

A Killer 5161

Chapter 5161: Come but not go

The thunder is constantly falling!

Heavenly Tribulation that soars by the day, that is definitely not a joke.

When he was in the Colosseum, in order to save Li Tian, Shuigui Guzi once soared in the daytime to cause the catastrophe.

Today, the Great Elder also made the same choice in order to save these students.

This spirit of self-sacrifice deserves Li Tian's admiration.

"Grand Elder..."

"The Dean..."

Including almost all the students, teachers, and elders, they all looked up at the elder with respect. At this time, they ignored the danger of the falling thunder, and just wanted to show them by watching the elder ascend into the gods. My heart's respect for the Great Elder.

boom!

The sky thunder fell down and hit the ground several kilometers away.

Because of the collapse of the mountain, a huge boulder with the size of several thousand cubic meters appeared on the ground. It was bombarded in an instant... the smoke was wiped out and disappeared completely.

"Fuck!" Li Tian couldn't help cursing.

He was not cursing Tian Lei, but cursing the group of fools who looked up.

Great Elder Great Elder triggered Tian Lei and scared away the demigod powerhouses of the Super God family, but the battle did not end.

The danger of the sky thunder is no weaker than the demi-god-level powerhouses of the super **** family. For those students who accidentally survived, at least half of the strong people will be smashed by the sky thunder, and Li Heavenly Legion, Nether Academy and many other demi-god-level powerhouses may even be implicated, and then ascend into the God Realm in the daytime.

It's not that it's impossible for Li Tian and others to enter the God Realm, but what about those who did not enter the God Realm?

Will the powerhouse of the paralyzed Super God family ever forgive them?

At that time, without the protection of Li Tian and others, these students will not escape in the end.

In this way, wouldn't the Great Elder's ascension become worthless?

Li Tian's angry curse awakened many strong men.

"The catastrophe is here, why don't you leave soon?" Chu Jiangnan roared.

"You have seen the danger of the sky thunder, don't you run away?"

"Run! If the sky thunder falls on us, we will be like the stone!"

Li Tian has no time to take care of those students, leading the strongmen of the Li Tian army to teleport several dozens of kilometers away.

The students from the Nether Academy who had awakened all teleported and fled to a place where they thought they were safe.

As for the Netherworld Academy, even if there is no sky thunder, it has completely turned into ruins. Many students are discouraged and decided to temporarily escape from the world, not being involved in the struggle between the Super God Family and the Netherworld Academy.

"Did they all escape?"

Li Tian hovered in mid-air, looking at the powerful men who had escaped with him.

Everyone looked around and quickly counted the number of people.

Li Tianjun, Tang Xiaolong, Situ Ningbing, Situ Lime, Youanrou, Ziyang Thunder Bear and others, Obscene God, Xiaoqingwa, Xiaotianyi, etc. are all there, but Chu Jiangnan from Nether Academy and the three demigods The elders did not follow.

According to Li Tian's guess, it should be Chu Jiangnan, the temporary dean, who had to settle the students properly before coming to meet Li Tian again.

"Little boss, all ran out! Paralyzed, this is for the Super God family. Although the old cow has fallen and the big elder soars, but the Super God family has fallen more demigods, and we didn't suffer!" Tang Xiaolong said.

The Ziyang Thunder Bear was very upset by Tang Xiaolong's words, but what Tang Xiaolong said was also true. The Ziyang Thunder Bear managed to endure his anger and still did not attack.

Li Tian saw the expression of the purple flame thunder bear, but he also knew that Tang Xiaolong was innocent, and said: "The battle is never a treat. There will always be sacrifices. I am very sad about the fall of the old cow, but now it is not our heartache. when!"

"Li, now the widows of the four super ***** families are temporarily separated because of the great elder's ascension, but as long as the great elder's catastrophe is over, the widows of the super ***** families will definitely gather together again, even if there is no Nether Academy. Students of, it's probably not easy for us to retreat completely!" Situ Ningbing said.

"I'm afraid of what they are doing. The strong men who ride on the four super ***** families have not yet gathered together. Let's rush over and do them first!" Tang Xiaolong said.

Situ Ningbing couldn't help but give Tang Xiaolong a blank look, but did not speak.

Situ Ningbing couldn't help shook his head, "Little Dragon, this is a battle for a demigod powerhouse. As long as we have just appeared next to the widows of any super ***** family, will the widows of the other three super ***** families sit idly by? ?"

"Yeah! Haha, I just want to go to war happily, not so much!"

"Or, let's retreat for the time being, and then make a long-term plan?" You dark Judo.

"Where can we hide? We must not retreat, the black smoke group is still in the mirror world!" Tang Xiaolong said.

I rub!

The black smoke group has been too low-key these years, and the black smoke group seems to have encountered some difficulties in breaking through the demigod realm, so it still stays in the mirror world.

"It doesn't matter, after the black smoke group's cultivation level reaches a demigod, if he comes out of the mirror world, these super **** family widows may not be his opponents." Li Tian said.

As the head of the Li Tian army, Li Tian must consider the whole Li Tian army.

In the current Li Tianjun regiment, except for these demigod-level powerhouses and those who have not yet reached the semi-god level, there is no more territory in the Netherworld.

It is precisely because of this that Li Tian felt that it was an extremely unwise choice to fight a positional battle with the Super God Family.

That being the case, it doesn't make much sense to stay here.

"Doesn't the Super God Family like to attack these helpless students in Nether Academy? It's not impolite to come and go!"

"Li, what do you mean?" Situ Ningbing had already guessed Li Tian's thoughts.

As a killer, Situ Ningbing does not have a Virgin Mary complex. If Li Tian wants to do this, she will definitely support Li Tian unconditionally.

"Kill the territory of the Super God Family! Just like the Chu Jiangnan at the beginning, the Super God family is upset!" Li Tian said firmly.

"Do you want us to act on those women, children, old and weak in the Super God family? Is this... Isn't this too shameful?" It turned out that Ziyang Thunder Bear raised the objection.

