

A Killer 3851

Chapter 3851: aims

Li Tian stood on the splint of the destroyer, looking at the blue sea in the distance. Tang Xiaolong and Shen Tao stood behind Li Tian. .

The land behind them is getting farther and farther, and the faces of these two people have an expression of excitement.

"Report to Master Li Tian, I am Liu Guoqiang, the captain of the Cangshan ship, and I am very happy to serve you. Now the East China Sea ship is about to leave the port, please tell me!" A man in uniform appeared behind Li Tian, right Li Tianjing said.

Li Tian turned and looked at Liu Guoqiang. Although he was not a soldier, Li Tian also gave Liu Guoqiang a gift in return. This time he said: "I heard about Xiaoxiaodao before the end of the world. At that time, the island was occupied by island devils. If it is convenient, we can go to Kitten Island first, and then go to our destination!"

Liu Guoqiang's face involuntarily showed an expression of excitement.

For any soldier in the country, this little cat island can be said to be their shame, and taking back little cat island can be said to be the slogan of many people throughout the country.

"Yes!" When Liu Guoqiang was excited, he turned and walked towards the inside of the ship in a stride.

In the past few days when he returned to Beitang City, Li Tian originally planned to go to the underground palace of Tashan Temple to wander through the remaining four and eight Tianlong stone gates, but he was dragged by Duanmu Ying and other women to go out to play. Li Tian knew that it was these women who felt sorry for him and worried that he would be angry because of being expelled.

The so-called hospitality is difficult. Besides, Duanmuying is pregnant. Just when he needs the company of a man, Li Tian can only take a few women to play around the famous mountains and rivers, famous places and historical sites near Beitang, and wait for Li When Tian returned to Beitang again, Windsor had already returned with Shen Tao at that time, and it was not two days since the time agreed by Li Tian and Mu Yunlong.

Li Tian could only send all the people he selected into the space of Void Yaksha, and then flew towards Cangshan Seaport in the body of a mutant crow.

Then Li Tian waited here for Li Tian's Captain Liu Guozheng and the entire warship.

Father Mu Yunlong and Huangfu Kunpeng did not show up. It was the little lady who sent Li Tian to the warship. After sending Li Tian and the others to the warship, the little lady simply confessed to Li Tian without staying too much.

The reason why the little lady appeared here was that he received the order of the Army Soul Corps to send Li Tian, and there was another reason, that was because he was a member of the Army Soul Corps sent to the heaven to assist in the development of the Celestial Legion.

With a little lady coming to take charge, Li Tian can feel better in his heart.

And the little lady said that the warship named Cangshan Ship was not as simple as sending Li Tian to the place he wanted to go. This warship and the entire fleet of more than 600 people were actually given to Li Tian by the old man Mu Yunlong. .

It can be seen that the old man is still particularly concerned about Li Tian.

But it also shows the old man's expectations of Li Tian.

Soon, the warship left the harbor and sailed towards the blue sea.

"Little boss, there should be fun things in the four islands of Dongying. It is said that the population density of this island country is far more than ours, so the level of the zombies in this island country is definitely not low!" Tang Xiaolong said excitedly.

Li Tian did not look back, continued to look at the sea ahead, nodded slightly, and said, "Yes, Jingdong, the capital of the four islands of the East, is the country's largest city. The zombie level in it should be the same as that of Kyoto. Or the level of zombies in Jinghai City is almost the same. But our target is not all those zombies, but those lands. If the situation of my three small Yaksas allows, I will directly implement the tactics of killing the city."

"Tsk tusk, Brother Tian is domineering! In this way, many female stars on these island countries can only survive in the hard disk forever!" Shen Tao said.

"You kid, your mind is so unhealthy, it seems that I have asked Windsor to fix you!" Li Tian said.

Shen Tao's expression of excitement just now faded, and he said with a bit of displeasure: "I really don't understand that Windsor and that fool have so much to talk to!"

That idiot naturally refers to Kobi. After Kobi got on the warship, he was excited to touch it, wherever he touched it, and Windsor would accompany him to visit the warship.

As for the women of Li Tian, they are all accompanied by Duanmu Sakura in the cabin of the warship at this time. Of course, there is no unmysterious female lily. This mysterious female lily is the only one brought by Duanmu Sakura from the Sakura Legion. people.

But who's called Lily and Tang Xiaolong now have an unclear relationship!

Xiao Tianyi and his mutant bat formation were even more noisy, but in order not to affect the normal movement of the warship, Li Tian directly sent these goods into the space of Feitian Yasha, letting them play with the three Xiaoyasha happily .

But the dog nose, who had been clamoring to go with Li Tian before, was pulled by Li Tian in Beitang City.

The combination of Goubi and Wang Rui is now very important in the heavens. For Li Tian's decision, Goubi is crying, thinking that he has abandoned him, and constantly crying to He Zhizhuo, Shelipuding and others, but Li Tian's decision is another person's control, and the dog nose can only accept this reality.

The sky and the sea were the same color, and the warship slowly left the port.

And when the warship was almost invisible, Huangfu Kunpeng appeared in Cangshan Harbour with his father.

"Little Litian, my grandpa is incompetent. For so many years, I haven't allowed you to live a day, a second generation, a rich second generation life like other children, please forgive grandpa's selfishness!" Mu Yunlong Talk to himself.

"Legion commander, you are for the common people of the world, Li Tian will appreciate you!" Huangfu Kunpeng said.

Mu Yunlong was not talking. The old man kept watching the warship disappear completely at the end of the sea. Only then did he show a trace of fatigue on his face. He turned to Huangfu Kunpeng who was standing behind him and said, "Come with me to the southwest! Now ten The big legion and the two legions of Longtenglitian and Yinyangmen did not join the Chinese Allied Forces. If these two legions also join the Chinese Allied Forces, then our winning rate will be even greater. But the Yin Yang of the Yinyang Gate last time But he refused my request. Now it depends on the attitude of Long Tenglitian."

...

Jinghai, a skyscraper.

The first floor of a skyscraper is the lobby of an international hotel.

Although it has been more than three years since the end of the world, the first floor lobby of this international hotel seems to be newly opened. Seven or eight senior zombies kept wiping the entire lobby spotlessly with a rag in their hands.

The three dead corpses were sitting lazily on the sofa in the hotel lobby. Tang Zheng and Vice President Kang stood behind them with their heads low, and in front of them, bowed their heads towards the legionnaire and knelt on the ground in an embarrassing manner.

"Three adults, I...I am incompetent...I was defeated by Long Yin, and I didn't even see Li Tian's face!"

With a sneer on Zipai's face, he said, "It's okay!"

"Have your pilgrimage and the Holy Legion heard about the Four Islands of the East in the last few years? In your so-called Forbes rankings, there are American players and Western European players. Have you ever heard of players from the Four Islands of the East?"

"Haha, as early as a year ago, the four islands of Dongying were already under the complete control of our three corpses. Li Tian is now a dead end in the past. Since you have the intention to deal with Li Tian, then give a chance, you go Four islands in the east!" said the corpse soul.

Chapter 3852: Avoid water drops

The sky was completely dark, and the warship was still heading towards Xiaoxiaodao Island by wind and waves.

The Cangshan warship did not activate the maximum speed, and now it is maintained at about 15 knots. At this speed, it will take about 15 or 6 hours, and it will be able to reach Xiaoxiaodao at dawn tomorrow.

The sound of the waves can continue to reach Li Tian's ears.

Facing the endless sea, Li Tian deeply felt his own insignificance.

And in this deep ocean, Li Tian always felt as if there was some danger.

When he was in East China Sea City, the giant of the funeral in the ocean controlled by Yang Guo had a profound impact on Li Tian, making Li Tian fear the funeral in the ocean.

Moreover, now is the end of the world, there are no satellites in outer space, and the various advanced facilities of this warship are not much available, so Li Tian believes in his own perception and judgment of danger.

Therefore, after dark, Li Tian asked everyone else to rest, while he sat on the splint of the bow of the warship and began to practice.

Li Tian is currently practicing Broken Soul Palm, Broken Soul Fist, Xuantian Fingering and Qingyun.

Li Tian was quite satisfied with the power of Broken Soul Palm, Broken Soul Fist and Xuantian Fingering.

However, satisfaction returned to satisfaction, but Li Tian knew that the opponent he was facing was getting stronger and stronger, and it was difficult for these kinds of exercises to play a corresponding role when Li Tian played against him. Especially in the recent battles, Li Tian still relied on Nine Color Corpse Crystal and "Red Slash" to solve the battle, which made Li Tian very unhappy.

