

It seemed that the defense of the nine -headed spider spider was so amazing.

At this moment, Ye Feng seemed to have discovered something, and he couldn't help but say: "This nine -headed demon spider, the face of the ancient devil marks on the body surface seems to have special power. At this moment, the face of this ancient demon seems to be exuding blood -red light, forming a layer of energy mask, which will resist all our attacks. "

"Um?"

"It's like!"

After seeing this scene, many masters nodded and said, "What can I do?"

Ye Feng immediately said with a smile: "This nine -headed demon spider should have weaknesses. As long as we do not attack his spider shell and attack his head, it may be its weakness."

However, at the moment Ye Feng's tone fell, the nine -headed demon spider immediately made a hoarse voice, which said directly: "You dare to sneak into the old nest in this

seat," The place of the place is to sneak in this seat, but your attack has no effect on this seat. This seat has the guardian of the ancient devil.

Almost the moment the nine -headed demon spider spider fell, he turned out to make a special spider sound of "hissing" in his mouth directly.

Along with this special sound, the dark parts of the surrounding caves were climbed out of dense spiders.

These spiders have their head size and dense, with thousands of thousands of, all of them besieged towards everyone like a tide.

"What?"

Seeing this scene, even if many masters are all with the skills, at this moment, they can't help but show deep horror in their eyes.

Because the overwhelming little spiders gave them a terrible feeling, it was simply numb.

At this time, Ye Feng shouted and said, "You block thousands of little spiders from the surrounding pouring, let me deal with this nine -headed demon spider spider."

Hearing Ye Feng said so, many masters nodded. At this time, they could only believe in Ye Feng's words and obey Ye Feng's arrangements.

Boom!

At this moment, masters have released their own skills, exerting various inheritance, inheritance of flame attributes, inheritance of ice attributes, and inheritance of various forces. Crazy bombardment away, quickly blocking thousands of little spiders spreading around.

At this moment, Ye Feng was alone, instantly towards the most powerful demon head, and the nine -headed demon spider impacted.

At this moment, on the top of the nine -headed demon spider, nine heads, a total of eighteen pairs of eyes, stared at Ye Feng, exuding strange light, and said, "Boy, you even want to" want to Rely on you alone to deal with this seat?

At this time, Ye Feng smiled slightly and said, "If you don't, you will know it."

Boom!

At this moment, Ye Feng was directly the power of the immortality of the gods.

Almost at this moment, Ye Feng's whole person suddenly burst out of a golden spirit.

Ye Feng's whole person was directly turned into a golden god, and it was directly impacted towards this nine -headed demon spider spider, and then attacked one after another.

Ye Feng's golden fist is simply a power to break everything.

Even if the spider shell on the nine -headed devil spider is extremely strong, it is made of God of iron. At this time, under the continuous attack of Yefeng's golden fist, it also emits a huge shock.

Even in the end, a crack appeared.

"What??"

At this moment, I felt the extremely terrifying body of Ye Feng. This nine -headed magic - eye spider couldn't help but widen his eyes at once, saying, "How could you have such a little young boy? The power of strong body, I don't believe it! "!

At this time, Ye Feng smiled coldly and said, "It's useless not to believe it. I came here today to kill you demons who do evil and kill living beings every day."

At this moment, Ye Feng did not hesitate at all and immediately exploded the power of the Abyss Giant Inheritance Bone.

Ye Feng immediately turned into a huge giant real body, and with the golden power of the immortal body of the god, he directly blasted several spider legs of the nine-headed demon face spider into pieces.

At this time, the nine-headed demon face spider immediately roared: "Spiritual illusion!"

At this time, the means used by the nine-headed demon face spider turned out to be a soul-level attack.

It seems that this demon is indeed very extraordinary and can directly attack the spirit and soul.

But unfortunately, he met Ye Feng.

At this time, Ye Feng was not afraid at all, but laughed out loud and said: "If it were someone else, they might really be confused by you, but your so-called mental attacks and illusions are nothing to me."

