

A Killer 4101

Chapter 4101: : To the ghouls again (1)

With the roar of the ghouls, Li Tian felt a powerful pressure descend from the sky, and this pressure instantly fell on Li Tian's body.

Li Tian could no longer move.

"Hey, boy, I was deceived by you at the beginning. I thought that you would almost reach the realm of venerable in an instant. I didn't expect that you were just a guy who didn't even reach the realm of a cultivator. Today I will let you taste the weight of the cultivator realm, the place that made you die!"

There was a frantic smile on the ghouls' face, and an arm had pierced Li Tian's neck like lightning.

In the Netherworld, the skill of actual combat weight is used to measure whether you have reached the realm of cultivation, and if you want to reach the realm of venerable, you must have the skill of combat instant.

Instant, is instantaneous movement.

Of course, the teleportation of the Venerable is much more powerful than that of Li Tian. Even the first-level Venerable can move dozens of kilometers with a teleport, and the advanced Venerable can use the teleport to move on the Venerable himself. Moving arbitrarily in the kingdom of, such a venerable can easily kill the cultivator in a flash even with the skill of the moment.

Moreover, the teleport of the Venerable is instant, as if his mind moves away instantly, unlike Li Tian's teleport, which is a fake teleport created by using the void space of the Void Yaksha.

Of course, the reason why the Venerable is powerful is not only because of the skill of a moment.

The power of the venerable is to suppress the cultivator in all aspects. If you use numbers to describe the cultivator, then the cultivator level is 19, and the venerable level is 100 to 999.

It's not a level at all.

Take the same skill as the weight, the weight that the venerable cast is also far stronger and the weight used by the cultivator. The weight of the venerable is not only to control the movement of the human body, but can even kill people directly. Once he comes to the earth world, once he uses this skill, the powerful pressure can only be reluctantly resisted by masters in the realm of cultivators, and people below the realm of cultivators will burst and die by the oppressive body of that pressure.

Moreover, the level of heavy cultivator cast by the Venerable cannot be broken at all.

This is suppression.

Therefore, there seems to be a huge gap between the netherworld cultivator and the venerable. There are countless cultivators who want to cross this gap, but the number of cultivators who can cross the nether world is boring.

And the three corpses who were forced to be forced by this gap had been blocked from the threshold of the venerable thousands of years ago.

Li Tian didn't know here, and the little hot pot didn't tell him the difference between a monk and a monk.

Of course, Li Tian is not facing the Venerable, but the ghoul.

A slight sneer appeared at the corner of Li Tian's mouth. He didn't have any intention of avoiding the attack of the ghoul. Seeing that the ghoul's arm was about to attack him, it was time that Li Tian gave a sudden shout.

"weight!"

As a powerhouse on the sixth floor of the cultivator, Li Tian said that Li Tian and the ghoul are half a catty in terms of this skill. In an instant, Li Tian's weight broke through the ghoul's heavy attack, and Li Tian's hand was the spear of the sky. With a violent shake, he directly pierced the ghoul.

A sneer appeared in the ghoul's eyes, as if he had already realized that Li Tian was pretending, so even if Li Tian's Qiqiong spear attacked suddenly, there was no panic on the ghoul's face.

boom!

The ghoul's palm slammed on the Qiong Lance of the sky. His body spun a few times in the air and fell to the ground. He sneered and said, "Li Tian, you really have reached the realm of a cultivator. No wonder Dong Ying. There has been no news from the island country for a few months. It seems that the commander of the Korean army is not good enough, right? Those Dongying ninjas are also the same?"

"Don't guess, Chao has been killed by me, and those Dongying Ninjas will either be killed by me, or they will all take refuge in me!" Li Tian said.

"Tsk, this is the strength of the cultivator level. I am afraid that the Dongying Island Kingdom has become your personal possession of Li Tian, right? Those altars of the Dongying Island Kingdom have also been destroyed by your Li Tian sent people? Very good, Very good! Then let me learn about the strength of your Li Tianxiu!" said the ghoul.

Speaking of the ghoul, rushed towards Li Tian again.

The speed of the ghoul is extremely fast, and the explosive power at that moment far exceeds that of the ghoul Li Tian encountered last time in Kyoto. It can be seen that in the past few months, not only Li Tian is improving, but the ghoul is also improving. And the progress of the ghoul seems to be no worse than Li Tian.

"Huh!" Li Tian snorted coldly on his legs, and rushed up to the ghoul.

In an instant, the two trembled together, fist to fist, leg to leg, Li Tian could feel that the speed, strength, and explosive power of the ghoul was no worse than him, and even the ghoul in the faintly was stronger than Li Tian, but Li Tian had Tianhaiqiong spear in his hand so that even if the ghoul took advantage, he would not dare to get too close to Li Tian.

Suddenly, Li Tian and the ghouls were evenly matched. Li Tian showed his weight. The ghouls could also break Li Tian's weight instantly. Through this, it can be seen that the ghoul and Li Tian were from the same monk. realm.

boom!

boom!

In this case, only the zombies onlookers will suffer, and Li Tian deliberately or unintentionally led the battle to those zombies group.

And Li Tian also unreservedly continued to use Broken Soul Palm or Broken Soul Fist. This was to force the ghouls back, and the second was to injure those zombies.

On the wall of Nanhui City, Li Hu's chin was about to fall off. He did not expect that Li Tian's strength was already so strong that he had fought with ghouls for more than ten minutes, but Li Tiansi did not lose sight. , Even Li Tian's occasional teleportation can still threaten the ghoul.

Huangfu Kunpeng led the army finally arrived at Nanhui City. Hundreds of tanks had been parked on the wall, artillery and guided missile vehicles were on standby in the open areas of the city. As long as Huangfu Kunpeng ordered a counterattack against the zombies.

"How is it?" Huangfu Kunpeng came to the wall and said to Li Hu.

Li Hu saluted Huangfu Kunpeng, and then said: "Master Li Tian is now fighting with the ghouls. Because of Master Li Tian, the attacks of the zombies are not very crazy. For the time being, we can still resist it."

Huangfu Kunpeng's line of sight has fallen on Li Tian.

"I really didn't expect that in just a few months, Li Tian has reached this level. If he and the ghoul are singled out, he will not lose the wind. But Li Tian, you have to be careful. There are still ghouls. The trick hasn't been displayed yet!" Huangfu Kunpeng thought in his heart.

Chapter 4012: : To the ghoul again (2)

As he spoke, the battle scene changed instantly. Li Tian saw a flaw in the ghoul. The spear of heaven in his hand suddenly pierced into the body of the ghoul, and the purple electric snake was about to attack the body of the ghoul. Among.

"Hey!" The ghoul sneered, his body turned to the back, and the spear of Heavenly Qiong slashed across the ghoul's chest, only torn the ghoul's clothes, and did not hurt the ghoul.

However, at this moment, seven or eight flying insects flew out of the body of the ghoul. Each of these flying insects was the size of a basketball, and the body was still shining with black metal-like luster. After these flying insects flew out Flocking to Li Tian, the wings of the flying insects touched the Qiong Lance of the sky, and immediately heard a metallic crash.

Li Tianjiang picked the Qiong Spear of the Sky and directly flew out the seven or eight flying insects.

Huh!

Huh!

Li Tian saw that the wings of these flying insects were as sharp as blades. As soon as they landed on the zombies, the flapping of the wings of the flying insects instantly stirred the bodies of those zombies into a pile of flesh!

Li Tian couldn't help taking a breath.

Even if the level of those zombies were not very high, the flying insects were too powerful, as long as Li Tian was not careful, these flying insects might injure Li Tian.

"Hey, Li Tian, haven't you killed a few corpses of me? Tell you these are the flying worms that the corpse worms metamorphose into. These flying worms are invulnerable to fire and water. Even a level 20 zombie may not be able to attack with bone spurs. Pierce the shells of these flying insects!"

