

## A Killer 3601

### Chapter 3602: Mutation Bear (2)

"Wow!"

The Sangxiong burst into a loud shout, and his body was already less than three steps away from Tang Xiaolong. Tang Xiaolong could even smell the foul smell from the mutant Sangxiong's mouth.

At this time, your two lost monkeys have pulled the chains and came to the mourning bear, and ran a few steps forward. The two mourning monkeys crossed back and forth, running in opposite directions, and wanted to use the iron chain to pull the mourning bear. Take control.

And what about the mourning bear?

Faced with the movements of these two monkeys, he didn't care at all, and saw that the bear slammed on the chain with his sharp claws, pulled it up and put it in his mouth, and then "clicked". With two "clicks", the iron chain was directly snapped with sharp teeth.

Immediately, the mourning bear slammed the two iron chains, pulling the two thirteenth-level monkeys to his side, but the two thirteenth-level monkeys saw that something was wrong and released the iron. The chain yelled loudly, then turned around and escaped from the bear cave.

The female wandering monkey also wanted to escape. The thought that his boyfriend male wandering monkey was still being held in this cave by this mutant bear, she immediately dispelled the idea of running away, but took the steel pipe and hid in Li Tian, etc. Behind the person.

"Little Dragon! It's up to you!" Li Tian said.

That Tang Xiaolong shouted, and with his hands hard, the tree and vines bound to his hands were broken inch by inch, and Tang Xiaolong's foot forcefully, his figure flashed, and he rushed towards the fourteenth-level mutant mourning bear.

The moment Tang Xiaolong rushed out, his left body tilted back slightly, and his right arm had already rushed towards the mutant mourning bear like a blue dragon coming out of a cave.

The mourning bear was more than two meters high, and Tang Xiaolong's height was no more than 1.7 meters after cultivating ten-fold bodybuilding. In this way, the whole battle scene is as if Tang Xiaolong, a child, is fighting with a prehistoric monster.

"Wow!"

The fourteenth-level mutant mourning bear seemed to have been greatly insulted, he screamed, and with a light wave of his right paw, it collided with Tang Xiaolong's fist.

"boom!"

There was a loud noise in the entire bear cave, and the two powerful forces collided together, generating a powerful air current, which rushed out of the bear cave to Li Tian and others.

The body of the fourteenth-level mourning bear suddenly retreated two steps, but Tang Xiaolong did not move.

Tang Xiaolong showed a smug sneer at the corner of his mouth, screamed, and rushed to the mutant mourning bear again.

"Wow!"

The fourteenth-level mutant Sangxiong has ruled and dominated the Qinling Mountains for a long time. He has never encountered such a strong opponent today. He couldn't help but furious and roared. The two bear paws of his predecessor scratched on the ground, fiercely. The ground rushed towards Tang Xiaolong, and his two bear paws slapped Tang Xiaolong's head fiercely from the left and right, in an attempt to slap Tang Xiaolong directly into a pile of meat.

Tang Xiaolong felt two powerful forces hit his head with the whistling wind. Tang Xiaolong didn't dare to take it carelessly. He wanted to jump forward and rolled on the spot, avoiding the two bears. Sharp claws, and then slammed a punch against the belly of the bear.

"Boom!" With a sound, the body of the Sangxiong only shook slightly, but Tang Xiaolong's body was bounced off by the belly of the Sangxiong.

At this time, Situ Ningbing had already used the Hermit Killing Technique to hide, and detoured behind the mutant Lost Bear.

Situ Ningbing condensed her breath and her breath, and even her heartbeat was quite slow and steady.

The fourteenth-level mourning bear unexpectedly did not find that Situ Ningbing appeared behind him, and even exposed his entire back to Situ Ningbing.

"Good opportunity!" Situ Ningbing thought in her heart, and suddenly appeared, and the butcher knife in her hand had already stabbed the mutant mourning bear.

"Qiang!" A cry.

The butcher knife only cut a cut less than half an inch deep on the skin of the mutant Sangxiong, and the Sangxiong felt that someone attacked him behind him, and suddenly turned around. The huge bear's paw was carrying the cold wind. He patted Situ Ningbing's cheek.

Situ Ningbing retreated violently, and the mutant Sangxiong was chasing after him step by step.

Once this hermit killing technique was discovered, it would be more troublesome if he wanted to hide, not to mention that Situ Ningbing's strength hadn't reached the superb level, so he could only keep avoiding.

"call!"

"call!"

Fortunately, Situ Ningbing's Hermit Killing Technique had no ability to break through the mutant bear's defense, but it was still easy to avoid. But that's the case, that bear paw flashed by two or three inches in front of Situ Ningbing every time, and the scared Situ Ningbing was startled with cold sweat.

"Huh?" Situ Ningbing suddenly felt that after she had withdrawn half a step again, there was no way to continue to withdraw. It turned out that Situ Ningbing was inadvertently forced to the wall of the bear cave by the mutant bear.

"Danger!" Situ Ningbing's heart suddenly tightened, and the bear paw of the bereaved bear had already thought of Situ Ningbing's cheek with the cold fan.

"Huh!"

A figure suddenly flashed beside Situ Ningbing, and then Situ Ningbing only felt that her eyes lit up, her body had appeared in the space of Void Yasha.

With a few sounds, the sangxiong's paw and one paw hit the wall of the bear cave. The sangxiong was as simple as taking a piece of tofu, but it shot the gravel on the wall and flew around. .

Situ Ningbing's eyes went dark again, and she found that she had appeared in the bear cave again.

At this time, Tang Xiaolong's fist collided with that mutant bear's paw, and all the blue veins on Tang Xiaolong's body burst up, and the muscles above and below his body appeared piece by piece, but the muscles on Tang Xiaolong's body were trembling, sweating. The skin of Tang Xiaolong was flowing down quickly, but the two paws of that mutant bear had already moved slowly to Tang Xiaolong's head.

Tang Xiaolong wanted to wrestle with this mutant bear, to see whose power is stronger.

However, Tang Xiaolong soon felt the strength of this mourning bear. At first, Tang Xiaolong's muscles were trembling, but soon, Tang Xiaolong's body began to slowly slide backwards.

"What a powerful force! This guy's strength is at least eight thousand kilograms or more. Even if I break through, it will only be eight thousand kilograms of strength, and it is still not a threat to the mutant bear shape." Tang Xiaolong thought in his heart.

"Wow!" The Sangxiong hissed sharply, as if demonstrating to Tang Xiaolong.

Then, with a violent force on the mourning bear's claws, Tang Xiaolong directly pushed out a distance of more than ten meters.

Tang Xiaolong's body continued to retreat, but Tang Xiaolong's heart was full of warfare at this time. After being pushed out by the mourning bear, Tang Xiaolong shouted and rushed to the mourning bear again.

The mourning bear screamed, and suddenly opened his blood basin and bit down at Tang Xiaolong's neck.

### Chapter 3603: Mutant Bear (3)

Li Tian had been watching Tang Xiaolong fighting with this mutant Sangxiong, but he didn't go up to intervene. Even if Tang Xiaolong was suppressed by the mutant Sangxiong, Li Tian did not intervene. ...,

This was not only because Tang Xiaolong asked to fight this mourning bear in order to achieve a breakthrough, but also because Li Tian could see that this fourteenth-level mutant mourning bear had not fully revealed his strength yet.