Boom! !

At this moment, Ye Feng did not hesitate at all, and directly burst out his huge soul power, instantly disintegrating the mental illusion released by the nine-headed demon face spider.

Boom! !

Then, Ye Feng's huge soul power directly invaded the nine-headed demon face spider and directly destroyed the soul of this demon leader.

"Howl!!"

Almost in the next moment, the nine-headed demon face spider immediately let out a shrill scream.

Then the nine small spider heads of the nine-headed demon face spider exploded one by one, completely shattered, and died on the spot!

Chapter 5698 Corrosion Swamp

I have to say that Ye Feng's strength and means are really strong to a very scary level.

Even this weird nine -headed demon spider spider was quickly solved under various means of Ye Feng.

At this time, Ye Feng immediately saw that when the nine -headed demon spider was completely killed, the thousands of little spiders around were also quickly defeated like a tide.

Dozens of masters around them are quickly chasing every little spider.

Because there are huge possessions to keep these thousands of little spiders.

At this moment, Ye Feng had no hesitation. He just reached out and pressed on the towering spider body of the nine -headed demon spider.

Then Ye Feng released the energy of swallowing and began to devour the energy of the nine -headed demon spider.

This nine -headed demon spider is a very powerful demon head in this dark mountain, so the skill of this nine -headed demon spider is still very majestic.

Although the skills of this nine -headed demon spider are all the power of demon, ordinary practitioners may instantly cause poisoning when they touch it.

But for Ye Feng, it can directly use this huge demon power.

"Boom Rondon ..."

At this moment, a huge energy was immediately injected into Ye Feng's Dantian.

Ye Feng's whole person's realm is the realm, and immediately began to break through quickly.

boom!

Kamitta is eight days!

boom!

Kamitta Nine Heaven! Intersection

At this moment, Ye Feng's Xiuwei suddenly broke the two heavens and stepped into the Nine Heavens of Kamita.

Ye Feng's skills and cultivation immediately increased rapidly.

At this moment, Ye Feng can feel that her combat effectiveness has also been greatly improved.

At this time, Ye Feng looked around and found that many small spiders had been completely killed by all the masters.

However, although these little spiders are extremely highly toxic and the attack power is also very amazing, there are almost no blood energy energy, and Ye Feng is not necessary to absorb.

At this moment, Ye Feng was directly looking at the dozens of masters around him, saying, "We look for the treasure trove in this bloody cave where this nine -headed demon face spider is located, where is it, such a powerful demon head leader , I definitely have my own treasure trove. In his old nest, I want to find and get it. "

Hearing Ye Feng said so, these dozens of masters nodded.

After all, they also learned before that Ye Feng, a peerless Tianjiao, came to help the city owner of the city Murong Nan to fight against the demon in the Dark Mountains. Ye Feng's requirements were to get every end in the dark mountains. Treasure wealth in the demon forces.

Therefore, at this moment, Ye Feng said that many masters did not say much.

After all, Mu Rongnan, the owner of these masters, will definitely arrange uniformly by the city owner of the city. They do not have to fight with Ye Feng.

Of course, they are just grabbing.

At this moment, Ye Feng and a group of masters immediately started searching in this bloody cave.

Without the threat of the nine -headed demon spider, everyone did not encounter any danger. Soon, after discovering a wall on the surface of this bloody cave crushed the surface, a huge potholes appeared.

In this potholes, there are many weapons and armor with different colors of light, as well as some gold and silver jewelry.

"Um?"

Seeing this scene, Ye Feng's eyes suddenly revealed.

Because Ye Feng didn't expect that the treasure house of this nine -headed demon spider, what he liked to collect, turned out to be such a pile of things that seemed to have nothing to do.

It's just that these things exude different colors of light. It seems that this nine -headed demon spider has its own unique habit and likes to collect such shiny things.

However, these things have some value after all. Ye Feng is naturally collected. At that time, you can go to the auction of the moon city to sell these things.

