

A Killer 1751

Chapter 1751: Enter the dead kiln mine

At that moment, the ecstasy apostle Situ Xuan who had been silent for a while suddenly said something. .

"I actually think...that...we should help Brigadier Wang Zhen once."

After he suddenly said something like this, Tang Xiaolong, Chen Qiaozhi and Xue Wuhen all began to blink their eyes and looked at him suspiciously.

But seeing the ecstasy at this moment, Situ Xuan continued to say: "First, I think this dead kiln mine incident is indeed a big event. Think about it, there have been 17 children in the surrounding area who have disappeared somehow. These ten Seven children under the age of ten are not clear whether they are alive or dead. The families of these children can be said to be worried to death. As a conscientious person, anyone who encounters such a thing will feel heartache and will help. ... Secondly, the brigade commander Wang Zhen also said that the police has sent back the news that the police who went into the dead kiln mine two days ago were shattered and died, so I personally think , There must be an extremely powerful character hiding in this dead kiln mine... As for who on earth is he? Or, why did he choose such a place full of death, then I don't know... If these are ordinary If the soldiers enter this dead kiln mine, even if they can find the other side, in such an environment, these soldiers want to deal with such a person who can shatter the heart of a person. It's absolutely impossible to deal with, so apart from us, there is only one dead end for others to get in. Third, I know that everyone wants to find Li Tian as soon as possible, and they are very worried about him. I also think, even more than you, because you all I know, he is my brother-in-law, and my sister loves him so much, so no matter what I do, I have to find him as soon as possible, so as not to make my sister less burdened by snacks, but, having said that, even if we start to go now If you are looking for Li Tian, can you tell me where should we go to find him? There is a huge crowd, where are we going to find him? Rather than wasting time there blindly, I think everyone should do a good deed and help those Poor young children, so that those poor children can return to their separated families as soon as possible."

"I have finished what I should say...you can figure it out." After the ecstasy in front of him said those words in one breath, the brothers in front of him were suddenly stunned.

Situ Xuan's remarks just now can be said to be brilliant, every word, every sentence pointed out the powerful relationship of the current situation.

So after listening, the brothers in front of them were not only silent, but even Tang Xiaolong who had been talking just now was silent.

In the end, after the big guy was silent for about 23 minutes, Chen Qiaozhi suddenly raised his head and said, "Situ Xuan is right. I think what he said is quite reasonable."

"It is important to find Li Tian, but there are ten or twenty children's lives right now...I think we should stay and help Brigadier Wang for the time being."

After he finished speaking, Xue Wuhen on the other side said in the same way; "Well, I agree with Qiao Zhi and Situ Xuan."

After they had finished speaking, only Tang Xiaolong remained silent.

After a while, Chen Qiaozhi glanced at Tang Xiaolong suddenly, "Hey, how about you? Are you saying something?"

Tang Xiaolong raised his head and glared at Chen Qiao: "Your mother...you guys...all said that, what else can my sister have to say."

"Just stay here..."

"Grass, but even if we stay here, I want to finish the matter here as soon as possible, because I must go to the little boss as soon as possible." Tang Xiaolong said.

After listening to Tang Xiaolong finally agreeing, then Chen Qiaozhi laughed.

"Well, since the big guys have agreed, then let's go and tell the brigade commander Wang Zhen." One of Chen Qiao in front of him said with a smile.

After the brothers' decision was immediately informed to Wang Zhen, the brigade commander of the 39th Army, Wang Zhen was filled with indescribable excitement.

Now I looked at the brothers and said unbelievably, "Really? Did the big guy really decide to stay and help this time?"

"Brigadier Wang, don't worry, as long as our brothers say something, they will spit a nail and will never take it back." Chen Qiaozhi squinted.

Brigadier Wang Zhen was happy when he heard it.

"Brigadier Wang, would you please tell us carefully about the situation of the dead kiln mine?" Chen Qiao said while staring at Wang Zhen in front of him and asked.

After hearing what Chen Qiaozhi said, Brigadier Wang Zhen began to explain to the brothers: "The dead kiln mine below is a few years ago..."

Brigadier Wang Zhen explained this to the brothers about the dead kiln mine, and also told the details of the sudden disappearance of the dozens of young children nearby.

After the brothers listened, they saw that they were not only deeply frowning and meditating.

"So, this dead kiln mine is probably related to the disappearance of a dozen or so children under the age of ten?" asked Situ Xuan, the ecstasy apostle.

Brigadier Wang Zhen nodded silently.

"It should be," he said.

The ecstasy apostle Situ Xuan thought for a while and said, "But, how come I feel a little strange, how can a waste kiln that has been in accident for many years suddenly have such a big connection with a dozen missing children?"

"Because the surrounding residents said that at night, you can hear a screaming and terrifying sound from the dead kiln mine... The sound is the same as the scream of a ghost, and it is very ear-piercing. One of the houses is very close to this side. Recently, all the ears of the family of three were shocked and blood flowed out... They were discharged from the hospital a few days ago, so most residents thought there was something strange in this dead kiln mine."

After Wang Zhen said so, all the brothers frowned.

"Can the sound shock the ears?" Situ Xuan muttered, and his eyes began to widen.

Then he turned his head and glanced at the brothers and suddenly said, "If it is really human, we must have met a really powerful master." The ecstasy apostle Situ Xuan said suddenly.

Then Chen Qiaozhi nodded noncommittal.

A person can stun a person's ears with sound, how strong internal force is needed?

Besides, it's still such a long distance...

To be honest, when the brothers thought about it at this moment, an ominous thought suddenly emerged from their hearts.

"If it's a master at the abnormal level, why should he catch those young children under ten years old... and still catch so many?" Xue Wuhen suddenly asked a crucial question.

Following Xue Wuhen's words, Chen Qiaozhi and the ecstatic apostle Situ Xuan shook their heads, saying they didn't know.

"No matter why, let's go in and take a look tonight, it's a ***** figure..." Tang Xiaolong suddenly interrupted at the moment.

After he said so vulgarly, the brothers thought he was really right.

Now they are full of doubts in their heads. It would be better if they went into the dead kiln mine and opened their eyes to take a look tonight. In that case, everything would be clear.

"This dead kiln mine, we have already checked these places... There is no clue, we still haven't entered the deepest tunnels... If you want to enter, just go here." Wang Zhen pointed to the flat map on the table in front of him and said to the brothers.

After taking a look, the brothers said, "Okay, we know."

"It's so decided. At night, we will enter the ***** kiln mine..."

After all the brothers made such a decision, they began to prepare to enter this dark dead kiln mine tonight.

Chapter 1752: Elevator

Time passed by every minute.

I saw it outside the Dead Kiln Mine, where Tang Xiaolong and Chen Qiaozhi were sitting aside.

"Sick ghost, after we went in and waited out this time, let's go there next to find the little boss and my master??" Tang Xiaolong asked blankly.

Then Chen Qiaozhi thought for a while and shook his head suddenly: "Hey, I actually don't know."

"For more than a dozen days, we haven't even found a single clue for more than a dozen days." Chen Qiaozhi exclaimed there.

Then Tang Xiaolong said suddenly: "You said that the little boss and my master... Will they really be taken away by the ***** gate? Or...or...killed?"

"No, it's impossible." Chen Qiaozhi said with red eyes there.

"Li Tian will not die."

"He didn't die after so much pain, and nothing will happen this time." Chen Qiaozhi said there.

