

A Killer 3191

Chapter 3191: War (3)

When she started running, it was naturally much more difficult to shoot. Xue Ji missed a few shots in a row, and Bai Jing also missed two shots, but Bai Jing still managed to kill two more.

Xue Ji, who had no false hair just now, said that this kind of dispatching had no skills at all. After several consecutive misses, Xue Ji stopped talking.

Xue Ji knows that she has a long way to go on the way to learn to use the powerful magic weapon of the sniper rifle.

The twelve people who came out of the Dragon Base to support had been sniped in half before reaching their destination. After finally letting out a sigh, gunfire came from behind the grass in front.

The two people who ran in the front were immediately beaten into sieves.

"Damn! Who is so cruel? Why is there an ambush in front! Hurry up and hide."

The remaining four people immediately hid in the house or behind the broken wall. After hiding, these people stretched out the guns in their hands and shot them randomly at the grass.

Before the gunfire stopped, a man suddenly uttered a scream of horror.

The man hiding behind a broken wall was holding his **** neck in his hands and looking at Situ Ningbing with horror. The man stretched out his arm in pain and shook it in the air, trying to catch something Dongsi It seemed, but finally fell to the ground feebly with his body.

General Situ Ningbing wiped the blood stains from the knife on the man's clothes and looked at the corpse with cold eyes.

"It's so stupid, I fell into the ambush area of our killer group in a panic, so good, at least you saw my figure before you died, so you won't die!" Situ Ningbing said this person. The pistol that fell on the ground picked up, turned around and jumped through a window, and touched it to the other side.

"Ah!" There was another scream.

This time, the sound of the screams was very long, and the screams were higher than the waves. From this, it can be imagined that the hurt suffered by the injured person is absolutely beyond imagination!

I saw a man lying on the ground covered in blood in the front room. There was a blood hole in his palms, arms, and thighs, and he was gurgling blood out. But the fatal injury was a penetrating injury to the neck.

A triangulated army thorn was inserted forcefully from the back of the man's neck, and then came out of his throat.

The general two-dimensional stabbed it out forcefully, then picked up the pistol that the man dropped from the ground, and said to himself: "I still haven't learned the essentials. I never thought that killing a person would be more difficult than killing a first-level zombie. ! It seems that I still have to learn from this master Situ."

Then another man uttered a scream. The scream was only halfway out, and it completely disappeared! It was as if the crowing rooster was suddenly pinched by the throat!

That's right, this time it is the latest emerging newcomer named Huo Liantong. Huo Liantong is a strong boy who is more than 1.8 meters tall and weighs nearly two hundred catties.

This Huo Liantong hadn't been exposed before, and was sick all day long. He looked weak and listless. Since Li Tian said that he would let go of the dietary restrictions, this guy has a good appetite, and his strength is as good as his appetite.

Moreover, this kid is strong and strong, cruel, and has the strength not to lose to the barbarian, and the cruelty not to lose to the two-dimensional. After learning the killer technique from Situ Ningbing, it quickly became apparent.

This kid put on a pair of leather gloves and dared to tear the zombies with his bare hands, gave him a saber, and dared to do with the zombies.

Today, the first mission to participate in, many people still have difficulty adapting, a little scared, but this kid is full of enthusiasm, take the initiative to ambush and hunt.

Look at the man who fell in front of Huo Liantong, it was the thin monkey man in red shorts.

At that time, the skinny monkey man in red shorts swiftly hid in and slammed his head into the arms of Huo Liantong who was hiding behind the wall. Huo Liantong reached out with his right hand and pressed it on the brain of the thin monkey man in red shorts and lifted the thin monkey man up.

In panic, the skinny monkey man shot at Huo Liantong.

Before the gun was raised, Huo Liantong cut his hand off with a knife.

The thin monkey man let out a scream, and Huo Liantong grabbed his neck and smashed his throat with force.

With the screams of the three people, the last man who had been hiding in the room was so scared to death, he threw the gun out and shouted: "Hand in the gun and don't kill, I surrender, I surrender!"

Situ Ningbing, two-dimensional, and Huo Liantong jumped through the window within a few seconds and walked in.

"I don't want us to kill you! Tell me how many people are still in the Dragon Base?" Situ Ning said coldly.

The man immediately knelt to the ground, begging for mercy and fully revealed the details of the dragon to Situ Ningbing.

It turns out that the number 25 of the dragon is only the number 25. Unlike Bai Jing, the number 25 of the dragon is a criminal before, and there are even more than half of the serious prisoners. After the dragon rides the apocalypse and gathers these people here, the dragon has developed continuously for three years and has become the strongest gang in the surrounding area for several tens of miles.

Because of the superior terrain of the town occupied by the dragon, the gang of the dragon relies on collecting tolls for their livelihood, and they rarely hunt zombies.

"Twenty-five people, if I didn't count them wrong just now, a total of twelve of you came out of the base, and eleven of them are now dead! And you said that the dragon took eight people to the level in the morning, then another What about five people?" Situ Ningbing asked.

"I went to the free market. The second master and the third master took three people to the free market to change things. For places like the free market, they must have led the team. They always go there. Be cool over there and come back before dark!" The man lowered his head, did not dare to look up, did not dare to look at Situ Ningbing, and replied.

"Two-dimensional, Huo Liantong and you two will first go to the Dragon's base to check to see if what this guy said is true! If it is really like what this guy said, then send it to Brother Tian Signal! If there is any discrepancy, I will kill this kid directly!" Situ Ning said coldly.

At the checkpoint, the fourth child heard the intermittent gunshots coming from the direction of his base, and knew that something was wrong. He said with a sad face, "Brother Long, what should I do? It's been so long, and those guys haven't rushed over. Nine is something wrong. What should we do now? Kill it?"

"No! We have this modified bus, which is easy to defend and difficult to attack. As long as the time is delayed until the night, when the zombies are infested, we will win!" Shunlong said with a calm appearance.

"But even if we win, what happens in the future? We definitely can't stay in this place. Where are we going, Brother Long?" The fourth child said with a bit of frustration.

"Hahaha, I have already taken a few steps to prepare for the rainy day. As long as I am not dead today, I will definitely want him to die from Li Tian to be very ugly!" He continued with a nonchalant smile and said: "Fourth, you should have heard of the Red Blood organization, right?"

Chapter 3192: Red blood

Hearing the words "Red Blood", the corner of the old fourth's eyes jumped.

The Red Blood organization can be said to be the largest criminal gang organization in the Northwest.

The vast northwestern part was once covered with iron cage prisons. After the apocalyptic crisis broke out, these prisons were loosely managed, and the criminals inside fled one after another. Among them was a fellow nicknamed Scarlet Blood. After being bitten by a zombie, not only did he not become a zombie, but his body evolved. Scarlet blood turned around and went back to seize the prison directly.

The guards who had suppressed him in the prison had all become the souls of his sword, and the prisoners who did not obey him in the prison were all beheaded by him.

With iron and blood, Scarlet Blood will soon rule which prison.

In the past, the criminals in the prison became his subordinates, and the guns and ammunition in the prison guards became their weapons. Soon Red Blood established a powerful evil organization, and those criminals rushed to him.

At this time, Red Blood is fighting with Qi Jian because of the Tianshan Domain's ownership.

"Brother Long! You are so foresighted and plan ahead! I didn't expect you to be able to catch the line of Scarlet Blood! Haha, now he is dead! Who doesn't know that Scarlet Blood is famous for protecting the calf!" The four laughed openly, it felt as if they were already direct descendants of blood.

"Yes, Brother Long is foresight, Brother Long is planning ahead!" The remaining two young men in the modified bus immediately echoed.

The dragon laughed and said: "Of course, before going to prison, we also read a few years of books. People who have no vision must have near-term worries. Although Qijian has not had time to take care of our small role in the past three years, but in Qijian It's not a solution under your nose."

