

## A Killer 3881

Chapter 3881: First encounter with a ninja

Li Tian wanted to send Duanmuying to the space of Void Yasha, but Duanmuying was unwilling.

Although Duanmuying is pregnant, she is also the strength of the commander of the top ten legions, let alone these low-level zombies, even if they are besieged by zombies above level 15, Duanmuying may not be afraid.

Li Tian can only stand beside Duanmuying as a flower protector.

And Tang Feifei and Windsor, two loli with relatively little combat effectiveness, also followed Li Tian.

These zombies flocked to them, without Li Tian's order, they had already killed them.

"boom!"

The sniper rifles of Bai Jing and Xue Ji have reached the point where they do not need any aiming, just lift them and pull the trigger, and the bullet will shoot through the head of a zombie.

"Huh!"

Kobi held the re-created iron chain, as if it were an ecstasy messenger. When the chain hits it, the series of zombies are immediately covered with skin and flesh, and the bodies of the few zombies that rush to the front are completely exploded. opened.

"Huh!"

Situ Ningbing's two-dimensional cast of "The Hermit Killing Technique" flashed back and forth among the crowd of zombies, and every time it appeared, a zombie would fall under the two-dimensional black thorn.

On the other side, after a brief period of independence in Chen Zhong, Shen Tao was also a little more murderous. Seven or eight zombies rushed towards Shen Tao, and Shen Tao's palms slammed out like a cloud of mist. The substance of squirted out from Shen Tao's body, and these seven or eight zombies were completely enclosed in those substances when they were still seven or eight steps away from Shen Tao.

Crystal clear, like ice, and those zombies were completely immobile in these substances.

Previously, if Shen Tao's ability was to deal with humans, it would be good for ordinary people to be trapped in this ice-like substance, and within a few minutes they would die from suffocation, but dealing with zombies was a bit difficult. After all, zombies are not. Will die from suffocation. Once the time is up, this matter dissipates, and these zombies will rush towards Shen Tao again alive.

Li Tian looked at Shen Tao, wanting to see how Shen Tao would deal with this situation.

"Hey!"

At this moment, the innermost layer of the ice-like substance suddenly appeared a few sharp long thorns. These long thorns directly penetrated the bodies of the zombies, but more long thorns directly penetrated the zombies. Head.

These zombies have only one ending, and that is: death!

Li Tian is really unexpected.

For three days, Shi Bie was very impressed, and Shen Tao unexpectedly gave Li Tian such a surprise.

Although Shen Tao's current strength is far from reaching the level of Tang Xiaolong and others, this Shen Tao is a guy who can use his brain.

On the other side, Liu Guoqiang's gun kept firing bullets.

"Wow!"

"Wow!"

With these dozens of soldiers, the bullets of various firearms in their hands were fired according to a certain time rule, and the zombies fell down row by row, just like cutting wheat.

The undead zombies crawled on the ground, crawling forward slowly, and finally approached Liu Guoqiang and the others, but they were immediately stabbed to death by Xiao Tianyi with a long bone thorn.

Liu Guoqiang and the others have a large number of people here, and when facing these low-level zombies, they have shown the benefits of a large number of people, and the speed of harvesting the lives of the zombies is much faster than that of Li Tian.

However, as the number of dead zombies continued to increase, Liu Guoqiang's face became more solemn.

"No, these zombies are too much. Our bullets are consumed too fast. If we continue to fight under this situation, we can't hold on for long! Master Poetry, or let's play with Master Li Tian!" Liu Guoqiang asked Ouyang Poetry.

Ouyang Shiqing shook his head slightly, and said, "It is not necessary to deal with these zombies!"

Then Ouyang Shiqing turned to Ouyang Man and said, "Silly Man, it's up to you!"

Silly Man'er groaned, wearing armor and carrying an epee two steps forward.

In these two steps, Silly Man'er was able to walk seven or eight meters out, and Silly Man'er just walked out of the crowd, and the numerous low-level zombies immediately swarmed towards Silly Man'er.

"Humph!"

Silly Man'er snorted coldly, holding the heavy sword in one hand, and violently waved at these rushing zombies.

"Huh!"

The dozen or so zombies that rushed over were cut in half by the silly man's sword in just an instant.

"Wow!"

The internal organs of these zombies' bodies were mixed with black mucus and fell to the ground, while those zombies who had lost their lower body supported their bodies with two claws and slowly crawled towards the silly man.

Silly Man'er walked a few steps quickly and stretched out his feet to trample these zombies to death.

Killed these seven or eight zombies, but more zombies rushed over!

"Huh!"

"Huh!"

Ouyang plunged the epee violently on the ground, and a series of weird runes gushed out from the ground, appeared on the epee, and appeared on Ouyang Man's armor.

Ouyang Man rushed directly into the group of zombies like a tank.

With each sword down, a dozen zombies immediately exploded under Ouyang Man's heavy sword.

In almost a few seconds, Ouyang Man's body was already surrounded by various stumps and arms.

Killing God is nothing more than that.

However, tens of thousands of zombies followed suit.

The more Ouyang Man killed, the more zombies rushed over.

Li Tian keeps an eye on the battle in Minami Kyushu.

Li Tian found that he was thinking too simplistically. It stands to reason that even if these zombies are of a low level, Ouyang Man is a level 18 or above zombies, and the powerful combat power he releases is sufficient for other low-level zombies. Feeling trembling, but these zombies didn't know it was fear at all, and didn't know how to shrink back.

These are four to fifty thousand zombies, not four to five hundred, nor four to five thousand.

These zombies are really like tides. Just relying on Li Tian and others to kill them with one knife, one shot, one shot, I am afraid they may not be able to kill them tomorrow.

When the manpower is always exhausted, these zombies are not afraid of death at all. If this goes on, Li Tian and others will naturally have no problems.

"Are these zombies controlled by someone? If this is the case, then this person may not be too scary!"

"No, you can't let these low-level zombies haunt us! We must fight quickly!" Li Tian said.

"Hey, your reaction is too slow!" A cold voice suddenly appeared behind Li Tian.

Chapter 3882: First encounter with a ninja (2)

A cold light suddenly flashed, and it flashed directly at Duanmuying's body.

It's a knife!

Dongying knife.

This cold light can even make people feel that the hairs of the body are erected.

Li Tian was shocked!

When did this person appear behind Li Tian?

At this time, Li Tian has no time to think about these things. What he thinks now is to save Duanmuying.

In fact, there is no need to think about it. Li Tian subconsciously took Duanmuying in front of him. He stretched out his hand and sent Duanmuying into the space of Void Yasha, and at the same time shouted: "Jie!"

In an instant, the "Red Slash" combined with the nine-color corpse crystal in Li Tian's heart, forming a layer of crimson armor like skin around Li Tian's body, and the "Red Slash" knife Ling Ye immediately surrounded Li Tian's body.

"Chang!"

The Dongying knife slashed heavily on Li Tian's body, making a metal-like crash.

Sparks are flying everywhere.

The armor looked as soft as skin, but its toughness and hardness were far beyond Li Tian's expectations. The blade slashed on the skin without even the slightest scratch.

The figure of that person finally flashed out.

Ninja!

It turned out to be a ninja!

To Li Tian's surprise, this ninja was not actually in Dongying language.

This man dressed as a ninja, his entire body was wrapped in a gray-black ninja suit, and he held a Dongying Ninja sword in his right hand.

With a miss, the ninja's eyes could not help showing a look of astonishment.

And Li Tian had already made a counterattack in a second, it was Li Tian's most powerful move now: Soul Breaking Fist.

Li Tian threw an iron fist, but was avoided by the ninja who had prepared.

"Boom!" With a loud noise, a small two-story building behind the ninja was attacked by Li Tian's Soul Breaking Fist, and half of the wall collapsed directly.

This ninja was even more shocked.

