

## A Killer 3151

Chapter 3151: Woman stay

After Manzi finished talking about what he thought was the most important thing, Li Tian, Bai Jing, Situ Bingning and others suddenly laughed.

"You foodie!" Bai Jing took out a black leather bag from the cabinet behind him, and poured all the contents of the bag on the table.

"Wow!"

The table was filled with light yellow zombies in an instant, and a few light blue corpse crystals were mixed in it. There are probably hundreds of these lost crystals.

Li Tian coughed softly and interrupted the dumbfounded young girls and said: "I now announce that tomorrow we will go to the free market to exchange what we need. I have a list here. It records the scores of all of you during this week. The best performers this week are Barbarian, Two-Dimensional, Xueji, and Xinyan! Each of you four can make a request, and we will consider your needs limitedly. ."

"I want a heavy knife made of stainless steel!" Manzi immediately said his needs.

"Manzi's knife has exploded, so we can give priority to it!" Li Tian exchanged eyes with Bai Jing and the others and announced.

"I want two stabs!" said Wei Wei.

"The two-dimensional scissors are also rusty. This requirement is not excessive and can be given priority," Li Tian continued.

"I want a sniper rifle!" Xue Ji asked.

"Temporarily dismissed! Xue Ji wants a sniper rifle to wait for you to get the nine corpse crystals and is considering it!" Li Tian directly rejected Xue Ji's request.

"I..., I want a kiss from Brother Tian..." said the little loli girl named Xinyan.

"Cut...you little nympho," the others said immediately with disdain.

Li Tian laughed awkwardly, and said, "I can't hurt the heart of a girl who likes me. I can meet this requirement! Haha..."

"Beasts"

"brute"

"Livestock"

Other women unanimously despise Li Tiandao.

The free market is a mobile market, held every ten days in a place about 20 kilometers away from the town. However, the free market is a mixed bag. Although the organizer will be protected after paying a certain fee from the market, the free market described by Bai Jing is not very safe.

Considering that there were a lot of zombie crystals and corpse crystals this time, after discussion by Li Tian, Situ Bingning, Bai Jing and others, it was decided that Li Tian would take Barbarian,

Bai Jing, Xue Ji, and Wei Wei together, and died of Situ Bingning, Li Dan and others are responsible for guarding the base.

Among them, the most important two dozen corpse crystals and a third-level zombies were carried by Li Tian personally, and the other zombies were guarded by barbarians.

To Li Tian's surprise, in a certain facade room on the first floor of a small hotel, there was still a pickup truck of a different brand parked. This pickup truck looks years old, but it can still run.

Seeing the pickup truck driving out of the garage, Xue Ji showed an expression of excitement on her face, pulling Li Tian and whispering: "This is the magic weapon you said can run, right?"

Li Tian nodded depressed. Fortunately, Bai Jing didn't hear these words, otherwise the lady would definitely have doubts again.

Manzi was in charge of driving, Li Tian was in the passenger seat, and the other three women were in the back.

This is the first time Li Tian has walked out of this small town after returning to Earth.

The pickup briskly crossed the bumpy country road. On both sides of the road, you can see crashed vehicles from time to time, and you can also see zombie dogs, zombies, and even zombies staring in the distance.

When the car drove out for about ten kilometers, Bai Jing reminded: "Barbarian, go around the small town in front."

Li Tian didn't care, but the car stopped just short of driving on the small road around the city.

"Brother Tian, eldest sister, we are in trouble!" The barbarian said angrily.

A modified bus parked on the road ahead. The glass windows of the bus were all welded with anti-theft nets, and a steel plate was welded to the anti-theft nets. Only one foot square was left on each window. At this time, on the side of the car facing Li Tian and others, five or six small mouths were driving black muzzles.

The entire bus looks more like a moving castle. The thick steel plate can provide adequate protection. After the gun is mounted on the modified window frame, it has sufficient self-protection capabilities. The most important thing is that the bus has enough The large space can hold more than 20 people.

Seeing the bus that had been modified in this way, Li Tian's eyes flashed golden light.

Isn't this the equipment you dream of? As long as there is such a bus, it can solve the problem of safely sending the dozen or so children in the small town to Sunset Fortress.

"Sneez!" With a sound, the bus door opened, and a man in his thirties with a short head came out and shouted at the pickup truck of Li Tian and others: "It's a coincidence that Bai Jingbai is in charge. Meet again!"

Bai Jing gritted his teeth angrily, and said in a low voice: "This small town is an important transportation route to the Free Market. If you want to go to the Free Market, you must pass through this small town. In the small town, they have to pay them tolls. Originally, I wanted to take a detour, and I should be able to save this expense, but I didn't expect these guys to be blocked on the branch road here!"

The barbarian continued: "Brother Tian, the man in front of the short-headed man is called Dragon Dragon. I heard that he had practiced. He was sentenced to reprieve for beating someone to death by mistake. After the end of the crisis broke out, this guy ran out in confusion. Immediately afterwards, a gang of desperadoes took over the town."

Bai Jing pushed the car door and walked down. He took out fifty crystals from his skin and handed it to Shun Long, "There are five people in the car. This is a toll. Please also let the head of Shun Long raise your hand and let us pass! "

"Five people? It seems that the team headed by Bai Jing has grown? Now they are generous in their shots!" said Dragon Dragon taking over Sang Jing.

"Where, are some friends who passed by our town, willing to stay in our town for a few days. Who doesn't know that the team headed by dragons in the nearby towns is the largest!" Bai Jing is a big horse Said fart.

"Haha! Good to say, good to say, I don't know the proposal I made to the head of Bai Jing, how did the head of Bai Jing think about it?" Long walked slowly to the front of the car, looked through the glass window, and said .

"Fuck you! Even if I die here, it is impossible for my eldest sister to come over and be your beast plaything!" The barbarian cursed angrily when he heard the dragon once again asked for the annexation of their organization.

"Okay! Good scolding! In these last days, there are fewer and fewer men with this kind of backbone! The fourth and fifth, these three women stay, and the others are killed!" Suddenly, the dragon faced him. Beckoned on the bus and shouted.

Chapter 3152: Is a unicorn a thing in the pool

The man called the fourth child is a man with a black birthmark the size of a dollar coin on his right cheek near his nose, and a long hair on the black birthmark. This man was also in his 30s, holding an ak47 in his arms, and after getting out of the car, he pulled off the safety latch.

The fifth child is a man who looks only in his early twenties, with long hair, and the tips of his long hair are light green. A silver pistol was inserted under the belt of Old Wu's waist, and in his hand was a sharp knife that exuded cold light.

"Brother Long, don't be familiar with children. I never thought about rejecting your proposal. But you also know that there are more than a dozen children on my side, and those of mine don't have decent weapons and equipment at all. It's not realistic for all those children to arrive here safely!" Bai Jing saw the fourth and fifth youngest, and he immediately showed a smile that he believed to be beautiful. He took the hand and half of his body. Leaning gently against the dragon's body, he said coquettishly.

Koulong waved his hand, signalling the old four and five to wait first, and reached out to Lou Baijing, but Bai Jing easily avoided it. The dragon didn't care either. He sniffed the scent on his hands, and grabbed his hips obscenely, showing a lewd smile, and said, "My organization is full of cannibal wolves, and I can't hold so many sheep. Among your people, I can see no more than one hand. The kid who dared to scold me just now is one. I can barely accept other women. As for other people, I want you to be like Bai Jing. The solution is solved! But this is something for you. Today, your little brother, barbaric, is unreasonable to me. This is a great destruction of the friendship

between our two organizations. If the head of Bai Jing does not show some sincerity, Don't blame my Long brother for turning his face."

Bai Jing stood there for a while, a little at a loss.

