

A Killer 4011

Chapter 4011: You do not deserve

Hearing Kurokawa Ieyasu's shout, Li Tian showed a sneer at the corner of his mouth. He teleported to Kurokawa Ieyasu's side, and the spear of the sky in his hand shook and slammed into his leg.

"puff!"

The heavenly spear pierced directly through Kurokawa Ieyasu's legs, and the blood dropped to the ground along the spear tip of the heavenly spear. Kurokawa Ieyasu let out a scream and knelt directly in front of Li Tian.

"Idiot, what do you think you are? This is my true strength. In the face of my absolute strength that crushes you, what qualifications do you have to talk to me about real swords and guns? You are not worthy!" Li Tianju condescendingly He said with eyes sharp.

"Li... Li Tian, don't you dare! Are you afraid of losing to us? Hahahaha, Li Tian, who is well-known throughout the Dongying Island Country, turned out to be nothing but a coward. If I didn't guess wrong, then the so-called booming Zhongtong The island matter is also an illusion created by you using this shameful means!" Kurokawa Ieyasu spouted blood at Li Tian, with a rebellious expression on his face.

Kurokawa Ieyasu knew that he couldn't escape death. He just wanted to use this method to provoke Li Tian so that Li Tian could agree to fight with them with real swords and guns. This is the only way to follow him out to perform the task. Only the elite of the Iga Ninja could escape, and it would be possible not to be annihilated.

At this time, Li Tian's weight has reached its limit. If he continues to use it in this way, the blue waves in the pond in Li Tian's heart will be completely drained, and then the pond in the pond will be completely drained. The little fish and the nine-color corpse lotus will probably suffer along with them.

"Haha, it's not too much for you to change the way of death, I can meet your requirements!" Li Tian said with a wild smile.

As he said, the pressure that soared to the sky disappeared instantly, and the remaining 70 or 80 ninjas felt that the pressure on their bodies disappeared without a trace. Among these ninjas, more than a dozen slumped directly on the ground. Panting heavily, and even the ninjas who weren't sitting on the ground felt that their legs were shaking completely out of their control.

"puff!"

Li Tian suddenly drew out the Qiong Spear of the sky, and the blood donation sprayed out from Kurokawa Ieyasu's legs like a small fountain, sprinkled on the ground, and scattered blood even splashed on Li Tian's clothes.

Kurokawa Ieyasu let out another scream, but after all, he is the deputy leader of the Iga Ninja, and his skills are not limited to hiding the Nine Swords and the Sword of God, he also knows ordinary ninjutsu and medical skills.

Kurokawa Ieyasu suddenly pulled out two pieces of white cloth from him, and forcefully bound the pierced leg, then Kurokawa Ieyasu took out something from him and slammed it. Entering the wound, and after this thing was stuffed in, the wound stopped bleeding.

Then Kurokawa Ieyasu's hands continuously displayed several knots, and with these few knots, Li Tian saw that a tender leaf grew from the wound on Kurokawa Ieyasu's leg.

That's right, it's just a green leaf.

At the beginning, the wound was only a tender leaf, but the tender leaf grew extremely fast, and soon became a vine remnant around Kurokawa Ieyasu's leg.

Seeing this scene, the ninjas who had been slumped on the ground just now stood up involuntarily, and their faces were full of astonishment.

"Impossible, Master Zhengzo of the abdomen will actually give this thing to Master Kurokawa, look...it seems that Master Zhengzo of the abdomen is determined to win this task!"

"Yes... Yes, this is the most powerful and evil cutting tool in our Iga Ninja Organization. I am afraid that only the body of Kurokawa-sama can control this cutting tool!"

"We were able to see the legendary cutting tool, which really opened our eyes! But it's a pity... Once Kurokawa-sama uses this kind of cutting tool, I'm afraid Kurokawa-sama will..."

The ninja didn't finish his words, with a sad expression on his face.

"Asshole, it's time for us to be sad. Since Master Kurokawa can take out all the legendary cutting tools, Master Kurokawa must be enlightened. Rather than being sentimentally here, it is better for us to unite and fight together. Li Tian!"

"..."

However, this proposal did not receive many people's response, especially after experiencing the immobility of all the ninjas who had just been used by Li Tian to control them instantly, these ninjas had feared Li Tian in their hearts.

"In half a minute, more than 30 Shangren died in Li Tian's hands. I am afraid that this kind of strength cannot be achieved by the abdomen? Such a strong man is like a lion, and we are at best a hunting dog. That's it, how do the hounds fight the lions?" Once the hearts of these ninjas were shaken, they began to give themselves reasons to shrink.

"Trash! It's all a bunch of trash! I really don't understand how you can become a ninja!" This ninja angrily rebuked the other ninjas.

"Even if only I and Kurokawa-sama are left in the end, I will accompany Kurokawa-sama to fight together!" As the ninja took out a huge shuriken from his body, he had already stepped forward quickly towards Li Speeding away in the direction of the sky.

At this time Li Tian was completely stunned by the situation in front of him.

The tree vine on Kurokawa Ieyasu's body has grown to the thickness of a bowl, and the length has exceeded fifty or sixty meters. The tree vine is like a serpentine python, circling around Kurokawa's body continuously. And Kurokawa Ieyasu was more like a fruit growing from a giant vine.

However, Li Tian knew that the reason why this python-like tree vine could grow so fast was entirely because Kurokawa Ieyasu was using his skin and body energy to water the tree vine.

"Li Tian, I will show you shamelessly, since you want to die, I will give my life to play with you today!" Kurokawa Ieyasu said to Li Tian with a wild smile.

And with Kurokawa Ieyasu's wild laugh, Li Tian saw that from the wound on Kurokawa Ieyasu's leg, more than a dozen tree vines gushing out like crazy. These tree vines grow faster than the balloons, And that Kurokawa Ieyasu's legs quickly shrank due to the growth of this vine.

Li Tian sneered at Kurokawa Ieyasu's clamor, thinking that he could deal with Li Tian by turning himself into a tree vine and making his body huge? You must know that the Yaki Orochi in the abdomen at the time was not smaller than the current Kurokawa Ieyasu.

It's a pity that the small hot pot is not by Li Tian's side, otherwise Li Tian will let the small hot pot burn out the smoke from Kurokawa Ieyasu.

At this moment, the clamoring ninja had rushed to Li Tian's side, and the shuriken in his hand slammed into Li Tian.

Chapter 4012: Legendary cutting tools (1)

"Small, go away!"

Li Tianfei directly kicked the ninja out with a kick, and when the ninja flew out, Li Tian's mind moved, and "Red Zhan" immediately made up for it.

Before the ninja's body fell, his body was cut in two.

Now, fighting at the level of Li Tian is no longer for the Shangren to intervene. These Shangren interventions are basically only for the spike!

And those ninjas who didn't rush over with this ninja just now felt very grateful, and felt that it was wise for them not to follow this stupid ninja to death.

"Fortunately, I didn't listen to him, otherwise I am afraid we are all dead here too!"

"That's right, keep the green mountains, don't be afraid of nothing to burn. As long as the elites of Iga Ninjas are saved, we Iga Ninjas will sooner or later find the face we lost today!"

These ninjas slowly stood up from the ground, with a trace of determination on their faces looking towards Li Tian.

At this time, Ieyasu Kurokawa's body is still withering, his two legs have completely disappeared and he is invisible. Even the body just below the neck is completely integrated with those tree vines, and those tree vines are Kurokawa Ieyasu's legs.

Just like an octopus, these seven or eight tree vines have seven or eight legs.

And from Kurokawa Ieyasu's head upward, the seven or eight tree vines were completely entwined together, like a giant whip over a hundred meters in length.

"I'll hold Li Tian! You...hurry up! Even if there is only one person alive, you still have to take the zombie virus antidote reagent back." Kurokawa Ieyasu roared at all of them.