The ninja performed a few backflips, then slid his body and jumped directly to a two-story building behind him. But his left hand suddenly dropped a small black ball on the ground. After the small black ball fell to the ground, it immediately turned into a cloud of smoke, and the ninja suddenly disappeared again with the cloud of smoke.

This is the most basic fire escape technique of Dongying Ninja.

It is a way to use smoke bombs and the like to temporarily confuse the enemy and escape.

"Huh!"

There was another knife light flashing up the second floor.

The ninja who had just disappeared suddenly fell from the second floor.

And this ninja's abdomen had a wound nearly one foot in length.

The blood continued to flow out of the wound, and within a few seconds, the ninja's body was infested by the blood.

Ouyang Shiqing's figure appeared above the two-story building.

The ninja still wanted to escape, but Li Tian had already appeared by his side with a teleport, and Situ Ningbing also jumped down from the top of the building. The butcher knife in his hand was already pointed at the ninja's neck.

"You better stay still, otherwise..."

"Li Tian, I didn't expect your strength to be so strong. Our ninja's ninjutsu sneak attack could be avoided by you. However, I am just a ninja, and it is not your ability to escape my attack. After me, there will be countless ninjas who will welcome you to Dongying!" The ninja said with a sneer.

"Really? I really want to see you Dongying's ninjutsu! But I'm curious, why do you say our words?" Li Tian asked suspiciously.

"Hmph, don't want to get any useful information from my mouth, we ninja will never tell you any information even if we lose our lives! If you want to kill, you have to know it!" said the ninja.

Situ Ningbing smiled and said, "Li, the ninja has four precepts, one of which is tight-lipped. This person won't tell us any useful information. However, I understand a little bit about the question you just asked! This ninjutsu, also known as hermit, originated from the five elements of the Han Dynasty in our country. So you can see that my "Hermit Killing Technique" is somewhat similar to this ninjutsu. In the Tang Dynasty, ninjutsu was introduced to the East because of this, the oldest ninja organization needs to learn our language, so it's not surprising that these ninjas know what we say."

"In Dongying Island, the main ninja genres are Iga Ninja and Koga Ninja, but I don't know which genre this ninja belongs to!" Situ Ningbing said.

"Baga! The ninja belongs to our Dongying, not from you! Your martial arts is really weak, not our ninja's opponent!" The ninja said in a mocking tone.

Li Tian sneered, stretched out his hand and pointed, and a mass of air flew out and hit the ninja sword in the ninja's hand, "click!" With a sound, the ninja's sword was interrupted by Li Tianyi's finger.

"Since you have ninja precepts and won't tell me anything, then why should I keep you?" Li Tian said with a sneer.

Li Tianshun used his hand to cast several Xuantian fingerings in succession, and the gas bullet directly hit the center of the ninja's eyebrows. Before the ninja had time to let out a scream, he couldn't die again.

At this time, through the sight of Feitian Yasha soaring in the sky, Li Tian found that although their people were brave, there were too many zombies here. At this time, the soldiers in Liu Guoqiang's team had already fired their guns. After the bullets were gone, the gunshots over there had become sparser. If Ouyang Man and Xiao Tianyi hadn't been brave, there might have been a rout there.

And here, Gaobi, 2D and others have also shown exhaustion.

"It's time to end!" Li Tian said to himself.

"Dixing Yasha, Hai Yasha, you two can do it!" Li Tianyong said to the two Xiaoyasha through his mind.

With Li Tian's order.

It had already shook abruptly in Li Tian's land, and quicksand constantly turned from the ground, swallowing the zombies on the ground directly, and buried them in the mud.

Even if these zombies have immortality, they will become fertilizer sooner or later if they are buried in this soil.

This land Xingyacha shot, it would not be slaying two zombies one by one. In an instant, hundreds of zombies were buried in the mud.

Large tracts of houses began to collapse, and some zombies had been suppressed by the collapsed houses before they rushed to Li Tian and the others.

The ground under the feet of Li Tian and others, Liu Guoqiang and others suddenly began to shake, and then the ground suddenly began to rise. Within a few minutes, on the streets of the original South Kyushu City, there appeared two more than a few meters tall. A hundred-meter peak.

Those zombies began to gather around this mountain again and again.

At this time, a wave suddenly appeared on the originally calm sea in the distance. The wave was three or four meters high at the beginning, and as the back wave continued to beat the front wave, it took less than a minute for the wave to be there. Ten meters tall.

This ocean wave contained an aura of destruction, and rushed onto the seawall and into South Kyushu City.

Wherever the waves went, the houses were shot down instantly, and the zombies were caught in the waves before they could escape.

Chapter 3883: Abdominal clump (1)

The twenty to thirty thousand zombies around the two mountain peaks were swept into the wave to feed the fish.

When the tide receded, the entire Minami Kyushu City had become a ruin.

The car was on the roof, the trees were destroyed, and the streets were full of silt. The few zombies that were not swept away by the tsunami were also confined by the silt, like a shrimp crawling, sliding in the silt.

This is the power of Haiyasha, the power of the tsunami.

Of course, the quicksand storm of —{m Dixing Yasha can also achieve this effect, but this quicksand storm is really a bit of a sledgehammer against such a small city, and Haiyasha wants to perform, Li Tian always has to give the sea Is Yasha a chance!

Standing on the mountain, Liu Guoqiang and many other soldiers were once again shocked by Li Tian's methods.

"Although I knew Li Tian's methods when I saw the transformation of Cat Island, but only now I believe that Nanzhou Cheng's thing is true."

"It turned out to be so easy to destroy a city with one's own power! It turned out to be so simple in Li Tian's hands! Had it not been for Master Li Tian's means to make such a mountain appear under our feet, I am afraid we would have been killed by the tsunami by now!"

"Tsunami? I'm afraid that if you can't insist on the arrival of the tsunami, the bones and dregs will be eaten by those zombies!"

"Boom!"

The ground shook, and the two suddenly-appearing peaks gradually fell under Li Tian's control, and finally disappeared completely.

Di Xing Yasha suddenly slammed out of the ground, jumped into Li Tian's hands, and said excitedly: "Master Li Tian, my performance today is not bad!"

"Yes, yes, you and Hai Yacha performed well!" Li Tian immediately gave a positive compliment.

At this time, Young Master Void walked out of the space and landed on Li Tian's shoulders, and said with a disdainful expression: "It's just a few tricks, what's something to be proud of! This Young Master doesn't bother to take action, otherwise he can't turn Show up on you!"

Feitian Yasha also flew down from high in the sky, landed on Li Tian's other shoulder, and said: "Master Li Tian, my dark cage training has been completed, and I must show it next time!"

"Good! Good!" Li Tian nodded quickly.

At this time, there are not many complete houses in South Kyushu City. Liu Guoqiang led people to step on the ruins and quickly came to Li Tian, and said to Li Tianjing: "Lord Li Tian, thank you! If it weren't for you, I'm afraid we brothers. I'm going to explain here!"

Li Tian smiled slightly and said, "Captain Liu, if you don't suggest it, call me Brother Li Tian from now on, and I will call you Big Brother Liu, otherwise, don't we seem too strange like this?"

Liu Guoqiang was startled, his heart was full of excitement.

Li Tianna is the grandson of the Mu Yunlong Army, and he is such a well-known figure, to be able to be brothers with Li Tian, for Liu Guoqiang, it is naturally a desperate thing.

However, as a soldier, Liu Guoqiang quickly concealed his excitement.

Liu Guoqiang nodded heavily and said, "Li Tianda...Brother Li Tian, this small town has been completely destroyed by the tsunami. If we want to replenish it, I am afraid we will go to another place. But, the ammunition in the hands of my brothers. It's not enough, now we need to replenish some ammunition, so..."

"Brother Liu, take your brothers on the warship, and let me take care of the rest!" Li Tian said.

Liu Guoqiang knew that he was following Li Tian and the others, I am afraid that he could not help much, so he did not object, nodded, and walked towards the beach with his dozens of brothers.