"Originally, I still had a further plan. If I could subdue Li Tian and get the assistance of such a fierce general as Li Tian, then I planned to do it myself. But I didn't expect that Li Tian would destroy my three years of hard work. Yu once! Now I can't wait to eat Li Tian's meat raw and drink his blood!" Kunlong said grimly.

At this time, 2D released a signal flare in the town.

After seeing the signal flares, Li Tian understood that there were no more reinforcements for the dragon in the town, and now the dragon was the turtle in the urn.

"Home of the Dragon, the people in your base have been killed by us! If you don't want to die, you'd better come out and surrender. For the sake of our brothers' friendship, I will leave you a whole body!" Li Tian shouted to the dragon.

"Da da da!" A series of machine guns sounded above Li Tian's head, and the dust splashed on Li Tian.

"Li Tian, if I want Lao Tzu to surrender, you can dream it! If you have the ability to rush in, see if Lao Tzu won't sieve you!" Shunlong replied with a curse.

"It seems that there is no more to talk about! Although I am a little sorry for you, but you are still alive and suffer, it is better to get free soon!" Li Tian said in his heart to the women who were **** in the modified bus by the dragon. .

It's a pity, this dragon is really little reading, really think that Li Tian really can't help him by hiding in the modified bus?

Li Tian immediately controlled the "Red Slash" and flew out.

"Red Zhan" is extremely sharp. Since being in Li Tian's hands, Li Tian has never encountered something that "Red Zhan" cannot pierce continuously.

With a "click", an unknown blade plunged into the steel plate of the bus.

"What the **** is this? Who is operating it?" Yulong couldn't see clearly whose hands "Red Zhan" was in, only saw the "Red Zhan" who had been pierced into the car quickly signing a sign. Iron sheet.

Jilong originally thought his defense was invaluable, and with eye-catching skill, he saw an unknown weapon directly inserted into the steel plate of the bus, and cracked the steel plate of the bus with a few clicks. Come, the chance is faster than the cutting machine.

"Crack, click"

"Red Cut" continued to fly around, and the side of the bus had been "Red Cut" cut into a large hole over one square meter.

As the iron plate of the bus fell, the dragon finally saw the "Red Slash" floating in the air.

"Improve sword with qi?" This was a thought that came out of Kunlong's mind. When he thought that Li Tian was such a master, Kunlong felt cold!

Provoking such a master, the dragon knows that his life is hopeless.

"Fourth old, it is estimated that today I am in a disaster. But before I die, I want to accomplish one thing for you. Later, you tied me out and surrendered. Your condition is to let Li Tian spare you. I believe it is like An upright person like Li Tian will definitely let you go. At that time, I will not ask you to avenge me, I will just make you and your second and third child join the blood, and wait for you to establish a foothold in the blood, and then think of a way Give me revenge!" The dragon said with a somewhat ugly expression.

"Brother Long, you really understand righteousness, you are a role model for my younger generation! In that case, I will respect my fate as the fourth child!" As soon as the fourth child thought that he had a chance to live, he didn't even have the mood to act. Refuse to speak directly.

"From your mother! Let me die!" Suddenly, the dragon took up the submachine gun in his hand and fired frantically at the fourth and the other two.

"Da da da!"

After a series of bullets, the three had already been beaten completely beyond recognition.

The naked women who were **** with chains by the dragon huddled together tightly and hid in a corner of the car, shaking with fright.

"Don't be afraid! It will be okay soon!" Kunlong once again held up the submachine gun in his hand, and beat all the unarmed women without a strand of silk cloth to death.

"Even if Lao Tzu is dead now, with so many of you buried with you, Lao Tzu's life will be worth it. The dragon tore a piece of cloth from him, dipped it in blood from the ground, and wrote the words Li Tian on the cloth, and then the bus A wooden board in the carriage was lifted, revealing a small black box underneath. The dragon put a few first-level corpse crystals on his body into the small black box along with the blood written cloth, and then covered the wooden board back. In the distance, this was lying on the floor calmly.

"Li Tian! What hatred or resentment I have with you!"

The dragon pulled out the pistol he was carrying, and tremblingly inserted the muzzle into his mouth, and slightly pulled the trigger.

With a "pop", gunfire sounded.

Weilong committed suicide, and a generation of heroes finally committed suicide by Li Tian, which is miserable enough.

Li Tian heard the gunshots inside the bus, and knew that there might be civil unrest in the bus. When Li Tian and the others rushed to the bus, they found that the dragon and others had all died.

"Barbarian, get two buckets of gasoline from the truck and burn them all!"

I don't know if the dragon hears this sentence and makes him take pains to leave behind the clues of revenge for the second master and third master.

But even if he wanted to cheat the corpse, it might be too late.

The fire was blazing. Although the smell of gasoline and the smell of human burning made everyone present uncomfortable, there were still smiles on everyone's faces.

Chapter 3193: Captive's contribution (1)

"Li, a few people from Kunlong have gone to the free market..." Situ Ningbing gently leaned on Li Tian's side, looking at the sky full of fire, and said softly.

"It's okay, I didn't think about killing them all. When the dragon died, the other people without the head of the dragon, it was just a mess of sand, which is not a concern." Li Tian said.

"Also, today we caught a prisoner! I don't know how to deal with it!" Situ Ningbing continued to ask.

Li Tian hesitated, and said, "Just let it go after a lesson! I can't do the killing of prisoners of war."

"Sister Xue Ji performed quite well today. I heard Bai Jing said that she killed two of them alone!"

"Oh, then I have to reward Xue Ji well! Isn't it?" Li Tian smiled badly, seeing that no one on the left or right noticed him, he immediately became dishonest with his arms around Xue Ji.

Xue Ji smiled idiotically, leaning tightly in Li Tian's arms, and said with a smile: "Sister Bai Jing is the best one. After the bad guys ran up, I didn't hit any of them, but sister Bai Jing is Two hits!"

Speaking of Bai Jing, Li Tian shifted his gaze to the crowd, and at this moment, Li Tian saw Bai Jing's gaze and looked over here thinking about it.

With eyes facing each other, Li Tian felt that although Bai Jing was surrounded by such good children, she was so lonely, and her eyes were so lonely.

Seeing Li Tian also looking at himself, a trace of panic appeared on Bai Jing's face, his eyes hurriedly avoided Li Tian, and the corners of his mouth barely rose, revealing an unnatural smile.

How could Li Tian not know what Bai Jing was thinking, but Li Tian understood that he would not stay in this place after all, and he still had to look for Ouyang Shiqing and Duanmuying back. Originally it was fine to hug the left and the right with two hands, but now there are four women in the body unknowingly, and the left and right hands are too busy.

"Let's go over and see how we got today?" Li Tian let go of Xue Ji and Situ Ningbing and said.

The three of them walked over, and Li Tian immediately became the new center.

Two-dimensional drew the captive over, tugged hard, pushed him to the ground, and said, "Brother Tian, how do you deal with this kid?"

The barbarian squeezed in, swiped the big knife in his hand with a fierce look, and said, "What is there to hesitate about, of course, I just chopped him down directly! Should he let him continue to harm others? "

"Brother Tian, please spare your life! Brother Tian spare your life! I will definitely not harm others. Besides, I am only a small role in the organization of the dragon. I have never done anything that

hurts the gods and reason!" The prisoner knelt on the ground and kept knocking. He begged for mercy.

"Get up! Barbarian, if you want to vent your anger, beat him up, then let him go!" Li Tian said.

"Brother Tian, can't let it go! What if they come to avenge? According to the two-dimensional report, they still have four or five people to the free market." The barbarian said reluctantly.

"I'm Li Tian upright, I'm really not afraid of revenge from those young people! You let him go now, and I wait for them to come and die automatically!" Li Tian said righteously in his words, and the justice was awe-inspiring.

