

A Killer 4071

Chapter 4071: Li Tian's request

Feitian Yasha flew in from outside the door, and Feitian Yasha was the messenger sent by Li Tian this time.

Feitian Yasha is too far away from Void Yasha to enter the space of Void Yasha at will, so Feitian Yasha is still carrying a small special backpack on his back.

Feitian Yasha has always been used to domineering, but he also knew that the old man in front of him was Li Tian's grandfather, so he didn't dare to fall on the table in front of Mu Yunlong obediently.

"Mu Lao, this is what my master Li Tian told me to bring back from Dongying Island. I need to hand it over to you personally!" Feitian Yasha took out a box the size of a matchbox from the small backpack behind him. , Put this box on the table.

Mu Yunlong had been in the space of Void Yasha for a long time, and he naturally knew Feitian Yasha. He reached out and picked up the matchbox-sized box and asked suspiciously: "Boy Li Tian sent it away from Dongying Island National University. Come back with something like this? What's in it?"

"Zombie virus antidote reagent..."

Feitian Yasha's words immediately shocked everyone in the conference room, and almost everyone stood up and looked at Feitian Yasha in surprise.

"Are you sure?" Mu Yunlong asked with some gaffe.

Feitian Yasha nodded and then said, "I haven't finished my words. This was developed by a Nobel Prize winner named Otsuka Kuangren from the Eastern Islands. However, due to some changes later, this zombie The virus antidote reagent has not yet been fully developed."

After listening to Feitian Yasha's words, the expressions on everyone's faces were a little disappointed.

The little lady smiled and said, "Since the legion commander Li Tianjun has sent someone to deliver this item from far away, it means that the antidote reagent is probably close to success, so I personally think this item is probably very precious!"

Feitian Yasha flew up to the little lady and landed on his head, and said with a smile: "Yes, Iga Ninja, one of the most powerful organizations in the Eastern Island Kingdom, almost destroyed the entire organization in order to grab this thing. Another powerful organization, the leader of the fierce martial artist, also died because of this!"

"It seems that Xiao Litian had a good time in Dongying Island, I have accepted this thing!"

Mu Yunlong said to Huangfu Kunpeng again: "You will now take someone to ***** this thing to the Zombie Research Institute, and gather all the top researchers of the coalition army to start follow-up research immediately. If you need a zombies for the bed experiment, even if it is You have to find a way to catch the zombies at level 20!"

Huangfu Kunpeng stood up and took a lot of attention, carefully installed the zombie virus antidote reagent next to his body, and said: "Please rest assured, the commander of the army, I will do it right away!"

Before leaving, Huangfu Kunpeng said to Feitian Yasha again: "If you go back, please give me a message to Li Tian, saying that Huangfu Kunpeng misses Brother Li Tian, if he has time, I welcome him back, and I want Fix him well!"

Huangfu Kunpeng's words are also in the hearts of everyone present.

"I must bring this sentence to Master Li Tian, but I am afraid that you are no longer the opponent of my master Li Tian!" Feitian Yasha said with a smile.

All the people present took Feitian Yasha's words as what he said to protect Li Tian's dignity, and no one took it seriously.

In their opinion, Huangfu Kunpeng is the number one player in China. Gaozhou, which can be ranked in the top three in the Forbes Personal Strength Tournament, no matter how much Li Tian progresses, how can he surpass Huangfu Kunpeng in less than two months.

Huangfu Kunpeng paused after stepping out of the door of the conference room, shaking his head and said, "I am afraid that the current Li Tian is really not inferior to me. If you want to deal with the three corpses, I am afraid that you have to invite Li Tian back. , But I'm afraid it won't be as easy as driving him away."

After Huangfu Kunpeng went out, Feitian Yasha continued: "My master Li Tian has basically controlled the Dongying Island Kingdom now, so..."

"What are you talking about? Li Tian has basically controlled Dongying Island in his hands? So fast? Didn't he encounter resistance in Dongying Island?" the tyrant Gao Gang asked somewhat unexpectedly.

"How can there be no resistance? The strength of the Legion Organizations such as Abdomen Sky Cong, Dark Ninja, Iga Ninja, and Fierce Warrior is very powerful, but Master Li Tian has already solved the problem."

Although what Feitian Yasha said was simple, everyone present knew that Li Tian could establish a foothold in the Eastern Kingdom and defeat these groups and organizations with just a few core members of the Celestial Legion. I am afraid that every battle is extremely dangerous.

"There is another thing I need to tell you when I come back this time, that is, Master Li Tian of my family requested that the core personnel of the Celestial Legion who are willing to follow him be brought to the East Island!" Feitian Yasha said.

Feitian Yasha is very clear, this is to tell you, it is not a request or a discussion, whether you agree or not, you must do this.

The eyes of everyone present fell on Mu Yunlong from Feitian Yasha, wanting to see how Mu Yunlong would answer in the end.

"What are you looking at me doing? When Li Tian left, all of you knew that Li Tian boy was wronged, and the Celestial Legion was temporarily managed by the Army Soul Corps, let alone the core cadre members of the Celestial Legion. Now, even if Li Tian wants to take all the members of

the heavens, this is his business! What qualifications do we have to stop, and why should we stop!" Mu Yunlong said.

Feitian Yasha seemed to have expected that Mu Yunlong would say this, and flew to Mu Yunlong's table, and said: "Master Li Tian also said that the Celestial Legion can't be left alone for a day. Since the Army Soul Legion has been in charge for so long, The remaining Celestial Legion will be completely handed over to the Army Soul Legion, including the Legion personnel and all the organization sites under the Celestial Sect."

Everyone took a breath.

The Celestial Legion covers an extremely wide area. If this is merged into the Legion of the Soul, the Legion of the Soul is already the most powerful in the entire coalition, both in terms of the area and the strength of the general legion, and can even reach others. The sum of several legions.

"But Master Li Tian has a request!"

"You said!"

"My Master Li Tian said that the fifty kilometers around the Tianshan Mountains must be privately owned by Master Li Tian, no matter who the future owner of this country is, this must be privately owned by him." Feitian Yasha said firmly.

Chapter 4072: Master Li Tian

It is difficult for many people to think that Li Tian would make such a request, but this seemingly unreasonable request was understood by several people because they knew more about Li Tian.

"Of course, you can rest assured that Master Li Tian will not be unreasonable. In return, Master Li Tian can bring his Celestial Legion to defeat the South and North Korea and restore part of the country's territory during the Han Dynasty."

"I agree!" Mr. Mu Yunlong said.

Now that Mr. Mu Yunlong had the same meaning, what else could others say? Besides, that mountain area was originally under the control of the heavens, this requirement was not too much.

The meeting continues, but there seems to be only one way to solve the food shortage in the future, and that is to ask Tang Feifei to come back, let the former young master of the Agricultural Industry and Commerce Association and the owner of the Tianjie Agricultural Industry and Commerce Association come back to re-establish the Agricultural Industry and Commerce Association.

But all of them also understand that it is not so easy to want Tang Feifei to come back. If Li Tian does not come back, Tang Feifei will definitely not come back.

But will Li Tian come back?

Participants of this issue were thrown to Mu Yunlong again, and Mu Yunlong had no choice but to announce the end of the meeting.

After the meeting, it was time for Mu Yunlong, the tyrant Gao Gang and Feitian Yasha to chat privately. Mu Yunlong wanted to know all the current situation of Li Tian, while the tyrant Gao Gang was concerned about his son Gao Bi's affairs, and Feitian Yasha It is also knowing it is not enough to talk.

...

The barbarians and the captain's Tianmen are in full swing. Although the two have not done anything similar before, the establishment of the Tianmen has been exceptionally smooth. From the establishment of the Tianmen to the acquisition of disciples, it took less than two months. In time, the number of disciples in Tianmen has reached fifty or sixty.

