

A Killer 3251

Chapter 3251: See the bug again

Li Tian, who was hurriedly walking up the stairs, found that the "Hong Zhan" he was controlling suddenly became eager to move. Several times, "Hong Zhan" nearly let go and flew out by himself.

This feeling is familiar to Li Tian, and this happened once in the coal mine of Eji Village.

"Could it be that there are ninth-level zombies here?" Li Tian first thought of ninth-level zombies.

If it is an eighth-level red robe zombie, Li Tian's current Ten Jue Sword Qi is matched with "Red Slash", and Li Tian still has a fight, but if it is a nine-level zombie, Li Tian has nothing in his heart.

When he was in the village of Eji, the old ninth-level zombie didn't use all his strength at all, and Li Tian was exhausted. If life and death really fight each other, Li Tian probably only has to escape.

As the floors that Li Tian walked up higher and higher, the "Red Slash" in Li Tian's hands became more and more restless.

But what Li Tian was about to face was the eighth-level red robe zombie, Li Tian didn't dare to risk letting "Red Slash" fly out by itself. Can only forcefully suppress "Red Cut" continuously.

The suppressed "Hong Zhan" showed strong dissatisfaction, but fortunately, he was complaining about Li Tian's bad things.

Before he knew it, Li Tian had already ascended to the thirty-fourth floor. At this moment, the "Red Zhan" in Li Tian's hands was no longer under Li Tian's control and suddenly dropped out.

"Hong Zhan" did not fly out immediately after letting go, but hovered in front of Li Tian less than one meter away. I saw "Hong Zhan" spinning and dancing in front of Li Tian like a baby. It seemed to be telling Li Tian that he would go back.

Immediately "Red Zhan" drew a red light in the dark corridor, and went straight up through the wall.

Li Tian was helpless.

After this "Red Slash" was in Li Tian's hands, overall it performed fairly well, and it complemented Li Tian's Ten Jue Sword Qi. The only thing that made Li Tian dissatisfied was that "Red Zhan" seemed to be autonomous. It was as if "Red Zhan" had chosen Li Tian and flew directly into Li Tian's hands.

If Li Tian would endure it in normal times, who told us Li Tian would still rely on "Red Zhan", but at this critical juncture, "Red Zhan" is so powerful and willful, which makes Li Tian unhappy. .

"It seems it's time to hurry up and reply to Xuantian Fingering and Soul Breaking Palm. Only by restoring these two techniques can you get rid of the dependence on Hong Zhan!" Li Tian said to himself.

At this time, the nine-color corpse crystal on Li Tian's chest suddenly throbbed happily, as if he was saying: "There is no **** red cut and me, you can rely on me! As long as you hand me over, I can Give you enough power!"

"Go!" Li Tian said to the Nine Color Corpse Crystal without hesitation.

Li Tian hadn't felt the power of the nine-color corpse crystal, but the backlash power of the nine-color corpse crystal was what Li Tian had experienced.

Had it not been for Li Tian's sufficient self-control ability, when the Nine Color Corpse Crystals backlashed, Li Tian might have lost consciousness and turned into a poor first-level zombie.

Continue to the thirty-sixth floor. On the thirty-fifth floor, Li Tian found the traces of "Red Cut" passing through the wall. He walked to the thirty-sixth floor and found it on the floor of the thirty-sixth floor. This trace was found, but no such trace was found on the roof of the 36th floor.

"Fortunately! At least Hong Zhan is still in the thirty-sixth floor." Li Tian thought to himself with a little comfort in his heart.

At this moment, somewhere in the dark corridor, a heart-piercing scream suddenly came out.

"Do not!"

The anger, fear, and fear contained in this scream, the screams echoed back and forth in the empty corridor, making the entire dark floor even more fearful.

But Li Tian heard this voice very familiar, and Li Tian thought about it carefully, and immediately heard that the voice came from a red robe zombie.

That's right, it was the screams of the red robe zombies.

Did "Red Slash" fly out on its own, to attack the red robe zombies?

Soon Li Tian denied his idea. Since "Red Slash" started, "Red Slash" has never actively attacked any zombies. Li Tian would not naively think that "Red Slash" would take the initiative to help Li Tian remove obstacles and kill the red robe zombies.

"Boom!" There was a loud noise.

The distant part of the dark building suddenly collapsed. The wall of a house was knocked out of a big hole from the inside out. A humanoid object broke through the wall, and some dust immediately filled the corridor.

Although it was dark, Li Tian was hardly affected by the darkness, and it could be seen that the humanoid object was a red robe zombie.

The red-robed zombie rushed out of the wall and looked around with grim faces. Soon, the sight of the red-robed zombie was locked on Li Tian. The red-robed zombie had a grim look, panting angrily, and strode towards Li Tian. Come here.

"Damn Li Tian! You dare to touch the master's bug! This time you are really dead!"

"Bug? What kind of bug?" Li Tian was startled when he saw the red robe zombie suddenly rushing out, but when he heard the red robe zombie's cry, Li Tian was still a little confused.

However, at this time, Li Tian could not tolerate any more thoughts. The red-robed zombies, the eighth-level zombies, are running at full speed. Li Tian and the red-robed zombies can't get together for more than ten meters. In a flash, the red-robed zombies have appeared. Arrived in front of Li Tian.

The coquettish red robe and the weird appearance were very weird because of the impact that the wall was covered with dust. White bones grew on a pair of bat-like fleshy wings. Before Hongpao took a shot, the wings with white spurs had already flapped a few times and stab Li Tian.

war?

escape?

Facing the powerful red-robed zombies, Li Tian's heart flashed so undecided.

But this kind of refusal was vetoed by Li Tian in an instant.

escape? When can I escape? Without "Red Slash", how many powerful enemies did Li Tian encounter, and how did Li Tian escape?

war! Only by fighting with all its strength, putting it to death and resurrecting, can the potential of the whole body be stimulated, and the Xuantian ***** and soul-breaking palm can be restored as much as possible!

Li Tian's fighting spirit soared, facing the attack of the red robe zombies, Li Tian did not retreat but moved forward and directly greeted him.

Xuantian fingering!

The ***** that accumulated Li Tian's whole body strength intersects with the fleshy wings of the red robe zombie.

"Boom!" With a sound, Li Tian was directly impacted by the huge impact of the red robe zombie and flew out. After flying over ten meters, his body hit the wall heavily.

And the red robe zombies were also uncomfortable.

The body of the red robe zombie also retreated three or four steps in a row, and then dragged a few meters on the ground before it stopped. But when Li Tian's Xuantian ***** hit with all his strength, the bone spurs that were as hard as steel produced such a crack.

Chapter 3252: Power recovery

Such a little injury is completely negligible for the red robe zombies.

But for Li Tian, even if it is a needle stick, pain is pain. At this time Li Tianzhi felt as if he had been hit by a heavy hammer in his chest, his chest was stuffy and painful.

However, Li Tian did not back down, did not back down.

At this time, Li Tian could not tolerate half hesitation. After the red robe zombie stepped back, he put the fleshy wings into his body, bone spurs grew on his legs, and the two legs seemed to have become bone spur wolves. Like tooth sticks, some white bone spurs also grew in the arms and palms of the red robe zombies.

"Jie Jie! Get ready to die!" The red robe zombie rushed towards Li Tian.

At this time, the red-robed zombies have more thorns than the hedgehogs, and if you are not careful, they will be injured by these bone spurs.

Without any hesitation, Li Tian got up from the ground and rushed towards the red robe zombie without stopping.

Xuantian ***** has no effect on the red robe zombies, and "Red Slash" is temporarily out of Li Tian's control. Li Tian can only stimulate his potential.

"Soul-broken palm!"

Li Tian did not flinch, and rushed towards the red-robed zombies. After dexterously avoiding the continuous attacks of the red-robed zombies, Li Tian suddenly shouted "Soul-broken palm method" and stretched out his right palm to avoid the bone spurs. The ground hit the cheek of the red robe zombie.