Ouyang Shiqing, Ouyang Man and Xiao Tianyi were left by Li Tian.

On the Cangshan ship, Tang Xiaolong and Lily would be enough to help guard.

The remaining zombies in South Kyushu City were no longer in any danger. Li Tian led everyone to kill all these zombies without leaving them.

The most prosperous place before I came to South Kyushu, the altar building was also smashed by the tsunami, and the statue enshrined in the shrine did not know where it fell.

But Li Tian's expression was not relaxed at all.

"It seems that this Dongying island country has already been controlled by the Three Corpses, otherwise these altars will not appear here. Altars, altars, what are these altars for? Poetry, do you know what these altars are for? Is it?" Li Tian asked.

Ouyang Shiqing shook her head and said, "The previous memory has almost completely disappeared!"

"Li, do you say that these three corpses are thinking of building a unified zombie kingdom in the earth world, and then their three corpses will be the gods of the earth world and accept the gods worshipped by everyone?" Situ Ningbing said.

"It's possible, but the three corpses are now like gods on earth. Why do they build altars and shrines?"

"Could it be that these altars and shrines can bring power to the Three Corpses?" Ouyang Shiqing said suddenly.

Li Tian and others looked at Ouyang Shiqing in surprise.

Carefully, it seems that there is such a possibility, and this possibility is still very large!

"But in this way, let's simply make this Dongying Island country upright, eradicate all the puppets belonging to the Three Corpses on this Dongying Island country one by one, and destroy these altars one by one!" Li Tian said.

Situ Ningbing said, "Although the area of the four eastern islands is not very large, it may not be easy for us to destroy all the altars on the four eastern islands. Also, once we arrive at Ruhr Island, Was attacked by tens of thousands of zombies and ninjas. I am afraid there is something else hidden in it.

"I also feel this way. It seems that someone seems to know that we are coming to the four islands of the East and wait for us here on purpose." Xue Ji also said in agreement.

There was a sneer at the corner of Li Tian's mouth.

"That's interesting. If there were no ninjas, and if there were no enemies, then how lonely we would be when we came to the four islands of the East! Now we are heading towards Ruhr Island City, I want to see who is waiting for us! "

...

West Kyushu, Fukuoka Prefecture, the largest county in West Kyushu.

In a martial arts field in Nancheng District, Fukuoka City, the commander of the pilgrimage and holy legion had seven or eight more sword wounds on his body, and he was lying on the ground.

The wound on his body was extremely heavy, but there was no blood flowing from it, and the wound was not bright red, but a little whitish, it felt like the skin at the wound had been necrotic.

In front of Chao, a ninja in a brown ninja suit held a sword in his hand and pointed it at his head.

The ninja in the brown ninja suit shook his head and said with a sneer: "Tsk tsk, it's really disappointing. Is this the strength of the commanders of the top ten legions? That's all!"

"Abdomen in the sky! I'm the Three Corpse Lord, dare you be so disrespectful?" Chao said angrily.

"It's really surprising that Master Three Corpses would take you this kind of waste! We, Dongying Islanders, only believe in strength. If you are strong enough to conquer us, then we can bend down to respect you, even Can become your dog, kneel and lick you! But, if you don't have that strength, hehe, in our eyes, then you are not as good as a dog!" Tian Cong said with a sneer on his belly.

Chapter 3884: Abdominal clump (2)

With a sword in his hand, Tian Cong held Chao's chin, looked at him with extreme contempt, and said, "Now, you have two options. First, follow me like a dog in the future, for me and for the three corpses. The adults guard the East and West Kyushu Island! Second, where did you go back from where you came from! Oh, yes, you can still commit suicide like a man and die here!"

the man?

A trace of self-deprecating appeared at the corner of Chao Chao's mouth.

Since meeting Sheng, Chao is no longer a man! m]br/>

At this moment, Chao remembered the scene where he and Sheng met, and the scenes where he and Sheng got along day and night.

Chao's teeth bit her lower lip tightly, and the bite is bleeding.

As the commander of the Ten Legions, Chao's heart was full of anger when he was humiliated by Tian Cong in his belly.

But this kind of anger was completely inadequate when compared to the anger of Saint Death in Li Tian's hands.

It is for this reason that the commander of the Korean army will not hesitate to abandon the entire pilgrimage and holy army to find Li Tian's trouble.

"Li Tian, I only want Li Tian to die in my hands! Only when Li Tian dies in my hands, everything I have done is worthwhile!" Chao thought in his heart.

Chao finally lowered his head, half-kneeled in front of Tiancong's abdomen, and said: "I am willing to be a dog of Master Tiancong in the abdomen, but I have one condition. If one day Master Tiancong in the abdomen can catch Li Tian, please let I personally killed Li Tian!"

"Hahaha, it's easy to say! It's just a little Li Tian, who can make you, the commander of the top ten legion, feel so embarrassed. The strength of the commander of your ten legion is really enough. Don't worry, this whole thing. West Kyushu Island is under the control of Tian Cong in my abdomen. As long as Li Tian dares to reach this West Jiuzhou Island, I will make him pay a painful price!" Tian Cong said with a sneer in the abdomen.

In the apocalyptic era, the island nation of Dongying is not a closed country.

Every few months, this belly sky cluster will send ninjas across the sea and send people to other countries to collect some intelligence.

Therefore, the information in the hands of Abdomen Tiancong is still on Li Tian's participation in the Forbes personal strength competition.

Chao originally came up with a word to remind the sky clump in the abdomen, but when he saw the proud expression on the sky clump in the abdomen, Chao lowered his head again.

At this time, a man in ordinary clothes in the courtyard walked quickly to the side of Tiancong's belly and whispered a few words in the ear of Tiancong's belly.

The face of Tian Cong in the abdomen immediately showed a serious expression, nodded slightly to the man, and then continued to say a series of bird words.

"Hi!" The man lowered his head heavily before turning around and leaving.

When the man left, Tian Congcai's mouth showed a sneer at the corner of his abdomen and said: "You will not be waiting for long. Li Tian has already landed from near Ruhr Island. I would have guessed that he will be there. Landing near Narur Island, so in that place, the sky cluster in my abdomen was ambushing heavy soldiers. There were three upper ninjas, and each of these upper ninjas had several middle ninjas and dozens of lower ninjas. And, Because of the teachings of Lord Three Corpses, these ninjas can control the zombies, so it will be a net of heaven and earth waiting for Li Tian."

A trace of disdain flashed across Chao's face. Although Chao had been well hidden, he was still seen by Tian Cong in the abdomen.

"Huh, Master Zipao has taught us more than half a year in this Dongying island country. In this half a year, our ninja's ninjutsu can be said to have advanced by leaps and bounds. Even if Shangnin meets you, the so-called commander of the top ten legions. It's almost the same. What's more, there are three Shangnin on Naruul Island, and the four Shangnin who stationed in Kumamoto and Miyazaki prefectures have also rushed to Ruel Island. I don't believe him Li Tian faces the seven of us. Shinobu still has the strength to resist!" Abdominal Tian Cong said with a sneer.

Hearing this, Chao Ye put away his mocking expression.

Before coming to Dongying Island, North Korea was full of contempt for Dongying Island.

In the last three years, the Dongying Island Country did not have any legion commander in the top 500 in terms of strength. This is extremely inconsistent with the Dongying Island Country's population of over 100 million. It is precisely for this reason that the North Korea is full of contempt.

A small island country that doesn't even have a decent legion, heading toward the commander of the ten major legions like this, isn't that a god-like existence?

This is Chao's true thoughts.

The boat that Chao took went straight to Dongying Island. There was no detour to Kitten Island and no stay at Kitten Island, so Chao arrived in Fukuoka Prefecture on West Kyushu Island two days earlier than Li Tian.

