

A Killer 3411

Chapter 3411: The butcher knife (2)

Among the eight heavenly dragons, the heavens of the heavens refer to gods, also called gods.

It refers to the Great Burning Heaven, Emperor Shitian, the Four Heavenly Kings, and Wei Tuo among the Twenty Heavens of the famous Dharma Protector.

The carvings on the walls in this passage are the statues of the gods all over the sky, but now all the carvings in this passage have been destroyed, and the statues of the gods have become a pile of gravel.

The butcher knife fell on the ground, and the impossibility of destroying the world just now disappeared, and the light yellow light on the handle of the knife was looming, as if it was full of anger and unwillingness.

And "Red Slash" flew in the sky above the butcher knife.

Li Tian was overjoyed, walked a few steps quickly, and came to the butcher knife.

Li Tian stretched out his hand to pull the butcher knife from the ground, but when Li Tian reached out for the first time, a powerful rebound force actually bounced Li Tian's palm away.

Hey, this butcher knife still has a temper. Is this temperament for all spiritual weapons?

Li Tian didn't believe in this evil, and reached out to hold the handle of the butcher knife. The light yellow light on the handle of the butcher knife immediately began to bloom, and a powerful rebound force began to erupt in Li Tian's palm.

For a while, Li Tian couldn't hold the butcher knife in his palm.

Li Tian's expression was a bit awkward. Although there were only Li Tian, Situ Ningbing, and the mutant crow who had just hopped in from outside to watch the excitement, Li Tian still felt very embarrassed.

Since you are not convinced, then I will fight until you are satisfied.

"Hong Zhan, beat this butcher knife again!" Li Tian said to "Hong Zhan".

"Red Zhan" got the order and immediately galloped towards the butcher knife.

And what about the butcher knife?

The mud bodhisattva still has three points of anger, not to mention the divine tool of this fighting
**** Buddha.

The butcher knife was suddenly surrounded by the light yellow light all over the body, and with a sound, a huge explosive force exploded in front of the blade.

The huge explosion exploded a large pit with a diameter of more than half a meter in the ground where the blade was inserted. The stones were splashed, and the butcher knife actually flew again.

The tip of the needle faced the Maimang, and the tip of the "Red Cut" collided with the blade of the Butcher Knife. Although "Red Cut" had the upper hand and pressed down piece by piece, the Butcher Knife exploded with a stubborn tenacity. Even if it was pressed tightly by "Red Slash", it

would never fall directly to the ground as before, instead it would constantly stimulate the potential within the blade to resist "Red Slash."

The butcher knife was pressed against the ground by the "Red Slash" time and time again, and it fought again and again, without discouragement.

Li Tian was moved by the spirit of this butcher knife.

But being moved is one thing, Li Tian couldn't let this butcher knife play such a small temper in front of him.

I saw the butcher knife body, the light yellow light gradually weakened, and the butcher knife was forced by the "red chop" into the blasted rock pit in the passage.

"Okay!" Li Tian said to "Red Zhan", and the "Red Zhan" felt Li Tian's psychological changes, and immediately flew up.

Li Tian stretched out his hand to grab the handle of the butcher knife, but the butcher knife was still unwilling to let Li Tian grab it, and he was still resisting.

Li Tian was already a little angry. This indomitable spirit moved Li Tian, but the blind rebellion made Li Tian feel that the butcher knife was resisting him and was unwilling to obey him.

This is already stubborn.

Seeing that Li Tian's face was damaged, the **** mutant crow crawled on the ground, flapped its wings on the ground, and smiled unscrupulously: "Hahaha, laughed at me! This is an artifact butcher knife, you think everything looks like I have no backbone like this, you think everything is afraid of death!"

Li Tian was full of black lines, really wanting to step on the **** crow's neck with one foot and make the crow speechless.

"Humph!" Li Tian snorted coldly, staring at the butcher knife.

And even though the butcher knife was in the rock pit, it had already pointed the blade at Li Tian, and it was not afraid of it, it was **** for tat.

"Well, since you are begging to die, then I will fulfill you!" Li Tian thought in his heart.

"Hong Zhan!..." Li Tiangang called out the name "Hong Zhan", but at this time he changed again.

The butcher knife flew directly from the rock pit, and it flew towards Li Tian.

"Is this to obey?" Li Tian thought to himself.

No, that butcher's rebellious character, how could it be possible to obey Li Tian's intimidation! Li Tian's pupils kept dilating, and the distance between the butcher knife and Li Tian was almost an instant less than a foot.

But at this moment, "Hong Zhan" flew back automatically, and hit the butcher knife with a sound.

"Hong Zhan" was still strong, but the butcher knife almost fell to the ground danglely, and even Li Tian saw that the butcher knife appeared layer after layer of cracks, and the light yellow light on the butcher knife became the size of candlelight.

"I actually knew that I was the master of this red sword, thinking about attacking me! I really didn't know whether to live or die." Li Tian was furious.

Li Tian didn't like to do business like stealing chicken and eclipsing rice. He originally wanted to take the butcher knife, but the butcher knife refused to accept the discipline, and he wanted to attack Li Tian, so Li Tian couldn't be polite.

And "Hong Zhan" was equally angry.

Li Tian is a strong man recognized by "Red Zhan". Although all Li Tian's illusions in the alien world disappeared after returning to the earth world, "Red Zhan" knew that Li Tian would rise one day, and sooner or later he would become the most The strong king.

"Chang!"

"Chang!"

"Chang!"

The furious "Red Zhan" began to attack the butcher knife continuously, and the butcher knife was hit back to the ground inch by inch.

The cracks on the butcher knife were getting more and more serious.

Li Tian didn't stop him, but sneered at the butcher knife.

What if it is an artifact?

It was just a weapon abandoned by the owner, a weapon that was sealed in the underground palace of the Tashan Temple for thousands of years, and a weapon that could not be lifted by the "Red Slash".

Have the right to be arrogant in front of Li Tian.

"puff!"

The butcher knife was blasted by "Red Slash", and the blade plunged into the ground. At this time, the butcher knife was only slightly yellowish like a thread.

"Enough!" Situ Ningbing suddenly shouted.

Although the "Red Slash" was not Situ Ningbing's weapon, it still gave Situ Bing Ning a lot of face.

After Situ Ningbing stopped "Red Slash", he slowly walked towards the butcher knife.

Situ Ningbing stretched her hand to the butcher knife. The handle of the butcher knife that had been inserted into the ground was shaking gently, and a repulsive force still existed in the palm of Situ Ningbing.

"This kind of thing is stubborn, since it can't be used for my own use, let me just scrap it," Li Tian thought in his heart.

But when Li Tian was about to laugh at Situ Ningbing, the butcher knife "swish!" With a sound, the hilt of the knife fell directly into Situ Ningbing's hand.

Chapter 3412: The butcher knife (3)

All this changed so quickly that Li Tian and the mutant crow's jaws were about to fall off.

Situ Ningbing held the butcher knife horizontally in front of him and looked at the cracks on the butcher knife inch by inch. Above these cracks, Situ Ningbing could see two small Sanskrit characters: "butcher knife".

The name of this artifact is indeed called Butcher Knife.

But as Situ Ningbing's fingers gently stroked the cracks on the butcher knife, suddenly Situ Ningbing's fingers were cut by the raised metal thorn, and Situ Ningbing's blood followed the turtles. The crack flowed into the blade of the butcher knife.

Situ Ningbing did not retract his hand, this small wound would not cause Situ Ningbing's pain, and retracted his hand.

The blood kept flowing on the blade of the butcher knife, and the cracks on the blade of the butcher knife started to fall off.

"Snapped!"

After the first piece of cracked skin fell off the ground, Li Tian saw the real body of the butcher knife, the blood-red blade.

At this moment, Situ Ningbing's face showed a look of shock. Situ Ningbing felt that the butcher knife had such a connection with her. It was this connection that made Situ Ningbing feel that the butcher knife was already Her weapon is out.