"Damn! Did you hear what Brother Tian said? I'll spare you today! If you really come to avenge, let us catch it, then, I must peel your skin and twitch you! Now! Fuck off!" said the barbarian kicking the captive's ass.

"Stop talking nonsense, you are not the third prince of Nezha, you still have cramps!" Li Tian said with a smile.

Everyone immediately laughed, and Manzi looked embarrassed, and followed with a smirk.

Everyone was laughing, but the captive did not leave.

The captive cried and said, "Why don't you kill me! You got me! Now the world is so chaotic, zombies are crazy, and they eat when they see people. The living are not old, and they don't spit out bones. If I just leave, I will go Now, even if I won't be eaten by the zombies, if I meet the remnants of the dragon, I will have to die!"

"Yeah, you are still crying! Although your request is very special, I can fully meet your request!" Huo Liantong suddenly reached out and grabbed the captive directly.

As soon as his hand was hard, the captive immediately yelled, "Let go of me, it hurts me to death, help!"

Everyone immediately laughed again.

"It seems that you don't want to die! Either hurry up and get out, or let the little boy come to tear a living person!" The barbarian said with a kick at the prisoner's ass.

"If you are willing to take me in, I will repay you!" After the captive was put down by Huo Liantong, he looked at Li Tian flatly.

"Thank you? If you were a girl, I wouldn't doubt you, but even if you were a girl, you are too ugly!" Li Tian said jokingly.

Seeing Li Tian's evil eyes, the captive shuddered all over, and said, "I know where the dragon hides the corpse crystal!"

"Really?"

"Where?"

Huo Liantong, Manzi, Two-Dimensional, and Li Dan simultaneously grabbed the prisoner and asked.

Li Tian took the "Red Cut" out, and the children surrounding the prisoner immediately let go of the prisoner and pushed a few steps away. Everyone consciously formed a circle, leaving only Li Tian and the prisoner in the center of the circle.

Seeing Li Tian took out a strange knife-shaped weapon, the captive trembled with fright, and said tremblingly, "Don't...don't...kill me, I say, I say!"

Li Tian didn't respond to the prisoner's words. As soon as he stretched out his palm, the "Red Cut" in his hand did not fall to the ground. Instead, it floated slowly, leaving Li Tian's palm, centered on the center of his palm, and began to turn quickly. .

The audience, except Xue Ji and Situ Ningbing, were stunned to see this scene.

They are also the first time they have seen Li Tian show such strength.

"You said, with my strength, how about hunting zombies by myself? Even if it is a level 3, 4, or even higher level zombies?" Li Tian said calmly.

"That's...natural!" the captive said nervously.

"Since I have this strength, do I still need the little treasure of the dragon? I will show you these things again." Li Tianjiang "red cut" and opened the skin bag he was carrying, revealing that it was almost full. Full of light blue corpse crystals.

"All second-level corpse crystals, oh my god, and third-level corpse crystals!" Seeing the contents of the bag, the captive was completely shocked.

"These are just the proceeds of my participation in the bounty hunter level test and killing some zombies by the way!" Li Tian brags about not paying taxes, bragging and blushing.

But seeing that the captive had been bluffed by himself, Li Tian took the bag away and smiled with a long meaning, and said: "Now, you should understand what to do!"

"Puff!"

The captive knelt directly on the ground, wrapped Li Tian's thigh, and said with a lascivious expression: "Typical tyrant, oh, not a big man, will you take me as your little brother?"

Chapter 3194: Captive's contribution (2)

Li Tian didn't feel anything in his heart when he heard this sentence, but Manzi, Two-dimensional, and Li Dan felt unwilling to hear this sentence.

Why? We followed Tian Ge from birth to death, we are not qualified to Tian Ge's little brother, you are the most innocent prisoner who is still in the hands of our Tian Ge, but also miss Tian Ge's little brother.

"Brother Tian, does the sentence you just said still work?" Manzi gritted his teeth and stared at the captive.

"That sentence?" Li Tian didn't know the exact sentence.

"Just beat him up first, and then let him go," Manzi said, pointing his finger at the prisoner.

Li Tian laughed and said, "Of course! The big man has said everything, and of course he has nothing to say!"

"What are you waiting for!" Manzi shouted.

The barbarian rushed up and kicked the captive away from Li Tian's body. Two-dimensional, Li Dan followed up and punched and kicked the captive.

Fortunately, Manzi, Li Dan, and Wei Wei knew to avoid the key and hit hard. The prisoner looked like his nose and face were swollen, but he didn't really hurt him.

"Brother Tian, you have beaten, can you accept me as a younger brother?" The captive said still unchanging.

"Fight again!" Li Tian said two words directly.

After screaming for a while, the captive finally became honest, and neither offered to take him in nor to take him as a younger brother.

Following the captives back to the base of the dragon, the captives walked along the way.

"Brother, I saw that your small pickup truck was a bit shabby, and the glass was broken in the battle just now! This guy, the dragon, is searching for people's fats, and he is extremely extravagant. There are a few good cars in his garage. Like this. Brother Tian must take it for ill-gotten gains." The captive took Li Tian and others directly into the garage of the dragon.

Open the garage door, there are four cars parked inside, there are no luxury cars at all.

A well maintained bright blue Ford f-series pickup truck, a Jeep Grand Cherokee, a Mazda 6 and a Nissan.

The pickup truck of the Ford f-series made Manzi shine, and he immediately took it for himself.

Looking at other cars, everyone else had some thoughts, but Li Tian didn't speak, and none of them dared to move.

"Cut it away, it's still useful in the future, let's keep the other cars." Li Tian spoke, and no one complained. After all, gasoline is more expensive than gold.

"Brother Tian! There are other things in the base upstairs!" The captive was trying to please Li Tian, wishing to take out all the good things in the Dragon Base for Li Tian to enjoy.

Li Tian, Manzi, Situ Ningbing, Bai Jing and others followed the prisoners upstairs, while the others continued to stay downstairs, staying vigilant.

"The one on the left is where we live, and it's no different from the pig's nest. Brother Tian doesn't have to go in and see. The one on the right is the warehouse, which mainly stores food and drinking water, and there are no valuables. The real valuables are in the middle. In this house, only the key is owned by the dragon," the captive said.

Li Tian took out "Red Zhan", and used "Red Zhan" to easily cut a small door on the steel security door. Pushing with his hand, "Boom!" There was a sufficient one on the security door. A large hole that accommodates an adult man's free access.

"This...this..." The captive was completely stunned. Could it be that the artifact in Li Tian's hand was not a magical weapon? How can I cut iron like mud?

Without Li Tian's greeting, the captive directly pushed out a one-meter-high safe from the bedroom of the dragon.

"It's all in it. Inside is the corpse crystals accumulated over the past three years. I saw it by chance! It's definitely more than what you have now!" The captive said with a look of excitement. He was worried that Li Tian would not be able to open the safe just now, and now he doesn't even have the last worry.

Li Tian arrogantly used "Red Cut" to cut the safe door directly, and threw the safe door away.

"Wow!" With a sound, the corpse crystals and dead crystals in the safe fell out.

Among the pale blue corpse crystals, there are few pale yellow zombies, and the few zombies are all at level two or above. Two of these corpse crystals are also all level two or above, and there are many third-level corpse crystals, and even Li Tian also found a fourth-level corpse crystal.

"This is a fortune!" Manzi said excitedly.

"Barbarian, put it all away. It seems that the day we go to the Sunset Fortress is going ahead!" Li Tian didn't expect that the dragon would save so many corpse crystals, and the grade is not low.

But if you think about it carefully, you will understand.

In the past three years, the dragon and his gang have been entrenched here. They have been plucking their hairs. Sometimes they saw the other party carrying huge wealth, and even directly engaged in murder and overstocking. After three years of constant accumulation, very few have become many, and the sand has become a tower, and there are so many corpse crystals.