Then Tang Xiaolong sullen his head and stopped talking, just staring at a place with his eyes far away, and no one knew what he was thinking at the moment.

The night has finally come.

When the night came, Tang Xiaolong, Chen Qiaozhi, Xue Wuhen, Situ Xuan and others were ready to enter the dead kiln mine.

Among them are the smiling Buddha and Jiang Dashan.

After they prepared the lights and everything that must be prepared in the underground kiln mine, they were ready to enter.

At this moment, I saw Wang Zhen, the brigade commander of the 39th Army, walking over there quickly, looking at the brothers who were about to enter the dead kiln mine, and said, "Wait for me..."

After hearing Brigadier Wang Zhen rushing over so quickly, the brothers were all taken aback, looking at him in surprise.

"Brigadier Wang, what are you...what are you doing? Are you going to come in with us?" Tang Xiaolong in front of him blinked and said curiously. The other brothers around him were also there with their eyes open. Xie looked at Brigadier Wang Zhen in front of him.

But at this moment, Brigadier Wang Zhen had put on a camouflage uniform, and at the same time he was fully armed, and he walked over to the brothers and said, "You are right, this time I want to go in with you."

When I heard that brigade commander Wang Zhen actually said that he wanted to go in personally, the brothers not only showed some admiration for Wang Zhenduo.

After all, everyone knows that this dead kiln mine is a bit dangerous, but this Wang Zhen is not afraid at all, so in a certain way, this person is definitely a person worth admiring.

After Brigadier Wang Zhen said so, the brothers smiled slightly.

"Well, since you want to go in with us, let's go in together."

Then they picked up the flashlights and started walking towards the cave entrance of the Dead Kiln Mine not far in front.

There were rows of soldiers with automatic rifles standing around them, standing cautiously.

I saw them walking towards the cave entrance of the dead kiln mine, while saying: "Take all the things that should be brought... the tunnel inside the dead kiln mine is extremely deep. If you enter, you will miss something. If it does, it will be troublesome."

"Don't worry, basically everything that should be brought has already been brought." Tang Xiaolong said.

"That's good, let's go."

After they said this, they walked step by step towards the mouth of the cave of the Dead Kiln Mine.

The cave entrance of the dead kiln mine was covered with thick weeds and some coal piles. After the brothers walked over, Tang Xiaolong was the first to walk in front with a flashlight in his hand and said, "Go, Go in."

"En." After the brothers behind him responded, they started to enter one by one.

But even though the mouth of this dead cave mine is not very big, once you enter it, the space is scary. Because it was mining a few years ago, there was a strange smell coming out of it.

The surrounding stone walls are all black, and some of the stone walls still see water droplets falling drop by drop from above.

The brothers were shining around with flashlights while carefully observing the dead kiln mine in front of them.

But the place in front is a manual elevator, and at the place of the elevator is a very deep mine, presumably the miners used to go up and down from this elevator.

Looking at the already mottled and rusty elevator, the brothers frowned one by one.

Brigadier Wang Zhen pointed to the elevator road and said, "If you want to truly enter this dead kiln mine, you must go down from this elevator... Only by going down here can you enter those endless tunnels."

After hearing Brigadier Wang Zhen say this, the brothers in front of him walked over one by one.

I saw that Tang Xiaolong glanced at the rust-covered elevator, frowned and asked Brigadier Wang Zhen, "Brigadier Wang, can this thing still sit on people? That place is broken...what can I do?"

Then Chen Qiaozhi frowned slightly at this moment and said: "Yes, I also think this thing is a bit unsafe. You see, this lift seems to have not been used for a long, long time."

After they finished speaking, Brigadier Wang Zhen was also embarrassed: "There is no way. At this moment, there is only this elevator leading to the underground tunnel of the dead kiln mine. If we want to go in, we must take this elevator. "

After hearing Brigadier Wang Zhen say this all at once, everyone was silent.

I saw that smiling Buddha took a flashlight and walked to the hole beside the elevator to take a photo.

The bottom of the dark cave can't be seen at all, and no one knows how deep this elevator will go.

"It's so deep." Laughing Buddha said in surprise.

The brothers in front of him also took a look, their faces slightly changed color.

"What are you stupefied? Come on, don't we dare to go in yet?" Tang Xiaolong said suddenly there.

After he said this, he was the first to see this guy jump on the simple elevator. After jumping up, the steel wire hanging on the elevator made a creaking sound... the whole elevator was even more unstoppable. The living is dangling, as if this thing might fall off at any time.

But seeing Tang Xiaolong who was the first to jump up, his expression couldn't help changing when he saw the elevator swaying back and forth.

After Tang Xiaolong got on the elevator first, Brigadier Wang Zhen in front of him then followed him up, followed by Xue Wuhen, Chen Qiaozhi, Laughing Buddha and so on.

After everyone got on the elevator, the steel wire that was hanging the elevator creaked, as if it was about to break at any time.

The brothers all blinked and looked at it. They finally calmed down after the elevator was stable.

"Everyone is helped, I'm going to press the switch." Just listen to the commander Wang Zhen looking at all the brothers and say.

I saw that his hand had touched the button on the elevator.

At this moment, as long as he presses his hand, the elevator will presumably fall quickly towards the deep and deep place below.

After hearing the words of Brigadier Wang Zhen, all the brothers nodded there.

After that Wang Zhen paused for a second, and then pressed his finger on the switch of the elevator, and there was a buzzing sound. After the switch was activated, there was only a sound from the electric motor, and then the lifting as they stayed. The ladder shook violently at first, and then began to descend with a "rise".

The brothers were all shocked. They firmly grasped the iron railings around the elevator with both hands, and then each of them was there with pale faces. You look at me, I look at you...

Chapter 1753: Split into two teams

The lift banged and began to move downward.

The moving speed was so fast that people felt a strange worry in their hearts.

At this moment, the brothers sitting inside the elevator held tightly one by one the surrounding iron railings, and then all looked around cautiously.

This passage is very deep, very deep, the elevator in front of me only descends vigorously with the sound of the iron chain, surrounded by hard rock walls.

Preliminary estimate is that they have dropped a distance of at least 20 meters.

Just as they were shocked, the elevator suddenly made a loud bang, and then the elevator that had been descending extremely rapidly stopped at this moment.

After a complete pause, the brothers were all taken aback.

"What the hell?" Tang Xiaolong muttered in that mouth.

Then I saw the brigade commander Wang Zhen and the brothers around him hurriedly holding flashlights and started shining around...

With the flashlight illuminating the dark place below, they saw a huge space appearing in their eyes, surrounded by abandoned hand-push mine carts, and the miner's lamps that had long been abandoned.

It really is in the end.

It's just that the position of the elevator is still about 2 meters away from the ground, floating in the air.

After the brothers finally saw to the end, they could finally breathe a long sigh of relief in their hearts.

"Here, go, let's go down."

After Brigadier Wang Zhen said this, he was the first to see him jump out of the elevator in front of him.

After jumping down, Tang Xiaolong, Chen Qiaozhi, and the Evil Spirit Situ Xuan and others all jumped off from above at this time.

After everyone jumped down, they began to look around the space with bright flashlights in their hands.

The surrounding space is very large, barren, and dark. Although there are some miner's lamps around, all those miner's lamps are scrapped because of the long time...