At this time, Ye Feng got all the wealth in this bloody cave, and immediately leaving this bloody cave with many masters.

At this time, a master around him looked at Ye Feng, and suddenly said, "Master Ye Feng's strength just now is really too powerful. Special talent ability, I did not expect to be completely solved by Lord Ye Feng a few tricks, it is really amazing. "

Hearing this master said so, Ye Feng smiled slightly and said, "Because my own body is very powerful, it can just restrain the spider of this nine -headed demon spider. Understand some attack methods on the spirit and soul, which can just restrain the talent ability of this nine -headed demon spider, so this time we can solve this demon head leader so smoothly. Take it out smoothly. "

Hearing Ye Feng's saying so, many dozens of masters around him admired Ye Feng's admiration.

Because they did not expect that Ye Feng was so young and had such a powerful strength and means, not only was not proud, but also so humble. Even after a huge victory, he could maintain such a clear mind and calmness. Judging, let all the masters present are the Ye Feng who really admire from the heart.

Because Ye Feng is not only powerful, but also has a very mature and thoughtful mind, which is very rare.

Because these masters are from major cities in the field of outbound battlefields, they have also been exposed to many powerful peerless geniuses, but those peerless geniuses are very arrogant and do not take anyone in their eyes.

But Ye Feng is different from those peerless geniuses.

Ye Feng is not only powerful, but also very sophisticated.

At this moment, Ye Feng looked at the map in his hand and said, "The nine -headed demon spider spider of the bloody cave was solved. We went to the next demon forces. The corrosive swamp, the demon head in the corrosive swamp is a monster called the ghost.

Hearing Ye Feng said so, many masters present nodded.

Many people are very urgent, because this time they have won great victory, and many people have great confidence in these demon forces in their hearts, and can completely eradicate the demon forces in these dark mountains.

But Ye Feng frowned slightly at this time.

Because the ghost demon in the corrosive swamp seems to be very special.

Even in the map that Murong Nan, the owner of Moon City, did not have a detailed record of this demon head, Ye Feng was very cautious inside.

Chapter 5699: The body is fragile

At this time, Ye Feng brought dozens of masters and followed the instructions on the map. They soon came to the second-ranked demon force among the five major demon forces in the Dark Mountains.

This place is called the Corrosion Swamp.

The leader of the demons in this Corrosion Swamp is a demon called Ghost.

The ability of this Ghost Demon is very mysterious. Even in the map given to Ye Feng by Murong Nan, the Lord of Luoyue City, there is no exact record of this Ghost Demon.

It is just that this Ghost Demon is very strange and must be careful.

At this moment, Ye Feng looked at the dozens of masters beside him and said, "The Corrosion Swamp area is ahead. The demon leader we are looking for is called Ghost

Demon. At that time, everyone must fully raise their spirits and attention, and must be careful."

Hearing what Ye Feng said, many masters nodded.

At this moment, Ye Feng brought dozens of masters and soon walked around the Corrosion Swamp.

At this moment, Ye Feng immediately saw that there was indeed a bottomless swamp in front of him.

This swamp was filled with dark mud and corrosive gas everywhere, as if a person would be corroded instantly if approached.

At this moment, Ye Feng did not hesitate at all and directly released his protective light shield.

Dozens of masters around him also followed Ye Feng's example and released their own protective light shields, so that they could resist the corrosive gas around them.

At this moment, Ye Feng was about to say something.

But suddenly at this moment, Ye Feng was surprised to find that dozens of masters around him suddenly had green light in their eyes.

Then the next moment, Ye Feng felt bad.

Sure enough, almost in the next moment, dozens of masters suddenly seemed to not know each other, and regarded each other as enemies, and they fought quickly together.

Boom!

At this moment, dozens of masters who were originally a group seemed to have become mortal enemies at this moment, attacking their companions around them and attacking each other crazily.

Seeing this chaos, Ye Feng immediately said in his heart that it was not good.