And this is the result of strict screening at Tianmen.

Among these disciples, the oldest is only sixteen years old, and the barbarians are no less than a few years old, and the youngest is only seven or eight years old. It can be said that these fifty or sixty people are selected from the entire celestial control area with the best cultivating qualifications. Personnel.

The first thing all the disciples of Tianmen do every year is to bow to Li Tian's portrait under the leadership of the man. For them, Li Tian is not only the former commander of the Celestial Legion, but also the founder of the Tianmen, their ancestor, and their master barbarian is especially pious, and this bowing ceremony is especially serious.

But today, it's time to bow down and worship Li Tian, but still can't see the barbarians, these children will inevitably murmur in their hearts.

At this time, the barbarian appeared happily.

"Didn't you keep asking me why our Tianmen is so shabby? Today I will tell you, because this Tianmen here is just a temporary shelter for us. The fastest is three to five months, and the slower is half a year. We are on the top of the Tianshan Mountains. Tianmen will be officially completed."

"At that time, all of you who are open mountain disciples of the Tianmen will move to that place, and your ancestor Li Tian will personally teach some cultivation skills to the inner disciples!" said the man.

Excited expressions appeared on the faces of these teenagers.

Not to mention that Li Tian taught things personally, it would be a great honor for them to meet the Northwest King and the legendary Li Tian!

"Sect Master, didn't he say that Master Patriarch has gone to Dongying Island now? Is he coming back?" One of the disciples said excitedly.

"Shhh, this is a secret, but I can tell you that everything I say is true. But what I have just said is very clear. Patriarch Li Tian only teaches the cultivation method to inner disciples. The selection of disciples will be carried out in three months, and it will be up to you at that time!" Manzi said.

"Now I begin to bow down and worship Patriarch..."

After completing the daily compulsory courses, Barbarian stood in the courtyard, looking up at the east, thinking in his heart: "Although I can't go to Dongying Island this time, my Barbarian won't be jealous of you at all. Maybe another half year. You will be jealous of me in a year at most!"

It turned out that when it was created today, Feitian Yacha specially came to the Tianmen on the edge of the Qinling Mountains and told the barbarians and the captain that they should stay in the Tianmen and that they should hurry up to train the disciples of the Tianmen.

Manzi didn't know what Li Tian had for doing this, but Manzi knew that Li Tian was paying attention to him and Tianmen, so he arranged it like this.

...

Eastern island country.

With Duanmuying in full control, Li Tian found that he and Duanmuying seemed to be walking further and further away. If it were not for Duanmuying's belly with Li Tian's child, Li Tian felt that Duanmuying could not remember him at all. coming.

The current West Jiuzhou Island seems to have suddenly flooded with a lot of people. Every day there is an endless stream of people coming to Ruhr Island City. In just one week, the population of Ruhr Island City has soared to more than 100,000. It can be seen that most of the people who flooded here should belong to the uppermost class or the powerful class before the end of the world.

These people brought a lot of gold, silver and currency, also brought a lot of talents, and brought a lot of materials.

Duanmuying approached these various former giants who wanted to visit him every day, and Duanmuying quickly used these people.

It has to be said that Duanmuying's methods are indeed much better than those of Li Tianqiang, that is, in just one week, several small cities near Ruhr Island have already established many factories one after another, which Li Tian never imagined of.

If these things made Li Tian feel surprised, what made Li Tian feel even more surprised was the surrender of the former army in the direction of Duanmu Ying in the end of the Eastern Island Kingdom.

Li Tian did not understand what method Duanmuying used to make these people willing to be driven by him, but Li Tian knew that regardless of whether it was the rich or the military, most of the powers of Duanmuying had been mastered. Hands.

Duanmu Ying is like a queen now.

There is Bai Jing.

Although Bai Jing is also Li Tian's woman, she positions herself as Duanmuying's assistant. Bai Jing is busy following Duanmuying every day.

After hearing that Huo Liantong, Xinrui and other children from the heavens were about to come to Dongying Island, Bai Jing became even busier. Like a parent, she began to prepare all the things such as residences and daily necessities to welcome the children.

The celestial realm, the heavenly gate, and the world that Li Tian once imagined seemed to be realizing one by one, but it seemed to be a little different from Li Tian's original vision.

"Perhaps in the future, only Tianmen will belong to me, Li Tian, and everything else will only become the past!" Li Tian sighed.

Coming out of the Qiong Spear of the Sky Every few days, Li Tian took Situ Ningbing and Xueji away from Ruhr Island and went to Sunset Island, and began to study Li Tian's spoils: bone monsters, animal tails, and objects like eyes. And the map obtained from Reche.

Chapter 4073: : Ground

Li Tian and others have studied the legendary three ninjas for a long time and have not developed one. Therefore, even the little hot pot, an old-fashioned guy, does not know these things at all. Li Tian can only put things away and wait for them to be available later. If you have the opportunity to study again. ,

Then, everyone began to study the map obtained from Reche.

The map is only the size of a palm, and the scale is not very large, so the map is extremely detailed, including mountains and rivers.

There are two lines on the map. The two lines depart from different places, and the end points to the end are completely different. So just looking at the map, Li Tian and others are not able to judge the specific place drawn on the map. The second is which of these two lines is true.

Fortunately, there are still a few Dongying texts on this map. This text is written on an inconspicuous mountain on the map. It should be the name of this mountain.

"Shi Teng Yue? What is this place? Has anyone of you heard this name?" Li Tian asked.

Situ Ningbing and Xueji both focused on the little hot pot, but the little hot pot also shook his head and said, "What do you guys see me doing? When I came to Dongying Island, it was still a wild land, many places. There is no name, even if there is a name, the name at that time is completely different from the name now."

Li Tian nodded and said, "Yes, this Lei Che is Tachibana Doxue's weapon. Tachibana Doxue is less than five hundred years old. It is excusable if you don't know the little hot pot!"

"In this case, do you think this map is a general treasure map? If it is really like that, we don't need to explore with a big fanfare!" Xue Ji said.

Li Tian shook his head slightly, and said, "First of all, this map is hidden in Lei Che, just like the bridge section in The Legend of the Dragon Slayer. This map is probably not ordinary. Taking a step back, even in this map It refers to ordinary treasures, which are also very useful for our current heaven! After all, the end of the end of the era is a matter of time."

Situ Ningbing smiled slightly and said: "Even if there is nothing, it is good for us to take a vacation or experience in cultivation! Anyway, we have nothing to do here!"

"Okay! But we can't be sure where this map is. How should we determine where this map refers?" Xue Ji asked.

"If it was a place four or five hundred years ago, there should be records in the books of Dongying Island. It's better to go to the library to check it, maybe there will be clues."

Anyway, this kind of expedition was not in a hurry, so everyone discussed and decided to stay in West Jiuzhou Island for the time being to practice, and wait until Tang Xiaolong and others returned before making a decision.

During this period, the members of the Celestial Realm in China finally reached West Jiuzhou Island after a long journey, and they warmly treated the Celestial members in Duanki Sakura in Ruhr Island City. Yesterday's Celestial Corps Commander Li Tian would certainly attend.

After recounting the past, Li Tian announced the decentralization of the Celestial Realm at the banquet. The Celestial Legion was officially handed over to Duanmuying, and Bai Jing was appointed by Li Tian as the deputy commander of the Celestial Legion.

At the end of the banquet, Li Tian did not stay on Ruhr Island City Island, and took Yang Guo and Xiao Tianyi back to Sunset Island.

Yang Guo can now control the zombies in the ocean and has the ability to transform zombies. However, once Otsuka Kuang's zombie virus is successfully decompressed, Yang Guo will become an ordinary person, and his greatest possibility is only in Duanmuying. A job he seeks is nothing but worry-free.

