

A Killer 3241

Chapter 3241: The value of the head

"I'm sorry! Because of Li Zheng, one of my friends is still alive and dead, and another friend is seriously injured! I didn't control my emotions for a while, so I rushed to make a move, and I asked brother Wei Wu to Duoduohaihan!" Li Tian said with a fist.

The expression on Wei Wu's face was a little better. He knew that Shelipuding and He Zhizhuo had friendship with Li Tian. He Zhizhuo seemed to help him Wei Wu, but He Zhizhuo was not helping Li Tian.

If he is torn at this time and really wants to fight for death, then it may not be good for Wei Wu at that time.

Wei Wu waved his hand, saying that he would not pursue it and did not speak.

"Brother Li Tian, what is going on?" Shelipuding changed the subject when seeing Li Tian holding a head in his hands.

Li Tian pointed to the head in his hand and said, "This is the head of the Red Wolf! It was Li Tian and my team who killed the Red Wolf after a fierce battle. However, Li Zheng not only did not thank me, Li Tian, and his Chi Lang's subordinates rescued them, and even wanted to use soldiers to come down to the city to threaten me Li Tian, wanting to get a piece of the pie!"

"Red Wolf?" When Li Tian said that the head he held in his hand turned out to be the head of Red Wolf, Shelipuding and others asked in surprise at the same time.

"Huh! Holding a head casually, saying that it is the head of the red wolf, do we really think we are three-year-olds?" Wei Wu snorted, and said with a sneer: "Red wolf is an evolution among immune persons. According to the analysis based on the information obtained so far, this person has superb physical healing ability, and ordinary swords and spears cannot cause effective damage to him! Even with the Seven Swords Dragon Dragon Sword, Jia Youlong has also been fighting the Red Wolf. A tie is a situation where both lose and lose. What ability do you have to defeat the Red Wolf and kill him? Could it be that you are a bit better than Jia Youlong?"

Wei Wu is clearly picking things up. If Li Tian continues to say that the head in his hand is a red wolf, it will give Shelipuding and He Zhizhuo an illusion that he is more powerful than Jia Youlong and will fall into Wei Wu's trap.

"We can testify that the head in Li Tian's hands is the head of a red wolf!" A bounty hunter who was approaching the city saw Li Tian who had taken them out of the red wolf's hands was questioned and immediately interjected.

"Yes, we can testify!" The other bounty hunters immediately agreed.

"This is really the head of Red Wolf!" Gun God Han Gang nodded and said.

Han Gang and the baton man fought against the Red Wolf. Although the Red Wolf appeared as a woman at that time, they still knew at a glance that the head was the Red Wolf.

"It's not enough. I have a question. The personal strength of the Red Wolf is very good. Even if you have a sharp weapon and can use the Qi to defend the sword, the Red Wolf may not be unable to avoid your attack!" The baton man asked suspiciously .

When Wu style and Chilang fought against each other, Wu style had a deep understanding.

The martial-style weapons and batons hardly hit the Red Wolf a few times. Otherwise, the place where they were fighting was the Sunset Fortress. The martial-style attacks destroyed many buildings and attracted the attention of others in the Sunset Fortress. It was Han Gang who was still there. Cooperating with the attack on the side, I am afraid Wu Shi would also be implicated and injured.

At this time, the captain ran back with the two legs of the Red Wolf in a circle, and stopped in front of the stone steps at the door of the commercial bank.

Seeing the captain and seeing the captain holding two legs, He Zhizhuo first guessed the passing.

"She is a zombie? A zombie under your control?" He Zhizhuo asked.

Seeing Li Tian nodded, He Zhizhuo was relieved, and took all the steel wires that control "Red Slash" away, and when he saw Li Tian put "Red Slash" away, he said: "Did you control the zombies? , Let the zombies attack suddenly, hug the red wolf's legs, and then you will use the Qi Yujian to kill the red wolf?"

Although He Zhizhuo didn't see Li Tian and the red wolf fight with his own eyes, He Zhizhuo still guessed it.

Li Tian nodded again.

He Zhizhuo also nodded and said to Wu Shi and Wei Wu: "Why does the boss want us to form a five-person team? To a large extent, it also considers the abilities of the five of us to complement each other."

"Among them, my ability can limit the body of the red wolf to a certain extent, and Wei Wu's ability to control the butcher knife is also a long-range attack and kill. In this way, when the two people of Shelipuding and Wushi contain the red wolf, I can suddenly attack and control the Red Wolf, and then Wei Wu completes the beheading blow."

"It's just that I didn't expect that what the five of us could only accomplish under the condition of extremely perfect cooperation could be accomplished by Li Tian alone! Probably only Li Tian can control the nine-color corpse crystal that can merge with the Qi sword. People with zombies can do this kind of thing!"

Speaking of this, He Zhizhuo paused and said, "Li Tian, can you give us the head of the Red Wolf. Our Seven Swords and the Sunset Fortress need this head to boost morale, and we need this head to fight the arrogance of Red Blood. As for the red wolf's reward, we will definitely give you the same amount!"

Now Li Tian has understood that in the previous confrontation between Scarlet Blood and Seven Swords, Seven Swords were completely defeated, and the Tianshan area controlled by Seven Swords had also fallen into Scarlet Blood's hands. Seven swords finally had no choice but to accept the annexation of the Sunset Fortress.

The reason why the great master of the Sunset Fortress was angry was precisely because the Red Blood sent the Red Wolf to the Sunset Fortress, and the Sunset Fortress had nothing to do with the Red Wolf.

It can be said that the value of this red wolf's head is far higher than his own reward price. For Seven Swords, the red wolf's head is revenge, and for the sunset fortress, the red wolf's head is strength.

"Okay! I want this head to have no effect!" Li Tian directly threw the red wolf's head to He Zhizhuo.

He Zhizhuo took Red Wolf's head in his hand and gave Li Tian a grateful smile.

"Li Tian, don't you really think about joining Seven Swords or Sunset Fortress? I think the boss will be very happy to know that you join us! And if you join us, your people will really have nothing to worry about. Now!" He Zhizhuo said seriously.

Li Tian shook his head and said, "Thank you for your kind invitation, but Sunset Fortress is just my temporary footstep. I should leave Sunset Fortress soon!"

He Zhizhuo and Shelipuding showed disappointment on their faces at the same time. Perhaps Li Tian's goal was not the Sunset Fortress at all, but the Ten Legions, or even higher!

"Li Tian, don't worry! With this head, even if you leave the Sunset Fortress, those bounties will be enough for the people you brought to live in the Sunset Fortress. As for their safety, you can rest assured. With me, the Shalipuding in the sunset fortress, as long as they don't cause trouble, no one dares to touch their hair!" Shalipuding said angrily.

It is enough to have the words of Shelipuding. Even if He Zhizhuo's head of the Red Wolf wouldn't give Li Tian a first-level corpse crystal, Li Tian felt it worth it.

Chapter 3242: Lunatic (1)

Li Tian gave all the corpse crystals of the zombies they hunted in Fancheng to the bounty hunters who survived under the city of Binglin. It was a thank you to them for their straightforward words, and it was also regarded as Li Tianfen's commission to their Red Wolf head.

The barbarian's injury was so severe that he must be treated in time. However, the whereabouts of the two-dimensional is still unknown, this time it is really accidental to come to Fancheng.

Li Tian decided to take Manzi and Situ Ningbing to the nearest hospital to try his luck, leaving Bai Jing and Captain to look for 2D in the vicinity of the commercial bank.

Bai Jing is a sniper, careful enough, the captain is a level six zombie, and has enough combat effectiveness, with the captain protecting Bai Jing, Li Tian can also rest assured. And in this way, with the interaction between Li Tian and the captain, after Bai Jing found the two-dimensional, he could quickly catch up with Li Tian and others.

Li Tian carried the barbarian on his back, and Situ Ningbing took the map and pointed the way according to the map.