"Pop!" There was a clear sound.

Li Tian and the red robe zombies were all stunned.

"How could it be a slap? How could it be a slap?" The red-robed zombie only felt the burning pain on his face. When would the noble level 8 zombie suffer a ***** human slap.

Li Tian looked at his right palm without knowing why.

Li Tian was already familiar with the method of using the method of breaking the soul and could no longer be familiar with it. This kind of palm was just like Li Tian's instinct, and he used it naturally.

But why is it slapped?

Could it be that Soulbreaking palm has become a slapped palm?

Li Tian secretly mobilized his internal strength, started to run again, and then used the Soul Breaking Palm to slap heavily on the wall beside him.

"Boom!" With a sound, the wall around Li Tian collapsed under Li Tian's palm.

Li Tian was taken aback by the sudden collapse, and then he was ecstatic.

After more than a month of recovery, this Soul Breaking Palm finally recovered somewhat.

The soul-breaking palm that bombarded the red robe zombies just now is not a simple slap in the face, but the bones of the eighth-level zombies have been mutated, and they look no different from ordinary bones, but the density and hardness are better than ordinary steel. How many times harder it is.

The broken soul palm hits the brick wall and can collapse in one palm.

However, when the soul-breaking palm hits the brick-thick steel plate with one palm, it may not be able to break the steel plate into iron ***** with one palm.

In other words, just now Li Tian looked like a slap in the face, but it was not simply a slap in the face of a red robe zombie.

Under the skin of the zombie that Li Tian could not see, the cheek bones of the red robe zombie were also cracked.

"Come again!"

Now that he knew that his skills had recovered somewhat, Li Tian would naturally not give up this opportunity to take advantage of the heat.

In the corridor, the red-robed zombies and Li Tian quickly became entangled together. While avoiding the bone spur attack of the red-robed zombies, Li Tian would always take the opportunity to give a palm to the red-robed zombies, or pop up. One finger. The red-robed zombies seemed to be completely indifferent to Li Tian's dismissal, constantly changing bone spurs, and fighting Li Tian.

One person and one corpse were beaten dimly in the corridor on the thirty-sixth floor.

One person and one corpse, from the beginning of the corridor on the 30th floor to the end of the corridor.

"Puff!" Li Tian accidentally stabbed his left arm with the white bone spurs of the red robe zombie, and the sharp bone spurs penetrated the entire arm in an instant.

Li Tianqiang endured the severe pain and stretched out his right palm to hit the bone spur.

With a "click", this sharp bone spur was directly broken by Li Tian's palm!

"Ah! Damn! Damn!" After Li Tian's palm smashed the bone spurs, the red-robed zombie let out a painful scream and kept moving back.

And Li Tian also took this bone spur and quickly backed away a few steps.

In an instant, Li Tian's left arm was infected by bone spurs, the entire arm turned black, and this arm had also lost consciousness.

Li Tian inevitably lost his face in shock, and quickly moved the Nine Color Corpse Crystal.

Nine-color Corpse Crystal was already impatient to wait, spit out countless transparent silk threads and got into Li Tian's left arm who was stabbed by the bone spur.

These transparent silk threads, after drilling into Li Tian's wound, quickly swallowed the corpse poison on the bones.

At this moment, Li Tian suddenly felt something strange from the wound on his left arm.

I lowered my head and found that the broken bone spurs started to melt like a candle on fire, and the transparent silk threads spit out from the nine-color corpse crystals also began to break and condense with the melted bone spurs. Together.

This was not over yet, Li Tian felt a chill from his wound, and the chill swept across his arm, which seemed extremely cold.

"puff!"

Suddenly, at the joint of Li Tian's arm, a small bone spur broke through the skin of the arm and appeared.

Soon, this small, embroidered needle-like bone spur disappeared again, and the stab wound returned to its original appearance in an instant.

"puff!"

"puff!"

"puff!"

On the whole arm, small bone needles began to emerge continuously, and then disappeared quickly.

"What's going on?" Li Tian felt a little horrified. This feeling of spurs was not unfamiliar to Li Tian. Those zombies basically have this skill, and white spurs will emerge from their bodies.

"Am I going to become a zombie? But my thinking has no effect, except for the emergence of bone spurs, my body has not changed in any way!"

However, if it were not for zombies, how could the human body undergo such changes?

Li Tian could feel that the corpse crystal on his chest was extremely excited at this time, as if he had a natural affinity for this kind of bone spurs. The nine-color corpse crystal kept spitting out transparent silk thread and got into Li Tian's wound.

After entering the wound, these transparent silk threads broke again and disappeared in Li Tian's wound.

But the nine-color corpse crystal did not stop in the slightest, and continued to contribute the transparent silk happily.

"Sure enough, you got the ninth-level corpse crystal! Damn it, why is it you? That old, undead corpse crystal is so lucky, but he doesn't know how to cherish it, and he will give you his corpse crystal. In your hands! These **** level nine zombies, don't you understand the master's good intentions?" With the roar of the red robe zombies, the red robe zombies' body changed again.

"Crack!"

"Crack!"

Chapter 3253: Bone Scorpion

I saw the body of the red robe zombie slowly crawling on the ground, and from his left and right ribs, a white bone leg appeared at the same time, and the red robe zombie's back spine slapped, breaking the skin, It forms a white bone that is more than three meters long, like the tail of a scorpion.

"Crack"

"Crack!"

The red-robed zombies were laughing strangely while constantly changing.

Soon, a white bone scorpion over two meters in size and covered with carrion appeared in the corridor. The head of this white bone scorpion was that of a red robe zombie, but this head was surrounded by the ribs of the red robe zombie's abdominal cavity. Lived, it is really not easy to attack the red robe zombie's head easily.

The whole picture is so beautiful that Li Tian dare not look at it.

After the red robe zombie turned into a bone scorpion, especially after a tail over three meters long appeared behind him, Li Tian's attack radius could not be close to the bone scorpion.

The Bone Scorpion kept controlling his tail to attack Li Tian.

This white-bone tail is somewhat similar to the tail of the middle-aged and elderly zombies in Forefoot Village, but Li Tian still had "Red Slash" in his hands at the time, but now Li Tian is unarmed.

Continuously using several strokes to attack the white bone scorpion's tail, without any effect. However, the white bone scorpion slammed its tail and hit Li Tian heavily.

"Boom!" With a sound, Li Tian was hit and broke through a door.

Li Tian couldn't attack the body of the bone scorpion, and Li Tian didn't dare to fight against him, so he could only evade.

"Red cut!"

If "Red Zhan" is in hand at this time, Li Tian has absolute confidence that he can make this bone scorpion ask for trouble.

Seeing that the continuous attacks could not attack Li Tian, the bone scorpion used the barb on his tail to plunge into the ceiling of the corridor, and slam the ceiling of the building down.

"Wow!"

The ceiling of the entire thirty-sixth floor of the corridor collapsed. Li Tian didn't dare to neglect, he turned to the side and rolled into the next room.

"Huh?" Entering this room, Li Tian found out that in the fight just now, Li Tian unknowingly came to room 3606, and beside the dilapidated sofa in this room, "Hong Zhan" turned out to be Plug it on the ground.

Seeing "Red Zhan" Li Tian felt like seeing the closest person.

Li Tian did not hesitate, and pulled "Red Zhan" directly from the ground, only to find that the blade of "Red Zhan" actually penetrated the skin of a bug.

The worm is dead, and the inside of the worm knows where to go, leaving only a layer of worm skin as thin as silk.

Seeing this worm skin, Li Tian immediately thought of the worm in the coal mine of Eji Village.

Although the two worms are of different sizes, Li Tian is certain that it is definitely a kind of worm. Seeing this kind of bug again, Li Tian finally knew why "Red Zhan" would fly out automatically.

The purpose of "Red Slash" is only one, and that is this insect.

No wonder the red robe zombies attack Li Tian madly, saying that Li Tian moved his bug!

"Brother Tian..." a two-dimensional faint voice came from the corner.