And the most depressing thing is that all around this space are dark tunnels, and at a glance, there are no 78 mines.

After taking a glance at this dark mine, the brothers were all wondering.

"There are so many **** tunnel entrances, which one should we enter?" Just listened to Tang Xiaolong who was shining with a flashlight in front of him, while cursing in his mouth.

The brothers on the other side also took the flashlights in their hands to shine toward the many tunnel entrances around.

But seeing that the dark tunnel entrances were filled with a strange breath feeling, the light of the flashlight shining in it was impossible to see the environment inside.

"Yeah, there are so many tunnel entrances, which one should we enter?" Jiang Dashan on one side couldn't help asking curiously.

At this moment, everyone's eyes were on the body of Brigadier Wang Zhen.

Because so far, Brigadier Wang Zhen is a little familiar with this dead kiln mine... After all, Brigadier Wang Zhen has checked the underground distribution map of this dead kiln mine.

I saw Brigadier Wang Zhen looking at the dark tunnel entrances around him and said: "I only know that these three tunnel entrances have been surveyed... and these have not had time to check..."

Brigadier Wang Zhen said while pointing at the dark tunnel entrances in front of him.

After he finished speaking, the brothers were silent there, and no one knew which hole to go to at the moment.

After everyone was silent for a while, they listened to Chen Qiaozhi who was in front of him suddenly saying: "Since there are still so many tunnel entrances, how about that? Let's split them into two paths, and then check them one by one... if there is anything. , Just yell, in that case, we can search these tunnels quickly and efficiently, and then we can communicate with each other. What do you think?"

After Chen Qiaozhi said so, the brothers were taken aback.

"Well, Qiaozhi is right, but I think for the sake of safety, it is best not to be too scattered. After all, none of us know what is in this tunnel, so I think if we want to search separately, we will only Divide into two teams, in this way, we can guarantee the safety of our brothers." Said Situ Xuan, the ecstatic apostle on one side.

As he said so, the brothers nodded in agreement.

"You have a team, let's have a team." Just listen to Tang Xiaolong's underestimation.

At this moment, I saw that the two teams were divided into Situ Xuan, Laughing Buddha, and Jiang Dashan, while the first team was Xue Wuhen, Tang Xiaolong, Chen Qiaozhi, and Brigadier Wang Zhen.

After dividing the teams in such a simple way, I just listened to Brigadier Wang Zhen said: "Okay, then we will divide into two teams and enter different tunnels. If anyone finds something weird, we will call out. Support as soon as possible."

After he finished speaking, everyone nodded in agreement.

So just like that, they divided into two teams and started entering the dark tunnel.

The smiling Buddha here, Jiang Dashan, and Situ Xuan, who chose to enter the middle of the tunnel, and Tang Xiaolong, Xue Wuhen, Chen Qiaozhi and Wang Zhen chose the next tunnel. .

After everyone was ready, they began to walk step by step toward the depths of the tunnel.

I saw Tang Xiaolong and the others, everyone holding a flashlight in his hand, step by step towards the tunnel.

This tunnel is not very big, it is only over two meters high, and the black stone wall above seeps from time to time...

There were also potholes on the icy ground. Walking on them made noises.

They looked into the tunnel as they walked while illuminating the front with flashlights.

There was a foul smell inside the tunnel, which came out layer by layer, like rotting corpses piled up inside, unpleasant and disgusting.

As he walked forward, Tang Xiaolong muttered, "How deep is this tunnel?"

"Very deep, very deep." Brigadier Wang Zhen said.

"I heard from the villagers nearby that the previous miners here have dug to a depth of tens of meters..."

"So deep." The brothers all said with emotion there.

"Yes." Brigadier Wang Zhen said.

Tang Xiaolong in front of him then asked again: "By the way, it is said that there has been an accident in this kiln? What happened?"

After Tang Xiaolong asked, Brigadier Wang Zhen walked forward and said, "Actually, I am not very clear... I only know that a gas explosion occurred in this kiln a few years ago. ...The accident caused many deaths."

"How many people died?" Xue Wuhen asked suddenly curiously.

After Xue Wuhen asked this, then Brigadier Wang Zhen said: "According to the official statistics at the time, a total of more than 100 people died... As for how many people died, no one knows... the only thing that knows is None of the miners working underground at the time came out alive."

Chapter 1754: Poor miner

After Wang Zhen said this, the brothers couldn't help but sighed slightly.

"Ah? So those poor miners were all killed?" Tang Xiaolong asked in surprise.

Wang Zhen said, "No, it was not killed."

"The gas explosion at that time was only a small part. As for the real accident was the collapse of the underground tunnel, which caused the exit to be completely sealed...So to be precise, the poor miners were buried here alive, trapped alive. Die inside."

When Tang Xiaolong heard this, he immediately said: "Fuck, then why don't you save it? Then why don't people dig up here and rescue the poor miners? Maybe there is still alive!!!"

I just listened to Brigadier Wang Zhen sighed: "Because the kiln is too deep underneath, and there is still a lot of gas inside... so no one dared to rescue them at that time. They were all afraid that the underground tunnel would happen again. If there is a gas explosion, more people will die...so..."

After Brigadier Wang Zhen said this, Tang Xiaolong said angrily: "It's really **** not human..."

"With so many lives, isn't anyone in the early stage?" he said angrily while scolding.

The brothers did not speak either, and the only thing that everyone feels pity now is these poor miners.

Those poor miners once didn't know how they died, maybe they were trapped inside, maybe they were blown to death...

But the death of those poor miners will probably be a mystery forever.

The brothers started to move forward while talking about the death of the miners a few years ago.

But after seeing them walk for about ten minutes, I saw two or so forks in the tunnel ahead. The two forks were very small, one to the left and the other to the right. There were shovels and chisels left on the ground around them. The axe used for the stone and so on...the iron tools have been completely rusted and left in the pile of rocks.

It seems that these things are left over by the miners who worked in the kiln.

Looking at the two forks on the left and right, the brothers stood there.

Tang Xiaolong took a flashlight and looked at the two forks to take pictures of each other... But the dark cave could not be photographed at all, and no one knew where the two forks led to.

"What to do? Where should we go now?" Tang Xiaolong whispered while shining his flashlight everywhere.

Brigadier Wang Zhen also stayed here depressed at the moment.

When they were in a dilemma, something like a shadow suddenly flashed in the fork on the left.

Chen Qiaozhi was the nearest to the entrance of the cave. At this moment, he subconsciously felt that something was moving in the cave. He exclaimed, "Who?"

As he roared out, the brothers all turned their heads together.

At the same time, the four flashlights were all shining towards the direction just now.

But there is nothing in the dark cave.

"Sick ghost, what's the matter?" Tang Xiaolong asked while holding a flashlight while shining at the front fork.

Because Tang Xiaolong, Xue Wuhen, and Brigadier Wang Zhen were standing here just now, they didn't see the divergence at all, so the three of them were looking at Chen Qiaozhi in doubt and shock at the moment.

But seeing Chen Qiaozhi's face pale, he looked at the fork here and said: "I, I really want to see something flashing past..."

"People?" Tang Xiaolong asked strangely.

Chen Qiaozhi shook his head and said, "I didn't see clearly..."

"How could it be a human!! Isn't this dead kiln mine already no longer alive...?" Xue Wuhen suddenly muttered over there.

As he said, the brothers were silent, and no one spoke.