Bai Jing understands the meaning of the dragon. As early as when he passed by here several times, the dragon had repeatedly expressed the intention to annex the Baijing organization. However, the request made by the dragon is too harsh. The dragon only accepts all women, including Bai Jing, and two men, barbarians and Li Dan. As for the other men, the dragon means to let them come from that small town. Time, natural or unnatural death.

Bai Jing can imagine if she really accepts this request, all women including her will lead a lifeless life, and once these girls are played enough by the dragon, they will eventually be unable to escape. To die. With the tempers of Manzi and Li Dan, they will never endure humiliation, and they will never end well in the end.

This is also the reason why Bai Jing has not agreed to the request of the dragon.

Seeing Bai Jingchuchu's pitiful appearance, Li Tian couldn't sit still.

At any time, letting a woman protect herself is not what Li Tian wants to see.

Li Tian opened the door of the car and walked down, walking towards the dragon. The fourth child immediately pointed the ak47 spear at Li Tian, and the sharp knife in his hand was also tightly gripped.

Li Tian frowned, stopped, smiled slightly, did not speak, but the expression on Li Tian's face was full of contempt.

"Put away the gun!" Li Tian despised the dragon, and shouted at the fourth child with some disapproval.

In his own territory, there are a few guns on the steel moving castle bus behind him, and the dragon is fully confident. He doesn't believe that this kid brought by Bai Jing can make waves.

Seeing the fourth child reluctantly put the gun away, Li Tian showed a harmless smile on the face of humans and animals, and said to the dragon: "The leader of the dragon said that we have no sincerity in the head of Bai Jing, so I don't know if seeing this thing counts. Considered sincerity? If the Dragon Master is willing, our Master Bai Jing is willing to take out this thing every month as sincerity!"

Li Tian opened the skin in front of the dragon, and even Li Tian deliberately or unconsciously took out the third-level mourning crystal in the skin and dropped it on the ground, and quickly picked it up again.

Li Tian took out five pale blue corpse crystals, threw them twice in his hand, and stuffed them into the hands of the dragon.

"Corpse crystals? Or as many as five?" The fourth and fifth youngest eyes widened at the same time, swallowed, and stared greedily at Li Tian's skin.

Li Tian didn't care, and continued: "I believe that the head of the dragon is a wise man. Only with this thing, what kind of woman can't you get? I don't know if the head of the dragon is willing to slaughter or want to kill chickens and get eggs? The master treats the funeral eagle as a chicken."

Li Tian took out five corpse crystals to show off his strength.

In this era, hunting zombies is the dividing line between ordinary people and strong people. For ordinary people, it is good to be able to hunt down low-level zombies such as zombies, and only the strong can easily hunt zombies. Moreover, Li Tian took out five corpse crystals at once, just to tell the dragon that the organization headed by Bai Jing is no longer what it used to be. This corpse crystal was not obtained accidentally by chance, but a manifestation of true strength. .

Li Tian's meaning is very clear. If the dragon is willing to keep the water flowing, then Li Tian doesn't care about paying five corpse crystals every month. If the dragon has to do something extraordinary, Li Tian is also willing to accompany him.

It depends on the fact that the Dragon House is not willing to die.

The dragon swallowed his saliva and held the five corpse crystals tightly in his palms.

The fourth and fifth youngest had limited knowledge, and they didn't see the third-level mourning crystal, but the dragon saw it at a glance.

There were no less than a dozen corpse crystals in the skin, and a third-level death crystal. The strength of the man in front of him was already visible.

When greed appeared in Kunlong's mind, Kunlong clearly felt a murderous aura exuding from Li Tian. This kind of murderousness is difficult for ordinary people to feel, but as a former cultivator, the dragon has clearly felt it.

At that moment, the dragon even felt like being caught by a poisonous snake. There was some cold sweat on the back of the dragon at this time, and the cold wind blew, the dragon immediately woke up.

The dragon knew that if he took his own initiative at this time, the man in front of him could easily harvest his life.

Greed flashed in his mind, and the dragon took the five corpse crystals, with a bright smile on his face, and shouted at the fourth child: "Let it go!"

"Brother Long!" The fourth child obviously didn't want the fat in his mouth to slip away like this, and couldn't help but yelled out the dragon.

"Shut up! Let go!" Kunlong said coldly.

The fourth and fifth youngest did not dare to challenge the dignity of the dragon, so they could only get into the car to execute the command of the dragon. Soon, the transformed mobile castle slowly moved a path away.

"Is the Qilin a thing in the pool? If you want better development, you can come to me. I am willing to give you the position of the second head. After all, the organizational strength of the head of Bai Jing is too weak!" said Long.

Chapter 3153: January Covenant

Bai Jing's hearts were pulled together involuntarily, and what the dragon said was what she worried most.

Li Tian smiled slightly and said, "Excuse me for not being able to promise you for the time being, I still have my companions in the base where Bai Jing is headed. I will give you a reply today, a month later!"

Hearing what Li Tian said, a bright smile appeared on Kunlong's face and said: "Brothers are welcome to join at any time!"

But Bai Jing's face gradually became gloomy.

The pickup truck continued to bump on the small township roads, and the faces of the barbarians, two-dimensional, and Bai Jing on the truck were very ugly, without saying a word.

Manzi's face was ugly, his eyebrows were full of anger, and he kept talking to himself while driving, either complaining about the pickup truck or the road.

"Manzi, just say what you want to say. Isn't it uncomfortable for you to hold yourself back like this?" Li Tian said with a slight smile.

The barbarian stopped the pickup, and resisted his anger and said to Li Tian: "Brother Tian, this is what you asked me to say! I just want to ask, you really want to take refuge in the demon of the dragon in a month? "

Bai Jing couldn't help but pricked his ears when Manzi asked Li Tian like this. This issue is exactly what she cares about most.

"Refuge? Don't say it so badly? Barbarian, you have to learn to be calm, calm, and think with your head when you encounter things! Since I said that I will give him an answer in a month, why can't you wait until a month later to see the result? !" Li Tian asked, touching Manzi's head.

The barbarian still asked with a puzzled look: "Brother Tian, what do you mean by this? I'm stupid, please make it clear!"

"Are you stupid? I have never seen anyone smarter than you!" The goddess Xue Ji said with a slight smile.

"Brother Tian, the dragon is definitely a demon. I don't know if you noticed it. In the bus that was modified by them, there are at least five or six women with their bodies tied with iron chains. These women are naked, as if they were beasts. Tie in the carriage of the bus, so that the dragon and his people can enjoy it anytime and anywhere. If..."

Manzi didn't finish what he said. In fact, there is no need for Manzi to finish. Li Tian already fully understood.

In front of the dragon just now, the reason why Li Tian was murderous was also because Li Tian accidentally caught a dirty scene in the moving castle of the dragon.

But in that situation Li Tian can't get angry, nor can he do it, otherwise Bai Jing, the barbarian in the pickup truck, Two-dimensional, the goddess Xue Ji, and even Li Tian himself will become living targets. Although Li Tian could easily kill the dragon, none of these people had an accident that Li Tian wanted to see.

In this case, Li Tian can only bear it.

He did not hesitate to take out five corpse crystals to paralyze the dragon, just to buy time.

Bai Jing's group had already gone through a week of hard training, and after another three weeks, it was time for initial results. In the past three weeks, Li Tian needs to hunt more zombies and zombies in exchange for more weapons and equipment to upgrade them.

Li Tian believes that after a month, the people led by Li Tian will definitely give Kunlong a satisfactory answer.

"Barbarian, drive!" Bai Jing issued an order.

Manzi saw that Bai Jing's face had returned to normal. Even if his mind was really stupid, he already understood what Li Tian meant!

"There is still a month, and I must continue to improve myself in this month. The insults suffered by Sister Bai Jing today, my barbarian will definitely give back to the dragon." The barbarian made up his mind secretly.

