

A Killer 4861

Chapter 4861: : Metal World

Cold, quiet, dark!

Li Tian's body was suspended in the air. He gradually adjusted to the darkness in front of him, slowly opened his eyes, and then quickly scanned the surroundings. In front of him, there were huge square-shaped pieces of metal. These metals The blocks are big and small.

Small ones may be only one cubic meter in size, while large metal blocks are bigger than mountains, and more are several hundred cubic meters or thousands of cubic meters.

These metal blocks are suspended in mid-air, motionless, but the metal blocks have horizontal and vertical lines, just like a chess board of Go. There are faint energy fluctuations on these metal blocks, which makes Li Tian feel the metal. Every block seems to have life.

It was dark, without a trace of luster, and the cold wind was scorching like a knife. The temperature was very low, and it seemed that it was already below zero. A heavy frost appeared on these metal squares!

Li Tian looked at this completely strange secret realm in surprise.

"Is this the secret realm of the Sea-Monster tribe? Why does the secret realm of the Sea-Monster tribe look like this?" This place is different from any place Li Tian has been to, and Li Tian doesn't know what will happen in such a secret realm. Such danger, how can he improve his cultivation?

Li Tian knows nothing about these.

"If you knew it a long time ago, you should communicate with Haiqin more, and have a preliminary understanding of the secret realm. At least it won't be as dark as now!"

"By the way, what about Situ Ningbing and Tang Xiaolong? Didn't they enter the secret realm?" Li Tian suddenly turned his head and looked around.

Because of the darkness, Li Tian's vision was greatly affected.

Everywhere you can see, there are such metal blocks everywhere.

Where is the shadow of Situ Ningbing and others?

I can't even see the metal door!

"I fuck!"

Li Tian was very angry, he felt as if he had been fooled by the Sea Monster Clan.

But in Li Tian's heart, there were more concerns about Situ Ningbing and others.

strange place!

unfamiliar environment!

Unfamiliar danger!

According to Haiqin, in this secret realm, even domain master-level experts may fall, not to mention that cultivation bases such as Situ Ningbing, Xingchen Xiaoyue, and vicissitudes of life are only strong in the Venerable Realm. The author.

"Damn! Haiqin..."

Li Tian wanted to say something cruel, but he couldn't say it.

"I knew it would be such a result. I should go hand in hand with Situ Ning Mibing, Tang Xiaolong and others, and walk into this realm side by side, so that we can take care of each other when entering the secret realm. No, I can't sit and wait like this. Tang Xiaolong I am afraid that they have also entered the secret realm, and now maybe they are already in danger, I must search for them as soon as possible!" Li Tian said to himself in his heart.

It's just that there are such metal blocks all around!

Li Tian couldn't distinguish the north, south, east, and the north, and even Li Tian couldn't tell the difference accurately.

In this case, Li Tian didn't know which direction he should fly in.

Hum!

At this moment, Li Tianhong's cut robe suddenly flew.

"Could it be that Hong Zhan is showing me the way?"

"By the way, although Hong Zhan is a weapon, its cultivation realm has reached the super domain master realm? Why can Hong Zhan enter this space? Is it also possible for Xiaotianyi and Xiaoqingwa? Come out of the space of Void Yasha?"

Li Tian seemed to have discovered something magical, and immediately communicated with Void Yasha with his spiritual sense, and asked Void Yasha to send out Xiao Tianyi.

But... Li Tian actually lost contact with Xukong Yasha.

To be precise, Li Tian could feel the Void Yasha, but he could not communicate!

"Damn it!"

Li Tian had no choice but to move forward in the direction pointed by Hong Zhan.

When flying, Li Tian was careful not to let his body get close to the metal blocks.

Li Tian always feels that these metal blocks seem to have some kind of magical power, and it seems that there is danger if they are close to the metal blocks.

After flying only a few kilometers, a metal block about fifty to sixty cubic meters in size floated in front of Li Tian's eyes, but... this block of metal is an irregular block with many spikes on it, just like It's like a square sea urchin, and on these spikes, there is a corpse!

The corpse seems to have been air-dried, the hair and skin are clearly visible, and there is a thin layer of frost on the body. You can even see the corpse's pupils under the frost. Through these pupils, Li Tian can feel the corpse before death. Despair and fear.

It was not the corpse of the Sea-Monster tribe, nor the corpse of ordinary humans, but a species that Li Tian had never seen before in the earth world and in the nether world.

"Could it be...there are other entrances in this secret realm? Are there other species from the small world entering the trial?" Li Tian couldn't help but have such a doubt in his heart, and Li Tian's greater doubt was why this corpse appeared. On this metal block, will these metal blocks take the initiative to attack people or that this species was dropped on these metal blocks after death.

Suddenly, Li Tian saw something similar to a space ring on the 'finger' of this magical species.

"Want or not?"

Li Tian followed the flying metal block, feeling a little tangled in his heart.

Fuck me, Lao Tzu is here for the trial, can I still be afraid that this danger will not happen? This kind of treasure is right in front of my eyes, can I just let it go?

Thinking of this, Li Tian's spiritual power suddenly increased!

Hum!

Suddenly, the fluttering spiritual power seemed to feel Li Tian's spiritual power, and suddenly changed the fluttering direction, accelerating towards Li Tian.

"Good fellow, I didn't expect this thing to be able to feel my spiritual power, if so, then I will give you a few black fire purple dragons to taste!"

Hey!

Two black fire purple dragons suddenly rushed out of Li Tian's arms, and both fists blasted out at the same time. The two black fire purple dragons whizzed away from Li Tian's arm and rushed towards the barbed metal block.

boom!

The black fire purple dragon collided with this thorny metal block halfway, making a bang.

The corpse on the square was smashed to pieces in an instant, and it continued to float around.

Li Tian's eyes were quick, and he reached out and grabbed the claw with the space ring. However, the thorny metal block was not smashed by Li Tian's black fire purple dragon, not even any long thorn on it. Off.

However, the metal cube stopped continuing to rush towards Li Tian, floating in mid-air, motionless.

The only thing Li Tian could feel that the metal cube was still 'alive' was the spiritual power fluctuations on the cube.

More and more intense, more and more intense.

It seemed that because of the black fire purple dragon that had absorbed Li Tian, the metal cube suddenly began to shake after the initial calm.

Click!

Click!

From this metal cube, the sound of metal machinery twisting continuously!

"Fuck, can you still be deformed?"

Chapter 4862: : Red cut

I fuck!

When you hear this interjection, you can know that the metal block in front of you is really deformed!

Transformers? iron Man?

Not at all!

I'm **** Nima, can your deformity be worse?

The metal block in front of Li Tian is indeed deformed, and it has also changed into a human shape. However, this product is like a modular person assembled from a 'Lego' toy, but it has a human shape. The ugly ones are really undesirable!

Hum!

The metal man suddenly released a piece of spiritual power, which was like the light released by a scanner, instantly sweeping Li Tian's body, and Li Tian couldn't avoid it at all.

"Damn human being... you successfully angered me... now, I want to consume all your energy!"

You must use the robot's voice to say this voice, and only in this way can you have an immersive feeling, and the sound of the grinding wheel rubbing against the metal is added to this voice.

Ear-piercing and terrible to death!

You are paralyzed! I was scared to death. I was just scanning Laozi's language and wanted to learn how I spoke!

However, after this product became such a humanoid form, Li Tian could finally feel the strength level of the spiritual power contained in this product.

