

# Ancient God

## #5731 - Nine-colored divine thunder

Su Ruoshui nodded, her face solemn, and said, "No matter what, to reach the final Heavenly God Pool, we must pass these trials."

Ye Feng couldn't help but ask, "Senior Sister Su, you've been here many times before, do you know how many trials one generally has to go through to reach the Heavenly God Pool?"

Su Ruoshui shook her head and said, "I don't know, because I've never succeeded. I don't know how many trials there are in total, but the most I've experienced is four trials, and I ultimately failed in the fourth trial, unable to withstand it, and fled in panic. So there are at least four trials."

Hearing Su Ruoshui's words, Ye Feng's eyes flickered, and he said, "Then we have now arrived at the third trial."

At this moment, after the two finished speaking, they directly rushed into this ocean composed of thunderous energy.

"Rumble!"

Almost the instant the two entered this thunderous ocean, blue thunderous lights suddenly bombarded down from the sky, turning the entire sky into blue thunderous light.

At this moment, facing the bombardment of the terrifying thunderous lights, Ye Feng and Su Ruoshui each used their own methods.

Ye Feng directly stimulated the Undying Body of the Heavenly God and transformed into the true form of the Abyss Giant, directly enduring the bombardment of this terrifying thunderous light.

Su Ruoshui continued to use the magical cyan sword she had used before, directly forming nine cyan swords above her head, quickly rotating like a large shield, blocking the attack of the thunderous light.

While resisting the bombardment of this thunderous light, the two quickly flew through this thunderous ocean towards the other end, wanting to cross this thunderous ocean as soon as possible.

Rumble!

In that instant, the entire thunderous ocean surged, connecting with the thunder in the sky, frantically electrocuting Ye Feng and Su Ruoshui, who were traversing through it.

When they arrived at the middle area of this thunderous ocean.

Boom!!

Suddenly, a very special thunderous light pillar, containing three colors of light, suddenly descended from the sky and bombarded Ye Feng's body.

This thunder, emitting three colors of light, was thirty times more powerful and destructive than ordinary blue thunder.

Even though Ye Feng now possessed the blessing of the Undying Body of the Heavenly God and the true form of the Giant, he couldn't help but stagger slightly under this sudden bombardment, almost falling into this thunderous ocean.

Seeing this scene, Su Ruoshui couldn't help but change her expression slightly, and said, "This is the legendary Three-Colored Divine Thunder, emitting red, purple, and blue, which is dozens of times more powerful than ordinary single blue thunder. It seems that the further we fly into the depths of this thunderous ocean, the greater the power of the thunder we encounter will be."

Boom!

And almost at the instant Su Ruoshui's voice fell, a thunderbolt emitting five colors of light descended from the sky and directly struck the nine cyan swords above Su Ruoshui's head, almost scattering Su Ruoshui's nine cyan swords.

At this moment, Su Ruoshui immediately said in even greater surprise, "It's Five-Colored Thunder! It's even fiercer than the Three-Colored Thunder just now!"

At this time, Ye Feng's face also became solemn, and he said, "It seems that, as Senior Sister Su said, the further we fly towards the other end of this thunderous ocean, the stronger the quality and power of the thunder we encounter on the road ahead will be."

At this moment, a firm look appeared on Su Ruoshui's beautiful and cold face, and she said, "This time we must succeed, we cannot retreat."

Ye Feng also nodded and continued to fly quickly towards the other end of this thunderous ocean with Su Ruoshui.

Next, the two encountered the attacks of Seven-Colored Thunder, and even the most ferocious Nine-Colored Divine Thunder.

In the end, the two had to unite, stand together, release their respective methods, and jointly resist the bombardment of that terrifying Nine-Colored Divine Thunder.

Even Su Ruoshui was finding it somewhat difficult to resist.

Su Ruoshui couldn't help but say, "If we continue to endure like this, we will be bombarded to death by this terrifying Nine-Colored Divine Thunder before we even cross this thunderous ocean. Think of a way."

At this time, Ye Feng suddenly thought of a crazy idea and couldn't help but say, "I have an ability that can absorb external energy for my own use, but this Nine-Colored Divine Thunder energy is too fierce. I'm afraid I won't be able to withstand this terrifying power. Before I finish absorbing it, my whole body will be shattered."

Hearing Ye Feng say this, Su Ruoshui suddenly said, "There is a guardian method in my cultivation inheritance that I can use to protect the safety of your body."

Hearing Su Ruoshui say this, Ye Feng immediately nodded and said, "Okay, then I'll give it a try."

At this moment, the ability Ye Feng was talking about was naturally the Devouring ability.

Ye Feng was preparing to directly release the Devouring Domain and, at the instant the Nine-Colored Divine Thunder struck, instantly devour and absorb the energy in the Nine-Colored Divine Thunder into his body. In this way, he would not only be able to obtain the blessing of terrifyingly powerful energy, but also be able to resolve the destructive power of the Nine-Colored Divine Thunder.

It was just that Ye Feng himself might not be able to withstand the destructive power of such a powerful Nine-Colored Divine Thunder.

So, entrusting Su Ruoshui with guarding his safety.

At this moment, Ye Feng saw that Su Ruoshui suddenly closed her eyes, as if she was performing some kind of mysterious inheritance.

Buzz!

In the next moment, a magical scene appeared.

A full ninety-nine pairs of huge wings actually grew out of Su Ruoshui's back, all condensed from cyan energy.

Su Ruoshui at this moment was simply like a huge lotus flower. The ninety-nine pairs of cyan wings behind her were like the petals of a lotus flower, instantly enveloping Ye Feng's entire body.

Ye Feng immediately felt a great sense of security.

These ninety-nine pairs of cyan wings were simply like an indestructible shield.

At this time, Ye Feng could finally safely unleash the Devouring Domain directly.

Buzz!

In that instant, a huge black vortex immediately appeared above Ye Feng's head, precisely the Devouring Domain.

The Nine-Colored Divine Thunder bombarded down and was directly enveloped by Ye Feng's Devouring Domain, directly and quickly absorbing the thunderous energy within the Nine-Colored Divine Thunder.

And the damage caused at the instant the Nine-Colored Divine Thunder struck was completely resisted by the mysterious guardian inheritance that Su Ruoshui had unleashed, the ninety-nine pairs of cyan wings.

The two were finally able to fly quickly and unharmed towards the other end of this thunderous ocean.

In addition to this, Ye Feng at this moment obtained the pure thunderous energy of the Nine-Colored Divine Thunder, which was rapidly pouring into Ye Feng's dantian, being devoured and refined by Ye Feng.

Ye Feng's cultivation was undergoing an unparalleled transformation at this instant!

## Chapter 5732 The Mist Jungle

Rumble!

It has to be said that the pure thunder energy of the Nine-Colored Divine Thunder is really huge.

Now that he was swallowed by Ye Feng's devouring field, Ye Feng immediately felt a stream of extremely large thunder energy, which was crazily enhancing his skills.

At this moment, Ye Feng's cultivation aura suddenly began to rise step by step.

At present, Ye Feng's cultivation has broken through a big bottleneck and is in the state of great perfection of the tenth level of the Divine Seal Realm.

So now that Ye Feng has swallowed so much of the energy of the nine-colored divine thunder, even if he is at the big bottleneck of the tenth level of the divine seal realm, he will be broken through in an instant.

"boom!!"

At this moment, a huge and new cultivation momentum suddenly burst out from Ye Feng's body.

At this moment, Ye Feng's cultivation level, with the help of the energy of the nine-colored divine thunder in the sky, directly broke through the Great Perfection of the Tenth Heaven of the Divine Seal Realm and stepped into the Half-step Totem Realm above the Divine Seal Realm.

Totem Realm, this is a brand new and powerful level of cultivation.

When Ye Feng stepped into this realm, he could immediately feel that his skills were growing at an incredible speed.

Although Ye Feng has only entered the half-step totem realm, and is not the realm of the totem realm, Ye Feng can already feel his combat power, which is stronger than before when he was at the Great Perfection of the Tenth Heaven of the Divine Seal Realm before. Thousand times.

It has to be said that the more advanced the level you reach, every breakthrough in the great realm will bring unprecedented transformation to Ye Feng's combat power.

At this moment, Su Ruoshui, who was protecting Ye Feng's body's safety, also felt the change in Ye Feng's cultivation aura. He immediately showed a deep look of surprise in his beautiful eyes, and couldn't help but say: "Junior Brother Ye Feng, did your cultivation level suddenly break through?"

Ye Feng nodded and said, "To be honest with Senior Sister Su, you said that the dark field I released can not only disintegrate the power of the nine-colored divine thunder bombarded from the sky, but also I can use this A kind of energy of the nine-colored divine thunder, used to strengthen one's own skills."

