

A Killer 3391

Chapter 3391: Little bat changes

Xiao Tianyi and the captain were stunned. They didn't expect to be taken advantage of by mutant bats when they both gave way to each other.

After the pure power of the corpse was swallowed by the mutant bat, the mutant bat fluttered a few more wings, flying higher and higher, as if to break free from Li Tian's control over him.

"Ran?"

Tang Xiaolong was dumbfounded. He didn't expect that the mutant bat controlled by Li Tian would even run away after swallowing the power of the corpse.

"Xue Ji, give me your sniper rifle, I want to shoot this bird down!" Tang Xiaolong said angrily.

"Hey, bats are not birds! It's scary to be uncultured!" The barbarian said with a mocking expression watching Tang Xiaolong jump anxiously.

Tang Xiaolong ignored the barbarian's ridicule, and had already taken the sniper rifle from Xue Ji's hand and pointed the muzzle at the bat that was still flying upwards.

"Look at where you go!" Tang Xiaolong muttered to himself.

At this moment, the mutant bat flying in mid-air suddenly exposed himself with a "clam".

"Damn, it's dead? This... If you ask about bats, Brother Tian, you have to testify for me! This mutant bat is a mutated bat that I don't understand, suicide!" Tang Xiaolong did not expect this mutant bat to fly. After being in the air, it turned out to be such a result, he couldn't help but said anxiously.

"Exposure? Are you sure you shot to death?" Manzi asked.

"I haven't shot yet, how can I kill the bat?" Tang Xiaolong couldn't argue with his words now.

"Huh? Look, this mutant bat is not dead!" Xue Ji said, pointing to the blood mist floating in the sky.

Yes, although this mutant bat exposed itself, the blood mist that was exploded did not fall to the ground, but remained suspended in the air.

"How can this be? It's amazing!" Tang Xiaolong returned the sniper rifle to Xue Ji, surprised.

"Yes, how can you still be suspended in the air?" The Barbarian asked questioningly.

"Wow" Xiao Tianyi raised his head and looked into the sky curiously.

No one explained what happened to the mutant bat in the sky, just as no one could explain why this eschatological era suddenly came.

"Look, what is that?" The barbarian suddenly pointed to the blood mist in the sky and said.

Among the flesh and blood that had been blown to pieces, a bean-green crystal was suspended in the middle, and the crystal was entangled by strands of things that looked like silk threads, and the other end of the silk thread covered the blood mist. The flesh and blood and the bits and pieces are connected together.

Those flesh and blood and scraps were also suspended in the midair, following the strands of silk threads slowly converging toward the bean-green crystal.

"It's the power of the original corpse! It must be that this mutant bat's level is not able to withstand the power of such a large corpse original, so it will expose itself, but with the self-exposure, the power of that large corpse original becomes blasted to pieces. , And the zombies of the mutant bats began to take over the power of these corpses at this time, and began to continuously absorb the power of the corpses!" The captain guessed.

No one talks anymore, no matter it is Tang Xiaolong, the barbarian, or Xiao Tianyi, now they are raising their heads, curiously watching what changes the mutant bat will have next.

I saw in the sky, the blood mist kept condensing, and kept gathering together, turning into pieces of flesh and blood, and these pieces of flesh and those silk threads kept converging. Together.

Soon, the mutant bat in the sky had the body of a bird.

"puff!"

"puff!"

As time went by, a pair of fleshy fleshy wings grew out of that body, and after the fleshy wings grew out, they began to flash their wings.

"puff!"

"puff!"

There were two more sounds, and a pair of ***** mucus claws grew under the mutant bat's body.

In this way, the embryonic form of the mutant bat was already in the sky.

After another few minutes, the claws and wings of the mutant bat gradually took shape.

But in the midair, there were still some flesh and blood that were not implicated by those silk threads, and the mutant bat flew directly, swallowing the flesh and blood in the stomach.

After ten minutes, the mutant bat has completely recovered its appearance. At this time, on the wings of the mutant bat, the previous broken hairs grew a little bit longer, and the body of the mutant bat has grown a few inches. Before, this mutant bat had a body the size of an owl, but now this mutant bat is almost the size of a vulture.

"This mutated bat has a bad situation, swallowed the power of this corpse, and evolved! This is much faster than you can shoot birds with a gun!" The captain said to the barbarian.

"Hey, good luck! Good luck!" Tang Xiaolong had a smile on his face at this time.

As the mutant bat's strength increased, Tang Xiaolong felt that his strength had also been improved, and laughed openly.

The mutant bat was not affected by self-exposure in the slightest. It flew in the sky for a few laps freely, even made a few dives, flew in front of Tang Xiaolong and others, and then flew into the sky.

Whenever the mutant bat ***** its wings and flies by, Tang Xiaolong can smell a ***** wind, and the flapping wings of this mutant bat are extremely windy and extremely fast, and the mutant bats have long wings. A few spikes like steel needles came out.

If it is to deal with this general bounty hunter, the sharp claws of the mutant bat and the spikes on the wings are enough for these bounty hunters.

Tang Xiaolong couldn't hide his smile anymore, and laughed loudly. Following Tang Xiaolong's beckoning, the mutant bat swooped and flew towards Tang Xiaolong as if it had understood Tang Xiaolong's gestures.

Seeing that the mutant bat was about to fly to Tang Xiaolong's hands, Xiao Tianyi suddenly issued a "wow" and leapt directly, and pounced on the mutant bat.

Pounced on the mutant bat, Xiao Tianyi excitedly hugged the mutant bat's neck with his hands tightly, and slapped the mutant bat's wings with his two little feet.

The mutant bat was frightened, and immediately flew up again, while the little Tianyi sitting on the mutant bat was excitedly babbling, as if to announce that the mutant bat had become his little Tianyi's mount! "

Tang Xiaolong was stunned, all these changes were really fast.

It took a few minutes for Tang Xiaolong to react. This mutant bat seemed to have rebelled and followed Xiao Tianyi.

"This mutant bat belongs to me!" Tang Xiaolong said coquettishly like a child.

Chapter 3392: Zombie Evolution (1)

Entering Beitang, Li Tian did not go very quickly. .

But Li Tian's purpose is very clear, that is, to go to the clock tower in the center of Beitang, so Li Tian walks in a straight line with almost no extra detours.

The zombies that occasionally appeared on the street rushed towards Li Tian with their teeth and claws. They would soon be "Red Slash" under Li Tian's control and cut them with a single knife. As for the corpse crystal, Li Tian would dig it out without hesitation. For the foodie Xiao Tianyi, I also have a little more peanut-like corpse crystals so that the snack food can be used as a snack.

Therefore, Li Tian has not encountered danger even now.

Li Tian felt more shocking as he went.

The once lively and prosperous city is now terribly peaceful.

When human beings exit the city, the city is occupied by plants, and plants become the real masters of the city. Green plants grow wantonly. Before, the plants on both sides of the highway were kept in order because of the maintenance of sanitation workers, but those plants have grown wantonly in the middle of the street.

On the streets, fallen leaves, dust, and garbage are everywhere. The former mansion has now become a paradise for birds and rats.

"No matter who it is, no matter how bright it is, it will become a mist over time with the passage of time! Only time is eternal!"

"It's no wonder that from ancient times to the present, from the earth to the other world, so many people are pursuing powerful power and the way to pursue immortality. Only immortality can make a mark in the long river of years, and will not be long. Flooded by the river for a long time."

"The earth world, human history, from the beginning of ancient humans to the present, is only a few million years, and the history of civilization recorded by mankind is only a few thousand years."