Na Tang Xiaolong watched the mutant bear's blood bowl bite him, and slammed his two hands on the two bear palms, and his body turned counterclockwise like a top, and his feet were hard. The ground kicked on the chin of the mutant bear.

"boom!"

After Tang Xiaolong kicked it, he wanted to use his strength to bounce off, but he didn't want the mutant mourning bear to suddenly loosen his bear's paw and attack Tang Xiaolong's leg.

"Hiss!" With a sound, the sharp bear claws scratched Tang Xiaolong's trouser legs and tore the skin on Tang Xiaolong's legs.

The hot blood made Tang Xiaolong feel the burning pain on his leg, and the whole bear cave was full of blood.

Fortunately, after Tang Xiaolong had practiced ten levels of body refining, his body was greatly strengthened, and the bear claws only grabbed Tang Xiaolong's skin, and did not hurt his bones.

But this is the case, Tang Xiaolong's body has been injured after all, and this action will inevitably be involved.

Li Tiangang wanted to rush over to help Tang Xiaolong, but was stopped by Tang Xiaolong, "Tian Brother, let me come first. I feel I am about to break through! Let this bear-like storm come more violently!"

The mutant Sangxiong wanted to continue to attack Tang Xiaolong, and Situ Ningbing's figure suddenly appeared beside the mutant Sangxiong.

"Huh!"

A knife shadow flashed, Situ Ningbing's butcher knife and God Tu once again left a mark on the mutant Sangxiong. The mutant Sangxiong wanted to chase Situ Ningbing, and Situ Ningbing had already learnt well and had already retreated. Aside.

Taking advantage of this opportunity, Tang Xiaolong violently pulled a piece of cloth to cover his wound forcefully, and then rushed to the mutant mourning bear again without breathing more.

"puff!"

There was another wound on Tang Xiaolong's left arm.

"Huh!"

There were also several blood stains on Tang Xiaolong's back.

But Tang Xiaolong didn't mean to shrink at all. Moreover, Tang Xiaolong became more and more courageous. Even though the wounds on his body were increasing, Tang Xiaolong's face was full of smiles.

Seeing Tang Xiaolong desperately, Li Tian nodded slightly.

After Tang Xiaolong came back from Kyoto City this time, he knew that both the barbarian and the captain had the strength of level 12 zombies, which made Tang Xiaolong secretly unhappy.

Not unhappy with Barbarian, but unhappy with his own strength growth.

Therefore, Tang Xiaolong began to practice frantically after returning from Kyoto City.

In fact, Tang Xiaolong's strength is now the strength of a level 11 zombie, barely able to reach the level of a level 12 zombie, but Tang Xiaolong cultivates ten-fold body refining, which makes Tang Xiaolong's body so powerful that ordinary people can't. The degree of comparison.

If you change to someone else, whether it is Li Tian, Barbarian or someone else, the claw of that mourning bear will definitely hurt your muscles and bones, and even make others lose their combat effectiveness.

It is for this reason that Li Tian let Tang Xiaolong participate in this battle.

"Boom!" With a loud noise, Tang Xiaolong was directly blasted out more than ten meters by the mutant bear, and fell heavily to the ground.

If Situ Ningbing hadn't attacked the mutant mourning bear again, the mutant mourning bear would have to pursue Tang Xiaolong, and Tang Xiaolong would probably be hit twice.

"Huh!"

"Huh!"

Tang Xiaolong climbed up from the ground with difficulty, panting heavily.

Tang Xiaolong felt that his whole body was full of fiery pain, and because he was going to fight the fourteenth-level mourning bear that was so powerful that he was fighting, Tang Xiaolong felt that his muscles began to have some sorrows. This is the energy season. The result of consumption.

Tang Xiaolong's body has never felt this way since the battle with that scarlet blood in the sky, but Tang Xiaolong laughed.

Tang Xiaolong only broke through under this situation in the last battle with Scarlet Blood.

Tang Xiaolong slammed his feet on the ground, stepping on two foot prints half an inch deep, and Tang Xiaolong bowed, flying towards the mutant mourning bear like a sharp arrow.

I saw Tang Xiaolong's body lightly skimming on the ground, and then Tang Xiaolong suddenly shouted, his feet pressed \*\*\*\* the ground, and he jumped up, and Tang Xiaolong's black iron fist had already matched the mutant mourning bear. The paws collided together.

A powerful force collided with Tang Xiaolong's fist. Tang Xiaolong only felt that his fist was bombarding an iron plate. No, it was a copper wall and iron wall.

As the strength in Tang Xiaolong's body was losing, Tang Xiaolong felt that his fist began to tingle, aching, and hot.

Yes, it is hot.

This kind of burning only appeared on Tang Xiaolong's fist at first, but soon, this kind of burning feeling swept through Tang Xiaolong's body.

This kind of fever gradually spread from the inside of the body to the outside. Tang Xiaolong could feel that all the veins and veins in his body were pumping at once. This feeling was like a pump pumping water, but because there was no Because of the water, the water can't be extracted.

pain!

The pain that couldn't be added made Tang Xiaolong feel as if the skin of his whole body began to explode, especially in the body, as if those cells were constantly dividing, tearing Tang Xiaolong.

"Can't it work? It seems that this breakthrough is still too reluctant!" Li Tian's hands clenched into fists, thinking in his heart worriedly.

Li Tian had already taken a step forward, ready to teleport to receive Tang Xiaolong into the space of Void Yasha.

But at this time, Tang Xiaolong turned his head and smiled at Li Tian, even his hand gave Li Tian an ok gesture.

Tang Xiaolong has no strength anymore, his body is light and fluttering, but he feels that some kind of change is taking place in his body.

This kind of change convinced Tang Xiaolong that a breakthrough was within reach.

However, the mutant Lost Bear would not give Tang Xiaolong enough time to break through. When Tang Xiaolong's body was gradually losing, the mutant Lost Bear suddenly waved his claws and threw Tang Xiaolong into the air forcefully.

"boom!"

Tang Xiaolong slammed into the top of the bear cave, and even knocked down a few pieces of rubble. Tang Xiaolong's body also fell with the rubble.

"Wow!"

The mutant Sangxiong looked up to the sky and roared, as if shouting at Tang Xiaolong again: "Trash, you are not my mutant Sangxiong's opponent at all."

Chapter 3604: Xiaolong Breakthrough

"Beep!"

At the top of the cave, a bit of stagnant water also fell along with Tang Xiaolong's fall, and this drop of water fell impartially on the mouth of Tang Xiaolong's back vest. ..

This drop of water fell on Tang Xiaolong's hot body, just like a drop of rain falling on a long-dried land, instantly evaporated without a trace.

However, this drop of water did exist, and it had already entered Tang Xiaolong's body.

Tang Xiaolong felt his hot body gradually start to boil because of this bit of water, and the blood in his body veins began to rush.

&nb sp; At the beginning, it was just like a breeze blowing on the sea surface, only a layer of small waves formed on the sea, but soon, the breeze turned into a violent storm, and the small waves also turned into a cloud of sky and earth. Huge waves.

The huge waves of this wave slapped on Tang Xiaolong's body, causing the skin, bones, and veins in Tang Xiaolong's body to be shattered.

Tang Xiaolong was almost fainted by the piercing pain in an instant.

"Crack!"

"Crack!"

Tang Xiaolong felt that his body was constantly being destroyed, and then he began to reorganize itself.

Such repetition, and Tang Xiaolong is in pain to die and live in such repetition.

"boom!"

