

A Killer 3921

Chapter 3922: Heavenly Spear (2)

Li Tian's hands seemed to grab a red iron rod, and the hot temperature instantly made Li Tian feel that his hands had lost consciousness.

The temperature of the lava on all sides of the black rock dropped and the rock was burning hot. If Li Tian hadn't had the "Red Slash" armor on his body, I am afraid that when Li Tian jumped on the rock, the skin on his legs would have been completely exposed to the high temperature. The burnt melted.

And the spear of the sky absorbs the strength of the Vulcan body for years and months, and it is also absorbing the temperature of the surrounding magma, no matter what kind of metal is made of the spear of the sky, the spear of the sky at this time The temperature is probably not much lower than this magma.

At this moment, even if Li Tian's arms and hands are surrounded by the "red cut" skin armor, but at this time the skin armor has already begun to melt like a candle, and the temperature has already passed to Li Tian's hands. .

"Be careful...hot!" Vulcan opened his mouth for a long time before he said the next word to Li Tian.

Li Tianzhen wanted to kick the Vulcan violently, in order to relieve his hatred.

But Li Tian couldn't.

At this time, Li Tian felt that the skin on his hands had been burned by the scorching heat, and a barbecue-like fragrance had floated out. Even if the fire **** was killed now, I am afraid that the opponent would be of no avail.

For the present plan, the only way to hurry up was to pull out the Qiong Lance of the Sky from the Vulcan, and then throw the Qiong Lance of the Sky into the space of the Void Yasha.

"drink!"

Li Tian let out a loud shout, and pulled out the Qiong Spear with both hands.

The power of Li Tian is definitely more than seven or eight thousand catties. With the addition of the "Red Slash" armor bonus, Li Tian's current power is probably more than ten thousand catties.

But with such a powerful force, the Qiong Lance that day was still motionless.

"Impossible, even my current strength can be moved even if it is a golden hoop rod. How could the Qiong Lance of the day remain still?" Li Tian thought in his heart.

But no matter what Li Tian thinks, he must now pull out the Qiong Lian of the day, otherwise the Vulcan will not be able to save it, and there will be no powerful follower. If the Qiong Liao of the day cannot be pulled out, there will be no The gods have a sharp edge, so don't this temple in the mountains just come here for nothing?

Li Tianke does not have the habit of going home empty-handed in Baoshan.

"Boy, you are working hard, haven't you eaten?"

Vulcan is very impatient, wishing that he would pull the spear of this day for Li Tianlai.

"To shut up!"

Li Tian roared, his hands and hands used more force.

At this moment, in the "Red Slash" skin armor, power continuously poured into Li Tian's body, and even the nine-color corpse crystal that had entered the atrium began to release the corpse. The power of the original.

Li Tian felt that his palm had been too strong, his scorched skin had been fully stretched, and blood flowed along Li Tian's veins to the Qiong Lance of the day.

The Qiong Spear of the Sky finally moved slightly.

"Moved, it seems to have moved!" Vulcan said to Li Tian with an excited expression on his face.

This slight shaking seemed to have no effect at all on the Qiong Spear of the sky, but it greatly inspired Li Tian's spirit.

Li Tian had already displayed all the power of his whole body, the nine-color corpse crystal was spinning rapidly in the vortex of the atrium of the vortex, and all the power in the "Red Slash" armor was also used.

However, this is of no use.

After shaking the spear of this day, it was still motionless again.

The method should be wrong!

It was like the Five Finger Mountain that was pressing down on Monkey King. If Monk Tang were to move the mountain like a fool, then Monk Tang would be exhausted.

Li Tian stopped and stopped making unnecessary movements.

At this time, after the mutant crow entered the space of Void Yasha, it had already told Bai Jing and the two Xiaoyashas of the environment Li Tian was in.

Although Bai Jing was worried in his heart, he didn't say anything. Instead, he prayed silently in his heart, hoping Li Tian would go well.

But Void Yasha couldn't help it anymore, he couldn't watch Li Tian fall into danger.

"Master Li Tian, what difficulties have you encountered? Do you want me and Dixing Yasha to come out to help you?" Xukong Yasha said.

"If you can throw all the magma into the void, you can help me. If you can't, just stay in the space for me obediently! Don't mess with me." Li Tian said.

With the increase of Li Tian's strength, Li Tian is now becoming more and more domineering, and the Void Yasha in this sentence is also unable to refute.

Now Li Tian is aware of Void Yasha's situation. To be honest, Void Yasha is really helpless.

At this time, Vulcan, who was crawling on the ground, saw Li Tian standing still, and his face immediately showed disappointment.

"It won't be like this, you should be able to pull out the spear of this day easily!"

"I shouldn't continue to suffer from the imprisonment of the spear of the day."

"Impossible, impossible! It has been thousands of years, am I going to continue to be imprisoned here?"

"Could it be... isn't you the one I'm waiting for?"

Vulcan has begun to doubt Li Tian, and his eyes are no longer so friendly to Li Tian!

"Poor boy, although you don't know how you came to this place, you really shouldn't be here. Now you probably want to go out and can't go out anymore. If you are still alive, you can chat with me. Right!"

This Vulcan has given up.

But he is a Venerable, with a life span of several thousand years, he can continue to wait here.

But Li Tian couldn't do it, and Li Tian had no reason to give up.

There are so many women in Ruhr Island City waiting for Li Tian to go back, so many brothers are also waiting for Li Tian to go back, and there is still a little Li Tian who is not born who also needs Li Tian to go back!

Don't give up, then even if hope is slim, Li Tian must do it.

The blood on Li Tian's palm has dried up, but as Li Tian exerts force again, the wound on his palm will open again, and the blood will flow again on the Qiong Lance that day.

It's a pity that this is not a divine tool for spotting blood to recognize the Lord, or...or the Vulcan will become the master of this divine tool, and he won't wait for Li Tian to save it.

Following the blood flow in Li Tian's veins, Li Tian suddenly felt that the twenty-two small fishes in his body veins were swimming by themselves.

"What the hell? It's an emergency now, I don't have time to practice Qingyun Qi Jue!" Li Tian thought in his heart.

But at this moment, the twenty-two little fishes suddenly became extremely excited and swam toward the middle of Li Tian's arms.

Chapter 3923: Sky Spear (3)

Li Tian's left and right arms swam past eleven small fishes.

When all the 22 small fishes appeared on Li Tian's arm, Li Tian felt that his unconscious arm gradually felt again.

Especially on Li Tian's palm, the already burned skin and fleshy skin gradually became conscious, and as the little fish moved quickly, Li Tian felt that the strength on his arm was also rapidly increasing.

But this was not enough, the Qiong Lance of the day was still motionless.

But at this time Li Tian is no longer as anxious as he was just now, but Li Tian's face showed an expression of excitement.

Because Li Tian felt that when these little fish were swimming in the veins, the size of the little fish was gradually increasing.

This is a manifestation of the increasing cultivation of Qingyun Qi Jue.

The fourth layer of Qingyun Qi Jue is like climbing a mountain.

This little fish is like a way to climb the mountain, you can choose any way to climb the mountain, and the size of the little fish is like the degree you climbed.

The bigger the fish is, the closer you are to the top of the peak, but the farther you are.

Now that Li Tian watched the 22 small fishes were slowly increasing, how could Li Tian's heart not be excited.

"Hey, I said that you have been holding on to the spear of this day for a long time. I turned my head to see you see that my neck is sore, so you don't have to be brave. If you and I want to wait, You can't pull it out!"

"If you don't mind, why don't you lie down and we will wait for death together slowly!" Vulcan said.

Listening to Vulcan's words, the corner of Li Tian's mouth curled slightly, revealing a smug smile.

Just now, the two largest fishes in Li Tian's right arm vein gradually slowed down after their rapid growth. At this time Li Tian felt that he was only one step away from the vertical distance to see the scenery of the fourth layer of Qingyun.

And this is when Li Tian walked two roads and was about to climb the summit at the same time. Apart from enjoying the different scenery on the two roads, he could soon see two different summit scenery.

As long as it continues, Li Tian can already reach the top within a few minutes.

However, Li Tian chose to give up at this time. Li Tian was not cowardly, but felt that if he had reached the summit now, although he would have a sense of accomplishment, he would not be as majestic as the twenty-two small fishes who had reached the summit at the same time.

As Li Tian's mind changed, the two biggest fishes were split into two at this moment. At this moment, there were already twenty-four small fishes in Li Tian's body veins.

The big fish became two small fishes, and the two small fishes immediately fell to the bottom of the water, re-swimming back to Li Tian's body, and then began to swim in the line of Li Tian's body. .