"In ancient and modern times, people who have left a great reputation in history, no matter what great achievements they have, are now nothing more than a pile of loess."

"In the gradual history, only strong people like the old Sixiang and the old Wuji have managed to survive the gap of time."

"But whether it is the old man of the four elephants or the old man Wuji, after all, they have not stolen the secrets of heaven, stealing eternal life, and ultimately they will not escape the fate of becoming a handful of loess!

"Is this the ultimate fate of my Li Tian?"

"Beauty Xiangyu, am I going to watch Situ Ningbing and the others finally become old women?"

"There must be other ways. In the earth world, the four elephant elders have a life span of more than a thousand years, while in the other world, Xue Ji, Yang Shen, Wood God and others, their one does not have a life span of hundreds of years or thousands of years!"

At this moment, Li Tian thought a lot more, this is because he watched Beitang's decline.

Suddenly, Li Tian's "Red Slash" began to reveal a joy of joy, and that "Red Slash" wanted to escape Li Tian's control and wanted to fly out!

This feeling is too familiar to Li Tian. As long as there is such a feeling, it means there are bugs.

But why does "Red Zhan" have such an unshakable feud with Chongzi?

"Red Slash" came from another world, and the insect, according to Li Tian's speculation, was probably from the Three Corpses.

Li Tianyi stretched out his hand to control "Red Slash" in his hand, then crossed his chest, and said to "Red Slash": "No matter what grudges you have with those ***** bugs, you are willing to follow me back from another world. On the earth, you choose me to be your master. Now that I am your master, you should abide by some rules set by the master. You can also play the trick of betraying the master again, but when the time comes, don't Blame me for turning you into a pile of molten iron with fire!"

When Li Tian said this, he could obviously feel "Red Zhan" trembling slightly, as if he agreed with what Li Tian said, and it seemed to be afraid of Li Tian.

After Li Tian said this, "Red Zhan" seemed to have a lot of sensibility. Although he still wanted to fly out, he did not lose control.

"Don't worry! If there are bugs in Beitang City, I will definitely find the bugs and let you kill them! You don't need to be so worried." Li Tian said again.

While speaking, Li Tian saw a man standing on the opposite street. The man saw Li Tian talking to himself, and even smiled at Li Tian.

"Red Zhan" was shaking excitedly in Li Tian's hands, while the nine-color corpse crystal vortex on Li Tian's chest was spinning at an accelerated rate. At this moment, these two little guys

simultaneously sent a signal to Li Tian. The man of is a zombie, and a zombie with a level higher than nine.

This is just the outskirts of Beitang. It is still a long way from the center of Beitang. How can you encounter zombies above level nine?

Li Tian's heart immediately became alert.

But Li Tian was more alert because of the sudden appearance of this zombie, and more alert for the safety of Situ Ningbing and Tang Xiaolong.

The zombie beckoned to Li Tian, then turned and left.

After seeing Li Tian not following, the zombie stopped again, and continued to beckon to Li Tian, as if to say that Li Tian would follow him.

Li Tian felt very surprised, but at this time the curiosity in his heart was attracted by the zombie that broke out hastily.

The so-called art master is bold, the current Li Tian's strength has surpassed the tenth level zombies, located between the tenth level and the twelfth level. Li Tian hasn't seen the zombie in front of him yet.

Li Tian followed without hesitation.

After the zombie saw Li Tian following, it speeded up and continued to run forward.

After running for more than ten minutes, the zombie ran into a narrow street with a row of trees planted on both sides of the street. On both sides of the street are three or four-story low buildings. Such streets abound.

But Li Tian was particularly surprised and stopped abruptly.

The zombies in front also stopped, as if they were waiting for Li Tian to continue following him.

Li Tian walked slowly on this small street, staring at the trees on both sides.

Because these trees, each tree is densely covered with corpses. Although these corpses have been air-dried, the clothes on their bodies have been severely weathered, and they are almost uncovered, but the clothes are stained Is the badge of the bounty hunter.

These are not the corpses of zombies, but the corpses of bounty hunters.

There are hundreds of bounty hunter corpses hanging on this street. Seeing these, how can I not shock Li Tian.

Although these bounty hunters and Li Tian have no relatives, but after all these are humans, Li Tian still feels a little unbearable.

"Huh!" With a sound, Li Tian released "Red Zhan", rotating around Li Tian's body.

"Why brought me here?" Li Tian asked sharply.

Chapter 3393: Zombie Park (2)

"Li Tian! If I were you, I wouldn't do it!" said the zombie.

"Do you know me?" Li Tian felt very surprised.

"No, I don't know you, but I know your weapon and your skill with Qi Yujian. You are the master of the heavens, and now the principal of the northwest region!" said the zombie.

"Why brought me here? Is it like showing us the bodies of these bounty hunters?" Li Tian said, looking at the corpses hanging on the trees.

The zombie shook his head quickly and said, "Why? You think too much. In fact, most of these bounty hunters weren't killed by us! We collected them from this city, and we just borrowed them. Hanging here will serve to intimidate other bounty hunters and prevent other bounty hunters from entering here rashly!"

"We? Are there other zombies besides you here?" Li Tian asked suspiciously.

The zombie smiled and clapped his hands.

"Flap!"

"Flap!"

With the applause of this zombie, four or five more zombies emerged at the ends of the street, but these zombies were wearing clean clothes and holding guns. It is hard to tell from the outside that these are zombies. .

"Don't get me wrong, they are ninth-level, even tenth-level, eleventh-level zombies like me. But although we are zombies, as our human consciousness awakens, we are not willing to live a zombie life anymore. Now! We are eager to return to human society, eager to live the life before the end of the world, but, as you know, bounty hunters, especially the dawn organization of bounty hunters, simply do not allow us to do this."

"Once we enter human society, we must pucker our tails up and be humans, living at the bottom of human society, living like a mouse. We must also face the possibility of losing our lives at any time. But this kind of life is the same as our current life. How much difference is there in zombie life!"

"So, some of our senior zombies in Beitang chose a different kind of life. This is also the purpose for me to bring you here."

"What you do in the heavens, especially your attitude towards zombies, makes us zombies admire. You dare to challenge authority, challenge Liming, and even behead Liming's core member Liu Jun. All this makes us like The zombies living in this city seem to see hope."

"Hope? Is it the coexistence of zombies and human society?"

"Yes, maybe the time for this situation is not yet ripe for the time being, and humans are still full of fear of zombies, but they never thought about it. In fact, we are also humans. We have all the attributes and memories of humans, but Yes, we have changed into another form now."

"As for zombies swallowing humans, that's what happened to low-level zombies. How many high-level zombies like to swallow humans?" The zombie said, even talking a little excitedly here.

"But my heavens do not coexist with humans and zombies, it's just that some of my subordinates are zombies." Li Tian said the truth.

"It doesn't matter, put away your weapons, please come and visit our zombie garden with me! Maybe you will change your mind." The zombie said.

Li Tian followed the zombie through this narrow street, across a road, and then walked forward for less than a hundred meters, and a wall appeared in front of him.

The wall is more than two feet high. The wall is covered with blood and dried mucus, but it can be seen that this wall was definitely built after the end of the world.

And on the wall, there are sharp barb steel thorns poured with cement, and these steel thorns are linked together by steel wires, and the steel wires are covered with iron briars.