A loud noise pierced through Tang Xiaolong's body, and with the loud noise, Tang Xiaolong's body suddenly began to tremble.

Trembling, trembling, and twitching, but there was such a trace of strength in Tang Xiaolong's body, at first it was like a silk, then it was like a rope, and then it became a small stream and a big river.

The waves were still beating against Tang Xiaolong's body, but Tang Xiaolong no longer felt the slightest pain. Instead, it was a kind of comfort that made Tang Xiaolong's whole body indescribable. A powerful force filled Tang Xiaolong's whole body.

The fifth level of the tenth refining body.

After the Phoenix Nirvana rebirth, Tang Xiaolong finally broke through to the fifth stage.

All this seems to have taken a long time, but the time is less than a second.

"Wow!"

Tang Xiaolong kept falling, and the mutant bear was demonstrating.

There was an imperceptible smile on the corner of Tang Xiaolong's mouth, but Tang Xiaolong's light and fluttering body was suddenly full of power, like a meteorite falling from a high altitude, and slammed into the mutant bear.

That mutant bear is not a low-level creature after all, and he also felt that powerful force from above his head.

Avoid?

That mutant mourning bear can completely avoid Tang Xiaolong's falling blow, but this is a fourteenth-level mourning bear, a fourteenth-level mutant mourning bear, and a fourteenth-level mutant that has been king in the Qinling Mountains for several years. Lost bear.

How could this mutant bear to allow him to escape by himself.

Speaking of power, isn't the power of this mutant mourning bear small?

Even if the power of the black monkey in front of him is completely restored, or even stronger, would this fourteenth-level mutant mourning bear be afraid of Tang Xiaolong?

"Wow!"

The mutant mourning bear continued to roar, and the two sturdy hind limbs like trees slammed to the ground, and then jumped out with a "boom".

And the right front palm of the mutant mourning bear struck out heavily in the direction of Tang Xiaolong's fall.

"boom!"

Another loud noise rang in the bear cave, and the two figures separated almost at the moment they first touched.

A dark shadow flew upwards in the direction of the hole, while another huge body dropped and fell towards the bottom of the hole.

After falling on the ground, Tang Xiaolong stepped back 17 or 8 steps continuously before stopping, and the mutant mourning bear used four claws to grasp the ground forcefully, dragging a line two meters on the ground. The long scratches then stopped.

The mutant Lost Bear slowly stood up, looked at Tang Xiaolong's direction, and suddenly spoke.

"Your strength is very strong. From the perspective of strength alone, you are almost reaching the level of my normal state. In order to show respect to you, I will use all my strength to entertain you well! And you, You need to pay the price of life to gain my respect!" said the fourteenth-level mutant mourning bear.

"I'm going! You can talk!" Tang Xiaolong said in surprise.

However, Li Tian and Situ Ningbing slammed their eyes on the female wandering monkey and said, "Why can he also speak human language?"

The mother wandering monkey said innocently: "Didn't I have said it before? The mutant bear kidnapped my boyfriend and asked us to send him humans as food regularly. If he can't speak human words, I How do you communicate with him? Xiong and Monkey are not the same language!"

The female lost monkey did say so, but Li Tian didn't expect to encounter so many human-speaking funerals in the Qinling Mountains.

Tang Xiaolong has also come to Li Tian and said to Li Tian: "Little boss, under normal circumstances, the power of this mutant bear is probably around ten thousand jin. I can barely fight with this mutant bear. It's a tie. And now, if I want to use all my power, I'm afraid it will surpass 10,000 catties. I am afraid that I will be suppressed by this mutant bear again!"

Li Tian nodded slightly and said, "I know, no, I will send you and Ningbing into the space of the Void Yaksha. According to the normal way, I can't defeat this mutant bear, but as long as you make full use of the space of the Void Yaksha, Don't even think of hurting me with this mutant bear!"

"What about me? How about me?" The mother monkey pointed to his face anxiously and said. Naturally, this mother wandering monkey also hopes that Li Tian can also protect her safety by the way!

"No! Little boss, I don't mean you want you to send me into the space of the Void Yaksha, but I want to fight this mutant bear again, and then stimulate my potential again! I found that with these high levels I will be able to improve my abilities faster!" Tang Xiaolong said.

"Xiaolong is right. Fighting those low-level zombies, although we don't have any danger at all, our strength has hardly improved! Since there is such a good opportunity now, why not let us fight with you? Even if we are injured, as long as our strength improves, this is already worth it!" Situ Ningbing said with a serious face.

Seeing Situ Ningbing's serious face, Li Tian nodded slowly, and then brought Xue Ji, Barbarians, Captain and Two-dimensional out of the space of Void Yasha, and summoned three little Yashas. .

"All of them, ready to fight!"

"Three little Yaksa, you are responsible for everyone's safety. You can fly into the sky, escape from the ground, or enter the space!" Li Tian quickly arranged the battle.

"Wow!"

At this moment, the mutant bear was already crawling on the ground and suddenly hissed. And with this scream, the mutant Sanxiong's body began to change.

Seeing the changes in the mutant bear, everyone shouted in surprise: "This...this...impossible!"

Chapter 3605: Three bears (1)

To everyone's surprise, the fourteenth-level mutant mourning bear was divided into three, splitting into three mourning bears of the same size and size. From the outside, there is no difference between the three bears, but they are a big circle smaller than their original appearance.

Now, these three bears are about the same size as a normal person.

"Let me try this mourning bear first" Tang Xiaolong roared and rushed towards one of the mourning bears with his fist.

Since Tang Xiaolong broke through, his whole body is full of power. Although he knows that he is not the opponent of this mutant bear, he will not easily admit defeat.

Among the three mourning bears, one mourning bear rolled awkwardly on the spot, and then rolled towards Tang Xiaolong's fist gruntingly.

Seeing this mourning posture, he didn't come to attack Tang Xiaolong at all, but seemed to be attacking Tang Xiaolong's iron fist.

And Tang Xiaolong's iron fist struck the mourning bear that was still rolling without hesitation.

"boom!"

Tang Xiaolong only felt that his fists were attacking cotton, and he did not encounter resistance at all when hitting the Sangxiong. Even Tang Xiaolong's fists had fallen into the Sangxiong's body.

Immediately, a domineering projectile force bounced back from the body of the lost bear, and the shaking Tang Xiaolong stepped back more than a dozen steps, but the lost bear remained motionless.

Tang Xiaolong looked at his own fist in surprise, a little confused!

The strength of that Lost Bear's rebound just now was twice as powerful as Tang Xiaolong's. If it weren't for that rebound, although it was domineering, it did not have much destructive power. Tang Xiaolong might have been injured at this time.

But just like that, Tang Xiaolong also felt his fist tingle a little.

"Hey, strength alone is far from my opponent! Believe it this time! Next time, I will shatter all your muscles and veins!" The Sangxiong grinned and smiled triumphantly. Said.

Tang Xiaolong's heart was already shaken.

Tang Xiaolong had already displayed the strongest power of his whole body just now, but he did not expect to attack the Sangxiong. The Sangxiong was not injured at all, and instead shook Tang Xiaolong back.

"Little Dragon! Go up and try again! Don't use your full strength this time, just use half of your strength!" Li Tian said.

Although Tang Xiaolong was puzzled, he gritted his teeth and shouted at Li Tian's request, and rushed to the mourning bear again.

The mourning bear saw Tang Xiaolong rushing over again, so he repeated the technique, still rolling on the spot, grunting about Tang Xiaolong.

