

A Killer 4731

Chapter 4731: : The gift of Shuiguiguzi

The water ghost elites such as water guns, water cannons, and water birds were completely shocked!

They didn't expect their patriarch to have such a glorious past.

In the same way, they regretted the death of Li Kuafu, the patriarch's good brother.

If... Li Kuafu is still alive, with the strength of Li Kuafu and the current patriarch, then how terrifying the strength of their combination will be!

Super God family?

Nether Academy?

Mysterious race?

Other ancient families?

Haha, who else is their opponent!

Unfortunately, there are not so many ifs.

This is the first time they have heard of the past of the patriarch Shuiguiguzi.

Shui Gui Guzi's gaze swept across the crowd slowly, and finally fell on Li Tian, with kind tenderness in his eyes, and continued: "I know too little about Samsara. I only know that Kuafu will be born again. But I didn't know that Kuafu's reincarnation was seven thousand years later, and I didn't expect Kuafu's memory of the past to be awakened this time, it would fall on the earth!

"Li Tian, do you want revenge?"

Li Tian said decisively: "Yes!"

There was only one word of answer, but when he answered, a terrifying murderous aura was suddenly released from Li Tian.

"well!"

A smile of relief appeared on the face of Shui Gui Guzi, his gaze slowly swept across Li Tian, Tang Xiaolong, Situ Ningbing, and Xue Ji, and finally fell on Xiao Tianyi again.

"Only this young man's strength is not bad, as for the rest of you..." Shui Gui Guzi couldn't help but shook his head slightly and said: "Li Tian, although I don't doubt your determination, your current cultivation base is really too weak. , You must know that your opponent is the Super God Family, let alone the four Super God Family, even if there is only the East Palace Super God Family, you are far from resisting now!"

"So, with the present of you, wanting revenge is tantamount to idiotic dreams!"

Shuigui Guzi's words are straightforward, but they are also true!

Li Tian knew that the Eastern Palace Super God family would certainly not just let it go. If the Eastern Palace Super God family only sent a super domain master-level powerhouse to plot against him, because of the existence of Xiao Tianyi, he could still sit back and relax.

However, if the Donggong Super God Family shamelessly sends out multiple super domain master realm powerhouses to deal with him, then he will have a dead end.

Li Tian looked at the water ghost millet, he knew that the water ghost millet must have something to say.

Water Ghost Guzi was very satisfied with Li Tian's performance, and continued with a smile: "Although the Super God Family is powerful, they have many enemies, such as the Water Ghost Clan..."

"Wow!"

When talking about the water ghost tribe, the elites of the water ghost tribe, such as water guns, water cannons, and water birds, suddenly screamed, and their hair turned red almost at the same time. From this we can see the anger in their hearts.

"Li Tian, our water ghost clan also has an antagonism with the super **** family. If we want to deal with the super **** family, our water ghost clan is willing to follow the patriarch to fight against them!" said the water gun.

Many strong men such as water cannons and water birds have echoed.

Shuigui Guzi slowly lowered his head and continued to say to Li Tian: "The enemy's enemy is our friend, Li Tian. Over the past seven thousand years, my Shuigui Guzi has survived the world, but I have never forgotten the hatred in my heart!"

Huh!

The water ghost Guzi flipped over, and there was already an animal skin scroll in his hand. The water ghost Guzi shook his hand, the animal skin scroll violently unfolded around the banquet hall, surrounding Li Tian and others in the middle of the scroll.

The attention of Li Tian and others was attracted by this scroll. They found that the map drawn on this scroll turned out to be a map of the Netherworld: The Netherland, the Netherland, the Southern Land, the Northern Land, the Sky Profound Sea, the Seven Star Ocean, and the Tropics. Rainforest...

"After Kuafu's fall, I buried Kuafu and started on the journey alone. During the journey, I experienced wind and rain, thunder and lightning, landslides, and ground cracks. During this journey, my cultivation level continued to improve. In five hundred years, I caught up with Kuafu before his fall!"

"After that, I started to use my footsteps to find the mysterious races that have disappeared in the underworld. I hope to use the power of the mysterious race to avenge Kuafu."

"In this process, I met the water ghost tribe, the blood wolf tribe, the secluded dragon tribe, and many other mysterious races that have disappeared for a long time! And while helping these three races rise, I became the patriarch of these three races. ..."

"What? Master patriarch... you... are you still the patriarch of the blood wolf clan and the dragon clan? This... this... is too crazy!"

Suddenly the many elites of the Shuigui clan suddenly became a little uneasy.

Li Tian and others don't know much about the mysterious race, but as a mysterious race, the Water Ghost Race still has a certain understanding of other mysterious races.

The blood wolf tribe, the dragon tribe and the water ghost tribe are the same. Although they have not yet been born, these mysterious races have begun to show their fangs. These two powerful mysterious races are powerful races that can compete with the water ghost tribe. .

"Li Tian, if you want revenge, then you go as much as you want! My Water Ghost, Blood Wolf, and Youlong Clan will always be your strongest backing!" Water Ghost Guzi said domineeringly.

Li Tian felt that his head was not enough, but he had seen the power of the Shuigui tribe with his own eyes, but he did not expect that Shuigui Guzi was actually the patriarch of two other powerful mysterious races.

Before Li Tian felt that he was like a boat in the ocean, as long as the Super God family wanted him to die, they could pinch him to death at will.

But with a word from Shuigui Guzi, Li Tian suddenly felt that Lao Tzu also has a backer!

What happened to the Super God Family?

There is Nether Academy behind Lao Tzu, and now there are three mysterious families!

"but....."

Shui Gui Gu Zi interrupted Li Tian's reverie and said, "Don't be happy too early. The blood wolf tribe is ***** and cruel. They only worship the strong and only believe in the strong. The reason why I was able to become their patriarch at the beginning was Because I strayed into their territory, I killed the most powerful existence of the blood wolf clan."

"If you want the blood wolf clan to convince you, you have two choices. First, defeat me!"

Li Tian shook his head slightly!

How strong is Shuigui Guzi now that Li Tian can't see through, how can he beat him?

At least for the time being, it is simply impossible.

"Secondly, go to kill a few super domain master-level powerhouses of the super ***** family, carry their heads to the territory of the blood wolf tribe, and use your strength to prove that you are stronger than the strongest blood wolf tribe! "

Li Tian couldn't help squinting his eyes slightly.

The super domain master-level powerhouse, for the current Li Tian, this is also an unreachable and powerful existence, but if even the super domain master-level powerhouse does not have the courage to face it, then how can Li Tian face the whole What about the super ***** family?

"As for the Youlong Clan, maybe you can ask this young man to try..." Water Ghost Guzi pointed to Xiao Tianyi and said.

Chapter 4732: : The Gift of Water Ghost Guzi (2)

"I?"

Little Tianyi didn't expect that Shuigui Guzi would entrust him with such a difficult task to complete, and asked him with a little bit of incredulous pointing to his head.

"Yes, it's you!"

"The Youlong Race is an extremely mysterious and powerful race. This race does not agree with any creatures in the Nether Realm and the Earth World. Well, it may have some similarities with you."

"So, although I was lucky enough to become the patriarch of the Youlong Clan by virtue of my strong strength, the Youlong Clan is not completely surrendered to me. They are more afraid of my powerful strength."

"But you are different. You have some similarities with the Youlong Clan. If you can show the strength that convinces the Youlong Clan, I believe you will replace me and become the real patriarch of the Youlong Clan!" Shuigui Guzi nodded and said.

Xiao Tianyi smiled, smugly.

"Dad Li Tian, this big... Uncle said I can, and I can also share the worries and troubles for Dad Li Tian!" Xiao Tianyi approached Li Tian, as if a child did something he thought was extremely proud. Waiting for Li Tian's praise.

Li Tian stretched out his hand and stroked Xiao Tianyi's head, and said encouragingly, "Xiao Tianyi is awesome!"

Although Li Tian's mouth was complimenting Xiao Tianyi, his heart was very worried.

Youlong tribe, that is a more powerful and mysterious race than the noble dragon tribe. Water ghost Guzi can subdue Youlong tribe. That's because the strength of Water Guiguzi is unfathomable, but can Xiaotianyi be compared with Water Guiguzi?

Li Tian had secretly decided that if Xiao Tianyi really had to go to the territory of the Youlong clan, then he must follow Xiao Tianyi, and he was not willing to let Xiao Tianyi take risks.

Shuigui Guzi looked at Li Tian and continued: "Although it is difficult, it is not impossible. This map scroll clearly marks the location of these mysterious races and other ancient families."

Speaking of Shuigui Guzi, he waved his hand, put the animal skin scroll away, threw it to Li Tian, and said, "It's just the first gift I prepared for you!"

After that, before Li Tian put the map scrolls away, the water ghost Guzi stared at Li Tian.

A sharp light flashed in his pupils, his eyes were like sharp knives, he wanted to cut Li Tian's body and see through Li Tian's body.

