

Ancient God

Chapter 5701 Arrives Quietly

At this moment, Ye Feng naturally did not hesitate at all and flew directly into the treasure house below.

Ye Feng needed all kinds of cultivation resources in this treasure house.

First of all, Ye Feng directly covered all the high-level spiritual medicines that he needed most in his devouring field.

Boom!

At this moment, a huge amount of energy was immediately injected into Ye Feng's Dantian.

You know, these high-level spiritual medicines are all spiritual medicines bred in this very special swamp.

And the growth time of each of these medicinal materials is very long, so the medicinal power contained in each medicinal material is very powerful.

After Ye Feng absorbed it at this time, he could naturally accumulate a lot of energy.

At this moment, Ye Feng's cultivation aura immediately began to grow rapidly and continuously.

Boom! !

Almost at this moment, Ye Feng's body suddenly burst out with an extremely powerful cultivation momentum.

That was the momentum of breakthrough!

With the help of these high-level spiritual medicines, Ye Feng's cultivation was completely transformed. He broke through from the previous ninth level of the God Hall Realm to the tenth level of the God Hall Realm.

At this time, Ye Feng's eyes suddenly showed a look of surprise.

Because Ye Feng never thought that after swallowing so many high-level medicinal materials, he broke through the first level and entered the tenth level of the God Hall Realm.

But Ye Feng thought about it and felt that it was very normal.

After all, his cultivation has reached a very high level now. If he wants to continue to break through, the energy required will become more and more huge.

If Ye Feng absorbed so many high-level medicinal materials when his cultivation was at a lower level before, he would definitely be able to break through the third level at least, or even directly break through the bottleneck of a major realm.

But this time, Ye Feng only broke through to the tenth level of the God Hall Realm, only breaking through the first level.

However, Ye Feng was not particularly disappointed, because Ye Feng was also very clear about his physique. With the continuous improvement of his cultivation, the energy required for each breakthrough would become more and more huge.

At this moment, Ye Feng did not say much, but continued to look at other good things in the treasure house.

Soon, Ye Feng found a lot of energy crystals in the treasure house.

These energy crystals should also be the rare ores dug out from the dark mountains by the demon leader in this corrosive swamp.

At this moment, Ye Feng directly began to absorb these energy crystals, and a stream of energy was immediately injected into Ye Feng's body, but after all, Ye Feng's cultivation has not yet broken through the tenth level of the God Hall Realm.

Because the energy required for a breakthrough in a whole realm is very huge.

Even if Ye Feng swallowed a lot of energy crystals now, there is no way to break through his bottleneck in a short time.

At this moment, Ye Feng continued to look for other things in the treasure house, but there was no cultivation resource that could directly improve his skills, including the storage rings that Ye Feng saw, most of which were basically some inheritance books left by the owner of the storage ring before his death, or some weapons and armor.

There were almost no cultivation resources that could directly improve his skills.

Ye Feng immediately guessed that the demon leader of the Corrosion Swamp might have directly used most of the cultivation resources during his usual cultivation process.

At this moment, after collecting the other wealth in the entire treasure house, Ye Feng flew out directly, and then looked at the dozens of masters waiting outside, and said: "We can leave here directly. The second demon force has been completely eradicated by us."

Hearing Ye Feng say this, the dozens of masters present were quite happy.

One master couldn't help but say: "This time, we were able to eradicate two powerful demon forces so quickly, mainly relying on Lord Ye Feng. If it weren't for Lord Ye Feng's many means, I'm afraid it would be very difficult for us to eradicate the first demon force."

These dozens of masters actually understood in their hearts that under the leadership of Ye Feng, they could only serve as auxiliary forces at most, and the main combat power was still Ye Feng himself.

At this moment, Ye Feng did not say much about this, but smiled and said: "Let's hurry up and follow the map to find the next demon force as soon as possible. I calculated the time. The city lord of Luoyue City is probably about to arrive at Black Mountain Village and have a decisive battle with the Black Mountain Old Demon. Let's hurry up and kill all the helpers of the Black Mountain Old Demon. In this way, the city lord of Luoyue City will be under much less pressure at that time."

The dozens of masters present nodded when they heard Ye Feng say this.

After all, this time they were invited by the city lord of Luoyue City and promised to give them enough rewards. Naturally, they must do their best, otherwise, they will not get the corresponding rewards.

At this moment, Ye Feng looked at the map in his hand and flew directly and quickly towards the third demon force.

In the Dark Mountains, there are five major demon forces in total, except for the most powerful Black Mountain Village and Black Mountain Old Demon.

The third demon force that Ye Feng led many masters to at this time was a place called Black Fire Magma.

In this black fire magma, the demon leader who survived is called the Black Flame Demon Dragon, a dragon with fire attribute, and has very powerful strength.

At this moment, Ye Feng looked at the dozens of masters around him and said: "All masters who practice ice attribute, follow me to attack the demon dragon with fire attribute, and the practitioners among us who practice fire attribute will use your fire attribute power as a defensive force to defend against the attack of the Black Flame Demon Dragon with fire attribute."

Hearing what Ye Feng said, the dozens of masters present all nodded, and naturally all obeyed Ye Feng's arrangement.

After all, along the way, Ye Feng's strength and wisdom have long been deeply rooted in people's hearts.

At this moment, Ye Feng led many masters and soon arrived at the location of the third demon force.

At this moment, everyone immediately saw that there was a vast extinct volcano area in front of them.

The whole land was rolling with hot magma.

Moreover, the magma here is not burning with ordinary red flames, but a black flame, giving people a hot but dark feeling.

At this moment, Ye Feng directly released his soul power and covered the front. Soon, he felt a very strong demonic aura surging in the depths of this black fire magma.

At this moment, Ye Feng immediately understood that this strong demonic aura should be the demon leader in this black fire magma, the Black Flame Demon Dragon, who seemed to be sleeping and didn't know that the enemy had quietly arrived.

Chapter 5702: Grandmaster Uncle

At this time, Ye Feng immediately looked at the dozens of masters around him, and said, "I can now feel the demon leader of this place, the black flame magic, at this moment, it seems to be sleeping under the molten slurry. We can now sneak attacks directly.

Hearing Ye Feng said so, dozens of masters nodded, following Ye Feng, just came to this fuse that exudes black flames.

But remember that when they just walked to the place of the dark fire magma, the magma around suddenly rolled up.

In the next moment, the melting of the black flames was completely burned into a humanoid monster, like a melting puppet, and the black flames were burned all over, and it was directly impacted by everyone.

Seeing this scene, Ye Feng immediately understood that all these human -shaped monsters were condensed by the surrounding melt power.

At this moment, Ye Feng immediately said, "It seems that this dark -fire magma land has become the exclusive territory of the black flame magic magic. The power, condensed into

these melting monsters to automatically defend us outsiders, it seems that the black flame magic 蛟 we have already shocked now. "

Hearing Ye Feng's saying, a group of masters around him nodded, and then showed a hint of fighting in his eyes, saying, "Anyway, let's attack directly."

At this moment Ye Feng nodded, and immediately attacked in front.

Boom!

At this moment, everyone released their inheritance and strength to attack these molten monsters crazy.

Om!

At this moment, a terrible huge atmosphere suddenly emitted from this dark -fire magma place.

"not good!"

Ye Feng immediately understood, and the black flame magic was awakened.

At this moment, everyone suddenly saw a very shocking scene.

I saw the middle of this melting land, and the entire ground immediately shook quickly.

The next moment, a huge black dragon, with tens of thousands of meters of majesty, suddenly rushed out of the molten place, under the ground, and then flying on the high altitude, burning all over the body, all over and down, burning all over and down, burning all over and down, burning all over and down, burning all over and down, burning all over and below, burning all over the body, all of which were burning all over and down, and all over and down were burning all over the body. The black flame, like a black dragon god, gives a very shocking visual impact.

At this moment, Ye Feng saw this scene, and there was no fear in his eyes, but he laughed and said, "Then go a fight with you."

Boom! Intersection

At this moment, Ye Feng burst out his powerful cultivation power, which directly stimulated the immortal body of the gods.

At this moment, Ye Feng bloomed the bright golden light, as if a young man's deity would fight this black dragon god.

Boom!

At this moment, the two suddenly collided.

This black flame magic immediately made a cold voice, saying, "Who are you? Why do you lead so many masters to sneak attack?"

Ye Feng smiled coldly and said, "The demon in the dark mountains of you, one by one, is all for the sake, burning and looting. I naturally destroy you and remove harm for the people."

Hearing Ye Feng's saying, this black flame magic eyes suddenly showed a brutal look, and said, "Your courage is really big, we have not directly attacked you. It is bold. Today, we happen to destroy all the strong men who are in the moon. At that time, we will be able to launch the overall attack on the Moon City under the leadership of the Old Monthon of Heishan. "

At this moment, the black flame magic was sprayed with a huge black light column at a glance, with terrifying destructive power and burning capacity. It suddenly torn the void and directly impacted Ye Feng.

