

A Killer 3861

Chapter 3861: Underground tower (1)

The Void Spirit Race raised his head, pointed to the white tower in the ancient city under the sea, and said: "If you go back to your lord, did you see this tower?"

"I just got down from this high tower, and I didn't find anything unusual!" Li Tian nodded and said.

"Yes, the high tower on this ground is indeed plain and unremarkable, but with this ground as a fold line, there is the same high tower under this! Just like... the reflection on the water surface, there is the same underground here. A high tower. If adults want to go out, they must climb this underground tower! Bring out the treasure that supports the energy operation of the entire underwater city at the top of the tower. Only in this way can we leave the underwater ancient city." Then Xu Ling said.

When Li Tian heard the treasure, his eyes lit up.

"Treasure? What kind of treasure is it?" Li Tian asked.

"Returning to the master, this treasure is a palm-sized bronze furnace with beast heads. This small copper furnace is protected by the master of the domain in this tower. This copper furnace has a powerful force to sustain the entire seabed. The operation of the ancient city. It is precisely because of this copper furnace that this ancient underwater city will have the current day, and the buildings of this ancient underwater city will have the ability to automatically recover, and in this ancient underwater city, we will feel The power of the whole body will be improved. Of course, this copper furnace has been integrated with this ancient city under the sea. When we want to be affected by this powerful force, we will also be bound by this powerful force, preventing us from leaving the ancient city under the sea. ." Xu Ling said.

Greedy gleamed in Li Tian's eyes.

If Li Tian's guess is correct, then the energy matter like white mist in this ancient underwater city is also released by this small copper furnace. If you get this small copper furnace, Li Tian and others can not only learn from this ancient underwater city Fleeing in the middle, and it is also beneficial to Li Tian's cultivation in the future.

Li Tian nodded and continued: "Then the underground tower you just mentioned is not a real tower? It's a cave similar to a tower, right?"

Hearing Li Tian's words, the virtual spirit race seemed to have been greatly insulted, with a trace of embarrassment on their faces, and even a trace of anger.

"Master! The underground tower is the underground tower. It is definitely not a cave. If the adults believe in us, then we are willing to be a cow and a horse for the adults. If the adults don't trust us, then we are the virtual spirits. The clan would rather continue to stay in this ancient city under the sea, and continue to wait for the people we are waiting for!" Xu Ling said angrily.

At this time, Dao Ling said to Li Tian: "Master Li Tian, don't underestimate this virtual spirit race. The virtual spirit race is a genius in architecture. They can create all kinds of magical buildings. Towers, then the underground ones must be high towers rather than caves. Although the Void Spirits

are extremely weak and have to be affiliates of other nobles or domain masters, they are extremely arrogant in this construction ability. !"

"It's me who made a mistake! When I got down from the high tower just now, I saw that after the high tower reached the ground there was still an underground cave, so I thought it was an underground cave!" Li Tian quickly explained.

The face of the Xu Ling tribe is better now.

"Thousands of years ago, when Li Tianda had built the tower here, our Void Spirit Race was driven out by the master domain master. The master domain master probably had another arrangement in this underground tower. So...so we don't know what the underground tower is now. If adults want to go to the underground tower, I'm afraid we won't be able to help either." The Xuling Race said.

"Yes, yeah, our Void Spirit Race can't help much, but we will always support adults in spirit!"

"We are waiting for the good news from your lord!"

The virtual spirit races said to Li Tian one by one.

Dao Ling had already said that this virtual spirit clan was weak and courageous, so Li Tian was not angry.

"Okay, then I will go to this high underground tower and take that treasure as my own, oh no, I will take that treasure out of the high underground tower, and then take you to pretend to fly together!"

After speaking, Li Tian turned around with "Red Zhan" in his hand and walked towards the tower, leaving the Void Spirit Races staring at each other, wondering what Li Tian's last words meant.

The three little Yashas jumped on Li Tian halfway, and followed Li Tian into the tower.

Enter the white tower, go counterclockwise along the left hand side and go up the stairs to the high tower on the ground. Walk down the right hand side and go down clockwise to the high underground tower.

Li Tian came to the steps leading to the high underground tower on the right hand side. Seeing that there was a piece of black under the spiral steps, even Li Tian could only vaguely see the steps.

"call!"

Li Tian took a deep breath and started walking down the stairs.

Li Tian estimated in his mind that the height of this step is about 20 centimeters. Li Tian has walked more than forty steps in a row, which means that Li Tian has walked nearly eight meters underground. , But it's still pitch black in front of me, it seems that this step doesn't mean to end.

"Isn't this the cave? Where is the idea of the underground tower?" Li Tian thought in his heart.

Li Tian went down a few more steps, but Li Tian found that there was water under this step. After walking several steps in a row, the water had not reached the base of Li Tian's thigh.

Li Tian paused and said in a puzzled way: "Why is there so much water here? Is the high underground tower under the water?"

"Master Li Tian, the Void Race once said that the high towers on the ground and the high underground towers are like reflections on the surface of the water. Now that we have encountered water, I am afraid that there is a high tower below!" Li Tian said.

"Well, I'm going to see if there are any towers underwater!"

Li Tian took out the water bead again and held it in his mouth. There was an extra layer of light around Li Tian's body.

But Li Tian began to speed up and walk down quickly.

He walked about forty or fifty steps. At this time, Li Tian calculated that he had entered the ground for more than ten meters, but there was no end to the steps, and the water didn't seem to know the depth.

But at this moment, the Void Yasha suddenly said to Li Tian, "Master Li Tian, why are you starting to walk up the steps now?"

Only then did Li Tian realize that when he was unconscious, the steps had started to move upward!

"This Void Race is really amazing. The downward steps in the water turned into upwards invisibly. It seems that we are about to enter the underground tower!"

Chapter 3862: Underground tower (2)

According to architecture, this kind of step is completely impossible to exist.

It's as if you are walking down the stairs non-stop from the upper floor, but when you are walking, you find that you are going down the stairs but you have accidentally turned into the stairs, but this is exactly the superb place of the Ethereal Race.

About a few minutes later, Li Tian broke through the water, but his eyes were still dark, but Li Tian could already see the faint light from the stairs above his head.

Li Tian speeded up. A few minutes later, Li Tian finally walked out of the darkness and reached the first floor of the underground tower.

The high tower below is very similar to the high tower above ground, and the main building is white.

The difference lies in the high tower on the ground. Standing in front of the window of that tower, you can see the view of the ancient city under the sea, while standing in front of the window of the lower tower, you can see Seabed rocks.

There is also the dense white energy substance in the air of the underground tower. Li Tian felt as if the tower was completely surrounded by smoke.

Li Tian put away the water bead, took three small Yashas, held "Red Zhan" in his hand and began to ascend the tower.

The height of the tower above the ground is more than 300 meters, and the height of the underground tower is also more than 300 meters. It is not a simple matter to climb the tower of more than 300 meters through the spiral staircase.

Moreover, Li Tian has a dual purpose. While climbing the tower, he is greedily absorbing these white energy substances. As a result, the entire tower will hear the crackling from within Li Tian's body from time to time. The sound of popping beans.

There is plenty of energy and material in this high tower. Even if Li Tian keeps cultivating and absorbing it, I'm afraid it's impossible to absorb it without three or five years, and the copper furnace on the top of the tower is still going out. Release this energy substance.

But Li Tian walked and practiced slowly, but Li Tian felt that his strength was constantly improving.

"Patter!"

"Patter!"

The footsteps echoed with Li Tian's body implosion like beans, Li Tian kept walking up and down.

"Master Li Tian, stop!" Young Master Void said to Li Tian.

Li Tian stopped immediately.

"Patter!"

"Patter!"