"Bai Jing, tell the brothers downstairs to move all the materials stored in the Dragon's warehouse! Whether it is food or drinking water, even gasoline, guns and ammunition, etc., the Dragon left us such a great gift, If we don't take it away, we must be sorry for him!" Li Tian said to Bai Jing again.

Bai Jing took the lead, opened the window, and shouted several times at the downstairs. Soon everyone downstairs came up. The barbarian broke in. After entering the warehouse, he instructed everyone to move away everything that could be moved.

"Since the arrival of Brother Li Tian, the serfs turned to sing..." Huo Zitong sang a coquettishly, holding a large box of bullets.

"Li! These children are growing up very fast, and now we have so many corpse crystals, we can send these children to the sunset fortress. After we finish this matter, should we also look for Ouyang Shiqing and Duanmuying? Sister?" Situ Ningbing looked into Li Tian's eyes and said.

Li Tian nodded and said, "Yes! It was originally planned for more than a month. I didn't expect these children to grow up so fast. Now the corpse crystals should be almost enough, and I have a new car with these children. Getting on the road shouldn't be a problem. And my skill recovery has been much faster than expected! Now I can use the Ten Jue Sword Qi, and I have enough strength on the road to protect you two!"

"Today, go back and rest for a few days, and then let these children sprint and train for the last time. Three days later, we will set off! But when it comes to leaving these children, I still feel a little bit reluctant. Especially the barbarians and the two-dimensional. A few, really good kids!"

Situ Ningbing's eyebrows twitched slightly, and said, "How do I feel that you seem to be reluctant to bear Bai Jing!"

"Wrong! It is definitely wrong! Now that I have you and the goddess Xueji by my side, how could I still think of other women!" Li Tian immediately said with a hugely wronged expression.

"Forget it! Sister Xue Ji and I are discussing and thinking about helping you to collect Bai Jing! Our Li Tian is the hero of the world, so why should we gather together seven beauties!" Situ Ningbing looked sad. Then, Situ Ningbing's voice changed, and he reached out and gently picked Li Tian's chin, and said, "But I am very satisfied with your performance today. I will allow you to enter our room tonight..."

Chapter 3195: God girl is sick

Li Tian returned home like an arrow.

When I returned to the town, the sky was almost dark. After Li Tian and the others got back from the car, they found that the prisoners of the dragon gang were also following them with a face. This guy ran back at the speed of the car all the way, which shows that he is also desperately trying to follow Li Tian.

"Brother Tian! Except that I don't know how to have children, I will do everything else. Please be sure to keep me!" The captive waited until Li Tian's car stopped and ran over immediately and opened the door for Li Tian. Open, speak immediately.

"So annoying you! Just follow us! But you only have a ten-day performance period. If you can't show the value of your existence within these ten days, don't blame me for driving you away!" Li Tianbu Said politely.

The captive is already very happy! Nodded and bowed, bragging to Li Tian.

Li Tian couldn't wait, and finally waited until dark. After eating, Barbarian, Two-Dimensional, and Li Dan came to make a determination with Li Tian, and fell in love with Li Tian and became Li Tian's younger brother.

Li Tian was thinking of Xue Ji and Situ Ningbing. After simply refusing, he comforted the three little guys and sent them away.

The three little guys just left, and Bai Jing is here again!

Apart from expressing gratitude to Li Tian, Bai Jing's speech was full of ambiguity and hints. Seeing Li Tian's absent-minded answer all the time, Bai Jing could only sigh to herself, changed the subject and talked about her thoughts on the future of these children.

On this point, Bai Jing and the other children had the same ideas as Situ Ningbing. Bai Jing also hoped that she and the children would follow Li Tian and become Li Tian's younger brother and sister.

However, Li Tian did not have such an idea, so he declined the suggestion. Li Tian made it clear that he would send all the children to the Sunset Fortress in a few days to fulfill his promise.

Bai Jing secretly hurt himself and left with a little disappointment.

Li Tian's heart belonged to him, and he didn't see Bai Jing's abnormality at all.

After Bai Jing left, Li Tian could not wait to knock on the door and enter the room of Situ Ningbing and the goddess Xueji.

Under the dim light, Situ Ningbing was like a fairy who fell into the mortal world. Although a little cold, his whole body was full of ice and jade, making people afraid to have the slightest blasphemous thoughts in their hearts, but at this time Situ Ningbing's eyes were full of spring. , His face flushed slightly, and Li Tian's eyes looked like the water in a spring lake, after the breeze, layers of liling.

Situ Ningbing was about to wait until Li Tian came in, locked the door, and put his arm around Li Tian's back from behind. Li Tian immediately felt the temperature and softness of Situ Ningbing's body.

Li Tian swallowed and moved his eyes to the goddess Xue Ji who was sitting by the bed.

And the goddess Xue Ji, after coming to the earth from another world, she learned Bai Jing's dress and dress. At this time, she was wearing a tight-fitting black leather jacket. The long hair spread and slipped down smoothly. Through the black hair, Li Tian saw the goddess Xue Ji remove the usual black leather jacket, exposing the snow-white skin on the neck, and slowly looking down along the snow-white skin, wrapped under the chest A pair of huge white rabbits almost broke out of their restraints.

Xue Ji seemed to know that Li Tian was looking at her, and her head lowered a little more, but as a result, Xue Ji's breathing became more rapid.

With Xue Ji's rapid breathing, the little white rabbit on Xue Ji's chest began to wriggle happily.

There was Xue Ji in front of Li Tian, and Situ Ningbing behind him. The two goddess-level beauties were already in such a situation, and Li Tian's heart beat faster.

"Or..." Before Li Tian had finished speaking, the goddess Xue Ji had blown out the candles on the windowsill.

As soon as the candle was blown out, Li Tian immediately felt Situ Ningbing behind him moving towards him. A mass of heat blew onto Li Tian's face as Situ Ningbing breathed, and soon a soft lips blocked Li. Heaven's mouth.

"Woo!" Li Tian couldn't speak, stretched out his hand to hug Situ Ningbing, walked to the bed in two steps, hugged Situ Ningbing on the bed, stretched out his hand, and completely grasped one of the goddess Xueji. The white rabbit drew the goddess Xue Ji into the battle.

At the beginning, the movements of the goddess Xue Ji and Situ Ningbing were still a bit strange, and they seemed to be a little shy and unable to let go.

But as the temperature in the room gradually went up, the clothes on a few people were reduced one by one, and this strangeness quickly disappeared.

"God, kiss me!"

"Li Tian, I..."

This night, the house is full of spring, this night, the spring is full, this night, Li Tian is exhausted.

...

However, the joy was extremely sad. The next day Xueji began to feel a little unwell. At first she just coughed and had a runny nose. Neither Li Tian nor Xueji took this little problem to heart. Bai

Jing gave Xueji some cold medicine and took it. After taking the cold medicine, Xue Ji began to sleep.

From the third day on, Xue Ji's cough and runny nose had disappeared, and she seemed to be getting better. Her fever kept coming back and forth, and she always started to linger at around 38 degrees.

Xue Ji was ill and completely disrupted Li Tian's plan. The plan to march towards Sunset Fortress had to be postponed.

However, Xue Ji's situation has not improved.

Starting from the eighth day, Xue Ji's body suddenly became sore and weak, her whole body weakened, dizzy, and even local muscle spasms appeared.

Li Tian found some anti-fever medicines for Xue Ji, poured a glass of water, and fed Xue Ji some medicine, but at this time Xue Ji behaved more like a child, tired of being in Li Tian's arms, why he was unwilling Take medicine.

"A Tian, I feel like I am about to die! If I die, will you miss me? If I die, I don't want to be buried on this earth, I also want to go back to my home, Li Tian, my dear Ah Tian, can you send my body back?" Xue Ji's cheeks flushed and hot, lying on the bed, covered with a thick quilt, half of her body crawling on Li Tian's lap, hugging Li Tian's legs said with a blurry eyes.