Two-dimensional, who has been silent for a long time, still did not speak, but two-dimensional knew in his heart that a woman who is better than Sister Bai Jing could become someone else's plaything in this era, let alone herself. If you don't want to lose your dignity and freedom, then the only thing you can do is to make yourself stronger and stronger than your opponents. Only in this way, talents like her have the opportunity to say no to their opponents!

"This month, I will redouble my efforts to cultivate, at least after one month, I must have the ability to protect myself, and I must be able to help Sister Bai Jing!" Wei Wei thought in his heart.

Bai Jing's heart couldn't be calm either.

Previously, Bai Jing asked for everything to temporarily keep the people she was carrying, but in the end he did not develop in the direction of Bai Jing's ideals.

Today, if there is no Li Tian, then Bai Jing may have only two results, but no matter which result, Bai Jing's end will be tragic.

One month's appointment, one month's time, can Li Tian really transform those twenty boys and girls?

Seeing Li Tian's resolute expression, Bai Jing's heart gradually settled down.

"What can I doubt? What can I doubt? In this week, are the changes in Barbarian, Two-dimensional, and Li Dan not big enough? Even the changes in Xinyan's little loli are big enough Now, even if Li Tian really leaves, I believe our team's survivability will be much stronger than before!"

"One month, very good! As their lead sister this month, I must also become stronger." Bai Jing thought in his heart.

Only Xue Ji in this car is quite stable in her heart.

The former goddess of Qianxuefeng was quite confident in Li Tian. Li Tian's performance in the temple, facing the thousand corpses, facing the sun god, and facing the owner of Hong Zhan has completely convinced Xue Ji.

The January appointment? For Li Tian, who once slaughtered gods, it was originally a joke.

The pickup truck continued to speed up on the country road. At this time, everyone in the car had a common goal: the January appointment.

The ten-kilometer journey is not very far. Soon, a temporary bazaar surrounded by steel bars appeared in the eyes of everyone. These steel bars are thick enough for a thumb, and each iron net is more than ten feet tall. Even if a zombie attacks, it is impossible to break these iron nets. And every time these steel wire racks are no more than fifty meters apart, there is a gunman standing on them, and the worst weapons in these gunmen's hands are semi-automatic machine guns, and even heavy machine guns and rocket launchers.

The bazaar is not too big, exceeding 5,000 square meters, but the bazaar has already been filled with people. The four entrances that the bazaar deliberately flowed out were full of cars, modified trucks, buses, There are even tanks!

"There are tanks? The strength behind the organization that can organize this bazaar is very powerful?" Li Tian was very excited after seeing so many people survived this end of the world.

Bai Jing said: "The tank is just a look. There are no shells or diesel in it. Now it can only be used as an excellent defensive bunker. However, the organization behind the Free Bazaar is the Seven Swords, which is the strongest in the vicinity of Tianshan. One of the big organizations, I heard that this organization is inextricably linked to Sunset Fortress. Offending the Seven Swords organization will definitely not end well. I warn you not to provoke Seven Swords easily."

Bai Jing pointed to the inkjet pattern on the tank and said, "Do you see a blood-red long sword printed on that side? That is their logo."

Chapter 3154: Free market

The pickup truck found a place near the tank and stopped, and soon two people wearing camouflage clothing with guns came over.

"Please leave all your firearms and weapons in the car. Except for the firearms and weapons in the shops, the free market does not allow any weapons. You are also asked to equip them. The Seven Swords Association is absolutely responsible for the firearms and weapons you leave in the car Safe." One of the men said to the barbarian.

"If we leave our weapons in the car, what if there is a conflict in the free market?" Xue Ji asked suspiciously.

The man with the gun looked at the weapons that several people in the pickup truck had already taken out, and couldn't help laughing: "Except for the Type 85 which is a slightly eye-catching weapon, are the other weapons in your hand? Guillotine blade? Rusty scissors? Stop teasing, okay?"

It is not the first time that Barbarian, Two-Dimensional, and Bai Jing have freed the market. They know the rules of Seven Swords. Knowing that following the rules of the Seven Swords is actually an effective protection for weak and small organizations like them, they did not raise any objections.

Just being so despised in front of Li Tian, the faces of Bai Jing and others were a little ugly.

After a few people got out of the car, Bai Jing immediately handed the bag containing all the crystals to the barbarian, and said: "Barbarian, you take the two-dimensional and Xueji to exchange food and water, and I will follow Li Tian to exchange other substances. One hour Then we will gather next to the tank!"

"Brother Tian! Don't forget me and the two-dimensional weapon!" The barbarian said to Li Tian, holding the skin bag on his shoulder.

"And my sniper rifle!" Xue Ji said quickly.

After passing through the small town controlled by the Dragon Organization, Li Tian made a decision, in addition to shopping for the necessary ingredients and supplies, the other corpse crystals and all were used to shop for weapons and equip his team.

"I can't forget! Since I have promised you, Li Tian will definitely do it." Li Tian nodded lightly and waved goodbye to the man and the others.

The Free Bazaar is composed of two main streets intersecting east and west, north and south, and in the middle of the intersection is a huge black tent.

Most of the stalls here are open-air, and a variety of goods are placed directly on the ground. The stalls facing the street mainly display a variety of goods, including finished clothing, footwear, and Semi-finished wool and cashmere. There are a variety of weapons, mainly iron, only a few shotguns and guns.

Seeing Li Tian and Bai Jing walking past the booth, the owner of the booth tried hard to sell the things in their hands. They could blow the power of shotguns into rocket launchers and the power of earth guns into missiles.

It seems that after buying their weapons, Li Tian and Bai Jing can go straight and cross the world.

Seeing Li Tian shaking his head constantly, Bai Jing explained, "Don't be fooled by them. These soil guns and shotguns are actually no different from waste. Because of the seasonal shortage of supplies, gunpowder is now a scarce item. Unless you have it in your hands. Enough gunpowder, otherwise the cost of buying soil guns and shotguns is much higher than standard firearms. If you want to buy standard firearms, we'd better go to the tent in the center. That tent is the booth of Qijian, and only they can get it. A lot of guns and ammunition!"

Li Tian nodded and said, "Don't worry, first buy weapons for Barbarian and 2D! Barbarian and 2D have high requirements for weapons, and a suitable weapon is what they need most."

"Huh? Is there a blacksmith's shop here?" Li Tian couldn't help but ask suspiciously when he heard the clanging sound coming from a distance.

"Yes, there is a shortage of materials. Although coal is not a scarce resource, it is also difficult to obtain in large quantities. Only a wealthy organization like Qijian can open weapons processing and customization businesses. By the way, they are there. Maybe there are weapons suitable for barbarians and two-dimensional, let's take a look!" Bai Jing pretended to take Li Tian's arm naturally.

When he took Li Tian's arm, Bai Jing felt a little surging in his heart.

Since Li Tian refused Bai Jing's request, Bai Jing's heart was very upset. I always want to use some words or actions to touch Li Tian to stimulate Li Tian.

But every time Bai Jing was disappointed. Just like now, Bai Jing has tightly wrapped Li Tian's arms in his arms. With the devil's steps, friction and friction, Bai Jing's heart began to have a little lilt, but Li Tian seemed to be okay.

Li Tian is not stupid, he has long seen that Bai Jing is still angry for rejecting her.

However, Li Tian deeply understands a truth: what is not obtained is the best, and what has been lost is the most regrettable.

It is precisely because he understands this truth that Li Tian keeps acting stupid. And only in this way, Bai Jing, the watery, pink and tender cabbage, would keep teasing Li Tian. Only in this way can Li Tian have the opportunity to feel the plumpness and elasticity wrapped in this cabbage leather jacket.

With their own minds and no interest in the products of other stalls, the two went straight to the blacksmith shop.

The so-called blacksmith shop is not a real blacksmith shop, but a small modified truck. In the middle of the carriage are two stoves modified with gasoline drums. The charcoal fire in the stove is strong, and the iron is red in the fire.

Two sturdy men were facing a red-hot iron block, beating them clanging.