Fortunately, there was no accident on the road. Li Tian took Manzi and Situ Ningbing to the Fourth Hospital of Fancheng safely.

Fancheng is the fourth hospital, which is quite close to the center of Fancheng. It is only one street away from Li Tian's mission, the Rising Sun Building.

The Fourth Hospital used to be a comprehensive hospital.

The towering main building of the hospital, the majestic inpatient department, and the spacious hospital square all explain the prosperity of this hospital before. But now the hospital is completely abandoned. A lot of steel fences have been erected between the hospital square and the street, and sandbags have been piled up under the steel fences.

A thick layer of ash fell on the spacious hospital plaza, and some miscellaneous garbage fell on the plaza. Several wild deer strolled leisurely on the plaza, lowering their heads from time to time to eat some weeds that grew on the plaza.

The entire hospital square gives people an illusion, as if this place is just the ruins of a hospital, there is no apocalypse, there are no zombies.

"Li, shall we go in?" Situ Ningbing was uneasy, always feeling that the calm of this hospital seemed to cover up a huge danger.

"Go in! I am worried that Barbarian's body will not be able to support us in another hospital." Li Tian said.

At this moment, Manzi snorted, frowning, showing a pained expression.

Li Tian directly took out the "Red Zhan" to control the "Red Zhan" and made a hole in the steel fence that could accommodate Li Tian carrying the barbarian through. After Li Tian carried the barbarian and passed through, Situ Ningbing walked in again, Put the steel fence back in place, and piled it up with bags of fools.

If it weren't for someone to know that this place has been cut off, from the outside, there is no difference between it and before.

Entering the hospital, Li Tian quickly crossed the hospital square carrying the barbarians and walked into the main building of the hospital.

The power supply in the lobby of the main building has long been lost, but fortunately, it was still late at dusk. The afterglow of the setting sun shone into the glass of the lobby of the hospital's main building, and the lobby felt golden and brilliant.

There was a mess in the hall, especially the medical guidance station. The computer was smashed into a mess, and the medical guidance station didn't know who was overthrown.

"The surgical operating room is on the third floor! Go from here!" Situ Ningbing followed in and said to Li Tian when he found the location of the surgical operating room on the guide sign.

The two went up to the third floor through the stairway, and the corridor on the third floor was a bit dim. Fortunately, Li Tian and Situ Ningbing's eyes were hardly affected by darkness.

When he came to the surgical operating room and pushed the door in, Li Tian, with the help of Situ Ningbing, put the Manzi down on the operating table.

"Li, didn't you find this hospital weird? When we entered into such a big hospital, we have not found a zombie, and in the whole main building, only the medical guidance platform in the lobby was destroyed. Almost other places There is no damage." Situ Ningbing asked Li Tian with some doubts.

Li Tian nodded and said, "It stands to reason that the crowds in the hospital are dense. After the apocalyptic crisis broke out, there should be a lot of zombies, but there are no zombies here! This is

really puzzling! But we Let's find anesthetics and medical needles first, and sew the wounds for the barbarian first!"

As soon as Li Tian's voice fell, the light in the operating room made a prickling electric noise, and it turned on within a few seconds.

"Why did you call suddenly?" Li Tian and Situ Ningbing glanced at each other with some confusion.

At this moment, there was the sound of footsteps in the corridor on the third floor. The sound should be someone walking outside wearing slippers.

"Someone?" Li Tian and Situ Ningbing were shocked at the same time. Li Tian immediately blocked Situ Ningbing and stood behind the door of the operating room with "Red Slash" in his hand.

"Tap..."

"Tap..."

The footsteps are getting closer and closer.

Li Tian's "Red Slash" has been suspended, ready to attack at any time.

"Ahem! The two friends inside, I am a big living person, not a zombie. I have no intention of coming here. Please put away your weapons!" A man's voice came from outside, but it sounded a little weird.

"I am a doctor in this hospital, a former doctor. Some of you should be injured, maybe I can help!" The people outside were not sure whether Li Tian and Situ Ningbing had put away their weapons, and continued.

"How did you know that we were injured?" Li Tian has seen too many zombies, especially high-level zombies that maintain human wisdom and retain human language functions, so Li Tian still maintained a certain amount of vigilance and asked through the door .

"Haha, the entire hospital is under my control. I discovered it when you stepped into the hospital. It was when you saw that you were injured again, I did not hesitate to consume backup power and turned on the operating room! If you still want to save your friends, don't waste time. The power supply in the operating room is also limited!" The man outside said anxiously.

Li Tian put the "Red Cut" away and pushed open the door of the operating room with a crash. He saw a man with shaggy beard and hair all over the shoulder standing outside the operating room.

The man was wearing a white lab coat worn by a hospital doctor. Under the white lab coat, he couldn't see whether he was wearing pants, but he was wearing a pair of plastic slippers with his bare feet.

It should be that this pair of plastic slippers also has history. One of the soles of the foot has been broken, and the man has been stitched with needles and threads, and he continues to wear it.

"It's great to see you..." The man said in a choked voice when he saw Li Tian and Situ Ningbing, "I haven't seen a living person for almost three years!"

"When dealing with those things every day, I'm going crazy! But fortunately, you are here, and finally someone can talk to me... Do you have a cigarette? Give me one, I'm going crazy!" The man rubbed his hands and said with some embarrassment.

Li Tian didn't have a cigarette, nor did he pick him up, but Li Tian caught a key point of his sentence.

"What do you mean by...zombies?" Li Tian asked.

Chapter 3243: Lunatic (2)

The man nodded heavily and said, "Yes! Don't waste time. Let me take a look at your friend's injury first!"

Li Tian did not refuse, but he became more vigilant in his heart.

This man may have not spoken for too long. It is rare to meet someone who can speak without stopping at all.

During the conversation, Li Tian knew that this man was Liu Yihui, who was once an intern in this hospital. The internship period had not yet ended. As a result, he encountered a doomsday crisis. All doctors and patients in the whole hospital became zombies. But Liu Yihui did not.

"Your friend has lost too much blood, his body is a little weak, and his wound is too deep. If he goes deeper, he might hurt his bones."

"But fortunately you met me! Haha, although I am only an intern, I have not pulled down my skills over the years, and even now it is much better than when I just graduated from university."

"So you can rest assured, and there are enough medicines in the pharmacy of this hospital, and most of them are still in the expiration date, so your friends should be fine."

Liu Yihui sews the wound of the barbarian swiftly, and then looks at Li Tian with the expression of a profiteer's face, and said: "Although your friend's wound has been sewn, I also received an anti-inflammatory injection. But think about it quickly. Some, now you need to make some nutritious things for your friends! For example, meat, eggs, fish!"

Talking that Liu Yihui sucked, he continued: "These are all edible! What do you think of the deer I stocked in the square? Do you want to kill a head and eat it? If you don't like it, I have a chicken. The eggs that my chickens lay are all green and pollution-free. If you don't like them, I still keep fish, but there are fewer fish."

"I know you definitely want to eat it. Before the end of the world, there are not many opportunities to eat venison! Now there are not many opportunities to eat eggs and fish. How about? Any ideas? If you have ideas, you can take something. Change with me, such as cigarettes, liquor and so on!"

Li Tian is full of black lines.

"Okay! In fact, what I want most is zombies, living zombies. If you can bring me living zombies, your friends will give it to me! Now, I will take you to where I live!" Walking out with Liu Yihui.

Situ Ningbing quickly helped Li Tian carry the barbarian on his back and walked out with Liu Yihui.

After leaving the operating room, Liu Yihui walked through the corridor, entered the corridor, and kept walking up.

Li Tian and Situ Ningbing were silent, and followed Liu Yihui up.

This building has 17 floors in total, and when I reached the 15th floor, Liu Yihui stopped.

Pushing open the fire door and entering the fifteenth floor, Situ Ningbing and Li Tian were a little surprised. The fifteenth floor was filled with the fragrance of soil and the smell of plants.