"That is, the appearance of the Venerable at level seven or eight, and Nima's pretense! You are looking for death!"

Li Tian sneered, his hands clenched into fists, and black fire and purple dragons were continuously released from both arms, continuously blasting towards the modular metal.

boom!

boom!

boom!

More than a dozen black fire purple dragons blasted over and landed on the metal man. The body of the metal man retreated more than ten steps. The black fire purple dragon seemed to be an electric current, destroying the metal man's spiritual power. Control nerves.

then.....

The metal man slammed into a huge metal block over several hundred cubic meters.

The surface of the metal block was like a water wave, and it swallowed the metal man directly!

What do you mean?

Are these metal blocks still alive?

And do these metal blocks even eat them together?

Li Tian looked at the metal block in a puzzled manner. About three seconds later, the giant metal block vomited out the metal man he had swallowed, but the metal man had become a piece of metal the size of a basin. Piece.

And this small piece of metal seems to have completely disappeared from the spiritual fluctuations.

Li Tian once again bombarded the small metal block with a black fire purple dragon. The small metal block was directly bombarded by Li Tian into slag, like iron filings, and then these slags continued to drift around. , And soon attached to other metal blocks.

It was like a small bug, devouring the spiritual power on these metal blocks.

These metal lumps are completely different from physical life. Li Tian didn't know if he blasted the metal lumps into such debris, whether these metal lumps were considered dead.

Li Tian just picked up the space ring in his hand.

There is no divine consciousness on the space ring. I think it's because after the original owner of the ring hangs up, the space ring becomes an unowned thing.

Li Tian curiously used his spiritual sense to explore the space ring...

"I **** Nima! I scared my father to death!"

Li Tian saw that the space of the space ring was not large, probably only about ten square meters, which was much smaller than the space where Li Tian got the white light old man, and the space of the space ring was densely stacked within ten square meters. A bunch of pupae!

That's right, it's something similar to a cicada pupa.

It's just that all of these pupae have broken their shells, and then the things that emerged from these pupae, the little things that looked like the corpses on the metal block just now, all hung up and died in this spatial ring.

This feeling is like "hairy egg"!

This space ring turned out to be the place where the monster piled up her eggs. Maybe the monster wanted to take out the eggs after leaving the secret realm, but she didn't expect that she would have died before leaving the secret realm. Here.

As a result, her descendants also died here with her.

This thing is too disgusting, even if it is the space ring, Li Tian feels disgusting to death.

Snapped!

Li Tian directly threw the space ring he had just obtained.

Paralyzed, whoever wants to take this thing!

After losing the space ring, Li Tian turned and continued to move towards the direction Hongzhan had just pointed out...Well, Li Tian has lost his direction judgment. Without the space of lights and reference objects, you can't judge the direction at all, no matter who you are.

But... as soon as Li Tian turned around, he heard a click from behind him again! Click! the sound of.

Li Tian turned around abruptly, but saw that the giant metal block that had swallowed the metal man just now was also deforming, and the space ring that Li Tian had just discarded seemed to have been swallowed by this giant block.

"Damn it, is it because the space ring I lost brought this thing back to life?"

Click!

Click!

After a few seconds of change, this giant metal block turned into a giant metal with silver-gray liquid metal all over...Monster, yes, it was a metal monster, because at this moment, on the body of this metal monster, Li Tian looked at it. To those pupae that were still in the space ring just now!

And the dead bodies in the pupae!

And this giant metal block changed into this monster.

"Crunch... crunch..."

The metal monster made a strange sound, as if talking to Li Tian.

Of course Li Tian couldn't understand what the metal monster was talking about, but Li Tian could feel the spiritual power cultivation level of this monster: the domain master's eighth peak realm!

Now, Li Tian probably already understood the strength level of these metal blocks.

The smallest metal block is probably the state of the venerable. The larger the volume of the metal block, the higher the level of cultivation after the metal block changes into a human shape or a monster shape, and the metal blocks as large as a mountain are probably the super domain masters. Level realm.

It was just the eighth-level peak realm of the domain master. Li Tian raised his ***** very friendly, saying hello to the metal monster.

Hum!

As a green light swept through Li Tian, the metal monster also learned Li Tian's language.

"Damn human... You disturbed my dream, you destroyed my dormancy, and I want to eat you!" The voice was the same as above, but maybe it was because of the liquid metal, compared to the metal man just now. How many Li Tian is still acceptable.

But as for being eaten by a metal block, Li Tian has no such hobby!

Hey!

More than a dozen black fire purple dragons flew out of Li Tian's hands, constantly blasting on this giant metal monster!

boom!

boom!

boom!

When the mud cow entered the sea, the body of this giant monster just seemed to waver, and there was no intention of injury at all!

"Fuck me, no! Isn't the fighting method between the Underworld and the Earth World not suitable here?" Li Tian couldn't help being a little messy.

The body of that giant liquid metal monster has been covered from the top of Li Tian's head like a ball of paste. Once the liquid metal trapped Li Tian, Li Tian suspected that he would be gameover!

Can't die!

Li Tian's figure jumped backward!

At this moment, the red on Li Tian's body moved!

Chapter 4863: : Metal crystal

Hong Zhan instantly changed back to the blade form!

Huh!

A three or four feet long red light slashed out from the red cut, and instantly hit the liquid metal monster.

"Ah~no...impossible!"

The liquid metal monster let out a scream, and the sound was full of panic.

But the red light from the red cut had already passed through the body of the liquid metal. In an instant, the liquid metal monster was cut into two by the red cut!

The two parts of the body floated out in the upper and lower directions respectively.

Li Tian saw that the cut cross-section of this liquid metal monster was as smooth as a mirror, and a faint spiritual power was seen on the cross-section like water waves.

However, this liquid metal monster seemed to have been hit hard at this time, and the spiritual power on the two halves of his body became increasingly unstable.

Constantly fluctuating.

Spiritual power fluctuates faster and faster, just like hitting a drum with water with a heavy hammer, the water splashes constantly beating.

Gradually, the color of the liquid metal changed from dark gray to crimson red, as if the metal monster had a high-temperature furnace in the body, and this high-temperature stove completely refined the liquid metal and turned it into crimson metal. liquid.

This liquid metal became the only light in the darkness, and the surrounding temperature rose rapidly.

Click!

Click!

Around Li Tian's body, metal cubes made noises constantly, as if it was because of the liquid metal monster awakening.

Li Tian's heart was startled, he could feel that at this moment, around his body, at least dozens of metal squares were constantly emitting this kind of noise.

Whoosh!

Li Tian didn't dare to stay in the next long time, speeding up and flying in the direction of darkness.

When Li Tian left, those metal blocks kept changing.

These metal blocks seem to have a memory function, and they can change into various forms and various creatures.

Li Tian discovered that the larger the size of these metal blocks, the more realistic the shapes they can change.

For example, a piece of metal with a volume of thousands of cubic meters, turned into a giant animal with fluff all over its body.

This giant animal looks a bit like a bear, but this giant monster has a horn on top of its head, and two fangs protrude from its mouth!

However, this thing is already lifelike. If Li Tian hadn't witnessed it with his own eyes, he would have never imagined that this giant bear was transformed from a metal block.

These strange metals flocked to the liquid metal monster that was cut into two pieces by red.

At this moment, within the body of the liquid metal monster that had been divided into two, there was a constant crackling sound, as if...

boom!

boom!