The ghoul said triumphantly: "At the beginning, Huangfu Kunpeng had an arm cut off by my bug because of carelessness. Fortunately, he escaped fast, otherwise he would die in my hands!"

Even if the ghoul didn't say anything, Li Tian knew how powerful these flying insects were.

Li Tian didn't dare to be careless, and took "Red Cut" in his hand, shouted a knot, let "Red Cut" and Nine-Colored Corpse Lotus combine to form a skin armor and a phantom of sword spirit outside his body.

In this way, as long as the flying insects flew three meters around Li Tian's body, Li Tian could react in time.

But at this moment, Feitian Yasha was finally exhausted, his dark cage lost its function, and the hundreds of thousands of zombies controlled by the dark cage rushed over.

Fortunately, at this time, Xingyacha and the Void Spirit Race had completed the construction of Wengcheng, and the Earth Xingyasha came to Li Tian through the escape technique.

"Master Li Tian, there are too many zombies, hundreds of thousands of zombies have passed through the river and surrounded Nanhuai City from the east and the west. Fortunately, Huangfu Kunpeng has entered Nanhuai City, and now Nanhuai City has no worries for the time being. , But there are too many zombies here, let me use a quicksand storm to clear some zombies for Master Li Tian!" Dixing Yasha said.

Said that the ground travel yasha had already begun to use the quicksand storm, with the addition of the ground travel yasha, it was only the battle between Li Tian and the ghoul that was instantly broken.

The yellow sand was flying all over the sky, and a huge tornado rose up from the ground. As the quicksand storm began to sweep through, zombies were constantly being drawn into this quicksand storm.

It can be said that where the quicksand storm went, the zombies had no resistance at all, they were swept in and then thrown out to the ground.

Even if these zombies are not dead, most zombies will be thrown to pieces, and even the bodies of some zombies will be shattered, rendering these low-level zombies incapable of action.

In just a few tens of seconds, tens of thousands of zombies were swept by the quicksand storm and lost their ability to move. Moreover, the quicksand storm cast by the ground travel yaksha this time, as the storm moved, dust continued to fly out of the storm. Cover the zombies that have lost the ability to move with dust, as if to bury those zombies in an instant.

"This...is this the skill that Li Tian used when he destroyed Nanzhou? It's... it's too powerful!" Li Hu couldn't help but admire when he looked at the quicksand storm.

Humph!

The ghoul snorted coldly, and a coercion fell from the sky. The coercion pressed the quicksand storm, and instantly caused the quicksand storm to fly away.

And the ghoul's figure had already arrived on the ground where the earth travel yasha was located in a flash, stretched out his arm and grabbed it under the ground forcefully.

"You come out for me!"

The ghoul's arm slammed on the ground, as if a dragon was absorbing water, it actually grabbed an earth dragon from under the ground.

Fortunately, Di Xing Yasha continued to cast his escape technique underground when he felt the quicksand storm was destroyed, and fortunately escaped the attack of the ghoul.

"Cunning little thing, if you run away fast, next time I will not let you escape easily!" The ghoul said with a sneer.

In this way, Jixing Yasha became a frightened bird, and he did not dare to act rashly.

At this time, Li Tian was still fighting with the seven or eight insects.

These flying insects are really too flexible, as if seven or eight flying swords are attacking Li Tian around Li Tian. Fortunately, Li Tian has the shadow of a sword spirit, but it is not injured, but Li Tian can't easily injure these flying insects.

Even if the purple lightning swam above Li Tian's Qiong Lance of the Sky, as long as the purple lightning could not touch the flying insects, Li Tian would have nothing to do.

Moreover, Li Tian's "Red Slash" seemed to have lost the urge to kill these corpse insects, so Li Tian could only deal with these flying insects by himself.

"You must think of a way to kill these ***** flying insects, or else you will be too passive!" Li Tian thought in his heart.

The ghoul rushed out and sneered at Li Tian and said, "Li Tian, do you know why our three corpses suddenly started to fight back against the human stronghold?"

The ghoul said so many things that Li Tian did not respond to him like that, but the ghoul continued to say to himself, "Tell you, there are several reasons. The first reason is that you should have found it in Dongying Island. Now, we need to build a huge kingdom of zombies. We need to let those zombies and humans believe in our three corpses in order to gain the power of faith. But you have occupied the Dongying island nation and destroyed those altars. We have to speed up Domestic development believers."

"Secondly, Don Feifei is the most fancy puppet of the corpse, and now the corpse has reached the sixth level of the cultivator, he can control the puppet perfectly, and Don Feifei is the most fancy puppet of the corpse, so we only I can lead you back! I didn't expect you to bring Don Feifei back, hehe, now compared to Don Feifei, she has fallen into the hands of the corpse!"

"Don't worry, the corpse is first-rate puppets. A waste corpse like Tang Zheng can be made into a puppet with a combat power of over 20, and once the best puppet like Tang Feifei is made into a puppet, then her The power can reach at least the level of the seventh or eighth level of a cultivator!"

Hum!

Li Tian only felt dizzy in his head.

"No, there must be a quick fight!"

Chapter 4103: : To the ghoul again (3)

Li Tian suddenly used his weight, so that the zombies surrounding him were overwhelmed instantly. During this period, Li Tian summoned the mutant crow and jumped on the back of the mutant crow, causing the mutant crow to fly toward the south. .

"Want to go? It's not that easy!" The ghoul said with a sneer.

Another seven or eight corpse insects flew out of the ghoul, mixed with the previous seven or eight flying insects and chased the mutant crow, while Li Tian stood on the mutant crow and used the spear of the sky to constantly attack these flying insects. insect.

Huh!

Huh!

Li Tian's Heavenly Qiong Lance constantly picks up those flying insects, but those flying insects seem to be able to feel the danger. Every time they are picked up by Li Tian's spear, the handle is not stabbed, and those flying insects After being picked up, he shook his head and chased him up again.

Li Tian didn't care, now his purpose is to attract ghouls out.

Sure enough, Li Tian saw the ghoul jumped on a zombie horse and was chasing him on the ground.

In this way, Li Tian was relieved.

The mutant crow flew for nearly ten minutes, and the flying insects couldn't hurt Li Tian at all. On the contrary, Li Tiandao caught a few opportunities and killed six of those flying insects with the spear of the sky and the purple electric snake.

At this time, Li Tian and the mutant crow were already far away from Nanhuai City.

In the distance, the direction of Nanhuai City is full of artillery fire, there are constant loud noises coming from the direction of Nanhuai City, and heavy smoke is constantly rising from the direction of Nanhuai City. It is conceivable that Nanhuai City has now become a real battlefield. Although the number of zombies led by the corpse is huge, it is definitely impossible to attack Nanhuai City under the defense of Huangfu Kunpeng, Long Yin, and the old man Wuji.

And the heavy firepower of the Army Soul Legion would definitely have a devastating blow to those low-level zombies.

With the sound of horseshoes, the ghoul chased Li Tian.

Li Tian's goal has been achieved and he won't be fleeing. After receiving the mutant crow, he jumped to the ground and stood with a gun. A few flying insects who knew nothing about life and death came to attack Li Tian again, and Li Tian teleported and turned around. The gun directly pierced into the body of a flying insect.

Noisy, the purple electric snake instantly commissioned the body of this flying insect. The flying insect was attacked by the purple electric snake, and it was wiped out in smoke, and there was no scum left.

"In the group of zombies at the time, my teleportation couldn't give full play to my abilities, let you fight around me, really when my Li Tian's Qingyun Qi Art is vegetarian?" Li Tian said with a sneer.

On horseback in the distance, the ghoul watched that his corpse worms had lost seven in a short period of ten minutes. These seven were completely lost. You don't need to think about the ghoul to know that these corpse worms have been Li Tian beheaded.

The face of the ghoul was full of anger.

He had a total of ninety-nine and eighty-one corpse worms, several of which had been beheaded by Li Tian's red behead before. The remaining seventy corpse worms hatched into flying worms only 21.