"So that's it. I just said why your cultivation level suddenly broke through. I don't believe it was an enlightenment."

Hearing Ye Feng say this, Su Ruoshui's eyes suddenly showed a deep look of surprise, and he said, "It's really amazing that you can swallow the energy from the outside world for your own use."

Even Su Ruoshui, the extremely mysterious senior sister, was deeply incredible by Ye Feng's devouring ability.

At this moment, with the cooperation of the two, they finally completely passed through this ocean of thunder tribulation.

At this moment, the two of them immediately dissipated their power. Looking at the sea of thunder behind them, their eyes were filled with sighs.

At this moment, Su Ruoshui looked at Ye Feng beside him and said, "Since it is so great for you to absorb this nine-colored divine thunder, do you want me to help you continue to absorb it in this ocean of thunder catastrophe? The power of this nine-colored divine thunder will help you break through your cultivation and increase your skills."

Ye Feng immediately shook his head and suddenly stretched out his arm.

Su Ruoshui immediately saw that Ye Feng's skin on the surface was charred and he immediately understood something.

Ye Feng smiled bitterly at this time and said, "The nine-colored divine thunder that I was able to absorb just now is the maximum capacity that my body can carry. If you continue to absorb this nine-colored divine thunder, even if you have Senior Sister Su's The guardian power, the power of my body cannot continue to withstand that terrifying damage."

Hearing Ye Feng say this, Su Ruoshui nodded immediately and then said, "Then let's continue to move forward and see what tests will be next."

Ye Feng nodded, and then suddenly said, "Sister Su, every time you come to the depths of the Gods Canyon, you have completely failed in the fourth test. It seems that we have at least four. This test, now we have passed through the three test places of Wanbing Valley, Bloody Woods and Thunder Tribulation Ocean. It seems that we have at least a fourth test. I wonder if there is a fifth test."

Su Ruoshui smiled and said, "No matter how many tests there are, we must reach the deepest part of the Gods Canyon this time, because I must now find the water of the Gods Pool to break through my current bottleneck, otherwise, I will be very It may be killed directly."

"Um?"

Hearing Su Ruoshui say this, Ye Feng's eyes showed a look of astonishment. He couldn't help staring at the Senior Sister Su in front of him and said, "What does Senior Sister Su mean? Why can't he break through. Your cultivation bottleneck will you die?"

At this time, Su Ruoshui's beautiful and cold face suddenly showed a bitter smile that had never been seen, and he said, "Although I was born with a wealthy family and could use a lot of cultivation resources, I was born to be cursed by God. , As long as I cannot make continuous breakthroughs in a short period of time, the blood curse in my body will cause me to die suddenly."

"And there is such a strange curse?"

Hearing Su Ruoshui's words, Ye Feng's eyes suddenly showed a look of surprise.

Because Ye Feng had never heard of such a strange and magical curse in the world.

Ye Feng immediately nodded, looked at Su Ruoshui in front of him, and said, "Now I understand why Senior Sister Su has always been so cold. It seems that you also feel about your destiny. Very unfair, so he is also more introverted."

Hearing Ye Feng say this, Su Ruoshui nodded slightly, then looked at Ye Feng, and said, "You are one of the few people who can tell my secret directly. I hope you can keep this secret and not to others." explain."

Ye Feng nodded immediately and said with a smile: "To be honest, I don't know anyone in the Dark Divine Court, so Senior Sister Su can tell me with confidence if there is any secret, there is no problem."

Hearing Ye Feng say this, Su Ruoshui suddenly had a surprised smile on her beautiful and cold face, and then she smiled and said, "It seems that we are the same type of people, with few friends, or almost no friends. "

And just as the two were chatting, they walked for a while.

At this time, they suddenly saw a jungle filled with black fog appeared in front of them.

In this jungle, there are clouds of dark fog everywhere, making it impossible to see what is in this jungle.

Seeing this scene, the two of them looked at each other and knew that this misty jungle was the fourth place of test.

## Chapter 5733 The follower of the gods

At this moment, Su Ruoshui looked at Ye Feng beside him and said, "It seems that this fourth test place has appeared."

Ye Feng nodded and said, "Let's go, let's get into it directly."

Now the two have experienced several test places, and they have no special fear of this test place in their hearts.

Whether Su Ruoshui can break the curse of losing to the fourth test place every time depends on Ye Feng.

Because although Su Ruoshui has become much stronger this time than the last time, Su Ruoshui always feels that he just can't pass the fourth test.

But this time there were variables.

This variable is Ye Feng.

At this moment, Su Ruoshui stared at Ye Feng's body. She knew whether she could break the curse that she had never been able to pass the fourth test land, so she looked at Ye Feng's.

At this moment, Ye Feng looked at Su Ruoshui beside him and said, "Senior Sister Su, let's go side by side. In this way, if we encounter any danger, we can cooperate to fight together."

Su Ruoshui nodded and stood beside Ye Feng, very close to him.

Obviously, the two had established a deep friendship without realizing it and trusting each other.

At this moment, the two of them walked directly into the misty jungle.

Almost in the next moment, when the two of them breathed the fog, they suddenly felt it and their spirits became a little dazed.

Su Ruoshui immediately couldn't help but say, "The black fog in this forest seems to have the effect of interfering with the power of spiritual interference, so we hold our breath."

Ye Feng had sensed it long ago and nodded. The two of them temporarily closed their apnea and continued to walk in this foggy jungle.

This jungle cannot even be called a jungle, but a vast forest, because its area is very large, much larger than the blood-colored jungle that the two of them passed through before, and should be called the Mist Forest.

At this moment, Ye Feng and Su Ruoshui were walking quickly in this forest filled with black mist, wanting to pass through this fourth test place as soon as possible.

But not long after they walked, suddenly, under a big tree around them, an ancient stone tablet was wrapped in the roots.

And as the two passed by this tree, the ancient stone tablet wrapped under the roots suddenly lit up.

Buzz!

Then a tall and heroic soul body rushed out of this ancient stone tablet, holding an ancient weapon in his hand, and attacking the two of them at once.

He attacked not his actual body, but directly attacked the spirit and soul of the two.

Buzz!

At this moment, Su Ruoshui immediately activated the Horcrux on his wrist, forming an emerald-colored soul light shield.

Click! Click!

But the next moment, the ancient soul body rushed out of this ancient stone tablet suddenly shattered the soul light shield released from Su Ruoshui's bracelet with the soul weapon in his hand.

"What?"

Seeing this scene, Su Ruoshui immediately showed a deep look of horror in his eyes.

She never expected that the soul body rushing out of this ancient stone tablet would have such a powerful attack power.

The power light shield released by her Horcrux was simply unstoppable.

At this moment, Su Ruoshui suddenly panicked.

Even though Su Ruoshui is a very mysterious and powerful existence, he is still very panicked when facing the attacks of the spirit and soul level of the soul body.

Because even the most powerful warrior will find it very difficult to encounter attacks directly from the spirit and soul.

At this moment, Su Ruoshui immediately looked at Ye Feng beside him and said, "The soul body that rushed out of this ancient stone tablet is likely to be the ancient powerful man who fell here, or the gods who were left behind. A remnant thought of the soul warrior transformed into can directly attack the spirit and soul of the practitioner."

At this moment, Ye Feng nodded immediately when he heard Su Ruoshui say this.

However, there was no panic on Ye Feng's face, but in Su Ruoshui's extremely surprised gaze beside him, he spoke out, "I'll just deal with him."

boom! !

Almost the next moment, in Su Ruoshui's extremely horrified gaze, a black soul giant actually condensed above Ye Feng's head.

"What? This is..."

Seeing this scene, Su Ruoshui was shocked and couldn't help staring at Ye Feng. Subai's palm stretched out a finger and pointed at Ye Feng, and said in shock: "Ye Feng, you actually He is the legendary soul master!"

At this moment, Su Ruoshui completely understood why Ye Feng didn't look panic at all, and even was very confident. It turned out that Ye Feng was actually a very rare soul master among practitioners.

In other words, Ye Feng is a fellow practitioner of Soul Martial Arts. He has both extremely powerful martial arts skills and huge and boundless soul power.

At this moment, when Su Ruoshui was shocked, Ye Feng had already released his soul giant and attacked with the residual thoughts of the ancient strong man rushing out of the ancient stone tablet ahead.

Rumble!

The remnant thoughts of the ancient strong man rushed out of this stone tablet are still very powerful, but Ye Feng's soul body is not weak now.

Ye Feng's soul giant punched out one punch after another. The huge soul pressure made the residual thoughts of the ancient strong man rushed out of this stone tablet shattered instantly.

Ye Feng's soul giant swallowed the soul fragments of this ancient strong man's remnant soul and grew a lot.

Swish!

At this moment, Ye Feng immediately rushed to the ancient stone tablet wrapped by the roots of the tree just now and pulled out the stone tablet at once.