There are all kinds of iron tools hanging on both sides of the car, from hidden weapons that are inches long to swords and knives that are more than three feet long. Of course, the forge is not only hand-made weapons, but also cold weapons for long-range attacks such as crossbows and feather arrows.

At this time, there were many people around the blacksmith shop, buying their favorite weapons, and in the blacksmith shop, besides two blacksmiths with performance qualities, there were also two young men specializing in receiving customers.

Li Tian's gaze swept across the merchandise quickly and shook his head slightly. Although there were many weapons for sale in this blacksmith's shop, there were no weapons suitable for barbarians and 2D.

Ordinary swords are too light for barbarians, and if they are not easy to use, their power will naturally decrease.

For Situ Bingning's two-dimensional, cold weapon, it's best to use a saber or a military stab, neither of these two things here.

Seeing Li Tian shaking his head, knowing that what Li Tian wanted was definitely not the ordinary goods hanging outside, he immediately followed Li Tian and said to Li Tian: "What weapon does this gentleman want to see? If there is no suitable one here? There are other weapons in the back, I will definitely find one that suits you, but the price..."

"Price is not a problem, as long as it is suitable!" Li Tian said without hesitation.

"I don't know if this customer can show off his financial resources in a small way, so I can explain it," the clerk said directly.

Chapter 3155: Sakura Legion

Seeing Li Tian revealing the light blue corpse crystal in his skin, the clerk immediately showed some respect for Li Tian, not only for the hard currency of corpse crystal, but more respect for a strong man.

The clerk briefly communicated with another clerk, and immediately came to Li Tian and said, "This is my work certificate. My name is Chen Hu. You two can call me Xiaohu. Two people please here !"

After speaking, Xiaohu led Li Tian towards a tent behind the blacksmith shop.

Behind the truck of the smithy was a black tent. Outside the entrance of the tent stood two Seven Sword Warriors in camouflage clothing and rifles.

Bring Li Tian and Bai Jing to the door of the tent, Chen Hu stopped walking inside, and stood at the door and said to Li Tian and Bai Jing: "Two, there should be something you want in it. Trade inside. Only accept hard currency currencies of level 1 corpse crystals and above. Of course, if two people have higher-level currencies, they can also exchange for seven swords. If there is no need to find what two of them need, we seven swords still accept the design and build! You have needs in this regard, you two can come to see me at any time!"

Li Tian nodded and walked in with Bai Jing.

The space in the tent is not large. The rows of tables, chairs and benches are placed in the middle. The tent is surrounded by iron shelves. On the shelves are various weapons that emit cold light. Seeing these weapons, Li Tian finally showed some approval.

All kinds of sabers and thorns hang on the shelves on both sides.

Li Tianxian walked to the shelf where the sabers were hung and looked at the fox, Browning and other sabers and stabs of various shapes and styles marked on it, as well as various long and short firearms.

Seeing the price marked on the saber, Bai Jing couldn't help taking a breath, and whispered in Li Tian's ear: "It's so expensive. The price of a saber is at least one corpse crystal! We bring it. The corpse crystal can only buy a few sabers or stabs!"

"Have you never been here before?" Li Tian asked.

Bai Jing shook his head and said, "No, we used to be free from the market. We used to buy food and drinking water. Even if we buy sniper rifle bullets, we only buy it on the black market. Small organizations like ours can't hunt. If you go to a zombie, you can't get a zombie crystal, you don't have the right to enter such a place."

"It's okay. I didn't even think about bringing the corpse crystals we brought back. Look at this military thorn, made of pure steel, with a three-sided shape. Whether it is facing zombies or enemies, it has a strong lethality in close combat. Mine The idea is that you, Xue Ji, and Li Dan are equipped with a sniper rifle as standard for long-range surprise attacks, and each of you is equipped with a pistol for short-range self-defense, a saber or military stabbing for close combat. But because Funds are limited. I can only allocate sabers or military stabs for you now. Today we will buy enough sabers or military stabs! The remaining corpse crystals will buy short guns and ammunition." Li Tian said.

Soon, Li Tian and Bai Jing chose the army stab and saber to buy, as well as a barbarian military oblique head machete. After selecting all these cold weapons, Li Tian just used up all the corpse crystals.

As a result, there was only one third-level crystal in Li Tian's skin.

At this time, a man in his thirties approached in the tent. This man had a small beard, was tall and tall, and there was a bit of hostility between his eyebrows. The man was wearing tight black clothes and a cloak that was black on the outside and red on the inside. There are two silver pistols around his waist, and his slender legs have a saber on the left and right.

The man saw that Li Tian was packing his saber and stab, and the corner of his mouth showed a contemptuous sneer. This sneer was from the bottom of his heart, the kind of contempt from the bones.

When the man saw Bai Jing standing next to Li Tian, his eyes lit up, then he smiled and said to Bai Jing, "This beauty, please forgive me."

"What's the matter?" Bai Jing said calmly.

"I just want to remind you, beauty, that there are too many pretends in this world. Oh, I'm not talking about this friend by your side, please don't get me wrong. But you also know that now is the era of hot weapons, Things like sabers and military stabs are only equipped by special forces fighters and a few masters." Said this, the man deliberately straightened his chest, exposing a copper badge on his chest and his clothes pocket, and continued: "Sabers, stabs But that embroidered pillow can be used casually! You must know that since the end of the world, life is lost anytime and anywhere, but it happens from time to time! If beautiful women don't dislike it, I can act as a flower protector."

Seeing the copper badge on the man's chest, Bai Jing couldn't help being surprised: "Sakura Legion?"

The man saw Bai Jing's surprised expression very useful, smiled and nodded, and pretended to be very modest, saying: "Low-key, low-key, just the outermost peripheral members."

"There, who doesn't know that the Sakura Legion is one of the top ten legions. Even the outer members are already very powerful!" Bai Jing was still quite shocked.

Although I have seen the emblem of the Sakura Legion before, it is the first time that Bai Jing has seen a living person.

Li Tian was very upset when he saw Bai Jing's expression of worship, and thought to himself: "Low-key Nima, you can't wait to engrave the emblem of the Sakura Legion on your mind. It's true that Nima can pretend to be a force. The pretending to be a crime is probably talking about yourself!"

"If beautiful women don't hate..." Li Tian interrupted the man before he finished his words.

"Very disgusting, please forgive me for being more presumptuous. I don't know if this gangster army is a gangster army specially looking for beauties? If it is, I'm sorry, there is already someone next to the beauty you are looking for!" Li Tian is not polite To say.

The man's eyebrows twitched a few times, and he ignored Li Tian, and continued to say to Bai Jing: "If the beauties don't dislike it, Liu Dong, the army of cherry blossoms, is willing to help you!"

With that said, Liu Dong stretched out his hand and took Bai Jing's hand, and wanted to kiss Bai Jing's arm gently.

"Bah!" With a sound, Li Tian suddenly made a move and hit Liu Dong's palm holding Bai Jing hard, and said: "It's such a cold day, so there are so many flies! I can't drive them away!"

Seeing Li Tian's jealous expression, Bai Jing's heart was filled with joy.

Bai Jing didn't have any good feelings for the fly Liu Dong in front of him. It was just that as a young girl who was pregnant, a very powerful man suddenly appeared in front of him to show his courtesy. Bai Jing still had a little sense of accomplishment in his heart.

Especially the feeling of being guarded by Li Tian at this time made Bai Jing even more proud, but when Bai Jing saw Liu Dong reach out to grab the army stab tied to his thigh, Bai Jing's heart couldn't help beating a bit faster.

This is another person who walked in outside the tent, dressed almost the same as Liu Dong, the only difference was that this person was a woman. After seeing Li Tian, the woman couldn't help licking her tongue.

The woman stretched out her hand to hold Liu Dong, and said in a low voice: "Remember our mission to Tianshan this time, don't have any problems!"