The brigade commander Wang Zhen had already pulled out the spear in his hand and held it tightly in his hand with a cautious expression on his face.

"What to do? Should we go there now?" Tang Xiaolong on one side asked again.

"Since Qiaozhi said there is movement here... then let's walk towards this fork first. I would like to see if there is really something weird here." Wang Zhen said.

After hearing the words of Brigadier Wang Zhen, the brothers nodded all on one side.

So they chose this dark tunnel.

The space in the cave at this fork has become narrower and narrower. Because they are too deep underground, water has faintly leaked out from the surrounding stone walls. The brothers walked, holding flashlights to the front, no one Dare not care.

"Sick ghost, did you really see something flashing by just now?" Tang Xiaolong, who was following, suddenly asked the question again at this knot.

Chen Qiaozhi's slightly ugly face was silent for a while and said: "I also just feel... that thing is fast, it just passed by in a flash, and now if I let me say it, I can't say it."

Hearing what Chen Qiaozhi said, the commander Wang Zhen in front of him said: "Anyway, the big guy be careful...I feel that something is wrong with this dead kiln mine."

When Chen Qiaozhi, Tang Xiaolong, Xue Wuhen, and Brigadier Wang Zhen were walking here, the ecstatic apostle Situ Xuan, the smiling Buddha, and Jiang Dashan also entered another extremely deep tunnel. inside.

With the flashlight shining in the darkness, you can gradually see the figures of three people walking step by step in a long narrow dark passage.

The ecstasy apostle Situ Xuan walked in front alone, followed by the smiling Buddha and Jiang Dashan. The three of them didn't speak much from beginning to end but just kept moving forward.

Just as the three of them were walking towards the front, suddenly the smiling Buddha seemed to step on something hard.

Then he took a photo with a flashlight, and under this photo, he was shocked.

I saw a dry body at his feet.

what!

The scared smiling Buddha not only cried out.

The ecstatic apostle Situ Xuan in front heard his voice and turned his head quickly: "What's the matter?"

Jiang Dashan on the other side quickly turned his head to look at the smiling Buddha in front of him.

But seeing the smiling Buddha shone the flashlight in his hand on the corpse on the ground and said, "Look at it..."

Then the enchanting apostle Situ Xuan and Jiang Dashan took the flashlight together and looked to the ground.

I followed my eyes to see, but I saw a miner in work clothes died here... His body has long been decayed, his whole head has long been deformed, and what is left is just the dusty helmet and the hollow bones. Shelf...

When I saw the long-dead miner in front of me, Situ Xuan was not only shocked by the ecstatic apostle.

"It seems that this is the miner's corpse killed a few years ago..." he said slightly.

Chapter 1755: Crying child

Listening to what he said, Jiang Dashan and the smiling Buddha also nodded in favor.

"Poor miner..." Jiang Dashan murmured aside.

Just as Jiang Dashan said so, the ecstasy apostle Situ Xuan seemed to have discovered something. Not only was he frowning and suddenly bent down, but the flashlight he held in his hand began to carefully look towards the one who had been dead for a long time. The miner's body was photographed.

The Jiang Dashan and the smiling Buddha in front of them were not only startled, but no one knew what the ecstatic apostle Situ Xuan was doing, they just looked at him in surprise.

Situ Xuan, the ecstasy apostle who was bent over to examine the corpse carefully, looked solemn, watching the corpse little by little... and his complexion gradually began to change.

"You, you, what are you doing?" The curious Jiang Dashan couldn't help but looked at the ecstatic apostle Situ Xuan and asked.

The ecstatic apostle Situ Xuan suddenly said, "This corpse is a little weird."

"Weird?" After he said such a sentence, Jiang Dashan and the smiling Buddha were all stunned.

"What do you mean?" the two asked almost in unison.

After they asked, the ecstasy Situ Xuan pointed to the dry corpse on the ground and said, "You look at the corpse's arms... and thighs..."

After he said this, Jiang Dashan and the smiling Buddha not only looked down, but saw the miner's corpse in front of him, the entire left arm and two legs, completely torn off...it seemed like The miner's death was not caused by a bombing, nor was it buried alive, but by something like a beast torn off his legs and arms...

When seeing such a scene of horror, Jiang Dashan and the smiling Buddha almost changed their faces at the same time.

"Why are the hands and feet of this miner torn off?" The smiling Buddha in front of him asked in surprise.

The ecstasy apostle Situ Xuan slowly straightened his body at this moment and said: "Yes, this also faces the strangeness of this corpse."

"Think about it, the dead kiln mine that had an accident a few years ago was said to have been buried by a gas explosion... but the miner's body in front of me was clearly torn off his arms and legs..."

Then Jiang Dashan froze for a moment and said, "Does that mean that this miner was not killed by the bombing, nor was he buried alive, but by...something tore off his arms and legs? Just died?"

"Exactly." The ecstasy apostle Situ Xuan said directly.

"Damn it, how could this be?" Jiang Dashan muttered.

"And what could do such a thing?" The smiling Buddha on the other side also changed his expression slightly.

The ecstasy Situ Xuan did not speak, but started to shine around with the flashlight.

Then Jiang Dashan and the smiling Buddha didn't know what Situ Xuan was doing. He followed behind him and walked in surprise.

I saw Situ Xuan with a flashlight and after taking pictures with a flashlight, he suddenly muttered, "How come there is only this corpse?"

As he spoke these words, his face changed more and more.

The smiling Buddha and Jiang Dashan were following him closely.

"Weird, so weird, how could there be only this miner's corpse here?" Situ Xuan said suddenly.

Listening to what he said, Jiang Dashan and the smiling Buddha indicated that he did not understand what he meant.

"What's wrong?" Jiang Dashan asked.

"If this is the place where the miners happened back then, how could there be only the body of this miner? What about the corpses of the other miners? It is said that there were not more than 100 miners trapped in this dead kiln that year. "Situ Xuan, the enchanting envoy.

After he said this, the Jiang Dashan and the smiling Buddha all woke up, took the flashlight and started taking pictures around.

After they took the picture, they were shocked when they found that there was really nothing suspicious in the surroundings except the dry corpse.

"Yeah, it's weird... How can there be only this miner here? What about the others? Don't those miners die..."

Jiang Dashan had said these words inadvertently, but it was this sentence that made the smiling Buddha and the ecstatic apostle Situ Xuan in front of them stunned.

Since the accident in the dead kiln mine that year, the more than 100 miners had no news.

For more than five years, everyone thought that the miners were dead...because it is absolutely impossible for a normal person to spend five years in this dark underground tunnel without food or drink...

After thinking like this in their minds, they all froze there.

Just as they were thinking in their minds, suddenly deep in the deep tunnel ahead, there was a cry of "Wow"...

Everyone can hear that voice is the cry of a child, and it can be judged from the voice that it is definitely not more than ten years old.

The weird cry came from the dark and deep tunnel ahead.

It is said that seventeen children less than ten years old have been lost after living near the dead kiln mine for half a month. At this moment, they suddenly heard the cry of children in such a dark tunnel...

When they heard the cry in horror, all three of them were stunned.

"Child crying?"

"Have you heard?" Jiang Dashan said excitedly there suddenly.

"I heard it, just ahead."

"Could it be the missing children?"

"should be."

"Go, go in and take a look." As the smiling Buddha said, under the leadership of Situ Xuan, the trio of flashlights rushed toward him.