There was a strange smile on Shui Gui Guzi's face, she shook her head slightly, and said, "Little Li Tian, the spiritual power in your body is surging, and you have the spiritual power of a domain master-level powerhouse."

"Unfortunately... these spiritual powers do not belong to you, and you have not fully refined these spiritual powers, otherwise you should be able to reach the realm of the domain master now."

Li Tian couldn't help nodding slightly, and he was even more sure that the water ghost millet might have reached the realm of the uncle of the **** level.

"Now let me give you a second gift...?"

The words hadn't settled yet, Shui Gui Guzi had already arrived in front of Li Tian in an instant. He reached out and grabbed Li Tian. Before his fingers touched Li Tian's clothes, Li Tian had already flew up suddenly.

Shuiguiguzi's arms are like light butterflies, constantly moving back and forth on Li Tian's body. A touch of spiritual power gushes from the tips of Shuiguiguzi's fingers and enters the veins of Li Tian's body.

Li Tian felt as if he was soaking in a hot spring, his whole body light and warm, there was an indescribable comfort.

However, the spiritual power in his body veins has become a lot more docile unconsciously, and Li Tian can refine these spiritual powers with little effort.

There was a joy in Li Tian's heart, and he quickly sent the animal skin map scroll to the space like a void Yaksha, and began to cooperate with the water ghost millet to refine the spiritual power in the body's veins.

It takes no effort to break through the iron shoes and find nowhere to come!

Li Tian met a god-level uncle before going to Yecheng. He helped Li Tian refine the spiritual power in his body so that Li Tian's cultivation level could be improved in a short time.

He didn't expect that Uncle Water Ghost Guzi would actually help him refine spiritual power today.

It feels like Li Tian is the protagonist of the whole world, with the protagonist's halo everywhere, and various benefits are waiting for Li Tian.

This happiness really came too suddenly.

Li Tian's dual purpose, his refining spiritual power is not slow.

But if Li Tian had no special encounters, it would take him two years to refine his physical veins and the spiritual power in his atrium and lakes.

Only by refining all these spiritual powers can Li Tian break through to the realm of the domain master. But now, with the help of Shuigui Guzi, the realm of the domain master is already close at hand.

"Domain master realm... I, Li Tian, will finally break through to the realm master realm!" Li Tian couldn't help feeling a little excited, thinking to himself.

With the help of the water ghost millet, coupled with Li Tian's full cooperation, one mind and two purposes, while seizing the time to refine the spiritual power and consolidate the cultivation base, the spiritual power in Li Tian's body veins is refined at the fastest speed.

...

Tang Xiaolong, Situ Ningbing, Xue Ji, and Xiao Tianyi couldn't help showing a trace of joy on their faces. They stepped back and looked at Li Tian with joy.

The water ghost elites such as water guns, water cannons, and water birds have complicated expressions on their faces. They are jealous and envious.

At present, all the super-domain master-level elites of the Water Ghost Tribe have received the guidance of the Water Ghost Guzi, and it is precisely because of this that they can quickly restore their cultivation strength in just a few thousand years.

The Shui Gun and others were still Shui Gui Gu Zi's cronies, and in the process of pointing, they received additional guidance and assistance from him.

However, no water ghost elite has ever been treated like Li Tian.

"Don't be envious, this kid is the nephew of our patriarch."

"Who is envious? Not to mention that the patriarch personally helped this kid refine spiritual power, even if the patriarch passed all his life's cultivation to this kid, I would not be envious."

"Hey, what do you drool then?"

"You know what a fart, I'm happy for Li Tian, this kid. Meeting Guzhi in another country is enough to make people excited. This kid met his uncle, which is more exciting than meeting Guzhi!"

...

In the banquet hall, the water gun and other aquatic elites have stepped back more than ten steps, while Tang Xiaolong and others have stepped back further.

"Hehe, I underestimated you. I didn't expect that there is so much spiritual power in your cultivation heart, tusk, let me help you refine it!" Shui Gui Guzi said with a smile.

Li Tian could hear what the water ghost Guzi said, but he had no time to speak.

The spiritual power in his body veins has already been refined, and the surging spiritual power in his heart is gradually being refined, and Li Tian can break through to the realm of the domain master at any time.

However, Li Tian did not expect that Shui Gui Guzi discovered the **** of obscenity in his heart, and suddenly attacked the **** of obscenity!

Chapter 4733: : The Gift of Water Ghost Guzi (3)

It is sad to obscene God!

As a former god-level powerhouse, although in the **** realm he dared not say that he could walk sideways, he was at least one of the overlords.

However, because of the fall, the realm of his cultivation has plummeted, he can only parasitize in Li Tian's body now.

This is not a sad reminder. The most sad reminder is that he was caught by the demigod in front of him, and now the demigod wants to refine him.

The obscene **** was once a god, so he knew the horror of god. With his current cultivation base, facing such a god-level powerhouse, the obscene **** knows that he has no chance of winning!

Therefore, when Li Tian entered the territory of the water ghost tribe, the obscene **** curled up and held his breath, afraid to release even a trace of spiritual power.

The obscene ***** didn't dare to talk to Li Tian rashly, he was afraid of being discovered by the demigod in the water ghost clan territory.

Once, the obscene ***** successfully avoided the god-level uncle with this low posture.

But now, he was still discovered by the demigod Water Ghost Guzi.

"Li Tian, your uncle, hurry up and save me!"

The body of the obscene ***** is a liquid meteorite, and its body changes in various forms and plunges into the lake in the atrium, without daring to emerge.

However, the material elder who was trapped by the obscene ***** in the towering giant tree and vine of the Evergreen Longsword was not so lucky. In less than tens of seconds, he was easily refined by the water ghost millet.

Shuigui Guzi has already found the ***** of indecency, and the next target must be him. If Li Tian doesn't stop him, he will definitely be refined by Shuigui Guzi and become Li Tian's spiritual power.

"Obscene God, now I am really helpless! My body is beyond my control, I can't even speak..., you... If you don't want to die, hide yourself, or come out of your body, when the time comes I'll beg for your uncle!" Li Tian said carefully.

Li Tian didn't cross the river to demolish the bridge. He and the obscene ***** are in mutual cooperation and mutual use.

There is an obscene ***** in Li Tian's body. When Li Tian encounters danger in battle, Li Tian has an extra layer of protection.

However, this obscene ***** is once a god-level powerhouse after all. In Li Tian's body, Li Tian has no choice but to take him. Although it is good for Li Tian, obscene ***** is also a time bomb.

Maybe it will explode sometime.

"Li Tian, you bastard! Do you think I care about your stinky skin? It's just that my cultivation base is too weak to condense into a human form. If I walk out of your body, I will It will turn into a meteorite, and I'll be dead..." the ***** of obscenity said anxiously.

The Obscene God is different from the Yanhuo Clan of the Little Hot Pot. Before his cultivation level reaches the realm of the super domain master, he can only exist as a rock. If he wants to move, he can only flow in a liquid way.

Once he loses the skin of Li Tian, let's not talk about life and death. If the obscene ***** wants to contact the domain master-level powerhouse and super domain master-level powerhouse, it will be more difficult. At that time, can he return to the god-level realm? , But it's hard to say.

"Obscene God, don't talk so badly!"

"You are one of the most important combat partners to me. I treat you as my own brother. How could I not be saved."

"However, you also know that my current cultivation base is limited, and Shui Gui Gu Zi is a god-level powerhouse. I really have more than one heart but I don't have enough energy!" Li Tian pretended to be innocent and said.

"you....."

The obscene ***** only uttered one word, but couldn't say the next words.

In fact, Li Tian was right. In front of the demigod-level powerhouse, Li Tian, the emperor-level powerhouse, really had no way to resist.

However, the obscene ***** did not want to go out of Li Tian's body like this.

At this moment, a voice suddenly appeared in the mind of the obscene god.

"Hey, no matter how hard you struggle, it is in vain. Li Tian is my nephew, and you are living in his body. Whether with Li Tian's consent or not, I will not sit idly by! Unless..."

The obscene ***** was startled, only to find that an afterimage appeared in front of him.

It can be seen that this afterimage is just an unformed shadow formed by the water ghost Guzi using spiritual energy, but even if it is an afterimage formed by the demigod using spiritual energy, the powerful pressure is enough to make the obscene ***** tremble.

"Unless what?" Since there is room for maneuver, the ***** of obscenity is of course unwilling to give up like this, and asked quickly.

"Unless you surrender to Li Tian, before you become a god, you will become Li Tian's slave!" Shui Gui Gu Zi said coldly.

"Impossible!" The obscene ***** blurted out subconsciously.

Shi can be killed and cannot be humiliated. He was once a god-level powerhouse, and a god-level powerhouse has the dignity of a god-level powerhouse, even if it is death...

