

A Killer 3941

Chapter 3941: Fighting Orochi (1)

That's right, Li Tian is back. .

When flying to Ruhr Island City, Li Tian already felt Feitian Yasha's irritability, and then Li Tian ordered Feitian Yasha to fly forward.

Later, when the mutant crow flew to Ruhr Island Bay, looking down from the sky, Li Tian saw that the Cangshan ship was rapidly advancing towards the direction of Kirishima City. As soon as he saw the Cangshan ship, Li Tian knew Ruhr Island. I am afraid that the city has been captured, and this Cangshan ship should have encountered some danger to flee in such a haste.

Soon, Li Tian saw Yaqi Orochi chasing the Cangshan ship.

Although Li Tian has some understanding of the mythology of Dongying, the Yaki Orochi is a mythology after the **** of fire and earth fate. There is no such story in the Kirishima Shrine, so Li Tian only faces the Yaki Orochi. It can be described by one word monster.

However, the power released by this monster made Li Tian feel shocked.

You must know that Li Tian is above the sky at this time, at least a thousand meters away from the Yaqi Orochi, but he can still feel the powerful power of the Yaqi Orochi. It is easy to understand why the Cangshan ship is on board. With Tang Xiaolong, Ouyang Man, Feitian Yasha and Hai Yasha, they would escape.

At this moment, the Orochi Orochi was approaching the Ship Cangshan step by step, and Li Tian could almost imagine the scene of the Orochi Orochi using eight heads and a huge body instantly knocking the Ship Cangshan over and dragging it to the bottom of the sea.

"No! With me Li Tian here, I absolutely will not allow anyone or any monster to hurt my people!" Li Tian thought determinedly in his heart.

But at this moment, the mutant crow had already experienced exhaustion. Although the two wings were flapping, the momentum had gradually disappeared. Even the mutant crow's head was lowered, and it had begun to plunge downward.

Fortunately, the mutant crow was not very far away from the Cangshan ship at this time, but according to Li Tian's calculation, this mutant crow might rush into the sea.

When it's extraordinary, do extraordinary things!

Li Tian stood up abruptly, holding the Qiong Spear of the sky, and carrying a few purple lightnings on his body.

Li Tian gently stepped on the back of the mutant crow and jumped towards the Cangshan ship.

When Li Tian left the back of the mutant crow, Li Tian had already communicated with the Void Yasha, letting the Void Yasha send the mutant crow and the small hot pot into the space of the Void Yasha.

And Li Tian's body was like falling stars falling rapidly towards Cangshan Ship.

While in midair, Li Tian controlled the combination of "Red Slash" and the nine-color corpse crystal in his atrium, forming an armor on Li Tian's body.

"boom!"

Although Li Tian had already teleported several times in actual combat before landing, Li Tian's body still slammed heavily on the splint on the stern of the Cangshan ship. Then I don't know what material the splint was made by Li Tian stepped on. A large hole with a diameter of more than one meter, and the splints around Li Tian's body were sunken in a large circle.

Li Tian descended from the sky and landed smoothly.

At this time, Li Tian had a layer of scarlet skin armor, and purple lightning bolts on the armor, and besides the purple lightning, there was another layer of phantom, which was the "Red Slash" sword spirit. A powerful aura of non-masturbation began to spread on Li Tian, and instantly swept the entire Cangshan ship.

When the gods descended to the earth, Li Tian at this time seemed to be able to only use this word to describe it.

Tang Xiaolong, Gao Bi, Shen Tao and others stared at Li Tian blankly. The eyes of these three goods were shining with little stars. If it weren't for fear of Li Tian's aura at this time, I'm afraid he would have run over to hold Li Heaven's thigh.

Ouyang Shiqing, Xue Ji, Duan Muying and other women stared at Li Tian dumbfounded. At this moment, the deer in their hearts slammed into an excited and proud mood. Although they had never been close to Li Tian, they seemed to try their best Pretending to be calm, but their eyes have betrayed them.

Situ Ningbing adjusted his excitement, walked a few steps quickly and came to Li Tian, also looking at Li Tian in admiration. After a few seconds, Situ Ningbing gradually woke up.

"Li, are you back?"

"I am back!"

"The city of Ruhr did not hold it!"

"It's okay, I'm back!"

"The monster chasing us came from the sky cluster in the abdomen. It's amazing! Feitian Yasha and Hai Yasha can't stop him!"

"It's okay, I'm back!"

It was just a simple conversation, as simple as meeting to say hello, but this simple conversation made Situ Ningbing's heart so calm.

If it were not for the chasing of Yaqi Orochi, it must be the time for Li Tian and many women and many brothers to get together, but now Yaqi Orochi will not give Li Tianhuan time to gather, nor will it give Li Tian and Situ Ningbing. Time to speak calmly.

The Yaqi Orochi has caught up.

"Feitian and Haiyacha, come over to me, I need your help!" Li Tian said to the two Xiaoyachas in his heart.

At this time, here is the sea, Li Tian is on the Cangshan ship, if once the fight starts, then it is very likely that the Cangshan ship will suffer.

Under the leadership of Feitian Yasha, Hai Yasha flew over and landed on Li Tian's shoulder.

At this moment, the big eight snake was close at hand, and Li Tian could already see the eight heads of the big eight snake like a hill.

Although Li Tian is not afraid, he is also cold in the face of this behemoth.

"Hahaha! You must be Li Tianba, you finally stopped hiding in the tortoise shell, and finally came out and died!" Baqi Orochi's abdomen Tian Cong head said with a sneer to Li Tian.

"Suffer to death? I think you are here to die!" Li Tian's Qiqiong spear pointed at Yaqi Orochi with a sneer.

"Haha, it's crazy!" Tian Cong sneered in his belly.

At this time, the two brains of the Yaqi Orochi had attacked Li Tian like lightning.

The snake's head has not yet arrived, Li Tian first smelled a strong **** smell, accompanied by the **** smell is the violent wind, the waves, and the murderous!

"Back! Leave it to me to deal with!" Li Tian put Situ Ningbing behind him, and said with the Qiong Spear of the sky.

Situ Ningbing nodded and stepped aside.

The waves hit the Cangshan ship, and the sea water splashed. Li Tian already felt the faint smell of sea water in the mist, but the smell of the sea water could not completely cover up the **** smell of Yaqi Orochi.

The scarlet eyes of the Yaqi Orochi are like lanterns, and the sharp snake teeth are like blades. Li Tian has no fear in the face of such a fearful monster. With a flick of the spear in his hand, he leapt from the Cangshan ship and aimed at the Oki Orochi. The head was pierced.

Chapter 3942: War Orochi (2)

Seeing Li Tian jumped, the abdominal sky cluster suddenly controlled eight heads and attacked Li Tian at the same time, as if he wanted to tear Li Tian to pieces at this moment.

However, outside of Li Tian's body is a phantom with the "Red Slash" blade spirit. Although this phantom does not have any attack power, it seems to be Li Tian's sensory system, as long as the snake's head just touched Li Tian immediately felt this phantom.

Li Tian held a gun in his right hand, raised his fist in his left hand and pointed at the snake's head with two broken soul palms.

"Boom!" Two consecutive loud bangs exploded on the head of Yaqi Orochi.

This violent explosion did no harm to the Yaqi Orochi, as if it was tickling, and the Yaqi Orochi made a squeaky sound, and continued to attack Li Tian.

But Li Tian relied on the powerful rebound force of this broken soul palm, and his body flew up in an instant, easily avoiding the head attack of these two big snakes.

Li Tian's body turned around in midair, and the Qiong Spear in his hand shook, and it slammed into the head of a big snake coming from above.

Looking at Li Tian's spear, there was a sneer at the corner of Tian Cong's mouth in his abdomen.

This Yaqi Orochi is the ultimate ninjutsu of the abdomen sky clump. Since learning this ninjutsu, the abdomen sky clump has never been defeated, and few people can hurt him.