"Intentionally planting flowers but not blooming, unintentionally inserting willows and willows to form a shadow, did not expect to pull out the Qiong Spear of this day, but not to pull out, but the crooked hitting made my Qingyun Qi Jue a great improvement. Since the Qiong Spear of this day is very important for the cultivation of Qingyun Qi. The secret has great benefits, how can I live up to this kind of luck." Li Tian thought in his heart.

When he was in the ancient city under the sea, Li Tian opened his mind. He could absorb those white energy materials to improve his strength, but because Li Tian went to the underground tower, the entire ancient city under the sea was destroyed. Instead, he lost the opportunity to absorb those energy materials. .

Now Li Tian will not let go of this opportunity.

Li Tian slowly closed his eyes and devoted himself to this kind of cultivation.

According to Situ Ningbing's explanation to Li Tian, this Qingyun Qi Art has dozens of changes, which means that there are at least dozens of paths to reach the peak. Now Li Tian deliberately suppresses those little fish to reach the peak, just want to explore How many changes does this Qingyun Qi Jue have?

With the passage of Li Tian's practice time, Li Tian has been completely silent in this pleasant feeling, even forgetting that he is still crawling with the ***** of fire, and even forgot that he is still holding the sky in his hands. Joan spear.

Vulcan turned his head and glanced at Li Tian. Originally, Vulcan wanted to tell Li Tian to give up, but when Vulcan saw that Li Tian had entered the highest level of cultivation that I had forgotten, Vulcan's heart was right. Li Tian's contempt all disappeared.

"It's really not easy for this kid to enter the highest level of cultivation in such a dangerous state. It's not easy! If this kid is not the one I'm waiting for, it's okay, even if he's not easy, I'm afraid he can't get out. Sooner or later, the Qiong Lance will turn into a pile of dead bones and be buried in this magma."

"But, if this kid is really the one I'm waiting for, then I am afraid I have met a great guy, then all my previous ideas will be overturned, and the relationship with this kid will be redefined!" Huo Thinking in God's heart.

In fact, Vulcan has been imprisoned here for thousands of years, almost simultaneously with the Three Corpses.

Although the female domain lord told Vulcan that Vulcan was here to wait for the people who came to rescue him, which was a hope for Vulcan, but Vulcan's heart was full of hatred for the female domain lord, even Vulcan had I thought that if someone could rescue him from the spear of this day, then he would kill the person who rescued him in the first time, which would be regarded as the hostess. revenge.

But now, Vulcan's heart was shaken.

Killing and saving him is very simple, but Vulcan will never step into the Netherworld forever, otherwise the female domain master will definitely kill Vulcan, and even destroy Vulcan's soul, let Vulcan Never live beyond birth. If this is the case, even if his Vulcan's strength is lucky enough to reach the level of the domain master in the earth world, but just like the lyrics sing, there is no one around, so what can he do!

"Boy, your luck is really good. Since you can enter this realm of cultivation that I have forgotten, then I will trust you once. As long as you can rescue me from the spear of this day, I am just like before The female domain master said the same, follow you forever!" Vulcan thought in his heart.

Vulcan also slowly closed his eyes, and began to practise carefully.

...

While Li Tian was still cultivating in the Kirishima Shrine on Nakirishima Mountain, the humans from the Kirishima Mountain Range began to migrate to Kirishima City on a large scale.

This volcano erupted, and the ash was flying everywhere, especially the lava that splashed up from time to time, which made the humans hiding in the mountains insecure. The human beings hiding in this deep mountain all had the idea of escaping from this mountain in their hearts.

At this time, Bei Yuan's door-to-door tour seems to be twice the result with half the effort.

When Kitahara was migrating with people, after several days of preparations in the abdomen of Fukuoka Prefecture, Tian Cong officially issued an order to attack Ruhr Island!

Chapter 3924: Counterattack

Just as Li Tian had expected, the abdomen Tiancong launched all strength to prepare to attack.

After this belly Tian Cong learned that Li Tian had killed his six Shangren in succession, although he was surprised, he put more responsibility on Kazama Ginbei. Abdomen Tian Cong thought that if the traitor Kazama Ginbei had not appeared, Li Tian might not be the opponent of the other six Shangren.

In the heart of Tian Cong in the abdomen, Li Tian was only lucky to escape the siege of the other six ninjas.

As soon as the belly Tian Cong received the news, he wanted to appoint all Shangren in West Jiuzhou Island to attack Li Tian, but he did not stop him from the army commander.

The commander of the Korean army, as the defeated officer of Abdomen Tiancong, has now been subdued by Abdomen Tiancong.

Seeing the arrogant and arrogant abdomen Tian Cong, if all the ninjas are sent to attack Li Tian, it is very likely that these ninjas will be killed by Li Tian.

The commander of the Korean army suggested that the Abdomen Tiancong mobilize the most powerful forces in the entire West Jiuzhou, including the zombie army and the ninja army to attack Li Tian, so as not to give Li Tian any chance to breathe, and kill Li Tian and his subordinates at once. . In order to make Abdomen Tiancong listen to his suggestions, the commander of the Korean army described Li Tian's domestic battle as an example, hoping that Abdomen Tiancong would pay attention to Li Tian.

Although Tian Cong believed that the commander of the Korean army was deliberately exaggerating Li Tian's strength, he finally listened to the commander's suggestion.

Abdomen Tiancong decided to overwhelmingly defeat Li Tian with absolute numbers and absolute strength, beheading Li Tian and his deployment at one time, without giving Li Tian any chance to stand up.

Now the abdominal sky cluster has mobilized all the strength of the entire West Jiuzhou Island, including the fifty thousand zombie army controlled by him and the upper ninjas in Fukuoka Prefecture, and the ten thousand members of the sky cluster ninja organization and affiliated ninja organizations, and It is Fukuoka Prefecture's 40,000 large and small corps. The total number has reached nearly 100,000.

One hundred thousand, this number is no longer a small number before the end of the world.

This number of 100,000 is the possession of Xijiuzhou Island.

An army of one hundred thousand is divided into two groups.

The first road is dominated by the Five Zombie Legions, supplemented by the Ninja Legions. The strength of the zombies in this zombie army is basically above level 6, and there are 50,000 zombies

above level 6, imagination one is very scary. And the auxiliary ninjas are the main ninja and middle ninja.

The main general of this road is the abdominal sky cluster, and the deputy general is the commander of the Korean army.

The first army came out of Fukuoka City, passed through Kurume, entered the west coastline, entered Kumamoto Prefecture, passed Kumamoto City, Yatsushiro City, Izumi City, and entered Ruhr Island Prefecture to attack Li Tian Base Camp in Ruhr Island City.

The second road is dominated by soldiers from the Fukuoka Prefecture Army Corps, with some Shimonin and other personnel as supplementary.

The main generals are Takuya Kurokawa, the deputy of the Ten Cong Ninja Organization, and Hidenaka Miyazaki, the lord of Fukuoka Prefecture.

The second road exits from Fukuoka City, passes through Kurume and Hita City, enters Dafeng City along the eastern coastline into Miyazaki Prefecture, and then enters Ruhr Island City via Kirishima City, thus encircling the people of Li Tian.

For this battle, the abdominal sky cluster is confident of victory.

Not only because the abdominal sky cluster has a strong number advantage, more importantly, there are military trucks, tanks, helicopters and other heavy weapons in the abdominal sky cluster.

Belly Tian Cong proudly thought that even if his zombie team only came to fight soy sauce, just using these tank and gunship shells and missiles could wipe out the ashes of Li Tian's bombing.

Regarding the optimism of the abdomen Tiancong, the commander of the army shook his head helplessly, but did not continue to persuade.

Although the commander of the Korean army did not participate in the battle of the three legions of Flamingo, Hall of Heroes, and Rock in the joint attack on the Sakura Legion and against Li Tian, he knew the whole process and results of the battle very well. At that time, there were only a lot more tanks and gunships in the three major legions than there were in the sky in the abdomen.

But the end result?

Li Tian still had the last laugh.

But the three major legions were wiped out.

At this time, a Toyo-made luxury convertible car was slowly advancing in the direction of Kumamoto Prefecture along the highway on the west coast. The commander of the Korean army sitting in the co-pilot, blowing the sea breeze, can watch the beautiful scenery on the coastline, and gradually feel better.

The driver in this car was a thin man with glasses. Driving the car, the man with glasses looked a little nervous, his eyes never leaving the road ahead. On the back seat of the car, the sky cluster in the abdomen was standing like a head of state in a military parade.