But these exercises have reached a bottleneck period. If you want to increase the power of these exercises, you can only rely on Qingyun.

However, Li Tian didn't know exactly where the other layers of Qingyun were. Even Li Tian couldn't even be sure whether the Qingyun was on the earth or not. He wanted to use Qingyun to improve his strength.

And through fighting with Ouyang Man, through fighting with Vice President Kang, Li Tian realized that the strength of these three corpses might far exceed his own, otherwise the three corpses would not be able to let Vice President Kang in a short time. The strength of the guild leader has improved so much, it is impossible for Ouyang Man to have a strength that can almost match his.

"If the strength of the three corpses is really so powerful, then why don't the three corpses directly rule over human beings? Still let the development and growth of human society?"

"Could this be the intention of the Three Corpses?"

"But if this is the case, then what is the purpose of the Three Corpses? Just like in Guixi Province, does the Three Corpses want to establish a kingdom of their faith?"

Thinking of this, Li Tian couldn't help but feel a little upset.

Li Tian jumped up abruptly, roared, and then blasted a few broken soul palms against the black sea.

"boom!"

"boom!"

The broken soul palm hit the surface of the sea, flying the sea water, and the sea water fell again. Many water droplets blew on Li Tian's body with the wind, making Li Tian suddenly relieved from the upset. Got out of it.

"call!"

Li Tian let out a long breath.

At this moment, Li Tian suddenly saw a red light flashing by the side of the warship under the sea, quickly sparing in front of the warship, and then moving forward with the same speed as the warship.

Li Tian thought it was an error in his vision, and rubbed his eyes involuntarily.

But the red light did not disappear, but continued to swim around the warship.

"What is this? Is it some kind of bereavement?" Li Tian thought suspiciously.

There are more creatures in this sea than there are on earth, and it is not an exaggeration to have one or two mourning objects that glow red.

Thinking of this, Li Tian immediately controlled the nine-color corpse crystal, causing the nine-color corpse crystal to release several transparent threads rushing under the sea.

After the transparent silk thread poured into the sea, Li Tian could actually feel the coldness of the sea under the sea through the transparent silk thread, but the cold water made Li Tian's spirit startled, and he was no longer sleepy.

And at this moment, Li Tian suddenly felt that the three small Yashas in the void Yasha space were also commotion at this time.

"Master Li Tian, don't hurt her, I... I feel the red light seems to have an affinity, as if it is our kind calling us!" Void Yasha suddenly appeared on Li Tian's shoulder Above, he said to Li Tian.

"Similar? Is it also Yasha?" Li Tian couldn't help feeling a little excited.

But at this moment, the transparent silk thread released by the nine colors shrank back suddenly as if being electrocuted, but the red light suddenly swam towards the middle of the seabed.

"Master Li Tian, that red light seems to be calling you deliberately, we will catch up!" Xukong Yasha said.

An embarrassed expression appeared on Li Tian's face.

"What a joke, this is the sea. Although my swimming skills are not bad, I am not good enough to swim in the ocean! I really want to catch up, but I really don't have the strength!" Li Tian said.

Void Yasha immediately showed a disdainful expression on his face and said, "Don't you have water-repellent beads? What water are you afraid of if there are water-repellent beads, let alone this ocean, even the dragon palace world in ancient mythology, you can do it. Go!"

"Avoid water drops? How come I don't know if I have something?" Li Tian said.

"Tashan Temple Underground Palace, in the Dragon Temple, you killed two divine dragons, and the last bead that fell out was a water-repelling bead!" said Xukong Yasha.

Li Tianli hurriedly turned out the bead.

This bead is only the size of a fingernail of a thumb. It looks like jade and not jade, or stone and not stone. After getting this bead, Li Tian also studied it, but he didn't know the use of this bead. Li Tian almost took it. The beads were crushed to Situ Ningbing as a pearl powder to apply the mask, but Li Tian found that the broken soul palm that blocked him could not break the beads. This water-repelling bead landed in Li Tian's skin pocket. Survived.

"Are you sure this is a water-repellent bead? Why didn't the bead play a role in water-repellent when I got this bead from the pool in the underground palace of Tashan Temple?" Li Tian asked inexplicably.

Void Yasha immediately showed a disdainful expression and said: "Hey, how do you explain this kind of thing to you mortals? You don't know the correct usage of this water drop, how can it play a role in water avoidance? You open it. Your mouth, hold this bead in your mouth, and wait until the bead automatically releases a warmth, even if the bead is activated, it can play a role in sheltering water! But let me remind you, this bead Once you encounter saliva, there will be a strange change, don't swallow it, otherwise even ten Windsor won't save you!"

Li Tian immediately squeezed the bead into his mouth according to the method of Void Yasha. About less than five seconds later, when the saliva completely soaked the bead, Li Tian immediately felt a swish in his mouth. It feels like this bead is constantly releasing electric current.

With the activation of this bead, Li Tian could actually see a light layer appearing around his body, as if he had put a colored glass shell around Li Tian's body.

Li Tian left Feitian Yacha on the warship, and after explaining something to Feitian Yacha with his heart, he jumped directly into the sea.

Chapter 3853: Haiyasha

After Li Tian jumped into the sea, his body didn't sink. The warship galloped past Li Tian quickly. Within a few minutes, Li Tian was left on the entire sea.

Around Li Tian's body, that layer of colored aperture was like a lifebuoy, allowing Li Tian to float on the water easily. Li Tian tried to sink under the water several times, but failed.

"Damn it, this water bead is clear water but I can't sink it, and I don't know where that red light has swam to!" Li Tian said.

Void Yasha sat on Li Tian's shoulders and was also in this layer of aperture, so he would not be attacked by the sea. Seeing Li Tian's embarrassed appearance, Void Yasha couldn't help sighing, "Master Li Tian, Take a deep breath, control your body with your mind, and let yourself sink into the sea! As for the red light, you can rest assured, the red light and I seem to have some feelings, and when you sink into the sea, move forward in the direction I pointed. , You can definitely find the red light!"

Li Tian took a deep breath and controlled his body with his mind in accordance with the method Voke Yasha said.

Sure enough, as Li Tian's heart moved, Li Tian's entire body actually sank into the sea.

Looking up outside, the starlight and moonlight in the sky are shining on the sea, and there is a faint gleam on the sea, but there is black and black under my feet like an abyss.

And within one meter of Li Tian's body, all the seawater is completely separated by the aperture. This feeling is like the underwater world in the ocean park, separated by a layer of transparent glass.

"call!"

Li Tian took a few deep breaths in a row, and then confirmed that the transparent aperture formed by the water droplets can breathe freely, Li Tian immediately controlled his body to move under the sea.

This is a strange feeling, a feeling completely different from that of walking on land, and the aperture released by this water-repelling bead in the deep sea constantly attracts small fish to swim here, but unfortunately these small fish still Without seeing Li Tian clearly, he was torn into pieces by a foot-long mourning fish hiding in the darkness and swallowed.

And this lost fish wanted to attack Li Tian, but it slammed on the transparent aperture several times in a row.

Li Tian turned the "Red Zhan" out at once, and controlled the "Red Zhan" to fly out of the aperture with his mind, and easily beheaded the lost fish.

Digging the mind of the lost fish, this lost fish has only a pea-sized pale yellow crystal, and it seems that it is at best the level of a second-level monster.

After "Red Slash" entered the sea, the blade began to tremble slightly, and the "Red Slash" blade spirit showed a sense of fear.

"Master Li Tian, I Hong Zhan already recognizes you as the master. I will definitely not do anything to betray my master, but why did the master send me to this ocean? Is it that Master Li Tian does not want me like my original master? Am I? Do you want to seal me in this sea?" The "Red Zhan" knife spirit said to Li Tian.

Li Tian was startled, then relieved.

This "Red Slash" was obtained from the deep sea by the master of Yang Shen when he was in another world. At that time, "Red Slash" was exiled to another world by his previous master.

"Don't worry, you Hong Zhan and Xiao Yacha have now recognized me as their master, and I will not abandon you!" Li Tian said.

The sword spirit of "Red Slash" then became relaxed, and with Li Tian's mind control, he continued to kill the rushing lost fish.

With the assistance of "Red Zhan", Li Tian could move towards his goal at full speed.

What Li Tian did not expect was that this water-repelling bead could not only separate Li Tian's body from the sea, but also Li Tian moved extremely fast in the sea, far surpassing the speed of ordinary fish.

Soon, Li Tian caught up with the red light.

After Li Tian caught up, the red light continued to swim to the depths of the seabed.