Li Tian knows that the core cadres like Yang Guo and Tianjie are absolutely loyal to the Celestial Legion. They are the foundation for the Celestial World to gain a foothold in this Dongying island country, and such as the Koga Ninja Organization, Iga Ninja Organization, and Wind Demon Ninja Organization. Although the leader is now controlled by Li Tian, once Li Tian leaves the Eastern Kingdom and these leaders die, whether these organizations can continue to defend themselves is another question.

So Li Tian wanted to teach Yang Guo some kung fu and let him practice some kung fu, so that it would be good for Yang Guo to the entire Celestial Organization.

Yang Guo's aptitude was average, but fortunately he was extremely hardworking, which made Li Tian very pleased.

As for Xiao Tianyi, Li Tian and Otsuka Kuang have done experiments on Xiao Tianyi with the zombie virus antidote reagent. The zombie virus antidote reagent has been tried repeatedly on other zombies, at least it can restore those zombies to Like Otsuka Marina's level, it has no effect on Xiao Tianyi's body.

Although Xiao Tianyi seemed to be only a six or seven-year-old child, he already knew that he was different from others, and Xiao Tianyi had already acquiesced and accepted this situation.

So Li Tian decided to hand over the corpse scripture obtained from the Taoist priests in the Qinling Mountains to the hands of Xiao Tianyi, so that Xiao Tianyi could begin to practice this incapable practice now, so that Xiao Tianyi still had a chance to jump out of reincarnation.

Li Tian is selfish. He knows that he might be leaving Dongying Island soon, so he can only help Duanmuying as much as possible. This is the case with the domestic Celestial Army coming to Dongying Island. This is how it is to teach Yang Guo the method, let Xiaotianyi The same is true for practicing corpse scripture.

"Xiao Tianyi, in fact, you don't want me to say that you understand. I want you to remember one sentence. Since you call me Dad Li Tian, then I will treat you as my child, so I hope you can also treat me and Duanmuying's children are treated as your brothers. I want you to stay in Dongying Island to protect their safety. Can you do it?" Li Tian said.

Xiao Tianyi thought that he would be separated from Li Tian in the future, but he nodded and said, "Dad Li Tian, after a few decades, your child no longer needs my protection. I can go there. Is the Netherworld looking for you?"

Li Tian stretched out his hand and touched Xiao Tianyi's head, and said, "Silly boy, what's wrong with this? Now the Chinese Allied Forces in China have agreed to assign the Tianshan Mountains to Li Tian's personal possession, and Tianmen will be built on the top of the Tianshan Mountains, the barbarian will be the head of the Tianmen and lead his disciples to guard the gate of the restricted area. You can come anytime if you want to come!"

After Li Tian calmed down Xiao Tianyi, and asked Situ Ningbing to explain to Xiao Tianyi the things cultivated in the corpse scripture for a few days, Xiao Tianyi completely mastered the cultivation method.

In a flash, more than half a month passed, and Li Tian took Situ Ningbing, Xue Ji, Xiao Hotpot and three Xiao Yacha on the road.

"Li, let's go to Jingdong City first. Where is the Jingdong Empire Library of Dongying Island, and where should we find the clues we are looking for. Xiaolong and Dixing Yasha are waiting for us over there!" Situ Ningbing said.

Chapter 4074: : Arrive at Jingdong

This time I went to Honnakashu Island again, and Li Tian and others felt completely different.

Although there are still zombies on Hon Nakashu Island, there are no Iga Ninjas, Koka Ninjas, and Murderer organizations, so the mood is naturally different.

Because of the refuge of the families, financial groups, and legions before the end of the world, Duanmuying has recently completely mastered all the military equipment left by the East Guards before the end of the world.

In order for Li Tian and others to reach Jingdong City quickly, Duanmuying sent a gunship helicopter to take Li Tian and others to Jingdong City.

Jingdong City, the capital of Dongying Island before the end of the world, is located in the Guandong Plain of Hon Nakashu Island. It is the political, economic, and cultural center of Dongying Island before the end of the world. It is the largest city in Asia and the second largest city in the world.

Before the end of the world, the population of Jingdong has reached more than 13 million. If you count the Greater Jingdong Metropolitan Area, the total population has exceeded 36 million.

Therefore, since the level of the zombies in Jingdong City is not too low, once only fierce fighters can completely control Jingdong City.

When the armed helicopter flew to Tokyo Bay, he did not dare to continue flying forward, and sent Li Tian and others to the Cangshan ship docked in Tokyo Bay waiting for Li Tian and others before returning.

Tang Xiaolong rushed up to give Li Tian a big hug when he saw Li Tian, and said excitedly: "Little boss, after these twenty days of hard work, we have basically completed the task you assigned to us. Especially the secret. Mission, hehe, it's so cool! Dixing Yasha..."

"Let me do it!"

Di Xing Yasha jumped from Tang Xiaolong's shoulder to Li Tian's shoulder and said, "The Jingguo Divine Toilet has been built. Although my construction skills are far less than those of the Virtual

Spirit Race, it is not bad. That divine toilet occupies the ground. It is active and wide, and it can accommodate tens of thousands of people to go to the toilet at the same time, and I used a quicksand storm to destroy all nearby buildings according to your instructions, and even changed the terrain."

"So unless you use satellite for precise positioning, otherwise no one would think that the place has become a sacred toilet!"

In fact, the current Dongying Island Country is already in the hands of Li Tian's Celestial Legion, and this country exists in name only. It's just that Li Tian occasionally remembered that this place was extremely uncomfortable in his heart, so he asked Dixing Yasha to perform this task.

"Where are the other shrines on Honnakashu Island?" Li Tian asked.

Liu Guoqiang stood up and said, "Master Li Tian, we haven't stopped for more than 20 days. We basically ran the Hon Nakashu Island roughly. I dare not say that all these shrines were destroyed, at least 70%. 'S shrine has been destroyed!"

"Thanks for your hard work! Liu Guoqiang, let's go back now. Heaven has already taken over the Dongying Guards, but now there is still a lack of a legion commander. I have already recommended you to Duanmuying, and whether you can achieve your own skills next. "Li Tian said.

Although Liu Guoqing tried his best to conceal it, it was still difficult to conceal the joy in his heart.

Recapture the Cat Island, the army set foot on the land of the Dongying Island State, and the army controlling the Dongying Island State. This is what Liu Guoqiang and other soldiers dreamed of before the end of the world, but it was impossible to achieve it before the end of the world, which filled their hearts. regret.

And now that all of this has become a dream come true, Liu Guoqiang shook Li Tian's hand vigorously and said, "Master Li Tian, I know what to do!"

Liu Guoqiang did not dare to delay, and without a few words of chatting, he immediately led his people to drive the Cangshan ship towards the direction of Ruhr Island City, while Li Tian and others stepped ashore on the waves with the help of Hai Yacha.

Once on the shore, it is already in the Jiangdong District of Jingdong City. Before the end of the world, this was the largest port in Jingdong City. At this time, there were thousands of containers on the port.

There are a lot of zombies in this area. Those zombies are wandering aimlessly, completely looking like walking dead, and when they see Li Tian and others, they immediately rushed over with their teeth and claws.

Li Tian and others, who had been accustomed to this situation a long time ago, were very relaxed, talking and laughing without putting these zombies in their eyes.

"These zombies are not low-level, just grab one to show us the way..."

Li Tian's voice has not fallen yet, a black shadow flashed out of the crowd, it was Tang Xiaolong.

Tang Xiaolong seemed to be black lightning. In the blink of an eye, he rushed to the group of zombies. One of them, the tenth-level zombies rushing in the front had been hit by Tang Xiaolong before he could see Tang Xiaolong's appearance. Broken, the dead can't die anymore.

Seeing that Tang Xiaolong was so fierce, the other zombies immediately turned around and fled.

Tang Xiaolong rushed forward, suddenly lifted a zombie from behind, and said coldly: "If you don't want to die, you don't have to move!"

