## Ancient God 5751

At this moment, hearing Huan Yue's words, Ye Feng immediately nodded and couldn't help but chuckle, saying, "When I first obtained this Myriad Beings Diagram, I also felt that I could observe the natural evolution of the myriad creatures in the small world within the Myriad Beings Diagram, thereby attaining the future position of a deity."

Hearing Ye Feng say this, Huan Yue nodded and said, "It seems that the creator of this Myriad Beings Diagram also wanted to attain the divine position through this world-attribute magic weapon. His ambition was great, but unfortunately, he ultimately failed. However, Ye Feng, you have obtained his legacy. This Myriad Beings Diagram, in your hands, may truly be able to transform into a genuine divine artifact along with you."

Hearing Huan Yue say this, Ye Feng smiled slightly and didn't say much more. He directly began to absorb the world power from the painting on the wall and inject it into his own Myriad Beings Diagram.

As the Myriad Beings Diagram absorbed the world power from the painting on the wall, Ye Feng could clearly feel that the power of the Myriad Beings Diagram was becoming stronger and stronger.

Moreover, Ye Feng could see that the small world within the Myriad Beings Diagram was actually expanding rapidly.

Seeing this scene, a look of surprise immediately appeared in Ye Feng's eyes, and he said, "I didn't expect that with the injection of world power, the world outline and area of the small world within the Myriad Beings Diagram are also rapidly increasing."

Huan Yue nodded and said, "Of course, this is because of the injection of new world power, and this world power injected into your Myriad Beings Diagram can revitalize the small world within your Myriad Beings Diagram."

Ye Feng nodded at this moment, because Ye Feng also saw that with the injection of world power, the small world within the Myriad Beings Diagram, which was originally barren, actually began to have a trace of spiritual energy between heaven and earth, and new plants and creatures began to be born.

At this moment, seeing this scene, Ye Feng was naturally very happy.

The Myriad Beings Diagram is the most precious treasure to Ye Feng at present.

Because this kind of treasure can not only deal with enemies, but also has a huge help for his future cultivation path.

It can be said that the Myriad Beings Diagram is a growth-type magic weapon, which is very important.

At this moment, Ye Feng absorbed all the world power in the entire painting world and injected it into the Myriad Beings Diagram.

The Myriad Beings Diagram also underwent a tremendous transformation.

At this moment, Ye Feng did not hesitate at all, and directly left this great hall, came to the outside of the God Country Ruins, and continued to release his soul power to explore.

However, just as Ye Feng was preparing to continue exploring this ancient God Country Ruins.

Boom!

Suddenly, in a certain direction not far away, an extremely powerful roar erupted.

"Hmm?"

Sensing this huge roar, Ye Feng's eyes suddenly froze slightly, and he couldn't help but look at Huan Yue beside him and said, "Could it be that there are other disciples of the Dark Divine Court who have entered this Land of Divinefall and have come to the ancient God Country Ruins of this Black Serpent God."

Hearing Ye Feng say this, Huan Yue was a little strange and couldn't help but say, "Although there are many disciples of your Dark Divine Court in this Godsfall Canyon who are training, it takes great courage to enter the Land of Divinefall, and it is very difficult to get here. After all, even a genius like Ye Feng, with your peerless talent, only came to this ancient God Country Ruins established by the Black Serpent God under my guidance."

Hearing Huan Yue say this, Ye Feng nodded and said, "In any case, let's go and see what's going on."

Whoosh!

At this moment, after Ye Feng finished speaking, he immediately flew quickly towards the direction from which the roar came.

Along the way, Ye Feng passed through many collapsed halls and various buildings, which made Ye Feng quite sigh.

The glorious God Country back then was destroyed to such an extent in a war between gods and demons, turning into a ruined ruin.

Just as Ye Feng was sighing in his heart, Ye Feng was already approaching the direction from which the roar had just come.

When Ye Feng arrived at his destination, he was surprised to find that the roar that had just erupted was actually two huge war puppets fighting.

One of these two war puppets is a majestic steel giant with a height of tens of thousands of meters, and the other war puppet is a giant snake puppet with a length of hundreds of thousands of meters, which seems to be pieced together piece by piece from some special solid wood, which looks very shocking.

At this moment, the steel giant and the giant snake puppet are fighting.

Seeing this scene, a look of astonishment immediately appeared in Ye Feng's eyes, and he couldn't help but look at Huan Yue beside him and said, "How many forces participated in the war between gods and demons back then that such terrifying puppets would appear?"

At this moment, Huan Yue looked at these two huge puppets and nodded, saying, "These two puppets are not products of this ancient God Country established by the Black Serpent God. They should be giant puppets from other forces in the war between gods and demons back then. I didn't expect that after so many years, they are still fighting."