Liu Yihui laughed and said, "I live here. This floor is my green farm. I grow crops here. It's a pity that winter is approaching, and I don't have many green vegetables here! But Chinese cabbage I have a lot of storage. The upstairs is also a vegetable plot, and there is also a fertilizer storage room. The ground floor is my laboratory. I can take you to see my laboratory in a while."

I saw that almost all rooms on the fifteenth floor were covered with a thick layer of soil near the windows, and a lot of vegetables were planted on the soil.

"Where did you grow the vegetable water from?" Situ Ningbing asked.

"Rain water! I changed the line of the sewer pipe on the roof, and the roof can store some water. This water is enough for me to use alone! You can visit it!" Liu Yihui said proudly.

Li Tian and Situ Ningbing glanced at each other. In fact, Li Tian always had a doubt in his heart, that is why there are no zombies in this hospital.

In such a large building, how can there be no zombies that have been alive.

With this question in mind, after setting up the barbarian, Li Tian and Situ Ningbing followed Liu Yihui to visit his green farm.

Not to mention, Liu Yihui still has a taste to live alone, growing vegetables, raising flowers, and raising fish. Having such a paradise in the last days, it still has a special flavor.

It was not until Li Tian saw Liu Yihui's so-called fertilizer storage room that Li Tian knew that Liu Yihui was not a simple person, to be precise, he was a lunatic!

The so-called fertilizer turned out to be the corpses of zombies. In several huge sealed rooms on the 16th floor, Liu Yihui dismembered and chopped the corpses of the zombies, and then mixed them with soil to make what he called farmyard fertilizer.

Seeing this scene, Li Tian felt a nausea. Thinking about Liu Yihui actually eating vegetables grown from this fertilizer, Li Tian confirmed his judgment even more.

Liu Yihui is a lunatic.

"Hey, there is no other way. This is called waste utilization. Of course, if you can't accept it, I still have vegetables grown with pure farm manure, which is the small part on the 15th floor. That part is grown with my fertilizer. !" Liu Yihui said triumphantly.

Fortunately, fortunately, although this kind of thing is disgusting, it is not completely unacceptable.

"It doesn't matter if you call me Liu Yihui, or call me a lunatic, I don't care, your friends let him rest here, I will take you to my underground laboratory, and wait until you go to my laboratory. It's not too late to call me a lunatic! Haha!" Liu Yihui completely ignored the strange gazes of Li Tian and Situ Ningbing, and continued.

Follow Liu Yihui to his underground laboratory. Liu Yihui said as he walked, "You must be curious why there are no living zombies in this hospital! Actually, there are living zombies in this hospital, but these zombies are all in my underground experiment. Room, so don't worry, your friends are absolutely safe on the 15th floor."

"In the underground laboratory? How did you do it? Don't zombies attack you?" Li Tian asked suspiciously.

Liu Yihui looked at Li Tian like an idiot and said, "Do you think that zombies are your stupid? Will not attack people? But I have my way. Don't worry, when you get to the underground laboratory, you will understand."

Along the way, Li Tian and Situ Ningbing have been talking to Liu Yihui. Liu Yihui should have been lonely for too long. They kept asking what's going on outside Fancheng. When they heard Li Tian say that there is a huge human life within a hundred miles away While on the base, Liu Yihui's eyes showed a desire.

That is the desire for a human society.

"Or, when my friend is almost well injured and can go down on his own, you will follow us to the Sunset Fortress?" Li Tian asked.

Chapter 3244: Lunatic (3)

Liu Yihui said without any hesitation: "Okay! Okay!..."

But soon Liu Yihui shook his head again and said, "I can't leave here yet. If I leave now, everything will be defeated!"

Li Tian and Situ Ningbing didn't know why Liu Yihui, a lunatic, stayed here, but they always felt that it should be a great thing.

I have been following Liu Yihui to the so-called underground laboratory. The machines in the basement roared. Before Li Tian asked, Liu Yihui explained, "It's the backup generator of the hospital, and this generator doesn't have much reserve gasoline. I don't know that I will pay. How long can I stay here. Even if it's a day, I have to stick to it!"

When they came to the underground laboratory, turned on the lights, opened the door and entered, Li Tian and Situ Ningbing's eyes widened in surprise.

This laboratory should be the core or secret location of the Fourth Hospital. The entire laboratory is clean and tidy, with all kinds of medical equipment available. What surprised Li Tian and Situ Ningbing was that this laboratory The test specimen or test sample in the book turned out to be a zombie!

Only now Li Tian and Situ Ningbing understood what Liu Yihui said about dealing with.

These zombies were held in steel cages one by one. These zombies were slightly different from the zombies Li Tian saw outside.

Li Tian quietly probed the heads of these zombies with the transparent silk thread released by the nine-color corpse crystals, and found that the corpse crystals in the heads of these zombies were first-level corpse crystals. It shows that these zombies are first-level zombies. However, there is a

layer of thin scales on the arms of these first-level zombies, just like snake scales, which makes people shudder.

But these zombies have red eyes and skinny, especially their two legs, as if they have lost their moisture and will break off at any time. These zombies were in the cage, wandering back and forth in the cage like walking corpses.

On the opposite side of the cage is a row of glass containers of different sizes. These containers contain some green or transparent liquids, and these liquids soak the various organs of the zombie's body.

Liu Yihui sat on a black leather-covered swivel chair, looking calmly watching Li Tian and Situ Ningbing walking around in front of those containers, and said: "After the apocalyptic crisis broke out, many people in the hospital became zombies, but this There are dozens of doctors in the hospital who have taken defensive measures in place and have not contracted the zombie virus. In order to study this new virus, the medical staff of this hospital united and thought to overcome this problem. Let's catch the zombies together. Dissecting the zombies and studying the abnormal tissues of the zombies together. However, the greater the hope, the greater the disappointment. During the research process, medical staff continued to be bitten by the zombies, infected with the zombie virus, and became zombies. In this medical staff In the case of human consciousness, without exception, they all choose to become experimental specimens."

Liu Yihui said that he couldn't cry anymore. He pointed to a zombie organ in a glass container in front of Li Tian and said, "The zombie organ in front of you is Liao Xuecheng, the youngest medical doctor student from Fancheng Medical University, and Situ Ningbing you The zombie organs in the glassware next to him are from Professor Tan Yongdao, the oldest expert in the city! And those in the iron cages are all my partners! They have now become zombies, but they All of them were elites in the medical field during their lifetime. They were all except me! Only I was just an intern graduated from a medical university!"

"It's all because of my poor academic performance when I was in university, and there were so many seniors who gave advice, but I still haven't worked out a solution to the zombie virus."

Seeing Liu Yihui so heartbroken, Li Tianzhen was embarrassed to tell him that in the outside world, he could use zombie crystals to extract corpse elements, and there was a certain chance that he could treat people who had just been bitten by zombies.

"But I haven't been blind for the past three years. At least in the past three years, I have made an interesting potion." Liu Yihui said here with a burst of laughter. He took out the key and took out a bottle of green from the refrigerator. The medicine, then said: "The test body of this medicine is such a zombie. After being injected with these medicines, these zombies have evolved to different degrees, such as their arms and their strength. But these zombies can only be injected once. , If you inject the medicine again, these zombies will be killed. And the only living clinical test subject of this medicine is myself. After the injection of this medicine, I will lose consciousness in a short time. When I regain consciousness, I will find that I have appeared elsewhere in the hospital."

"Moreover, for me, this medicine can be repeated and injected continuously. At first, I didn't know what I would do when I lost consciousness. But once I turned on the camera on the computer here, I found out that I After injecting these medicines, I turned into a zombie!"

Hearing what Liu Yihui said, Li Tian was taken aback.

Seeing the surprised expressions of Li Tian and Situ Ningbing, Liu Yihui was very proud. He turned on the computer and showed Li Tian and Situ Ningbing the video data stored on the computer.