Situ Ningbing looked at Li Tian in shock, and then at "Red Zhan".

Situ Ningbing didn't know the connection between Li Tian and the "Red Sword", but at this time, Situ Ningbing felt a strange feeling in his heart.

Is this the owner?

Situ Ningbing thought in his heart.

"Snapped!"

"Snapped!"

"Snapped!"

Pieces of cracks kept falling off, finally revealing the real body of the butcher knife.

With a red blade like blood and a black hilt like ink, this butcher knife seemed to be a combination of two extreme things.

The cracked skin fell off, and there was a string of small characters on the scarlet blade.

"The gods have no way, I will kill them!"

Among the eight heavenly dragons, the heavens refer to the gods, but the status of the gods is not supreme, but they can enjoy greater and longer blessings than humans. Buddhism believes that everything is impermanent, and when the life of the gods is over, they will die.

And the gods in the small characters engraved by this butcher knife naturally refer to the gods, those who enjoy the blessings greater and longer than people, but are desolate and innocent.

"Tudao Tushen! Your name will be called Tushen from now on!" Situ Ningbing said softly.

There is injustice in the human world, but the sword will slaughter it, the gods are innocent, and the **** slaughters them.

After seeing the butcher knife revealing his true sage, Li Tian's heart began to drool. Although this butcher knife is not comparable to the "red cut" for the time being, it is also an absolute weapon and a spiritual artifact. It is a pity that this butcher knife and that "red cut" Similarly, I chose the master and Situ Ningbing.

But fortunately, Li Tian had been considering the issue of Situ Ningbing's weapon before.

Xue Ji uses the Dragon Sword, the Barbarian has the Qinglong Sword, the Two-Dimensional has the Heizi, and Li Tian has the "Red Slash". Tang Xiaolong's ten-fold refining body has the body as a weapon. Only Situ Ningbing has never had a suitable weapon.

After Situ Ningbing held the Tushen in his hand, he appeared to be even more heroic, with such an indescribable charm on his body.

But at this moment, Situ Ningbing's face became more worried.

"What's the matter" Li Tian asked with some worry.

Situ Ningbing handed God Slaughter to Li Tian and said, "This Slaughter Blade and God Slaughter is a weapon before the Battle God Buddha. No doubt, this divine tool has already recognized me as its master. You can see that this divine tool is now completely reborn. , But this is the price that God Tu used the last trace of divine power. Now the spirit of this divine tool has fallen into a drowsiness, and has lost contact with me!"

"How could this happen" Li Tian asked.

Situ Ningbing gently stroked God Tu's blade with his fingers, and said: "According to the message this butcher knife passed to me, this butcher knife was originally a weapon before the God of War Buddha became a Buddha. Before God of War God became a Buddha, there were countless killers. , And with the continuous killing, the demon nature is gradually emerging in his body. In order to control the demon nature in the body and not forget the godlessness, I will slaughter the original intention, and he will take all the negative aspects in his body Emotions and magical qualities were all forcibly injected into the butcher knife. Over time, the butcher knife also gained spirituality, and even the spirit of the butcher knife was born."

The person Situ Ningbing mentioned here was naturally the God of War before becoming a Buddha.

"However, the God of Fighting God had an epiphany, put down the butcher knife, and became a Buddha on the ground, and the butcher knife became the bond of the God of Fighting Buddha. For this reason, the God of Fighting Buddha used his Buddhism power to seal the spirit of the butcher knife, and gradually consumed the power of thought. The magical nature of the spirit."

"During the long seal, the magical nature of the butcher knife gradually weakened, and the power of the butcher knife gradually lost, and even the spirit of the butcher knife had an epiphany, producing a trace of supernatural power."

"It's a pity that the butcher knife is still sealed in the power of Buddhism, and it is also regarded as a magic knife by the Buddhists. Later, in the heyday of the Tang Dynasty, the butcher knife was brought back by the eminent monk with the scriptures for unknown reasons and was placed in the underground palace. In."

"Over the past millennia, this butcher knife has become a divine tool with little magic, but his character is still so rebellious. When you push open the stone gates of the heavens, the butcher knife feels a powerful tool spirit, this tool The spirit should be in your weapon Red Slash." Situ Ningbing raised his head and glanced at "Red Slash".

"The tool spirit of the butcher knife is unruly and unconvinced at the sudden appearance of the tool spirit. Of course, this tool spirit also wants to rebirth him from Nirvana through a fierce battle and free him from that Buddhist power of thought.

"In the end, you can also see that the butcher knife was freed from the seal of Buddhism, so he was willing to absorb my blood and recognize me as the master. Unfortunately, when the butcher knife was fighting with Hong Zhan, that The already weak spirit of the spirit was wounded and severely wounded, but for Nirvana's rebirth, the spirit of the spirit gave up the last ray of divine power, which caused the spirit to fall into a deep sleep."

Situ Ningbing's words were finished, but Li Tian hadn't recovered yet, Li Tian was still thinking about Situ Ningbing's words.

The weapon spirit of Tudao Tushen is a weapon, and there is also a weapon spirit in "Red Sword". If the weapon spirit of Tudao Tushen has a demon nature, then the weapon spirit of "Red Slash" is evil.

Li Tian faintly felt that these spirits were inextricably linked to the world in the gap between the gates of the restricted area in Tianshan Mountain.

"But I have the feeling that the spirit will wake up sooner or later!" Situ Ningbing said with a smile.

Afterwards, Li Tian and Situ Ningbing searched the passages of the heavens, and found that in a secret room at the deepest part of the passage, the knife holder on which the God of Slaughter was placed had been decayed.

Although Li Tian didn't get anything, Situ Ningbing had subdued the butcher knife and slaughter god. Li Tian was also very happy, which also made Li Tian full of expectations for the underground palace.

Among the heavens is the God of Slaughter, what about the God of Dragon?

Chapter 3413: Dragon Temple (1)

After leaving the stone gate of the heavens, Li Tian and Situ Ningbing took a rest, then took the mutant crow and pushed open the stone gate with the dragon ***** pattern. .

Dragon God, there are some differences between the dragon mentioned and the dragon we mentioned. It is a large python without legs. There is also a saying for it as a naga.

The favorite food of the legendary Buddha's golden bird is this kind of dragon. The length of the dragon's body can give the golden bird the pleasure of eating noodles.

Entering the Dragon God Shimen, Li Tian and Situ Ningbing felt that the air behind the door was very humid, and the ground was not completely rocky, but on the rock, there was still some mud and sand. A small stream just left. It flows out from this passage, and finally flows out from the dragon head carving under the stone gate, and flows into the underground palace hall.

On the sand in the passage, there are still some small plants growing. The leaves of these plants are not green, but a dark blue.

If these plants were discovered before the apocalyptic era, then they would definitely make a sensation in the world, but unfortunately no one cares about these things anymore.

Wading across the stream, Li Tian and Situ Ningbing continued to walk into the passage. The more they walked in, the more doubts Li Tian and Situ Ningbing had in their hearts.

From time to time, some shallow water surface appeared in front of me, and after wading over the water surface for ten times, there was already some light mist above the water surface. Li Tian didn't know how the mist was produced, but at this time Li Tian and Situ Ningbing's faces were already full of seriousness.

"I said, we have already got the butcher knife to slaughter the gods, and the remaining scriptures and Buddha relics are not interesting anymore. We don't engage in Buddhist studies, so let's go back!" The mutant crow said with a trembling voice.

Li Tian felt that what the mutant crow said was reasonable, but in Li Tian's heart he always felt that this underground palace was definitely not simple. If he wanted to give up now, Li Tian couldn't bear it!

"Situ Ningbing, what do you say?" Li Tian turned his head to ask for Situ Ningbing's opinion.