There was a sneer at the corner of Li Tian's mouth, and he said, "Before returning to the Nether Academy, I had been to the East Palace and the Sanlu Super God Family, but I only killed General Sanlu, and did not touch any of the others! So this Once, we went to the territory of the Super God family again, trying not to hurt women, children, old or weak, but as long as there is a cultivator who dares to resist, regardless of his cultivation level, whether he is a male or a female, kill them all! Our purpose is only One, to attract people from the Super God family back, and then we will have a magical battle around the spot for aid!"

"Where to fight for aid? Hey, this method is really obscene! Only Li Tian can think of such obscene play." The obscene **** who has never spoken like this said with an obscene expression of excitement: "If other super **** family members The elders come together, so we will immediately retreat, switch to guerrilla warfare, and continue to switch to the territories of other super **** families to continue fighting. I don't believe that they don't take the bait or that they don't miss their flaws!"

Chapter 5162: Covert operation

Things were decided so happily!

Li Tian then told Situ Ningbing the details, letting Situ Ningbing and Tang Xiaolong lead the team and directly kill the Underworld.

After arriving in the Underworld, Li Tian asked Li Xiaoyu and Li Wushuang to return to the Sea-Monster Clan first, and asked them to lead the powerful Sea-Monster Clan to harass the guerillas who had already reverted to the Super God Clan. The country.

"Send dreams and beautiful scenery, Liu You, please take care of them. Don't fall in love with them when you encounter danger. The most important thing is to protect yourself!" Li Tian said.

The reason why Li Tian asked Liu Jimeng, Ye Meijing, and Liu You to help the Sea-Monster tribe was also because they wanted to get closer to Li Xiaoyu and Li Wushuang, just like Li Bai, Duanmuying, and Ouyang Shiqing in the earth world. Li Tian still hopes that they can live together peacefully.

"Li Tian, our cultivation level has not reached a demigod. We can't help you when dealing with demigod-level powerhouses. Meijing and I are also very uncomfortable. Now we can help the Sea-Monster Clan. To help you alleviate even a little burden, Meijing and I will have no hesitation!" Liu Jimeng said.

Ye Meijing nodded slightly and said in agreement: "Li Tian, before entering the mirror world, I thought that after my cultivation level reaches a demigod, I must personally take revenge for my father and my brother and them, but now I can only ask you to help me kill a few more elders from the Super God Family!"

"Don't worry! The end of the Super God Family is coming soon!"

Li Tian turned around and said to Li Xiaoyu and Li Wushuang: "You two should listen more to Auntie Meimei and Meijing, and protect yourself!"

"My father, we will definitely follow your teachings!" Li Xiaoyu looked distraught.

Li Wushuang didn't speak, instead, there was a bit more determination in his eyes.

After coming out of the Mirror Realm, Li Wushuang already knew that he and Li Xiaoyu's cultivation realm would never be able to break through to a demigod, so it would be impossible for them to enter the God Realm and see their mother again. Haiqin.

Then the important task of the Sea-Monster Clan has been handed over to the two of them. Now they are the strongest in the Sea-Monster Clan's cultivation realm. They must also be strong for the Sea-Monster Clan.

Seeing Li Xiaoyu and the others enter the Nether Cry Sea, Li Tian turned to Tang Xiaolong and the others and said, "You too, hurry up, we disappear from the Nether Continent, Chu Jiangnan and the others will probably be under a lot of pressure. , Only if you act, Nether Academy and Chu Jiangnan will be more relaxed."

"Little boss, why don't you follow us?" Tang Xiaolong asked.

Li Tian nodded and said: "Although we now think of a way to deal with the Super God Family, it is not easy to succeed. So I want to go to Wanshen Mountain to meet the mysterious woman and seek her help. As long as she is willing to take action, then we can deal with the Super God Family, it will be much simpler!"

Li Mu stood up and took the initiative to invite Ying.

"My father, the child is willing to go with my father!"

"Little boss, why don't you take me there, I also want to meet the mysterious woman in Wanshen Mountain..."

Tang Xiaolong also wanted to follow.

Li Tian waved his hand and refused, "Your main task is to deal with the Super God Family. As long as the Super God Family is completely defeated, the Super God Family will no longer have a demigod, or even a strong person in the Super Domain Lord realm. Then we will leave the Netherworld, and naturally there will be a time when you see her!"

Tang Xiaolong and Li Mu stopped then.

Other strong men also bid farewell to Li Tian.

Only then did Li Tian teleport to leave the Nether Continent, and after a continuous teleport, he returned to the Nether Continent again, teleporting towards the direction of Wanshen Mountain.

...

Time is pushed back one hour ago.

The Wanshenshan mountain range is endless with lush greenery and rolling hills.

Hundreds of miles away from Wanshen Mountain, in a steep valley, towering ancient trees, rare people, and even the most fierce beasts rarely appear here.

There is no road here, not even the thinnest path.

But at the same time, this is already a no-fly zone on the Wanshen Mountain. If a bird with wings accidentally enters this area, it will instantly be blasted into pieces by the mighty power of God.

At this time, several figures flashed quickly in the flash, and it could be seen that the speed of these strong men was extremely fast, they were still in the valley one second, and appeared hundreds of meters away in the next second.

But if you look closely, you will find that these strong men did not use teleportation, and it can even be said that they did not operate spiritual power, and they ran swiftly on the cliffs entirely with their legs.

There were twelve people in total.

Among the twelve people, the weakest in cultivation level had reached the demigod early stage, and eight others had reached the demigod peak.

"There is no need to worry about Nether Academy?"

"It's really unreasonable worry, there are more than forty demigods in our four super **** families near Nether Academy, even the quasi-god powerhouse has to kneel out of the secret realm!"

"For fear of accidents, Li Tian shouldn't be underestimated! And we have selected eight demigods this time, which will definitely have an impact on them!"