As soon as he thought of this, the ***** of obscenity saw that the spiritual power in Li Tian's heart and lake was instantly frozen, and ice lings kept appearing in front of him.

The spiritual power was frozen, and the cold was deep into the bones. Even if the obscene ***** was already a domain master-level existence, he still couldn't help shaking his whole body.

In this case, his liquid body was also rapidly solidifying.

"So powerful! This demigod is just an afterimage. I didn't expect to have such power..."

Spiritual ice lings are like snowflakes, one by one, drifting past the eyes of the obscene god, and instantly pierced into the body of the obscene god!

"It can be seen that you were once a god-level powerhouse, but... now you have fallen, you are no longer a god, so you are not qualified to say no in front of me!"

"Humph! Either die or yield, I didn't give you a third choice!"

The gaze of the afterimage of the water ghost millet was like a cold knife, constantly slicing across the ***** of indecency.

Every look in the eyes of Shuigui Guzi Canying made the obscene ***** tremble. He felt that his body had fallen into the bottomless icy abyss. If he persisted like this, he might really be able to.dead!

Do you choose to die with dignity, or choose to linger?

"me....."

The obscene ***** is extremely entangled.

The dignity of God made him not want to give in.

However, if you die, you are really dead!

"I....."

The liquid body of the obscene ***** has completely solidified, and the snowflake-like spiritual power is like a blade, constantly cutting from his body.

"I...I'm willing to surrender to Li Tian. Before becoming a god, I have been a servant of Li Tian..."
The obscene ***** seemed to be exhausted from all his strength, turning into a pool of liquid, slowly sliding down to the bottom of the lake. .

He felt that he was like the mud on the bottom of the lake, his whole body was filled with an aura that disgusted him.

boom!

At this moment, a surging spiritual power fell from the sky.

This spiritual power penetrated the entire tree house hall and the top of the banquet hall, like a blue dragon, slamming into Li Tian's body and into Li Tian's body veins.

Immediately, the spiritual power lake that had just condensed into ice exploded suddenly, and these spiritual powers were constantly turning up and down like boiling water.

Li Tian's body veins instantly widened ten times, and the lake in his heart instantly expanded ten times!

boom!

boom!

boom!

The giant trees and giant vines on the Evergreen Longsword in the lake continuously burst at the same time, turning into spiritual power, and being involved in the huge waves formed on the lake.

Li Tian finally broke through and reached the realm of domain master!

Chapter 4734: : New friends

The moment Li Tian broke through, the blood spirit source at the bottom of the lake exploded suddenly!

A black flame rushed out of the blood spirit source, instantly melting the ice in the entire lake, and then turned into a black dragon rushing out of the lake and rising into the air!

This is not a dragon, but just like a dragon.

The black flames collided violently with the giant wave of spiritual power on the lake, and the sky over the lake changed. Seven or seventy-nine small fish in the lake jumped out of the water and instantly turned into purple electric dragons.

This is the first time that Li Tian has changed into a purple electric dragon in his body since he practiced "Blue Clouds".

The afterimage of the water ghost millet in the lake instantly appeared on the surface of the lake, looking up at the seven forty-nine purple electric dragons in the sky, constantly devouring the black flames.

When the purple electric dragon swallowed these black flames, the entire body was surrounded by black flames.

Black flames gushed out from the gaps in the scales of the purple electric dragon, making all the bodies of the purple electric dragon blend with the black flames perfectly.

These black flames are transforming the body of the purple electric dragon, and this purple electric dragon is also taming the black flame.

Seven or seven forty-nine black flames and purple electric dragons soared into the sky, and the entire sky was occupied by these dozens of electric dragons, as if the entire world was under their control.

The picture is shocking.

"Hahaha, I didn't expect the legendary blood spirit source to fall into the hands of Li Tian boy. Now he has just broken through to the realm master realm, and he already has the strength close to the super realm master realm. Then I will look down on him Now!" The afterimage of the Water Ghost Guzi nodded in satisfaction and said.

At the bottom of the lake, the **** of obscenity looked at Li Tian in surprise.

The **** of obscenity knew that Li Tian was definitely not a thing in the pool, but he didn't expect that Li Tian just broke into the realm of the domain master and soared into the sky.

Now Li Tian's strength is close...No, to be precise, if the **** of obscenity does not rely on his species' special ability, Li Tian has surpassed him.

If Li Tian is willing, he can expel the obscene **** from his body at any time, and even...even the obscene **** can refine the obscene **** without knowing it.

"Is the Qilin a thing in the pool? It seems that I temporarily surrendered to Li Tian and became Li Tian's servant, which is also a good choice!" The God of Obscene sighed secretly.

Shuigui Guzi's residual shadow glanced at the obscene **** sinking in the spiritual water bottom with the remaining light, but did not continue to embarrass the obscene god, and disappeared instantly.

...

In the banquet hall, all the water ghost elites looked at Li Tian dumbfounded.

Black flames floated out of Li Tian's pores. Li Tian's hair became darker and darker. The black flames curled up his long hair and fluttered upwards gently, and his whole body was on the line, all covered in this layer. In the black flame.

Between the black flames, there is another strong purple arc like lightning, swimming back and forth, whether it is the black flame or the purple arc, it gives these water ghost elites an extremely threatening feeling. .

Guru!

The waterfowl with a waterfowl tattoo on its cheek couldn't help but swallowed its saliva, and said with some surprise, "Is this guy the domain master? Why does his body give me an extremely dangerous breath?"

"It's not just you, I also feel the same way! Now if I fight him, I may have the advantage in the first 300 rounds, but after 300 rounds, I may fall into the wind!" Looking at Li Tian, he nodded slightly and said with horror.

Huh!

Shuigui Guzi had already let go of Li Tian, and instantly teleported back to the long table.

Li Tian slowly fell to the ground, he opened his eyes, and a ray of purple light flashed in his eyes.

With the flash of this purple light, seven or forty-nine electric dragons gushed out of Li Tian's arms instantly. These electric dragons are no longer purple all over, but like Li Tian, the body is wrapped in In the black flame.

In the past, similar forms of electric dragons have appeared, but at that time the black flames were wrapped around the purple electric dragons, and now the black flames and the purple electric dragons have been perfectly integrated.

"Huh? This dragon is weird!" Tang Xiaolong couldn't help exclaiming.

"Weird? Sure enough..." Situ Ningbing also noticed the changes in these electric dragons instantly.

If, in terms of size, these electric dragons can't see much change, but if you look carefully, you will find that the purple electric dragons before were four claws, but now these electric dragons have become five claws.

Five claws are the real dragon!

In other words, these electric dragons are not only a problem of fusion with black flames, but they have changed into real dragons, their power is stronger and stronger.

These seven forty-nine purple electric dragons

Li Tian felt the surging spiritual power in his body, and a smile appeared involuntarily at the corner of his mouth.

When he was in the realm of Emperor Zun, Li Tian already had the power to kill the domain master. At that time, Li Tian relied more on obscene gods, but now, Li Tian believes that any domain master in front of him will definitely be easy. Beheaded by him.

Because now Li Tian has stood at the pinnacle of the domain owner.

"Even if it is an enemy of the super domain master-level powerhouse, I, Li Tian, may not have the power to fight!" Li Tian thought in his heart.

Domain master, this is the power that Li Tianda possesses of domain master-level powerhouses!

This is not arrogance, but self-confidence!

...

"Li Tian..." the **** of obscenity said.

Li Tian knows what happened in the lake in his heart, and also knows that the **** of obscenity has succumbed to the mighty strength of the water ghost valley.

Everything that Shuigui Guzi did was for Li Tian.

This is the love of the elders to the younger ones, for which Li Tian is more grateful.

However, Li Tian changed his mind.

Li Tian knew that now that he controls the **** of obscenity, he can only help him temporarily, but it will limit the growth of the **** of obscenity.

As his strength increased, this was not worth the gain. In that case, it would be better to let the obscene cultivation base reach the super domain master realm earlier.

As long as the obscene **** reaches the realm of the super domain master, he can condense a humanoid body, and then there is no need to lodge in Li Tian's body.

And for a monster with the ability to swallow like God of Obscenity, he is the nightmare of other superdomain master-level powerhouses. When that happens, God of Obscenity will definitely become one of Li Tian's strongest support.

"Obscene God! Remember our agreement?" Li Tian said.

Obscenely stunned God.

"Obscene God, you will not be my slave, and I will not be your master!"

"Because you are a god!"

"Even if your cultivation level drops sharply, you are forced to live in my body, but you won't live in it for long!"

"As a friend of my Li Tian, fight with me Li Tian!"

"Our next goal is to be the super domain master class powerhouse! All the super domain masters of the two super **** families, Donggong and Sanlu, are our goals!" Li Tian said to the obscene **** with his heart.

Chapter 4735: : Discuss the strength of the domain master

Since Li Tian has said so, what else can you say about molesting God!

Indecent gods are more ashamed than touched!