Ye Feng asked curiously, "It has been hundreds of thousands of years since the war between gods and demons back then. Why do these giant puppets still have the power to fight here? In theory, the source of power for these puppets should be the energy crystals installed in their bodies. After hundreds of thousands of years, these energy crystals should have been exhausted long ago."

At this moment, hearing Ye Feng say this, Huan Yue smiled lightly and said, "In the age of gods hundreds of thousands of years ago, these giant puppets were generally cast by weapon refiners or puppet masters comparable to gods. These giant puppets from the ancient era do not rely on energy spirits to drive them, but rather by engraving ancient formations inside their puppet bodies, allowing them to constantly absorb the spiritual energy of the outside world. Their power can be said to be endless."

Hearing Huan Yue say this, a look of amazement immediately appeared in Ye Feng's eyes, and he couldn't help but say, "Being able to actively and continuously absorb the energy of heaven and earth to support their own battles, these giant puppets are really treasures."

Huan Yue nodded, seemingly quite proud, and said, "Of course, in the age of gods hundreds of thousands of years ago, these giant puppets could sometimes even withstand several attacks from powerhouses at the level of gods."

"Can withstand several attacks from powerhouses at the level of gods?"

At this moment, hearing Huan Yue's words, Ye Feng's eyes lit up all of a sudden, and he stared at the two giant puppets fighting in the ancient battlefield not far away, one being a majestic steel giant tens of thousands of meters tall, and the other being a giant snake puppet hundreds of thousands of meters long.

Ye Feng immediately had the idea of taking both of these giant puppets into his possession.

However, Ye Feng knew that this was very difficult, because he was as weak as an ant in front of these two giant puppets.

At this moment, Ye Feng immediately stared at Huan Yue beside him, and couldn't help but ask expectantly, "Huan Yue, do you have any way to let me take these two giant puppets that can still fight into my command? If I have these two giant puppets from the age of gods, then it's equivalent to having two super thugs."

## Ancient God

#5752 - Being controlled

At this moment, hearing what Ye Feng said, Huan Yue thought for a moment and then said, "The strength of these two giant puppets is very powerful. In ancient times, these giant puppets could even withstand attacks from the gods, so it will be very difficult to subdue them."

Hearing Huan Yue say this, a helpless look appeared in Ye Feng's eyes, and he said, "You lived in that era, so you should know a lot about these giant puppets. Please help me think of a way. I really want to take these two giant puppets into my possession. This will be of great benefit to improving my overall strength, and it will also be of great benefit to you, because when my overall strength improves, you will naturally be safer following me in the future."

Hearing Ye Feng say this, Huan Yue nodded, thought for a moment, and suddenly said, "As long as you can control the formations engraved within these giant puppets' bodies, you can control them. I suddenly remembered that the formations engraved within these giant puppets' bodies are not only used to absorb the spiritual energy of heaven and earth to provide themselves with a constant stream of energy, but also to allow the controller to manipulate these formations to control these puppets."

Hearing Huan Yue say this, Ye Feng's eyes lit up, and he said, "I have the Eye of Heaven and Earth, which can see through the operation of any formation. Then I will take a look at the formations running within the bodies of these two giant puppets to see if I can see through them. If I can see through them, then I can control the formations through my soul power."

Hearing Ye Feng say this, Huan Yue nodded and said, "You can try, but be careful."

Ye Feng nodded and carefully approached forward.

Rumble!

At this time, the two giant puppets were still constantly fighting, producing huge roars. Fortunately, there was no one else here, otherwise it would definitely attract many people to come and watch.

At this moment, Ye Feng used his Void Talent to hide in the void and approached the two giant puppets from the depths of the void.

Soon, Ye Feng arrived not far from the two giant puppets.

At this time, Ye Feng activated the Eye of Heaven and Earth and saw through everything at once.

Sure enough, within the bodies of these two giant puppets, there was an ancient and profound formation that was slowly operating.

Seeing this scene, Ye Feng immediately moved quickly towards the two giant puppets in the depths of the void.

For Ye Feng, if he could harvest these two giant puppets now, it would definitely be a great help to him.

So at this moment, Ye Feng naturally made up his mind to take the risk and try to see if he could take these two giant puppets into his possession.

At this moment, as Ye Feng approached, he quickly arrived in front of the two giant puppets.

At this moment, the aftermath of the battle between the two giant puppets was very terrifying, and even Ye Feng, who was in the depths of the void, felt the impact, and his whole body was shaking a little.

At this moment, Ye Feng immediately couldn't help but look at Huan Yue beside him and said, "Which giant puppet should I start with first?"