The Dongying zombies seemed to understand Tang Xiaolong's words, but they really obediently bowed their heads and dared not move.

Tang Xiaolong rushed out quickly, and came back quickly. He threw the ninth-level zombie in his hand in front of Li Tian and said, "Little boss, come and ask!"

Li Tian nodded and said to the zombies in Dongying language: "We are going to the largest library in Jingdong City, can you take us there? If you can take us over, we can spare you not to die!"

The library Li Tian mentioned is the National Diet Library of Dongying, located in Chiyoda District, the capital of Jingdong, which is the absolute center of Jingdong City. The center of Tokyo is almost the same as the domestic city of Kyoto, where the level of zombies has basically reached 15 or above, even the 17th or 8th level zombies are everywhere.

This ninth-level zombie heard Li Tian going to the city center and shook his head suddenly and said: "No, no, we can't go anywhere we will be killed!"

Li Tian smiled slightly and said: "You can rest assured that we can guarantee your safety. If you can take us where, I can also help you hunt down a few corpse crystals of 17th and 8th level zombies as a guide for you!"

The corpse crystals of the seventeenth and eighth-level zombies are fatal to this low-level zombie. Besides, the fact that Tang Xiaolong blasted the tenth-level zombies with one punch also made this zombie believe that Li Tian and others were definitely not in front of him. Good stubble.

Without any hesitation, he nodded and agreed to Li Tian, and said, "I'm Goto, a few adults, and I'm a porter here. I don't know what the adults call?"

"My name is Li Tian..."

"Li Tian? Sounds familiar..."

In an instant, Goto's zombie's stiff face showed a surprised expression, and said: "You...you are Li Tian, you are the Li Tian that the fierce warrior wants to deal with?"

Chapter 4075: : The zombie spokesperson

"Yes, it's me. But the fierce warrior you mentioned has been killed by me, don't you know this?" Li Tian said with a natural expression.

This time Goto was completely shocked.

Looking at Li Tian in surprise, it took a while before he said tremblingly: "You...you said the fierce martial artist is dead? This...how is this possible?"

It turns out that although the murderer is dead, this news has also reached the human ears of Honnaka Island, but this news has not been known by the zombies of Jingdong. Now Goto has heard that the actual control of Jingdong City is murderous. The warrior is dead, how can he not be surprised.

But after being surprised, Goto instantly thought that he could meet Li Tian and others here, perhaps this was the opportunity God gave him.

"Puff!"

Goto knelt down in front of Li Tian and said, "Lord Li Tian, I am willing to follow you to serve you, even if you are crushed!"

Li Tian didn't expect Goto to also excite the spirit, and said with a smile: "The fierce warrior is dead, and the ninja organization of Iga and Koga has also taken a heavy loss and has already turned to me. Now the entire Eastern island nation is under the control of Li Tian. What can you say in the middle?"

Even though Goto is a zombie's brain turning fast, he said after a little meditation: "Yes, Lord Li Tian now has control of the entire city of Kyoto, but I am afraid that the zombie world cannot be controlled by the Lord. I just want to follow Master Li Tian. Become the adult's spokesperson in the zombie world."

"You have a good idea, but why should I choose you, a ninth-level zombie? There are 17-eighth-level zombies in Jingdong Capital, and there are even twentieth-level zombies!" Li Tian Said.

Goto said without any hesitation: "It is because I am a little zombie that I have ambitions in my heart, so I am willing to sell my life for Lord Li Tian. If Lord Li Tian gives me this opportunity, I will definitely live up to my mission!"

"Do you speak Chinese?" Li Tian asked suddenly.

Goto nodded for a moment, and said in Huaxia: "Well, there are many Huaxia ships in this port before the end of the world. I learned a little by myself in order to find more writing work. I didn't speak well!"

Goto's words confirmed Li Tian's judgment. Although Goto was the lowest-level laborer living in the Eastern Island country, he had dreams and ambitions in his heart, which made Li Tian decide to give Goto this opportunity.

"Goto, I'll give you this opportunity! But let me tell you the truth, Otsuka is already developing a zombie detoxification potion. I think it won't be long before the zombie detoxification potion will be developed, and then the zombie world will fall apart. So. At the end of the end of the world, how much reward you get depends on your performance during this time! And there is no shortage of other zombies under my hands, so you know!" Li Tian said.

Gotō had knocked his head on the ground and said, "Thank you Li Tian's trust, I will use my practical actions to repay Master Li Tian's kindness!"

Li Tian didn't say anything, he didn't believe in these empty-headed things, and he didn't use the nine-color corpse lotus to release the transparent silk thread to control Goto. For Li Tian, Goto is just a chess piece, if it is useful, use it, and just discard it when it is not useful.

Of course, Li Tian believed in Xiao Tianyi even more, but it was a pity that Xiao Tianyi did not understand the Eastern language, so Li Tian gave Goto this opportunity.

"Lord Li Tian, if we want to go to Chiyoda District, let's drive there. Ask Mr. Li Tian to come with me. There are cars everywhere here, Li Tian chooses whatever you want!"

Speaking of Goto, he took Li Tian and others to the car area waiting to be packed and exported. In this area, hundreds of Toyo-produced cars were neatly parked. After more than three years of wind and rain erosion in the last days, these cars The vast majority have been scrapped.

Goto led Li Tian and the others through this area and came to a lot of containers. He turned his arms into bone spears and easily tore the containers open.

"Lord Li Tian, these cars are exported to Europe and the United States, and the quality is absolutely the best among all exported cars, and these cars are packed in containers, except for a layer of dust!" Goto said.

Li Tian frowned slightly and said, "Is there any difference in cars exported to different countries?"

Goto nodded and said, "Although I don't want to admit it, it's a fact. Because the laws of different countries are different, these auto companies will naturally produce cars for countries that they can't, such as cars sold to Asia and Africa, because these regional countries' The law is not perfect, so the cars exported here are slightly different from those exported to European and American countries."

Li Tian felt uncomfortable but had to admit that this was the truth.

Tang Xiaolong and Li Tian drove out a Lexus respectively, and Goto took them to fill the car with gasoline, and then they began to drive towards the Chiyoda area.

The entire Jingdong city is almost the same as the city described in the apocalyptic movie. The original clean and tidy city is full of abandoned cars and garbage. Even in the daytime, you will see scenes of zombies tearing and fighting from time to time. Only bones remain.

The car roared past, and the senior zombies immediately began to chase the car driven by Li Tian and Tang Xiaolong, and Goto, who was sitting in the passenger seat of the car driven by Li Tian, was already a little scared.

Li Tian sneered, then turned out "Red Zhan", controlled "Red Zhan" with his Qi Yujian and flew out.

A few seconds later, the zombies chasing Li Tian's car were killed by "Red Slash". Those zombies knew they were not Li Tian's opponents in this car, and turned around and fled.

Goto was completely frightened by Li Tian's qi swordsmanship. Although the level of these zombies chasing cars is not particularly high, they have reached level ten or above, but these zombies have no ability to resist. Be beheaded.

"Master Li Tian, can you stop the car and let me... go and dig out the corpse crystals of those zombies?"

Li Tian casually took out a few twelve-level zombie corpse crystals from the leather bag and threw them to Goto, and said, "Don't waste our time. As long as you take us to the library, I said I will definitely give it to you. Hunted down a few zombies at level 17 or 8."

Gotō was holding a few corpse crystals of level 12 zombies like a treasure, and now he completely believed in the strength of Li Tian and others.

"I must seize this opportunity to become Lord Li Tian's spokesperson in the zombie world, and must let all the zombies know the reputation of Lord Li Tian!" Goto thought in his heart.

What Li Tian didn't expect was that it was precisely because Goto, the zombie spokesperson, promoted Li Tian like a missionary. Soon after the end of the end times, the Dongying Island nation unified and began to believe in Li Tian as a god.