The **** of obscenity nodded heavily, and vowed to say: "Li Tian, I admire you of the **** of obscenity! I used to be the **** of obscenity, sorry for you, I forcibly occupied your body, and have been using you to quickly restore my strength!"

"But it is over. From now on, you will be my brother who molested God. We help each other, and I will do my best to help you become a god! After we become gods, in the realm of God, we will also advance and retreat together!"

Tang Xiaolong, Situ Ningbing, Xue Ji, and Xiao Tianyi have all rushed to Li Tian.

Seeing Li Tian break through, Xue Ji was happy for Li Tian in her heart, but when she thought of her cultivation level, a trace of sadness flashed across Xue Ji's face involuntarily, but the sad expression only flashed past.

Xue Ji took Li Tian's arm, smiled and jumped happily, crying Li Tian's name with tears and excitement: "Li Tian...Li Tian..."

There was a slight smile on Situ Ningbing's face.

There was a feeling of extreme pride in her heart.

Li Tian, along the way, has changed year by year.

From an ordinary young man, standing on top of the earth world, he became one of the most powerful men in the earth world.

Passing through the gate of the restricted area and crossing to the other world, Li Tian is also radiant in the other world, vertical and horizontal.

He returned to the earth world, experienced apocalyptic crisis, and lost all his skills from scratch, and finally turned the tide.

Now, Li Tian was led by fate and came to the Nether Realm, and he had also hit a large area of the world, and had a firm foothold in the Nether Realm.

Situ Ningbing has been silently accompanied by Li Tian, she has witnessed the growth of Li Tian, and she has witnessed the rise of Li Tian.

Now, Li Tian's cultivation has reached the realm of the domain master, and his strength is already above the real female domain master of Situ Ningbing.

Situ Ningbing has reason to be proud of Li Tian.

"Lee!"

Situ Ningbing only uttered this word, and was so excited that he could no longer say anything else.

Li Tian is now a domain master-level powerhouse, but his cultivation is endless, especially now that Li Tian's goal is the most powerful family of the Nether Realm, the Eastern Palace Super God Family, what Situ Ningbing can do is to silently support Li Tian and step up time. Practice and improve yourself as soon as possible, becoming Li Tian's help.

Tang Xiaolong wanted to rush into Li Tian's arms, but Li Tian held out his hand.

But Tang Xiaolong was not discouraged. He stretched out his hands and hugged Li Tian's arms, swaying from side to side, as if he was a child crying with joy, and said with tears: "Little boss...oh, I'm so excited. I'm so excited."

"Little boss, you have finally become a strong man in the realm of the domain master. From now on, Tang Xiaolong, I, will also work hard and break through to the realm of the domain master as soon as possible, and fight with the little boss.

"Domain Lord, Super Domain Lord, Super God Family, here we are!"

...

The parallel imports felt that his head was as if he had been bombarded with a heavy fist, and his headache was splitting apart, but as a super domain master-level powerhouse, even if he was completely drunk and unconscious, he could feel the threat and feel Spiritual power fluctuations in the banquet hall.

"What happened? Why is there such a strong energy fluctuation? Could it be... Could it be that the Shuigui tribe was attacked by the enemy?"

The parallel imports opened his eyes in a daze and saw that he was still in the banquet hall, but at this time dozens of black fire and purple dragons hovering in the sky around the banquet hall.

The black fire purple dragon is so lifelike that it can release the dragon's might. ‘

Strong as parallel imports, when facing so many black fire purple dragons, my heart still trembled.

"Hmph, no matter who this is the Lingli Dragon released, I dare to despise my parallel imports so much. Today I will let you see and see, my true ability in parallel imports!" Drunk and drunk parallel imports, I just woke up. Seeing so many black fire and purple dragons, an intent to fight was born in my heart.

drink!

The parallel imports roared, his left and right hands were like drum hammers, hitting his chest seven or eight consecutive times.

Boom! Boom! Boom! Boom!

The fist fell on his chest, and there was a drumming sound.

And with this drumming-like action, the abdominal cavity of parallel imports has already been overwhelmed.

"Wow!"

"vomit!"

The parallel imports kept making retching noises in their mouths.

The parallel imports woke up suddenly, and his series of actions became even more sudden.

Suddenly, a strong smell of alcohol mixed with a sour smell came out of his mouth, and then, a green oil, and repeated white smoke, like a strong sulfuric acid, a filth from him Sprayed out of his mouth.

Li Tian and others were shocked.

Parallel imports, although your name is very good, but you are also a super domain master powerhouse, how can you do such a shameful thing?

However, what surprised Li Tian was that the vomit ejected from the parallel imports did not fall on the ground. Instead, it formed an acid dragon in mid-air. It suddenly raised its head and rushed towards the black fire purple released by Li Tian. Long.

Only a sour dragon spurted out of parallel imports.

This acid dragon is a four-clawed dragon, but the dragon power unintentionally released from this acid dragon is much stronger than Li Tian's black fire purple dragon.

Li Tian didn't expect that the acid dragon's target was his black fire purple dragon. When the acid dragon and the first black fire purple dragon were entangled, the strong corrosive acid actually began to melt the black fire purple dragon. Even Li Tian can see that the black flame is suppressed by the acid dragon.

In a few seconds, Li Tian's black fire purple dragon had been melted and corroded by the acid dragon. After a few seconds, the black fire purple dragon transformed into black flames and purple lightning spiritual power, and swarmed in again. Li Tian's body.

Water Ghost Guzi did not stop parallel imports.

The parallel imports just woke up, just enough to let Shui Gui Gu Zi see how some Li Tian's strength reached.

Li Tian is only the realm of the domain master now, and the parallel imports are the super domain master level powerhouse.

But what can this be?

At the beginning, Li Kuafu was also his opponent by leapfrogging.

The water ghost millet used the domain to create a space under his control in front of everyone. In this way, other water ghost clan elites can be protected. Of course, the most important thing is to protect Li Tian's other followers.

Seeing that it was Guiguzi's domain, Li Tian already knew his attitude.

There was a slight smile at the corners of Li Tian's mouth, his hands clenched into fists, hehe sneered, and said: "This is just right, I just broke through to the domain master promotion, then let me see and see the water ghost super domain master level The strength of the elite! Let me feel the difference between the domain master and the super domain master!"

The banquet was in such a happy and peaceful atmosphere... Li Tian's first battle with a super domain master powerhouse began!

Chapter 4736: : The real thing (1)

Now Li Tian is in the realm of the domain master, but when facing the superdomain master level powerhouse, Li Tian can only go all out.

Fortunately, Li Tian knew that now he and the parallel imports were already under the control of the Shuiguiguzi display domain, and their safety was absolutely guaranteed.

Under such circumstances, Li Tian and parallel imports can all fight as they wish.

Huh!

There is already a spear of heaven in Li Tian's hand.

As the Qiong Spear of the Sky appeared in his hand, Li Tian's body pores again gushed out black flames, and now Li Tian seems to have been blessed with special effects, with a black special effect coat on his body.

However, Li Tian knew that this was not a special effect.

This black flame possesses the ability to burn everything. If it were not for Li Tianzai's control, Li Tian quickly wondered if the black flame would ignite the air in the fruit millet display domain.

It turns out that Li Tian thinks too much!

Although the black flame on his body can burn air, in this domain, the water ghost millet is the master.

Just like the stellar sun, although the temperature on that planet is extremely high, the light and heat shining on the nether world and covering the earth can also make the earth feel warm.

However, no matter how strong the sun is, it is impossible to ignite the void universe.

The black fire was beating, and a cold and evil aura was released from his body!

The seven forty-nine black fire purple dragons were suspended behind Li Tian, as if there was a group of dragon legions behind Li Tian.

Huh!

The Qiong Spear in Li Tian's hand stabs forward suddenly, and the black flame follows Li Tian's arm and instantly covers the Qiong Spear of the Sky, and a strand of black flame has flown out from the tip of the Qiong Spear of the Sky. .

The black flame seemed to be burning the air and twisted.

...

When the wine glass full of parallel imports spit out and turned into a strong sour dragon, his drinking spirit had already woken up a bit.

"My day, are these black fire purple dragons at the top of the banquet hall actually released by the kid Li Tian?"

"Why did I shoot Li Tian? He is a distinguished guest of the patriarch. If he hurts this kid, the patriarch will definitely not spare me lightly!" thought the parallel imports.

Hum!

At this moment, Water Ghost Guzi suddenly displayed his domain.

In an instant, parallel imports and Li Tianlun were covered in his domain.

The Jiujin of parallel imports has completely woken up!

"Does the patriarch want me to fight with Li Tian to help this ordinary banquet? However, Li Tian is just an ordinary powerhouse promoted by the emperor, and I am the super domain master. A super power in the realm, I won't be able to win if I win..."

"Huh? How come Li Tian's cultivation realm has reached the domain master?"