"Little fool, how can you die? Fever is just a very common little problem. After taking these medicines and sleeping beautifully, you will soon get better." Li Tian held a glass cup and wanted to give Xue Xue Ji feeds medicine.

Xue Ji shook her head and said in pain, "I don't want to take medicine, it's hard to eat, especially those capsules, it's hard to swallow! A Tian, don't lie to me, I know I'm dying! A Tian, thank you, last night, no, I am very happy these days."

"It's all to blame for you, the night before yesterday to toss Sister Xueji..." Situ Ningbing quietly pinched Li Tian's arm, and whispered in Li Tian's ear: "If Sister Xueji has a long and two short, you will Never want to sleep in our bed again!"

Li Tian was embarrassed to die, and his heart was more guilty.

Li Tian is already an adult, and he has sufficient self-control in such matters. But that night, Li Tian deeply blamed himself, and secretly made a decision that he would never be so Meng Lang in the future.

"Li Tian, I want you to feed me medicine with your mouth, I'm afraid of hardship..." The goddess Xue Ji stretched out her arm around Li Tian's neck, looked at Li Tian affectionately, and said.

Chapter 3196: set off

"Or, shall we go out?"

Although Xue Ji was a patient, she was so ambiguous in front of Li Tian, and Li Tian was completely devoted to Xue Ji. It was not like Li Tian talked about colleague relations at all, and Bai Jing had only come out long ago. , But at this time he still said jealously.

"Okay!" Situ Ningbing saw a lot of young boys and girls caring about Xue Ji coming in the room, and he was really worried that Li Tian and Xue Ji would continue to make some unsuitable images for children, and said helplessly.

After going out, the barbarian walked over angrily, and said to Bai Jing: "Sister, I'm a little bit tired of that captive! It's been almost ten days, and the performance is useless. The first night he brags that he used to be The chef of a five-star hotel, he cooked the meal and caused everyone to eat the burnt meal. A few days ago, he said that he was very strong and wanted to go hunting zombies with everyone. As a result, he encountered a zombie dog. , He was chased by a bereaved dog and ran all over the street. If it weren't for Huo Liantong's help, he might have died. Today he was even more exaggerated. He said that his essential job was actually a doctor. He said that he must treat sister Xueji!"

"Counting today, it's been eight days. I want to talk to Brother Tian and drive this little liar away!"

"He said he was a doctor?" Situ Ningbing asked suspiciously.

In the last days, there is a shortage of medicine, and a doctor is still very important in the last days. If the prisoner is really a doctor, it might be possible to really show Xue Ji a medical treatment.

"Sister Ningbing, do you believe that liar?" The barbarian said angrily.

It's not that Situ Ningbing believes in a liar, but Xue Ji's condition is getting more and more serious now. In case there is something short and long, it is definitely not what Situ Ningbing wanted to see.

"Barbarian, bring the prisoner here! Let him show Xue Ji, if he is right, we can save Xue Ji, we will keep him, but if he talks nonsense, don't ask Brother Tian. I will rectify him on the spot!" Bai Jing said coldly.

Since Bai Jing and Situ Ningbing both had this idea, Barbarian could only nodded in agreement.

Soon, the captive was brought over.

When the prisoner came from the Dragon Base, because he was beaten by the barbarians and others, his face was bruised and swollen. After a week of healing, the bruises on his face turned dark red. When he was unceremoniously brought by the barbarians and others, the prisoner's face didn't look very good either.

"Boy, you'd better be honest. If in order to stay by Brother Tian, you play tricks and treat sister Xueji indiscriminately, be careful that I cut you directly!" The barbarian held a machete in his hand and shook it, threatening the captive Tao.

"You stupid humans, you really don't know how to write dead words. There is a famous doctor like me who doesn't know how to ask for advice and prevents me from seeing the patient. Without my consent, you dare to use drugs indiscriminately. At least you will bear the consequences?" the captive said angrily.

Situ Ningbing pulled the captive in front of him and asked sternly: "I don't care if you are a real doctor,

The captive did not hesitate, nodded, and said, "Although Xue Ji's showed symptoms of a cold, after taking the cold medicine, the cold symptoms disappeared, but the body temperature did not

drop. Repeatedly, if I didn't guess wrong. If so, Xue Ji's fever was not caused by a cold at all, but tetanus caused by wound infection!"

Situ Ningbing was taken aback, now Xue Ji took a lot of medicine, but all of them were treated according to the fever caused by the cold. If the diagnosis of tetanus can be really confirmed, it is much easier to prescribe the right medicine now.

The crowd gathered around the prisoners and came to Xue Ji's room.

Li Tian saw that Situ Ningbing and Bai Jing and the others were returning, and they came back with the prisoners, he knew that things seemed to have taken a turn.

Situ Ningbing talked about the situation with Li Tian, and Li Tian also agreed to let the prisoners check on Xue Ji.

"Don't move me! Li Tian, don't leave me! I only have you in this world, please don't leave me!" Xue Ji did not cooperate with the prisoners' inspection at all!

"Fool, how could I leave you! It's just that you are sick now, tell me, do you have any wounds on your body?" Li Tian gently stroked Xue Ji's black hair, and softly calmed Xue Ji.

Xue Ji stretched out a slender and tight leg from under the quilt, pointed to a small finger-sized wound at the ankle of her calf, and said, "It's this small wound, it should be fine! I have suffered more severe injuries before. , It's all right!"

Seeing this, the wound had turned black, and some muscles in the wound had begun to rot. The captive frowned and said: "There is no basis for laboratory tests, but tetanus can basically be diagnosed! Just this When was the wound caused! Didn't you find it? Even ordinary wounds should be dealt with urgently!"

Li Tian shook his head slightly and secretly blamed himself why he was so careless that he didn't even notice that Xue Ji was injured.

Xue Ji came to the earth from another world, and her whole body of illusion skills was lost. After being injured, she did not have modern medical consciousness, and she did not regard this small injury as a matter. But what about Li Tian, he also neglected.

"Is it serious?" Li Tian asked eagerly.

"Don't look at the wound, but the symptoms of tetanus can cause spasm. If the respiratory muscles and diaphragm muscles continue to spasm, it may cause respiratory arrest and may cause life-threatening. Now, I can only treat Xue Ji's wound. If treatment is needed, I'm afraid our conditions here will not be met. First, I need anti-venom, I need syringes, glucose, and anesthetics. Secondly, I need to isolate Xue Ji to avoid light and sound stimulation. The rest of you should also minimize visits to avoid harassing her!" the captive said.

"We can exchange these things in the next free market." Bai Jing interrupted.

"No! I'm afraid we won't be able to wait for the next issue of the free market. You must know that I can only treat Xue Ji's wounds simply. You have seen how her wounds have deteriorated. If you don't want to continue to deteriorate, maybe it's best. , We still send Xue Ji into the Sunset Fortress as fast as possible! From here, if everything goes well, you will be able to reach the Sunset Fortress in two days at most three days! You must know that time is life!" Duan Baijing's words, suggested.

Li Tian hugged Xue Ji tightly, and Xue Ji's legs began to cramp again.

Li Tian gently stroked Xue Ji's hair, raised his head, and said firmly: "Everyone, this time it was caused by my mistakes and negligence. I don't want to continue to feel guilty anymore! Prepare yourself and leave tomorrow morning! Shao! Bring some supplies to reduce the weight of the vehicle. Be sure to arrive at the Sunset Fortress within three days!"

Chapter 3197: Sunset Fortress

The small town where Li Tian is located is no more than 200 kilometers away from the Sunset Fortress in a straight line. However, although the roads in the two places are the same in this era, the damage is serious, and the speed of cars driving is far less than the high speed of the previous life.

Moreover, along the way, there will be attacks from zombies, zombies, and zombies in the sky. Fortunately, the children standing behind Li Tian have now grown up, and their combat effectiveness is still good.