When Tang Xiaolong first started to exert his strength, he used his whole body strength, which has already exceeded eight thousand catties. However, Tang Xiaolong suddenly remembered Li Tian's words. When his fist was about to touch the mourning bear, he suddenly The strength has been recovered by a few percent.

Rao is so, this Tang Xiaolong punch also has four to five thousand jin of power.

"boom!"

Tang Xiaolong's iron fist struck Sang Xiong's body, and his fist plunged into that Sang Xiong's body again, and then Tang Xiaolong's body was bounced back by the power of the Sang Xiong again, and it took seven or eight steps to stop. Come down.

"Little boss!"

Li Tian's eyes squinted slightly, he had already seen the changes in the bear. But from the naked eye, it seemed that Tang Xiaolong's punch blasted into the body of the lost bear, but it was not.

The body of the sangxiong was surrounded by a layer of bear skin, and when the sangxiong was attacked by Tang Xiaolong with all his strength, that layer of bear skin bulged slightly, and then Tang Xiaolong's fist hit the bearskin of the sangxiong. The bear skin sags in with Tang Xiaolong's fist.

That's right, it's sunken in. It feels like you hit a fitness ball hard and the ball will sunk in.

But at least half of this bear's rebounding power comes from Tang Xiaolong's attacking power, just like playing a ball. If you hit the ball harder, the ball will give you a rebounding force. The greater the force you use, the rebounding force of the ball. The bigger.

Conversely, if the force you use is smaller, the rebounding force of the ball will be smaller.

Tang Xiaolong attacked the Sangxiong for the first time, using all his strength. That punch was at least eight thousand catties. The rebounding force of the Sangxiong, plus the original strength of the Sangxiong, far exceeded eight. A thousand catties.

And Tang Xiaolong attacked the Lost Bear for the second time, using about half of his original strength. As a result, the rebounding power of the Losing Bear was only about the same as that of the first rebound.

"Little boss, I understand. The bear is using strength to fight! The harder I use, the more damage I will suffer!" Tang Xiaolong whispered in Li Tian's ear.

"Xiaolong is not bad. It means that you are making progress now, and you are no longer fighting with brute force." Li Tian said with satisfaction, "I feel the body of this mutant bear is divided into three. There must be his intention. Now that we know the abilities of this bear, you are going to test the abilities of the other two bears!"

Tang Xiaolong screamed, then turned and rushed to the other two bears.

At the same time, the other two mourning bears had already fought with Situ Ningbing, Xue Ji, Barbarian and others.

Situ Ningbing, 2D, and Xueji are a group. The weapons in the hands of the three women are not ordinary. Among them, Situ Ningbing's weapon is the butcher knife, the 2D weapon is the black thorn, and the Xueji weapon is You dragon sword.

The three of them practiced the Hermit Killing Technique and Misty Sword Technique, respectively, when facing this bear. Xue Ji used the misty swordsmanship as the main attack, and saw Xue Ji's body skills elegant. In this cave, there were a few more Xue Ji's figures. Although the mourning bear was fierce, but for a while, it would be that Xue Ji. There is no way.

"Wow!"

The mourning bear smashed a figure of Xue Ji with a paw, but immediately there were a few more figures of Xue Ji who continued to fight him.

But Situ Ningbing and Wei Wei were horns for each other. When Xue Ji's deity encountered injury, they suddenly appeared beside the Sangxiong and attacked the Sangxiong with a weapon in his hand.

"Qiang!" With a sound, Situ Ningbing's butcher knife and God Tu drew a spark on the body of the mourning bear, only cutting through the skin of the mourning bear.

"How could this be? The defensive power of this Sangxiong is even stronger than just now!" Situ Ningbing thought in surprise.

And the Sangxiong let out a sneer, turned around and patted a paw at Situ Ningbing.

After Situ Ningbing's blow, his body immediately began to retreat, and the lost bear's claws almost flew across Situ Ningbing's cheek, and then the lost bear continued to chase Situ Ningbing.

"Qiang!" "Qiang!" Two beeps sounded behind the bear.

With a sound, it was a two-dimensional cast of hermit killing technique that stabbed the bear with a black thorn, splashing a few sparks. And the other sound was that Xue Ji's Dragon Sword slashed on the Sang Xiong's body, and it was also just a spark, but a white mark was drawn on the Sang Xiong's body.

Chapter 3606: Three bears (2)

The body of this bear is harder than steel, and even far surpasses steel.

The black thorn was the weapon Li Tian found in Fancheng's safe. It had broken hair and was extremely sharp. Facing this bear, he could only stab a little spark.

The Dragon Sword is a weapon of the evil god, cutting iron like mud, and facing this bear, it only draws a white mark, not even the bear skin is cut.

Tudao Tushen, once a divine tool, a divine tool with a sword spirit, although the sword spirit is now asleep, it is a divine tool after all, but it is just a gap.

"Wow!"

The Sangxiong gave up chasing Situ Ningbing, suddenly turned his head back, and turned around super fast, and his two sharp claws had already torn at Wei Wei and Xue Ji.

"bad!"

Two-dimensional and Xueji are eager to save Situ Ningbing, but they don't want to put her in danger. Looking back now, it's better that the mourning bear chasing Situ Ningbing in front is more like a deliberate design to wait for the two. It's the same as throwing a snare.

"Hiss!" With a sound, the bearded bear rips apart the two-dimensional clothes, and the sharp claws tore the skin on the two-dimensional waist.

Although the body of the two-dimensional body was injured, the two-dimensional body drew back on the spot several times with the power of the bear's claws, and then escaped the chase of the bear.

And Xue Ji used the Dragon Sword to resist the attack of the Lost Bear, and used the misty sword technique. A few figures immediately flew towards the Lost Bear with the Dragon Sword. However, the Lost Bear seemed to see Xue Ji's trick clearly. Those afterimage attacks were completely indifferent, chasing Xue Ji indifferently.

At this moment, Tang Xiaolong let out a loud shout, rushed over, and put his body between Xue Ji and the Lost Bear.

"hiss!"

The sharp claws of Sangxiong slashed across Tang Xiaolong's body, and Tang Xiaolong's iron fist continuously attacked the Sangxiong like a cannonball.

"Om!"

"Om!"

A few dull noises sounded on the Sangxiong. The Sangxiong was beaten by Tang Xiaolong with a force of 8,000 jin per fist and stepped back, but Tang Xiaolong did not pursue it. He also backed a few steps in succession. Watching the mourning bear carefully.

"Xiaolong, do you want it?" Xue Ji asked worriedly when she saw Li Tian's brother Tang Xiaolong put his body between her and Sanxiong, and was caught by Sanxiong's claw.

Tang Xiaolong looked down at his chest, a few shallow wounds, far from the \*\*\*\*\* he had expected.

It seems that the tenth level of cultivation has reached the fifth level, and the strength of the body has really become stronger. If it did not break through the fifth level, this face was hit by a claw of a mourning bear, at least it would be skinned and bloody. It may even hurt the bones.

And now, there are only a few shallow wounds, although blood is bleeding, it is not a major problem.

"It doesn't matter! Go and take a look at 2D!" Tang Xiaolong said to Xue Ji.

Tang Xiaolong moved slowly, preparing to attack this bear again.

Just now Tang Xiaolong was hit by the mourning bear, and he attacked the mourning bear several times, but Tang Xiaolong only felt that his fist was hitting an iron guy.