At this moment, Li Tian didn't know how many meters he had walked towards the bottom of the sea. Anyway, when Li Tian looked up, he could no longer see the light on the sea.

But at this time, the red light continued to walk towards the bottom of the sea, without any intention to stop, Li Tian could only continue to follow.

But as we walked downwards, the pressure on the bottom of the sea became more and more intense. At this time, there were almost no bereaved fishes appearing outside the aperture, and most of those fishes were flat.

As the pressure continued to increase, Li Tian felt that the aperture around his body seemed to be under such pressure. It had gradually shrunk from more than one meter around the body to more than 80 cm. Even Li Tian could feel that with this With this increase in pressure, Li Tian's breathing slightly changed.

After walking for nearly a thousand meters, Li Tian finally reached the bottom of the sea.

The red light finally appeared in front of Li Tian. The red light seemed to be waiting for Li Tian deliberately. After seeing Li Tian, he did not continue to move forward.

Sure enough, as Void Yasha expected, the red light was only the size of a palm. From the appearance it was really similar to Xiaoyasha. The only difference was that the red light seemed to be smeared with a layer of red liquid.

"Void, you really got it right, this red light is really Xiaoyasha!" Li Tian said.

It can be seen that the red Yaksha is a female Yaksha like the Dixing Yaksha.

When Void Yasha saw the dominatrix, an expression of excitement appeared on his face, and tears began to fall involuntarily in his eyes.

"I didn't expect that there are other Yashas in this earth world. This... is really great!" Void Yasha said excitedly.

Empty Yasha jumped off Li Tian's body, and almost choked to death by the sea as soon as he drilled out of the aperture of Li Tian's body, and swam back quickly.

Seeing Void Yasha's embarrassed look, a smile appeared on the red Yaksha's face and said, "I have been looking for our kind. I have searched the entire ocean for thousands of years, but I have not found our kind. . Hundreds of years ago, I had given up on searching and let myself hide in this underwater world. But half a day ago, I suddenly felt a strange feeling, so I appeared near your ship. , But... I didn't expect to really let me find you!"

Void Yasha brought the Earth Xing Yasha out of the space and said, "You should be Hai Yasha, right?"

Hearing Void Yasha call out his name, Hai Yacha knelt on one knee, with a steel fork in his hand on the ground of the seabed, and said with his underground head: "If you return to the young master of Void, I am Hai Yacha, a family of Yasha. The most humble existence in the world, please also ask Young Master Void to allow me to return to the Yasha clan, and Hai Yacha will serve the Young Master Void for life!"

Chapter 3854: Ancient Undersea City (1)

The Yasha family, the highest status is the Yasha Eight Gods. .

Among the little Yashas under the Yasha Eight Gods, the highest status is naturally Young Master Void Yasha, followed by Earth Xing Yasha and Feitian Yasha. As for Hai Yasha, its status in the Yasha clan is relatively humble.

Thousands of years ago, after the catastrophe suffered by the Yasha clan, the entire clan fell, and the Yasha clan fled everywhere. For various reasons, these four little Yashas fell into the earth world.

Of course, Void Yasha never told Li Tian about these situations, so Li Tian didn't understand.

But Li Tian still remembers the words the three Xiaoyachas said to him when they recognized the Lord.

"Hai Yasha, in the name of the Void Young Master of the Yasha Clan, I allow you to return to the Yasha Clan! From now on, you will shoulder the responsibility of reviving the Yasha Clan and fight side by side with the Young Master and I!" Void Yasha said solemnly.

There was an expression of excitement that could not be concealed on Hai Yasha's face immediately, and he said to Void Yasha: "This is the glory of Hai Yasha!"

The return of Sea Yaksha seems to be a matter of course for Void Yaksha. It does not require so solemn oaths and complicated etiquette. The ceremony will be completed in a moment, and Li Tian's mind can feel the sea through Void Yasha. The existence of Yasha.

Void Yasha sat on Li Tian's shoulders, pointed at Li Tian and then said to Hai Yasha: "This is the owner of our three Xiaoyachas, named Li Tian, who is one of the strongest figures in this earth world. Of course, Li Tian The master is still a little worse than my Void Young Master, but from now on, Master Li Tian will be your master!"

Na Hai Yasha again greeted Li Tian with Yasha's etiquette.

Di Xing Yasha saw Hai Yasha, but with a trace of alertness on his face, he asked, "I don't know what is going on when Hai Yasha brought us here? Shouldn't it just want to recognize our ancestors?"

Hai Yasha lowered his head slightly, and said to Dixing Yasha, "This should be Master Dixing Yasha!"

Called an adult by Hai Yasha, Dixing Yasha involuntarily smiled on his face, and couldn't help but nodded slightly to express his satisfaction.

When Hai Yasha saw Dixing Yasha's expression, he continued, "If you return to your lord, after feeling the presence of the same clan, I really wanted to recognize the ancestor and return to the ancestor, but Hai Yasha was a thousand years ago. The ancient city under the sea, which is restricted to freedom and trapped in this sea, is responsible for protecting the safety of the ancient city. You can't leave the ancient city for too long, so you will be brought here. I hope that the adults will understand."

"Limiting freedom? In this sea, is there anyone who can limit your Haiyasha's freedom?" Void Yasha said in surprise.

For the Yasha clan, birth has a certain kind of magical powers, just like the earth-moving art of the earth-moving Yaksha, the flying art of the flying Yak-sha, and the traversing of the void Yaksha through the void, and the sea yasha is like a fish in the sea. Can you not surprise Void Yasha.

"Forget about where I brought you three little Yashas? It seems that you are not restricted from being free!" Li Tian said to Void Yasha with his heart.

Void Yasha involuntarily showed an awkward expression on his face, coughing repeatedly to cover up his embarrassment.

Think about it too, these three little Yashas are so supernatural, but they are trapped in the underground palace of Tashan Temple and can't get out, so it is not surprising that Haiyacha is trapped in this ancient underwater city.

Hai Yacha said: "Returning to a few adults, when I woke up a thousand years ago, I found that I was already in this ancient underwater city. There seems to be a powerful and mysterious power in this ancient underwater city. Every time I leave the ancient city under the sea, I can't leave for too long, otherwise I will feel like it's hard to breathe. Once I enter the ancient city under the sea, this feeling will be weakened."

"There is still such a thing. What you said just aroused my curiosity. Let us take a look!" Li Tian said.

Subsequently, Li Tian, Xukong Yasha, and Dixing Yasha continued to walk on the seabed under the leadership of Hai Yacha.

Whether it is Li Tian or Hai Yacha, the speed of walking in the sea is extremely fast, and it has been estimated that Li Tian's speed in this ocean has surpassed the speed of warships.

Of course, this is not because Li Tian has such a fast speed, but all the credit for avoiding water drops. With the water-repelling bead, Li Tian is like a fish in the ocean, and his speed can be maximized.

But even so, Li Tian followed Hai Yacha for almost an hour.

If according to Li Tian's estimation, at this time, Li Tian and the three small Yashas might have left the continental seabed at this time and have entered the deep ocean.

The underwater world was completely dark, and from time to time, several phosphorescent fish and shrimps appeared in Li Tian's sight.

For ordinary humans, this underwater world is completely and even more a forbidden zone for humans, even if it is explored by machines, it may be difficult to explore this depth.

Especially the pitch black in the ocean is completely different from the pitch black on the surface of the earth, giving people this feeling of isolation.

Except for the little fish and insects that glow, Li Tian even felt that time had stopped.

Fortunately, Li Tian has enough cultivation base, even in this pitch darkness, he can see the scenery in the nearby sea completely, and Li Tian can also talk to a few Xiaoyachas from time to time to make Li Tian forget This feeling.

Hai Yacha is like a lantern of Li Tian, showing Li Tian the way in front.

As time went by, Hai Yasha's breathing became difficult. In the bottom of the sea, Li Tian could hear the whistling sound, and several blisters would float up Haiyasha's head from time to time.

"Hai Yasha, are you okay?" Void Yasha asked.

Hai Yecha shook his head and said, "It's okay, I'm going to the ancient city under the sea soon, and I will be fine when I enter the ancient city!"

Li Tian and Xukong Yasha did not speak any more, but moved forward at full speed.

After walking forward for less than half an hour, the seabed in front of Li Tian's eyes suddenly disappeared, as if walking on flat ground, and a cliff suddenly appeared in front of him.

This is the trench.

This trench is the deepest place under the sea. According to the scientific records of the earth world, the water depth of an ordinary trench is probably more than 5,000 meters, and the deepest trench is even more than 10,000 meters.