However, when the DPRK arrived at the four eastern islands, he found that these four eastern islands were completely different from what he had imagined.

While the humans in the country are still in endless battles with zombies, the residents and zombies of West Jiuzhou Island can already coexist peacefully.

On the bustling streets of Fukuoka, almost everything is in order, except for the zombies walking around, there is almost no difference from before the end of the world.

And Chao discovered that this Fukuoka was full of vitality because of the existence of these zombies.

This discovery made Chao full of excitement.

Chao didn't expect him to be sent to such a place by the Three Corpses.

Chao felt that his spring was coming, as long as he beheaded Li Tian here, then the three corpses would definitely reward him, and then he would definitely become the master of the four islands of the East.

Therefore, the DPRK was very arrogant to find the most powerful army in Fukuoka Prefecture and demanded to take over the entire Fukuoka Prefecture.

As a result, the legion commander with a mocking expression on his face led Chao to the martial arts venue, and asked Chao to ask himself whether the master of the martial arts venue agreed to take over Fukuoka.

And the master of this martial arts venue is a Shangnin. After a great battle, Chao finally defeated that Shangnin. I thought he could finally take over Fukuoka, but he did not expect that Shangnin moved out of the belly Tiancong , As a result, Chao was tragic. The person who was beaten by Tian Cong in the abdomen was unable to fight back, and his body was also chopped by the strange sword in the hands of Tian Cong in the abdomen!

Shangren is already a very powerful existence in the current Dongying Island Country.

Chao's face also showed a sneer, thinking coldly in his heart: "Li Tian, let me see how you deal with the seven Shangren who have the same strength as you!"

...

Li Tian didn't know what happened in Fukuoka.

Li Tian didn't know that Chao had already come to Dongying Island.

But ninja, Li Tian and others have indeed seen it.

"Huh!"

Another cold light suddenly appeared out of thin air and slammed into Xue Ji.

When this cold light appeared, Xue Ji instantly used the "Mission Sword Technique" to shake the sword away with the Dragon Sword.

At the same time, two more cold rays suddenly flashed from behind Li Tian and slammed into Li Tian's back.

Chapter 3885: Consecutive attacks

This is the third wave of sneak attacks that Li Tian and others have encountered. .

Li Tian had already prepared in his heart.

In the face of these two cold lights that suddenly appeared, Li Tian was not afraid, and suddenly blocked with "Red Slash", and his body instantly moved back.

When Li Tian was about to land, two ninjas suddenly jumped out of the grass behind Li Tian.

The two ninjas yelled not Demacia, but bird language, which Li Tian couldn't understand, but don't guess, it's like "Take it to death!"

At this moment, Li Tian's body was still in the air, and he was suddenly flanked back and forth. If he was an ordinary person, I am afraid he would have to explain here.

As for Li Tian, his body was still in the air, his mind moved, and he moved instantly in actual combat.

"Huh!"

Li Tian had already appeared behind the two people who had just jumped out of the bushes. The "Red Zhan" with his right hand slashed horizontally towards one of the ninjas, while the left hand directly blasted the other with a broken soul fist The back of the ninja.

The ninja's reaction was not unpleasant. The moment Li Tian appeared on his back, the ninja suddenly turned around and blocked the "Red Cut" with the ninja knife in his hand.

"Kacha!" With a sound, the ninja knife was cut by Li Tian's "Red Cut", and the "Red Cut" slashed sharply across the ninja's chest.

"puff!"

Blood spurted out of this ninja's chest in an instant, and a large swath of blood appeared on his chest in an instant in his tea-green ninja suit.

The ninja looked down at his chest in disbelief, and found that he could actually see the bones and internal organs in his chest.

"No...impossible!" This ninja should have said this.

In an instant, the ninja fell softly to the ground, and could not die anymore.

And another ninja didn't have such a good treatment.

This ninja didn't even have a chance to react, so he was hit by Li Tian's soul-breaking punch in the back.

This ninja was still wearing chain mail, and ordinary swords could definitely not hurt him, but Li Tian's soul-breaking fist fell on him, and he felt as if he was hit by the Shinkansen on his back. The whole body turned over and over, and it exploded in an instant.

"puff!"

The ninja vomited blood and flew forward more than ten meters before landing on the ground.

The ninja who attacked Li Tian just now had already appeared. Seeing Li Tian so tough, his heart was suddenly full of fear.

"escape!"

Another of the four commandments of the ninja.

In the face of danger, abandoning all self-respect and fleeing, knowing that they are not Li Tian's opponents, they will definitely not risk death to continue fighting with Li Tian.

However, seeing the two ninjas about to escape, Li Tian's mouth showed a sneer.

"Escape? Can you escape? Know that we are the ancestors of your ninjas!"

As soon as Li Tian's voice fell, Situ Ningbing and Wei Wei suddenly appeared in front of the two ninjas.

"puff!"

"puff!"

The two ninjas turned out to be like rabbits hitting a tree, directly hitting the blades of Situ Ningbing and Wei Wei.

The heart is cool and the heart is flying.

The two ninjas only felt a chill in their hearts, and they had died in the hands of Situ Ningbing and Wei Wei without a chance to fight back.

The two ninjas also wore chain mail, but they slammed into Situ Ningbing's butcher and the two-dimensional black thorn. In addition, they were eager to escape and flee at full speed, which naturally penetrated.

On the other side, the ninja facing Xue Ji realized that he was not Xue Ji's opponent at all. The more he fought Xue Ji, the more shocked he felt.

Seeing that the four people here attacked Li Tian and they were easily killed by Li Tian, and seeing the sudden appearance of Situ Ningbing and Wei Wei, he completely lost the courage to continue fighting.

"Fire escape!"

The ninja also yelled a word, and then suddenly threw two smoke bombs on the ground.

However, after the two smoke bombs fell on the ground, they went straight into the ground without exploding at all.

And this ninja already wanted to follow the smoke to cast the fire escape technique to look very funny.

This ninja is also a ninja.

The so-called fire escape technique is just like a magician's blind eye technique, using smoke, and then quickly casting the body technique, flowing into the nearby grass or buildings.

Therefore, when the two smoke bombs did not explode, Li Tian and the others saw the ninja digging into the grass beside him like a thief.

"Snapped!"

Ouyang jumped up violently, and the heavy sword in his hand slapped the ninja heavily.

Ouyang Man used his most brutal force to attack this ninja because he had reduced his strength for ten guilds.

The ninja had realized the danger of death, and subconsciously launched a few shurikens and hidden weapons at Ouyang Man. As a result, these things hit Ouyang Man's armor, only to bounce a few sparks and land on the ground.

And Ouyang Man's epee had been placed on the ninja's head.

"Do not!"

The ninja yelled unwillingly, and then resisted the epee with the ninja sword in his hand.

"Crack!"

The blade in the ninja's hand made a crisp sound, and it broke in half, and then the heavy sword hit the ninja directly.

It's like swiping flies.

The whole scene can only be described in blood.

"Hehe, I didn't control the power by accident!" Ouyang said with a smirk.

Situ Ningbing frowned involuntarily.

Two-dimensional eyes twinkled with small stars, looking at Ouyang Man with joy.

Xue Ji collected the Dragon Sword and came to Li Tian and said: "Li Tian, we have just left South Kyushu City not long after we have encountered several waves of attacks. If we follow this speed, I am afraid that we will not be able to reach the night Ruhr City!"

"Don't worry! I feel that if you follow this method, Zhongren or Shangren will come to you soon! Capture the thieves first. As long as we kill those Shangren, there will be nothing at that time. It's dangerous!" Li Tian said.

When leaving South Kyushu City, Li Tian sent Duanmuying and others to the space of Void Yasha, leaving only Li Tian, Xueji and Ouyang Man as bait, while Situ Ningbing and Weiwei The two masters and disciples used hermit killing skills to secretly follow Li Tian and the others, and then counterattack the sneak attack ninjas. This way, the effect is surprisingly good.