The next moment, Ye Feng suddenly saw a scripture on the back of the stone tablet.

This passage describes the inheritance of an ancient strong man.

At this moment, Ye Feng's eyes immediately lit up and he couldn't help but say, "In this foggy forest, it seems that many ancient strong men were buried in the past, and their place of residence is the roots of the tree The ancient stone tablet wrapped below."

At this moment, Su Ruoshui also flew towards Ye Feng. Looking at the words engraved on the surface of the stone tablet in Ye Feng's hand, he couldn't help but say, "This seems not to be the inheritance of ancient gods, but it is definitely very powerful. The inheritance of the super strong."

Ye Feng nodded and said, "The ancient gods, every god, should have many super strong people followed them. Perhaps the owner of this stone tablet was a follower of a god back then. Being able to become a follower of a god means that it is also very extraordinary. The inheritance of this ancient strong man is already qualified to us to comprehend, and it will definitely be of great help to improve our strength."

## Ancient God

Chapter 5734 It&#039;s too easy

Su Ruoshui couldn't help but nodded at this moment and said, "Since it is the inheritance left by the followers of ancient gods, it must be very extraordinary. Let's comprehend it together."

At this time, the two of them immediately began to comprehend the ancient scriptures engraved on the surface of this ancient stone tablet.

Ye Feng's comprehension is very powerful. He has absorbed a lot of fragments of the law before, making Ye Feng's comprehension even more evil.

So in less than a moment, Ye Feng had already realized that the inheritance recorded on the surface of this ancient stone tablet is called "Nine Yang True Fire Art".

At this time, after Ye Feng comprehended this set of inheritance, Su Ruoshui beside him also sensed the mystery of this set of inheritance, and immediately couldn't help but say, "This set of Nine Yang True Fire Art is like this, it's like this! The magic of the mind, according to the mystery recorded on this stone tablet, if this set of Nine Yang True Fire Art can be practiced to a deeper and deeper level, it can activate the power of the sun above the sky, allowing practitioners and the sun to The combination of the sun god fire contained in it condenses a sun god fire magic form, which has a terrifying and majestic power."

Hearing Su Ruoshui say this, Ye Feng nodded immediately and said with a smile: "I just said that even if he was able to follow the existence of ancient gods back then, he was definitely an extremely powerful super strong man. Their inheritance is also very powerful and precious. This set of Nine Yang True Fire Art has been practiced to the

extreme, allowing practitioners to communicate with the sun in the sky and condense a sun god fire method, with unparalleled power and burning power. A set of inheritance is very suitable for me."

At this moment, Ye Feng immediately imprinted the inheritance and mystery of this set of Nine Yang True Fire Art in his spiritual soul, and he could slowly comprehend and practice it.

At this time, Su Ruoshui was also quite happy. After all, being able to obtain such a powerful inheritance of an ancient strong man was a considerable gain for Su Ruoshui, a senior sister with a mysterious identity.

At this moment, Su Ruoshui couldn't help looking at the entire misty forest around him and said, "There are probably many trees in this forest that are surrounded by such ancient stone tablets, but each stone tablet is full of roots. There seems to be a remnant of an ancient strong man in it, but they seem to be nothing to Ye Feng. "

Ye Feng immediately laughed at this time, but then his face became slightly solemn, and he said, "This is just our guess. Perhaps there are other dangers in this foggy forest, if it is just the soul left by the ancient strong man. If the test of remnant thoughts is too easy for us."

Su Ruoshui immediately couldn't help but look at Ye Feng, smiled helplessly, and said, "It's just easy for you. If I were alone, my Horcrux could not stop the soul of this ancient strong man just now. I've escaped in a hurry with the attack of the sacred thoughts."

When she said this, Su Ruoshui stared at Ye Feng with beautiful and cold eyes and said seriously: "The inability to pass the fourth test is my curse. It seems that this curse will be something Ye Feng now. It broke, I said that when I saw you, Junior Brother Ye Feng for the first time, I felt that Junior Brother Ye Feng might have special significance to me. In the end, we met in the spiritual tide and then broke into these people together. Deep in the God Canyon, if everything is destined by heaven, Junior Brother Ye Feng, you are my lucky star."

At this moment, when Ye Feng heard Su Ruoshui say this, he looked at the other party's beautiful face and his mind moved slightly.

But then Ye Feng just smiled slightly and said, "Sister Su, let's continue moving forward. There may be a fifth test after the fourth test, so you can't waste time."

Hearing Ye Feng say this, Su Ruoshui nodded immediately and then continued to move forward with Ye Feng.

Not long after they walked, there was indeed an ancient stone tablet wrapped under another huge tree.

As the two passed by, another soul body rushed out of the stone tablet.

This soul body was covered with blood-red armor, and was surrounded by blood-colored ocean visions, which were much stronger than the previous soul body.

However, under the attack of Ye Feng's soul giant, he was soon defeated and wiped out by Ye Feng.

When Ye Feng took out the second stone tablet, he immediately saw it. There was indeed an ancient inheritance text engraved on the stone tablet.

Under the comprehending Ye Feng and Su Ruoshui, the inheritance learned from this second stone tablet is called the Netherworld Blood Sea Art. Obviously, this is the inheritance left by a very powerful demonic figure back then, and he practiced the Netherworld After the Blood Sea Practice, practitioners can condense a sea of blood in the void around their bodies.

Moreover, in this Netherworld Blood Sea, practitioners can use the power of the Netherworld Blood Sea to condense one clone after another, with powerful attack power, and immortality.

This set of inheritance is obviously also a very terrifying ancient inheritance. Although it is not as good as the inheritance of ancient gods, it is also very powerful. Naturally, the two of them practiced directly.

Next, the two continued walking in this misty forest and found the third stone tablet.

The inheritance engraved in the third stone tablet is a very special inheritance called Hell Pluto Sword.

Su Ruoshui seemed to know this set of inheritance and couldn't help but speak out in surprise: "I have loved practicing swordsmanship since I was a child, so I am very familiar with all kinds of swordsmanship in the world. This Hell, the Sword of the Pluto, is very powerful among the Three Thousand Great Ways of Swordsmanship. A kind of swordsmanship. It is said that after this set of Hell and Pluto swordsmanship has reached its extreme, one sword can condense the power of Hell and Pluto."

Hearing Su Ruoshui say this, Ye Feng nodded and said, "This time we have gained three powerful sets of inheritances in the test, which can be regarded as a disguised reward."

Hearing Ye Feng say this, Su Ruoshui smiled slightly and continued to shuttle through this misty forest with Ye Feng.

When they walked out of this misty forest, Su Ruoshui felt a dreamlike feeling and couldn't help but say, "Every time they broke into the fourth test before, it was like a nightmare for me. I can't pass it at all, but it's too easy to pass this fourth test."

When she said this, Su Ruoshui looked at Ye Feng. She knew that everything was because Ye Feng was a special existence of the fellow practitioner of Soul Martial Arts. Otherwise, this fourth test, the Mist Forest, would definitely be very difficult.

As soon as he thought of this, Su Ruoshui suddenly came to Ye Feng, staring at Ye Feng with beautiful eyes, and then said softly: "Junior Brother Ye Feng, thank you."

## Ancient God

### Chapter 5735 The River

Hearing Su Ruoshui's thanks, Ye Feng's eyes suddenly showed a look of surprise, as if he didn't expect the other party to suddenly say such a thank-you word.

After all, it was not all Ye Feng's contribution to passing the level all the way, and Su Ruoshui's powerful strength also helped a lot.

Ye Feng immediately smiled and said, "This time we were able to pass the four tests so smoothly. In addition to having some special abilities, Senior Sister Su's powerful skills and cultivation have also gained a lot. Function, when I was in the ocean of thunder tribulation, if Sister Su hadn't had the powerful guardian heritage, maybe I had been split into pieces now, let alone being able to use the power of the nine-colored divine thunder to make my cultivation level A qualitative transformation has occurred."

Hearing Ye Feng say this, Su Ruoshui immediately smiled and said, "Junior Brother Ye Feng, you are really the most humble genius I have ever seen. I have seen many kinds of geniuses since I was a child. They all have one common characteristic, that is, they are very arrogant and do not take anyone seriously, but Junior Brother Ye Feng, you are not like this. You have such strong strength and are even more rare as a fellow soul martial artist. But you are not arrogant or impatient at all, and you will not take anyone seriously. You have basic respect for everyone. You are really the best genius I have ever seen. If you weren't young, I really thought you were an old man and had experienced a lot of things."

Hearing Su Ruoshui say this, Ye Feng smiled slightly and said, "Although I am not an old man, I have indeed experienced a lot of things. I was also prone to impulsiveness and irritability back then."