After getting the order of Ieyasu Kurokawa, these ninjas turned around and fled into the darkness without any hesitation.

These seventy or eighty Shangren wanted to escape, and it was completely impossible for Li Tian to trap them. If Li Tian had a Jixing Yasha by his side, that would be another matter.

However, Li Tian didn't want to let them escape easily, and Li Tian's figure kept flashing along the ninja escape route.

Every time Li Tian casts teleportation, a ninja will be sent by Li Tian into the space of Ji Xing and Feitian Yasha. At this time, Li Tian does not consider whether Tang Xiaolong, Situ Ningbing, Xue Ji and others can come. The sudden killing was just a brainstorm.

But this is just a drop in the bucket, and the number of ninjas that can be sent into the space by Li Tian is definitely not more than 25.

At this time, Kurokawa Ieyasu suddenly moved.

At this time, Ieyasu Kurokawa can only be described as a giant. Although his two legs were sucked and dried by these tree vines, he still went seven or eight more than 100 meters, and the thickness of the tree vines exceeded the water tank as his leg. As for Kurokawa Ieyasu's head, these tree vines entangled with each other for more than 50 meters and then spread out again, turning into whips of more than 100 meters in length.

"Wow!"

"Wow!"

Before Kurokawa Ieyasu's footsteps moved, these whips were already lashing in Li Tian's direction from all directions.

As fast as thunder, go as lightning.

When these vines were beating, Li Tian could even feel the wind flowing in the space, and when the whip was drawn, the wooden buildings in the village would make a creaking sound.

Li Tian didn't dare to neglect, now the Qingyun Qi Jue has reached the state of practicing with his heart. When Li Tian's mind moved, seven or eight small fishes already swam to Li Tian's legs, and seven or eight appeared on his legs instantly. Jumping the purple electric snake, and Li Tian felt that his legs were filled with infinite power, as if he could fly as long as he moved.

Of course it is impossible to fly. Li Tian has not yet reached the strength to fly into, but with a sudden force on Li Tian's legs, his body has leapt lightly to the building behind him.

At this time, the whip of the tree vine had already whipped.

Li Tian snorted coldly, pressing his feet, his body rose into the air, his wrist flicked, and the Heavenly Qiong Spear in his hand pierced the vine that had drawn him.

The tree vine was getting closer and closer to Li Tian's body. When the tree vine's whip was only four or five meters away from Li Tian, Li Tian realized that he still underestimated the thickness of the tree vine.

You must know that the vine tip of your vine is the thinnest part of the vine, but the thickness of the thinnest part is more than one meter in diameter, so at this time it is the leg of Kurokawa Ieyasu. How sturdy are the vines on the bottom.

But now there is no room for Li Tian to think about it, the tree and vine have already arrived, and Li Tian has already leapt up, and there is absolutely no reason to shrink.

"drink!"

Li Tian burst out with a shout, and the two purple electric snakes on his arm rushed out along the Qiong Lance of the sky and slammed into the vines of the tree vine.

"It's crackling!" The purple electric snake made a chaotic sound, as if the tree vines were placed with timed explosives, and it began to explode continuously.

As the smoke cleared away, Li Tian saw dozens of pits of various sizes exploded on the vine. The vine was almost about to be blown off, but the vine seemed to be a broken bone. , Countless tiny fibers are still connected.

Li Tian's face couldn't help showing a hint of shock.

"how is this possible?"

Since Li Tian's Qingyun Qi tactics were successfully cultivated, every time Li Tian used this move to attack, the objects that were attacked were basically completely decomposed. It can be said that there is no bones, but this purple electric snake After attacking on this tree vine, it was only almost exploded, how could this make Li Tian not shocked.

The tree vine was not broken, and the tree vine next to him had already hit Li Tian's body.

At this time, Li Tian hadn't figured out why the Qingyun Qi Jue attacked the tree vine without exerting its full strength. When he saw other tree vines lashing over, Li Tian didn't show the slightest fear on his face.

"Good coming!"

Li Tian didn't retreat but moved forward. This time seven or eight purple electric snakes wandered from Li Tian's arm and stabbed the tree and vine along with the spear of the sky.

"Boom!" With a loud noise, the tree vines more than one meter in diameter were instantly completely broken by Li Tian's Qingyun Qi Jue. At least ten meters of tree vines between the two tree vines disappeared completely. The broken vines kept falling down.

"It turns out that the skill used just now is not strong enough!" Li Tian thought in his heart.

At this moment, some green lines flew out from the cross-section of the short tree vines. These green lines intersected and entangled together in the air, instantly causing the broken tree vines and Kurokawa Ieyasu. The vines of the body grew together again.

Li Tian was shocked and said: "Impossible!"

"Snapped!"

As soon as Li Tian lost consciousness, the two tree vines behind him were heavily drawn on Li Tian's body, and Li Tian was hit directly and fell to the ground.

Chapter 4013: Legendary cutting tools (2)

"boom!"

Li Tian landed on the roof of a house and directly collapsed the entire roof, while Ieyasu Kurokawa controlled the seven or eight vines and pulled down from the sky toward the house where Li Tian was. .

"Boom!"

The entire house was collapsed by the huge tree and vines in an instant, and even the foundation of the house was pulled down and sank a lot.

And Kurokawa Ieyasu seemed to be worried that Li Tian was not dead yet, and he controlled the ruins where the trees and vines kept beating, and the bricks and wooden sticks on the ruins that had been beating all the time had been beaten to pieces.

And in this fragment, blood and minced meat have been mixed with those brick fragments, and the whole picture looks extremely miserable.

"Isn't it just going to die? Isn't it too easy?" Ieyasu Kurokawa muttered in his heart as he looked at the fragments that could not tell whether they were flesh or rubble.

Kurokawa Ieyasu felt that happiness had come too suddenly. He had never expected that Li Tian could be killed by him so easily, and he was still a little uncertain.

Ieyasu Kurokawa controlled the trees and vines and slowly removed the old rubble and sawdust.

As more and more rubble and sawdust were removed, a bloodstain that could only be seen in the shape of a human body appeared in his sight.

"Hahaha, Li Tian is finally dead! Hahaha, but you can force me to use the legendary knife of the Iga Ninja Organization, you are pretty good!" Kurokawa only had his head on his face. A faint smile said.

"Wow!"

And at this moment, a corpse suddenly appeared out of thin air among the rubble. This corpse seemed to have appeared out of thin air, without any signs before.

The whole body of the corpse was pulled clean, leaving only a pair of **** to cover shame, but this corpse is no longer a complete corpse, there are scars from swords everywhere, and the deadliest is this corpse's chest. The blood hole before.

Seeing this corpse, Kurokawa Ieyasu's face muscles were completely twisted together, and he yelled angrily: "It's not Li Tian! This is not Li Tian!"

"Li Tian, you coward, come out for me!"

This hoarse roar echoed in the dark mountain village, but there was no other answer in the entire mountain village, and Li Tian was not visible.

The only proof that Li Tian is still alive is the increasing number of corpses above the rubble. These corpses were naturally the ninjas who were sent to the ground by Li Tian and Feitian Yasha after being beheaded by Tang Xiaolong and others.

"Asshole!"

"idiot!"

Ieyasu Kurokawa controlled the corpses that the trees and vines kept beating. He just thought that since these corpses appeared out of thin air, it means that Li Tian might be in that direction, but he can't see it, as long as he keeps. A ground attack would definitely cause damage to Li Tian.

This is something Ieyasu Kurokawa can be sure of, otherwise Li Tian wouldn't be afraid of him using tricks to hide. At this time, Ieyasu Kurokawa was suppressed for a whole night and his anger was finally released completely.

If you look closely, you will find that the tree vines of Kurokawa Ieyasu have begun to undergo some changes at this time. Some spikes about an inch long have grown on the smooth tree vines, and these spikes Black smoke is constantly rising out.