Chapter 4076: :library

The car drove fast on the highway. There was no danger on the road, and Goto gradually became relaxed. In addition to showing the way, Goto spoke to Li Tian and Situ sitting in the back row in bad Chinese. Ning Bing and Xue Ji introduced the basic overview of the National Diet Library in Dongying.

"Master Li Tian, the National Diet Library of Dongying has two origins. One is the Library of the House of Representatives of the Noble House, which was established in 1890 and belonged to the Imperial Assembly under the old constitution."

"The other is the Imperial Library, which was established in 1872 and is subordinate to the ministries and provinces. Its Imperial Library has undergone changes from the Book Collection, Jingdong Book Collection, Jingdong Fu Book Collection, Jingdong Library to the Imperial Library."

"It was renamed the National Library in 1947. Now the library is divided into two venues, the new library and the old library. This library not only has the largest collection of books in the East, but also because it belongs to the National Assembly, the library also provides National Assembly records, Laws, annual reports and other records, so if Mr. Li Tian wants to find any information, it would be right!"

Soon Li Tian, under the guidance of Goto, came to the National Diet Library in Chiyoda District. What Li Tian did not expect was that although the front of the National Diet Library was bleak, it was not as dilapidated as the urban areas that had just been driving. Unbearable, even the trees around the library are lush, there is a special taste in the late autumn.

Tang Xiaolong got out of the car and came to Li Tian's side. He felt that the road he came was very familiar, but he was not sure, so he secretly asked if Dixing Yasha had been here.

"Lu Chi, the Yasukuni sacred toilet we built is in this area, but we haven't been here before!" Dixing Yasha said disdainfully.

Tang Xiaolong shut up immediately.

Walking into the outer wall of the library, an artistic atmosphere came to his face. Li Tian led Situ Ningbing and Xueji down to the old building under the guidance of Goto, only to find that the main entrance of the library was chained. It's locked inside.

The National Diet Library is subordinate to the National Assembly. Regardless of the fact that the main entrance of the library lobby is not much different from other libraries, the glass on the main entrance is all special tempered glass with a thickness of more than one inch. It is not easy to break this glass and rush in. .

Of course, this kind of thing is simple to death for Li Tian and others.

Li Tian's "Red Cut" was already in hand, ready to break the glass door.

Suddenly, Li Tian saw a figure flashing in the lobby on the first floor of the library, and suddenly raised his head to see that this figure had appeared behind the glass door.

This figure appeared instantaneously like a ghost, Li Tian and others were startled and involuntarily backed away.

The old man saw Li Tian and others through the glass, his face immediately showed an unexpected color, and said, "Who are you? Why are you here?"

While speaking, the old man had already taken out the key and quickly opened the glass door.

"Come in, there are zombies outside, come in quickly!" The old man said hurriedly.

Li Tian and the others went in file, and the old man showed a very disgusting expression on his face when he saw Goto, but this disgust flashed by.

Entering the library, the old man quickly locked the glass door again, and then said to himself: "There is an extremely powerful zombie nearby, which has eaten all the people in the library. Now the entire library I'm the only one left."

"The older you are, the more you are afraid of death, so don't laugh! Oh, forgot to introduce yourself. My name is Honda Yukio, the deputy curator of this library! Just call me Honda." Honda said. Calm, as if chatting with Li Tian and others at home.

Hearing Honda's words, Situ Ningbing, Xue Ji, and Tang Xiaolong all turned to Li Tian in confusion. They couldn't understand what the old man was saying.

Li Tian acted as a translator.

"Li, isn't this Honda also a zombie? And his zombie level is not low, there are not many zombies we encountered along the way that have his level!" Situ Ningbing said.

Li Tian nodded slightly.

In fact, before they entered the library, Li Tian discovered that Honda was a zombie, but even if he was an eighteenth-level zombie, would Li Tian still be afraid of him?

To Li Tian's surprise, Honda seemed to be completely immersed in his own world, never realizing that he had also become a zombie.

Li Tian motioned Situ Ningbing not to speak, lest Honda wake up from his world and become a brutal zombie.

"Mr. Honda, we are people from West Jiuzhou Island. Now we want to inquire about some geographical knowledge. Is it not convenient to know where?" Li Tian said politely.

"West Jiuzhou Island? How did you get here? Are there no zombies out there?" Honda's face was full of expectation and couldn't wait to ask continuously.

Li Tian shook his head slightly and patted the "Red Zhan", pointing to the sniper rifle behind Xue Ji, and said: "Not yet, and the zombies are still acting recklessly. We are here to kill with this and this!"

Honda's face was immediately eclipsed, and he said with some disappointment: "I knew... I knew... You can't reach Jingdong City from West Jiuzhou Island by strength alone, and luck is enough!"

Honda has turned around to leave, suddenly turned around and said, "What are you looking for? This library has been out of power since the end of the world. It is no longer possible to use a computer to index. If it is general knowledge, maybe I can help!"

Li Tian knows that to find such a term in such a large library is tantamount to finding a needle in a haystack. If the deputy curator of Honda can help, it might be faster.

Li Tian took the map in front of Honda, pointed his finger at the place name on the map and said: "We just want to find out where this place name is!"

"Ten Teng Yue?" Honda looked at the place name and said thoughtfully: "I seem to have seen this place name in that ancient book, but now I..."

Honda suddenly remembered something, and said: "I know this place name is in Beihai Island..."

Li Tian, Situ Ningbing and the others immediately refreshed, but the Honda suddenly stopped, took a few steps back and looked at Li Tian and others suspiciously, and said, "You came here from West Jiuzhou Island? Are you very strong now?"

Li Tian nodded and said, "Not bad!"

"I know this place name. It should be an ancient place name more than four hundred years ago. I don't know if I'm right?" Honda said.

Li Tian doesn't know if it's right, but it seems that Honda's words have already been touched.

Seeing Li Tian nodded, Honda's face showed a hint of sly and said: "Now only I know the location of this place in this country. If you can help me rescue someone, I can tell you where exactly this place is. ."

"Save people?"

Chapter 4077: : Save people

Li Tian didn't know why this old Honda man suddenly remembered such a thing. .

It is about to enter the fourth year of the apocalypse now. After the apocalypse, even people who have not been infected by the zombie virus will die because of lack of clothing and food. Li Tian suspected that in addition to the original members of the Martial Artists organization in Jingdong City, he did not know if any humans survived.

Honda said very seriously: "Yes, it's saving people! It's my granddaughter Feng Zelina."

"Actually, it's all my fault. Before the end of the world, I was elected as the deputy curator of the book group. I invited my granddaughter Feng Zelina to come here to see me. She was discovered by the scouts and invited her to appear in the film who knew that she was on the way."

"You know that I'm a government official in the Dongying island country. How can I let my granddaughter perform that kind of film? So when she consulted me, I was severely reprimanded by me, but she couldn't listen to me. If I did, I signed a contract with that film company called JD.com, and starred in the film."

"A few days before the end of the world broke out, I was driven away when she came to see me, who knows that we have never joined since then, so I beg you to go to JD.com to rescue my granddaughter. As long as you can rescue her, I will tell you the specific address!" Honda said.

"Old Mr. Honda, it's been more than three years in the last days. I'm afraid your granddaughter..."

Li Tian was interrupted by Honda before he finished speaking.

"I know, maybe she has become a zombie, maybe she has..., but I am her grandfather, if I didn't drive her away, maybe we are still together now."

"This is the heart disease of my whole life, so no matter what the result is, I am mentally prepared, so please be sure to save her once. Even if the final result is not what I want, I will tell the address. Yours!" Honda said.

Li Tian wants to agree to Honda's request, but where can I find this company that is not hot in JD.com in such a big city? Besides, how could Li Tian know the address of the company that made this kind of film?