"When Li Tian saw this huge wall like a military defense fortress, he was shocked and a little puzzled, so he asked: "Is this...? "

The zombie's face showed a trace of seriousness, and said: "Defensive from other zombies' attacks. This Beitang city used to be a very large city with a population of several million. After the apocalyptic crisis broke out, no more than 50 humans escaped. Ten thousand people, all other people became zombies. It is conservatively estimated that there are more than ten thousand zombies above level nine in this city, but these zombies are in addition to the thousands of high-level zombies led by ghouls, other high-level zombies They are all like us, basically struggling, fighting each other."

"Oh, by the way, my name is Shen Yunyang, and my profession before the end of the world was a construction engineer. Now, haha, my profession is a zombie!" Shen Yunyang said with a wry smile.

Walking along the huge wall, I walked for less than a thousand meters, and a gate appeared in front of it with the words Xingzhu Park on the gate. The top of the gate is now also filled with masonry and reinforced concrete. The gate now looks like a hole left in the wall.

"There is no way. If you want to survive in Beitang City, you must learn the rules of survival. Like our zombie team, there are probably more than 300 people, but in this city, we are not the strongest, we can only Choose this way of survival!" Shen Yunyang said.

Li Tian nodded and said: "Your huge wall is like a copper wall and iron wall, plus you more than 300 advanced zombie defenses, you can definitely be called the overlord of Beitang City!"

Shen Yunyang shook his head helplessly, and said: "I have already said that in Beitang City, the zombies ruled by ghouls are the absolute overlord, and he controls more than a few thousand high-level zombies. Like us. Zombies, if they do not join their team, they will either be driven out of the core area of Beitang City, or they can only be swallowed by them."

While talking, Li Tian has followed Shen Yunyang and other zombies into this zombie garden.

This zombie flower group toast is in Xingzhu Park, which covers an area of more than tens of acres. In the park surrounded by walls, pavilions, pavilions, and waterside gardens are really red, willows, and green grass. There is a huge lake in the middle of the park, surrounded by weeping willows, and there is a small island in the middle of the lake.

The breeze blew across the lake, green waves rippling, and there were even a few zombies boating on the lake.

It is a picture of harmony on earth.

Li Tian didn't expect this scene to be in the Zombie Garden, and he couldn't help but look a little dazed.

Although Celestial Realm is one of the largest fortress cities in the northwestern region, the Celestial Realm is always full of open and secret struggles. Even the humans living in the heavens are not as comfortable as the zombies living here.

At this time, there was a melodious bell in the woods of the zombie flower group. Upon hearing this bell, the faces of several zombies including Shen Yunyang showed sad expressions.

"Teacher Shen, please be sorry!" A zombie behind Shen Yunyang said to Shen Yunyang.

Chapter 3394: Zombie Garden (3)

"What's wrong?" Li Tian asked if he didn't understand what happened.

Shen Yunyang's sad expression only lasted for less than a few seconds, and he said with a strong smile: "It's okay, it's mine...My child, this zombie garden was attacked by other zombies last night, and my child is participating in defense. When he was bitten by a zombie."

"Your son is not a zombie?" Li Tian asked unexpectedly.

Shen Yunyang nodded and said, "There are still seven or eight humans in this zombie garden. These humans are basically relatives of the zombies living here."

"It turned out to be like this." Li Tian didn't expect that zombies and humans would coexist in Beitang City.

"If it's just a zombie bite, as long as it's a zombie bite below level 6, you can treat it with zombie serum!" Li Tian said hurriedly.

Shen Yunyang became a little sad and said: "That's the case, but, but our Zombie Garden only found some research equipment in Beitang Third Hospital after the beginning of the spring this year. We have just begun to study zombie serum! Now it is considered to be level one. There is nothing we can do about a zombie bite!"

A zombie wearing a flowered shirt behind Shen Yunyang said: "Senior zombies like ours can control their desires and do not attack humans living here. But humans like Shen Tao, who have just been bitten by a zombie, will take two or three days at the latest. He will definitely become a junior zombie, and then he will attack the humans living here. In order to prevent things from happening, Teacher Shen decided to let Shen Tao hold a funeral before becoming a zombie."

"Funeral?" Li Tian was taken aback, and said quickly: "Hurry up and take me over, there is zombie serum in my backpack, maybe I can help!"

When Shen Yunyang heard Li Tian's voice like this, his face immediately became a little bit more joyful, and said, "Really? I...I will take you over!"

Speaking of Shen Yunyang, he has run away because he knows that this funeral is a system he formulated. Once anyone is bitten by a zombie, then these people will become the test objects of the Zombie Garden Zombie Research Center, and the so-called funeral is nothing more than It is to unravel the human bodies that have been bitten by zombies for scientific experiments.

Shen Yunyang's running speed is extremely fast. It's not a loss for a zombie above level 9. Of course, Li Tian's strength is not bad, even surpassing Shen Yunyang, so Li Tian is almost running side by side with Shen Yunyang.

"Brother Li Tian, if I can save the dog, I must be born as a cow and a horse, and will form a grass ring after death!" Shen Yunyang said as if swearing a poison.

"It's important to save people first!" Li Tian said.

Passing through a winding path, a large birch forest suddenly appeared in front. The white trunks of the birch trees were straight, and in the woods, you could vaguely see many zombies or humans gathered together.

"Dang" and some people continued to ring the bell.

Seeing this white birch forest, Shen Yunyang ran faster, and when Shen Yunyang was still worried about whether Li Tian could keep up with him running at full speed, Shen Yunyang was surprised to find that Li Tian actually ran past him and surpassed him toward the white birch forest. The crowd ran away.

"So strong!" Shen Yunyang thought in shock.

And behind Shen Yunyang, the other zombies were already shocked.

Shen Yunyang is one of the few eleventh-level zombies in this zombie garden. His speed is undoubtedly the fastest in the zombie garden, but they found that Li Tian was even faster than Shen Yunyang.

Although this point does not explain all the strength, this point made the other zombies completely put away their contempt.

Li Tian didn't know the thoughts of the zombies behind him. His figure flashed through the birch forest and soon appeared among the crowd.

Seeing Li Tian who suddenly broke in, those humans and zombies all showed horror, and even some zombies couldn't help but undergo some changes, exposing white bones and minions, ready to pounce on Li Tian.

"Who are you? How did you come in?" A white-haired old man with pleats on his face was like chicken skin, and he pointed the crutch in his hand to Li Tian and asked vigilantly.

"Uncle Shan, stop! He is the distinguished guest I invited. Shen Tao is here now!" Shen Yunyang rushed over, panting, and hurriedly stopped.

"Brother Li Tian, please don't be offended!" Shen Yunyang said apologetically.

How could Li Tian be familiar with an old man in sixties.

In the middle of this birch forest, on a surgical bed used in a hospital, a slightly fat boy is tied up. The boy's age is fourteen or five years old. At this time, the skin of the boy's whole body is already a little dark, with double pupils. There was no pure black in it, but a hint of light red.

The boy is Shen Tao. Shen Tao originally felt that he was already very strong. He was already satisfied with the ability to live with his father for three more years in the last days. But when he

was ***** in the birch forest, he waited. During the autopsy, he discovered that he was so attached to the world, and he knew that he was so reluctant to bear his father.

When Shen Yunyang appeared, the teenager Shen Tao couldn't make a sound of tears, and struggling to shout: "Dad, I don't want to die!" "Dad, I don't want to die!"

That's right, a fourteen or five-year-old boy, before the end of the world, is the time of the Mood for Love, who would be willing to leave this world!

Li Tian came to the bed, patted Shen Tao's forehead lightly, and said, "Don't worry, you can't die! Don't struggle, close your eyes and sleep for a while, and you will be well soon!"