"Snapped!"

The tree vine drew heavily on the corpses, it was the corpse that immediately made a crisp bone cracking sound, and the skin of the corpse could no longer be described as fleshy, it was completely beaten to pieces.

"Snapped!"

Those frequent spikes pierced into the skin of the corpses, the blood that had begun to coagulate on the corpses was covered with the long thorns, and the long thorns became crimson.

"Snapped!"

In the entire mountain village, only the sound of the vines beating the corpses was heard. Just less than half a minute later, the more than 20 corpses were beaten by Kurokawa Ieyasu's tree vines and turned into meat, and the long thorns on those tree vines of Kurokawa Ieyasu have completely turned red. .

"Li Tian, you coward, you coward, come out and fight me!"

The more Ieyasu Kurokawa clamored, the more confidence he felt in his heart. At this time, he only wanted to kill Li Tian as a shame, but he completely forgot that he was knocked down by Li Tian just now and fell to the ground without fighting back. Look like.

"Huh!"

A red light suddenly appeared out of thin air, and then quickly slashed at Kurokawa Ieyasu's head.

Kurokawa Ieyasu's eyes narrowed slightly, and a sneer appeared on his face: "Huh, is this just a trick? Want to use this flying knife to kill me? Is it too simple!"

With a move of Kurokawa Ieyasu's mind, Ieyasu Kurokawa's head was completely entwined with the vines, leaving only a few small seams like needles and threads.

"Huh!"

A red light flashed, and "Red Cut" severely chopped on the tree vine, and a wound that was more than half a meter deep was cut on the tree vine.

But just as "Red Zhan" took off, some green lines appeared on the wound again, allowing the entire wound to heal quickly.

"Knot!"

With a burst of drink, the "Red Zhan" flew back in an instant, and landed on Li Tian's left hand, and then gathered with the transparent silk thread pouring out of Li Tian's heart, forming around Li Tian's body A black figure with a height of more than three meters.

"Li Tian, are you finally able to give up? I thought you would stay in hiding forever! Oh, I remembered, just now 50 or 60 of our Iga Ninja organization accidentally escaped, and now they are afraid A carpet search has already begun in the mountains near this mountain village. Who do you think will find the antidote to the zombie virus first?" Kurokawa Ieyasu said jokingly.

This is exactly why Li Tian emerged from the space of Void Yasha.

Li Tian believed that the strength of the small hot pot and others could completely withstand the attacks of fifty or sixty Shangren, but Li Tian still had some concerns in his heart.

"Kurokawa, as the deputy leader of the Iga Ninja Organization, you brought more than a hundred elites of Iga Ninjas to carry out this task. Now you have lost nearly half of it without even finding the location of the secret research institute. People, I don't know where your confidence came from to laugh at me?" Li Tian said.

"Confidence? Just because I beat you to hide in Tibet, there is no power to fight back. This is my confidence! Today I not only laugh at you, but also want your Li Tian to be buried here!" Kurokawa said.

Li Tian finally showed a sneer on the corners of his mouth. There was a hint of pride and confidence in this sneer. Li Tian shook the spear of the sky and said, "Really? I don't know if I will take your Can you keep your current self-confidence after your head is shattered?"

Chapter 4014: Legendary cutting tools (3)

Hearing Li Tian's words, Ieyasu Kurokawa couldn't help being surprised.

Li Tian was right, this head is exactly the weakness of Ieyasu Kurokawa.

Because of the use of the legendary cutting tool, Kurokawa Ieyasu's body has been completely integrated with the tree and vine, and the reason why he has not died is because the head still exists.

If this head is destroyed, then this Kurokawa Ieyasu will disappear.

"Huh! Come on if you have the ability, my head is here, it depends on whether you have the ability to get it!" Kurokawa Ieyasu said with a smile.

Kurokawa Ieyasu's head is located in the center of the tree, and it is 100 meters away from the ground. Li Tian cannot climb from the tree to the location of Kurokawa Ieyasu's head like climbing a tree. He can only control it. "Red Slash" attacked from a distance, but this Kurokawa Ieyasu had already controlled a tree vine to protect his head at any time. It was completely impossible for Li Tian to use that "Red Slash" to cut this tree vine.

Li Tian appreciates Kurokawa Ieyasu's arrogance, but appreciation does not mean that Li Tian will shrink back.

"Really? Then I'll pick it up with my own hands!" Li Tian's mouth turned up slightly.

In the next second, Ieyasu Kurokawa swept over the thorny vines. The trees and vines that looked like a long whip made a whining sound when the air was pumping, and the ghosts were crying and howling.

The smile on Li Tian's face gradually disappeared, replaced by a kind of coldness.

"Hmph, if I didn't know your weakness just now, I might still avoid it, but now I know your weakness, you are nothing but a lamb to be slaughtered in my eyes!" Li Tian leaped up with a sudden force of his feet.

"Idiot, no matter how high you can jump, you can only jump more than ten meters. How can you hurt me?" Kurokawa said with a smile.

Li Tian can indeed only jump a dozen meters high, but Li Tian's body suddenly disappeared when he flew up seven or eight meters, and the next time Li Tian appeared, there was already a mutant crow under his feet. .

When he saw this mutant crow, Ieyasu Kurokawa's face changed drastically, and he was already aware of the danger.

If it is really easy for Li Tian to fly to him while sitting on the body of the mutant crow, then with the power of Li Tian's purple electric snake, he can smash those trees and vines, and Ieyasu Kurokawa's head will be Not let Li Tian pick it.

"Damn it, see if I won't tear up your birds!" Kurokawa Ieyasu angrily controlled four or five tree vines and pulled the mutant crow from different directions.

But seeing that the vines were about to hit the mutant crow, Li Tian's legs slammed the mutant crow down several meters.

And when Li Tian rose into the sky, the mutant crow disappeared instantly, but it was Void Yasha who pulled the mutant crow into his space.

In the next second, the mutant crow appeared at Li Tian's feet again.

Li Tian is holding the Qiong spear of the sky, his face is as frosty, as he jumps and the crow disappears, as if Li Tian is walking in the air, and at this moment, Li Tian is farther away from the head of the head It's getting closer.

Kurokawa Ieyasu's continuous attacks didn't make any difference. Instead, he narrowed the distance between Li Tian and his head, realizing that there was a danger, he controlled a tree vine's leg and began to retreat.

"Want to run? It's too late!" Li Tian said with a sneer.

Li Tian now cooperates with Mutant Crow and Void Yasha more and more tacitly. Mutant Crow appears at Li Tian's feet and disappears again in an instant. It seems that Li Tian is flying nonstop in mid-air.

Although Ieyasu Kurokawa is still constantly attacking Li Tian, but at this time, there is a "Red Slash" sword spirit outside Li Tian's body, which has an early warning effect on any attack, and Li Tian is in the air. Teleport, these attacks were easily resolved by Li Tian.

The several tree vines of Ieyasu Kurokawa continued to crush the houses in the mountain village, but the distance between him and Li Tian did not widen because of this. Instead, he kept getting closer in the leisurely garden of Li Tian.

"No! It shouldn't be like this!" Kurokawa Ieyasu was completely unprepared for this kind of plot reversal, and kept mumbling to himself.

At this time, Li Tian was less than ten meters away from him. As long as Li Tian was willing, Li Tian could appear on Kurokawa Ieyasu's head the next time he teleported.

But Li Tian didn't do that, as if a cat was playing with a mouse, he still moved slowly towards Kurokawa Ieyasu.

"Are you afraid now? It's too late!" Li Tian could already see that the fear on Kurokawa Ieyasu's face was full of unwillingness, but this unwillingness was so weak and weak.