"Hahaha, I really don't understand how you are so easily scared by Li Tian. That's right, Li Tian is very powerful. He can even kill two of them under the siege of four semi-god-level powerhouses. , But don't forget, this time it's not four semi-god-level powerhouses, but more than forty. Not to mention Li Tian, even the one from Ten Thousand Gods Mountain..."

"Shut up you, do you want to alarm her and attract her too?"

"We have waited too long for this day! This time, as long as we can succeed, then the entire Netherworld will be the world of our four super **** families! Except for the super **** family, the entire Nether world will no longer have gods, then The picture, haha, I feel beautiful when I think of it!"

That's right, it's no one else who appeared in this valley at this time. It was the four Patriarchs of the four super **** families, Donggong Zhentian, Sanlu Shangqing, Xiuyu Lonely, and White Horse King Kong, and they were drawn from their families behind them The eight demi-god peak powerhouses that came out: Donggonggan, Donggongkun, Sanluhong, Sanluyuan, Xiuyuyin, Xiuyuyang, White Horse One, White Horse Two!

At this moment, they suddenly felt a constant fluctuation of spiritual power coming from the direction of Netherworld Academy.

"It's the spiritual power fluctuation of a demigod-level powerhouse!"

"Is it Li Tian? Or are the powerhouses in Nether Academy already out of the mirror world?"

"It is still impossible to judge, but this is the best opportunity for us. If... I mean if the mysterious woman would go to the Nether Academy to join in the fun, then our purpose of coming here this time has been achieved! "

"For this day, we waited for more than ten thousand years! If the White Horse King Kong's cultivation realm could break through to the demigod sooner, maybe we would have completely beheaded the mysterious woman before Li Tian came to the Netherworld. At that time... "Xiuyu said lonely.

A displeasure flashed across White Horse King Kong's face, and he sneered, "Hey, we are half a catty, and your lonely fish cultivation level broke through to a demigod. It was only 30 years ago that Li Tian came. After the Netherworld, you broke into the demigod, so..."

"Why? You Baima King Kong is not convinced? Do you want to do a couple of tricks with me?" Xiuyu was lonely and a little unhappy.

"Stop arguing! We are in Wanshen Mountain now, do you want to get that woman's attention?"

Chapter 5163: Please **** down

Xiuyu Lonely and White Horse King Kong are not talking.

But the contradiction between them has not been eliminated.

Both the Xiuyu Super God Family and the White Horse Super God Family are in the Underworld. In order to recruit the Youlong Clan and other mysterious races to stand on the side of the Super God Family, the four super God families have made different degrees of concessions and losses, but the White Horse The Super God family made the most losses and concessions.

This kind of loss and retreat is not unbearable.

But what makes White Horse King Kong the most disgusting is that the three super **** families of Donggong, Xiuyu, and Sanlu seem to be fair and just on the surface, but in fact these three are weak with the overall strength of the white horse super **** family. Against the Li Tianjun regiment and the Nether Academy's limited role, the White Horse Super God Family made more concessions.

The promise they gave was that after the Li Tianjun regiment was annihilated, the Super God Family would attack other mysterious races, and all the territories that the White Horse Super God Family gave up would return to Zhao.

The White Horse King Kong haha.

After another ten minutes, the group finally arrived at their destination.

It is only ten miles away from the main peak of Wanshen Mountain. Standing here, the main peak of Wanshen Mountain is clearly visible, and their feet are almost on the edge of the ancient battlefield of Wanshen Mountain ten thousand years ago. The bones of the powerful men who fell during the Battle of the Wanshen Mountain can be seen everywhere. The white bones are weathered into round, without a trace of edges and corners, and at first glance they look like stones of various shapes.

"More than 10,000 years ago, our ancestors united to resist the invading mysterious woman and Li Kuafu. It is precisely because our ancestors gave up their lives and sacrificed at all costs to have our peace for more than 10,000 years. The task has fallen on us again. For the eternal peace of the Nether Realm, and for our four super **** families to stay forever, any sacrifice we make is worthwhile." Donggong Zhentian sighed.

Sanlu Shangqing nodded slightly, and then echoed: "Yes, Father Li Kua is still in the shadows. In ten thousand years, we beheaded him twice, but his wicked son returned to the Nether Realm again and treated us again. The God Family has caused so many dangers, for the Nether Realm, for the Super God Family, this time we must eradicate Li Tian together!"

After Baima King Kong's cultivation level reached a demigod, his deduction ability became stronger and stronger. Based on his short-lived exchanges with Li Tian in the past, he followed the water ghost Guzi, Situ Ningbing, mysterious woman, etc., unexpectedly changed Li Tian's life experience. Estimated seven-seven-eights.

Naturally, the patriarchs of the four super **** families already knew that Li Tian was the son of father Li Kua after reincarnation.

"Haha, as long as we successfully complete this mission, let alone Li Tian, even that mysterious woman will definitely fall!" Xiu Yu said with a smile on his lonely face.

"Nevertheless, we can't be careless! We must know that ten thousand years ago, if our ancestors hadn't put this woman and Li Kuafu too much in their eyes, their formation would not be broken, nor would they. After the battle of Wanshenshan, there won't be so many powerful people falling!" Donggong Zhentian said.

The other three strong nodded at the same time.

"Then we will take a break and get ready to start!" Donggong Zhentian said again.

The twelve semi-god-level powerhouses took their seats and slowly began to run their spiritual power.

This place is too close to Wanshen Mountain, they are always careful for fear of alarming the woman on the top of Wanshen Mountain.

Even when they spoke just now, these demigod-level powerhouses suppressed their voices, and did not dare to speak loudly.

At this time, the same is true for their spiritual power. The spiritual power on their bodies fluctuates slightly, as if it is a calm lake without a trace.

After a while, the eight powerhouses at the pinnacle of demigods first finished their adjustments, and then looked at each other, their figures flashed, and they rushed to the eight directions between the south, east, north and west.

Soon, Donggong Zhentian and Sanlu Shangqing were also adjusted.