At this time, Ye Feng didn't hesitate to hesitate. He immediately exhibited the super magic weapon of the ancient saints that he had received from the President of the Black Wind Society before, the throne of the sage.

Alas!

At this moment, Ye Feng flew to the high altitude at once, sitting on a golden seat.

This is the throne of the sage!

At this moment, Ye Feng activated the power of the ancient saints in the Sage Throne, and a thick golden barrier appeared around.

Boom! Intersection

When the black light column sprayed out of this black flame magic bombard was bombarded on the golden barrier in front of the leaves, and a huge roar was directly erupted.

The next moment, the Black Flame Demon saw that the golden barrier around Ye Feng did not fluctuate at all, and immediately said, "What? How is this? There is no way to break the golden barrier of your magic weapon. What kind of magic weapon is this golden throne you sit? "

At this time, Ye Feng smiled slightly and said, "This is the treasure of ancient saints. It has the power of the ancient saint. You can't break it away."

At this moment, Ye Feng directly started attacking and directly released the Dragon Demon Demon Gong.

At this time, Ye Feng's surroundings immediately appeared in a black dragon, with part of the power of the ancient magic dragon.

At this moment, Ye Feng was sitting on the Saint's throne, protected by a golden barrier, and surrounded by thousands of black dragons. This scene made Ye Feng look like a saint who controlled the Dragon God and could use his tremendous power at any time.

Seeing this scene at this moment, the Black Flame Demon Dragon was shocked to the extreme and said aloud: "What? How could you have the power of my ancestors? This Ten Thousand Dragons Demon Heavenly Art is the inheritance of the oldest ancestor of our clan."

"Huh?"

Hearing what the Black Flame Demon Dragon said, Ye Feng's eyes suddenly showed a look of astonishment, and then he couldn't help but said aloud: "Is the ancestor of your clan an ancient demon dragon?"

Hearing what Ye Feng said, the Black Flame Demon Dragon was frightened and stuttered at this moment, and couldn't help but nodded quickly and said aloud: "No... That's right, the ancestor of our clan is an ancient demon dragon. It was once famous throughout the earth tens of thousands of years ago, but it disappeared in a mysterious place in the end. It is said that it provoked a powerful force from the high-level cultivation dimension world and was suppressed or killed."

Hearing what the Black Flame Demon Dragon said, Ye Feng's eyes also showed a look of surprise.

Could it be that this Black Flame Demon Dragon is really the descendant of the ancient demon dragon he knew?

At this moment, Ye Feng retracted his magical power, looked at the Black Flame Demon Dragon in front of him with a very nervous expression, and said: "I have had intersections with your ancestors, and we even called each other brothers. Since you are the descendant of my friend, I will give you a chance now. Submit to me and serve me, and I will not kill you."

Swish!

Hearing what Ye Feng said, the Black Flame Demon Dragon almost did not hesitate at all, and immediately flew in front of Ye Feng, and directly transformed its majestic body of tens of thousands of meters into a young man in a black robe, and then knelt on one knee in front of Ye Feng, and said: "Greetings to the great-grandmaster uncle."

At this moment, the Black Flame Demon Dragon knew that Ye Feng was actually a friend of their ancestor. According to seniority, the Black Flame Demon Dragon really needed to call Ye Feng the great-grandmaster uncle.

"What's going on?"

At this moment, hearing this notorious demon dragon call Ye Feng "master uncle" in front of Ye Feng, it was obvious that it regarded Ye Feng as a figure of the same level as its ancestor.

A group of dozens of masters around them all showed deep astonishment on their faces.

Then everyone admired Ye Feng to the extreme. They never thought that a young man like Ye Feng would have an intersection with the ancestor of this notorious demon dragon, and even call each other brothers with a big man from tens of thousands of years ago. It was really shocking.

At this moment, Ye Feng was also quite happy. Being able to accept this extremely powerful black flame demon dragon as his younger brother was of great help to Ye Feng. It was simply an extremely powerful free thug!

Ancient God

Chapter 5703: Perform well

At this moment, Ye Feng was very happy to be able to subdue this flame-attributed demon dragon.

After all, if he really wanted to deal with this flame-attributed demon dragon, he would need to use a lot of means, and it would be very likely to alert the enemy.

And Ye Feng knew very well that if he could take this demon dragon as his subordinate, it would be of great help to him in hunting other demon leaders.

After all, this demon dragon also lived in this dark mountain range, and must be quite familiar with the surrounding environment and the other demon leaders.

If there was this demon dragon leading the way and guiding, then Ye Feng would save a lot of energy.

At this moment, Ye Feng looked at the demon dragon in front of him and said, "Your ancestors and I are friends. It is normal for you to call me your uncle master in the future."

Hearing what Ye Feng said, the demon dragon naturally nodded very respectfully and said, "I will definitely respect my uncle master in the future."

Hearing the demon dragon express his loyalty, Ye Feng immediately nodded and said, "I came to your Dark Mountains this time mainly to eliminate the other demons in the entire Dark Mountains. You Now take me to the fourth area where demons live, which is the dark abyss. There lives a Nether Centipede, and I need to eliminate it. "

Hearing what Ye Feng said, the demon dragon immediately showed a look of surprise in his eyes, and said: "I didn't expect that the master uncle came here just to eliminate a few small demons. This is very simple. I will take you there directly and let me deal with it."

Hearing the demon dragon's words that seemed to be very confident, Ye Feng's eyes showed a look of surprise.

Then Ye Feng smiled and nodded, with his hands behind his back, and said: "Then I will see what your strength is. "

Ye Feng knew very well that he was not sure whether this demon dragon was really loyal to his so-called master uncle.

It was just right to take advantage of this opportunity to let him deal with the demon leader in the dark mountains.

If the demon dragon can do this thing beautifully, without any hesitation, to help him eliminate other demon leaders, then this would be a token of loyalty.

Ye Feng will believe in this demon dragon in the future.

At this moment, the demon dragon didn't know what Ye Feng was thinking. Anyway, he had already regarded Ye Feng as his uncle.

After all, the powerful demon dragon inheritance that Ye Feng had used before was the inheritance of their ancestors.

So he was very respectful and even flattering to Ye Feng, because he had his own little thoughts in his heart, that is, to get the peerless inheritance of their ancestors from Ye Feng by flattering Ye Feng.

At this moment, Ye Feng looked at the demon dragon and said, "Then we can set off directly now."

Hearing what Ye Feng said, the demon dragon nodded and said, "Okay."

At this moment, the demon dragon flew directly from its territory, and then motioned Ye Feng to fly above his head.

Swish!

Seeing this, Ye Feng smiled slightly, and jumped directly onto the majestic head of this demon dragon.

At this moment, Ye Feng stood on the head of this majestic demon dragon that was tens of thousands of meters long. He looked like a king who ruled the world, giving people a very majestic feeling.

"Lord Ye Feng is so domineering!"

At this time, all the masters looked at Ye Feng standing on the head of the huge demon dragon, and many masters couldn't help but sigh.

At this moment, Ye Feng looked at the dozens of masters around him and said, "Follow us."

At this moment, Ye Feng looked at the demon dragon under his feet and said, "Take us directly to the fourth demon territory."

The demon dragon nodded immediately and said, "I will take you to the dark abyss now. That Nether Centipede is nothing. I can get rid of it by myself. You don't need to do it yourself."

At this moment, this demon dragon can be said to be very confident. It directly uses its own power. The huge dragon body like a mountain soared into the sky in an instant, and then flew quickly towards a certain direction of this dark mountain range.

Soon, this demon dragon brought Ye Feng and many masters to a dark abyss.

A huge abyss appeared in front.

"This is the dark abyss."

At this moment, the demon dragon looked at Ye Feng above his head and said, "Uncle Master, do you want to go down with me?"

Ye Feng nodded and said, "Since this Nether Centipede is the leader of the demons, it should have its own treasure house. I really need the good things in the treasure house of this powerful demon leader."

Hearing what Ye Feng said, the demon dragon nodded immediately and said, "This Nether Centipede has indeed collected a lot of wealth. It's just right that I killed it today and gave all its wealth to my uncle."

At this moment, the demon dragon immediately jumped into the dark abyss.

As he descended, Ye Feng could clearly feel the dark energy in the abyss, which was very strong and could poison people instantly.

At this time, Ye Feng had already seen that the dozens of masters following behind him had already turned black, but they had no idea that they were poisoned.

This is a very rare dark toxin.