There are no more than five ninjas and samurai who can injure the sky clump in the abdomen in the entire four islands of Dongying, and no more than three ninjas and samurai can beat the sky clump in the abdomen. As for the one who can kill the sky clump in the abdomen, it is estimated that only That fierce warrior on Benzhongzhou Island is possible!

It is precisely for this reason that after Abdomen Tiancong defected from the Iga Ninja Organization, the Iga Ninja Organization did not express much.

This is a symbol of strength.

You must know that even artillery shells and torpedo missiles can't help this Yaqi Orochi, how could the abdomen Tiancong fear the spear in Li Tian's hand?

Now, watching Xiaoli Tian actually holding a spear to stab him, Tian Cong in his abdomen is not only sneered, but also holding a kind of anger. This feeling is like an adult watching and a baby holding a toy knife at you. The brushstrokes are general.

"Break it for me!" shouted Tian Cong in the belly.

Immediately, not only did the abdomen Tiancong not evade, but instead controlled the big snake to smash the spear in Li Tian's hand forcefully.

However, the abdomen sky cluster did not hear the "crack" of the spear breaking.

"puff!"

The Qiong Spear in Li Tian's hands easily pierced the jaw of Yaqi Orochi's head.

The blood flowed down the Qiong Spear of the sky in an instant, and the heads of the big snake made a heart-piercing scream at the same time.

This Yaqi Orochi shook his head abruptly and slammed it left and right, and Li Tian was thrown into the sea.

Li Tian's body rotated a few times in mid-air, dissolving most of the strength, but this was the power that the Ochi Orochi shook when he was angry, even so Li Tian still slammed into the sea heavily.

But at this moment, a few waves suddenly flew on the surface of the sea, which seemed to be an arm, and caught Li Tian from behind.

This is exactly the role of Haiyacha's existence.

Although Hai Yacha forced the use of the mirage and suffered some physical injuries, it was easy to control the sea to lift Li Tian.

Li Tian stood steadily on the sea, as if standing on flat ground.

"Wow!" Li Tian shook his arm, shaking off the blood on the Qiong Spear of the sky.

The eyes of Tian Cong in his abdomen were shining with cold light, and he shouted at Li Tian angrily: "Impossible! Impossible! How could you hurt me?"

The sky cluster in the abdomen is proud, and there are only a few people worthy of his attention in the entire Dongying Island, and only the fierce warrior is worthy of his awe.

But now Li Tian hurt him easily, how could this convince him.

"Now I have made the impossible possible! Do you think it is possible for me to chop off all eight of your heads?" Li Tian said with a sneer.

The corner of Tian Cong's eyes in his abdomen twitched slightly, and he roared: "Rampant! It's rampant! Then let me see why you cut my head!"

In the Eastern Mythology, the Yachi Orochi was cut with a ten-fist sword by Susanoo.

Although this Yaqi Orochi is only a ninjutsu of the abdominal sky cluster, the deep part of the abdominal sky cluster is only afraid of the ten-fist sword. As for Li Tian, the belly sky cluster despises him in the eyes of the big heart.

As soon as the voice of the sky cluster in the abdomen fell, the eight heads of the Yaqi Orochi drooped slightly, and suddenly began to breathe in cold air at the same time against the sea.

Waves began to appear on the sea in an instant. At first, it was like a rock falling into the sea. It just made a circle of ripples. But soon a spiral of water began to appear on the sea. Then, The surface of the sea began to roll, the eight water columns turned into eight water dragons and were sucked into the mouth of the big snake.

The sea was rolling and turbulent, but Li Tian was not affected by the existence of Hai Yasha.

Li Tian snorted coldly, holding his spear, and started running in the direction of the Yaqi Orochi.

"Da da da!"

Li Tian's feet were constantly stepping on the surface of the sea, and his body was already like lightning, and several purple electric snakes had appeared on the spear of heaven in his hand, crackling.

It was just a breath, and Li Tian was no more than ten meters away from the Baqi Serpent.

The big snake seems to have finally realized the power of Li Tian. The eight heads are still sucking water, but the eight tails are like whips, beating them from different directions.

Teleport!

At this instant, Li Tian fought several times in a row, completely avoiding the attack of the eight tails.

But Li Tian had already jumped up abruptly, and the Qiqiong spear he held from the sky stabbed the Orochi Orochi.

At this moment, the eight heads of the Yaqi Orochi suddenly began to spray water.

The sea water entered into the mouth of the Yachi Orochi and spurted out again. It was no longer sea water, and the color of the sea water had also changed, turning it into dark green.

Li Tian could already see the white bones that the fishes and shrimps in the sea had turned into in the sea water, and in the next second, the white bones had begun to bubble, and after a few seconds, they disappeared completely.

It is poisonous, highly toxic, and highly toxic than strong sulfuric acid.

The poison has not touched Li Tian, Li Tian can already feel the danger, a few points of sea water splashed on Li Tian's crimson armor, corrosion immediately occurred, the crimson armor actually began to bubble .

Li Tian didn't dare to fight head-on, but it didn't mean that Li Tian had no chance to fight back.

Li Tian shook his hand, and several purple lightning snakes on the Qiong Lance that day suddenly rushed out of the Qiong Lance of the Sky, rushed into the sea, and faced the sea water spouted by the Great Snake.

Chapter 3943: Fighting the Orochi (3)

Li Tian directly teleported several times and flew out suddenly.

And at the moment Li Tian just got out of the way, the poisonous sea water hit the surface of the sea overwhelmingly.

When gods fight, mortals suffer.

On the surface of the sea, Li Tian fought with the big snake, and the fish and shrimps in the sea were suffering.

The color of the sea water turned into a dark green in an instant, and fish and shrimps continuously jumped out from the surface of the sea, but these fish and shrimps were still alive the moment they jumped out, but when they fell back to the sea surface again Only bones are left.

The eyes of Hai Yacha standing on Li Tian's shoulders were full of anger.

This sea is the home of Hai Yacha. Although Hai Yacha has been imprisoned in the ancient city under the sea for thousands of years, it is still very important for Hai Yacha to see the sea.

But now...

Li Tian's body flickered and landed on the surface of the sea. Although the poison on the surface of the sea was diluted, Li Tian could still feel that his shoes were corroded almost instantly, and he kept under his feet. The ground made a croaking sound.

How to do?

In a short period of time, the venom will not harm Li Tian, but once the shoes are corroded and penetrated, the poison will corrode the skin armor outside Li Tian's body, and may even damage Li Tian. Li Tian.

Li Tian can also hide in the space of the Void Yasha, but once he hides in, the Yaqi Orochi will attack the Cangshan ship without any hindrance, so Situ Ningbing, Duanmuying and others may be harmed. , And this is absolutely not allowed by Li Tian.

Fortunately, at this time, the purple electric snake that Li Tian shot had already flowed up the sea, and hit the mouth of the Yaqi Orochi in Hattori Tiancong.

"Crack!"

At that moment, the purple electric snake completely exploded in the big snake's mouth. The two sharp teeth in the big snake's mouth flew out from the violent explosion, and the inside of the big snake's mouth was also bloody. The blood dripped down the corner of his mouth.

The poisonous water that Yaqi Orochi was spraying stopped in an instant, and he tilted his head back and flew a few meters back.

This is just the power of a few purple electric snakes. Li Tian believes that if he knocks out all the seven or forty-nine purple electric snakes at once, the big eight snakes will definitely be wiped out by the explosion.

Only at this time, Li Tian's shoes had been completely corroded by the poisonous water, and the poisonous water had begun to corrode the skin armor under Li Tian's feet.

Li Tian looked up and saw that the Cangshan ship had already traveled far, but it had stopped, while Situ Ningbing and others were looking at the battle here with the telescope on the Cangshan ship.

Seeing the elation, they will cheer in excitement.

But they didn't know that Li Tian was in danger at this time.