Although they are demigods, when they enter the Ten Thousand Gods Mountain, they have to bear the power of the Ten Thousand Gods Mountain. When they dare not use the divine power, or even dare to force their spiritual power, these people travel long distances, and their physical energy The loss is also very huge.

The cultivation levels of the two Patriarchs Donggong Zhentian and Sanlu Shangqing were slightly stronger than those of Xiuyu Lonely and White Horse King Kong, but soon the white horse and Xiuyu were also adjusted.

"Ready to start!"

"Ready to start!"

The four Patriarchs of the Super God Family began to explore on the ground.

They first swept away the white bones on the ground with their hands, and then slowly moved their spiritual power to remove all the dust under the white bones, and only then revealed some weird patterns under the ground.

"Found it, it's here!" Donggong's voice was a little excited.

The other three patrons also speeded up and quickly cleared the bones and dust from the ground.

Ten minutes later, on the ground on the edge of the ancient battlefield of Wanshen Mountain, a pattern with an area of over several thousand square meters appeared.

This pattern looks like a lotus flower when viewed from a high altitude, but there are rings inside and outside the lotus flower, and between the rings, there are special ancient characters in the Netherworld.

After ten thousand years, this pattern is still very clear, as if it had just been carved here.

If you reach out and touch it, you will find that this pattern is not carved on ordinary rocks, but a mineral rock similar to metal, and this mineral is one of the most important raw materials for forging space rings, and therefore, this The pattern has not been damaged even after ten thousand years, and even the lines on it have remained quite intact.

"I stand in the east position, Sanlu Shangqing you stand in the west position, Baima King Kong station in the north position, and fish repairing loneliness you stand in the south position! Without further ado, let's hurry up and start immediately." Donggong Zhentian said.

After finishing speaking, the four of them lightly touched their feet, came to their positions, and then sat cross-legged.

"From now on, we have to concentrate on the guardianship of the eight demi-god peak powerhouses of our four super-god families. Even if the mysterious woman from the Ten Thousand Gods Mountain appears, it is not so easy to win, so Don't worry, you can start!"

After speaking, Donggong Zhentian flipped through it, and a token appeared in his hand.

This token is entirely white, and looks like white jade.

This token is exactly the Patriarch Token that symbolizes the status of the Patriarch of the East Palace.

Donggong Zhentian looked at the other three Patriarchs, and then put the Donggong Patriarch token in his hand in the patterned card slot in front of him, and placed the token in it.

It's not too big or small, it fits perfectly.

Then Donggong Zhentian had slowly closed his eyes and stopped talking, and the faint spiritual power of Donggong Zhentian's body began to fluctuate involuntarily, as if a breeze was blowing a flame.

After these spiritual fire flames jumped a few times, they flowed back along his body from the beginning to the direction of his legs, and quickly flowed down his legs to the pattern under his body.

Hum!

The pattern suddenly gleamed with a ray of light as if it had been activated, and then these spiritual powers quickly wandered along the lines on the pattern.

At the same time, the other three Patriarchs put the Patriarch's token into the card slot in this way, closed their eyes and used their spiritual power.

Only a few seconds before and after, a layer of light blue light appeared on the entire pattern, and this light even passed through the four Patriarchs of the Super God Family, as if it were through perspective, and the bones in their bodies were clearly visible.

Immediately afterwards, a faint spiritual power began to flow towards the Patriarch's token.

...

At the top of Wanshen Mountain, the mysterious woman has already felt the light spiritual power fluctuations beyond Wanshen Mountain.

"Finally, the Super God family can't live anymore? Then I will wait for you again, and see how much the old immortals of the Super God family are in ten thousand years!"

The mysterious woman didn't seem to see the Super God family appearing in Wanshen Mountain at all.

However, a few minutes later, the mysterious woman's face suddenly showed a slight strangeness.

"Damn things, dare you ask God to go down to earth? Looking for death!"

When the words fell, the mysterious woman disappeared instantly.

Chapter 5164: Associate God

Huh!

The mysterious woman appeared on the edge of the ancient battlefield of Wanshen Mountain in an instant.

In front of her, the Patriarchs of the four super ***** families were sitting on the ground with their eyes closed, and the strong light released by the pattern under the four Patriarchs had rushed straight into the sky, and the white clouds in the sky were constantly rolling. Bai Yun seemed to be receiving a strong suction force, or some kind of call, moving quickly toward the beam of light.

From the top of the head, the white clouds gradually thought of spreading in the distance, piece by piece, piece by piece, really beautiful.

But at this time, the mysterious woman is not in the mood to appreciate this sight a hundred times more beautiful than the scales of white clouds.

"Sure enough, you guys who don't know how to live or die are doing things again! Want to ask God to go down? Are you going to deal with me? Hahaha! Thousands of years ago, what your ineffective ancestors did not do? Can it be done? What a wishful thinking!"

The mysterious woman was furious, and the spear of heaven in her hand flicked, and the surging spiritual power circulated half a circle on the spear of heaven, and then the mysterious goddess raised the spear of heaven.

Hey!

As if it were lightning, that spiritual power was constantly wandering around on the Qiong Lance of the sky in a lightning-like posture. The powerful power made Donggong Zhentian and others involuntarily feel a wave of fear.

Quasi God?

Has this woman returned to the quasi-god state?

How can this be?

When did this happen?

If this is the case, then the eight demigod-level peak powerhouses we brought will be difficult to stop her!

However, Donggong Zhentian, Sanlu Shangqing, Xiuyu lonely, and White Horse King Kong have no way out.

Now they have begun to ask the gods to go down to the earth. If they give up halfway on their own, their Patriarch token and the ancestors who entered the God Realm of the Super God Family will lose the last touch, and then their token will become a waste. From then on, The super ***** family will lose their greatest support.

There is no turning back arrow in the bow, now I can only clenched my teeth.

Whoosh!

Whoosh!

Whoosh!

Whoosh!

The four figures teleported in front of the mysterious woman from different directions. They were Donggong Kun of the Donggong Super God family, Xiu Yuyang of the Xiuyu Super God family, and San Luhong of the Sanlu Super God family. , And the white horse one of the white horse super **** family.