Because Ye Feng understood at this time that the demon leader in this corrosive swamp, the ghost demon, had been lurking in the dark and secretly attacked, controlling the spirits and souls of these people, making them lose their consciousness and attack each other directly.

However, because Ye Feng himself is a soul master, his soul power is very huge, so Ye Feng was not hit instantly.

At this moment, Ye Feng immediately burst out his huge soul power and shouted directly: "Wake up!"

Ye Feng's voice, with his huge soul power hidden in the sound wave, directly awakened the consciousness of dozens of masters who were killing each other around.

At this moment, Ye Feng could immediately feel that there was indeed a special soul power fluctuation on the bodies of these dozens of masters.

Ye Feng followed this fluctuation and rushed directly to a certain direction of this corrosive swamp.

At this moment, dozens of masters who had regained consciousness saw Ye Feng rushing towards the depths of the corrosive swamp alone, and immediately couldn't help but say: "Master Ye Feng, where are you going?"

Ye Feng said at this time: "Don't go any further, just wait for me here. It's no use for you to be with me now, because the ghost demon lurking in this corrosive swamp can control your mind and soul at any time, let you kill each other, or even attack me directly. You have been awakened by me now, just stay here and don't move. This is the best choice."

At this moment, after Ye Feng's voice fell, his figure had disappeared in the eyes of dozens of masters.

And at this moment, hearing Ye Feng say this, dozens of masters were a little frightened.

They saw everything that happened just now, but they couldn't help themselves, as if they had lost their inner good and evil, thinking about killing, treating each other as mortal enemies, and fighting each other together.

At this moment, they could only stay where they were temporarily according to Ye Feng's orders.

Ye Feng went alone to hunt the ghost demon.

At this moment, Ye Feng knew that the ghost demon's innate ability was to control people's spirit and consciousness.

This made Ye Feng not afraid at all.

Because Ye Feng himself was a soul master, he was not afraid of this kind of attack from the soul level.

At this moment, Ye Feng followed the special energy fluctuation and soon came to the deepest area of the corrosive swamp.

The next moment, Ye Feng saw that in the deepest area of the corrosive swamp, in the bottomless mud, a huge tree had grown out.

The tree was pitch black, giving people the feeling of a dark tree.

However, on the trunk of this huge black tree, there were densely packed green eyes.

Each leaf was like an eye, giving people a feeling of intensive phobia.

Seeing this scene at this moment, Ye Feng immediately understood that this black tree was the demon leader of this corrosive swamp.

That is, the ghost demon!

Shua!

At this moment, Ye Feng did not hesitate at all, and immediately rushed towards the dark tree with countless dark green eyes.

The black tree made a hoarse voice: "Who are you? Why can you defend against my terrifying mental control ability? Among human practitioners, this is impossible."

Ye Feng laughed when he heard the ghost demon say this, staring at the black tree and said: "Haven't you heard that there is a very special group of people among humans, called soul masters?"

Hearing Ye Feng say this, the black tree couldn't help but exclaimed: "This is impossible! You are obviously a martial arts practitioner, how can you also be a soul master? I have never seen the existence of soul martial arts practitioners!"

Hearing the black tree say this, Ye Feng smiled coldly and said: "That's because you have a narrow vision. I am a soul martial arts practitioner."

Boom! !

Almost at this moment, Ye Feng was immune to the soul attack released by the black tree, and rushed to the ghost demon in an instant, punching it hard.

The most powerful thing about this ghost demon is the strange soul power emitted from each eye, which can control the consciousness and spirit of any living being.

But Ye Feng was directly immune to this kind of mental control, so he punched the black tree hard.

Crack! Crack!

At this moment, all the branches of the black tree, including the main tree, were shattered by Ye Feng's punch.

Obviously, the ghost demon's body is still very fragile, and its powerful mental control ability is ineffective against Ye Feng.

So its end is destined to be tragic, and it was killed by Ye Feng with one punch!