Two consecutive loud noises came from the two halves of the liquid metal body, and the liquid crystal was instantly exploded by the burnt red metal body.

Just like a firework exploding in the sky, countless liquid metals flew around like meteors.

Every "meteor" is at least the size of a fist, and its surging spiritual power fluctuates with these liquid metals.

This is a cannonball, even more powerful than a cannonball!

Li Tianneng saw that this merciful moment shot through the monsters whose metal cubes were only a few cubic meters in size, and then those small metal cube monsters burst open instantly.

chain reaction!

In just a short time, at least seven or eight pieces of metal of a few cubic meters in size became cannon fodder.

I rub!

The explosive power of this thing is really powerful!

Li Tian secretly rejoiced, fortunately that he avoided it in time, otherwise the high temperature liquid metal would definitely burn him.

However, other species transformed from metal cubes over a few hundred cubic meters in size, faced with liquid metal like meteor cannonballs, and did not evade in the slightest. Even if the liquid metal hits these metal monsters, it will be lost like a stone. Just like in the pond, there are layers of ripples.

At this moment, dozens of monsters over a few hundred cubic meters frantically and greedily swallowed these splashing 'shooting stars'.

Li Tian can feel the joy of these metal monsters, it seems that this is a grand carnival.

And after they swallowed these liquid metal meteors, the size of these metal monsters seemed to have changed.

Li Tian felt that these metal blocks were like carrion-eating vultures. As long as they felt that a certain metal block was about to burst, other metal blocks nearby would swarm them.

It's a magical secret realm, a magical species.

It was only three or four minutes, and the surroundings plunged into darkness again, and the monsters transformed into the metal block made a click again! Click! The sound changed back to its original state, floating quietly in the air, as if nothing had happened.

Seeing all this, Li Tian was a little dumbfounded.

Worlds, full of wonders!

This world is too dangerous, Li Tian seems to have found a way to fight these metal blocks, using spiritual power is definitely not good, you must use a knife! It's like fighting poison with poison. You must use a metal blade to slash the objects that these metal blocks transform into. This is effective, otherwise everything is in vain.

Situ Ningbing and the others must be found as soon as possible, and they must be told of this discovery.

Ok?

Just as Li Tian was about to leave, he suddenly discovered that the place where the liquid metal monster exploded just now had a few rice-sized objects emitting this faint cold light.

The light of this cold light is dimmer than the light of fireflies, if it weren't for Li Tian to glance back before leaving, he would definitely not find these little things.

"What the **** is it? Is it the leftovers on the metal blocks that exploded?"

With curiosity, Li Tian flew in the direction of these faint cold light.

Flying closer...

Yue Fei is near...

Li Tian finally saw clearly what these luminous objects were.

These things looked like rhombus crystals, the big ones were the size of a fist, and the small ones were only the size of a grain of rice, but the whole body had a metal-like texture. Holding it in the hand, there was immediately a spiritual power coming from this object.

A faint dim light radiated from these objects, giving a feeling of coldness.

Li Tian didn't know how to call these things, but he was certain that these things must be the products of explosions from those metal blocks, just like...the beast crystals of the ghost beasts, so Li Tian called these things metal crystals. .

"Can these metal crystals also enhance human cultivation?"

Li Tian's heart was curious. He tried to absorb and cultivate these metal crystals, but found that as soon as he used his spiritual power, these metal crystals would immediately send a strong suction. The spiritual power released from Li Tian's body was absorbed by these metal crystals instead.

"Damn, what is the use of this thing? Is it possible to use my spiritual power to nurture them?"

Hum!

Hum!

Hong Zhan fluctuates slightly again!

"Could it be... can these metal crystals be used to improve the weapon's cultivation?"

Chapter 4864: : Space Battleship

In the next second, Li Tian's conjecture became a reality!

Hong Zhan suspended in front of Li Tian cut out several knives in succession, slicing these diamond-shaped metal objects!

From these metal objects, a light blue viscous liquid flowed out and fell on the red cutting blade. The viscous liquid was quickly absorbed by the red cutting blade, as if a few drops of water fell on the dry blade. Like in the desert, disappeared in an instant.

Hum!

Hum!

Hong Zhan's blade was trembling slowly, as if he was enjoying the pleasure that this sticky substance brought to it.

Li Tian knew that Hong Zhan had undergone some changes since he returned to the Netherworld.

Now, this change is more obvious!

Li Tian could even feel that Hong Zhan seemed to have life, and Hong Zhan seemed to be able to cultivate.

A faint spiritual power fluctuated on Red Zhan, and a strange idea appeared in Li Tian's mind.

Hong Zhan was exiled from the Netherworld to another world, and was brought back to the earth world by Li Tian from another world, and then brought back to the Netherworld by the corpse.

This is the Hong Zhan that Li Tian knew.

However, there are several questions that have been plagued by Li Tian, who forged this red sword? Why is it called the demon sword again? There is no magical weapon like Qiong Spear of the sky, why does Red Slash have a sword spirit? Red Slash lies in the fact that the master of Frostland can transform into a human form, while other magic weapons can't transform into form? There are also

super domain master realm powerhouses and ghost beasts that can't appear in this metal world, but why is Hong Zhan not affected by this restriction?

"Could it be...this Red Slash comes from this metal world?"

This idea appeared in Li Tian's mind, and he couldn't get rid of it anymore.

Hong Zhan had already swallowed these metal crystals and suspended in front of Li Tian.

Li Tian carefully observed the metal texture of Hong Zhan, and compared it with the metal squares floating in front of him.

"No, but in terms of metal materials, these metals seem to be somewhat different!" Li Tian slowly shook his head.

"Hong Zhan, is this metal world your hometown?" Li Tian asked Hong Zhan.

Hong Zhan didn't react at all, and didn't know if he didn't understand Li Tian's words or was unwilling to answer.

call!

call!

Hong Zhan changed into a blood-red cloak again, automatically draped on Li Tian, and then... Hong Zhan pointed Li Tian in another direction.

Since he couldn't figure it out, Li Tian was no longer entangled, and the most important thing now was to find Situ Ningbing and others.

Following the direction of Hong Zhanzhi, Li Tian accelerated his flight.

The darkness around him remains the same, the coldness remains the same, and this kind of metal lump is everywhere. Here, you will forget the existence of time, and you will forget the existence of space. Li Tian knows that he is constantly flying, but he does not know how long or how far he has been flying.

"Damn mystery, is this all here? Hong Zhan, where are you going to guide me?"

Li Tian asked Hong Zhan, but Hong Zhan still did not respond.

There is no sound, no light. In this environment, Li Tian feels that everything is cold. If it weren't for a layer of frost on his clothes, Li Tian would continue to release his spiritual power to resist this cold. Tian will even forget his own existence.

This kind of secret realm, the secret realm invisible to the head, is really desperate and makes people feel like they are broken!

I don't know how long it took, those metal cubes became less and less, and the space in front of me became more and more vast, but there was still endless darkness, the darkness that could not be seen at a glance!

But... finally there is an endless land in front of me!

Land suspended in mid-air!

Li Tian accelerated his flight and landed on this piece of land.

This land is also metal, but there is no spiritual power fluctuation on this metal.

Fortunately, this land has no spiritual power fluctuations, otherwise Li Tian would have to doubt whether this piece of metal will change into a human form or a monster form in the future.

The metal world is full of metals.