Knowing that the attack had no effect at all, Ieyasu Kurokawa had three fists wrapped around his head in three circles in the three tree vines. Now Ieyasu Kurokawa only knew to bury his head and escape, and the attack had completely lost its control.

"Boooo"

Seven or forty-nine purple electric snakes were swimming up and down Li Tian's body. These electric snakes made a sound like an electric current, and a powerful coercion slowly spread around Li Tian's body.

"It's over!" Li Tian's mouth curled up slightly, as if talking to himself.

"Heavy!" Li Tian said.

As Li Tian uttered this word, in the sky, a coercion like a silk thread fell over Kurokawa Ieyasu's head, and Kurokawa Ieyasu's huge body was slightly startled.

Kurokawa Ieyasu's body only paused for less than one second. If it was in normal times, this less than one second was completely negligible, but at this time, this less than one second has already determined Kurokawa Ieyasu's life and death.

"Huh!"

Li Tian performed a teleport, and Li Tian had already landed on the spiked vines of Ieyasu Kurokawa. Li Tian raised the spear of the sky high in his hand and stab the vines forcefully.

Seventy-seven forty-nine purple electric snakes were divided into seven waves and drilled into the vines in sequence.

"boom!"

The first layer of vines was decomposed instantly.

"boom!"

The vines on the second layer were decomposed again.

"boom!"

...

With a scream, the sixth wave of seven purple electric snakes instantly got into Kurokawa Ieyasu's head, and Kurokawa Ieyasu's head was completely decomposed directly following the electric snake's attack.

Kurokawa Ieyasu's head was blasted off, and the tree vines immediately fell apart, and Li Tian still added fuel to the fire, and blasted the last wave of purple electric snakes into the tree vines.

The seven or eight tree vines as tall as a skyscraper immediately turned into a fire tree silver flower, illuminating the sky of the entire mountain village, and as the tree vines decomposed, a button-sized object fell from the sky.

Chapter 4015: Legendary cutting tools (4)

This thing is oval, it looks like the material is cast in bronze. It seems to have an eye on the shape. The center of the eye is not a black eyeball but two leaves. It seems to be from an abstract painting. The inside is the same, but the more you look at your eyes, the more it feels like a hair loss.

"What is this? Is this the cutting tool in the legend of the Iga Ninja that Kurokawa said? This thing is really abnormal, and the power that can swallow the human body turns the body into another form."

This kind of thing gave Li Tian a great shock. It was completely different from supernatural powers and ninjutsu. It was a change that completely surpassed Li Tian's understanding.

This feeling is like turning water into flames.

"No matter what it is, put it away first, and wait until there is time to ask Kazama Ginbei!" Li Tian slowly fell on the ground and said to himself.

Li Tian's eyes were already devastated. Yesterday, the small mountain village in Taoyuan seemed to be outdoor. After this night's battle, it has become a ruin. There are no more than a handful of buildings in the entire mountain village. There is not even one building that protects against wind and rain.

"It seems that the children like Tsuruta can only spend the night in the space of Void Yasha tonight."

Li Tian asked Xukong Yacha Eight Tang Xiaolong and others to also send them to the space of Xukong Yacha, and then Li Tian also entered this space.

"Little boss, I strongly protest! If you say yes, let me have a good time? How do I feel that you will never send in without killing too many ninjas? Did you kill all the remaining ninjas?" Tang Xiaolong said dissatisfiedly with some blood still sticking to his body.

"No, let them run!" Li Tian said solemnly.

"Running? Little boss, I'm so disappointed, you can let those ninjas run? Why not let me go out with Situ Ningbing and Xue Ji to help you! Your plan today is really a failure!" Tang Xiaolong continued.

Void Yasha rolled his eyes and said to Tang Xiaolong disdainfully: "Idiot, you don't know how dangerous the battle outside is. If you are a burden, Li Tian will inevitably be distracted. The result of the battle may be nothing. Change, but the process will be more difficult!"

Tang Xiaolong was not very angry at what Xukong Yasha said, and he still said unconvinced: "How to tell? After all, only you can see the battle outside, and you haven't made it clear!"

"First of all, let's talk about Kurokawa Ieyasu's body hiding the nine swords! This body hiding the nine swords is actually a very deep method of using the air to protect the sword, but this sword is made from their bodies warmly. The slashing power of the hilt sword is exceptionally powerful, but it is a pity that Kurokawa is out of luck, and encountering Master Li Tian, the ancestor who used the sword to fight with Qi, can only suffer a dumb loss!"

"The second is the sword of the **** of the day! This sword attack is extremely dangerous. If you, Tang Xiaolong, go out, even if your tenth-fold body has been cultivated to the eighth stage, you will probably be cut off if you have refined it into copper and iron. Skin and flesh, if it is the second sword, it may directly kill you! Among all of us, the purple electric snake of Master Li Tian is the nemesis of the sword of the gods, so Kurokawa is a tragedy!"

"As for the last change of Kurokawa using the legendary cutting tool, although I did not understand it, I also know that the thing is very weird, and even I feel that the thing does not seem to be in its complete form, otherwise the black smoke and scarlet tip The thorn loses the meaning of existence!" Void Yasha said.

This is actually what Li Tianxin is curious about.

At that time, seeing those black smoke and blood-colored spikes, Li Tian thought that Kurokawa Ieyasu should become stronger, but in the end it was not the case, which made Li Tian feel somewhat disappointed.

"Li, have you found the cutting tool, let me take a look!" Situ Ningbing said.

Li Tian took out the cutting tool and handed it to Situ Ningbing's hand.

Situ Ningbing looked at the weird shape of the blade, and the weird pattern on it suddenly felt extremely uncomfortable in her heart, and her head felt dizzy. If Xueji was not supporting her, Situ Ningbing even had it. May fall to the ground.

"Strange, why do I feel dizzy when I see this thing? I don't know if you have this feeling?" Situ Ningbing shook his head slightly.

"No, we just feel uncomfortable in our hearts, but there is no such dizzy feeling!" Xue Ji and Tang Xiaolong both said.

"It can be seen from the shape of this thing and the quaint patterns that this thing is not something from the Dongying island country, but where exactly this thing came from, I don't dare to extrapolate it!" Situ Ningbing said.

Li Tian put the thing away and said, "Keep it here. Later, I will ask Xifengjian Yinbingwei and the small hot pot to see if they recognize this thing!"

After that, Li Tian, Tang Xiaolong and others exchanged simple greetings, and then retreated from the space of Void Yaksha, leaving Tang Xiaolong and others to rest in the space of Void Yaksha.

Fortunately, Void Yasha expanded his space again before Li Tian came to Dongying, and re-divided it into different areas and functions. At this time, there were a dozen children inside, and several adults did not feel crowded. Even these people can have their own private space!

The sky was already bright, Li Tian looked up to the east and saw a red glow looming in the clouds of the Eastern Mountains.

"Darkness will always pass! As long as the antidote to this zombie virus is successfully developed, the dawn of the earth world will come!" Li Tian sighed, jumped onto the mutant crow, and let the mutant crow lead him quickly toward him. The direction of the Secret Research Institute is moving forward.

During the flight, Li Tian found some ninjas in the mountains.

These unlucky guys just wanted to wait until dawn to escape from the mountains and report back to Masazo, the leader of the Iga Ninja, what happened here, but they were waiting for Li Tian, the **** of murder.

Naturally, Li Tian would not be soft-hearted, and directly beheaded these guys.

Li Tian knew that some of the ninjas who escaped last night must have either escaped back or used a small animal like a ninja to pass a message to the Iga Ninja, so Li Tian did not dare to be careful along the way. Searching, just like this, seven unlucky ones fell into Li Tian's hands.

Flying to the tunnel where the Zombie Research Institute was located, Li Tian saw that the tunnel was also in a mess, and it seemed that a ninja had already entered here yesterday.