And at this moment, a rustling sound suddenly came from the grass in the distance.

Immediately afterwards, countless hidden weapons flew out of the grass, no, not only hidden weapons, but also detonating symbols!

This detonation talisman can only be used skillfully by ninjas of the middle ninja level. This hidden weapon is mixed with detonation talisman, and if one is not handled properly, it may suffer double or even multiple damage at the same time.

"drink!"

Silly Man'er gave a burst, jumped up suddenly, and jumped in front of Li Tian and the others, using his body to be in the direction of these hidden weapons and detonating charms.

"Cracking!"

It was the sound of a hidden weapon hitting the silly man's armor.

"boom!"

"boom!"

Continuous explosions sounded on Silly Man'er.

Chapter 3886: Shinobu

In the next second, Li Tian teleported in the grass, but there was no trace of the ninja in the grass.

There are obvious indentations in the grass, and it can be guessed that this must be because a ninja is lurking here.

At this moment, through the eyes of Feitian Yasha, who had been soaring in the sky, Li Tian saw several ninjas wearing black clothes rushing fast just a few hundred meters away from them.

The distance is not very far, but the route that these ninjas choose to run is not a straight line, but makes full use of the terrain nearby.

So even if the distance between Li Tian and these ninjas is only a few hundred meters, because the line of sight is blocked, Li Tian and others can't see those ninjas at all.

"Ningbing, I have found a trace of the sneak attacker, I chased it up first, and you followed!" Li Tian said to Situ Ningbing.

Li Tian directly brought the mutant crow out of the space of the ancient void Yaksha. As soon as the mutant crow came out, it immediately became like a big Peng, and Li Tian jumped directly onto the back of the mutant crow and stepped on the mutant crow to the sky. Zhong rushed over.

As soon as the mutant crow flew to the sky, this behemoth was immediately discovered by the ninjas who had fled.

"boom!"

"boom!"

A ninja stopped escaping, unhooked a sniper rifle from his back, and fired a machine gun continuously at the mutant crow in the sky.

The bullet whizzed to the mutant crow.

"Wow!"

"Wow!"

Countless gas bombs ejected from Li Tian's left and right hands, and they met these bullets in midair.

When Xuantian fingered the sniper rifle, Li Tianyi didn't fall into the air. All the bullets were shot by Li Tian and fell to the ground without exception.

At this time, another red light suddenly flew out of the mutant crow.

It is Li Tian's "Red Cut".

Li Tian uses one heart and three uses, and his left and right hands simultaneously use Xuantian fingering, but his mind can also control "Red Slash" at the same time.

This "red cut" flashed a red light in the air, and a red lightning flashed across the sky, slashing hard at the ninja with a sniper rifle.

The ninja's pupils dilated involuntarily, and an expression of horror appeared in his eyes.

He wanted to escape, but he found that his legs had begun to disobey in front of this powerful attack, and it became extremely difficult to move a step.

"drink!"

The ninja screamed, allowing him to recover some of his spirit in an instant, and then the ninja slashed a shuriken heavily across his leg.

"puff!"

The blood was flowing, and the intense pain made him completely awake in an instant.

At this time, "Red Zhan" was only seven or eight meters away from the ninja.

The ninja abruptly discarded the sniper rifle, rolled on the spot, and rolled out a distance of five or six meters to the side, then raised his left and right hands at the same time, and immediately another dozen hidden weapons flew towards the "Red Slash."

There was a crackling noise, and the top ten hidden weapons hit the "Red Slash".

"It's done!"

The ninja thought excitedly, then turned and fled, thinking about chasing the other ninjas who fled.

However, he thought too well.

This "Red Slash" was Li Tian's use of Ten Jue Sword Qi, controlled by the Qi Yujian. How could the ordinary broken copper and rotten iron hurt "Red Slash".

"Huh!"

A red light flashed from behind the ninja, "Red Slash" cut on his back, and even directly cut the ninja in half.

At this time, Li Tian chased him up!

"Wow!"

"Wow!"

Those ninjas were very anxious and wanted to use hidden weapons to beat Li Tian down, but it was Li Tian's Broken Soul Fist that greeted them.

The air ball fell in front of the ninjas like a bomb.

"boom!"

The soul-breaking fist fell on the ground and the violent shock wave blasted the mud on the ground to splash everywhere, and the three or four ninjas immediately dispersed in all directions.

At this time, Li Tian took advantage of Li Tian to fall from the mutant crow, blocking the escape route of these ninjas.

"Since you are here, stay here and run away like this, but it will damage your reputation as Dongying Ninja!" Li Tian sneered.

One of the ninjas held the ninja sword across his chest vigilantly. While moving his feet, he winged away from Li Tian, and said: "Li Tian, I advise you to go back and see your warship, we Your lord has already rushed to the sea area where your warship is located. If you don't want them to be buried on the bottom of the sea, then you should let us go quickly and don't delay too long."

Before landing, Li Tian left Hai Yacha in the sea.

In addition to being able to launch a tsunami according to Li Tian's mind at any time, the most important thing for Li Tian is of course to protect the safety of the Cangshan ship.

In the sea, Li Tian believed that Hai Yacha's strength was enough to protect the safety of the Cangshan ship.

Li Tian couldn't help showing a sneer at the corner of his mouth, and said, "It won't take much time to deal with you guys!"

During the conversation, Li Tian had already moved abruptly.

These ninjas saw Li Tian's feet just move, but Li Tian disappeared in place in the next second.

This immediately gave these ninjas a strong sense of crisis.

Only a few upper ninjas have this kind of free retreat and concealment, and two of them are middle ninjas and two are lower ninjas. There is no certainty of winning when encountering upper ninjas.

This person felt a strong wave of power suddenly behind him.

"coming!"

The ninja said to himself, and then he turned around abruptly, severely slashing out the long knife in his hand.

"Huh!"

The long sword was cut empty, and there was no one behind him.

At this moment, the ninja felt a wave of energy behind him again. He just wanted to turn around, and a powerful force had already bombarded him.

The ninja's pupils were convex, and an expression of pain immediately appeared on his face.

"puff!"

A mouthful of blood spurted out of this ninja's mouth. He wanted to see Li Tian's movements and reluctantly turned around, but saw a figure flashing behind him, and the next second Li Tian's figure had appeared on the other side. Behind the ninja.

"Shang Ren! Li Tian turned out to be Shang Ren! The intelligence source is wrong!" The ninja fell to the ground unwillingly.

Then before closing his eyes, he saw that Li Tian only took a few seconds to kill all the other three ninjas.

The ninja felt that his eyelids were unusually heavy, and he couldn't help but want to close his eyes.

At this time, a figure of a person flashed over the trees in the distant house.

"Kazama Ginbei-sama! Our Shinobu is here too... I... why can't I hold on for a while..." The ninja slowly closed his eyes.

Chapter 3887: Kazama Ginbei

However, before the end of the world, don't belong to the wind demons. Even the ninjas of the Iga and Koga genres are absolutely not allowed to be born without the permission of special government departments. And races like Wind demons can survive hundreds of years. It is not easy to survive hard and survive hard.

After the end of the world, Ginbei Kazama finally ushered in his dawn.

Ninjas and samurai have once again been given the opportunity to display their own strengths, and gradually become the backbone of the Dongying island nation after the end times.

At present, the two most powerful ninja organizations in the entire Dongying island nation are Iga Ninja and Koga Ninja. In addition to the two strongest ninja organizations, there are also the black shin band, the Xuanyuan, the stealing group, and the Yoshitsune. Ninja organizations such as stream and Haguro stream.

These ninja organizations and samurai corps exercise practical control over the entire Toyo Island.

And genres like the wind demon that have disappeared in the history of ninja more than 300 years ago, even if there are talented players like Kazama Ginbei, it is difficult to restore the glory of the ancestors in a short time. .