Now Li Tian no longer has any hope for this secret realm in his heart.

The only thing Li Tian wanted to see right now was Situ Ningbing and the others, even if he could see a Sea-Monster clan, so that Li Tianneng could understand the secret realm.

The cloak that Hong Zhan turned into was still pointing forward, as if to tell Li Tian what was ahead.

Li Tian stood on the land for a while and rested. He didn't find any useful Xingxi on the land either, so he could only fly up again and head in the direction pointed by Hong Zhan.

There was an endless stretch of land under his feet, and Li Tian's heart was somewhat at ease.

However, Situ Ningbing and the others still had no news. They didn't know if Xiaolong and Ningbing were together now and whether they were safe, and Li Tian was a little worried.

At this moment, Li Tian suddenly saw a glimmer of light in front of him.

The light was far away from Li Tian, but Li Tian couldn't help being happy.

"Is it an exit?"

Li Tian speeded up and flew toward this bright direction.

Looking at the mountain, the light seems to be right in front of you, but it is not easy to fly to the light in an instant.

Li Tian kept flying, the light that was only the size of a grain of rice in front of him gradually became the size of a fist, then the size of a basketball, and then the size of a basin...

Gradually... Li Tian finally discovered that this light turned out to be a lot of light gathered together!

Moreover, when Li Tian flew towards this light source, the light source was also moving at an extremely fast speed, but the speed of this light source was slower than that of Li Tian.

Li Tian speeds up again!

The light source in front of me is getting bigger and clearer.

"This... unexpectedly..." Li Tian's eyes were surprised involuntarily. He wanted to say something, but he found that his throat was dry and itchy, and in the end he couldn't even tell.

Li Tian had already seen clearly, the light source in front of him turned out to be from a space battleship!

It was the space battleship that appeared in those pictures Li Tian saw in the maze under the death battle field.

"So... So alien civilization really exists?"

As a native of the earth, even if Li Tian has been to another world and entered the Netherworld again, these worlds are not the same as the space civilization that Li Tian came into contact with when he was a child. It seems more like a world that combines ancient China with magic and cultivation. .

But in front of him, this space battleship actually appeared in front of Li Tian.

How can this not make Li Tian feel shocked!

This space battleship is huge, larger than any metal block Li Tian has seen before. The entire body of the battleship is black. If there is no light source on the battleship, the black and the surrounding darkness can be completely integrated.

Seeing this space battleship, Li Tian could only feel a little excited in his heart, sweat already oozing out of his palms.

"Hong Zhan, is this our goal?" Li Tian asked Hong Zhan.

This time Hong Zhan didn't pretend to be dead. It turned into a blood-red cloak and shook slightly, nodding to confirm!

"Hey, okay, let's get on this space battleship and see what's in it!"

Chapter 4865: : Ghost Ship

In the next second, Li Tian's conjecture became a reality!

Hong Zhan suspended in front of Li Tian cut out several knives in succession, slicing these diamond-shaped metal objects!

From these metal objects, a light blue viscous liquid flowed out and fell on the red cutting blade. The viscous liquid was quickly absorbed by the red cutting blade, as if a few drops of water fell on the dry blade. Like in the desert, disappeared in an instant.

Li Tian speeded up and flew toward this bright direction.

Looking at the mountain, the light seems to be right in front of you, but it is not easy to fly to the light in an instant.

Li Tian kept flying, the light that was only the size of a grain of rice in front of him gradually became the size of a fist, then the size of a basketball, and then the size of a basin...

Gradually... Li Tian finally discovered that this light turned out to be a lot of light gathered together!

Moreover, when Li Tian flew towards this light source, the light source was also moving at an extremely fast speed, but the speed of this light source was slower than that of Li Tian.

Li Tian speeds up again!

The light source in front of me is getting bigger and clearer.

"This... unexpectedly..." Li Tian's eyes were surprised involuntarily. He wanted to say something, but he found that his throat was dry and itchy, and in the end he couldn't even tell.

Li Tian had already seen clearly, the light source in front of him turned out to be from a space battleship!

It was the space battleship that appeared in those pictures Li Tian saw in the maze under the death battle field.

"So... So alien civilization really exists?"

As a native of the earth, even if Li Tian has been to another world and entered the Netherworld again, these worlds are not the same as the space civilization that Li Tian came into contact with when he was a child. It seems more like a world that combines ancient China with magic and cultivation. .

But in front of him, this space battleship actually appeared in front of Li Tian.

How can this not make Li Tian feel shocked!

This space battleship is huge, larger than any metal block Li Tian has seen before. The entire body of the battleship is black. If there is no light source on the battleship, the black and the surrounding darkness can be completely integrated.

Seeing this space battleship, Li Tian could only feel a little excited in his heart, sweat already oozing out of his palms.

"Hong Zhan, is this our goal?" Li Tian asked Hong Zhan.

This time Hong Zhan didn't pretend to be dead. It turned into a blood-red cloak and shook slightly, nodding to confirm!

"Hey, okay, let's get on this space battleship and see what's in it!"

Chapter 4866: : Cut weeds and roots

Situ Ningbing ignored this idiot!

As long as there is hope of survival, Situ Ningbing will never give up!

Trials in the secret realm, the most important thing is the trial, defeating opponents stronger than oneself, defeating all kinds of difficulties, but also defeating the fear in your heart, so as to continuously break through the self-improvement of your cultivation base, instead of coming to death in the secret realm.

Situ Ningbing continued to practice.

Situ Ningbing and the others suffered heavy losses as soon as they entered the secret realm.

It was also unlucky. The place where Situ Ningbing and others appeared turned out to be the battlefield. Two huge battleships were in front of them and thousands of foreigners and metal men flew in mid-air to fight. The light blue energy waves are like lasers, shooting back and forth in the two huge battleships, and various mechanical monsters shuttle back and forth.

This picture is like the surrounding environment, like a star wars.

Situ Ningbing and the others appeared in an instant, because of the strong energy fluctuations, they immediately became the targets of the public. When they reacted, the Sea-Monster Clan and Tang Xiaolong and others who had joined forces to enter the secret realm had been dispersed.

Fortunately, the battle between these two giant battleships was nearing completion. Situ Ningbing and others were taken into the space battleship by these foreigners and fled in panic.

Then, Situ Ningbing and others were trapped in the prison area by these foreigners, and completely lost contact with Tang Xiaolong and others.

These foreigners are not good stubbles. After controlling the Sea-Monster tribe, Situ Ningbing and others, they didn't know what method to use to slaughter a dozen Sea-Monster tribes.

Then...the foreigners never stepped into the prison area again.

It was as if the foreigners had forgotten that there were so many prisoners in the prison area.

"Little girl, let the uncle cheer up, and uncle will cheer you up too!"

In the closest cage to Situ Ningbing, that alien humanoid monster continued to molest Situ Ningbing with words.

call!

Situ Ningbing let out a suffocating breath, closed his eyes, and continued to practice.

"Girl, everyone is going to die anyway, why don't you let the uncle cheer up?"

"Little girl, you can also feel the strength of my cultivation base. I am a domain master-level powerhouse. As long as you serve me well, I will pass on all my cultivation base to you. Then you may How about getting out here? Trade your flesh for your life..."

Although these cages are made of different metal blocks, the distance between the metal cage railings is very close.

Situ Ningbing stood up slowly, and said slightly to the monster with a crab-like head: "You get closer, I will make you feel good at once!"