Chapter 3156: Bounty Hunter

"Boy, it's better not to let me meet you in the wild! Otherwise..." Before leaving, Liu Dong raised his right hand and made a beheading gesture on his neck.

Bai Jing couldn't help but feel a little worried, and said: "This is troublesome, the Sakura Legion is stronger than the Seven Swords and the Sunset Fortress."

Li Tian looked careless, the corners of his mouth curled slightly, a smile appeared, and he said, "You don't have to worry. Don't you see that he has been scared by my overlord's aura?"

"are you crazy?"

"Isn't it? He just said that if he met me in the wild, he would kill himself!"

Bai Jing gave Li Tian a glance. For this man with extremely strong strength but slow response, Bai Jing couldn't help it.

Bai Jing just hoped that this episode would pass soon.

"There is also a third-level death crystal! First exchange for two Type 85 sniper rifles, then exchange for two short guns, and exchange the rest for bullets and gasoline!" Li Tian said.

After Bai Jing's popular science, Li Tian knew that the first-level crystal was just a mass of light yellowish substance, while the second-level crystal had obvious shapes, the third-level crystal was a regular triangular prism, and the fourth-level crystal was Quadrilateral, and so on.

But as for the direct exchange ratio between zombie crystals and corpse crystals, Li Tian probably also understood.

There is no clear limit on the specific exchange ratio, but according to the current customary exchange ratio, the first-level corpse crystal can be exchanged for fifty to one hundred first-level zombies, and the second-level zombies can be exchanged equally with the first-level corpse crystals. . The second-level corpse crystal can be exchanged for fifty to one hundred second-level zombies. The third-level zombies can be exchanged equally with the second-level corpse crystals.

Zombie crystals above level 3 and zombie crystals above level 4 are already rare. Therefore, the zombie crystals and corpse crystals of the above levels are calculated based on the original corpse energy contained in the round zombies and corpse crystals.

After choosing all the things needed, Li Tian took out the three-level death crystal payment.

Seeing that what Li Tian took out was the third-level mourning crystal, the Seven Swords personnel who were in charge of receiving customers in the tent immediately showed respect to Li Tian.

"Dear Sir, I don't know how you obtained this third-level crystal in your hand?" Seven Swords members asked.

"I killed a sad eagle and dug it out of the head of the sad eagle. Is there any problem?" Li Tian asked inexplicably.

Hearing Li Tian's answer, the Seven Swords member immediately respected Li Tian, and even the tone of his speech was completely changed, saying: "Dear Sir, I don't know if you are interested in joining Seven Swords. We welcome Seven Swords. All kinds of powerhouses join! For humanity!"

Bai Jing's heart immediately became nervous again. She knew that as long as Li Tian showed her own strength, she would be very popular, but she did not expect that the famous Seven Swords would also throw an olive branch at Li Tian.

"I'm sorry, I don't have such an idea for the time being. My purpose for Freedom Market today is very simple, I just want to change some of the materials that my team and I need!" Li Tian refused without hesitation.

"I'm really sorry to disturb you. I didn't mean to force you, but a strong like you should not be buried. The door of Seven Swords is always open to the strong."

"If you really don't want to join Seven Swords, I can recommend you to participate in the bounty hunter test of Seven Swords. If you pass the test, you can get the title of bounty hunter issued by Seven Swords. This title will be redeemed next time. You can get discounts recognized by many organizations, including Seven Swords, when you purchase items. And the rank title of a bounty hunter is also a recognition for you." The Seven Swords member was not discouraged, and continued to persuade.

Li Tian glanced at Bai Jing. He had been away from the earth for a few years, and he had never expected that the earth had changed so much. Those professions that only exist in legends or movies have actually been staged in real life.

"The bounty hunter organization is a relatively loose organization, an organization recognized by the top ten legions. As long as you pass the corresponding level test, you will get the corresponding level title, and the bounty hunter organization will issue the corresponding badge. And this The badge represents the level strength of the bounty hunter. The level of bounty hunters is divided into nine levels. Local groups like Seven Swords can only issue titles and badges below level five. Bounty hunters can accept corresponding levels according to their level. Level tasks, get rewards after completing tasks."

"Bounty hunters are very free and can not be restricted by any organization, and the corpse crystals or zombies obtained can be exchanged for more materials in the corresponding organization. That is, the so-called certain discount. However, the level exam for bounty hunters It's very strict. I heard

that even if you want to pass the bounty hunter level test organized by a local organization like Seven Swords, you must at least enter the wilderness to hunt five third-level zombies or five second-level zombies!" Bai Jing hurriedly said in Li Tian's ear.

Li Tian nodded gently, and said, "It's interesting! I can try it!"

Bai Jing knew what Li Tian had decided, and she couldn't reverse and restore it at all.

"Bounty hunter level test is still very dangerous, you must pay attention to safety. I...we will all be waiting for you to come back!" Bai Jing said with some dismay.

"know!"

"Great! Sir, I have recorded the items you have just purchased. Now I will send you to the bounty hunter level test first. I will deliver the items you choose to you. Entrance of the sword." The Seven Swords member immediately said excitedly.

Following this member of the Seven Swords to the most important huge black tent in the free market, the outside of the tent is also a circle of stalls, and the goods sold at the stalls here are obviously much higher.

All kinds of military clothing, accessories, holsters, bullets, everything.

There was a truck parked on each side of the tent. The truck turned out to be a huge generator, and the generator was extremely roaring.

Li Tian always felt that Seven Swords should have a military background, otherwise it would be impossible for Seven Swords to have so much military equipment for sale.

"Mr. Li Tian, please here!" Seven Swords members led Li Tian into the tent.

There is a cave in the tent, and the space inside the tent is nearly 1,000 square meters. Surrounding the tent is a circle of sofas. In front of the sofa, there is a coffee table with various drinks and fruits on it. At this time, there were already some people sitting on the sofa in twos and threes, and these people were enjoying the wine, tasting the fruit, and chatting.

"Mr. Li Tian, please go to the sofa area to rest first, and our staff will register one by one in a while. After a short break, someone will come to follow up the level test of the bounty hunter!" After saying this, this A staff member retired.

Li Tian sat on the sofa, picked up a green apple and chewed it.

"Huh?" Li Tian suddenly felt a sense of alertness. When he looked up, he saw Liu Dong who was wearing a black cherry blossom army staring at him with a sneer.

Chapter 3157: Level test

"Idiot!" Li Tian sneered in his heart, and continued to chew the green apple in his hand.

It has been more than a week since he returned to Earth. Li Tian missed this green fruit so much. According to Bai Jing, the price of this green fruit is almost the same as the price of a crystal. For ordinary people living in the heat of water, even the most basic safety and food and clothing cannot be solved. Eating green fruits is a very luxurious thing.

Since Qi Jiancai generously took out these things to entertain, Li Tian was naturally rude.

Li Tian grabbed a green apple in one hand and chewed it, and in the other hand stuffed a bunch of grapes into his mouth. Li Tian's ugly appearance made the people sitting on the left and right of Li Tian stunned.

"Too embarrassing? Can you still participate in the bounty hunter level test with such a quality?"

"Is he born a poor ghost? Hasn't he eaten fruit?"

Li Tian completely ignored the feelings of others, and pretended to be innocent, stuffing the fruit into his skin.

"Shameless!"

"Indecent!"

"Haha! You continue to say, if you don't eat the fruit in front of you, I'm not welcome!" Li Tian completely ignored the flies' evaluation of him, and directly put the fruit on the plate in front of them into the bag. .

"Everyone!" At this time a man in his forties walked up on the stage in the center of the tent. The man was straight, like a steel gun.

"Wow, it turned out to be the Shelipu Ding of the God Sword in the Seven Swords Organization!" The man sitting on Li Tian's right obviously knew the man on the stage, and immediately called out the name of the man on the stage in surprise.