Ye Feng immediately looked at the dozens of masters behind him and said, "Don't follow me. I will go down with this demon dragon to hunt down the Nether Centipede. You wait for me above the abyss. Look at your faces. You are already poisoned."

At this time, many masters were shocked when they heard Ye Feng's reminder.

Then they looked at each other and found that the skin on each other's faces had begun to turn black.

"Sure enough, they are poisoned!"

Seeing this scene, many masters were terrified.

I didn't expect that the dark poison under the abyss would be so terrifying that people would be poisoned without knowing it. Perhaps they would not know until the moment of death that they were already terminally ill.

At this moment, dozens of masters nodded and said, "Then Lord Ye Feng, you must be careful."

After that, many masters immediately returned and waited for Ye Feng's return above the abyss.

At this moment, Ye Feng followed the demon dragon and fell quickly.

Seeing that Ye Feng did not release the protective divine light, and could directly resist this terrifying dark poison just by relying on the strength of his body, the demon dragon could not help but exclaim in admiration: "Master uncle is really amazing. I can't withstand this dark poison for too long. I didn't expect that Master uncle didn't have to avoid these dark poisons at all during his breath."

Ye Feng smiled and said: "This is nothing. As long as you perform well, maybe I can pass on the peerless inheritance of your ancestors' ancient demon dragon, the Ten Thousand Dragons Demon Heavenly Art."

"Hmm?"

Hearing what Ye Feng said, the demon dragon's eyes suddenly lit up, and he nodded and said: "I am absolutely willing to go through fire and water for Master uncle, and I have no choice but to do it!"

Seeing the demon dragon so excited, Ye Feng smiled and nodded.

In fact, Ye Feng had already guessed that the reason why the demon dragon was so loyal to him was not only because he was friends with his ancestor, the ancient demon dragon, but more importantly, he possessed the peerless inheritance of the ancient demon dragon, the Ten Thousand Dragons Demon Heavenly Art.

This demon dragon must want that peerless inheritance, which was the peerless inheritance of their ancestors. If he could learn it, he would definitely be able to transform his cultivation power.

So this demon dragon has always been very attentive to Ye Feng, and this is the main reason.

Chapter 5704: Nether Centipede

At this time, between the Demon Dragons and Ye Feng, they had landed at the bottom of the dark abyss.

At this moment, Ye Feng immediately saw it. On the surrounding rocks, it was covered with dense black crickets.

These black crickets have a human arm length and look very embarrassed.

Obviously, this is an old nest, with a variety of crickets everywhere, full of toxicity.

But this is nothing for Ye Feng and the Demon Dragon.

The Demon Dragon immediately yelled: "Ghost 蜈, come out and die!"

At this moment, the Demon Dragon's words were very loud, and suddenly the whole dark abyss sounded.

Seeing this scene, Ye Feng's eyes suddenly revealed a stunned color. It seemed that the style of the Demon Dragon was so simple and direct.

But this is also the most effective way.

Sure enough, at the moment when the voice of the Demon Dragon fell, the deepest part of the dark abyss was climbed up with a black cricket with tens of thousands of meters long.

Ye Feng admits that this is the biggest cricket that he is currently encountered.

There are tens of thousands of meters of black crickets, and the ancient patterns of various skulls are printed on the surface. It seems to be born, giving a very weird and horrible feeling.

At this moment, Ye Feng saw this ghostly cricket, and immediately understood that this puppet is estimated to have been cultivated for tens of thousands of years, and his strength is very powerful.

I am afraid it is very difficult to deal with.

However, the Demon Dragon seems to have a way to deal with this ghost. It is very confident and said, "Ghost 蜈, we did not commit the river water, but today my uncle and ancestor saw you unhappy and want to remove you. Then I had to replace my uncle and ancestor to destroy you. "

When I heard the Demon Dragon said so, the ghostly smiled coldly and said, "Black Flame Demon, I know your dark dragon body has natural immunity to my ghost drama, but you want to find me There is no use in trouble, because today I invite the golden bee bee in the underground honeycomb.

"Um?"

Ye Feng heard the dialogue between the ghosts and the Demon Dragon, and suddenly he understood a little bit. It seems that the two demon head collar usually has some grievances.

This time, I came to find this ghost's trouble, which gave the Demon Dragon an excuse to destroy the ghost 蜈.

But the ghost seemed to find the helper in advance.

Boom!

At this time, the surrounding ground suddenly shook.

Along with the cracking of the ground, a golden bee with a small mountain -like size suddenly broke out of the ground under the ground, fanning wings, giving a very fearful feeling.

This huge golden bee -like bee is obviously the last demon forces of the Golden Eater, which is what the Golden Eatering Bee -bee king, is the magic forces of the five major demon forces recorded in the map of Ye Feng, the demon leader in the barren scorching soil, and the golden scorching soil, and the golden scorching soil, and the golden scorching soil, the golden scorching soil, the golden scorching soil, and the golden scorching soil, and the golden scorching soil, and the golden scorching soil, and the golden scorching soil, and the golden scorching soil, and the golden scorching soil. The bee king.

At this moment, when I saw this small mountain -sized golden bee appearing, the Demon Dragon obviously showed a surprise in his eyes. It seemed that he did not expect that the fifth -headed demon leader would appear within the scope of the ghost.

At this moment, the Demon Dragon immediately understood what, and couldn't help showing a gloomy expression on his face, staring at the ghostly, and said, "It seems that you have already planned it long ago, and you are together with others. , Kill me ".

The ghostly laughed, and said, "Since you came to the door today, it happened to be sent to death."

At this moment, the ghost crickets and the huge mountain -like gold bee are instantly impacted in the direction of the Demon Dragon.

At this moment, the Demon Dragon did not counsel at all. It was directly open the blood of the blood basin and sprayed a huge flame light. Go.

But at this moment, the golden bee was directly blocked in front of the flames.

boom! Intersection

The flames were bombarded on the golden bee, and the defense of this golden bee could not be broken at all.

"What?"

Seeing this scene, the Demon Dragon immediately couldn't help but look very gloomy.

The ghost 则 laughed and was very proud, and said, "Although you are immune to me, and your black flame can restrain the devil of insect attributes, but this golden bee bee king has accumulated all year round. In the honeycomb under the ground, absorb the metallic forces of the entire earth. Help, you can't hurt me at all, you will die today. "

At this moment, the ghost 闻 showed a kind of magical power, and the whole body suddenly emerged with a fierce toxin, forming a toxic field, covering the Demon Dragon in it.

At this moment, countless toxicity formed a quagmire, and the Demon Dragon was caught in the quagmire at this time.

Although these toxicity has no major harm to the Demon Dragon, the immunity of the Demon Dragon is limited after all.

As the Nether Centipede released more and more toxins, the Demonic Dragon also felt that he was poisoned and had difficulty moving.

Seeing this scene, the Nether Centipede immediately laughed: "You are dead today!"

Boom! !

But suddenly at this moment, a golden light suddenly burst out from behind.

Swish!

It was Ye Feng who flew into the air, his whole body bursting with brilliant golden light, just like a young god, walking out of the darkness in this dark abyss.

The golden light, like the scorching sun in the sky, shone in all directions, and everyone couldn't open their eyes.

At this moment, Ye Feng punched the golden bee hard.

Although the insect shell of the golden bee was made of golden divine iron, cracks appeared under the attack of Ye Feng's immortal body.

"What?"

Seeing this scene, the Nether Centipede immediately widened his eyes and couldn't help staring at Ye Feng, saying in horror: "I thought this human kid was just your human slave, the Black Flame Demon Dragon, but I didn't expect him to be so powerful. Is he the helper you brought?"

The Demon Dragon didn't seem to expect Ye Feng to have such a powerful destructive power at this time, and immediately laughed and said: "My uncle-master has taken action, the Nether Centipede and the Gold-eating Queen Bee, you are all dead!"

Chapter 5705 What's wrong with you?

At this moment, the demon dragon was obviously extremely excited, because he never thought that Ye Feng's body strength would be so terrifying.

Even the golden bee, which had been swallowing various metals underground for many years to strengthen its physique, could not resist Ye Feng's fist.

At this time, the Nether Centipede saw this scene and was also stunned.

Because the Nether Centipede originally thought that Ye Feng, a weak human boy, was just a human slave next to the demon dragon, and was just doing odd jobs next to him.

But he didn't expect that once Ye Feng burst out with such a powerful force, it would be so terrifying.

Even his strongest defensive partner, the golden bee, could not stop Ye Feng's attack.

At this time, Ye Feng smiled coldly and said, "This golden bee is indeed very strong, but it is still a little worse than my physique."

Boom! !

At this moment, Ye Feng punched out again and again, and the golden bee immediately sprayed out a terrifying golden light, and even condensed various golden weapons in the air, and attacked Ye Feng frantically.