With a smile on Tian Cong's face in his abdomen, he pointed his finger at the ragged zombie legion and said, "Cao legion commander, how do you say my zombie legion is better than your previous pilgrimage and holy legions? If all 50,000 zombies attack Li Tian, how long can Li Tian and his people support?"

This tattered army of zombies is heading towards Ruhr Island along the highway along the west coast.

The commander of the Korean army naturally thought of his pilgrimage and the holy army.

If it were not for Li Tian, the current pilgrimage and holy legions would still be one of the top ten legions, and the pilgrimage would still be one of the most powerful legion commanders in the power circle of Kyoto.

But now, Chao is reduced to the assistant of Tian Cong in the abdomen. He wants to watch the humiliation of Tian Cong in the abdomen. If the commander of the Chao Army wants to restore his glory, he can only take Li Tian's head back to the country and give it to the three dead bodies!

"My lord, naturally your zombie legion is stronger. These zombie legions have no life and are not afraid of death. As long as the adults control them properly, their combat effectiveness is naturally stronger."

A triumphant smile appeared on Tian Cong's face in his abdomen. He knew the answer. The reason for asking this was just this feeling.

"However, the strength of this Li Tian is strong, and this kid has a lot of ancient spirits and weird methods. At least three of the commanders of the top ten legions have been folded in his hands. The adults should be careful." Chao said.

"Huh! A little Li Tian scared you out of your courage, it's really useless!"

"I have an army of 50,000 zombies here. I don't believe that Li Tian's personal strength can kill 50,000 zombies. As for you, he has a lot of quirky and strange methods. My tank and gunship are powerful. Under the firepower attack, what is the use of his methods?" Tian Cong said with a sneer in his belly.

The driver wearing glasses also immediately agreed: "Yes! Abdominal Celestial Cong-sama is the owner of the Celestial Cloud Sword. He is the best among Iga Ninjas. Even the Three Corpse-sama admires the abdomen Celestial Cong. , How could he Li Tian be the opponent of Master Tiancong in the abdomen!"

The pilot said a few words in his belly Tian Cong felt a little refreshed, and he didn't go too much with the commander of the army.

"Chao, when it comes to Ruhr Island, I will let you see my true strength! Let you see the strength of my Tian Cong Yun Sword!" Tian Cong said with a sneer in his belly.

Having said this, the driver with glasses shivered suddenly, his hands tightly grasping the steering wheel, even the expression on his face became a little stiff.

The head of the Korean army was full of curiosity and surprise.

"Isn't this abdomen Tian Cong used his full strength when he was fighting me? How strong is his strength? Who is stronger than Huangfu Kunpeng?"

At this time, the zombie team entered Kumamoto Prefecture.

After entering the border of Kumamoto County, Tian Cong found that there were basically no zombies on the road, even when passing through towns.

"I have to admire Li Tian for being able to empty all the zombies in Kumamoto Prefecture in just a few days," said Tian Cong in the abdomen.

"Li Tian has nine-color corpse crystals, and he can control thousands of zombies at the same time. It is not surprising that he can empty these zombies!" said the commander of the army.

"But I want to say that he is an idiot, an out-and-out idiot! If he controls these zombies as you said, guards this Kumamoto Prefecture and fights with me, even if he is defeated by me, at least he still has a way to retreat. But now? He gave up the entire Kumamoto prefecture and retreated to Ruhr Island. Once he is defeated by me, he can only jump into the sea to feed the mourning fish!" Abdomen Tian Cong said with a sneer.

"My lord, there are a few idioms in our country, which are called breaking the boat and fighting back. Maybe Li Tian has other ways, so adults should be careful!" said the commander of the army.

"You? Domestic? Hahaha, have you forgotten what happened seventy years ago? Our Dongying island country has occupied more than half of your land area with a small amount of land. If not for the intervention of the United States and Russia, I am afraid your country has become The colony of our country. In the face of absolute strength, you talk to me about morale. It seems that you are as stupid as Li Tian!" said Tian Cong in the abdomen.

The commander of the North Korean army was called back several times in a row by the abdomen Tiancong, and was reprimanded and insulted by the abdomen Tiancong. The commander of the Korean army was full of anger in his heart.

At this time, the head of the Korean army was extremely contradictory, thinking that the abdomen Tian Cong could kill Li Tian, so that his grievances could be reported back to the Three Corpses, and he wanted to make Li Tian fiercely. Teach the arrogant Dongying devils.

"Are you thinking of me being arrogant and arrogant, thinking that Li Tian will teach me harshly?" Tian Cong suddenly asked in his abdomen.

The commander of the Chao Corps shook his head quickly and said, "Don't dare!"

"Huh! Not the best!"

"Give my order, go forward at full speed, and be sure to reach Ruhr Island before tomorrow morning!" said Tian Cong in the abdomen.

The abdomen Tiancong's order was issued, and various strange whistles were heard from the huge team of zombies. As this whistle continued to pass through the team of zombies, the zombies gradually became excited and jumped out of the team one after another. Fast forward to the direction of Ruhr Island.

Abdomen Tiancong looked towards Ruhr Island, thinking in his heart: "Li Tian, let my abdomen Tiancong see the strength of you who is touted as a ***** by the commander of the army!"

Chapter 3925: Counterattack (2)

On the second night when Li Tian left Ruhr Island for Kirishima Mountain, Feitian Yasha and Li Tian completely lost their telepathy. ,

And this situation has continued, which shocked Feitian Yasha's heart.

Although Feitian Yasha tried his best to cover up and didn't want anyone to know about this situation, Situ Ningbing's clumsy performance was still seen by Situ Ningbing.

"Xiaoyacha, did Li Tian and Bai Jing have an accident?" Situ Ningbing asked severely.

Feitian Yasha immediately hesitated, not knowing how to answer.

"Tell me the truth, so I can make corresponding countermeasures!" Situ Ningbing said again.

"This... Master Li Tian didn't know what happened since last night and has lost my telepathy with me! I have been contacting Master, but there is no news at all!" Feitian Yasha said.

"How could this be? Could it be that Li Tian took the initiative to cut off the telepathy with you?"

"No...impossible. Even if Master Li Tian doesn't want to contact me, at least I can know his existence. However, now I have completely disconnected from him."

Situ Ningbing's heart began to feel a little impatient, but she couldn't show it, she could only pace back and forth non-stop.

"Although Master Li Tian and I have lost telepathy, I can guarantee that Master Li Tian is safe. Because we Xiaoyasha and Master Li Tian have signed a master agreement, if Master Li Tian has an accident, I can't live either!" Feitian Yasha said with relief Situ Ningbing.

Situ Ningbing nodded and said, "You must keep this kind of thing secret. You can't tell anyone except me!"

Feitian Yasha nodded.

"Also, from now on, I need you to closely monitor the entire territory of Ruhr Island County. If there is any trouble, fly back and report to me immediately!" Situ Ningbing said again.

Feitian Yasha took the command and immediately spread his wings and flew into the sky.

Situ Ningbing knew that Li Tian had left Ruhr Island for three days and four nights, and as Li Tian left for longer, the people who stayed behind on Ruhr Island would definitely be panicked!

Situ Ningbing hadn't figured out how to comfort the people, but Kazama Ginbei who rushed back from Kumamoto in the evening brought back bad news: the abdomen sky cluster has already sent troops, I am afraid that the tens of thousands of zombies will be at dawn tomorrow. The army will reach Ruhr Island County.

"His grandma's finally here, my fists are itching!" Tang Xiaolong said excitedly, waving his fists.

"Yes, let him have a good knowledge of the strength of our Celestial Legion!" Shen Tao also agreed.

Kazama Ginbei glanced at the crowd. He didn't see Li Tian, and he couldn't help but ask: "Where is Li Tian? The personal strength of the abdomen Tiancong far exceeds that of Shangnin, and it belongs to the legendary ninja level. Now, if there is no Master Li Tian here..."

There was a worried expression on Ginbei Kazama's face.

"Li Tian went to Kirishima Mountain, and is now walking back from Kirishima Mountain, so there is no need to worry about this. Moreover, we also have a silly man like Ouyang here! The strength of this Ouyang man is even Li Tian Approved!" Situ Ningbing said.

Seeing Ouyang Man who was wearing an armor and carrying an epee, Kazama Ginbei's heart was a little calmer.

Kazama Ginbei also had a preliminary understanding of Li Tian's subordinates and women.

In the eyes of Kazama Ginbei, Li Tian's strength must be the most powerful. After Li Tian, this Ouyang Man must be the leader, even the Tang Xiaolong who can blast a huge punch with one punch is not Ouyang Man's opponent. However, Tang Xiaolong's strength has also reached the upper endurance level, which should not be underestimated either. As for Kobi and Shen Tao, they should be close to Shangren, but they have not yet reached the strength of Shangren.