Standing on the edge and looking down, the entire trench was pitch black, and nothing was visible at all.

"Here, enter here, here is the ancient city under the sea!" Hai Yacha said.

Chapter 3855: Ancient Undersea City (2)

Haiyacha jumped into the trench, then stretched out, like a fish, continuously downstream. .,

In the sea, the more you go down, the greater the pressure. At this time, because of the pressure, the resistance of the sea becomes very large, so it is already difficult to go downstream.

In this seawater, Li Tian could not use instant movement, but Li Tian could control the water-repelling bead with his mind. At this time, the layer of aperture formed by the water-repelling bead outside of Li Tian's body could be compressed by Li Tian's mind. It becomes a shuttle shape, which can effectively reduce the resistance of sea water.

Swim continuously to the depths of the trench. After another minute, Li Tian finally saw the bottom of the trench.

There are ordinary rocks on both sides of this trench, which are bare, without any traces of living creatures. At the bottom of this trench, there is another scene. There are luxuriant plants in the sea, and from time to time there will be strange fishes from this seaweed. A brain came out of it, and after seeing Haiyacha and Li Tian, he immediately hid among the seaweed.

In the depths of the ocean floor, although Li Tian's vision is limited, Li Tian can see clearly for a dozen meters nearby. At the bottom of this trench, besides the seaweed and small fish, there is no ancient city at all.

"There are ancient submarine cities here and there?"

"Go back to Master Li Tian, don't worry, you will be there right away. The ancient city under the sea is under this trench, but we still need to go a little further!" Hai Yacha said.

If there is an ancient city submerged in the sea due to crustal movement, Li Tian still believes, but if the ancient city is built under the ground of a trench, then Li Tian has to doubt it.

But Li Tian did not speak, but continued to follow Hai Yacha.

When Haiyasha arrived in the trench, his breathing seemed to be smoother. In the seaweed, it was like a fish. His body continued to walk through the seaweed and continue along the trench.

After a few hundred steps, a huge boulder suddenly appeared in front of Li Tian and Haiyacha. This rock is about ten meters high, but this boulder looks like a piece from a distance in the trench. Like pebbles.

I don't know if this boulder is due to ocean currents, sea water invasion, or other reasons. There are more than a dozen caves on it.

"Here, here is the entrance of the ancient city under the sea! This ancient city under the sea has existed for thousands of years, but it has not been discovered by humans, precisely because the entrance is hidden. Okay, come with me, don't be too surprised!" Haiyacha Said with a smug expression on his face.

Speaking of Haiyasha, he got into the two-meter-large cave, and Li Tian could only follow it.

As soon as he arrived at the entrance of the cave, Li Tian felt a powerful wave of energy. This energy was like the sea or the sky. It gave people a sense of boundlessness and made people feel the energy in their hearts. fear.

"What a powerful energy! If anyone can master this energy, then those twelve-level zombies are not like killing them in seconds? Even the three corpses can be easily defeated!" Li Tian said in his heart. Talk to yourself.

Going forward, the entrance of the cave suddenly became inclined downward.

At this moment, a bright light suddenly appeared in front of the cave. It is like the rays of the sun, shining into the sea water, illuminating the sea water in the cave colorfully.

This sleeplessness is also amazing, Li Tian was already a little surprised.

But at this moment, Na Haiyasha plunged into the colorful water but suddenly disappeared.

Li Tian followed closely. The next second, Li Tian's eyes lit up, and when he opened his eyes, Li Tian found that the light layer formed by his water-repelling beads had disappeared, and Li Tian was standing there. The top of a tall minaret.

"This...this...is this an ancient city under the sea?" Li Tian swallowed and said in surprise.

In front of us, there is a city covering an area of more than tens of square kilometers. This city is entirely made of stones. The tall tower at Li Tian's feet should be the center of the city, from the tower to the surroundings. Looking at it, the streets extending in all directions are horizontal and vertical, and on both sides of these streets are buildings entirely made of boulders.

The tower at the foot of Li Tian is more than 300 meters high, and the height of the buildings surrounding the tower is about 100 meters.

Such a tall building, even in the current earth world, is quite difficult to construct. After all, various construction factors need to be considered. However, these buildings are entirely made of boulders, and there is no visible appearance of reinforced concrete. The building is still strong after a thousand years without any signs of dilapidation.

From this one hundred-meter building, I continue to look at it from a distance. It's about two kilometers away. Wherever the building suddenly drops, the height is basically maintained at more than 50 meters. It is five or six kilometers further forward. The buildings are lowered again.

The entire ancient city under the sea is like steps. The more you walk around, the lower the buildings over there.

Li Tian looked up, and above this ancient city under the sea was a sky like a pot lid, and there were many white clouds floating above this sky.

Of course, there is no sun here, and this ancient city under the sea can only have this kind of light because of a basketball-sized bead on the top of the high tower.

This bead doesn't know what material it is made of, and it keeps emitting light, which is somewhat similar to sunlight.

"Is this ancient city under the sea inhabited by humans?" Li Tian asked Hai Yacha.

Hai Yacha has fallen on Li Tian's hand, looking at Li Tian, shook his head slightly, and said: "Thousands of years ago, when I appeared here, there were no human beings. It seems that this ancient city under the sea has been abandoned for a long time. It seems. But this ancient city under the sea has not changed in the past thousand years, almost the same as mine before."

"Hai Yacha, in this ancient city under the sea, I can feel a powerful force fluctuation, and this powerful force seems to make me feel that my own strength has improved, how can you say that you are Trapped in this ancient city under the sea?" Li Tian asked.

Hai Yecha nodded and said, "Yes, when you enter this ancient city under the sea, you can feel that your strength has been improved. But you look up at the point where the spire and the sky are connected!"

Li Tian looked up and saw a circular hole about one meter in diameter where the spire of the tower connected to the sky. This hole was unusually conspicuous, and it looked like a hole in the sky.

"Master Li Tian, Young Master Void, this cave is the connection between the ancient undersea city and the sea. As long as I get out of this cave, the power in my body will quickly drain. The farther away from this ancient undersea city, this The more serious this loss, the longer it takes to leave the ancient city, the more serious this loss, and even breathing difficulties in the end. Once back in this ancient city again, the strength of the body will instantly recover, and even feel better It was stronger before," said Yasha.

Chapter 3856: Ancient Undersea City (3)

Hai Yacha suddenly realized what was wrong, and said to Li Tian with his mouth wide open: "Master Li Tian, will... Will you be trapped in this ancient city after entering this underwater ancient city? "

Hai Yacha's words shocked Li Tian. ,

"Probably not. At the beginning, in the underground palace of Tashan Temple, Young Master Void waited for a few Yashas to be trapped in the underground palace. When I brought them out, they were not bound!" Li Tian said.

But even so, Li Tian still wanted to test it.

"Wait a moment, I will test it through this cave," Li Tian said.

Then Li Tian put Young Master Void, Di Xing Yasha and Hai Yasha on the high tower, and then slammed his legs and stepped on the spire of the tower. But Li Tian's body Has directly rushed into the cave.

"Wow!"

As soon as Li Tian just got into the small hole, he immediately felt his body's strength flow away quickly.

"How could this be? Isn't Haiyacha trapped here, but is this ancient undersea city weird?" Li Tian thought in horror.

In that ancient city under the sea, Li Tian felt that the power contained in him was comparable to that of Huangfu Kunpeng. Even if he encountered a level 20 zombies, Li Tian felt that he could easily kill in seconds.

But when Li Tian came out of this ancient city under the sea, Li Tian felt that his strength was lost by less than half. At this time, even if Li Tian encounters a fifteenth or sixteenth-level zombies, Li Tian might have to struggle to fight. Up.

There is no need to experiment anymore, it seems that this ancient underwater city is really weird.

Li Tian returned to the ancient city under the sea again, and that power was restored again.

Seeing Li Tian's serious expression, Void Yasha and other Yasha also guessed that Li Tian's test might not be ideal.

"Master Li Tian..."

"Yes, now we are also trapped in this ancient submarine city. Once we leave this ancient submarine city, the few of us cannot support it for too long, but fortunately, although this ancient submarine city is weird, it does not affect me. With Feitian Yasha's feelings, I will let Feitian Yasha tell Situ Ningbing and others about our situation, and let them go to Cat Island to wait for us first, because we must hurry up and find out the weirdness in this ancient underwater city!" Li Tian said.

The expressions on the faces of the three little Yashas at this time also looked very dignified, especially the Void Yasha and the Dixing Yasha. The two of them finally got freedom, but this kind of freedom only lasted for a few months. Disappear, how can this not make Young Master Void and Di Xing Yasha unhappy.