Ye Feng had no fear at all at this moment, and directly took out the powerful weapon given to him by the ancient magic dragon, the dragon bone sword, and slashed it frantically in front of him.

The dragon bone sword in Ye Feng's hand, with the power of the ancient magic dragon, naturally has a terrifying destructive power, and directly broke all the golden weapons used by the golden bee.

Seeing this scene at this time, Ye Feng's eyes suddenly showed a look of surprise, as if he didn't expect that the dragon bone sword given to him by the ancient magic dragon still contained such a powerful destructive power.

At this moment, Ye Feng also directly used the powerful saint weapon he had obtained before, the saint throne.

Buzz!

At this time, Ye Feng was sitting on a huge golden throne, and a huge golden barrier appeared around him, blocking all the attacks.

Swish!

The demon dragon came to Ye Feng's side at this time and hid in the golden barrier of the Saint's throne.

At this moment, the demon dragon looked at Ye Feng beside him with deep awe in his eyes.

Although the demon dragon called Ye Feng his uncle, he didn't pay much attention to young people like Ye Feng in his heart. After all, he just wanted the peerless inheritance of the ancient demon dragon in Ye Feng.

But unexpectedly, Ye Feng's means were released all at once, and they had such a terrifying power, which naturally made the demon dragon more and more in awe of Ye Feng.

At this moment, under the joint attack of the demon dragon and Ye Feng, the Nether Centipede and the golden bee were not their opponents at all, and they were beaten back step by step.

"Puff!"

At a certain moment, the dragon bone sword in Ye Feng's hand split the golden bee in half, killing it instantly on the spot.

When the Nether Centipede saw this scene, it hurriedly fled to the distance in a panic, wanting to leave here.

But the Demon Dragon and the Nether Centipede seemed to have an old grudge, and had been staring at the movements of the Nether Centipede, so the moment the Nether Centipede escaped, the Demon Dragon directly stretched out its huge black dragon claws.

The huge dragon claws, which seemed to be made of black gold, had terrifying sharpness and grasping power, and directly grabbed the entire huge body of the Nether Centipede into the sky, and then the Demon Dragon tore it apart with two dragon claws.

Nether Centipede, dead!

So far, four of the demon leaders of the five major demon forces have died, and the surviving Demon Dragon has become Ye Feng's most loyal subordinate.

At this moment, Ye Feng's own mission is basically completed.

At this moment, Ye Feng did not hesitate at all, and directly released the Devouring Domain, and began to devour the blood and energy of the golden bees and the Nether Centipede that had been killed at the scene.

You know, whether it is the golden bees or the Nether Centipede, each of them is an extremely powerful demon leader, and the power contained in their bodies is also very powerful.

At this moment, after Ye Feng devoured it, he could immediately feel two very huge demon energies, which were immediately injected into his Dantian, rapidly strengthening his own skills.

You know, if an ordinary practitioner is infected with this terrifying demon energy, I am afraid that he will be assimilated into a demon in an instant.

But Ye Feng can accommodate the different types of power of thousands of attributes under the sky.

At this moment, Ye Feng obtained the huge demon power of the two demon leaders.

Before, Ye Feng's cultivation level was at the great perfection of the tenth level of the God Hall Realm, and it was instantly broken through, and he directly broke through to a new level of cultivation above the God Hall Sword, the Amaterasu Realm.

At this moment, Ye Feng could feel that his cultivation power remained at the half-step Amaterasu realm, and he had not entered the real Amaterasu realm, but for Ye Feng, it was already very satisfying.

After all, Ye Feng knew very well that his cultivation was at a very high level, and it was very difficult to break through a big bottleneck, and it required extremely terrifying energy to break through this big bottleneck.

But this time, he was able to successfully break through the cultivation bottleneck of the tenth level of the Divine Hall Realm, which was very lucky for Ye Feng.

At this moment, Ye Feng's cultivation level has entered the half-step Amaterasu realm, allowing Ye Feng to feel that his strength has been greatly enhanced.

At this time, Ye Feng did not hesitate at all, and immediately looked at the demon dragon beside him and said, "Let's go directly."

But at this time, Ye Feng suddenly discovered that the demon dragon following him looked at Ye Feng with a look of deep dullness and horror.

Ye Feng couldn't help but ask in surprise: "What's wrong with you?"

Hearing Ye Feng's question, the demon dragon's eyes showed a trace of fear towards Ye Feng that he had never had before.

At this moment, the demon dragon looked at the golden bees and the Nether Centipede, whose bodies had completely shriveled up, with a look of deep fear in his eyes, and said: "Master, did you just suck all their energy and demonic skills dry?"

Ye Feng nodded slightly at this time and said: "This is my innate ability, which can devour the energy from the outside world for my own use, even the energy of these demons, I can use it directly."

Hearing what Ye Feng said, the demon dragon looked at Ye Feng in shock, and finally did not say much, but nodded, followed Ye Feng obediently, and prepared to leave here.

But at this moment, Ye Feng seemed to have thought of something, and suddenly said: "Is there any wealth collected by the Nether Centipede in its nest?"

Ancient God

At this moment, hearing Ye Feng's question, the demon dragon standing beside him slapped his head and couldn't help but said: "I almost forgot about this. Of course, there is a treasure house collected by the Nether Centipede in the nest. I will take you to check it out."

At this moment, hearing the demon dragon say this, Ye Feng's face immediately showed a satisfied look.

Because Ye Feng knew very well that this demon dragon had lived in this dark mountain for so many years, and should be very familiar with other demon leaders. As expected, with the demon dragon leading the way, Ye Feng could save a lot of trouble.

At this moment, Ye Feng followed the demon dragon and flew quickly towards the deep area of the Nether Centipede's nest.

Soon, the two arrived at the deepest part of the nest.

At this time, Ye Feng immediately saw that there was a huge underground pit in front of him.

In this underground pit, there are various weapons and armors emitting different colors of light.

In addition, there are many strange things.

For example, there is an eye that seems to be an ancient giant.

There is also a huge heart sealed in the ice coffin, which is beating rapidly at this moment. It may be the heart of some supernatural creature.

In addition, Ye Feng also saw that there were many precious inheritance books of the human race placed casually in this pit.

These things should be collected by the Nether Centipede over the years.

At this moment, Ye Feng naturally did not hesitate at all. He flew over excitedly and released the swallowing field directly, and began to swallow the cultivation resources collected by the Nether Centipede that could improve his skills.

At this moment, along with Ye Feng's swallowing, as long as the resources that could improve his skills were swallowed by Ye Feng in an instant and absorbed into his Dantian.

For example, the heart of the supernatural creature that was beating rapidly in the ice coffin, or the fist-sized pills in some ancient alchemy furnaces, all provided Ye Feng with various miscellaneous energies, all of which could be gathered in Ye Feng's Dantian and become Ye Feng's skills.

Seeing this scene, the demon dragon standing aside was very shocked.

At this moment, the demon dragon looked at Ye Feng with a look of emotion in his eyes.

Because if it was him, if he forced so many energies of different attributes, even his demon dragon body would explode and die in an instant.

But Ye Feng's small human body was like a huge furnace that could melt everything in the world, and could gather all the power into one furnace and become his own power.

This ability was really too against the sky.

But Ye Feng did it.

So this made the demon dragon feel more and more in awe of Ye Feng.

At this moment, Ye Feng did not hesitate at all and swallowed quickly.

Ye Feng's previous cultivation had just broken through a major bottleneck and stepped into the half-step Amaterasu realm.

And at this time, with the help of all the cultivation resources in the Nether Centipede Treasure House, Ye Feng once again accumulated a lot of energy.

"Boom!!"

At a certain moment, Ye Feng's body suddenly burst out with a terrifying aura of cultivation.

That was the aura of breakthrough.

At this moment, Ye Feng's cultivation finally broke through a bottleneck again and entered the real Amaterasu Realm First Heaven!

At this time, when Ye Feng entered the real Amaterasu Realm First Heaven, above Ye Feng's head, in the void, there was a vision of an endless blue sky.

Ye Feng stood under this blue sky vision, giving people the feeling that he was a giant standing under the sky, majestic and boundless, immortal and indestructible.

This is a new level of cultivation. The power of the Amaterasu Realm can condense an eternal blue sky above the head of the practitioner, giving the practitioner the power of the world.

At this moment, Ye Feng could clearly feel that when he stepped into the new level of cultivation, the first level of the Amaterasu Realm, his power was definitely a thousand times stronger than when he was in the tenth level of the Divine Hall Realm.

It must be said that the higher the level of cultivation, the more each major realm leap will bring thousands of times the superposition of power.

At this moment, Ye Feng was naturally very happy, being able to directly break through to the realm of cultivation of the first level of the real Amaterasu Realm.