These Li Tian women, Duanmuying is the commander of the Ten Great Army Sakura Legion. Her strength is beyond doubt. She has the strength beyond Shangren. It is a pity that this woman is pregnant, and I am afraid that she will inevitably be fearful in battle. , It's good to be able to play the level of Shinobu.

Although Xue Ji's battle Kazama Yinbingbei has never seen before, but feeling the power released from Xueji, Kazama Yinbingbei can be sure that Xue Ji has also reached the level of Shangnin. As for Ouyang Shiqing, Tang Feifei, and Windsor Kazama Yinbingwei who mistakenly thought they were Li Tian, their strengths were ordinary.

The only thing that can be useful is probably the ability of Windsor.

Among these women, the only thing that can make Kazama Silver Soldier's heart full of fear and anxiety is Situ Ningbing, Kazama Silver Soldier feels that he can't understand Situ Ningbing's strength at all.

The unknown is the most feared.

What shocked Kazama Ginbei was the tall city wall surrounding the city of Ruhr Island. When he left Ruhr Island City, the city was still in ruins. When he came back from other places and saw the towering city wall, Kazama Ginbei even thought he was in the wrong place.

It was precisely because of this city wall, because of Ouyang Man, and because of Situ Ningbing, that Kazama Yinbingbei believed that even if Li Tian did not rush back, the people of Ruhr Island City should be able to fight.

At night, the sky suddenly became gloomy, and after a gust of wind, there was a heavy rain.

The whole world has plunged into darkness, as if a giant beast opened its mouth and swallowed the city.

Only a few buildings in the city center of Ruhr are shining brightly.

This is where the engineers of the Cangshan ship assembled the solar photovoltaic power generation equipment of Ruhr Island and built a small power plant that can temporarily meet the current power supply of Ruhr Island.

A five-star hotel in the central building of Ruhr Island, this is the temporary office building of the Celestial Corps of Ruhr City selected by Situ Ningbing.

In the presidential suite on the top floor, Duanmuying and other Li Tian women all sat on the sofa. There were also Tang Xiaolong, Gao Bi, Shen Tao, Baihe, Windsor, Two-dimensional, Liu Guoqiang and others. Only Ouyang Man He was assigned by Situ Ningbing to guard him.

In the room, Situ Ningbing stood in front of the floor-to-ceiling windows, looking at the looming city wall in the distance, and turned around and said: "The battle is about to come, and Li is still in the Wudao Mountain. I will temporarily replace Li Tian. "

Situ Ningbing was the first woman Li Tian met and the only eldest sister Li Tian recognized. Even Xue Ji from another world had to call Situ Ningbing a big sister after returning to Earth. The position of Situ Ningbing's eldest sister was also recognized by everyone.

Seeing everyone nodded, Ouyang Shiqing said: "Ouyang Shiqing, Tang Feifei, you two will accompany Duanmuying overnight tonight to board the Cangshan ship! After the war begins, we may not have time to take care of you."

"I'm not going! I'm the commander of the Ten Army Corps. I might be able to help you here! If you want to go, let Shiqing and Feifei go!" Duanmuying said.

"I know that you are the commander of the Ten Army Corps, but you are pregnant with Li Tian's flesh and blood. Li Tian is not here now. We must protect your safety! This matter cannot be discussed!" Situ Ningbing said firmly.

Just as Duanmuying wanted to say something, Ouyang Shiqing reached out and touched Duanmuying's belly, and said, "Just listen to Bing Ning's words, everything is for Xiaoli Tian!"

Duanmuying nodded her head slightly, and said nothing.

"Liu Guoqiang, the good guys of your Cangshan ship, except for the engineers and the inherent soldiers on the Cangshan ship, everyone else entangled me on this city wall before dawn. You prepare weapons and ammunition by yourself!" Situ Ningbing said. .

Liu Guoqiang nodded solemnly.

"Well, now you go to prepare, take Duanmuying and the others on the warship!"

Liu Guoqiang immediately took Duanmuying and the others, turned and walked out of the room.

Watching Duanmu Ying leave, Kazama Ginbei couldn't help shook his head slightly, but Situ Ningbing saw this little movement clearly.

Seeing Situ Ningbing watching him, Kazama Yinbing couldn't help feeling a little flustered, and he dared not look at Situ Ningbing with his straight eyes.

Situ Ningbing will say to Kazama Ginbei: "Kazama, your soul is detained by Li Tian in his meaning space, so you are different from other ninjas. If the battle starts tomorrow, the other Ninjas have a way of retreat. They can surrender and even counter us, but you can't. So tomorrow I need you to take care of your ninja team tomorrow and tell those ninjas that there is no way of retreat tomorrow, otherwise there is only a dead end!"

Kazama Ginbei also nodded and said, "Hi! I understand!"

Situ Ningbing beckoned to 2D, and 2D immediately opened up a roll of West Jiuzhou map on the coffee table.

Situ Ningbing took out a marker in his hand and drew Ruhr Island County in West Jiuzhou, and then Ruhr Island City.

"Li Tian has already built a tall city wall in this city of Ruhr. This wall of several tens of meters is not easy for anyone to attack. So tomorrow our most important thing is defensive warfare, and tomorrow I will take Ouyang Man and Liu Guoqiang's team are stationed to the west, and Xiaolong, Shen Tao, and your ninja team from Kazama. You are stationed at the city wall to the north, while the south is left to the rest of you."

Ruhr Island City is located in Ruhr Island Bay, facing the sea to the east. When Li Tianrang Dixin Yasha and the Xulings built the city wall, they mainly built the other three sides. Only the east coastline was left. And of the three walls, the longest is the west.

"Two-dimensional, tomorrow you will be responsible for protecting Windsor, and Windsor will take the Cangshan ship's medical team for emergency rescue." Situ Ningbing said.

Everyone nodded heavily.

"However, we can't just sit and wait! Xiao Tianyi, Xiaolong, Shen Tao, Gao Bi, you take the mutant bat squadron, tonight first go to welcome the zombie team in the abdominal sky! Remember, you must pay attention to safety!"

Chapter 3926: Welcome ceremony (1)

Night, quiet night.

After the heavy rain, the clouds cleared and the sky gradually cleared.

A bend of the moon hangs in the sky, and the moonlight is scattered on the ground through the clouds, revealing a mottled shadow.

Several Zhongren controlled their zombies and entered the village near Hioki City.

These Zhongren controlled the zombies through different whistle sounds, and those zombies were in groups, like evil wolves, starting to search for all edible food in the village.

There have been zombies in this village before, but the number of zombies is limited after all, so after more than three years of development in the last days, the wild animals in this village are also trending to overflow.

Especially hares, pheasants, etc.

A few of the zombies were lucky, and they met a strong wild boar as soon as they entered the village.

This wild boar weighs a few hundred catties, and among these wild animals, it is definitely a strong one.

However, all he encountered today were zombies above level 6, just a face-to-face encounter. The wild boar was pierced by the long bones of a zombie and fell directly to the ground.

Those zombies didn't dislike the smelly smell of the wild boar, because there was still some dirt on the body of the rain, so they rushed to the wild boar and began to devour the wild boar.

The luck of these zombies is good, but more zombies have no such good luck.

If more zombies can catch a hare, it's a great harvest today. There are many more zombies that don't even let go of mice and insects. As long as they catch these things, they still stuff their mouths.

Zombies can not eat for a long time, anyway they will not starve to death. But zombies have a feeling of hunger, so zombies will think about eating constantly. Moreover, if the zombies do not eat for a long time, then the strength of the zombies will be greatly affected, which is why it often happens that high-level zombies swallow low-level zombies.

In the house of a private house, a bonfire was lit, surrounded by three men wearing only a pair of panties. These men were the ninjas who followed the sky in the abdomen.

This is a few Shangren.

After they took off their ninja clothes, they put them in front of the fire with their hands in their pockets, and used them to dry the clothes.

"Damn it! We are Shinobu, we are going to come and do these supervising the characters who Shinobu stocking zombies!" said one of the ninjas in vain.

"Why don't we not have the appreciation of Master Tencong? There are so many ninjas, and only the three of us are sent out to do this kind of thing. I am afraid that now the other ninjas have found accommodation in Hioki City. Now they are. It should be asleep in dry pajamas, covered with warm quilts!" Another ninja said.