"Sister Ningbing..."

Liu Jimeng and Ye Meijing could hardly believe that this kind of words came from Situ Ningbing's mouth, and they could not help but call out Situ Ningbing's name at the same time.

"To shut up!"

The crab-headed monster chuckled, showing a wicked smile, "You little chicks are acquainted. These two chicks are not inferior to you in appearance. Unfortunately, the distance between me and them is so far away that I can't match it..."

The crab-head monster has spikes like porcupines on its body. Normally, these spikes stand upright to protect his fragile body.

At this moment, in order to kiss Fangze, these spikes on the monster's body were flushed with the fluffy fluff. The monster came to the metal railing with its stomach upright. His buttocks were pushed forward, and his murder weapon was exposed.

"A beast is a beast, even if it changes to resemble a human being, it will always be a beast!" Situ Ningbing said to himself. Suddenly, a cold light flashed in Situ Ningbing's hand, and that cold light flashed from the gap in the metal cage. Then, the weapon on the crab's head was directly cut off.

Blood spurted out from the wound, the crab-head monster let out a scream, fell to the ground, and the porcupine spikes all over his body hardened again, but it could no longer protect his body. This crab-head monster was not just a murder weapon being cut. , There is even an extra wound on the abdomen.

The murder weapon that the crab head monster was cut off, at this moment, was like a severed gecko's tail, constantly twisting.

"You bitch... I'm going to **** you! I'm going to kill you bitch, so I dare to do something to my baby!" The crab-headed monster kept screaming and cursing Situ Ningbing, and then He also wanted to reach out and pick up his murder weapon.

A sneer appeared at the corner of Situ Ningbing's mouth, and he stretched out his foot to stamp the murder weapon under his foot and twisted it hard.

Ah~

Ah~

The crab-head monster screamed again.

"Oh? It's really a miraculous race. I didn't expect this thing to have been cut down. You still have a reaction!" Situ Ning sneered, and the butcher knife in his hand cut a few times again, as if cutting sausages. , The murder weapon was cut into seven or eight segments in an instant.

"Bitch...you stop...you stop, ah!"

The scream of the crab head monster is getting louder and louder!

"Haha, sister Ningbing, beautiful job!"

"Tell him this **** to dare to talk nonsense like this!"

The weapon of this crab-head monster has been cut into several sections, but this thing is still twisting constantly. As long as these things meet again, a kind of white slime will flow out of the mouth of the cross section, and then it has been cut. The murder weapon in several segments will become a complete one again!

The crab-headed monster was curled up, and a pool of blood had flowed under his body. The blood of these monsters turned out to be blue and looked as bright as fluorescent light.

"Stop! Don't cut it anymore!" Crab's head was in pain, and the monster ran out of pain, desperately reaching out to grasp the root of his life. Seeing that he reached out to grasp the root of his life, Situ Ningbing's heart Suddenly dozens of purple lotus flowers were released from his arm.

These purple lotus flowers slowly fell, turning into countless petals in an instant, and they rushed towards the 'little earthworm'.

boom!

The little earthworm was blown to pieces by the surging spiritual power on the petals of this lotus flower!

"Do not....."

"Do not....."

"Do not....."

The crab-headed monster grabbed his hands on the metal railing and made a miserable cry.

The monster's complexion was terrifying, and the spiritual power on his arm was surging, as if he wanted to tear the metal railing off, and rushed over to crush Situ Ning's body into pieces.

However, these small metal squares are not ordinary goods. Even the ninth-level peak powerhouse of the domain master can only bend the metal railing with a full blow. It is absolutely impossible to break it, let alone it. The crab-head monster that has been seriously injured.

"moron!"

Situ Ningbing was refreshed now, hiding on the ground where he was sitting cross-legged, continuing to practice.

As for the monster's screams and curses, let him go.

There is no good insight with a disabled person!

"Li, where are you now? No matter what happens, you can't give up! I won't give up..."

After experiencing numerous difficulties, Situ Ningbing has always believed in the faith in her heart.

She will meet Li Tian somewhere in this secret realm sometime in the future!

Chapter 4867: : Surrounded

Li Tian finally walked into the battleship.

As Li Tian guessed, this battleship really became a ghost battleship.

The huge driving area over a few thousand square meters is empty and there is no sign of life.

When Li Tian entered the space battleship, he found that the hull had suffered some heavy damage, which should be the masterpiece of the large mechanical monster that attacked Li Tian before.

However, apart from the mechanical monsters that besieged Li Tian, Li Tian did not encounter any danger afterwards, and the mechanical monsters that turned into liquid metal and merged into the space battleship did not know that they were killed by Red. Killed or escaped.

Entering this driving area, the battleship was empty. Li Tian didn't have any corpses. He didn't know whether the people in the battleship had escaped or were all destroyed by the bombardment.

"It's really a ghost warship! But..."

Li Tian still felt that this battleship was full of weirdness.

Hong Zhan was suspended in front of Li Tian. Li Tian cautiously searched the space battleship and confirmed that there were no creatures in the driving area and no valuable clues. Then he continued his search towards the next area.

Although there are no traces of human activities in the space battleship, there does not seem to be any problem with the kinetic energy of the heavily damaged sky battleship. The lights inside the battleship are brightly lit, and the entire battleship is still fast moving in a certain direction.

Moreover, the optical brain system of this space battleship can easily avoid those metal blocks in space.

Li Tian passed through a long narrow passage, and the metal door more than a foot thick in front of him opened automatically.

Passing through this metal door, Li Tian came to a larger area.

The lights here are dim compared to the driving area.

Li Tian can still distinguish clearly. This is the living area of this space battleship, but... Li Tian didn't find any food or fresh water here.

Although Li Tian can still persist and does not need to add these things, but for too long in this secret realm, Li Tian has already felt a little tired.

Of course, this is not the point.

If there is no food, no fresh water, and this is a living area, then...

"Could it be that the owner of this space battleship is not a human being, but those metal monsters failing?"

Li Tian continued to search, and he kept opening the door of this living area.

In these rooms, Li Tian saw some weapons scattered all over the place.

There are traditional swords, guns and clubs, as well as some rare weird weapons.

But without exception, these weapons are metal, and these weapons are still rusty, without the slightest luster, nor the slightest fluctuation of spiritual power, it seems that they have been abandoned.

"Really strange! Why are there so many weapons here?"

Since entering the Netherworld, Li Tian has seen that many strong men have abandoned their weapons. The main reason for this is that ordinary weapons do not help these strong men's combat effectiveness. They can use their spiritual power to condense their weapons. The second is like Quasi-artifacts, such high-end items as artifacts are rare, and not everyone is as lucky as Li Tian.

It is precisely because of this that the appearance of a demon sword like Hong Zhan in the Nether Realm will drive a lot of Venerable-level powerhouses and domain master-level powerhouses crazy.

In this secret realm, most of the creatures Li Tian has encountered up to now are metal creatures. These metal creatures will transform again. Their bodies can be transformed into weapons, and they don't need to be equipped with weapons. But why are they in front of you? Are there so many weapons?

"Is this space battleship a battleship with fleshy creatures? There have been fierce battles here, and those fleshy creatures have been wiped out, which left these weapons and weapons?" Li Tian wondered wildly.

He picked up a rusty blade from the ground and started with the blade. Li Tian's heart suddenly felt alert, and suddenly a murderous intent was released from this weapon.

Huh!