Even in a place like the battlefield outside the Dark Domain, he is definitely one of the best masters.

Not to mention that Ye Feng's real combat power is many times stronger than that of ordinary practitioners of the first level of the Amaterasu Realm.

At this moment, Ye Feng is probably much stronger than Murong Nandu, the city lord of Luoyue City.

At this time, Ye Feng looked at the demon dragon beside him and said, "Let's leave here."

The demon dragon nodded, followed Ye Feng out of this dark abyss, and returned to the ground.

At this moment, when Ye Feng returned to the ground, he saw dozens of masters still waiting for him.

These dozens of masters sensed the breakthrough of Ye Feng's cultivation aura at this time, and their eyes suddenly showed a deep shock.

Some masters couldn't help but exclaimed, "Master Ye Feng's cultivation has actually broken through directly."

At this time, everyone immediately understood that Ye Feng had completely killed their target, the Nether Centipede, in this dark abyss, and even obtained a huge opportunity. Otherwise, Ye Feng's cultivation would not have been able to break through so much in such a short time.

At this moment, Ye Feng smiled and said, "Since we have completed the task here, we can go directly to the direction of the Black Mountain Village to see if City Lord Murong Nan needs our help."

"Hmm?"

Hearing Ye Feng say this, a master immediately couldn't help but say, "Master Ye Feng, are you mistaken? The Nether Centipede in this dark abyss is only the fourth of the five demons. There should be a last demon."

Hearing this master say this, Ye Feng smiled slightly and said, "The last demon is the Gold Devouring Queen Bee in the desolate scorched earth. It just appeared in the abyss underground and has been solved by me."

"What?"

Hearing Ye Feng's casual words, dozens of masters present were shocked to the extreme.

Because the Gold-Eating Queen Bee is not an ordinary demon, but a very terrifying demon leader in the Dark Mountains.

Unexpectedly, two demon leaders appeared at the same time and were still killed by Ye Feng.

At this time, many masters were deeply shocked by Ye Feng.

And just as everyone was talking.

Boom! !

In the distance of the Dark Mountains, a huge signal flare suddenly exploded.

"Huh?"

Seeing this scene, a master in the crowd immediately changed his face and said: "This is the distress signal from Murong Nan, the lord of Luoyue City. He must have encountered a huge crisis in the Black Mountain Village, otherwise, it would be impossible to send such a distress signal."

Ancient God

Chapter 5707 Ends Here

At this time, everyone saw the help signal, and they couldn't help looking at Ye Feng and said, "Murong Nan, the owner of the city, should now encounter a crisis in Heizhantai. Are we going to support it now?"

Hearing that many masters said that, Ye Feng nodded and said, "Of course to support."

For Ye Feng, Murong Nan is an elder who admires it. In addition, he is the third uncle of his same master Murong Qingqing.

And this time Ye Feng came to the Dark Mountains, naturally to help Murongnan completely eliminate the demon forces in the dark mountains, especially the black cottage and the old black mountain monster.

So at this time, Ye Feng saw Murong Nan's help signal, and naturally immediately flew with many masters in that direction.

On the way, the Demon Dragon came to Ye Feng's body and couldn't help but say, "Uncle, the master, the strength of this black cottage is very strong, and the master of the black cottage, the old demon of the black cottage, is an extremely mysterious and powerful old old man. Monster, very powerful, can be said to be the most powerful demon in the dark mountains, even if I usually dare not provoke this black mountain monster. "

When I heard the Demon Dragon said so, Ye Feng nodded immediately, and his face was a little serious. He said, "I am naturally clear about the power of this black mountain old monster. It may be so solemn, I have come up with so many plans to deal with the most powerful demon black mountain old demon in the entire Dark Mountains, but now I can't watch Murong Nan who do not rescue in danger. In any case, first, first, first, first, first Look at it in the past ""

For Ye Feng, Murong Nan, the owner of the city, was the first purpose.

In fact, Ye Feng attaches more attention to the rich wealth of Heishan old monsters and the Hei Cottage created behind him.

You know, even the Demon Dragons say that the black cottage is the largest demon forces in the entire Dark Mountains.

The old demon old demon is the most powerful demon leader.

If the black cottage can be taken down and kills the old monster in Heishan, then the masterpiece of the old black mountain demon and the huge wealth contained in Hei Cottage can definitely greatly improve Ye Feng's comprehensive strength.

After all, during this time, Ye Feng has been constantly eradicating the demon forces and demon leaders in the Dark Mountains after another.

From the middle wind, it was generous.

So now Ye Feng can be said to be eliminated by the monster to remove the addiction. Naturally, it is to go to the most powerful black mountain monster for a while.

And the biggest hidden danger of the entire moon city is actually the Black Cottage and the Old Mountain Demon in the Dark Mountains.

Therefore, if you want to completely solve all the disasters in the Dark Mountains, you must face the old black cottage and the old monster in Heishan.

At this time, Ye Feng thought secretly that Ye Feng and dozens of masters followed the Demon Dragon, and had already come to the peripheral area of Hei Cottage.

At this moment, Ye Feng and the crowd flying above the air suddenly saw that the whole Hei Cottage was shrouded in a blood -red formation at this moment.

And this blood -red array exudes a very scary blood.

In the formation method, Ye Feng suddenly saw that the blood -red human -shaped monsters that were completely condensed by the energy of the blood -red formation were crazy attacking Murong Nan and a group of golden armor guards around.

At this moment, Murong Nan was emitted, and it was obviously a heavy creation.

The hundreds of golden armored guards he took are now only a dozen.

A group of people can be said to be panting.

At this moment, when I saw this at this moment, the dozens of masters behind Ye Feng couldn't help but show a deep shock in their eyes.

Among the crowds, some masters couldn't help but exclaimed and said, "What heroes Murong Nan are powerful and powerful. I did not expect to be so miserable today. Murong City is lighter to the enemy. "

At this moment, Ye Feng nodded, and said, "It seems that the predecessor Murong Nan is a light enemy, and his strength cannot fight against the entire Black cottage and the old black mountain monster."

At this time, the Demon Dragon stared at the blood -red array not far away. Bloodheet, this is a very ancient formation, with the power of terror to the extreme, and it is said that this Tai ancient demon god blood river array, if it can be stimulated to the extreme,

can even resurrect the ancient times in the formation method to rejuvenate ancient times in ancient times. The old monster among the blood demon ancestors hundreds of thousands of years ago, fighting for the entire Black Cottage. "

When he heard the Demon Dragon next to him, Ye Feng's eyes suddenly showed a surprise, and then nodded and said, "In any case, we first enter the formation method, and help Murong Nan to resist this one first. Attack of the formation "

At this moment, Ye Feng was just going to rush quickly with many masters towards the blood -red array.

But the Demon Dragon couldn't help but say, "Don't be impulsive, this blood -red array, I have already said, very dangerous, it is the legendary Taiku demon god blood river array. Even if we are outside the formation, once we are close to this formation method, we will be entangled by the blood monster in the river in the river. The Blood River Big Formation can draw from the continuous energy from the entire Dark Mountains, and to maintain countless blood monsters that can be continuously condensed throughout the large formation, and they will not kill it at all, and will eventually consume all of us. "

After hearing the words of the Demon Dragon, Ye Feng's eyes became serious.

Although the eyes of the heavens and earth that Ye Feng own can shuttle the array at will, whether it is the dozens of masters he brings or now trapped by the formation, Murong Nan and a dozen golden armor guards. Always cannot get rid of the power of the entire formation method.

And Ye Feng is very clear. Even if he can forcibly break away from the big array now, if he escapes back to Luoyue City, the old black mountain demon will take advantage of this opportunity to lead all the demon strong men in Hei Cottage and counterattack the entire entire. At the time of the moon, the whole moon city will be in crisis.

So everything needs to be ends here.

At this time, you can't escape. You can only find a way to kill the entire black cottage and the old black mountain demon that hid in the dark and the blood of the Taikoo Demon God.

At this moment, Ye Feng knows that he can only shuttle in the array now, and he must completely destroy this formation method.

At this time, Ye Feng looked at the Demon Dragon next to him and said, "I will tell you what space and trajectories can enter the Taikoo Demon God Blood River Big Array safely. You bring this around me. Dozens of masters, first rescue the predecessors Mu Rongnan and more than a dozen golden armor guards next to him. You will support it for a while in this formation. The core of the river array is as long as the core of this formation can be destroyed, the entire formation method will be completely shattered. Without this

powerful Taikoo Demon God Blood River Big Array, there will be only one Black Mountain in the Black Cottage. Old demon, then the old demon in Heishan had to come out to fight us positively. "

Hearing Ye Feng's saying, the Demon Dragon hesitated a little, and said, "Uncle and ancestor, the bigger place of this Taikoo Demon God, the more dangerous to the core, the more dangerous. Destroy this big array? "" "

Ye Feng nodded, and it was directly rushed into the Taikoo Demon God Blood River Big Array. He said, "According to my plan, just wait for my good news."