Ancient God

Chapter 5700 Scorpion Nest

It must be said that this ghost demon may be the most difficult existence for others, because it can directly control people's spirits and souls, making everyone kill each other.

But for Ye Feng, perhaps this ghost demon is the easiest demon to eradicate.

At this moment, after Ye Feng killed this ghost demon, he stared at the body of this ghost demon, that is, the black tree, and suddenly found that among the broken branches, there were ice-blue crystals.

These ice-blue crystals also contain a very rich spiritual energy.

After sensing all this, Ye Feng's eyes suddenly showed a look of surprise.

It seems that the energy contained in these blue crystals is not the energy of power, but a kind of energy of spirit and soul.

But this may be related to the innate ability of this black tree.

After all, the real power of this ghost demon is that it can directly control people's spirit and soul.

So after it died, the energy contained in the crystals contained in its body naturally belongs to spiritual energy.

Buzz!

At this moment, Ye Feng swallowed these ice-blue crystals directly without any hesitation.

At this moment, Ye Feng could immediately feel that his soul had grown rapidly.

This made Ye Feng's eyes suddenly show a joyful look.

After all, for Ye Feng, whether it is physical strength or spiritual strength, after being improved, it is of great benefit to the growth of his overall strength.

At this time, Ye Feng looked around, wanting to find the treasure house exclusive to this ghost demon.

After all, this ghost demon has lived in this corrosive swamp for so many years, there must be a lot of good things.

However, Ye Feng searched for a long time at this time, but he didn't find it. In the end, Ye Feng could only leave here with disappointment.

It seems that this ghost demon doesn't usually go out of his own domain, so there are not many things collected.

But when Ye Feng returned to the place where he left before, Ye Feng suddenly discovered that the dozens of masters he led were actually fighting with huge black scorpions at this moment.

These huge black scorpions are extremely poisonous. In a blink of an eye, several masters have been stabbed by the stingers of these scorpions and died instantly.

Swish!

Seeing this scene, Ye Feng flew up immediately, and the dragon bone sword in his hand chopped out immediately.

The terrifying sword light containing the power of the ancient dragon attacked madly, directly splitting several huge black scorpions in half.

At this moment, Ye Feng looked at the huge black scorpions crawling out of the swamp one after another, and couldn't help asking: "When did these black scorpions appear?"

Hearing Ye Feng's question, several masters around couldn't help but say: "These highly poisonous black scorpions just suddenly appeared and attacked us madly."

Ye Feng nodded, looked at the entire corrosive swamp around him, and said: "I estimate that there may be a scorpion nest in the deep area of this corrosive swamp, but these black scorpions must be controlled by the ghost demon with spiritual power, so there is no direct Run out, now that the ghost demon has been killed by me, all the black scorpions in this scorpion nest are running out frantically."

At this moment, Ye Feng looked at a master around him and said, "You are a practitioner of fire attribute. Now release the flames and bake all the silt in the entire corrosive swamp into a dry state."

"Yes, Lord Ye Feng!"

Hearing what Ye Feng said, the master nodded immediately, and then he flew high into the sky, opened his mouth and sprayed, and a terrifying flame immediately gushed out, and directly began to bake the silt in the entire corrosive swamp.

Along with the baking of this terrifying flame, the silt in the swamp was finally baked into a dry state.

Then Ye Feng suddenly chopped it out fiercely with a sword.

Boom!

The next moment, the surface of the sludge that was baked into a dry state was split open by Ye Feng's sword.

The next moment, in the mud, Ye Feng found a huge scorpion nest, which was filled with black scorpions running out densely.

Seeing this scene, the group of masters around him didn't need Ye Feng to say anything, and they attacked the scorpion nest frantically.

As long as this scorpion nest is wiped out, the black scorpions in the corrosive swamp here will definitely be wiped out.

After all, the threat of these black scorpions is still very large. Catching them all in one net will have a huge benefit for the next actions of the Lord of Luoyue City.