Shen Tao obviously misunderstood Li Tian's words. He closed his eyes, and the people who closed their eyes in the TV and movies before the end of the world did not survive in the end. The young Shen Tao struggled even harder.

"Child, you are obedient, he is the Li Tian I told you about! Li Tian in the heavens! He has zombie serum on his body, you don't need to move it, it will pass soon!" Although Sheng Yunyang did not cry, but Also choked up.

This is a kind of joy after the catastrophe, which made this once man, now the powerhouse of the 11th-level zombie even choked up.

"He is Li Tian? The hero Li Tian who killed Liu Jun?" Shen Tao had obviously heard of Li Tian's name, and at this moment he had forgotten that he was still between life and death, and his face was full of Asked with an excited expression.

Li Tian had already taken out a syringe from his backpack, and another serum, pumped the serum into the syringe, stood in front of Shen Tao, took out his bounty hunter badge, and said to Shen Tao "I am Li Tian, this is my bounty hunter badge with my name on it! Now you can rest assured! Close your eyes and it will be good soon!"

Speaking of Li Tian, he had plunged the needle into the blood vessel in Shen Tao's arm.

Chapter 3395: Shen Yunyang's thanks

It was not dark yet, and all the zombies in this zombie garden had waited on the wall on guard.

And the few humans living in the Zombie Garden have already got into the house in the Zombie Garden.

These houses were built later. Except for a door, these rooms didn't even have a window. Moreover, these houses were built a little strangely, as if they were dolls, with a total of three floors inside and outside. The innermost layer is where these people live.

This place is not big, about sixty to seventy square meters. It is divided into ten parts evenly. In the space of these ten parts, there is only a canopy bed and a simple table that is only tens of centimeters in size.

Shen Yunyang lit a half of the candle, it can be seen that this half of the candle is not often lighted.

Shen Yunyang put the candle on a table, then looked at Shen Tao who had fallen asleep on the bed, and saw that Shen Tao was not surprised, and then said to Li Tian: "There are many zombies in Beitang City. Many zombies use other zombies or other animals as food, and a few humans become precious snacks. Almost all high-level zombies and low-level zombies covet these humans. So cities

like Beitang Human bounty hunters usually enter the city during the day and will leave before evening, otherwise when night comes, these bounty hunters will become food for zombies."

"But when we came here during the day today, didn't we see that the zombies on the trees were all intact? Wouldn't those high-level zombies eat the corpses of those zombies?" Li Tian asked.

Shen Yunyang smiled and said: "Zombies actually have weaknesses!"

"Isn't the head of a zombie's weak point? As long as the head blooms and the corpse crystal is dug out, even the most powerful zombie will die upright!" Li Tian said with a smile.

"This is just the weakness of zombies. I mean the weakness of zombies' food. You see zombies eat zombies and eat carrion. Most of them like to eat fresh flesh and blood, especially human flesh and blood. But zombies don't eat it. Contaminated flesh and blood!"

"Contaminated flesh and blood? You mean?"

"The flesh and blood contaminated by human feces will never be touched by zombies! For example, a living bounty hunter falls into a cesspit and crawls out of it, even if he walks in front of the lowest level zombies, those The zombies will not touch this bounty hunter!" Shen Yunyang said.

"Haha! But who would make himself dung?" Li Tian said with a smile.

"Hey, when people are forced to survive, let alone get a whole body of stinky feces, even if they are allowed to swallow the stinky feces, they will choose to swallow it without hesitation!" Shen Yunyang sighed. Said in a tone.

Li Tian was silent.

Yes, survival in the last days is too difficult.

The northwest region is vast and sparsely populated, and there are relatively few zombies, but even in this case, the survival of people in the northwest region is also extremely difficult. For such a little food, for survival, some people gave up their dignity, some people gave up their bodies, and more bounty hunters live on the edge of a knife and may lose their lives at any time.

It is so difficult for human beings to survive in this inland Beitang City, so what about Kyoto City? What about the vast southeast coastal cities? Those human beings are also struggling!

"Brother Li Tian, when this zombie garden was established in the first year, there were only more than one hundred high-level zombies. By the second year, there were already more than 500 high-level zombies, but only after one year, now There are already less than 300 zombies here."

"Earth in the apocalyptic era, after three years, the total number of zombies is now declining rapidly, but the number of high-level zombies is rapidly increasing, and now higher-level zombies are constantly being born!"

"According to my speculation, if our Zombie Garden does not seek change, it is conservatively estimated that in less than a year or two, our senior zombies may be swallowed by other zombie gangs, and our zombies will eventually become other senior zombies. Experience points for promotion."

Shen Yunyang's voice was not fast or slow, slowly telling Li Tian his concerns about the Zombie Garden.

Li Tian was thinking of another question in his heart. When he first returned to Earth, it was half a year ago. Although Li Tian was in the northwest at that time, the ninth-level zombies were definitely the top existence among zombies. But in just half a year, although these ninth-level zombies can't be said to be scum, they really can't be said to be a top-level existence. And the improvement of human strength is much slower than the level of zombie promotion.

In this way, this type of person said that it would be even more difficult if it wanted to completely wipe out the zombies or rule the zombie world.

Li Tian suddenly thought of Liu Yihui, the captives, and Dean Huang.

These zombie researchers, it can be said that they have no power to restrain the chicken, but they are responsible for more tasks. If their scientific research breaks through, then for humans to study zombie viruses, there will be Great credit.

And the ultimate hope of human beings may fall on these people.

Of course, if you want to solve the problem from the root, you have to solve the three corpses, the chief culprit of the zombie virus.

"It seems that Captain and Little Tianyi still need to strengthen their feeding! These two are now ninth-level strength, and they can be killed in seconds when they encounter ordinary zombies, but can they encounter zombies with higher levels?"

Suddenly, Shen Yunyang showed a trace of excitement on his face, and said, "Brother Li Tian, you saved Shen Tao, and I have nothing to thank you for. You can take my son down! Let my son make you a cow and horse. Yes! Although my child is not a natural immune person, he is an alienator. Maybe his ability can help you a little bit!"

"This... how can this be! Don't make it, don't make it! Shen Tao is your child, how can I separate your flesh and blood!" Li Tian said quickly.

What Li Tian thought in his heart was that there was already a barbarian around him, who was a half-crippled burden. If he brought Shen Tao, a small and too fat man, then his team would not be really old, weak and sick.

Don't talk about going to Kyoto City, you may be crippled by your own people before you arrive in Kyoto!

"Li Tian, don't be polite! Son, don't pretend to be asleep either, get up and give you Li Tian a hand!" Shen Yunyang patted Shen Tao's body and said.

"You are paralyzed, didn't you call me brother and brother, why let your son call me eldest brother, you take advantage of me!" Li Tian thought in his heart.

Shen Tao jumped up directly from the bed. The little fat man had not healed yet, but he couldn't conceal the excitement in his heart. Without saying anything, he slapped the big candle!

Chapter 3396: Shen Yunyang's gift of appreciation (2)

"Huh!" A cry!

The candle went out!

The whole room was plunged into darkness!

Li Tian was already stunned, and muttered in his heart: "Are you ***** kidding me? I can do this kind of ability. I can blow out the candles not only with the palm of my hand, but also with my mouth. The ***** can blow out the candles! It seems that the zombie's brain is not easy to use, and we must not take away the fat boy Shen Tao!"

"I'm sorry, my brother, I'm too nervous, made a mistake, made a mistake!" Shen Tao repeatedly apologized.

"Don't be nervous, get ready, and perform one more time for Brother Li Tian!" Shen Yunyang said with a smile.