"Two-dimensional?" Li Tian saw the two-dimensional on the huge spider web in the corner, and immediately saw the insect skin packed into the skin, ran under the spider web, and saved the two-dimensional!

"Li Tian! I'm going to kill you..." The Bone Scorpion had already rushed into the room and saw Li Tian rescued the two-dimensional split and charged towards Li Tian.

With "Red Slash" in hand, Li Tian didn't have the slightest fear in the face of the incomplete changes of the red robe zombie.

"Huh!" With a cry, "Red Zhan" had already flown out under Li Tian's control.

"Red Slash" is like a swimming fish, swimming fast in the dark, and in the blink of an eye, it has already attacked the bone scorpion five or six times continuously.

The white bone scorpion kept swaying its long white bone tail, colliding with Li Tian's "Red Slash".

"Red Zhan" collided with the tail of the white scorpion continuously, making a sound of metal crash.

However, the red robe zombie is not a level 9 zombie after all. Although his bones have far surpassed ordinary metals in density and hardness, "Red Slash" is not ordinary metal.

As Li Tian kept controlling "Red Zhan" and colliding with the tails of Bone Scorpion, Li Tian obviously felt a trace of pain on Bone Scorpion's face, and Bone Scorpion began to back up.

Suddenly, "Kacha!" With a sound, the tail of the White Bone Scorpion could not withstand the continuous slashing of Li Tian's "Red Chop", and broke into two pieces.

"No!" The red robe zombie let out a miserable cry.

The severed tail of the bone scorpion fell to the ground, and the bone scorpion tried to grab the broken tail with his claws.

Li Tian's eyesight and quick hands will let the white bone scorpion succeed.

A blade of shadow flashed past, "Red Slash" had already been cut over.

With a "click", the white bone scorpion's foot protruding from the abdomen was also cut off by "Red Cut".

The bone scorpion uttered a sound, and quickly stepped back, quickly changing into a zombie form.

The red-robed zombie can't understand it. When he became a bone scorpion before, he was almost invincible. No matter how many bounty hunters he encountered, the red-robed zombies could insert those bounty with their long tails. The hunter's head turned those humans into his delicious biscuits.

Even if he encounters a master among humans, the red-robed zombie's white-bone scorpion form ensures that his head is safe from being attacked by those humans.

After being invincible, Bone Scorpion can always find opportunities to kill those masters.

But now Li Tian is so brave. Especially after Li Tian took the weapon in his hand.

The weapon, yes, it must be the weapon.

The red robe zombie immediately wanted to understand. He discovered that Li Tian's attack power had increased by many times, especially the weird weapon in Li Tian's hand.

Just now, he actually flew in by himself and nailed the owner's bug directly to the ground, and the weird weapon actually sucked all the corpse essence from the owner's bug.

The red robe zombie suddenly had some fear in his heart.

But at this time, the body of the red robe zombie was somewhat weak. I found it difficult to escape.

Zombies, bones are an important part of constructing the strongest form of zombies. Just like the head of a zombie that has lost its body cannot continue to attack, it has lost a lot of bones in its body, especially the red-robed zombie who has lost half of its spine.

Want to restore to the original strength, the red robe zombie does not know how many corpse crystals of the zombie have to be sucked.

The red robe zombie turned around and fled without heart.

Li Tian didn't plan to let the red robe zombies just like that. He still asked how the red robe zombies knew his name, who was the owner of these worms, and who was the red robe and the person who issued the bounty hunter mission? what relationship.

"Crack!" With a sound, the red robe zombie directly smashed the window glass of the room and jumped out of the window.

Chapter 3254: Windfall

After jumping out of the window, the red robe zombie stretched out a pair of meat-wing wings from under the red robe, and flew up.

"Li Tian, today you hurt my red robe and killed my master's bugs. One day I will definitely make you regret what you did today!" The red robe zombie flapped its wings vigorously and said angrily.

Li Tian snorted coldly, "Red Slash" had already appeared in front of the red robe zombie.

As a red light flashed, Hongpao's neck, which had lost part of his spine, was immediately severed by "Red Cut". The body of the red robe zombie quickly fell from the upper floor.

There are idiots every year, especially this year. They had already escaped, and before they ran away quickly, they even dared to threaten Li Tian with words.

For this kind of death-seeking behavior, Li Tian could only say one word: "Death!"

It's a pity that Hongpao died like this, and Li Tian couldn't know how Hongpao knew his name, nor could he know who the owner of these insects was.

Fortunately, there is still another task to be completed. Li Tian settled down in two dimensions and began to search for the required folders in the room.

The moon has gradually risen into the sky, and the moonlight shines into the room through the window, and the room is not so dark anymore.

It has been a long time since no humans live here, and the room has been destroyed by insects, Li Tian and the red robe zombies have been destroyed by battle, and many things have no longer seen the original physical attributes.

"Brother Tian, will the thing you're looking for be in this safe?" Two-dimensional found that there was a one-meter-high safe in a certain bedroom of this house, and asked.

Li Tian couldn't be sure, after all, the mission did not specify where the folder was. However, Li Tian would definitely not miss such an important place.

Li Tian took the "Red Zhan" and gently opened the door of the safe, and opened the door. Li Tian found that the safe was divided into three layers, with several boxes on the bottom layer.

When I opened the box, it turned out to be a diamond necklace. Although it was dark in the room, under the faint moonlight, this masonry necklace looked particularly dazzling.

After the end of the world, gold and silver jewelry has become less important. But Li Tian wanted to bring some jewels to Situ Ningbing and the goddess Xueji, to make them happy.

The middle layer of the safe turned out to be a weapon.

This weapon is a thorn!

This thorn is no more than a foot long, the blades of the thorn intersect in a cross, and the whole body of the weapon is dark black, as if it had been painted with black paint, without the slightest metallic luster.

In the hand, this thorn is light and light, and its weight is almost negligible, just like an empty shell model made of plastic.

"What is this? This thing is actually placed in the safe, is it misplaced!" Li Tian took the thorn and gently poked it on the safe.

It doesn't matter that this poke is a pit directly on the door of the safe.

Although this black thorn is not as sharp as Li Tian's "Red Slash", it is sharp enough compared to ordinary metal.

Seeing this scene, Wei Wei was shocked to death, she didn't expect this black thorn to be so sharp. There was a strong desire in her eyes, she wanted this weapon.

However, Wei Wei knew in his heart that her master was Li Tian's girlfriend, and Situ Ningbing was the professional killer, so Li Tian would definitely give it to Situ Ningbing.

"Two-dimensional, your army thorn is broken, this black thorn is just for you!" How did Li Tian think of such complicated things in his mind.

Two-dimensional looked at Li Tian in surprise, and asked in surprise, "Really? Will you give me this black thorn?"

Li Tian directly gave the black thorn to 2D, and said: "Silly girl, I will give it to you if I say it to you, what's so surprising about this!"

"But sister Ningbing?" Although Wei Wei hesitated, he still said it.

"She, hey, there is me to protect her, don't you need other weapons to be strong?" Li Tian said with a smile that he thought was handsome.

Two-dimensional also showed a bright smile, and took the black thorn and said to Li Tian, "Thank you, Brother God!"

Li Tian continued to search for folders in the safe.

The upper layer of the safe is not gold and silver jewelry, but a family tree made of coarse paper. This family tree has been yellowed and the paper is somewhat brittle. On the outside of the genealogy, a transparent plastic book cover is wrapped for protection.

Li Tian directly put this family tree into the skin.

Above the top layer is a small compartment, which is locked by a small lock.

Li Tian opened the small lock with "Red Cut" and reached out to touch the small compartment. Sure enough, he found a folder inside.

This is a black thirty-two-open file folder with a combination lock on it. It seems that the things in this folder are also very important. Otherwise, the owner would not value this folder so much.

Although Li Tian was curious, he still did not open the folder.

I accidentally completed this mission, and I also accidentally obtained a good weapon, as well as some diamond jewels. I was very happy inside.