"Relic patch? Who is it?" Li Tian asked puzzledly.

"Asshole, it is Shelipu Ding, a natural immune person, the famous She God Sword in the Seven Swords Organization. In the entire Seven Swords Organization, he is the third senior figure. His strength is unfathomable. It is said that he can tear it with bare hands. Open the zombie's brain! So you'd better manage your mouth, don't let people tear your mouth to pieces because of nonsense!" The person said immediately.

Li Tian immediately put away his contempt, and seriously looked at Shelipuding.

Shelipuding did not see Li Tian and others in the audience at all, holding a microphone in his hand, and continued: "Everyone who is qualified to be present is our human elite. Some of you have passed the bounty of our Seven Swords. Hunter level test, today is to participate in the level test. And some people are the first time to participate in our seven swords bounty hunter level test. Others are here because they know the bounty hunter mission released by our seven swords Coming here! On behalf of Qijian, I would like to welcome you all..."

Speaking of Shelipuding patted his palms gently, and the people in the audience slapped their palms sparsely.

"Not much gossip, let's go directly to the topic." Shelipuding made a gesture to the audience, and soon someone pressed the button, and the four LCD monitors slowly fell from the top of the tent.

The same picture appeared on the four monitors at the same time. The aerial photographs of the LCD monitor showed a small village on the northwestern border. The village was full of ruined houses, and there were dead bodies everywhere between these ruined walls.

The picture continued to zoom in, and it could be seen that many of these dead corpses were wearing Seven Sword costumes, and many more were zombies.

But whether it was the dead of these Seven Swords or the corpses of these zombies, without exception, their heads were hollowed out by something.

Suddenly outside the screen, there was a rapid sound of machine guns, and the person in charge of the aerial photography gave out a burst of exclamation. Then, the screen began to shake violently, and it could be seen that the person in charge of the aerial photography was constantly backing away.

With the sound of several pistols, blood was splashed, the camera also fell to the ground, and the figure of a zombie appeared in the screen.

The picture ends here.

Shelipuding pointed to the LCD monitor and said: "This is the picture taken by Seven Swords in Ele Village in the southwest of Tianshan Mountain last week. Compared to everyone knows that Ele Village has the largest open-pit coal mine near Tianshan. Swords are of vital importance to the entire human race. Since the establishment of our Seven Swords, we have been thinking about taking back the village of Eto that has been occupied by zombies. However, the village of Eto is so dangerous that it is not an ordinary Seven Sword warrior. Take it. It is conservatively estimated that there is at least one evolutionary zombie above level 5 in Ezhe Village, which is the one that appeared in the screen just now. Therefore, we set this bounty hunter level test and exam in Ezhe Village."

"For the newcomers who participated in the test for the first time and the bounty hunters below the level two, the requirement of our Seven Swords is only to allow you to attack the outskirts of Ezhe Village. As long as you hunt and kill at the outside of Ezhe Village, you can complete the corresponding When the number of missions is required, the signal flare will be released, and our Seven Swords Special Operations Group will be responsible for receiving home."

Speaking of this, Shelipuding looked around for a while, paused, and continued: "As for everyone who has reached the level of the bounty hunter above level 3, you need to invade the village of Ezha and kill enough numbers corresponding to the level. After the zombies, please return by yourself. For bounty hunters of level 5 or higher and other organizations, your target is the open-pit coal mine. There is only one target, and that is the level 5 or higher in Ezhe Village Zombies! As long as you complete this assessment, Qi Jian is responsible for sending your assessment results to the bounty hunter organization."

While Shelipuding was speaking, the staff of Seven Swords constantly came to register all the bounty hunters present.

Registration is not complicated. If you are a newcomer, you only need to provide the corresponding name, gender, age, and habitual weapon information. If you are already a bounty hunter, it is even simpler. You only need to take out your bounty hunter rank badge and put it on an electronic device.

Seeing that Li Tian is a newcomer, the bounty hunter sitting on Li Tian's left immediately smiled as his predecessor taught his back and said: "Rookie, if you show sincerity enough, after the level test starts, maybe I can give you something. protection of."

The bounty hunter sitting on the right laughed and said, "You'd better exchange for some large diapers. Don't be scared to pee your pants! Hahaha"

"Go away! This kid is mine!" Liu Dong had already walked to Li Tian's side, and said rudely to the people on both sides of Li Tian.

Seeing the sign of the Sakura Legion on the body of the visitor, the two immediately closed their mouths obediently, and began to blame Li Tian, the plague god, for why they provoke the members of the Sakura Legion.

Liu Dong looked at Li Tian condescendingly, and looked at Li Tian sneerly, and said, "Boy, in the test, I will make you die ugly! Oh, yes, the woman who followed you just now is called Bai Jing, right? Hey, after I kill you, I will find her, and it will be great!"

Chapter 3158: Another mosquito

It is okay to insult Li Tian, and to bully Li Tian. But in front of Li Tian, he threatened Li Tian with Li Tian's friends. Faced with such a fly that rubbed his face, Li Tian never minded slapped back.

"Plap!" A clear sound made the whole space quiet.

The bounty hunters sitting on the left and right of Li Tian saw Li Tian slap Liu Dong's face with a slap. They were stunned and their bodies moved backwards involuntarily. They were worried that in case Liu Dong of the Sakura Army would start their hands. , Affect them.

"Is this kid crazy?"

"This kid is absolutely crazy!"

"Does the Sakura Legion dare to do something?"

"Wait for the master of the Sakura Legion to kill the ignorant and fearless kid in front of him!"

Liu Dong felt a fiery pain on his face, half of his face should have been swollen, and there was also a faint smell of blood in his mouth. The anger in Liu Dong's heart has been completely burned, he swallowed the blood in his mouth, and slowly stretched his hand towards the saber.

Liu Dong can't wait to slaughter the man in front of him in the field or during a mission. He now, at this moment, wants to use a saber to kill Li Tian and chop off the two paws of this kid to feed the zombies.

"Another mosquito! Look, it's really a mosquito this time!" Li Tian completely ignored Liu Dong's angry expression and stretched out his palm to show Liu Dong.

Li Tian's hand really had a small pool of blood stains and a torn apart mosquito corpse that had been photographed.

"I'm going to kill you!" Liu Dong's hand has already caught the handle of the saber, and in the next second he will start to stroke Li Tian's throat with a sharp blade.

The corner of Li Tian's eyes twitched slightly, and his fingers twitched slightly at this time. He was waiting for a signal, waiting for General Liu Dong's knife to pull out the scabbard.

As long as Liu Dong pulls the saber out of the scabbard, even in the face of Qi Jian's anger, Li Tian will not hesitate to sacrifice "Red Slash" to let those present know his strength.

"Wait!" Shelipuding suddenly appeared in front of Li Tian and Liu Dong, and stretched out his left and right hands to press the shoulders of Liu Dong and Li Tian at the same time.

"So fast!" Li Tian only felt that in the blink of an eye, Shelipuding had appeared in front of him and Liu Dong.

Liu Dong felt the same way, but he had no time to care about how Shelipuding came here. Now he only felt a strong force holding his shoulders, Liu Dong tried to move his arm, and he could move, but he wanted to use a saber, and it was not realistic.

As soon as Shelipuding appeared, Liu Dong knew that he had let the boy in front of him escape again. Under Shelipuding, even if Liu Dong barely drew his saber, it was impossible to harm Li Tian.

Li Tian's arm was bearing heavier weight. At this time, Li Tian only felt that his arm was swollen. Li Tian had an illusion that his arm would explode as long as he used a little more strength on the \*\*\*\* sword relic.

"Boy, this is a free market under the jurisdiction of Seven Swords, but not everyone can come here to go wild!" Shalipuding grabbed Li Tian's arm with a sneer. After saying this, Shalipuding again It took a little more effort on Li Tian's arm.