Li Tiangang wanted to refuse, and Goto reached out and pulled Li Tian, and said with some embarrassment: "Lord Li Tian, in fact, I...I used to be an actor in the sea before the end of the world, and I was fortunate to have filmed in this film company. So I know the shooting address where Jingdong is not hot, but I don't know where it is now!"

Li Tian did not expect Goto to have such a glorious history, but for Goto, who lives at the bottom of society, this is just a means of making a living.

"Okay, let's start now, no matter what the result is, we have to give Mr. Honda an explanation!" Li Tian said.

Leaving the National Diet Library, this time Li Tian and the others drove the car towards Shibuya. Goto pointed out that Li Tian and others quickly got on the Shibuya Line.

Shibuya District is close to Chiyoda District, so this distance is not too far, and although the streets are full of damaged cars after the end of the world, there is no traffic jam.

The car flew in less than an hour before Li Tian and others arrived in the Shibuya area. After getting off the Shibuya line, the car's speed dropped. To Li Tian's surprise, the zombies here seemed to have completely adapted to the life of zombies. , The zombies on the street are walking around like a road, and you can see the zombies coming in and out of the store from time to time.

What made Li Tian feel even more novel is that there is even a power supply in this area, which is completely unimaginable after the end of the world.

"After three years of doomsday zombies in Jingdong City killed each other and swallowed the survival of the fittest, the number of zombies in Jingdong City has dropped sharply, probably less than one-tenth of what it was before the doomsday. Now the lowest level of zombies in Jingdong City is also above level 9. ."

"After the fierce warriors ruled Jingdong City, they began to gradually restore the order of Jingdong City. The first restoration was the order of the Central District and Shibuya District, so now we will see these zombies as if they are humans in the last days. Life in the city."

"However, zombies are zombies. Although these do not dare to violate the wishes of the warriors, these high-level zombies often escape from the Central District and Shibuya District to hunt other zombies. So we must be careful in a while!" Said Fuji.

Li Tian didn't expect the fierce warrior to have such an ability. No wonder that the three corpses were helpless when they came to Dongying Island. However, Li Tian also knew that the zombies in the Central District or Shibuya District were more like the zombies in Fukuoka City, and they were just labors organized by warriors.

The appearance of Li Tian and others' cars alarmed many zombies, but those zombies seemed to be used to it, so they did not chase Li Tian's car like zombies in other areas.

Li Tian drove the car on the wide street. Soon Li Tian discovered that there were two cars coming side by side on the front, and the sign on the car was the sign of the warrior.

"It seems that the news that the fierce martial artist was killed by me has not been sent back here, otherwise the members of these fierce martial artist may have been swallowed by the zombies" Li Tian thought.

The two cars immediately blocked the way of Li Tian and others after seeing that there were no signs on Li Tian and Tang Xiaolong's cars.

From the car, a few men wearing martial arts costumes and martial arts long swords will surround Li Tian and Tang Xiaolong's car, and yelling, "Baga! Don't you know that the ruling martial arts are not allowed in the area? Are the zombies driving cars? Get out of me!"

Goto looked at Li Tian with fear in his heart, a little at a loss.

The appearance of a small zombie like him in this Shibuya area was originally an act of dying, plus Li Tian and others he no longer knew what would happen next.

"Lee... Master Li Tian, you must restrain yourself. This is the Shibuya area. It is conservatively estimated that there are hundreds of thousands of zombies above level 15. If... if..."

"I understand! We just get off!" Li Tian said.

Li Tian opened the car door, and as soon as he pushed the car door and walked out, a warrior attacked Li Tian heavily with a scabbard, but Li Tian easily grabbed the scabbard.

On the other side, Goto had no such good luck, and was directly knocked to the ground by a warrior. But after all, he is a ninth-level zombie, and it doesn't hurt even after a few hits. His fall to the ground has a great acting element.

And Tang Xiaolong's violent temper kicked the warrior who was in front of him with one kick before the warrior attacked him.

Fortunately, Tang Xiaolong did not launch his ten-fold refining attack power, otherwise he would be able to kick this warrior to pieces with one kick.

Seeing that Li Tian and others were so arrogant, a man finally stepped down from the car of the martial artist in front of him. The man sneered and said, "You dare to be wild on the territory of the martial artist. Are you brave enough? The zombie army of 180,000 fierce warriors in the valley is the enemy?"

Li Tian motioned to the others not to speak, and quickly apologized to the man: "I'm really sorry, my brother was reckless. We are bounty hunters who strayed into the Shibuya area. We definitely don't dare to make enemies with the warrior organization."

"Hmph, now I know it was wrong, it's too late, take them back to me!" The man said with a sneer.

Chapter 4078: : Can't come back

Li Tian's most annoying thing is that these ninjas and warriors can control the zombies after coming to the Dongying island country, especially the current martial arts organization. They can now say that they have a monopoly on the high-level zombies of the Dongying island country, and these zombies are fast changing. It became their corpse of zombies.

It would be unwise for Li Tian to do it now. Although there is a space for Li Tian and others to avoid it, there are hundreds of thousands of high-level zombies here after all, and Li Tian can't always hide.

"Don't resist, wait until we get to the place and do it! If you do it now, it may be a little troublesome!" Li Tian said to the other people behind him in Chinese.

"Shut up, dare to say one more word, be careful that I cut your tongue!" A warrior didn't know what Li Tian was talking about, threatening with a long knife in his hand.

Li Tian and the others did not resist, even Situ Ningbing and Xue Ji's sword sniper rifles were taken by these warriors, and they did not resist.

Now these warriors are even more triumphant.

Under the **** of these warriors, Li Tian and others were quickly taken to a building with a height of more than 20 stories. This building is the branch building of the warriors organization in Shibuya.

Those warriors involuntarily pushed Li Tian and others into the building and brought Li Tian and others to the meeting room on the second floor of the building.

When he got here, Li Tian knew he was safe, at least he wouldn't be besieged by zombies.

A slight sneer appeared at the corner of Li Tian's mouth, completely ignoring the warriors, and moving his bones and bones to ask Goto: "How far is it from where you said Jingdong is not hot?"

Goto's voice trembled and said, "No... not too far away, but is it the time for your lord to say this? We are now in the branch building of the Fierce Warrior!"

The man who looked like a small leader kicked Goto angrily and said, "Baga, since you know that you are not honest in the Martial Artist Organization?"

"You guys, lock up these stinky men for me and wait for the adults to come back for interrogation. As for these two beauties, hey, take them to my room, and I will interrogate myself!" The little head said with a lewd smile.

"My lord, my lord, where are we?" The other warriors swept back and forth on Situ Ningbing and Xue Ji, their eyes filled with lustful light, and the corners of their mouths were full of halazi, and said anxiously.

"What is the urgency? When I finish the interrogation, I will naturally ask you to interrogate one by one. Then I will call James over and ask him to make a small movie of your interrogation, so that the brothers of the Martial Artists organization can watch it. Up!"

"Of course, I will come to Japan. After the interrogation of our brothers in Shibuya district is completed, we will send these two beauties to Chuo district and let the other brothers continue their interrogation!"

The little leader man laughed lewdly after speaking, while the other warriors laughed lewdly with the little leader.

"My lord, can we just call James over now, brothers have not enjoyed this kind of freshness for a long time, so don't let the brothers be stumped anymore!" said one of the warriors.

"Yes, let's go now. Oh, yes, let James bring a few more zombie chicks he controls. Maybe this time he can shoot a masterpiece from the past!" said the leader. .

The samurai led the command and immediately turned around excitedly and went downstairs after running a few steps, as if he would miss a good show if he ran slowly.

Fortunately, Situ Ningbing and Xue Ji did not understand what the little leader said, otherwise the little leader might have moved his head even if he could not finish his words!