Put away the folder, and walked downstairs with 2D on his back.

Returning to the first floor of the Rising Sun Building, seeing Li Tian carrying the two dimensions on his back, Bai Jing immediately walked to Li Tian and asked about what happened to Li Tian upstairs.

Li Tian probably said something, and asked Bai Jing: "The red robe zombie has been killed by me, and his body has fallen from the upper floor, have you seen it!"

Bai Scenic Spot nodded.

The captain came over, stretched out his hand, and handed the red robe zombie's eighth-level corpse crystal to Li Tian.

It can be seen that all the sixth-level zombies, including the captain, showed some greedy eyes at this eighth-level corpse crystal.

Zombies are also different from humans. Humans will use the corpse crystals at level 1 to 4 as currency, use the corpse crystals to refine the original corpse, and use the corpse crystals to make zombie virus serum.

And zombies, especially senior zombies, these corpse crystals are the original power of their cultivation.

"This corpse crystal can't be given to you temporarily! When we return to the sunset fortress, when He Zhizhuo will give me the seventh-level corpse crystal that he owes us, I will give you a seventh-level corpse crystal to taste!" Li Tian said to Da Said the captain.

The captain's face was immediately filled with excitement.

"Master Li Tian, when you are fighting with the red robe zombies, I have carried out preliminary management of the zombies you have controlled. Among the five zombies, I have been promoted to a deputy captain. The other zombies follow the rules of A, B, C and D. Naming." As he said, the captain introduced the names of the zombies to Li Tian one by one.

"However, Zombie B and Zombie Ding are very dishonest. When the red-robed zombies fell from the sky, they both attempted to **** the eighth-level corpse crystals, but they were subdued by me and the deputy captain!" said the captain.

Chapter 3255: Home

Li Tian smiled slightly and said to the captain: "Very good!"

The captain didn't know what Li Tian meant by these two words, but when all of them returned to Fancheng Fourth Hospital, when the second zombie Li Tian came to Liu Yihui's laboratory under the control, the captain knew it was good. What do you mean!

It was already dawn when I returned to Fancheng Fourth Hospital. Li Tian let the brigade captain and other zombies stay in the basement of the Fourth Hospital.

Bringing Bai Jing and two dimensions to the fifteenth floor.

The barbarian was already awake, but he was injured and could not go to the ground. Seeing that the two-dimensional had returned and his body was also injured, the barbarian showed some sad expressions, but soon, the barbarian showed a simple and honest smile and said to Two-dimensional, "Two-dimensional, do you know what you missed? Haha, I don't think you will ever experience that excitement. Brother Tian is a bounty hunter who is a **** warrior and will bring the legendary Chi The third person of the blood organization, the Red Wolf, beheaded..."

Hearing that Manzi said that Li Tian would behead the third character of the scarlet blood, Scarlet Wolf, the two-dimensional heart was shocked. She thought that two-dimensional was brave enough yesterday to kill so many people who were surrounded by the city, but when she heard Li Tian beheading the red wolf, two-dimensional felt that she had done so much. In front of Li Tian, she was not a person at all. thing.

However, 2D soon figured out, Li Tian, that's Brother Tian! Since the eighth-level red robe zombies can be beheaded, killing a seventh-level bounty hunter is not difficult.

Two-dimensional lying on the hospital bed, she was also very happy to see Manzi's expression of excitement, she said indifferently, "Yes, what a pity! I missed the killing of the seventh-level bounty hunter Red Wolf by Tian Ge. The scene. But Barbarian, your body is too bad. If you don't let it go, you won't miss the hunting of the eighth-level red-robed zombies..."

"What? Eight... Eighth-level zombies... Two-dimensional, can you tell me the details?" Manzi said imploringly.

"Yes, but first you need to tell me all the details you see, and you are not allowed to miss it at all!" Two-dimensional asked.

Seeing that two-dimensional and the barbarian were safe and sound, Bai Jing's mood improved a lot.

This day and night, Bai Jing actually had a torment. The barbarian was seriously injured and his life or death was uncertain. Two-dimensional was taken away by the zombies. In the end, although Li Tian arrived, he faced so many sixth-level zombies and one eighth-level zombie. In fact, Bai Jing didn't hold much hope in his heart.

But thinking that if he could die with Li Tian, Bai Jing still felt a little sweet in his heart.

However, Bai Jing's idea was not realized.

Li Tian began to show great power, constantly controlling the sixth-level zombies, and the king of force smashed the eighth-level red robe zombies, rescued the two-dimensional, and completed the task by the way.

Now, as long as the barbarian and the two-dimensional damage are similar, he can return to the Sunset Fortress, and returning to the Sunset Fortress may be the time to say goodbye to Li Tian.

Thinking of this, Bai Jing couldn't help feeling a little sad. He turned to look at Li Tian and found that Li Tian was wearing a diamond necklace on Situ Ningbing's neck.

Seeing Li Tian and Situ Ningbing staring at each other affectionately, Bai Jing felt a little disappointed and turned around hurriedly, not daring to look at Li Tian and Bai Jing.

"Bai Jing, this is for you!" Just as Bai Jing was thinking about it, Li Tian walked over and handed out a square box to Bai Jing.

"This... is this for me?" Bai Jing looked at Li Tian in surprise, but Bai Jing immediately received the jewelry box Li Tian handed him.

After opening the box, I found a string of diamond bracelets in the box. Seeing this string of bracelets, Bai Jing's heart was full of sweetness.

Bai Jing hurriedly put the bracelet on his wrist, trying to stretch out his wrist to show it to Li Tian, but found that Li Tian had already walked in front of 2D, and handed a small jewelry box to 2D.

"Brother Tian is unfair! Ooo" Seeing that 2D received the gift, Manzi pretended to be a little dissatisfied and said.

Two-dimensional snorted coldly and said, "So if you saw this black thorn in my hand, what would you think?"

Speaking of the two dimensions, he took out the black thorns she had obtained.

Seeing this black thorn, Manzi knew he couldn't use it, but he still showed an expression of admiration, and said to Li Tian, "Brother Tian, you can't look down on friends like this! Two-dimensional, big sister Bai Jing, condensed Sister Bing has gifts, what about my gifts? I want weapons too!"

Li Tian knew that Barbarian would be like this, smiled and pulled out the folder found in the Rising Sun Building from his skin, shook in front of Barbarian and said, "I have completed this task. You know what the rewards of this task are. ?"

"Green Dragon Blade?" Manzi's eyes immediately flashed with excitement.

"Brother Tian... you are really my brother. I knew you would never forget me Barbarian!" Barbarian touched his head and said with a simple smile.

Li Tian looked at Manzi still wrapped in thick gauze and bandaged, and Li Tian thought of the word Tianxia behind Manzi.

Li Tian was moved by the simple thoughts of these children.

"Tianxia, from now on, your barbarian will be under my Li Tian's clan! As long as you follow me, Li Tian, I will never let you lose!" Li Tian said with a smile.

Barbarians, both two-dimensionally froze in place.

"God... Brother God, do you know that? So, do you recognize me?" The barbarian cried a little aggrieved.

"Great, brother, I am finally a person with identity. You don't know, when I was stabbed by the two-dimensional military on my back, I almost hurt to death!" Manzi burst into tears suddenly Said with a smile.

Two-dimensional anxiously said: "Brother Tian, what about me? I also have these two words engraved on my body!" After saying that, Two-dimensional made a gesture of taking off his shirt.

"Ahem, I believe you! Two-dimensional, your performance is also very good! You and the barbarian are very good! From now on, you and the barbarian will follow me!" Li Tian quickly stopped the two-dimensional movement, said.

Both Manzi and Weiwei's faces were immediately covered with smiles. Manzi said with a smirk: "Brother Tian, you don't know, when Li Dan was engraved with the word Tianxia for the first time, Weiwei actually carved I made a mistake, haha, I was so ridiculous that I didn't suffer this kind of pain in vain when I laid Li Dan!"