"Haiyasha, launch a tsunami! Launch your most powerful ability to dilute this venom as soon as possible. If you can, you'd better send me, the Cangshan ship and this big snake monster to the land together!" Li Tian hurriedly responded. Said with Hai Yacha.

Haiyasha got the order and started to launch a tsunami regardless of his injuries.

The sea was turbulent again, and the sea was rippling with blue waves. Waves more than one meter high began to hit Li Tian's direction from the distance of the sea. As the waves continued to advance in Li Tian's direction, the waves became higher and higher.

One meter...two meters...three meters...

If calculated according to this advancing speed, when the wave advances to Li Tian's position, the huge wave can reach a height of at least ten meters, and once it reaches the coast, the height of the huge wave may even exceed fifty meters.

However, at this moment, Na Haiyasha coughed again and spit out a mouthful of blood.

"Yes... I'm sorry Master Li Tian, I..." Hai Yacha looked at Li Tian apologetically.

The huge wave was unable to succeed, it only diluted a part of the venom on the sea surface, but it was far from achieving the effect of detoxification.

"It doesn't matter, I'll send you into the space!" Li Tian directly sent Hai Yacha into the space of Void Yasha.

And at this moment, Li Tian saw that the head of the Yaqi Orochi who had been blown up by his purple lightning just now had completely recovered after a few minutes of self-repair.

"Haha, Li Tian, I really underestimated you. You are the sixth person to hurt my Yaki Orochi Ninjutsu. You should be proud of you. However, you have successfully angered me now, and I want you to Your stupidity paid a terrible price." Tian Cong said with a sneer.

"The venom in this ocean seems to have been diluted a lot. It seems that I have to add a bit more. Hey, I want this entire Ruhr Bay to become the Dead Sea, the Dead Sea without any creatures, including you. , Including everyone in your fleet!"

As he said it, the Yaqi Orochi seemed to be a human coughing, and suddenly began to cough, as if to cough out all the internal organs in the body.

Following the dry cough of the Ochi Ochi, Li Tian saw some dark green liquid flowing from the corner of the Ochi Ochi.

This liquid is not much, far not as much as the sea water sprayed out before. Compared with the sea water, this dark green liquid is like the saliva of this Yaqi Orochi.

Tick!

The dark green liquid dripped in the sea water.

It's like the effect of the potion that the witch in the anime makes the poison and pours it in. With the Yaki Orochi as the center, the sea water a few hundred meters around instantly starts to boil, and light green smoke constantly rises from the surface. .

And the boiling area continued to expand.

Li Tian could feel that this poison was many times more poisonous than the one just now.

"Damn it, what should I do?" Li Tian was very worried.

Li Tian thought of the mutant crow, but after flying over a long distance, the mutant crow is now in a state of fainting in the space of Void Yasha.

"Could it be that the only way to take the risk and kill the Yaqi Serpent with the Azure Cloud Qi Art?"

Li Tian quickly calculated this possibility in his mind.

This requires Li Tian to rush to the side of the Yaqi Orochi at a very fast speed, use the Qingyun Qi Jue to kill the Yaqi Orochi, and then teleport into the space of the Void Yasha.

But the basis for all of this is that Li Tian's feet can withstand this kind of poisonous attack, and will not lose the chain halfway.

But at this moment, the Void Yasha flashed out of the void with a small hot pot.

Little hot pot, this **** can't fall on the surface of the sea, just like Li Tian's son, two small retreats are riding on Li Tian's neck.

Eh, I think too much.

It's this posture anyway.

"Li Tian, hurry up, use the spear of the sky! Have you forgotten the mythology of Dongying?" The little hot pot shouted at Li Tian.

Chapter 3944: Fighting the Orochi (4)

"is that useful?"

This thought flashed through Li Tian's mind for an instant. .

But at this time, Li Tian could not tolerate any more thoughts.

The boiling sea had already forced Li Tian to only a dozen meters away.

With a burst of shout, Li Tian slammed the Qiong Lance of Heaven into the sea, stirring the sea vigorously.

No effect!

Except for a whirlpool being stirred up by Li Tian on the sea, it seemed to have no effect.

The boiling poisonous sea water continued to expand, and Li Tian could even see that the poisonous sea water seemed to have turned into countless green skulls, laughing wildly and rushing towards him.

But at this moment, the eight-qi big snake was not affected by the poisonous sea water at all, and slowly moved towards Li Tian.

"Boy Li Tian, you shouldn't do it forever, and you shouldn't fight with me on this sea. You must know that this big snake was once worshipped as a ***** of water, and its ability to control water is very powerful. And this sea surface For me, this is land." Tian Cong said with a sneer.

Li Tian didn't have time to take into account what the sky cluster said in his abdomen, and stared at the Qiong Spear of the sky in his hand.

And as Li Tian stirred the sea, Li Tian found that the sea under his feet suddenly became turbid, as if countless sands were turning with the agitation of the Qiqiong spear in Li Tian's hands.

"It's really a drama! Is the Qiong Spear of the day really an artifact?" Li Tian's heart was already full of excitement.

A few seconds later, when the poisonous sea water was about to reach Li Tian, Li Tian's feet suddenly sank gently.

Li Tian looked down and saw that there was no longer sea water under his feet, but a muddy puddle.

But the quagmire filled Li Tian's heart with joy.

"drink!"

Li Tian suddenly lifted the Qiong Spear of Heaven in his hand.

"Boom!"

The earth is moving and the sea is flowing back.

With Li Tian's feet as the center, dirt and land began to pop up under the vast sea.

When Li Tian forcefully lifted the Qiong Lance of the sky, he felt the abnormal movement of the 49 little fishes in his body, as if a force of strength was deflated in his chest and he was uncomfortable.

And if this force is not released, Li Tian feels that he might even burst into death.

At this time, Li Tian's cheeks were flushed. Of course, this was not Li Tian's ruddy complexion, but was collapsed into this shape by the strength in his body.

"No, your current strength can't force the power of the Qiong Spear of this day, I'm afraid you were backlashed by the Qiong Spear of this day." Afterwards, Zhuge said to Li Tian impatiently.

Li Tian really wants to kick this **** to death now, what did you do early? Tell me now that my strength is not enough to control the spear of heaven!

"It seems that I will find another master to follow. After you die, I will burn you to ashes and bury you in the sea. I will never let the monster big snake in front of you eat your body!" Little Hot Pot Deliberately said to Li Tian like this.

Li Tian's lungs were almost exploded by the little hot pot, he directly reached out and grabbed the little hot pot, and threw it heavily on the ground.

"you.....!"

Li Tian only said one word, and he spouted a mouthful of blood.

"puff!"

After the blood spurted out, Li Tian suddenly felt a lot better in his chest.

And with this spout of blood, the Heavenly Qiong Spear in that hand seemed to flicker abruptly, seeming to recognize Li Tian's strength.

Li Tian's heart seemed to have some connections with the Qiong Spear of this day.

"Thank you, little hot pot, when I kill the monster big snake, I will ask you to eat the small hot pot of snake soup!" Li Tian said to the little hot pot.

The little hot pot was immediately moved and said, "What is hot pot? I haven't eaten anything for thousands of years. I seem to have smelled the deliciousness!"

Because of this spout of blood, the land under the sea did not continue to rise. It seemed that there was only a small island on the sea that was no more than a few thousand square meters.

But this was enough. The Cangshan ship in the distance seemed to be stranded and landed on the coast of this small island, and Li Tian and Baqi Orochi were also on this small island.

Yaki Orochi watched the sea suddenly turn into land, with a frightened expression on his face.

"Impossible, this is absolutely impossible! Even the strongest ninjutsu can't have this kind of strength, moving mountains and filling the sea, that is the ability that only gods have, how can you do it?"

"This must be an illusion, it must be an illusion. Hmph, Li Tian, I won't be fooled by you!" The abdominal Tian Cong twisted his body and charged towards Li Tian.