In the endless dark tunnel, the three of them ran forward like crazy.

They want to save, save the child who was crying just now!

No matter what evil things are in this dead kiln mine, and no matter what monsters have taken away so many innocent children, the three of them now must be rescued...

When the three of them ran madly towards the dark tunnel, a black shadow suddenly appeared in the tunnel in front of them, motionlessly blocking the entrance of the passage.

When they were shocked to see a black thing like a figure appearing in the tunnel in front of them, the three of them suddenly, like being struck by lightning, a gloomy feeling rushed up the sole of their feet.

The first feeling is: is it a human or a ghost?

After all, such a dark figure suddenly appeared in this kind of dead kiln mine that caused the sensation, no one would be afraid.

After calming the beating heart a little bit, the ecstatic apostle Situ Xuan in front of him slowly raised the flashlight in his hand, and shot towards the figure in the darkness.

As the light passed, my God, what did they see...

Chapter 1756: monster

I saw a "man" wearing a miner's helmet and dirty clothes standing there motionless, and with his back facing them, his man was bent, like a hunchback, with his legs exposed outside... The clothes have been completely broken, and the exposed skin has become a black...

He, he, turned out to be a miner?

The miner who had an accident five years ago?

When I was shocked to see this miner with dirty clothes, a sense of horror that I had never experienced before suddenly rushed into the hearts of the three of them, and even the ecstasy apostle Situ Xuan was completely shocked there, widening. A pair of unbelievable eyes looked at the figure in front.

Alive? Still dead?

Is it a human or a ghost?

This is the thought of the three people together.

"This, this...this...is the miner from five years ago?" A sentence came out of Jiang Dashan's mouth with shock and fear.

But seeing that following his words, the miner who walked with the corpse in front didn't even move.

As for the ecstatic apostle Situ Xuan, it was difficult to calm down for a long time.

In the end, he summoned the courage to shout out.

"Hey, are you a human... or... something else?" He only heard a word from Situ Xuan's mouth.

After he shouted, the miner who was standing in front of him like a walking corpse suddenly twisted his body and moved.

At the same time, there was a hoarse growl from his mouth. The sound was like a beast, not a human voice at all.

After hearing the low roar, Situ Xuan faintly felt that a bad feeling came from his heart, and the Jiang Dashan and the smiling Buddha beside him were completely taken aback, his eyes widened and cautious. Staring at the back of that thing unblinkingly...

"Speak! If you don't speak anymore...Don't blame us for being impolite." Situ Xuan said in anger.

After he exited again, the "miner" who turned his back to them suddenly heard a harsh and sharp laughter. The laughter was extremely ugly, it was a hundred times worse than a ghost call...

When the terrible piercing sound came, the "miner" in front suddenly turned his head.

Gosh!

A perverted monster appeared in the eyes of the three of them.

I saw that the whole face of the "miner" who turned his head has been completely deformed...The hair has completely fallen off, and more pustule-like deformed meat bags have grown on his head. His face has been distorted and his eyes are deep. He was stuck in his eye hole with a terrifying gaze, and the lips above his mouth were also completely peeled off, revealing a row of terrible yellow teeth covered with mucus... The teeth were sharp like beasts.

Moreover, his deformed hand was still tightly holding a blood-stained axe, snarling the tooth monster and smiling at the three in front of him.

When Situ Xuan, the smiling Buddha, and Jiang Dashan in front of him saw such a "monster", they were stunned for a moment.

Oh my God, what the **** is this! ! !

Say he is a person? He doesn't look like a person at all, because how can a person become such a monster, say he is not a person, but his body structure is exactly the same as a person, especially he is still wearing miner's costume...

"This this....."

"I think...I think...Let's get out of here." A word suddenly came out of the smiling Buddha's mouth. As he said, he couldn't help but step back.

Situ Xuan, the ecstatic apostle in front of him, had never seen such a weird "thing" and not only started to retreat at this moment...

Not to mention Jiang Dashan.

When the three of them began to retreat step by step, the monster in front holding the blood-red axe in his hand, began to hoarsely shout step by step forward...

"Run!" A loud scream suddenly came out of Situ Xuan's mouth.

Then the Jiang Dashan in front of him and the smiling Buddha began to run madly behind like crazy.

As the three of them started to run away, the monster behind them suddenly gave a sharp and weird laugh, and the whole deformed body suddenly started chasing wildly. While chasing, it could not stop yelling...

The sound is terrible.

But the voice seemed to be calling his companions, because as his weird voice sounded, a lot of shrill noises suddenly came from the tunnel behind... Then he heard crazy footsteps chasing them.

Then Jiang Dashan also had the smiling Buddha and Situ Xuan, who ran away lifelessly.

While running, the smiling Buddha asked in surprise, "This...what the **** is this?"

The Jiang Dashan in the front said without turning back: "I...how the **** do I know..."

"These monsters... why keep chasing us?"

"Isn't he trying to kill us?"

"Don't **** ask, leave here first."

The three of them began to run forward without their lives... The strange screams behind the dark tunnel grew more and more, and the distance was getting closer and closer to them.

But it is said that when Situ Xuan, Jiang Dashan and the smiling Buddha encountered such a horrible abnormal "monster" here, the brothers such as Tang Xiaolong and Chen Qiaozhi did not know that they were still facing that one. The dark tunnel moves forward step by step.

Suddenly, Brigadier Wang Zhen, who was walking at the back, seemed to hear something, and his body suddenly stopped there.

"Wait..." Just like that, a sentence came out of his mouth.

At the moment his words were just uttered, Tang Xiaolong, Chen Qiaozhi and other brothers all turned their heads together and looked at him in surprise.

"What's the matter?" Chen Qiaozhi only asked Brigadier Wang Zhen, who was looking at him in confusion.

But I saw Brigadier Wang Zhen raised his head and said, "I seem to hear the shouting..."

"Have you heard?"

After Wang Zhen said such a sentence, Tang Xiaolong, Chen Qiaozhi and others were not only stunned.

"The sound of shouting? Whose?" It was obvious that Tang Xiaolong and Chen Qiaozhi did not hear them.

"I heard that voice seemed to be from the smiling Buddha and the others." Wang Zhen said as he turned his head and looked at the dark tunnel behind.

At this time, Chen Qiaozhi, Tang Xiaolong and Xue Wuhen in front of him did not speak any more, but began to listen carefully...

But there was no sound at all in the dark tunnel.

After listening for a while, I only heard Tang Xiaolong say: "There is no sound..."

Wang Zhen also continued to listen carefully at this moment, but in the dark tunnel, there was indeed no sound anymore. At this moment, Brigadier Wang Zhen was stunned.

Chapter 1757: Human bones

"How could this happen? Did I hear it wrong just now?" He muttered to himself while thinking.

Tang Xiaolong on one side said to Brigadier Wang Zhen, "Brigadier Wang, you may have heard it wrong."

Wang Zhen looked a little embarrassed, paused there and said, "Oh, maybe..."

"Go, let's move on."

As they said so, they started to walk towards the tunnel ahead.

The tunnel went deeper and deeper, and the foul smell coming in was getting heavier.

Tang Xiaolong in front of him couldn't bear the unpleasant smell. At this moment, he pinched his nose tightly and cursed in his mouth: "What the **** is this **** place? Why is it so smelly..."

"This smell is like the smell of a rotting corpse...Could it be that there is a corpse here?"