But this is okay. At least it can beat this stray bear back. Don't think like the stray bear just now. Tang Xiaolong's attack seems to hit cotton every time. Not only does it have no effect, he also suffers from the stray bear. The rebound force damage.

"Black monkey, although your fist is powerful, it will never be able to break my strong defense! The swords in their hands are impossible, let alone your fleshy fist!" The mourning bear roared, yes Shouted Tang Xiaolong.

Tang Xiaolong sneered, but without any hesitation, he continued to rush towards the funeral bear!

At this moment, Barbarian, Captain and Bai Jing were dealing with another bear.

Bai Jing's strength is the weakest, and Bai Jing knows that her role here is also the least, but this does not affect Bai Jing's help to the barbarian and the captain.

Bai Jing was directly like the female lost monkey, hiding far away, and then raised his sniper rifle, which was equipped with night vision goggles, and then shot at the lost bear from time to time.

"boom!"

The sniper rifle sounded, and the bullet screamed and hit the sang bear. This bullet was a specially modified bullet with a layer of body fluids from the sang monkeys. Although the bullet did not penetrate the sang bear. , But also fell into Sangxiong's body.

The lost bear's body slightly softened, but soon returned to normal.

This is how the Sangxiong's body softened, but he let the barbarian escape once.

The barbarian's Azure Dragon knife slashed on the Sangxiong's body, and cut a finger-deep wound on the Sangxiong's body, and the black mucus was flowing down the Sangxiong's wound.

Then the barbarian stepped back seven or eight steps, avoiding the fatal blow of the bear.

This is the sword intent that the barbarian raised after a month of raising the sword.

It is with this sword intent that the Barbarian's Azure Dragon Sword can make an opening on this mourning bear, otherwise the Azure Dragon Sword will only cut a trace at best.

Of course, this lost bear is also different from the other two lost bears. If it was Manzi who had encountered the Sang Xiong who was fighting with Tang Xiaolong, then the manzi's Azure Dragon knife would cut a hole at most, and would definitely not cause such damage.

However, this mourning bear was a mourner after all, even if it was cut with such a cut by the Azure Dragon Sword, that mourning bear didn't care at all.

The Sangxiong looked down at the wound on his body, screamed at the barbarian suddenly, and then said with a sneer: "I have to admit, I underestimated you. Now you have successfully angered me, you Prepare to accept my thunderous anger!"

As soon as the voice of the mourning bear fell, the body of the mourning bear began to burrow out white bones. The bones drilled from the two ribs wrapped the body of the mourning bear one by one, and the paws on the mourning bear's paw It also grew a few inches suddenly. If you don't look at the body of the bear, the claws alone are so similar to Wolverine.

"Bang!" There was another gunshot from Bai Jing's sniper rifle.

But this time, the whistling bullet was blocked by the gloomy bones of the bear.

"Wow!"

The mourning bear roared at Bai Jing angrily, and then rushed towards the ground and rushed towards Bai Jing.

The barbarian chased the mourning bear with the green dragon knife. The long black hair of the captain slammed and wrapped around the mourning bear. She wanted to use the black silk to grab the mourning bear. However, her long hair was just one piece. It was torn apart in an instant.

"Bai Jing! Be careful!" the captain shouted to Bai Jing.

And the Sangxiong had jumped up suddenly and rushed towards Bai Jing.

Chapter 3607: Three bears (3)

When the female lost monkey saw the Sangxiong running towards her, she turned around in fright and fled again directly towards the entrance of the cave for several tens of meters.

Bai Jing did not run away. Instead, he picked up his sniper rifle and fired a few more shots at the mourning bear, and even one of the bullets hit the mourning bear's softest nose.

But as I said before, the body fluid of the stray monkey on this bullet only slows the movement of the stray bear, which is completely negligible for the stray bear.

Seeing that Bai Jing didn't run away, the lost bear couldn't help being furious, and had already decided in his heart that he must turn this beautiful and beautiful woman into a delicious meal in his belly.

Seeing that Sangxiong was about to pounce on Bai Jing's body, but at this moment, the Sangxiong suddenly saw that there was a small object the size of a palm on Bai Jing's body.

It is the earth line Yaksha.

Dixing Yasha sneered at the body that Sangxiong had already rushed over, and said: "It's boring, just want to hurt Bai Jing in my hands with such a little strength?"

After that, the Di Xing Yasha and Bai Jing turned out to be like a drop of water on the desert, digging into the ground quickly.

And the two claws of the mourning bear scratched empty, and fell heavily on the ground, splashing the stones caught on the ground, and even directly fell a dog to eat shit.

At this time, the barbarian had already rushed behind the mourning bear, the Azure Dragon Sword in his hand displayed the azure dragon sword technique, and once again slashed on the mourning bear's back.

With a sound of "cang", sparks flew in all directions, this time the Azure Dragon Sabre did not break through the bone defense of the bear, and the barbarian's legs were a little on the ground, and he retreated sharply.

"Wow!"

This mourning bear angrily grasped on the ground with its two claws, trying to dig out the Baijing and Dixingyasha that had penetrated into the ground from under the ground.

"Damn! What kind of ghost ability is this? Even if I dig three feet, I will dig you out." The Sangxiong roared angrily.

Digging three feet? Even if it digs three hundred feet of ground, this bear becomes a groundhog and cannot dig out Dixing Yasha and Baijing underground.

Dixing Yasha and Bai Jing had already drilled out of the ground at a distance of more than ten meters, and Bai Jing raised his hand and shot this bear again.

Knowing that the damage of this shot to the mourning bear was minimal, Bai Jing still couldn't help but fired a shot at the mourning bear.

"Wow!"

Sang Xiong looked up and saw Bai Jing, angrily rushed towards Bai Jing again.

But he just rushed three or four meters, Bai Jing, with the help of Dixing Yasha, fell into the ground again.

After repeating this four or five times, the mourning bear was constantly teased by Bai Jing, but he had no choice but to turn around and attacked the barbarian and the captain.

Although there were three Yakshas with the help, the crowd did not gain the upper hand in the battle against the three sang bears. The defense, strength, and speed of the three sang bears far exceeded them.

Not only did the crowd not inflict corresponding damage on these three bears, but the two-dimensional, Tang Xiaolong, and Barbarians were all injured to varying degrees.

However, the faces of everyone present were full of excitement, without the slightest fear.

With the help of the three Xiaoyashas, everyone has found a way to fight with the beasts that are much stronger than them. The only thing missing now is effective damage.

And this damage can only be seen by Li Tian, the strongest.

Facing the loss of the bear who could rebound strength, Li Tian first thought of "Red Slash". After the "Red Slash" spirit was released, it was full of demonic nature, and its strength was even stronger than before. If Li Heaven used "Red Slash" to deal with this mourning bear, and the drum-like bear skin would definitely be easily cut by "Red Slash".

However, Li Tian still does not want to use "Red Zhan", even if "Red Zhan" already recognizes Li Tian as the master, Li Tian does not want to rely too much on "Red Zhan".

"boom!"

"boom!"

"boom!"

Li Tian's broken soul palm kept blasting into the body of the first lost bear.

With every palm shot, Li Tian felt that the bear skin of the Lost Bear would tremble, and there would be a loud noise in the body of the Lost Bear, and the Lost Bear was also hit by Li Tian's broken soul palm. Keep backing up.