At this time, Situ Ningbing already had the butcher knife and the ***** of slaughter in his hand, with a divine tool in his hand. Situ Ningbing felt that the distance between her and Li Tian had been one step closer. In this case, Situ Ningbing certainly hoped to accompany Li Tian on adventure .

"Li, since you have entered the underground palace, there is no reason to give up halfway! Don't listen to worry about the noise of the crow!" Situ Ningbing said.

Situ Ningbing's thoughts coincided with Li Tian, and Li Tian felt as if something was calling him in the underground palace.

"Well, if you don't get into the tiger's den, let's let our husband and wife break into the Longtan tiger's den of the underground palace together!" Li Tian pretended to smile easily.

Situ Ningbing slapped Li Tian lightly, and said angrily: "Who is your wife! Find the goddess Xue Ji, and Duan Muying as your wife!"

Li Tian didn't dare to add fuel to the fire. It has been several years since he met Situ Ningbing and experienced so many things, but Li Tian never gave Situ Ningbing an identity.

"Waiting out of Beitang, I went to Kyoto City to meet Duanmu Ying, and then work together to find Ouyang Shiqing back. At that time, we must give them the most luxurious wedding in the world." Li Tian thought secretly.

Having made up their minds, Li Tian and Situ Ningbing did not hesitate, let go of their hands and feet, and continued to walk into the passage.

But after walking for about half an hour, Situ Ningbing and Li Tian still did not reach the end of this passage, and the fog on the water was getting bigger and bigger, and the visibility was getting lower and lower. The mutant crow squatted on Li Tian's shoulders, twisting his head fearfully, and came back to look around.

"You... look behind you, the passage is gone, we can't go back!" The mutant crow suddenly said with some horror.

Li Tian and Situ Ningbing looked back and found that the passage they were walking through was completely covered by the thick white fog, and they couldn't see the passage they had walked through.

Li Tian and Situ Ningbing walked back a few steps, only to find that what they had walked through was no longer a passage, but a vast space.

"Is it an illusion?" Situ Ningbing said to himself in confusion.

Li Tian immediately controlled the nine-color corpse crystal and released countless transparent silk threads toward the surroundings and the top of the head, but after another ten minutes, these transparent silk threads seemed to be mud cows entering the sea, and there was no reaction at all.

These transparent silk threads can convey information to Li Tian, but after these transparent silk threads are released, no information is transmitted back, which can only show that this place is weird.

Li Tian quickly took back all the transparent silk threads, and said: "It's not an illusion, but it's more powerful than an illusion! Except for the ground, the surroundings and the sky are like the sea, and now we seem to have entered the sea."

"But don't we keep walking along the passage? And if we enter the water, how can we breathe freely?" Situ Ningbing asked.

Li Tian shook his head and said, "This is what I am confused about! But nature has already arrived, so I can only move on!"

"I tell you not to come in, don't come in, this is over, we can't get out anymore, we are going to die here!" The mutant crow said with some complaints.

"Shut up, you have already died once, do you want to die again now?" Li Tian said with some dissatisfaction.

The mutant crow immediately laughed and said, "Hey, I'm here to test your mentality when dealing with difficult situations. Yes, I didn't follow the wrong person!"

If it wasn't for the idiot crow's usefulness, Li Tianzhen wanted to kill him now.

Ignoring the continued noise of the mutant crow, Li Tian stretched out his hand to hold Situ Ningbing's hand, and took Situ Ningbing to continue walking forward. The "Red Slash" had been released by Li Tian and surrounded Li Tian's body. Around one meter, it played a warning role, while with the other hand, Li Tian made the movements of Xuantian fingering, ready to fight at any time.

After that Situ Ningbing's hand was pulled by Li Tian, there was a sense of reliability in his heart immediately, and the other hand clenched the butcher knife but the ***** but also looked cautious.

Seeing one direction, he continued to advance in the mist, and walked forward for about half an hour.

"Li, do you feel it, it seems to be windy!" Situ Ningbing said suddenly.

Li Tian stretched out his hand and touched it during the diving on the ground. He stretched his hand in the air, and he could really feel the cool breeze.

At this moment, the wind was blowing louder and louder, the surrounding fog was gradually dispersed by the wind, and the surroundings became clear again.

"Huh? Where are we?" The mutant crow first noticed the big changes in the surrounding environment and immediately screamed.

Chapter 3414: Dragon Temple (2)

The mist cleared, and the surroundings became clear. Li Tian saw a crystal hall more than 30 meters high and 70 to 80 meters wide. The roof of the main hall was made of colorful fluent tiles, and there was a ten on each corner of the roof. A multi-meter high crystal python sculpture.

These crystal python sculptures are crystal clear and lifelike. The only surprise is that these pythons have no eyes, but this gives the impression that these pythons will come alive as long as they are painted with eyes.

In such a magnificent building, it is like an illusion that exists behind this dragon god's stone gate. In addition to making people feel uneasy, it also gives people a feeling of excitement.

The two vermilion wooden doors of the Crystal Hall were open, and Li Tian and Situ Ningbing walked into the main hall with excitement and anxiety in their hearts.

Entering the hall, Li Tian felt like he had come to a world of pythons. From the front wall to the left and right walls, and then to the top of the hall, it turned out to be a picture of a thousand snakes. On the wall in the center of the hall, there are two sculptures. A copulation picture of giant pythons tens of meters long, and the two sides of this giant python copulation chart start with various lengths and different shapes of pythons, there are clouds and rain, clouds and fog, diving in the deep sea, and human shapes .

The mutant crow has been trembling since entering this hall. If it weren't for fear of Li Tian, the mutant crow might have just turned around and fled.

"Look, are these snakes alive? Why are they always staring at us?" The mutant crow crouched on Li Tian's shoulder and said in a trembling voice.

Li Tian stretched out his hand and patted the head of the mutant crow, and said angrily: "Don't be suspicious and scare yourself, if these guys survive, I will eat it like a snake soup!"

Before Li Tian's words came to an end, Situ Ningbing rushed out with the arrow of Tu Shen suddenly, and hit the snake's head against a python river painting on the wall. In Li Tian's shock, Li Tian saw a ray of red blood flowing down the wall, and with a "click", a snake's head suddenly fell from the wall.

"Quickly retreat!" Situ Ningbing shouted immediately after successfully hitting.

Li Tian immediately released the "Red Zhan", rushed forward a few steps, stretched out his hand to hold Situ Ningbing, and wanted to walk outside the hall, but Li Tian and Situ Ningbing had not retreated to the entrance of the hall, the hall The vermilion door shuts automatically.

The little snakes twisted a few times on the wall, and then fell on the ground, twisting their bodies and slowly swimming towards Li Tian and others. In a blink of an eye, the entire ground was

everywhere. It's a little snake. At the top of the main hall, small snakes continued to fall from the roof, as if it was raining.

The crow screamed, Situ Ningbing kept swinging the knife to chop the small snake that was tuned on his body into two segments. The "Red Cut" kept rotating around the bodies of Li Tian and Situ Ningbing, while Situ Ningbing and Around Li Tian's body, a bunch of snakes had been cut in two.

"What...what to do?" The mutant crow flapped its wings in horror and kept jumping around, but this guy was also an opportunist, and as long as he had a chance, he would immediately tune the little snake around his mouth. Peck fiercely, and swallow the snake into his stomach without extinction.

At this moment, Li Tian and Situ Ningbing felt that the entire hall was shaking. Looking at the mural, the python with the mouth-thickness of the bowl also began to twist, and the tails or heads of several pythons were already in the mural. Stretched out, it can fall from the mural in just two or three seconds.

Situ Ningbing didn't say a word, but he just kept beheading the snakes mechanically. Li Tian's "Red Cut" was beheading the fallen snakes, and his left and right hands were simultaneously using the broken soul palm, which was moving towards those who had already swam over. Shot on the body of the python.

"boom!"

With a palm over, a bowl-thick python was blown apart by a strong palm wind, and blood and minced meat flew across.