"Master Li Tian, it is better for us to destroy this ancient city under the sea. This power will dissipate by then!" said Young Master Void.

"Yes, let me use the quicksand storm again to destroy this ancient city under the sea!" Di Xing Yasha echoed the words of Young Master Void.

Haiyasha shook his head slightly, and said, "Although I don't want to hit you, I still have to remind you that what you said may not work at all. This ancient underwater city has existed for thousands of years without being destroyed, and it is even like a new city. Generally, this is naturally blessed by mysterious power."

"Hmph, that's the strength you haven't seen my Di Xing Yasha. In this earth time, my Di Xing Yasha has already destroyed a city, let you see the power of my Di Xing Yasha!"

Li Tian had no time to stop him, and Dixing Yasha leaped and suddenly jumped off the three-hundred-meter high tower.

According to Li Tian and Void Yasha's idea, this earth travel yasha should dig directly into the ground, and then a quicksand storm would completely destroy this ancient city under the sea.

But after the Di Xing Yasha fell on the ground, it didn't get into the ground, but fell to the ground.

"Uuuuuu...Master Li Tian, this...the ground of this ancient city is weird, I can't get into it! Oh, I fell to death, my face is almost broken!" Dixing Yasha carefully Li Tian communicated.

Li Tian shook his head helplessly. It seemed that this method was not working.

Since this method does not work, then Li Tian needs to think about other tricks. Li Tian took two small Yashas into the tower, and through a straight staircase, when Li Tian was about to vomit. , And then came to the ground.

On the ground, Li Tian discovered that the streets of this ancient city under the sea were all made of white boulders over four meters square, and in the gap between the boulder and the boulder, there was also a mysterious wave of power.

"Strange! Is this ancient city under the sea a formation of mysterious power?" Li Tian asked suspiciously.

Immediately, Li Tian drew "Red Zhan" out, and used "Red Zhan" to stab the ground forcefully.

"puff!"

It was already "red cut" as if it was cutting tofu, and the entire blade was directly pierced in. If Li Tian's hand was not holding the handle of the knife, I am afraid that the handle of the knife would sink into the ground.

"It shouldn't. Although the ground is hard, Hong Zhan can easily open it again!" Li Tian pulled out "Hong Zhan".

"Master Li Tian, look...this...this rock will automatically heal!" Young Master Void said in surprise.

Li Tian took a closer look, and the rock that had been pierced by "Red Slash" was healing at a speed visible to the naked eye. A few seconds later, the rock was completely restored to its original shape, and it was not obvious that it had been pierced.

"Hai Yacha, you should be most familiar with this ancient undersea city. Have you found any special place in this ancient undersea city?" Li Tian asked.

Li Tian has determined that this ancient undersea city is weird.

If you want to get out of this ancient city under the sea, as long as you crack this mysterious power, then Li Tian and these Yashas will no longer be bound by this power.

In order to decipher this mysterious power, Li Tian first needs to confirm where this power comes from, so he asked this.

Haiyasha shook his head slightly, and said, "I have never found any special place. The most special one is probably this tall tower. This tall tower is the only tower-shaped building in the entire underwater ancient city."

Li Tian looked at the tower again.

"Could it be that the basketball-sized bead on the top of the tower is causing trouble? Do you want to destroy this bead?" Li Tian kept thinking in his heart.

And at this moment, the nine-color corpse crystal on Li Tian's chest suddenly turned, and countless transparent silk threads were continuously released from the nine-color corpse crystal, and after these transparent silk threads came out of Li Tian's chest, they immediately flew in all directions. Immediately afterwards, Hong Zhan in Li Tian's hand also trembled suddenly.

Li Tian was shocked: "Could it be that there are still zombies in this ancient city under the sea?"

Chapter 3857: Ethereal Race

"Impossible! I haven't encountered any creatures in this ancient underwater city for thousands of years! Absolutely impossible!" Haiyasha said firmly. ,

This Haiyacha is very confident, but her confidence is well-founded.

Haiyasha has existed in this ancient undersea city for thousands of years. During these thousand years, Haiyasha has searched for every building in this ancient undersea city. It can be said that he knows this ancient undersea city well, if this seabed If there are other funerals in the ancient city, how could Haiyacha not know?

Compared with Hai Yacha, Xukong Yacha believed in Li Tian's judgment more.

Although Void Yasha couldn't see the transparent silk thread released by Li Tian's nine-color corpse crystal, nor could he feel the trembling of "Red Slash" in Li Tian's hand, but since Li Tian said so, it must be Li Tian. Found.

"Master Li Tian, did you find anything?"

"Yes, just now, the red sword in my hand trembled abruptly, and the nine-color corpse crystal on my chest speeded up its rotation, releasing this transparent thread continuously. If I didn't guess wrong, I'm afraid this seabed There are other creatures in the world. This creature will exist in a form invisible to the naked eye, just like air." Li Tian said.

When Li Tian said so, the three little Yashas were immediately relieved.

These three little guys have great abilities and extraordinary knowledge. If such a thing really exists in this world, they are completely acceptable.

"Master Li Tian, do you say that the mysterious power of this ancient underwater city is doing ghosts? If we can connect with this creature, we can solve the mystery of this ancient underwater city. Go out in the middle!" Dixing Yasha said.

Li Tian nodded.

However, at this moment, the nine-color corpse crystal on Li Tian's chest released so many transparent silk threads that seemed to have been hurt, and suddenly all of them retracted back.

But the "Red Zhan" in Li Tian's hand was even more manic. The sword spirit in that "Red Zhan" seemed to break through the "Red Zhan" and run out at any time.

be quiet!

This ancient city under the sea was already quiet, but when Li Tian and the three little Yachas were silent, the entire ancient city seemed even quieter.

Li Tian held the "Red Zhan" in his hand and turned slowly, staring at the street in front of him carefully.

The whole street was empty except for Li Tian and the three small Yaksa.

Li Tian couldn't see anything, but Li Tian could feel as if something was coming from a distance.

"Puff!"

"Puff!"

Li Tian could hear his heartbeat speeding up.

No, this is not just the sound of a heartbeat. Li Tian seemed to hear the sound of people walking on the street in the distance.

However, Li Tian saw nothing.

"What the **** is it? It's not a ghost?" Li Tian clenched "Hong Zhan" firmly again, and kept wondering in his heart.

And at this moment, a gust of wind suddenly blew across the street.

Yes, it can only be described by Yin Feng.

Because when the wind blew, Li Tian could still feel a bit of coolness at first, but soon, the coldness seemed to deepen into the bone marrow, Li Tian involuntarily shivered, as if his whole person was in an instant. Like falling into an ice cave.

"Li...Master Li Tian, what's the matter with you? Why are you trembling suddenly and trembling all over?" Xukong Yasha asked anxiously.

"You... don't you feel cold? It's as if we are surrounded by the cold water?" Li Tian looked at the three Xiaoyasha questioningly, but the three Xiaoyasha looked at each other a few times, not at all. Know what Li Tian said.

"It's no wonder that Haiyacha will not know that there are other creatures in this ancient city under the sea, and Haiyacha can't feel the approach of this kind of creature at all!" Li Tian thought in his heart.

"Om!"

At this moment, "Hong Zhan" trembled abruptly again, and the "Red Zhan" blade spirit rushed out of "Red Zhan".

"Isn't the Xiao Xiao of the Xu Ling clan retreat quickly?" The sword spirit shouted at the same time, both sad and happy.

As soon as this blade spirit appeared, Li Tian immediately felt that the cold feeling just now had completely disappeared, as if a gust of wind had swept away all those cold things, and he immediately felt comfortable.

"Xu Ling Clan? What kind of race is this? Why haven't I seen anything?" Li Tian asked Dao Ling suspiciously.

The sword spirit said, "Master Li Tian, this Ethereal Race is a race of the Netherworld. All Ethereal Souls cannot be seen with the naked eye, and can only be seen by special methods. The Ethereal Race does not have much battle Ability is only the weakest race in the Nether Realm, and the reason why their race can survive is entirely because of their ghost-like existence. However, this Void Spirit Race is the most powerful craftsman in the Nether Realm. The gate of the forbidden zone is the handwriting of the virtual spirit race! If I am not mistaken, this ancient underwater city is also made by the virtual spirit race."

Hearing Dao Ling's explanation in this way, some things in Li Tian's memory gradually connected together.

This ancient city under the sea, the gate of the restricted area on the top of the Tianshan Mountains, these previously inexplicable existences have now been reasonably explained.