When he heard Ye Feng say this, he saw Ye Feng's teenage eyes, a look of vicissitudes of life actually appeared.

Su Ruoshui suddenly became curious and said, "Junior Brother Ye Feng, you are so young, have you experienced a lot of things? I can see a lot of vicissitudes from your eyes. It seems that you have really experienced a lot of things. matter."

Ye Feng nodded, his eyes also showed a sigh. He recalled the scene when he was practicing for the first time and said, "It has been many years since I embarked on the path of cultivation, and I have experienced too many I have unclear things, some things, some experiences, and I am almost forgetting them now, and I can't remember them."

When he heard Ye Feng say this, his tone seemed to have a strong sense of heaviness. Su Ruoshui felt a sense of distress about Ye Feng's vicissitudes at this time.

Because she knew that the seemingly young boy in front of her must have experienced a lot of hardships and pains to reach the point where she is today, and has such powerful strength and various magical means.

None of these came in vain, but it was obtained after years of hard work and struggle.

At this moment, Su Ruoshui nodded slightly and said, "No matter what, you have infinite potential now, and the future will surely be bright."

When Ye Feng heard Su Ruoshui say this, he suddenly smiled and said, "Let's keep moving forward and see if there is a fifth test."

At this time, Ye Feng felt a little complicated, because Su Ruoshui's words reminded Ye Feng of the long past and countless thrilling practice experiences.

At this moment, Su Ruoshui didn't say anything more, nodded slightly, stood beside Ye Feng, and continued to advance in the depths of this Gods Canyon.

After they walked for a while, they saw a big river appearing in front of them.

The place where this big river leads to is actually the top of a huge mountain.

Seeing this scene, Su Ruoshui's eyes suddenly showed surprise and he quickly said, "Ye Feng, the top of that huge mountain must be where the water of the Tianshen Pond is located. It is rumored that the water of the Tianshen Pond is the descendant of the ancient gods' theory. , the pool water formed by the power descended from the great road. Back then, the group of gods discussed the Tao on the top of this ancient mountain, so the pool water of the Tianshen must be on the top of the mountain connected to this big river."

Ye Feng nodded, stared at the wide river, and said, "As long as we can cross this river, we can reach the top of that mountain and find the water of the Tianshen Pond."

At this moment, after Ye Feng finished speaking, he came to the river directly.

At this time, Ye Feng was trying to fly directly from this big river.

But Ye Feng suddenly discovered that his flying ability had disappeared when he approached this big river.

Su Ruoshui, who was standing aside, obviously noticed this, and immediately showed a look of surprise on his face. He couldn't help but say, "Ye Feng, have you suddenly not fly?"

Ye Feng nodded and said, "Sister Su, it seems that this river has ancient restrictions, which can restrict all practitioners from flying above this river. We want to cross this river and reach the top of the mountain. Could it be that Can't you swim over? "

Hearing Ye Feng say this, Su Ruoshui looked around and suddenly found a small ship wandering around the river.

Seeing this scene, Su Ruoshui immediately spoke out: "It is impossible to swim to the top of the mountain for such a long distance. There is only one who can pass through this special boat wandering in the river."

Ye Feng looked over, suddenly his eyes were shocked, and he said, "Sister Su, take a look, this boat is covered with dense runes of underworld, and it seems to be a ship in the underworld."

"Um?"

When Su Ruoshui heard Ye Feng say this, she was also shocked. She looked carefully and found that the boat was indeed engraved with dense underworld symbols, emitting the aura of ghosts.

At this moment, Su Ruoshui couldn't help but say, "This ship is so weird, it seems that it can't be on board."

Ye Feng smiled and said, "But there is no other way now, you can only get on this weird Yin Spirit Ship."

At this moment, Su Ruoshui seemed to have thought of something, and immediately couldn't help but lit up his eyes and said, "Ye Feng, you are a soul master. If there is really a dead soul in the underworld in this ghost ship, Ye Wind, you can completely suppress it through the means of your soul master."

Ye Feng nodded and said, "If an ordinary practitioner encounters this kind of Yin Spirit Ship, he will definitely be scared and pale in his face, but for me, there is nothing to be afraid of."

Plop!

After saying that, Ye Feng and Su Ruoshui jumped into the river in front of him and swam quickly towards the Yin Spirit Boat.

When they arrived at the Yin Ling Ship and boarded the ship, they immediately saw that there were many skeletons on this ship, which may be the skeleton bodies left behind by the death of ancient powerful men.

At this moment, Ye Feng also found the storage ring from the corpses of several bones.

Ye Feng's eyes lit up and he took the storage ring directly into his hand.

However, after exploring it, I found that there was nothing good inside.

It seems that before these people died, they had used up all the cultivation resources in their storage rings, but in the end they died in despair.

Su Ruoshui looked at these corpses and said in surprise: "These corpses are not the corpses of ancient powerful men. Their storage ring styles are specially made by our Dark God Court. These corpses should have entered the Gods Canyon. The top genius of our Dark God Court who has been trained."

"Um?"

Ye Feng was shocked when he heard this.

These top geniuses who can pass the level here are basically all dragons and phoenixes among the people, and why do they die here bizarrely?

## Ancient God

### Chapter 5736 Infinite Loop

At this moment, Su Ruoshui didn't think so much. She stood on the boat and found that the undead in the underworld was not attacking her as she imagined, and she immediately breathed a sigh of relief.

At this time, this ghost ship was driving rapidly towards the top of the mountain above the river.

Seeing this scene, Ye Feng smiled and said, "It seems that I have been worrying too much. This big river and the Yin Spirit Ship are not a place of test, but are specially used to guide us practitioners who have passed the test to go there. A mountain top, reaching the place where the water of the Tianshen Pond is located. "

Su Ruoshui couldn't help looking at the corpse on this ship and said, "But how they died back then, they should have come here and suddenly died on this ship."

Hearing Su Ruoshui say this, Ye Feng couldn't help but say with some confusion: "Yes, how did they die? They can pass four tests like us, and they should be very extraordinary. , they are definitely the amazing top geniuses in our Dark God Court, but they all came to this final place, but they still died in this ship, and the cultivation resources in the storage ring have been exhausted. They finally What did you encounter? I feel that there is no trace of battle on this boat."

Just as the two of them were talking, Su Ruoshui looked around, then looked forward, and couldn't help but say, "How long have we been moving on this boat?"

Ye Feng calculated the time and said, "It has been half an hour since we boarded the ship."

Su Ruoshui pointed to the top of the mountain connected to the other end of the river, and said, "Why do I feel that our current location is about the same distance as the top we saw when we first boarded the ship?"

"Um?"

Ye Feng looked towards the top of the mountain ahead at this time, and couldn't help but be stunned and said, "This boat is clearly heading towards the top of the mountain, but after half an hour, I feel like we are away from the top of the mountain. Still the same distance."

When they said this, both of them understood something and suddenly looked at the corpses of the resources-exhausted on the ship.

Su Ruoshui immediately couldn't help but change his face and said, "Can this ship never reach the top of the mountain connected to the other end of the river? The corpses on this ship must have been on this ship back then. , but he could never reach the top of the mountain connected to the other end of this big river, and eventually died in despair. "

When Ye Feng heard this, his face became a little stunned, and he couldn't help but say, "Do you really want to swim here in person?"

Su Ruoshui nodded and said, "It seems that he can only swim over."

At this moment, both of them had very strong execution ability. They jumped down from the boat and began to swim towards the top of the mountain.

But they swam for half an hour and found that the distance from the top of the mountain was still so far, without any change.

"this....."

Ye Feng and Su Ruoshui returned to the ship again, and at this moment, both of them were silent all of a sudden.

Because at this time they understood that whether they were taking a boat or swimming, they would never be able to get close to the top of the mountain connected to the other end of the river.

The top of that mountain felt like a mirage, visible, but invisible, and could never reach the top of that mountain. It could only be desperately spent on the way to the top of the mountain.

Su Ruoshui glanced at several corpses on the boat and said in a low voice: "They obviously experienced such a thing back then. Whether they were on a boat or swimming, they could not reach the top of the mountain, and they even went back. I can't go back to the road."

At this moment, Ye Feng looked behind him and suddenly found that the shore they had jumped off the river before and disappeared.

They can now be said to be completely lost in this misty river.

The shore when we came disappeared, and the top of the ending mountain will never reach it. It really makes people desperate.

Ye Feng couldn't help but smile bitterly and shook his head, saying, "No wonder the genius who had passed four tests and came to this big river eventually died on this boat because when he came The road is gone, the end will never reach, and I can only waste my life on the road."

Hearing Ye Feng's words, Su Ruoshui did not completely lose his fighting spirit and said, "No matter what, we have to find a way to reach the top of the mountain, or find the way we came and return to the previous shore."

Ye Feng nodded and said, "You can't just waste your time on the road."