Sure enough, as Liu Yihui said, after Liu Yihui injected this green medicine, Liu Yihui in the video fell to the ground. After about thirty seconds, Liu Yihui's body began to twitch, and after about one more time passed. Minutes, Liu Yihui actually stood up, and then his body seemed to be stiff. After walking around the laboratory for a while, he walked out of the laboratory. Then it disappears in the video.

"As you have seen, this video will not be faked by me. But after the injection of this medicine, I didn't realize it. In other words, I didn't know what I did afterwards. This video is not finished yet. , You can keep watching!" Liu Yihui fast-forwarded the video for about half an hour.

Half an hour later, Liu Yihui appeared in the video, but at this time Liu Yihui was resisting a corpse on his shoulder, yes, it was the corpse of a zombie!

Fortunately, Liu Yihui did not make zombie actions, such as eating the brains of zombies.

Just when Li Tian thought the video was about to end, Li Tian suddenly realized that Liu Yihui in the video seemed to have spotted the camera, and even jumped flat, reaching out and grabbing the camera.

"This camera is more than three meters away from the ground. I am 1.7 meters tall, but in the video, I can pull the camera off with a leap. Also, let you see this!" said Liu Yihui Take out a few corpse crystals from the handbag, these corpse crystals are all second and third-level corpse crystals.

"Is it the corpse crystal in the head of the zombie you carried back?" Situ Ningbing seemed to have guessed something, and asked suspiciously.

Chapter 3245: I want to be quiet

Liu Yihui nodded and said, "Yes, these zombies are generally level two or three. That's why you can't see other zombies in the hospital!"

Both Li Tian and Situ Ningbing had shocked expressions on their faces.

That's right, the hunting of level two and level three zombies is not a problem with Li Tian and Situ Ningbing's current strength. But what about Liu Yihui?

Liu Yihui is just an ordinary person with a height of 1.7 meters and a slightly thin body.

But Liu Yihui only injected this green potion, he could corpse him, and easily kill the second and third class potions. The power of this potion can be imagined.

However, this drug has not undergone large-scale clinical trials, and the side effects are quite obvious.

Now this potion is still relatively wasteful, no one will lose consciousness and become a zombie in order to temporarily improve their strength. But what if Liu Yihui was given enough zombies or living people to do experiments? Will it speed up the experiment process, and then make the perfect medicine in advance?

"Unfortunately, I can't experiment with this medicine on living zombies, nor on other people. Otherwise, I can definitely improve the medicine, minimize side effects, or even eliminate them completely!" Liu Yihui said with some hope. .

"So you want us to help you catch live zombies?" Li Tian asked.

Liu Yihui nodded immediately, and said: "If you can be used as experimental products, I will be even more happy!"

"Get out!" Li Tian refused unceremoniously.

Liu Yihui laughed. He didn't feel angry at all because of Li Tian's refusal. Instead, he said: "I naturally know that this kind of thing is difficult for a strong man, and I just ask casually! I wonder if you can experiment on your partner upstairs?"

"Get out!" Li Tian said again unceremoniously.

"I understand! I just asked casually. You have rejected me twice in a row, so you should not refuse the arrest of living zombies!" Liu Yihui said slyly.

Li Tian nodded.

There is no challenge for Li Tian to catch alive zombies now.

"It is impossible for us to stay in Fancheng for a long time. At most, we will only wait until our friends upstairs recover from their injuries, and we will come to open Fancheng. Would you like to think about it and go with us? Your goal is to develop This kind of magical potion, but now, you are short of test samples. If so, you can consider following us to the Sunset Fortress."

"In the Sunset Fortress, there is also an excellent doctor like you. He has developed a method to extract the original corpse from the corpse crystals, and has used these corpses to produce some serum. When humans are attacked or attacked by zombies Injecting this medicine within the shortest time after the bite, there is a certain chance to prevent the injured from corpse!"

"You have similar interests. If you study together, you will get twice the result with half the effort. Moreover, the research environment in the Sunset Fortress is much stronger for you. What you need, you only need to publish the task in the branch of the Bounty Hunter Association. I'll do my best to complete it. You can even do live experiments over there."

Li Tian said to Liu Yihui.

Li Tian saw that Liu Yihui began to struggle again. The desire for the social life of human society and the desire for the success of research results were all on his face, but, for the same reason, the reason for his entanglement was the colleagues in the glass container. The organs, tangled with the data of these years of research.

"Give me a few days, you are free for these few days. I want to be quiet!" Liu Yihui smiled suddenly, then turned and left the laboratory somewhat lost.

Li Tian did not reluctantly, Li Tian just felt that Liu Yihui should not waste his life in such a place, waste his talent, and eventually become a member of the zombie.

When he returned to the 15th floor, Liu Yihui was not on the 15th floor. It seemed that he was really thinking of being quiet.

The Manzi is still in a coma, but the life characteristics of the Manzi are stable, and his breathing is also stable, which will not cause serious problems.

At this moment, Li Tian suddenly received a message from the captain passing through.

After Li Tian took control of the captain, he could feel the information that the captain passed to him. This kind of information was like a wireless network. Although it could not be heard or seen, it did exist.

Li Tian could feel the anger of the captain, and his thoughts fluctuated greatly. Li Tian could guess that at this moment, the captain should be fighting wantonly.

"What's the matter? Are you in danger?"

"Is there anything that can make the captain so angry? Is Bai Jing injured? Or is it two-dimensional?"

Thinking of this, Li Tian was a little fidgeted.

The captain is a sixth-level zombie. In Fancheng, there are very few zombies and bounty hunters that can harm her. But what can make the captain angry and fight unscrupulously?

And the anger of the captain's thoughts fluctuated more and more!

Seeing the erratic expression on Li Tian's face, Situ Ningbing asked, "Is there any two-dimensional news?"

Li Tian shook his head.

After all, the captain is just a zombie controlled by Li Tian. The captain and Li Tian only communicate with some consciousness, and the distance between the two is too far. The captain is not like Li Tian's eyes and ears. , React intuitively.

"No, I can't wait here, you are guarding the barbarian here. I'm going to find Bai Jing and 2D!" Li Tian said.

"But, now the sky outside is completely dark, and there are many zombies outside! If you go out like this, will you put yourself in danger?" Situ Ningbing said with some worry.

Li Tian shook his head and said, "I can't wait any longer! If something happens to Bai Jing or 2D, I will feel guilty!"

Seeing Li Tian's resolute attitude, Situ Ningbing did not continue to make the right statement. He took Li Tian's hand and said softly: "Be careful. I and the barbarians are waiting for you here!"

When Li Tian walked out of the Fourth Hospital, it was completely dark outside. On the streets outside the hospital square, there were zombies wandering everywhere.

Li Tian rushed out without hesitation.

"Huh?" At this moment, Li Tian suddenly felt that the captain was moving quickly in one direction, but this direction was not the fourth hospital where Li Tian was located.

"Ah!" A zombie rushed towards Li Tian with teeth and claws.

"court death!"

Li Tian snorted coldly and directly sacrificed "Red Zhan".

In the darkness, a red light flashed, and this poor zombie was still seven or eight meters away from Li Tian, and was chopped in half by the "red behead".

"That direction turned out to be the Rising Sun Building?" Li Tian suddenly understood that the direction the captain was moving was towards the direction of the Rising Sun Building.

Chapter 3246: Rising Sun Building

In the darkness, Li Tian's figure was galloping fast on the pitch-black street. When he encountered zombies that did not have eyes, Li Tian's "Red Slash" did not hesitate to chop up these zombies. .

"Huh!"

"Huh!"

Li Tian only felt the wind whistling in his ears. At this time, Li Tian felt that his strength had recovered again, and the speed of this movement had surpassed all the speeds he had after returning to Earth.