"Hey, we waited for a long time again, wanting to hurt our Patriarch, we have to pass our level first!"

The four demi-god pinnacle powerhouses appeared, and then each displayed their magical powers while attacking the mysterious woman.

The appearance of the four demi-god pinnacle powerhouses was completely in the expectation of the mysterious woman.

"Go aside! I'll pick up your **** in a while!"

The mysterious woman glanced at the corner of her mouth, her figure flickered, and she easily avoided the combined attack of the four demigods, completely ignoring their existence, and there was no hesitation in the movement of the spear of the heavenly spear pierced into the East Palace.

Huh!

The lightning on the Qiong Lance of the Sky had already taken a step forward. At the moment when the mysterious woman had not teleported, the lightning had passed through the void and came to the East Palace shaking the sky.

Donggong Zhentian could feel the terrifying, even desperate, powerful murderous intent, but he did not retreat, still closed his eyes tightly, and seized the time to run his spiritual power.

At this moment, a figure appeared in front of Donggong Zhentian instantly, it was Donggong Qian!

Donggonggan held a gray-brown cloth bag in his hand. He slammed the cloth bag upstairs to block the attack wave released by the mysterious goddess, then rubbed it smoothly and directly wrapped the bright light of spiritual power in the cloth bag. The strong light released by the mysterious woman shook violently in the cloth bag twice, and then completely lost contact with the mysterious woman.

"If you want to hurt Donggong and shake the sky, then you have to show more skills!" Donggong said with a sneer.

The mysterious woman suddenly laughed.

"Qiankun Bag? Yes, it really is the quasi-sacred tool of Donggong Zhantian, but I didn't expect that his quasi-sacred tool would fall into the hands of your rubbish. It's a pity that the same quasi-sacred tool will be played by different owners If you have different abilities, then you can take two more moves!"

The Heavenly Qiong Spear in the mysterious woman's hand turned a spear, her wrist flicked, and a strong light of spiritual power shot out from the Heavenly Qiong Spear again.

The lightning-like glare that was shot just now is only as thin as a little finger, but this time, this glare already has the thickness of a wrist, and this strong light has formed an arrow-like shape, which is just as powerful as it looks. I don't know how many times it has been promoted.

A hint of sarcasm appeared at the corner of Donggong's mouth, his legs touched the ground lightly, and instead of retreating, the Qiankun cloth bag in his hand once again wrapped up the strong light.

Only this time, the power of the wrapped strong light was indeed several times greater, and it was wrapped in a cloth bag like a beast that had just been locked up in a cage, constantly protruding in all directions.

As strong as Donggong, he almost couldn't hold the Qiankun cloth bag, and his body was directly rushed out of the giant pattern by the impact of the strong light, and he retreated for nearly seven or eight kilometers, before it completely stopped. Come down.

"What a strong guy, fortunately there is a quasi-sacred weapon Universe Bag. Otherwise, if this strong light bombards me, even if I am a demigod pinnacle powerhouse, I am afraid I will be blasted into **** instantly!" .

At this time, the four demigod pinnacle masters, Donggongkun and Xiu Yuyang, once again gathered around the mysterious woman, using their best skills to deal with the mysterious woman.

The mysterious woman tried to highlight the encirclement several times in a row and kill Donggong Zhentian or other Patriarchs, but every time she attacked, she would be affected by the yin and yang mirrors for repairing the yin of the fish, the dead trees of the source of Sanlu Fengchunzhi, and the source of Baima Er's source through the grain. Absorbed.

"Damn it! It's a group of tortoises with shrunken heads, they thought of using this method to deal with me!" the mysterious woman angered.

Although the mysterious woman's attack is sharp and powerful, her cultivation level has just returned to the Quasi-God level, and she still wants to go far away from her cultivation level at the peak of her existence, even not as good as she had just returned ten thousand years ago. Strength when reaching the Netherworld.

Want to break through these semi-god pinnacle realm powerhouse quasi-sacred weapon with all their strength, that one is really easy said than done.

In this case, the mysterious woman no longer continued to be entangled in killing the four Patriarchs, she immediately shifted the target and adjusted the attack direction to the four demigod-level powerhouses who were mainly attacking Donggong Kun.

boom!

boom!

Spiritual power soars, loud noises are like thunder!

The four demigod pinnacle powerhouses suddenly felt a little unbearable, even if they just clicked and didn't fight the mysterious woman, but the mysterious woman's powerful offensive power still made them a little bitter.

"Families, please hurry up, otherwise..."

The words were not finished, and there was a scream immediately!

The gap between the peak of the quasi-god and the demigod has been highlighted, and the heavenly spear in the mysterious woman's hand has pierced Donggongkun's head with lightning-like spiritual power.

...

The Wanshen Mountains hundreds of kilometers away.

Li Tian was flying rapidly towards Wanshen Mountain.

Li Tian suddenly noticed that in the sky near Wanshen Mountain, there were dense clouds and thunder.

And on the heavy dark cloud, a heavenly gate has appeared impressively.

Li Tian stunned: "The direction of Ten Thousand Gods Mountain? Could it be...Is that mysterious woman going to ascend in daylight?"

Chapter 5165: Death verdict

I can't blame Li Tian for thinking like this.

Ever since Li Tian came to the Netherworld, he saw someone soaring in the daytime for the first time. What Li Tian knows is that only those who ascend in the day and those who are above the demigod level can cause the catastrophe, and the sky will appear in the sky. , And only this time will such a scene appear.

In Li Tian's current understanding, there is no such concept of "please go down to earth".

"Mysterious woman, what exactly happened that made you choose to ascend in the day?"

"Didn't you say that you will help me deal with the super **** family, and then I will accompany you to the ghosts?"

Li Tian was puzzled.

"No, the mysterious woman waited for me for more than 10,000 years in the Netherworld in order to get rid of the ghosts. It is impossible for her to ascend and enter the God Realm for no reason!"

"Could it be..."