Chen Qiaozhi said there.

Hearing what Chen Qiaozhi said, the brothers were all stunned.

Then everyone did not speak any more, and started to walk forward. After walking for about five minutes, the space in front of them suddenly became bigger, and they seemed to have reached the end of the tunnel.

"It seems to be the end!"

"En! There is a huge cave here..."

I saw that with the flashlight in my hand shining toward the front, the place in front was a huge space with a size of about 100 square meters, and bursts of rotting corpses exuded the stench...

"Damn it, it turns out this stench came from here." Tang Xiaolong pinched his nose, while holding the flashlight in his hand, shining around in this huge space.

Xue Wuhen and Chen Qiaozhi next to him were also holding their noses tightly, and then shining around with a flashlight.

Suddenly, when their flashlights were shining towards this space, they suddenly discovered that there were dirty and smelly bedding and pots and bowls full of rusty iron in this cave...

Upon seeing this situation, Chen Qiaozhi said excitedly: "Everyone, come and see..."

After his voice shouted out, all the brothers gathered around.

"What's the matter?" I saw Xue Wuhen asking there.

"Look, here, there is something to eat... and there are also bedding supplies." Chen Qiaozhi said in horror.

Following them, they saw that there was a black object in the rust-covered bowl... The thing was extremely stinky, like a piece of meat. I took it with a flashlight, but I saw that the black meat was growing inside. Maggots full of disgusting death...

A nausea suddenly made the brothers almost vomit out.

"Fuck me, I'm disgusting." Tang Xiaolong in front of him covered his mouth and almost spat out.

The disgusting scene in the rusty iron wrist in front of me really made people feel extremely nauseous, almost vomiting.

As they took the photos with their flashlights, they saw that there was not only an iron fist, but also many...

Looking at this scene, the brothers said in shock: "My dear, is there still someone living in this dead kiln mine?"

"Yes, since there are food and bedding here... there must be people living here." Xue Wuhen said on the side.

"But didn't this dead kiln mine have an accident five years ago? Didn't all the miners who were trapped in this dead kiln mine die? How could there be people?" Tang Xiaolong said in shock. .

The brothers were taken aback, only to hear Chen Qiaozhi suddenly say, "Could it be...could it be that...the miners are still alive?"

With what Chen Qiaozhi said, a huge question suddenly came to everyone's mind.

Then everyone opened their eyes and looked at everything in this space in disbelief.

That Tang Xiaolong was shining around with a flashlight, but saw that the space was indeed full of dirty garbage, and he suddenly saw a pile of bones on the side.

"Fuck me, what is this?" When Tang Xiaolong saw the pile of bones, he couldn't help but took a flashlight and took a picture of it.

Here Chen Qiaozhi, Brigadier Wang Zhen, and Xue Wuhen turned their heads quickly and looked at him in surprise.

Following their eyes, they saw piles of bones piled up in this corner.

When they saw these bones, the brothers were just astonished at first, but when they took a closer look at the bones, they were all shocked there.

Because they saw that those bones were human bones...and they were human arms, thighs, and body bones...

"Oh my God, this is a human bone!!!" Xue Wuhen said with a pair of unbelievable eyes.

As he said, Brigadier Wang Zhen and Chen Qiaozhi by his side also saw so many human bones with their own eyes.

The skin and flesh on the bones of those people had already been peeled off...there were only bald bones left.

Seeing these piles of human bones, the brothers were all stunned.

"How can this be? Why are these human bones here?" Chen Qiaozhi said shockedly.

"Sick ghost, look at this pot, there is still a human leg bone." Tang Xiaolong took a flashlight, and was shocked to find that there was a fishy human leg bone in a tattered iron pot on the left.

The meat on the leg bones has been reduced by half, and the remaining half is also full of flies lying on it...disgusting and unpleasant.

When all the brothers saw this scene, they were completely confused one by one.

"Human leg bones?"

"In the pot... and it seems to be cooked..."

"My God... cannibalism?"

A terrible idea suddenly emerged from the hearts of the brothers.

No wonder, no wonder there are so many human bones piled up here... It turns out that they were all eaten! ! !

When I thought of this in amazement in my heart, an unprecedented fear suddenly appeared from the hearts of my brothers! !

"Oh my God, what the **** is this place? So... unexpectedly... there is something to eat people?" A shocked word suddenly came out of Tang Xiaolong's mouth.

After he said it, Brigadier Wang Zhen in front of him swallowed deeply, his face was pale and looked around, while Xue Wuhen and Chen Qiaozhi beside him were also looking at everything around him, completely dumbfounded. There.

"But who are these people who were eaten?"

"How could it be eaten in the dead kiln mine that has been in an accident for so many years?" said Chen Qiaozhi over there.

Brigadier Wang Zhen said: "This dead kiln mine has been in a locked state before, and it is basically impossible for outsiders to come in... Besides, everyone in the surrounding villagers knows that this dead kiln mine has had a huge accident, let alone Maybe someone will come here..."

"Brigadier Wang, then according to your meaning, the people who were eaten here should be the people who stayed in this dead kiln mine before?"

"Could it be the miners who had an accident five years ago?"

A shocking sentence came out of Chen Qiaozhi's mouth.

Is the miner who was eaten five years ago? But what kind of food did he eat?

Chapter 1758: The monster is a miner?

Cannibalism?

The shocking scene rose from the hearts of the brothers, and an unimaginable sense of horror was born in everyone's heart.

"Is there something to eat here?" Only a shocking word came out of Tang Xiaolong's mouth.

After he said it, everyone was silent all at once.

They all took torches and started to shine around...

Just as they were shining around in this cave with flashlights, a sudden low and hoarse cry came out from the corner.

The sound was terrible, like a roar from the throat.

After all the brothers heard the sound, they were stunned together, and then one by one cautiously took the flashlight to the dark corner where the roaring sound came out...

After the light from their flashlights, they all screamed "Ah" in horror.

I saw God, a monster curled up in the corner staring at them with **** and ferocious eyes stared at them unblinkingly.

His face is completely distorted, his nose is covered with sores, that face is even more rugged and deformed, and his teeth are yellow and sharp...Wearing a miner's clothes, but the clothes have completely rotted. Only the miner's helmet he was wearing was still on his head.

There was a roar in the throat, and at the same time the **** eyes were staring at the brothers in front of him.

Brothers like Tang Xiaolong and Chen Qiaozhi were all stunned when they saw such a "monster" suddenly appear.

They can hardly believe that there is such a perverted thing in this deep tunnel...

"Oh my God, what the **** is this!!!" Hearing that Xue Wuhen's face turned pale and said.

Brigadier Wang Zhen held the pistol tightly in his hand, and stared at the things in front of him in horror.

I saw the monster in front barring sharp teeth, looking at the unstoppable roar of the brothers in front of him. His cry came from his throat... as if he could not speak, he shouted while walking towards the brothers. Come.

When Chen Qiaozhi saw this monster coming towards them, he not only said, "No matter what it is...I think he seems to be full of hostility towards us."

"Then what to do...?" Xue Wuhen next to him said cautiously.

"I can't think of any other way besides leaving here." Chen Qiaozhi said there.

After he said this, the brothers in front of him nodded in agreement.

So while they held the flashlight in their hands to illuminate the monster in front, they began to step back step by step...

Just when they were about to retreat, the monster in front suddenly screamed... and then the whole body rushed towards Tang Xiaolong in front like a beast.