Parallel goods suddenly discovered that Li Tian's cultivation had reached the realm of the domain master, and he finally realized that the forty or so black fire purple dragons that were powerful enough to make the super domain master-level experts face upright were also under Li Tian's control.

"What happened during the time when I was drunk? Why did this kid's cultivation level get such a big improvement?"

However, it was too much to think about parallel imports, and Li Tian's Heavenly Qiong Spear had already stabbed over.

Whoosh!

puff! puff!

The spear tip of the Heavenly Qiong Spear pointed directly at the front door of the parallel imports, and the black flame sprayed from the spear tip had already rushed toward his face.

The black flame is transformed by spiritual power, and it is exactly the nemesis for the water ghosts who are good at water!

When parallel imports arrived, I didn't dare to neglect the slightest.

His feet lightly touched the ground, and he jumped a few meters back, pulling away from the black flame, and his fists hammered his chest again.

Boom! Boom!

Two consecutive sounds like beating drums came from his chest, and then the parallel imports suddenly spewed a mouthful of acid water into the black flames.

Hey!

The oily-green acid water collided with the black flames, making a belching sound.

I don't know if it is the black flame that is consuming the acid water sprayed by parallel imports, or the acid water is corroding the black flames released by Li Tian.

Above the head, the green sour dragon controlled by the parallel imports was instantly surrounded by forty black fire purple dragons.

The black fire purple dragon has a variety of attack methods, either jetting black flames or releasing purple lightning. The entire head is surrounded by clouds and mist, lightning and thunder, which are really beautiful.

However, parallel imports are after all a super domain master-level powerhouse. The strength of the acid dragon released by him is far above Li Tian's black fire purple dragon. The acid dragon is like a swimming dragon like water, and its body is constantly among the many black fire purple dragons. Shuttle, avoiding black fire or lightning.

Even if the black fire and lightning fell on the acid dragon, the body of the acid dragon only trembled a few times.

However, as long as Li Tian's Black Fire Purple Dragon is entangled by the acid dragon or injured by the strong acid sprayed by the acid dragon, the Black Fire Purple Dragon will immediately let out a scream, and the body will be corroded by the strong acid in a short time. He was out of shape and changed back to spiritual power again.

Fortunately, there were a large number of black fire purple dragons, and even if the black fire purple dragons were destroyed, a few more would fly out of Li Tian's body soon and continue to fight, always maintaining absolute suppression in numbers.

"Yes! Although Li Tian's cultivation is only in the realm of the domain master, he behaves quite calmly in the face of the parallel imports of the super domain master. "The water gun watching the battle nodded approvingly.

The water bird nodded and echoed: "Yes, Li Tianbufei is the nephew of our patriarch. It's just how long he can last in this way of fighting, even if the spiritual power in the body of the domain master is abundant, but a black The fire purple dragon also has a lot of spiritual power. The black fire purple dragon is now a suicide attack, completely hitting the stone with pebbles. If this continues, Li Tian's spiritual power will eventually be exhausted..."

"Hahaha, of course. Parallel products are a super domain master-level powerhouse. Can you still expect Li Tian, the new domain master, to defeat parallel products? Now it is our patriarch who let the parallel products accompany Li Tian to play. Let him know the horror of the super domain master-level powerhouse, and let him have a self-knowledge."

Water Cannon said with a smile: "If you really want to fight the super domain master-level powerhouse, it will definitely be the young boy who will shoot. As for Li Tian, just watch the battle on the side!"

After the long table, Shuigui Guzi picked up the wine bottle again, and there was always a smile on his mouth.

If the afterimage of his spiritual power did not enter Li Tian's body, did not enter Li Tian's atrium, and did not find that there is another world in Li Tian's atrium, perhaps the water ghost Guzi would hold the same view as the water cannon.

However, Li Tian is a pervert.

The spiritual power reserve in his body turned out to be three times that of ordinary superdomain master-level powerhouses!

If the parallel imports use the strongest attack, and use the domain, heavy, then Li Tian is definitely not the opponent of the parallel imports, but in the domain of the water ghost Guzi, at least the parallel imports do not want to win in a short time!

...

The parallel imports were angered by Li Tian.

"Damn, I let you go everywhere, you guy is so boring, do you still want Lao Tzu's life? I don't show off against parallel imports, do you really treat me as parallel imports?"

"Since you want to be true, then I will stay with you to the end!"

With a roar of parallel imports, facing Li Tian's black flame spear attack, he did not retreat but moved forward. One side of his body flashed, causing Li Tian's Qiqiong spear of the sky to stab him in front of him.

call! call!

The black flame on the Qiong Spear of the sky burst into the ground, and it burned on the body of the parallel imports.

"Hey!" The parallel imports suddenly laughed wildly.

His body was like a candle softened by a black flame, dripping with green acid water continuously. The black flame on the parallel imports was directly extinguished by the acid water.

Black fire attack, invalid!

Chapter 4737: : The real thing (2)

Li Tian frowned, and he couldn't help feeling a little surprised.

This black flame was cultivated from the blood spirit source. It was overbearing and abnormal, not to mention the flesh, even if it was metal steel, it could be refined instantly, turned into molten iron, and even disappeared completely by burning.

However, this black flame had already burned on the parallel imports, but was instantly extinguished by the acid water released from the parallel imports.

A wicked smile appeared on the corners of the parallel imports, and his body croaked endlessly, as if the acid water was also melting his body.

As the body of the parallel imports melted, puffs of white smoke were continuously released from his body, and the air was filled with a pungent smell of burning chemical dyes.

"Boy, these gases are poisonous, I advise you to hold your breath!" The parallel imports reminded.

Even if the parallel imports were angry and moved genuinely, he knew that he and Li Tian weren't angry enemies when he approached him. His goal was only to defeat Li Tian, not really to wound or behead Li Tian.

"Thank you!"

When Li Tian just smelled the pungent smell, he had already held his breath, and he dared not breathe in any more of this air.

But even so, Li Tian felt that his body skin began to feel a whizzing sensation, as if thousands of small insects were crawling over him.

The skin gradually turned pale red, as if it was sunburned by the hot sun, and many small red dots the size of sesame appeared around the pores of the skin, and the center of the small red dot was a bit dark black.

Now, although Li Tian's skin does not hurt, it is very itchy.

"Hey, the parallel imports are really real. Li Tian, this kid is just a domain master-level powerhouse, and he can actually make him real. It seems that Li Tian's strength is really not to be underestimated!" Water Gun said.

"With Li Tian's current strength, he can definitely be said to be the strongest in the entire Netherworld domain master, but his opponent is a super domain master-level powerhouse after all, and the parallel guy's spiritual power is very strange, even ordinary. The super domain master-level powerhouse is not his opponent. If the parallel imports are not merciful, Li Tian will probably die miserably!" Water Cannon nodded and said.

Waterfowl had a different view. He shook his head slightly and said, "Although Li Tian's spiritual power restrains the water ghost tribe, his black fire spiritual power and purple lightning spiritual

power are not effective against parallel imports. On the contrary, I I feel that parallel imports are restraining Li Tian."

"But even so, I feel that Li Tian's has not yet exerted his true strength. You know, according to the information sent from outside, when Li Tian was in the realm of Emperor Venerable, he had already killed the domain master in Yecheng. Now. His realm has reached the domain master, can't he slash across levels... defeat the super domain master realm powerhouse?"

Waterfowl originally wanted to say 'kill', but after a little consideration, he said that he conservatively used the word defeat.

"impossible!"

"The reason why the super domain master is called the super domain master is that the strength of this realm is far above the domain master realm strong. For a simple example, if the spirit in the body of the domain master level If the power is river water, then the spiritual power in the body of the super domain master level is the big river. This is not in a single body, no matter how strong the cultivation base of the domain master level is strong, there is still a world of difference from the super domain master. !"

"Yes, I also think it is absolutely impossible! Now that Li Tian and the parallel imports are both in the domain of the patriarch, the true strength of the parallel imports has been suppressed. If this is a life and death battle without the intervention of the patriarch, Li Tian is very He will soon be swallowed by the old poison like parallel imports with his acid water!"

Other strong water ghosts have expressed their views.

Among these strong players, only Waterbird is slightly optimistic about Li Tian.

Water Ghost Guzi squinted slightly, he did not comment on the opinions of these water ghost elites.

"Li Tian, show your true strength, let me see if I can see the shadow of Li Kuafu in your body."

Water ghost Guzi thought to himself.

...

Tang Xiaolong, Situ Ningbing, and Xue Ji frowned.

This is just a friendly contest of friendship first and victory second, but they can also feel the danger.

As Li Tian's brother and Li Tian's woman, they naturally hope that the ultimate winner is Li Tian.

Of course, it is not just hope, Li Tian has created too many leapfrog killing miracles in the past, so in their hearts, they also think that Li Tian will become the winner.

Only so far, the fighting situation has not developed according to their expectations.