Suddenly there was such a trace of anxiety in Li Tian's heart, he had already guessed another result.

"Super God family! Must be a strong man in the Super God family, who wants to provoke the catastrophe by skyrocketing, and then let the mysterious woman suffer along with it!"

"but....."

There was another smile on Li Tian's face involuntarily.

He didn't look down on the powerhouse who ascended in the daytime, but he just wanted to use this method to let another demigod ascend and enter the God Realm together. It seems that no one has ever succeeded in this kind of thing.

Shuiguiguzi did not succeed!

Haiqin of the siren clan did not succeed!

The Great Elder of Nether Academy also failed.

In this way, in Li Tian's eyes, it was more of a deterrent, alleviating the temporary crisis, and letting other demigod powerhouses retreat.

Thinking of this, Li Tiangang's tense face showed a trace of relaxation.

"This group of super-god clan people have no brains, if you like day-to-day ascension, just go ascension! Of course, this is the best choice for you to avoid being beheaded!"

Li Tian accelerated the speed of flight.

At this time, he was not afraid of the sky thunder when the robbery appeared, instead he had a mentality of watching a show in his heart!

Whoosh!

Whoosh!

...

Wanshen Mountain!

The expression of the mysterious woman is not as relaxed as Li Tian.

When she found the spiritual power fluctuations in the temple, the patriarchs of the four super **** families were already opening the 'please go down to the world' array, but the mysterious woman hadn't realized it at that time. When she realized it, the patriarchs in the sky The clouds have gathered.

What makes mystery feel depressed even more is that these powerhouses of the four super **** families have come completely prepared.

The first is a clear division of labor.

The purpose of the four Patriarchs who only have a half-god realm is very clear. They are to open the big formation wholeheartedly, and there are four demi-god pinnacle powerhouses holding quasi-sacred tools with strong defensive capabilities to protect these four Patriarchs and prevent them from being affected. Unnecessary damage, and then the four demigod pinnacle powerhouses responsible for offensive and fighting.

The mysterious woman wants to destroy the big formation. The first thing she has to do now is to behead the four demigod-level powerhouses responsible for offense and fighting. Only in this way can she deal with the four defensive guys wholeheartedly.

Huh!

The Qiong Spear in the hands of the mysterious woman flicked, and Donggong's dry body was thrown directly into the sky by her.

Rumble!

A sky thunder fell from the sky and instantly landed on Donggong's dry body.

As a cloud of black smoke came up, Donggong's entire body began to burn. In less than two or three seconds, Donggong's body was burned to ashes. If there is no dust floating and falling down, Being blown by a really strong wind, completely disappeared in this world.

This is the true strength of the mysterious woman.

Just a face-to-face, Dong Gong Qian was instantly killed!

Dong Gongkun looked at the mysterious woman in surprise, and involuntarily clenched his hand holding Qiankun's bag.

If there is no Qiankun bag, Dong Gongkun believes that his fate should not be much different from Dong Gong.

"Ok... so strong! Although our cultivation level has reached the peak of a demigod, why do I still have the same fear that I had ten thousand years ago when I faced her? You must know my cultivation level ten thousand years ago. It's just the early stage of Super Domain Master's ninth level!"

"Why... why do I have such a sense of irrationality in my heart? Mysterious woman, what is the origin of this guy? Why does no one ask the gods to go down to the world, she will appear in the underworld? Is this a coincidence? Or is there something in it? What do we really think we don't know?"

"Families, we are already a little bit overwhelmed, please hurry up, please hurry up, and sooner, if we fail to ask God to go down this time, I am afraid all of us will have to explain here!"

The three demi-god-class powerhouses responsible for offensive and fighting are terrified. When they fight with the mysterious woman, they clearly don't dare to get too close. As a result, their influence on the mysterious woman is quite limited. , It can even be said that mysterious women can completely ignore their existence.

It's just that it's like mosquitoes or flies around you, maybe you can kill them at any time, but if you don't do it, then these little beasts will always surround your body and do little to you. It hurts, but it can disgust you.

The mysterious woman shook the sky in Donggong, causing Donggongkun to panic and shook the Qiankun bag in his hand.

However, in the next second, the mysterious woman appeared in front of Xiu Yuyang instantly.

Teleport?

Doesn't this Wanshen Mountain have a powerful divine power to restrict the demi-god powerhouse from teleporting?

Why can this guy teleport?

Is it because this mysterious woman's cultivation realm has reached the quasi-god realm?

If this is the case, then how can we be their opponents?

At this time, Xiu Yuyang even felt that this visit to Wanshen Mountain was completely a wrong choice.

Because they incorrectly estimated the true strength of the mysterious woman.

And this kind of wrong estimate brings **** lessons.

The figure of a mysterious woman appeared in Xiu Yuyang's eyes, but the face of Xiu Yuyang, a strong man in the pinnacle state of the demigod, was full of horror and despair.

At this moment, he even subconsciously raised his head and looked to the sky, wanting to see the results of the four Patriarchs asking God to descend.

However, the moment he raised his head, the spear of heaven had already pierced his throat!

It seemed that Xiu Yuyang didn't resist at all, and even opened his arms to accept the death verdict of the mysterious woman.

However, the fact is that the speed of the mysterious woman is too fast, and the powerful divine power released from her is completely beyond Xiu Yuyang's tolerance.

Coupled with the fear and despair in Xiu Yuyang's heart, this gave Xiu Yuyang no chance to fight back or resist.

A few minutes after the start of the battle, two demi-god peak powerhouses in the Super God family have fallen!

"No, I'm afraid these four guys are the puppets that the Super God family deliberately put out to kill me. I have to speed up, otherwise once they ask the gods to go down to the earth, I am afraid that it will be me!" The mysterious woman looked icy. Thinking coldly.

Chapter 5166: Soaring

In the sky above Wanshen Mountain, the clouds became thicker and thicker.

The Heaven Gate above the clouds has become more and more clear.

More importantly, at this time, Tianmen had already opened the gap.