After three days of traveling, along the way, some vehicles from other organizations gradually gathered at the airport. Although everyone had the same destination, they did not communicate with each other.

At noon on the third day, a city finally appeared in the sight of the team.

This is a city built on the edge of the desert. When he was on the edge of the city, Li Tian saw many wind turbines erected on the hillside. The blades of the wind turbines were still rotating, and under the generators, from time to time Some zombies can be seen.

As we continue to drive forward, a row of steel wire meshes welded by steel pipes with the thickness of arms and steel bars with the thickness of little thumbs appeared in front of them. The height of the isolation belt composed of these steel meshes is more than five meters. This isolation belt covers the entire city. After making a circle, if you want to enter this isolation zone, you must pass through a guard tower guarded by soldiers.

It is daytime, and the soldiers on the watchtower have just performed a routine inspection. Although it is only a routine inspection, the inspectors are not polite to everyone.

Like those bounty hunters, especially the high-level bounty hunters recognized by Sunset Fortress, these inspection soldiers are only routine inspections.

But for people like Li Tian who don't have any organization to recognize the strength, the faces of those inspecting soldiers are not very good. Li Tian was still very polite to each inspector and sent a second-level corpse crystal. After receiving the second-level corpse crystal, the faces of the inspected soldiers immediately showed a smile, and Li Tian and others did not issue it to enter the sunset fortress. Peer certificate of the main city.

As for other vehicles that have neither the strength nor the sense of the inspectors, they have to face the cold words of the inspectors, and those people can only get Luoxing and Luoyue Sun Global, the four small satellite cities of the sunset fortress. Pass.

Ignoring others, Li Tian and the others passed through the isolation belt and drove forward for less than five minutes. A small city surrounded by reinforced concrete appeared in front of them.

I took a look at this small satellite city, probably less than seven or eight square kilometers in size, but the small city is densely packed with uneven buildings.

This is one of the satellite towns.

Ignoring this small satellite city directly, Li Tian and the others continued to drive forward, and then walked forward for about three minutes, suddenly a big city appeared in front of them.

It is said that this is a big city because this fortress looks at the past, at least it already has a size larger than the general county before the end of the world. The entire fortress is surrounded by an ultra-high ten-meter-high reinforced concrete wall poured with concrete. There are four gates in the south, east, north and west of the fortress. Inside the fortress, buildings over ten meters above can be seen everywhere. Unexpectedly, at least seven or eight tanks were parked on the walls at the top of each gate in this fortress for defense.

"Get out of the car and be checked!" At the gate of the fortress, several soldiers in uniform with brand-new machine guns stopped the car and said.

Li Tian and others got out of the car. After checking the pass, the soldier said: "Please park your car in the parking lots on the left and right sides of the entrance. No foreign vehicles are allowed inside the fortress. Please be valuable in your car. Collect your belongings! It's not as safe as you think."

Li Tian carried Xue Ji on his back, Situ Ningbing, Bai Jing, Manzi and others followed Li Tian, and everyone stepped into the legendary Sunset Fortress.

Entering the gate of the sunset fortress, there is another scene in front of you. The street in front of you is quite spacious, and there are few vehicles on the two-way four-lane road.

"Aren't vehicles not allowed inside? Why are there still cars in the fortress?" the barbarian asked dissatisfiedly.

"No foreign vehicles are allowed to enter. The cars driving in this fortress must belong to those who are capable and qualified in the fortress!" Bai Jing analyzed.

I saw Li Tian and others entering the gate of the fortress, and saw a dozen people squatting inside the gate of the fortress wall. These people are of different ages. The oldest is about 60 or 70 years old, while the youngest is only 12 years old. . These people have ragged clothes, but their eyes are divine, just like hunters, their eyes constantly sweep into everyone.

Seeing Li Tian carrying a woman on her back, many people's faces immediately flashed with excitement, as if they had found their prey.

Wow, more than a dozen people gathered around Li Tian and others in the middle.

Li Tian saw that these people still carried a small card with the symbol of Sunset Fortress on their necks. The small card has two big characters written in block letters, and there is a line of small characters below it.

"Is it your first time to enter Sunset Fortress? Do you need a professional guide? I have been in Sunset Fortress for more than two years, and I know the Sunset Fortress well." said a man in his 30s.

"Don't listen to him, he just came to Sunset Fortress less than a year ago. I am the old man of Sunset Fortress. How many are these people who are planning to take refuge in friends? Or are they

running to Sunset Fortress to recruit and expand? Or? Are you planning to participate in the Bounty Hunter level test in the Sunset Fortress?" The speaker is really an old man. This old man is in his sixties. Although his clothes are also ragged, his clothes are much cleaner and his body is not so clean. More peculiar smell.

Li Tian said: "I have an injured friend here. Now I need to send my friend to the best hospital in Sunset Fortress for treatment. Please also uncle to help me lead the way! As for the cost, I will naturally give you according to the standard! "

A smug expression flashed across the old man's face, as if he had already guessed that Li Tian would ask this question.

The old man restrained the trace of pride, shook his head, and said, "Don't mention the best hospital in the Sunset Fortress. Even the ordinary clinics in the Sunset Fortress are important now. Moreover, the medical accident department of the Sunset Fortress also inspects it. Great. If you are not held down in the sunset fortress, no outpatient or hospital will be allowed. Unless you can have friends or organizational departments willing to take you in!"

Li Tian was startled. He didn't expect to come to the Sunset Fortress so hard that he could not directly enter the hospital to treat Xue Ji's injuries.

"Why are there such regulations?" Li Tian asked angrily.

Chapter 3198: Ask me (1)

"It seems that this is the first time you have come to Sunset Fortress." The old man paused, and continued: "Sunset Fortress is the largest fortress within a few hundred kilometers in the vicinity. The permanent population here has exceeded 50,000. The four nearby satellite cities have a population of more than 100,000. However, there are only two hospitals in the fortress at sunset, and the number of approved outpatient clinics in the fortress is no more than 10. These outpatient clinics and hospitals are only responsible for receiving the fortress permanent personnel. Injuries. Once an outsider becomes ill, it must be tested by the fortress's medical malpractice department to confirm that the patient's injury is recognized as an ordinary injury, and then the hospital will be licensed to receive treatment orders."

The old man continued: "If the medical accident department detects that the patient's injury is contagious, for the sake of the safety of the sunset fortress, the patient is likely to be driven out of the fortress! This is also something that there is no way in this era! After all, no matter who it is, they will not make fun of the lives of the entire fortress!"

"But there are no absolutes in the world. If you can pay the price, there are still many underground clinics in this fortress who are willing to accept these patients! Of course, these clinics cannot be compared with regular clinics in that respect. It doesn't matter if you don't want to go to the underground clinic. There are still many intermediary organizations in the fortress who are willing to take this risk. I still know many related intermediary organizations in this fortress, and these intermediaries are absolutely safe."

Having said this, the old man's eyes showed a hint of cunning, and there was some greed in his eyes.

"No! I still have some friends in the fortress! Please take me to the Supreme King Bounty Hunter Team!" Li Tian directly rejected the old man's proposal.

Hearing what Li Tian said, the old man showed some disappointed expressions on his face, and said to Li Tian: "Although the sunset fortress is not big, it is still very difficult to find an unknown bounty hunter. Maybe three. I can't find the person you are looking for for five days. And I think the friend you are carrying should be suffering, or it is better to receive treatment as soon as possible."

"That is, find an intermediary organization to help you. Although it costs more money, it can at least save time!"

"I think they are poor ghosts, they can't afford the agency fees at all, let alone the medical expenses. Even if it's bad, we won't be able to pay even our guide fees!"

The guides around Li Tian and others immediately began to cooperate with the old man's words and said sarcastically.

The more these people say this, the more Li Tian can feel the silly words of these people, shook his head resolutely, and said: "Let's find my friend first! Their Supreme King belongs to the bounty hunter recognized by the Sunset Fortress, look for It shouldn't be too difficult. If you can take us to find them, I can pay double the guide fee!"