Ye Feng finally understood why all the cultivation resources of the storage rings on these corpses were gone. It is estimated that the top genius who arrived here at that time also discovered the strangeness of this river and could never escape from this river. , so in the end, all the cultivation resources were consumed, and in the end, the power was exhausted, and he died on the ship, becoming a corpse.

At this moment, both Ye Feng and Su Ruoshui were in silence, because they would not think of a way to solve the current dilemma for a while.

Because they have never encountered such a strange place.

At this moment, Su Ruoshui couldn't help but say, "Is this big river able to create such a dilemma? Could it be that this special formation is shrouded in our senses, so we have to do it. Lost in this big river."

Hearing Su Ruoshui's guess, Ye Feng immediately shook his head and couldn't help but say, "Senior Sister Su doesn't know anything. I have a talent called the Eye of Heaven and Earth. I can see through any formation in the world. I just now I have used the eyes of heaven and earth to observe the surroundings and found that there is no trajectory of the formation, so this river is not covered by the formation. Everything is because the river itself may be very special and weird, which makes us fall into it. In this infinite cycle, we cannot leave here."

Hearing Ye Feng say this, Su Ruoshui's eyes suddenly showed a look of thought, and he said, "Since there is something wrong with this big river itself, then let's start with this big river itself and we will directly destroy this one." Dahe, see if it works."

"Um?"

Hearing Su Ruoshui say this, Ye Feng's eyes suddenly lit up and he said, "Senior Sister Su's mind is indeed turning fast enough. The previous top geniuses came here, and they may have paid more attention to it and could not reach the end point. The way we came, so we were desperate. They may not have thought that this river itself might be able to solve the problem. Although we cannot fly now, our own power can be used. We will destroy this river itself and see if it can be done. Let the infinite loop here produce some changes."

Hearing Ye Feng say this, Su Ruoshui nodded immediately and directly released his extremely powerful natal inheritance weapon and a blue sword.

Swish swish swish swish!

At this moment, Su Ruoshui directly divided the green sword into nine in an instant, spinning quickly, cutting and attacking towards the river below.

Ye Feng also directly used the Nine Yang True Fire Art he had learned before.

Buzz!

A golden sun vision rose above Ye Feng's head.

This is a strange phenomenon formed after practicing the Nine Yang True Fire Art, which can possess the power of divine fire descending from the sun.

At this moment, Ye Feng looked like a flaming god, with a crazy look on his face and said, "Since there is something wrong with this river itself, I will use the sun god torch to evaporate all the river water in this river. Humph, I want to see if this big river can still

be evaporated by my divine fire, and we can still be lost here after it is evaporated by my divine fire!"

## #5736 - Kill all the demons

At this moment, Su Ruoshui used nine azure-colored swords to rapidly spin and slice the entire great river.

However, Su Ruoshui discovered that her metal weapons were completely unable to cut the river apart.

Because this river was simply too wide, filled entirely with water. Even if the swords in Su Ruoshui's hands were incredibly sharp, there was no way to instantly cut through a liquid like water.

At this moment, Su Ruoshui immediately looked towards Ye Feng beside her, discovering that Ye Feng was currently using the Nine Yang True Fire Art that they had obtained and successfully comprehended before.

Su Ruoshui immediately understood that to fight against something like water, one had to use fire.

In that instant, Su Ruoshui also began to use the Nine Yang True Fire Art.

Although Su Ruoshui's level of comprehension of the Nine Yang True Fire Art was not as deep as Ye Feng's, Su Ruoshui at this moment could also initially use the Nine Yang True Fire Art.

In that instant, an image of the sun appeared around Su Ruoshui, releasing solar divine fire, and together with Ye Feng's solar divine fire, rapidly burned and evaporated the entire great river.

Whether it was Su Ruoshui's or Ye Feng's power, both were extremely profound.

Using the Nine Yang True Fire Art, they condensed endless solar divine fire, and actually managed to rapidly evaporate the entire great river.

As countless river water was evaporated into gas by the two, the entire great river was finally completely dried up.

At this moment, Ye Feng discovered that after the water of the entire great river was evaporated, a huge staircase actually appeared at the bottom of the river.

This staircase was like a ladder to the heavens, connecting from the great river towards the mountain peak in the distance.

Seeing this scene, Ye Feng and Su Ruoshui's eyes immediately lit up.

Su Ruoshui couldn't help but say with considerable surprise, "As long as we evaporate all the water in this great river, we will be able to step onto this ladder to the heavens."

Ye Feng nodded, and directly and quickly walked with Su Ruoshui towards the top of this ladder to the heavens.

This time they finally didn't have an infinite loop, but directly followed this ladder to the heavens, arriving at the mountain peak in the distance.

At this moment, Su Ruoshui looked towards the mountain peak in front of her, and immediately saw a pool of dark blue water.

Seeing this scene, Su Ruoshui's eyes immediately revealed a deep look of surprise, and she quickly said aloud, "Celestial God Pool Water! We finally found it, we arrived here."

Ye Feng then nodded, looking at this pool of water, which actually appeared in a dark blue form, and a look of astonishment immediately appeared in his eyes.

At this moment, Su Ruoshui couldn't help but say aloud, "This Celestial God Pool Water, it is rumored that the ancient gods discussed cultivation here, attracting the descent of the Great Dao of Heaven and Earth, and the power of the Great Dao condensed into the pool water. Back then, our Dark Divine Court's Dark Divine Child, the reason why he became so powerful, leaping to become the Divine Child of the entire Dark Divine Court, was because he came to this Celestial God Pool Water, cultivated in the Celestial God Pool Water, and obtained the infusion of the power of the Great Dao, making himself very powerful. Of course, he also had a huge help from his luck in the Valley of the Gods, obtaining the inheritance of the ancient god like the God of Darkness."

Ye Feng nodded and said, "Then let's cultivate in the Celestial God Pool Water now and see if this Celestial God Pool Water is as magical as the rumors say."

Su Ruoshui immediately nodded and jumped into this Celestial God Pool Water with Ye Feng.

Buzz!

When they came into contact with this dark blue pool water, they immediately felt a very large force of the Great Dao, which was instantly injected into their dantian, rapidly strengthening their power.

This discovery made Ye Feng and Su Ruoshui extremely surprised all of a sudden, and they quickly sat down cross-legged in the Celestial God Pool Water and began to cultivate seriously.

However, just as they had not cultivated for long, suddenly a demon-like illusory thing appeared above Su Ruoshui's head, roaring and roaring at Su Ruoshui.

Su Ruoshui opened her eyes, and her eyes suddenly became very red, as if she had become possessed.

"Hmm?"

In that instant, Ye Feng clearly felt the movement and quickly opened his eyes, discovering that Su Ruoshui seemed to be attacked by an illusory demon at this moment.

Ye Feng immediately saw it and quickly said aloud, "This is a heart demon, why did you become possessed after only cultivating for a while?"

Su Ruoshui also clearly felt that her state was not right at this moment, and immediately couldn't help but say aloud, "I don't know why, but I just feel like I'm going to become possessed."

Ye Feng immediately looked at the entire pool of water and said aloud, "It's the effect of this Celestial God Pool Water. Although cultivating in the Celestial God Pool Water can provide us with a huge force of the Great Dao and make our cultivation produce transformation, in the process of cultivation, this Celestial God Pool Water seems to be able to greatly stimulate the heart demons in our hearts, causing us to become possessed. It seems that it is very difficult to continue to cultivate in this Celestial God Pool Water. We can only leave this Celestial God Pool Water as soon as possible before the heart demon completely erupts."

Su Ruoshui immediately nodded and said aloud, "I will try to break through my cultivation before my heart demon completely gets out of control."

At this moment, after Su Ruoshui finished speaking, she immediately mobilized her spirit, trying her best to suppress the already produced heart demon, and quickly absorbed the power of the Great Dao in this Celestial God Pool Water.

Boom!

After a while, a powerful cultivation aura suddenly erupted from Su Ruoshui's body.

Su Ruoshui immediately opened her eyes, her eyes full of surprise.

At this time, she finally completely used the power of the Great Dao in the Celestial God Pool Water to make her cultivation produce a breakthrough, unlocking the inescapable curse on her body.

At this moment, Su Ruoshui's heart demon could no longer be completely suppressed, and she quickly took advantage of the fact that she had not turned to the dark side, left this Celestial God Pool Water, and came to the shore.

And at this moment, Su Ruoshui looked at Ye Feng in the Celestial God Pool Water, and her eyes revealed a look of surprise, because she discovered that Ye Feng did not seem to have produced any heart demons until now, and was still cultivating very calmly in the Celestial God Pool Water.

And as Su Ruoshui observed, Ye Feng has not produced any heart demons at all now.

Because Ye Feng has experienced too much since he embarked on the path of cultivation, and has already cut off all heart demons.