Since this Void Spirit Race does not have much combat power, it seems that they are also very afraid of "Red Slash". Li Tian is already determined in his heart, and said to the sword spirit: "What kind of existence is the Netherworld? It can be born. A great race?"

"Master Li Tian, this Netherworld is thousands of times wider than the earth world!"

"In that Netherworld, there are hundreds of races and thousands of spheres of influence. As long as the individual power reaches the rank of the nobleman, it can be used to establish a huge personal sphere of influence equivalent to the country of the earth world. The master is called the lord, my previous master is such a powerful existence, but the lord is not the real master of the nether world, the real master of the nether world is the domain master."

"The entire Netherworld is jointly controlled by eighteen domain masters, also known as the eighteen domain masters of the Netherworld. As for whether there are other powerful existences above the domain master, I don't know this!"

Dao Ling continued: "Hong Zhan, Three Corpses, and the Void Spirit Race in this ancient underwater city are all from the Nether Realm!"

"How is the strength of the Three Corpses in the Netherworld? How different is it from your original master?" Li Tian asked.

When the sword spirit heard Li Tian's question, the two faces involuntarily showed disdainful expressions and said: "When these three corpses were in the Nether Realm, their strength had not yet reached the level of the venerable. They were naturally very different from my master. Far away. My master was the Venerable closest to the domain master at that time."

"If it wasn't for...or...my master would not fall, nor would I be exiled to another world, nor would the three corpses be imprisoned in the gate of the forbidden zone!"

Chapter 3858: Happy eye

It seems that all this is destined.

Before the end of the world, Li Tian stood on the highest peak of this world, then opened the door to the restricted area, went to another world, and after experiencing life and death, brought "Red Zhan" back to the earth.

However, this earth is not the end point of "Red Zhan", and Li Tian traveled to another world only to bring "Red Zhan" back.

Now, Li Tian came to the ancient city under the sea again, and met the Ethereal family in the ancient city under the sea.

All this seems to be pointing Li Tian's future path to the Netherworld!

"Netherworld! It should be the place where Elder Sixiang went! I don't know how such a powerful existence of Elder Sixiang went to that place. I really want to know how strong the venerable is in that place! I really want to know. How powerful is the domain owner in that place! And is there any other powerful existence above the domain owner?" Li Tian thought in his heart.

However, Li Tian can now consider the issue of how to get out of here first, then the issue of how to gain a foothold in Dongying Island, and then the elimination of the Three Corpses!

"Blade Spirit, tell me how can I see those Void Spirit Races? Since I have come to this ancient city under the sea, Li Tian cannot return empty-handed. This Void Spirit Race has such a powerful creative ability, if it is not used by me, That is really a pity." Li Tian asked.

Dao Ling hesitated, and said: "It is not difficult for Li Tian to see this Void Spirit Race in a decent way, but I need to be happy! As long as I open my mind, I can see these phantoms of the Void Spirit Race!"

"Mind? What is this?" Li Tian asked.

Dao Ling pointed his finger at Li Tian's chest and said, "Master Li Tian, you obtained these nine-color corpse crystals by chance, and these nine-color corpse crystals are the best material for happy purposes. Master Li Tian only needs to use this. The nine-color corpse crystals are controlled and in the atrium, so that the transparent threads released by all the nine-color corpse crystals merge with Master Li Tian's veins, then Master Li Tian can be happy! This opens the mind and not only can see The Ethereal Race is so simple, but it can bring other benefits to those who open their minds!"

"However, this opening of the mind also has this certain risk. If the opening fails, it is possible... It is possible that Master Li Tian's nine-color corpse crystal will be destroyed! Master Li Tian's strength will also be damaged!"

Li Tian hesitated a little!

The nine-color corpse crystal is destroyed, and the strength is damaged. This is the second thing. What really cares about Li Tian is the deep-rooted concept of the earth world.

In the traditional concept of the earth world, the human body is the most fragile existence, and the heart and brain are the fragile parts of fragility. Once this heart is destroyed, then nine out of ten lives will be lost.

But the hesitation in Li Tian's mind only lasted for a moment.

"Wealth and wealth are in danger. Now I have experienced too many things that have completely surpassed the scope of ordinary human understanding. What if I open my mind again?" Li Tian thought in his heart.

Thinking of this, Li Tian directly let go of "Red Zhan", letting "Hong Zhan" whirl around his body, and Li Tian sat on the ground.

"Master Li Tian, are you sure you want to open this mind? In fact, even if Master Li Tian is unhappy, my sword spirit can help Master Li Tian control those imaginary spirit races! Guaranteed to let them tell the secret of this ancient underwater city, Let us leave here!" Dao Ling said to Li Tian.

Li Tian shook his head slowly and said, "No need! I want to be happy!"

Seeing Li Tian's steadfast eyes, the sword spirit no longer said, but told Li Tian some points of happy eyes.

Li Tian closed his eyes and constantly felt the nine-color corpse crystal on his chest and the whirlpool formed by the nine-color corpse crystal with his mind.

"Huh!"

Li Tian let out a long sigh, and then the vortex controlling the nine-color corpse crystal began to spin clockwise.

One lap, two laps...

At the beginning, the speed of the nine-color corpse crystal vortex was extremely slow, and it took almost a minute to spin around.

But when the vortex of the nine-color corpse crystal rotates more than ten times, the speed of the nine-color corpse crystal suddenly increases.

Eleven laps...15 laps...

These nine-color corpse crystals are linked to Li Tian's body skin, and when the whirlpool is spinning, it seems to be driving Li Tian's skin to rotate. As the whirlpool spins faster and faster, Li Tian The sturdy pectoral muscles that bulged in the chest suddenly sank down.

If anyone can see through Li Tian's shirt and see Li Tian's chest at this time, he will find that the skin at the heart of Li Tian's chest has turned into a funnel shape.

The swirling speed of the vortex was fast, and the few broken corpse crystal particles on the vortex were also rapidly rotating with the rotation of the vortex.

The swirling speed of this vortex has become faster and faster, and Li Tian no longer needs to deliberately control it.

At this time, the speed of the nine-color corpse crystal vortex spinning in a circle did not take a second. At this powerful rotation speed, Li Tian could feel the nine-color corpse crystal shaking slightly, and there were a few small pieces. The shaking of the corpse crystal particles is even worse.

"Boom!"

"Boom!"

Suddenly, there were several noises from Li Tian's chest, and all the small corpse crystal particles were exploded.

There was a hole in the chest of Li Tian's jacket immediately.

Through this hole, look at the skin of Li Tian's chest again, but you can see that the skin of this chest is not damaged at all, and the speed of the nine-color vortex is spinning faster.

The broken corpse crystal particles exploded, and the surging corpse original power immediately began to drill into Li Tian's chest along the direction of the whirlpool.

At this time, the whirlpool turned the skin on Li Tian's chest into an awl shape.

"Ok!"

Li Tian only felt a sharp pain in his chest, and he involuntarily let out a low muffled sound.

The whirlpool had already drilled a blood hole in Li Tian's chest at this time. The blood kept falling out with the whirlpool's rotation. The broken clothes on Li Tian's chest were instantly infested with blood red, and the nine colors The corpse crystal has already begun to move gradually into the blood hole.

Li Tian felt the feeling of pain getting stronger and stronger. Even for a master like Li Tian, Li Tian felt the painful scalp numb, and he really wished to pull out this layer of skin on his body immediately.

Although the three little Yashas could not feel the existence of the Void Spirit Race, they, like "Red Slash", consciously assumed the responsibility of protecting Li Tian, each little Yasha holding a steel fork or a steel knife and carefully looking around.

At this moment, Li Tian suddenly heard a loud noise.

Loud like a thunder.

"what!"

With a roar of anger, Li Tian stood up abruptly, opened his double grasps, and forcefully tore the coat on his body completely. At this time, the nine-color corpse crystal had completely penetrated into Li Tian's heart, with countless transparent silk threads. It rushed out, rushing to all the veins in Li Tian's body.

"puff!"

"puff!"

It continued to spray from the wound on Li Tian's chest, like a small fountain.

However, at this moment Li Tian's mouth showed a smile!

"Mind, so this is my mind! It's so cool!"

Chapter 3859: Break again

In Li Tian's eyes, the buildings in this ancient underwater city are all white.

White houses, white towers, white streets.

And in the air of this ancient city under the sea, some white matter was still loomingly floating.

This substance is like smoke and fog, and it feels light and light.

However, Li Tian could feel the existence of an energy in this substance, and these energies and the energy of the entire submarine ancient city reflected each other and were completely integrated.

"Huh!"

