

A Killer 4061

Chapter 4061: Hard fight (2)

After seeing Li Tian, the fierce warrior flashed backwards immediately.

Although the fierce warrior evaded Li Tian's attack just now, the power of Li Tian's one blow was also shocking him.

The power of that blow could destroy all the buildings within nearly 10,000 square meters. If it weren't for him to dodge quickly, and he still had armor on his body as a defense, he had used multiple times to resolve Li Tian's attacks. He was seriously injured.

Although the fierce warrior claimed to be a god, it was only a coincidence that gave him a powerful ability, allowing him to have a longer life than an ordinary person, not an immortal body.

Only at this time, watching the members of the Martial Artists organization fall into a pool of blood, the Martial Artists felt that this was the power of Duanmu Ying and others provoking him.

The power of God is not to be profaned, and no one is allowed to provoke. Only when Duanmuying and others are put to death can he ease his perseverance and allow his power to be preserved.

"Li Tian, you are looking for death!" The fierce warrior Oda Nobunaga coldly snorted. The dark red armor on his body instantly burned flames, and these flames burned the long knife in his hand to red, like a soldering iron. general.

The fierce warrior violently raised his knife and slashed out in the direction of Li Tian. When the knife was cut out, it seemed to be unremarkable, but Li Tian's mind was suddenly full of vigilance.

In Li Tian's eyes, the air seemed to be starting to burn, and the air seemed to be distorted by this strong slash at this moment.

"No, it's not right. It's not the flames that the air is burning, but the long sword in the hands of the fierce warrior!"

At the same time, the fierce warrior roared fiercely: "Flame Slash!"

The blazing flame with a length of more than tens of meters and a width of more than one meter flew toward Li Tian like a wave. When Li Tian was frightened, the powerful energy fluctuations carried by this flame were actually higher than the one or two purple electric snakes he released. The energy contained is even stronger.

At this moment, Li Tian just wanted to use teleport to avoid.

However, Li Tian could see Duanmuying and Situ Ningbing and others behind him through Feitian Yasha's sight in the sky, and if Li Tian avoided it, the Flame Slash might attack Duanmuying and others.

No longer able to tolerate Li Tian's extra thoughts, Li Tian subconsciously raised the Heavenly Qiong Spear in his hand, and the purple electric snakes in his body burst out instantly. A dozen purple electric snakes followed the Heavenly Qiong Spear. Slashing out with the flames.

"boom!"

With a loud noise, the purple electric snake blasted into the flames, and the tens of meters long flames was smashed into two by Li Tian's purple electric snakes.

The two-piece Flame Slash flew by Li Tian, and rushed out to both sides in a fan-shaped shape. Wherever the Flame Slash went, the buildings that hadn't collapsed were directly crushed and collapsed, a raging fire. It started to burn instantly.

And those purple electric snakes were quickly devouring the remaining Flame Slash, and gradually weakened after the Flame Slash rushed out 100 meters, and finally was completely swallowed by the purple TV.

But the raging flames began to burn in the city of Ruhr. In just ten or twenty minutes, Ruhr was transformed from the most suitable city for human habitation into a **** on earth.

The onlookers on the city wall were shocked again.

They had long thought that the fierce martial artist would not surrender so easily, and they also believed that the fierce martial artist should still have the strength to show off, but what they didn't expect was that the fierce martial artist was also so fierce.

This simple slash turned the area of thousands of square meters into a sea of flames in an instant. From this momentum, the Fierce Warrior and Li Tian are almost the same.

The flame of the fierce warrior also has the ability to continue to burn, it seems that the destructive power of the fierce warrior is more powerful.

Those onlookers on the lower city wall were even more fortunate. If they hadn't ran to this city wall, it wouldn't have been a matter of corpses all over the country. Maybe even the corpse would be burned to ashes by the flame.

The visual impact was too strong, and it took a long time for these people to talk in a low voice, and they were not as optimistic as before.

Li Tian is powerful, but it seems that the fierce martial artist is not bad.

And the guy with the swollen nose and swollen face who was beaten just now didn't dare to brag about the fierce martial artist, and said with a swollen mouth: "Don't worry, this fierce martial artist is powerful, but it seems to be a little worse than Li Tian. You think, this The second was the attack by the fierce martial artist. Li Tian hurriedly challenged to resolve it. In this way, Li Tian was also intact. However, when Li Tian attacked just now, the fierce martial artist evaded and did not dare to fight. So..."

The man's voice hadn't died yet, and seven or eight people jumped out and beat him again.

"Oh, why are you hitting me again!"

"Asshole, you said that you are not the spy of the fierce warrior, so you called Master Li Tian by the name! Give me a call!"

Behind Li Tian, Situ Ningbing and the others rushed to the edge of the city wall quickly, and the figure leaped on the steps to reach the wall.

"It's so dangerous. Fortunately, Li Tian has just resolved part of the attack of the fierce warrior, otherwise the Flame Slash will definitely fly straight towards us. I am afraid we will be in danger by then!" Xue Ji said.

Duanmu Ying and Bai Jing nodded at the same time.

"I didn't expect that the fierce warrior didn't use his full strength yesterday. It seems that we were indeed the frog at the bottom of the well before. I really thought that we were already on the pinnacle of this world." Duanmu Ying said with lingering fear.

"The only person who can subdue the fierce warriors in the entire Dongying Island country is probably only Brother Tian. Now it's up to Brother Tian to behave!" Bai Jing said with some worry.

After Li Tian and the fierce warriors began to fight, the residents of Ruhr Island City could escape to the wall and all of them fled to the wall. Those who could escape to the outside of the city had all fled outside the city, like members of the heavens and the wind. The members of the Ginbei Ninja organization consciously assumed the evacuation management function.

Of course, the severely wounded Ginbei Kazama was also carried to the wall by the ninjas and began to receive Windsor treatment.

Now, in the entire urban area of Ruhr Island City, except for the corpse, Li Tian and the fierce warrior, there is no longer a living person. The battle between these two people has completely entered a white-hot state.

"boom!"

A dozen purple electric snakes blasted out, and a large area of houses collapsed instantly.

"Huh!"

A fiery flame flew out, and the collapsed houses instantly turned into a sea of flames.

The figures of Li Tian and the fierce warrior kept flying around in the sea of fire. The two of them met each other for a moment and no one could do anything about it, and those buildings seemed to have become the vent of the two. The ground was destroyed.

In the scorching sun, from the early morning to noon, their attacks gradually began to weaken. At this time, it's up to who can stick to the end!

"Huh!"

Li Tian's figure flashed, and the flames that had escaped the fierce martial artist fell on the hot ground, and he suddenly turned around and stabbed the fierce martial artist back.

The fierce martial artist suddenly laughed and said: "Li Tian, are you at your limit? Hahaha, let my fierce martial artist's strongest blow come and send you to the west!"

Chapter 4062: Strongest blow

limit?

Li Tian sneered.

From the night before yesterday to today's battle, Li Tian's body is indeed very exhausted, and the spiritual energy in Li Tian's body veins is also consumed very quickly. At this time, the water level in Li Tian's atrium pond has dropped very sharply. The roots of the Nine-Colored Corpse Lotus were already exposed.