Li Tian discovered that after the snakes and pythons on the mural had fallen, the snakes and pythons on the mural still existed. After a few seconds, the snakes or pythons started to twist again, and the snakes or pythons would fall from the mural again. .

"This is simply not a solution, these snakes and pythons can't be killed! Let's rush out!" Li Tian said.

Situ Ningbing did not speak and nodded.

Attention has been settled, Li Tian immediately raised a palm and blasted towards the vermilion wooden door.

"Boom!" After a loud bang, the palm strength of the broken soul palm seemed to fall into the water wave, and there were circles of leaps on the vermilion wooden door, and the vermilion wooden door was not opened at all. sign.

"How could this be?" Li Tian was shocked, "Are you going to be swallowed by these pythons in this hall today?"

Li Tian slapped the vermilion red wooden door with Broken Soul palm one after another, and besides the violent explosion, the water pattern on the wooden door only fluctuated more greatly.

Li Tian controlled "Hong Zhan" and flew over again. "Hong Zhan" slashed on the wooden door, only to cut a crack in the ripple, but soon the water cut the

The crack is filled back.

can not go out!

Wanting to break out is already wishful thinking.

The mutated crow has already eaten the round belly, and can't swallow any snake again. It can only keep beating on Li Tian's left and right shoulders, and the snake corpses at the feet of Li Tian and Situ Ningbing have been thickly covered. One layer.

A dozen pythons with a mouth-thickness have been killed by Li Tian.

Li Tian and Situ Ningbing's bodies had already been splattered with snake blood and changed color, and Li Tian and Situ Ningbing were bitten by those snakes to varying degrees.

These snakes are not venomous, but it is quite uncomfortable to be bitten by these snakes one after another.

If this state continues, Li Tian and Situ Ningbing will not be poisoned by the snake venom, but they will also be eaten by these snakes.

At this time, this hall was completely reduced to a sea of snakes, and there were snakes everywhere on the ground, which was already a foot thick.

Suddenly, with a "click", the whole hall was illuminated.

On the roof of this hall, a thick layer of dark clouds appeared, and the "click" sound turned out to be the sound of lightning appearing in the dark clouds.

A snake appeared in the dark cloud, and a basketball-sized blue snake head popped up.

"Wow!"

It was raining in the hall.

The heavy rain fell on the ground, Li Tian and Situ Ningbing's bodies were completely wet!

Soon, a layer of rain fell on the ground, and the rain did not fall into the ground. After the snakes that had been cut off were bathed in the rain, they grew together again.

At this time, the two copulating giant pythons on the wall began to shake.

Chapter 3415: Dragon Temple (3)

The eyes of these two giant pythons were the size of Tongling, and the cold light of their pale yellow pupils looked chilling.

If these two giant pythons come out of the wall, then these two can swallow Li Tian and Situ Ningbing in one bite. Then, Li Tian and Situ Bingning will be in the greatest crisis.

The tail of one of the giant pythons has already stretched out of the wall. As the tail of the giant python stretches out of the wall, on the tail of the giant python, "poof", "poof" and "poof" gradually appeared. Blood flowed across the python's tail, and the scales soaked in snake blood began to shine with a dazzling golden light.

These scales turned out to be dragon scales!

At the same time as the fishbone, the tail of another giant python was also twisting, already protruding from the wall, and within a few minutes, the tail of this giant python would also stick out from the wall.

Among the eight heavenly dragons, the dragon ***** is a large python without legs.

Li Tian is also a strange one, this is obviously a snake, no matter how big it is, it is at best a giant python, and it comes to Dragon God.

Now Li Tian has fully understood that this dragon ***** is simply a dragon without legs!

And these two copulating pythons are the dragon gods of the entire Dragon Temple.

Li Tian immediately controlled "Red Zhan" and attacked the seven inches where the giant python was in the mural.

"Huh!"

"Hong Zhan" was shining red, and it had hit seven inches from the Dragon God, and was about to be chopped on the giant python, and just on the roof, seven or eight bowl-thick pythons were stretched. The straight snake body flew towards "Red Chop" like a sharp arrow.

"puff!"

"puff!"

Although these pythons were sturdy, they couldn't help "Red Slash" at all, and could only become "Red Slash"'s dead soul under the sword.

"Hong Zhan" chopped seven or eight pythons in succession, slowed down slightly, and galloped toward the python's seven inches again.

But at this time, the giant python's tail turned out to be like a whip, and it snapped on the blade of "Red Chop" with a "pop". The indestructible and invincible "Red Slash" was drawn by this giant python's tail and fell on the ground like fallen leaves.

Li Tian was shocked. If "Red Slash" is ineffective against the python, then what else can be done to cause damage to the python?

Xuantian fingering, no!

Broken soul palm, no!

Situ Ningbing's stealth killing technique, the same can't!

As for the butchering god, it might be possible before it was sealed by the ***** of fighting war, but now, the butchering ***** is just an ordinary weapon.

"Crack!"

At this moment of crisis, the mutant crow spread its wings and flew directly to the Dragon God.

The mutant crow has a vigorous body, and kept avoiding the snakes and pythons flying towards it in the air, almost through the rain of bullets. The mutant crow has already come before the mural.

"call!"

"call!"

The dragon god's tail twitched constantly in the air. He wanted to have a ***** dragon wag his tail and drew the ***** mutant crow into a pile of snakes, turning it into food for the python, but in the

body of the mutant crow. He possesses the human soul. How can he be dominated by animal instincts at this critical moment of life and death.

And at this moment, the tail of the other dragon **** also stretched out from the wall.

"puff!"

"puff!"

"puff!"

Pieces of cyan scales grew from the snake tail of the giant python, and they were infested with blood and turned into pale yellow dragon scales.

The dragon god's dragon tail had already drawn to the mutant crow while it was still evolving, and the mutant crow was hiding in the air, but a few drops of the dragon god's blood still fell on the mutant crow.

The mutant crow that was dripped by the dragon god's blood on his body was suddenly startled, and his whole body shuddered.

The black feathers on the mutant crow are changing almost at a speed that is visible to the naked eye. The black feathers first metamorphose into pure white, and then seem to become jet black again. After nine times of repeated experiences, the mutation The feathers on the crow's body turned into a golden black color, and there was even a hint of gold on the dark feathers.

And the beak of the mutant crow also turned dark gold after being stained with the blood of the Dragon God, only its two eyes changed from crimson to pale yellow.

This mutant crow was destroyed by Li Tian in the Pagoda Tower, using secret techniques to advance. He didn't expect that in the Dragon Temple, he would unexpectedly succeed in the promotion.

The mutant crow in the promotion was severely drawn by the dragon's tail and drew above the ground, but after being drawn, the mutant crow didn't suffer much damage, fluttered its wings, and flew to the dragon **** again.

This time the mutant crows were flying faster, and the pythons that swept about him were swept up by the wings of the mutant crows, and suddenly turned into a cloud of blood.

The blood of this dragon **** is a good thing!

It's a pity that Li Tian and Situ Ningbing are now completely surrounded by pythons. Situ Ningbing and Li Tian's lower body are already entangled by pythons. Those pythons seem to be crazy, and they are still going to Li Tian and Situ Ningbing. Move around.

Situ Ningbing's hands almost couldn't get together, a thick-mouthed python had been wrapped around her arm, and the snake's mouth had bitten on Situ Ningbing's wrist.

"Are you going to die here?"

"No! I can't die here! I won't allow Situ Ningbing to die here!"

"Hong Zhan!" Li Tian suddenly exploded and shouted to the "Hong Zhan".

Chapter 3416: Something happened (1)

Suddenly appearing behind the Dragon God Shimen, Situ Ningbing still couldn't believe his eyes, looked at Li Tian suspiciously, and said to himself: "Is this an illusion?"

"No! This is not an illusion. Look at the wounds on our bodies, these are all bitten by snake teeth!" Li Tian said with certainty.