Although Li Tian stopped, the sound of footsteps still came from the high tower. These footsteps kept coming from under the feet and above the head, getting closer and closer.

"Are there other Void Spirit Races in this tower?"

"No, that's not right, the Void Spirit Race is just like a ghost, and it definitely doesn't make footsteps when walking."

Li Tianjiang "Red Zhan" shook hands tightly, walked a few steps quickly, and boarded the tower.

Each floor of this tall tower will have a flat area, which is relatively wide.

"Huh!"

With a wave of "Red Cut", Li Tian stood behind a wall, then quietly waited for the sound of footsteps.

"Patter!"

"Patter!"

The footsteps were getting closer, and Li Tian couldn't help but clenched the "Red Cut" in his hand.

At this moment, Li Tian saw a person walking out of the stairs below the tall tower.

Strictly speaking, it is not a person, but a human body, because the body of this person is actually water!

That's right, it's water!

Li Tian could even see the body composed of water flowing slowly, but not a single drop of this water dripped on the ground, and the entire water man was a whole. The water flowed on the water

man's body, and there were small waves on the body and face from time to time. As a result, Li Tian couldn't see the water man's appearance clearly.

However, even so, Li Tian was already surprised and fell apart.

There is no other reason.

This water man looks almost exactly the same as Li Tian in terms of height and body shape. What surprised Li Tian even more was that in the hands of the water man, there was actually a blade that was exactly the same shape as "Red Zhan". Li Tian made of water, "Red Chop" made of water!

Even Xiaoyasha sitting on Li Tian's shoulders has a similar shape on the water man.

"Master Li Tian, this water man is exactly the same as us, but I don't know where this water man emerged from? Why didn't we see this water man on the way to the tower?" Xukong Yasha said.

"I'm afraid this water man was not in this high tower before. It was formed when we passed through the layer of water in the high towers above the ground and the high underground tower. It's just that this water man is so vivid, but I don't know the water. How much my strength do people have!" Li Tian said.

After the water man walked up to the high tower, he slowly turned to Li Tian, staring at Li Tian like a poisonous snake. When he heard Li Tian say this, the water man's mouth turned together, as if it's like learning Li Tian's speech, but he is a water man after all, no matter how he opens his mouth, he can't make a sound.

"Huh! Counterfeit goods will always be counterfeit goods, let me Li Tianlai to learn about the strength of your parallel imports!"

Li Tian kicked his legs and rushed towards the water man like a bullet.

At the same time, the water man turned out to be exactly the same as Li Tian's movements, with the same kick on his legs, and charged up against Li Tian.

The space on each floor of this high underground tower is limited, at best, it is less than a hundred square meters of space. Li Tian and the water man exerted their strength at the same time, and the two met together in an instant.

Li Tian's right hand "Red Zhan" rotated, pulling out a sword flower, Li Tian backhanded "Red Zhan" heavily to the water man's neck.

And the action of the water man was exactly the same as Li Tian, the blade made of water also pulled out a sword flower and drew it towards Li Tian's neck.

This water man's movements wanted to completely copy Li Tian's movements, and the speed was naturally a little slower than Li Tian's. As a result, Li Tian's "Red Slash" had already been drawn into the water man's neck, and The water knife blade has just arrived.

Li Tian raised his left hand, and after entering this ancient city under the sea, the strongest broken soul palm slapped the water man's arm that pierced his neck.

The powerful force of the broken soul palm hit the arm, as if a mud cow entered the sea, except for a splash of waves, there was no reaction at all.

At this time, Li Tian was surprised to find that when his "Red Slash" cut across the water man's neck, it was really like a blade across the water, and the water surface healed quickly.

In other words, Li Tian's "Red Slash" and Broken Soul Palm did not cause any harm to the Water Man.

But the water knife in the water man's hand touched Li Tian's neck.

The water knife has no sharp edge, but Li Tian felt the chill of the water knife. Even the hair on Li Tian's body had been erected, and the water knife had easily cut the skin on Li Tian's neck.

"Danger!"

Chapter 3863: Underground tower (3)

Cold!

Li Tian felt a icy chill when the water knife swept across his neck directly into Li Tian's body, and a ***** red line appeared on Li Tian's neck!

Li Tian didn't expect the blade of this water jet to be so sharp, and I am afraid that he didn't want to make too much of the sharpness of "Red Slash. ○

If the blade continues to be cut down, then Li Tian's head is likely to be cut off directly.

At this time, the same minded Void Yasha didn't need Li Tian to speak, and directly sent Li Tian into the space of Void Yasha.

Teleport!

In the next second, Li Tian had already appeared behind this water man.

Li Tian's "Red Slash" almost pierced into the water man's back the moment Li Tian appeared behind the water man.

"puff!"

Without blood splattering, Li Tian's "Red Cut" and his arms passed directly through the body of the water man.

But at this moment, the water man's head turned around one hundred and eighty degrees, and he twisted it to face Li Tian.

Li Tian wanted to pull away, but found that the body of the water man turned out to be like steel, tightly confining Li Tian's arm.

And the blade of the water man had already pierced Li Tian.

Void Yasha led Li Tian to teleport several times in a row, but he didn't expect the water man to be firmly linked with Li Tian, and at this time, a smile appeared on the water man's face.

Although he couldn't see the face of the water man clearly, the smile couldn't be more obvious.

This is a kind of sneer, a kind of sarcasm, as if to laugh at Li Tian, an idiot who didn't even know the weakness of the water man, and rushed forward desperately.

The blade of the water jet was getting closer and closer to Li Tian.

The broken soul palm of Li Tian's left hand kept blasting towards the body, arms, and head of the water man. This powerful broken soul palm can blast the seventeenth-level zombies directly, but for this water man Li Tian's broken soul palm There was no effect at all, that powerful broken soul palm seemed to be hit by a rock in the sea, and could only be swallowed by the sea.

Li Tian already felt the breath of death.

But at this moment, Na Hai Yacha suddenly jumped up from Li Tian, reached out and grabbed the blade of the water man stabbing Li Tian.

"Huh! Dare to be presumptuous in front of my Haiyacha!" The sharp water knife is in Haiyacha's hands, just like a child's popsicle. There is no harm at all, and with Haiyacha's cold words, that The blade in the water man's hand has completely lost its shape.

"Hai Yacha, I didn't expect you to have this ability! This Young Master really underestimated you!" Xukong Yasha said to Hai Yacha excitedly.

"Young Master Xie praises. Master Li Tian, you first step back, and let Hai Yacha clean up this water man first!" Hai Yacha said.

After Hai Yacha said this, the water in the water suddenly accelerated the flow, and confining Li Tian's arm and the position of "Red Slash", a whirlpool appeared, and then, a small hole with the thickness of the bowl appeared. .

Li Tian immediately retracted his arm and "Hong Zhan".

"Come on, let me see how much you are capable of, how dare you change to become Master Li Tian!" Na Hai Yasha loosened the water man, pushed back, and pushed the water man a few meters away. Yasha jumped off Li Tian, walked slowly three or four meters in front of the water and said.

"Wow!"

"Wow!"

A sound like running water came from the water man's mouth, and he pointed at Li Tian, as if to say that his opponent was Li Tian, and let Hai Yacha move aside.

"Master Li Tian can also be played against by you? If you want to fight against Master Li Tian, you must pass my level first!" Hai Yacha said very arrogantly.

But the water man didn't mean to fight Hai Yacha at all. He ran a few steps forward, stepped directly over Hai Yacha, and continued to rush towards Li Tian.

Li Tian's brows wrinkled slightly. He didn't expect that the water man actually spotted him, as if he was immortal.