His hideous face seemed to be cannibalistic, barring his teeth and suddenly rushed towards Tang Xiaolong.

Tang Xiaolong is courageous enough, but when he encountered such a crazy monster, he was almost stunned...

Seeing that the monster rushed toward him lifelessly, Brigadier Wang Zhen suddenly raised his gun. Then his fingers decisively pressed the trigger on the pistol.

With a bang.

The howling bullet came out of the barrel, and with a swish, it hit the monster...

The monster was hit by a bullet and let out a scream, then the whole person fell to the ground all of a sudden, the blood flowing from his body was filled with disgusting yellow mucus.

After Wang Zhen shot decisively, the monster on this side was knocked down to the ground. Although he fell to the ground, his eyes still exudes endless human-depleting light, roaring...

Two atrophied and deformed hands, clutching the cold ground fiercely, lying there panting...

The brothers stood there in shock after seeing the monster hit by the bullet and fell to the ground.

Tang Xiaolong also woke up slightly, and walked over slowly, but he saw that the place where the monster was hit by the bullet happened to be his heart...Although the monster was extremely fierce, but after a few more fierce hits on the ground Finally, after a roar in his throat, he closed his eyes and died.

Looking at the dead monster, the brothers finally let out a sigh of relief.

"Hey, what the **** is this?" After seeing the monster dead, Xue Wuhen stepped forward and kicked the corpse and said.

The brothers were all frowning and looking there... But after seeing the thick yellow mucus flowing out of the monster's body exuding a pungent stench, it made people feel nauseous and sick.

"Well, why is this monster wearing miner's clothes?" Tang Xiaolong just listened to the monster who was holding his nose and pointing to the ground.

Brothers are also puzzled.

I can't help but lining up in my heart: This dead kiln mine was blocked five years ago, so how come there are monsters here?

Could it be...

While thinking in their minds, suddenly Na Xue Wuhen pointed to the ground and said, "What do you think this is?"

As he said this, the brothers in front of him couldn't help looking down, but saw that a black wallet suddenly fell from the tattered jacket pocket of the monster.

The purse exudes a musty smell... After the brothers saw the purse falling from the monster, they couldn't help but froze, and then Xue Wuhen pinched his nose and started slowly picking up the one on the ground. wallet.

After he picked it up, he slowly stretched out his hand to open it, and the brothers blinked and couldn't help watching.

As Na Xue Wuhen slowly stretched out her hand and opened the wallet, she saw that the moldy wallet was dirty...but there was a yellowish photo in the innermost place, and one was hidden deep inside. ID card...

After seeing this situation, the brothers were stunned for a moment.

I blinked and glanced at the ID card on it. The name of the person written on it was: Wang Yuanshan, male, Han nationality, xxxx.

Then the brothers looked at the photo again. The old yellowed photo was a family portrait of an ordinary family... Among them was a thin-faced man, an ordinary woman, and a child with a shaved head in the middle.

It can be seen from the photos that this was originally a happy family.

"Hey, is this wallet from this monster? This monster is from before...Is it him?" A shocked thought suddenly came out of Tang Xiaolong's mouth.

Yes, the wallet in front of me did fall from the monster's body, and although the monster's entire face has been completely deformed, his silhouette is indeed very similar to the man named Wang Yuanshan in the photo. It's obvious. , This man once was him.

Chapter 1759: Mutated

After Tang Xiaolong said this suddenly, all the brothers were horrified.

"How could this be?"

"How could a living person become like this?"

Chen Qiaozhi over there looked at the corpse of the "monster" carefully, and couldn't help muttering: "Could it be that this man is a miner who survived five years ago?"

what?

"Sick ghost, what are you talking about? You said the miners who were buried alive five years ago weren't dead yet?" Tang Xiaolong heard Chen Qiaozhi's mouth suddenly muttering, and he was shocked right now.

But seeing Chen Qiaozhi sorting out the thoughts in his mind, he suddenly said, "I think it is."

"Think about it carefully. Five years ago, the kiln mine gas exploded. Although all the more than 100 miners were killed, no one really knew whether they were dead or not. The only thing they knew was that they were buried alive in this tunnel... .."

"And now, look at the clothes on this monster, as well as the wallet he just dropped... Obviously, he is the miner who was killed five years ago..."

After Chen Qiaozhi's analysis, the brothers were all shocked there.

"But, sick ghost, how could this good-looking person become such a monster?" Tang Xiaolong couldn't help asking again.

Chen Qiaozhi did not speak, but suddenly raised his eyes to look at the bones of those people on one side...

After taking a look at the bones of those people, he suddenly said: "There is only one possibility, and that is that their bodies are buried in this tunnel all the year round, causing their bodies to completely shrink and mutate..."

Mutations?

After hearing Chen Qiaozhi's words, everyone looked at the monster's body with unbelievable eyes.

Look carefully at the monster's corpse, it is indeed a human shape, but that face has been completely distorted.

On the black hand, in addition to the long and yellow nails, he was shocked to see that there was also a wedding ring on the joint of the index finger.

"Look, this monster still wears a ring on his hand. He really was a human before." Only Xue Wuhen said with his eyes wide open.

The brothers turned their heads and saw all of the ring on the monster's index finger...From this, it can be judged that he is indeed a human, but he later became this monster.

"Oh my God, I didn't expect the sick ghost to say anything right... These monsters were once human! And it's obvious that these people are the miners who happened five years ago..."

As Xue Wuhen said so, everyone was horrified there.

No one thought that in the gas explosion five years ago, there were still living miners... and these living miners have completely turned into monsters...

The brothers who thought so in their hearts were all stunned at the moment.

"Oh my god, what's the matter with so many human skulls?"

"Did these miners eat human flesh? That's why they are alive... But where did the human flesh they eat come from?" Xue Wuhen asked abruptly, as he said in his mouth, he pointed to the pile of places there. Human bones.

But seeing the pile of human bones over there exudes a gloomy feeling, giving people an indescribable fear.

Brothers, everyone knows that this dead kiln mine has been blocked for the past five years, and it is impossible for anyone to come here... and since the accident, the dead kiln mine has been known far and wide, and people nearby will not be so stupid that they ran away Here.....

But what kind of human flesh do those mutant miners eat?

After thinking this way in the minds of the brothers, they were all depressed.

Suddenly, weird and terrifying words came out of Chen Qiaozhi's mouth.

"Unless...unless...they eat the meat of their companions!!!"

Just as Chen Qiaozhi suddenly said such a sentence, Tang Xiaolong and Xue Wuhen over there not only screamed "Ah" together.

"Sick ghost, you mean... the human flesh eaten by these mutant miners is... but the flesh of their companions!!!" Tang Xiaolong said in disbelief.

I saw Chen Qiaozhi's face pale and said, "Not bad!"

"There is nothing in this dead kiln mine... Besides eating the meat of their companions to survive, I can't think of a second way to save my life."

With what Chen Qiaozhi said, everyone only felt a sense of nausea that they had never felt before.

After thinking about the cruel incidents that happened in the dead kiln mine, they all had scalp numb.

While they were thinking about it, they suddenly heard a scream of "Ah" from behind.

When the brothers heard it, they were shocked.

"The voice is the voice of Laughing Buddha and the others." Hearing a word suddenly came out of Tang Xiaolong's mouth.