Seeing that Li Tian didn't say to accept Li Dan, Manzi and Wei Wei smiled and all stopped.

"Brother Tian, Li Dan..." Two-dimensional asked tentatively.

"Your ideas are good! I also agree with your ideas, but the person who wants to follow me, Li Tian, must be someone I recognize by Li Tian, not anyone who wants to engrave the word "world" on the back Li Tian will recognize me! Li Dan, so far, I have not done anything that Li Tian recognizes. Only those who are recognized by Li Tian, will Li Tian think about protecting them and will return to me. Under Li Tian's door!" Li Tian said

Chapter 3256: tester

Li Tian didn't speak much, and Wei Wei and Manzi didn't dare to ask more.

Situ Ningbing knew that since Tang Xiaolong died on Tianshan Mountain, Li Tian had already had a knot in his heart. As Li Tian's person, Li Tian's brother, if Li Tian could not protect him, Li Tian's heart would be very painful. of. Since they cannot be protected, Li Tian would rather not accept them.

This is true for Li Dan, but it is not true for Bai Jing.

Li Tian walked to Bai Jing's side and said, "Your performance is also very good. I wonder if the word Tianxia is engraved on your back?"

Bai Jing was taken aback, then his face turned red.

At this time, Liu Yihui rushed in panting. As soon as he entered the door of the room, he shouted at Li Tian: "Li Tian, you are so powerful. Why are there so many zombies in the laboratory? There are four or five. So many, it scared me to death. When I pushed the door into the laboratory, I saw four or five zombies turning their heads at the same time, staring at me with scarlet eyes. My legs were frightened and I closed the door and went up. run!"

"Li Tian, can you tell me how you caught so many living zombies? Four, no, they are level five zombies, how did you catch them?" Liu Yihui was still in extreme shock. Keep asking Li Tian.

"Actually, only one of the five sixth-level zombies is your test product, and the others are mine!" Li Tian thought for a while and said.

"One? One is enough, wait, what you just said were level six zombies? Those zombies are level six zombies? How is this possible? You know that level six zombies can kill all of us here. Are you crazy? You must be joking!" Liu Yihui originally felt that the zombies mentioned by Li Tian were not enough, but when he heard that the zombies in the underground laboratory were all Level 6 zombies, Liu Yihui immediately became calm.

Seeing that the expressions on Li Tian and others' faces weren't like joking, Liu Yihui was secretly surprised, but he immediately wanted to understand.

Li Tian and others are bounty hunters. After seeing Li Tian bring a wounded person back one day, Liu Yihui guessed that Li Tian and others must have suffered a huge sacrifice before they captured these zombies.

Thinking of this, Liu Yihui suddenly felt heavy pressure on his shoulders.

These zombies were all brought back by Li Tian and others desperately. If this experiment ended in failure, then Liu Yihui would be equivalent to an indirect murder.

"That...Li Tian, can you tell me how many people your bounty hunter team lost to catch these zombies?" Liu Yihui asked with a sad expression as much as possible.

"Loss? What's the loss? All of our people are here. Only Barbarian and Wei Wei were injured. But the injuries were not because of catching these level six zombies!" Li Tian said suspiciously.

The barbarian laughed and said, "I was injured because I was accidentally injured when we were fighting with the Red Blood Organization's No. 3 mission Red Wolf."

The Barbarian blew a little bit, and changed his injury to protect Bai Jing from the injury he suffered when fighting with the Red Wolf. Originally, the Barbarian wanted to let Liu Yihui look at him with admiration.

"What is Red Blood? What species is Red Wolf?" Liu Yihui has not left Fancheng in the past three years and rarely communicates with outsiders, so he has no such concept of Red Wolf and Red Blood.

Barbarian's blood almost squirted out.

Two-dimension thought for a while and said: "Red Blood, you don't know Red Wolf, so you probably should know about the eighth-level zombie! I was injured because Brother Tian killed an eighth-level red-robed zombie..."

"Eight...Eighth-level zombies, what is this concept? I have never encountered an eighth-level zombies! But I have seen the slaughter of low-level zombies by fifth-level and sixth-level zombies. Let me digest zombies well! I feel that he was really hit this time.

In order to get a living first-degree zombie, he tried everything he could, but he couldn't succeed, but what about Li Tian? Captured five sixth-level zombies alive, and also beheaded an eighth-level zombie!

The gap between this person and the person was immediately revealed.

"No, I need to research out my medicine as soon as possible. Only when I research out my medicine can I use the medicine, control my thinking, catch the low-level zombies, and pull the distance from Li Tian and others. ..." Liu Yihui suddenly thought that Li Tian was catching level 6 zombies and

killing level 8 zombies. Even if his medicine research was successful, after the injection of the medicine, the power of corpse transformation would reach level 5 or 6 zombies at most. It's just the degree.

Liu Yihui shook his head, not thinking about these useless things, and said: "A level 6 zombie is enough, so let's start the experiment as soon as possible! Hey, Li Tian, I decided to go back to the Sunset Fortress with you. I believe that with my brain and your strength, we will be able to perfect this medicine very quickly!"

Liu Yihui rubbed his hands and said unnaturally.

"Great!" Li Tian did not expect that Liu Yihui would even agree to go back to the Sunset Fortress with him. In this way, Li Tian gave the zombie to Dean Huang, and then recommended Liu Yihui to Dean Huang. Assist, Dean Huang and they should be able to research this medicine quickly.

As for the medicine to cure the zombie virus, leave it to their professionals to do it.

Bai Jing stayed on the 15th floor to take care of Barbarian and Weiwei. Li Tian and Situ Ningbing followed Liu Yihui back to the underground laboratory.

At the door of the underground laboratory, Liu Yihui followed Li Tian tremblingly, and said: "Li Tian, this is not a joke, you really caught these zombies?"

Li Tian smiled and did not answer! Push the door directly and walk in.

Five zombies were curiously watching the zombies in the iron cages in the laboratory. They were visiting the zombie organs invaded in the glass container, and seeing Li Tian walking in, these zombies immediately stopped.

"Master Li Tian!" The captain greeted Li Tian politely.

Hearing the words of the zombies, Liu Yihui was shocked again. If he hadn't seen these zombies with red eyes, Liu Yihui would even suspect that these zombies were living people.

"Liu Yihui, this zombie is called the captain of my zombie team. These zombies are now under her management. If you want low-level living zombies, tell her that she can find you too! My zombie The team has this ability!" Li Tian said forcefully.

"Enough, a level 6 zombie is enough!" Liu Yihui was full of joy now. At this time, he felt that even if Li Tianhe pretended to be forceful, it looked quite pleasing to the eye.

"I don't know if that zombie is a guinea pig? These zombies are almost like living people. Thinking about it, I still feel a little excited, let's start now!" Liu Yihui asked.

Chapter 3257: Guinea pig

"Zombie B!"

Hearing Li Tian call out the name of Zombie B, the face of Zombie B changed significantly. Zombie B tried to break free of Li Tian's control, and even tried to escape and attack Li Tian. But he found that no matter how he struggled, it was all in vain. As long as he had an idea in his brain, his body would immediately be out of his control.

"Master Li Tian, I was wrong. Give me a chance! I don't want to be a test subject. If you need a live zombie, I will catch it for you!" Zombie Yi begged for mercy.

Li Tian sneered and said, "It's too late!"

Then Li Tian slowly looked at the other zombies and said, "Follow me, Li Tian will have the consciousness to follow me, and do things for me, Li Tian wholeheartedly. If you have different intentions, I, Li Tian, will definitely let you die the first time. very ugly!"

"Yes, master!" The zombies of the captain and the deputy captain replied in silence at the same time.

Liu Yihui was a little envious of Li Tian.

Liu Yihui said to Zombie B: "In fact, this is just an experiment. It is the success of my latest research to inject you. From the results of previous experiments, apart from a few accidental deaths, few zombies will be the first After the first injection of the drug, you died. And if this experiment is successful, maybe you can turn back into a human!"