With a "boom", a car suddenly fell from the sky. Li Tian's "Red Chop" swept across the car that dropped from the head, cutting the car into two from the middle, and the car that was cut in half from Li Tian's Both sides of the top of the head fell downward, and Li Tian had already rushed out.

The car fell on the ground with a violent crash.

Li Tian turned around and found that the building just now turned out to be a parking building, and the car fell from the parking building.

At the moment the car fell, another car fell from the parking floor, and there was a zombie on the car.

The two eyes of this zombie were red, and the two paws were covered with bones. The moment the car was about to fall, the zombie slammed on the car under its feet and rushed towards Li Tian.

Seeing this zombie, Li Tian knew that the level of this zombie was not low, at least it was also a level five zombie, otherwise, this zombie would not make such a complicated attack.

There are nine-color corpse crystals on Li Tian, but it does not mean that Li Tian can completely ignore the zombies. The zombies can not ignore the damage to the body, but Li Tian can't ignore it.

Just like a person, we all know that it is difficult to pierce people with a needle, but whoever faces the needle will not avoid it. If you don't avoid it, it's not that he is physically strong, but that there is a problem with his brain.

Facing the attack of the zombies, Li Tian did not retreat but moved forward, controlling the "Red Slash" attack to the zombies with one hand, and the other palm was also ready to attack.

The Ten Jue Sword Qi controls "Red Slash", and Li Tian's other hand uses Xuantian fingering.

Sure enough, this zombie did not fight hard. When the distance of "Red Slash" was less than half a meter, the body of this zombie suddenly twisted and escaped the attack of "Red Slash". Sensen's white bone claws were already stretched out. Li Tian's face was closed.

"Huh!" Li Tian's "Red Slash" was avoided by the zombie, but Li Tian did not panic at all, stretched out his left hand, and gently flicked his finger on the bone claw that the zombie had reached in front of Li Tian.

Xuantian **** is a shot that condenses all Li Tian's skills.

With this bomb, Li Tian jumped a few meters back directly with the help of the rebounding force.

With a "click", a trace of crack appeared on this white bone claw of the zombie.

The zombie landed on the ground with a "bang", holding his paws and making a howl of ghosts and wolfs.

With a "click", the claws of this zombie shattered into a pile of bones with the howl of the zombie.

"No! How could it be..."

"Puff!" With a sound, the zombie's voice stopped abruptly. It turned out that after Li Tian's blow, he immediately controlled "Hong Zhan" and killed a carbine.

As a result, the head of this sad high-level zombie was "Red Slash" split from behind.

The black brains flowed out from the cracks in the head, and the light blue corpse crystal light flashed, but it was directly absorbed by "Red Slash".

With a single move, Li Tian directly retracted the "Red Cut" and continued to gallop towards the Rising Sun Building.

As soon as "Hong Zhan" started, Li Tian felt that "Hong Zhan" really had some changes this time. The current "Red Zhan" is about one finger longer than before. Because of this finger, "Hong Zhan" "The blade became a bit curved.

The bigger change is that Li Tian felt that his direct connection with "Hong Zhan" became closer.

It's like "Red Zhan" was born for Li Tian, it was born for Li Tian's Ten Jue Sword Qi.

Putting aside distracting thoughts, Li Tian continued to gallop.

The Rising Sun Building, one of the landmark buildings in Fancheng, is the tallest building in Fancheng with a height of sixty-six floors. Standing at the top of the Rising Sun Building, you can get a bird's-eye view of nearly half of Fancheng's territory.

At this time, at the top of the Rising Sun Building, a man wearing a red robe was standing under the lightning rod at the top of the Rising Sun Building. The man was wearing a bright red robe, and he was also extremely glamorous. The delicate face under his long hair was painted with thick makeup, especially the blood red lipstick on his lips, which looked particularly dazzling.

"Haha, they're all back! One, two, three,... Um? Why is one missing? Damn trash, the sneak attack was unsuccessful!" The man's gaze swept across Fancheng in the dark and found that there was a sixth-level zombie. Lost contact with him, furious.

"But it doesn't matter, it's just a low-level bereavement, die if you die!"

"Li Tian, you really didn't let me down. No wonder you hurt the owner's bugs, and no wonder the owner takes you so seriously! But your good luck ends here. When you meet me, I can blame you."

"I want to screw your head off and give it to the master, maybe the master will reward me for my performance. In this way, I also have a chance to reach level 9! Hey, I will also have the opportunity to return to human society at that time , Continue to be at ease!" The man said with a sneer.

After saying this, a pair of huge bat-like fleshy wings stretched out from under the man's red robe. The man spread his wings and jumped directly down the stairs. During the rapid fall, the man suddenly flapped his wings several times. , And then fell smoothly to the ground.

At this moment, a zombie carried the two-dimensional who had fallen into a coma just in front of the Rising Sun Building.

Carrying this two-dimensional zombie, from the appearance, the body of this zombie has not been alienated. It should be a level five or six zombie. When this zombie saw the man in the red robe, it showed a compliment. Look like. Even, the zombie gently placed the two-dimensional in front of the man wearing the red robe, as if a human being dedicated to the gods.

"Respected master, this woman was arrested by you at your request, please enjoy it slowly!" The zombie lowered his head and said respectfully.

"Idiot! How could this woman have a delicious corpse crystal? I asked you to catch this woman, just to attract Li Tian and his people to come here! If you like it, do it yourself!" The red robe man said coldly .

His purpose is to attract Li Tian's attention. Now Li Tian is already on his way here. Naturally, the two-dimensional life is worthless in his eyes.

"Is it really okay?" The zombie had a greedy expression on his face, and said: "I haven't met a living person for a long time!"

As he said, the zombie's mouth was drooling, and he walked towards two dimensions step by step.

Chapter 3247: Level 9 Zombie

"Plap!" A gunshot!

A bullet shot through the back of the zombie, the bullet flew out of the zombie's chest, and finally landed on the ground. This zombie's chest immediately shed some dark mucus. The zombie lowered his head and glanced at his chest, then suddenly turned his head to look into the darkness.

In the darkness, Bai Jing's body slowly appeared on the edge of a building in front of the Rising Sun Building. Bai Jing's body was green and purple, looking embarrassed, and the captain beside Bai Jing looked even worse. The captain's thin arms, thighs, and abdomen were covered with wounds. The wound was dripping with black liquid, and a bone-in-depth wound appeared on the captain's cheek.

But neither Bai Jing nor the captain showed the slightest fear on his face.

It started when Li Tian left the commercial bank with Manzi and Situ Ningbing.

Bai Jing and the captain began to search for 2D near the commercial bank. When the sky was about to darken, they found 2D. At that time, the body of 2D was injured and the stab in the hands of 2D was broken in half.

The corpses of several bounty hunters under Bingcheng lay at the feet of the two-dimensional.

The only thing that I didn't see was Su Marie. Later, in the conversation with Wei Wei, Bai Jing learned that Wei Wei was chasing and killing Su Marie and others, constantly going around in circles, and then hunting down the bounty hunters in the mercenary world one by one.

However, when two-dimensional and Su Marie were preparing to fight one-on-one, face-to-face, a zombie suddenly appeared next to two-dimensional and Su Marie and directly knocked down the two-dimensional, and Su Marie was taken away by the zombie.

Through a simple fight, 2D knew that the zombies abducted by Sumari were not ordinary goods, and it was very likely that they were senior zombies of level 5 or above.

Wei Wei knows that there are zombies above level 5 nearby, and if she has injuries, Wei Wei wants to leave here as soon as possible to find Li Tian. However, after half a day of high-intensity fighting, the two-dimensional body was injured again, and he was already exhausted. Even standing up requires a lot of strength.

Fortunately, Bai Jing and the captain came.

After Bai Jing introduced, Wei Wei knew that the little girl in front of him was not blind, but a level six zombie, who was Li Tian's helper. And two-dimensional also knew that Li Tian had already killed the Red Wolf.