Therefore, Ye Feng's martial arts heart has long been as firm as divine iron, and he will not produce heart demons at all.

So at this time, Ye Feng can cultivate in the entire Celestial God Pool Water for an unlimited amount of time.

Ye Feng even has a thought that perhaps he can absorb all the power of the Great Dao contained in the entire Celestial God Pool Water!

This is probably something that the Dark Divine Court's Dark Divine Child could not do back then.

## #5737 - One half per person

"Rumble..."

At this moment, extremely vast energies were pouring into Ye Feng's dantian.

Ye Feng had no inner demons, allowing him to cultivate in the Celestial God Pool water for an unlimited amount of time.

Therefore, Ye Feng was now wholeheartedly absorbing the power of the Great Dao from the entire Celestial God Pool water.

With this absorption, the great bottleneck of the Half-step Totem Realm, aided by this terrifying power of the Great Dao, was directly broken through, and he stepped into the true Totem Realm, first level!

And at this moment, Ye Feng was still continuously absorbing the power of the Great Dao from the entire Celestial God Pool water.

It should be known that although many people had come here to absorb the power of the Great Dao from the Celestial God Pool water, like Su Ruoshui, everyone would develop inner demons, preventing them from staying in the Celestial God Pool for too long.

Therefore, even though many people had come before, the amount of the Great Dao power they absorbed from this Celestial God Pool water was probably not that much.

So, the remaining power of the Great Dao in this Celestial God Pool was still very abundant.

Therefore, Ye Feng was now freely absorbing all the remaining power of the Great Dao in the Celestial God Pool, allowing his cultivation to rapidly break through once again.

Boom!

Totem Realm, second level!

Boom!

Totem Realm, third level!

Boom!

Totem Realm, fourth level!

Boom!

Totem Realm, fifth level!

Boom!

Totem Realm, sixth level!

Boom!

Totem Realm, seventh level!!

At this moment, Ye Feng's cultivation finally came to a complete stop.

And Su Ruoshui, standing on the shore, was already completely stunned.

At this time, the power of the Great Dao in the entire Celestial God Pool water had been completely absorbed by Ye Feng, which was why Ye Feng's cultivation could improve so much.

But Su Ruoshui on the shore was already completely shocked.

Because Su Ruoshui never expected that Ye Feng's devouring ability would be so terrifying.

And the most important thing was that Ye Feng didn't even need to worry about inner demons.

Because Ye Feng simply didn't develop any inner demons!

This made Su Ruoshui feel very shocked.

Because Su Ruoshui knew very well that a cultivator definitely had their own inner demons.

If a cultivator didn't have inner demons, then what kind of firm martial heart would this cultivator have?

How terrifying would one have to be to not develop any inner demons at all?

So, at this moment, Su Ruoshui could be said to be extremely shocked, not by Ye Feng's devouring ability, but by Ye Feng's firm martial heart that prevented the development of inner demons.

At this time, Su Ruoshui immediately couldn't help but say out loud: "Junior Brother Ye Feng, why haven't you developed any inner demons? This is really too incredible."

Ye Feng smiled slightly and said: "I don't know why, maybe it's because I have no distracting thoughts when I cultivate."

At this moment, Ye Feng had completely absorbed all the power of the Great Dao in the entire Celestial God Pool water.

Therefore, Ye Feng's current cultivation had broken through to the entire seventh level of the Totem Realm.

The power of the Great Dao in the Celestial God Pool not only helped Ye Feng break through the great bottleneck of an entire major realm, but also directly broke through to the seventh level of this brand new cultivation level of the Totem Realm.

At this moment, Ye Feng looked around and found that the entire dark blue color in the Celestial God Pool had already turned transparent.

Those dark blue energies should be the power of the Great Dao contained within this Celestial God Pool.

At this time, Su Ruoshui also saw this change, couldn't help but stare at the Celestial God Pool that had completely turned transparent, and smiled helplessly, saying: "Junior

Brother Ye Feng, this time you have absorbed all the great power in this Celestial God Pool. I estimate that if someone comes here after going through great hardships and finds that the entire Celestial God Pool has no effect, they will probably be so angry that they will jump up and down."

Hearing Su Ruoshui say this, Ye Feng immediately couldn't help but smile and shake his head, saying: "Perhaps this Celestial God Pool can continue to condense the power of the Great Dao in the following time. I just absorbed the power in this Celestial God Pool in a short period of time."

Hearing Ye Feng say this, Su Ruoshui nodded slightly and said: "There is also this possibility, but in any case, in a short period of time, this Celestial God Pool should not have any power of the Great Dao and has lost its effect. This time, our goals can be considered to have been achieved. My cultivation has produced a breakthrough, and your cultivation has also improved so much."

Ye Feng nodded, suddenly stared at the bottom of this Celestial God Pool, and immediately couldn't help but say in surprise: "Senior Sister Su, look, there seems to be something unusual at the bottom of this Celestial God Pool."

Originally, the Celestial God Pool was completely dark blue, so the two couldn't see the bottom of the pool.

But now that the dark blue power in the entire Celestial God Pool had been completely absorbed and devoured by Ye Feng, the entire pool water had become transparent, and the water had become very clear, and they immediately saw the things at the bottom of the pool.

They saw that at the bottom of this Celestial God Pool, there was a stone emitting various colors of light.

At this time, seeing this scene, the two immediately took out this stone emitting different colors of light from the bottom of the Celestial God Pool.

At this time, Ye Feng carefully watched it and couldn't help but say: "I sensed the power of various attributes from it."

Su Ruoshui couldn't help but say in surprise: "This stone, could it be the Great Dao Stone that was condensed by the ancient gods here when they discussed cultivation and then induced the power of the Great Dao to condense it."

"Great Dao Stone?"

At this time, when Ye Feng heard Su Ruoshui say this, a look of surprise suddenly appeared in his eyes.

This was the first time Ye Feng had heard about the Great Dao Stone.

Su Ruoshui nodded and said: "There is a record in the ancient books of our Dark Divine Court. I once saw that it is rumored that in the place where the ancient gods practiced and discussed the Dao, it would induce the descent of the power of the Great Dao of various attributes between heaven and earth. At that time, something special would be condensed, such as the Great Dao Stone, which contains the power of the ancient gods and the Great Dao, but the ancient gods and Great Dao power in this Great Dao Stone has been completely solidified, so it has become a stone, similar to a crystal-like existence, unable to absorb the energy in it, but as long as you can carry it with you, you can slowly change a person's physique, allowing a mortal to gradually transform towards the direction of gods and the immortality of the Great Dao."

"Oh? So that's how it is."

Hearing Su Ruoshui's words, a look of surprise suddenly appeared in Ye Feng's eyes, and then, in Su Ruoshui's stunned gaze, Ye Feng suddenly used the Celestial God Sword to cut the Great Dao Stone in half, took the first half with him, and gave the other half to Su Ruoshui, smiling and saying: "Then let's each take half and carry it with us. This will be of great benefit to us."

## Ancient God

Seeing Ye Feng's actions, Su Ruoshui immediately revealed a wry smile in her eyes, and said, "Ye Feng, your action is really fast. I haven't finished speaking yet, and you have already completely cut this large stone in half. But that's good, we can both possess this great stone and carry it with us in the future to continuously temper our bodies."

At this moment, Su Ruoshui looked at the half of the Great Dao Stone in Ye Feng's and her own hands, and couldn't help but say, "In the future, if you and I have descendants who are in trouble, they can also recognize each other through this special half of the Great Dao Stone, so that the younger generations can also help each other."

Hearing Su Ruoshui's words, Ye Feng's eyes suddenly revealed a look of surprise, as if he didn't expect Su Ruoshui to think so far, even considering the future descendants of the two.

Hearing Su Ruoshui's words, Ye Feng immediately laughed and said, "We are both still single and will not consider the matter of cultivation partners in a short time. Thinking about these things is a bit too early."

Hearing Ye Feng's words, a strange look seemed to flash in Su Ruoshui's beautiful eyes, and then she said, "Junior Brother Ye Feng is a dragon among men. You don't have a cultivation partner yet? I thought that with Junior Brother Ye Feng's demeanor, you would already have countless confidantes and cultivation partners."

Hearing Su Ruoshui's words, Ye Feng immediately shook his head and said, "The responsibility on my shoulders is very heavy, and I don't want to find a cultivation partner for the time being, because that will interfere with my cultivation."

Hearing Ye Feng's words, Su Ruoshui suddenly chuckled and then said, "It seems that Junior Brother Ye Feng is really an ascetic monk."

At this moment, Ye Feng asked, "Senior Sister Su, the Heavenly God Pool water has been completely used up by us. Should we leave here now?"