"Huh! Tigers don't show off their might, do you really treat me as Li Tian as a sick cat? Xiao Yasha will give me back!" Li Tian sent Void Yasha and Dixing Yasha into the void, even "Red Cut" Also sent into the void by Li Tian.

Immediately, Li Tian roared and rushed directly to the water man.

When Li Tian rushed towards the water man, Li Tian was surprised to find that the weapon in the water man's hand and the shape of the three small Yasha on the water man's shoulder had also completely disappeared.

"Do you want to compete in an upright manner? Okay, then I will let you, a parallel importer, know that Li Tian is not worthy of my name!"

Li Tian's body rushed forward, and his left and right hands simultaneously broke the soul palm in actual combat, and blasted a dozen soul palms continuously against the body of the water man.

"boom!"

"boom!"

"boom!"

Li Tian knew that if his arm penetrated into the body of the water man, he would definitely be imprisoned by the water man.

Therefore, Li Tian's broken soul palm shrank back as soon as it touched the water man's body, preventing the water man from taking advantage of it and easily confining Li Tian.

And the water man didn't seem to have the intention to continue to imprison Li Tian. After sustaining a dozen of Li Tian's broken soul palms, the water man stretched out his palm and continuously attacked Li Tian's broken soul palm. .

"boom!"

The broken soul palm that Li Tian actually fought against and the palm of the water man showed off, Li Tian immediately felt a majestic force emanating from the palm of the water man.

The strength of this force can completely kill Li Tian's broken soul palm.

Li Tian's body was shaken back seven or eight steps in a row, and almost hit the wall, and the water man seemed unable to withstand the strong impact of the intersecting palms, and he slid back several meters before stopping. .

However, at this moment, Li Tian saw a smile on the corner of the water man's mouth.

Still sneer.

"Laugh? See who can have the last laugh?" Li Tian's heart was full of anger, he couldn't help but roared, his feet tried to rush towards the water man.

But at this moment, the water man suddenly fell to the ground with a clatter, turning into a serious stream of water.

The water flowed quickly to Li Tian, and Li Tian realized that he did not know when, there was already water under his feet.

"Master Li Tian, be careful!" Hai Yacha appeared to remind.

But it was too late for this body shape. In the next second, the water flowed continuously to Li Tian's body along Li Tian's feet.

It was almost instantaneous, and Li Tian was completely enveloped by the water man.

Li Tian wanted to struggle out of this water jail, smashing left and right continuously, but this water man seemed to be Li Tian's skin, so Li Tian couldn't escape at all.

"Master Li Tian!" Hai Yecha exclaimed, trying to rush over, but Li Tian stretched out his hand to stop it!

This is Li Tian's battle. If Li Tian can't even pass this level and needs the help of Xiaoyasha and "Red Zhan" everywhere, then what qualifications does Li Tian have to become their master in the future!

This water man is like a water prison, and it is impossible for Li Tian to rush out, but this makes Li Tian's heart down!

Li Tian can hold his breath for more than half an hour, and Li Tian will use this half an hour to solve this water man.

Li Tian slowly closed his eyes and listened to the beating sound of his heart.

"Puff!"

"Puff!"

Chapter 3864: Underground tower (4)

Suddenly, Li Tian felt his heart beat abruptly.

Since his eyes were opened, Li Tian could see something that he could not see before. At this moment, after the heart beats suddenly, Li Tian actually saw that he could not see in the body of the water man before. s things.

"What is this? Could it be... the context?" Li Tian asked in shock.

Context!

That's right, there is a vein in this water man's body.

These veins are made up of the white energy matter that Li Tian had seen before. They are thick, thin, and dense, like a spider web, which exists in this water man's body.

Li Tian stretched out a finger and pierced the water man's body forcefully, trying to poke that vein.

However, after Li Tian's finger plunged into the water man's body, the veins shifted a little to the side like flowing water. In this way, Li Tian's finger just stuck into the water man.

"Could it be that this water man can move because of the veins formed by this energy substance? If that is the case, as long as I cut off this water man's veins, I can subdue this water man!" Li Tian's mind He quickly calculated how to subdue this water man.

Li Tian suddenly raised his hand, and his arm swept across the water formed by the water man, and then his arm was like a poisonous snake coming out of a hole, violently grabbing the thickest vein in the water man's body.

However, what Li Tian didn't expect was that when Li Tian's palm was about to grasp that vein, that vein was like a frightened rabbit and jumped aside by himself.

"This... how is this possible? Isn't this context still self-conscious?" Li Tian thought to himself.

Although Li Tian didn't make a hit, he confirmed Li Tian's thoughts. This context is definitely the fatal place for this water man.

Thinking of this, Li Tian exerted his left and right hands at the same time, and began to constantly attack the veins of the water man from within.

"puff!"

"puff!"

"puff!"

But no matter how Li Tian attacks, the water man's veins are like opening his eyes, and he can always determine the direction of Li Tian's attack in advance, and his veins can always avoid Li Tian's attack in advance.

A few minutes later, Li Tian's palm did not even touch the side of the veins, and as Li Tian's exercise increased, Li Tian felt that his suffocation had begun to be a little difficult.

If this continues, it will not take a few minutes, and Li Tian's rescuer will die due to lack of oxygen. However, if Li Tian does not move, then the time-consuming for Li Tian is probably only the time of death sooner and later.

Li Tian couldn't help but feel a little impatient.

But Li Tian knows that haste is not enough, and now is not the time to be impatient.

"No! Because I am impatient, I have fallen into this kind of confusion. Now Haiyacha is by the side. If my mind moves, this Haiyacha can definitely rescue me, so this death will definitely not happen. ."

"Furthermore, the water man has trapped me in his body now, and he can kill him now, but the water man has no intention of doing anything, as if he just wants to trap me in it!"

"This water man's appearance and figure are somewhat similar to my Li Tian, could it be...Does this water man have other intentions?" Li Tian suddenly had such an idea in his mind.

Li Tian wanted to feel the greater the possibility, and his heart gradually calmed down.

Li Tian stopped the attack, and then settled down to think of a way to deal with this water man.

"This water person's context seems to be able to determine the direction of my shot in advance. If this is the case, how can I attack this context?"

Li Tian's mind turned quickly, and countless kinds of thoughts flashed in Li Tian's mind, and they were all overthrown by Li Tian.

"Now my whole body is surrounded by this water person. If this water person has a sensory system, then as long as I act, the water person's veins will naturally know my ultimate goal, of course. Can dodge my attack! But what can I do now?"

At this moment, a picture suddenly flashed in Li Tian's mind.

It was in the city of Kyoto that Li Tian and the ghoul met for the first time.

At that time, Li Tian moved instantaneously in actual combat, which can also be said to be a ghost, but the ghoul passed the pre-judgment and used a move to defeat the enemy and Li Tian was seriously injured.

"Yes, as long as I can predict the direction of this context, then I may attack this context!" Li Tian couldn't help but become excited when he thought of this.

But predicting this is not an easy task.

Several consecutive attacks by Li Tian missed the vein. Once, one of Li Tian's fingers had touched the edge of the vein.

Although until now, Li Tian has returned without success, and the time that Li Tian's suffocation can support is getting shorter and shorter, but Li Tian has become more and more confident.

Li Tian stopped.

Even Li Tian sat on the ground directly, closing his eyes and not thinking about so many things.

Li Tian could feel the existence of the nine-color corpse crystals in his atrium. Perhaps because of this eye, even if Li Tian closed his eyes, Li Tian could clearly feel the flow of veins in the body of the water man.

Mind, opened my mind is really different.

The whole tower became quiet, only the sound of a footstep in the tower above Li Tian gradually approached Li Tian.

The footsteps were getting closer and closer to Li Tian, and Li Tian felt that it would take less than a minute for the footsteps to appear on the floors of this high tower.