"Let's complain less. In fact, Master Tiancong in the abdomen doesn't approve of us, but it's good for us. We must know that Li Sang, who we are going to deal with tomorrow, is quite powerful. I heard that Naruul Island, Miyazaki and The guardian Shangnin in Kumamoto Prefecture was killed by him alone! Since we can't get the attention of Master Tiancong in the abdomen, then we will hide among the zombies and let the other Shangnin fight!"

"I'm afraid that Master Tian Cong in the abdomen will let the three of us go to die!"

Having said this, there was a sad expression on the faces of these upper ninjas.

"Why... How about we learn Fengyu Yinbingwei?" one of the ninjas suggested.

"You mean to take refuge in Li Tiansang?"

"No, let's go to Honnakashu Island. We were originally Iga Ninjas, but of course we returned to Iga. Why did we send the belly Ten Cong to death?"

"Return to Iga? Does this work? After all, we followed this belly-sama Tiancong and betrayed the Iga Ninja Organization..."

"Fuzzy, we left the Iga Ninja Organization with Master Tiancong without knowing it. After we learned of betraying Iga, the three of us couldn't sleep at night!"

"Yes, yes!"

"But can we run away now? If you disturb Master Tiancong in the abdomen, we will die without a burial place!"

"..."

The room fell into silence again.

After the several ninjas baked their clothes to dry, they put on their ninja suits, and then they frowned and didn't know what to do.

I don't want to die, but I am afraid of death, even ninjas are no exception.

At this moment, there was a scream outside the house.

"Boom Rumble"

Then there was a sound of destruction of houses.

"No, there seems to be a battle! Did we encounter a sneak attack?" A ninja suddenly stood up and said.

The other two ninjas also stood up, but they shouted in unison: "Great, there was a sneak attack, we can escape by chaos, so the belly Tian Cong will think we were killed!"

The three of them looked at each other and immediately laughed.

At this time, a Zhongnin rushed in from the door in a hurry, and said to the three Shangnin:

"Da...sir, it's not good, we encountered an attack, those guys are very powerful, we Four or five Zhongren have been attacked by them!"

One of them walked a few steps to the front of Zhongnin, stretched out his hand and slammed onto the front door of Zhongnin, the head of Zhongnin was directly crushed by this name, his black mask The face towel was infested with blood instantly. The Shangren stretched out his hand and directly pushed the Zhongren into the fire.

"Go! We have no retreat!"

After the three Shangren rushed out of the house, through the faint moonlight, they saw that under the moonlight, a short man kept attacking the zombies who rushed with his fists.

The majority of these zombies are at level 6 to 9 directly, but these hundreds of zombies have no resistance at all in front of this short man. They are completely side-to-side slaughter, and even the bones of those zombies are long. When the thorn stabbed at the man, the three Upper Ninja could still hear a metal-like crash.

This person is Tang Xiaolong.

Tang Xiaolong and others came out of Ruhr Island riding a mutant bat, and later encountered Feitian Yasha.

Feitian Yasha has been monitoring this abdominal sky cluster since it entered the territory of Ruhr Island County, so Feitian Yasha knows the location of the zombie team and ninja team in the abdominal sky cluster.

Under Feitian Yasha's agent, Tang Xiaolong and others launched a surprise attack on these zombies and ninjas.

As soon as they met, Tang Xiaolong and the others killed five Zhongren.

"boom!"

Tang Xiaolong slammed a zombie with a punch, and actually directly interrupted the two bones that the zombie was blocking in front of his head. The fist fell heavily on the zombie's head and directly blasted the zombie's head. broken.

The black liquid splashed all over, and the zombie's body fell softly to Tang Xiaolong's feet.

At this moment, there were at least nearly a hundred zombies under Tang Xiaolong's feet.

"So strong! This guy has at least the strength of Shangnin!" These three Shangren thought in their hearts.

"Go!" The three looked at each other and quickly disappeared into the night.

In the sky, a group of bats kept flying back and forth. After so long, these bats have continuously swallowed corpse crystals, and now they have reached level 11, that is, the strength of level ten zombies.

Because the combat effectiveness of these mutant bats is also not weak.

"call!"

The silhouette of a mutant bat passed by in the night sky, and the mutant bat had already caught an eighth-level zombie in its two claws.

These eighth-level zombies were talking a lot of bird language in their mouths, and their two arms had turned into long bones, and they were about to pierce the body of a mutant bat.

But as soon as his arms turned into white bones and long thorns, his body was suddenly thrown into the air by the mutant bat, and then the two claws of the mutant bat cut the eighth-level zombie like they were cutting fruits. It became a few pieces, and even the head was cut open.

While the corpse crystal was falling, the mutant bat flew over quickly, swallowing the corpse crystal directly into its stomach with one mouth.

At the same time, other mutant bats are constantly devouring the corpse crystals of other zombies.

Xiao Tianyi jumped off the mutant bat, and was immediately surrounded by hundreds of zombies.

But these zombies besieging Xiao Tianyi just came over, and they immediately felt the powerful force on Xiao Tianyi.

Level suppression, and there is more than one level.

Although behind these zombies are controlled by the sound of whistle, the zombies are ordered to besiege Xiaotianyi, but these zombies keep pushing, but they have not always dared to approach Xiaotianyi.

At this time, two zombies squeezed out from the group of zombies. It is said that they are two zombies. To be precise, they cannot be regarded as two zombies, because they are conjoined zombies.

That's right, just like other conjoined people, the bodies of this pair of zombies grow together.

This zombie has two heads, four arms, and more than half of the two bodies are connected together, and the abdomen is the common body of the two zombies.

Before the end of the world, because they were Siamese, the two brothers suffered while alive, and always had to accept the strange look of others.

Just when the end of the world came, the two brothers became zombies, they immediately adapted to the end of the world, and the two brothers joined forces to hunt, and hunted all the zombies on the whole street that had seen them both with strange eyes before.

After these three years of hunting, the twins have reached the eleventh level, which is already quite high in West Jiuzhou Island.

If it weren't for the three corpses to come to Dongying Island, the two of them should guard a certain small town, and be domineering in the small town. But the appearance of the three corpses allowed those **** ninjas to master the method of controlling the zombies, and the twins were forced to become zombies under the control of the abdominal sky cluster.

After being controlled by the abdominal sky cluster, the pair of conjoined zombies were carefully taken care of by the abdominal sky cluster. Now the level of the conjoined zombies has reached the fourteenth level, which is already one of the highest levels in the abdominal sky cluster zombie army.

As soon as this Siamese zombie came out, he saw the strange look on Xiao Tianyi's face again.

The two brothers couldn't help but furious:

Chapter 3927: Welcome ceremony (2)

"court death!"

Xiao Tianyi looked at the expressions of the two zombies, and knew the meaning of these two words without translation!

After the two zombies shouted these words, their bodies suddenly began to change.

First, the two legs of the zombie gradually turned into long and thin white bone thorns. Then the zombie's four arms became four different weapons, and at this time, the necks of the two heads of the zombie also changed. It's like a snake.

After this zombie turned into this appearance, it suddenly began to run in the direction of Xiao Tianyi. In just two seconds, the Siamese zombie had already rushed to Xiao Tianyi's side.

Then the bone weapon that the four arms had transformed slashed towards Xiao Tianyi.

"Chang!"

The four bone weapons slashed heavily on the long bone knives that Xiao Tianyi's arm had transformed into, making a metal-like crash.

Xiao Tianyi's face showed a sneer: "You are uncomfortable when you are alive, and you will also receive strange eyes from others when you become zombies. In that case, let me help you!"

Although these two Siamese zombies have reached the fourteenth level of strength, in front of Xiao Tianyi, they are not enough to see them.

Xiao Tianyi violently used force, only to block the four bone weapons.

And the long bones that turned into the two feet of the Siamese zombie have pierced into the ground, even if the weapon is blocked, the steps of the Siamese zombie are still motionless. Then the four bone weapons of the Siamese zombie began to pierce Xiao Tianyi like a storm.

Densely dense, like raindrops, Xiao Tianyi wanted to resist that which was already impossible.

Xiao Tianyi touched his legs gently, and his body had already leaped back suddenly.

"Fool, your legs are pierced into the soil, so you don't have to step back, but you don't want to catch up with me!" Xiao Tianyi said with a smile.

And after Xiao Tianyi jumped out, the long bone sword that his arm had transformed into a sharp slash towards the row of zombies behind him.

"Huh!"

This white-bone long knife is also extremely sharp. With the addition of absolute level suppression, those zombies did not even have the opportunity to resist. Seven or eight of them were chopped into several pieces by Xiao Tianyi with a single knife. The black mucus and internal organs flowed all over the place.