After the words fell, Ye Feng's figure had disappeared into the blood -red formation.

Chapter 5708 The core of the formation

At this time, seeing that Ye Feng's figure had disappeared in the blood-red formation, the Demon Dragon had no choice but to look at the dozens of masters around him and said, "Since the master uncle has already made a plan, let's act according to his plan."

Hearing what the Demon Dragon said, dozens of masters nodded one after another, and then followed the Demon Dragon to quickly charge into the ancient demon god blood river formation.

Soon, everyone came to the city lord of Luoyue City, Murong Nan.

At this time, dozens of masters stood beside Murong Nan, the Lord of Luoyue City, and said, "Lord Murong, we are here to help you."

"Hmm?"

Seeing dozens of masters appearing in front of him almost intact, Murong Nan, the Lord of Luoyue City, seemed very surprised and couldn't help but said, "Have you completed your mission?"

Hearing Murong Nan's words, many masters nodded one after another, and then said excitedly, "Lord Murong, you don't know that the special helper you found before, Lord Ye Feng, although he looks young, his strength and means are simply earth-shattering. The other demon forces in the Demon Mountain Range were eliminated one by one by Lord Ye Feng, leaving only this demon dragon to become Lord Ye Feng's assistant."

"What??"

Hearing dozens of masters say this, and seeing the demon dragons around them frantically killing those blood-red monsters, Murong Nan, the Lord of Luoyue City, couldn't help but show a deep shock in his eyes.

He never thought that Ye Feng was so powerful, had so many means, and had such strong execution.

In a short period of time, he had eliminated all the demon leaders in the entire Dark Mountains except the Black Mountain Old Demon, and even subdued the most powerful demon leader.

This is simply unbelievable!

All this made Murong Nan, the city lord of Luoyue City, feel deeply shocked.

Because he never thought that Ye Feng, his temporary assistant, could make such a great achievement, which made Murong Nan feel very shocked and very proud.

Because Ye Feng was the last person he found to take the lead, at the critical moment, Ye Feng did not disappoint Murong Nan and really took the lead alone.

Even when he was in the most critical moment, he brought many masters and a demon dragon here to help them fight against the entire ancient demon god blood river formation.

At this moment, when everyone was fighting against the blood-red monster condensed on the entire ancient demon god blood river formation, Ye Feng alone had already begun to fly quickly towards the core direction of the ancient demon god blood river formation.

Ye Feng has the eyes of heaven and earth, and it is easy to see where the core of this formation is.

Along the way, Ye Feng was not attacked by this ancient demon god blood river formation.

This scene made the Black Mountain Old Demon, who secretly controlled this formation, suddenly show astonishment in his eyes.

The Black Mountain Old Demon is an old man wearing a red robe, with white hair, eyes like eagle eyes, and a nose like a hook, looking very sinister.

This sinister old man is the most recognized strongest demon in the Dark Mountains, the Black Mountain Old Demon.

The Black Mountain Village he created is a cancer in this area, often doing evil, burning, killing and looting. The most troublesome thing for Murong Nan, the city lord of Luoyue City, is this Black Mountain Old Demon.

This time, the Black Mountain Old Demon thought that he could control the entire ancient demon god blood river formation, and could wipe out all the elites of Luoyue City, and even kill his old rival, Murong Nan, the city lord of Luoyue City, in the formation.

For this reason, the Black Mountain Old Demon paid a huge price to activate this ancient demon god blood river formation.

But the Black Mountain Old Demon never thought that a young boy in white would come here with many masters at this moment to support Murong Nan, the city lord of Luoyue City, and a group of golden armored guards.

In addition, what surprised the Black Mountain Old Demon the most was that Ye Feng, a young boy, was rushing towards the core of the formation he controlled at this moment. It seemed that this young boy in white could see through all the formation trajectories of the entire formation, and this formation could not hurt Ye Feng at all.

"This... How is it possible..."

This discovery shocked the Black Mountain Old Demon to the extreme.

The Black Mountain Old Demon couldn't help but say, "How could there be such a wicked young man in the world?"

At this moment, the Black Mountain Old Demon took the initiative to control this formation and attacked Ye Feng frantically.

Boom! Boom! Boom!

At this moment, Ye Feng immediately felt that blood-colored light pillars appeared in the surrounding space and rushed towards him.

Each blood-colored light pillar was like an arrow, which could pierce the void and shatter all solid things.

At this moment, Ye Feng immediately understood that it must be the Black Mountain Old Demon who secretly controlled this formation to actively attack him.

Because Ye Feng had already understood all the operating veins of this formation.

So if this formation did not actively attack, Ye Feng would not be harmed by the formation at all.

But this formation condensed various blood-red light columns to attack him at this moment, which means that someone was secretly controlling this formation and actively attacking him.

At this moment, Ye Feng naturally released the extremely powerful ancient magic weapon he had obtained before, the Saint Throne.

Buzz!

At this moment, Ye Feng sat on a huge golden throne, and a golden light shield appeared around him.

This golden light shield protected all the surroundings of Ye Feng. Even the attack formed by the ancient demon god blood river formation controlled by the Black Mountain Old Demon could not hurt Ye Feng and was blocked by Ye Feng's golden barrier.

"What?"

The Black Mountain Old Demon observed this scene in secret and was immediately shocked to the extreme. It seemed that he did not expect that this seemingly ordinary young man was so fierce.

What the Black Mountain Old Demon did not know was that Ye Feng's Saint Throne and this ancient demon god blood river formation were of the same level.

The power of this ancient demon god blood river formation possessed the power of the ancient demon god.

And Ye Feng's Saint Throne has the power of the ancient saint.

Whether it is the ancient demon god or the ancient saint, they are almost at the same level and have great power.

So at this time, the ancient demon god blood river formation of the Black Mountain Old Demon could not break through the defense of the Saint Throne and hurt Ye Feng.

Even if he took the initiative to attack Ye Feng, it would have no effect.

Soon, Ye Feng passed through countless voids and various traps formed around the formation, and finally came to the core of this ancient demon god blood river formation.

At this moment, Ye Feng immediately saw that a blood-colored light ball appeared in the void not far ahead.

And in front of this blood-colored light ball, there stood an old man who looked very sinister.

Ye Feng immediately understood that this blood-colored light ball should be the core of this ancient demon god blood river formation.

And this old man who looked very sinister was undoubtedly the biggest enemy of this trip, the Black Mountain Old Demon, and the most powerful demon in the Dark Mountains!

Chapter 5709: Cunning and shrewd

At this time, the old demon of Heishan looked at the Ye Feng who suddenly appeared in front of him, and his eyes showed a deep amazing color.

Even if Ye Feng is his opponent now, the old Mountain old demon can't help but say, "I didn't expect you to be such a mediocre young man who could do all of this, it was too amazing After all, I still want to die. Originally, I thought you were so powerful, but now when you see it in person, your cultivation is much lower than me. It is a whole six or seven realm lower than me. You can't be my opponent's , Only I was killed. "

When he heard the old black monster in Heishan, Ye Feng's eyes showed a touch of smile. There seemed to be no fear. He said, "The old black mountain demon, I know you are the most powerful in this dark mountain range. Demon, but now I am no longer me who just came to the Dark Mountains. "

During this time, Ye Feng hunted various demon heads in the Dark Mountains, absorbing the deep skills of each demon head leader, and his own strength has accumulated a very powerful level.

So for Ye Feng, now he already has the most powerful demon in the dark mountains such as the old demon of Heishan.

At this moment, Ye Feng did not hesitate, and it was the power of the immortal body of the gods.

Boom!

At this moment, Ye Feng's body immediately exuded the bright golden god light, like a young golden god, just hitting the old black mountain monster directly.

For Ye Feng, the most important thing now is to kill the old black monster.

As long as the old black monster is killed, Ye Feng can destroy the core of this Tai ancient demon god blood rivers.

At that time, the entire formation method has completely dissipated. Murong Nan, the owner of the city who is trapped in the formation, will instantly leave the danger instantly, and the entire Hei Cottage will not break.

boom! Intersection

At this moment, Ye Feng is the strongest force that broke out, and quickly impacted in the direction of the old black monster.

And on the way, Ye Feng was directly inspired the giant inheritance of the giant inherited.

Boom!

At this moment, Ye Feng's whole person immediately expanded quickly, and it was directly expanded in place, becoming an abyss giant with tens of thousands of meters, and attacked towards the old black mountain monster.

黑山老妖看到叶风这一系列的手段，眼神中露出了一道惊讶之色，出声说道：“没想到你修为这么低，战斗力如此的强大，不过这没有任何的用处，因为我可是Black Mountain Old Demon ”

Boom!