Su Ruoshui looked around and said, "This mountain top may not only have the Heavenly God Pool water as a good place. Let's look around. We came here after all the hardships. Although we successfully found the Heavenly God Pool water and even obtained a Great Dao Stone, I am not willing to get so little. I want to look around again, carefully, to see if there are any other good things."

Hearing Su Ruoshui's words, Ye Feng nodded and said, "What Senior Sister Su said makes sense, then let's continue to look around. Since this place was once a place for ancient gods to cultivate and discuss Taoism, then it is indeed possible that there is more than just the Heavenly God Pool water."

Su Ruoshui nodded, and then couldn't help but say, "I have to say, the Dark Divine Son of our Dark Divine Court is very lucky. Not only was he able to successfully come here to use the Heavenly God Pool water to cultivate, but he also obtained the inheritance of the incomparably powerful Dark God, who ranks among the top of the ancient gods. Otherwise, the upper echelons of the Dark Divine Court would not have listed him as the new generation Divine Son of the Dark Divine Court."

Hearing Su Ruoshui's words, Ye Feng became curious and said, "Senior Sister Su seems to be very familiar with the Dark Divine Son. Does Senior Sister Su know where the Dark Divine Son obtained the inheritance of the Dark God back then?"

Su Ruoshui shook her head and said, "I don't know about this. Anyway, it was in the Godsfall Canyon, but I don't know exactly where. Otherwise, I would definitely go to that place to search carefully, and maybe I could also get the inheritance of a god. But there is no way, although there are inheritances left by ancient gods in the Godsfall Canyon, very few people can find them. Generally, you need to rely on luck. If you specifically go to find them, you may not be able to find them. Instead, sometimes you may accidentally encounter the inheritance of an ancient god. This kind of thing depends on chance and good fortune, and hard work is not enough."

Ye Feng nodded and said, "Maybe this is the so-called encountering immortal fate. If you encounter it, you will get it."

While the two were talking, they had already wandered around the top of this mountain.

However, the two did not find anything special, nor did they find anything special.

This made Su Ruoshui a little disappointed.

At this time, Ye Feng couldn't help but say, "Since this is a place for ancient gods to cultivate and discuss Taoism, it is impossible to have only one Heavenly God Pool water. I want to dig open this mountain to see if there are any good things left by the gods inside the mountain."

"What?"

Hearing that Ye Feng wanted to directly dig open this mountain left by the ancient gods, Su Ruoshui immediately couldn't help but show a look of astonishment on her face.

Even Su Ruoshui, this mysterious and peerless genius, couldn't help but say with astonishment, "Junior Brother Ye Feng, this is a place of cultivation and discussion left by the ancient gods. It is a very sacred place. Are you sure you want to dig it open?"

Ye Feng nodded, his eyes very firm, and said with a smile, "In my eyes, there is nothing sacred or unholy, and there is nothing possible or impossible. Only practical action, practice will lead to truth."

After saying that, Ye Feng directly took out the Heavenly God Sword, wanting to directly break open this mountain to see if there were any hidden good things inside.

Seeing Ye Feng doing what he said, Su Ruoshui was really a little stunned, because no one would have ever thought of digging open the sacred cultivation place left by the ancient gods.

This idea was too bold, and ordinary people would not dare to have such an idea at all.

At this time, Su Ruoshui suddenly felt that Ye Feng, who usually seemed gentle and refined, might have a rebellious factor hidden in his bones that ordinary people did not have.

Rumble!

At this time, Ye Feng directly and quickly chopped at the entire mountain.

Ye Feng's Heavenly God Sword is a weapon from a higher cultivation dimension, so even if the place where the ancient gods discussed Taoism is protected by the power of the Great Dao, it was still chopped into pieces by the Heavenly God Sword in Ye Feng's hand.

Seeing this scene, Su Ruoshui, who was standing aside, immediately couldn't help but reveal a deep look of surprise in her eyes, staring at the golden long sword in Ye Feng's hand, and said, "Junior Brother Ye Feng, the golden long sword in your hand is definitely

a top-notch super magic weapon. I feel that it is much sharper than the cyan divine sword that my father gave me as a coming-of-age gift."

Hearing Su Ruoshui's words, Ye Feng just smiled slightly and didn't say much, but continued to chop at the entire mountain left by the gods with the Heavenly God Sword in his hand.

Rumble!

Accompanied by bursts of roaring sounds, Ye Feng finally split open the entire mountain.

Seeing this destructive scene, Su Ruoshui immediately couldn't help but shake her head with a wry smile.

Ye Feng is really crazy, really chopping such a sacred place into a mess.

At this moment, just as Su Ruoshui was sighing that Ye Feng was really a crazy guy, Ye Feng discovered something from the inside of this mountain, and couldn't help but say in surprise, "Senior Sister Su, it seems that I guessed right. There is still a mysterious place hidden in this mountain."

"Huh?"

At this moment, Su Ruoshui heard Ye Feng's words, her eyes also froze, and then she followed Ye Feng and landed into the internal space of the mountain that had been split open.

In that instant, the two immediately saw that a huge internal stone chamber had appeared in the broken internal space of this mountain.

This small stone chamber has always been in the internal area of this mountain, and it should have existed for a long time, but it has never been discovered.

After all, no one would be crazy enough to split open such a sacred place as the place where the gods discussed Taoism.

But Ye Feng did this thing that violated common sense and successfully discovered this small stone chamber hidden inside this mountain.

## #5739 - The inner demon mirror

At this moment, Ye Feng and Su Ruoshui entered the stone chamber inside the mountain, and their eyes lit up.

Because they saw that this ancient stone chamber was very likely the place where the ancient gods rested.

On the walls inside, there were treasures hanging.

The first treasure was a palm-sized bronze mirror.

This bronze mirror looked very old. Around the bronze mirror, on the frame, were carved symbols of ancient gods, exuding a mysterious aura.

Even after endless years, this bronze mirror was still very complete.

Su Ruoshui immediately stepped forward and couldn't help but exclaimed, "This is definitely a treasure left by the ancient gods. I don't know what the specific function of this bronze mirror is."

Just as Su Ruoshui walked to this bronze mirror, a scene suddenly appeared on the mirror surface.

Su Ruoshui saw in this scene that her own figure appeared.

The figure of herself in this scene seemed to be much more mature than she is now, as if it was her future self.

In this scene, the future Su Ruoshui had a very cold face, holding a blue long sword in her hand, and actually pierced Ye Feng's forehead, killing Ye Feng on the spot.

"What?"

Seeing this scene, Su Ruoshui's face suddenly became extremely ugly.

However, Ye Feng had not yet arrived and did not see this scene.

When Ye Feng arrived here, the scene on the bronze mirror had disappeared.

Su Ruoshui thought about it again and again, and finally told the scene she had just seen in the bronze mirror, and couldn't help but said with a very complicated expression, "Junior Brother Ye Feng, could this really be something that will happen in the future?"

Hearing Su Ruoshui say this, Ye Feng immediately smiled slightly and said, "Does this bronze mirror have the ability to predict the future? I don't think it's possible. How could this kind of time-attribute magic weapon appear here casually? The scene that Senior Sister Su just saw may just be Senior Sister Su's inner demons, the scene that Senior Sister Su is most unwilling to see, revealed on this bronze mirror. The function of this bronze mirror may not be to predict the future, but to disturb the cultivator's spirit."

Hearing Ye Feng say this, analyzing this scene from another perspective, Su Ruoshui immediately felt much better.

At this moment, Ye Feng walked to the bronze mirror and said with a smile, "If that scene just now was really the future, then when I stand in front of this bronze mirror, I will definitely be able to see a scene of my future. Now I will try to see if I can see it."

At this time, Ye Feng stood in front of this bronze mirror and found that this bronze mirror did not change at all.

Seeing this scene, Su Ruoshui was finally completely relieved and couldn't help but said, "Because Junior Brother Ye Feng has no inner demons, this bronze mirror cannot interfere with your spirit and soul, and cannot show the scene that Junior Brother Ye Feng is most afraid of seeing."

Hearing Su Ruoshui say this, Ye Feng immediately nodded slightly and said with a smile, "This bronze mirror is very likely a magic weapon at the soul level."

Hearing Ye Feng say this, Su Ruoshui immediately nodded and said, "Since it is a magic weapon at the soul level, then it is not of much use to me, because I cannot refine this kind of soul-level magic weapon. Let Junior Brother Ye Feng refine this bronze mirror."

Ye Feng nodded and directly began to refine this bronze mirror.

For Ye Feng, this bronze mirror can interfere with people's spirit and soul. If he can control it, releasing it suddenly when fighting against the enemy can indeed give the opponent a heavy blow in an instant and disturb the enemy's mind.