These flying insects are only the second form of the corpse worm, and only when the power of the corpse is constantly swallowed will it continue to evolve and become the third form of the corpse worm.

The third form of the corpse worm will change the strength of the corpse worm. The corpse worm alone has the ability of the cultivator, and the ability of the corpse will be greatly improved.

However, the plan could not keep up with the changes.

Today the ghoul and Li Tian fought again and lost so many flying insects, how could the ghoul not be angry.

"Damn Li Tian, today I'm going to twist your head off and take the red back, otherwise it will be hard to get rid of the cruelty of my heart!"

Li Tian sneered and said: "When do ghouls only talk big words? I remember that when I was in Kyoto, the situation seemed to be the same, but the final result? Oh, I think of it, your zombie's head was taken by me. Let's go! Hahaha, are you angry? Are you angry? The anger is right. If you give me a chance, I will kill all of your bugs and give your head. Cut it down!"

"presumptuous!"

It has been a long time since no one dared to speak to the ghoul like this. The ghoul standing on the horse felt that he had been greatly insulted, roared, and flew up as soon as he stepped on the body with his feet on the horseback.

The zombie couldn't bear the power of the ghoul, and his limbs broke instantly, and he slumped directly on the ground. Even the bones in the body broke a lot, and the black mucus kept flowing from the zombie's body, and The body of the ghoul has already flown over Li Tian like an arrow.

"Good coming!"

Li Tian didn't retreat but moved forward, holding the Qiong Spear of the sky and rushing forward, his right hand loosened forward, and the Qiong Spear of the sky pierced the ghoul like a blue dragon coming out of a cave.

The body of the ghoul was spinning in the air, and his feet slammed on the spear of the heavenly spear with force, and directly stepped on the tip of the spear of the spear of heavenly spear, and he had already come to Li Tian next, his left leg was like a whip. Generally draw to Li Tian.

Huh!

Li Tian moved in an instant to avoid the attack of the ghoul, his backhand was a broken soul palm. It didn't seem to be a surprise that the ghoul was evaded by Li Tian, and he slapped a palm at Li Tian's broken soul palm.

boom!

With their palms together, there was a loud noise, and Li Tian and the ghoul flew back seven or eight steps at the same time.

The ghoul's body fluttered to the ground, retreated a little on the ground, and flew back again.

"Heavy!" Li Tian and the ghoul said in unison. The two simultaneously released the skills that can only be released at the cultivator level. Their bodies were momentarily stagnated, but in an instant they broke through each other's gravity attack at the same time.

As mentioned earlier, the personal strength of the ghoul is slightly higher than that of Li Tian, but with the assistance of Li Tian and Void Yasha, Li Tian is not at a disadvantage when facing the ghoul.

The silhouettes of the two people shuttled back and forth, as if only Li Tian and the ghoul were left in the sky.

Fist to fist, palm to palm.

The explosion sounded constantly around the bodies of Li Tian and the ghoul, dusty, and a dozen large pits appeared on the flat ground in less than a minute.

However, neither Li Tian nor the ghoul can complete a fatal blow to each other.

"Is this the strength of the three corpses? It seems like that! It's no wonder that the three corpses will be crushed in Dongying Island. It turns out that your strength is not much different from the fierce martial artist, and it is not even as strong as the fierce martial artist's pressure on me!" Li Tian Said.

The ghoul snorted coldly, and said: "A fierce warrior? He also had arrogant capital a year ago. If he encounters the current corpse or corpse soul, he can kill him in minutes!"

Li Tian immediately showed a dismissive expression.

Who can't brag!

Seeing Li Tian's expression, the ghoul really wanted to blast Li Tian's head to pieces with a punch.

The ghoul slammed against Li Tian, and withdrew for more than ten meters with the power of the opposite palm. After falling to the ground, he sneered and said, "The arrogant fellow, let me tell you how much the Three Corpses are. Horrible!"

Chapter 4104: : The terrible ghoul

Li Tian didn't know how terrible the ghoul was, but Li Tian saw how disgusting the ghoul was.

When the ghoul finished saying that sentence, the remaining seven or eight flying insects flew into the body of the ghoul.

In an instant, the ghoul's handsome face began to twist, as if being torn and torn by people.

Then countless small holes appeared on the ghoul's cheek.

These small holes are only the size of a pea. The face of the ghoul is not only on the cheeks, it should be said that the whole body of the ghoul is all over, as if it has become a honeycomb of bees. Some yellow liquid that seemed to be pus was still flowing out.

A strong pungent and foul smell began to flow out of the yellow liquid from the body of the ghoul.

The appearance of this ghoul has completely changed. The handsome ghoul just now seems to have become a sticky nose, and it is still a poisonous nose.

But Li Tian felt a strong anxiety in his heart.

Hum! Hum!

Hundreds of flying insects flew out of the small hole in the body of the ghoul and flocked directly to Li Tian.

These flying insects are much smaller than the flying insects Li Tian faced just now, about the size of a fly, and the wings of these fly-like insects are shining with cold light, like broken blades. The worm's limbs are slightly yellow, and it is almost impossible to contaminate the yellow liquid from the ghoul.

Li Tian believed that if the limbs of these little things touched his skin, they would fester in the slightest, and he would be poisoned and die directly.

Li Tian didn't dare to neglect, so he put away the Qiong Lance of the sky, his palms continuously blasted out the broken soul palms and attacked the flying insects flying towards him.

It was like hitting a swarm of flies with a stone. Before Li Tian's soul-broken palm's air wave attacked these little things, these little flying insects felt the danger and instantly dispersed, and after avoiding the broken soul palm, they gathered together and charged again Xiang Litian.

boom!

Broken Soul Palm flew out and landed on the ground far away with a loud noise, but Li Tian was unable to attack these flying insects at all.

Li Tian can only use teleportation to avoid these flying insects.

"Hey, Li Tian, why are you not awesome? Now you know that you are afraid? I brought these insects from the Nether Realm. As long as you are bitten by these insects, even if you are a strong person with zombie virus immunity You will also lose your combat power instantly!" The ghoul said with a smile.

These flying insects are not easy to deal with, but what about ghouls? He seems to be a slug now, it is difficult to move, can't he just attack him?

Thinking of this, Li Tian teleported to avoid the attack of the flying insect swarms, facing the ghoul's body several consecutive broken soul palms.

The air mass of the broken soul palm blasted into the body of the ghoul, as if throwing a stone into the swamp. Only a few bubbles appeared on the body of the ghoul, and there was no reaction anymore.

"How can this be?"

Li Tian couldn't help but pale in shock.

Now Li Tian's broken soul palm can shoot zombies below level 15 to death. Even if it is a level 15 or above, Li Tian is confident that he can slap them with a palm, but now Li Tian's broken soul The palm blast on the body of the ghoul has no effect.

At this moment, the ghoul began to move.

"So fast!"

That's right, the speed of the ghoul did not slow down the slightest, but his body moved faster like the head of a sea wave.

Just in a blink of an eye, the ghoul came to Li Tian from a place ten meters away.

It is precisely because of the ghoul's body that his body can change into anything at will.

It can be the tentacles of an octopus, it can also be a whip stick, and even his body can attack like water droplets.

On the contrary, the attack was nowhere to be found, and the body of the ghoul was highly poisonous. It was really difficult to see through his attack and avoid it completely.

Had it not been for Li Tian's continuous teleportation, the ghoul could definitely approach Li Tian and cause damage to Li Tian.

Flying insects attacked in the sky, and ghouls attacked on the ground. Li Tian had no chance to fight back, so he could only evade by teleportation.

"How can this be? The last time I fought with the ghoul, the ghoul didn't even display it in this form. Why did the ghoul become like this in just a few months!"

Li Tian knew too little about ghouls. At this time, Li Tian could only think of the small hot pot in the void of Yasha.

Huh!

Li Tian got directly into the space of Void Yasha, hiding himself.

"Little hot pot, have you ever fought with ghouls before? Do you know how the ghoul's ability is broken?" Li Tian asked.