Li Tian's right hand squeezed the Qiong Spear of the sky abruptly, with a sneer on his face, and said: "On the sea just now, I couldn't exert my strength. Now let you see the strength of Li Tian!"

But at this moment, the small hot pot stretched out his hand and said to Li Tian: "I didn't have any use in the ocean just now, but now that it has become an island, let me perform the small hot pot. Let's do it!"

"You can?" Li Tian asked.

"How can you know if you don't try it?" Little Hot Pot said.

At this time, the big snake has rushed to Li Tianhe Xiao Hotpot, opened his mouth and attacked Li Tianhe Xiao hotpot.

Li Tian retreated continuously and gave the battlefield to the small hot pot.

Faced with the attack by the Yaqi Orochi, the little hot pot suddenly jumped from the ground, waved this small fist, and smashed the Yaqi Orochi.

But maybe because it hasn't been fighting for too long, this little hot pot just jumped up, and his fist with flames hasn't hit the snake's head.

A big snake's head suddenly appeared on the right side of the small hot pot. Opening the big mouth of the blood basin seemed to swallow the small hot pot.

"Hotpot! Beware!" Li Tianzhong reminded him impatiently.

However, the little hot pot didn't seem to hear Li Tian's reminder at all, and was still bitten by the big snake.

The size of the small hot pot is too small, just like a child of three or four years old. The big snake swallowed without biting.

"Hahaha, Li Tian has any helper, you can call it out, let me eat the big snake at once today!" Tiancong's head in the abdomen said arrogantly.

"Isn't this idiot little hot pot known as the Lord of Fire? I didn't expect that the strength is so unbearable now, and I want to save you!" Li Tian carried the spear of the sky and rushed towards the sky cluster in the abdomen.

But just after a few steps, Li Tian suddenly stopped.

Because Li Tian saw that the big snake that swallowed the small hot pot suddenly made a painful hiss, and then Li Tian saw that the big snake's neck was seven inches away, and suddenly began to wriggle.

The little hot pot is not dead?

Chapter 3945: The strength of hot pot

Of course this little hot pot is not dead.

Little Hot Pot is the Rock Fire Race, the most tenacious race in the entire Nether Realm.

In the temple of Kirishima, the small hot pot was pierced by the female domain master with the spear of the sky and nailed to the black rock for thousands of years. How could it be bitten to death by this little big snake!

Li Tian saw that the big snake's mouth started to smoke, and the big snake kept twisting its head due to pain, and kept roaring.

"boom!"

The big snake's head did not explode at this moment, but actually burned.

From the neck up to the head of the big snake, there is a burning flame.

The temperature of the flame was extremely high, and the big snake was hissing and twisting in the flames painfully. In just over ten seconds, the skin of the big snake was burned, exposing the bones inside, and the small hot pot was He was digging his nostrils in a calm manner.

This cargo dug out a small piece of booger from its nostrils, of course it was also a burning flame, and it suddenly bounced towards the head closest to the snake's head.

How small can the booger of this little hot pot be? For this big snake, it is smaller than a grain of rice. The big snake didn't even see the booger popping up from this little hot pot, but the booger stuck there. The big snake's neck also began to burn.

At this time, although the head of the abdomen celestial plexus was not ignited by the fire, these eight heads are connected to one body, as if ten fingers are connected to the heart. No matter the finger is injured, the final pain must be the abdomen celestial plexus. .

At this time, the abdomen Tiancong no longer had the calmness that he had just now, and his head kept shaking, shouting at Li Tian: "Damn Li Tian, this bastard, what the **** is this? Is it so powerful?"

"This is your ancestor!" Li Tian said with a smile.

"Li Tian, you really angered me this time, I want you to pay..."

"Hey, can you change some new words? The ears that I can hear are about to grow cocoons. Is it necessary for Li Tian to pay the price? Then you will show your strength at that time, if you continue to push like this Keep talking, I want to burn all of your brains!" The little hot pot interrupted the abdomen Tian Cong and said with a smile.

The sky clump in the abdomen didn't say anything, and the remaining heads squirted frantically at the head that was on fire.

Today's battle was really twists and turns. The people standing on the Cangshan ship in the distance were watching the battle. From the moment Li Tian appeared in the battle, they were nervous and clenched their fists to see if they could help Li Tian.

But now, seeing the small hot pot instantly burned the two heads of Yaqi Orochi, and a stone in the hearts of the people watching it slowly fell to the ground.

"What is this little fire monster? Where did Brother Tian find this little monster?" Shen Tao asked suspiciously.

"Who knows? Brother Tian always surprises people. Anyway, you believe my brother is right. Now there are four little Yashas beside him, and there is such a little fire monster. Could it be that Brother Tian is Did you go to open the kindergarten?" Tang Xiaolong said with an excited expression on his face.

"Hey, of course, the more such a powerful helper is better. If you can really open a kindergarten, that would be great!" Windsor also said.

"Be quiet, the battle is not over yet, I suspect that there must be some killer move in the abdomen sky cluster!" Situ Ningbing said worriedly.

Situ Ningbing's worries soon became reality.

The water spewed out by the big eight-qi snake in the sky cluster in the abdomen was not only water, but also venom. Although the little fire monster is not afraid of water, it cannot be said that he is not afraid of venom. Moreover, the little fire monster is big at the beginning, despising the sky

in the abdomen, and after the poisonous sea water falls down like a pouring rain, the little fire monster Only then realized the danger.

The flame on the guy's body instantly rose to the sky, the height of the flame burning was more than ten meters, but as the sea water kept pouring into the flame, the height of the flame began to drop continuously.

This is the battle between water and fire.

The small hot pot was once the Lord of Fire. It was regarded as a ***** by the ancestors of Dongying Island, and even had a love story with the goddess of the mythical story in Dongying Island.

How could such a powerful existence succumb to a monster like Yaqi Orochi.

The little fire monster roared fiercely, and the rock-like body suddenly began to continuously flow out hot lava. At first, the lava flowed like sweat, but it quickly became out of control, as if it was flowing down like a waterfall.

As the magma continued to flow, the entire body of the Yaqi Orochi was about to be wrapped in magma, and the seawater that spurted out almost instantly turned into water vapor and evaporated.

Yaqi Orochi's body was wrapped in magma and let out a scream.

It seemed that the balance of victory seemed to have begun to tilt towards the little fire monster.

However, at this moment, the heads of the Yaqi Orochi suddenly began to violently attack its own body, and these heads were biting frantically, as if to bite off the magma on that body.

"Hmph!" The little hot pot said with a sneer: "Don't do it in vain. This magma is my body and is completely controlled by me. Besides, how do your flesh and blood heads deal with me with magma? Stop obediently and enjoy my magma bath quietly!"

"You monster, do you really think that this temperature can burn me down? Don't dream! I will let you and your master regret coming to Dongying Island!" Abdomen Tian Cong said.

As the big snake kept tearing its body, at this moment, the big snake's ***** abdomen was torn open by the big snake.

But at this time, blood was constantly pouring out of the blood hole, and with that blood, the head of a ***** person stretched out from the blood hole.

Then came the body, the arms.

This feeling is like looking at the alien, the female worm is about to give birth to small worms.

Looking at this ***** body, Li Tian felt a little more worried.

"This should be the ultimate ultimate move of the belly Tiancong!" Li Tian thought in his heart.

The ***** body continued to crawl out, and the lava dripping from the small hot pot dripped on this person, and this person did not respond at all.

Suddenly, the ***** man opened his eyes abruptly. These eyes were staring at Li Tian with cold light, and then suddenly stretched out two arms from the body of the big snake.

And one of the arms was actually holding a long sword, and this long sword was actually flashing with light blue flames.

"Sky Cong Yun Jian, also known as Grass Nai Jian!" The ***** man opened his mouth.