Patience following the abdomen clump is only his temporary stopgap.

But now, Ginbei Kazama knew his opportunity had come.

"Wow!"

A figure flashed past, and the Kazama Silver Guard fell on a telegraph pole ten meters away from Li Tian.

Seeing the "Hong Zhan" controlled by Li Tian flying over, the body of the Kazama Ginbei flickered on the wire, avoiding the attack of "Red Zhan", and then landed on the wire again.

"Yeah! Don't be so serious? Swords have no eyes, and throwing hidden weapons can hurt people! Even if you can't hurt people, it's not good to hurt flowers and plants!" Kazama Yinbing defended.

"As a dignified Shinobu, the nineteenth generation of Fumo Taro, if you are hurt like this, then I will be too inferior. If I am like this, I am not qualified to cooperate with you!" Kazama Silver Soldier Guard stood on the wire, very cocky.

But at this moment, the "Red Zhan" controlled by Li Tian's mind flew back violently, and when there was still seven or eight meters away from the Kazama Silver Guard, he slashed towards the wire.

The wire was cut instantly, and the Kazama Ginbei's feet were soft and fell directly from the wire. Seeing that this ninja was about to fall into a dog and eat shit, there was a sneer on the corner of the mouth of the Kazama Ginbei. He performed a few backflips in the air and landed smoothly on the ground more than ten meters away from Li Tian.

"Yeah, yeah, I repeat, I'm here to discuss cooperation with you! If you go on like this, then I'll be very welcome!" Kazama Ginbei had already held the shuriken in his hand and laughed. Tao.

"Cooperation? What can we cooperate with?" Li Tian sneered.

"Hey, it depends on how you think about this issue. Li Tian, I know you well, even better than you. I have collected the information that you have appeared for more than half a year. Through this information, I can analyze what kind of person you are!"

"If I'm not mistaken, your goal in coming to the four eastern islands is probably to turn these four eastern islands into your private island! And the people you brought, let me think about it, even the soldiers on the warship, I'm afraid it is about a thousand people."

"This team of about a thousand people is no longer the four islands of the East, I am afraid that even the Ruhr Island County now cannot be completely controlled, so sooner or later you will look for local agents on the four islands of the East, and I am a silver soldier. Wei Lizhi wants to be a qualified agent, so why can't we cooperate?" Ginbei Kazama laughed.

"Yours seems to make sense, but why should I trust you?" Li Tiandao.

"That's all!" Kazama Ginbei's mouth showed a sneer, took out a wooden box from his waist, and threw the bag to Li Tian.

Li Tianxin opened the bag winged, and before opening the wooden box, Li Tian smelled a strong smell of blood and lime powder.

Li Tian took the "Red Cut" back, gently opened the wooden box, and saw that there was a head in the wooden box.

Judging from the wound on the head and neck, this person seems to have just died.

"This...this is?" Li Tian asked.

"Takayama Suuna, one of the Shinobu who was sent to Ruhr like me!" Ginbei Kazama showed a relaxed expression on his face and continued: "He and I were sent to destroy your warship. , But in order to show my sincerity, I will kill him first. You must know that in order to kill him, I have spent a lot of effort, this can show my sincerity!"

Li Tian frowned slightly.

This Kazama Ginbei is really unscrupulous to achieve his goal!

"So, tell you, what is your real purpose? I only believe in profit!" Li Tian asked.

"Yes, it's profit! I've passed it before. I am the 19th generation Fuma Taro. My ancestor Fuma Taro is one of the three ninjas who are as famous as Kashin and Kato Scud. In the Sengoku period, my ancestor The prestige resounds throughout the entire Edo region."

"But now, I am a ninja in the Wind Demon Race."

"I want to restore the glory of my ancestors and become the most famous ninja of the four eastern islands. Therefore, I need to use your Li Tian's power, and likewise, your Li Tian can also use my power to complete the unification of the entire eastern four islands." Kazama Yinbing defended.

Li Tian has completely understood.

"Can I trust you?"

"You seem to have no choice!"

"Then I need you to be more sincere. There are three Shangnin on Ruhr Island. You have already eliminated one. Just eliminate the remaining one! If you can bring his head over, I believe you!" Li Tiandao.

Of course Li Tian couldn't believe Kazama Ginbei, just as Kazama Ginbei would not trust Li Tian without reservation.

They just use each other's relationship, and this relationship is the least reliable.

With changes in external environmental factors, this relationship is likely to break, or even become hostile.

That being the case, Li Tian definitely wanted to maximize this utilization. If he could kill another Shangren without doing it himself, that would be great!

"Yeah, yeah! Shinobu is not that easy to deal with! An unwillingness can be deadly!" Ginbei Kazama smiled and continued: "But there is no better way. It seems that you want you to trust me. , I really have no other choice. In that case, I can only reluctantly agree."

"Ginbei, it really is you!" a cold voice came from a distance.

Chapter 3888: Battle of Shinobu

There was a strong man over two meters tall. This strong man was wearing a ninja costume with a fox mask on his face. On the back of the strong man, he was carrying two iron rods crossed. The end of the stick was wrapped with white gauze and two handles were wrapped, but the white gauze was so dirty that it didn't look much different from the gray.

This brawny man was tall and tall, but his movements were extremely agile. Just a few breaths before this brawny man appeared in front of Li Tian and Kazama Ginbei.

"Ginbei, Takayama Yuna really killed you!" the brawny man said.

This brawny man was named Mitsuji Ueda, who was also a Shinobu, and he was sent to this Ruhr Island by the abdomen Ten Cong along with Ginbei Kazama and Suuna Takayama.

And this Ueda Mitsuji is the captain of this operation, fully responsible for the defense of the entire Ruhr Island County.

Before the Cangshan ship landed on Ruhr Island, the ninja's organization had already discovered the warship, and the ninja immediately reported the news to the three upper ninjas stationed in Ruhr Island by phone.

Therefore, in addition to the normal defensive arrangement, Mitsuji Ueda also photographed Takayama Yuna and Kazama Ginbei to destroy the invading Cangshan ship.

However, not long after Kazama Ginbei and Takayama Yuna left the city of Ruhr Island, a subordinate ninja found the body of Takayama Yuna less than a few tens of miles away in Minami Kyushu, and Takayama Yuna's head had also been cut off, and Kazama Ginbei who was with him was missing.

After receiving this news, Mitsuji Ueda was shocked, but it was not until reliable news that Li Tian and others had left Minami Kyushu, so Mitsuji Ueda suspected that this was the work of Ginbei Kazama.

"Huh, but your method of killing seems to be too clever, and you left so many clues! Let me find you easily!" Ueda Mitsuji sneered.

"Yeah, I was discovered by Ueda Mitsuji so soon, it seems I still look at you! But how do you know that this is not a clue I left on purpose?" Kazama Ginbei said with a sneer on his face. .

Mitsuji Ueda's face immediately gave a shocked expression: "Ginbei, have you thought of betraying the abdomen Tencong-sama? Really... I didn't expect that the abdomen-tencong-sama trusted you so much that you would betray Master Tiancong in the abdomen, go and choose to go to Li Tian, a Chinese man!"

"Hey, trust? You don't want to lie to me anymore. If the abdomen Tiancong really trusts me, it won't stop me being the captain, and it won't make you stare at me everywhere. If you really If you trust me, you won't be wary of me everywhere, and you won't let Takayama Yuna follow me. Oh, there is probably only Takayama Yuna who trusts me, so...you saw it, when he died There was no pain, even when he died, I didn't even know that I had acted from behind." Ginbei Kazama sneered.

"Okay, okay, I have nothing to say. In that case, let us speak with strength!" Ueda Mitsuji stretched out his hand and pulled out the two iron rods he was carrying on his back, and then held one of his left and right hands to hold the iron rod. "Bumping" with each other in their hands.