But this is not Li Tian's limit.

Li Tian has one heart and three uses, and he can practice while fighting, so at this time the water in Li Tian's veins is full. If the water in the veins is injected into the pond, Li Tian can still use it at least twice. Seven seven forty-nine purple electric snakes attacked.

At this time, the fierce warrior quickly retreated more than ten meters, and slammed the long knife in his hand into a wound on his hand. The blood was stained on the long knife, and the blood instantly turned into a dark red flame. It contrasted with the color of the armor on the fierce martial artist, and it seemed that the fierce martial artist was very strange.

"Hahaha, I know that all people are full of disdain for me calling myself a god, thinking I am an arrogant guy. But now I want to let you know why I call myself a god!"

"I see it, it's because the blood of my body is flowing with the will and power of God. This blood can make me stronger again when I'm exhausted, and the strength to recover!"

"Now, since we fought in the morning until now, the abilities in my body have been exhausted. Although you Li Tian is extremely controlling the consumption of energy, I am afraid that you have reached the limit at this time! And me? Hahaha, I use After this blood power, I have reached the peak again."

"You are the first person who can force me to use the strongest move. Now I will dedicate the strongest attack to you, let your Li Tian die, let your Li Tian's head and blood become my Oda Nobunaga's stepping stone to dominate Dongying! Let me chop off your head while these thousands of people kneel down, and formally set foot on the seat of the Lord God!"

As he said, the flames on the fierce martial artist's whole body seemed to have been poured with some gasoline. The flames slammed up, and at this moment, a whole piece of powerful pressure suddenly fell in the sky, and this pressure instantly turned the wheel. In the entire city of Ruhr, even the residents on the wall can feel this pressure.

And the strong part of this coercion is that he can put pressure based on the strength of the attacker's own strength, so in an instant, thousands of people on the entire wall were shivered by this coercive pressure, and after a while, one after another. Kneel down. Even strong men like Duanmuying and Situ Ningbing were not immune, all of them knelt on the face of the city wall.

Seeing the people worshipping, the fierce warrior was already overjoyed, and said with a wild smile: "Li Tian, see if you don't see it, this is the power of gods. I discovered this when I was worshipped by many gods and Buddhas more than four hundred years ago. Strength. Unfortunately at that time, although I was the most powerful man in Dongying Island, my personal strength was really insignificant, and at that time I was determined to pursue absolute personal strength."

"Now I have done it, you are the only one left for the entire Ruhr Island! You kneel down for me!" said the fierce warrior Oda Nobunaga. His eyes suddenly stared, the powerful pressure that was exerted on Li Tian just now. It aggravated again in an instant, even though Li Tian was already trying his best to resist, but the pressure still made Li Tian feel difficult to support.

Li Tian's two legs were trembling constantly, and the muscles on his legs had begun to crack somewhat, and blood continued to spill out along the wounds on the skin armor.

The blood was flowing like that, and Li Tian looked terrible.

Li Tian is now at the fifth level and less than the sixth level. He only knows that the grasp of the importance of the practitioners of this realm can accurately fall on everyone, but the current fierce martial artist is the same as Li Tian understands. It's a little different.

Could it be that the strength of the current fierce warrior has reached the sixth level or more

Could it be that this weight is the power that can be displayed by the practitioners above the sixth floor?

"Puff!"

Li Tian finally knelt in front of the fierce martial artist. Had it not been for the Heavenly Qiong Spear in his hand that had begun to release a kind of energy at this time, Li Tian would have completely lost his resistance.

The fierce warrior's expression was relaxed, he waved the long knife in his hand casually, and the flames on his body had gathered sharply on the long knife with his waving.

The fierce warrior squatted with his legs spread out to make a movement similar to a squat, while his right shoulder leaned back slightly, holding the handle of the long knife with both hands.

As if it was a charge, the fierce martial artist would slash at any time, displaying his strongest flame slash.

"Master Li Tian, I will send you into my space, so he can't do anything with you!" Xukong Yasha said anxiously.

The Dixing Yasha had been building earth walls in front of Li Tian, trying to block the attack of the fierce warriors, but these earth walls could not be piled up under the pressure of coercion.

"Master Li Tian, I'll drag you into the ground, and he can't help you with the earth escape technique!" Di Xing Yasha also said anxiously.

It has been a long time since Li Tian was forced to be so embarrassed. Li Tian's heart was full of unwillingness. The "Red Slash" sword spirit was full of unwillingness. Even the Qiong Spear of Heaven in Li Tian's hand seemed to be full of unwillingness.

"No! I won't hide!"

"Can't hide, I won't hide either!"

"Even if I will die this time, I will face death upright. This is me, Li Tian!"

Li Tian's whole body muscles were trembling, and blood was flowing faster, but Li Tian was trembling at this critical juncture and wanted to stand up from his knees.

Just like a weightlifter, Li Tian looked like he was carrying a huge weight of ten thousand catties, no matter the blood flowing, his body was bruised and bruised.

"Hey!"

Seventy-seven forty-nine purple electric snakes emerged from Li Tian's body and wandered on the surface of Li Tian's body non-stop, and Li Tian felt his body's strength gradually increase.

Trembling and swaying.

Although Li Tian's legs were shaking, although they were still perfect, he was no longer kneeling.

The expression on the fierce warrior's face changed. The "Zhong" he displayed was more focused on Li Tian alone, but the Zong displayed by Li Tian at the same time seemed to be a little cocoon, eroding his "Zhong" advantage little by little.

At this time, the onlookers on the city wall found that the coercion on them gradually weakened, and more and more people had slowly stood up.

"Master Li Tian, come on!"

I don't know who said such a sentence in a low voice, and this sentence detonated the entire Ruhr Island in an instant like a fuse. Thousands of people started shouting at the same time to cheer for Li Tian.

The fierce fighter felt that the situation was developing in an uncontrollable direction, and said in a low voice: "Can't wait!"

"drink!"

The fierce martial artist suddenly screamed, and with this violent cry, the fierce martial artist slashed his long knife violently, and a blazing flame with a height of more than 100 meters and a width of more than ten meters galloped toward Li Tian.

Chapter 4063: Is Li Tian dead?

The Flame Slash galloped past and swallowed Li Tian in an instant.

The Yuwei of Flame Slash flattened the buildings within a kilometer in front of the fierce warrior. After the Flame Slash, there was a gully in front of the place where Li Tian was standing just now. Li Tian's figure disappeared.

Is Li Tian dead?

After the fierce martial artist did not find Li Tian's figure, his mouth finally showed a smug smile.

"Li Tian, I won!"

"Although you are strong, but I won!"

The strength of the fierce martial artist's whole body seemed to have been emptied even more, his body was weak and weak, the scarlet long knife in his hand also fell unsteadily to the ground, and then the fierce martial artist fell heavily and lay flat on the ground.

Thousands of onlookers on the city wall couldn't believe what was in front of them, and they kept looking for Li Tian among the ruins in the city of Ruhr.

"No, Li Tian will definitely not die!"

Many residents have this idea in their hearts, but their sights have been scanned wherever they can be found, but Li Tian has not been seen.