At this moment, Ye Feng watched these masters frantically kill the black scorpions in the scorpion nests. Without any hesitation, he quickly released the swallowing field and began to swallow the blood energy contained in the bodies of the killed black scorpions.

Although the strength of these black scorpions is not very strong, there are still a lot of black scorpions in the entire scorpion nest.

After Ye Feng swallowed them, his skills also increased significantly.

However, Ye Feng's cultivation level did not make a breakthrough after all, and he was still at the ninth level of the Divine Hall Realm.

At this moment, after Ye Feng and many masters destroyed the scorpion nest, Ye Feng suddenly found that in this scorpion nest, a huge bronze door appeared.

This bronze door is not square, but a circular bronze door, like an entrance to a cellar.

"Um?"

At this moment, when I saw this at this moment, Ye Feng suddenly moved his eyes, and then he just flew down and pulled the bronze door directly.

With the bronze door opened, Ye Feng looked down under the bronze door, and found that the entire ground -corrosive swamp ground was hollowed out.

In this hollowed space, many cultivation resources have been accumulated, with a high - grade elixir with the fragrance of medicine, and there are many storage rings left by the dead practitioners.

Seeing this scene, Ye Feng immediately understood what, and couldn't help but say, "I said," I said how could I find the treasure trove of this ghost demon. I thought he did not accumulate any wealth. The ghost demon stores all your treasure house under the terrible scorpion nest. "

At this moment, dozens of masters around him saw this scene, and it was also a surprise in his eyes.

Ye Feng jumped into this treasure trove and began to count the wealth in this treasure house.

This ghost demon body is a soul -based demon. It is usually estimated that it secretly controls and kills a lot of practitioners who have mistakenly entered this dark mountains.

Therefore, there are storage rings accumulated in this treasure house.

In addition, although the land of the swamp is full of corrosiveness, it is also a place that can bred high -end elixir.

Therefore, there are many very old senior elixir in this underground treasure house, which makes Ye Feng naturally overjoyed.

Chapter 5701 Arrives Quietly

At this moment, Ye Feng naturally did not hesitate at all and flew directly into the treasure house below.

Ye Feng needed all kinds of cultivation resources in this treasure house.

First of all, Ye Feng directly covered all the high-level spiritual medicines that he needed most in his devouring field.

Boom!

At this moment, a huge amount of energy was immediately injected into Ye Feng's Dantian.

You know, these high-level spiritual medicines are all spiritual medicines bred in this very special swamp.

And the growth time of each of these medicinal materials is very long, so the medicinal power contained in each medicinal material is very powerful.

After Ye Feng absorbed it at this time, he could naturally accumulate a lot of energy.

At this moment, Ye Feng's cultivation aura immediately began to grow rapidly and continuously.

Boom! !

Almost at this moment, Ye Feng's body suddenly burst out with an extremely powerful cultivation momentum.

That was the momentum of breakthrough!

With the help of these high-level spiritual medicines, Ye Feng's cultivation was completely transformed. He broke through from the previous ninth level of the God Hall Realm to the tenth level of the God Hall Realm.

At this time, Ye Feng's eyes suddenly showed a look of surprise.

Because Ye Feng never thought that after swallowing so many high-level medicinal materials, he broke through the first level and entered the tenth level of the God Hall Realm.

But Ye Feng thought about it and felt that it was very normal.

After all, his cultivation has reached a very high level now. If he wants to continue to break through, the energy required will become more and more huge.

If Ye Feng absorbed so many high-level medicinal materials when his cultivation was at a lower level before, he would definitely be able to break through the third level at least, or even directly break through the bottleneck of a major realm.

But this time, Ye Feng only broke through to the tenth level of the God Hall Realm, only breaking through the first level.

However, Ye Feng was not particularly disappointed, because Ye Feng was also very clear about his physique. With the continuous improvement of his cultivation, the energy required for each breakthrough would become more and more huge.

At this moment, Ye Feng did not say much, but continued to look at other good things in the treasure house.