"Little boss, come on!" Tang Xiaolong clenched his fists and said in a low voice.

Xue Ji was praying secretly in her heart.

The former goddess could only help Li Tian in this way now. Xue Ji's heart was still full of sadness, but apart from this way, Xue Ji didn't know what other way she could help Li Tian.

"Perhaps I should leave for a while and wander around in the Nether Realm alone..." Xue Ji thought a little bit frustrated in her heart.

...

In the domain of Shuiguiguzi, Li Tian was fully absorbed.

Whoosh!

Whoosh!

Whoosh!

From the mouth of the parallel imports, acid water was continuously sprayed out. The green acid water flew towards Li Tian like a cannonball.

This is not a cannonball, but its power is far stronger than a cannonball.

Li Tian's feet kept twitching on the ground, using the rebound force to avoid the attack of acid water cannonballs.

If he couldn't avoid it, Li Tian would use the spear of heaven to pick up the acid water cannonball.

It's just that this acid water is not a cannonball after all. When the sky spear picks up the acid water cannonball, the acid water cannonball will explode on the spear tip of the sky spear.

Although the entire acid water cannonball would not fall on Li Tian's body, there was still less blood splashed on Li Tian's body.

Hey!

The acid water instantly corroded Li Tian's clothes. Although Li Tian had deliberately used black flames to condense a layer of spiritual power armor under his clothes to protect his body.

But this acid water can easily corrode the armor of the black flame spiritual power.

Fortunately, while this little acid water corroded the black flame, it was also suffering from the backlash of the black flame. When the acid water finally landed on Li Tian's skin, Li Tian felt that his body skin was The crimson soldering iron was hot, and his body skin made a belching sound at any moment.

The pain is inevitable, but as for the pain, Li Tian felt that all the small red spots on his body seemed to be on fire, and the instant pain was beyond his tolerance.

what!

Li Tian couldn't help but let out a scream!

"Hahaha..., Li Tian, this is the end of our competition. You are not my opponent at all. If you continue the competition, I am afraid you will only suffer from eating more flesh and blood!" Parallel said with a smile.

Chapter 4738: : The real thing (3)

A smile appeared at the corner of Li Tian's mouth.

"Hey, it's over? I'm afraid this is just your wishful thinking! It's still too early to end the battle! As for the suffering of flesh and blood?" Li Tian suddenly laughed: "Hahaha, I sweat more on

weekdays and bleed less in wartime, even No matter how much skin and flesh I suffer now, it's better than losing my life when I really fought a superdomain master class powerhouse!"

The parallel imports could not help but change slightly, but soon he also laughed with Li Tian.

"Sweat more on weekdays and bleed less during wartime. It's good. Although your strength is ordinary, what you said is very reasonable. If so, let me be your opponent today. Then I will not treat you. You're welcome!" The parallel imports said with a few laughs.

Li Tian smiled and yelled: "Come on!"

Hey!

滋滋~!

With a scream, a steady stream of black fire and purple dragons emerged from Li Tian's body.

In the domain where the water ghost millet was cast, there were black fire purple dragons everywhere, and the number of black fire purple dragons was increasing rapidly.

"This... how is this possible?"

Situ Ningbing felt the wailing incredible, couldn't help taking a step forward, stretched out his hand to index the black fire purple dragon in the domain, and said with a face full of surprise.

"What's the matter? Did the little boss break through again?"

Situ Ningbing nodded slightly and said, "Almost that's what I meant. Li Xiu and I both practiced "Qingyun Jue", but our understanding of "Qingyun Jue" is different during our cultivation process."

"It is precisely because of this that when I released my spiritual power, the purple lotus was released, and Li Tian's spiritual power released was a purple electric dragon."

"Of course, Li Xiu's talent for practicing "Qing Yun Jue" is far better than mine. When he first cultivated, he had reached the realm of "Qing Yun Jue". His spiritual power can be released at a time. A purple electric dragon!"

"In the later cultivation process, Li refined the blood spirit source, and this purple electric dragon gradually evolved into the current black fire purple dragon form. However, before that, when Li's spiritual power was released, the number of electric dragons always remained at seven. Article 749, but now..."

Before Situ Ningbing's words were finished, Tang Xiaolong and Xue Ji had already fully understood.

fifty.....

sixty.....

seventy.....

The number of black fire purple dragons is still rising. The water ghost millet is full of black fire purple dragons. The huge number of black fire purple dragons makes the super-domain master-level expert of parallel imports slightly faint. change.

eighty.....

ninety.....

The green and oily strong acid dragon of parallel imports kept tearing, swallowing, and attacking the black fire purple dragon that was besieging him. This strong corrosive acid fell on the black fire purple dragon, and within a few seconds, just talk about this. The black fire purple dragon melted away.

The attack of the strong acid dragon is not weak, but the black fire purple dragon released from Li Tian is equally fast.

...

"Crazy, crazy! The number of black fire purple dragons is still growing, and has reached ninety-five. If it wasn't for parallel imports to fight against Li Tian, but for other domain master-level powerhouses, I am afraid it would be early. It has been scummed by Li Tian's seconds!" said the water bird.

The water gun and water cannon no longer speak.

They knew that although Li Tian had just broken through to the domain master, his realm should still be in the early stage of the domain master, but Li Tian's real strength should have reached the domain master peak.

But they didn't expect that Li Tian would be able to fight parallel imports in this way. The parallel imports had already become true, and now they were still in a tie with Li Tian.

No... To be precise, even if the current parallel imports and the strong acid spirit dragon released by him still have the upper hand, they can only serve as the defensive side, and can only continue to slay and smash the black fire purple dragon.

"How strong is the spiritual power of this kid like Li Tian? His opponent is the parallel importer, the super master superpower!" Water Gun and Water Gun thought at the same time.

Ninety-nine!

This is the number of black fire purple dragons condensed by Li Tian's spiritual power.

At this time, more than 60 black fire purple dragons were besieging the strong acid dragon, and more than 30 black fire purple dragons were cooperating with Li Tian to besiege parallel imports.

Wow!

A group of strong green acid spouted from the mouth of the acid dragon and fell on a black fire purple dragon. The body of the black fire purple dragon twisted a few times in mid-air, and slammed forward, wrapping it around the dragon. On the body of the strong acid dragon.

Hey!

The strong acid is corroding the body of the black fire purple dragon. Under the attack of this strong acid, the black fire purple dragon cannot support for a few seconds, but the black fire purple dragon did not give up. Its body is tightly wrapped around the acid dragon and sharp claws. Constantly grasping the strong acid dragon.

After a few seconds, the black fire purple dragon was completely corroded by the strong acid, but there were already a few more wounds on the body of the strong acid dragon.

This drama is constantly being staged.

These black fire purple dragons are completely suicidal attacks, but Li Tian doesn't care, his spiritual power is too abundant, and he is useless!

...

The parallel figure dodged, avoiding Li Tiantian's Qiong Spear's attack, and slammed a palm on one side of his body.

boom!

A palm of the parallel imports hit the black fire purple dragon closest to him, and a group of strong green acid blasted into the body of the black fire purple dragon following the palm of the parallel imports.

The black fire purple dragon uttered a miserable dragon roar, and its body was directly blasted out of seven or eight meters. However, at this moment, the group of strong acid in the black fire purple dragon's body exploded, and the black fire purple dragon It was torn apart by strong acid in an instant.

Click!

Click!

More than a dozen lightning bolts spouted from the mouth of the black fire purple dragon, slashing towards the parallel imports.

Whoosh!

Whoosh!

Whoosh!

When the parallel imports raised his head, dozens of groups of acid water spewed from his mouth, and the acid water rushed toward the lightning at lightning speed.

Purple lightning and green acid water met in the air, and suddenly burst.

Boom!

boom!

Li Tian and Parallel's heads seemed to be releasing fireworks.

...

Time passed, and it was the next day in a blink of an eye.

But the battle between Li Tian and parallel imports hasn't ended yet.

Roar!

At this moment, after fighting in the middle of the night and enduring thousands of suicide attacks by the black fire purple dragon, the acid dragon controlled by parallel imports was finally unbearable, and at the same time 50 or 60 black fire purple dragons bit their body. Exploded instantly.

The acid dragon and the black fire purple dragon in the sky disappear at the same time.

Huh!

Huh!

The parallel imports were panting heavily, but there was a satisfying smile on his face.

"Li Tian, I have to admit that you are a very strong opponent. Under the super domain master, you are definitely the strongest. However, this is not over yet...Hahaha!"

When the parallel imports were smiling, his body suddenly began to change, and a daunting momentum began to spread from the parallel imports!

Seeing this change in parallel imports, the water ghost elites such as water guns, water cannons, and water birds involuntarily changed their faces.

"My day..."

"This... is this still a discussion?"

"Could it be...does this guy like parallel imports..."

Huh!