"Wow, the head of the relic really wasn't built, and he stopped this arrogant newcomer and the fellow of the Sakura Legion."

"Of course, you have to know that Shelipuding is a natural immune person, and being able to rank third in the Seven Swords, fully demonstrates his strength!"

To outsiders, Shelipuding seemed to have stopped Li Tian and Liu Dong at the same time, and treated Li Tian, a newcomer, and Liu Dong of the Sakura Army in the same way, but Shelipuddin knew in his heart that Liu Dong was the Army of Sakura after all. Although he is only a peripheral member, he cannot do too much. And this time the Sakura Legion can send people here, which is quite a face to Qijian.

But Shalipuding was not so polite to Li Tianke, and seven points of his great strength were used to deal with Li Tian.

Shelipuding's purpose is very clear, to show off his might to shock everyone present.

Li Tian felt that his arm had lost consciousness, as if he did not belong to him.

"Boom!"

Li Tian felt that every inch of his arm muscles kept beating, like a time bomb, it would explode at any time.

"I can't just go on like this!"

At this time, Li Tian suddenly felt Hong Zhan himself beating. The ray of divine power sealed in "Red Zhan" by Yang Shen began to stray in "Red Zhan", forming strands of thin hair in "Red Zhan". The thread of silk.

"Boom boom"

"Hong Zhan" seemed to be alive, and it was beating like a heart.

Immediately afterwards, Li Tian felt a small thumb-sized vortex formed in the "Red Slash". This small vortex continued to rotate, forming a powerful suction force, completely absorbing the force exerted by the Shelipuding on Li Tian's shoulders. Went in.

"Huh? Is the man in front of you an evolutionary among those who are born immune?"

Shelipuding was very surprised. He only felt that the hand he pressed on Li Tian's arm seemed to be caught on the sponge suddenly, and his power was continuously absorbed by the sponge like water.

Shelipuding immediately shook Li Tian's arm and pushed Li Tian onto the sofa.

To Liu Dong Shelipu Ding was very polite.

After the end of the world, zombies and zombies have almost ruled the world. Humans have become food for zombies. However, at the same time, some humans have discovered that they are naturally immune to zombies' viruses. Even if these people are attacked or bitten by zombies, they will not Can be infected with the zombie virus, and these people are made natural immune.

And above those who are born immune, there are more talented existences. These people are not only innately immune to the virus of zombies, but also can swallow the corpse in the corpse crystal. In the process of swallowing the corpse, these people will evolve to different degrees and have power beyond humans. These people are called evolvers. .

Shelipuding looked around and adjusted his horror. At the same time, he paid more attention to Li Tian. If the man in front of him is really an evolutionary, then even if he offends the Sakura Legion, he will be absorbed into the Seven Swords.

Shelipuding coughed softly and said, "This is Seven Swords. Everyone here is Seven Swords guests. If you have any grievances that need to be resolved, as long as you leave the Free Market Seven Swords will not do anything. Block! But here, you need to abide by the rules of the Seven Swords!"

"I believe this is just a misunderstanding! I just helped Mr. Liu Dong from the Sakura Army to drive away the mosquitoes, but I didn't master the strength and made you misunderstand! Isn't it, Mr. Liu Dong!" Li Tian looked slyly. Said Liu Dong.

"Misunderstood your sister, you're so \*\*\*\* looking at my face!"

That in Liu Dong's heart called an anger, but naturally he wouldn't say such shameful words.

Liu Dong hates Li Tian for gritting his teeth, but now the Shelipu Ding of Seven Swords has stood up, and now Li Tian has given him another step, Liu Dong can only borrow the donkey from the slope, very reluctant to place it. Nodded and said: "It's a misunderstanding."

Chapter 3159: New enemies never stay overnight (1)

Regardless of whether the man in front of him is an evolutionary among those who are born immune, this bounty hunter level test is the best test opportunity.

Shelipuding came up with a solution in an instant.

Shelipuding looked back at Li Tian and showed a seemingly friendly smile to Li Tian, then turned to Liu Dong and said, "Since it was a misunderstanding, then I won't say much! Please don't you my lord. Remember the villain, don't take such trivial things to your heart. Give the newcomer a chance and give me a face for Qijian, at least within the scope of my seven swords' jurisdiction."

Li Tian frowned slightly, he was not an idiot, and this remark that Shalipuding seemed insignificant had a different meaning to Liu Dong and Li Tian.

When Shelipuding walked back to the center of the tent, Liu Dong slowly approached Li Tian and said in a low voice: "Boy, now you still have a chance to kneel here and beg me. If you ask me to please Lao Tzu, Lao Tzu will consider Give you a happy start when you start. Otherwise, once you leave the free market, Lao Tzu will let you experience the anger and fear of the Sakura Legion!"

Li Tian even said the phrase "idiot" lazily. At this time, Li Tian was feeling the change of "Red Zhan" in his body.

However, no matter how Li Tian felt, "Red Zhan" at this time never had any contact with Li Tian.

"Everyone, the registration has been completed. In order to allow you to better complete the task, you have prepared a map of my Seven Swords. In addition, the fresh fruits and drinks in front of you are also given to you for free. You can pack them yourself. Take it away! Please be prepared for a while, and you will leave later!"

After Shalipuding finished speaking, a series of curses came from the tent.

"Damn, why is the wine on my table gone?"

"Where is my fruit? The shameless thief stole it?"

"Who is so innocent, even took a bite on my apple!"

...

Five modified military trucks drove slowly on the country road. Each military truck looked like a moving castle. At this time, each truck contained more than ten bounties to participate in the test hunter.

Behind the five trucks, several modified luxury cars followed. One of the cars had a very eye-catching logo of the Sakura Corps.

Inside the car, Liu Dongzheng wiped the saber in his hand with fur, his eyes staring at the military truck in front of him like hooks, and his mouth muttered: "This \*\*\*\*\* coward, I must use this saber to slice his flesh. All the pieces were cut off, and all his blood was drained, and then he started to kill him!"

It was the woman who was driving with Liu Dong. The woman said to Liu Dong dissatisfiedly: "Idiot, don't forget that our boss made us here for the real purpose! If this mission goes well, then even if you kill him a bit People, playing with a few women, I will open one eye and close one eye. But if you fail this mission because of you, I will definitely make you regret becoming a man!"

Hearing this woman say this, Liu Dong couldn't help but shiver.

Behind the Sakura Corps car, another convertible jeep followed. These two jeeps didn't seem to have the slightest defensive power, but this fully shows the strength of the owners of these two cars.

The owner of the jeep was the Shelipu Ding, who was driving the car, and a little girl who seemed to be only 13 or 4 years old was sitting on the co-pilot.

The little girl looked inconspicuous. It was no different from an ordinary girl next door. If in the past, this girl might just be a junior high school student. But if in the last days, who regards this girl as an ordinary junior high school student, then he will pay a heavy price for his stupidity.

This girl is He Zhizhuo, the famous waterfall sword among the seven swords.

He Zhizhuo ranked last in the Seven Swords, ranking the seventh, but none of the seven of the Seven Swords would despise her, because this little girl, just like her name, is extremely persistent in everything.

If He Zhizhuo wanted to kill someone, no one could change her, no matter if she was within her range. In the end, there was only one result, either the person He Zhizhuo wanted to kill died at her hands, or He Zhizhuo died at the hands of others.

However, as an evolutionary of those who are born immune, He Zhizhuo has not failed so far.

He Zhizhuo raised his head and looked at the sad eagle hovering in the sky, and said blankly: "The third child, is that Li Tian that you said is really that important? I don't want to have extra problems and make this mission accident. Now I I really want to live with the zombie in the mine! Hehe"

Shelipding dangling a cigar, smoking a cigarette, and exhaling a smoke ring, and said: "It doesn't matter that this test can test the results. If he dares to have extra branches, I don't mind twisting his head off by myself! It's a pity that there are a group of bounty hunters, and the strength of these dozens of bounty hunters is still good!"