At this time, Li Tian's suffocation was almost reaching its limit.

No, it can't be delayed any longer.

Li Tian suddenly opened his eyes. At the moment he opened his eyes, Li Tian's left hand attacked with lightning speed, and Li Tian's right hand followed closely behind.

When Li Tian's left hand was less than an inch away from the vein, the vein had automatically jumped to the side, staggering the attack direction of Li Tian's left hand, and at this moment, Li Tian's left hand moved back. Shrinking, the right hand increased the speed, really like lightning, and even surpassed the speed of lightning to attack this vein.

"Pop!" Li Tian's arm had already grasped that vein.

What Li Tian didn't expect was that the veins formed by the white energy matter in this water man's body turned out to be substantial and could be grasped by Li Tian's hand.

"Kacha!" With a sound, Li Tian's arm pressed hard, and the veins as thick as chopsticks were directly cut off by Li Tian.

This vein was caught by Li Tian, and the water man immediately seemed to have returned to support, turning into a stream of water, flowing down from Li Tian!

However, the veins of the water people, the veins like white corals in actual combat, remained in Li Tian's hands.

Chapter 3865: Who is she (1)

Li Tian looked at the thread that belonged to the water person in his hand. ,

This entire vein contains rich energy matter. Li Tian feels that if he can absorb the energy matter in this vein, then his strength will be greatly improved, not to mention that he can become the opponent of the three corpses, but at least two. For zombies below level ten, Li Tian will no longer be afraid of anything.

"Good thing! I don't have time to practice now. After I walk out of this high tower, I will definitely absorb you as soon as possible! Hehe!" Li Tian's mouth was almost out of the halazi, and he held it with both hands excitedly. Follow this context.

However, at this moment, several gaps suddenly opened in that vein.

"Crack!"

"Crack!"

Immediately after that, the veins turned out to be like plaster that fell on the ground, and they broke into several pieces immediately, and then the veins changed from broken pieces to powder!

"Damn! This...what's the trouble?"

Li Tian desperately wanted to grip the powder tightly and hold it in his hand, but the powder was like quicksand. The tighter Li Tian gripped, the faster the powder flowed.

After a few seconds, these powders became smoke-like, floating in the air, and completely integrated with the substances in the tower.

Li Tian stared at the smoke with some stunned mouth, and suddenly felt as if ten thousand grass mud horses galloped past.

"Damn it! When I took the small copper stove, I would sit on the top of the tower and absorb all the energy!" Li Tian said angrily.

"Patter!"

"Patter!"

At this time, the sound of footsteps that had been appearing above the head had already reached the stairs of the underground tower in front of Li Tian, and the sound of that person's footsteps got closer and closer. ,

Li Tian took out "Red Zhan" again and held it tightly in his hand, waiting for the master of this footstep to appear.

After seven or eight miracles, a figure walked out of the stairs of the tower and appeared in Li Tian's line of sight.

Seeing this person, Li Tian's brows couldn't help but frowned slightly. Even if his eyes were opened, Li Tian couldn't see the weakness of the person in front of him.

Because the one who appeared in front of Li Tian was completely different from the water man, he was a real fog man!

The fogged person's body is completely composed of the white energy substance that is the same as the veins, so even the mind can't see the veins of the fogged person.

And this fog man's body was entangled by this white energy material at this time, just like a fairy entwined with immortal energy.

Although he can't clearly see the appearance of the fog man, it can be seen from the size of the fog man that the fog man looks more like a woman. And this female fog person exudes a powerful force, a force that far surpasses Li Tian and beyond Li Tian's knowledge.

Even Li Tian suspected that even if the three corpses appeared in front of this female fog person, they might be easily killed by the female fog person.

"Who is this person? Why is he in this underground tower!" Li Tian thought in his heart.

If it is said that the water man is because Li Tian passed through the water layer in the tower, and then formed a water man with almost the same shape as Li Tian, then what about this mist man?

Out of fear of facing the female fog person, Li Tian's left leg stepped back slightly, and carefully pointed the "red cut" in his hand at the female fog person.

After seeing Li Tian's expression, the female mister laughed softly: "I haven't seen each other for thousands of years. Are you treating me like this? Have you forgotten how I dealt with you before?"

This mister could speak human language, and Li Tian could understand what she said.

"What do you mean? Is this female fog person talking to me? No, it should be talking to Hai Yacha, not to Hong Zhan!" Li Tian guessed in his heart.

But at this moment, the female mister casually stretched out her hand, and the "Red Slash" that was tightly held in Li Tian's hand flew directly to the female mister.

Li Tian was shocked!

The female fog person gently pinched "Red Zhan" with **** on her left hand, it seemed that she didn't use the slightest strength, but no matter how Li Tian controlled the "Red Zhan" with his mind, the "Red Zhan" would not move.

Moreover, Li Tian did not feel the existence of the "Red Slash" sword spirit at this moment, as if the sword spirit had completely disappeared.

Li Tian knew that he was not the opponent of this female fog man at all, and his mind had already communicated with Young Master Void. As long as there was any disturbance outside, Li Tian would immediately get into the space of Void Yasha to avoid the female fog man's attack .

"Tsk tusk! It's really not growing, it's only a few thousand years, you actually degenerate to such a stage, it's not like the Hong Zhan who smashed the nether world! If your original master saw this look of you, how sad it would be what!"

The female fog person's voice is like a robot, without any emotion in it, but Li Tian can hear the female fog person's disdain and contempt for "Red Zhan".

"Since we met, then let me help you! Following your current master like this is not necessarily a good thing for him!" said the female fog person.

With that said, the female fog man stretched out her right hand and lightly flicked the "Red Slash" blade like an understatement.

The white substance seemed to be frost, instantly freezing this "red cut".

Immediately afterwards, countless gaps were opened on the blade of the "Red Slash", and white energy matter continuously floated out from the right hand of the female mister like smoke, and got into the "Red Slash" to split. In the cracks.

"Crack!"

"Crack!"

This "red cut" seemed to be molting, and cuttings from the blade began to fall and dissipated in the air.

Li Tian was completely stunned. He did not expect that his strongest "Red Slash" was so vulnerable that it would be snatched by the fog man, nor did he expect this extremely sharp "Red Slash" to be in the hands of this woman. So many gaps were easily opened.

The "Red Cut" that had risen almost as long as a saber was in the hands of this woman, unable to withstand the power injected by this woman, and began to shrink and shrink.

In just a few seconds, the length of this "Red Zhan" has become the length of the "Red Zhan" that Li Tian had just seen in another world.

However, this "red cut" is still shrinking.

"Chang!"

"Chang!"

"Chang!"

The female fog person bounced the "Red Slash" three times in a row, and three more white energy substances poured into the "Red Slash". At this time, the length of the "Red Slash" had already equaled one. The handle is almost the same.

The female fog person then released the "red cut", gently tossed it back to Li Tian, and then said to Li Tian, "Now, it's your turn!"

Chapter 3866: Who is she (2)

Without any emotion, Li Tian could not help but feel cold sweat all over his body.

Although "Red Zhan" has returned to Li Tian's hands, Li Tian has no time to figure out the changes of "Red Zhan". Li Tian only knows that the current "Red Zhan" is no longer stronger than the previous one. Two levels, but no matter how many levels are enhanced, in front of this female fog person, they are not worth mentioning.

Is this female fog person the domain owner?

This idea kept echoing in Li Tian's mind.

At this time, the female fog person had slowly moved towards Li Tian.

"I am not the opponent of this female fog man at all. Should I hide in the space of the Void Yasha?"

There was just such an idea in Li Tian's mind when he saw the female foggy disappear before his eyes suddenly.