Only then did Situ Ningbing noticed that all her body was actually traces of teeth that had been bitten by snakes. Fortunately, these snakes were not poisonous. Situ Ningbing just felt excessively tired and her body was a little sore.

Li Tian immediately stretched out his hand to support Situ Ningbing, and said with some remorse: "This time I am Meng Lang, and almost put us in a dangerous situation. If you have three long and two short, Li Tian will be ashamed for the rest of my life! Now we will pass this channel. Check it out, then go out! This underground maze waits for us to explore later!"

Situ Ningbing shook his head, somewhat cherishing Li Tian, and said, "Li, in another world, you have reached the top of that world. You are a well-deserved king, with endless glory and wealth, and you are at your fingertips. . But you are sentimental and righteous, or you gave up all illusions and all cultivation techniques and returned to Earth. This kind of thing is easy to say, how many people can easily do it?"

"I know that your heart is as high as the sky. After you became an ordinary person from the top of the world, you also felt a sense of loss in your heart, but you never mentioned it or showed such a loss. At all times, it was me and Xue Ji Strong backing."

"This underground palace is full of dangers, but now there is no danger in this world or place? Zombies are rampant, the strong are everywhere, the weak eat the strong, and the fittest survive. If we do not seek progress, those zombies will walk in front of us. It's just an occasional peace in the northwest region, but how long can this kind of comfortable life last?"

"The old saying is that you want wealth and wealth in danger. No one can succeed casually! Coming to the underground palace, I have already got the weapon I dream of. Now even if I face the tenth-level zombies alone, I can take it easy. This is ours. It's a kind of progress, but I don't want to stop here. I want to become stronger with you and stand on top of the earth again."

That's right, after returning to the earth world, Li Tian felt a little lost in his heart, but as Li Tian had more and more brothers around him, Li Tian's loss gradually turned into a sense of powerlessness.

To survive, you must be strong.

If you want not to be bullied, you must be strong.

If you want to develop, you must also be strong.

Li Tian hugged Situ Ningbing tightly. This woman, who understands the righteousness, can always think and consider for Li Tian.

"Thank you, Ningbing!" Li Tian said affectionately.

The mutant crow is incomprehensible, and at this moment, it actually flew on Li Tian's shoulder. A very stinky look, stretched out its wings, looked at its wings that had been infested by the dragon god's blood, and then said very narcissistically: "Do you see me beautiful?"

Li Tian directly gave the stinky mutant crow a blank eye.

When Situ Ningbing was released, Li Tian only noticed the bead falling on the ground.

This bead is only the size of a thumb, and is still irregularly round, but elliptical.

In the hand, there was a chill from this bead, but there was a touch of warmth in the chill.

Look carefully before your eyes, this bead is like jade but not jade, like stone but not stone.

"Ningbing, look at this bead!" Li Tian handed the bead to Situ Ningbing.

Situ Ningbing held it in his hand, but he couldn't see why he came, and he returned it to Li Tian.

"After the stone gates of the heavens, we found the divine tool, the butchering god, the bead found in the dragon god's stone gate is naturally not an ordinary grade. Put it away first, and then slowly study it later!" Situ Ningbing said.

Li Tian and Situ Ningbing searched after the Dragon God Shimen again. In this cave, they found two giant python fangs. These fangs are about a foot long and seem to have been preserved for thousands of years. There was a layer of spar-like substance on the fangs, but the two fangs were still extremely sharp, much sharper than ordinary steel knives.

Walking out of the Dragon God Shimen, Li Tian and Situ Ningbing couldn't help but let out a breath.

This time the encounter in the Dragon Temple was really dangerous enough, Li Tian and Situ Ningbing took the time to rest for a while, and decided to enter Yasha Shimen again.

"Xiaolong don't know if they have retreated?" Li Tian said to himself with some worry.

Situ Ningbing said: "We made an agreement before entering the Tashan Temple. If we did not come out within two hours, let them go back first! Now two hours have passed, Xiaolong and the others should have already retreated. Go back! Besides Xue Ji and Xiao Tianyi, the three of them are still very powerful together. There shouldn't be any major problems facing these ninth-level zombies, so don't worry!"

Even though Situ Ningbing comforted Li Tian so much, Li Tian was still a little restless, feeling as if something was going to happen!

Could it be that there is something magical in this underground palace calling Li Tian?

"Okay! Let's enter Yasha Shimen!"

At the same time, Wat Phnom.

The gaps in the walls of the temples on both sides were almost filled with the corpses of zombies and crows, but the fighting continued.

"Li Tian doesn't know if it succeeded, time has passed so long!" Shen Yunyang stabbed one of the ninth-level zombies that leaped at him into the skull, stabbed the ninth-level zombies to death, and then raised his foot. Kicked the zombie away and said to himself.

"I'm afraid it's a failure! It's been more than two hours, and we haven't come out yet. According to the agreement, we can retreat! We have done our best!" Song Zijin's body has been pierced by the Raven Rider with several holes in his cheeks. There was a wound with the thickness of a finger, which looked terrible.

Shen Yunyang felt a little lost. He had great hopes for Li Tian, and Li Tian did have this strength, but Li Tian still did not come out, so it can only show that there is a powerful existence in Tashan Temple that they don't know. .

"Retreat!" Shen Yunyang ordered.

"Do you want to make a detour and tell Li Tian's brothers to retreat together?" Xiaopangdun He Hua asked.

"Forget it! They won't retreat without Li Tian coming out!" Shen Yunyang said.

By the eastern wall, after two hours of intermittent guerrilla attacks, Tang Xiaolong and Xue Ji both felt a little exhausted.

But Li Tian hasn't come out yet, and they are not willing to just retreat.

Xiao Tianyi rode a little bat into the sky, tearing the raven knight in the air into a few pieces, and the ninth-level corpse crystal became Xiao Tianyi's belly lunch.

At this time, Xiao Tianyi saw the far north, black and crushed zombies rushing madly through the city streets, like a tide rushing towards Tashan Temple.

Chapter 3417: Something happened (2)

Corpse tide!

Coming from the center of Beitang, those zombies rushed frantically in the direction of Tashan Temple. Most of the zombies were ragged and filthy, and even some zombies were low-level zombies with poor limbs.

But this tide of corpses surged over, magnificent, and the ground was shaking. Some short trees, flower beds, and even simple houses that stood in front of the tide of corpses were all destroyed by the tide of corpses.

At the forefront of the tide of corpses, there are twelve sturdy eleventh-level senior zombies carrying a thick cypress coffin, walking fast.

The cypress coffin was not uncovered, and a cypress seat was installed in the thick coffin. Sitting on the seat was the zombies of the Guardian of Corpse Bugs in Beitang City, and it was also the only level 12 zombie in Beitang City.

This guardian zombie was an old man who looked like he was in his sixties, with gray hair and pale face, wearing a pair of stone glasses, and wearing a dark blue shroud with patterns, giving people the illusion of old school.

And in the arms of the guardian zombie, he was actually holding a small swaddle wrapped in a big red cloth. The baby in the swaddle had already died, and now there was only one baby's skeleton withered bones.

But among the dead bones of this baby, the corpse worm resides.

The body of this corpse worm is bigger than what Li Tian saw before. Two small antennae have grown on the top of the corpse worm's forehead, and the body of the corpse worm has also grown a pile of wings thin as wings. In the abdomen of the corpse insect, there are dozens of small light blue corpse crystals.

"Huh!" The guardian zombie patted the baby swaddle lightly, and snorted softly.

The twelve high-level zombies carrying the coffin shook all over, their faces were full of fear, and they immediately speeded up and rushed forward.

This guardian zombie was a native of Beitung before the end of the world. After encountering a ghoul, he was fortunate to be seen by the ghoul and became the corpse of Beitung guarding this place.

