

A Killer 4221

Chapter 4221: : 'Divide the loot'

Kang Erfu is dead, and Li Tian sits in the corner like an okay person, watching the sixty nobles led by the third son of the Netherworld join forces to strangle the remaining nobles of the noble son.

There was no suspense in the battle, these sixty venerables took action, and the remaining venerables didn't even have a chance to escape.

Li Tian's gaze fell on the corpses all over the floor, and suddenly he saw Li Letian in the corpses of the testers all over the floor.

Huh!

Li Tian teleported to Li Letian's side and squatted down to check Li Letian's injuries.

Li Letian's injuries are more serious, with scratches all over his body. At this time, Li Tianle also has at least 40 or 50 wounds on his body. These wounds are nearly half an inch deep for the shallow ones, and it is completely OK for the very serious ones. Seeing the bones in Li Letian's body, the blood had dried up and turned into blood scabs, but the wound still looked so shocking.

It can be seen that the orc venerable must have deliberately tortured and killed Li Letian.

Li Letian did not faint. When he saw Li Tian, a few tears were squeezed from the corners of his eyes, and his voice trembling said: "Li Tian, I...I...I didn't have time..."

"Brother, don't say anything! I will take you to heal the wound!"

Li Tian felt a little guilty, because he didn't trust Li Letian very much, so he didn't send Li Letian into the space of Void Yasha, or into the space of Qiong Spear of Heaven. Instead, he found an excuse for Li. Lotte guarded him in the cave.

Through this incident, Li Tian feels that Li Letian is trustworthy.

"Brother, bear with me!" Li Tian stretched out his hand and hugged Li Letian and said.

Huh!

Li Letian only felt a flower in front of him, and the scene in front of him found a change. It seemed that he appeared in another space as Li Tian teleported.

"This...what is this place?" Li Letian's eyes showed a surprised expression, and his voice tremblingly continued: "Brother Li Tian, who are you, why do you actually have a space artifact?"

Li Tianjiang Li Letian's bungalow was on a long table and said: "I will treat you with a simple trauma treatment. You can heal your wounds here first, and we will talk about this later!"

Speaking of Li Tian, he took out medicinal alcohol and started disinfecting Li Letian's wound. The alcohol dripped on the wound. Even Li Letian couldn't help shaking the pain, but at this time he didn't even make a cry. Full fight willpower is resisting this pain.

Regardless of whether it is a cultivator or a venerable person, as long as he is a human body, their pain nerves are the same, even because every cell of the body of the cultivator, such as the cultivator, has a strong ability to sense this kind of pain. The sense is stronger.

However, for the combat of the cultivator and the venerable level, their attack power is stronger. In many cases, the attacked person may be completely destroyed before they feel the pain.

After disinfecting Li Letian with alcohol, Li Tian, a clumsy man, applied ointment to Li Letian and bandaged Li Letian into a big dumpling.

With tears screaming from the corner of Li Letian's eyes, he said moved to Li Tian, "Brother Li Tian, you have the kindness of rebirth to me, Li Tianle. As long as I live, Li Letian will tie a grass ring to repay your kindness to me!"

Li Tian smiled slightly, and said: "Now I have four powerful masters at the first level and a mount at the master level. To be honest, you, a master of the eighth level of apprentice, are something for me, Li Tian. No. If you have the heart, you will cultivate with your heart. I will provide all the spiritual sources needed for cultivation. I just hope that you will not forget your vow today!"

Hearing the word Lingyuan, Li Letian's eyes flashed with a sharp light. For a hard-working tester like him, the spiritual source is too precious. If there is enough spiritual source, Li Letian believes him. His future cultivation achievements will never stop at the eighth level of apprenticeship!

Situ Ningbing and others had already learned about what happened outside the space through Void Yacha. When they heard that Li Tian was going out again, Situ Ningbing, Xue Ji and others exhorted Li Tianqian to make Li Tian pay attention to safety.

Huh!

When Li Tian came out of the space of Void Yasha, the outside battle was over!

All the followers of Lord Wuji were beheaded. Except Lord Lizard, all the followers of Kang Erfu were beheaded before. Now only the Lord Nether and Lord Li Tian are left here. dog.

At this time these sages are cleaning the battlefield.

The so-called fighting on the battlefield is to clean up the relics of those venerable corpses. As a venerable, basically everyone has more or less spiritual sources, and these spiritual sources may be nothing to Li Tian and the third son of You Ming. But for the other sages, it was a windfall.

Seeing Li Tian reappearing, Ye Liangchen, Long Aotian and Zhao Ritian surrounded them.

"Li Tian, take it out!" Ye Liangchen stretched out his hand and said to Li Tian.

Li Tian naturally knew that Ye Liangchen was the space ring he wanted Young Master Wu Ji and Kang Erfu. The value of these two space rings is much higher than that of all the venerable things. Li Tianzhuang said stupidly: " come out?"

"Space ring, don't you want to swallow it alone?" Long Aotian said with a sneer.

"Whether I killed Young Master Wuji and Kang Erfu? If the news of their deaths goes out, Kanglubu and Emperor Wuji will definitely be furious at that time. In order not to involve you two space rings, let me hold them! I, Li Tian is called the most loyal young man, and it will definitely not drag you down!" Li Tian said.

"I'll wipe it, whether you really want to drag us down or not, now we are already grasshoppers on a rope, we can't always benefit from you, let us carry this black pot together!" Zhao Ritian said.

Ye Liangchen said: "Li Tian already has space-like treasures and even artifacts, so you can give this space ring to Ritian and Aotian! Don't think they are the queens, but they are poor. Jingle, I don't even have a space ring on my body!"

Isn't Li Tian rare to see these two space rings? It's just that he hasn't checked the things in this space ring. It would be a pity for Li Tian if he missed any treasure.

"Our Three Nether Masters will definitely not let you suffer. All the things in this space ring belong to you, as well as all the spiritual sources under the giant egg. We only need one tenth for these sages, and all the rest belong to you!" Long Aotian said.

Li Tian knows that he can survive today. I really want to thank the third son of the netherworld, and five hundred years later, I am afraid that if Li Tian really does not reach the emperor level, at least there will be the power behind the third son of the netherworld, then Li Tian also didn't need to face the attacks of the two ninth-level masters of Wuji Huangzun and Kanglubu alone.

Li Tian said with an embarrassed expression: "Since you are so enthusiastic, I will reluctantly agree! But the main force in dealing with this dome must be your three sons' entourage, and I will fight with my people. Fight, grab the spiritual source!"

Chapter 4222: : Our Big Brother (1)

There are more than 60 venerables who dealt with the attack of the dome's tentacle silk thread at the same time, and all the venerables felt no pressure. Especially these venerables who often fight and cooperate with each other, they have already formed a tacit understanding, whether it is attacking, defending, or avoiding, they are seamless.

In this way, it is much more convenient for Venerable Four Mountains to use teleport to steal the spiritual source from under the dome object.

Huh!

Huh!

In the space, the tens of thousands of tentacles of the dome are fully activated, and there is no fear on the faces of those venerables, and they still use teleport to avoid the tentacles attacks of the dome objects, and even Venerables took the initiative to join the ranks of stealing eggs.

This kind of picture is like playing online games with dozens of people copying, playing bosses, and refreshing equipment.

In just three or four minutes, Li Tian already had tens of thousands of spiritual sources in his hands. Of course, the main contributor to these spiritual sources was not the Venerable Four Mountains, but the vicious dog.

The cultivation level of the Vicious Dog has now reached the first level of the Venerable. According to the actual combat power, the strength of the Vicious Dog is close to the peak of the Venerable First Level. Among all the Venerables in this dimension, Li Tian believes that the Vicious Dog can absolutely Easily defeat any Venerable, even if that Venerable is also the highest level of the Venerable.

It is precisely because of this that the vicious dog's calm and huge body, the heavy scales and hairs on the body, and the white bone tail that is no more tentacle than the dome, the vicious dog almost

ignores the existence of the dome, this one only needs to use its claws. Just a few clicks, the Four Mountain Venerables can steal for a long time!