The little hot pot shook his head and said, "When I was a Venerable, the three corpses were only ninth-level cultivators, and the three corpses were not worth mentioning in front of me, if it weren't for the fact that they were imprisoned at the gate of the restricted area. It is too sensational, I am afraid I may not know their existence!"

"But I can tell you that ghouls, corpses, and corpses are all from the corpse race. This race is a very ancient and huge race in the nether world. In the historical legends of the nether world, the corpse race has appeared very powerful. Exist. Now one of the domain masters of the Netherworld is from the corpse clan."

"As for the corpses of the venerable level, there are more corpses in the Netherworld. Judging from the current form of the corpses that the young master of the void told me, this is probably the most common cultivator level among the corpses, but The most powerful corpse raising technique."

"This kind of corpse raising technique is to raise the second-level corpse worms in the body, and then use the corpse worms to swallow the muscles and bones in his body, and then completely

transform his body through the corpse worm excrement. So you see The yellow liquid that arrived is actually the excrement of the corpse worm!"

"Don't underestimate this kind of excrement. This is a very poisonous thing. If it is poisoned by a practitioner of the same level and below, it will basically be completely abolished. Even if a strong person at the noble level is once poisoned by this kind of poison, The Lord's combat effectiveness will also weaken in a short time!"

Li Tian asked, "Where are those fly-like insects?"

"There are a large number of parasites in the body of the corpse, and these parasites have been feeding with the power of swallowing the corpse in the body of the corpse, and they will naturally serve the corpse. It is like you will see corrupt corpses. The flying flies nearby is a concept."

"Although I have never fought with the three corpses, I have fought with the corpses. I have fought even as a powerful person of the noble level! These bugs are not a concern, you leave it to me! But ghouls You still have to deal with it!" Little Hot Pot said.

Huh!

Li Tian walked out of the space of Void Yasha.

The ghoul looked at Li Tian and laughed arrogantly, and said, "Li Tian, you can finally give it up! Just let you try the net of heaven and earth arranged by my ghoul!"

As soon as the ghoul's voice fell, thousands of flying insects fell from the sky like a huge black blanket.

Chapter 4015: :burn

Li Tian found that yellow mucus was also everywhere under his feet. These mucus seemed to be bubbling continuously. Whenever the bubbles burst, yellow smoke rose from the mucus.

The highly toxic thing, the sky and the ground, really seemed to be a net of heaven and earth.

If the ghoul was dealing with someone other than Li Tian now, then the ghoul had already reached the point of winning, because in this kind of situation, few people could avoid it.

But at this moment, Li Tian jumped up suddenly. At the moment when Li Tian jumped up, Li Tian summoned a small hot pot and a mutant crow at the same time.

Li Tian jumped on the back of the mutant crow and soared into the air, while the small hot pot was thrown directly at the flying insect that looked like a blanket by Li Tian.

After seeing the small hot pot, the flying insects swarmed up, and instantly surrounded the small hot pot.

"Hahaha!"

The ghoul laughed wildly and said: "Li Tian is in front of these thousands of flying insects, even if you fly to the sky, these insects will follow you deadly. No matter what is thrown, even steel will be instantly flew by these flying insects. The poisonous worms corroded away! You can't escape!"

As soon as the ghoul's voice fell, there was a sudden explosion in the sky, and the flying insects surrounding the small hot pot were on fire in an instant, as if they were fireworks.

But a flying insect is a flying insect, no matter how hard its body is, how terrible its venom is, it is still so vulnerable to the magma released from the small hot pot instantly.

The ghoulish looked at thousands of flying insects and was instantly swallowed by flames, and more flying insects kept falling down like a falling airplane. He couldn't help but asked in shock, "This...what is this? What's going on?"

As the ghoulish spoke, the thousands of flying insects had been burned by the magma of the small hot pot, and the remaining dozens of flying insects fled and got directly into the body of the ghoulish.

The small hot pot returned to its original appearance, slowly falling on the mutant crow on the ground.

"The Rock Fire Clan? It turned out to be the Rock Fire Clan? How could there be a Rock Fire Clan in this earth world? Damn Rock Fire Clan, you dare to hurt my bugs!" The ghoulish roared hissing.

The little hot pot sneered and said: "The corpses in the realm of the little monks dare to dominate the earth world, and even dare to release the corpse poison of the corpse kingdom, so that the entire earth world falls into the fear of the zombie virus. In. Hey, what a bravery! If you leave it before, the strong on earth will enter the Netherworld to kill your corpse race without leaving behind! Maybe your corpse race's venerables and domain masters will all be How many people have fallen!"

"Hahaha, that's a legend! The most powerful old men in the world have been wounded by our three corpses. I don't know where they are hidden, and now Huangfu Kunpeng, who is known as the strongest in this country, was also destroyed I lost my arm."

"As long as other powerful men in the Netherworld do not come to the earth world, our three corpses are the heavens of the earth world, and our three corpses are the gods of the earth world!" said the ghoulish arrogantly.

"God? A monk-level god? Aren't you afraid to laugh off your big teeth?" Little Hot Pot said.

The ghoulish sneered and said: "For the time being, our three corpses are at the level of monks, but as long as we completely rule the earth world, we may reach the realm of nobles."

"At that time, as long as the earth world does not have a noble level powerhouse, this earth world will be the kingdom of the corpses of our three corpses. At that time, our three corpses will return to the nether world and return to the domain master of the corpse clan, even if it is the nether world. The other domain masters of the world will not pursue any more! The earth world is relative to an independent kingdom of corpses, so why not call God!"

"Li Tian, you can see it. If you don't stop the three corpses from trying to take care of themselves, it is simply impossible. If, as he said, there are domain master level powerhouses covering the earth world, then your earth world will never stand out. When the day comes, the earth world will really become another corpse kingdom." Little Hot Pot said.

Li Tian snorted coldly and said, "There are so many people in this world who want to become gods. Isn't that one of the fierce warriors? But wanting to become gods will cost a heavy price! And in my Li Tian era There is only one way for people who want to become gods, and that is death!"

"Yes, this kind of attitude is what you want! If there is a ***** in the earth world in the future, then this ***** will definitely be you Li Tian! And this is not what you call yourself, it is recognized by the people of the earth world!"

"Now I have burned most of the bugs. The remaining bugs should not pose much danger to you. I will leave the rest to you. Before sending me into the space of Void Yasha, I will help. You once!" said the little hot pot.

The little hot pot stood on the back of the mutant crow, and the two hands stretched out. It was somewhat similar to the action in the shredded pork in the Titanic.

However, the two arms of the small hot pot kept ticking down with crimson magma, and after the magma fell on the yellow mucus released by the ghoul, there was a screaming sound.

The ghoul immediately uttered a curse, and had to take back the mucus released by him.

"It's all on you!"

After the little hot pot was finished, Li Tian was sent into the space of Void Yasha.

The mutant crow hovered in the sky, and Li Tian was already invincible.

But Li Tian would not be satisfied with this. Li Tian suddenly turned around and took the mutant crow to attack the ghoul from a height. Li Tian already had a spear from the sky, and forty-nine purple electric snakes swim on the spear from the sky. go.

Hey!

Hey!

These electric snakes shone, the sunlight in the purple light sky was eclipsed, and the powerful fluctuation of power made the face of the ghoul finally show a look of horror.

"It's such a terrible force, we must eradicate Li Tian as soon as possible, otherwise the growth rate of Li Tian will definitely pose a powerful threat to the unification of our three corpses!"

"It's a misstep. The two guys, Soul Soul and Soul Soul, went to the area under the jurisdiction of the Black Dragon Legion in the northeast for a Tang Feifei. If they were here, they would definitely be able to kill Li Tian!"

"But even if I am the only ghoul, even if my cultivation base plummets, I will kill you Li Tian today!"

The ghoul was the ghoul, and he soon awoke from that kind of panic, with a trace of gloom on his slimy face. Facing Li Tian's attack, the ghoul had no intention of shrinking.