"Has Li Tian been cut to ashes by the flames?"

Suddenly someone had such a bad idea in his mind, and with this idea, the person's body began to tremble a little, he couldn't imagine what the Ruhr Island would be like if Li Tian died.

On the wall of the city gate, Ouyang Man and Tang Xiaolong looked at each other and saw faint worry in the eyes of both of them.

This time the battle was different from any previous one. No matter what, the opponents this time did not seem to lose to Li Tian, and even stronger than Li Tian in many cases.

"Little... Little boss will be fine, right?" Tang Xiaolong said with a trembling voice.

Ouyang Man shook his head slightly, and said, "I don't know, it should be fine. Brother Tian also said that he would strip the fierce warrior to avenge me!"

Windsor stood up and looked at the burning flames in the urban area of Ruhr Island. His heart was suddenly tight, and even Windsor was still thinking about it, even if Li Tian was seriously injured at this time. She is in Windsor, she can definitely heal Li Tian.

Windsor clenched her fists, punched Ouyang Man's back hard and whispered, "God, you must be fine!"

On the other side of the city wall, Situ Ningbing, Xueji, Duanmuying, Bai Jing, and Li Tian's four women looked at the scene in front of them dumbfounded, completely at a loss.

Just now, the four of them watched Li Tian slashed out by the fierce martial artist's flames, and when Li Tian flew out a few hundred meters, Li Tian's body disappeared like a stream of light.

"Did Brother Tian use teleport to hide in the space of Void Yasha?" Bai Jing asked.

Situ Ningbing shook his head and said, "How many times have we seen Li's teleportation, but this time it obviously feels a bit different from teleportation, but I can't tell the specific difference for a while."

"No, Li Tian will definitely not have an accident!" Duanmuying whispered to herself, touching her bulging belly.

No one wants Li Tian to have an accident, and no one believes that Li Tian will have an accident, but Li Tian seems to have disappeared out of thin air.

Time is running off, and I don't know how long it has been. It may be one hour or two hours, but Li Tian has never appeared.

Uneasy emotions gradually began to fill the sky above the city of Ruhr.

Those residents already had bad thoughts in their hearts, they were looking at Situ Ningbing and the look of the others had begun to change.

Gradually, some residents began to subconsciously move their feet to distance themselves from Situ Ningbing and the others. Just now, Abe Spring Wolf was still crowded with people, but at this time there was no one. Everyone kept a few meters away from him.

Some residents have already started to walk down the city wall slowly, and walked out in the direction of the city gate following the roots of the city wall without turning back.

If Li Tian is defeated, at least they still have hope, but if Li Tian is dead, then all hopes will be shattered.

As for the residents of Ruhr Island City, although Li Tian treated them well, and the Celestial Realm took special care of them and these residents, it is now over after all. If the fierce warrior becomes the master of the West Jiuzhou Island, who Knowing whether it is good or bad to stay in Ruhr City.

It's better to leave the city of Ruhr for now and make plans when everything is settled.

In the last days, human life is sometimes more important than anything.

The fierce martial artist was exhausted and blocked the ground. He didn't move for more than an hour, as if he was dead, but no one dared to go up and see.

They all have a worry in their hearts, that is, the fierce martial artist may just be too tired and just taking a break. If anyone does not have long eyes to touch the fierce martial artist's mold, he can easily kill the fierce martial artist as long as he can move. Drop them.

Situ Ningbing waited for a long time, and her heart became more and more disturbed.

"No, I'm going down to find Li!" Situ Ningbing said.

Duanmuying took a step forward and said, "I will follow you too!"

"And I!"

"I also need to go!"

Xue Ji and Bai Jing also said one after another.

The four women glanced at each other, and they all saw perseverance and courage from each other's faces. At this time, the four women were pitying each other with the same illness, and there was no reason for them to advance together and retreat together.

Looking into the distance, seeing Situ Ningbing and others slowly walking down the city wall, Tang Xiaolong jumped up abruptly. His wound was a little painful because of this jump, but Tang Xiaolong didn't even hum. Scream.

"Lily! The fierce warrior may be exhausted now. I will kill the fierce warrior. If... if I can come back, then I will take the first level of the fierce warrior as a gift of love, and I will marry you ! If I can't come back by that time, then you can follow Duanmuying and others and go back to China soon!" Tang Xiaolong said.

Tang Xiaolong and Lily have established a relationship, but Tang Xiaolong has never said a sweet word, but these words have moved Lily's heart.

"I'll go with you!" Lily drew a soft whip and said to Tang Xiaolong.

But at this moment, there was a commotion on the wall of the city, and the residents pointed to the city in surprise.

"Is it the little boss?"

Tang Xiaolong turned his head and looked into the city, but saw that the fierce warrior had stood up swayingly at this time. He leaned over and picked up the long knife that fell on the ground, stuck the long knife in front of him, and then turned it around. The circle of sight slowly swept across the surrounding city walls.

"Hahaha, Li Tian is dead, I have won! I now officially declare that this Eastern island country is the world of my fierce warriors! And you people, if you don't want to die, from now on, you must believe in Oda Nobunaga. God!"

Chapter 4064: Kill

After the fierce warrior fought with Li Tian, his aura seemed to be stronger. These short words resounded like thunder in the sky over the city of Ruhr.

Although Ouyang Man is a zombie, he is also emotional.

Li Tian's disappearance has already made several in his heart upset. Now, looking at the brutal warrior's arrogant appearance, Ouyang Man only feels the awkwardness in his heart, and doesn't want to see the brutal warrior's villain.

Ouyang Man looked up at the sky. Suddenly Ouyang Man seemed to see something in the sky, and said in surprise: "Look at it, what is that little black spot in the sky?"

Following the direction of Ouyang Man's finger, Tang Xiaolong and the others also saw the black spot in the sky, which was hovering in the sky at this time.

Tang Xiaolong excitedly picked up Lily and kissed Lily's face heavily: "Feitian Yasha! It's Feitian Yasha! Feitian Yasha is still alive! Brother Tian is not dead!"

Care is chaos!

After Li Tian disappeared, everyone's attention was focused on the ground, completely forgetting the Feitian Yasha in the sky that served as Li Tian's eyes.

The three Xiaoyachas, Void, Dixing, and Feitian, and Li Tian have a contract with Li Tian. If Li Tian has any accident, then the three of them may have disappeared now.

At this time Feitian Yasha has soared into the sky, which means that Li Tian is definitely not dead.

But where is Li Tian now?

If Feitian Yasha could fly down, it might be able to solve the mystery, but Feitian Yasha did not do so. What's the reason for this?

The fierce warrior lay on the ground for more than an hour. Although his body was exhausted, he had already recovered a bit of strength. After he shouted out that domineering word, most of the residents of Ruhr Island were at a loss. But there are also small groups of residents who are still walking along the city wall at this time, trying to escape from the city gate.

The fierce warrior sneered and said: "You dare to take the words of your lord ***** as deaf ears. It's really killing you. Now let you try God's sanction!"

There was a sudden pressure in the sky, and the residents of Ruhr Island who were trying to escape were completely suppressed in place, and the fierce warrior coldly lifted a long knife and rushed over to chop melons and vegetables. They beheaded.