Speaking that Shen Yunyang had lit the candle again with fire, the light in the cubicle resumed.

As soon as the candle was lit, Li Tian found that the candle was a little weird. Layers of transparent crystals were attached to the candle. If you didn't look at it carefully, you would never see the transparent crystal.

Li Tian stretched out his hand and touched these crystals. These crystals touched his hand. Li Tian took it in front of his eyes and couldn't tell what the material of the crystals were.

Shen Tao adjusted his breathing, held back the joy in his heart, squatted slightly, drew a half circle with his right palm as a dot on the shoulder, and slammed a palm against the newly lit candle flame.

With this palm, there was not the slightest wind, and the flame on the candle was actually enveloped by a group of transparent crystals, and within the transparent crystals, the big flame of the bean still kept its previous shape.

After this palm was shot, Shen Tao's body was a little weak, he sat down on the bed, and started to gasp.

"This... Is this...?"

Li Tian wanted to say something, but in the end he didn't say it. He felt very surprised. He didn't expect that this unremarkable little fat man who almost lost his life, Xiao Zhengtai should have such a power!

Is this ice palm?

Li Tian stretched out his hand and touched the transparent crystal, and found that there was not much temperature on the crystal. It was neither cold nor hot, just like the temperature of the human body!

Seeing Li Tian's surprise, Shen Yunyang said with a smug look on his face, and said with some pride: "How about it? I don't want to praise my son. My son's ability is not bad, right?"

"What are these crystals?" Li Tian asked.

Li Tian actually wanted to ask what else these crystals could do.

Regarding Shen Tao's current strength, although Li Tian was surprised, Li Tian had not yet decided to take Shen Tao down.

If Shen Tao's strength was limited to such a point, controlling a little flame, then Shen Tao's ability value would be almost zero.

Does such a small flame still need power control? Just as Li Tian thought, he could blow out the flame in one breath.

"Actually, I don't know what material this crystal is, but my son's ability is definitely useful! Just accept my son!" Shen Yunyang said.

There was excitement on Shen Yunyang's face, but Shen Tao saw that Li Tian didn't seem to want to accept him very much.

Shen Tao hesitated, and said to Shen Yunyang: "Dad, I want to have a separate talk with Brother Tian!"

"You two talk alone?" Shen Yunyang was a little surprised. He had always treated Shen Tao as a child, but he didn't expect that Shen Tao is now a fifteen-year-old boy, and he already has his own consciousness and ideas.

Shen Yunyang nodded and said, "Well, you two will talk alone! I just need to deploy defenses!"

After Shen Yunyang walked out of the room, Shen Tao closed the door of the cubicle, turning the cubicle into a completely private space, and knelt down in front of Li Tian.

"Brother Tian, although it's a bit presumptuous, please accept me!" Shen Tao said seriously.

Li Tian didn't ask Shen Tao to get up. Shen Tao was already fifteen years old, and he had experienced apocalyptic trials and a life-and-death food year old. Li Tian would not treat him as a child.

Since Shen Tao chose to kneel, let Shen Tao kneel, Li Tian wanted to let Shen Tao understand that men's knees are not used like this!

"You know my name is Li Tian, and I am the city lord of the heavens. I'm not a big talk. Now the northwest region is under the control of Li Tian, and my brothers are loyal to me. Twenty people, why should I accept you? What can you bring me?" Li Tian said with a faint expression.

Shen Tao was stunned. He didn't expect that Li Tian would be so direct, and he didn't even give him face, or his father, Shen Yunyang.

Li Tian guessed what he was thinking from the expression on Shen Tao's face, and continued: "Do you feel that your father, Shen Yunyang, is an 11th-level zombie, powerful, and can be said to have a pivotal position in this zombie garden? , I feel like I should give your father Shen Yunyang face and keep you?"

Shen Tao didn't answer, and Li Tian didn't want Shen Tao to answer. He continued, "I am really surprised that Beitang has such a zombie garden. Some of the things Shen Yunyang said are really useful to me, Li Tian. Help, but if I'm not wrong, your father, Shen Yunyang, should have something to ask me! You probably understand it, now your father has something to ask me, Li Tian, why should I give your father Li Tian? Shen Yunyang's face, put your burden in your hands?"

Shen Tao did not speak.

"Now is the end times, what is the law of the end times?"

"The weak eat the strong, the fittest survive!" Shen Tao said.

"Yes! This is the law of the end times, then you tell me, aside your father, as far as you are concerned, I, Li Tian, why do you accept you!" When Li Tian said the last sentence, it was almost a word. In a word, the tone has also become exceptionally harsh.

At this moment, Shen Tao understood that the last days did not believe in tears, in knees, in relationships, only in strength. Shen Tao stood up slowly, facing Li Tian like an adult, and said: "Brother Tian, maybe my current strength is still very weak, you can also look down on my strength, but you give me a Stage, I can definitely give you a future!"

"Do you want to ask what these crystals are? Don't you doubt my strength? Then I will show you all my strength now!" Shen Tao said angrily.

I saw Shen Tao slowly walking in front of the bed, took a swollen skin from his bed, and poured all the contents of the skin on the tabletop.

Corpse crystals, all the corpse crystals in this skin are corpse crystals. Although the level of these corpse crystals is generally lower, the highest level already has five-level corpse crystals.

Shen Tao pointed to these corpse crystals and said, "These are all my Shen Tao's combat products!"

"Your trophy?" Li Tian asked, looking at Shen Tao with questioning eyes.

Shen Tao was not angry, but reached out and grabbed a corpse crystal and held it in his hand, and said: "Now I will show you my strength in all aspects!"

Chapter 3397: Shen Yunyang's gift of appreciation (3)

Under the dim light, Shen Tao's face was already oozing some sweat, but Shen Tao's eyes were determined.

Shen Tao directly put the corpse crystals in his hand into his mouth, and started to eat the corpse crystals like peanuts.

"Crack!"

"Crack!"

In the small room, only the sound of Shen Tao biting the shell of the corpse crystal was heard, and at this moment, a light blue liquid was leaking from the corner of Shen Tao's mouth.

These liquids are the original liquid containing the power of the corpse crystal in the corpse crystal.

This time Li Tian was not only surprised, but shocked.

This is the first time Li Tian saw someone using corpse crystals to cultivate in this way!

This little guy swallowed three or four second and third-level corpse crystals in three or two strokes, stretched out his sleeves to wipe the light blue liquid from the corners of his mouth, and then stood there, staring at Li Tian.

This is a breathless look, as if telling Li Tian, don't you look down on me? I will surprise you right away!

"Guru!"

"Guru!"

A few minutes after Shen Tao swallowed the three or four second- and third-level corpse crystals, Shen Tao's stomach made a drum-like grunt, and these grunts rang out from Shen Tao's chest. Spreading out a light blue thin line, these thin lines kept walking on Shen Tao's body, and finally disappeared as if it had penetrated into Shen Tao's skin.

It's like

At this time, Shen Tao's face was full of smiles.

Li Tian is no stranger to this kind of smile, which is a confident and proud smile.

"Li Tian, look good!" After Shen Tao shouted, he saw Shen Tao draw a semicircle on the left and right sides of his body with his shoulders as the dots, and then Shen Tao's palms were facing the already The candles wrapped in crystals start to spray!

What was sprayed out of Shen Tao's palm was a mist of broken crystal particles, and after spraying on the candle, these broken crystal particles immediately condensed into the kind of transparent crystal that Li Tian had seen before.

In just one second, the crystal on the candle changed from the size of the fist to the size of the basin.