"Huh!"

Following Li Tian's breathing, Li Tian discovered that a very small amount of these substances would enter Li Tian's body, and then he would be vomited out by Li Tian through his breath.

"Are these substances the so-called essence of heaven and earth? If it is so, I can see this kind of substance now. If it is used for cultivation, will it be twice the result with half the effort?" Li Tian thought in his heart.

"Cool? Master Li Tian, what did you see?" Void Yasha and Dixing Yasha interrupted Li Tian's thoughts and asked curiously.

What do you see?

Li Tian is really hard to say.

In addition to these white energy substances, Li Tian saw more.

Li Tian raised his head and looked into the distance. At the end of this white street, Li Tian could see a dozen or so black shadows.

Those black shadows are like shadows formed by light shining on the object.

But these shadows are definitely not ordinary people, because these shadows are completely three-dimensional and have vitality.

"Void Spirit Race."

Li Tian saw the virtual spirit tribes gather in twos and threes, whispering, and occasionally raised his arm to point in Li Tian's direction.

"There are houses!"

"House?" These Liandao Lingdao felt strange.

There are buildings everywhere in this ancient city under the sea, even if you are unhappy, you should be able to see it as long as you are not blind.

"It's not ordinary houses, these houses seem to have life." Li Tian said.

These, the three Xiaoyasha and Dao Ling were shocked.

The house has life, how is this possible?

If it is said that the flowers, plants and trees have life, they can accept it, but if it is said that this house has life, is that too ridiculous?

But in Li Tian's eyes, Li Tian can see that energy is slowly flowing on the ground of the houses, towers, and streets, and with the flow of energy, all buildings are breathing according to a rhythm.

And those white energy matter floating in the air turned out to be spit out by these buildings.

This feeling was really strange, but Li Tian couldn't explain it to the three Xiaoyasha and Dao Ling.

Seeing that those virtual spirits didn't mean to walk towards Li Tian for the time being, Li Tian sat directly on the ground.

Li Tian wanted to start cultivating Qingyun here, and wanted to test how these white energy substances would help him improve his ability if absorbed by him.

Seeing Li Tian sitting down, the three Xiaoyasha and Dao Ling were not talking nonsense.

Li Tian slowly closed his eyes, and immediately plunged into darkness, but the white matter became more obvious.

This is the effect of mind.

Li Tian began to practice according to Qingyun's method.

The first is the first layer of Qingyun. Li Tian feels that when he practices this Qingyun technique, Li Tian can easily absorb the white energy matter. These white energy matter surround Li Tian like clouds and mist. Around the body.

Breathe!

Breathe!

Through constant breathing, Li Tian kept spitting out these white substances into his body, but these white substances kept spitting out with Li Tian's breathing. It seemed as if these white substances were not taken by Li at all. It's the same as the sky absorbs it.

"How is it possible? Is it true that I have practiced so many vomiting methods? Or is it impossible for me to absorb this kind of energy substance? Am I just happy for a while?" Li Tian's heart Thinking about it.

Although there was no effect, Li Tian continued to insist.

It feels like Li Tian is going further and further on a wrong road.

But Li Tian did not give up.

Li Tian kept thinking in his heart: "Is my method wrong? Is it impossible for this white energy substance to be absorbed at all?"

Li Tian has already begun to doubt his own judgment.

But at this moment, Li Tian's mind suddenly trembled, and then Li Tian seemed to be in a frenzy, and his breathing suddenly began to change rapidly.

But Li Tian himself did not know all of this.

"Master Li Tian!"

"Master Li Tian!"

The three little Yashas and the sword spirits were crying out for Li Tian urgently, but Li Tian didn't know it at all, and could not even hear these little guys calling him.

Li Tian's complexion had begun to change slightly. With this change, Li Tian's breathing became more rapid, as if he was suffering from asthma.

"What should I do? Master Li Tian seems to have gone crazy?" Hai Yacha looked at Void Yacha helplessly.

"Impossible! Master Li Tian has already cultivated Qingyun to the realm of proficiency, so how can he get into a demon? Don't talk nonsense!" Dixing Yasha reprimanded Hai Yacha.

Since they weren't crazy but they called Li Tian but didn't react at all.

Both Di Xing and Hai Yacha looked at Young Master Void, hoping that Young Master Void could give a solution at this time.

But Void Yasha didn't know what to do at this time, and was anxious.

"Or! Would you two use the steel fork in your hands to stab Master Li Tian, so that Master Li Tian can get rid of this state?" Xukong Yasha suggested.

"it is good!"

That Dixing Yacha and Hai Yacha immediately stabbed Li Tian's calf with a small weapon like a knife and fork in their hands.

"boom!"

"boom!"

However, the steel forks that Dixing Yacha and Hai Yacha stabbed Li Tian directly broke into two halves the moment they touched Li Tian's body.

How did they know that at this moment, Li Tian's body was completely surrounded by those white energy substances, and these energy substances continued to flock to Li Tian, but an invisible protective layer was formed on the surface of Li Tian's body.

Li Tian at this time can be described as invulnerable.

Naturally, Li Tian knew everything about the actions of the three Xiaoyachas, but at this time Li Tian was completely silent in this kind of practice, and he had no time to take care of the concerns of the three Xiaoyashas.

"call!"

Li Tian took a big breath, and at least one tenth of the energy substances around Li Tian's body was inhaled into his body with this deep breath of Li Tian.

Then Li Tian seemed to be holding his breath, and suddenly stopped breathing.

However, Li Tian speeded up and began to cultivate the first layer of Qingyun!

One second, two seconds, three seconds...ten seconds...twenty seconds...

Time was passing by, but Li Tian had no intention of continuing to breathe.

The three Xiaoyashas had already turned around in a hurry, and even the sadness and joy of the sword spirit showed a worried expression.

"What to do? Do you want to pry Master Li Tian's mouth open?"

Haiyacha had another bad idea.

At this time, Di Xing Yasha discovered the clue. Although Li Tian stopped breathing, he continued to spray out in Li Tian's nostrils. Although this jet was extremely weak, it was still spotted by Di Xing Yasha. Up.

"Idiot, did you see that you didn't look rough? Master Li Tian is cultivating. If I am not mistaken, Master Li Tian has already practiced to a critical juncture!" Dixing Yacha said triumphantly.

"is it?"

However, the time for Li Tian to stop breathing suddenly far exceeded the time for ordinary people to hold their breath.

One minute...Three minutes...Five minutes...

If it is an ordinary person, I am afraid that there will be no way to continue holding his breath for more than one minute, and Li Tian has been holding his breath for more than five minutes.

At this moment, Li Tian's body heard a burst of beans-like noise.

With this sound, Li Tian's body was trembling slightly.

At this time, Li Tian's whole body's skin was erected, and even his hair was erected completely.

And if you look closely, you will find that the pores on Li Tian's body are like small mouths, constantly absorbing the white matter around Li Tian's body.

However, at this moment, Li Tian opened his eyes abruptly and let out a loud scream.

Immediately afterwards, there was a loud noise in Li Tian's body.

"boom!"

A loud noise rang out from Li Tian's body, the loud noise seemed to be muffled thunder.

Looking at Li Tian again, there was an expression of excitement on Li Tian's face.

"Sure enough! Haha, I found a way to absorb this energy by accident!" Li Tian said excitedly.

It turned out that Li Tian couldn't absorb these white energy substances through breathing, spitting and nap fingering. Li Tian thought about taking a big breath, letting these white energy substances inhale into his abdomen, and then forcibly closed the seven orifices.

As a result, these white energy substances can only be forced to stay in Li Tian's body, and when Li Tian is constantly practicing Qingyun, those white energy substances are actually in Li Tian's body and Qingyun cultivation method. It resonated, and as a result, the white energy matter exploded in Li Tian's body, and then entered Li Tian's veins following Li Tian's practice.

Once the white matter entered Li Tian's body, Li Tian immediately felt that his body skin was renewed and full of strength.

At this time, Li Tian clearly felt his cultivation level improved.

Li Tian believes that now his Soulbreak Palm is definitely stronger. If he can continue to absorb and cultivate, then Li Tian's strength will be greatly improved soon.

At that time, even if there are eighteenth-level zombies in front of Li Tian, Li Tian has the confidence to slap these zombies to death!

However, at this moment, Li Tian saw the black nights of the Void Spirit Race but moved.

Chapter 3860: Female domain master

Li Tian has already felt the effects of this kind of cultivation, and naturally he will not stop. .

Closed his eyes and continued to practice.

Everything is difficult at the beginning, once Li Tian mastered this kind of cultivation skills, Li Tian's cultivation speed was obviously accelerated.