His body changed into a U shape, let go of the front to let Li Tian rush in, and then let his two arms with sticky venom hanging around Li Tian from the left and right.

Seeing the ghoul's tricks, Li Tian didn't hesitate to rush towards the ghoul, and the spear of the sky slammed into the ghoul's slimy body.

"Go to ***** Li Tian!"

At this moment, the ghoul completely wrapped Li Tian in his body with his arms and mucus.

Chapter 4016: : The ghoul is dead

boom!

A loud noise came out of the body of the ghoul, and a dozen purple electric snakes appeared on the body of the ghoul, and these purple electric snakes were still devouring the body of the ghoul. .

Hey!

Hey!

The ghoul let out a scream, and his body was blown apart and flew out instantly.

And Li Tian knelt on the ground holding the Qiong Spear of the sky, panting heavily. Li Tian's hair was stained with the yellow liquid and a part of it was corroded. The armor on his body was messy, and there were all kinds of things on it. There are openings, and there is blood and yellow liquid flowing through these openings.

The Heavenly Qiong Spear in Li Tian's hand was intact, and the yellow liquid on it had no corrosive effect on the Heavenly Qiong Spear, but the situation of the "Red Slash" phantom was worse.

The size of the phantom is less than half, and the broken wheel covers Li Tian, and the skin armor formed by the combination of "Red Slash" and the nine-color corpse lotus looks even more miserable, with seven or eight holes on the skin armor. , Blood was flowing continuously on the wound, and yellow liquid like pus was flowing down the side of the wound.

The mucus on the ghoul's body is still corroding the skin armor.

"solution!"

Li Tian yelled, "Red Cut" became the state of the blade. The "Red Cut" in the state of the blade did not seem to have changed much, but if you look carefully, you will find that there are some more than rice grains on the blade. There are tiny holes, and these holes are corroded by the venom of the ghoul!

Although protected by the skin armor, after the yellow liquid destroyed the skin armor, a little bit entered the armor. At this time, Li Tian's clothes were corroded and tattered. It seemed that Li Tian was not much different from a beggar.

The most frightening thing was that the yellow liquid entered Li Tian's veins through the wound.

Li Tian could feel that those yellow liquids were like tiny insects. Once they entered Li Tian's veins, they began to crazily destroy Li Tian's veins.

The spiritual power in the veins was madly swallowed by these little bugs. Li Tian could feel the power in his body being constantly lost. With this loss of power, Li Tian could feel a fiery pain in the veins of his body.

It was as if Li Tian's blood vessels had become feverish copper wires.

In an instant, Li Tian's whole body was soaked with sweat, and the sweat kept ticking down. Once the sweat dripped on the wound, the wound would make a groaning sound, as if water was poured on a hot stove.

Li Tianqiang endured the pain and wanted to stand up, but his legs fell to the ground directly.

"It's careless!"

"The little hot pot has repeatedly reminded me of the terrible venom of this ghoul, but I did not pay enough attention to it. I think I have skin armor on my body and can teleport into the space of the void Yaksha. I don't take ghouls too much. I just knew how terrible this ghoul's venom was."

Li Tian slowly raised his head and looked around. The yellow sticky liquid was everywhere on the flat ground. It seemed that the purple electric snake had not completely swallowed the body of the ghoul.

In the slimy liquid, Li Tian also saw several fly-sized corpses of flying insects, and all the flying insects that escaped into the body of the ghoul turned into corpses.

The ghoul is dead!

"It's fine if you die, so there are two corpses and corpses left. After I take care of my wounds, I can fight them in the final battle."

There are Situ Ningbing, Xue Ji, Tang Xiaolong, Huangfu Kunpeng, etc. Although Li Tian is not hurt, but Li Tian's heart is full of confidence.

"what!"

Li Tian suddenly let out a scream, he could feel that the yellow liquid in his veins turned into small insects as if they were splitting into more small insects, and the speed of those small insects swallowed rapidly.

"Damn it! It seems I must find Windsor to show me!" Li Tian said to himself.

Windsor is now in Nanhuai City. Li Tian knew that once the war started, there would be casualties, so Li Tian left Windsor with Huangfu Kunpeng.

Li Tian summoned the mutant crow, jumped onto the back of the mutant crow, and then summoned Void Yasha, and he entered the space of Void Yasha.

"Li, this...what's wrong?" Situ Ningbing asked nervously when she saw Li Tian's appearance.

Tang Xiaolong, Xue Ji, and Little Hot Pot had just gathered around.

"Little boss, do you want it? You let me go out, let me deal with the ghoul, you retreat first!" Tang Xiaolong said.

"If Li Tian is injured, then do you think you will be the opponent of the ghoul? Rather than being strong enough here, it is better to seize the time to re-train." Little Hot Pot said.

Li Tian patted Tang Xiaolong on the shoulder and said, "The little hot pot is right. You Tang Xiaolong is my brother of Li Tian. I really hope that when dealing with corpses and corpses, there will be my brother with me. Fight! As for the ghoul... he is dead, but I am also poisoned by the ghoul, and now I have to go back to Windsor!"

The news of the death of the ghoul did not make Xueji and Situ Ningbing very happy to arrive. They both looked at Li Tian worriedly, but at this time they were also powerless and could only take out the medical box and perform the simplest disinfection on Li Tian. And bandage.

The little hot pot hesitated to speak but stopped.

"Little hot pot, just say what you have to say, there are no outsiders here!" Li Tian said when he saw the little hot pot's expression.

The little hot pot hesitated and said, "Li Tian, I have already told you that the poisonous things on these ghouls are almost deadly to the strong monks of the same level, although you have no life worry for the time being, But your cultivation..., I worry about Windsor..."

Li Tian's face looked a bit ugly. Now those little bugs are consuming spiritual power in his body recklessly. Of course, Li Tian knows that if this situation continues, all of his cultivation skills will be destroyed!

However, this kind of thing must not be let Situ Ningbing, Xue Ji and Tang Xiaolong know, otherwise it will only worry them.

"Don't worry, I am Li Tianfu's life and good fortune, besides, don't you think I am not good now? And Windsor's medical ability is not covered!"

"Trust me!"

Believe me in the last sentence, Li Tian was not only talking to Situ Ningbing, but also giving him his own psychological hint.

After the mutant crow flew away, Li Tian squirmed slightly under the ground where Li Tian and the ghouls had fought, and then a fly-sized insect emerged from the ground.

The worm began to devour the yellow mucus, and as the worm swallowed, the size of the worm became larger and larger.

In just seven or eight meters, the worm became the size of a basketball, and the worm continued to grow.

Just when the worm swallowed all the mucus on the ground, it suddenly "bang!" The worm exploded and died.

Those mucus gradually merged into a human form.

"Hey, Li Tian, after you are poisoned by me, you will basically be abolished. The three levels of my fall are also worth it. Unfortunately, Hong Zhan..."

Chapter 4017: : Big win

The ghouls are not dead!

When Li Tian's Heavenly Qiong Spear pierced into the body of the ghouls in an instant, the ghouls felt the fear of death, and the ghouls recklessly hid a small bug in the ground for this moment.

Now the body of the ghouls is no longer his previous physical body, but the worm excrement maintained by the power of the corpse. As long as these excrements still exist, as long as his worms are not extinct, then the ghouls can be reborn infinitely.

However, this time the ghouls suffered a heavy loss. His realm dropped directly from the sixth level of the cultivator to the third level of the cultivator. For the time being, the ghouls could not become this slimy poison again, and the ghouls' heavy skill also It's down to the level that can be used only after the third level of the cultivator.

But what does this have?

After Li Tian became a waste, who else in the entire earth world could be the opponent of the Three Corpses?

"I'll go back to the magic city and incubate the rest of my corpse insects. As long as I hatch more corpse insects, I can return to the sixth level of the cultivator. No, I will reach The ninth level of cultivators is even the realm of the venerable!"

After speaking, the ghoul moved his body slowly towards the south.

...