"I advise you to have no other ideas! In this high underground tower, your every move is completely under my control!" The female mister's voice suddenly appeared behind Li Tian.

Teleport?

This female fog person can teleport!

Li Tian's pupils couldn't help but expand. At this time, Li Tian no longer knew what words to use to describe his shock, his face was full of horror, and he stood in stunned mouth.

"Surprised? It's just a teleport!"

What is called just teleporting.

In Earth time, Li Tian has never seen anyone teleport like him.

It is precisely because of this that Li Tiancai has repeatedly turned danger into danger in the earth world, and even with this teleportation, he can defeat many enemies whose strength far exceeds him.

Who is this female fog person?

"You don't need to guess who I am. When you reach the Netherworld, we will meet each other naturally. Then, you will know who I am!" said the female fog person.

With that said, the female mister reached out from behind and put her hands on Li Tian's shoulders. The two arms were completely misted, and then these white mists wandered around Li Tian's body, and even some white mist came from Li Tian's mouth and nose. Entered into Li Tian's body.

From a distance, it was as if this female mister was stroking Li Tian.

But Li Tian had another feeling. There was no warmth on the woman's body, and the two atomized arms were holding on to Li Tian's body like the most sophisticated instruments.

After dozens of seconds, the female fog man's voice like a robot came from behind Li Tian's ears.

"Yes, yes! I didn't expect you to open your mind now! It seems I can't underestimate you!"

But within a second, the female mister said in surprise and regret: "You used the most trash nine-color corpse crystal to make your eyes happy, and it even made you successful! Probability events can happen to you. Tsk tsk, did you know that there will not be a success in a hundred people who use the nine-color corpse crystal to be happy. And once the happy eyes fail, you should know the consequences, then It's a dead end!"

Hearing this sentence, Li Tian suddenly became angry.

This "Red Cut" his mother said it was dangerous, but he didn't say he would die.

"But it's not bad. You can open your mind now, then your future will be boundless! Kill the three corpses and come to the Nether Realm earlier! Only when you enter the Nether Realm, you will find this mindful Real use! Hey, I'm starting to look forward to the day I meet you!" said the female fog person.

From the beginning to the present, the female fog man has always occupied an absolute dominant position, and the female fog man has been chattering endlessly.

Li Tian finally couldn't help it, turned his head abruptly, and said to the female foggy man: "What are you trying to do?"

The moment Li Tian turned around, an illusion appeared in his mind.

This illusion shows that Li Tian seems to have seen this fog man before, and this fog man seems to be a very close person to Li Tian, but this kind of illusion flashes past, and Li Tian can't catch it!

"you....."

Before Li Tian had finished speaking, the female mister suddenly became completely atomized. There was no time to say a word with Li Tian, and she disappeared completely.

"Who is she?"

"Who is she?"

"Why do I have that familiar feeling?"

"Impossible! Since I was born, Li Tian has never been to this ancient city under the sea, and I have never been to the Netherworld. I can't have anything to do with this female fog person!"

Li Tian shook his head suddenly and said.

However, the feeling of disappearance appeared in Li Tian's mind constantly, which made Li Tianxin involuntarily think of this female fog person.

"Dao Ling, Dao Ling, come out for me!" Li Tian yelled at "Red Zhan" with his heart.

But there was no response in "Red Zhan". No matter how Li Tian called the sword spirit, the sword spirit just didn't respond.

"Damn it!" Li Tian couldn't help cursing.

"Master Li Tian, why are you entangled in this matter? Since the female mister said that when the master arrives in the Netherworld, she will know who she is, then we can go to the Netherworld once!" Hai Yacha faced Li Tian Said.

Li Tian suddenly realized!

"That's right! As long as you go to the Netherworld once, the truth will be revealed!"

"Well, let's hurry up and climb the tower, take the bronze furnace in our hands, and leave this ancient underwater city!" Li Tian said.

As Li Tian continued to ascend the tower, Li Tian found that since the female fog person disappeared, the white energy matter in the high tower has gradually dissipated.

When Li Tiankuai reached the top of the tower, the white energy matter had completely disappeared.

At this time Li Tian was one step away from the top of the tower.

Li Tian couldn't help speeding up.

After a few minutes, Li Tian finally reached the top of the tower.

The higher the tower goes, the smaller the space inside the tower.

At the top of the tower, the space is only seven or eight square meters in size, and in the seven or eight square meters, a small bronze furnace the size of a baby's fist is suspended in the air.

This small copper furnace looks unremarkable, but the ability to automatically float in the air shows that this small copper furnace is extraordinary.

Li Tian took two quick steps and reached out and grabbed the bronze furnace in his hand.

As soon as this bronze furnace entered Li Tian's hand, Li Tian felt as if he was grasping on a piece of hot coal. For a moment, there was a piercing pain in Li Tian's right palm. This pain made Li Tian think Throw this bronze furnace directly to the ground.

But Li Tian can't!

Because there is a feeling in Li Tian's heart that once he releases the bronze furnace, the bronze furnace may disappear out of thin air like the female mister.

"Boom!"

The underground tower shook suddenly, causing Li Tian to almost fall.

Then the jitter became more and more intense, as if it had encountered an earthquake.

"No, Master Li Tian, I'm afraid this tower is about to collapse!" Hai Yacha exclaimed in shock.

Chapter 3867: Escape from the bottom of the sea (1)

You know, at this time, Li Tian brought three small Yashas on the top of the tower, but this tower is a high underground tower, which means that Li Tian is actually more than three hundred meters underground at this time. Once the tower begins to collapse and Li Tian does not escape in time, then Li Tian is likely to be crushed underground at a depth of more than three hundred meters.

Li Tian knew where the danger was, without stopping, the enclave rushed down the tower.

"Boom!"

"Boom!"

The underground tower was shaking more and more severely, and even the tower body began to appear some cracks.

There are constantly sand and gravel flowing out of the cracks.

Li Tian has no time to take care of this situation.

There is only one thought in Li Tian's mind now, and that is to escape, run away!

At this time, Li Tian's degree had already reached its limit.

"Wow!"

An afterimage flashed past, and Li Tian had already rushed to the next tower!

Li Tian has forgotten the time and the degree, running desperately with both feet.

The building is about to fall, Li Tian felt that in this situation, his so-called abilities seemed useless!

Only degree is the most important.

Three hundred meters...

Two hundred meters...

One hundred meters...

I don't know how long it took, or how many floors of towers he rushed down, suddenly Li Tian's feet softened, "Boom!" Li Tian jumped directly into the water.

In the darkness, the water splashed everywhere. Li Tian had already entered the double layer between the underground tower and the above-ground tower. After entering the water, the degree of running down was significantly slowed down. Li Tian turned around, like a dolphin. , Keep going downstream,

Li Tian knew that entering the water was not far from the exit.

At this time, the underground tower was shaking more severely.

From time to time, crushed stones would fall and smash into the dark water.

Li Tian's palms kept flying the broken stones to avoid being injured by these broken stones.

A few meters further downstream, Li Tian suddenly felt staggered up and down. Unconsciously, Li Tian had already become upstream.

Li Tian followed the steps, almost using both hands and feet.

Ten years later, Li Tian jumped out of the surface with a "poof!"

The underground tower has already begun to collapse, Li Tian will "Red Slash", and the three little Yashas have already been sent to the space of the void Yasha, and their bodies are quickly shuttled between the collapsed rocks.

The light has already appeared before my eyes.

The future is bright and the road is tortuous, but Li Tian is only one step away from the dawn of victory.

Li Tian's figure rushed out of the underground tower like a bolt of lightning and rushed to the ancient city under the sea.

"Hey!"

Looking at the familiar light, the ancient city under the sea, and the imaginary virtual spirit race, Li Tian couldn't help smirking.