Through the gap, the mysterious woman can even see the glow behind the gate of heaven!

"It's going to succeed! It's finally going to succeed! As long as you can ask God to go down to earth, Chu Jiangnan? Li Tian? Mysterious woman? Hahaha, you will all die in the hands of the ancestors of our super **** family! At that time, who else can be our super The opponents of the God family? Ancient families? Mysterious races? All die to one side!"

"Our four super **** families will become the masters of the nether world, and our four super **** families can even complete the unprecedented unification of the nether world!" Thinking of this, the corner of Donggong Zhentian's mouth involuntarily tilted upwards, revealing a smile meaning.

Victory is here.

Victory always has a price.

Donggong Qian, Xiu Yuyang, as well as Sanluhong, Baimayi, and even the other four demi-god peak-level powerhouses, the death of these powerhouses is acceptable.

At this time, Sanlu Shangqing and Xiuyu's lonely eyes also flashed with fanaticism.

The thoughts in their hearts are almost the same as those in the East Palace.

The eight demigod peak realm powerhouses were originally used as cannon fodder. These widows participated in the battle of Wanshenshan ten thousand years ago. These Patriarchs believe that they should also have the consciousness of falling for the Super God family in their hearts. .

Besides, the fall is not the end.

For these demigod pinnacle powerhouses, the fall is just another beginning.

Only White Horse King Kong frowned slightly.

After his cultivation level reached a demigod, White Horse King Kong's deduction ability became stronger.

However, what surprised White Horse King Kong was that he had never succeeded in the deduction of this war.

It's not that the Super God Family will definitely fail, but White Horse King Kong has no way to see the future clearly.

Therefore, on the one hand, the opportunist Baima King Kong agreed to join forces with the other three super **** families, and on the other hand, he ordered the widows of the white horse super **** family to avoid conflicts with the Li Tian army as much as possible, even if conflicts must occur, Nor can it completely offend Li Tianjun.

Even Baima King Kong personally wrote a letter with spiritual power and asked his family's widow to give it to Li Tian when necessary.

But just now, there was a glimmer of understanding in White Horse King Kong's heart.

This kind of enlightenment can only be understood and cannot be said.

It was this trace of realization that made Baima King Kong feel that this time their request for God to descend to the earth would not succeed.

Moreover, if you continue to persevere, even one of the four Patriarchs of the Super God Family will fall here.

"The four Patriarchs of the Super God Clan, I am the only one who just broke into the Demigod Realm. Could it be...Is it me who fell? It is entirely possible. Donggong, Sanlu, and Xiuyu, it seems that the three of them are closer together. , If there is any danger, these three guys will definitely push me out without hesitation and let me go to death." Once there is such an idea in his heart, the White Horse King Kong can't help being a little afraid when he is running his spiritual power again, and he The spiritual power on his body couldn't help shaking suddenly at this time.

In the sky, dark clouds that had gradually calmed down suddenly rolled frantically, as if water droplets fell into a boiling oil pan.

Rumble!

Rumble!

The sky is falling continuously.

And on the tumbling black cloud, the heaven gate shook violently.

The Tianmen that had been pushed open the gap was suddenly closed, and even because of the violent shaking, the Tianmen almost disappeared.

"White horse! Did you do it on purpose?" Donggong opened his eyes suddenly, and shouted angrily at White Horse King Kong: "If you fail to ask God to go down this time because of you, don't blame me Donggong. Zhentian turned his face with you!"

Xiuyu was lonely and Sanlu Shangqing also opened his eyes, their eyes swept across the sky, and then fell on the white horse King Kong, their faces also full of anger. Even in the hearts of these

three families, they have already begun to figure out whether to clean up the Li Tianjun regiment, Nether Academy and other mysterious races with the White Horse Super God Family.

"I didn't mean it! It's just... just a moment ago, I seemed to see the picture of our failure, and even... even one of the Patriarchs of our four super ***** families would fall here, so I lost my mind. Will..." White Horse King Kong explained frankly.

However, his explanation did not get the understanding of the other three Patriarchs. Instead, the Patriarchs of the Three Super God Family believed that it was King Kong White Horse who was justifying himself by deducing the future.

"Gradually time, or we might really be too late!"

"Activate your natal power, only in this way can we have a greater victory to take me!"

"Okay, then we will urge our destiny. Compared with eradicating mysterious women, the loss of our destiny is not worth mentioning!"

With that said, the four Patriarchs closed their eyes again, and began to activate their natal powers.

As the natal divine power of the four demi-god patriarchs continued to flow, the great formation beneath them released unprecedented brilliance.

Spiritual power soared into the sky, the clouds in the sky gradually stabilized, and the heavenly gate slowly opened again.

This time, the opening speed of the heavenly gate was obviously much faster than before, and even... the foot of a heavenly ***** was exposed in the gap of the gate that day!

...

The mysterious woman had just gradually calmed down, because the four Patriarchs desperately urged her natal power, making her more anxious again.

The strength of the mysterious woman's cultivation is not weak.

In just a few minutes, she has successively killed two demigod pinnacle powerhouses.

Moreover, just when White Horse King Kong made a mistake, the mysterious woman also beheaded White Horse Yi.

However, this does not seem to have much effect in preventing the display of the God's descending formation.

At this time, the Tianmen opened faster, and she had already seen the foot of the strong man behind the Tianmen.

Since it was a strong man who returned to the Netherworld by inviting the gods to descend from the earth, at least I am afraid that the cultivation level of the invited has reached the quasi-god, which is still extremely dangerous to the current mysterious woman.

"Damn, these guys are really tough!"

"But fortunately, I have already killed three powerhouses in the pinnacle realm of a demigod. As long as I kill one more person, the defense of the Super God family will be completely exposed to my attack!"

"A quasi-artifact-level defensive treasure? Humph, I think how long you can hold on!" the mysterious woman thought.

...

San Luhong at this time was desperate.

A few minutes before the battle began, the four demi-god pinnacle powerhouses, Donggonggan, Baimayi, and Xiuyuyang, had fallen, so that San Luhong resounded the picture ten thousand years ago.