Chapter 3946: Kusanagi sword

The Kusanaru sword, according to legend, is the sword found in the tail of the snake by the man Susano who killed the Yachi Orochi. It is listed as the three artifacts of the East Island Kingdom along with Yata Mirror and Yasha Qionggou.

As the ***** person came out of the body of the big snake, the big snake fell weakly to the ground like a layer of skin that had shed, and was caught in the little hot pot a few seconds later. The flames burned to ashes.

"Come on, you little fire monster, use your flames to attack me again!" The blood man stretched out his arm, beckoned to the little hot pot, and said provocatively.

The little fire monster snorted coldly, ran forward a few steps, opened his mouth and squirted a sigh of...

This breath was thick smoke, after flying out of the mouth of the small hot pot, it turned into a ball of flame and flew towards the blood man in a few seconds.

The blood man turned around abruptly and swung a sword at the flame.

This Kusanaru sword cut through the flames from the small hot pot, the flame was cut into two, and flew towards both sides of his body, but before flying out a few meters, the flame was instantly extinguished.

Of course, the small hot pot was not willing to admit defeat, and he threw out seven or eight pieces of magma at the blood man continuously, and these seven or eight pieces of magma were easily smashed by the blood man's Kusanagi sword, and then turned into The rock turned into ashes and fell on the ground.

Little Hot Pot seemed to have never expected that his attack would be cracked by this blood man so easily. But who is the little hot pot, that is the former venerable, besides this natural fire attribute, his own strength is also quite powerful.

The little hot pot was not doing a pointless attack either, it accelerated like a bolt of lightning and attacked the blood man. The scorching hot fist turned into a rock the size of a washbasin at the moment when it hit the blood man and blasted the blood man's head heavily.

And the blood man was facing the thunderous attack of the small hot pot, without the slightest panic, his legs began to step back rhythmically, and easily escaped the weirdness of the small hot pot.

And when the blood man fought back with the Kusanaru sword in his hand, the small hot pot could also be easily avoided. After such a repetition, the two men had already attacked for seventeen or eight rounds in an instant, and none of them hurt each other in the seventeen or eight rounds.

"So fast!"

At this time, the people watching the battle on the Cangshan ship with binoculars stared at the blood man and the small hot pot, and were afraid to blink, worrying that if he blinked, he might miss some wonderful battle scenes.

By this time, these people have realized that the strength of this little hot pot far exceeds that of the others, even Ouyang Man and Duanmuying, or even the combination of them and Situ Ningbing such as Qingyun Qi Jue masters, I am afraid they are not now. The opponent of this little hot pot.

From this aspect, we can also see how powerful this blood man is at this time.

Li Tian was also watching the battle, but at this time Li Tian's heart was also weighing the strength gap between him and this little hot pot, and between him and this blood man.

Thinking of the end, Li Tian's mouth showed a hint of helplessness.

Although the sea surface has become land now, the eight-qi snake has also become a blood man, and this blood man also has a grass sword in his hand, but Li Tian does not know how sure he will win.

However, Li Tian quickly thought of his latest Qingyun Qi Jue that he successfully cultivated. If those seven or forty-nine purple electric snakes can accurately attack this blood man, Li Tian is confident that he can instantly kill him.

But this is also the most difficult.

It's like a world heavyweight boxing champion fighting a track and field player. No matter how strong your boxing champion is, no matter how strong your attacking power is, there is a necessary condition that you can hit your opponent. If you don't hit your opponent, all of this is It's nonsense.

But at this moment, that little hot pot suddenly made a mistake, and his fist was stabbed by the Kusanagi sword in the hands of the blood man.

The fist of this little hot pot was a rock, but it was easily pierced by the Kusanagi sword.

In an instant, the flame on the fist of the small hot pot began to go out, and the small hot pot made a scream.

Li Tian could see that after the little fire monster's fist was stabbed, the flame on the fist instantly extinguished, and even the little fire monster's arm turned into a black rock.

This is definitely not the normal skin color of a small hot pot.

The body of the little hot pot slammed back, avoiding the successive attacks of blood men.

"Li Tian!" The little hot pot shouted at Li Tian.

"Li Tian, if you want to be optimistic, let me tell you what is the real gap between you and the level of a cultivator."

"But with my current strength, I can only perform such an attack at most once. If you can't comprehend it, then I can't do anything!" Little Hot Pot said.

When Xiao Hot Pot and Li Tian returned to Ruhr Island together, Xiao Hot Pot had already fully grasped Li Tian's strength.

Is Li Tian strong now?

Powerful, very powerful, even stronger than the small hot pot now.

But Xiao Hotpot knew that Li Tian now relies too much on external forces.

Whether it is Xiaoyasha, "Red Slash", or even the newly acquired Heavenly Qiong Spear, these things can help Li Tian quickly improve his strength.

However, Little Hotpot knew that it would be a dead end for Li Tian to find the three corpses.

The Three Corpses used to be the closest existence to the Venerable, the most powerful cultivator. Even if their strength was severely damaged, they must have understood that skill.

And if according to Li Tian's current description, the three corpses can fully display this skill, and if Li Tian goes to fight the three corpses at this time, then he will die ugly.

Li Tian opened his eyes wide and didn't dare to blink for fear of missing something.

"Pretend to be a ghost, eat my sword again, let me chop your little fire monster into pieces of charcoal!" The blood man sneered, and brandished the Kusanaru sword again to the small hot pot.

At this time, the face of Little Hot Pot was calm, and a powerful pressure suddenly released from his body, which fell from the sky, as if to destroy the entire world.

Even if Li Tian stayed away from the small hot pot, he was still a little bit overwhelmed by the pressure, but the Kusanaru sword that pierced the small hot pot seemed to have lost its goal in this second, and the tip of the sword fell sharply. It sank and pierced directly to the ground.

And the blood man's body was also staggered, holding the Kusana sword in his hand, half kneeling in front of the small hot pot.

This position, this height, is right at the fist of the small hot pot.

The little hot pot slammed a fist, and hit the blood man's cheek heavily.

"boom!"

The blood man actually seemed to have completely lost the meaning of resistance, and was punched firmly on the cheek by the small hot pot. The blood man's face was a little deformed, and the man flew out with the sword.

Chapter 3947: Monk

"Good... so powerful!"

This is Li Tian's true thoughts. ,

This little hot pot just performed a trick conscientiously, and the blood man instantly became helpless to fight back.

Although Li Tian was arrogant, he had to admit that the small hot pot was indeed stronger than him at this time.

Li Tian said to himself in his heart: "This feeling is very familiar! It seems that I have experienced this feeling somewhere!"

"By the way, is it... the feeling when I was fighting with the commander of the Holy Army in East Sea City? That's right. At that time, when I was fighting with the Holy Army, I was in this state. The powerlessness, let the Holy Spirit come to insult!"

"Could it be that the saint had realized the skills of the cultivator at that time?"

"No... No, I remember that was the power of the Holy Legion commander, yes, it was his power!"

"It's terrifying, the abilities of the commander of the Holy Legion are the same as the skills of the cultivators, and at that time I actually won and lived to the end. I am so lucky!"

The little hot pot had already walked back. While riding on Li Tian's deep thoughts, he consciously climbed onto Li Tian's body and rode on Li Tian's neck like Li Tian's son, and said to Li Tian, "Look. You came to understand something, yes, yes, I did not misunderstand you, then the rest is left to you!"

"Can you tell me in detail what the skills of this cultivator are? Although I have some understanding now, I can't grasp the point at all!" Li Tian said to the little hot pot.

"Li Tian, you have to understand that there are too many people in the earth world or in the underworld, who are diligent in learning and practicing. These people can achieve certain achievements because of their dedication, but their achievements are very limited. Compared with those real geniuses They are totally different from each other, and their ultimate achievements are far from those of geniuses."

"You are the most talented genius I have ever seen. Do you know the biggest difference between a genius and ordinary people?"

"It's perception!"