Li Tian watched the steady stream of spiritual sources gather by his side, his face was already smiling, and the corners of his mouth almost flowed out. In fact, Li Tian now has a lot of spiritual sources, and the vagrants and taverns in the refugee land are still continuously collecting spiritual sources for Li Tian. These spiritual sources have far exceeded the needs of Li Tian and others.

However, Li Tian knew that this spiritual source was something more precious than diamonds, and it could be used as hard currency even in the Underworld.

Of course, the most important thing is that in the earth world Li Tian still has Tianmen and some brothers who need to cultivate. Once those people break through to the realm of cultivators, this spiritual source will immediately be useful.

After Long Aotian and Zhao Ritian got the space ring, they were still in excitement. After erasing the taboo on the space ring, they put the items in the space ring onto Li Tian's side and were excited. The ground closed from ear to ear, and kept holding a spiritual source into the space ring, and then took it out.

As time passed, Ye Liangchen's face gradually appeared worried.

"Li Tian, it's almost done! I'm worried that if we drag on like this, other people will come to this cave." Ye Liangchen said worriedly.

This is the Spirit Vessel Cave of Lingshan. The other emperors and the descendants of the domain masters cannot find the blood spirit source in other caves, so they will definitely find this cave sooner or later.

Although it is not ruled out that other emperors, descendants of the domain master, and other caves have begun to fight, but if there are real descendants of the domain master and the venerables come here, then, the third son of the Nether will be even better. I'm afraid I have to step aside.

Li Tian also knows that, especially after having just experienced life and death, Li Tian has a more acute sense of crisis.

"Okay! Then tell your people to stop, let's go now!" Li Tian quickly sent all the spiritual source piled up beside him and the things in the two space rings into the space of Void Yasha, nodded and said.

During Li Tian's busy schedule, the spiritual sources accumulated under the dome didn't seem to be less. The actual number of spiritual sources accumulated over the years was far more than Li Tian and others had guessed.

Just these spiritual sources, that is a huge wealth.

According to the agreement, Li Tian handed over the spiritual sources of those sages belonging to the Third Young Master Nether to the Third Young Masters, and proudly gave five more spiritual sources to each of the more than 60 venerables, which was regarded as a reward.

A total of more than 300 spiritual sources were given. For Li Tian, who now has at least nearly 20,000 spiritual sources, it can only be regarded as a drop in the bucket, but this small action made all the venerables extremely excited.

At this moment, Li Tian's vicious dog suddenly gritted his teeth and looked at the direction of the cave vigilantly.

"Could it be that a stronger opponent is already entering here through the cave? If this is the case, then we might be in trouble!" Ye Liangchen said calmly.

Those venerables instantly calmed down from their excitement, looking at Ye Liangchen and others, and waiting for Ye Liangchen and others to give orders.

"What are you afraid of? Now that we add the four venerables of Li Tian and a venerable dog here, we have nearly 70 venerables, which are comparable to those of the descendants of the Blood Domain Lord. We probably don't have many of us." Long Aotian said proudly.

"Brother Aotian is right, but don't forget, since we can cooperate with Brother Li Tian in this process, wouldn't the other emperor and the descendants of the domain master think of this?"

"Furthermore, if we go all-out, even if we escape from here, our strength will definitely be greatly damaged by that time. This will be nearly 500 years in the future, and our life in this death battlefield will not be easy by then!"

"Right, brother Li Tian?" Zhao Ritian looked at Li Tian and said.

Ye Liangchen, Long Aotian and all the other venerables all cast their sights on Li Tian at the same time, their eyes full of expectation.

My day, what do you mean by looking at me?

"Li Tian, only you can save everyone now!" Ye Liangchen walked up to Li Tian, stretched out his hand and patted Li Tian's shoulder and said.

Since Ye Meijing said that he was pregnant with Li Tian's flesh and blood, he regarded himself as the eldest brother. When facing Li Tian, he did not treat Li Tian as an outsider at all, and even showed such a sense of superiority. .

But Li Tian is very unsuccessful.

The space of the Qiong Spear of the Sky, not to mention these sixty-odd venerables, even if there are hundreds or thousands of them, they will be packed inside, but this is Li Tian's secret, Li Tian doesn't want him to have space. Everyone knows about artifacts.

As for the space of Void Yasha, because this is the place where Li Tian performed teleportation and Jinwu hides the beauty, that is Li Tian's secret, and it is completely impossible for Li Tian to let them know.

"You are the third son of the Netherworld? It is not your style to be afraid of the head and tail. If this happens, it will be shameful?" Li Tian said.

Ye Liangchen, Long Aotian, and Zhao Ritian glanced at each other, and they replied at the same time: "This is our style!"

"Hey, a big man can bend and stretch, be soft and hard, our Third Young Master has always been so shameless! Li Tian, let you go!" Zhao Ritian said with a smile on his face.

Chapter 4223: : Our Big Brother (2)

Zhao Ritian's shamelessness is quite like Li Tian.

At this time, the downy roots on the vicious dog's body were erected. Li Tian knew that the danger in the cave was approaching step by step. The matter was over. It seemed impossible to let the third son of the Nether master deal with the approaching danger.

If it drags on any longer, then there will inevitably be a gap in the relationship between Li Tian and the third son of You Ming, and maybe the third son of You Ming will be disadvantageous to Li Tian.

It's not that Li Tian is unwilling to send these people into his space. It's just that it's a big deal. If one of these people becomes alienated and leaks out Li Tian's possession of artifacts and treasures, then Li Tian will add The blood spirit source possessed will inevitably become the target of all the Venerable Trials in the entire death battlefield, so Li Tian must be careful.

"Ye Liangchen, Long Aotian, Zhao Ritian, can I trust you?" Li Tian asked solemnly.

Looking at the expression on Li Tian's face, Ye Liangchen nodded his head and said, "Li Tian, I know what you are worried about! In my eyes, you are not only my brother-in-law, but also my friend and brother, especially I admire your courage to kill Young Master Wuji and Kang Erfu just now!"

Ye Liangchen turned around and continued to say to the other venerables: "Today Young Master Wuji and Kang Erfu were killed by Li Tian, but you all know that without us, Li Tian would not be able to kill Young Master Wu Ji and Kang Erfu anyway! So, Today's matter cannot be separated from everyone present. All of us here have been tied to a warship. Once this matter leaks out today, I don't want me to say that you understand the final result!"

Long Aotian's gaze slowly swept across the faces of the venerables present, and said sharply: "Now that the danger is approaching, Brother Li Tian wants to save us, but he has all kinds of worries, so now, you tell me loudly, Are we Third Young Master and your sixty-eight followers worthy of trust?"

Long Aotian's voice echoed in the space, and all the venerables had solemn expressions on their faces, but they did not hesitate at all. They almost shouted loudly as Long Aotian's voice fell: "It's worth it! We guarantee our lives!"

The voice of the sixty-odd Venerable Venerable, how loud, the voice came out from the cave, also with great momentum, even the danger of rushing in this direction has stopped for a second.

"If I could have so many venerables to follow, it would be great!" Li Tian thought in his heart.

"Everyone, the danger is approaching. I know that you are powerful. Maybe you are not afraid of this danger, and it is not difficult to escape with your level of strength. But I also know that all of you are the loyal followers of the three masters of the Netherworld. , Even if you bet your life, it will protect the safety of the third son of the Nether. I and the third son of the Nether cherish each other, and I will not allow the third son of the Nether to be in danger. Now I invite you to come to me in order and I will send you Enter my divine artifact treasure."

When Li Tian said this, his face didn't blush, his heart kept unceasing, and he completely forgot that he had just wanted the Third Young Master to take the venerables to kill him, so he could easily escape.

It is precisely because of the shameless and noble quality of Li Tian that this product has been able to live until now, and it is still alive and moist.

Those venerables teleported to Li Tian's side and stood in order, with a little more expectation and some anxiety on their faces.

"Who will come first?" Li Tian asked.

Long Aotian and Zhao Ritian raised their hands at the same time. Li Tian didn't have the slightest sluggishness, and now he reached out and sent them into the space of the Qiong Lance of Heaven, and then sent in the four mountain venerables who were in the front.

Huh!

Long Aotian and Zhao Ritian only felt a flash before their eyes, and they had already appeared in the giant stone temple.