The iron rod was pulled out, and Li Tiancai saw that the lower ball of the iron rod was also wrapped in black gauze, and the sound of the two iron rods was not like the sound of metal crashing, but it felt like rubber. The impact of rods or other materials.

And when the Ginbei Kazama saw that Mitsuji Ueda pulled out the two iron rods, his face was a little more serious, but he still smiled and said: "To deal with a character like me, Ueda Does Mitsuji-sama still need to use housekeeping skills? This makes me a little flattered!"

"Hmph, to deal with a traitor like you, we must use the most severe and brutal means, and you will die!" When Ueda Mitsuji uttered this sentence, he slammed the two iron rods several times. Then Mitsuji Ueda's body slammed forward, and with a light touch of his right leg on the ground, he flew towards Kazama Ginbei.

"drink!"

This Ueda Mitsuji jumped up, his body spinning rapidly in the air, this action was much more difficult than gymnastics.

And the iron rods of Mitsuji Ueda's left and right hands looked like windmills, and the whole person was like a spinning top suspended in the air.

"call!"

"call!"

The dust on the ground was still flying around, and the grass on both sides of the road fell backwards.

Such a move seemed to be extremely ordinary, but the face of Ginbei Kazama became more solemn.

And this Kazama Ginbei is holding a sword in one hand, and his back is slightly bent, but his body keeps moving backwards, and this Kazuma Ginbei seems to be hiding from Li Tian intentionally or unintentionally.

Li Tian frowned slightly, wondering in his heart whether this Kazama Ginbei deliberately played a bitter trick with Ueda Mitsuji to show him, and then deceived him into Li Tian's trust, and the two joined forces to deal with Li Tian .

Thinking of this, Li Tian's "Red Zhan" had already become tighter and tighter, and his heart was full of vigilance towards Kazama Ginbei.

The fingers of Li Tian's left hand were bent and he secretly used Xuantian \*\*\*\* to attack Ueda Mitsuji.

"Wow!"

"Wow!"

The power of these two gas bombs is not allowed to be recounted too much, even the steel plate Li Tian's Xuantian \*\*\*\* can be easily penetrated.

However, when the two gas bombs flew towards Mitsuji Ueda, they were hit by the two iron rods of Mitsuko Oda.

"Snapped!"

"Snapped!"

These two gas bombs were completely shattered in mid-air, and immediately disappeared without a trace.

At this time, Mitsuji Ueda's body finally flew forward, and the two iron rods slammed into Kazama Ginbei's head in succession.

Kazama Ginbei had long been more accurate, and his legs pushed \*\*\*\* the ground, and his body quickly leaped back, while the iron rod rubbed the door of Kazama Ginbei and hit the concrete floor heavily.

"boom!"

With this loud noise, Li Tian saw that the concrete floor suddenly sank more than two meters, and on this ground, there were four or five cracks about ten meters long and more than half a meter wide. The road was completely destroyed at this moment.

And these turned out to be the power of Ueda's second blow.

"It's really terrifying, this kind of power is stronger than Tang Long's power! Under the attack of that iron rod, don't be a gangster, even a steel body might be smashed into the city. Scrap iron! Is

this the strength of Shangren? The strength of these Shangren can be so powerful! It seems that I really look at the people of the Dongying island country too much!" Li Tian thought in his heart.

And the Ginbei Kazama leaped back more than ten meters continuously, and his left and right hands simultaneously released a dozen hidden weapons and shurikens, attacking Mitsuji Ueda, and even this shuriken helped Detonation symbol.

"Insect carving skills!" Ueda Mitsuji sneered, slammed two iron rods into the cracked ground, and shouted: "Wooden escape, all plants are soldiers!"

Chapter 3889: All plants are soldiers

With this explosion, the two iron rods that Ueda Mitsuji inserted into the ground broke apart at this instant, revealing the true features of the two iron rods.

This is really not an iron rod, the two look more like bamboo poles, the whole body is emerald green, section by section.

And as the two green bamboo poles were inserted into the soil, countless black roots grew on the two green bamboo poles at a speed visible to the naked eye.

These things like roots were squirming quickly as if they had a life, and most of them quickly got into the ground.

But there were also more than a dozen tentacles that were like octopus tentacles. They completely took down the concealed shurikens fired by Kazama Ginbei one by one, even the shurikens or concealed weapons with detonating charms on them. It was picked up intact.

Then at this moment, those hidden weapons and shurikens rusted up.

After less than two breaths, those iron things were completely decayed, and a layer of red rust fell on the ground.

At the same time, the two green bamboo poles also grew rapidly, growing taller one by one, and on the upper end of this green bamboo pole, branches and leaves grew unexpectedly.

This is Cuizhu!

And after Mitsuji Ueda performed this trick, his body suddenly buckled down, as if he was a few dozen years old in an instant, weakly supporting the bamboo pole, as if he might fall down at any time.

"call!"

"call!"

The sea breeze blew, and the grass on the ground and the bamboo in the hands of Ueda Mitsuji made a squeaky sound.

The whole surroundings were filled with silence, and even the chirping of the bugs in the grass was particularly clear.

However, it seems that there is no change in the surroundings.

"Is this the end? Is this the ninja magician?"

Although this army of soldiers completely caught the attack of Kazama Ginbei, this performance did not satisfy Li Tian, and Li Tian still wondered in his heart.

At this time, Kazama Ginbei brazenly approached Li Tian a few steps again, and said to Li Tian: "Li Tian, don't underestimate this army, although this is the first time I saw Ueda Mitsuji perform this trick. , But his reputation for this trick is very famous in the world of ninja ninjas in the last days! According to rumors, there are at least ten people who died under his trick. The middle and lower ninjas who died under this trick are even more ignorable. That's it!"

"Then you fight this Ueda Mitsuji, how many chances do you have to win?" Li Tian asked.

Kazama Ginbei laughed softly and said: "If it is a sneak attack, I am 60% sure, but if it is a head-to-head battle, I am sure no more than 40%!"

"Just so sure, you have to talk to me about cooperation? Your strength is too weak!" Li Tian said disdainfully.

Li Tian currently does not have a clear understanding of the ninja's strength level, but from Li Tian's approximate estimate, the strength of the ninja is probably between the third-level zombies and the eighth-level zombies. It seems that few can surpass the eighth-level zombies. And the strength of this Zhongnin is probably above level nine, definitely not more than fourteenth-level zombies, as for Shangnin, it should be above level fifteen.

But this is only an approximate range. These Shangren may also have other encounters after the end of the world, which greatly improves their strength. Their strength level may reach the eighteenth level of zombie, and may even exceed the eighteenth level. Level zombies.

However, Li Tian has not formally played against Shangren yet, so this is just an inference.

According to Li Tian's inference, the Kazama Silver Guard at the most is the strength of the 16th-level zombie, and the strength of Ueda Mitsuji should be the strength of the 17th-level zombie.

"Hey, a combination of strong and strong may not be a win-win situation. It may be a situation where both sides will lose. And like us, a strong side and a weak side may be the most suitable. I believe you Li Tian will never allow your cooperation. Your partner may bring you danger at any time!" said Ginbei Kazama.

But at this moment, there was another squeaky sound from the surrounding grass, and then, a dozen snakes crawled out of the grass!

That's right, it's a snake!

These snakes are only one meter long and have a thumb thickness, while the long snakes are more than two meters long and have the thickness of a child's arm.

"Boo!"

These snakes spit out Xinzi and stared at Li Tian and Kazama Ginbei with cold eyes, while their bodies were constantly twisting and twisting on the ground. "Could it be that the vegetation is all soldiers? It turned out to be controlling a few snakes. Even the most poisonous snakes may not be able to harm us?" Li Tian thought in his heart.

At this time, with a strange sound from Ueda Mitsuji's mouth, these snakes seemed to have received some kind of signal, and they ejected from the ground one after another and flew towards Li Tian and Kazama Ginbei.