Li Tian discarded the weapon at will, with his feet on the ground a little bit, and the figure moved backwards, the spiritual power on his body instantly gushed out, transforming into a dozen black fire purple dragons coiling around Li Tian's body, and red cutting one. Heng, in front of Li Tian.

Cang! The blade was thrown out by Li Tian forcefully and collided with the metal wall, and then fell to the ground, a metal-like crash sounded, but...no accident happened.

"Is it because my illusion is not possible? Impossible, the feeling just now is so real, it is absolutely impossible to be an illusion!" Li Tian shook his head abruptly, and said to Hong Zhan: "Hong Zhan, cut all the weapons here. Broken! I really want to see, can these weapons also pretend to be a ghost for me?"

Huh!

Hong Zhan flashed past Li Tian in an instant, and a red light slashed out from Hong Zhan.

But at this moment, the blade that had been thrown by Li Tian just now flew a few meters to the side.

The red light of the red cut hit the metal ground, and immediately cut a half-foot deep trace on the metal ground. Like the outer metal of a space battleship, the metal inside will also quickly recover.

However, Li Tian's focus was no longer on the ground, but the weapon that flew out automatically.

"Sure enough, weird!"

Li Tian was startled, and the black fire purple dragon in his hand instantly blasted towards the rusty weapons that were still falling on the ground.

Up to now, Li Tian didn't know that his spiritual power had the influence on those metals. Those metals could not only be completely immune to his spiritual power attacks, but would also be activated by his spiritual power. Now Li Tian has no time to take care of it.

boom!

boom!

Two consecutive punches hit two of the metal weapons!

Hey!

The black fire purple dragon was wrapped around the two metal weapons, and the two weapons flew up instantly, and the rust on this weapon was instantly swallowed by the black fire purple dragon, revealing the original shiny body.

"Good weapon!"

Seeing the cold light flashing on these two weapons and the faint fluctuations of spiritual power on the weapons, Li Tian couldn't help sighing!

However, Li Tian only sighed, but his attack did not slow down.

This spiritual attack has an effect on these weapons. As long as the blades are entangled by the black fire and purple dragon, these weapons are like being burned red by the fiery red flames, and molten iron is constantly dripping from the weapons, as if Wax flowing from a lit candle.

Hong Zhan continuously released red light, slashing one of the blades continuously.

Cang!

Cang!

Cang!

As long as the blade of that handle was chopped up by Red Slash, the blade was immediately cut out of several gaps. From this, the difference between Red Slash and these blades could also be seen.

But... the weapons that had fallen to the ground just now seemed to have come alive, and they flew up, aiming their blades at Li Tian at the same time. Inadvertently, Li Tian was surrounded by these weapons.

"Hong Zhan, it seems we are going to have a hard fight!" Li Tian controlled Hong Zhan to fly in front of him, muttering to himself.

Chapter 4868: : Artifacts

Hum!

The blade of Hong Zhan was trembling slightly, and spiritual power began to be released on the blade.

In battle, Hong Zhan is never afraid!

Huh!

Huh!

Huh!

Hong Zhan slashed several red lights in succession, and wherever the red light passed, any parry weapon was chopped down, and there was no way to fight back.

Around Li Tian's body was already surrounded by ninety-nine black fire and purple dragons.

With Li Tian as the center, these black fire and purple dragons constantly soared out from all around. Although the blades were spiritual, their combat effectiveness was not strong.

Moreover, these blades will not cause any damage to the black fire purple dragon formed by the condensation of spiritual power, but will be entangled by the black fire purple dragon and twisted instantly.

boom!

boom!

Fists fly randomly!

Hum!

Hum!

Those swords were blasted and screamed constantly, as if they were struggling to support them.

Finally, these weapons couldn't resist Li Tian and Hong Zhan's attack, and they fled one after another.

Li Tian chased him, his feet on the ground a little, and his figure flashed out.

Hong Zhan's intentions are still unfinished, even if these weapons want to escape, this Hong Zhan will beat down the dog!

Click!

Suddenly, there was a crisp cracking sound, and under the continuous slashing of Hong Zhan, a blade was chopped into two by Hong Zhan.

The broken blade seemed to be quite painful, and there was a burst of clank.

Seeing this, the other weapons trembled in anger, but... these blades obviously didn't have the courage to be an enemy of Li Tian. They made several clank hums, and then scattered around like birds and beasts.

Li Tian wanted to continue attacking these weapons, but he didn't know which weapon should be pursued, so he could only give up.

"Hong Zhan, do you feel that these weapons are so strange, as if they have life!" Li Tian said to Hong Zhan.

Hong Zhan trembled slightly, as if nodding, agreeing with Li Tian's point of view.

At this moment, a big bag bulged on the metal surface of the blade that was cut off by Red Chop.

Li Tian's pupils widened involuntarily.

Isn't this a weapon?

Isn't this metal?

This big bag was only the size of an egg at first, but the big bag kept getting bigger, like a balloon being blown up.

Li Tian withdrew a few steps backward, staring at the big bag carefully.

This big bag gradually brightened from dark black, and there seemed to be some kind of creature inside this big bag.

Hong Zhan suspended in front of Li Tian, equally vigilant.

Within half a minute, the big bag suddenly burst, like a bomb exploded, and metal fragments flew out to the surroundings.

Hong Zhan chopped out more than a dozen knives in succession, smashing all the metal fragments that had flown over to the ground.

"What is this stuff??"

After seeing the big bag burst, Li Tian jumped out of it, the size of an egg.

This little man is really strange, his skin looks like nothingness and transparency, but the bones in his body release some metallic luster.

Hearing Li Tian's shout, the villain was frightened, stretched out his hand to press his heart, screamed, then fell to the ground and stopped moving.

"Is it so scared to death?"

Li Tian stretched out his finger to poke the villain, his skin was transparent, but it felt like jelly, very elastic.

Press it hard, and you can still touch the bones of this villain, but the bones are hard!

In this villain, Li Tian felt that there was a spirit power fluctuation like nothing, and could not feel any heartbeat, as if he was really scared to death!

Li Tian really wanted to know what this thing was, and also wanted to understand this secret realm through this thing.

But this thing has been scared to death...

"I don't know if this thing can be eaten? Just looking at the body of the thing, it feels a bit similar to the transparent fish, should I cut some meat to taste it?" Li Tian said to himself.

"Can't eat!" The little thing suddenly opened his mouth and saw that Li Tian was looking at him. The guy suddenly closed his mouth and eyes, and continued to play dead.

It turned out to be a cute one!

With a smirk on his face, Li Tian stretched out his hand to press the belly of this little thing, and continued: "I read less, don't lie to me, look at your body, crystal clear, and it's delicious at first sight. You said I should be a piece of film. Eat it raw? Or do weapons pass through your body, and then grill it over the fire!"

The little thing is still pretending to be dead, but it is very popular, but his body has begun to tremble slightly.

Huh!

Li Tian stretched out his hand, grabbed Hong Zhan in his hand, pressed the tip of the red sword against the abdomen of this little thing, and then slowly stroked it down.

The little thing still closed his eyes tightly, but stretched out two small arms and slightly lifted the tip of Hong Zhan's knife, so as not to let the tip of Hong Zhan's knife really cut his belly.

"Really can't eat! If you are hungry, I can take you to find other food!" The little thing said with a trembling voice.

Li Tian couldn't help but want to laugh, this little thing is really cute.