Soon, Ye Feng found a lot of energy crystals in the treasure house.

These energy crystals should also be the rare ores dug out from the dark mountains by the demon leader in this corrosive swamp.

At this moment, Ye Feng directly began to absorb these energy crystals, and a stream of energy was immediately injected into Ye Feng's body, but after all, Ye Feng's cultivation has not yet broken through the tenth level of the God Hall Realm.

Because the energy required for a breakthrough in a whole realm is very huge.

Even if Ye Feng swallowed a lot of energy crystals now, there is no way to break through his bottleneck in a short time.

At this moment, Ye Feng continued to look for other things in the treasure house, but there was no cultivation resource that could directly improve his skills, including the storage rings that Ye Feng saw, most of which were basically some inheritance books left by the owner of the storage ring before his death, or some weapons and armor.

There were almost no cultivation resources that could directly improve his skills.

Ye Feng immediately guessed that the demon leader of the Corrosion Swamp might have directly used most of the cultivation resources during his usual cultivation process.

At this moment, after collecting the other wealth in the entire treasure house, Ye Feng flew out directly, and then looked at the dozens of masters waiting outside, and said: "We can leave here directly. The second demon force has been completely eradicated by us."

Hearing Ye Feng say this, the dozens of masters present were quite happy.

One master couldn't help but say: "This time, we were able to eradicate two powerful demon forces so quickly, mainly relying on Lord Ye Feng. If it weren't for Lord Ye Feng's many means, I'm afraid it would be very difficult for us to eradicate the first demon force."

These dozens of masters actually understood in their hearts that under the leadership of Ye Feng, they could only serve as auxiliary forces at most, and the main combat power was still Ye Feng himself.

At this moment, Ye Feng did not say much about this, but smiled and said: "Let's hurry up and follow the map to find the next demon force as soon as possible. I calculated the time. The city lord of Luoyue City is probably about to arrive at Black Mountain Village and have a decisive battle with the Black Mountain Old Demon. Let's hurry up and kill all the

helpers of the Black Mountain Old Demon. In this way, the city lord of Luoyue City will be under much less pressure at that time."

The dozens of masters present nodded when they heard Ye Feng say this.

After all, this time they were invited by the city lord of Luoyue City and promised to give them enough rewards. Naturally, they must do their best, otherwise, they will not get the corresponding rewards.

At this moment, Ye Feng looked at the map in his hand and flew directly and quickly towards the third demon force.

In the Dark Mountains, there are five major demon forces in total, except for the most powerful Black Mountain Village and Black Mountain Old Demon.

The third demon force that Ye Feng led many masters to at this time was a place called Black Fire Magma.

In this black fire magma, the demon leader who survived is called the Black Flame Demon Dragon, a dragon with fire attribute, and has very powerful strength.

At this moment, Ye Feng looked at the dozens of masters around him and said: "All masters who practice ice attribute, follow me to attack the demon dragon with fire attribute, and the practitioners among us who practice fire attribute will use your fire attribute power as a defensive force to defend against the attack of the Black Flame Demon Dragon with fire attribute."

Hearing what Ye Feng said, the dozens of masters present all nodded, and naturally all obeyed Ye Feng's arrangement.

After all, along the way, Ye Feng's strength and wisdom have long been deeply rooted in people's hearts.

At this moment, Ye Feng led many masters and soon arrived at the location of the third demon force.

At this moment, everyone immediately saw that there was a vast extinct volcano area in front of them.

The whole land was rolling with hot magma.

Moreover, the magma here is not burning with ordinary red flames, but a black flame, giving people a hot but dark feeling.

At this moment, Ye Feng directly released his soul power and covered the front. Soon, he felt a very strong demonic aura surging in the depths of this black fire magma.

At this moment, Ye Feng immediately understood that this strong demonic aura should be the demon leader in this black fire magma, the Black Flame Demon Dragon, who seemed to be sleeping and didn't know that the enemy had quietly arrived.