But fortunately, there are small hot pots and Di Xing Yasha sitting in the town. It is also safe and risk-free. The ninjas left more than 20 corpses and had to escape.

After landing, Li Tian said proudly: "Move it to me, and move everything that can be used to me!"

Chapter 4016: Chaos

The most important thing in the Secret Research Institute is not the large-scale equipment but the scientific research data and the semi-finished medicines made after several developments. The most important part is the zombies that have been killed by the Iga Ninja. Corpse!

As long as the people of Otsuka Marina think it is important, Li Tian didn't hesitate to send these things into the space of the ground travel yaksha and the flying yaksha. As for those things that cannot be taken away, the Otsuka Marina people suggest it is directly destroyed, leaving no clues for those Iga ninjas. ,

Under the guidance of Otsuka Kuang, Li Tian and others quickly sorted out all the things that can be used in the research institute for this secret, and sent these things to Earth Travel and Feitian Yasha through Li Tian and Xukong Yasha. In the space.

Then Dixing Yasha used his abilities again to completely seal the entire secret research institute.

And the goods of Dixing Yasha moved that road a little bit, turning the road that originally led to the tunnel into the mountain range next to it. Li Tian and Tang Xiaolong knocked down a part of the mountain range. An illusion that a secret research institute is in this mountain range.

In this way, even if the Iga Ninja organization wants to find the secret research institute again, I am afraid that unless they hollow out the nearby mountains, even if they find the secret research institute, there is nothing usable in it.

Because of the unexpected gains that this episode brought to Li Tian, Li Tian decided to suspend his trip to Honnakashu Island and turn to Southern Shikoku Island. First, he sent Otsuka Kuangren and these zombie virus research materials to the Southern Shikoku Zombie Research Institute. In the

middle, let Otsuka lead those research members on the South Shikoku Island to jointly develop a zombie virus antidote.

Li Tian's proposal was approved by everyone.

Everyone now understands the importance of the antidote to the zombie virus. If Li Tian and others continue to stay on this Zhongzhou Island, it will be like a piece of fat that will move and be besieged by the tiger wolves on this Zhongzhou Island.

And for Otsuka Kuang, the research on the antidote to the zombie virus has been stagnated for more than a year, and he is also eager to continue to develop the antidote to the zombie virus, and there is no such research environment in this island.

However, Otsuka Kuangren has one condition. He hopes that his son, General Otsuka, Tsuruta and other children can live safely on West Jiuzhou Island, and requires Li Tian to ensure their safety.

Li Tian fully agreed to such a request.

So after everything went smoothly, Li Tian immediately began to ride the mutant crow from Honzhongshu Island towards Nanshiguo Island, but only ten minutes after Li Tian left the mountain range, the mountain range became lively.

An old man appeared in the mountain village. He squatted on the ground, reached out and picked up the broken stones from the ground, put it in front of his nose and sniffed, and said with a sneer:

"There are so many Iga ninjas. There's no way for Li Tian's waste, it seems that I must find a way to make the fierce warrior or the belly hide away, otherwise I can only do it myself!"

Speaking of this, the old man turned up a small white piece of paper.

This piece of paper is exactly the shikigami, a shikigami formed by summoning the soul of the sky cluster in the abdomen with the body of the army chief.

The corpse was sent to the mouth of the paper villain, and a **** tongue protruded from the mouth of the paper villain, and the corpse was directly rolled in.

"Your tactics of driving away tigers and devouring wolves seem to be of no use. Why don't you let me out and let me deal with Li Tian! Now that I have this body, and with the blessing of Shiki God, it must be used to deal with Li Tian. Get your hands on it!" said the paper man.

The voice of this paper man is very strange, and there are three kinds of voices that have changed in a short sentence, which will give people a feeling of hair loss in human ears.

With a slight sneer on the old man's face, he said: "Mantis catches the cicada and the oriole is behind, sometimes when you show it, but you must understand that even Shiki can only give you such a chance to rebirth in the sky clump in your abdomen. , Once you lose again this time, hum, you will understand the result without me!"

"That's natural! Shikigami has the power to communicate with the ghosts. I am much stronger than before! And I know Li Tian's moves and skills very well. As long as I am given this opportunity, I will definitely Li Tian beheaded, then you can take Li Tian's head and red beheaded to ask the Lord Three Corpses for credit. Maybe the Three Corpse Lords are happy and let you rule the entire Dongying Island country." That paper man again He stretched out his tongue and rolled away a piece of broken corpse and said with a smile.

The old man finally showed a smile on his face, and said with a smile: "Hahaha, since Lord Three Corpse allows me to stay on this island of Zhongzhou, what I like is my ability. If they had supported As for my Shijin Ninja, the current Dongying island country has long been unified, and Iga and the others can still be there!"

As soon as the old man's words fell, he stood up abruptly, looked into the mountains in the east, frowned slightly and said, "It seems that someone has come, and we should go too! Li Tian probably has left the mountains now. I'm afraid it will be difficult for these wastes to catch up with Li Tian, so let me help them once!"

Speaking of this, the old man took out a little bird cut out of white paper and a little white paper man from his body, came to the corpse of a ninja, put the paper man on the forehead of the ninja, and then his mouth There are words in my mind.

"boom"

A light blue flame rose, and the paper man disappeared in an instant, but there was a small white spot on the ninja's forehead.

The old man put the white paper bird in the hands of the ninja's corpse, and after grabbing the white paper-cut bird, then the ninja's corpse moved slightly.

At this time, the old man had disappeared.

"Wow!"

"Wow!"

In the woods in this mountain range in the distance, ninja figures constantly shuttle through the woods.

"Fast, faster, Kurokawa Ieyasu-sama is in danger, we must speed up, and we must not let Li Tian flee here with those things!" One of the Shinnin shouted to the other ninjas behind him.

"This time Ieyasu Kurokawa brought more than a hundred Iga ninja cores to Shinobu, and he also brought legendary cutting tools to perform tasks here. Even if Li Tian is powerful, it's not easy to win easily. It's something!" These urged ninjas still thought with some doubts in their hearts.

Seeing the disdainful expressions of these ninjas, the Shangren couldn't help getting a little more angry, and shouted at these ninjas: "Don't treat Li Tian as an ordinary person. With his current strength, I'm afraid It's better than Master Kurokawa. Maybe Li Tian can now be compared with Master Zheng Zang! So, if any of you dare to look down on Li Tian, then you will have to pay the price of blood!"

"My lord, I found a village ahead with traces of battle..." One of the ninjas turned back and came to the Shangnin, and said loudly.

Chapter 4017: Rush

These Iga ninjas came to this mountain village quickly, and when they saw the mountain village that had been turned into ruins, they were completely shocked by the way they saw them.

The entire mountain village has been almost completely destroyed, and the ground in that mountain village is full of deep pits, cracks, and ruined walls. On these ruins, there are many corpses lying all

over the place, and more corpses look like It was the zombie and other zombies that had torn apart and turned into some rubble.

"Quickly, go and see if there are people alive!" Kaminin shouted to his subordinates.

The subordinates behind him galloped into the village one after another, flipping every complete body quickly, but soon this Shangren saw those subordinates shaking their heads constantly.

"Impossible, Lord Kurokawa leads the absolute core of our Iga Ninja, and Lord Kurokawa still holds the legendary cutting tool in his hand. If he is not Li Tian's opponent, then how could we ninjas be Li? Where is the opponent of heaven?" One of the ninjas was shocked by the scene in front of him and said with a bit of speech.

In fact, these words are also the thoughts in the mind of this leader, Shangnin. People may have this kind of retreat when encountering difficulties, even he is no exception, but he is different from those other ninjas.

The other ninjas in the Iga Ninja Organization just want to eat food, but he is the kind of person who has been in the Iga Ninja Organization from his birth to his death, and this ninja is also called the dead ninja.

So he can't back down, nor can he say such things.