Two-dimension stared at small stars. She knew that Li Tian was very sturdy, but she did not expect that in front of Li Tian's sturdy, her imagination seemed pale and weak.

Conquer the sixth-level zombie squadron, and slash the seventh-level bounty hunter Red Wolf! These things, to say one thing, are enough to cause a sensation in Sunset Fortress.

Two-dimensional nodded secretly in his heart, and made up his mind to follow Li Tian.

The characters on the back are all carved in the world, so naturally I want to follow Li Tian.

However, in the same way, 2D also puts forward higher requirements on itself.

Li Tian is so sturdy, the dog under Li Tian's door can't be too bad, right!

After Bai Jing and Wei Wei converged, Bai Jing supported Wei Wei, protected by the captain, and started to march towards Fancheng Fourth Hospital. However, it is getting late, and night is about to fall.

On the way, zombies came out to continuously attack 2D and Bai Jing. Fortunately, the zombies that had just been promoted to the sixth level were also sturdy enough. For the first-level and second-level zombies, it was completely cutting melons and vegetables.

However, things are not as simple as Bai Jing and two-dimensional imagination.

They found that the level of the attacking zombies was getting higher and higher, and the captain was getting more and more strenuous. If Bai Jing could still support the captain by the side, I am afraid that the captain would also be very difficult to support.

There are endless zombies, and the captain, the little zombie who has just been promoted from level 5 to level 6, has gradually revealed various flaws.

However, the captain became more sturdy and brave in the war.

And the high-level zombies that came to besiege were not alone, and sometimes even two or three attacked simultaneously. The captain was struggling to deal with it, and Bai Jing's melee ability was limited.

In this case, the injured 2D was taken away directly by a senior zombie.

After this zombie abducted the two-dimensional, other senior zombies besieging Bai Jing and the captain unintentionally went to chase the two-dimensional zombie.

The captain and Bai Jing were chasing after each other, and Bai Jing completely ignored all dangers during the chase, and suffered some injuries during the chase. The captain is even more miserable. The strength of the zombies who block the way is not weak. In the frontal battle and attack, the captain's strength appears to be somewhat lacking.

Fortunately, there were zombies that Bai Jingneng could attack from time to time. Although the group leader was seriously injured, it did not affect the strength of the group leader. One person, one zombie cooperated, and several fifth-level zombies were injured.

As a result, those zombies who blocked Bai Jing and Captain were also quite afraid of the combination of Bai Jing and Captain.

The zombies that could be captured in 2D have been running wildly.

Bai Jing and the captain chased all the way to the Rising Sun Building, and saw that there was another man in a red robe in front of the two-dimensional zombies abducted.

Seeing this man, the captain trembled from the heart. She could feel that the red robe man's level was much better than her.

But when they saw the two-dimensional zombie abducted and looked at the two-dimensional eagerly, when they wanted to eat the two-dimensional, Bai Jing chose to shoot without hesitation.

And the captain did not hesitate to choose to stand beside Bai Jing!

And around the man in the red robe, seven or eight zombies appeared one after another. These zombies were surrounded by the man in the red robe, showing respect to the man in the red robe, but showing respect to the two-dimensional zombies who had taken abducted. Not convinced and contemptuous.

"Looking for death!" The zombies who had taken 2D gave up on 2D, suddenly stretched out two paws, and jumped a few steps towards Bai Jing, and the bones of the sharp claws caught Bai Jing's face.

Bai Jing quickly stepped back, raising his hand for another shot.

Bai Jing's marksmanship has been greatly improved compared to before. Now, even if he uses firearms at close range, Bai Jing's sniper rifle can still be shot.

The bullet passed through the zombie's arm, but this attack was completely negligible for this zombie. However, the level 6 zombies have been hit continuously by a sniper, which was originally an insult.

This zombie felt the ridicule of other zombies, and the anger on his face was getting more and more!

"I'm going to eat you!" The zombie was suddenly furious, speeding up and rushing towards Bai Jing.

"Snapped!"

"Snapped!"

Bai Jing's two consecutive shots only hit the zombie's abdomen, and did not cause fatal injuries.

Seeing that this zombie was about to attack Bai Jing.

The captain suddenly leaped forward, his body moved forward, and he reached out and hugged the zombie's legs, just like the legs she hugged the red wolf.

A blood-red light flashed in the darkness, and the head of this zombie was chopped off by the red light.

In the darkness, a man walked out. This man stepped on the head of the still hideous zombie, and the blade in his hand "poofed" directly into the head of the zombie.

Chapter 3248: Level 9 loss (2)

The man who came out of the darkness was naturally Li Tian.

Li Tian ran wildly this way, beheading more than a hundred zombies in a row, among which Li Tian, a fifth-level zombie, killed no less than ten, and Li Tian, a sixth-level zombie, also killed one.

After continuously beheading high-level zombies, Li Tian can be sure that "Red Cutter" can absorb the corpse crystals of these high-level zombies. After this path of beheading, "Red Cutter" is already an inch longer than when he first arrived.

Li Tian is also very strange. "Red Slash" is obviously a weapon, a weapon made of a strange metal, but why after absorbing the corpse crystals of zombies, "Red Slash" will change and grow.

At this time, "Red Cut" is more like a machete.

After Li Tian's "Red Cut" inserted into the zombie's head, "Red Cut" absorbed the zombie's corpse crystals completely.

Seeing Li Tian appear, the man in the red robe gave a jealous smile and said, "Li Tian, you are finally here! Today, this Rising Sun Building is your burial place."

"Do you know me?" Li Tian did not expect that the red-robed zombie man in front of him could even call his name, and he was still a little strange in his heart!

Looking at the weird dress of the man in the red robe, Li Tian did not find the memory of this person or the zombie in his mind.

"Hey, you really think you are a human being! I just accepted the order to lead you here, and then kill you!" The red robe man said with a sneer.

"That's good! Haha, I thought I had made a dead ladyboy zombie friend like you before! It's fine if you don't know..." Li Tianjiang "Red Slash" closed, kicking away the zombies that had been lost. 'S head, said with a sneer.

The red robe zombie's mouth jumped slightly, but did not continue to be angry, stretched out a hand, and lifted the two-dimensional. Under the red robe stretched out a pair of fleshy wings again, then flapped the wings, hovered, and said, "Li Tian, do you want to save your person? I will wait for you in Room 3606 on the 36th floor of the Rising Sun Building! The premise is that you can walk into the Rising Sun Building alive from here..."

"Xuri Building, thirty-sixth floor, room 3,606!" Li Tian felt that this location was so familiar. Suddenly Li Tian remembered, isn't this location the location of the Xuri Building task Li Tian picked up? Is this a coincidence, or is this task a trap?

But at this time, Li Tian couldn't tolerate more thoughts.

The red robe zombie flapped its wings and flew upstairs in the Rising Sun Building.

"Want to go? Put down the two-dimensional!" Li Tian immediately urged "Hong Zhan" to attack the red robe zombie.

However, at this time, the zombies that had previously surrounded the red robe zombies swarmed up, each showing hideous faces, stretching out Bai Sensen's bone claws, and attacking Li Tian, Bai Jing and others.

Moreover, these zombies are not ordinary goods. Behind these zombies, more low-level zombies rushed over like a tide.

"Captain Brigade, you are responsible for protecting Bai Jing! I'll leave it here!" Li Tian stepped back continuously, blocking Brigade Captain and Bai Jing behind him. Li Tian didn't dare to neglect and hurriedly controlled "Red Zhan" to return to the Savior.

"Red Slash" shuttled back and forth in the sea of zombies, a red light flashed, and a zombie would be cut off by Li Tian's "Red Slash".

"Huh!"

"Huh!"

"Huh!"

In the darkness, "Red Slash" kept shining dazzling red light, and the low-level zombies were brought down by "Red Slash" just like cutting wheat.