After three years, this guardian zombie has grown from the original eighth-level zombie to a twelfth-level zombie. In Beitung, the guardian zombie is basically in a dominant position.

According to the plan of the ghoul master, when all the high-level zombies in Beitung City are under his control, a city of zombies can be established, and then the corpse insects can be hatched, so that the strength of the ghoul master can be further improved .

But at this moment, the guardian zombie suddenly felt that the raven knights he controlled in the Tashan Temple were constantly decreasing.

The zombie in the buddha tower of Natashan Temple is the mount of the guardian zombies.

This guardian zombie wanted to find a crane to ride a ride, and wanted to drive the crane westward. But there were no cranes in this Beitung, and in the end the mutant crow left by the corpse soul could only be used as a mount.

And the mutant crow is beginning to use the secret technique to advance. Once the mutant crow is successfully promoted, then the strength of the guardian zombies can also be greatly improved, then the unification of Beitung City and the construction of the city of zombies are just around the corner.

Therefore, the Guardian Zombie made all the Raven Riders stationed at Wat Phnom.

But I didn't expect that this was an accident.

Two hours ago, the Guardian zombies felt that the number of zombie knights in the Tashan Temple was gradually decreasing, and this unusual event immediately made the Guardian zombies restless.

Therefore, the guardian zombies rushed to Tashan Temple immediately.

The whole ground is shaking.

"What's wrong? Could it be an earthquake?" Song Zijin, who had already retreated to the square in front of Tashan Temple, said with some horror.

Shen Yunyang's face was full of serious expressions. He raised his head and looked far to the north. A powerful breath was spreading here from the north. Soon, as far as the line of sight could be reached, the tide of corpses was already exposed. scale.

"This... so many zombies! Is it the guardian zombies?" He Hua also saw this scene and said to himself in surprise.

"Could it be that Li Tian has succeeded? Otherwise, the Guardian zombies will not come here in person!" Song Zijin guessed.

"If Li Tian succeeds, then even if we die here, it's worth it!" He Hua said with a sorrowful smile on his face.

Shen Yunyang's serious expression did not change at all, and said: "I didn't expect the guardian zombie's reaction to be so fast. Whether Li Tian succeeds or not, we can't sit and wait for death. There are still people in the zombie garden waiting for us to go back!"

"Listen to me, let's escape separately, only then will we have a greater chance to escape."

Song Zijin and He Hua also understood this truth, and immediately said, "Okay!"

After that, Song Zijin and He Hua went straight to the west, while Shen Yunyang ran away to the east in the opposite direction.

I saw the corpse tide snorted gently at the guardian zombies in the previous section. In the corpse tide, two groups immediately separated and chased in the direction of Song Zijin and Shen Yunyang respectively.

On the other side, Tang Xiaolong and Xue Ji had already seen the tide of corpses.

The tide of corpses came over the sky, and the ground was trembling. Tang Xiaolong understood that in front of such a huge tide of corpses, they were not opponents at all!

"What to do?" Tang Xiaolong didn't have any horror on his face, but asked Xue Ji with a calm look.

"Enter Tashan Temple and look for Li Tian. Even if I die, I will die with Li Tian!" Xue Ji said firmly.

Tang Xiaolong laughed loudly and said, "Yes, I, Tang Xiaolong, is Li Tian's brother. We can't do the kind of thing that would leave our brother and run away!"

"Wow!" said Xiao Tianyi riding a mutant bat, as if saying that I would not leave Li Tian's mother!

Pay attention, Tang Xiaolong's tired body seems to be filled with fighting flames, rushing to the forefront, and his iron fists are constantly attacking the zombies that are coming. Tang Xiaolong does not ask for a move at this time. Kill the enemy, just thinking of rushing out of a **** road as soon as possible.

Xue Ji held the Dragon Sword to perform the misty swordsmanship. A dozen zombies appeared at the same time. For a while, those zombies could not tell which was the real Xue Ji, and that one was a misty figure, and Xue Ji's deity quickly passed through the group of zombies. , Ran towards the tower mountain.

After not seeking to kill the enemy, Tang Xiaolong was also quite relaxed.

Little Tianyi rode a mutant bat and dashed into the air. After a line of defense had been torn apart in the sky, those Raven Riders who had managed to ride the Raven had just flew into the sky and were immediately killed by Xiao Tianyi and abandoned their armor.

Without the crow knight entangled in the air, climbing is not difficult.

Xue Ji cut off the arm of a zombie with a sword, and said to Tang Xiaolong, "Don't fight, go up the mountain, enter the tower!"

Tang Xiaolong immediately understood it, and used the strongest punch of the ten-fold body refining practice, and directly blasted the seven or eight zombies in front of him, and followed Xue Ji to the mountain.

Chapter 3418: Something big (3)

"puff!"

"puff!"

"puff!"

More than a dozen bone spears fell from the sky and directly nailed Song Zijin and He Hua who were escaping to the ground.

Just as Song Zijin pulled out these bone spears one by one with his hands, and was about to continue to escape, more than a dozen bone spears fell from the sky and nailed Song Zijin to the ground again.

Song Zijin turned his head and saw that less than twenty or thirty meters behind him, dozens of level ten zombies led dozens of level nine zombies and countless low-level zombies slowly walking towards him.

"Brother, we can't escape!" Song Zijin said to He Hua who was also nailed to the ground.

He Hua, the little fat man, showed a wry smile at the corner of his mouth, and said: "If you can't escape, you won't escape. Killing so many zombies of the same level, this life is worth it!"

"Brother, would you like to give me a ride? I go first?" Song Zijin said to He Hua.

He Hua smiled bitterly, and said: "I have had enough of this kind of zombie life, or let me go together! There is also a companion on Huangquan Road!"

"it is good!"

He Hua and Song Zijin showed a not too ugly smile, and at the same time raised their palms and pressed them on top of each other's heads.

"puff!"

"puff!"

Two long bones protruded from these two palms at the same time and pierced each other's head.

...

Shen Yunyang had already been given up to escape. He knew that he could not escape. At this time, Shen Yunyang was surrounded by at least a few thousand zombies. There were eleventh-level zombies of the same level as Shen Yunyang, and tenth and ninth-level zombies lower than Shen Yunyang. High-level zombies, there are also low-level zombies that are completely cannon fodder.

At the feet of Shen Yunyang, there were already dozens of low-level cannon fodder zombies.

But Shen Yunyang couldn't kill at all. Those cannon fodder zombies killed one to two, and two to four, and zombies were constantly added up, and those high-level zombies and eleventh-level zombies seemed to be watching a movie. , Watching Shen Yunyang desperately.

"Li Tian, I hope you can survive the catastrophe. I, Shen Yunyang, handed over my son to you, don't let me down!" After that, Shen Yunyang rushed to the senior zombies.

Shen Yunyang was like a tiger, constantly beheading the cannon fodder corpses in front of him, and he was about to rush to the high-level zombies. The dozens of high-level zombies above level 9 sneered at the same time and released bone spurs. Stabbed to Shen Yunyang.

Shen Yunyang's body was stabbed into a hornet's nest in an instant, a long bone thorn directly pierced the cervical spine of Shen Yunyang's neck, and Shen Yunyang's head dropped weakly.

...

Tang Xiaolong and Xue Ji were very surprised to see that apart from a few human corpses and a pool of blood on the top of the Buddha Tower, there were no figures of Li Tian and Situ Ningbing.

"It's not here! Where can the little boss go?"

Xue Ji was also confused, but at this time it was no longer suitable to stay here. Xue Ji immediately gave an order: "Let's leave here and look for it in Tashan Temple. The tide of corpses will come in a few minutes! There is not much time!"

Tang Xiaolong and Xue Ji rushed down Tashan again, but this Tashan Temple is so large, where can they find Li Tian in desperation?

At this moment, the mutant bat suddenly shook Xiao Tianyi from his body and flew towards the well.

Xiao Tianyi hurried to chase the mutant bat, yelling anxiously "Wow!" "Wow!"