There was no suspense at all, it was as simple as crushing ants to death. The fierce warrior completely ignored the pleading of the frightened residents, and soon beheaded nearly a hundred residents.

"This is God's sanction! This is the fate of Oda Nobunaga who doesn't believe in me!"

"From today onwards, I want to have my temple in every city, and my shrine in every household, and every person must wear my magic card. From now on, the East Island country has only A god!"

"That's Ori... Tian... Nobun... Long...!"

The helpless residents of Ruhr Island did not know who to call for help at this time, and their hearts were full of anger at the demon of the fierce warrior. Many residents secretly prayed in their hearts that a ***** would descend from the sky to kill the demon of the fierce warrior.

It's as if at the beginning of the last days they prayed for a panacea to relieve the crisis of losing the virus.

But at this moment, the clouds in the sky gradually became gloomy, and there was a feeling that the mountains and rain were about to come and be full of wind. Suddenly, the land of Ruhr Island City shook suddenly, as if there was a major earthquake.

And as the earth shook, a spear rose up from the ground, and a faint soft light gleamed on the spear of the day. This light was not dazzling at all, but it made everyone feel warm.

"The spear of heaven! It's the spear of heaven!"

Tang Xiaolong pointed to the Qiong Spear of the sky with some excitement and said to Lily.

The four women who came down from the wall to look for Li Tian also saw the Qiong Spear of the Sky.

After seeing Qiong Spear of the Sky, their nervous faces finally showed a slight smile, and at this time they began to laugh at each other for being too worried about Li Tian, and had completely forgotten how anxious they were just now.

"Huh!"

A figure flew out from the spear of that day like a light particle. There was no change in the appearance of this person's clothes, but the whole person was bathed in this faint soft light, giving people an indescribable comfort. a feeling of.

The fierce warrior couldn't believe his eyes when he saw Li Tian. He rubbed his eyes vigorously before confirming that the person in front of him was indeed Li Tian.

"Li Tian, you unexpectedly..."

"It's not dead! It's a long way from your fierce warrior who wants to kill me!" Li Tian said.

"Impossible! I just used the divine power to attack you, how could you possibly be able to withstand my strongest blow?"

Li Tian sneered, and shook the Qiong Spear of the sky tightly, and said, "Divine power? Then let me tell you what is real divine power!"

The faint soft light on the Qiong Lance that day began to gradually condense on the tip of the Qiong Spear of the sky. The soft light was meaningless murderous, but the soft light was full of energy fluctuations.

This energy fluctuation is a bit more powerful than the weight released by the fierce warrior Oda Nobunaga, and a bit more powerful than the fierce warrior using his blood as fuel for burning.

Probably, only Li Tianqi and forty-nine purple electric snakes attack at the same time, they can only match the energy in this soft light!

When Li Tian said that sentence, his body had already begun to move slowly, as if he were walking leisurely in his back garden, but Li Tian's strides were enormous.

In the middle of a stroll in the idle court or with a teleportation, Li Tian and the fierce martial artist were a kilometer away, and Li Tian had already arrived in front of him in ten seconds.

The fierce warrior once again lifted the long knife and slammed a knife in his palm, again borrowing the power in his blood to start burning the long knife in his hand.

And at this moment, a coercion suddenly descended from the sky. This coercion was much stronger than all the pressures suffered by the fierce fighters before. All the resistance made by the fierce fighters seemed to be under this pressure. Is useless.

The fierce warrior's face finally showed panic, the feeling now was like the feeling he had with Ouyang Man last night.

He is powerless to resist and has nowhere to hide.

"Puff!"

The fierce warrior knelt down in front of Li Tian with soft knees.

"Impossible, Li Tian's strength is not as good as mine. Why do you suddenly possess this amount?"

Li Tian took another step forward gently, pulling out a spear from the Qiong Spear of the Sky, and said with a sneer, "You should have heard of the Qiong Spear of the Sky!"

"Is it in your hand?" The fierce warrior's eyes were full of shock.

no answer.

Li Tian's mouth showed a hint of coldness and said: "I promised Ouyang Man to peel off your skin to avenge him, now let's start!"

"Huh!"

The Qiong Spear of the sky slammed forward, and even the flesh and blood picked up a piece of armor on the fierce warrior.

Chapter 4065: Healing

In this way, the strongest male fierce warrior of the East Ying Island nation was tortured to death by Li Tian with a piece of armor and flesh. ,

In the process, Li Tian had ordered Dixing Yasha and Hai Yasha to use their abilities to extinguish the flames in Ruhr Island City.

The battle is over and there is no winner.

Li Tian won the battle, but Ouyang Man was seriously injured and Kazama Silver Guard was seriously injured. The entire city of Ruhr was miserable. More than half of the buildings in the city were in ruins, and nearly a thousand residents were killed and injured.

The city of Ruhr, managed by Li Tian and Duanmuying, was almost destroyed.

The prosperity of the people suffers, and the death of the people suffers.

Now Li Tian fully realized the chill of this sentence.

For these ordinary residents, they just want to live a stable life. As for who the ruler is really that important?

The death of the fierce warrior only made the residents of Ruhr Island triumphant and cheered for a while, and then fell into sorrow.

The house collapsed, the living materials were destroyed, and relatives and friends were killed. They really couldn't find any reason to cheer. An atmosphere of sadness filled the sky over the city of Ruhr.

The problem of the collapse of the house is temporarily solved. It is September after all. The night in Ruhr is not so cold. As long as it doesn't rain and a bonfire is put on, it will pass, but what about the food?

Adults are hungry for one or two meals, but those children are not good, as long as they are a little hungry, they will groan, and if they are very hungry, they can directly sacrifice their big killer and directly cry.

Seeing the residents gather in twos and threes, looking for suitable food and objects in the ruins, Li Tian felt very uncomfortable.

People are injured and need to heal, and the same is true when this city is injured. At this time, there is an urgent need for something worth celebrating to boost everyone's morale.

The Otsuka Kuangren and zombie virus antidote reagents in Li Tian's Void Yaksha space may be able to play such an effect, but if it is said now, this effect will be greatly reduced. Li Tian needs a miracle.

"Abe Haruwolf, immediately take your people to take all the residents of Ruhr Island City temporarily away from the city of Ruhr Island, camp outside the city walls, and start to count how many residents and wounded people there are in Ruhr Island City. How many children and women, I want accurate data!"

"Liu Guoqiang, Liu Sen, your soldiers with the Cangshan ship transported all the food we stored in the Cangshan ship, and began to distribute things and living supplies evenly according to the head. If anyone dares to **** it and kill it!"

"Windsor, the medical team with the Cangshan ship set up a fixed medical point outside the city wall of Ruhr, and began to treat all the wounded for free. It may be very hard, but I want you to persevere."

"Flying Yasha, Mutant Crow, Little Tianyi, I order you to take the mutant bat squadron along Ruhr Island Bay to look for Yang Guo, and after finding him, take him to Kirishima City and Southern Shikoku Island to raise food."