"Snapped!"

"Snapped!"

Bai Jing's sniper rifle was also constantly firing bullets. In the vast sea of corpses, Bai Jing hardly needed to aim, and just kept pulling the trigger at the zombie's head.

"Puff!" A group of black brains spurted from the zombie's head, and a zombie fell at Li Tian's feet.

Li Tian turned to Bai Jing and gave a grateful smile.

The captain's killing technique is not so beautiful. It is still a bit difficult to deal with the sixth-level zombies, but against those low-level zombies, the captain's two claws can easily tear off the heads of those zombies.

However, the zombies continued to gush out from the darkness, Li Tian, Bai Jing, and the captain, the two of them killed a zombie in succession, but they didn't mean the slightest ease.

"Brother God! This is no way to continue! What shall we do?" Bai Jing asked with a serious face after shooting a bullet.

Li Tian did not speak. At this time, Li Tian controlled "Red Slash" and was doing his best to deal with five sixth-level zombies. These sixth-level zombies were extremely afraid of "Red Slash" and did not dare to approach Li Tian too much.

"Red Slash" can only harvest the lives of some low-level zombies at this time, but Li Tian is not in a hurry.

I saw Li Tian's right hand controlling "Red Slash" to shuttle back and forth among the zombies, the palm of his left hand was facing up, and his fingers were moving slightly.

The four transparent silk threads were floating in the air, and as Li Tian's fingers moved, they were constantly floating towards the heads of those high-level zombies, but those high-level zombies weren't dead, so they wouldn't sit and wait.

Therefore, Li Tian's difficulty in controlling the transparent silk thread has been doubled.

More importantly, Li Tian is now doing five things with one heart, and he has to control "Red Slash" and four transparent threads at the same time. This difficulty is much more difficult than Li Tian's simple control of "Red Slash".

A high-level zombie saw that the "Red Slash" controlled by Li Tian did not harm him for more than a few minutes, and it was inevitable that he looked down upon Li Tian.

"Blubber, let me tear your head apart!"

The zombie screamed, violently exerted force, and rushed out of a group of low-level zombies.

The murderous aura of this zombie was so powerful that Li Tian could even smell the stink released from the zombie when he screamed at Li Tian.

But facing the crazy attack of this high-level zombie, Li Tian not only did not control "Red Slash" to return to the Savior, nor did he flinch.

The corners of Li Tian's mouth were slightly bent upward, and a sneer that was difficult to detect was revealed.

Li Tian seemed to be talking to himself and uttered two words: "It's done!"

It's that simple two words, this high-level zombie has already rushed in front of Li Tian, Bai Sensen's bone claws are less than an inch away from Li Tian's face, but the zombie's claws never go forward. Stretch out a cent.

At this time, another low-level zombie was approaching Li Tian with its teeth and claws, and it was only a foot away from Li Tian. At this time, the "Red Zhan" released by Li Tian was still seven or eight feet away from Li Tian.

It was impossible for Li Tian to control "Red Zhan" to come back and save himself.

Chapter 3249: Level 9 loss (3)

Just when the low-level zombie showed an excited expression on his face, the high-level zombie that attacked Li Tian suddenly turned around, and directly tore the low-level zombie's head with a paw.

"Gooooo"

"Goooo"

The black brains of the low-level zombies flowed out along the cheeks of the zombies.

Li Tian sneered, reached out his hand to touch the head of the sixth-level zombie that Li Tian had controlled, and said, "Good!". The sixth-level zombie who was touched by Li Tian didn't show the slightest resistance or dissatisfaction, but stood docilely and motionless.

Seeing this scene, Bai Jing finally breathed a sigh of relief.

The psychology of the captain is somewhat complicated.

The captain already knew that Li Tian had nine-color corpse crystals.

Li Tian has nine-color corpse crystals, but he has not become a zombie, but Li Tian has some of the attributes of a zombie, such as controlling the zombie. This feeling is as if Li Tian is a half-life ninth-level zombie.

Every ninth-level zombie has excellent talents in controlling zombies, and some ninth-level zombies can control thousands of sixth-level zombies at the same time.

Therefore, the captain knew in his heart that Li Tian, a half-hearted ninth-level zombie, could not control only a sixth-level zombie like her. But the captain did not expect Li Tian would choose to control the second level six zombie so quickly.

This feeling is as if Li Tian originally belonged to a zombie in the captain, but now suddenly a zombie has come to grab Li Tian from the captain and compete with the captain for Li Tian's favor on the zombies he controls.

Just when the captain was still a little hard to accept that Li Tian had already controlled the second level six zombie, the captain lost his mind and found that the level six zombie had been controlled by Li Tian, and he had already rushed to the zombie companion just now.

"Another one!"

In an instant, Li Tian had already controlled and controlled a sixth-level zombie, plus the captain, the number of zombies controlled by Li Tian had reached three.

As a result, the pressure of Li Tian and others suddenly reduced a lot.

Li Tian also distributed a zombie to help the captain and guard Bai Jing together.

Bai Jing looked at Li Tian gratefully, secretly happy for Li Tian in his heart.

But this is not over yet.

When in Ewa Village, Li Tian once controlled the nine-color corpse crystal and released more than 500 transparent silk threads at a time to control and activate nearly a thousand six-level zombies. Although it ended in failure, for Li Tian, it was also an improvement in mastering the nine-color corpse crystal.

Now Li Tian controls the nine-color corpse crystal and releases the rootless transparent silk thread at the same time. By controlling the rootless transparent silk thread, Li Tian can guarantee that under the condition of several uses, it can not only exert the maximum power of the nine-color corpse crystal, but also guarantee that it will not Will be eaten back by the nine-color corpse crystal.

In the future, as Li Tian becomes more and more proficient in the control of the Nine-Colored Corpse Crystal, the combination of the Nine-Colored Corpse Crystal and Li Tian will become closer and closer. In terms of controlling zombies, Li Tian can even reach the pinnacle of level nine zombies. Control thousands of living Level 6 zombies. Establish a powerful army of zombies.

But now Li Tian can only take every step steadily, one step at a time.

"puff!"

Seeing that Li Tian controlled two Level 6 zombies in a row, those Level 6 zombies that had not been controlled were a little panicked. Taking advantage of this time, Li Tian went back to the city and directly harvested a sixth level with "Red Slash". The life of a zombie.

"Ah!" This zombie was cut in the head by "Red Slash" and let out a scream. The light blue corpse crystal in his head was also completely absorbed by "Red Slash".

The nine-color corpse crystals are beating more happily with the heart, it seems that they are stimulated by the "Red Slash" to absorb the corpse crystals, and they also want to absorb the high-level corpse crystals.

This kind of requirement Li Tian can satisfy the nine-color corpse crystal. As "Red Slash" continues to cut melons and vegetables, the zombies on the ground have been paved with a layer of zombies.

Now Li Tian has no longer the original desire for these three- and four-level corpse crystals, which can just be absorbed by the nine-color corpse crystals to enhance the strength of the nine-color corpse crystals.

Those high-level zombies were unable to form effective attacks on Li Tian, and gradually shifted their targets to Bai Jing. As high-level zombies with human wisdom, they wanted to break the deadlock from Bai Jing.

But their thoughts are obviously a bit naive. At this time, Bai Jing has the captain and another level 6 zombie to protect him. They dare not say that there is no leak, but they definitely have strong defensive capabilities, and Bai Jing's Blind sniper ability improved quickly in the continuous shooting, and Bai Jing would also snipe and kill a fifth-level zombie from time to time.

As for the sixth-level zombies, Bai Jing's gun attack power is limited, and he has not successfully shot them.

However, when these zombies gradually transferred their targets to Bai Jing, Li Tian was fully released.

In the dark night, "Red Slash" kept flashing a dazzling red light, and "Red Slash" was like a hungry soldier, hunting the zombies that were already scared.

But this is not enough.