At this time, the main hall of this megalithic temple is no longer empty. There is already a forty or fifty meters high boulder in the center of the main hall. This boulder was blasted down from the rocky mountain by the four mountains in the southeast and northwest. .

These four goods originally wanted to erect a huge stone statue of Li Tian in this temple, hoping to express their surrender and respect to Li Tian in this way, but these four goods totally overestimated their carving skills. After being sent here, this huge stone was completely shelved.

But this does not affect their respect for Li Tian.

"Hey, isn't it good here? This is the temple of our master Li Tian, and out of this hall is an extremely vast world. Even this world is no smaller than the battlefield of death!" Aotian and Zhao Ritian said with shocked expressions and a smug expression on their faces.

I think it was not like this when they entered this space, but after so long of familiarity, the four mountains, the southeast, northwest, and the space facing the Qiong Lance of the sky are already quite familiar, and the four of them were used by Li Tian. The soul is detained by Dafa-controlled puppets, so the four of them regard this space as their home, and naturally they will have a sense of pride.

Long Aotian ignored the other venerables who kept appearing beside him, striding out the meteor from the huge stone hall, and when he saw the endless grassland in front of him, he finally couldn't help swallowing.

"This is the space artifact? This... this is completely an independent world! What kind of powerful person can create this space artifact? Emperor? Domain lord? Or is it a god?"

"Who is Li Tian? How did he get this space artifact? Why did he appear in the death battlefield again? And what is the purpose of his appearance? He..." A dozen of them appeared in Long Aotian's mind. Questions, but he has no way to answer these questions.

Huh!

Huh!

A group of figures kept flashing by Long Aotian's side, and the faces of those venerables who entered the space were filled with excitement. They all wanted to find out, to see how big this space was?

For them, the space ring is an unattainable magical treasure, and the space artifact in front of them is completely beyond their understanding and imagination.

I don't know how long it took, Long Aotian finally woke up from this shock. He looked at Zhao Ritian and Ye Liangchen who were already shocked beside him. He stretched out his hand and patted the shoulders of the two of them. He woke up and said, "What do you think?"

Ye Liangchen could feel his heartbeat speeding up. He wanted to calm him down, but he couldn't do it.

"Since I saw this space, I have settled the brother Li Tian! He is my eldest brother Ye Liangchen!" Ye Liangchen said.

"No! It's our eldest brother! I, Long Aotian, want to worship Li Tian, I don't know what you think?" Zhao Ritian said.

Chapter 4224: : Our Big Brother (3)

"I have this intention too, but I don't know if Li Tian is willing to bow to us!" Long Aotian asked in a nervous manner.

This is indeed a problem!

Don't look at the three sons of Netherworld, who are now descendants of the emperor. In this death battlefield, they led dozens of venerable entourages on a rampage. They were particularly cool and looked quite bluffing, but waited for them to leave the death battlefield and enter the netherworld. After the world, they lost sight of everyone.

Queen queen?

Ha ha, that emperor does not have a dozen children? There are even more than two or three hundred children of the imposing stallion emperor, and there are at least thousands of royal children in the entire Netherworld.

And is there a domain master above the emperor?

As for more than sixty followers of the noble-level powerhouses, they are definitely the peak combat power in the death battlefield, but after the three sons of the nether world complete the mission of the death battlefield and return to the nether world, these noble entourages will be taken back by the emperor. Going, if you can leave one or two noble and powerful entourages next to the Third Young Master, it will be a matter of saving face.

Of course, if they can break through to the realm of the venerable within these five hundred years, it would be another matter.

Let's talk about Li Tian.

Up to now, the three sons of You Ming did not know Li Tian's true identity, or whether there was a stronger power behind Li Tian, but Li Tian possessed a space artifact that even the emperor would envy him. This made the Third Young Master quite jealous of the forces behind Li Tian.

There is also that Li Tian has already subdued the blood spirit source, and his future potential is unlimited. In terms of personal cultivation, as long as Li Tian's cultivation does not cause any surprises, then Li Tian will inevitably become an existence that the audience will look up to in the Netherworld. It is even very likely to become a powerful existence on par with Huang Zun.

And now Li Tian already has four Venerables as followers, as well as Venerable-level mounts.

To worship, this cliff is the third son of Nether Master Pan Gaozhi.

"Should he not refuse us? After all, our status is quite bluffing!" Ye Liangchen suddenly became a little less confident and said.

...

Li Tian sent the last two venerables into the space of the Heavenly Qiong Lance, and the danger in the cave was approaching.

Huh!

The first figure appeared in this space, and this figure had not yet stood firm. While the vicious dog released a powerful coercion to control this figure, its bone tail attacked the figure like lightning.

Snapped!

With a loud noise, the figure continued to turn into a shadow and fell heavily on the giant egg object, and then hundreds of tentacle silk threads instantly turned this figure into a piece of flesh and blood.

The poor Venerable-level fellow has turned into a blood mist before he can see who is actually doing it on him in this space.

The first figure has appeared, followed by the second and third figures. These figures continue to appear in the space as the venerable powerhouse, Li Tian dare not neglect the slightest, and a teleport comes to the vicious dog and stretches out his hand. Shooting at the vicious dog, Li Tian and the vicious dog had already entered the space of the Qiong Spear of the sky when the venerables only saw the shadow of the vicious dog.

"Hey, Brother Li Tian..."

"Hey, Li Tian boss..."

"Hey, Brother Li Tian..."

Li Tian appeared in the Giant Stone Temple and saw the three young masters of You Ming licking their faces and watching him smile. He couldn't help but tremble and asked, "You are...?"

"Brother Li Tian, from the first time I saw you, Ye Liangchen felt that I was quite close to you. After you fully demonstrated your strength, I felt that you are the person Ye Liangchen will be waiting for in my entire life!" Ye Liangchen said with a smile.

Li Tian trembled and thought: "My day, you Ye Liangchen can't be glass? If you want to get involved, you can get involved with Long Aotian and Zhao Ritian happily. Lao Tzu's sexual orientation is completely normal!"

"Boss Li Tian, don't get me wrong, we mean that from the first time I saw you, we felt that you were in Yushu Linfeng, Qiyuxuanang, Longxinghubu, and extraordinary, so we decided to get along with you for a hundred years!" Long Aotian said all the idioms he could say, and said with a lewd smile on his face.

"My day! You should play it slowly for such a passionate thing! I don't have such an interest! If you still have beautiful girls, such as beautiful women like Ye Meijing, I won't mind a hundred years. Sleeping together!" Li Tian said.

"Hey, Brother Li Tian, what we mean is that we want to marry Jinlan with you and become brothers. As long as you become brothers with us, no matter who you are after, the brother will get you back!"

Zhao Ritian said that while pressing Li Tian to the ground, Ye Liangchen and Long Aotian knelt down beside Li Tian. Regardless of whether Li Tian was willing or not, they shouted loudly: "I, Ye Liangchen, Long Ao Tian and Zhao Ritian are willing to worship Li Tian as brothers of the opposite sex. The four of our brothers do not want to be born in the same year, the same month and the same day, but we want to die in the same year, the same month and the same day! After the worship, we are willing to regard Li Tian as the eldest brother. All the meat belongs to Big Brother Li Tian!"

"Fuck, you guys are compelling..."

Before Li Tian finished speaking, the three goods immediately interrupted.

The third son of the Netherworld continued to shout loudly: "The God and Buddha in the sky testified that if any of us dared to violate today's oath, let him be the ugliest man in the entire Netherworld sleepless and crumbling to death!"

The three of them pressed Li Tian's head and knocked their heads three times.

"Brother Li Tian, please be worshipped by younger brother Ye Liangchen, younger brother Long Aotian, and younger brother Zhao Ritian!" Ye Liangchen, Long Aotian, and Zhao Ritian said at the same time.

Li Tian was already a little dumbfounded.

I have seen someone who forced Liang to be a prostitute, but I have never seen anyone who forced others to bow before.

When he met the three sons of Netherworld before, Li Tian knew that the three sons of the netherworld liked his potential and wanted to win him, but he didn't expect that these three men's ideas were so urgent now that they would not force Bilian to force him to worship. .