"If you continue to pretend to be dead, I will eat you and don't spit out any bones!" Li Tian took Hong Zhan back and turned Hong Zhan into a blood-red cloak on his body again, pretending to be fierce and fierce.

This little thing didn't dare to continue pretending to be dead, and Yi Gulu got up from the ground, looking at Li Tian tremblingly, not daring to move.

"Tell me, what exactly are you? Why is it hidden in a weapon?" Li Tian asked.

The little thing stared and said with a look of surprise: "How do you know that I am called little thing? No wonder I can feel a familiar feeling in you, so you know me?"

I rub!

What a coincidence, the name of this little thing is called little thing.

"Haha, what kind are you?"

The little thing patted his chest and said triumphantly: "It's okay to tell you, we are the most powerful tool spirit race in this world..."

Artifacts?

Isn't this little thing still a sword?

However, Li Tian saw that the sword spirit in Hong Zhan was not like this. These two things were completely two concepts.

"Looking at your lonely and ignorant look, you must have never heard of our tool spirit family? Then have you heard of sword spirit and sword spirit?" Seeing Li Tian nodded slightly, the little thing continued, "Sword spirit, sword spirit Spirit is one of the two branches of our spirit family."

"Any weapon with a blade can only be precious when our Soul Clan is born, and if there is no weapon with a Soul, no matter who forged it, even if it is a weapon forged by a god, it is just ordinary goods!"

"And when the spirits and the souls of certain creatures merge, our spirit clan can fully control the weapons, and even we can transform into these soul creatures and live like humans!"

Li Tian felt that a whole new world appeared before his eyes, "Since you are great, why did I just see ordinary weapons written on beryllium copper and rotten iron? Even it is still rusty, so I can't see it at all. Does it look like a certain spirit weapon?"

The little thing sighed and said: "It's a long story. Although our spirit clan can transform into a human form, once the spirit is severely damaged, this body will change back to the appearance of a weapon again, unless it can continue to refine other souls. The soul of creatures!"

Chapter 4869: : Who is food

When the little thing said this, he gave Li Tian a look of resentment, and said: "If it weren't for you, I would soon refine my soul and become human again, but now...oooo, even my weapons have been Your weapon is cut into two pieces. I don't know when you can find a suitable weapon again, and when you can refine your soul again and transform back into human form again!"

It turns out that these spirit creatures suffered heavy damages to varying degrees after the war, and then these spirit creatures killed the Sea-Monster tribe and other races they captured, devouring the souls of these creatures, and then... began to refine the souls. .

"You said that you have suffered heavy injuries and changed back to your original form?"

"That's right! The warriors of the Spirit Clan are not afraid of any battle, even the most powerful Spirit Clan in the world, don't want our Spirit Clan to yield!"

"No, didn't you just say that your tool spirit race is the most powerful race in this world?"

The little thing was a little embarrassed and coughed a few times before he said: "This is not the point. The point is that our Spirit Clan won a beautiful battle. Not only did all the members retreat without damage, but they also captured many of the Spirit Clan. captive!"

"What is the Lingjin Clan?" Li Tian asked.

"Looking at your lonely and ignorant look, it is forgivable to say that you don't know the Qi Ling Clan. After all, our Qi Ling Clan is the most noble existence in this world. But how could you not know that the Ling Jin Clan of the bad street? What? Don't you see the sky outside?"

"You mean those metal bumps?"

"That's right, that's right! It's those metal bumps, you describe it very accurately!"

Sure enough, it was the same as Li Tian guessed.

Those metal blocks have vitality, and even Li Tian guessed that there should be something in common between the Lingjin clan and the Qi Ling clan.

"Why do you Spirit Clan fight with Spirit Gold Clan?"

"Hey, it's a long story!" The little thing has an old-fashioned feeling, "These metal bumps are really too stingy. Our spirit race is refining the soul and transforming into a human form. If we want to improve our cultivation, we must constantly devouring other metals. Of course, it is best to have spiritual metals such as the spiritual gold clan, only in this way can the cultivation of our spirit clan improve quickly!"

"I have just said that our Spirit Clan is the most noble race in this world, and it was once the ruler of this world. Do you think that at this time, should the Lingjin Clan be grateful and take the initiative to send us up so that we can improve? Practice?"

Li Tianzhen wanted to pinch the little thing to death.

You want to devour others, and you want others to come to your door gratefully.

Lingjin people are not cheap!

It's like a man clearly covets the beauty of a woman. It doesn't count as if he ***** rapes another woman, he hopes that they will send him to the door to ***** him.

How can there be such a good thing in this world.

"Don't you wake up?" Li Tian said unceremoniously.

"Huh! We won't take their lives, we just swallow part of their bodies, so stingy?"

"Is this a stingy question?"

"Well, even if it's not a stingy problem, but this spiritual gold clan was originally a branch of our tool spirit clan, as a branch of our tool spirit clan, it's always the reason to contribute something! But, since this branch has a mystery behind it After the strength is supported, the wings are hardened, and they dare to resist our entire Spirit Clan, and even plunder our Spirit Clan."

"This kind of thing is tolerable or unbearable. Regardless of whether our spirit race is from that position, we must rise! We must fight! Fight at all costs! Let the spirit gold race know who is in this world. Master of

This spirit clan said this, and Li Tian probably already understood it.

The tool spirit race was born in the weapon, just like the sword spirit in the red sword.

The difference is that the weapons of the spirit clan are all unowned. After they have spirituality, they will exist in the form of weapons.

Then in the battle, slash, swallow, and refine the souls of other biological species to condense their own bodies.

Once the humanoid body is condensed, if the Spirit Clan wants to improve its cultivation, it must swallow the metal blocks suspended in the air.

In order to better swallow these metals and let go, a branch of the Spirit Clan uses these metal blocks as the host body, which gives rise to a new race of the spiritual gold clan.

However, these spirit gold tribes were not awakened originally, let the tool spirit tribe swallow them.

As a result, I don't know what mysterious power controls these spirit gold tribes. Not only are the spirit gold tribes not at the mercy of the spirit gold tribe, they also began to plunder the spirit tribe rice, so this will have the previous battle.

However, it seems that the Spirit Clan ended in failure.

This kind of thing seems to have nothing to do with Li Tian. Li Tian is only thinking about finding some food. After all, he is not a **** now. Even if he can not eat for a long time, he can never stop eating forever!

The **** thing is here, Li Tian can't get in touch with Xukong Yasha for the time being, otherwise he wouldn't be so embarrassed.

Li Tian stretched out his foot and kicked the little thing, and said fiercely: "Stop talking nonsense, I don't care what race you are. You said there are other foods in this battleship. Take me right now!"

Little things are wronged.

As the once aloof spirit clan, now it has been completely beaten back to its original form. There is no weapon spirit in the host body, and it has no combat effectiveness. It can only take Li Tian under Li Tian's **** and walk to other areas of the space battleship.

Li Tian took Hong Zhan back from his hand and looked at Hong Zhan carefully.

"Hong Zhan, how do I feel that this spirit clan has something in common with you? Are you from this world?" Li Tian communicated with Hong Zhan with his heart.

Hum!

Hong Zhan shook abruptly, changing into a blood-red cloak, draped over Li Tian.

Ok!

Hong Zhan actually played a small temper, Li Tian was really helpless with Hong Zhan.

Following the little thing through a few doors and through the storage area, the little thing directly led Li Tian to the prison area!