At this time, Li Tian was already angry.

When Li Tian's mind moved, a red light flashed out of his body, and the red light was like red lightning directly across the necks of the two warriors standing beside Li Tian.

Gululu, the two heads fell to the ground in an instant, and they rolled forward for more than a meter, and the neck that had lost the head immediately began to spray out blood continuously.

Li Tian teleported and appeared behind the little leader, and "Red Slash" flew in front of the little leader with Li Tian's mind control.

As soon as Li Tian started, Tang Xiaolong, Situ Ningbing, and Xue Ji did not hesitate to make a move. When Goto reacted, only the little leader was still alive in the living room.

Goto especially wanted to behave in front of Li Tian, and roared: "Lord Li Tian let go, this ***** will let me come!"

Speaking of Gotō's two arms had become two sharp white bones, he wanted to pierce the little head's chest, and at this moment, Li Tian's "red cut" flashed, and Goto The two long bones of thorns were directly cut off.

Li Tian said: "Goto, you have to remember your identity. You are just my spokesperson in the zombie world. Don't act without my permission!"

Although Li Tian's tone was calm, Goto heard that his scalp was numb and his back was sweating.

"Big...sir, I got it wrong! I really want to behave..."

"It's because I know you want to behave, so I'm being merciful. Otherwise, your head has already moved!" Li Tian said.

The little leader was frightened by the situation in front of him, but as a member of the Martial Artists organization, he still had a sense of arrogance in his heart, and said in a trembling voice: "Then do you know what you are doing? Musha Shibuya branch! When the adults come back, you will all be beheaded mercilessly!"

"My lord? Is it a fierce warrior?" Li Tian said disdainfully.

Speaking of the fierce warrior, the little leader's flustered heart gradually calmed down, and said with a sneer: "What are you guys, do you still have to take the fierce warrior? The fierce warrior has now gone to Xijiuzhou to deal with Li Tian. . But even the fierce warriors and the dead ghosts will

be enough to deal with you, right? If you know, let me go as soon as possible. Now it's too late for you to escape!"

Goto came to the little leader, his arm had changed back to the shape of a palm, and he slapped the little leader's face twice, then bent his bow and pointed at Li Tian and said, "Blind. It's your dog's eye, do you know who he is? He is the Lord Li Tian that the fierce martial artist will deal with!"

"Li...Li Tian, hahaha, Li Tian, you still have time to come here now. I am afraid that the current West Jiuzhou Island has fallen into the hands of our fierce warriors. Maybe your wife and women are..."

"Snapped!"

"Snapped!"

There were two louder slaps. When these two slaps went down, the little leader's mouth had seven or eight teeth. This time it was Li Tian.

"The fierce warrior can't come back anymore!"

Chapter 4079: :meet again

The little leader was completely frightened, and said in a trembling voice: "No...impossible! How could Lord Martial Artist lose? You must have lied to me!"

Li Tianke didn't explain it to him elegantly, and said with a sneer: "Since you are a small leader of the fierce warrior, you should be very familiar with this Shibuya district. I now want to find a man named Feng Zeli. Na's girl, she didn't work hot on Jingdong before the end of the world. If you can help us find her, maybe I can consider letting you die!"

When this little leader saw Li Tian's refusal to answer directly, he concluded that Li Tian and the others were lying to him, but now that he is still in Li Tian's hands, he doesn't want to die easily.

When he heard that Jingdong was not hot, a sharp light flashed in his eyes.

"JD is not hot, JD is not hot, I know, the address of their film and television company is in Shibuya district, their current boss James will be here soon, you can ask him at that time. But..."

"But you may not know, the production company will give them a new stage name after their debut, so I don't know if the name you are talking about is a real name!"

Seeing that Li Tian's eyes were not good, the little leader said immediately: "But don't worry, as long as you are from JD.com, a film and television production company, you can look for James! Now... can you let me go now?"

Li Tian said with a sneer: "Since you can find James, then it seems that you are useless..."

Before Li Tian finished speaking, he suddenly smelled a foul smell, and a yellow gas floated from the body of the little leader. In addition to making people feel sick, the foul smell even made people feel sick. It makes people feel dizzy.

It turned out that this was the little chieftain's ability to escape. Taking advantage of Li Tian's carelessness, the little chief rushed out the open door like a weasel.

Li Tian and others reacted quickly, and immediately chased them out.

Without chasing out a few steps, the little leader returned, and this time there were three men behind him, but they were the remaining three fellows of the Four Fierce Warriors.

With the help of these three guys, the little head collar has a proud expression on his face, and even the way he walks is full of feelings of beating.

"Aren't you very arrogant just now? You actually have the ability to come to our savage warrior Shibuya Division to kill our savage warrior, I will let you know how to write the death word now!" the little chief said arrogantly.

This little boss has capital so arrogant, the three behind him are the strongest existence under the fierce martial artists in the fierce martial arts organization, although the third of the fierce martial arts generals died during the last mission. But the strength of the remaining three of them is already very powerful!

The corner of Li Tian's mouth turned upwards slightly and said, "Really? How do you write dead words?"

The little leader's expression stiffened slightly, and he said with a sneer: "Do you know who is behind me? The three of them are the famous four ghosts and heroes. There are countless deaths in their hands. Wait. For a while, I believe the three of them will be very willing to teach you how to write dead words!"

Because Li Tian stood in the backlit place, and the light shone from behind Li Tian into the corridor, so the remaining three of the four fierce fighters had not seen Li Tian's face clearly.

"Yes, the kid dared to come to our martial arts organization to make trouble, now let me teach you how to write dead words!" The boss of the four fierce warriors was speaking.

The boss rushed towards Li Tian's direction before he even finished speaking. The murderous aura on his body had been completely released, and the air in the corridor seemed to stagnate.

At this moment, Li Tian slightly raised his hand and said to him: "Yeah, we meet again!"

"Meet again? What does this mean? Didn't Li Tian fight against the four evil spirits? If they did, he should know that these four ghosts are amazing, but why didn't he run?"

Just when the little leader still had doubts in his heart, the boss of the four evil spirits finally saw Li Tian's appearance clearly, his face showed a horrified expression, as if he was a ghost, not yet. He rushed to Li Tian and turned around and wanted to escape.

However, everything is too late.

A teleport of Li Tian had appeared behind him, and Li Tian's hand had a silver spear in an instant, and there was also a purple electric snake on the spear.

"Brother, run away!" The other two guys exclaimed when they saw the Qiong Spear of the Sky in Li Tian's hands.

It's a pity that their voices are not over yet. Li Tian's spear from the sky has pierced into the back of the ghost boss, and the purple electric snake flashes. The boss's body explodes, and when the flesh and blood fly across. That TV swallowed a lot.

Anger, fear, despair.

The little leader only felt the remainder of the explosion reverberating in his ears. He had completely lost the ability to think, let alone escaped. He sat on the ground and muttered to himself expressionlessly. Said: "This...this turned out to be true!"

To say who the four evil spirits are most afraid to see, then Li Tian is definitely number one.

This despicable and shameless guy deceived the old third's feelings at the beginning, and killed the old three of the ghost generals in a single encounter, but they were completely helpless.

Now that the boss died, the remaining second and fourth had already lost the courage to fight Li Tian. They kicked the little leader who was sitting on the ground and turned to Li Tian and fled.

A red light flashed in front of Li Tian, "Red Zhan" directly split the little leader's body in half.

However, Li Tian cast several teleports in succession, and instantly caught up with the second and fourth ghosts, and blocked them.

"Li...Li Tian, do you really want to kill them all? Don't you be afraid of the hundreds of thousands of zombie army under the control of our fierce warriors organization?" The second ghost general retreated while blocking the fourth old ghost and said.

Afraid, why not be afraid.

The manpower is exhausted, and now Li Tian is strong and it is impossible to kill those hundreds of thousands of high-level zombies.