"Damn, see if I won't kill this bat! At this time, I dared to leave us and escape!" Tang Xiaolong took two quick steps, put Xiao Tianyi on his shoulder and started chasing the mutant bat.

And Xue Ji was chasing after Tang Xiaolong!

The mutant bat flew over a hall and flew into the backyard of the main hall of Tashan Temple.

Tang Xiaolong was chasing the mutant bat while killing the zombies that were chasing over. Xue Ji directly used the misty sword technique, and a lunge was in front of the mutant bat.

"Look where you go!" The goddess Xue Ji sneered and said with a sneer.

And what about mutant bats? It fell into the well next to it!

Seeing the mutant bats get into the well, Xiao Tianyi jumped and entered the well.

Tang Xiaolong and Xue Ji were stunned.

"Could it be...?" Xue Ji suddenly had an idea in her heart, and she immediately gestured to Tang Xiaolong, came to the well, stretched out her hand and pulled a wire, and walked under the well.

"Is it all deep well ice? Is it possible that Li Tian can't be found in this well?" Tang Xiaolong thought in his heart.

But Xue Ji had already descended into the well, and Tang Xiaolong had no reason not to follow. He could only follow Xue Ji's footsteps and descend into the well.

"Boom!" With a sound, the mutant bat and Xiao Tianyi fell one after another into the icy water.

...

Underground palace, in front of the Yasha Shimen.

Li Tian and Situ Ningbing have checked all the wounds on their bodies, and they have bandaged the slightly serious wounds.

"Are you ready?" Li Tianshen exhaled and asked Situ Ningbing.

Situ Ningbing held the butcher knife in his hand and nodded.

The mutant crow squatted on Li Tian's shoulder and said, "Wait, I'm not ready yet! Don't..."

The mutant crow had no say at all. Following the scream of the mutant crow, Li Tian and Situ Ningbing had already pushed open the Yasha Stone Gate, and led the mutant crow into the Yasha Stone Gate.

"Yasha" is a kind of ghosts and gods in Buddhist scriptures. There are nouns such as "eight great generals of Yasha" and "sixteen great generals of Yasha".

"Yasha" is a ***** who can eat ghosts in its original meaning. It also has the meanings of agility, courage, lightness, and secret. It is still somewhat different from the "Yasha" that we allude to evil spirits now.

In the Buddhist scriptures, there are many Yashas that are good, and the task of the eight great generals of Yasha is to "maintain the realm of all beings."

After pushing the door to enter, Li Tian found that the space behind the stone gate was very small, only about fifty to sixty square meters in size.

In this small space, sculptures appeared in front of Li Tian.

Yes, it is a sculpture, and this sculpture is the eight generals of Yasha.

These Yaksas had blue-faced fangs, glaring at them, dressed in various costumes, fluttering clothes, wearing metal armor, and holding various weapons such as swords, guns, swords and halberds, as if they were about to pounce on Li Tian and Situ Ningbing.

Moreover, the bodies of these Yakshas were more or less entwined with strange things that were as long as snakes. These strange things seemed to be not living creatures on earth at all, half of them were in the physical state, and the others were generally empty bodies.

"This is Yasha? It doesn't seem to be much different from the statue in the temple!" Li Tian said disappointedly.

Situ Ningbing looked at the Yasha sculptures and said, "Don't care if these are Yasha, let's hurry up and find what we want!"

"Yes, that's right! Huh? Where's the mutant crow?" Li Tian suddenly discovered that the mutant crow squatting on his shoulder was gone!

Chapter 3419: Void Yasha (1)

Situ Ningbing scanned the left and right circles and saw such a small space. It would not be easy for the mutant crow to hide, so he said with some uncertainty. "Li, could it be your memory that the mutant crow didn't follow us in?"

Li Tian shook his head.

The mutant crow must have squatted on Li Tian's shoulders. The mutant crow screamed at the moment when he opened the stone gate of Yasha, and after entering the stone gate, Li Tian also glanced at the mutant crow and saw the mutation. Facing these Yasha statues, the crow was shaking in horror!

"I'm sure, the mutant crow came in with us!" Li Tian said with certainty.

"Then let's look for it here first! Maybe we can find something!" Situ Ningbing held the butcher knife and butcher **** in his hand, and began to look for the trace of the mutant crow.

Li Tian also began to search for mutant crows in this small space. Li Tian searched for several statues of Yasha in succession, but did not find the mutant crows.

"Impossible, did this mutant crow fly to the sky?" Li Tian thought this way, and looked up at the top of the cave.

It didn't matter if I looked at it, Li Tian unexpectedly discovered that the top of the cave looked like a mirror, with eight Yasha statues on it. But Li Tian soon discovered that this is not a mirror, because the things in the mirror are the opposite of the real thing, and the top of the cave is like an independent space, and the eight statues are independent.

"Mutated crow! How could this mutant crow be at the top of that cave!" Li Tian was surprised to find that the mutant crow didn't know when it appeared in the mirror-like space.

The mutant crow in that space was jumping around on the statue, as if looking for something.

Li Tian yelled a few words to the mutant crow, but the mutant crow seemed to be unable to hear Li Tian's voice at all, and it still jumped on those Yasha statues.

"Ningbing...!" Li Tian turned to tell Situ Ningbing what he had discovered, but he found that Situ Ningbing had also disappeared.

The horror in Li Tian's heart can be imagined. Looking up, the mutant crow in that space is still jumping around. There is no figure of Situ Ningbing. After looking around for a week, there is no figure of Situ Ningbing. When Li Tian was a little at a loss, Li Tianyi lowered his head and found that he did not know when a layer appeared under Li Tian's feet. This layer was almost the same as the layer where the mutant crows existed. The difference was that in this layer. There is no mutant crow, but Situ Ningbing.

I saw Situ Ningbing holding the butcher knife in his hand vigilantly, standing in front of the eight Yasha statues.

No matter how Li Tian yelled at Situ Ningbing, Situ Ningbing couldn't hear or see Li Tian.

Li Tian controlled "Hong Zhan" to fly towards Situ Ningbing or to the mutant crow, but his naked eyes could see "Hong Zhan" thinking about them flying away, but he let Li Tianjin do his best.

"Nor can it reach Situ Ningbing or the mutant crow.

"How could this be? Am I in the void?" Li Tian said to himself.

"Boom!" A green smoke came out from Li Tian's side. A small Yaksha that was only the size of a palm of his hand. This small Yaksha had fiery red hair, like a small flame, with an inverted triangular head. There is only one eye with the same triangular shape on it. This triangular eye actually has three eyebrows, which looks very strange.

Under one triangular eye, there is no nose, only another small hole for breathing, and there are two mouths under the nose, each with a sharp cyan fang.

This small Yasha also holds a steel fork the size of a tableware fork in one hand, and a human face shield carved with a walnut in the other hand. This little Yasha is not like a human, with two legs, but a slender tail like a snake like a fish.

Xiaoyasha is like a snake, leaning on this tail to wind around.

After Xiaoyasha came out, he didn't see Li Tian, and walked a few steps before discovering Li Tian's big feet.

The curious Xiao Yasha didn't know what these big feet were. He threw the steel fork in his hand and hit Li Tian's foot.

Li Tian didn't expect this inattentiveness to be attacked by such a small thing, and immediately jumped up with his feet screaming.

The feet of Li Tian that Xiao Yasha saw moved unexpectedly. He looked up in surprise, but he couldn't see Li Tian's head. The expression on Xiao Yasha's face was extremely strange, and he immediately wanted to be frightened. Turn around and run away.

Li Tianzheng was helpless, how could he let go of the Xiaoyasha who appeared in front of him so easily, and pressed his finger on Xiaoyasha's tail, the Xiaoyasha who had lost the steel fork twisted his body unsteadily, trying to get rid of Li Tian.

Li Tian squatted down and said to Xiaoyasha, "What the **** are you? What place is here?"