And Shen Tao smiled slightly at this time, and didn't mean to stop, his palms began to spray against the wall of this small space. In just a few seconds, the evil mist sprayed in Shen Tao's palm gradually slowed and decreased. But the walls of Zhen's entire house were all wrapped in such transparent crystals.

Shen Tao slumped on the bed again, smirking at Li Tian.

At this time, Shen Tao was proud. He was shocked to see Li Tian because of his various performances before and after.

Li Tian knocked on the transparent crystal, and a crisp sound came from this crystal.

"Don't worry, the hardness of this crystal has surpassed that of ordinary steel. As long as I am trapped in this crystal, no one will want to break it unless I want to break it!" Shen Tao said with some pride.

Li Tian took out "Red Cut" and lightly stroked the transparent crystal on the candle. With a sound, Li Tian cut the transparent crystal in half.

The candlelight on the candle was still lit.

"It's interesting!" Li Tian said to himself.

However, Li Tian's "Red Chop" easily swiped, but he was even more shocked by Shen Tao.

Shen Tao said in surprise: "This is impossible, what kind of weapon is yours, how can it break the crystal that I released?"

Shen Tao was still thinking about it. Fortunately, he didn't use this ability to trap Li Tian in the crystal. Otherwise, when Li Tian's weapon is released, the crystal cage will be broken, and Shen Tao may be killed. Too!

Shen Tao felt afraid for a while.

Li Tian smiled slightly and said, "Your ability is because you swallowed the corpse crystal, right? The hardness of the crystal you released should be related to the level of the corpse crystal you swallow. And the kind of corpse crystal you can spray The size and number of crystals are also related to the level and number of corpse crystals!"

Shen Tao nodded and said to Li Tian: "Yes, my father doesn't know that my ability is related to the corpse crystal. I don't want him to worry about me. Please keep it secret for me!"

Li Tian nodded and said, "Does the crystal you eject appear forever? Or can it last for a certain period of time?"

Shen Tao said with some frustration, "This kind of crystal can last about a quarter of an hour at most, and after a quarter of an hour, this crystal will gradually disappear into the air."

"Can the mist you spray only turn into this kind of crystal? Or you can control the shape as you like!" Li Tian asked.

Li Tianwuxin's words caused Shen Tao to pause, and immediately looked at Li Tian dumbfounded, repeating Li Tian's words continuously.

Soon, Shen Tao's face blossomed, and with a "puff", he knelt down in front of Li Tian and said to Li Tian: "Brother Tian is my teacher of words. Your words, come to me. Said it was a big drink, let me know that my ability has other evolutionary possibilities! Thank you, brother!"

"Get up! Your ability is good, but you still need to practice constantly, and in this zombie garden, because you have to consider your father, your ability cannot be fully utilized! I promised you, Take you! Follow me, Li Tian, and give full play to your strength in the future!" Li Tian stretched out his hand to lift Shen Tao up and said with a smile.

"Brother Tian, are you really...really accepting me?" Shen Tao asked with his ears in disbelief.

Li Tian nodded and said, "But you still have one weakness now, that is, you are a little blind and arrogant. There are mountains beyond the mountains. There are too many capable people and strangers in this world, especially after the end times, this world is like you. There are also a lot of supernatural powers."

"You just said that your crystal is harder than steel. After you control it, others don't want to break free. Then I will tell you, my brother Tang Xiaolong, who has cultivated the tenth-fold body, has only reached the first level. Four-fold, but the strength of a single fist is more than two thousand catties. His three-to-two punches can smash your crystals. My disciple, Barbarian, cultivates the Azure Dragon Crazy Sword, and his weapon is the Azure Dragon Sword. Skill alone can chop your crystal into pieces!"

"As for the captain and the little Tianyi, they all have level 9 zombie strength, and any of their transformations can pierce your crystal!"

As Li Tian said, Shen Tao's excited face gradually became more serious.

That's right, in this zombie garden, there is Shen Yunyang, and other high-level zombies are protecting these humans. They are like flowers in a greenhouse. They have hardly experienced many battles, but once they walk out of this zombie garden, they will Will face real enemies.

Li Tian's heart was already happy at this time, this Shen Yunyang thank you gift is really great, this inadvertently, he accepted a thug with super potential!

After fifteen minutes, the crystal disappeared.

Li Tian walked out the door.

Li Tian decided to rush Shen Tao to bring the Barbarians to the Zombie Garden before it gets dark, and let Shen Tao practice it!

Chapter 3398: Attacked (1)

After obtaining Shen Yunyang's consent, Li Tian took Shen Tao out.

Shen Yunyang seemed to have something to say to Li Tian, but Li Tian didn't care if he said it. Anyway, there was time at night.

Walking out of the zombie garden, Shen Tao was very excited. This child has not left the zombie garden in the past three years. Of course he is happy to be able to walk out.

Li Tian felt the position of the team leader and Xiao Tianyi, and gave the team leader a message. He asked the team leader to take Barbarian, Tang Xiaolong and others to the position of the Zombie Garden, while Li Tian took Shen Tao near the Zombie Garden. Catch the lonely zombies and let Shen Tao train his abilities.

"Bah!"

Shen Tao's palms sprayed out a cloud of misty material, which fell on the legs of a low-level zombie in front of him, and a circle of transparent crystals immediately appeared on the legs of this zombie. The zombie walked too fast and fell directly to the ground.

Shen Tao sprayed out some misty substance again, trapping the zombie's upper body in the transparent crystal, and then took out a blade, squatted in front of the fallen zombie, and directly pierced the zombie's head with the blade.

"Puff!" With a sound, dark mucus flowed out of the zombie's head, and Shen Tao picked up a corpse crystal with one hand.

"Brother Tian, how is it?" Shen Tao said excitedly with the corpse crystal.

Li Tian shook his head and said, "Have you forgotten what I told you? You have to find a way to materialize the crystals you sprayed. You are facing a zombie. You can use your powers leisurely, but if it is two Only? Three? Or more zombies? The corpse crystals you swallow are enough for you to control how many zombies? So you need

The objects you squirt out become flying knives, flying swords and other lethal objects, only in this way can your ability be maximized. Of course, this needs to complement each other. It is best to be able to release the crystals in two states at the same time with both hands, so that your ability will be doubled. "

"Now, you can test with confidence! As for the zombies, there is me!" Li Tian had already released "Red Zhan" and "Red Zhan" had been surrounding Shen Tao, playing a protective role for Shen Tao.

Shen Tao nodded and began a bold experiment.

But spraying crystals is easy, and it is even more difficult to make crystals materialize.

Li Tian also knew that not Shen Tao could not be completed in three days and five days, so after finishing the instruction, he did not force it, and he was all up with Shen Tao's understanding and perseverance.

About less than an hour later, the sky was almost completely dark. The captain, along with Manzi, Tang Xiaolong and others, had already found Li Tian.

After seeing Li Tian, Situ Ningbing, who had been hiding in the dark, also walked out. Situ Ningbing's clean clothes were splashed with some stains, and she knew that Situ Ningbing had also been practicing her hermit killing technique.

"Brother Tian, didn't you want us to walk towards the city center step by step for the camp? Why did you suddenly change the route? And who is that kid?" Tang Xiaolong walked to Li Tian and asked Shen Tao.

"Shen Tao, it's getting dark soon, we are going back!" Li Tian waved to Shen Tao before saying to Tang Xiaolong, "This is my new apprentice, Shen Tao, the supernatural person!"

"Supernatural person? Just spray those white mists? Looks very ordinary?" Tang Xiaolong said with some disdain.