But the rebound force that Li Tian endured was also not small. Li Tian even felt that his arm had begun to become numb because of the rebound force of the broken soul palm.

This kind of feeling is as if this bear is Murong Fu, but Nima is playing the way of the other and returning to the other body.

"It's useless! No matter how powerful your palms are, you will be the first to fall!" The Sangxiong said with a sneer.

It's not a loss for the fourteenth-level mutant Sangxiong, who actually possesses such a strong combat power. Everyone on the scene is almost Li Tian's full strength, but it is only a tie with this Sangxiong.

If you don't rely on "Red Slash", only Li Tian will face the siege of these three bears. At that time, even Li Tian will inevitably be defeated.

However, Li Tian and Xiao Tianyi were not summoned. At this time, Xiao Tianyi was sucking the power of the corpse in the fourteenth-level corpse crystal that Li Tian gave him in the space of the void Yasha.

But Li Tian has not yet discovered the weakness of this zombie bear. If he can't find out where the fatal weakness of the fourteenth level zombie is, even if Xiao Tianyi has successfully advanced to the fourteenth zombie level, he has something comparable to the fourteenth-level mutant zombie. The strength, but can't kill this mutant bear.

Weakness, where is the weakness of this bear?

Could it be the head?

"Wow!"

Li Tian used Xuantian \*\*\*\* again and flicked a finger on the head of the bear.

"Boom!" With a sound, a small hole was exploded in the head of the bear, and flesh and blood flew across.

"Huh? Is this Sangxiong's head really a weak point?" Li Tian was overjoyed, and immediately began to bombard the Sangxiong's head.

"boom!"

It was another broken soul palm. This palm slapped on the head of the lost bear, and it actually exploded the head of the lost bear.

Li Tian looked at that Sangxiong's body weakened, and he was about to fall down, and he was ecstatic.

Li Tian's hand had reached into the head of the blown bear, but no mutant crystal was found.

"How could this happen! Isn't there a lost crystal in this lost bear's head?"

However, at this moment, the Sangxiong's catch suddenly caught Li Tian's abdomen.

"hiss!"

Although Li Tian already felt the danger and immediately teleported, when Li Tian appeared again at a distance of seven or eight meters, he still felt a pain in his abdomen.

But Li Tian looked up and saw that the head of Sangxiong that had been exploded by Li Tian's broken soul palm, but slowly recovered, as if it were a soldier, it can be recovered automatically.

"Hey! Do you think I would be killed by you so easily? It's so naive. What a pity, I didn't scratch your abdomen with my paws, and didn't withdraw your intestines!" The mourning bear licked the blood on his paws and sneered at Li Tian.

Chapter 3608: Three bears (4)

"No, even if he is a fourteenth-level mutant mourning bear, he always has weaknesses. It is impossible to have an immortal body like a mourning soldier.. Do you have to summon Xiao Tianyi now and let Xiao Tianyi and the captain both kill a foodie eat this bear?" Li Tian quickly calculated in his heart.

Li Tian's gaze slowly moved to the other two mourning bears, trying to find some weaknesses from the other two mourning bears.

"Impossible! Since there is no lost crystal on this bear, it can only mean that the lost crystal is on the other two bears. It is impossible for these three bears to have no lost crystals!"

"This stray bear has the power to rebound and has an immortal body. If it is entangled by this stray bear, then there is no way to deal with the other two stray bears."

Li Tian screamed, and once again used Broken Soul Palm, rushing like this undead bear.

"Huh! It's stupid, knowing that this ordinary move is completely useless to me, I still rushed like this, the spirit is worthy of recognition, but...I won't let it go!" The undead bear sneered, on the spot. Go, roll over towards Li Tian gruntly.

The sangxiong was ready to accept Li Tian's stormy attack, but when Li Tian's palm touched his body, the sangxiong clearly felt the power on Li Tian's palm. It is weak and feeble, as if touching gently.

And this lost bear's eyes lit up and found that his body had appeared in a strange space. And there are no living things, no objects in this small space.

"This...Where is this? How come I suddenly appear here?" The bear whispered to himself.

Needless to say, Li Tian used the power of Void Yasha to directly send this mourning bear to the space of Void Yasha.

This Void Yaksha has three separate spaces in total, namely Feitian Yaksha's residence space, Dixing Yaksha's residence space and Wukong Yaksha's residence space.

The location of this bear is now the space of Feitian Yasha's residence.

In the bear cave of Sangxiong, the other two Sangxions also realized what happened on Li Tian's side, and suddenly looked at Li Tian at the same time.

The two bears were in a trance, and they were immediately attacked by the barbarians, Tang Xiaolong and others like a storm.

"Wow!"

"Wow!"

Facing the attacks of Tang Xiaolong, Barbarian and others, these two mourning bears didn't care at all. They roared, thinking about rushing to Li Tian's side and forming a pincer attack on Li Tian.

Tang Xiaolong let out a loud shout and stood in front of the steel mourning bear he was fighting against. He kept changing attacks against the mourning bear, not giving way.

At this time, Tang Xiaolong already had basic wounds on his body. Although these wounds were not fatal, they looked shocking.

However, Tang Xiaolong's face was full of smiles. This was the first time in so long that he had been so happy and so happy to fight.

Although the defensive power of the Sangxiong is strong, Tang Xiaolong's defensive power does not have to be much weaker. Although the power of the Sangxiong is strong, the power of the Sangxiong is about 10,000 catties at best, and Tang Xiaolong's is 8,000 catties. The difference in strength is not too much.

At this time, Tang Xiaolong's wound was sore, but Tang Xiaolong's mouth was smiling, yes, it was a smile.

In this battle, Tang Xiaolong felt that he had improved much more than in the past month. Now, with this mourning bear in exchange for injury, Tang Xiaolong unknowingly felt that his strength had improved again.

"Looking for death!" Tang Xiaolong took the road to the lost bear. He roared and rushed towards Tang Xiaolong fiercely. Tang Xiaolong sneered and hit the lost bear with his iron fist.

Situ Ningbing and Xue Ji also performed their own exercises, cooperating with Tang Xiaolong next to them.

On the other side, except that the captain is not very afraid of being injured, Barbarian and Bai Jing do not have the physique of Tang Xiaolong, nor the physique of Xue Ji and Situ Ningbing, even if there is a Di Xing Yasha next to assist Bai Jing, They didn't dare to head to head with the bear.

Within a few rounds, the mourning bear roared and rushed to Li Tian's side.

"Barbarian, go and assist Xiaolong! Let me deal with this bear!" Li Tian shouted to the barbarian and the others.

Barbarian and the others immediately stepped aside, leaving a special area for Li Tian to fight the mourning bear, while Barbarian and the others rushed to the iron mourn bear that Tang Xiaolong was facing.

At this time, the female wandering monkey who had already escaped tiptoed again and sneaked into the bear cave. Seeing that the three bears had lost one, her heart immediately became happy.

"Chichichichichi, now Li Tian and the others are fighting with this mourning bear. This mourning bear has no time to take care of me. I will go and rescue my boyfriend first!" The female mourning monkey quietly spared Li Tian. Waiting for someone, and then quickly ran towards the bear cave.

The Sangxiong, who had rushed to Li Tian, did not immediately attack Li Tian, but stared at Li Tian with a stern eye, and said to Li Tian, "How did you do it? Quickly release my other clone. , Otherwise, I will die here all of you!"

It turns out that these three mourning bears were split from the fourteenth-level mutant mourning bears, so these three mourning bears are like Li Tian and the three Xiaoyashas, and they are also telepathic.