"My day, if you want to bow to me, do you mean it? I won't refuse, but your oath is too cruel?" Thinking of the oath the three said, Li Tian couldn't help but shiver.

"Hey, please don't be offended by Big Brother! Our admiration for Big Brother..."

Li Tian knew that the reason these three goods would choose to worship him more was because of the blood spirit source and this spatial artifact, but that's good, at least now Li Tian and the three sons of the ghost are completely tied together, which can be said to be a shared honor and disgrace!

"Stop! Since you call me elder brother respectfully, then the eldest brother will be responsible to you. You must obey my arrangements in the future, or I will send you out now. I don't want to worship brothers like you!" Li Tian Immediately put the eldest brother's score and said.

Seeing that the third son of Nether Ming forced Li Tian to bow, Li Tian was not disgusted. He immediately smiled and nodded and said, "Even if the big brother ordered, we must all listen to your arrangements!"

Chapter 4225: : Ten Years' Agreement (1)

"When I entered this space, it was already the world of the emperor or the descendants of the domain master. If it weren't for my mount vicious dog to kill a venerable and create a chance for me

to escape, I'm afraid now I'm going to be caught Controlled by the queens or the descendants of the domain master, life and death are unpredictable."

"In the hands of Young Master Wuji, because three brothers rescued me, Li Tian escaped from the dead, but this feeling that my own destiny is in the hands of others is really...it's ***** disgusting."

"The princes and generals have a kind of Xiangning? Regardless of the emperor, or the domain master, will their descendants also be the emperor and the domain master? Why can they use the strength of the old generation to crush me at will, Li Tian! Li Tian is not convinced!"

Li Tian said this, deliberately paused, and took a look at the expression of the Third Young Master Nether.

"I'm not convinced by Zhao Ritian!"

"My Long Aotian is not convinced!"

The two goods shouted simultaneously.

Ye Liangchen clenched his fists, his face was a bit angry and unwilling.

Although their three sons of the Netherworld have always lived this life of relying on the strength of their parents to oppress others, their hearts are equally angry and unwilling when they endure this humiliation!

In the Nether Realm, especially in the kingdom controlled by the fathers of the Third Nether Sons, the Third Nether Sons are well-known, and there are not many people who really dare to challenge them.

Even those empresses and queens deliberately avoided their edge.

However, the dignified third son of the Netherworld, in front of the descendants of the domain master, is a fart.

The descendants of the domain masters will even appear in their turf to slap them in the face, and the three masters of the nether world still dare not pretend to be grandchildren in front of the descendants of the domain masters. This is the descendants of the blood domain masters. , Blood Zhengxin.

Xue Zhengxin is only the grandson of the blood domain master, and his status is not very high among the descendants of the domain master, but this grandson is a special grandson, who has already beaten the three sons of the Netherworld many times in the face.

It is precisely because of this that the Third Young Master thought of teaching Xuezheng believe a lesson in the cave of Lingshan, and even thought of the opportunity to leave this grandson on the battlefield of death.

In the cave of Lingshan, the third son of Nether joined forces to deal with Xue Zhengxin, but what made the third son of Nether never expected was that the grandson deliberately hid his strength, and it was too late when the third son of the nether knew about it, and had to drop ten. The corpses of several venerables escaped in embarrassment.

At this time, Ye Liangchen thought that in the next five hundred years, the grandson of Xuezheng believes that the grandson will entangle them like tarsus maggots, making them uneasy, and even the grandson might find a way to find an excuse to get rid of the third son of the Netherworld. .

This is not a slap in the face, but a death!

Thinking of this, Ye Liangchen felt a fiery pain in his face, and a strong sense of fear was unexpectedly produced in his heart.

Fear, anger, and unwillingness caused Ye Liangchen to burst out instantly: "I Ye Liangchen refuses to accept!"

Li Tian nodded slightly, satisfied with the performance of Ye Liangchen, Long Aotian and Zhao Ritian.

But this is not enough. Li Tian must inspire the blood in their hearts, let these goods spend more time in cultivation, so that they can continuously improve their strength, otherwise it will not take long. The cultivation of these three goods The realm will be surpassed by Tang Xiaolong.

If this is the case, these three goods will be worthless except for the Emperor Laozi behind him who can also make use of Li Tian, and will even become a drag on Li Tian in this death battlefield.

This is not what Li Tian wants to see!

Li Tian's mouth deliberately showed a sneer, and said: "What if you don't accept it? Your Lao Tzu is just the emperor. In front of ordinary cultivators, it is true that they are high above them, but in front of the domain master? Lao Tzu is a hero and a hero, Lao Tzu is a refugee as a bastard, your Lao Tzu should bow his head in front of the domain master, and it is not a shame that you three sons of the Nether will bow their heads in the descendants of the domain master!"

Li Tian kept looking at the expression on the face of the third son of You Ming, and continued: "If I didn't guess wrong, in this Spiritual Source Mountain Range, you should have provoke a person that the three of you can't afford, right? Otherwise, when you come to this cave to rescue me, you won't be so miserable."

"Before entering the Lingshan Mountain Range, I saw that there were at least more than 80 venerables by your side, but there were only more than 60 venerables left in this cave. Tsk tsk, who has the courage to beat us? The face of Third Young Master Nether, dare to kill our Third Young Master?"

"How? I'm angry? Since you recognize me as the eldest brother, then I will show you a way out. If you want to leave the battlefield of death alive, either stay in my space artifact or look for it. Get out with a chance to sincerely apologize to the guy who can't afford to offend, and be a man with his tail caught from now on!"

Teng!

Long Aotian stood up abruptly, looked at Li Tian with some anger, and said, "Li Tian, our brother respects you before calling you eldest brother, and then we are willing to worship you as a brother, but why do you ridicule us like this?"

When Zhao Ritian lost control of his emotions, some black smoke was released from his body. At this time, he was already covered in black smoke. He said to Li Tian in a strange voice: "Brother Li Tian, what are you trying to say? Now I Why don't you understand?"

Li Tian sneered in his heart. He knew that these three grandsons were all false, but he didn't expect that with just a few words, these two things would be so uncomfortable, but the more so, the more it shows that Li Tian is poking in. Their sore spots like this

Ye Liangchen stretched out his hand and pulled Long Aotian to sit down, and said to Li Tian: "Big Brother, if you have something to say, since we have become brothers, then we are willing to follow the arrangements of Big Brother. Big Brother does not need to go around. Both of them have limited IQs. It's hard to understand your good intentions, big brother!"

Li Tian's gaze swept across the face of the third son of You Ming, with a sneer at the corner of his mouth, and said in a flat tone without any emotion: "I don't care who the guy you offend or can't afford is, no matter the queen, Yu Regardless of the descendants, there is no difference in my Li Tian's eyes. Now I will ask you one sentence, do you want to get back the face you lost? How about our four brothers teaming up to kill that grandson?"

Quiet, the entire giant stone hall is abnormally quiet, and the three young masters even forgot to breathe in surprise.

They didn't expect Li Tian to kill the grandson of the Lord of the Blood Territory after he killed Kang Erfu, the son of Kanglubu, the ninth-level powerhouse of the Venerable, and Young Master Wuji, the son of the powerhouse Wuji.

Li Tian's words made the blood in their bodies start to boil.

"Fuck! The grandson must be killed, otherwise we won't have a good life!" said the third son of You Ming.

Chapter 4226: : The ten-year agreement (2)

"Okay, everyone has the same idea, but it's not enough to have lofty ideals and ambitions. Knowing this knows that the enemy is not dead in battle. Now you tell me who you are provoking?

Long Aotian and Zhao Ritian looked at Ye Liangchen, and Ye Liangchen paused for a while to sort out his thoughts and recounted their grievances between the Third Young Master and Xue Zhengxin. ,

The domain master is indeed the descendant of the domain master.

But since Li Tian had already said something, there was absolutely no reason to take it back.

"Big brother, what do you say we do? There are at least a hundred venerables beside Xuezhengxin. It is very difficult for us to protect him with so many venerables!" Long Aotian asked.

Li Tian meditated for a while, and said, "What is the cultivation base of the blood Zhengxin now?"