Seeing that Xiaoyasha saw that no matter how hard he struggled, he couldn't take out Li Tian's palm. He sat directly on the ground, blocking the walnut shield in front of him, and said, "You are a ghost, and your whole family is a ghost. This young master is the famous Void Yasha! He is the young master of this Void!"

"Void Yasha? Don't all Yasha look like that? How could you be so small?" Li Tian stretched out his finger and lightly flicked the head of the self-proclaimed young master Void Yasha, and said with some disdain.

The head of the Void Yasha was lightly flicked by Li Tian, and he suddenly said with some dissatisfaction: "Those are the noble Eight Yashas, they are the Yasha Eight Gods! Each is a generation of supernatural powers. And this young master is just Void Xiaoyasha. "

"Also, this is the noble head of this young master, even Bada Yasha never insulted me like this! Do you want to fight? Have the ability to return the steel fork to me, we will fight for 300 rounds!"

Li Tian chuckled and gave the steel fork back to Xiaoyasha. One hand was still pressing on Xiaoyasha's tail. The other hand held "Red Zhan" and said, "If you can beat me, I will Let you go, if you can't beat me, just tell me, how can I get my friends out of here?"

As soon as Xiaoyasha received the steel fork in his hand, he directly inserted Li Tian's finger.

The steel fork pierced Li Tian's fingers, piercing three small holes in Li Tian's fingers, and blood flowed out of those small holes.

"Damn it!" Li Tian stretched out his hand and grabbed the little Yasha directly in his hand, wishing to pinch the little Yasha to death.

The power in Li Tian's palm is not small, but that Xiaoyasha didn't change his face, but said stubbornly: "This is an unreasonable punishment for you to flick my head. Now we are even!"

"If you want to save your friend, you'd better let go of this young master now!"

Chapter 3420: Void Yasha (2)

"Hahaha, let go of you!" After Li Tian finished speaking, he directly let go of his palm, put the Void Xiaoyacha on his palm, and put his palm in front of him.

Xiaoyasha was a little surprised. He pointed at Li Tian with the steel fork in his hand and asked, "Aren't you afraid of me running away?"

"You are a noble and noble Void Yasha, how can you say nothing?" Li Tian said with a slight smile.

There was a trace of embarrassment on that Xiaoyasha's face, but he quickly recovered his calm and said, "Yes, this young master hasn't fought you for 300 rounds! Naturally, he won't run away!"

"Since you trust this young master so much, then this young master cannot be unbelievable! But this young master needs to understand first, why did you and your friends appear here? I haven't seen it here since I remembered. Other creatures exist!" Wu Wu Yasha sat down on Li Tian's palm and said with his little tail hanging under his palm.

Li Tian then brought him, Situ Ningbing, and the mutant crow to this underground palace, and experienced the things of the heavens and the dragon god.

The Void Yasha nodded seriously for a while, then said in surprise: "There is such a wonderful world outside? It's a pity that I have never left this space!"

Li Tianyi heard that there was a play and immediately said, "Do you want to go out with me and take a look at the bustling world outside?"

"Huh! This young master is a dignified Void Yasha, how can I run around with you, a reckless and ignorant guy!" Void Yasha said disdainfully.

"In that case, can you send me and my friends out of this space?" Li Tian immediately said with a very religious expression.

The Void Yasha immediately looked a little arrogant, and said: "Well, I need to discuss with Feitian Yasha and Dixing Yasha. You are here to wait patiently for my news!"

After speaking, the void Yasha immediately turned into a cloud of green smoke, and disappeared without a trace.

Li Tian looked up at the space where the mutant crow was.

At this time the mutant crow has spread its wings and flew, and less than a few meters away from the mutant crow, there is a yaksha surrounded by a cloud of dark light. This yaksha is only the size of a palm, but it has a beast. The face has a beak and two wings, just like the Lei Zhenzi in ancient mythology.

This Yasha is exactly the Feitian Yasha that Void Yasha said.

This Feitian Yasha was holding two small steel forks that were only an inch long, and at this time, this little Yasha was fighting with the mutant crow in the air.

However, it is obvious that the mutant crow is completely more powerful than this Xiaoyacha in terms of size, speed, strength, etc., this Xiaoyacha can only escape from it for a while.

"Don't chase me anymore, or I'll be rude to you!" Feitian Yasha evaded the mutant crow and shouted angrily.

The mutant crow sneered and said: "You're polite, is it polite to me to get me here for no reason?"

"It's you who broke into my space without authorization. How can you rascal me! I'm warning you once, it's better not to anger me. Did you see the dark light group on me? This kind of light is very powerful, You are going to annoy me, I get angry, even I am afraid!" Feitian Yasha said while avoiding the chase of the mutant crow.

"Boom!" With a sound, a group of green lights flashed, and Void Yasha appeared in that space.

After seeing Void Yaksha, Feitian Yaksha immediately flew to Void Yaksha, and pointed at the mutant crow flying in the sky with the steel fork in his hand and said: "Void you came just right, and suddenly such a bird appeared in my space. Thing, you help me defeat this bird thing together, and we share its meat together!"

Void Yasha blinked and said, "Don't you have the light of darkness? As long as you use the light of darkness, do you still need the help of this young master?"

Feitian Yasha smirked and said: "The power in the darkness is too great, I am a little scared! Now that you are not here, don't you need to do it! How about? Do you want to think about my mind! This The color of the bird is good, maybe after eating this bird, the two of us will become taller and more mighty! Maybe we can still break through the stone gate and take a look at the outside world."

"Yeah, I almost forgot, this young master came to you for this! A giant as tall as Bada Yasha came in this young master's space. He told the young master where he came from. Talking about the world outside Shimen. Now he wants to be my young master and is willing to obey me, I decided to take you to the outside world together, you are happy to!" Xukong Yacha said with jealousy.

Upon hearing the words of Void Yasha, Feitian Yasha had forgotten the existence of the mutant crow, and immediately showed an expression of excitement on his face, saying: "Okay! Okay! I will follow you out! Just let the birds and things be there. Stay in this space! Hahaha"

After speaking, the Void Yasha glanced at the mutant crow that was flying in the air, and disappeared into a cloud of green smoke.

And that Flying Yaksha turned into a black light and disappeared in the space.

When Situ Ningbing turned around, he found that Li Tian had disappeared.

The clueless Situ Ningbing sat cross-legged on the ground, facing the statue of Bada Yaksha with his eyes closed, while the **** of sword and slaughter was placed on his hands.

After Situ Ningbing closed his eyes, a Yasha immediately drilled out of the ground in this space.

The height of this Yasha is just the size of a palm, with green flames in his hair, and the figure wearing a green suit is burning like a candle. In addition, this Yasha was quite normal, with two half-moon-shaped eyes, a small nose and a small mouth, and his appearance was a bit delicate.

However, behind this Yasha was carrying a straight flagpole with a length and length of chopsticks, with a small flag on it, and these Sanskrit characters were written on the flag.

The word on this flag is her name, Dixing Yasha.

It is with this flag that the Jixing Yasha can walk on the ground like a flat ground.

Di Xing Yasha wanted to suddenly emerge from the ground and frighten Situ Ningbing who broke into her space without authorization, but after seeing the butcher knife in Situ Ningbing's hand, the local Xing Yasha was a little scared.

Di Xing Yasha did not approach Situ Ningbing, but sitting at a distance of seven or eight meters from Situ Ningbing. He had to learn something like Situ Ningbing and put a small steel knife on his palms. Then opened one eye and looked at Situ Ningbing with this one!

"Boom!" A cloud of green smoke and a dim light flashed, and Void Yasha and Feitian Yasha appeared beside Dixing Yasha.

After seeing the appearance of the Dixing Yasha, the two goods actually forgot their purpose, and sat down beside the Dixing Yasha, and began to learn the appearance of the Dixing Yasha!