Li Tian controlled Zombie B to automatically climb onto the test bench, and the two zombies, the captain and deputy captain, locked the hands and feet of Zombie B.

Liu Yihui took out a green potion from the refrigerator, and sucked all the green potion into it with a needle, then walked to the test bench and pierced the black blood vessel on the right arm of Zombie B.

Since Zombie B was controlled by Li Tian, Zombie B couldn't resist at all, and couldn't struggle.

After the green potion was pushed into Zombie B's body by Liu Yihui, nothing changed. Zombie B stared at the ceiling with crimson eyes, while Li Tian and the others surrounded Zombie B, observing Zombie B's. Variety.

"Look, there has been a change!" The captain said as he watched Zombie B's red eyes gradually fade in red.

Sure enough, as the captain said, the two red eyes of Zombie B began to fade, and with this fading, the skin color on Zombie B's body also began to gradually degenerate from dark to light yellow.

"Successful!" Liu Yihui whispered in ecstasy.

However, at this moment, the half-faded eyes of Zombie B turned to crimson again, and the pale yellow skin turned dark black again.

"Ah!" Zombie B let out a scream, and his body began to twitch and twist frantically.

Li Tian coughed abruptly, pulled Situ Ningbing and Liu Yihui behind him, and said, "Zombie B got rid of my control! Be careful!"

Situ Ningbing nodded, he was still at ease beside Li Tian.

But Liu Yihui was different. Liu Yihui was extremely nervous, worried about Zombie B's attack, and somewhat distressed for such an expensive experiment as Zombie B.

"Wow!" Zombie B kept twisting his body, pulling the entire test bench and beginning to tremble.

"Li Tian! I am going to kill you! I am going to kill you!" Zombie B cried out in pain.

Suddenly, layers of scales like snake scales appeared on Zombie B's body, and these scales continued to drill out of Zombie B's body, bringing out the black blood on Zombie B.

"Crack!" With a sound, Zombie B broke free from the lock on his right arm first. After Zombie B broke free from the lock, he immediately began to frantically pull the lock on his left arm.

"Crack!" With a sound, the lock on the left of Zombie Second was also completely torn apart!

The zombies of the captain and deputy captain involuntarily stepped back a few steps, but soon they took two steps forward, blocking Li Tian, Situ Ningbing and Liu Yihui.

Zombie B completely tore the locks on his feet. Zombie B jumped off the test bench and crouched all over his body. Fist-sized meat bubbles appeared under his skin, as if something underneath the meat bubble was piercing the meat. same.

"Puff!" As a black mucus splashed out, a white Sensen bone spur emerged from the meat bubble and appeared on the elbow of Zombie B.

"Puff!" Another white spur burst out of the meat bubble of the other elbow.

With these two sounds, Zombie B's body was like a bean exploding, and he began to keep sending out white spurs.

"Hahaha, it feels so powerful, this is power! Is it a level 7 power?" Zombie B laughed as he looked at the white bone spurs emerging from his body.

"Li Tian, let's leave the laboratory soon! This zombie's strength is too strong. After being injected with the medicine, his strength has been improved, and his body has also been alienated, and now Zombie B has surpassed The concept of level 6 zombies may have reached level 7 strength." Liu Yihui said tremblingly.

Li Tian did not expect that the side effect of this medicine for the zombies would be to enhance the strength.

"Li Tian! Hey, thank you for making me a test product!" Zombie B said with a sneer at Li Tian: "If you didn't make me a test product, how could I become a level 7 zombie so quickly? This power It's so fascinating! To express my gratitude, Li Tian, leave your head behind!"

While speaking, Zombie B suddenly rushed towards Li Tian.

How could the zombies such as the captain and deputy captain tolerate their owner Li Tian being attacked by Zombie B? Without Li Tianxia's order, these zombies rushed on.

"Get out!" Li Tian said with a sneer before walking out.

The zombies that had already rushed out stopped again and retreated.

"Idiot! Master Li Tian is a strong man who can easily kill even an eighth-level red robe zombie, how can you be afraid that you have just become a seventh-level idiot zombie!" The captain sneered and stood up and said.

Sure enough, Li Tian rushed up with his legs hard.

I saw Li Tian facing the attack of Zombie B, and did not use "Red Slash" Li Tian, there was no fear at all, Li Tian did not retreat but moved forward, his hands were palms, and he appeared in front of Zombie B in an instant.

The zombie Yi wailed, his left and right arms simultaneously attacked Li Tian's face and heart.

Li Tian's body flashed, and his body slid to the side for a distance of half a meter, avoiding the attack of Zombie B, and hitting the zombie's right arm with his palm!

"boom!"

A dull loud noise sounded in the laboratory in the basement, and I saw that the right arm of Zombie B who was hit by Li Tian was ***** and bloody, and under the black skin, the bones were thick and can be easily seen.

Chapter 3258: Trial Zombie (2)

"Ah!" Zombie B let out a painful cry, holding the injured arm, backed up several steps, and directly knocked down an iron cage before stopping. .

Li Tian stood with his hands in his hands and looked at Zombie B with a sneer.

For Li Tian, the test product Zombie B is not only the test product of Liu Yihui's medicine, but also the test product of Li Tianxuantian's ***** and soul-breaking palm recovery degree?

Li Tian's one-handed and soul-breaking palm technique hit the zombie B's right arm to a ***** flesh. Li Tian shook his head amidst the exclams of the captain and Liu Yihui.

Although Zombie B is only a seven-level zombie, but the soul-breaking palm method hits Zombie B's body, it is only the flesh and blood of Zombie B, and it does not pose much danger to the bones of Zombie B.

And if it were an eighth-level zombie, Li Tian could already imagine the result.

At present, if you want to achieve good results, you can only use Soul Breaking Palm Technique against zombies below level 7.

"Damn Li Tian, your palm can't help me at all, hahaha, let you feel the strength of my seventh-level zombie!" Zombie B screamed for a moment, and then charged towards Li Tian again with his eyesight.

Facing the clamor of Zombie B, Li Tian snorted coldly, and the palms of both hands became fingers: Xuantian fingering.

Facing the attack of Zombie B, Li Tian opened his bow with both hands at the same time.

Zombie B faced Li Tian's finger again, obviously a little bit jealous in his heart, not daring to attack frontally, which instead gave Li Tian an excellent opportunity.

Xuantian fingering.

With the use of Li Tianxuantian's fingering, a group of gas bombs attacked Zombie B's body, and as these gas bombs attacked Zombie B's body, there was an explosion sound on Zombie B's body immediately.

"burst!"

"burst!"

Zombie B's body immediately appeared black holes like bullet holes, and the black mucus in the black holes kept flowing out.

The shock on Zombie B's body caused Zombie B to retreat again and again.

"Master Li Tian is really amazing! I used to think that Master Li Tian only relied on the weapon in his hand and the nine-color corpse crystal on his chest to have such a strong strength. Now it seems that my idea was wrong and outrageous. !" The captain thought secretly in his heart: "Fortunately, I chose to follow Master Li Tian at that time. If I was fighting with Master Li Tian in school at that time, I am afraid that I have become a corpse crystal now!"

Several other zombies arrived at the same time a little scared, and Zombie C's face was particularly ugly.

"Damn!" Zombie B cursed in a low voice. He didn't expect that after he broke free of Li Tian's control, his attacks were so pale and feeble in the face of Li Tian, and Li Tian's attacks were endless and endless. Playing with him in different ways.

Zombie B suddenly knelt to the ground, supported his hands on the ground, lowered his head, and gasped for breath, and at this moment, zombie B suddenly appeared with a head-big meat ball on his chest. Stop beating.

As the beating of the meat ball became more and more violent, Zombie B's body trembled more severely.

"No! I won't just give in, I want to continue to become stronger!" A ball of meat with a big head suddenly appeared on the back of Zombie B.

After the initial shock, Liu Yihui had gradually regained consciousness at this time. When he saw the changes in Zombie B's body, although Liu Yihui did not exclaim, he could not help being a little surprised.