"Haiyasha, I know that this sea is just like your own home. I want you to use your ability to catch some fish in the nearby sea. It is best to use a special method to make the residents of Ruhr Island feel this. It's a miracle!"

Orders were continuously issued in Li Tian's mouth, and everyone after taking the order began to act.

At this time Li Tian has become completely different from before. Whoever sees Li Tian now feels that Li Tian is worth relying on, as if there is no obstacle to overcome as long as he follows Li Tian.

Duanmuying, Situ Ningbing, Xueji and Bai Jing surrounded Li Tian and asked, "Then what about us? What can we do?"

"Although I beheaded the warriors, the news that the warriors control the Ruhr Island City may have spread from here yesterday. I am worried that the city lord or the legion of other cities may have other ideas, so I need you every Ten ninjas of Ginbei Kazama each went in one direction to spread the news that the murderous warrior had been killed by me."

"Bai Jing, I want you to take Kobi and Shen Tao, and I can rest assured to have them by your side. Duanmuying, you may be inconvenient if you are pregnant, or you don't go..."

"No, everyone is working hard now, how can I be lazy on the side because I'm pregnant?" Duanmuying said firmly.

Li Tian did not reluctantly, the function agreed.

Li Tian brought the Void Spirits and the Dixing Yacha to the wall, looking at the ruined city of Ruhr Island, Li Tian said to the Void and the Dixing Yacha: "This city should have been the entire post-apocalyptic city. West Jiuzhou Island is the most prosperous and most suitable city for humans to live in, but it has now become a ruin. I know that the residents of Ruhr Island City don't say anything, but I can feel their pessimism!"

"Master Li Tian, do you just say what we need to do? I still have the ability to go Yaksha to turn the ground and big rocks, but the Void Spirit Race is more specialized in architecture." Dixing Yaksha said.

The Void Spirit Race is like a ghost of the ghost, floating in front of Li Tian and then said: "Lord Li Tian, you can arrange it, let alone the restoration of Ruhr Island City based on our Void Spirit Race's skills. It looks good, even if it is to create a sky garden, it is not impossible!"

Li Tian nodded and said, "What I want is your words. After seeing the ancient underwater city, I am obsessed with the buildings of the ancient underwater city. I want you to build Ruhr Island into another ancient underwater city. , But it can't be exactly the same."

Said that Li Tian took out the paper and pen, and drew the outline of what he needed on the paper. Li Tian knew that the building skills of these virtual spirit tribes were absolutely nothing to say, but if they were built completely according to the ancient underwater city, this The ancient city may not be suitable for people to live in now.

For example, if a high-rise building is constructed without an elevator, ordinary residents cannot live in it!

"So you know, I want to build a tower over 300 meters high in the city center of Ruhr Island. Standing on this tower, you can get a bird's eye view of the entire city of Ruhr Island. The surrounding buildings will be built in the same way as the ancient city, but the buildings in the city of Ruhr cannot exceed six stories!"

Li Tian wants to build Ruhr Island into a real paradise and dream home on earth.

"Then what are you waiting for? Let's do it now!" Dixing Yasha said.

Li Tian said quickly: "No, I want you to do it again this evening. You only have one night. I want them to see this city tomorrow morning. I need to give them a miracle!"

Chapter 4067: Miracle (2)

The early morning light has not yet shone on the city walls of Ruhr Island. The residents of Ruhr Island have already woken up. Even the sleepiest children can't wait to get dressed and stand in front of their parents. There is only one purpose for waking up so early, and that is to look at the so-called miracle of heaven.

At this time, the work of the Void Spirit Race and the Earth Xing Yasha was almost over. What they are doing now is to use the huge stone slabs to show their faces. Of course, these tasks are not challenging for the Void Spirit Race.

The genius was overwhelming, but all the residents of Ruhr Island City were stunned to see all the residents of Ruhr Island City that rose up from the ground overnight. At this time, the expressions on their faces were both surprise and excitement.

When the last stone slab of the Xuling tribe was laid, it happened to be when the first morning light shone on the tower in the center of Ruhr City. The golden sunlight shone on the tower with the main white color, making it appear tall and tall. Mystery is grand.

As the light shifted, the entire city of Ruhr was fully revealed in front of everyone.

The city of Ruhr at this time is completely different from yesterday. All the houses are neat and tidy, and the streets are wide enough to pass twelve cars at the same time and are spotless.

The residents of Ruhr Island immediately ignited.

Without Li Tian's greetings, these people screamed excitedly and poured into the city.

Some people rushed directly to the high tower in the middle of the city and looked up at the huge tower with a height of more than three to four hundred meters, wanting to get a closer look at the tower.

Some people rushed into those buildings, carefully stroked the walls of those buildings, and carefully felt the extraordinary craftsmanship of these buildings.

But more people ran up to the city wall and stood beside Li Tian and followed Li Tian to look far away, taking in the scenery of Ruhr Island.

"A miracle! This is a miracle!"

An old man in his 60s and 70s knelt down on the wide street and kissed the road with his mouth. At this time, the old man was already in tears.

"It's a miracle! This is definitely a miracle! Except for the gods, I really can't think of anyone who can build such a big city overnight." The old man agreed.

"No, you are all wrong. This is not a miracle or what the gods did. It must be done by Lord Li Tian! If you want to bow down, then you should bow down to Lord Li Tian!"

The old man stood up, wiped away his tears, and said firmly: "Lord Li Tian is a god! I want to find Master Li Tian to kneel down in front of him! "

...

Li Tian has never claimed to be a ***** like a fierce warrior, but what he has done has convinced the residents of Ruhr Island that he is a god.

For this kind of worship, Li Tianran accepted.

Since ancient times, deification of oneself has always been one of the common methods used by rulers. If Li Tian wants to allow Dongying Island to accept the management and rule of the heavens with all his heart, then he must let them believe in himself and believe in himself with the members of the heavens.

Of course, for the Chinese nation, there is another most important method, that is Tonghua, just like those ethnic minorities in history have become rulers, although they all want to maintain their nobility and have taken various measures. But the final result was that they were all Tonghua by the Chinese nation.

Li Tian felt that the time was almost ripe, he coughed softly, and shouted: "Everyone..."

This voice reverberated continuously over the city of Ruhr. All the residents stopped and looked at Li Tian who was standing on the wall with admiring eyes.

"Everyone, this Ruhr Island City is a gift from the heavens to make up for our compensation for slaying the devil and the fierce warrior yesterday. This Ruhr Island City belongs to my Li Tian and belongs to our heavenly realm, but also to you all. Yes. Members of the Celestial Realm will perform statistics on you one by one, and then allocate your residences according to the statistical results.

In fact, when seeing the buildings in this city, everyone had already thought that there would definitely be their own residence, but when they heard Li Tian's words in person, they were still full of excitement.

Although the area of the new Ruhr Island City built by the Ethereal Tribe is not small, it can hold about 100,000 people at most, and now there are about 10,000 residents in the Ruhr Island City, so there are still many places to meet Was vacated.

However, Li Tian knows that after the end of the end times, it will last for ten years or even three to five years. At that time, the city of Ruhr, as the headquarters of the heavens, will inevitably attract many people to settle down. It has become another tourist attraction in Dongying Island, so Li Tian will give these areas to the heavens to control them, and maybe they can be used for commercial purposes.