"Cracking!"

Li Tian can feel the changes brought about by that powerful force in his body, and can also feel that Li Tian's ability is constantly improving with this change.

A smug smile appeared on the corner of Li Tian's mouth.

I never expected that after entering this ancient underwater city, the problem that had plagued Li Tian for a long time would be solved.

Now, the power of Li Tian's soul-breaking palm has been improved, and by then it can go hand in hand with "Red Slash" and become Li Tian's strongest weapon!

But Li Tian's wishful thinking was empty.

Li Tian devoted himself to cultivation, and ignored those virtual spirit races, but the virtual spirit races had already surrounded them unconsciously, and for all of this, apart from the "Red Slash" sword spirit, there was some perception. Besides, the other three Xiaoyashas didn't know at all.

"Master Li Tian, those virtual spirit races have already surrounded!" Dao Ling said to Li Tian.

This "Red Slash" was once a weapon in the hands of the Venerable, and after that Venerable had the "Red Slash", it was once the most likely to reach the domain master level. Naturally, the strength of this "Red Slash" at the beginning should not be underestimated. Look, and the "Red Slash" knife spirit is nothing but the existence of the Void Spirit Race.

Li Tian slowly opened his eyes and saw dozens of black shadows in the street slowly surrounding him.

"Okay, then let me clean up your virtual spirit races first, and then continue to practice!" Li Tian said with a sneer.

As he said, Li Tian's palms slammed to the ground, and then Li Tian jumped up and rushed towards the black shadow in the street.

As soon as Li Tian moved, the black shadows were obviously a little confused. Some black shadows turned around and fled, but when they saw the other shadows, they didn't move. The black shadows that fled just ran a few steps before turning around again. When he came back, he stood tremblingly behind the other black shadows.

At this moment Li Tian thought of human beings on earth.

When encountering those powerful zombies, it was not like this.

However, Li Tian didn't stop. He made several vertical jumps, and he was less than ten steps away from these black shadows.

"Hong Zhan" Li Tian yelled and stretched out his hand, already holding "Hong Zhan" in his hand.

The "Red Zhan" shone with cold light, and Li Tian's body had already rushed forward again seven or eight steps, and he was about to reach the black shadows.

However, at this moment, those black shadows unexpectedly "puffed" and "puffed" several times, all knelt down in front of Li Tian.

"This... Your lord, please don't do it yet! Let us finish talking..."

"My lord is forgiving, we are not malicious, please forgive me!"

Li Tian was a little surprised, are these Ethereal Tribes too spineless!

"Master Li Tian, you don't know, this Ethereal Clan is the weakest race in the Nether Realm, and their skillful craftsmanship has not brought them the corresponding self-protection ability, but has become a lot of strong people competing. The reason for the plunder. In order to survive, these virtual spirit races can only depend on the strong!" Dao Ling said.

Although Dao Ling was communicating with Li Tian attentively, the black shadows unexpectedly looked at the "Red Zhan" in Li Tian's hand!

"Okay, let's talk about it, why are Haiyacha trapped in this ancient underwater city? Why do we trap us in this ancient underwater city again?" Li Tian asked.

One of the black shadows, who seemed to be the largest in shape, knelt forward and walked two steps forward, and said to Li Tian with his head underneath: "Master Hui, the Void Spirit Race is also trapped here like Haiyacha and Master! We are Wanwan Don't dare to trap a few adults here, and we don't have this strength either, Lord Red Blade Spirit in the hands of the adults should know this!"

"Om!"

After hearing these words of the Void Spirit Race, the "Hong Zhan" shook abruptly, and asked hurriedly: "You...how do you know my name?"

However, the sword spirit of "Red Slash" forgot that he was only a sword spirit. Although he can now escape from the shackles of "Red Slash" and appear in front of Li Tian, most of the time, other people can't see it at all. He can't hear him.

Li Tian was also horrified, and he repeated the question of "Red Slash".

"My lord, since this red chop is in the hands of an adult, I must know that there is a gate to the forbidden zone in the Tianshan Mountains of this earth world, and the gate of the forbidden zone, like this ancient city under the sea, comes from our Void Spirit Race Handwriting!"

The Xu Ling clan continued: "After the gate of the restricted area was built, Hong Zhan was exiled through the gate of the restricted area, and we are the people who have witnessed it! Naturally, I know the name of this red sword!"

"So you have existed in this earth world for thousands of years?" Li Tian asked.

"That's right! What we didn't expect was that after the adult asked us to repair the gate of the restricted area, he didn't even let us return to the Nether Realm. So since then, we have become an exiled clan just like Lord Hong Zhan. During these millennia, we have appeared in various famous ancient countries in the earth world like ghosts, and assisted certain powers in the earth world to build buildings beyond this era."

The virtual spirit paused for a while and continued: "Although it was said that this kind of day was not free, it was still alive and moist. But a thousand years ago, the domain master suddenly appeared and ordered us to build this underwater ancient city in the underwater world, and then He used his incapable ability to completely control us in this ancient underwater city."

"Suddenly one day later, Master Haiyacha suddenly appeared in this ancient city under the sea. Although Master Haiyacha was trapped, he could leave the ancient city for a while, but our Void Spirits couldn't leave the ancient city at all. ! I'm completely trapped in this ancient city under the sea!" said the Xuling Race.

"Domain... Are you talking about a domain master? There will be a domain master in this earth world?" Li Tian was completely shocked!

The Three Corpses, that is a weaker existence than the Venerable, came to this earth world, and even destroyed the earth world to what it is now, what if it is of the Venerable level? What about the domain master? Do they have the ability to destroy the earth with just a raised hand?

"But what is the real purpose of this domain master appearing in the earth world? And what is his purpose for trapping this Void Spirit Race in this underwater city, and trapping Hai Yacha in the underwater city?"

"The domain master once clearly told us that if we want to leave here and return to the Netherworld, we can only wait until an adult who can be happy with himself appears."

"But you know, sir, this is the underwater world, so how can humans come to this place? In these thousands of years, apart from the appearance of Master Haiyasha, no creatures have appeared again!"

"Woo, in these thousands of years, we always thought that the domain master must have irritated us, and deliberately punished us like this, but we didn't expect that we would finally wait until this day."

"My lord, just now you were happy to see that all of our Void Spirit Race has been in your eyes. You are the one we are waiting for!"

"Thousands of years, we finally waited until the adults showed up! Oh, we finally waited until the adults showed up!"

"My lord, please subordinate the Void Spirit Race, the Void Spirit Race is willing to be a bull and a horse for the adults, and only ask the adults to take us out of here! Take us back to the Nether Realm!"

The other virtual spirit races lowered their heads, weeping with joy, crying to Li Tian.

Li Tian's mind was already a little confused.

Elders of the Four Elephants, these old monsters who have existed for thousands of years are hiding on the top of Tianshan Mountain, waiting for Li Tian to appear.

The virtual spirits of this ancient city under the sea. Hai Yacha lived here for thousands of years to wait for the appearance of Li Tian.

In Lenovo's "Red Slash" returning from another world, Li Tian felt that in this darkness, there seemed to be a thread involving her and him, asking him to connect all these insignificant people or things together.

But in the end, Li Tian needed to go to the Netherworld like the old man of the four elephants.

But what is waiting for Li Tian in the Netherworld?

Li Tian shook his head quickly and dispelled these thoughts from his mind.

Li Tian, who has been an orphan since he was a child, is a true dick. When Li Tian picked up Situ Ningbing, he only wanted to have such a beautiful wife, but he didn't expect to experience so many things.

"Master Li Tian, ask the Xuanling Race, what is the name of the domain master who appeared in the earth world?" Dao Ling said to Li Tian.

Li Tian nodded slightly, and said to the Void Spirit Race: "It's not difficult for me to take you out of here, but I need you to answer my questions truthfully. First, you know that the domain master who trapped you here is called What's the name?"

"This...this...the domain master said that when the adults leave the earth world and enter the Netherworld, they will know it. The small...the little one really dare not violate the command of the domain master without authorization. Say the name of the domain master!" said the virtual spirit race.

"Huh!" Li Tian's face was already a little angry.

"My lord... that domain master is a female, so I can only tell my lord so much! Otherwise it will cause trouble to the lord!" said the virtual spirit race.

"Female domain master? There are a total of eight female domain masters in the Netherworld, but I don't know which domain master is!" Dao Ling said.

Li Tian ignored Dao Ling and continued to ask: "Since you asked me to take you out of here, then you must know the way to leave here? Tell me, how can you leave here?"