The brothers in front of them suddenly changed their faces and said, "Could it be that the Laughing Buddha and the Ecstatic Apostle Situ Xuan have also encountered a strange situation?"

"Don't fiddle, let's meet them quickly... see what happened."

Following Chen Qiaozhi's words, Tang Xiaolong and his brothers started to run towards the tunnel when they came.

The more you run forward, the more you can hear the weird sound coming from the front.

The sound was the same as the monster they killed just now, roaring, and the sound was harsh and terrifying... and the number of sounds was absolutely beyond their imagination.

As they ran forward, they thought to themselves: Oh my God, how many monsters are there in this tunnel!

However, at this moment, Situ Xuan, the enchanting apostle, the smiling Buddha and the river Dashan, the three of them ran towards the tunnel frantically.

And what about the back? Closely chasing twenty or thirty mutated monsters.

These people are all wearing dirty miner's clothing, and everyone's face has been completely distorted...Even the teeth have become unusually sharp...

Presumably these miners must have been in this underground kiln for too long that caused the mutation...

At this moment, seeing this group of monsters chasing the smiling Buddha in front of the three of them lifelessly, they screamed while chasing.

Their speed is very large, especially in the darkness, as if such darkness is familiar to them.

And the smiling Buddha who ran desperately in front, Situ Xuan, and Na Jiang Dashan were unlucky.

Because they were just running at the moment, they suddenly went on a bad road.

They never thought they would walk into a dead end.

Look carefully at the tunnel in front, it has been completely blocked by the collapsing boulder... The ecstasy Apostle Situ Xuan and Jiang Dashan who ran over to take a photo with their flashlights were depressed right now.

"Fuck, we went the wrong way..." a curse suddenly came out of Jiang Dashan's mouth.

Chapter 1760: Desperate fight

And what about the smiling Buddha and Situ Xuan? His face completely changed at this moment.

Seeing the monsters behind him getting closer and closer, the ecstatic apostle Situ Xuan suddenly turned around and said to Jiang Dashan and the smiling Buddha beside him: "It seems that we have to kill it."

Jiang Dashan and the smiling Buddha looked at each other, and then nodded together.

I saw Jiang Dashan drew his axe from his arms, and the smiling Buddha also took out a sharp head in his hand at this time, and the three of them stared at the monster rushing in front unblinkingly.

"Even though these monsters, no one knows what they are... But today, the three of us must know these **** perverted things to know that the three of us are not easy to mess with."

As Situ Xuan said this, the more than twenty monsters in front had already rushed over frantically.

Their speed is extremely fast, their walking posture is like a savage, and those eyes in the darkness exude a terrifying light.

When all these monsters rushed over, there was a roar, but when I saw the first evil monster with a hideous face, he bit his teeth at the ecstasy in front of him.

He seemed to eat the brothers in front of him.

Following his terrifying rush, Situ Xuan, the enticement apostle, slightly sideways, the monster suddenly burst into the air!

Before the monster could fully react, the powerful palm power accumulated in the right hand of the ecstasy was ready to go, with a bang, and the roar of applause directly shook the monster's back.

But when I heard a terrible cry came out, I saw that the grinning monster was shocked and flew out, and his body fell directly on the rock wall in the tunnel... With a bang, the whole head was shattered. What came out was thick yellow slime...

And at the moment when Situ Xuan took the action, Jiang Dashan also exploded with the smiling Buddha beside him.

"Damn monster..."

"You all go to die with Lao Tzu."

While Jiang Dashan roared, the axe in his hand was shining a rushing monster, and an axe directly struck the opponent's head.

The monster was chopped with an axe from its head, and its head split directly, screaming...the body fell to the ground and died.

Where is the smiling Buddha? The head in his hand also stabbed fiercely towards the monster's body.

With a chuckle, after stabbing one of the monsters with a stab, the monster's opened sharp teeth bit directly towards the neck of the smiling Buddha...

Laughing Buddha was taken aback, and quickly moved away. After going away, he kicked the monster, and the monster was kicked and flew out, making a scream of the whole person falling to the ground with a plop.

The **** battle continued.

It's just that this time the brothers faced mutants who were truly cruel and beast-like.

But seeing those mutants if it weren't a fatal blow, they wouldn't die at all.

Jiang Dashan here was holding an axe in his hand. When he hacked one of the monsters to death, the other monster slid on his back and opened his sharp teeth, ready to bite. That Jiang Dashan.

Jiang Dashan was surprised a lot, grabbing the monster's body with his right hand, and directly threw it from his back.

"Fuck you..."

"I hacked you to death!" With Jiang Dashan's roar, his axe slashed straight down, and the entire head of the monster was chopped alive...

The yellow mucus sputtered from the cracked head suddenly covered his whole body, and even his face was covered with disgusting mucus...

Seeing so much disgusting mucus all over his face, Jiang Dashan only felt that he was going to die of nausea. While cursing in his mouth, he couldn't help but start rubbing the smelly mucus with his hands.

But just when he was not paying attention, a monster had already stared at him from behind. The monster suddenly jumped out of the darkness and jumped to the back of Jiang Dashan. Its sharp teeth were facing Jiang Dashan. Bitten off the shoulder.

"Dashan, be careful..." Situ Xuan, who was fighting over there, couldn't help screaming when he saw Jiang Dashan here being attacked.

But there were too many monsters on his side, and he didn't have time to help Jiang Dashan at all.

And what about the smiling Buddha? He was also entangled by several monsters around him, and couldn't spare any time to help Jiang Dashan.

So it was like this, but a scream was heard from Jiang Dashan's mouth.

I saw that extremely cruel and abnormal monster, he just bite into Jiang Dashan's shoulder, a piece of **** meat was bitten out by that monster, and it was held in his mouth...

The **** scene appeared in the eyes of the brothers, and they were completely shocked there.

And what about Jiang Dashan? Suddenly the monster bit his shoulder, and when a piece of **** meat was bitten out, he couldn't help but roar.

"Fuck you..."

He grabbed the monster's neck, the whole person seemed mad, and fell to the ground with the monster, then touched a stone on the ground in his hand, and slammed it at the monster's head...

Ah ah ah

The scream of screams came out from the monster's mouth.

It's a pity that his entire head was completely smashed with a stone by the crazy Jiang Dashan...

But seeing Jiang Dashan with red eyes, clutching his blood-spraying shoulders...you can faintly see the dense bones where the shoulder was bitten off...but he still endured the pain, fighting there.

A trace of blood was left along his shoulder.

And the four or five monsters around him screamed when they saw the blood flowing out of him, as if they had seen something to eat.

Jiang Dashan could no longer move one hand, while holding an axe in the other hand, squeezing it around, as if he wanted to kill the monsters around him.

"Damn thing, come on, you **** come... I want to eat Grandpa... Come here if you have the ability?" Jiang Dashan yelled, waving the blood-stained axe in his hand.

I saw two of the monsters suddenly rushed towards him. Jiang Dashan directly hacked one of the monsters to death with his axe, while the other monster attacked him from behind. Jiang Dashan had no chance to react.

Hearing a bang, I saw Jiang Dashan being hit by the iron crowbar in the hands of the monster behind... His eyes went dark and he was fainted on the ground. The blood began to flow along his head. Dirty...

"Mountain!"

Seeing that Jiang Dashan was attacked by those monsters and fell to the ground, Situ Xuan suddenly kicked one of the monsters, and Fei also rushed towards this side.