The undead mourning bear was trapped in the void of Yasha by Li Tian, and this mourning bear could even sense it.

The expression on Li Tian's face was very helpless. Li Tian's purpose was very clear, that is, to kill the fourteenth-level mutant mourning bear, obtain the fourteenth-level mutant mourning crystal, and then take it to Beitang to rescue Tang Feifei. May make peace with this bear.

Besides, even if Li Tian releases the undead bears, can these bears let Li Tian and others go? Wouldn't you treat Li Tian and others as delicious?

Li Tian sneered, without any nonsense, and rushed directly to this fourteenth-level mutant mourning bear.

Xuantian fingering!

Li Tian's Xuantian \*\*\*\*\* suddenly cast a cold arrow, hitting the head of the lost bear, but there was already a layer of protective film of white bone on the head of the lost bear, as if the lost bear was wearing a bone mask.

Xuantian hit the bone mask with his fingers, making a dull noise, and the bone mask was safe and sound.

And Li Tian's burst of shout was to use Broken Soul Palm and blasted towards the head of the bear.

The Sangxiong didn't retreat but moved forward, even deliberately showing his head for Li Tianlai to bombard.

"Boom!" With a loud noise, Li Tian's broken soul palm bombarded the head of the Lost Bear. The head of the Lost Bear was only slightly swayed and was not harmed at all, and the sharp claws of the Lost Bear had already caught Li. Heaven's leg.

"Huh!"

Teleported, Li Tian disappeared.

Chapter 3609: Three bears (5)

Li Tian had appeared behind this lost bear in the next second. ,

After Li Tian was injured by the undead bears for the first time, Li Tian had already paid special attention to the attacks of these bears.

Li Tian's attitude is that even if he can't fight these bears, Li Tian can't get hurt anymore.

After all, there is no such little beauty as Windsor who has medical abilities around her, and she won't be treated immediately if she gets injured.

This is also the reason why Li Tian especially wanted to invite Windsor to join the heavens. The captives and Liu Yihui could not replace Windsor.

The captive is more like a medical staff, and Liu Yihui is more like a researcher.

"boom!"

"boom!"

"boom!"

Li Tian continued to use the broken soul palm, and kept slaps on the head of the lost bear. When the lost bear turned around to fight back, Li Tian disappeared again.

This is what the rogue has sent, but now when Li Tian is not a hero, it is Li Tian's greatest ability to not apply "Red Slash".

This lost bear was beaten around by Li Tian's teleportation and broken soul palm. Even if this lost bear wanted to beat Li Tian, it was completely impossible for Tiger Tuntian to start.

Nonsense, even if it is a ghoul, there is nothing to do when facing Li Tian's teleportation. Only by predicting where Li Tian will appear next time, causing harm to Li Tian.

But even so, Li Tian still snatched an eighteenth-level corpse crystal from the ghoul's hand.

This zombie is only a fourteenth-level mutant zombie, how can it be compared with the ghoul.

"Wow!"

The Lost Bear was completely passive, and Li Tian kept slapping his head with the broken soul palm. Although he was not going to kill the Lost Bear, the Lost Bear felt very aggrieved and very insulted.

The mourning bear kept hissing, getting more and more angry.

"Crack!" After Li Tian displayed the broken soul palm again, he heard a slight sound from the white bone mask on the bear's head, and there was a slight gap in the mask.

Although Li Tian kept using teleportation, it didn't mean that Li Tian was very relaxed. On the contrary, Li Tian's body felt strangely tired.

This exhaustion made Li Tian's whole body tremble uncontrollably, and even made Li Tian feel that his whole body was numb and sore, and, because Li Tian kept showing his broken soul palm, Li Tian's already felt his body. The inner strength has been severely overdrawn, as if this broken soul palm was the last palm he could release every time.

But Li Tian can't stop for half a moment. If he stops, then the bear will get a chance to breathe, and Li Tian's previous efforts will be forsaken.

Li Tianyi gritted his teeth, teleported to the left of the sangxiong again, slammed four or five palms to the head of the sangxiong, and then teleported to a distance of ten meters away, taking a few rough breaths.

Li Tian didn't know how many palms he had blasted against this bear's head, and conservatively estimated that there were hundreds of palms.

After practicing Qingyun, Li Tian's soul-broken palm has been greatly improved, and even the thirteenth-level zombie Li Tian can solve the problem with only ten palms.

Then, Li Tian concentrated on studying all the blue clouds in his hand. Although Li Tian's strength has not been improved again, it is of great help to Broken Soul Palm.

But now, facing this fourteenth-level mutant mourning bear, Li Tian had already blasted hundreds of palms, and the bone gaps on that mourning bear's head were just a few more, a little wider.

However, it is these gaps that make Li Tian full of confidence.

The embankment of a thousand miles was destroyed by an ant nest. As long as there was this gap, Li Tian had already seen hope.

"Hundreds of palms do not work, then I will bombard thousands of palms, thousands of palms do not work, then I will bombard thousands of palms. Ants may also gnaw an elephant, let alone a bear." Li Tian was secretly right in his heart. He encouraged himself.

On the other side, after Tang Xiaolong received the support of Barbarians and others, the pressure was significantly reduced, but this fourteenth-level mutant Sangxiong still has an absolute overwhelming advantage over Tang Xiaolong and others, if it weren't for Tang Xiaolong, the black monkey who had successfully advanced, Now Barbarian and others may have been defeated.

"boom!"

"hiss!"

It was another confrontation, Tang Xiaolong had another wound on his body, and Tang Xiaolong blasted a punch on the right arm of the mourning bear.

When Tang Xiaolong was fighting this steely bear, his mind kept turning.

Although he was facing a steel-like sangxiong, Tang Xiaolong believed that as long as it was sangxiong, no, as long as it was an opponent, then there must be weaknesses.

Even if it is a steel plate, Tang Xiaolong believes that with his strength of 8,000 catties per punch, this steel plate can be beaten into a sieve.

But wanting to smash a steel plate into a sieve is definitely not a random punch, it should still require certain skills and methods, and Tang Xiaolong started to summarize this method after constantly fighting with this mourning bear.

Now, Tang Xiaolong only caught the right paw of the mourning bear and attacked.

"Boom!" It was another punch. When Tang Xiaolong's fist attacked the right paw of the mourning bear, he clearly felt that the mourning bear's right foreleg had a hollow feeling.

And the mourning bear let out a hissing sound, and backed up a few steps in succession, but his right foreleg was a little unfavorable.

"Huh! The fourteenth-level mutant mourning bear is nothing more than that!" Tang Xiaolong said to the mourning bear with a sneer.

"But so?" Manzi really wanted to rush to Tang Xiaolong when he heard Tang Xiaolong's words.

"Your brother, you have now cultivated the tenth level of body training to the fifth level. When you were not advanced, you were not so arrogant?"

This bit of damage not only didn't make the sangxiong retreat, but aroused the anger in the sangxiong's heart. The steel sangxiong roared at Tang Xiaolong, and his two sharp claws tore at Tang Xiaolong again.

At this time, the Sangxiong had completely ignored the attacks on him by Barbarian, Situ Ningbing and others. Anyway, these attacks did not cause much harm to him, just like mosquito bites.

In the past, this Sang Xiong dealt with Barbarian, Situ Ningbing, and Xue Ji because he felt that these people were like flies, making him unbearable to bear this kind of harassment, but now his eyes have started to fire and he can no longer take care of these harassment.