"It's like you are cultivating in that mountain. Your cultivation understanding can be said to have surprised me. As for the key skills of this apprentice level, I have already performed it for you personally. I believe in your understanding. The main points should be grasped soon."

"Believe in yourself, I am optimistic about you!" Little Hot Pot said.

It was right, but Li Tian was not good at continuing to ask questions, and at this time there was no time for Li Tian to ask questions.

After the blood man took a punch from the small hot pot, he fell aside for a long time, and now he slowly stood up.

"Hahaha, it turned out to be like this. Although I don't know what you mean by cultivators, I finally know the difference between me and the fierce martial artist." The blood man slowly walked towards Li Tian, and his deformed head that was punched by the little hot pot has begun to repair itself.

"This little monster is right. The most important thing for a true genius is comprehension, so let you feel this kind of power now!" After speaking, the blood man suddenly released a wave of pressure and power. The coercion.

This coercion fell from the sky, causing Li Tian's heart to have a chill, and Li Tian felt that his body seemed to be swayed slightly by this powerful coercion. Li Tian felt that his body became abnormally slow, as if a heavy weight was pressing on him.

"That's how it feels! So this is the skill of a cultivator!" Li Tian said.

"Yes! There are nine levels of cultivators, and those who have mastered this skill formally enter the threshold of cultivators. As long as you master this function, as your strength increases, the level of the cultivator increases, you will find In the face of absolute strength, the so-called cumulative number is so ridiculous." Little Hotpot said.

"What about the sage? What is the function of the sage?" Li Tian asked.

"Haha, Li Tian boy, wait until you reach the realm of cultivator, you can talk to me about the venerable!" Little Hot Pot said.

But at this moment, the blood man suddenly launched an attack, and he ran towards Li Tian suddenly, while holding the Kusanaru sword burning with light blue flames in his hand, he slashed towards Li Tian's head.

This blood man moved extremely fast, and the distance of tens of meters had already approached Li Tian in an instant.

"Li Tian, die! Hahaha!" The blood man seemed to have seen the hope of victory and laughed wildly at Li Tian.

If this blood man can really reach the strength of the little hot pot just now, then Li Tian must be unable to move at all, and he can only watch the Kusuna Sword chop off his head.

However, this blood man is not a small hot pot after all. He has just touched the threshold of a cultivator, and even his function is not as great as the oppressive power of the Holy Legion commander's ability on Li Tian. How could it be easy? The ground beheaded to Li Tian.

Although Li Tian's footsteps were slow, it was not completely immobile. Li Tian leaped a few steps back and fought a few teleports, easily evading the blood man's slash.

There was a surprised expression on the blood man's face, but the movement of his hand did not stop, and the Kusanagi sword slashed at Li Tian again.

The Heavenly Qiong Spear in Li Tian's hand flicked, and it directly blocked the grass blade.

Seeing Li Tian using the spear in his hand to resist, a trace of joy appeared in the blood man's heart. He sneered and thought: "Idiot, I am one of the three artifacts, a artifact that cuts iron like mud!"

But the Kusuna Sword slashed on the spear, and it just made a "clang!" clash, the spear was safe and sound, but the Kusuna Sword shook slightly.

On the side of Li Tian's body, Qiong Spear of that day slammed into the blood man's throat.

But at this moment, the blood man exerted pressure again.

Another coercion fell from the sky, causing Li Tian's Heavenly Qiong Spear to tremble when it pierced the blood man, and even slightly bent downward.

But the blood man blocked the Kusanaru sword in his hand, and used the blade to swing Li Tian's Heavenly Qiong Spear aside. And the blood man turned around abruptly, and the Kusanagi sword pierced Li Tian's chest like a snake out of a hole.

"Danger!" Little Hot Pot exclaimed and reminded.

But at this moment, Li Tian's mouth showed a smile, and he burst out loudly.

With Li Tian's loud shout, it was also a pressure that fell from the sky, but this pressure was different from the pressure of a small hot pot, and the pressure of a blood man, because the pressure fell from the sky, not a large area. The descending, but banged heavily on this blood man's body.

Precision strike!

"bass!"

The Cao Nan sword in this blood man's hand saw that it was about to pierce Li Tian, but the tip of the sword suddenly sank and pierced directly onto the ground.

"Puff!"

The blood man knelt directly in front of Li Tian, and his head couldn't be lifted at this moment.

"No...impossible!" Little Hot Pot said in surprise.

Chapter 3748: weight

When the little hot pot uttered the word impossible, Li Tian's Heavenly Qiong Spear pierced the blood man's neck from the side.

"puff!"

The Heavenly Qiong Spear pierced the blood man's neck directly.

The blood man trembled abruptly, and the wound on his neck had already started to gurgle blood out. The blood man pressed his neck tightly with one hand, trying to stop the blood flowing out.

"How...how did you do it? Why do you...when you use this function, it is stronger than that little monster" the blood man asked inexplicably.

Li Tian sneered, and said in a contemptuous tone: "This is comprehension!"

Perception!

Yes, this is perception!

Little Hotpot nodded slightly, expressing his agreement with Li Tian.

In fact, when he first saw that blood man display this function, the heart of the little hot pot was shocked.

He only used this skill once, and that blood man could understand the true meaning of this skill astonishingly, and he also displayed it in a decent way. How could this not shock the little hot pot.

But the plot reversal was too fast, and Li Tian also displayed this skill immediately, and the skill that Li Tian displayed was obviously higher than that of the blood man, not a level.

Cultivator, in the Netherworld is a strong force for fighting.

The cultivators of the Netherworld must master this skill if they want to reach the realm of cultivators.

This uses coercive pressure to form a gravitational space skill around the body that the caster can control at will.

In the Netherworld, the name of this gravitational space skill has only one word: heavy. However, this weight is divided into three layers, and the weight that this blood man used just now is the first layer. The first layer of weight can affect the opponent's gravitational induction in a large area around the body, so as to control the opponent's body reaction and give the opponent a fatal attack.

Of course, according to the strength of the caster, the effects of these casters are also different. For example, the small hot pot just now casts the weight of the first layer, but the small hot pot casts heavier than the blood man. The one is stronger, and even the blood man who is controlled by the little hot pot can't even lift his head.

However, this is the first layer of weight after all, and with the current strength of the small hot pot, it can only barely perform a perfect weight once.

The weight that Li Tian had just displayed was the second layer, which was the weight that could only be mastered by cultivators above level 4. This second level of power control needs to reach an extremely proficient level, and only at this level can the power of precision strike be displayed.

Just like the heavy attack performed by Li Tian just now, the little hot pot on Li Tian's neck did not feel the heavy pressure at all, but the blood man suffered a precise blow, and was directly pressed by Li Tian with a heavy body. Can't straighten up.

As for the third level, the mastery of coercion must reach the realm of perfection, especially the ninth level of the cultivator, which can reach the line level, and even just use the skill of heavy to kill.

This small hot pot is also a sad reminder. It was once a powerhouse at the venerable level. He was stabbed by the spear of the sky for thousands of years. The strength of his cultivation has plummeted continuously, and it has only been maintained to the third level of the cultivation. It can only be used barely. The most perfect first layer.

"It's really worth **** people than people, shopping around! It's also people, why is the gap between people so big?" Little Hot Pot said with a sigh.

The small hot pot was completely hit today.

It was quite clear that when he was comprehending the heavy, he did not know that it took hundreds of years to comprehend the heavy, and from the first level to the second level, the small hot pot has been practicing for hundreds of years, but the present As for this blood man, he understood it only after withstanding an attack.

What about Li Tian? This guy is even more perverted, and he has reached the second heaviest level only after withstanding two attacks.

Of course, the heavens are also fair. We must know that the lifespan of the Yanhuo clan can reach more than ten thousand years. What about humans? At the age of seventy, it is said to have been rare in the past, even before the end of the world, there are very few who can reach over a hundred years old.