"It's going to evolve again. I didn't expect this potion to have such a powerful effect on zombies!" Liu Yihui said somewhat unexpectedly.

In fact, Liu Yihui mistakenly underestimated the power of the medicine he made.

Different from the scientific research of Sunset Fortress, all of Liu Yihui's experiments are based on this hospital. His experimental samples are lost and Liu Yihui himself. The raw materials for this medicine are only continuously extracted from the existing zombies and the corpse crystals of the zombies after failure.

And this kind of imperfect and unscientific experimental scientific research has allowed Liu Yihui to continuously purify the original corpse of the zombies. For the zombies, they cannot quickly absorb the original corpse. If they cannot be removed in a short time If the corpse is absorbed, these corpses will be hidden in the body of the zombie and become a bomb that may explode at any time.

Once the agent is injected again, the agent will become the fuse of the bomb explosion. This is why so many zombies will evolve after the first injection of this medicine, and they will all die after the second injection of the medicine.

Seeing Zombie B painfully inspiring him to continue to evolve, Li Tian continued to look at Zombie B with interest. After experimentation, Li Tian had a certain knowledge and understanding of the extent of his skill recovery. Now, Zombie B has lost its experimental value in Li Tian's eyes.

But Li Tian was still waiting. Li Tian wanted to see how far Liu Yihui's medicine could eventually evolve Zombie B.

"Red Zhan" had already flown out, flying around Li Tian's body.

As long as Li Tian is willing, "Red Slash" can easily chop off Zombie B's head.

"what!"

The arms of Zombie B seemed to be suffering from huge pain and were trembling constantly, but as the sarcoma on Zombie B continued to increase, the tremors of Zombie B's arms became larger and larger.

Suddenly, with a "click", Zombie B's arm couldn't bear the huge pressure, and was crushed, Bai Sensen's bones penetrated through the skin and exposed.

With a "click", the other arm of the zombie Yi's support was also broken, and the white bones were exposed. And Zombie B's head hit the ground with a "bang!"

"Li Tian...Save me!"

"Captain, I know I was wrong...Save me!"

A big basketball ball appeared on both sides of Zombie B's head at the same time. At this time, Zombie B seemed to be a three-headed monster.

"burst!"

With a crisp explosion sounded, a meat ball on Zombie B exploded, and as the black mucus came out, the original features in the meat ball were also revealed.

Among the meatballs, a bowl-sized sphere and white bones appeared. And on this white bone sphere, just like sea urchins, white bone spurs are constantly growing out.

"burst!"

The second meat ball on Zombie B burst, which was the same as the first meat ball, and the white flesh ball inside was also sea urchin-shaped.

With these two cracking sounds, other meat ***** on Zombie B exploded at the same time.

Zombie B's body seemed to have a dozen grenades hung on his body, and the flesh and blood of the bombing flew across. Li Tian and the others immediately took a few steps back to avoid splashing the flesh and blood on their bodies.

After the violent explosion, the laboratory was filled with black mucus and rotten meat.

On the ground, Zombie B has become a pile of bones.

Chapter 3259: Two-dimensional mind

The experiment failed, and Liu Yihui's mood was very low for several days.

Li Tian didn't bother him. For Liu Yihui, studying zombie potions was the same concept as Li Tian's path to the strongest.

If Liu Yihui can't adjust himself and invest in the new experiment, no matter how others comfort him, the final result will not be satisfactory.

Fortunately, Liu Yihui was heartless, and within a few days, wearing his dirty white coat and dragging a pair of slippers, he went into the laboratory one head to study the remains of the second zombie who had exploded and died. Up.

He stayed in Fancheng for another five days, so Li Tian and others have been in Fancheng for nearly two weeks. The injury on the barbarian body has improved, and the two-dimensional has healed. Considering that there is also the goddess Xueji in the sunset fortress who is looking forward to the return of lover Li Tian, Li Tian decided to return to the sunset fortress.

However, before making a decision, Li Tian also took the captain, deputy captain and other zombies by the way, and scanned the zombies near Fancheng Fourth Hospital.

There are two purposes. The first is to catch some low-level living zombies as gifts to Dean Huang, and the second is to test the extent to which the Xuantian ***** and soul-breaking palms have recovered to the zombies.

The experiment proved Li Tian's conjecture that Li Tian's soul-breaking palm can directly kill the first-level to fourth-level zombies with a single palm on the heads of the first-level zombies, and the entire heads of these zombies exploded. The Xuantian ***** method is weaker, but again, Li Tianyi pointed to the past, and the aura can kill these zombies in seconds.

But the scene of the spike is far less appreciative than the soul-breaking palm technique.

And the soul-breaking palm hit the heads of the third and fourth-level zombies. The skulls of the third and fourth-level zombies were not broken, but the brains and corpse crystals in the skull were broken into a ball. And Xuantian ***** requires two or more times to complete the killing of a Level 3 or Level 4 zombie.

With this effect, Li Tian is basically satisfied.

Although it has not yet recovered to its peak, it is always good to improve every day.

When he returned to the hospital, Liu Yihui had already walked out of the laboratory, had shaved, and changed into a clean white coat. The only thing that remained unchanged was his slippers.

Liu Yihui seemed to be in a good mood. He was humming a little song and was loading all the important things in his laboratory into the car. Liu Yihui's car is a truck box, which can fit all the things in half of the laboratory.

Liu Yihui was holding a glassware in which the head of a zombie was soaked in the green potion, and the dead zombie stared intently. Due to the effect of the potion invading, the zombie's two eyes are one big and the other small, but the two red eyes are extraordinarily cripple.

When Liu Yihui saw Li Tian returning from hunting with the zombies, he immediately hugged the glassware in front of his arms and said to Li Tian, "Hey, Li Tian, what do you think of my babies?"

Li Tian was speechless for a while, and Li Tian was helpless with this heavy taste.

However, seeing that Liu Yihui had come out of the shadow of experimental failure, Li Tian was also happy for Liu Yihui.

Barbarian's injuries were not clear yet, Bai Jing drove out the hospital ambulance, several people got into the ambulance, raised the ambulance alarm, and walked all the way outside Fancheng, still full of wind.

Fortunately, there are four zombies. What obstacles are encountered on the road. The four zombies are dispatched together. Whether it is a zombies or a car, they can be easily swept away.

Back outside the city, he took Manzi's pickup truck. Bai Jing continued to drive the ambulance. When the two-dimensional seat was in the position of the co-pilot, Li Tian naturally wanted to follow Situ Ning to go to the pickup truck to enjoy the two-person world.

As soon as the assignment was made, the barbarian suddenly felt that the atmosphere became weird.

The barbarian cried and said to Li Tian, "Brother Tian, don't take such a fun, you all went to other cars. In this ambulance lay a wounded me, and four zombies staring at me. This is for me. The life of a barbarian!"

Barbarian also knew that these four zombies were completely under Li Tian's control, but this feeling was still weird.

"Barbarian, believe in Brother Tian, this is the special training given to you by Brother Tian! When you are surrounded by four level six zombies without fear, you can basically go to school!" Li Tian said with a smile.

"Brother Tian..., I also want to participate in this kind of special training..." The expression on the two-dimensional face said unnaturally.

"Yes, Brother God, this kind of special training should be given to 2D. For wounded like me, it's actually good to sit in a pickup truck..."

Before Barbarian finished speaking, he was stepped on by Two-dimensional.

"Ah" Manzi let out a scream, and watched Wei Wei turn his head and sit directly in the co-pilot position on the ambulance. He couldn't get down anymore. Manzi said in a daze, "Isn't it a good idea to train together?"

"moron!"

Bai Jing looked at Two-dimensional's slightly red cheeks, as if guessing two-dimensional's careful thoughts, but facing a single-celled creature like a barbarian, Bai Jing was helpless.

Li Tian shook his head helplessly. The idiot's disease can be cured by myrrh!