In Nanhuai City, the guided missile vehicles continuously fired missiles, tanks, and artillery shells that fell among the zombies on the opposite bank of the river outside the city.

Wars continue.

Long Yin, Huangfu Kunpeng, the old man Wuji, and other core cadres of the army soul guard the Wengcheng on all sides of Nanhuai City. At this time, outside the walls of Wengcheng, the corpses of zombies have been piled more than ten meters high, and the river It had been filled with zombies, and the river overflowed the river.

Without the restriction of the ghoul, the earth travel yasha has fully exerted his power, and the earth will shake from time to time, followed by the collapse of the sky, and constantly have zombies trapped by the earth travel yasha using quicksand. underground.

The barrels of the heavy machine guns in the hands of the soldiers on the city wall were hot, as if they were on fire, but those soldiers had already red eyes, and no one flinched, no one complained.

Thousands of soldiers were carrying ammunition boxes and shell boxes for non-stop transportation. At this time, there was no war panic on their faces, but some joy.

Yes, they are happy!

There has been no such hearty battle in the history of the last days. Nanhuai City has been surrounded by the corpses of zombies. It is conservatively estimated that at least 400,000 zombies have become corpses.

More importantly, because Huangfu Kunpeng, Long Yin and others joined in, none of the zombies hit the city wall, and human casualties were almost negligible.

As long as this situation continues, then this million zombies army will inevitably retreat, which will become the biggest victory since the battle with zombies in human history.

But at this moment, a magma suddenly appeared behind those zombies. This magma seemed to be controlled by humans, and it continued to flow to the dense areas of zombies. As long as the zombies escape slowly, they will instantly Was swallowed by this magma.

Li Tian and the others rushed back, and the little hot pot couldn't wait to harvest the lives of these zombies, and Li Tian, standing on the mutant crow with the spear of heaven in his hand, shouted imposingly, "The ghoul is dead. , Don't you surrender soon?"

When I saw Li Tian's figure, the senior zombies in the zombie tide had already guessed such a solution, and even if the ghouls weren't dead, they might have escaped with serious injuries.

Hearing Li Tian's roar again, these high-level zombies suddenly lost their backbone and turned around and fled.

Defeated like a mountain, these high-level zombies began to flee, and the low-level zombies became a group of dragons and headless, just like the sea ebbs, and they began to flee in all directions.

"Send my order to stop the artillery attack!" Huangfu Kunpeng shouted loudly.

The order was forbidden, all the tanks on the Nanhua city wall stopped attacking instantly, and the guided missile vehicles inside the city also stopped attacking. The soldiers on the city wall suddenly cheered and jumped up as they watched the zombies fleeing outside the city.

"we won!"

"We have won!"

Some soldiers even held their guns and fired bullets into the sky to express their excitement.

And some veterans have tears and tears.

"Finally won, we really need such a big victory!"

How could Huangfu Kunpeng miss this opportunity? He jumped, jumped from the wall to the pile of corpses, and then rushed into the retreating corpse group like lightning, killing those zombies recklessly.

But Long Yin and the other cores of the Army Soul Legion followed suit and began to hunt down the zombies.

The old man Wuji shook his head, and said: "You can't kill the zombies in this way. Capture the thieves first. If you can kill the three corpses, maybe it will be a once-and-for-all solution."

"Go on!" Li Tianqiang endured the pain and said to the mutant crow.

The mutant crow landed on the ground, and Li Tian jumped down, bringing Situ Ningbing and others out of the space of Void Yasha.

Windsor's face was filled with excitement.

"My god, where's the ghoul? You... my god, my god, what's wrong with you?"

Before Windsor's words were finished, I saw Li Tian collapsed softly in Situ Ningbing's arms.

Wen Sa dashed forward to help Li Tian, and asked Situ Ningbing: "What's wrong with Brother Tian?"

"Winsor, Li was poisoned by the ghoul when he was fighting with the ghoul. Now these readings are still spreading in his body, look..." Situ Ningbing said.

The excitement on Windsor's face disappeared, replaced by solemnity.

At this moment, the soldiers, cadres, and the old Wuji all surrounded Nanhua City, and even the Huangfu Kunpeng and others who had just chased the zombies retreated.

"Get out of me!" Windsor shouted angrily.

"Xiaolong, Brother Tian's injury is a bit serious. Now you are carrying Brother Tian. Let's find a quiet place. I want to check and treat Brother Tian!"

Unlike others who ordered the soldiers to make way out of the way, two soldiers quickly came to Li Tian carrying a stretcher, and carried Li Tian onto the stretcher.

"Quickly, go to the hospital in Nanhua City!" Li Hu said.

After the two soldiers carried Li Tian down the city wall, they rushed to Nanhuaicheng Hospital with Windsor, Situ Ningbing and others. The current Nanhuaicheng Hospital has no doctors and the wounds he received. Any resident.

Huangfu Kunpeng, Long Yin, Elder Wuji, etc. all rushed over and surrounded the hospital with Tang Xiaolong and others anxiously awaiting the results of this treatment.

Li Tian's injury dilutes the joy of victory. Except for the soldiers guarding the wall, more than tens of thousands of soldiers surrounded the periphery of Nanhua City Hospital. These soldiers closed their eyes and prayed silently.

In the hospital ward, Windsor screamed as he was about to treat Li Tian's wound. It turned out that the yellow liquid on the wound burned Windsor's palm.

The pain made Windsor's face instantly pale, and her whole body was soaked with sweat. She endured the severe pain, but Windsor's eyes showed firmness.

"Brother Tian! I can definitely treat Brother Tian!"

Chapter 4018: : A blessing in disguise (1)

Li Tian fainted but was not in a coma. He could hear Windsor's thoughts in his ears, but Li Tian could not open his eyes to see, nor could he speak.

Li Tian could feel the loss of spiritual power in his body, and the veins began to shrink rapidly.

And the yellow little worms in the veins have split into at least dozens of them, and these little worms swallowed more than half of the spiritual power in Li Tian's body veins.

Windsor wiped the yellow liquid from Li Tian's wound with medical gauze, and put anesthetic on Li Tian's wound, and then used a scalpel to dig out the rotten meat from the wound.

The rotten meat that had been dug up was placed on the stainless steel tray, and unexpectedly began to corrode the stainless steel tray. This shows how terrifying the poisonous ghouls are.

Fortunately, those yellow bugs were only devouring the spiritual power in Li Tian's body, and did not corrode the veins inside Li Tian's body.

Even if he was given anesthetics, Li Tian could still feel the veins in his body twitching, and every time he twitched Li Tian would have the pain of wanting to scold his mother.

As if it was a spasm, this intense pain made Li Tian's body tremble involuntarily. This is an automatic tremor of his skin. Even if Li Tian wanted to control it, it was completely impossible and impossible to do.

Sweat was constantly flowing out of Li Tian's body. The sweat had already soaked Li Tian's clothes. Situ Ningbing and two other experts from Nanhuaicheng Hospital specially laid hands on Windsor.

The two so-called experts were completely dumbfounded when they saw that the rotten flesh dug from Li Tian's body actually had a corrosive effect. By this time, the two experts could only wipe the sweat and hand over equipment for Windsor.

As for Situ Ningbing, he held Li Tian's arm with one hand and wiped Li Tian's sweat with the other.

After more than ten minutes, Windsor slowly removed the carrion on Li Tian's wound. Windsor said softly, "God, bear with me, I will start treatment for you!"

As Windsor's palm slowly pressed against Li Tian's wound, a peculiar energy wave slowly entered Li Tian's veins from the wound.

The energy released by Windsor is like a silver needle and a scalpel. If Li Tian's veins were originally safe and sound, there might not be anything abnormal, but at this time Li Tian's veins have shrunk a bit, and those yellow ones Xiao Chong is the master of the veins. Whether the silver needle or the scalpel is like white water poured into a boiling oil pan, it exploded in an instant.