"Savvy? Hahaha, is the understanding of the sky cluster in my abdomen poor? You know that only I have learned the ninjutsu of the Yaki Orochi Ninja in the entire Iga Ninja organization, and after I learned the Yaki Orochi ninjutsu, I did it on my own After comprehending this Kusanaru sword, isn't my understanding high?"

The blood man is the abdomen celestial clump, and since he comprehended the ninjutsu of the Yaqi Orochi, he has been living in the body of the Yaqi Orochi. As for the abdomen celestial plexus before, he is just like a puppet. It's just a skin bladder.

Little Hotpot shook his head involuntarily when he heard the complaining tone of Tian Cong in his belly.

There are people outside, and there are heaven outside.

Thousands of years ago, there was an existence on this earth that was stronger than the domain owner. Who would make sense?

You can't deny being talented because of your high talent!

"I'm not convinced..."

Tian Cong roared in his abdomen, and the Kusana sword in his hand slammed towards Li Tian.

A slight sneer appeared on the corners of Li Tian's mouth, and his arms suddenly grabbed the Qiong spear of the sky. The seven or forty-nine purple electric snakes rushed out of Li Tian's arms and followed the Qiong sky. The spear rushed directly into the body of the abdomen Tiancong.

The forty-nine purple electric snakes poured into the body of the sky cluster in the abdomen, and an explosion would happen in an instant.

"Boom!" With a loud noise, Tian Cong's body in his abdomen was completely exploded into blood paste and meat mozi, and these blood paste and meat mozi exploded again in the process of splashing and were completely blown into dust.

Before the explosion, Li Tian slammed the Qiong Spear of the sky and hid directly into the space of Void Yasha.

On the Cangshan ship, Tang Xiaolong and the others, who witnessed the sky clusters in their abdomen being blown into air, swallowed involuntarily.

"Too...too strong. I didn't expect the little boss to be so strong now! No, I can't continue to fall like this anymore. If I continue to fall like this, sooner or later I will be thrown away by the little boss. There is no way to follow the little boss!" Tang Xiaolong thought.

Also under pressure was Situ Ningbing.

Situ Ningbing could clearly feel that what Li Tian was displaying was the Qingyun Qi Jue, but when it was also Qingyun Qi Jue that her Bailian Po was facing the sky clump in the abdomen, it felt like a toy, and it didn't touch the abdomen at all. The sky is dangerous.

"Li, I'll do my best too!"

The idiot Gabby saw Li Tian disappear with the explosion, and suddenly burst into tears. He thumped his chest and said, "God... Brother Tian was blown to death..."

Chapter 3749: take over

The Five Elements Mountain can't hold you down, you are so funny, that is, Kobi is like this funny.

From changing his name, to playing with female zombies, to shouting that Li Tian is dead, this kind of unintelligible words, all explained his teasing nature.

Soon, Li Tian walked out of the space of the Void Yaksha, looking at nothing on the ground, he let out a scream: "Fuck! The Kusanaru sword also exploded!"

Hearing Li Tian's shout, Xiao Hotpot really wanted to kill Li Tian.

Where is there such a greedy person as you, but you just got a magical weapon like the Qiong Lance of the Sky, and now you are thinking about the Kusuna Sword.

At this time, Situ Ningbing, Xue Ji, Duan Muying, Tang Xiaolong and others have jumped off the Cangshan ship one after another, ran towards Li Tian, and quickly surrounded Li Tian. The soldiers of the Cangshan ship were holding their guns and firing bullets into the sky frantically, as if they were setting off firecrackers to celebrate Li Tian. No, this is the victory of the entire China!

"Brother Tian, you have been to Kirishima Mountain for so long, what adventure have you encountered, and your strength has grown so much?" Gaobi stretched out his hand and wiped his nose and asked excitedly.

Li Tian patted Kobi's head and said, "Yes, this time I learned more in Kirishima Mountain. I have a chance to take you there next time!"

"Really?" Kobe's face was immediately excited.

Tang Xiaolong squeezed Kobi behind him, pointed to the small hot pot riding on Li Tian's neck and asked, "Boss, where did the monkey riding on your neck come from? Did you bring it out of the mountain? That's amazing, why don't you give it to me! My zombie was torn and eaten by those zombies while guarding the battle of Ruhr Island City!"

"You are a monkey, and your whole family is a monkey!" Little Hot Pot said uncomfortably.

Tang Xiaolong was choked by this little hot pot and couldn't even speak, and muttered in a low voice, "If I couldn't beat you, I would have beaten you a long time ago and let you admit that you are a monkey."

"This is a small hot pot, I rescued it from the temple of Mount Kirishima!" Li Tian said.

"Little hot pot, this name is so cute..."

...

With Haiyasha and Diguayasha here, it would not be a big deal even if the Cangshan Ship ran aground, and the Cangshan Ship would soon sail into the ocean again.

As for the small island that appeared by Li Tian with the Qiong Spear of the Sky, it was named Sunset Island by Li Tian. When there is time in the future, let Xiaoyasha and the Xuling tribe build some buildings on this small island, and the whole family will have fun together. Watching the sunset, it was really great.

After boarding the Cangshan ship, Li Tian explained what he encountered in Kirishima Mountain to the people in detail, of course, not including the affection with Baijing in that hotel.

After hearing these things, everyone present had their long mouths unable to close together for a long time, and the women looked at Bai Jing with envious eyes, hoping in their hearts that they were with Li Tian at that time.

Duanmuying looked at Bai Jing's belly, thinking in her heart that maybe it would take a few months to get fatter, and then other people would not protect her like a panda.

Riding the Cangshan ship back to Ruhr Island City, the abdomen Tian Cong is dead, the upper ninjas in the Tian Cong ninja organization either died or fled, and those middle ninjas still control the zombies, waiting for the abdomen sky Cong's victory triumphed.

When they saw the Cangshan ship going and returning, they knew that the abdominal sky cluster had probably failed.

These ninjas immediately fled, and as soon as these ninjas escaped, the zombie army was completely defeated. There is no need for Li Tian to deal with these zombies, and even Tang Xiaolong and others just attacked and helped. .

This main force is naturally a small hot pot. Who says his current strength is the strongest?

And when the little hot pot killed or drove all the zombies in Ruhr Island City, the little hot pot was about to stand on the city wall and speak out, but saw some waves suddenly surging on the sea in the distance. There is a large number of dead objects in the sea pouring out of the sea.

The little hot pot is preparing to show off his power and continue to establish his powerful image, but he sees a young man jumping out of the huge bereavement.

"Brother Tian!" Standing on the beach, the boy shouted at Li Tian with a little shyness on his face.

Li Tian already knew that these bereaved things must be controlled by Yang Guo, but when he saw Yang Guo, his face was still full of excitement.

"Yang Guo, come here, let me take a good look at you!" Li Tian waved to Yang Guo and said.

Yang Guo walked over with a little embarrassment and called Brother Tian.

Li Tianke still remembers that when Yang Guo left East China Sea City, he said he would give Li Tian a gift: "I knew it was you kid who occupied the Southern Four Kingdoms. Is this the gift you want to give me? This... What is going on? You can get hurt?"

Halfway through Li Tian's words, I saw that Yang Guo's face had a scar that was nearly half a foot long. This was absolutely absent when Yang Guo left East Sea City, and it seemed that the scar did not last long. .

"No...it's okay!" Yang Guo continued: "Originally, I wanted to control the four islands of the East and then give the gift of this movement to you, Brother Tian, but... But I underestimated the natives of the four countries of the East. I only occupy one southern Shikoku island!"

"It's already pretty good!" Li Tian put Yang Guo firmly in his arms, patted Yang Guo's back and said: "You alone took down the South Four Islands, and I came with a warship. , And brought all the elite of our Celestial Legion, but in the end we barely managed to take the West Kyushu Island."