With the killing of "Red Slash", those level 6 zombies were obviously a little unconscious.

Inadvertently, the transparent silk thread controlled by Li Tian once again controlled a sixth-level zombie, plus the previous control captain, etc., Li Tian's hands had already controlled four sixth-level zombies.

The situation gradually became clearer, and the balance of victory slowly tilted towards Li Tian and Bai Jing.

Except for the sixth-level zombies controlled by Li Tian, the attacks of other zombies are obviously not as sharp as the previous ones. When attacking Li Tian and Bai Jing, they often choose to hide behind those low-level zombies, and even start to drift in the battle circle. outer.

These six-level zombies wanted to escape.

Li Tian's eyes are like torches, how can he easily let go of these six-level zombies.

"Wow!" With a sound, Li Tian suddenly jumped out of the current battle circle, leaving two level 6 zombies in that battle circle to arbitrarily kill the surrounding low-level zombies.

As Li Tian jumped out, "Red Zhan" appeared next to Li Tian, quickly building a second battlefield around Li Tian's body.

Li Tian suddenly jumped to a sixth-level zombie. The expression of this sixth-level zombie was obviously taken aback. Taking this opportunity, the transparent silk thread controlled by Li Tian easily invaded the brain of this sixth-level zombie.

"success!"

In just an instant, Li Tian controlled a sixth-level zombie again.

Including the captain, Li Tian has already controlled five sixth-level zombies. At this time, Li Tian's nine-color corpse crystal still has a transparent thread.

The captain furiously killed the low-level zombies, while shook his head helplessly.

She already understands that she is powerless to stop Li Tian from continuing to control other zombies. Now the captain is like a primary school student. He just wants to behave well and strive to leave a good impression in Li Tian's heart, so that he can get Li Tian as a half-hearted man.

Recognition of Level 9 Zombies!

Li Tian finally succeeded in controlling all the five transparent silk threads, and exclaimed excitedly: "You're done! The five sixth-level zombies are in complete control! All the others...kill!"

Chapter 3250: You are the captain

With Li Tian's cry, the other five level six zombies except the captain immediately rushed into the group of zombies.

Five sixth-level zombies entered the low-level zombies group, just like a group of hungry wolves entering the flock, unscrupulously, without resistance, for a time, killings were everywhere, flesh and blood flew everywhere, and they were torn and bitten by the zombies everywhere. The stump of his arm was broken.

Li Tianze has retreated to Bai Jing's side, holding "Red Slash" in his hand, enjoying the happy time of enjoying the fruits of victory without personally fighting.

"Brother Tian, two-dimensional was captured by the red-robed zombie, let's go and save her now!" Bai Jing saw that the overall situation was set here, and worried about the two-dimensional safety, said anxiously.

Li Tian nodded and said: "The red robe zombie is powerful, it may be a level eight zombie. You and the captain will stay on the first floor of the Rising Sun Building!"

Zombies above level 7 already have body alienation, and their defense power is no longer that ordinary swords and guns can break. A powerful existence like a red robe zombie, even with the protection of the captain, would only cause Li Tian to trouble.

Bai Jing also knows that in this kind of high-level battle, she is actually a burden, just like the current battle, if the reputation of the captain is protected, her Bai Jing has already become a delicious food in the mouth of a zombie.

"Okay, I listen to Brother Tian!" Bai Jing said without the slightest hypocrisy.

Li Tian heaved a sigh of relief when he heard that Bai Jing knew the general situation. Casting a kind smile to Bai Jing, Li Tian turned to the captain and said: "You are the first zombie who followed me, and you are the zombie who followed me voluntarily. Although I have some connections with you, But more often you are doing something spontaneously."

"I can see what happened today. In the afternoon, it was your hard work and cooperation that I could easily kill the red wolf. At night, especially when you killed the two-dimensional rage in order to protect Bai Jing, I am very satisfied."

"You see that I control so many zombies, but they are different from you. Just like the name I gave you, you are not destined to become an ordinary zombie. In my future plans, you are the captain. . And they..."

Li Tian pointed to the sixth-level zombies controlled by Li Tian, and continued: "They are just some zombies. Now, I will hand these zombies to you to manage. If that zombie dares not obey your management, you With the power to live and kill them, their corpse crystals are your delicious food!"

Although the captain was also a level six zombie, she was only a little girl before her death, and she was still a zombie who had just been promoted to level six. She had no idea that Li Tian would hand these Level 6 zombies to her to manage. This feeling is as if she was appointed as the monitor by the teacher in the class.

The captain's red eyes quickly turned in his eye sockets, and the captain felt like he wanted to cry, but where did the zombie have tear ducts, how could tears flow out.

"Master Li Tian, please rest assured! I will definitely be a good captain!" The captain said to Li Tian as if he was a child who had shown his determination to the teacher.

With the captain, Li Tian can safely enter the Rising Sun Building.

These six-level zombies are precious resources and precious wealth. At least now Liu Yihui needs living zombies as research targets, and Dean Huang also needs living level 6 zombies as research targets.

Killing these high-level zombies to become the experience points for the growth of "Red Slash" or Nine Color Corpse Crystals, Li Tian still feels reluctant.

It is impossible for Li Tian to bring these level six zombies into the Rising Sun Building together. Otherwise, if the zombies are in front of the red robe zombies, they will be frightened by the red robe again and controlled by the red robe zombies. There are a few more targets that need to be killed.

This is the best option to stay with the captain.

First of all, the captain was a level six zombie, and it was the first level six zombie controlled by Li Tian. After this day of contact, Li Tian could feel the captain's absolute loyalty to Li Tian.

Secondly, even if Li Tian stays away from these six-level zombies, his control over these six-level zombies is reduced, and there is a large captain, Li Tian does not have to worry that these zombies will turn back, as long as these zombies show a little change, Li Tian can let the captain Exercising her power of life and death.

The fighting under the Rising Sun Building soon calmed down. Five sixth-level zombies were thrown into Li Tian's side, and the battle lost suspense together.

"Red Zhan" is more than an inch longer, and now the blade of "Red Zhan" is even more curved.

Li Tian didn't know what kind of weapon the "Red Slash" would grow up in this way. As for worry, Li Tian still had some expectations in his heart.

The nine-color corpse crystal was still the same, but faintly, Li Tian felt that the nine-color corpse crystal was about to change. But this change does not know whether it is good or bad.

Li Tian can feel the emotional fluctuations of the captain. Compared to before Li Tian talked to her, the captain's mood was obviously much better. When he saw the communication between the captain and the zombies, he clearly showed a trace of pressure. Li Tian still felt Quite satisfied.

After setting up Bai Jing, the captain and a group of zombies, Li Tian headed into the Rising Sun Building! It's time to face off against the red robe zombies. It's also time to solve the mystery in Li Tian's heart.

Rising Sun Building, 36 floors, 3,606 rooms.

It's not very accurate to say that this is a room. The whole room of 3606 is in a mess. It was originally a three-bedroom and one-living room, but the walls were damaged by external forces. The bricks, stones and cement collapsed to the ground. , There are spider webs everywhere. And several zombies like terracotta warriors stood on top of these ruins in the room.

The spacious living room is completely incomparable to before the end of the world. There is a thick layer of blood on the TV wall in the living room, and the same is true on the ground, which has formed a black paint-like coating on the ground. The original soft sofa in the living room was broken into a pile without knowing what was bitten by something. On top of this pile of broken foam, there was no idea what insect left a white empty cocoon here.

In the room, 2D was stuck on a huge spider web in the corner of the wall. At this time, 2D was still in a coma, so he didn't know the fear.

In front of the white empty cocoon, the red robe zombie stood aside respectfully.

If you look closely, you will find that beside the white empty silkworm cocoon, a transparent insect is crawling beside it. This transparent insect is the size of a thumb. There are more than twenty small light blue crystals in the body of the insect. Inside the body, it flows with the worm's peristalsis.