At this moment, along with Ye Feng's refining, when Ye Feng successfully refined this bronze mirror, Ye Feng immediately learned from this bronze mirror that this bronze mirror is called the "Heart Demon Mirror", which can indeed directly make a person's most feared scene appear and disturb people's mind.

At this moment, Ye Feng suddenly seemed to think of something, looked at Su Ruoshui beside him, and said, "Senior Sister Su, the scene you are most afraid of is being an enemy with me?"

Hearing Ye Feng say this, Su Ruoshui's face seemed to become a little complicated, and then she nodded slightly and said, "I have told Junior Brother Ye Feng before that I have no friends from childhood to adulthood. Most of the people I know are like strangers to me, but Junior Brother Ye Feng is my only friend, so I cherish you very much. The scene I am most afraid of is naturally being an enemy with my only friend."

Hearing Su Ruoshui say this, Ye Feng nodded slightly, and his heart was also touched.

Then Ye Feng said with a smile, "Let's continue to see if there are any other magic weapons suitable for Senior Sister Su to refine and use. These magic weapons should all be magic weapons left by the ancient gods. Even if they are not artifacts, they are definitely super magic weapons infinitely close to the artifact level, which are very precious."

At this time, the two continued to watch and found that the second magic weapon hanging on the wall of the stone chamber inside the mountain was a lamp.

This was an ancient oil lamp, but what was burning in the wick was a faint blue flame.

And on the surface of this ancient oil lamp, there were patterns engraved like hell and the underworld.

Ye Feng felt it slightly at this time and couldn't help but said in surprise, "This seems to be the same kind of magic weapon related to the soul, but it doesn't seem to be a weapon of attack, but a weapon of protection. It seems to be somewhat similar to the bracelet on Senior Sister Su's wrist. It is a defensive soul weapon. This lamp is very suitable for Senior Sister Su, because this lamp can defend your spirit and soul, and the level is much higher than the bracelet on your wrist."

Hearing Ye Feng say this, a look of surprise also appeared in Su Ruoshui's eyes. She directly stretched out her hand and touched this ancient lamp.

After refining and sensing it slightly, Su Ruoshui nodded and said, "This ancient lamp is called the Great Dao Nether Lamp. It seems to contain countless souls from the ancient Netherworld. This is indeed a defensive soul-level magic weapon. When I am attacked by the soul, the Netherworld souls in this ancient lamp will all automatically come out to help me resist the attacks of spirit and soul."

Hearing Su Ruoshui say this, Ye Feng immediately smiled slightly and said, "It seems that I am right. This Great Dao Nether Lamp is very suitable for Senior Sister Su."

## #5740 - Guarding the mountain for a thousand years

At that moment, the two continued to look around the walls and discovered the third magical treasure.

The third magical treasure was a long sword.

This long sword radiated the light of stars, and a brilliant galaxy was carved on the blade.

On the hilt, there were nine diamonds inlaid, each emitting starlight.

"Hmm?"

Seeing this, Ye Feng smiled slightly and said, "Senior Sister Su, you should keep this long sword. Your main cultivation is in the way of the sword. This long sword is not of much use to me, but for a cultivator like you who specializes in sword cultivation, obtaining such a precious sword will greatly promote your strength."

Su Ruoshui immediately nodded and reached out to hold the star sword. She could immediately feel the infinite power of the galaxy contained within the sword.

Su Ruoshui couldn't help but exclaimed in surprise, "This star sword is too precious. The blade seems to condense the energy of a galaxy, and the nine diamonds on the hilt seem to be made from the star cores left behind after a star fell. The power of this sword itself is definitely enough to destroy the heavens and the earth."

Hearing Su Ruoshui say this, Ye Feng nodded and continued to look towards the depths of the wall.

Ye Feng actually found an ancient map.

"This is a place to store magical treasures, why is there a map?"

Su Ruoshui walked to Ye Feng's side at this time, with a look of doubt in her eyes.

At that moment, Ye Feng reached out and touched the ancient map, his eyes lit up, and he said, "This is not a map, but a magical treasure, a world-attribute magical treasure. This so-called map contains an entire small world."

"What?"

Hearing Ye Feng say this, Su Ruoshui's eyes also showed a look of astonishment, seemingly not expecting that a world-attribute magical treasure would appear here.

You know, ordinary magical treasures at most contain vast power, but the most advanced magical treasures contain the power of an entire world.

A magical treasure with its own small world, that is a truly powerful magical treasure.

At that moment, Su Ruoshui immediately stared at Ye Feng and said with great joy, "This is the most precious magical treasure here. If this picture contains a small world, it is likely to be the legendary Mountain and Rivers Sheji Diagram. If this picture is really a super magical treasure like the Mountain and Rivers Sheji Diagram, then it is definitely comparable to a divine artifact."

Ye Feng nodded at this time and said, "Even if it is not the Mountain and Rivers Sheji Diagram, it is also a very powerful world-attribute magical treasure. I will try to refine it."

Hearing Ye Feng say this, Su Ruoshui immediately nodded.

This kind of world-attribute super magical treasure is very suitable for a fierce fighter like Ye Feng.

Because Ye Feng can completely fight the enemy at close range in the process of fighting, and then use the Mountain and Rivers Sheji Diagram, a world-attribute magical treasure, to directly suppress the enemy.

The power of an entire world bombarding the enemy, it's terrifying to even think about it.

At that moment, with Ye Feng's refining, Ye Feng immediately saw that this map did indeed contain an entire small world.

Ye Feng's spirit entered the inner world of this Mountain and Rivers Sheji Diagram and saw a lifelike small world, with mountains and rivers, high mountains and great mountains, countless jungles, and many ancient buildings, and even some relics of ancient civilizations in it.

However, Ye Feng did not find any living beings in it. Obviously, too many years have passed here, and many life civilizations in the small world contained in this map have come to an end.

After Ye Feng refined it, he also learned from this map magic weapon that this picture is not the legendary artifact Mountain and Rivers Sheji Diagram, but is called "All Living Things and All Things Diagram."

Ye Feng guessed that it is likely that a certain god in the past wanted to create such a world-attribute magic weapon by depicting all living things, and every day he would observe the birth, old age, sickness and death of thousands of creatures in the small world contained in this picture, the rise and fall of civilizations, and watch all living things, in order to prove his own way of the gods.

This All Living Things and All Things Diagram is definitely a very powerful super magic weapon, which has a huge effect on Ye Feng. It not only has powerful attack power, but also can take the enemy into this All Living Things and All Things Diagram in the process of fighting, and briefly trap the enemy in the world in the painting.

In addition, Ye Feng knows that the greatest role of this All Living Things and All Things Diagram is to allow practitioners to observe the birth, old age, sickness and death of life in it, and the rise and fall of civilization. By watching the natural evolution of all living

things, practitioners can understand the mysteries of the Great Dao of Heaven and Earth, so as to verify their own path of cultivation."

Ye Feng is preparing to refine this All Living Things and All Things Diagram properly when he has time, and input his mana into this All Living Things and All Things Diagram, so that the small world in this All Living Things and All Things Diagram can be revitalized again, and see if he can cultivate new life and civilization in the small world of this All Living Things and All Things Diagram through himself, and let them naturally change and evolve, and he will learn the true meaning of cultivation through this change and evolution."

At that moment, Ye Feng solemnly put this All Living Things and All Things Diagram into his body, constantly warming it, wanting to reactivate the exhausted small world in this All Living Things and All Things Diagram.

This is very precious to Ye Feng, and it is of great benefit to Ye Feng's future understanding of the immortal truth of cultivation.

At that moment, Su Ruoshui looked at other places in the stone chamber inside the mountain and said, "Junior Brother Ye Feng, there seems to be nothing else, but we can each get two super magic weapons left by the ancient gods, which is already an unimaginable harvest."

Speaking of this, Su Ruoshui had a look of emotion on her face and said, "This place should have been here for endless years, and no one has ever known that there are four super magic weapons hidden inside this mountain."

Ye Feng nodded slightly and said with a smile, "This time is really a huge harvest."

Just after the two finished speaking, they were about to leave here.

But at that moment, a very ancient and majestic voice suddenly echoed throughout the mountain: "You two young people have obtained the four super magic weapons left by the ancient gods, then let you replace me and guard this place for a thousand years. This is the price you pay for obtaining the magic weapons."

After the voice fell, Ye Feng and Su Ruoshui's faces changed drastically.

Ye Feng seemed to sense something and said, ", the master of this voice should be the mountain god of this mountain. I sensed a very towering and huge soul power."

"Mountain God?"

Su Ruoshui's face changed drastically when she heard Ye Feng say this, and she said, "The mountain god born in the place where the ancient gods discussed Taoism must be very terrifying. Even if Junior Brother Ye Feng is a soul master, I am afraid that he will not be

able to deal with this kind of mountain god-level powerful soul body. Are we really going to guard the mountain here for a thousand years?"