This giggle also explained Li Tian's pride at this time.

The Xu Ling clan waited anxiously for this Li Tian at the entrance of the tower on the ground. When they felt the shaking under their feet, they had already guessed that Li Tian might have succeeded. After seeing Li Tian smirk triumphantly, the Xuling Race couldn't help asking: "My lord, you... have you succeeded?"

Li Tian turned the bronze furnace out, threw it up and easily grasped it, smiling proudly and said, "That's natural!"

"Huh? No!"

Li Tian suddenly discovered that the bronze furnace he was holding was somewhat different from the bronze furnace in the underground tower.

In the underground tower, when Li Tian saw the bronze furnace suspended in the air, Li Tian could easily see the ancient characters on the bronze road. Although Li Tian was not transformed, it was terrifying, but Li Tian also knew that the character was called Ming. . However, now Li Tian found that the bronze furnace that fell on his hand was radiant, without any words, and even the patterns disappeared.

"Damn!"

When Li Tian was looking at the bronze furnace, he discovered that his palm had some crooked scars. These scars were still red, as if they had been scalded by boiling water.

"Could it be... is it the word that was burned up when I grabbed the bronze furnace?" Li Tian thought.

"Master, this bronze furnace is available. Let's hurry up and take us out of here! This... the bronze furnace has reached the hands of adults, and this ancient city under the sea has also lost its strength. I am afraid it will not be long before this ancient city will collapse completely!" The Void Spirit Race said to Li Tian.

Li Tian's head was numb involuntarily.

What about wool? I just escaped from the underground tower. I haven't had time to catch my breath, let alone see the usefulness of this bronze furnace. Now this ancient city under the sea is about to collapse?

While talking, the things that existed like clouds that had been floating in the air before suddenly fell suddenly.

Falling is like a huge rock, falling like a meteor.

"Wow!"

In just a few seconds, the cloud actually fell down.

From a distance, the cloud was just the size of a basin, and the largest was no more than the size of a straw mat, but when the cloud fell down, Li Tian knew that the cloud was far bigger than he could see.

"boom!"

"boom!"

Several loud noises came out of this ancient city under the sea, and a large building a kilometer away from Li Tian was completely destroyed by the cloud.

Those buildings continued to collapse, and dust was splashing everywhere.

And the moment the clouds smashed the buildings, they fell to pieces like a piece of glass.

Then it turned into dust and began to permeate the entire underwater ancient city.

"Quick, sir, let's go! Time is running out!" said the Xuling Race.

There are dozens of these Void Spirit Races, but Li Tian wanted to throw this Void Spirit Race into the space of the Void Yasha, but Li Tianyi stretched out his hand, and that hand passed through the Void Spirit Race directly, and could not touch it at all. This virtual spirit race.

Li Tianxin was startled and said, "You have so many people, how can I take you out?"

The Void Spirit Race said: "Although the adults escape through this high tower on the ground, our Void Spirit Race will follow!"

Li Tian nodded and began to flee again.

"Crack!"

The blue sky of this ancient city under the sea suddenly opened a gap. From a distance, the gap seemed to be the thickness of a hair, but countless sands flowed out from this gap. Dropped from the sky with mud and sand.

"Crack!"

"Crack!"

The cracks in the sky gradually increased, and the sky of the entire ancient city under the sea was like water scooped up by a colander, with sea water constantly flowing down.

At this time Li Tian had already rushed to the top of a dozen-story tower.

Through the tower windows of the high tower, Li Tianneng could see that an ancient city under the sea was spread by the sea in an instant. At this time, as the gaps in the sky increased, Li Tianhuan's sea continued to rise.

Li Tian glanced at the tower unintentionally, but saw that beside the tall tower on the ground, there was an extra steep step beside it.

It's like a staircase leading to heaven. The staircase is still rising fast, and black shadows are flapping on this staircase.

"The Void Spirit Race! It turned out to be the Void Spirit Race! This Void Spirit Race can actually create such a step in such a short time!"

Chapter 3868: Escape from the bottom of the sea (2)

Li Tian really didn't expect this virtual spirit race to be so awesome.

This feeling is as if Mount Tai is piled up, and the train is pushed, this awesome should be blowing.

Otherwise, why would the Xuanling tribe build this staircase that leads directly to the sky of the ancient city under the sea so fast?

fast!

Li Tian feels that they are different from using Come to describe.

It's as if it's the same building a building, normal people's degrees are like building blocks, and this imaginary clan builds a building as fast as painting a building.

Since the Void Spirit Clan no longer needs to worry about Li Tian, Li Tian speeds up and continues to rush towards the tower.

"Wow!"

"Wow!"

Li Tian's figure kept flickering, and Li Tian had already played Du to the extreme, even faster than he could escape from a high underground tower.

"Boom!"

The sky of the ancient submarine city in the distance suddenly collapsed into a large area, and the sea above the sky completely began to pour into the ancient city.

The low buildings in the distance of the ancient city under the sea have been completely submerged by sea water.

The sea water rushes towards the towers and high-rise buildings in the direction of the center.

The Xu Ling clan seemed to feel the danger, and the speed of the building's stairs to the sky was even faster, almost equal to that of Li Tiandeng Tower.

"Boom!"

The convoluted waves of the sea water are like thousands of horses, constantly impacting the buildings of the ancient city under the sea.

And the buildings in the ancient city under the sea seemed to be paper-crushed. Under the attack of the waves, they were completely vulnerable, and those buildings continued to collapse.

Li Tian understands that the buildings of the Xuling clan have tried their best for thousands of years and still stand tall. From this, it can be judged that these buildings are definitely not tofu dregs projects, but those buildings are destroyed by the waves of the sea. , This can only show that this ancient city under the sea, like the high underground tower, will probably face collapse without the support of the bronze furnace.

"Huh!"

"Huh!"

Even if he is as strong as Li Tian, he is continuously escaping from the underground tower, and then escaping more than two hundred meters above the ground tower, it feels a little difficult to breathe.

But Li Tian did not give up, and Li Tian had no reason to give up.

The remaining distance of one hundred meters is not a problem for Li Tian at all. It is because at this time the high tower on the ground has already begun to collapse, and the high tower has begun to collapse from the area underneath where the seawater first invaded.

And this collapse is extremely fast!

"Damn it, how did I forget the mutant crow? The previous consideration was to take the Void Spirit Race out, only from the tower. Now the Void Spirit Race can solve it by itself, and there is no need to go from this height. Fleeing from the tower!" Li Tian brought the mutant crow out of the void of Yasha.

In fact, Li Tian has fallen into a fixed mindset.

When the tower was underground, the tower was underground, and Li Tian couldn't use the mutant crow, but when he got to the ground, Li Tian's mind was still quietly fleeing through the tower, but he forgot the mutant crow.

As soon as this mutant crow came out, he was completely shocked by the sight before him before he came to complain.

Shocked, the mutant crow still complained: "Li Tian, damn it, what is this place? Can't you enjoy your harem life peacefully? You have to bring me into this deep and fiery danger. Is it?"

"Shut up! Take us out quickly! Fly toward the top of the tower, with a small hole in it, from which hole to fly out!" Li Tian said to the mutant crow.

The mutant crow was given out from the tower window, and Li Tian immediately jumped out from the tower window and landed directly on the back of the mutant crow.

After Li Tian jumped out, the tower on the ground began to collapse.

At this time, the sky-reaching staircase built by the Xu Ling clan had already begun to sway and collapsed to varying degrees.

"My lord, save us!"

Seeing Li Tian riding on the mutant crow, those Void Spirit Races stood on the stairs to the sky and waved to Li Tian.