"Huh, this is a trick of carving insects, is this trick to deal with me?"

Li Tian was scornful in his heart, and Li Tian's left and right hands had already used Xuantian \*\*\*\* at the same time to attack these flying snakes.

When these snakes were four or five meters away from Li Tian, they were hit by Xuantian's fingering, and the snake's body burst open in mid-air.

And the Kazama Ginbei was not slow, firing hidden weapons with his left and right hands continuously, shooting these snakes to death.

However, at this moment, Li Tian suddenly felt some changes in the surrounding atmosphere.

In the midsummer, Li Tian couldn't help but shudder, as if autumn and winter had come suddenly.

Behind Li Tian, leaves of grass and leaves were constantly being blown by the wind from a distance, and ten of these grass and leaves turned out to be pale yellow. Coupled with the cold wind, it gave people a feeling of autumn depression.

Fallen leaves flutter.

"No? It's midsummer, how come there are so many dead leaves suddenly? Could it be...is this also the ability of Mitsuji Ueda?" Li Tian's heart suddenly became alert.

But at this moment, a strong wind blows, and the hundreds of dead leaves suddenly blow towards Kazama Ginbei. These dead leaves surround the body of Kazama Ginbei, as if to wrap him up. same.

No matter how evasive the Kazama Ginbei was, he couldn't escape the surrounding of these dead leaves, and the face of the Kazama Ginbei was already impatient.

Suddenly, these hundreds of dead leaves seemed to be suspended in the air and would never move. The whole world seemed to have stopped at this moment.

However, this kind of stillness did not last for a second, and the dead leaves instantly flew like countless blades from the sky and the ground to the Kazama Ginbei in all directions.

Chapter 3890: You guys play first

"Huo Dun, Chi Yan!" The Kazama Ginbei inserted the ninja sword in the scabbard, put his hands in front of his mouth, made a horn, and shouted loudly. .

There was a burst of fire from the mouth of the Ginbei in an instant, and then the Ginbei Kazama suddenly turned around, deliberately burning the flame from all directions, this feeling was like those fire-breathing acrobatics. The fire performance of the performer is similar, the difference is that the Kazama Ginbei looks more professional, and the fire that is ejected is more powerful.

The dead leaves that flew to Kazama Ginbei just now were ignited at this moment, most of them were completely burned to ashes before they flew to Kazama Ginbei, only a few dead leaves. Still struggling for a while, it was like a moth battling a fire, and it turned into a fire butterfly in an instant, and fell at the feet of Kazama Ginbei without flying two meters.

Seeing that his attack was resolved by Ginbei Kazama, Mitsuji Ueda continued to sneer without any change in his face, and plunged the two green bamboos in his hand into the ground again.

"sudden!"

Before Feng Yu Yinbing could take a breath, he suddenly felt the ground under his feet sway slightly. He didn't dare to care, his legs were on the ground and he slammed back.

Several thorns protruded suddenly on the ground, and along with the thorns grew seven or eight red-gray vines. After these vines came out of the ground, they slammed into the Kazama Ginbei like a whip.

"Huo Dun, Chi Yan!"

Kazama Ginbei performed the same trick again.

These vines catch on fire and instantly become seven or eight fire snakes. However, these vines have not been burnt, but they seem to have become more flexible after the fire.

Kazama Ginbei retreated quickly, but the speed of the fire snake was faster.

Within a few moments, the fiery snake had reached the front of Kazama Ginbei, and drew it like a whip on Kazama Ginbei's body.

"Plap!" With a loud noise, the fire snake vines were so powerful that they drew directly on the waist of Kazama Ginbei, who flew backwards like a short kite. Eight meters.

Although Kazama Ginbei avoided the fatal damage, the flame was real. The clothes on his body were instantly lit, and seven or eight flames bounced everywhere on Kazama Ginbei's body, even Kazama Ginbei. There were flames on the guard's mask.

Kazama Ginbei was shocked, stretched out his hand and violently pulled off the masked face towel, and then rolled continuously on the ground, and then all the flames on his body were extinguished.

Looking at the Ginbei Kazama at this time, his cheeks are smoky and black, the hair on his forehead is burned a lot, the ninja clothes are also tattered, and there is a layer of dust on his body. Looks embarrassed.

However, the fire snakes did not stop their attacks. The four fire snakes continued to attack the Kazama Yinbingwei, while the other four turned around and attacked Li Tian.

Facing the attack of the four fire snakes, Li Tian's mouth showed a sneer.

With a move of mind, "Huh!" Li Tian moved away from the fire snake with a teleport, and Li Tian lifted his left hand backhand, continuously popping up the \*\*\*\* of Xuantian, hitting the fire snake.

"Pop!" A kind of fire snake broke, the broken part fell on the ground, and was quickly burned out, while the remaining part was still connected to the ground, and the vitality was even more vigorous and rapidly growing, and it attacked again. Xiang Litian.

Li Tian's expression still didn't change much, and his mind moved, the "Red Slash" in his hand had already flown out with his mind.

"Huh!"

"Huh!"

"Huh!"

Several red lights flashed, and the fire snake vine was severed by Li Tian.

On the other side, Ginbei Kazama saw Li Tian's post-operation with the sword of Qi, with a shocked expression on his face, and he also followed the same way, holding the ninja sword in his hand again, with the ninja sword in his hand. Cut those vines.

This vine is like the tentacles of an octopus. Four vines attacked Kazama Ginbei from four different directions. Ginbei just cut off the two vines in front of him, but two more vines fell from the sky. From behind, he drew heavily towards Kazama Ginbei.

Kazama Ginbei's body moved forward and rolled on the spot, avoiding the attacks of these vines.

And these vines were pulling on the ground, and the concrete floor was immediately pulled out of two cracks by the vines.

This shows how powerful these vines are. If the vine slaps on the human body, it will inevitably be skin and flesh, and even smashed to pieces. Even if the silver guard is skilled enough to avoid the vital points, it is not uncomfortable. .

The silver soldier was quick with his eyes and hands, turned around abruptly, and the ninja sword cut off the two vines.

But at this moment, the dead leaves that had fallen on the ground before were burnt by fire suddenly flew up, as if countless blades had passed through the body of Kazama Ginbei.

The ninja suit was cut with dozens of openings by these leaves in an instant. Through these openings, you could see the chain mail that Ginbei was wearing on the upper body.

"Puff!"

Ginbei half knelt on the ground, and the ninja slapped his sword on the ground.

Blood flowed out of his body along these wounds. There were blood holes everywhere in his legs, body, arms, and even the upper body wearing chain mail oozing out.

"Crack!"

"Crack!"

There was a strange sound of footsteps in the grass, and then, nearly a hundred ninjas emerged from the grass.

Every body of these ninjas is as burly as Ueda Mitsuji, and they also hold two iron rods in their hands.

"How come there are so many Ueda Mitsuji, could it be... Is this the legendary shadow clone technique?" Li Tian asked in shock.

And when the Kazama Ginbei saw this scene, his face remained undiminished with a smile.

"This is your army, right? What you did just now is just to give you time to perform this trick, right?" Yinbingwei asked with a sneer.

Mitsuji Ueda still held the two green bamboos in his hands, nodded slightly, and said with a smile: "Yes, this plant is a soldier. Each of these clones has at least half of my strength. There are hundreds

of me, even if No matter how great your Kazama Ginbei is, can you still kill these people? And even if you can kill all these people, there will be the next batch of soldiers waiting for you."

"Hey, you can enjoy the strength of my ninjutsu, and tremble in front of my powerful ninjutsu!"

"Li Tian, we must join hands now, otherwise we will both die here..." Kazama Yinbingwei looked at Li Tian and said. However, Yinbingwei hadn't finished what he said, but he saw that Li Tian didn't know anything. At that time, he sat on the huge bird and flew in the air.

"You play first, I'll take a break first!" Li Tian said with a smile.