Those zombies that are not dead, only half of their bodies are left, still crawling slowly on the ground, trying to avoid the attack of Xiao Tianyi. But these zombies had not crawled a few steps before they were torn and eaten by other zombies.

In this regard, Xiao Tianyi is not surprised, after all, he is also a zombie, and he often does this.

And more zombies knew that it was impossible to avoid them, shouting vague words, rushing towards Xiao Tianyi like suicide.

"Chang!"

"Chang!"

Unfortunately, the level of these zombies is too low, their bone spurs are on Xiao Tianyi's body, and even Xiao Tianyi's skin is not pierced, let alone hurt Xiao Tianyi.

"Huh!"

Xiao Tianyi swung the bone long knife horizontally, and instantly opened the belly of seven or eight zombies.

At this time, the Siamese zombie rushed towards Xiao Tianyi again, and when there were other zombies in front of the Siamese zombie, the Siamese zombie slashed its weapons at the zombies that stood in front of him without hesitation.

"Huh! Life and death!" Xiao Tianyi snorted coldly.

Xiao Tianyi controlled the white bone long knife in his hand and turned it into a big pass knife, kicking the zombies blocking him with three fists and two feet, then screamed, and jumped up on the spot.

Xiao Tianyi jumped up to be at least three or four meters high, jumped directly over dozens of zombies, and then the Dagan knife slashed towards the conjoined zombies.

Strike Huashan!

This kind of aura instantly made the low-level zombies under the Bone Swordsman lose the will to resist and collapse to the ground.

The Siamese zombie was also aware of the danger, and blocked the four-armed weapon in front of him, and even dozens of white bones stretched out from the body to make a pair of white bone armor, which wanted to withstand the small skywing. attack.

"Crack!"

The sound of "click!" instantly destroyed the beautiful fantasy of this Siamese zombie.

The white bone master knife cut the four bone weapons easily, and again with unmatched power, the white bone armor was cut open again, and it landed on the position where the two bodies of the conjoined zombies were connected. It's as if the blade is cutting through the silk, one stroke to the end.

And these conjoined zombies immediately became two zombies, two zombies with only one leg.

The two zombies were unstable and fell to the ground.

At this time, Xiao Tianyi had already landed on the ground, and his legs were energized again, and his small body flew up half-horizontally, and the Bone Guan Knife in his hand drew a white arc in mid-air and cut it sharply. On the head of one of the fourteenth-level zombies.

"Do not!"

The other half of the fourteenth level zombies let out a miserable cry.

Brotherhood!

Although the two are conjoined people, because of this special existence, they suffer discrimination from others, but it is precisely because of this existence that the two brothers have an extraordinary relationship compared to other brothers.

Now, as one of them, he watched the other be beheaded, but he had no way to stand up. He could only use two arms to support his body to move. Even if he was a zombie, he felt the pain very clearly. .

"No! You can't die! You can't die!"

The two arms of this zombie kept supporting the body and moving forward, and behind him, the internal organs and organs flowing out of his body showed a dark trace.

Xiao Tianyi took two steps forward, waiting for the zombie to reach the corpse of the fourteenth-level zombie, then raised the Dagan knife in his hand and chopped it down heavily.

There is no suspense.

This Siamese zombie did not cause any harm to Xiao Tianyi, so it was easily beheaded by Xiao Tianyi.

Xiao Tianyi's strength is now close to the seventeenth level, how can such fourteenth-level zombies be able to resist.

Kill!

The whole village is a slaughterhouse, and Xiaotianyi and Tang Xiaolong are violent butchers, and those zombies controlled by Zhongren are the lambs to be slaughtered.

This team is composed of three thousand zombies controlled by three Shangren and ten Zhongren, but at this time, these three thousand zombies have been killed and injured by more than half.

"No! The strength of these sneak attackers far surpasses us, but our Lord Shangnin doesn't know where to hide, we are not the opponent of these people at all." A female ninja said.

"You evacuate first! Go to Hioki City to report to Master Tencong Abdomen for support!" said another ninja.

"Hi! I will be back as soon as possible!" The female ninja turned and flashed into the darkness.

But it was too late.

The female ninja did not run out for several tens of meters, and suddenly there was a sound of iron chains in the darkness, and then an iron chain flew out of the darkness and blasted the female ninja heavily. The female ninja leaped back, evading the attack of the iron chain, and the hidden weapons, darts, and shurikens on her body were already raining into the darkness in the next second.

But the iron chain turned suddenly, as if it were a swaying iron rod, and knocked down all the hidden weapons that came over.

"This person is so strong, I can't fight with him here, otherwise our team may all be damaged here." This female ninja thought in her heart.

Thinking of this, the female ninja suddenly threw a smoke bomb on the ground. As the smoke rose, the female ninja dropped her feet on the ground and flew up suddenly.

The female ninja wants to jump on the roof and run away.

But her body had just flew up, but the iron chain had already gotten into the smoke, and it was tangled around the female ninja's leg like a flexible snake.

With a sound, the iron chain yanked down, and the female ninja just flew up and landed heavily on the ground.

Even with two airbags on her chest, this female ninja was hit hard.

"Hey, you can't go!" Kobi gave a smirk, pulled the chain, and slowly walked out of the darkness.

When attacking the characters this time, Kobi did not appear to be so brilliant under the aura of Xiaotianyi and Tang Xiaolong, but this was not to say that Kobi was not strong. Although not comparable to Tang Xiaolong and Xiao Tianyi, Gao Bi now has at least the strength of a level 15 zombie.

And the reason why Kobe didn't perform was because he couldn't lift the energy at all.

If there are beautiful female zombies among these zombies, then Kobi might perform well.

After the female ninja landed, she kicked away the iron chain wrapped around her legs with her feet, and suddenly drew a ninja sword from her back, thinking that Kobi stabbed it.

The cold light flashed, and the blade had already approached Kobi's body.

There was a look of disgust on Kobe's face.

"Not cute at all!"

On one side of Kobi's body, he avoided the attack of the blade, and then shook his right hand. The iron chain was waved up and down, and the iron chain was directly wrapped around the female ninja like a python. The chain was ten meters long, and the female ninja was entangled like a zongzi.

"drink!"

Kobi yelled, shook the iron chain in his hand again, and directly shook the female ninja in the air. Then the iron chain slammed a red light and hit the female ninja hard.

"Snapped!"

With a loud noise, the female ninja turned into a human firework, and she was directly exploded by the body drawn by Kobi's iron chain.

"escape!"

After the remaining ninjas knew that they would not be Tang Xiaolong's opponents, they immediately issued an order to escape, and then these ninjas didn't even care about controlling the zombies, so they wanted to escape from all directions.

"No need to chase!"

"Kill! We will withdraw after killing these zombies!" Tang Xiaolong shouted.

Not long after Tang Xiaolong's words fell, Shen Tao's figure slowly appeared in the darkness.

Shen Tao used a tree vine to pull a huge crystal, and in that crystal was a corpse whose body was pierced by the crystal tip.

Standing on top of Shen Tao's head, Feitian Yasha looked like a triumphant general, and said pretentiously: "Little Shen Tao kills the upper hand!"

Chapter 3928: it has started

"Shen... Shen Tao killed Shang Ren? How is this possible?"

Tang Xiaolong, Xiao Tianyi, and Gao Bi all looked at Shen Tao dumbfounded.

But the corpse in the crystal behind Shen Tao couldn't lie, and even Feitian Yasha could not lie.

"boom!"

Tang Xiaolong hit a ninth-level zombie with a punch, and a hole was immediately exploded in the chest of the ninth-level zombie, and after the ninth-level zombie flew out, he smashed a dozen zombies behind him.

At this time, Tang Xiaolong seemed to be stimulated by Shen Tao, with full firepower, his fists and legs kept banging on and holding the zombies surrounding him.

With one punch down, the body of the hit zombie will inevitably explode, and if you kick it out, the zombie will inevitably be kicked to fly.

At this time, this scene is almost similar to the scenes of the black-clad axe gangs fighting in Master Xing's Kung Fu. The difference is that the people in black in Master Xing's movie are flying intact, and at this time these zombies are fragmented. Flew up.

Tang Xiaolong didn't have to be strong, but from the beginning to the end, he thought he was the strongest man after Li Tian, but after Ouyang Man returned, his strength had surpassed Tang Xiaolong.

"Well, you Ouyang Man is a zombie, because you have obtained a secret method, we don't have the same knowledge as you."

"But what about Shen Tao? This kid's strength is far inferior to mine, so why did he get him to kill Shangren first?"