"Brother Tian, don't humble yourself. The sky cluster in the abdomen is not an ordinary person. Even if I have a hundred, Yang Guo, I don't want to take this West Jiuzhou Island, but Brother Tian, you are still so powerful!" To say.

Li Tiansong let go of Yang Guo and asked, "Yang Guo, how did you know that I was here?"

"Since I left Donghai City, I still pay attention to domestic changes. In fact, I knew you were coming before you came to Ruhr Island. So I have been looking forward to such a day, and after you came to Ruhr Island On the first day, I killed the six Shangren in the abdomen Tiancong. I guessed that the abdomen Tiancong would have revenge, so I brought my army of funerals to support you! But I didn't expect to help you. Very busy!" Yang Guo said.

"How come? You know that although Tiancong in the abdomen is dead, but his subordinates have not died, he still has tens of thousands of troops!" Li Tian said.

Yang Guo didn't expect that Tian Cong in the abdomen would die, which made him admire Li Tian even more.

"Brother Tian...The tens of thousands of troops in the abdomen sky cluster have been broken up by me in the territory of Miyazaki Prefecture. There should be no one to stop you on West Jiuzhou Island. Please start taking over West Jiuzhou Island and South Shikoku Island!"

Chapter 3750: The fierce warrior appears

Li Tian was not busy taking over the entire West Kyushu Island and South Shikoku Island.

Now the most important thing about West Kyushu Island and Minami-Shikoku Island is that the zombies problem has not been eliminated. Before Li Tian shot the zombies of Ruhr Island, Kumamoto and Miyazaki Prefecture in Miyazaki Prefecture, this was also an expedient measure.

Now Yang Guo handed over the South Four Kingdoms Island to Li Tian, and Li Tian and Yang Guo discussed the migration of the humans on the South Four Kingdoms Island to West Jiuzhou Island, and the zombies on West Jiuzhou Island to migrate to the South Four Kingdoms Island. In this way, at least West Kyushu Island can become a human world without zombies.

In this way, West Jiuzhou Island can be regarded as formally stepping into a formal state, accomplishing things that Li Tian hadn't accomplished in the heavens.

Unexpectedly, Li Tian and Yang Guo's ideas would hit it off quickly. Other Situ Ningbing and others also expressed their support and agreement, especially Duanmuying, her face was full of excitement.

After that, Li Tian left the human migration to Liu Guoqiang and Ouyang Man to do, and the zombie migration to Ouyang Shiqing and Yang Past to do, and others such as Gao Bi and others assisted them together. To be done.

This is a huge project, and it will definitely be difficult to complete in the first half of the time. Li Tian is not in a hurry. According to Li Tian's idea, it would be good if the three counties in the south of West Kyushu were completed within one month.

As for the four counties in the north, Fukuoka, Oita, Nagasaki and Saga, Li Tian gave it to Kazama Ginbei to complete.

Kazama Ginbei also accepted Li Tian's task, which was to destroy all the altars on this West Jiuzhou Island.

In the area under Li Tian's jurisdiction, it is definitely not easy for this evil belief to exist. If it wants to exist, then only believe in Li Tian.

Of course, what Li Tian didn't know was that in Kirishima City, the residents of Kirishima City actually built temples to Li Tian.

Let's talk about Kazama Ginbei. After Kazama Ginbei died in the abdomen, he became more loyal to Li Tian. This is not only because Li Tian detained his soul, but also because he treated Li. Tian's strength has been fully recognized.

What Li Tian didn't expect was that taking over the four counties in the north was easier than he thought.

After the news of the death of the abdomen Tiancong was deliberately scattered to several northern counties by the ninja troops of Ginbei Kazama, the town owners and deputy town owners of these northern counties actually drove to Ruhr Island to see Li Tian. , To show their submission to Li Tian.

Li Tian directly gave Duanmuying the matter of seeing these city lord and deputy city lord, who seemed to be more keen on these things.

And Li Tian took Situ Ningbing, Xueji, Tang Feifei and Bai Jing once again to the hotel on Kirishima Mountain for a leisure holiday.

As for Tang Xiaolong, it seemed that he was stimulated by Li Tian. Through Li Tian, the Xu Ling tribe built a house on Sunset Island and began to cultivate on that Sunset Island.

Li Tian did not stop Tang Xiaolong's decision either.

As the enemies Li Tian encountered became stronger and stronger, Li Tian also needed more powerful helpers by his side. And now Tang Xiaolong can help Li Tian when encountering zombies, but when encountering people like Tian Cong in the abdomen, Tang Xiaolong has nothing to do.

And Li Tian did not rest. Although nominally he came to the hotel on Kirishima Mountain for a vacation, Li Tian only accompanied them to this place. After that, there was nothing about Li Tian.

Li Tian can only be silent and practicing.

Through the introduction of the little hot pot, Li Tian now knows where his strength is in the Nether Realm, and also knows the gap between him and the Three Corpses.

Now since learning how to weight, Li Tian already knows that the Three Corpses is no longer aspirational.

But this gap still exists, and the three corpses are three powerful guys, they also control the powerful corpse kingdom and hundreds of millions of zombie army.

On the edge of the creek below the Kirishima Mountain Hotel, Li Tian is sitting cross-legged on a pebble, practicing Qingyun Qi Jue, while the small hot pot at this time uses the flames released from his body to heat the water of the creek , Playing for self-entertainment.

"call!"

Li Tian let out a long breath, looked at the small hot pot, and asked with a serious expression:

"Little hot pot, now I am a cultivator. According to the cultivator level you said, I have reached the fourth level of cultivator. Level, then can you tell me what the Lord's skills are?"

"You are only at the fifth level of the cultivator. It's too early, why bother yourself? When you reach the ninth level of the cultivator, I will naturally tell you!" Little Hot Pot said.

"People who have no foresight must have near worries. If my vision is limited to the level of cultivators, then I will certainly not have too high achievements in the future. Only when I look forward to the land, people with eagerness and ambition in their hearts will go on the path of cultivation. Farther. Now if I know the conditions for becoming a Venerable, then this Venerable is the benchmark in my heart, and I will work hard in this direction at any time, so please tell me!" Li Tian said very sincerely.

Seeing Li Tian's serious look, Xiao Hot Pot's face showed an expression of approval, nodded, and said: "The skills of the cultivator are important, and the skills of the venerable are called..."

The little hot pot is talkative. Not only did he explain to Li Tian clearly about the conditions needed to become a venerable one, he also explained to Li Tian a lot of his cultivation in the Netherworld, and even talked about the venerable ones. Some things to fight between.

When Li Tian heard that the venerable can fly, Li Tian couldn't help showing a longing expression in his eyes.

Flying, that is real flying!

And this is the ability Li Tian desires now.

"Venerable, then my temporary goal for Li Tian is the Venerable, not the Three Corpses! As long as I can become the Venerable, then the Three Corpses will definitely not be a problem!" Li Tian thought in his heart.

...

Hon Nakashu Island, Jingdong City, the capital of Dongying.

This is the center of the entire Hon Nakashu Island, and the center of the East Island country.

Before the end of the world, this Jingdong City had a population of over 10 million, even the Greater Jingdong Metropolitan Area had a population of over 30 million.

After the end of the world, this Jingdong city has become the worst-hit area for zombies, and unlike other metropolises, it is not the zombies or super legions that rule this Jingdong city, but the warriors!

After the beginning of the end times, these warriors and ninjas were on the stage of history at the same time. Unlike other ninjas, these warriors first occupied Jingdong City.

And the leaders of these warriors are called fierce warriors!

"Li Tian? A very interesting name! He was able to kill the guy in the abdomen Tian Cong, it seems that he still has some strength!"

"Master Fierce Warrior, do you want us to send someone to him..."

"Fool, since he can kill all the sky clumps in his abdomen, do you guys want to deal with him? Help me write a letter to him, saying that my fierce warrior is waiting for him in Jingdong City...!"