"If you don't have money, you have to pretend to be big heads of garlic. Anyway, I don't believe that they have money. If you want to be deceived, please go..." After someone said coldly, they turned and left immediately.

Soon, the dozen or so guides who were still around Li Tian and others just walked away completely.

At this time, the twelve or thirteen-year-old boy squatting at the door saw that everyone had dispersed, and then he came to Li Tian and said: "I have heard everything you said. I am willing to take you to find the Supreme King's reward. Golden Hunter Squad. You can call me the second tiger. After you find it, I hope you can fulfill your promise and will pay me double the guide fee!"

"No problem!" Li Tian said.

Follow Erhuizi to leave the sunset fortress gate and walk towards a low house on the root of a wall. After walking out a few hundred meters, Er Huizi looked back at the guides who were still squatting at the gate of the city and waiting for the target. With a bright smile on his face, he said to Li Tian, "Fortunately you didn't follow them to the underground clinic. , Otherwise you will definitely fall into endless trouble."

Li Tian had some guesses in his heart. In order to confirm his own guesses, he asked: "Why do you say that? Are so many of us afraid that they won't succeed!"

Er Huizi did not refute Li Tian's words, smiled, and continued: "Although I don't know what method they used, I have seen too many people who followed them to find underground clinics or intermediary organizations, leaving the sunset in despair. The fortress."

Li Tian did not continue to ask, but instead asked: "My friend, the Supreme King Bounty Hunter team is indeed not well-known, how can you guarantee to find them quickly?"

"When the sunset fortress was built, I was here to discuss life. Although I dare not say that I know everyone in the fortress, but about every building in the fortress, what is in the building, and what is inside. People, I can still know nine out of ten! And the supreme king bounty hunter squad that you know, I happen to know too." Said Erhuizi's pride, the smile on the boy's face became brighter.

"Then the hospitals and clinics here are really as strict as they said?" Li Tian asked.

Erhuizi nodded and said, "In addition to hospitals and outpatient clinics, there are many things in Sunset Fortresses that have restrictions. For example, fresh water supply, medicine exchange, weapon exchange, etc., are strictly restricted. Of course, these are all restricted. It is aimed at ordinary people, and high-level bounty hunters, and core members of other organizations are not subject to these restrictions. If you are a bounty hunter above level 4, I will send you directly to the fortress hospital now?"

Li Tian shook his head. He had participated in the bounty hunter level test, but because of an accident, he did not earn the bounty hunter level seriously.

Er Huizi still kept a smile on his face, and said, "It doesn't matter. Find your friend and ask your friend to take you to the clinic. It's the same! But if so many of you want to live here, I'm afraid It's not that easy!"

While they were talking, a few people had already arrived at the Things Street of the Sunset Fortress. On both sides of the street were two rows of low two-story buildings in front of them. The facades of the two rows of two-story buildings were densely hung with colorful flowers of various sizes. Various signs.

On the road facing the street, almost every door face gathered some people. Many low-level bounty hunters stood on the road fully armed, showing his high-end equipment to passing pedestrians in order to attract customers.

"This is the Street of Things. The low-level bounty hunter team of Sunset Fortress is mainly concentrated here. Although these bounty hunter teams have won the title of bounty hunter, they mainly rely on their own hunting of zombies to obtain corpse crystals. Will accept some low-end bounty missions. And the supreme king bounty hunter squad you are looking for is in front." Erhuizi said.

Chapter 3199: Ask me (2)

Li Tian and the others followed Erhuizi for about 500 meters. When they were moving forward, other bounty hunters would come up to sell themselves from time to time, but they were easily resolved by Erhuizi.

In front of a dilapidated two-story building on the corner of the street, following Er Huizi's fingers, Li Tian saw a sign that was only one foot square and the words Supreme King written on it.

Li Tian thought he had reached the place, but when he turned around, Er Huizi had already walked towards the alley behind the second-story building. Li Tian and others had to follow.

Follow Erhuizi to the back of the two-story building. Here is a row of cold and damp small houses temporarily built on the second-story building. The walls of the houses are made of red bricks and stones, and the roof is made of wood. Some linoleum is pressed on it. The house is not high, probably only one meter eight, Xiang Li Tian's height, if you want to enter such a house, you have to bow your head in, and the aisles in front of these small houses are also very narrow, just over one meter. Two people like Huo Liantong cannot walk side by side.

The sewage in the aisle flows horizontally, and it exudes a musty and smelly smell. Very few people come here, but Erhuizi is still familiar with the road.

"That's it!" Er Huzi pointed to a low room and said.

Sure enough, there was a wooden board with the words Supreme King hanging on the room, which should be the place where the Supreme King stayed at Sunset Fortress.

Er Huzi went to knock on the door, leaving Li Tian and others waiting at the door.

From leaving the base town, the faces of those boys and girls were filled with excitement, especially when they saw the city of the sunset fortress, this excitement reached its peak.

But when they followed Erhuizi to the things street step by step, these people began to be silent, and the excitement on their faces was replaced by disappointment.

And when they followed to the backstreet of Things Street, the faces of these boys and girls were not just disappointed.

"Compared to our base, the living environment here is so bad!" Manzi couldn't help but said.

Two-dimensional nodded, and said, "It's more than a bad thing! Part-time job is the difference between heaven and hell. When I heard Wang Rui said that their living environment is not so good, I haven't taken it to heart yet, and now I know what they said. It's all true!"

"It turns out that Sunset Fortress has such a desolate place, I thought Wang Qiang lived in a good environment?" Manzi said.

At this time, Erhuizi retreated, and Wang Qiang followed him out.

"Who should I beg me for something, it turned out to be you! Haha" Wang Qiang saw Li Tian and the others, with a cold flash in his eyes, he immediately showed an arrogant smile and said with a smile.

"Brother Wang Qiang, we met again! This time we came to Sunset Fort because this friend of mine was ill. I hope that Brother Wang Qiang can see the face of our fate and help us find an outpatient clinic. Let my friend receive treatment as soon as possible!" Li Tian directly ignored Wang Qiang's arrogance, but said sincerely.

"Hey! How do you say this? What can we do for you in such a desperate life like ours? Did you find the wrong person?" Wang Qiang clearly heard the words of the barbarian, and the fashionista said with a mockery.

Situ Ningbing wanted to get angry and was held down by Li Tian. Li Tian adjusted and said, "It's our fault. Barbarians shouldn't talk nonsense. Please also the Supreme King can help us with this! As for the commission, it won't. Without yours!"

When Wang Qiang heard the word commission, he finally had a smile on his face, but he glared at the barbarian and continued: "No matter how poor life is here, this is also a sunset fortress! It's not just a small place to compare. No. I know how many people desperately want to settle down in the sunset fortress in a year, and it is not just that one person can settle down in the sunset fortress!"

"Looking at the face we had had at the beginning, I'll send you to the outpatient clinic. For commissions, I will give you a preferential price and give you ten second-level corpse crystals!" Wang Qiang hesitated and said There is a price.

"Ten second-level corpse crystals!" When Er Huzi heard this number, a strange expression flashed across his face.

According to ordinary market intermediary organizations, there are probably five second-level corpse crystals at most. Even if they encounter a more dark-hearted intermediary organization, they will receive at most seven or eight second-level corpse crystals, but Wang Qiang even opened his mouth and asked for ten. Second-level corpse crystal. This is a friend, it is already an enemy!

Er Huzi's face was a little ugly.

He was commissioned by Li Tian to find the Supreme King, but this does not mean that the Second Huzi would watch the people he brought by the Supreme King as a bully.

"Captain Wang, did you make a mistake? Even a black intermediary will not exceed the price you just broke out!" Erhuizi said with a smile.