"What are you afraid of? We are just an advance team. Behind us, there is Master Masazo abdomen. This time Master Masazo abdomen has invited the two retired old people from our Iga Ninja organization, and he is also here this time. I will bring out the other legendary cutting tools!" Said Kaminin scolded the ninja just now.

But at this moment, a ninja in the distance seemed to have discovered something. He was startled first, and leaped back. He slammed the ninja sword out and held it in his hand. Then he let out an exclamation and shouted. : "Come and see, there is still alive here!"

Nearby ninjas ran towards the ninja, and two of the medical ninjas had already rushed to the side of the ninja who fell on the ground.

But before they rushed to the ninja, the ninja stood up swayingly, and then the ninja made several knots in succession on both hands, and the mouth was blown to the hands, a small white palm the size of a palm. The bird flew out of his hand.

"Quick...chase Li Tian...follow the bird!"

After saying a few simple words, a blue flame suddenly appeared on the ninja's body. Before the medical ninjas had time to rescue, they watched the ninja's body instantly covered by the blue flame. It was swallowed.

When the little leader Shangren arrived, he only saw a pile of ashes and the little birds that were still flashing their wings. He quickly asked the other ninjas around him: "What's the matter? Why did he spontaneously burn?"

The faces of the two medical ninjas beside them were also full of doubts, their eyes barely dared to look at the eyes of the little leader Shinobu, and their bodies trembled and said, "My lord, it's really weird. We haven't had time to save him, he It burned after just one sentence! When we rushed to him, it was too late!"

"A word? What did he say just now?"

"It seems to say..."

Speaking of this, one of the teasing ninjas began to imitate the appearance of the ninja who just burned.

This guy imitated so vividly, even the expressions on his face and the movements on his hands were exactly the same, even the spontaneous combustion was imitated, but the flame on his body was crimson.

"Quick...chase Li Tian...follow the bird!"

Of course, what the spontaneous ninja said is not bad, and this is exactly the ninja's ability.

There are tens of millions of ninjutsu among Iga Ninjas. Among them, there is a kind of ninjutsu that can turn the ninja's eyes into a copy function, and use the ninja to completely reproduce the previous scene, just like playing a movie.

This ability may not be of much use in modern society, but after the end of the world, this kind of ninjutsu has been carried forward again.

"Good job!"

The little chief, Shangren, first affirmed the funny ninja, and then he stretched out his hand to let the white bird fall on his hand, and then said to the bird: "You know where Li Tian is now Direction? If you know, take us to Li Tian!"

The white bird chirped a few times, then flapped its wings and flew.

The little leader Shangren's face immediately showed joy, and said: "Everyone must gather immediately, this little bird can lead us to Li Tian!"

But at this moment, a yellow smoke suddenly rose up in the distant sky, which was a signal from the alert ninja that the little leader, Shangnin, arranged around.

"No, someone is coming, let's withdraw quickly!"

Following the command of the little leader on Shinobu, all the ninjas did not stop at all, and immediately began to accelerate and rush out toward the southern mountains.

After only thirty seconds, dozens of ninjas wearing ninja costumes with the Koka Ninja logo appeared in the mountain village. When they saw the appearance of the mountain village, their faces also showed shocked expressions.

"What's all the fuss about? Give me full speed to catch up with those Iga Ninjas, absolutely can't let the Iga Ninjas find Li Tian first!" Mochizuki Shouyun said.

Hearing this sentence, the other Koga ninjas immediately converged in panic, and there was no more words to continue chasing the Iga ninjas.

Since receiving the order last night, these Koka ninjas knew that the balance that had been maintained on Honnakashu Island for nearly two years was about to break, so they had the consciousness they should have.

We must know that the biggest difference between Iga Ninja and Koga Ninja is not the difference between ninjutsu, nor the difference in name, but their fighting style and attitude towards tasks.

Iga Ninja emphasizes individual combat capability, while Koga Ninja emphasizes collective combat capability. Iga Ninjas work for the high-ranking employers, while Koga Ninjas are dedicated to their lord.

Therefore, when Li Tian was fighting with Abdomen Tiancong, when it was time to fight on Honnaka Island, those Iga ninjas would be greedy for life and fear of death.

But if Li Tian met this Koga ninja last night, then these Koga ninjas have only one way out, and they will never retreat in half. Moreover, the leader of their ninja team is Mochizuki Mamoru.

Mochizuki Shouyun is the most famous ninja in the Mochizuki tributary of Koga Fifty-Three Houses, and he is one of the three ninjas in the Koga Ninja Organization.

Suddenly refers to the most brutal and evil naming in the ninja family, named after the speed and assassination success rate. The most famous belly Hanzo in the history of ninjas is Sunin, which shows how powerful Mochizuki Shouyun is.

Mochizuki Shouyun looked at the mountains in the distance, with a fanatical expression on his face, whispering to himself: "Li Tian..."

Chapter 4018: Melee

Li Tian, who was flying with a mutant crow in the sky, shuddered unconsciously. Li Tian looked back at the mountains behind him, and saw nothing unusual.

"What's the matter? It seems that someone is calling my name!" Li Tian thought suspiciously.

"Forget it, what about him? Anyway, I'm almost in Okayama City now. When I take a rest in Okayama City, I can spend the bay and reach the legendary prefecture on Minami-Shikoku Island!"

"And once I enter the bay, that sea area will be the world of Yang Guo and Haiyasha. Even if Iga Ninja, Koga Ninja, and Fierce Warrior will join forces, Li Tian will not be afraid!"

With that said, Li Tian looked back at the mountain range further and further away behind him. The mountain range was still quiet, and there seemed to be nothing unusual.

And just when Li Tian was about to turn around to continue flying, a group of flying birds suddenly started in the mountains over ten miles away. Although the distance was not too close, Li Tian still accurately caught the flock of birds.

"Really chasing it? I'm almost home!"

A smile appeared at the corner of Li Tian's mouth, but a cold light flashed in his eyes.

Li Tian didn't know how these ninjas caught up with him, if they really caught up with these ninjas, then Li Tian wouldn't mind killing him again!

But just looking at the distance, it is estimated that those guys will not be able to catch up with Li Tian for a while. After all, Li Tian is riding a mutant crow, flying in the sky, and those ninjas, if Li Tian guessed well, this I'm afraid Shi is still jumping with two legs!

What Li Tian didn't know was that in the mountains of Okayama Prefecture behind him, he had fallen into chaos at this time.

Not only the two ninjas of Iga and Koga are fighting with each other, even the fierce warriors have sent people to join in the fun. At this time, seven or eight warriors are chasing an injured Iga with their long swords. Ninja.

The Iga ninja staggered and almost fell to the ground several times, but he insisted on keeping his body from falling and ran forward.

"Huh, huh!" The ninja felt that he had reached his limit, and the shadow of the tree in front of him began to become a little fuzzy.

"Are you going to die here?"

The ninja thought of his lost youth, of his beloved girl before the end of the world, and the husband of that beloved girl.

"Damn, why would I think of this kind of thing?" The ninja stretched out his hand and touched his tears, and said: "If I had this kind of post-apocalyptic ability, I would not just watch her marry someone else. !"

"Damn it, **** it!"

The ninja was already crying, and he decided not to run.

This is a meaningless battle! At first, Iga Ninja and Koga Ninja were fighting for the white bird, perhaps to chase Li Tian, but later the bird fell into the hands of no one, which became meaningless. Fight to the ground.

As long as you see people who are not organized by yourself, they will all become targets. Only killing is the truth, and this ninja became the target of this group of samurai after being broken up.

"Just accept it! Maybe this is my best destination!" The ninja slowly closed his eyes, opened his arms and let the breeze in the mountains blow his hot and painful wound.

"Hey, I finally gave up and escaped! Let's die early and live longer!" One of the samurai laughed wildly, dragging a long sword and quickly rushed towards the ninja who had given up resistance.