The figure of Shuigui Guzi instantly appeared in the domain, reaching out and pressing on the head of the parallel imports, the parallel imports directly knelt on the ground, and the changes he had just started gradually stopped.

Water Ghost Guzi smiled slightly and said: "Small imports, let's stop here, this is not a time for life and death, there is no need to fight life and death!"

Chapter 4739: : I do

Parallel products listened very much to Shuigui Guzi's words, and chuckled a few times and said, "Okay, no more fights!"

Shuigui Guzi then let go.

Although he was fighting in the realm where Shuiguiguzi played, Li Tian did not defeat the parallel imports, but Shuiguiguzi was still satisfied with Li Tian's performance.

You must know that parallel imports are the most powerful existence of the water ghost tribe, much stronger than water guns and water cannons.

And Li Tian, the newly promoted domain master, actually fought the parallel importer for one night, and he was not defeated until he shot, which in itself was very abnormal.

Shuigui Guzi believes that if Li Tian's opponent is not a parallel importer, but a water gun, a water cannon, or a water bird, and any other superdomain master elite of the water ghost tribe, Li Tian may not be able to kill them, but I am afraid at least he can fight them. Make a tie!

The water ghost Guzi put away the domain he was displaying, and continued to say to the parallel imports: "The parallel imports, what do you think of Li Tian's strength?"

"The realm of the domain master is the strongest, and against ordinary super domain masters, some battles. But if you encounter a fierce like me, unless he can kill me before I get serious,

Otherwise...hehe, he will be dead and ugly!" The parallel imports shook his head and said disdainfully.

Shuigui Guzi nodded slightly, expressing his agreement with what the parallel importer said, and the queen continued: "If I want you to leave the territory of the Shuigui clan and follow Li Tian to the outside world, would you like it?"

Li Tianyi heard the words of Shuigui Guzi, and his heart suddenly blossomed.

Did I hear it wrong?

Shuigui Guzi actually let the parallel imports, the big parallel imports, follow me out?

This is the rhythm of finding a bodyguard for Li Tian!

Shuiguiguzi, you are my uncle, no, you are my uncle!

Li Tian suppressed the joy in his heart, looking at the parallel imports with a calm expression, the more he looked at him, the more satisfied Li Tian's heart was.

Ugly water ghost?

Do you understand how to appreciate? This is called personality!

Besides, how talented this guy is, especially the saliva, can turn into a sour bomb!

However, Li Tian soon felt that parallel imports were really ugly!

"I don't want to... his strength is too weak, he is about the same as me!" The parallel imports did not give the water ghost Guzi any face, and directly refused.

Shuigui Guzi looked as usual, but she couldn't help but feel disappointed.

However, Shui Gui Gu Zi did not reluctantly parallel imports.

"Since you don't want to, then just let it go!" Water ghost Guzi turned to look at the water gun and other elites of the water ghost clan, and said: "Anyone among you elites wants to follow Li Tian?"

Elites such as water guns and water cannons lowered their heads and stepped back.

The water ghost race is a mysterious race. Although their mysterious race has experienced a long decline, but now they have risen after all, and these water ghost race elites are all super-domain master-level powerhouses, how could they follow Li Tian this Only the newly promoted domain master went out and wandered.

Li Tian was extremely disappointed.

He did not expect that the cheap uncle Shuigui Guzi was the patriarch of the Shuigui Guzi, but what he said was so bold.

You are the patriarch, you just give orders directly, don't these elites still dare to violate your orders?

Also, is Lao Tzu so unwelcome?

What happened to the domain owner? When there is a chance, Lao Tzu, the new domain master, kill a few super domain master-level powerhouses to show you!

Damn it!

Ugly, no loss is ugly, you don't even have this kind of appreciation. No wonder you are trapped in this tropical rain forest like rotten fish.

You don't want to follow me, I don't want to ask you yet. It is enough for me to have Xiao Tianyi, a super domain master-level powerhouse by his side!

Li Tian thought with dissatisfaction.

"Uncle, don't be embarrassed. When Li Tian came to the Netherworld, I was only at the first level of the venerable. The lowest venerable who guards the gate of the forbidden zone can easily bully me, let alone other emperors and domains. The master-level powerhouse."

"But, in just a few short years, my Li Tian's cultivation has broken through to the realm of the domain master. The venerable who had insulted me at the beginning has already been rotten to the flesh, the emperor, the domain master-level powerhouse, My Li Tian and my brothers are also dead in the hands!"

"Hey, super domain master-level powerhouse, how about that? My goal of Li Tian is the super **** family..." Li Tian said with a confident expression on his face.

Disappointment is disappointed, but Li Tian is not willing to show it.

And Li Tian believes that it will not take long before he will definitely kill the superdomain master-level powerhouse, and then he can take the superdomain master-level powerhouse's head to the blast valley to find the blood wolf clan.

As long as the blood wolf tribe is tamed, then these water ghost tribe elites in front of them will be unnecessary.

The water ghost Guzi stretched out his hand to send Li Tian's shoulder, nodded and smiled, but his gaze slowly swept across all the water ghost elites present.

"Patriarch, since they are unwilling, then let me follow Li Tian to make trouble!"

Suddenly, one person came out from the crowd, it was the water bird who had always been optimistic about Li Tian.

The water bird looked as usual, waved his fist slightly, and said, "Don't worry, the patriarch, I will go out and punch out the name of our water ghost clan with my fists, and let all the super **** families and ancient families in the Netherworld know our water ghosts. Clan has risen."

Shuigui Guzi didn't expect that the last one who came out was the water bird named as a rookie.

However, at last someone voluntarily followed Li Tian. The water ghost Guzi's face was only slightly better. He pointed to the water bird and said to Li Tian: "He is called the water bird and he has just been promoted to the super domain master realm for 100 years."

The water bird smiled, and then the words of the water ghost Guzi continued: "I am the rookie in their mouths. The cultivation base is the weakest among all the water ghost elites. Compared with the water guns, water cannons and other seniors, the strength is not one and a half stars. If you Yes, I will follow you!"

Li Tian was immediately happy. He walked a few steps forward, reached out and grabbed the slimy arm of the water bird, and said quickly: "I do! I do!"

This picture is too full of a sense of disharmony, and it feels like Li Tian has agreed to the water bird's request.

In any case, Li Tian's heart is joyful.

After all, there was another helper beside him, and he was still a super domain master-level powerhouse.

Rookie?

That is also the super domain master level powerhouse, at least it can help Li Tian fight together, so that Li Tian will not be controlled by the super domain master level powerhouse at the moment when he comes up, and he will directly kill!

...

The banquet officially ended everywhere.

Shuigui Guzi and Li Tian talked for a long time. The main content of the conversation was Li Kuafu more than 7,000 years ago and Li Kuafu 7,000 years later.

Regarding the three falls of Li Kuafu, the Water Ghost Guzi was embarrassed.

It is precisely because of this that Shuigui Guzi wanted the parallel imports to follow Li Tian out, so as to protect Li Tian's safety.

It's just that... things didn't seem to develop in the direction expected by Shuiguiguzi.

"Well, at least the water bird is also a super domain master-level powerhouse, just water bird, it seems that since he broke through to the super domain master realm, he has not discussed with other water ghost elites, and I don't know his true cultivation level."

"I hope his strength is not too weak." Water Ghost Guzi thought in his heart.

...

Li Tian and others stayed in the territory of the Shuigui tribe for more than half a month.

In addition to discussing cultivation with Shuigui Guzi every day, Li Tian had a new understanding of refining spiritual power during this period.

Seeing that the date of the beast match at the Colosseum was getting closer, Li Tian said goodbye.

The Shuigui Guzi did not stay, and led all the elites in the clan to personally send Li Tian and others out of the Shuigui clan's territory on the flying treasure ship.

Shuigui Guzi watched the flying treasure ship go further and further, gradually turning into a small black spot, and then said in a low voice: "Li Tian, hurry up and become stronger! I look forward to fighting alongside you and killing Donggong Super That day in the territory of the God Family!"

Chapter 4740: : Hit it right

While Li Tian was still a guest in the territory of the Shuigui tribe, Donggong Yaotong and Donggong Jiangshan chased them all the way, but they had already chased the island where the Beast Arena was located.

However, they found nothing on this journey, and so far, they still haven't found Li Tian's whereabouts.

Donggong Yaotong and Donggong Jiangshan are suspended above the sea, backed by the endless ocean, overlooking the archipelago of the Colosseum in the distance.

"Would you like to go to the island to see, we chased all the way, but did not find Li Tian's whereabouts, maybe Li Tianzao and Shi Zhan teleported to the Colosseum!" Donggong Yaotong said.

"Do not!"

Donggong Jiangshan shook his head and said: "We already know that Li Tian is on a flying treasure ship in the Kingdom of Lord Frostland, and his speed can't be so fast. Besides, the mother has already arrived at the Colosseum, if we rush on now Dao, Mother will definitely punish us!"