"At the beginning of the ninth level!" Ye Liangchen said.

"How about the three of you?" Li Tian asked.

The faces of these three goods are not at all embarrassing, on the contrary, they are a little complacent.

"I am now in the early stage of the eighth level of a cultivator, Long Aotian's cultivation is slightly stronger than the mid-level eighth level of the cultivator, and Zhao Ritian's strength is slightly weaker, being the pinnacle of the seventh level!" Ye Liangchen said.

Li Tianzhen wanted to blow these goods into full bloom.

You've been cultivating for hundreds of years, let alone the fuck? Why is this virtue? How can you still have a proud face at this level of cultivation?

"Have you three encountered bottlenecks in your cultivation so far?" Li Tian asked.

These three goods looked at Li Tian strangely and said, "What is the bottleneck?"

"I rub! Then you don't have enough spiritual sources to cultivate?" Li Tian asked again.

"Lingyuan? Although there are not many, there are still dozens of spiritual sources in my spatial ring!" Ye Liangchen said triumphantly.

Li Tian was furious in an instant, jumped up abruptly, kicked three consecutively against the chests of these three goods.

"Really, since there is no bottleneck in your cultivation, and there is no shortage of spiritual source cultivation, why is the cultivation level only at the seventh or eighth level? Xue Zhengxin is a descendant of the domain master, but his cultivation level has reached the initial stage of the ninth level. , Tell me about the three of you? The background is not strong, and there is no strong faith in blood. How do you get revenge? How to kill that grandson?" Li Tian said.

They were kicked by Li Tian, but the Third Young Master was not angry.

In their eyes, Li Tian, a 30-year-old cultivator at the eighth level, is indeed a monster, and it is understandable to reprimand them.

"Brother, don't be angry, we just practice! Give us five hundred years, and we promise to cultivate to the realm of venerable!" Zhao Ritian said shamelessly again.

"Five hundred years? After five hundred years, Xuezhengxin may have reached the peak of the first level of the sage, and may even reach the second level of the sage. What do you want the three of you to have at the first level? Let me talk about me The time is precious, I won't wait for you so long! Can I reach the realm of the venerable in three years?" Li Tian said.

"Three years? Brother, or you'd better send us out! In the history of the underworld, no one has ever been able to cultivate from the seventh level of a cultivator to the realm of the venerable in three years!" Zhao Ritian said with a sad face.

"Five years?"

"Brother, you still kill us, we are not such enchanting geniuses as you, I'm afraid you will not be able to cultivate in the realm of venerable in five more years? What's more, what about us cultivation waste materials?" Long Aotian said.

Li Tian knew that it took three thousand years for the small hot pot to cultivate to the realm of the nobleman, and he also knew that many people in the nether world took hundreds or even hundreds of years to break from the realm of the monk to the realm of the nobleman, and even more. It may be trapped forever on the ninth-level peak realm of the practitioner.

"Ten years! I only give you ten years. If you can't cultivate in the realm of venerable within ten years, then don't blame us for denying you three worshipping brothers!" Li Tian gritted his teeth.

Ten years is the limit for Li Tian to stay in the battlefield of death.

There are still too many relatives and friends in the earth world. With the physical condition of Mr. Mu Yunlong, he still doesn't know what happened ten years later. Li Tian doesn't want to wait for him to see Mr. Mu Yunlong when he returns to Earth. A pile of loess graves.

Moreover, Duanmuying and Bai Jing are already pregnant, and now they may have given birth. Li Tian also doesn't want to wait for him to return to the earth world, his children will already have soy sauce.

Ye Liangchen, Long Aotian, and Zhao Ritian glanced at each other, and the three nodded at the same time.

Ye Liangchen gritted his teeth and said, "Okay! In ten years, we will make a ten-year agreement! Within ten years we will reach the state of the nobleman! If the three of us do not practice in the state of the noble, the three of us brothers will never Leave this space! But... but now we don't have enough spiritual sources in our hands!"

"All the spiritual sources you need are supplied by me, Li Tian! I have more than 20,000 spiritual sources in this space. If you need them, you can always find the Four Mountain Venerables." Li Tian said.

These spiritual sources were all the spiritual sources handed over to Li Tian by the Refugee Supreme. As for the more than 10,000 spiritual sources that Li Tian snatched from the dome material, they were sent by Li Tian into the void of Yaksha.

Although the Third Young Master wants to use the spirit source to reach the realm of the venerable more than a thousand spirit sources, but this is no pressure for Li Tian. Compared with the spirit source, Li Tian values the three more. A Venerable with a strong background and strength.

The agreement was reached, and the three sons of Nether Ming received more than three hundred spiritual sources from the four mountains.

"Brother, in the past ten years, we have to practice hard day and night, and we may not have time to accompany him around. When we break through to the realm of venerable cultivation and kill the blood and faith, our brothers will go to the land of refugees to give you. Grab some beauties and come back." Zhao Ritian said.

"Okay, then I'll wait for the good news of your victory. In these ten years, I will also practice hard. After sending you away, I will retreat in this megalithic temple. Today, ten years later. , We meet again at the Megalith Temple!"

"Ten years! Get together again!" said the four brothers, holding their hands tightly together.

Ye Liangchen, Long Aotian, and Zhao Ritian each have a large number of followers, but apart from each of them taking away one of their core followers, the other venerables stay in the Giant Stone Temple and listen to Li Tian at any time. .

After hearing that the Third Young Master had already become brothers with Li Tian, the attitudes of those venerables towards Li Tian became extremely respectful and pious, which may also be attributed to this spatial artifact.

Li Tian hoped that these sixty Venerables could be trained as a whole, so Li Tian gave these Venerables to Vicious Dog Training.

Yes, you are right, it is a bad dog.

Although the vicious dog can't speak, but it understands everything, and with the strength of the vicious dog, one-on-one, it can easily kill any ordinary venerable in a second, and they are completely convinced of the vicious dog.

Ye Liangchen went to the lofty mountains in the northwest, Long Aotian went to the islands in the southeast ocean, and Zhao Ritian went to the hot desert just south.

Sending away the third son of the Netherworld, Li Tian entered the giant stone hall and began to practice hard.

Chapter 4227: : Refining and Chemical, Lotus (1)

During the ten-year appointment, Li Tian had already informed Situ Ningbing, Xueji and others through his telepathy with Xiao Yacha.

Regarding Situ Ningbing and Tang Xiaolong, Li Tian's requirement is that they must at least reach the top of the first class.

For ordinary humans in the earth world, ten years are long enough. As long as it is not the special situation that cannot absorb spiritual sources and cannot cultivate, it is not difficult to spend ten years on cultivating to reach the pinnacle state of the Venerable.

Situ Ningbing's current cultivation realm has reached the pinnacle of the eighth level of cultivation, and he is breaking through to the ninth level. If nothing happens, Situ Ningbing may be able to break through to the realm of the noble within two or three years, and reaching the pinnacle of the noble is just around the corner. .

It was Tang Xiaolong who really surprised Li Tian.

When he was in the earth world, this guy didn't have the support of the spiritual source, and he couldn't even break through the realm of the cultivator. However, after he came to the battlefield of death, Tang Xiaolong's cultivation was like a fish in water. He has now reached the sixth level of the cultivator peak. Lingyuan supports that if this trend continues, Tang Xiaolong might even catch up with Situ Ningbing's practice.

What worries Li Tian is Xue Ji and Xiao Hotpot.

Xue Ji comes from a different world, and her cultivation talent is not bad, but she is still slightly unacceptable with the earthlings, so Li Tian's requirements for Xue Ji are not very high, but she hopes that Xue Ji can be the same as the third son of the Nether. Just reach the realm of the Venerable.

As for the small hot pot, Li Tian has no idea what to say about this product.

It took three thousand years of cultivation to go from a practitioner to a venerable one.

His mother's three thousand years is almost the entire time of the development of the ancient civilization of the earth world to the modern civilization.

Li Tian is not merciful to the small hot pot, and Li Tian used the same method for the third son of the Netherworld. Li Tian asked Xukong Yasha to tell him the small hot pot. If the state of the nobleman cannot be restored within ten years, then he will be forever Staying in the space of Void Yasha, even if you return to the world of the Netherworld, it has nothing to do with him.