"Damn it, you have many people, and this mutant crow can't leave you behind!" Li Tian shouted.

As soon as Li Tian's voice fell, Li Tian saw the black shadows constantly devouring each other. In less than ten minutes, the dozens of black shadows swallowed each other into two relatively large blacks. shadow.

Seeing this scene, Li Tian immediately thought of the puppet beast he encountered while fighting on the northern wall of Kyoto.

"Damn, do the races of the Netherworld have this kind of mutual devouring hobby?"

And the two black shadows seemed to be squeezing each other, they were directly squeezed into a black shadow.

Li Tian and Mutant Crow were all dumbfounded.

The world is so big that there is no wonder that there are such races.

Wouldn't Li Tian or other people be swallowed into this black shadow someday?

"I have to find a way to make this Void Spirit Clan also recognize the Lord like Xiaoyacha! Only when I recognize the Lord can I feel safe!" Li Tian thought.

At this time, the mutant crow spread its wings, like a golden dragon bird, circling a few times around the heavenly staircase.

"Jump up!" Li Tian said to the black shadow Void Spirit Race.

The Void Spirit Race jumped directly from the sky without any hesitation, and landed firmly on the back of the mutant crow.

What the mutant crow didn't expect was that the black shadow phantom clan looked huge, but didn't have much weight.

The mutant crow flapped its wings and rushed towards the small hole in the sky.

At this time, Li Tian brought Hai Yacha out of the space of Void Yacha again, and held the water-repelling bead tightly in his hand.

Hai Yacha didn't expect that when she came out again, this ancient city under the sea had already become like this.

Hai Yacha's face had both an expression of excitement of breaking away from the shackles of the ancient city under the sea, and feelings of perseverance because of living under the sea for thousands of years.

"Although this ancient city under the sea has imprisoned me for thousands of years, this is where I have lived for so long after all. This ancient city should stay here. Don't be destroyed!" Hai Yacha slammed out his claws and grabbed her body, and pulled hard. , Actually pulled a palm-sized red object from her body.

The whole body is soft, like red jelly, soft and slippery!

Hai Yacha's mouth uttered a few words as if it were a spell, and then Hai Yacha directly threw the object down.

As soon as this object encounters sea water, it begins to gradually change. First, it keeps getting bigger. As the water floats, it is like a soft-bottomed animal, but once these things touch the buildings in the ancient city under the sea, Immediately attached to the building of the ancient city under the sea. In less than a minute, this ancient city under the sea turned into a crimson building, and at this time, the sea gradually calmed down!

The mutant bat has rushed to the small hole and said to Li Tian: "Hurry up, we are going out!"

Chapter 3869: Kitten Island

"Come out, I finally came out!"

The moment it flew out of the ancient city under the sea, tears of excitement were already in the eyes of the Xuling Race.

Li Tian had already put the water-repelling bead in his mouth, and immediately formed a halo around his body. Then Li Tian threw the mutant crow into the space of Void Yasha.

Haiyacha was also extremely excited. At this moment, Haiyacha didn't feel the power in his body passing by.

"It's been a thousand years, and I finally left this ancient city under the sea! Master Li Tian, I don't know what to use to thank you, Haiyacha. I know that an expert like you, ordinary gold and silver jewelry, you will definitely disdain..." Hai Yacha said.

"Wait! You said gold and silver jewelry? If you have these things, you can take them out. Although these things are really useless to me, Li Tian, it is good to play with toys for my little Li Tian!" Li Tian Interrupting Hai Yacha's words.

In the thousands of years of human development, I don't know how many rare and exotic treasures have been swallowed by the sea in the process of transporting them by ships, and scattered on the sea. Since there is now a chance to get this kind of treasure, how can Li Tian miss it.

Of course, Li Tian now has the water bead. He can walk in this ocean and explore treasures by himself, but since Hai Yacha is so passionate, Li Tian must not hurt Hai Yacha's heart!

Hai Yacha was not surprised, and said to Li Tian; "Since Master Li Tian likes this thing, then I will bring back all the treasures buried in this sea, Master Li Tian, but now please still Master Li Tian wait a moment, I want to take back my red yarn!"

This "red yarn" was the frozen layer that was torn off Haiyacha.

Hai Yacha seemed to be chanting a spell. After a few seconds, the "red yarn" floated out of the ancient city under the sea and fell back to Hai Yacha.

"Master Li Tian, let's leave here quickly. The sky of this ancient underwater city has not completely collapsed. If it collapses, the huge boulder we are now on may also fall into the ancient underwater city!" said Haiyacha. Has taken the lead in swimming outside.

Li Tian followed closely behind.

After leaving the boulder cave, Hai Yacha took Li Tian and rushed out of the trench again.

Just after Li Tian and Hai Yecha rushed out of the trench, the sky of the submarine ancient city completely collapsed, and a large amount of sea water poured into the submarine ancient city.

Immediately, a huge water vortex formed on the bottom of the sea. ,

Fortunately, Li Tian and Hai Yacha had already rushed out of the trench, and received little impact.

"Hai Yacha, you should be able to feel the location of Feitian Yacha, move fast in that direction!" Li Tian said.

"Master Li Tian, this kind of swimming is really too slow, let Hai Yacha use the wind and waves ability to take you away!" Hai Yacha said.

Li Tian's face couldn't help showing joy.

"Okay! Let me see your abilities, Haiyacha!"

...

East China Sea, Little Cat Island.

Cat Island has an area of 3.91 square kilometers. On the eve of the end of the world, this Cat Island was an island under the illegal jurisdiction of the Dongying Island State.

At this time, a warship docked a few hundred meters from Xiaoxiaodao Island. Situ Ningbing and other women stayed on the warship. Liu Guoqiang and hundreds of soldiers from the Cangshan ship had already boarded the Xiaoxiaodao Island in advance through the landing craft. .

And Tang Xiaolong followed Liu Guoqiang.

"We... we finally landed on Cat Island!" Liu Guoqiang and the soldiers embraced and shouted excitedly.

At the moment when they landed on Cat Island, Liu Guoqiang and hundreds of soldiers were already excited and tearful.

They were jumping happily, shouting happily, and running happily.

Several soldiers took out their guns and fired continuously at the sky to express their excitement. A few soldiers also drew the national flag of the pre-apocalyptic country on the beach with their sabers, and wrote a few crooked characters below.

"Little Cat Island belongs to China!"

Liu Guoqiang left the excited crowd and began to measure the whole kitten road with his footsteps.

Before leaving the port of Cangshan, when Liu Guoqiang heard that he was asked to follow Li Tian and leave the Army Soul Corps forever, Liu Guoqiang refused at first. Although his personal strength is not strong, it can even be said to be very weak, but Liu Guoqiang believes that this apocalyptic era will end sooner or later, and countries will gradually be established at that time, and at that time, his captain of the Cangshan ship can show his strength and reflect his role.

The other captains who were with Liu Guoqiang gleefully said that Liu Guoqiang must have unintentionally offended the legion commander, otherwise why would Mu Yunlong choose him Liu Guoqiang!

However, when it came that Li Tianjiang had chosen Dongying Island as the destination of his exile, Liu Guoqiang's heart was ignited at that moment.

To drive our warships to the countries of Dongying Island, this is the dream of many Chinese soldiers.

At that moment, the other captains no longer had misfortunes, and looked at Liu Guoqiang enviously. Several captains even changed positions with Liu Guoqiang as required and asked them to replace Liu Guoqiang and leave the Army Soul Corps to accompany Li Tian to exile.

Liu Guoqiang scolded the captains back then.

"It's worth it! Liu Guoqiang has been worth it all my life! The only question now is how to keep this little cat island and don't wait until the end of the end to be taken away by other countries!" Liu Guoqiang thought.