Huan Yue couldn't help but say, "If you only control one giant puppet in an instant, it will definitely attract the attention of the other giant puppet. These puppets from the ancient era of the gods all have their own consciousness, so I think if you really want to take this risk, Ye Feng, you should directly control both giant puppets at the same time in an instant. Only in this way can you completely resolve the conflict between these two giant puppets, and you can also have two giant puppets at the same time."

Hearing Huan Yue say this, Ye Feng nodded and said, "Okay, then I'll try."

What Huan Yue said at this time was correct. If he only controlled one giant puppet, even if he succeeded, the other giant puppet would instantly notice. At that time, it would either attack him frantically, or turn around and run away. He would not have any chance at all.

So if he was going to do it, he would control both giant puppets at the same time.

At this moment, Ye Feng directly and slowly released his soul power, spreading out from the depths of the void and covering the two giant puppets.

Although these two giant puppets had their own intelligence, the path of cultivation for soul masters was too secretive, so Ye Feng's soul power slowly approached the two giant puppets without attracting their attention.

At this moment, the instant Ye Feng's soul power touched the two giant puppets, Ye Feng immediately activated the power of the Eye of Heaven and Earth, directly seeing through all the formation operation patterns of the entire giant puppet, and then forcibly controlled the ancient formations engraved in the bodies of the two giant puppets through his powerful soul power, attempting to control the two giant puppets in an instant.

Rumble!

At this moment, Ye Feng immediately felt a very strong resistance.

Obviously, the two giant puppets also sensed at this moment that an outsider wanted to subdue them all, so they were resisting frantically.

However, Ye Feng's premeditated attack was very terrifying, and he had moved to the vicinity of the two giant puppets without anyone knowing, allowing his soul power to penetrate deeply into the internal formations of the two giant puppets.

So at this moment, Ye Feng naturally controlled the ancient formations engraved in the bodies of the two giant puppets all at once.

In the next instant, Ye Feng immediately felt that he had a basic control over the two giant puppets.

At this moment, Ye Feng was naturally very happy that he had finally succeeded completely.

However, this was mainly due to the fact that he was a soul master, who could instantly use his soul power to directly control the formations engraved inside the bodies of these two giant stars' puppets. Otherwise, if other people were to subdue them, it would definitely be very difficult.

At this moment, Ye Feng completely controlled the formations operating in the bodies of these two giant puppets and flew directly out of the void, no longer needing to hide.

At this moment, Ye Feng did not hesitate at all, and immediately looked at the two giant puppets and said very satisfied, "From now on, you will work for me, otherwise, I have already controlled the formations hidden in your bodies, and I can destroy you at any time."

At this moment, hearing what Ye Feng said, the two giant puppets with their own intelligence knew that they could no longer escape the fate of being controlled by Ye Feng, and could only nod silently.

At this time, looking at the two huge puppets in front of him, one steel giant and one giant snake puppet, Ye Feng was extremely happy. This time, the harvest was really huge.

## Ancient God 5753

At this moment, Huan Yue's figure appeared beside Ye Feng, and she immediately said with a smile, "Congratulations on successfully obtaining these two giant puppets from the age of the gods. These two puppets are top-notch war puppets, many times more powerful than ordinary battle puppets."

Ye Feng nodded and said with a smile, "These two giant puppets are like a timely rain for me. After all, when exploring opportunities and good fortune in the deepest part of this

Godsfall Canyon, I will definitely encounter various dangers. But with the help of these two giant puppets, I feel that even if I encounter very terrifying dangers, it will be enough to solve them."

Hearing Ye Feng say this, Huan Yue nodded and said with a smile, "These giant puppets in ancient times could even withstand the attacks of gods a few times. They are indeed very sturdy, and their attack power is also very strong, with earth-shattering power."

At this moment, Ye Feng nodded, emitting soul power, and quickly covered the ancient divine kingdom established by this black snake god, as well as other directions.

Next, Ye Feng was exploring various ancient buildings in this divine kingdom ruins, wanting to find the opportunities and good fortune left behind in those years.

However, Ye Feng searched most of the buildings, and they were basically empty.

Huan Yue said, "During that ancient war between gods and demons, many things were either destroyed or scavenged by others. If you want to find the most precious opportunities and good fortune in the ancient divine kingdom ruins created by this black snake god, such as the inheritance of a true god, you must go to the imperial palace in the center of this ancient divine kingdom. Because in those years, the most precious things in this ancient divine kingdom were basically concentrated in the imperial palace. However, the imperial palace was also the place where the most powerful people died in those years, and there may be various strange forces, which is very dangerous."

Ye Feng heard this and said with a smile, "No matter how dangerous it is, I have to go."