After Little Hot Pot heard Li Tian's request through Void Yasha, his face stretched very long.

This guy is definitely a patient with advanced procrastination and advanced ADHD. It would be more uncomfortable for him to concentrate on practicing than killing him, otherwise it would not take him three thousand years to cultivate to the state of venerable.

However, the little hot pot was finally rescued by Li Tian from the Wushan Temple. He didn't feel the preciousness of freedom. Naturally, he didn't want to be trapped in the space of the Void Yasha, so he could only ask for perfection. Practice.

There are three little Yasha.

Li Tian knows that the three little Yachas can also absorb spiritual sources. There is no requirement for the three little Yachas, Li Tian. They want to absorb the spiritual sources and let them absorb the practice. As for the final result, this is not Li Tian's consideration. The problem is.

What Li Tian now considers is the refining and cultivation of the blood spirit source.

The blood spirit source was sent by Li Tian in the space of Void Yasha. In the space where the sky was the opposite of Qiong Spear, although Li Tian could have a spiritual feeling with Xiao Yacha, but the blood source of Void Yasha could not be sent in.

Li Tian didn't dare to rush out of the Qiong Spear of the Sky, and then enter the space of the Void Yasha. He was worried that those empresses or descendants of the domain master would guard him outside.

What needs to be explained now is: space.

What Li Tian knows now is that once he enters the space of the heavenly spear, the heavenly spear disappears from the outside world, and when Li Tian leaves the space of the heavenly spear, the spear of the day Will appear in Li Tian's hands again.

This is one of them.

The second is that the three young masters of the Netherworld now each have a space ring, but their space ring still exists in the space of the heavenly spear, and can still be used, but the space of the void Yaksha does not enter with Li Tian. In the Qiong Spear of the Sky, Li Tian can hold the Qiong Spear of the Sky and enter the space of the Void Yaksha, but after entering the space of the Void Yasha, the space of the Qiong Spear of the sky seems to be sealed, Li Tian Can not enter and cannot be opened.

According to Li Tian's understanding, the space of the Void Yaksha and the space of the Qiong Lance of the sky belong to the existence of the artifact level, and these two spaces are of the same level and coexist.

The space of the space ring is a small space, which can exist in the space of Void Yasha and Sky Spear.

This feeling is as if the space of the Void Yasha and the space of the Qiong Spear of the sky are two sets of independent rooms of the same size, and the space ring is a palm-sized storage box, which can naturally enter any room at will.

Xue Lingyuan could not be anxious, but Li Tian did not stop either.

Li Tian sat cross-legged in the huge stone hall.

At this moment, in front of Li Tian was the four-mountain venerable flustering and not making a boulder ready to carve Li Tian's stone statue. Not far behind him, the vicious dog crawled on the ground with his eyes closed. This is the cultivation method of the vicious dog.

Li Tian's body was motionless like a huge boulder, and his heart was like still water without any waves.

call!

Li Tian let out a turbid breath and closed his eyes to feel the veins of his body.

At this time, the context is very clear.

In the sky of the vein, the red flame spiritual power is like a fire cloud, which slowly floats in a certain direction in the vein, and underneath the flame spiritual power is a river. The light green spiritual power in the river trickles along the vein, and In this river, seven or forty-nine small fish swim happily.

The whole context is the rhythm of the two heavens of ice and fire.

The flame spiritual power and the flowing water spiritual power coexist peacefully, just like two parallel lines.

Li Tian can feel the dominance of the flame spiritual power. This flame spiritual power is like a flame, like a steel knife, giving people a sharp-edged feeling, while the flowing water spiritual power is the soft flowing water around the fingers, like silk, giving people A deep and long feeling.

Li Tian's brows can't help but frown slightly. Although these two spiritual powers can coexist peacefully, they did not have the effect of one plus one greater than two. Now Li Tian is still completely dependent on the original spiritual power and the seven. Seven forty-nine small fishes.

Li Tian tried to integrate the flame spiritual power with the original spiritual power, but once the flame spiritual power and the original spiritual power touched each other in the veins, Li Tian's veins immediately exploded, like boiling water poured into it. The feeling of the oil pan is average.

Had it not been for Li Tian's good control, Li Tian would have been injured just by this attempt.

But what made Li Tian couldn't understand is that the flame spiritual power and the original spiritual power can coexist in the atrium pond, half of the flame and half of the pond.

"It seems that now we can only practice Qingyun and Qingyun Qi Jue first, and wait for three or five months for now, and then go out from here to get the blood spirit source out of the space of Void Yasha to practice." Li Tian said to himself. Said to himself.

call!

Chapter 4228: : Refining and Chemical, Lotus (2)

Li Tian has one heart and three uses, one heart is used to cultivate Qingyun, the other is used to cultivate Qingyun Qi Jue, and the other is used to refine the flame spiritual power.

Qingyun is the inner strength mental method, which is used to cultivate spiritual power. Qingyun Qi Jue is now Li Tian's strongest attack method. Seven seventy-nine fish can kill the strong of the sage level. The flame spiritual power is Li Tian An important means for refining the blood source.

Don't look at Li Tian's silly appearance every day, but once he is completely silent for training, he will even forget the existence of time.

There is a refining flame spiritual power, which made Li Tian find the kind of pleasure that he had when he first practiced.

Fighting with the flame spirit is no joy.

Although Li Tian had already refined the flame spiritual power he had absorbed when the blood spirit source was born, when he conquered the blood spiritual source, a lot of flame spiritual power poured into Li Tian's body.

Although the flame spiritual power is in Li Tian's veins, it is still not under Li Tian's control. If he wants to absorb the flame spiritual power in the blood source, Li Tian must refine the flame spiritual power close to the veins.化.

The cultivation process was long and time passed. I don't know how long it took, Li Tian slowly opened his eyes.

At this moment, the corners of Li Tian's mouth turned up slightly, and a smile appeared on his face.

Li Tian's arms stretched forward suddenly, and in an instant, several small fishes gushed out of the acupuncture points of his arms. These small fishes immediately turned into purple electric dragons and walked on Li Tian's arms.

At this moment, there was a chance black flame gushing out of Li Tian's acupuncture path. This black flame followed the purple electric dragon closely, and quickly became completely entangled with the purple electric dragon. It looked like a purple electric dragon. The outer layer of the dragon's body was surrounded by a black flame again.

The powerful fluctuation of power even caused the temperature in the entire giant stone hall to rise suddenly. The vicious dog who had just been crawling on the ground with his eyes closed and cultivating suddenly got up from the ground, with a frightened expression in his pupils, and then went crazy from the giant stone hall. Escaped.

But at this moment, the purple electric dragon and black flame suddenly became unstable. The purple electric dragon and black flame seemed to be two giant pythons entwined together, swallowing each other.

The two swallowed extremely fast. Just now, on Li Tian's arms, there were about the thickness of the fingers and the length of the chopsticks. In a flash, they were reduced by more than half. Just when Li Tian wanted to control them, he suddenly screamed. , The purple electric dragon and the black flame exploded at the same time.

This violent explosion rushed Li Tian's body directly out of the Giant Stone Hall, the explosive volume of clothing on the front of Li Tian's body disappeared, and the stone originally used to carve Li Tian's stone statue in the Giant Stone Hall was instantly exploded into powder.

Li Tian was a little surprised.

This black flame is a variant of the flame spiritual power in his veins, and it is even comparable to this purple electric dragon. It seems that even if the Nether Realm does not have the Qingyun Qi Jue technique, it is possible for those who are above the Venerable level. Possess a powerful ability.

"Now I have not started to formally absorb the flame spiritual power of the blood spirit source. This flame spiritual power already has such a powerful power. If once I start to absorb the flame spiritual power of the blood spirit source, I will even absorb that spiritual power completely. Under my control, if I can fully integrate the flame spiritual power with the original spiritual power in the body, what a terrifying strength will it be?" Li Tian thought in his heart.

The dust in the huge hall gradually fell, and the Four Mountains Venerable came to Li Tian's side boldly.

Venerable Dongshan whispered: "Master Li Tian, what are you practicing? Why is there such a powerful force? Our admiration for adults is like a surging river..."