Of course, in the future, the entire Dongying island nation

"Also, I need to introduce a person to everyone. This person can be said to be the hero of the East Island country, the hero of all mankind, Otsuka Marina!"

With that said, Li Tian brought the Otsuka Kuangren from the space of the Void Yasha. Otsuka Kuangren was a zombie who had been injected with the antidote to the zombie virus, so he was not much different from humans under normal circumstances.

"Otsuka Marina? Is that the Otsuka who won the Nobel Prize?"

Li Tian nodded and continued to say: "He is now developing a zombie virus antidote reagent and has achieved initial success. It will not take long..."

Li Tian hadn't finished speaking, everyone was stunned, this time it was really stunned.

"I... I heard you right? The antidote to the zombie virus? So... does that mean that the end times is finally over?"

"The antidote to the zombie virus, the apocalyptic era is finally... finally over!"

At this time, some people started to laugh and some people started to cry, but whether it was joy or crying, tears of joy flowed on their faces.

"It's finally over, and finally don't have that fearful life!"

These people are completely boiling, they hug and kiss each other and high-five each other.

However, people laughed and someone started to cry again.

"If this potion could be developed sooner, my son would not die!"

"in case....."

There is not so much in life. If Li Tian hadn't met Situ Ningbing at the beginning, Li Tian would not leave Liaocheng, and there would not be so many things happening later, and the Three Corpses would not escape from the gate of the restricted area. After coming out, maybe there will be no end-time crisis.

But now, this apocalyptic era is finally coming to an end.

"Mr. Otsuka, have you seen their expressions? Their sorrows and joys are in your hands, so you must speed up the research progress. Tomorrow I will personally send you to the Zombie Research Institute on Southern Shikoku Island, where are they? Everything you need!" Li Tian said.

A sense of responsibility of the people of Otsuka Marina emerged spontaneously. He clicked a little and said: "Seeing that you have to speed up research!"

At this moment, someone suddenly shouted: "No, there are many ninjas coming in this direction, okay...it seems to be Iga ninja!"

Chapter 4068: Personality Guarantee

In addition to Iga Ninjas who came to Ruhr Island City, there are Koka Ninjas.

However, there are not many people from these two ninja organizations. Among them, there are about a dozen people from the Iga ninja organization, and the Koka ninja organization includes four or five people, including Sasuke Sasuke.

These ninjas stopped when they came to Ruhr Island, which was nearly 100 meters away from the city wall. They looked up at the white pagoda with a height of more than three to four hundred meters and were shocked by the majestic building. Speechless.

Many of these ninjas had never been to Ruhr Island before the end of the world, but they dared to guarantee that this white tower with a height of more than three or four hundred meters was definitely not a work before the end of the world.

Of course, some ninjas secretly came to perform missions when the sky clump in the belly of the apocalypse controlled the city of Ruhr, and they have never heard of any towers in the city of Ruhr.

So the only explanation is that this is a building built after Li Tian occupied the city of Ruhr.

When they cared about the tower, they were more concerned about a question, that is, where did the fierce warrior go?

Fujiwara Qianji looked at Sarutobi Sasuke beside him and said, "How about? Now you believe what I said? You see, Ruhr Island is safe and sound, I am afraid that the martial artist has been beaten away by Li Tian!"

Sasuke Sarutobi flashed a look of surprise on his face, nodded and said, "When I saw Li Tian in Okayama City, I knew I was not Li Tian's opponent, but at that time I was still wondering whether Li Tian could Conquer the fierce warrior, but now it seems that my suspicion is superfluous! I would like to bet and lose, I am willing to follow you to join Li Tian!"

When he was in Okayama City the day before yesterday, Sasuke Sarutobi witnessed the whole process of Li Tian beheading the abdomen. He knew he was not Li Tian's opponent. At that time Sasuke Sasuke was thinking about where the Koga Ninja should go in the future. .

He also thought about competing with Li Tian and the fierce warrior, but this idea flashed past. The Iga Ninja Organization is the best example, and Sasuke Sasuke is very self-aware.

After smashing away the remaining three men and women, Sarutobi Sasuke made a decision, a decision that would best preserve the overall strength of the Koga Ninja, and that is to see who will be the last Li Tian and the fierce fighter this time. The winner, and he only needs to rely on the winner.

When Li Tian saw the banner of the Koga Ninja, he was very surprised, and he was relieved when he thought about it.

Li Tian jumped down from the city wall with a leap, using the teleportation of the Void Yasha and the twinkling of the mutant crow Li Tian's figure, he had already arrived under the city wall.

"Why are you Iga and Koga Ninja together?" Li Tian asked.

Fujiwara Chiji came to Li Tian and said, "I met on the road. After returning to the Iga Ninja headquarters, I took control of the current Iga Ninja Organization, and then led a dozen core confidant ninjas here. "

"I met Sasuke Sasuke on the road. He said that when he met Li Tian in Okayama City, he knew that he was not your opponent, so he didn't want to be your enemy and wanted to turn you into a jade silk."

Sasuke Sarutobi walked a few steps forward and half kneeled in front of Li Tian, and raised his copper rod with both hands above his head and said, "Master Li Tian, the Koga Ninja Organization leads the crowd to come down. I hope Master Li Tian can ignore it. Hate."

"Chief Sarutobi, your wishful thinking is good? You are leading the crowd to surrender, but you are here to surrender me. Li Tian or a fierce warrior. I am afraid that you will not invite you out before coming to Ruhr Island City! "Li Tian said with a sneer on the corner of his mouth.

Sasuke Sarutobi did not have the slightest panic on his face, and looked up at Li Tian and said, "Yes! Before coming, I made a bet with Fujiwara Chiji. The bet is whether you can retreat under the attack of the martial artist this time. , And the bet is our two ninja organizations. Now I know that the fierce warrior has lost, so I am willing to bet to surrender, willing to submit to the heavens, willing to submit to you, Li Tian!"

"Chief Sarufei counts you as acquaintance, the fierce martial artist did not lose but died! From now on there will be no such a fierce martial artist in this world!" Li Tian said.

Li Tian said lightly, but all the ninjas present were completely shocked. They couldn't believe that the strongest warrior of the Eastern Island Kingdom had died.

Li Tian went on to say: "The fierce warrior is dead, and the Iga Ninja organization exists in name only. The Koga Ninja is the only one who can pose a little threat to our heaven on the entire Toyo Island."

"Don't worry, my lord, since Sasuke Sasuke Sasuke is here, it means that we don't want to be an enemy of the Celestial Organization. If I am willing to return, it means that our Koga Ninja Organization will not pose any threat to the Celestial World." Explained quickly.

Nonsense, now that even the fierce warriors have failed, would Sarutobi Sasuke still be foolishly against Li Tian?

"What do you guarantee?"

Sasuke Sasuke lowered his head and thought for a long time and said, "I pledge my personality of Sasuke Sasuke!"

"Chief Sarutobi, if I didn't guess wrong, you might have thought of a few retreats for yourself before you came here. The first is to surrender the fierce warrior and my winner. If this path fails, you Koga Ninja Will the organization go south to the nearby islands and occupy several islands like the dark ninja organization of Zhongtong Island and wait for opportunities?" Li Tian said.