More than a dozen yellow bugs began to besiege the energy released by Windsor. The energy was swallowed up by the yellow bugs almost instantly.

You must know that these yellow bugs are already devouring the spiritual power in Li Tian's veins. Although the energy wave released by Windsor is not completely spiritual, it has the same effect as spiritual power. It is also the favorite of these little bugs. food.

As a result, the medical energy of Windsor not only did not have a healing effect on Li Tian's body, but accelerated the division of those yellow bugs.

A dozen yellow bugs instantly turned into dozens of bugs.

Windsor's face was pale. This was the first time she encountered this situation, and she could only immediately cut off the output of this energy to Li Tian's body.

"How can this be? What are those things in Brother Tian's body?" Windsor asked.

Situ Ningbing said: "It seems to be infected by the venom on the ghouls, but I don't know what it is!"

The two experts next to Windsor saw that Windsor was also deflated, and the expressions on their faces became somewhat complicated.

"Or we still follow the normal process, first take the blood and test for Li Tian, and then joint consultation with all the experts, there may be a way!" said one of the experts.

Although Windsor knew that if she could not be treated, these **** experts would be even more helpless, but she could not refuse directly, but looked at Situ Ningbing.

"No, your method may still be effective against ordinary patients. Li is poisoned by ghouls!" Situ Ningbing politely rejected the proposals of these experts, and then said to Windsor: "Windsor, Li believes most. Yours, so you must think of a way again!"

Windsor nodded and said, "Okay! The lives of my friends and I were saved by Brother Tian. If there were no Brother Tian, my friends would have already died. Today, I will give up. I also want to save Brother Tian!"

Speaking, Windsor once again pressed his palm on Li Tian's wound, a continuous wave of energy spread from Windsor's hand to Li Tian's veins.

"Windsor, don't!"

Li Tian wanted to tell Windsor, but he was speechless.

The silver needles that the energy waves of Windsor transformed into could only serve as food for those yellow bugs, and it didn't help Li Tian's veins at all.

Time passed, the whole room was terribly quiet, only Windsor's gasps echoed in the room.

...

Li Tian felt more and more painful. As the number of yellow worms increased, the speed of the worms devouring spiritual power became faster and faster, and the yellow worms were extremely restless. They had spread all over Li Tian's important veins, and there were even a few worms. He was about to enter the pond in Li Tian's heart.

Although the spiritual power in Li Tian's veins is exhausted, the spiritual power in the pond is rippling with blue waves. The fish in the pond are swimming freely, and the nine-color corpse lotus is luxuriantly growing and growing. The buds of the nine-color corpse lotus are in bud, giving people a vigorous feeling.

Li Tian tried to control the little fish to enter the veins, to see if he could get the little fish to eliminate the yellow bugs, but what disappointed Li Tian was that he had lost control of the pond now, and the little fishes were with him. Lost contact completely.

"No way!"

"No way!"

"If this continues, all the spiritual power that I finally cultivated will be swallowed by these worms, and these worms can also destroy the veins. I am afraid that I will really become a waste person by then!" Li Tian thought in his heart. With.

When Li Tian returned to the earth world from another world, his skill was completely wiped out, but at least at that time Li Tian's veins were not damaged. As long as his veins were intact, Li Tian could stand on the top of the world again as he does now.

But now is different. Li Tian can feel that the veins in his body are as fragile as pieces of paper that have been roasted by fire, and they may be completely destroyed at some point.

Don't admit defeat!

Don't admit defeat!

At this moment, a few yellow insects finally swam from the middle of the veins into Li Tian's heart, and plunged into the pond at one end.

The few insects were absorbing the spiritual water in the pond with big mouths, and just at this moment, the seven or forty-nine small fishes rushed over, and instantly swallowed the small yellow insects.

Chapter 4019: : A blessing in disguise (2)

Seeing this picture, Li Tian was already surprised and didn't know how to express it.

"This... can you play like this? It's... it's so exciting!"

Li Tian was ecstatic. He didn't play around and didn't expect that even the helpless little bugs of Windsor would be swallowed by these little fish and become food for the little fish.

It's really one thing to drop one thing.

After the small fish in the pond swallowed the small bugs, they pulled out some excrement and landed on the bottom of the pond.

In fact, after these yellow bugs swallowed the spiritual power in Li Tian's veins, they became bugs with rich spiritual power. No wonder the little fish like to eat this kind of bugs.

But at this moment, Li Tian was surprised to find that the excrement of those small fishes was actually entangled by the rhizomes of the nine-color corpse lotus, and it was directly absorbed in an instant.

In just a moment, Li Tian felt that the nine-color corpse lotus in the square pond grew stronger, the leaves were more plump, the greenery was very gratifying, and the budding flower bones were also bigger.

"This... this... how is it possible? This pond is the purest spiritual power. Isn't this spiritual power as good as the excrement of a small fish?"

"It doesn't matter, it doesn't matter, haha, disaster and blessing depend on it! As long as the nine-color corpse lotus can thrive, as long as it can swallow the little bugs!"

Seven is a blessing for Ma Yan, and Li Tianwan didn't expect him to be a blessing in disguise.

"I don't know what changes the Nine-Colored Corpse Lotus will have after its lotus blooms. Now I only need to guide these ***** yellow bugs into the pond to feed the fish!"

Having said that, it is extremely difficult to do it.

After all, now Li Tian has no contact with the little fish in the pond, and it is impossible for the little fish to swim in the veins and eat insects.

But fortunately, those yellow bugs don't need to greet Li Tian, they will trace their roots, come to the pond and feed the fish automatically. The only disadvantage is that these bugs wander around in Li Tian's veins and destroy Li Tian's veins. , Making Li Tian anguish.

No pain No gain.

By now, Li Tian is no longer anxious, and Li Tian can still bear this bit of pain, which is suffering from Little Windsor.

After the energy of Windsor's power entered Li Tian's body, those yellow bugs swallowed Windsor's power, and the split speed doubled, from the first dozen yellow bugs to 30 or more, and then to 70 or 80. Now Li Tian has hundreds of yellow worms in Li Tian's body.

If Situ Ningbing and others had the perspective ability, they would see that Li Tian's blood was filled with small yellow solids, and these small solids were the yellow bugs.

Windsor was almost crying, tears falling down.

Windsor did not expect that her treatment would not only be ineffective, but would harm Li Tian. Windsor could feel that there were at least hundreds of bugs in Li Tian's veins.

But Windsor couldn't stop, it should be said that she couldn't stop at all.

Although the yellow bugs are constantly splitting after receiving the energy supply from Windsor, the bugs are lazy and just split on their own, relative to calm, but once Windsor stops treatment, the bugs will become manic. At that time Li Tian's wound would keep bleeding out, and Li Tian would also convulse in pain.

Drinking poison to quench thirst, Windsor is doing this now, but she can't help it.

Li Tian closed his eyes and didn't know that Windsor was crying. He was practicing Qingyun wholeheartedly, trying to use the spiritual power he cultivated to irrigate the shrinking veins. Of course, Li Tian's ultimate goal was to create a few drops of spiritual power. Lidiao used as fishing bait, to be precise, insect bait, and tricked those **** little bugs into the pond.

Time is constantly passing by, and the hospital is still silent. Xue Ji and Tang Xiaolong went to the treatment room where Windsor and Li Tian are located several times. The results brought back were not ideal. The expressions on the faces of people gathered outside the hospital It is also getting more and more solemn.

"Tang Xiaolong, what is going on? Didn't Xiao Litian have killed the ghoul? How could he be so badly injured?" the old man Wuji asked.

Tang Xiaolong shook his head and said, "We don't know very well. We were not involved in the battle except for the small hot pot."

The old man Wuji immediately stared at the small hot pot again, and said, "You said, what is going on?"

The old man Wuji could feel the strong energy fluctuations in the little hot pot, and he was not rude to the little hot pot, but now Li Tian's injury was too much for him, and his tone was not very polite.