"To shut up!"

Li Tian didn't care about the clothes he was wearing, so he jumped up from the ground and looked around and asked, "Where is my mount dog? Don't think I will spare him if I hide!"

The bad dog is definitely not a good thing. Li Tian asked the bad dog to train the venerables of the Third Young Master, but this ***** actually lay lazily behind Li Tian to sleep, even if Li Tian knew that the dog was cultivating. It still feels bad.

And just now, when this guy foresees the coming of danger, he completely ignored Li Tian's life and death, and didn't give any reminder to Li Tian, and even escaped by himself.

"Damn, I will chop him up and eat dog meat today!" Li Tian said angrily.

Venerable Dongshan pointed to the messy trace on the grass in the distance, and said to Li Tian, "Master Li Tian, the vicious dog has already taken sixty Venerables to flee here. None of them used teleport. It should be possible to catch up."

"Chasing your sister!" Li Tian said angrily.

Those guys are venerable, even if they don't use teleport, Li Tian can't catch up with them.

"My sister? If I have a girl, I will dedicate it to Master Li Tian!"

Li Tian turned around and walked towards the Giant Stone Hall again. The Three Mountains of Nanshan, Beishan, and Xishan shouted loudly behind Li Tian: "So are we. If we have a sister, no, even a wife is willing to dedicate it to Master Li Tian!"

When Li Tian heard these words, he slipped and almost fell to the ground.

"Your sister, you old guys who are several thousand years old, even if you send your wife up cleanly, I won't take a second look."

Entering the space of the huge hall, a layer of crushed gravel that was blasted into powder fell on the ground. Li Tian squatted down and could feel that the gravel was instantly baked by high temperature.

"Hey, this powerful is beyond my imagination! It seems that I really made a fortune this time, haha, as long as I can combine the spiritual power of the blood spirit source with the purple electric dragon of Qingyun Qi Jue, as long as I can reach the realm of the venerable, and I feel that I can easily kill the powerhouse of the first-level peak of the venerable!" Li Tian's heart was ecstatic.

Everything is ready and only owes east wind, what Li Tian needs now is to bring the blood spirit source over and start practicing.

Li Tian said to Void Yasha through his mind: "Void Yasha, how long have I practiced this time?"

After a while, Void Yasha's answer came: "Master Li Tian, three months."

Three months?

Li Tian's heart sank. He didn't expect that it took him three months to refine such a little flame spiritual power. If that was the case, then Li Tian wanted to completely refine the blood spirit source and control it completely. Li Tian felt that the flame spiritual power in the source was not enough in those ten years.

Li Tian shook his head abruptly, dispelling the thought of repair in his heart.

"Three months have passed, and I don't know if those venerables outside are still there? No, I now feel that ten years are not enough. I definitely can't waste time here!"

Thinking of this, Li Tian used teleport to fly out of the space of the Qiong Lance of the Sky.

Chapter 4229: : Refining and Chemical, Lotus (3)

In three months, the corpses in this space had decomposed, and the whole space was filled with a foul smell.

People die like a lamp.

These monks, venerables, Kang Erfu, and Young Master Wu Ji are beautiful when they are alive, but once they die, their bodies will become a pile of dry bones, and before they become dry bones, their bodies will have to be maggots. Swallow.

The whole picture in the space is disgusting, ***** praise disgusting, so disgusting, if Li Tian had not been baptized by the end of the earth world, he would have already vomited now.

Li Tian held his breath and slowly swept his eyes around.

I don't know if it's because the smell in this space is too pungent, or because those emperors and descendants of the landlord have given up, and there is no one in this space.

Li Tian's gaze finally fell on the dome object, and all the spiritual sources accumulated around the dome object had disappeared, only the dome stood alone in the middle of the huge space.

Tens of thousands of spiritual sources have disappeared. It is fake to say that Li Tian is not distressed, but Li Tian is open-minded, knowing that he can take more than 10,000 spiritual sources from the dome, that is quite lucky.

Although there is no one here, Li Tian does not dare to take it lightly.

Those emperors or descendants of the landlord are likely to stand alone in the villages outside Lingshan, and if they rush out from here, they may throw themselves into the net.

Huh!

Li Tian entered the space of Void Yacha. Situ Ningbing, Xueji, and Tang Xiaolong who had received news from the mouth of Void Yacha had already waited for Li Tian in the space. Naturally, the small hot pot would not be missing on this occasion.

After a while, Li Tian knew that after three months of cultivation for the little hot pot, although Tang Xiaolong and Situ Ningbing's cultivation did not improve as quickly as Tang Xiaolong and Situ Ningbing's cultivation, his cultivation has improved significantly, and he has now reached the cultivator. The fourth-level pinnacle realm, it will not take long to break through to the fifth-level realm of the cultivator.

Tang Xiaolong and Xue Ji also made considerable progress in their cultivation.

Only when Situ Ningbing's cultivation level reached the peak of the eighth level of a cultivator, she encountered her first bottleneck period. During these three months, Situ Ningbing's cultivation has never been interrupted, but there is still no way to break through to cultivation. Only nine levels.

"Li, you don't need to worry about me. I have absorbed another spiritual source these few days. I feel that now I have touched the dome of the eighth level of the cultivator, and it will not take long to break through to the ninth level of the cultivator. !" Situ Ningbing said.

Li Tian nodded slightly. Situ Ningbing had some memories of the female domain master. She naturally cultivated much faster than Li Tian and the others. Even if he encountered a bottleneck, the solution was not comparable to Li Tian and the others.

"Little boss, what's the situation outside now? When shall we leave here?" Tang Xiaolong asked.

When Tang Xiaolong was asking this question, Little Hot Pot looked at Li Tian eagerly. Needless to say, Tang Xiaolong must have asked Tang Xiaolong this question.

Li Tian didn't expose them, and said with a slight smile: "There are only bones outside, but I can feel that there are strong energy fluctuations in the cave. It should be the emperor or the descendants of the domain lord who have not completely left. So, We will not leave here in the short term, unless all of you have reached the state of venerable!"

Tang Xiaolong glanced at the small hot pot, the expression in his eyes probably meant that you should give up now, right?

The little hot pot really looked disappointed, and said to Li Tian: "You talk first, I'm going to practice!"

Li Tian didn't stay in the space of Void Yasha for too long, and after a few simple greetings with Situ Ningbing, Xue Ji, and Tang Xiaolong, Li Tian returned to the space of Qiong Spear of Sky with the source of blood spirit.

In the huge stone hall, Li Tian sat cross-legged.

Li Tian placed the blood spirit source on the ground in front of him. As soon as the blood spirit source landed, Li Tian saw that the blood spirit source was the center, and the gravel on the ground was constantly rolling around, and soon there was one on the ground. Concentric circles.

"The energy fluctuations in this blood spirit source are so powerful!" Li Tian sighed in his heart. call!

Li Tian took a breath, and controlled the flame spiritual power in the vein to rotate along the vein for a whole day. After all the flame spiritual power was absorbed into the pond in the atrium, Li Tian then pressed his palms on the blood spiritual source. .

Li Tian slowly closed his eyes, pressed his palms on the blood spirit source, and felt the powerful spiritual power fluctuations in the blood spirit source with his spiritual sense.

The world changed, Li Tian felt his body emerge from the huge stone hall into a vast ocean in an instant.

This is not a vast ocean, but an ocean of flame spiritual power from the source of blood.

Li Tian stood alone on this crimson ocean of flame spiritual power, the sky is crimson, the sea of flame spiritual power is also crimson, the sea and sky are the same, looking around, the ocean is endless, even if it is probed by God's consciousness. You can't see the end of the ocean at all.

"How much flame spiritual power is there in this blood spiritual source? If I really absorb all these spiritual powers, how much will my strength increase to? Venerable? Emperor? Or the domain master?"

"It's no wonder that there will be descendants of the emperor and domain lord who will fight for the blood source. Even if these people cannot cultivate the blood source, they must cultivate people who can absorb the blood source to become their own people." Li Tian's Sighed in his heart.