At this moment, the Old Demon in Heishan also released his powerful inheritance.

Om!

I saw that the old man in Heishan turned into a huge dark field, and the Ye Feng and others were shrouded in.

At this moment, Ye Feng only felt that there were no enemies around, as if he was in a dark void.

Seeing this scene, Ye Feng's eyes suddenly showed a surprise.

This set of inheritance of the Old Mountain Demon of Heishan even has a similar gangster and dark void that has awakened after entering the eighth stage with his own immortal body. It can make himself a dark void, so that the enemy can not attack himself.

But at this time, Ye Feng smiled coldly and said, "But this trick has nothing to do with me because I have a magic weapon that dedicated to darkness."

At this moment, Ye Feng is directly released from the door of heaven.

Boom!

At this moment, a white door with a bright light appeared on the top of Ye Feng's head, releasing the power of infinite light, and dispelling all the darkness around.

At this moment, the darkness began to retreat quickly, fading like a tide, and then revealed the true body of the old black monster hidden in the void.

boom!

Ye Feng's punch bombarded out, and it was directly bombarded to the old black monster in Heishan.

"What?"

At this time, the old black monster in Heishan suddenly showed a shocking color. It seemed that he didn't expect his most powerful supernatural powers to be broken away by Ye Feng's magic weapon.

At this moment, the black mountain old demon rushed out of the punch.

Boom!

At this moment, Ye Feng's fist and the black mountain old demon fist collided.

You know, the Old Demon in Heishan has cultivated for tens of thousands of years, and the power of the body has long been the best among the demon.

However, in the face of the dual blessing of the immortal body of Ye Fengtian's immortal body and the abyss giant, it was also flew out by a moment of bombardment, which directly broke a mountain not far away.

"What?"

The Old Demon in Heishan rushed out of the ruins instantly, staring at Ye Feng not far away, and said incredible: "How could you have such a strong body? In the year, the countless demons in the entire Dark Mountains were absorbed, and then the body of my demon was condensed into today's point, but your kid is just an ordinary man. How can you have such a strong body? "" "

At this time, Ye Feng smiled coldly and said, "There are too many impossible in this world. You don't know just that your horizons are narrow."

Boom!

At this moment, Ye Feng directly showed the Dragon Demon Demon Gong.

This is the peerless inheritance of the ancient demon dragon. The moment Ye Feng showed it, the surrounding void was immediately a black dragon that was condensed.

These black dragons all have the power of the ancient demon dragon, which directly appeared in the impact of the old black mountain old monster, and surrounded the old monster in Heishan.

At this moment, the old demon's eyes of Heishan suddenly showed a ruthless color, and said, "Your kid really pushed the main road to the road. Well, even if I am severely damaged today, I have to completely give your kid to thoroughly. Kill, Wan Mao Sword "!

Almost at this moment, the Old Demon of Heishan spit out a blood -red sword.

This blood -red sword was split into tens of thousands of swords at a high altitude.

Each sword is the power of a demon family.

Thousands of swords, containing the power of thousands of demons, bombarded directly into Ye Feng.

Even Ye Feng's giant's body was cut at this moment, and it was almost broken.

At this moment, Ye Feng directly showed the throne of the saints, condensing a golden barrier to protect his ontology.

Then Ye Feng was forced to be among the thousands of demon swords, and rushed directly to the old black mountain old demon. There was a keel sword in his hand. Sliddered!

At this moment, Ye Feng was relieved for a long time, and finally killed the biggest scourge of the old black mountain monster.

However, at the moment Ye Feng had just killed the old black monster, he had not even had time to swallow all the blood and energy of the old black mountain demon.

boom!

At this moment, the flesh of the old body of the old demon in Heishan was absorbed by the surrounding Taikoo Demon God Blood River.

And all this happened in the light and stone fire, Ye Feng was too late to respond.

The next moment, after the entire Taikoo Demon Blood River absorbed all the flesh and blood of the old black mountain demon, a blood -red figure of a majestic shore appeared in the array method, with the majestic and power of the ancient demon gods.

"This is....."

At this moment, Ye Feng looked at the blood -red figure of this towering shore, and immediately thought of what he thought of, and couldn't help but say, "This is the old old age in the ancient demon blood river array. Monster, blood demon ancestor, did not expect that it instantly absorbed the flesh and blood of the old black monster in Black Mountain. It was briefly resurrected. The monster has been fighting for a long time, just to absorb the flesh and blood of the old monster in Black Mountain at that moment, it is really deep. "

Chapter 5710 A huge adventure

At this moment, Ye Feng suddenly showed a cold color in his eyes, and it was directly rushed towards the huge blood -red will shadow condensed in this formation.

Because Ye Feng is very clear, the real body of the blood demon ancestor in the blood of the Taikoo Demon God, through the flesh energy of the old black mountain demon, resurrected, it must be destroyed before it formed.

If the ancestor of the blood demon ancestor in the blood of the Taikoo Demon God was completely resurrected, then everyone present was not enough to kill this blood demon ancestor.

After all, this is a super strong in the Taikoo era. It is a real old monster. It is extremely scary. The magical means and strength are incredible.

Therefore, Ye Feng must destroy it before its thorough formation.

At this moment, Ye Feng operates the throne of the saints, and the surrounding golden barrier guards, it is directly in front of the ancestor of the blood demon ancestor that has not been fully formed.

At this time, most of the blood demon ancestors were blurred, and they were quickly taking shape.

Alas!

Ye Feng immediately attacked the past.

The long sword in Ye Feng's hand was directly slashed towards this huge blood demon ancestor.

Boom!

However, at this time, although the long sword in Ye Feng's hand has a very powerful power, and even the power of the ancient magic dragon, it can only destroy part of the body of the blood demon old ancestor and cannot completely destroy it completely Lose.

At this moment, the ancestor of the Blood Demon immediately made a sound of laughter, and said, "The old body of the black mountain monster originally contained the inheritance of our family. I can't kill me. "

At this moment, the ancestor of the blood demon ancestors directly shot Ye Feng. The blood -red formation power in the entire large array condensed into a big blood -red hand, with the monkem and power. Grasp the past.

Alas!

At this moment, Ye Feng quickly evaded quickly.

At this time, Ye Feng looked at the other masters on the other side of the formation, and couldn't help saying: "Senior Murong Nan, there are many masters, you now come to help me destroy the body of the blood demon ancestor, Now I will destroy the core of the formation method now. As long as the core of the formation method can be destroyed, the blood demon ancestor will lose the source of strength, and his body will not continue to be reorganized. Just go away. "

Hearing Ye Feng's words, not far away, the masters who were dealing with a group of blood -red monsters abandoned their battlefield and quickly rushed towards Ye Feng.

For these people, the biggest crisis is no longer the old black mountain monster, because the old black mountain monster has been killed by Ye Feng. Now the biggest crisis is the ancestor of the blood demon ancestor condensed in this Tai ancient demon god blood river array. This old monster in Taikoo era.

Alas!

At this moment, Ye Feng rushed quickly towards the core area of this formation.

The city owner of Murong Nan, with dozens of masters, and a group of golden armor guards, including the Demon Dragon, all rushed quickly in the direction before Ye Feng, and directly began to fight against this. The ancestor of the blood demon who did not fully condense formed.

At this time, the bloody ancestor rushed towards Ye Feng and said, "I can't let you destroy the core of this formation."

At this moment, Murong Nan and a group of strong men have already come to Ye Feng's body, which directly releases their own strength to fight against this blood demon ancestor that has not been fully formed.

Murong Nan, the city owner of the city, is also the older who knows the interaction. He immediately said to Ye Feng: "Here is to us, Ye Feng, you now hurry up to destroy the formation of this formation method. The core, that's the most important "."

At this time, Ye Feng nodded immediately and let everyone resist the attack of the blood demon ancestor, and he rushed quickly towards the core area of the formation.

For Ye Feng, Ye Feng has the eyes of heaven and earth, so it goes unobstructed along the way, and soon came to the core area.

At this moment, Ye Feng was directly holding the keel sword in his hand and piercing it into the bloody light ball fiercely.

This blood -colored light group is the core of this formation method.

However, at the moment Ye Feng pierced this blood -colored light group with the keel long sword in his hand, Ye Feng found that the blood -colored light ball could not be completely broken at all.

Because this blood -colored light group is a combination of energy of the entire formation method, it cannot be destroyed at all.

Even if this blood -colored light ball was split into two halves, it was useless.

At this time, Ye Feng's eyes suddenly showed a look of thinking.