Tang Xiaolong said to Liu Guoqiang: "Leave these to the little boss! Since the little boss has chosen our first stop here, then he already has his way!"

"Brother Li Tian? Although Brother Li Tian's personal strength is very strong, the headquarters can let Brother Li Tian guard the island forever!" Liu Guoqiang asked.

Tang Xiaolong did not speak, but raised his head and looked into the distance to the sea. After a while, he said, "I believe the little boss, he will surprise you!"

At this moment, several soldiers on the beach were holding binoculars and pointing their fingers at the sea in the northwest direction, and said excitedly: "Hurry...look, it's Lord Li Tian, Lord Li Tian is back!"

On the surface of the sea, Li Tian stepped on the waves, as if he was a god, constantly rushing toward him!

On both sides of Li Tian, seven or eight huge sharks followed Li Tian.

Riding the wind and breaking the waves, this is Haiyacha's riding the wind and breaking waves.

This ride through the wind and waves is super fast, far exceeding the speed of a warship, but no matter how fast the speed is, Li Tian has been standing on the sea for nearly two hours, and his legs are almost numb.

But when Li Tian saw the excitement of the women on the warship, and the soldiers on the beach, they were dumbfounded. Li Tian felt that it was all worth it.

Li Tian pretended to show a few white teeth, following the little ladies on the warship, the stunned soldiers waved in greeting.

"Comrades have worked hard!"

Chapter 3870: Steel Fortress (1)

Before landing on Xiaoxiaodao Island, Li Tian thought that Xiaoxiaodao Island might be a big island, but when Li Tianzhen saw Xiaoxiaodao Island, he realized that Xiaoxiaodao Island was really too small.

Seeing this small island, Li Tian didn't know how to start.

Before, Li Tianneng thought of building this little cat island into an island like the Maldives. Even if the end of the world is over, the island will attract many tourists. Many tourists will come here for vacation and make this island a real island. Use the island of value so that it can be under long-term jurisdiction.

But now it seems that Li Tian's idea is a bit too simple.

Li Tian boarded the Cat Island, then Liu Guoqiang immediately followed him, saluting Li Tian, and then said, "Master Li Tian, now this Cat Island has been occupied by us, what instructions will Master Li Tian give next? "

Looking at Liu Guoqiang's hopeful eyes, Li Tianzhen did not want to disappoint Liu Guoqiang.

"Why don't you let Dixing Yasha build a tall wall around this little cat island to enclose this little cat island?" Li Tianxin thought, but soon Li Tian completely dismissed his idea. .

"Master Li Tian, have you forgotten the Void Spirit Race? There are not only the Void Spirit Race, but also My Di Xing Yasha, and Hai Yasha! What kind of island do you want to transform Xiaoxiaodao into? Tell me first , See if we can finish it?" Dixing Yasha said to Li Tian through his mind.

That's right, why did I forget that there are still Ethereal Races!

Even at the bottom of the sea, the Void Spirit Race could build a city, not to mention the kitten island now.

Li Tian immediately informed Dixing Yasha and Hai Yasha of his thoughts through his mind.

Dixing Yasha and Hai Yasha whispered for a long time, and then both Xiaoyasha nodded excitedly.

"Master Li Tian, just take a look! This little cat island is left to us to deal with, but, except for the Ethereal Race, you need to bring everyone to the warship, at most one night, We can complete the transformation!" Dixing Yasha said.

Liu Guoqiang looked at Li Tian not speaking, and his heart was a little disappointed.

He knew that his hopes were too high.

Don't mention Li Tian alone. Before the end of the world, our country didn't know how much time and financial resources it took to build the intentional island in the West Sea.

"Give me one night, let me think about how to deal with it. By tomorrow morning, I will give you and everyone on the Cangshan ship a satisfactory answer!"

Li Tian went on to say: "Now everyone is following me on the warship. No one is allowed to stay on this kitten island!"

Although I don't know what Li Tian was thinking, Liu Guoqiang still carried out Li Tian's orders!

After boarding the warship, Li Tian leisurely and elegantly put the tables and chairs on the deck of the warship, and ordered the chef of the warship to cook a delicious meal, which was regarded as a reward for the Cangshan ship landing on Xiaoxiaodao.

Then Li Tian took Situ Ningbing, Duanmuying, Ouyang Shiqing and other women, and Tang Xiaolong, Shen Tao, and Gaobi sitting on the deck chairs, blowing the sea breeze, bathing in the evening sun, watching the sunset and the setting sun. .

The other soldiers on the Cangshan ship saw Li Tian taking a group of women and brothers, eating, drinking, and playing around, and they even had a party on this warship, and they were suddenly very angry.

Following Li Tian, these soldiers thought that they would go to Dongying Island to kill a few more island zombies, so that Dongying Island could really become a province of the Chinese Legion as they thought before.

And after landing on the Cat Island, these soldiers seemed to see a little hope, but... But this Li Tian directly dared everyone off the Cat Island, and then watched them on this warship!

The contrast between the front and the back filled the hearts of these soldiers with anger.

At the beginning, many soldiers just whispered and cursed Li Tian, and occasionally had the courage to vent their grievances and complaints.

But this kind of dissatisfaction continues to fill the air, and more and more people are affected by this.

"boom!"

A soldier slammed the dinner plate in front of him on the table, ignoring that the soup from the dinner splashed over him, and said angrily: "After the end of the world, how many brothers of our military soul have shed blood and sacrificed for this country. How many brothers often lack food and clothing, but have you seen Li Tian? This **** who was exiled, actually hugged so many women with him, really regards our Cangshan ship as his yacht!"

"Wow!"

A soldier angrily opened the gun safety latch in his hand, and angrily agreed: "Yes, this is a military camp. Even if he is not a soldier, Li Tian doesn't even have this common sense? The smog of the Cangshan ship. . Let me sweep this bastard..."

The soldiers in the warship restaurant became more excited and angry as they spoke. Gradually, other people were also infected. It seemed that these people would rush out to kill Li Tian, Tang Xiaolong and others with machine guns.

Liu Guoqiang kept delivering food to his mouth, chewing the food and looking at the troubled soldiers coldly. Liu Guoqiang did not speak, but this attitude was like Liu Guoqiang indulging the soldiers making trouble like this.

"Captain, these guys are getting more and more angry. If you don't keep everything, they will go out and ask Li Tian to question, what do you mean?" The first officer Gao Zheng asked in a low voice beside Liu Guoqiang.

Liu Guoqiang pushed the plate forward, threw his chopsticks on top of the plate, touched his mouth with his hand, and said, "I'm full and sleep well! Who the **** dares to make trouble tonight, I shut him up! The dungeon on our warship has not been in for some days!"

Hearing Liu Guoqiang's words, the soldiers in downtown suddenly stopped.

After Liu Guoqiang left, several of his cadre-like soldiers leaned in front of the first officer Gao Zheng and asked, "What the **** does this captain mean? This **** is his Cangshan ship! Who was there before? When he spit on the warship, his **** thing will be locked up. Now that Li Tian is carrying a woman on the warship, why is he dumb?"

"Don't you wear ears? The captain said that no one can cause trouble tonight, but that doesn't mean we can't cause trouble tomorrow!"

"But is there any difference between tonight and tomorrow?"

"Pig brain, didn't you listen to the captain? Li Tian made a promise to the captain today. Regarding how to transform Xiaoxiaodao Island, Li Tian will give the captain and us an answer tomorrow morning."

"Okay, I'll let the brothers bear with me for another night. If the answer Li Tian gives us tomorrow does not satisfy us, then don't blame the brothers for being rude for a long time. The big deal will be Li Tian, who is expelled, directly with his wife and brother Throw it on this kitten island!"