At this moment, Li Tian felt that a huge vortex appeared on the surface of the ocean. This huge vortex continued to draw in the flame spiritual power at Li Tian's feet. Looking up, Li Tian found that the sky was a little distorted, as if Something is quickly devouring the flames floating in the sky with spiritual power.

"Could it be...Is this me absorbing this spiritual power?" Li Tian suddenly thought with some horror in his heart.

Distracted, Li Tian's spiritual consciousness instantly withdrew from the blood spirit source, and Li Tian returned to the huge hall again.

But Li Tian couldn't open his eyes. Li Tian felt that his body seemed to be thrown into flames and burned. Even Li Tian had an illusion that he felt the sky, ground, trees, and flowers in the Qiong Lance of the whole sky. , Everything has been ignited by the flame spiritual power of the blood source.

The flame soars into the sky, and the entire world is flame spiritual power.

"How could this be?"

Li Tian quickly woke up from the panic, opened his happy eyes, and observed the changes in his body and surroundings through his heart.

Li Tian saw that he himself was still sitting cross-legged in the huge stone hall.

The situation remains the same, but this hall is full of rich spiritual power. These flame spiritual powers seem to be Yunxia floating around Li Tian's body. Even Li Tian can absorb these spiritual powers into his body with a breath.

"Haha, it turns out that the spiritual power of absorbing the blood spirit source is so simple. It seems that I can break through to the realm of the venerable in a short time." Li Tian's heart was dark.

But at this moment, Li Tian suddenly discovered that the blood spirit source placed in front of him had disappeared.

"This? Is it already absorbed by me?"

Li Tian immediately closed his mind and controlled the spiritual power in his veins, using his inner vision to check his body veins.

In the next second, Li Tian was completely shocked by the picture he saw and suddenly jumped from the ground.

"This... how is this possible?"

Chapter 4230: : Refining and Chemical, Lotus (4)

Li Tian found that his veins remained the same, but the pond in his heart no longer knew how many times it had expanded. It is not an exaggeration to say that this pond is now a lake, and the lake is still half lake and half flame.

You must know that whether it is lake water or flames, it is all real spiritual power, that is to say, by absorbing the blood spiritual source, Li Tian's spiritual power in his body has increased exponentially in just a few minutes.

Li Tian saw that this half of the flame lake was blazing with flame spiritual power. This picture was like filling the lake with gasoline and lighting it with a match. The whole picture was particularly spectacular.

Under the blazing flames, the crimson spiritual power was abnormally calm. Li Tian could see that the blood spirit source was suspended in this red spiritual power, and Li Tian and the blood spirit source had completely lost contact.

"These flame spiritual powers are many times more than the flame spiritual power in my previous veins. It seems that before I fully refine these flame spiritual powers, I guess I cannot absorb the spiritual power in the blood spiritual source for the time being. Now." Li Tian thought in his heart.

Looking at the other half of the lake, Li Tian immediately thought of the poems about picking up the sky, the lotus leaves, and the red lotus.

At the same time that the pond in the new house became a lake, half of the nine-colored corpse lotus in this pond grew like a water hyacinth. Now the nine-colored corpse lotus suddenly covered half of the lake surface, covered with green lotus leaves. Living half a lake, and above the lotus leaves are nine lotus flowers that are already in full bloom.

Nine-color corpse lotus, this lotus is really different from any lotus that Li Tian has seen in the earth world. The nine-color corpse lotus is composed of colorful rainbows and black and white. It doesn't look particularly beautiful. On the contrary, it gives a very strange feeling.

However, the purple arc swimming on the nine-color corpse lotus made Li Tian have to pay attention to them.

Under this lotus pond, the size of seven or seventy-nine small fishes has increased significantly. Even Li Tianneng can see purple arcs on the scales of these small fishes. What makes Li Tian feel surprised is that these small fishes seem Not afraid of flame spiritual power at all, he can swim freely in the entire pond.

Every time this little fish swims out of the flame spiritual power, Li Tian can see that the scales, skin, and internal organs of the whole body seem to be burned by the flame spiritual power, and

only the fish bones that are burning black flames are left. But soon these fish bones will regenerate internal organs, skin, and scales.

"Nine-colored corpse lotus is in full bloom, the pond area has become larger, and the small fish has become extraordinarily weird, but I don't know what effect so much spiritual power has on my Li Tian's cultivation level? Why have I still Didn't you feel the improvement of my cultivation level?" Li Tian sighed inwardly.

Li Tian felt this flame spiritual power with his heart, and began to use Qingyun first and second refining to refine these flame spiritual powers.

At the beginning, Li Tian just controlled the spiritual power in his veins, let these spiritual powers rotate in his veins for several weeks, and then slowly poured into the lake.

However, one stone stirred up waves.

When Li Tian controlled the spiritual power in the veins and injected it into the lake, the calm lake surface instantly seemed to be boiling, and the gurgling bubbles continued to bubble, and a faint cloud appeared over the entire lake, tightly. Then a strong wind blew across the lake, and the nine-color corpse lotus was swaying in the strong wind, and the half of the lake's flame spirit was swept across the lake by the strong wind.

In an instant, the entire lake surface turned into an ocean of flame spiritual power. The lotus leaves below the nine-color corpse lotus began to burn. In a flash, it turned into a pile of ashes, and the nine-color corpse lotus blossomed in this flame spiritual power. The rays of light, those purple arcs were constantly beating in the flame, but in the end, the nine-color corpse lotus did not escape the fate of being burned by the flame.

Within a few seconds, Banchi Nine-Colored Corpse Lotus disappeared, and Li Tian was stunned.

"My day, how could this be? I want to control the flame spiritual power, but not let you burn my nine-color corpse lotus." Li Tian thought anxiously.

However, no matter how anxious Li Tian was in his heart, there was nothing he could do.

Li Tian wanted to control the spiritual power lake in the pond to extinguish the spiritual power flame, but the flame was not affected at all. Not only did it not go out, but it burned more vigorously. Not only was the nine-color corpse lotus burned clean, but Even the small fish in the pond were burned to bones and fell on the bottom of the lake.

Li Tian remembered that not long ago, when he used the Qingyun Qi Jue, the powerful power of the purple electric dragon with black flames, and then looked at the current lake. The lotus was destroyed and the small fish became bones. Li Tian didn't know how much there was in his heart. Thousands of grass and mud horses gallop past.

"Your sister, is this to play with my rhythm?"

"This is Mao's cultivation. Can I get the consent of my master before doing anything? This is my body! Is there any morality? Can I practice happily?"

"Fuck, if you ***** me like this and make my Li Tian's cultivation level unable to break through quickly, don't blame Lao Tzu for being rude to you! Huh? What is this?"

Li Tian suddenly saw the blood spirit source floating in the lake drifting a few times, slowly sinking to the bottom of the lake, and some flame spirit power floated from the blood spirit source. The lake around the source is all lit.

The flame began to spread quickly toward the other half of the lake, and then the entire lake began to burn.

White mist rose on the lake surface, and the entire atrium lake had turned into a sea of flames, even more spectacular than when Li Tian saw the flames burning in the sea of flames in the blood spirit source.

In the burning of this flame, the little fish that had turned into white bones magically resurrected and began to swim in the lake.

A piece of silt at the bottom of the lake slowly protruded. At this moment, countless transparent threads were drilled out of the silt. This transparent thread instantly entangled the blood spirit source and slammed into the silt at the bottom of the lake.

In the lake, this flame spiritual power spread arbitrarily and quickly spread to Li Tian's veins.

A severe pain spread through Li Tian's veins.

This feeling is dozens or hundreds of times stronger than the pain Li Tian endured when he fought with the ghoul, and Li Tian could feel that the entire veins seemed to be scorched by this flame spiritual power.

At this moment, Li Tian, who was sitting cross-legged in the Great Stone Hall, was already sweating profusely, and water vapor continued to rise from Li Tian's body.

Steaming and white misty, Li Tian's body skin has turned red like a steamed crab.

Li Tian's body is like a crater, and black flames are constantly erupting from the crater, and this black flame is also mixed with purple arcs.

Li Tian, whose eyes were tightly closed, suddenly opened his eyes, leaped up in pain, clenched his fists, and roared: "Break and then stand. If you don't break, you can't stand! Give me break!"