"Wow!"

"Good coming!" Tang Xiaolong said with a sneer.

At this moment, Sang Xiong, who was fighting against Li Tian, suddenly let out a scream, and his head wrapped in a white bone mask was shattered by Li Tian's palm.

The fragment of white bone fell on the ground, and the head of the lost bear was also blasted into a gap by Li Tian's broken soul palm, and the white brain flowed out along the gap.

However, the Lost Bear just screamed, but was not knocked to the ground. Instead, he took advantage of Li Tian's care and tore a palm on Li Tian's chest.

"hiss!"

Blood splattered everywhere, and this paw was bearing the terrible anger of this mournful bear, and tore a wound that was nearly a foot in Li Tian's chest.

If it hadn't been for Li Tian to hide quickly, Li Tian would definitely suffer heavy losses this time.

With a backhand, Li Tian sent the Lost Bear into the space of Void Yasha, and then suddenly looked towards Tang Xiaolong.

"Then the lost crystal should be in your head!"

Chapter 3610: So powerful

After Li Tian sent the mourning bear to the space of Void Yasha, he teleported to Tang Xiaolong's side without taking care of the wound. ,

"Little boss, have you solved the two bears?" Tang Xiaolong asked.

Li Tian shook his head and said, "The two lost bears have no crystals in their heads. They have the same immortality as the lost soldiers. Unless they are eaten by Xiao Tianyi and the captain, or the lost crystals will be eaten by them. Kill the bear, otherwise they will never die! I have sent them to the space of Void Yasha!"

"You mean that the lost crystal is in the head of the lost bear? That being the case, little boss, I...I... can I join hands with you to kill the lost bear!" Tang Xiaolong was somewhat Said excitedly.

Tang Xiaolong, the brother of Li Tian, had imagined many scenes of joining forces with Li Tian, but because of his poor strength, not only was he unable to help Li Tian at all, but instead made Li Tian passive many times.

And all this has turned for the better after Tang Xiaolong has practiced ten levels of body refining, especially now, Tang Xiaolong's body refining technique has reached the fifth level, and he can almost be alone in today's battle. This makes Tang Xiaolong. Years of thought came up again.

Li Tian smiled slightly, then nodded again, and shouted to Situ Ningbing and the others: "You all get out of the way, now let us brothers join forces to show this bear."

Situ Ningbing and others immediately stepped aside and looked at Tang Xiaolong and Li Tian with interest.

There are even small waves in Situ Ningbing's heart.

Situ Ningbing was very happy to see Tang Xiaolong and Li Tian joining hands.

However, the lost bear was very upset.

A Tang Xiaolong had already made this Sangxiong feel quite tricky, and another Li Tian appeared, this Sangxiong knew that he could not be the opponent of these two people no matter how small his brain was.

The mourning bear shouted angrily at Li Tian and Tang Xiaolong: "Shameless!" Then suddenly turned around and wanted to escape into the cave.

"Huh!" Li Tian's body teleported a few times and directly blocked the way the funeral bear escaped.

The sangxiong escaped super fast, if it weren't for Li Tian's teleportation, I am afraid that sangxiong would have escaped into the cave.

"What? It's really good to just run away without saying hello?" Li Tian said with a sneer.

The Sangxiong didn't expect that he would be moved by Li Tian's teleportation. At this time, Tang Xiaolong and the others had already chased up from behind, taking care of the way out of the cave.

"Damn, what do you think? Isn't it just trying to save the boyfriend of the female monkey? I just give it to you!" said the mourning bear.

"I think you have misunderstood it. It was just our way to save the male stray monkey, and our purpose was just you, the fourteenth-level mutant stray bear!" Li Tian said with a sneer.

"Little boss, what nonsense is there to follow Sangxiong, we can join hands and kill this Sangxiong!" Tang Xiaolong said with some excitement.

The Sangxiong said coldly: "You don't push people too much. If you have to make a fish kill, then I will accompany you to the end, but I am afraid that all of you here will not want to escape this cave!"

Although Li Tian didn't know what the mourning bear wanted to do, he also knew that if it was what the mourning bear said, then they might be in trouble.

Seeing Li Tian flipped it casually, the "Red Slash" had appeared in Li Tian's hands, and then Li Tian sneered and said, "Then you die!"

"Since you are looking for death, then I will fulfill you!" Suddenly the bear slapped his chest, like a great ape Mount Tai, and shouted loudly at the cave: "Aw! Aw! Aw!"

Li Tian shouted: "Knot!"

Following Li Tian's explosive drink, the "Red Slash" was combined with the nine-color corpse crystals on Li Tian's chest, quickly forming a layer of bone armor on Li Tian's body.

That's right, it was a layer of bone armor, this time it was not the right arm, nor the right half of the body, but Li Tian's entire body.

This white bone armor completely wrapped Li Tian's whole body and only shed seven orifices. Although this white bone armor was made of white bone, it was true that the armor style of ancient generals was not only not ugly, but also looked exceptionally beautiful.

And each fragment of this white bone armor is connected by the transparent silk thread of the nine-color corpse crystal, so this white bone armor will not affect Li Tian's mobility in the slightest.

However, the gloomy white light flashed on the white bones boot, giving people a shuddering feeling.

More importantly, Li Tian's "Red Zhan" has also undergone some changes. The connection between the scarlet blade and the hilt turned into a mouth with red cheeks, as if the "Red Zhan" was It was the same as Qi Ling spit out from his mouth.

Li Tian did not expect that after the "Red Slash" recognized the Lord, he would show such a powerful form. In this way, Li Tian can be said to be surrounded by this white bone armor for three hundred and sixty degrees, and he wants to be injured again. It's also difficult.

"This...what is this?" The Sangxiong looked at Li Tian's changes in surprise, almost unable to speak.

Li Tian felt the surging power flowing in his body, lightly waved "Red Chop" and pressed his legs.

"Wow!"

Li Tian only felt that his body was like a gust of wind, and he had appeared in front of the Losing Bear lightly.

"So fast!" The Sangxiong looked at Li Tian in horror, and he couldn't help but back up.

But how could the speed of this bear retreat be compared with Li Tian's current form, Li Tian sneered, lightly tapped his left foot on the ground, and had already caught up.

"Huh!"

A red light flashed, and the shadow of the "Red Slash" knife crossed the mourning bear's neck.

It seemed that Li Tian didn't make any effort at all, but the head of the mourning bear rolled down.

"puff!"

The black mucus on the sangxiong's neck kept squirting outwards, while the sangxiong's body fell heavily to the ground.

"Ok... so powerful!" This thought came out of everyone present at the same time.

In fact, they were already shocked when they saw Li Tian's "Red Slash" combined with the Nine Color Corpse Crystal, and the white bone armor completely surrounded Li Tian's body.

After all, what they saw the most before was Li Tian's right arm forming a white bone armor, even the half-length white bone armor that Li Tian formed when he was fighting a twelfth-level zombies.

But they still completely underestimated Li Tian's attack power in this form.

That was the fourteenth-level mutant Sangxiong, even if Tang Xiaolong's ten-fold refining reached the fifth type, it was barely able to compete with this Sangxiong.

However, they no longer know what words to use to describe their shock.

Li Tian was also shocked, this feeling was so... so wonderful.

Li Tian slowly raised the "Red Zhan" in his hand and slashed towards the head of the lost bear.