The ancestor of the blood monster not far away laughed and said, "The core of this formation method is a combination of energy. The physical attack cannot destroy it, even if it cut it into it as a cut into it, it is cut into it as a cut. Two halves, even four half, eight half, and there is no use. They are still the core of the entire formation method.

Hearing the blood demon ancestor, many masters showed deep gloom in their eyes.

Even Murong Nan, the owner of the city, can't help but say, "Ye Feng, let's go back first, first go back to the Sun City to think about it, how to deal with this blood demon ancestor."

At this time, Ye Feng shook his head and said, "If you don't do a knot here today, wait for the body of this blood demon ancestor to be completely formed, let alone the city of the city, it is all the cities in the dark field of the dark domain. The strong man is not enough to kill this old monster. Today, you must take advantage of this blood demon ancestor that has not completely condensed into a complete body, and it must be completely destroyed. "

At this moment, Ye Feng was directly opened, swallowing the core light group in front of him.

"What??"

"this....."

At this moment, I saw this scene, let alone Murong Nan and a group of masters. Even the old monsters of the blood demon ancestor, the old monster of the ancient ancestor, seeing Ye Feng made this move, all of which were deep on his face. Stunning.

The blood demon ancestor couldn't help laughing, and said, "You kid, you are stupid, the core light group of swallowing this formation has no use at all. Your humble human body, It is impossible to withstand the core force of this formation method, and you will fry your body instantly when you get it. "

But at this moment, Ye Feng smiled a crazy smile on his face, saying, "I use my body as a bearer now, and I want to devour and digest all the core forces of the entire formation method. In my body, in this case, the entire formation has lost strength. "

At this moment, Ye Feng's method was very bold and very crazy. He had to use his body as a furnace to melt the core force of this formation directly into his body.

Even if Ye Feng has an immortal body and has the ability to devour, this behavior can be said to be extremely dangerous.

But now there is no way, only Ye Feng has this ability to try.

At this moment, the ancestor of the Blood Demon saw that Ye Feng did not blow up for a moment, and it seemed a little panic all at once. He quickly attacked the many masters who were fighting against it, and killed Ye Feng in advance.

But at this time, Murong Nan and a group of masters, including the Demon Dragon, knew that this was a battle that determined all people's life and death.

Their madly resisting the attack of the ancestor of the blood demon, fighting for Ye Feng for digestion.

At this moment, Ye Feng is crazy swallowing the energy group that swallowed his belly quickly to swallow and digest, and strive to integrate into his body quickly.

As long as you can completely digest the core light group of this formation and integrate it into your body, then all problems are solved, and you can also get a terrible and huge energy.

It can be said that this is not only a huge adventure and crisis, but also a huge opportunity and manufacturing!

Chapter 5711 Losing patience

Boom! !

At this time, Ye Feng frantically refined the blood-colored light ball condensed by the core energy of the entire formation.

At this moment, Ye Feng had completely swallowed this blood-colored light ball into his stomach, using his body as a furnace, and then using his devouring ability and ability to accommodate thousands of attributes in the world to go crazy Refining the energy light ball at the core of this formation.

At this moment, Ye Feng could feel a huge stream of energy being digested by himself and quickly rushing towards every part of his body.

Even though Ye Feng's body power is now very terrifying, the core energy of the formation carrying the ancient demon god Blood River Formation also felt a feeling that he was about to explode and die.

But at this time, Ye Feng gritted his teeth and endured this pain, as if he wanted to tear the whole body apart.

In the end, Ye Feng couldn't help but roaring wildly, as if he was crazy.

"Um?"

Seeing this scene, Murong Nan and a group of masters not far away, including the demon dragon, couldn't help but show deep worry in their eyes, fearing that Ye Feng would suddenly explode and die at this time, or I couldn't bear the pain and fell out of my mind and went crazy.

In addition, everyone was deeply shocked by Ye Feng's patience and madness.

Because this behavior is really too risky.

At this moment, when everyone saw Ye Feng roaring in pain, he knew that this had exceeded the threshold for Ye Feng to bear the pain. Otherwise, Ye Feng would not have been so ferocious, and even roared.

At this time, the Blood Demon Ancestor who was attacking everyone showed a deep and cruel smile on his face and said, "This kid is about to explode and die. It is impossible for him to do so. Refine the core energy light ball of the entire formation. "

However, just as the Blood Demon Ancestor finished speaking, Ye Feng suddenly stopped roaring not far away.

The next moment, Ye Feng's entire cultivation momentum was skyrocketing wildly.

"What?"

Sensing the aura that surged in Ye Feng's body, the Blood Demon Ancestor suddenly showed a deep look of astonishment in his eyes.

Because he never expected that Ye Feng would actually refine the core energy light ball of this formation.

Because if Ye Feng had not refined the core energy light ball of this formation, the cultivation aura on Ye Feng's body would not have suddenly begun to surge wildly.

So at this moment, the Blood Demon Ancestor could not believe his eyes.

In addition, there is another thing that can be sure that Ye Feng has really completely refined the core energy of this formation. The Blood Demon Ancestor suddenly felt that his source of power disappeared.

After all, the body of the Blood Demon Ancestor has not been completely formed and has remained in a vague state now.

"impossible!"

The Blood Demon Ancestor can be said to be stunned at this moment.

At this time, Ye Feng had indeed successfully refined and fused the core energy light ball of the entire formation into his body.

Ye Feng could immediately feel that his cultivation power was growing and breaking through at an incredible speed.

Ye Feng had just broken through the new level of cultivation, the first level of the Sky-Sky Realm, immediately broke through quickly and continuously.

boom!

The second level of the sky shining realm!

boom!

The third level of the sky shining realm!

boom!

The fourth level of the sky shining realm! !

At this moment, Ye Feng's cultivation level directly broke through the third level of heaven in a row.

But, that's far more!

The core energy of the formation has not been completely digested, and there is still a surging energy rushing around Ye Feng's whole body, continuing to strengthen Ye Feng's cultivation skills.

boom!

The fifth level of the sky shining realm!

boom!

The sixth level of the sky shining realm! !

At this time, Ye Feng's cultivation continued to break through two levels of heaven, and finally broke through to the limit completely.

At this moment, Ye Feng's cultivation was finally at the sixth level of the Sky-Sky Realm, which increased Ye Feng's skills a lot.

Ye Feng's eyes suddenly showed a deep sigh.

I didn't expect that the core energy of this formation was so terrifying and majestic that Ye Feng suddenly broke through so much.

Ye Feng's power also increased by hundreds of times in this moment.

At this moment, Ye Feng immediately looked at the unbelievable Blood Demon Ancestor not far away, with a cold smile on his face, and said, "Blood Demon Ancestor, you have lost the source of your power, You can no longer completely take shape in your entire body. Your plan to resurrection is over."

Hearing Ye Feng say this, the Blood Demon ancestor looked very ugly, but then a deep sneer appeared in his eyes.

At this moment, the Blood Demon Ancestor suddenly stared at Ye Feng, with a cruel smile on his face, and said, "Who said my body cannot be completely formed? You have absorbed the core energy of the formation , it means that your whole person has now become the core of the formation. As long as I can kill you, the kid, and then eat you, and refine all the power in your kid's body. I can continue to take shape completely."

At this moment, the Blood Demon Ancestor could be said to have completely lost his patience and suddenly used an extremely powerful ancient inheritance, the Blood Demon Technique!

Boom!

At this moment, when the Blood Demon Ancestor used the Blood Demon Great Method, the entire body of the Blood Demon Ancestor, which had not yet taken shape, was completely formed in a short period of time.

Then the Blood Demon Ancestor possessed the power of his peak period, opened his mouth and sprayed, and a blood-red ocean directly bombarded the people who resisted.

Rumble!

At this moment, whether it was Murong Nan, the city lord of Luoyue City, or the dozens of top masters, or the demon dragons, they were all blasted back by this blood-red ocean.

Then they were all stained with the blood-colored water droplets in this blood-colored ocean, and their bodies began to turn red quickly, as if they were about to explode and die in an instant.

Obviously, this Blood Demon Ancestor now used a secret method that allowed him to have the power of his peak period in a short period of time. In addition, the various blood-red powers he exerted were all highly poisonous.

At this moment, Ye Feng immediately said: "Don't fight anymore, hold on to where you are, start to defend your mind, refine this toxin, and try not to let these blood-red toxins corrode your body and spirit."

Hearing Ye Feng's reminder, many masters nodded and began to meditate and practice on the spot.

At this time, the Blood Demon Ancestor stared at Ye Feng, smiled coldly and said: "Your helpers are now unable to use their own power, and can only meditate on the spot, just to protect themselves. Now you are the only one left, how can you fight against this ancestor?"

When Ye Feng heard what the Blood Demon Ancestor said, a faint smile suddenly appeared on his face, and he said: "I am enough to deal with you, and I don't need other helpers."