But as the boss of Barbarian and 2D, Bai Jing couldn't let this mistake continue.

Bai Jing returned to the car, looked at the bulging two-dimensional, and asked, "Some worry about the barbarians?"

"I'm not worried about his idiot, it's better to let the zombies eat his brain!" Two-dimensional said, afraid to look into Bai Jing's eyes.

Two-dimensional and Manzi have been following Bai Jing for more than three years, so how could Bai Jing not guess the careful thought of two-dimensional.

"You said that the zombie eats the brain of the barbarian, will the zombie become as idiot as the barbarian? An idiot who can't even see the mind of a girl, it is not bad to be eaten by a zombie!" Bai Jing said.

Two-dimensional's face became even more red, and he said shyly: "Who said I like him?"

"Like? I didn't say you like Barbarians!" Bai Jing said with a smile, "So you like Barbarians!"

Two-dimensional looked at Bai Jing a little disappointed, and said to Bai Jing, "Sister Jing, do you think men are such stupid things?"

Bai Jing sighed for a long time. She liked Li Tian and was already seen by many people, but Li Tian refused to accept the move at all, which made Bai Jing very hurt.

The biggest difference between Li Tian and Manzi is that Li Tian knows that Bai Jing likes but pretends to be stupid, and doesn't break this matter. The barbarians have no such consciousness at all, so stupid!

Bai Jing turned to look at Li Tian and found that Li Tian was walking towards them.

"Two-dimensional, you go to accompany the barbarians! I let the captain go to Liu Yihui's car!" Li Tian came to the car window and said, "Two-dimensional, brother can only help you get here!"

At this time, Liu Yihui screamed unwillingly from Liu Yihui's car: "No... why is it always me who is injured? I need beautiful women, no zombies..."

Chapter 3260: City Guard

All the way was unimpeded, and when it was approaching the sunset fortress, it was already dark.

Liu Yihui saw a piece of light on the sky of the sunset fortress city from a distance, and he was already excited.

"This is the city! Brother is finally coming back to the city again!" Liu Yihui hummed a small song and said to the captain sitting in the passenger seat.

Arriving in front of the isolation zone at the outermost periphery of the Sunset Fortress, Li Tian found that things seemed a bit wrong. Both sides of the road ahead are full of cars, and the cars are moving forward slowly.

"Brother, what's going on in front of this?" Li Tian saw that many people got out of the car and walked out of the car. He asked a man who was wearing a pair of glasses that had broken and glued them together. Tao.

It's getting dark, and the man with glasses is also very nearsighted. He didn't see the level five bounty hunter badge hanging on Li Tian's chest. Instead, he pushed his glasses with **** and looked at Li Tian, a little arrogant. He said: "Is this the first time you have come to Sunset Fortress? Sunset Fortress has been on guard since five days ago and strictly controlled. Even the residents of Sunset Fortress, if you want to enter the Sunset Fortress smoothly, you need to come back early, accept an examination!"

Talking about the glasses, the man said disdainfully: "People like you who come to Sunset Fortress for the first time are subject to strict inspections! Otherwise, I'm afraid I don't even have the qualifications to enter a satellite city!"

There was a sudden commotion ahead.

I passed through a message from the front: Because it was getting late, the inspection work has been stopped, and if you want to enter the city, you can only wait until daytime tomorrow.

However, the Sunset Fortress is still somewhat human. A temporary parking spot is opened on the left and right sides of the watchtower. The soldiers of the Sunset Fortress are also responsible for guarding the temporary parking spots. If you just want to enter a temporary parking spot, you still need to pay a little fee.

"It's really unlucky, I would have rushed back soon if I knew it! This time I will lose some corpse crystals." The glasses man said with some dissatisfaction.

Situ Ningbing and Bai Jing also got out of the car, walked to Li Tian, and asked what happened in front of Li Tian.

Seeing the appearance of the two beauties, Situ Ningbing and Bai Jing, the two eyes of the man with glasses seemed to be suddenly regained. His eyes lit up and said, "This is the first time for these two beauties to come to Sunset Fortress. You can join our Anaconda Bounty Hunter team, our Anaconda Bounty Hunter team is one of the best among the four satellite cities of Sunset Fortress! And as you know, it's getting late now, if there is no strong enough man around to protect it, it will be at night Very dangerous!"

Seeing the look of the man in glasses squinting, Li Tian immediately hugged Situ Ningbing and Bai Jingyi from the left to the right, swearing that these two beauties belonged to Li Tian and were sacred and inviolable.

At this time, Liu Yihui also got out of the car and came to Li Tian's side and asked, "What's the matter? I heard that the whole city is on guard. Are we going to spend the night in this wilderness tonight?"

"Actually, it's okay to spend the night in this wilderness, but can you get those damned zombies out of my car? Think about it, when you wake up, you find a zombie staring at you with red eyes, This will scare people alive!" Liu Yihui said with an aggrieved expression.

Li Tian waved his hand and said, "Don't be in a hurry to draw conclusions, I will go to the guarded soldiers to see if I can accommodate them!"

"It's you? Huh! In front of the two beauties, the cowhide shouldn't be too big! It will be ugly if you can't get it!" The man with glasses sneered.

"I don't know that the Python Bounty Hunter Organization and the Binglin City Bounty Hunter Organization are more powerful!" Bai Jing said unconvincedly.

The man with glasses snorted and said, "If ten days ago, our pythons would be far worse than the soldiers in the city. But now, Li Zheng, the head of the soldiers in the city, died unexpectedly while taking over the mission in Fancheng, and their core cadres died seven days ago. Eight, the soldiers are now shattered and disbanded."

"If you want to join Binglincheng, I suggest that you consider us Python again!" said the man with glasses with a proud expression.

Li Tian ignored the man with glasses and walked towards the watchtower.

The man with glasses looked at Li Tian's leaving back, and said to Situ Ningbing and Bai Jing disdainfully: "After the end of the era, there are too many such stunned people. As a senior, I need to tell you two Beauty, you must seize the opportunity in front of you, or you will regret it for life!"

Situ Ningbing and Bai Jing looked at each other and laughed haha.

When Li Tian came to the watchtower, the soldiers in front of the watchtower immediately took up the guns in their hands and shouted to Li Tian: "The inspection today is over, please come back in line tomorrow!"

Li Tian ignored the soldier's call and sorted out the five-level bounty hunter badges hanging on his chest, and then said indifferently: "I don't know if my fifth-level bounty hunter badges can make the brothers accommodating."

Speaking of which, Li Tian took out two third-level corpse crystals from the skin and stuffed them into the soldier's hands.

When this soldier saw Li Tian's fifth-level bounty hunter badge, he was already very respected.

After the battle of Red Wolf Hunting in Fancheng, there are not many level 5 bounty hunters left in the Sunset Fortress, and those who can survive in Red Wolf Hunting, even if their strength is poor, at least luck is also excellent. The status of these five-level bounty hunters in Sunset Fortress is also rising.

Seeing the two third-level corpse crystals that Li Tian stuffed into his hands, the soldier immediately felt dizzy.

Three-level corpse crystals, or two at a time, this is definitely a fortune. Even if it is a level five bounty hunter, who is so rich and generous?

The soldier began to attach importance to Li Tian, carefully observed Li Tian, and then cautiously asked in a tentative tone: "Excuse me, are you Li Tian?"

Li Tian? grown ups?

Li Tian's was also at a loss, wondering if the Lord Li Tian mentioned by the soldier was himself. Li Tian said with some doubts: "I am Li Tian, but I don't know if the adult you mentioned is me."

Hearing a more affirmative answer, a trace of excitement immediately appeared on the soldier's face, as if a fan saw his idol.

"Are you Li Tian who came back from Fancheng?" The soldier's eyebrows were already full of excitement, and he asked in a respectful tone.

Hearing this soldier's question, Li Tian nodded again. Several soldiers next to him also looked excited and leaned forward expectantly, and asked the soldier together: "You must be Lord Li Tian!"