But how could Li Tian give them this opportunity?

There is no need to say anything, Li Tian didn't want to give them a chance to survive. He flashed forward, and with the spear of the sky in his hand, he directly pierced the long knife in the old hand of the ghost general into his chest.

The purple electric snake swam around and instantly swallowed the ghost cock.

The ghost general fourth did not dare to face Li Tian, and rushed towards Tang Xiaolong and the others.

In his mind, Li Tian might be a master at the same level as the fierce martial artist, but as for the woman, black monkey, and ninth-level zombies in front of him, he regarded him as nothing.

Seeing that the black monkey was actually blocking him, the long knife in the hands of the old fourth ghost had already slashed towards the black monkey.

"go to hell!"

Tang Xiaolong also shouted out such a sentence.

"boom!"

Chapter 4080: : Zombie Legion

The iron fist and the long knife intersected and made a metal-like crash. The ghost general saw that the steel blade of the long knife in his hand curled instantly as if it were made of aluminum. Then there was a clear sound from the long knife. Broken in the middle.

Tang Xiaolong's iron fist was unstoppable, and after smashing the long sword, it fell heavily on the body of the ghost general fourth.

"boom!"

There was a crisp sound of broken bones in the old fourth ghost's body, and then his body was directly blown out by Tang Xiaolong, and flew towards Li Tian's position.

Li Tian's heart moved, "Red Zhan" had already greeted him.

"Huh!"

The red light of the knife flashed, and the old fourth ghost's body was cut in half by "Red Slash" just like the body of the little chieftain. Blood was splashed, and the internal organs were completely cut by "Red Slash". In an instant it was filled with a foul smell.

Goto felt his heart beating fiercely, even if it was a zombie, he felt that his blood was already boiling.

"These are the four fierce and martial generals. It is a resounding character in the entire Jingdong city. Not to mention the little zombies I have. Even the seventeenth or eighteenth-level zombies have only hearts when they see the fierce and martial four ghosts. Shockingly scared, but Master Li Tian and the others even started the second directly, it was a complete second!"

It seems that the four evil spirits will have no resistance in front of Li Tian and others. It is mainly because Li Tian's strength has surpassed them by far, and the other willingness is that the four evil spirits have a heart for Li. The fear of the sky made them dare not confront the head and tail but chose to flee, which is why Li Tian's second kill was formed.

"Little Dragon, Ning Bing, and Xue Ji started to clean up the entire building and none of them were allowed to be let go. Little Hot Pot and I went to block the gates of the building to prevent someone from running out to manipulate zombies and causing a tide of corpses to attack us!" Li Tian said.

Goto pointed to himself and said, "O...sir, what about me? What can I do?"

Li Tian glanced at the corpses all over the floor and said: "Take these corpses away, I believe you can!"

For the zombies, this should be regarded as a fat man, but Goto felt a little frustrated when he thought that there were corpses everywhere in this building, but since Li Tian chose to believe him, Goto could only force himself. Completed the task set by Li Tian!

Li Tian also summoned the small hot pot from the space of Void Yacha, and then Li Tian quickly came to the lobby on the first floor with the Qiong Spear of the sky.

On the sofa in the hall, there were some samurai lying arrogantly. When they saw Li Tian, these samurai had a dazed expression, but this dazed effort was enough to make them lose their lives.

"Huh!"

"Huh!"

"Hong Zhan" has been slashed consecutively. These samurai were killed by Li Tian without even having a chance to pick up the katana. Li Tian controlled "Hong Zhan" and returned to his hand, in the clothes of these corpses. It wiped off the blood on the "Red Chop", and then said: "Small hot pot, burn these corpses for me, but remember not to light this house! We have to wait here for the guests who are not hot in Kyoto. !"

The magma in the body of the small hot pot is his body, and the magma is just like his body, how could it have set the building on fire.

Put those corpses on the floor in the center of the hall, the small hot pot stretched out their palms and placed them on top of the corpses, and instantly the palms began to melt, and magma dripped from the palms, the hotter magma lowered and faster as if it was because the water pipe was cracked, and it took only a few seconds to completely cover the corpses.

Then, the corpses disappeared completely in the magma with a slight cracking sound, and then the small hot pot pressed his arm on the top of the magma, and the magma gradually retreated back into the small hot pot as if it was a backflow of water. Disappeared completely in his arm.

Seeing the hand exposed by the small hot pot, Li Tian thought of Huangfu Kunpeng in his heart.

When Feitian Yacha came back, he also brought back Huangfu Kunpeng's message. Through this message, Li Tian could feel that the situation of the domestic Chinese Army Corps facing the Three Corpses and the zombies controlled by the Three Corpses was not optimistic.

In particular, Chairman Zhou of the Agricultural and Commercial Association defected to the south, making the current domestic situation even more complicated.

Lack of food is a major issue, even if Li Tian merged the heavens into the army soul legion, even if he contributed all the food in the area controlled by the heaven legion, this is still a drop in the bucket.

When Feitian Yacha came back, he also brought back a letter from the old man Mu Yunlong. Although the old man's letter didn't say it clearly, he still wanted Li Tian to return home as soon as possible.

Li Tiandao didn't want to go back. It's just that although Dongying Island Kingdom has eliminated the Martial Artists, the remnants of the Martial Artists Organization are still there, and if Li Tian leaves Dongying Island State now, Li Tian is worried that Duanmu Ying may not be able to deter others. Family and organization.

"Wait a little longer. When I return from this expedition, I will cultivate some cronies and leave them to Duanmuying. Then I can leave with confidence." Li Tian's new center thought.

Thinking of this, Li Tian suddenly thought that since fierce warriors can control the zombie army, why can't he leave a zombie army for Duanmuying to drive?

You know Li Tian is a man with nine-color corpse crystals.

When the nine-color corpse crystal is in the form of a corpse crystal, the released transparent silk thread can already control the twelfth and third-level zombies, but now the nine-color corpse crystal has become a nine-color corpse lotus, and it should be that the level has changed. High, it shouldn't be difficult to control zombies above level 15.

Li Tian couldn't help getting excited.

"It was so happily decided! If we can leave Duanmuying with a team of 1,000 zombies above level 15, plus the small Tianyi who cultivates the corpse script and the mutant bat squadron, no one can hurt them. ! I can go back to China soon!" Li Tian said to himself.

At this time, Li Tian couldn't wait to experiment.

Walking out of the building, Li Tian called Feitian Yasha with his heart, Feitian Yasha flew into the sky and looked for Li Tian in the sky, and the nine-color corpse lotus in the pond in Li Tian's heart instantly released a thousand transparent silk threads. It rushed out quickly to the surroundings.

There are zombies above level 15 everywhere in Shibuya. Feitian Yasha can accurately locate Li Tian in the sky, and the transparent silk thread can accurately reach the designated place just like a wireless signal.

The first zombie Li Tian stared at turned out to be an eighteenth-level zombie, and the transparent silk thread appeared in front of the eighteenth-level zombies, and the zombie was also unconscious.

In the next second, the transparent silk thread has entered the head of this eighteenth-level zombie. This zombie seems to have discovered something. His head kept twisting and looking around, but how could he see the distance close to a kilometer? Where's Li Tian.

The transparent silk thread has begun to wrap around the corpse crystal in the head of this eighteenth-level zombie. With the passage of time, this eighteenth-level zombie is getting more and more irritable. It seems that it is not so easy to control this eighteenth-level zombie.

Li Tian said to himself in his heart: "It seems that there is still some reluctance to control the eighteenth-level zombies..."

But at this moment, the eighteenth-level zombies suddenly became quiet, and their eyes suddenly looked in the direction where Li Tian was, like a puppet waiting for Li Tian's order.

Li Tian's face finally showed a hint of joy.

"It's finished! The Zombie Legion is finally finished!"