He Zhizhuo smiled faintly and said: "They should die for our Seven Swords. It should be their honor! What surprised me was that the Sakura Legion had a sharp sense of smell, but they dared to reach out to our Seven Swords. Of course we can't be too polite to them!"

In the military truck, Li Tian and a dozen newcomers who also came to participate in the bounty hunter test for the first time sat in the carriage of the truck.

These newcomers were nervous and excited about the first test, boasting about the zombies they had hunted in the carriage, or dreaming about the honor and benefits they could bring after passing the bounty hunter test.

"Everyone, the so-called relying on parents at home and friends when going out. This time we are fortunate enough to get together to participate in this bounty hunter level test. This is a kind of fate. It is better to form several combat teams, and it is good to have this task. They take care of each other. I used to be a soldier, and I was a famous gunman in the army. In the battle with zombies, I had killed five zombies in a row. Whoever wants to team up with me can come to my side!" The man with a semi-automatic rifle on his back stood up and said.

When this person spoke, he was recognized by many people. After speaking, several people approached him immediately.

After that, other people stood up and gave speeches.

Soon three teams of more than three appeared in the carriage.

Leaning against a fat man sitting beside Li Tian, he carried a homemade bow in his hand, a few willow feather arrows on his back, and a cheap pig-killing knife stuck in his waist.

Chapter 3160: New enemies never stay overnight ((2))

The fat man moved closer to several people in a row, but was all driven back.

The fat man walked back cursing, sat down beside Li Tian, looked at Li Tian, who closed his eyes, and said to Li Tian, "Brother, my name is Arslan, Mongolian. I saw it in the tent just now. You hit the guy from the Sakura Legion. Although I feel that you are an idiot, you went to provoke those notorious guys. You must know that those guys from the Sakura Legion will be retributed. But for you guys who beat the Sakura Legion, I only It's a good job. If you don't dislike it, you must take me next time you have a chance!

Li Tian slowly opened his eyes, looked at the fat man in front of him again, and said: "Arslan should mean a lion. I don't know if you have the courage to face those guys from the Sakura Legion. If you have the courage, then Here is your chance! There will be a chance before tonight!"

"Oh, shit, won't it be so fast? Didn't it mean that it's not too late for a gentleman to get revenge for ten years?" Arslan said.

"Hehe, it's not too late for a gentleman to take revenge for ten years. This sentence is for those cowards. For me, Li Tian, new enemies can't stay overnight, otherwise I won't be able to sleep!"

"Will you die if you don't brag?" Arslan said.

"Will die!" Li Tian laughed loudly.

"Brother, you see that other people have long spears and short spears, as well as sabers and army stabbings. Although I am second, buddy, at least I am a man with iron, but what about you? Unarmed, don't you want to commit suicide?" Arslan asked, seeing that Li Tian didn't even have a nail clipper on his body, he couldn't help but beat a drum in his heart.

Li Tian glanced across the carriage, then stopped his gaze on Arslan, and slowly said: "In this carriage, your personal combat effectiveness can be ranked second after me. As for them, even if ten people form one. The team will not survive tonight."

When Arslan heard Li Tian say this, he patted his fat belly excitedly, and said with a smile: "I like someone like you. I don't have the skills, but the bragging skills are good. I will team up with you tonight! Haha"

One sentence that Arslan didn't say in his heart was: "You are paralyzed, so many people are unarmed, and it's very unlucky for me to form a team with you. But in case our team encounters zombies, don't blame Lao Tzu. It's not righteous. You stay and feed the zombies! Haha!"

At this time, the truck's speed gradually slowed down and finally came to a complete stop. Shelipuding's voice came from outside the truck.

"Everyone gets out of the car immediately! The bounty hunter level test officially begins!"

The newcomers and bounty hunters on the truck jumped off the truck, Li Tian and Arslan also jumped off.

Li Tian found five trucks parked in a fan shape on the edge of a spit out cliff. It can be seen that this cliff was formed by the long-term dumping of cinder from a nearby coal mine. It was thought that the cliff was formed by black cinder on three sides. , And the fan formed by the five cars is facing the only entrance. At this time, some Seven Swords fighters descended from the truck and some

iron frame barbed wire fences were erected at the entrance. In this way, the truck and The place where the car is parked forms an absolutely safe area.

After jumping out of the truck, the veterans who had passed the bounty hunter exam immediately left the area, but the newcomers were still at a loss waiting for Qijian to continue to issue orders.

After Li Tian jumped out of the car, he didn't hesitate to follow the old birds and headed towards the village of Forefoot. The fat Arslan hesitated for a while and chased Li Tian out.

"We shouldn't just come out like this. The front is too dangerous, and it's safer with more people," Arslan said.

Li Tian pointed to the sky and said: "First of all, the sky has begun to gradually darken. After dark, the world is ruled by zombies. Do you have no opinion on this? If you don't want to be a dinner for zombies, we must rush in. Before dark, find a place to speak. Second, do you see the mourning eagles still hovering in the sky? Under the IQ of these ferocious guys, they will only aim at large crowds. Third, I don't know you. Have you paid attention to a detail? Almost all weapons of high-level bounty hunters are cold weapons, and few have guns as their main weapons. Do you know why?"

Although Arslan is fat, he is not a fool, and immediately replied: "Because shooting will make noise!"

"Yes, shooting will make a sound. This kind of sound is not very attractive to zombies during the day, but at night, shooting is undoubtedly a suicidal behavior. And you see those rookies, almost no one Both are equipped with two long and short guns, which may be very powerful when facing zombies during the day, but at night, they will become zombies' snacks!" When Li Tian spoke, the steps under his feet were not slow and kept The ground headed towards Ele Village and kept observing the nearby terrain.

Once the old bounty hunters dispersed, they quickly found their favorite place. Within a few minutes, it would be difficult for Li Tian to find the traces of the bounty hunters.

After Li Tian and the others had walked several hundred meters, the newcomers slowly marched towards Eji Village in small groups.

Climbing a small soil slope, Li Tian saw the car with the logo of the Army of Sakura parked sideways on the road leading to Ele Village, while Liu Dongzheng was holding a saber and staring at himself.

"This idiot, this is my own death!" Li Tian did not expect that before he went to Liu Dong, Liu Dong would send him to the door to send him to death. Since he sent him to the door, Li Tian has no reason not to cut the mess quickly. Get rid of this trouble.

Li Tian walked three steps in two steps, and walked quickly towards Liu Dong.

Arslan gripped the bow in his hand tightly, and already had a feather arrow in his other hand. It's just that Arslan's hands were shaking fiercely at this time, and his heart beating even more fiercely.

"Do you want to follow?"

"Do you want to confront the Sakura Legion head-on?"

"No! I can't have a head-on conflict with the members of the Sakura Legion. I'm just a humble little person. How can I be against such a powerful legion. I am not familiar with Li Tian at all. He and I are just using each other. ..."

"Boy! You are brave, but such bravery without the support of strength is stupid! Today I will let you see how powerful the members of the Sakura Legion are!" Liu Dong stepped on the ground with his right foot and rushed towards Li Tian. .

Liu Dong's speed was very fast, and the image of the saber in his hand made a shadow of Li Tian's chest.

Seeing Li Tian's calm and unwavering eyes, Liu Dong suddenly felt an ominous feeling in his heart, and his inevitable move did not stab Li Tian, and his forward offensive did not weaken, so Liu Dong His body was a little out of balance instantly.

It was just a face-to-face, Liu Dong felt that he had some illusions. The moment he stabbed Li Tian, he seemed to see a red light flashing from Li Tian's hand.

Immediately afterwards, Liu Dong felt some pain in his arm. He looked down and saw that his arm holding the saber had no idea when he fell to the ground. Blood sprayed from his severed arm.

"No!" Liu Dong let out a scream unwillingly.