For Ye Feng, if he could really obtain the inheritance of a true god in the Godsfall Canyon, then it would definitely be of great help to the improvement of Ye Feng's overall strength.

Even the Dark Divine Child was able to obtain the inheritance of a dark god in this Godsfall Canyon back then, and Ye Feng didn't believe that he would be so unlucky.

Whoosh!

At this moment, Ye Feng immediately flew towards the imperial palace in the center of this ancient divine kingdom ruins.

At this moment, since there was no one else around, Ye Feng simply placed the Steel Giant and the Great Serpent Puppet, two giant war puppets, beside him, following him to walk and search. If he really discovered any sudden danger, these two giant puppets could react at any time, attack the enemy, and protect himself.

Ye Feng's speed was very fast, and in the blink of an eye, he arrived at the center of this ancient divine kingdom.

At this time, Ye Feng looked forward and immediately saw a magnificent palace standing on the ground in front of him.

Moreover, around this magnificent palace, there were also ancient buildings, and they were very well preserved, forming a very complete ancient building complex.

At this moment, looking at this magnificent ancient building complex, Ye Feng immediately looked at Huan Yue beside him and said, "This should be the imperial palace of the ancient divine kingdom established by the black snake god back then, right? The largest golden palace in the middle should be the imperial palace hall."

Huan Yue nodded immediately, and a look of reminiscence suddenly appeared in her eyes, and she said with a smile, "I also came to this imperial palace hall back then, and I met the black snake god, this god-level emperor. Now that I think about it, things have really changed, and this place has become a desolate place."

Ye Feng nodded slightly when he heard Huan Yue say this, and didn't say much, but flew quickly towards this palace in front of him.

When Ye Feng arrived at this imperial palace building complex, he landed directly on the ground.

Because in the high altitude, there seemed to be ancient restrictions and various strange forces, which might cause danger at any time, so Ye Feng felt that it was better to go directly through the main entrance.

After all, caution is the parent of safety.

This place used to be the divine kingdom palace created by a god, and the dangers it contains should not be underestimated.

At this time, Ye Feng walked directly in from the gate of the imperial palace, and immediately saw that all the buildings in the entire imperial palace were built very impressively, much more impressively than seen from a distance in the high altitude.

People in it are like ants.

But now all the buildings are empty.

At this time, Ye Feng walked into this empty palace, looking at the carved beams and painted buildings of various luxurious buildings, his eyes also showed a touch of emotion, and he said, "This place must have been very glorious back then, and the palace was built so impressively."

Hearing Ye Feng say this, Huan Yue nodded and said with a smile, "Of course, this is an immortal divine kingdom established by a god-level emperor, and the imperial palace is naturally very impressive and luxurious."

At this moment, Ye Feng looked at Huan Yue beside him and asked, "Do I have to explore all the palaces in this entire imperial palace?"

Huan Yue nodded and said with a smile, "Of course, every place in the imperial palace may contain opportunities and good fortune."

Ye Feng nodded immediately when he heard Huan Yue say this, and directly began to explore from the nearest hall.

When Ye Feng came to the first imperial palace hall, he immediately saw that there were actually a lot of food residues left over from many years ago. In addition, there were also many damaged knives and various cooking utensils.

When Ye Feng saw these things, he couldn't help but shake his head and smile, and said, "It seems that I have come to the imperial kitchen of this palace back then."

At this time, Ye Feng knew that there was nothing good here, so he left directly and walked quickly towards the second imperial palace hall.

When Ye Feng came to the second building of the imperial palace hall, he immediately saw that there were actually a lot of weapons and armors left behind here, and most of the weapons and armors were still emitting light. Although they had lost most of their spirituality, there was still a lot of power remaining.

When Ye Feng saw this scene, his eyes lit up and he said, "It seems that this is the weapon workshop in the imperial palace hall of the ancient divine kingdom, specializing in storing high-level weapons."

At this moment, Ye Feng put all these weapons and armors that were still emitting spiritual light into his storage ring.

Even if these things have lost their spirituality and most of their power, the material itself is still very precious. If they are taken out of the Godsfall Land and taken outside, they will definitely be sold for a good price.

"Ye Feng, there seems to be a very well-preserved thing here, come and take a look."

At this moment, Huan Yue spoke not far from this hall.

Obviously, Huan Yue was also helping Ye Feng to find the weapons left behind.

At this moment, hearing Huan Yue say this, Ye Feng immediately walked over and immediately saw that Huan Yue was pointing to a small box placed in the corner of the hall.

Huan Yue said at this time, "This kind of box can isolate the erosion of the power of time. If there is a magic weapon in this box, it must still be very complete and have the power of its heyday."