When the ninja was still five or six meters away, the samurai's two heads used force, the samurai long sword in his hand suddenly raised, and he jumped from above to the ninja.

"Wow!"

A cold light suddenly flashed in the woods, and a warrior flew out before landing a long ninja sword, and directly cut the warrior.

The warrior's chest was directly cut open, and the blood slammed the face of the ninja, and the ninja fell directly to the ground after being sprayed with blood.

Walking out of the woods were two elderly men, a man and a woman.

The female old man wore an off-white robe and looked like a gentle old woman, while the old man was wearing a colorful shirt and shorts, with a pair of wooden clogs under his feet, and felt like going to the beach on vacation.

The two appeared here, without a trace of disobedience.

But these warriors felt a danger, a danger of death was constantly approaching them.

The old woman had a look of dissatisfaction on her face, her shriveled mouth sneered slightly, and said with a sneer: "When will Iga Ninja let others slaughter?"

"Who are you? We are members of the Martial Artists. I advise you not to interfere in the affairs of our Martial Arts Organization and the Iga Ninja Organization!" One of the samurai still couldn't see the situation clearly, and said with a trembling voice.

"Intervene? I have killed your fierce warrior's warrior now. Are you just so indifferent and just playing tricks?" said the old woman.

"you....."

As soon as the old woman's voice fell, the dust under the feet of the old man wearing wooden clogs suddenly floated up, and his figure flashed, and it rushed to the front of the warriors in the blink of an eye.

The old wooden clogs bare-handed, facing the slashes of the horrified warriors, without the slightest escape from the slashes of the warriors, with their arms directly through the long knife, pierced into the pupils of the warriors, and slammed this directly The martial artist's eyes were cut out. And this old wooden clogs didn't kill any more, he turned to another warrior.

In seven seconds, the eyes of the nine warriors were picked off by the old clogs.

The scene was full of screams, but the old clogs' face didn't fluctuate in the slightest.

"Guys with eyes but no beads, what's the use of keeping eyeballs? Even we don't even know the two of us!" The old woman still said coldly.

"Hurry up? Do you want to stay here even your life?"

The warriors screamed again and again, but when they heard this old woman's words, they were still like an amnesty, holding the warrior sword in her hand as a crutch and began to move slowly in the mountains.

In the last days, these warriors whose eyes have been abolished are actually sentenced to death. Whether they can walk out of the mountains alive is already a question.

"The kid who is hiding in the abdomen should be waiting for Li Tian in Okayama City now! Humph, I want to see if Li Tian is capable and capable, so that the kid who is hiding in the abdomen can invite both of us out! "After saying this, the old woman suddenly looked towards a forest in the northeast.

"What are you looking at? Is there still Xiao Xiaozhi who dared to attack by the two of us?" The old wooden clogs finally spoke.

A sneer appeared at the corner of the old woman's mouth and said, "I don't know, maybe it's Koka's puppy who got lost? Waiting to go to Okayama City to clean up!

After speaking, the two elders did not stop, and hurried to the direction of Okayama City.

After the old man left, Mochizuki Shouyun slowly walked out of the woods.

"I didn't expect that Iga could invite these two old guys out. It seems that this time Iga is betting all his books and leaving Li Tian!"

Chapter 4019: Brawl (2)

Mochizuki Shouyun is one of the top figures in the Koga Ninja Organization.

As one of the most famous sudden ninjas in this generation of ninjas, he naturally wouldn't be as eye-catching as the samurai just now, not knowing these two old men.

"Mother-in-law Fujiwara Chiji, old man Kumasaka Narita, plus Iga's contemporary leader is hiding in the abdomen, hehe, this combination is really interesting!" Mochizuki Moriyun said with a slight smile at the corner of his mouth.

In fact, this is not a bit interesting anymore. To be honest, when I saw these two old men, Mochizuki Shouyun had already planned to shrink.

Against any of these three, Mochizuki Shouyun might not be able to let the wind fall, but if two of these three were encountered together, then even Mochizuki Shouyun would only have to escape.

Thinking of this, Mochizuki Shouyun folded his hands together, and cast several knots in succession, and then suddenly pressed the knots to the ground. As a bright light flashed, there was a ninja dog on the ground.

Mochizuki Shouyun's hands sometimes displayed several knots in succession, and then his right hand drew half a circle in the air in front of him, and all the words read from his mouth turned into words and fell on the half of the aperture in front of him. , And then these words entered the head of the ninja dog.

"Go and report to Saruto-sama Sasuke, report all the news here to Sasuke-sama Sasuke, and ask him to decide! Before that, I will go to Sato Shino and Mitsui Yukami to monitor the situation. "Iga Ninja's every move is a little bit" Mochizuki Shouyun said to the ninja.

The ninja dog seemed to understand Mochizuki Shouyun's words, nodded and quickly rushed into the woods and galloped towards the mountains to the east.

Mochizuki Moriyun followed from a distance behind the two old men Fujiwara Chiji and Kumsaka Narira.

...

Okayama Prefecture, Okayama City.

Okayama City is a city located in the southern part of Okayama Prefecture, Japan. The city map is small, with only four districts and a total population of less than one million.

Okayama City is still some distance away from the Kobe and Osaka Economic Circles in the Eastern Islands, so the location of Okayama City on the entire Hon Nakashu Island is rather awkward.

Before the end of the world, this place was not the most important economic sector. The economy and other aspects were relatively backward. After the end of the world, it was far away from Jingdong City, where the warriors are located, and Kyoto Prefecture, where Iga Ninjas and Koga Ninjas are located. There are also many zombies in the city, so they are not occupied by any organization.

Only a few bounty hunters will occasionally enter the edge of this city to hunt some zombies, and at other times there will be few human figures in this city.

Today, there are many people in the urban area of Okayama City. These figures are flying through the buildings one by one. You can see from the signs of the ninjas on the ninja clothes. These ninjas are all It comes from the same ninja organization, which is the Iga Ninja organization.

The appearance of these ninjas broke the balance of the city's food chain. After the end of the world, the zombie rulers in this city were already hiding in the shadows and shaking away when they saw these ninjas.

The lowest level of these zombies is also above level 9. In the last days of Okayama City, they can definitely be called a domineering existence, but at this time, these zombies dare not even go out to explore, for fear of those The galloping ninjas noticed in this corner.

But at this moment, among these dark shadows, several figures suddenly emerged from the ground.

"Huh!"

"Huh!"

A few sword lights flashed, these zombies hadn't seen what was coming out of the ground before they discovered that their heads had been cut off, and the blades of those samurai swords had pierced their heads.

There was no energy fluctuation in these blade lights, and it seemed that the shadows who drilled out of the ground simply borrowed the brute force of their bodies to easily kill these zombies.

Level 9 zombies, no matter where they are, they are considered high-level zombies.

But these warriors looked relaxed and their movements were smooth and concise. Before the zombies could make a sound, they were beheaded by these warriors.

This shows that these samurai are not ordinary samurai.

That's right, they are the four most powerful beings under the fierce martial artist, known as the four fierce fighters!

The four fierce martial arts generals appear and disappear, even in the fierce martial arts organization, it is only heard that most of the martial artists have not seen their names, but the fame of these fierce martial arts is far better than that of Iga Ninja's abdomen. , Kurokawa Ieyasu, and Koga Ninja's three sudden ninjas.

After these four evil spirits killed these zombies, it was as if nothing had happened. They squatted down slightly, watching the ninja's figure that kept flashing outside.

This fierce and deadly ghost general's body is strong, and the shortest height is more than 1.8 meters. They are all wearing colorful samurai costumes, and their faces are painted with strange patterns in oil paint. They look like actors dressed up with their whole bodies. almost.