"General? It looks average now, but if you polish it well, it might be a sharp sword!" Li Tian said seriously.

Tang Xiaolong only then put away the mentality of contempt, and Tang Xiaolong would naturally not despise the people Li Tian valued.

Li Tian introduced Shen Tao to everyone, and then introduced everyone to Shen Tao one by one.

It can be seen that Shen Tao was very excited to see Tang Xiaolong and the others. This was the first time he saw humans outside the Zombie Garden in three years.

Everyone was talking and laughing, and quickly returned to the zombie garden.

Although Li Tian and Shen Tao had already told everyone about the Zombie Garden on the road, their language expression was far from visually intuitive.

When Barbarians and others saw the tall walls of the Zombie Garden, they were very surprised. After entering the Zombie Garden and seeing the environment of the Zombie Garden, Situ Ningbing and Xue Ji were even more surprised by the beauty of the environment here.

"Brother Li Tian, you will be fine when you come back! I watched that the sky was going to dark soon, and I was worried that you wouldn't be able to come back!" Shen Yunyang said when he got down from the fence.

Li Tian introduced Situ Ningbing, Xue Ji and others to Shen Yunyang again, and Shen Yunyang and the others were polite.

Everyone was talking, and suddenly a zombie on the fence shouted: "Prepare to fight, they are here!"

When Shen Yunyang heard it, he immediately boarded the wall again, and Li Tian and the others also followed.

The last afterglow of the sun is already in the sky. As the afterglow disappears, zombies are constantly pouring out of buildings in the distance, and those zombies are rushing toward the zombie garden like a tide!

Simply by visual inspection, at least thousands of zombies are slowly flocking to the zombie garden.

This is just the situation outside the northern wall. Shen Yunyang did not dare to neglect, and moved quickly along the wall of the zombie guard house to the east wall, but the distance outside the east outer wall was also the darkened zombies. From a distance, these zombies It was like an ant, constantly pouring toward the zombie garden. The same situation is happening outside the fences on the south and west sides.

At least two or three thousand zombies were coming in from any direction, and the zombie garden would be surrounded by tens of thousands of zombies in a short time.

"Clang!"

"Clang!"

A rapid alarm bell sounded in the sky above the Zombie Garden, and the senior zombies in the Zombie Garden jumped up to the surrounding walls and have begun to prepare for battle.

The barbarians and others who saw all this were no longer shocked. This was the first time they encountered so many zombies besieged.

The zombies that Li Tian saw when he was in Ele Village don't have to be these few. Therefore, his performance was very calm, but he smiled and said: "The corpse tide did not expect that we would encounter the corpse tide the first time we came to Beitang. !"

"Brother Li Tian, you are wrong! This is not a tide of corpses! There are millions of zombies in Beitang. If it were a tide of corpses, it would not be such a small number. At least there will be more than hundreds of thousands of zombies. Appear at the same time!" Shen Yunyang said.

"Hundreds of thousands of zombies!"

This huge number shocked Li Tian and others.

These hundreds of thousands of zombies appeared at the same time, so even if a fortress like the heavens, it would inevitably be breached.

Chapter 3399: Attacked (2)

While talking, the zombies had already rushed to the bottom of the wall one after another, but these low-level zombies were completely unable to start with the wall that was more than two lengths high, and they could only leave traces on the wall with their teeth and claws.

However, soon, the zombies behind kept pouring forward, and some zombies from behind stepped on the zombies in front to climb up.

And the senior zombies in the zombie garden on the fence have transformed into hairy bone spurs, spurring the zombies who are constantly climbing on the fence. In an instant, black mucus was everywhere on the entire fence, and the dead zombies piled up under the fence.

The zombies behind stepped on the corpses of these zombies, using the corpses of these zombies as steps, and kept climbing up. On the wall, scratches were clearly visible.

With those zombie corpse steps, intermittently, one or two low-level zombies have already begun to climb the fence.

"puff!"

"puff!"

The heads of these zombies that had just climbed up were immediately pierced by bone piercings, and the corpse of the zombies began to fall, and even occasionally smashed one or two zombies that were halfway through.

But there were at least 10,000 zombies outside the surrounding walls. These zombies were like Xiaoqiang who could not be beaten to death. They were indomitable and kept rushing upwards. Soon, more and more zombies climbed onto the wall.

At this time, the high-level zombies on the surrounding wall began to change, changing into various forms of bone zombies, all of these bone zombies seemed to kill gods, constantly devouring the lives of the zombies that rushed up.

Li Tian and others had already joined the battle. As soon as Li Tian and others joined the battle, the battle scene on the wall immediately changed.

Little Tianyi was riding a bat in midair. The little bat swooped down and picked up the zombie, while Xiao Tianyi pierced the zombie's head with a white thorn.

For the combination of this little bat and little Tianyi, others only envy it.

Situ Ningbing, Xueji, Captain, and Tang Xiaolong were all brave and unusual, especially Tang Xiaolong jumped directly off the wall, and flew dozens of zombies out with a punch, but Tang Xiaolong dared to do this because of Li Tian. The "Red Slash" dragon is protected by the dragon.

As for Li Tian, at this time Li Tian is also full of firepower. As soon as he raises his hand with the broken soul palm of his right hand, under the wall, there will be several zombies being blown up with minced meat. Xuantian **** with his left hand, one finger will be there Zombies to the end.

Only the semi-crippled Manzi retreated to the second line, shouting cheer beside him.

After these low-level zombies entered the zombie garden, they did not attack the high-level zombies, but rushed to the rooms in the zombie garden.

Xue Ji raised the sniper rifle and killed the zombies one by one.

The battle came quickly, and went quickly, about half an hour or so. After dropping thousands of corpses, the tide-like zombies disappeared into the darkness like a low tide.

"It's so cool! Haha! It's been a long time!" Tang Xiaolong shouted excitedly after returning to the fence: "It's a pity that some useless people only have to watch movies, hahaha"

Although Manzi was dissatisfied, it was also a matter. He could only touch his Azure Dragon Sword, waiting to compete with Tang Xiaolong when he got better.

Everyone began to clean up the top of the wall again, and after taking out the corpse crystals of the zombies, they threw the corpses directly down.

In the second half of the night, those zombies who ate carrion said these corpses were clean.

But at this moment, Tang Xiaolong pointed to a dark cloud in the distance and shouted, "That dark cloud is so strange!"

The barbarian sneered: "Isn't it just a cloud of clouds? As for such a fuss!"

"No, that's not a dark cloud!" Situ Ningbing and Xue Ji looked at the dark cloud and said in unison.

"It's not a dark cloud, what is it? It won't be a crow, right?" Manzi said with a smile.

"Yes, it's a crow! But that's a crow!" Li Tian said.

"Wandering crow! In the sky, there are hundreds of crows, right?" said the barbarian.

"No! No!" Shen Yunyang muttered in a low voice, as if something dangerous was about to happen. There was a hint of horror on his face. Suddenly Shen Yunyang saw Shen Tao and immediately said to Shen Tao, "Shen Tao, you Hurry and hide in the house, no one is allowed to leave the room without my permission!"

"Did something happen?" Li Tian asked in a puzzled manner.

Shen Yunyang nodded and said, "In the three years since the Zombie Garden was built, it has suffered a lot of attacks. Basically, it will be attacked by so many zombies once a month. The senior zombies in our Zombie Garden are also used to it. We are here. In the high-walled compound of the Zombie Garden, those low-level zombies are helpless. Even if these low-level zombies can climb over the wall, it is not enough for us high-level zombies! But behind these zombies is very different. These zombies can fly in easily. In the zombie garden!"