"But if we don't go to the island, we can't tell if Li Tian has arrived at the Colosseum. Are we just waiting here? If Li Tian has arrived at the Colosseum, then we won't even be on the island. To bear the anger of the mother!" Donggong Yaotong said.

"We won't go to the island, but it doesn't mean that other people can't go to the island!"

"In this way, I asked my entourage to pretend to be a merchant of the Chamber of Commerce to go to the island, and let him go on the island to inquire about Li Tian's whereabouts. If Li Tian has already been on the island, then we can only go to the island and accept punishment." Donggong Jiangshan Said.

Donggong's eyes lit up, and then he said: "If Li Tian is not on the island now, then we will take this opportunity to find Li Tian's whereabouts. Then before Li Tian rushes to the Colosseum, we will take Li Tian Heaven beheaded above this vast ocean."

"Yes, in this vast ocean, only flying treasure ships and super domain masters are the safest. Then as long as we deal with it cleanly, who will know that he is dead in our hands?" Donggong Jiangshan continued.

Talking about Donggong Jiangshan slowly closed his eyes, muttering words in his mouth.

After a while, following the faint fluctuations of spiritual power in the air, two powerful men of the middle ninth level of the Venerable appeared in front of the East Palace.

"Master Donggong!" The two strong men said flatteringly when seeing Donggong Jiangshan.

Donggong Jiangshan told his plan to the two powerful masters.

"Please rest assured, Li Tian is gaining power recently. If he appears on the island, then someone must know that we will be on the island, at most one hour, we can investigate clearly." One of the entourage said.

As they said, the two venerables immediately took out a few sets of clothes embroidered with the logo of a certain medium-sized chamber of commerce from the space ring, changed their clothes quickly, and disappeared with a teleportation.

In less than an hour, the two entourages of Donggong Jiangshan teleported to Donggong Jiangshan again, and passed the news that Li Tian was not in the Beastsong Island to Donggong Jiangshan.

"Hey, it seems our luck is really good!"

"Yes! Li Tian should still be on the way to the Colosseum, as long as we wait for Li Tian on the sea that Li Tian must pass through, we will definitely be able to wait for him!" Donggong Jiangshan said.

...

The quiet continent is an irregular continent.

The southwestern part of the mainland is a peninsula that looks like an elephant's trunk. This peninsula extends from the quiet continent, half-curved, and stretches into the ocean.

It is precisely because of this that the bays of this peninsula are the most beautiful bays in the entire secluded continent.

And this bay is also the best fishing ground on the mainland.

The area of the peninsula only occupies a few thousandths of the entire continent, but there are three countries on this small peninsula.

One of the kingdoms of the venerable, an empire, and a small country for non-cultivators.

The lord of the Venerable Kingdom is the Lord of the Three Rings, and the emperor of the empire is a powerful and powerful person named Wei Haihuangzun.

In the middle of these two countries is the small non-cultivator country.

The peninsula has a special geographical location, especially if you want to start from the mainland and go to the major islands in the southwest, you must pass through the elephant nose peninsula.

Of course, this includes Colosseum Island.

If you want to go to the Colosseum, starting from this peninsula, ordinary venerable early powers can easily reach the Colosseum Island with a teleport.

And if you want to go to the Underworld, even a domain master-level powerhouse will pass through the Elephant Trunk Peninsula.

This is the safest sea route on the two continents.

The domain master-level powerhouse first arrives at the Elephant Trunk Peninsula, buys a chart from the three-ring domain master, and then teleports one by one according to the proven islands on the chart.

Teleport from one island to the next, so that you can reach the underworld safely.

Of course, if there are heroes who are unwilling to take this sea route and want to develop a new sea route by themselves, it is not impossible.

It's just that the vast sea area between the underworld and the underworld has not yet been fully explored, and it is said that certain powerful creatures have always existed in this vast ocean.

If you want to develop a new sea route, you must endure great danger.

Of course, if the cultivation base reaches the super-domain master-level realm, then it is arbitrary.

After all, the super domain master-level powerhouses are more powerful, even if they encounter danger in this sea area, ordinary dangers can't hurt them.

This is why Donggong Jiangshan and Donggong Demon Eye dared to fly unscrupulously on the sea.

Li Tian is a strong man who is not afraid of death, and on his flying treasure ship there are two super domain master-level powerhouses, Xiao Tianyi and Waterbird, so Li Tian did not intend to go to Elephant Trunk Island.

Coming out of the territory of the Shuigui tribe, Li Tian proceeded toward Beast Beast Island in a straight line according to the map.

The water bird was very excited. This was the first time he had left the land of the water ghost, so he sat on the bow of the flying treasure ship and kept looking around.

Seeing the ugly waterfowl, the 'stewardesses' on Li Tian's flying treasure were so frightened that they made many mistakes when serving Li Tian and others, and there was no way to play happily.

It's okay for a short time, but if things go on like this, the journey will be less pleasant.

The water bird didn't realize his ugly and terrifying appearance. Even if he paralyzed the flight attendants on the ground in terror, he just thought it was because of his strength.

Li Tian couldn't stand it anymore, he decided to talk to the water bird.

When he came to the bow of the ship, before Li Tian had spoken, the waterbird said flatly: "Brother Li Tian, your flying treasure ship is really good, and you girls on the treasure ship, you are really good, you humans will really enjoy it! You are watching our water ghosts, living in the waters for years and months, there are a lot of mosquitoes, and it is not beautiful at all. I will follow you out, the Jedi is my wisest decision!"

Speaking of the water bird, he involuntarily looked towards the back of the flying treasure ship, the territory of the water ghost tribe, where the shadow was no longer visible, and took a meaningful look.

"Haha!" Li Tian Zhenzheng said with a look of water bird.

"Water bird, you are a super-domain master-level powerhouse. A powerhouse like you is like a firefly in the dark. It pulls the wind wherever it goes. This is bound to cause unnecessary trouble. And I, Li Tianzai There are too many enemies in the Nether Realm, and I have always followed the low-key principle."

"So, you see if you can constrain your breath, just like Xiao Tianyi, pretending to be harmless to humans and animals. This is the case. When we encounter a strong attack, you two Super Domain Masters Only the strong can play the role of a surprise!" Li Tian said sincerely.

The water bird smiled sweetly and said: "You are right, I should restrain my breath! In your words, it's called pretending...a pig eats a tiger!"

Li Tian nodded, and then said: "Also, you are a water ghost. As a mysterious race, your clothes and accessories are too shabby to match your noble race. If you don't mind, I am here. There are some precious clothes and accessories, which are especially attached to your temperament!"

With that said, Li Tian flipped through his hands, and he already had some earth-world clothing in his hands: baseball caps, turbans, leather gloves, sunglasses, etc.!

Li Tian brought a lot of these things, but they were of little use, and now they can be used to fiddle with waterbirds.

Li Tian demonstrated wearing a set, and the whole person seemed...nondescript in an instant.

But in the eyes of the water bird, Li Tian is full of tall feeling.

"Awesome! Sure enough, only these clothes are in line with my temperament. This... are these things for me?" The water bird's eyes were straight.

After getting Li Tian's reply, the water bird did not hesitate to follow Li Tian's appearance, wrapping his hair with a headscarf, and putting on a hat. The huge toad mirror blocked his young face.

The whole waterfowl looked like... it really didn't look like a thing anymore.

It's just that although this looks a little strange, it can hide the ugly face of the waterfowl.

At least when Li Tian and the others saw the water bird, they could no longer connect him with the water ghost tribe.

Of course, seeing waterfowl is like seeing the sea, but the feeling is still obvious.

"Yes, these accessories are really tailor-made for you!" Li Tian praised with conscience.

No one doesn't like to listen to good things, and so is the Shuiguizu.

"Haha! Great! I just like your honesty, Brother Li Tian, thank you for the gift you gave me. My water bird really likes you more and more!" The water bird said happily.

...

Finally calmed down.

Those flight attendants who were too frightened finally no longer have to worry about being afraid.

As long as they don't deliberately stare at the waterfowl, they won't remember that there is a monster on the flying treasure ship.

They finally returned to normal.

The flying treasure ship flew steadily over the ocean. Li Tian lay on the lounge again, surrounded by wine, fruits, and beauties. In addition to this trip to the water ghost clan's territory, Li Tian's cultivation level has been improved, and Li Tian's mood That is called a beauty.

"Drink the celebration wine together today..." Li Tian couldn't help singing in a low voice.

However, happiness breeds sadness.

Li Tian hadn't enjoyed it long before the waterfowl and Xiao Tianyi looked into the distance with surprise.

"Dad Li Tian, someone..."

Xiao Tianyi's voice just fell, whoosh! Whoosh! Suddenly two figures flew from a distance, and instantly landed on Li Tian's flying treasure ship.

"Good fun, good Yaxing!"

"I've... I'm sorry!"

"Li Tian, you can let us find it!"