And the martial arts sword in their hands is completely different from the ordinary martial arts sword. The handle is very long, almost the same as the blade, and it feels a bit like a small sword.

These martial arts knives are already covered with black mucus, which is exactly the traces left by those zombies after being cut.

"Tick!"

"Tick!"

The slime was gently sliding down the blade, dripping onto the corpses of the zombies.

"Do you want to do it? These ninjas are flying around in front of our eyes, always making my heart uncomfortable!" said the most grumpy third of the fierce martial arts generals.

"The purpose of our four fierce martial arts generals is to monitor the abdomen, to contain Li Tian not to leave Okayama City, not to make extravagances!" said the boss of the fierce martial arts generals.

"Huh, the fortune-telling is big, if it weren't for a task, I'll let the heads of these dog ninjas move now!" The old third snorted coldly.

At this moment, a man wearing a white robe walked past the street corner. This man was like a gust of wind, walking lightly but at extremely fast speed, and when the man walked past the street corner, he suddenly Looking at the place where the four evil spirits are hiding, a cold light flashed in his eyes!

"The abdomen is hiding! He seems to have found us!" The fourth of the four evil spirits said in a low voice.

"Should not? The four of us were like stones after holding our breath. It is difficult to see through us with the naked eye!" The boss said in a somewhat unconfident manner.

But at this moment, several screams suddenly came from a distance.

"Li Tian...Abdomen adults, the front ninja unit has already contacted Li Tian!" A ninja said loudly to the belly Zheng Zang.

Abdomen Zhengzang withdrew his gaze from the shadow of the street, and said blankly: "Go!"

Chapter 4020: Brawl (3)

The figure flickers hidden in his abdomen, his speed is obviously a little faster than the speed of other ninjas, and just a few breaths have directly come to the battlefield ahead.

The abdomen was hiding and the footing was not stable, and I saw a figure flying in his direction. This person was not Li Tian, but was the Iga Ninja who was blown out.

Zheng Zang in his abdomen stretched out his arm to catch the figure.

"Big... Your lord, this Li Tian is so amazing! I..." The shadow just said a word, and blood began to spit out at the corner of his mouth, seeing that he could no longer survive.

Zheng Zang noticed that the black shadow's real wound was the blood hole on his chest, brutal and rough, and it was blasted out with a fist.

"boom!"

Another ninja who rushed forward was blown out.

The ninja let out a scream, and fell heavily on a wall. The wall was collapsed. The other ninjas kept rushing towards the black and thin who claimed to be Li Tian. man.

"Chang!"

A few shurikens hit this black and thin man. The man's body was like a copper bar and iron bone, without any trace of injury.

The faces of these ninjas involuntarily showed shocked expressions, and their hand movements and footsteps were obviously a little messy.

There was a sneer at the corner of the black and thin man's mouth. He rushed forward and stooped to avoid the ninja sword slash in the hands of the two ninjas. He slammed his left and right hands and grabbed the ankles of the two ninjas. The black-clothed man lifted the two ninjas directly and threw them to the ground again, and the two ninjas suddenly cracked their brains.

Immediately, the black and thin man carried two corpses in his hands as if they were two weapons, spinning like a windmill.

"call!"

"call!"

Crimson blood and white brains continuously splashed out of the two corpses, and the ninjas who besieged him couldn't get close at all.

When he saw the thin black man with his abdomen hidden, the corners of his mouth twitched slightly, and he felt as if he had been greatly insulted.

"Baga! This... is this Li Tian?"

The intelligence department of the Iga Ninja organization is still very capable of collecting intelligence. Not only does it collect Li Tian's intelligence relatively completely, but it also collects intelligence on important people around Li Tian.

This black and thin man and Tang Xiaolong in the intelligence overlap somewhat. How could it be Li Tian?

That's right, this black and thin man is naturally Tang Xiaolong.

When Tang Xiaolong saw that the abdomen was hiding, although the attack on his hand did not stop, he could already feel the powerful pressure from the body hiding in the abdomen.

This kind of coercion is even stronger than the coercion on the abdomen Tiancong before. If it weren't for Tang Xiaolong who had gone through painstaking cultivation after fighting with the abdomen Tiancong, he would have gained a lot of strength through Li Tian's instructions. Tang Xiaolong might already be in awe at this time.

Tang Xiaolong fiercely threw the two corpses in his hands towards the abdomen.

The corners of Tian Cong's eyes moved slightly in his abdomen, and his left and right hands suddenly stretched out. As soon as he touched the two corpses, he immediately felt the powerful force from the two corpses.

Although Tian Cong in the abdomen had been prepared for a long time, when he reached out his hand to catch the two corpses, his body had already stepped back two steps, and this powerful force was completely resolved.

"What a powerful force, much stronger than the force in intelligence!"

Zheng Zang placed the corpses of the two ninjas on the ground steadily, stood up slowly, and shouted at the other ninjas who besieged Tang Xiaolong: "Retreat, your opponent is not his!"

In fact, the core ninjas in the Iga Ninja organization are all good. It's a pity that most of them were taken away by Ieyasu Kurokawa last night. Although most of the ninjas led by Abdomen Masazo today are all Shangnin, they have obvious individual combat ability. It was worse than the ninjas led by Ieyasu Kurokawa last night.

"Tang Xiaolong, you are not my opponent, you tell me where Li Tian is, maybe I will let you go!" Zheng Zang said in Chinese.

The only goal of the abdomen Zhengzang was Li Tian. Although Tang Xiaolong was also Li Tian's right-hand man, the abdomen Zhengzang didn't see it at all.

Tang Xiaolong sneered, and said, "If you want to see the little boss, I will talk about it after passing my level!"

While talking, Tang Xiaolong's figure suddenly disappeared in an instant, and then Tang Xiaolong's figure flickered, but in an instant it appeared in front of the abdomen.

And Tang Xiaolong's iron fist had already blasted toward the face door hidden in the abdomen.

"So fast! Teleport?"

"It was never said in the intelligence that Tang Xiaolong would teleport! Could it be that the intelligence is wrong?" A hint of surprise had already appeared in Zheng Zang's heart.

However, this kind of surprise was fleeting, and a fierce light flashed across the corner of his eyes hidden in his abdomen.

The target of the abdomen is Li Tian. When he received information from the ninjas of the ninjas led by Kurokawa Ieyasu last night, he had already decided to leave Li Tian on Honnakashu Island anyway.

This is not just a problem of the antidote to the zombie virus, but more of the dignity of the Iga Ninja Organization.

Tian Cong in the abdomen was beheaded by Li Tian. The Iga Ninja Organization might explain that he was a traitor, but what about Ieyasu Kurokawa? He is the deputy leader of the Iga Ninja Organization!

If Kurokawa Ieyasu was beheaded by Li Tian and Masazo still did not move his abdomen, then the Iga Ninja Organization would not need to be destroyed by others and would automatically disintegrate.

This is unacceptable to Zheng Zang.

It is precisely because of this that the abdomen Zhengzo invited the two old men who had retired from the Iga ninja out, chased Li Tian, and formed a double-teaming tendency against Li Tian.

Belly Zheng Zang had decided to kill Tang Xiaolong directly. He didn't believe that Li Tian would watch his good brother be beheaded and would not come out.

"Since you want to die, then I will give you a ride!"

As soon as the voice of Zheng Zang fell off, there was an extra figure with a rock all over him. With the appearance of this figure, Zheng Zang only felt his body stagnate, and at that moment his body could not move.

"What is this? Why did I lose control of my body? Is it a supernatural ability?" The pupils hidden in the abdomen were enlarged, finally showing a frightened expression.

At this time, Tang Xiaolong's iron fist had arrived, and the iron fist hit the face that was hiding in the abdomen heavily.

"boom!"

Zheng Zang in the abdomen only felt that his face was hit by a hammer of tens of thousands of kilograms, and his head dragged his body and flew out suddenly.