Wow!

When the door was opened, many prisons appeared in Li Tian's eyes, and on the ground of this prison area, there were still some entities lying downside down.

"Here, they are all real things here, they are flesh and blood, they are definitely better than me! Now, can you let me go?" The little thing pointed to the prison cage and said.

"Lee..."

"Li Tian..."

"Master Li Tian..."

Situ Ningbing, Liu Jimeng, Ye Meijing, and the Sea-Monster in the prison area all saw Li Tian, and they shouted Li Tian's name in surprise.

Hearing the Sea-Monster tribe and others calling Li Tian's name, the little thing turned around and fled.

Whoosh!

Before running two steps, Li Tianyi stretched out his hand and directly sucked up the little thing and pinched it in his hand.

As if venting the ball, Li Tian firmly grasped the little thing.

At this time, Li Tian really wanted to pinch this little thing to death.

"You just said, who is food?"

Chapter 4870: : Breakthrough

"I'm wrong!"

The little thing lowered his head and dared not say another word.

It was the first time that Situ Ningbing and the others saw the real body of the Spirit Clan, so they didn't know what the little thing was caught by Li Tian.

"Hong Zhan! Split these cages for me!"

Li Tian still grasped this little thing in his hands, but he tried to squeeze this little thing several times, but in the end he didn't start.

The little thing does not pose any threat to Li Tian now. With this little thing, at least he can be Li Tian's little guide.

Huh!

Huh!

Huh!

Domineering red cut, slashed three times in a row, and cut open the metal bars of the cage that trapped Situ Ningbing, Liu Jimeng and Ye Meijing!

After one of the metal bars of this metal block was cut, the entire other metal railings would immediately retract, turning into a whole metal block again, and falling to the ground.

"Lee..."

"Li Tian..."

Situ Ningbing, Liu Jimeng, and Ye Meijing ran to Li Tian!

"I thought I would never see you again...oooo!"

The feeling of the rest of their lives made these women cherish being with Li Tian even more. Ye Meijing held Li Tian's arm, tears in her eyes.

"It's okay, it's okay! Don't cry, tell me what happened? Tang Xiaolong and the others?" Li Tian stretched out his hand and patted Ye Meijing's back, comforting her.

The more Li Tian comforted, the more sad Ye Meijing cried.

"Xiaolong and the others were captured by the metal man on another spaceship, and they don't know where they are now!" Situ Ningbing said concisely.

"Master Li Tian...help us..."

Although the other Sea-Monster tribes in the cage did not want to disturb the reunion of Li Tian, Situ Ningbing and others, they were really fed up with the feeling of being imprisoned. They stood in front of the cage and reached out to Li Tian for help, even the others. The foreigners also asked Li Tian for help, hoping that Li Tian could rescue them easily.

"Red Cut..."

"Wait!" Situ Ningbing stopped Hong Zhan and pointed at the foreigner who had been cut off by the butcher with a butcher knife. A cold light flashed across his face, "We must rescue the Sea-Monster Clan. As for these foreigners, none of them, especially him, must be left to me so that I can kill him personally!"

Li Tianyi looked at Situ Ningbing's expression, and suddenly felt a bad feeling in his heart.

"Could it be...Could it be that Situ Ningbing is already..." Li Tian didn't dare to think anymore.

Must die, these foreign monsters must die!

"Hong Zhan! Except for the Sea-Monster Clan, all other foreign monsters have been killed for me!" Li Tian shouted at Hong Zhan through his mind!

"My lord, please forgive me!"

"My lord, why do we have no grievances and no grudges to kill the killer like this?"

"Woo...I don't want to die!"

These foreigners also entered this metal world to test, but they were controlled by the Spirit Clan and imprisoned here long before Situ Ningbing and others. These foreigners finally hoped that a strong man could enter this space. In the battleship, they could be rescued, but what they didn't expect was that what they were looking forward to was death!

"Don't leave one!" Li Tian said grimly and coldly.

Huh!

Hong Zhan has already flown out!

Situ Ningbing did not expect Li Tian to be so angry.

I just wanted to persuade Li Tian to say a few words, then after thinking about it, I understood what Li Tian was worried about.

Situ Ningbing couldn't help but smile, and his heart was full of sweetness.

"Lee... please don't think about it, okay? It's just that this **** foreign thing was rude to me, so when I got angry, I killed his **** with a butcher knife! But I still don't understand the hatred, so I want Kill him personally!"

The expression on Li Tian's face was natural.

Your sister, dad is scared to death!

"Haha... so it is!"

However, no matter what, Hong Zhan had already cut several red lights in succession, cutting away these cages one by one.

As soon as the cage opened, the foreigners who were still trapped in the cage wanted to escape, but how could Hong Zhan let them escape!

Huh!

Huh!

Huh!

The heads were chopped off by Red Chop, blood spurted, and the entire cage area instantly became a death hell!

The crab who first appeared molested Situ Ningbing had his head curled up in the corner of the cage, looking at Li Tian in fear.

He can feel that Li Tian's realm is still in the realm of the domain master. If he fights alone, he firmly believes that he is no worse than Li Tian, but... the red sword in front of Li Tian was released when he slashed other foreigners. The power of the crab made the crab's head feel fear.

The owner of Crabhead already knew that he had made a big mistake, for which he had paid a heavy price.

However, it is obvious that the price he paid is not enough to make up for the mistakes he made!

Huh!

Huh!

Hong Zhan is still slashing, constantly beheading the cage, and constantly beheading those foreigners!

These foreigners are all physical bodies. Although they have human bodies, Li Tian feels that they look more like ghost beasts.

"Maybe these foreigners also have beast crystals on them!"

Situ Ningbing immediately took out the butcher knife and slaughtered the gods, and sliced away the corpses of these foreigners...Sure enough, inside the bodies of these foreigners was a crystal that looked like a beast crystal. Holding this crystal in his hand, Situ Ningbing could feel the pure and surging spiritual power contained in this crystal, which is more pure than the beast crystal!

"Master Li Tian, these crystals can be used for cultivation. These foreigners are all powerful at the peak of the venerable and the domain master..." Those Sea-Monster tribes still trapped in the cage pointed to Situ Ningbing's hands. Crystal said with excitement.

Situ Ningbing tried to absorb the spiritual power in this crystal. The spiritual power in the crystal did not repel Situ Ningbing at all, and was easily absorbed by Situ Ningbing. These spiritual powers appeared in Situ Ningbing's body veins, and quickly merged with Situ Ningbing's existing spiritual power!

boom!

Situ Ningbing had just absorbed the spiritual power in a crystal, and had not yet been fully refined, but her cultivation level had actually broken through to the realm of the domain master.

The first level of domain master!

"Haha, it really is a good thing!" Li Tian looked excited!

In this prison area, there are less than 20 foreigners. The crystals in the bodies of these foreigners are enough to allow Liu Jimeng and Ye Meijing to cultivate to the realm of the domain master at the same time, and there are even extra crystals. Their cultivation base went further, breaking through to the initial stage of the second-level domain master!

As for the Kraken Race?

It's not that Li Tian doesn't want to help them. It's good for Li Tian to rescue them. Of course, these crystals are for his own women to practice.

Situ Ningbing absorbed the crystals in his hand, and then refining it completely, then he carried the butcher knife and slaughtered the gods, and slowly walked towards the cage of the crab head domain master.

"Now, it's your turn!"