Sasuke Sarutobi's face was full of surprised expressions, and his voice tremblingly said, "You...how do you know!"

This is of course Li Tian guessed.

And this kind of speculation is based on empathy. For example, if Li Tian fights a fierce warrior this time, if Li Tian fails, then Li Tian will definitely take his people back to South Siguo Island. Then painstakingly waited for the opportunity to fight the fierce martial artist again.

"So your personality guarantee has no effect. I believe in soul detention more than personality guarantees! It depends on whether you Sasuke Sasuke is willing to become my servant Li Tian like Chiji Fujiwara and Ginbei Kazama!" Li Tian said with a sneer.

At this time Sasuke Sarutobi has no choice. If he chooses not to, then Li Tian will inevitably behead him, and the Koga Ninja Organization will be completely wiped out by Li Tian in the eastern island country.

Of course, Sasuke Sasuke Sarutobi did not want to see.

Sasuke Sarutobi barely hesitated and nodded and said, "I do!"

Li Tian immediately used his soul detention, and Sasuke Sasuke's soul was also detained.

In this way, Li Tian's soul detention controlled the three of Ginbei Kazama, Chiji Fujiwara, and Sasuke Sasuke Sarutobi, and the ninja organization behind these three could become the real help for Li Tian to completely unify the Toyo Island country.

The era of great unification has officially arrived in the eastern island country.

Chapter 4069: Secret mission

After the return of Iga and Koga ninjas, Li Tian immediately sent them to clean up the ruins of the warriors on Hon Nakashu Island. This was no longer a problem for them.

After the Otsuka will wait for the children to settle in Ruhr Island City, Li Tian personally sent Otsuka Marina to the South Shikoku Island to start the official development of the antidote reagent for the zombies.

In the following days, Situ Ningbing, Xueji and others all returned to Ruhr Island City one after another. The entire West Jiuzhou Island was calm and nothing happened.

In the past few days, Tang Xiaolong and Ouyang Man's injuries have gradually recovered, but after Ouyang Man lost his armor, his strength has been greatly damaged, and he has fallen to the strength of a seven or eight zombie.

But now that the antidote to the zombie virus is already under development, Li Tian didn't want Ouyang Man to work on the zombie level any more easily.

Li Tian asked the two of them to go to Yasha to follow Liu Guoqiang's Cangshan ship to perform a secret mission.

"What's the secret mission? It's so secret that the little boss doesn't want to tell us!" Tang Xiaolong on the splint said to Ouyang Man with a sulking sullenness.

Ouyang Man shook his head and said: "I don't know. I feel that our two missions are more likely to be to protect the safety of the Cangshan ship. The Cangshan ship is only a means of transportation. It should be him who is really performing the secret mission. Di Xing Yasha!"

Tang Xiaolong stretched out his hand to grab the Di Xing Yasha that had fallen on his shoulder, pinched it in his hand and asked, "Say, what kind of secret mission is it? The little boss didn't even tell me?"

Di Xing Yasha glanced at Tang Xiaolong disdainfully, and said, "We have Master Li Tian's blood flowing in our bodies. We and Master Li Tian live together and die together. Even if you have a relationship with Master Li Tian, Intimacy is also incomparable, so of course this secret mission can't tell you!"

"Bullshit, how many years have passed since I was born and died with the little boss, how long have you three little things followed the little boss? Today you have to say it, or if you don't say it!" Tang Xiaolong said more angrily.

The words of Di Xing Yasha really hurt Tang Xiaolong this time.

Tang Xiaolong has always believed that his relationship with Li Tian should be the most ironic, and should even be at the same level as those of Li Tian's women, but Di Xing Yasha's words made him unable to refute.

At this time, Liu Guoqiang said lightly: "Master Li Tian is the master of your three Xiaoyachas. If there is any accident to Master Li Tian, you will definitely not be able to live alone. But if there is any accident to you, Master Li Tian It doesn't seem to be affected at all!"

"Furthermore, that secret mission is no secret. Master Li Tian asked us to eradicate all the shrines on Honnakashu Island in secret, including the Yasukuni sacred toilet of course!"

Tang Xiaolong was happy instantly...

...

The war is over and everything is thriving.

After Duanmuying came back, she formally took over the city of Ruhr, which is precisely the heaven organization of the entire Dongying Island country. Li Tian also broke away from this trivial matter.

Li Tian has already had some communication with Duanmuying regarding the future development and management of Dongying Island Country, but Duanmuying seems to be unable to listen to Li Tian's thoughts.

Duanmuying has her own ideas. Her idea is simple to let people with corresponding talents do corresponding things, and she only needs to manage these corresponding people.

And these talented people only need to be responsible for the results.

But let alone, Duanmuying's method is quite effective. In the past few days, the city owners from other cities have sent production and living materials. Duanmuying quickly restored the city of Ruhr to normal.

Not only that, but some functional departments have gradually formed in Ruhr City, such as the industrial department, the agricultural department, the fish husbandry department, and the electric power department.

With the establishment of these departments, several pieces of farmland have been gradually cultivated in the suburbs of Ruhr Island, and these farmland species have also begun to grow some vegetables suitable for this season.

The construction of a small photovoltaic power plant in the northeast of Ruhr Island has already begun, and it will not be long before the power supply of Ruhr Island can be restored.

Of course, these are not issues that Li Tian needs to consider.

Standing on the top of the tower in the center of Ruhr Island City, Li Tian can get a sweeping view of the situation of the entire Ruhr Island City.

"I really didn't expect that we would control the entire Dongying Island nation in such a short period of time. This is too far from my expectations." Li Tian said.

Situ Ningbing came to Li Tian and stood side by side with Li Tian looking at the distant waters and said, "Li, there is a question that has puzzled me for a long time. How did you escape the fierce martial artist when you fought the fierce martial artist? What about the attack? Looking at the situation at the time, it seems that you haven't entered the space of the Void Yaksha or followed the earth-walking Yaksha soil to escape into the ground?"

Li Tian smiled slightly and said, "I knew you would be tempted to ask me, but I didn't expect you to endure it for so long before asking. Since you asked, then I will tell you!"

Speaking, Li Tian took out the Heavenly Qiong Spear and held it in his hand, and said, "The secret lies in this!"

"Looking at you, did you find something interesting in the Qiong Spear of the day? Just say it, don't sell it." Situ Ningbing said.

Li Tian nodded and said, "Yes. At the beginning, I still felt puzzled. The Heavenly Qiong Spear is an artifact in the history of Dongying Island, but I don't feel any magic on this artifact. This is totally unreasonable. Ah! But while fighting the fierce warrior, I finally discovered the magic of this artifact."

"Close your eyes!" Li Tian said suddenly.

Situ Ningbing didn't know what Li Tian was going to sell Guanzi obediently closed his eyes.

The moment Situ Ningbing closed her eyes, she felt a strange energy fluctuation in her body instantly, and then this energy fluctuation disappeared.

"Open your eyes!" Li Tian said.