"Black intermediary?" Wang Qiang said disdainfully: "Second Huzi, I am the supreme king here, our supreme king belongs to other ordinary mercenary squads, can other black intermediaries be comparable?"

"We are a bounty hunter squad with the right to reside in the Sunset Fortress. Don't these people you brought look down on where we live? Although the place is a little worse, the property rights belong to our Supreme King. In other words, now Our Supreme King is a resident of the real sunset fortress. There are not many bounty hunters squads that have the right to send patients to hospitals instead of outpatient clinics on the whole street? And our Supreme King is one of them. Other rewards What about the Golden Hunter team and the black intermediary?"

"Okay! That's it!" Li Tian interrupted Wang Qiang's words, stretched out his hand to take out ten second-level corpse crystals from the skin and asked the barbarian to pass it to Wang Qiang.

Seeing Li Tian's quick move and pulling out ten second-level corpse crystals at once, there was no trace of distress at all, but Wang Qiang felt a little uncomfortable.

But Er Huzi looked shocked. He didn't expect Li Tian to take out the corpse crystal to Wang Qiang so quickly.

"How much is your commission? Is one second-level corpse crystal enough?" Li Tian took out another second-level corpse crystal and asked Erhuizi in his hand.

Erhuizi swallowed, this second-level corpse crystal has exceeded his monthly income.

"It doesn't take that much, only ten first-level corpse crystals are enough for the double commission!" Er Huzi put away his greed and said with a smile.

"But we don't have a first-level corpse crystal! The extra department is even an extra reward!" Li Tian threw this second-level corpse crystal to Erhuizi.

Seeing that Li Tian gave Erhuizi a second-level corpse crystal in his hand, Wang Qiang's heart was even more unhappy, and he began to calculate how much more corpse crystals could come from Li Tian's hands.

Chapter 3200: Ask me (3)

"You can't go to the hospital with so many people! Li Tian, you can choose up to three people to follow me. As for the others, you can entrust Erhuizi to take them to a small hotel nearby! Of course, you can also choose Let your people stay with me temporarily, but in terms of costs..."

Wang Qiang has already begun to calculate. If these people count a second-level corpse crystal a day, then hold them for a few days, and a few second-level corpse crystals will come out soon. When the time comes, other aspects will be calculated, and the income of this transaction will far exceed the harvest of going out to hunt and kill a zombie.

"No! Erhuizi, you take these friends of mine to find a better hotel to stay first. As for commissions and fees, you don't have to worry about it!"

In the last bounty hunter test, Li Tian had accumulated some corpse crystals, and when he copied the nest of the dragon, Li Tian's wealth had increased sharply. After all, the wealth of the dragon was planned by the dragon to settle in the sunset fortress or other places.

Wang Qiang's thoughts fell through, and he couldn't help being furious.

Spicy Li Tian, Lao Tzu is familiar with you, you don't even believe Lao Tzu, let this little ***** Erhuizi take you to the hotel.

Li Tian chose Barbarian, Wei Wei and the captive to follow him, while Situ Ningbing and Bai Jing took care of the others and followed Er Huizi to the hotel.

Wang Qiang was upset, but for a while he couldn't find a better way to calculate Li Tian. He brought Li Tian and others to the Sunset Hospital, and Wang Qiang came up with a better way!

When he arrived at the hospital, Wang Qiang was not in a hurry to take Li Tian to find a doctor. Instead, he went to the rest area and sat down. Li Tian didn't know what Wang Qiang was playing, and thought Wang Qiang had other arrangements.

"Li Tian, I am responsible for sending you to the hospital, and I am also responsible for ensuring that the hospital accepts you. But you also know that the supply of medicines in the Sunset Fortress Hospital is also restricted, like Xueji. There are only high-end products like me. Bounty hunters approved by Sunset Fortress will not be subject to this restriction. Therefore, if you need to enjoy my right to buy medicines, you also need to pay me a certain fee. In terms of the face we know, we will discuss a package price with you Right, pay me fifty second-level corpse crystals at once!" Wang Qiang said calmly.

Li Tian held Xue Ji in his arms, even though he knew that Wang Qiang, the bastard, was opening his mouth in the lion, he was helpless. Li Tian didn't want to take any risks, so Xue Ji could suffer more damage.

"Wang Qiang, don't overdo it! When we were at our base, we took in five of you, provided accommodation for the five of you, provided food and water, did we ever ask you for a corpse crystal? And now we come When you arrive at Sunset Fortress, you not only don't know the rewards of Entu, but you also want to reap the benefits from us. Don't go too far!" The barbarian has been holding back all the way, and he couldn't help but remind Wang Qiang.

Wang Qiangteng stood up with a sneer at the corner of his mouth, and said, "Excessive? What do I have to say? Back then, at your base, if it weren't for our supreme king's kindhearted heart, it also depends on your team's respectable face. , Our Supreme King did not make other unreasonable demands. If you change to another bounty hunter team, I am afraid that you will be served with the pot already. You have already fed the zombies, so you are still eligible to sit here and talk to me. Yes. As for bringing you to this hospital, this is also what you want to ask me. I charge a certain commission, which is reasonable, and excessive."

"On the contrary, you guys, since there are those who ask our supreme king, you should have the attitude and consciousness of the askers. But you not only don't trust our supreme king, but you also have resentment, and now you speak rudely."

"Li Tian, let's go! I don't want to make you feel wronged because of me," Xue Ji, who was so behaved and barely speaking, said softly in Li Tian's ear.

Li Tian felt soft. At this time Xue Ji was still considering Li Tian's face, how could Li Tian not be moved.

"Don't worry! It's okay! He just wants to earn some corpse crystals, a pure villain, and we will give it to him!" Li Tian whispered in Xue Ji's ear.

"Barbarian, sit down! Brother Wang Qiang is right. Since we have the supreme king, then we should have the attitude and consciousness of a seeker! Apologize to Brother Wang Qiang!" Li Tian said.

The barbarian reluctantly apologized to Wang Qiang: "I'm sorry brother Wang Qiang, because sister Xue Ji is ill, I am more anxious in my heart. I rushed into it for a while, and I will ask you Haihan."

Wang Qiang said disdainfully: "I won't be familiar with the rough people from such a small place like you. But I tell you, don't think that our Supreme King really cares about your fifty second-level corpse crystals, if it weren't for your sister. For the sake of the face, even if you pay us more corpse crystals, I will not accept this task. At that time, hum, I see how your friend's injuries are treated!"

When Wang Qiang was speaking, he saw Li Tian put Xue Ji in his arms on the seat next to him and gave it to the two-dimensional care next to him. He suddenly stood up, and his heart immediately became nervous: "What do you want to do? Here is the setting sun. Fortress, dare you to move me, be careful I won't accept sending you to this hospital to treat your friend!"

"Really? The Supreme King has a big tone!"

Wang Qiang turned his head and saw a fat ball standing behind him. The fat man carried a long worker on his back and a hand-made machete on his waist. The bounty hunter badge on the fat man's chest turned out to be a three-level bounty. Hunter badge. What made Wang Qiang even more fearful was the Fat Bounty Hunter badge, a logo on his clothes, the logo of the Sakura Legion!

"Arslan, when did your dead fellow join the Sakura Army?" Li Tian saw that behind Wang Qiang turned out to be the fat Alslan who had participated in the bounty hunter level test with him in the village. Frozen, then said loudly.

"Li Tian, my good brother, I thought you were eaten by zombies! It's great to see you!" Alslan pushed Wang Qiang aside and gave Li Tian a heavy hug.

Seeing Li Tian and Arslan hugging each other, Wang Qiang's eyes became a little straight.

How is this possible? How could this **** country boy know the big figures of the Sakura Legion, and it seems that the relationship between the two is extraordinary!

"Brother Li Tian, listening to your chat just now seems to be so unpleasant! What happened, let your brother help you solve it! After all, half of the brother's life is yours!" Fatty Alslan said bluntly Said.