"You have nearly three hundred high-level zombies, are you still afraid of the hundreds of low-level zombies?" Situ Ningbing asked puzzledly.

"If there are only these zombie crows, then we will not be afraid, but you don't understand at all! There are zombie knights on those zombie crows, and those zombie knights are all nine-level zombies!" Shen Yunyang said.

"Rider of the crow? What kind of bird is that?" Tang Xiaolong asked.

"Compared to Li Tian, shouldn't he be familiar with corpse insects? There is also such a corpse insect in Beitang City, and the guardian of this corpse insect is a twelfth-level pinnacle. A high-level zombie with a gap!"

"What this zombie is doing is to unify the corpse world of Beitang City."

"After three years, more than half of Beitang City has been under their rule. And the entire Beitang has only a few small teams with hundreds of high-level zombies, like our Zombie Garden, who have not yet returned to them. "

"What does this have to do with the Raven Riders? Are these Raven Riders formed by the Guardian zombies?" Tang Xiaolong asked.

"Yes, these zombie knights are one of the zombie legions formed by the guardian zombies. Three months ago, the guardian zombies had already begun to confess to the zombie garden to submit to his rule, otherwise they would let The zombie garden disappeared in Beitang City!"

"But we are all people with human thoughts, and we even have the hope of returning to life in human society. How can we submit to him, and what is even more annoying is that they even asked us to treat the humans in the zombie garden as Give them sacrifices."

"Can't promise them!" Tang Xiaolong said angrily.

"That's right! Even if the last zombie in our Zombie Garden Battle is left, we can't promise them! During this period, those zombie knights will attack the Zombie Garden once a month, and our Zombie Garden has lost more than a dozen High-level zombies. But it has only been less than half a month since the last attack, so why did they come again!"

Chapter 3400: Raven Rider

Dark clouds pressed the city to destroy it, and when the more than 300 crows flew over the sky, the zombie garden also felt like it was going to be crushed.

The moonlight and starry sky was blocked by these zombie knights, and the zombie garden was completely plunged into darkness.

This time there were more wandering knights than the previous few times. Each of these wandering knights held a bone spear in their hands. At this time, they held the bone spear in their hands and made a croaking noise like the crow. , Riding a zombie, hovering constantly above the zombie garden.

More than three hundred zombie crows, coupled with the noises made by more than three hundred zombie knights, everyone who shook their brains began to hurt. In the zombie garden on the ground, some high-level zombies had become double because of these noises. With red eyes, the nature of a zombie is about to be revealed again!

If this state continues, Li Tian and others may be distraught, and those senior zombies with poor concentration may regain their zombie nature and lose their fighting ability.

At this critical juncture, Li Tian shouted: "Ready to fight!"

With this burst of shout, a red light suddenly flashed from Li Tian. This red light was like a red silk in the darkness, more like a blood python, rushing into the sky.

"Huh!" With a sound, "Red Slash" flashed in the air, and a wandering knight was chopped into two pieces by "Red Slash" along with his wandering crow. The black slime was sprayed down, and the bereaved The corpse of the Raven Knight fell directly.

This suddenness caused the more than 300 crows and more than 300 crow-saving knights still clamoring in the sky to immediately shut their mouths, as if they were suddenly pinched by the throat.

For a while, the entire zombie garden was quiet, except for the flapping wings of the zombie, there was no other noise.

And at this moment, the little Tianyi riding on the bat clamped his legs, and the bat took the little Tianyi directly towards the dead crow knight who was landing.

Still in the air, Xiao Tianyi flew out, hugged the corpse of the Raven Rider, and directly inserted his arm into the head of the corpse of the Raven, took out a ninth-level corpse crystal, and threw it into his mouth. , Kaka Kaka ate it.

At the same time, the mutant bat grabbed the fallen crow corpse with its sharp claws, tore open the fallen crow's head, and directly swallowed the crow's crystal in the fallen crow's head.

"Pretty!" Manzi shouted excitedly while holding his Azure Dragon Sword.

It was this shout that awakened the crow knights in the sky.

"Wow!"

"Wow!"

"Wow!"

The crow-saving knights threw the spears in their hands from the sky at the same time. These three hundred and more bone spears fell like raindrops.

The high-level zombies on the ground jumped and avoided one after another. A bone spear came directly at the barbarian. Seeing that the barbarian was about to be pierced by the bone spear, the captain's long black hair flicked and directly dragged the barbarian. come out!

"You don't want to die, you don't know how to hide when you see the spear stabbed down?" The captain yelled at the barbarian with some anger.

The barbarian was so yelled by the captain that he felt as if he had been greatly wronged, and said to Xue Ji: "Snow Ji, give me your sniper rifle! I will shoot two bird crows first!"

How could Xue Ji give up this kind of opportunity to the barbarians, she had already picked up her sniper rifle, and fired several shots at the crow knights.

However, the raven knights are all ninth-level zombies, and the bullets of this sniper rifle are helpless by those raven knights at this time.

"Shoot people first!" Li Tian shouted to Xue Ji.

Xue Ji immediately understood, raised her sniper rifle and started shooting at the crow in the sky.

"boom!"

"boom!"

With two gunshots, two crows were shot down in the sky, and when the crows died, the knights of crows naturally fell from the air. Dead body Ningbing and Tang Xiaolong were already ready and charged directly. Past.

After Situ Ningbing called out her trick, she saw several ghostlike figures appearing in the darkness. The Raven Crow Knight pierced those ghostlike figures back and forth, but these figures They were all phantoms, and Situ Ningbing had already appeared behind the Raven Crow Knight.

"Puff!" With a sound, the sword pierced into the neck of the Raven Crow Knight.

Li Tian felt particularly surprised. This was the first time he saw Situ Ningbing using a complete hermit killing technique. He did not expect that there would be such a powerful force, especially during the last kill. Li Tian was also worried about Situ Ningbing. It may not be able to break the Raven Rider's defense.

But the result?

Situ Ningbing's head was cut off by Situ Ningbing.

Tang Xiaolong was completely slammed with the zombie knight, fists against the bones, and there were waves of collisions in the zombie garden. Even Mars collided in the darkness.

But Tang Xiaolong is now getting more and more fierce in the Vietnam War, but seeing this little spark is very excited.

When Tang Xiaolong was excited, the Raven Rider immediately felt as if he was being bombarded with shells by countless heavy tanks.

"Kacha!" With a sound, the kneecaps of the zombie knight's legs were shattered and he knelt directly.

"Hahaha!" Tang Xiaolong laughed wildly, how could he let go of this opportunity, and hit the Raven Rider's head like a storm.

However, at the same time, the raven knights had fully launched their attacks, and they were constantly swooping toward the senior zombies on the ground. The senior zombies on the ground had begun to suffer casualties.

In the entire zombie garden, there are only zombies above level ten. At this time, they can be completely unafraid of the zombie knight's one-and-a-half attacks, while those ninth level zombies are crowded together, almost hugging into a zombie ball, and stretched out. There are countless long bones and thorns to passively defend against attacks.

Soon, Situ Ningbing and Tang Xiaolong were pursued by the crow-saving knights. Situ Ningbing and Tang Xiaolong had no choice but to play with Xue Ji, Captain, and Barbarian.

Situ Ningbing, Xueji, Tang Xiaolong, and the captain surrounded the barbarians. Situ Ningbing was holding a military stab. Xue Ji used the dragon sword and Tang Xiaolong's iron fist.