When Situ Ningbing opened his eyes, he found that she and Li Tian were no longer on the white tower of Ruhr Island City, but appeared in a hall.

This hall looks really majestic. The distance from the top of the hall to the ground is tens of meters high, and the total area of the hall exceeds several thousand square meters.

It's a pity that the hall is empty and there is nothing, but there are some traces of smoke in the hall, as if the hall was burned by a torch.

"This...where is this place?"

"In the Heavenly Qiong Spear, this is the real space! The area of this main hall alone is larger than the space of the three small Yakshas, and there is a wider space outside the temple, the total area is close to Lu Ten times the size of Isle City!"

"Ten...ten times?"

Chapter 4070: Really god

"Li, how can such a large space appear in the Qiong Spear of the day? I heard that Void Yasha said that it is extremely difficult to expand the space. Even if it is the current ability of Void Yasha, I am afraid it is far from being created. Out of such a large space!"

"That's right. And when I entered this space, I lost contact with Void Yaksha, completely isolated, and Void Yaksha couldn't appear here."

"I suspect that this space was created by someone much stronger than Void Yasha, and have you ever wondered who made these artifacts? I have asked Xiaoxiao. Hot pot, even the venerable level of the Netherworld can't make such a powerful thing, and the domain master has never heard of anyone knowing such a thing!"

"So I suspect that there may be a **** in this world!"

"Little Hot Pot once said that before ten thousand years, there were many strong men in the earth world, and these strong men are much stronger than we can imagine now. And one of these strong men once went to the Netherworld. Realm can actually kill the domain master. Just think about the three corpses in the realm of cultivators that are already so powerful. Then how strong are the sages

and domain masters above the cultivators, and can kill the domain master at will. He is not a god, what else can it be!" Li Tian said.

"Is there really a god?"

Li Tian nodded, and then said: "This is just my guess, but this kind of guess makes me want to go to the Nether Realm even more. Only when my strength gradually improves and closer to the existence of God, can we see what we originally saw. What we cannot accomplish can accomplish what we could not have done! If I can become a god, I will save all the regretful things in my life..."

"Li, have you made up your mind? You know that Duanmuying is pregnant now, can you be willing to leave her?" Situ Ningbing said.

Li Tian nodded and said, "I have passed Duanmu Yinggou."

"All of us will change, and Duanmuying is no exception. The current Duanmuying is no longer the one I couldn't do without me. Maybe it's because she has been the commander of the army for too long. I feel she has liked it. I got the feeling of being in full control."

"She said she wants to accompany her children to grow up, and will stay in Dongying Island and continue to wait for us to come back! There is nothing wrong with this. I can only give her the rights she needs if I can't accompany her! So wait for the Dongying Island. After it subsides, Duanmuying completely controls the Dongying Island Country, and after the entire world gradually returns to normal order, we will leave for the Underworld!" Li Tian said.

Situ Ningbing nodded, snuggling next to Li Tian and said, "No matter where I go, I will accompany you!"

...

While the Dongying island nation gradually stabilized, the domestic scene was a different kind of scene.

The old man Mu Yunlong strode into the meeting room of the headquarters of the Chinese Allied Army Corps, sitting on a chair with great swordsmanship and taking a sip of tea from the teacup on the table, and then angrily slammed the teacup on the table, but that's it. Unable to vent the anger in his heart, he cursed: "Asshole! What a ***** asshole!"

The participants in the conference room were all the commanders and deputy commanders of the former top ten regiments, but they seemed to empathize with Mu Yunlong's anger, and they also had an angry expression on their faces.

This had to make them angry. Just last night, Chairman Zhou of the Agricultural and Commercial Association left Kyoto with all the personnel of the Agricultural and Commercial Association, and the specific whereabouts are unknown.

However, with the departure of the president this week, all the domestic agro-industrial associations disappeared almost at the same time overnight. Although the grains in the granaries of these agro-industrial associations have not disappeared, this allows the survival of the food that has always been dependent on the agricultural and industrial associations. The major legions are now a little bit overwhelmed.

Although all major corps also have military farmland, the food produced in this farmland can only support 50% of the corps' needs at most, so how should the other 50% be solved?

Moreover, even if it barely survives the second half of the year today, what about next year? Food production is not as easy as hunting zombies to obtain corpse crystals.

"According to the analysis of intelligence, the Association of Agricultural Industry and Commerce may have taken refuge in the Three Corpses a long time ago, so Chairman Zhou and Association of Agricultural Industry and Commerce may have gone to the south."

"Asshole! I have long discovered that something is wrong with the Agriculture and Industry Association, and now it is finally revealed. The old army commander, let me go to the south with someone secretly, and I must bring back the asshole, Chairman Zhou!" Liu Feng said .

"What's the use of catching him back? He is just a ***** of the three corpses. Now that the three zombies move this pawn, it seems that the three zombies are going to take action recently!"

"Internal and external troubles, you are all the elites of our Chinese Allied Forces, you all talk about what we should do?" Mu Yunlong said.

The tyrant Gaogang Station coughed slightly and said: "The northeast area controlled by our Black Dragon Legion has always been a granary of the world. If our Chinese coalition forces can concentrate their advantages to carry out a concentrated slaughter and drive away of the zombies in the northeast area, then The fertile land can be cultivated. In this way, the annual grain produced in the Northeast region alone can be conservatively estimated to supply our country for four to five months."

"Far away can't quench the near thirst. Let's not say whether we can wait for a good harvest in the northeast region, let's talk about where so many farmers will go farming?" said one of the first-class army commanders.

"Don't worry about this. As long as the zombies in the northeast area can be controlled, we can use mechanized planting on all land at that time, but the fuel problem needs to be solved by the Celestial Legion!" said the tyrant Gao Gang.

The little lady who temporarily took charge of the Celestial Legion smiled and said: "This is actually a very easy solution. After nearly a year of development, the Celestial Legion has now basically controlled the zombies in the northwest region. And this year, the food in the northwest region Although there is no good harvest, it is enough for the Celestial Legion to use. Therefore, the Celestial Legion can become self-sufficient in the coming year."

The little lady knew the power of the Celestial Legion just after taking over the Celestial Realm.

Because of Li Tian's iron-blood policy, the Celestial Legion was the first legion to achieve regional unity in the country. At that time, the Celestial Legion began to reclaim large areas of farmland. The Celestial Legion had already received summer grain.

Moreover, the Agricultural Industry and Commerce Association established by Tang Feifei in Beitang has gradually become formal. Now the autumn grain produced by the Beitang Agricultural Industry and Commerce Association has begun to enter the warehouse one after another. The food alone is enough for all members of the Celestial Legion. More than years.

"Little lady, I know the situation in the heavens. Don't hide yourself at this time. The heavens will leave enough food to consume for a year, and all the other food will be shipped out! Li Tian is my grandson, and he will probably not blame me. !" Mu Yunlong said.

At this moment, the meeting room door was pushed open, and someone walked in and came to Mu Yunlong's side, whispering a few words to Mu Yunlong.

Mu Yunlong's face immediately showed an expression of excitement, and said: "This kid still knows to send someone to send something back! Hurry up and invite the people from Li Tian's party!"