Since you can't win in terms of quality, then you can win in terms of quantity. It is also good to kill a few hundred more zombies above level 6!

As a result, unfortunately, these zombies became Tang Xiaolong's tools for venting his anger.

Xiao Tianyi changed the Bai Bone Dague Knife back to the shape of his arm, came to Shen Tao, and asked doubtfully: "Daddy Xiaolong, what is the excitement?"

Shen Tao shook his head and said, "I don't know! Could it be because of the Shangnin corpse that I brought back? I originally wanted to drag the Shangnin corpse back, and hang it in front of the city wall tomorrow to give a little to the sky in the abdomen. Getting off the horse, I didn't expect Brother Du Xiaolong to be irritated! Otherwise, I'd better destroy this corpse!"

"Don't... don't, can you give me a snack?" Xiao Tianyi said drooling.

Feitian Yasha said: "This corpse is still useful and can't be eaten for you for the time being! Let's transport it back according to our previous plan!"

Seven or eight minutes later, except for the zombies that fled, the entire village was full of zombies.

Three thousand zombies, but only one thousand escaped in the end. The number of zombies that were beheaded exceeded nearly two thousand, and among these two thousand zombies, nearly one thousand or one hundred were beheaded by Tang Xiaolong. The remaining more than 900 are only the number that Kobi and Xiaotianyi have smashed together.

Tang Xiaolong is super **** tonight.

At this moment, Tang Xiaolong's body was covered with black mucus and zombies' visceral fragments, and his clothes had already been infested by these things.

"Huh!"

"Huh!"

Tang Xiaolong gasped for breath.

It wasn't until he stopped that Tang Xiaolong realized that his arms and legs were trembling slightly, and it felt so hard to lift both arms.

This kind of feeling Tang Xiaolong only experienced this kind of fatigue when he first used the ten-fold refining to fight with the scarlet blood on the top of the Tianshan Mountains. The difference is that although Tang Xiaolong is currently weak, he can feel that his body is like a source of strength, as long as he continues to run the ten-fold refining body, the power will flow continuously in the body.

"This time our welcome ceremony is warm enough, if the belly Tian Cong knows about it, it will definitely not let it go. Don't stand stupidly, quickly clean up the corpse crystal, and we will go back!" Tang Xiaolong said.

...

In a luxurious villa in Hioki City, after listening to the report of the escaped ninja, the muscles on his abdomen Tian Cong unconsciously jumped slightly.

"You said one of our zombie legions was attacked?"

"Back to your lord! Yes!"

"You said that our zombie legion suffered a heavy loss? There were three thousand zombie legions above level 6, and you brought back no more than three hundred?"

"That's right! Your lord! There were hundreds of zombies who escaped when we flee back to report the letter!"

"You said that the three Shangren-sama did not show up when they were attacked. Maybe they were dead? And you are the only one of the ten Zhongnins who escaped back?"

"Yep!"

The abdominal clump asks three questions in a row, and the muscles on the face of the abdominal clump beat slightly with each question.

And every time the Zhongren who was kneeling in front of Tian Cong answered a question, a few drops of sweat on his forehead would drip onto the ground.

The coercion of the sky cluster in the abdomen was too strong in the past, even if this Zhongren kneeled in front of him, he was already sweating profusely, let alone answering such questions!

"Good! Good! Good!"

"Since they are all dead, why do you still have the courage to come back? Who gave you the courage to come back?"

"Big...sir, among the four precepts of the ninja..."

"You look up at me!" Tian Cong said coldly in his abdomen.

Although fearful, Na Zhongren raised his head tremblingly, but as soon as he raised his head, he saw a blade flying towards his neck.

"Huh!"

The ninja subconsciously stepped back half a step, but the blade flew in and scratched his neck.

"Gooooo"

"Gooooo!"

The ninja felt blood coming out of his neck continuously. The ninja wanted to reach out and hold the wound on his neck, but found that his brain had fallen to the ground, and he grunted forward. Rolling.

After cutting off the ninja's head, the blade of the abdomen Tiancong whirled and flew into the hands of the abdomen Tiancong.

"Tell me about the Four Commandments of the Ninja, looking for death!" Tian Cong said coldly, licking the blood on the blade with his tongue.

At this moment, the man wearing glasses in this room was silent, his body was shaking involuntarily, his head lowered and he did not even dare to look at the sky in his abdomen.

"You, pull out the corpse of this trash for me, and reward those zombies who escaped with this trash!"

After the man with glasses dragged Zhongren's body out, Tian Cong said to himself with a sneer: "Li Tian, I want you to live one more night, but you won't let me add to it."

"Okay, very good, very good! You let me add a blockage all night, I want you to have no chance to add a blockage"

"Give my order and gather all the staff! Head to the city of Ruhr overnight!"

The abdomen Tian Cong said coldly: "Fight! It's started!"

Chapter 3929: Dawn dark

Situ Ningbing knew that the sky clump in the abdomen would come for revenge, but he did not expect that the sky clump in the abdomen would come so quickly. .

Before dawn, at the darkest time of the night, the city of Ruhr was already covered in darkness.

The team of fifty thousand zombies, even if Tang Xiaolong and the others killed two thousand, it was still a drop in the bucket.

The more than 48,000 zombies still looked dark from a distance.

But fortunately, the sky cluster in the abdomen still seemed to be jealous, so he did not start attacking Ruhr Island City, but Situ Ningbing knew that this time would not be too long. Once dawn broke, the sky was slightly bright, and the sky cluster in the abdomen The order to attack will definitely be given!

This time, the number of soldiers dispatched by the Cangshan ship reached 800. Although these 800 soldiers were ordinary soldiers, relying on the tall city walls, the combat effectiveness of these soldiers should not be too weak. The only thing that worries Situ Ningbing is whether this shell can break the defense of those high-level zombies.

The number of these 800 people seems to be a lot, but Situ Ningbing understands that if the zombies and ninjas attack this city wall, then these things will probably become helpless, and by then they will be able to Only Ouyang Man and himself were fighting.

At this time, Ouyang Man was wearing an armor with his heavy sword in his hands, standing on the wall, looking at the black zombie from a distance, silently as if it were a statue.

Situ Ningbing didn't know what Ouyang Man was thinking. As a zombie, maybe he didn't have any thoughts in his heart? But at this time, with a powerful presence like Ouyang Man around him, Situ Ningbing's heart could be slightly settled.

Feitian Yasha flew another circle in the black sky, and slowly landed on Situ Ningbing's shoulders, and said: "They did not act secretly, but they have already begun to move forward slowly, and they are not far from under our city wall. It's a few kilometers away!"

"Good job! Di Xing Yaksha and Void Yaksha are not here, I can only rely on you and Haiyasha, and that Haiyasha must guard the sea to prevent the zombies from attacking from the coastline, and also guard the Cangshan ship, so this I can only rely on you for Ruhr Island City!" Situ Ningbing said.

Feitian Yasha's face immediately showed an expression of excitement, and he patted his chest and said, "Don't worry, after practicing in retreat, my current strength has greatly increased. And my natal skills are already proficient, and I can now use them proficiently. Dark cage, I will let these **** zombies and ninjas see how good I am when that happens!"

"It's a pity that Master Li Tian is not here, and neither are Dixing Yasha and Void Yasha, otherwise they would definitely admire me!"

Situ Ningbing knew the strength of the Earth Traveling Yaksha, especially after his natal power, Quicksand Storm, could easily destroy a city, but what kind of power effect does the dark cage of the Flying Yaksha have, Situ Ningbing didn't know.

But now it doesn't seem to be expected anymore!

"If Dixing Yasha and others can kill all the zombies, and Ouyang Manneng and others can win the battle against the other Shangren, then in the end only the abdomen sky cluster will be left, and I will be the only one to fight. The Bailian Po, which I learned through Qingyun Qi Jue, can cause damage to the abdomen sky clump!"

"Li, where are you right now? If you can hear my prayer, come back quickly!" Situ Ningbing thought in her heart.

On the northern wall of the city wall of Ruhr Island, Tang Xiaolong stood at the corner of the city wall and looked at the black and crushed zombies on the west side, his heart already igniting war.

After Tang Xiaolong came back, he simply washed the stains on his body, changed into a set of dry clothes, and came to the top of the city wall, but Tang Xiaolong and Shen Tao were stationed on the north wall according to Situ Ningbing's request.

"Kazejian Yinbingwei, Shen Tao, this abdominal sky cluster will definitely attack the West City Wall with all its strength, so once the battle begins, I will run to the West City Wall to support Situ Ningbing. You two must guard the North City Wall!" Tang Xiaolong said to Fengjian and Shen Tao.