At this time, the little hot pot was not in the mood to be familiar with the old man Wuji, and told him about the process of fighting with Li Tian, and then said: "You have to believe in Li Tian, he will definitely be lucky!"

Long Yin snorted coldly, walked to the entrance of the hospital, and shouted loudly at the hospital: "Li Tian, you scumbag, I will fight against the three corpses, safe and sound! Huangfu Kunpeng fights against the three corpses, safe and sound! You! How can you suffer such a severe injury?"

"Li Tian, you are the opponent of my Long Yin's life. If you want to die, you can only die in my Long Yin's hands. Now I definitely don't allow you to die here!"

Long Yin's voice was loud and loud, even Li Tian, who was lying in the hospital, could clearly hear what Long Yin said.

"Fucking, when I get better this time, I must teach you Long Yin a good lesson. If you **** stand up about Lao Tzu and call wool, do you want to be so passionate!" Li Tian Thinking in his heart.

At this time, Li Tian finally gathered a little spiritual power drop in his cultivation, and then Li Tian controlled the spiritual power drop to continuously swim in the vein, deliberately to attract those **** yellow bugs, and then Lead those little bugs to the pond to feed the fish.

But this kind of thing is not all smooth sailing, although the little yellow worms in Li Tian's veins have been reduced by one-third, but Li Tian accidentally eaten the spiritual water drop by the worms.

Then Li Tian gathered his spiritual power again to attract the little insects to feed the fish. Repeatedly, the number of little yellow insects in Li Tian's veins dropped sharply!

"God bless, God bless!"

If Li Tian had a short story, Windsor would definitely feel guilty. She had decided to die with Li Tian. Now Li Tian is getting better, and Windsor is crying and laughing.

Windsor could feel that the bugs in Li Tian's veins had gradually decreased.

The last three bugs, the last two bugs, the last bug...

And at this moment, a magical scene happened...

Chapter 4110: : A blessing in disguise (3)

Li Tian was already awake and sat up slowly, and the wound on Li Tian's body healed instantly because of Windsor's treatment, but at this time the skin on Li Tian's body was shining with purple air.

Purple is pressing!

A powerful force was fluctuating around Li Tian's body. This powerful force even made Situ Ningbing who clasped Li Tian's palm feel a little trembling.

The two experts in the room were already trembling and knelt on the ground, looking at Li Tian in surprise, thinking in their hearts: "What a powerful force, is this the power released by Li Tian? Is this the truth? The power of a man at the top of the world?"

When Windsor saw that Li Tian had healed, he was physically and mentally exhausted, and because of a large amount of water shortage, his body was a little collapsed, and his body shook and almost fell to the ground.

Li Tian appeared behind Windsor in a teleportation, held Windsor in his arms, and hugged Windsor on the hospital bed.

"Brother, I'm not good, if it weren't for my random treatment, your body wouldn't be so weak!" Windsor said with some shame.

"Stupid girl, I still want to thank you! I have the poison of ghouls in me. If the world says that someone can save me, then it must be you. Look, didn't you save me back? Not only Give me back, and because of the energy of your medical ability injecting into my body, it also helped my cultivation to get a breakthrough!" Li Tian said.

"No, you have to rest first, I have to seize the time to consolidate my cultivation. Ningbing, please take these two experts out first, telling others that I am fine!" Li Tian said.

Situ Ningbing asked a few more questions, confirming that Li Tian was indeed safe and sound, and then he took the two experts away with confidence.

"My God, I...I won't affect you here, am I?" Windsor asked.

Li Tian shook his head and said, "Silly girl, my god, I am a master of three tasks, don't say you are here, even if I am in the busy city, chatting with me will not affect me! But now you Too weak, you need to rest well, stop talking, go to bed and scream!"

After Li Tian woke up, Li Tian had been doing three things with one heart, practicing Qingyun, Qingyun Qi Jue, and talking with Windsor and others.

In Windsor, Situ Ningbing, and others, only Li Tian could be seen with a compelling purple qi, but Li Tian's context was another scene.

After which yellow bugs have absorbed all the spiritual power in the veins, the veins in Li Tian's body are like plants that have lost water, and have completely withered away.

Now that the little bit of power that Li Tian cultivated through Qingyun's cultivation appeared in the veins, the veins seemed to be completely unable to withstand the erosion of spiritual power, and they began to crack and drop continuously.

However, Li Tian's veins did not break because of this. Instead, it became wider, just like a river course, changing from a stream to a small river.

Phoenix Nirvana, a blessing in disguise, the current Li Tian's veins are at least twice as wide as before. Of course, this is only one of the benefits. More importantly, the small fish in the pond in Li Tian's heart also changed.

These little fishes are all incarnations of spiritual power. They were cultivated by Li Tian's Qingyun Qi Jue. They are not real objects. But now these little fishes have become a little stronger, and the scales of the fish have turned faint purple. If you are careful If you look at it, you will find that it is because there are some purple arcs on each scale.

Moreover, these little fishes became a little restless because of their larger size. They were not satisfied with just swimming in the pond on that side, and from time to time they would rush into Li Tianzao's broken veins and swim a few times.

This feeling is like a fish jumping into a dry river bed to swim, but the fish is safe and sound. On the contrary, some purple arcs on the little fish will be brought into Li Tian's veins because of the swimming, so look from the outside Li Tian's body seemed to be pressing purple.

The only pity is that the lotus of the nine-color corpse lotus in the pond has not yet opened. Naturally, Li Tian doesn't know what demon the nine-color corpse lotus is actually acting as a demon. This somewhat disappointed Li Tian's heart.

"Forget it, the top priority now is to repair the context first. I don't know what Tang Feifei is now." Li Tian thought anxiously.

Before Li Tian left the city of Kyoto, Tang Feifei had followed the tyrants of the Black Dragon Legion Gao Gang, Gao Bi and others to the northeast region, and it was considered that preparations for the establishment of the Agricultural Industry and Commerce Association under the Chinese Allied Forces were officially started.

There are two main considerations for choosing the Northeast region. The first is that the Northeast region is a well-known grain-producing region, and it is also a veteran heavy industry region, and because of the strong support of the tyrant of the Black Dragon Corps Gao Gang to the Chinese Allied Forces, this region is very It is particularly important for the current Chinese Allied Forces. The second reason is that the Northeast region must be far away from the Three Corpses, where the Agro-Industrial Association is to be established. The Three Corpses poses the least threat to the new Agro-Industrial Association.

It's just that a wise man must have lost everything. What Li Tian never expected is that the corpse had already been eyeing Tang Feifei. Now Li Tian can only hope that the corpse can't find Tang Feifei in addition to recovering her strength as soon as possible. They, or the tyrant Gao Gang, can exert their strength to protect Tang Feifei.

call!

Li Tian took a breath, and sprayed out all the distracting thoughts in his heart with this breath. Li Tian clenched his fists. At this time, Li Tian's fist appeared on some small purple telephones like small bean sprouts, and this purple arc The entire room was illuminated in purple, and two powerful forces flashed on Li Tian's fist.

"Broken Soul Fist! I didn't expect that after my cultivation level reached the seventh level of the cultivator, the power of my Soul Broken Fist also increased sharply. I feel that the power of my punch now has probably surpassed the power of a purple electric snake. Now, even this punch can kill level 20 zombies in seconds!"

"Unfortunately, this is not the place to perform Soul Breaking Fist, otherwise I really want to test the power of this kind of Soul Breaking Fist!" Li Tian said to himself.

At this moment, Situ Ningbing opened the door and walked in, with a ugly expression on his face and said to Li Tian: "Li, Yin Yang from the Yin Yang Gate is here, and he has encountered a ghoul on the way here!"

"What? You mean the ghoul? Isn't he dead?" Li Tian jumped up and said.

Situ Ningbing shook his head and said, "It's not dead. The ghoul was only seriously injured, and his strength was damaged and he didn't die. Maybe he escaped after we left. And...and...just a call from Kyoto City said Tyrant Gao Gang died in battle..., Don Feifei... she was captured by the corpse!"