"Brother Xiaolong, I might as well support Sister Ningbing. After all, my ability is more suitable for defense! Or you can stay on the northern wall!" Shen Tao said.

"Fart, it's because your ability is more suitable for defense, that's why you stayed on the north wall. That's the decision. Don't talk nonsense to me!" Tang Xiaolong said arbitrarily.

On the southern city wall of Ruhr Island City, the mysterious female Lily, Gaobi, Xiao Tianyi and Xue Ji stood on the wall tens of meters apart, while Xue Jihe stood on the corner of the southwest city wall.

"I can't see it, I can't see it at all!" Standing on the corner of this city wall, Xue Ji couldn't see the zombies in the distance, and she couldn't help but feel a little worried.

Xue Ji knew that although Situ Ningbing and Ouyang Man were surrounded by 800 soldiers from the Cangshan Ship, those soldiers were really not enough to tell the truth, and they were stationed at the West Wall, the longest battle line, so Xue Ji In fact, he also wanted to go to the West City Wall to support Situ Ningbing.

But Xue Ji knew that if he left the southern city wall, once the people in the abdomen sky clump attacked from here, then this place would become very dangerous.

"I can't move! As long as you guard the southern city wall, it will be the greatest help to the entire Ruhr Island City!" Xue Ji thought in her heart.

The darkness before dawn gradually passed, and the horizon in the east had already turned white. This was a sign that the sun was about to rise. At this time, the stars on the firmament gradually receded, and the sky turned gray.

At this moment, Situ Ningbing saw that the zombies in the distance finally started to move.

At the beginning, these zombies just moved slowly, and in the blink of an eye they turned into fast walking, and those zombies in the blink of an eye turned into galloping!

The zombies rushing in the front were on all fours, and in the darkness of dawn, one by one flashed and rushed towards the wall of Ruhr Island.

"Boom!"

These tens of thousands of zombies stepped on the ground, and the real army rushed over. In front of such a mighty team, Situ Ningbing felt that no matter how strong his personal strength was, he would become so small.

"Boom!"

The whole earth seemed to be shaking, and the sound of the footsteps was like drums, which made the soldiers on the wall sweat involuntarily and their bodies stiff.

Behind the tens of thousands of zombies are rows of cars.

At this time, these cars were fully powered on, following these zombies.

Among them, a luxury car with a convertible top appeared extremely conspicuous, and at this time, it was the abdomen sky cluster standing on this car.

Holding a long knife in his abdomen, Tian Cong waved it forward and shouted at the zombies:
"Kill!"

Chapter 3930: kill

At the beginning of the battle, it was horrified.

Eight hundred soldiers of the Cangshan ship controlled the heavy machine guns and bazookas and began to fire continuously.

The bullets flew down from the city wall like raindrops, and rows of low-level zombies were hit by bullets.

This bullet can barely break through the defenses of these zombies. Under this heavy firepower attack, some zombies' legs and bodies were all blown away.

These zombies that had lost their support suddenly fell to the ground, and then they were trampled by the zombies that surged from behind, and there was no chance to get up again.

"boom!"

"boom!"

The shells of the bazooka kept falling among the zombies, immediately blowing up the bodies of those zombies. What's more, the shells would directly fall on the zombies, breaking the zombies to pieces.

However, this dead zombie is just a drop in the bucket!

Forty-eight thousand zombies, only a few hundred can die under this attack.

At this time, those zombies had already rushed under the city wall.

After these zombies rushed to the foot of the city wall, they frantically attacked the city wall with their claws and even their teeth. However, the wall, which looked like an ordinary rock, was also extremely strong. Even if the zombies attacked desperately, the wall was nothing but Just leave some traces.

You must know that although this rock is an ordinary rock, it is a city wall built by the Ethereal Race.

When the Void Spirits build the city wall, they will add a substance secreted from their bodies into the rock, which will make the city wall resistant to erosion by wind and rain, and make the city wall strong enough to stand for thousands of years. Does not fall.

Those zombies were ineffective in attacking the city wall, so they started thinking about climbing on the city wall.

However, there is only a gap of less than half a millimeter between each rock on the city wall. Even if it wants to insert an embroidery needle, this gap is very difficult, let alone they climbed.

However, these zombies are zombies with human wisdom, and they soon found a way to deal with this city wall, that is, to take a human ladder.

To be precise, take a zombie ladder.

The zombies that first rushed under the city wall turned into cannon fodder, and their bodies soon began to change. The bones of the whole body pierced out the body, allowing their bodies to stretch as much as possible.

The other zombies climbed up on this layer of zombies, and then these zombies began to change again.

Layer by layer, pile up a channel leading to the top of the city wall with the body of the zombie.

The soldiers of the Cangshan ship knew that their attack power was limited, but none of them stopped by defiantly.

"boom!"

"boom!"

These shells kept falling in these zombies piles, and the zombie ladders that piled these zombies blew up.

However, there are too many zombies.

These more than 40,000 zombies stretched on the wall of the city for more than two kilometers, and filled the corners of the city wall like locusts. These dozens of shells fell, and the dead zombies would soon be replaced by the zombies behind. on.

The firepower was too fierce. It took only half an hour from the start of the battle to knock out the shells and bullets on this city wall.

However, the attack of the zombies has not been beaten down. Instead, a dozen zombie ladders with a height of more than ten meters have been erected on the edge of the two-kilometer-long city wall.

The zombies behind kept climbing up the ladders of these zombies, seeing that in less than ten minutes, these zombies would attack the city wall.

Moreover, up to now, the upper ninjas in the Tian Cong Ninja organization of the abdomen Tian Cong have not shown their faces, and the abdomen Tian Cong has not done anything.

"Master Situ Ningbing, let me use the dark cage!" Feitian Yasha said.

Situ Ningbing shook his head slightly, and said, "No! It's not that time yet!"

Just now, Situ Ningbing had already communicated with Feitian Yacha about the dark cage.

Situ Ningbing knew that this dark cage is not actually an offensive skill, more like a defensive function, but what exactly does this skill look like, what effects it can achieve, and how long it can last, Situ Ning Bing doesn't know, nor does Feitian Yasha.

That being the case, Situ Ningbing's skill was intended to be used when he was forced to last.

But by then it will not be offensive or defensive. It is very likely to retreat!

And at this moment, the zombie ladder built by the zombies finally reached the wall, and a zombie was about to climb up with its teeth and claws.

At this time, a soldier of the Cangshan ship carried a rocket launcher and fired directly at the zombie.

"Boom!" With a loud noise, half of the zombie's body came up, and was taken by this shell to fly out. After flying seven or eight meters, it exploded in the midair.

Situ Ningbing was holding a butcher knife and God Tushen just wanted to go to help, but found that zombie claws had appeared on the wall in front of her.

"Huh!"

"Huh!"

Situ Ningbing rushed over, chopped off the claws of the zombie with two knives, and then directly stab the zombie with a butcher knife.

"No, if this goes on, this city wall will soon be taken by the zombies!" Liu Guoqiang shouted impatiently.

But what can be done at this time?

Situ Ningbing found that he still looked down on the zombies too lightly, and these were all zombies above level 6. In China, the tide of corpses formed by such a large number of high-level zombies can easily destroy a small city.

"My sons, now we are in Dongying Island, and now we are standing on the land of Dongying Island. Attacking here is the dream of many of us, and we are fighting for this dream! Children, fight for our glory That's it!" Liu Guoqiang said with red eyes.

But at this moment, Situ Ningbing saw a dozen of the soldiers of the 800 Cangshan ship suddenly stood up. These dozens of soldiers saluted Liu Guoqiang with a simple smile on their faces. Jumped down from this wall.

And before the bodies of these soldiers fell to the ground, an explosion suddenly occurred.

The suicide attacks of a dozen soldiers had an immediate effect. Ten of the dozen zombies were bombed and collapsed, and the remaining zombies also collapsed in half.

Those zombies who were lucky enough to climb the city wall were also beheaded by Ouyang Man three times.

The danger of the western wall of the city of Ruhr was temporarily relieved.

The danger is temporarily relieved, but it is extremely tragic.

"What's going on? Liu Guoqiang, I need you to explain to me!!" Situ Ningbing asked Liu Guoqiang angrily.

Liu Guoqiang stretched out his hand to untie his clothes, revealing the dense grenades inside the clothes, and said: "The loyal bones are buried everywhere in the green mountains. We can die on the land of Dongying Island in this way. This is our glory!"

Situ Ningbing, who was rarely angry, was furious at this moment.

"Fart, **** your shit! Did Li Tian and I bring you to Dongying for your death?"