"How long can I hold on?"

"I'm afraid I will die next!"

"I...I...I finally reached the peak of the demigod, how could I easily die here?"

"Rather than die here, it's better to ascend in the day!"

Thinking of this, San Luhong's feet were a little bit underground, and he flew towards the heavenly gate above the clouds!

Chapter 5167: Handsome in three seconds

coward!

Shameless!

Soft egg!

None of the remaining powerhouses of the four super ***** families expected that San Lu Hong, the widow of the San Lu super ***** family who had been famous for tens of thousands of years, would make such a choice.

For a time, all the strong men couldn't help but began to greet all the women of Sanluhong's family, and even Sanluyuan around them was ruthlessly despised.

The mysterious woman was also quite surprised.

"Is this going to ascend by day?"

"Is this afraid of being killed by me?"

"Is this... stupid?"

It's not that the mysterious woman looks down on San Luhong, but when she asks the gods to go down to the earth, San Luhong flies to the gate of heaven in this way. This is a kind of self-seeking death.

You must know that the heavenly gate that appears above the clouds is specially created for the gods who enter the mortal world. It is like a VIP channel that ordinary people cannot pass through, so...

The mysterious woman couldn't help shaking her head, and she had already fixed her gaze on Donggong.

At this moment, thunder suddenly burst above everyone's heads.

boom!

boom!

boom!

Twelve consecutive sky thunders fell from the sky.

San Luhong is a hammer. He will be struck by twelve heavenly thunders before he fly to the clouds, and he will instantly become a scum.

What a sad story.

Feeling the change, Donggong Zhentian and others opened their eyes again, and then they saw the scene they least wanted to see.

"Fuck me, this idiot, don't you know that fighting with the immortal is seeking death?"

"Sanluhong, the bastard, as the widow of the Sanlu Super God family, is still greedy for life and fear of death!"

"It's a pity, if San Luhong didn't seek his own death, perhaps he could still pester the mysterious woman. Now that this one has been killed by the sky thunder, our pressure has increased sharply!"

"Sure enough, all of this is almost the same as the picture I saw in my understanding, who will die next?"

In the sky, above the clouds.

Tianmen is completely clear!

The huge Tianmen has been pushed open more than a foot wide.

The daylight in the Tianmen has passed through the Tianmen, dispersed, and shone on the earth.

In the Tianmen, the **** who had been invited popped out half of his head amused.

"It's the ancestor..., it's the ancestor of my Donggong family!" Dong Gongkun shouted in a trembling voice when he saw the teasing god, with tears in his eyes.

Donggong Zhentian has also seen the funny **** in the Tianmen.

"Really an ancestor!" Donggong Zhentian's arms trembled slightly, and his voice trembled even more severely.

In the ancestral temple of the Donggong Super God family, the ancestor of the Donggong family is dedicated to Donggong's ancestors, and the family has preserved the spiritual portraits of the ancestors in the past dynasties. Therefore, the Tianshen in the sky gate only showed a head, and Donggong shocked Heaven can conclude that that is the ancestor of their Eastern Palace Super God Family.

Donggongxue only showed one foot and half of his head, but the mysterious woman had already judged that this teasing **** was just an afterimage, not Donggongxue's deity.

But what about the afterimage?

The mysterious woman could clearly feel the mighty power released by Donggongshen.

"God-level powerhouse! It really is a god-level powerhouse!"

The mysterious woman's heart trembled.

"I didn't expect that after the Nether Realm self, there will be other god-level powerhouses appearing in the God Realm!"

If the Donggong Super God family invites the gods to go down to the earth, there are really god-level powerhouses entering the Nether Realm, and it is natural to kill the current mysterious woman in seconds.

However, similarly, god-level powerhouses are almost forbidden to go down to the earth. If Donggong Shun really enters the nether world, it is likely to cause changes in the world. The small world of the nether world may even be difficult to withstand the god-level powerhouses. Divine power, the sky and the earth will break, and the entire Netherworld may be destroyed.

This is Tenjo!

Tian Tiao cannot be violated!

The god-level powerhouse can enter any world at will, and the god-level powerhouse can completely destroy these worlds with every gesture. The sky bar is to protect the weakest existence and also to allow the entire universe to function normally.

Ten thousand years ago, the mysterious woman and Father Li Kua were fiercely attacked by hostile forces in the God Realm. Their cultivation level has fallen to the Quasi-God Realm. Only then did they want to escape back to the Nether Realm. Therefore, the Nether Realm did not appear to fall apart. Picture.

"He must be stopped!" the mysterious woman thought in her heart.

Thinking of this, the mysterious woman shook the Heavenly Qiong Spear in her hand, and pointed her spear at the East Palace again!

Hey!

The surging spiritual power gathered by the Qiong Lance of the Sky at this time is like lightning, constantly walking on the Qiong Lance of the Sky.

The powerful divine power contained in the surging spiritual power is enough to kill any strong below the semi-god realm in seconds.

This divine might, if it only looks from the appearance, it does not seem to be much weaker than the heavenly thunder that appears in the sky.

Even the weakest lightning bolt, as long as it can strike the Middle East Palace and shake the sky, then ask the gods to come to the world and end the battle.

The four powerhouses of Donggongkun, Sanluyuan, Baimaer, and Xiuyuyin know that now is the most critical time to decide the victory or defeat, so they also dare not to be negligent. The divine weapon stood in front of their patron.

"Haha, you arrogant woman, if you see it, our ancestors will immediately descend from the sky, and then you will be easily killed by our ancestors, and the **** Li Tian you are protecting, and his Li Tian The legion will be easily beheaded by our ancestors of the Donggong family!" Donggongkun

already has confidence in his heart because of the appearance of the ancestors, plus the Qiankun bag in his hand is enough to resist the mysterious woman's attack, so he seems to be so. fear.

The same thoughts in the hearts of several other demigod peak realm experts.

Now that Donggongshen has appeared, this shows that their ancestors will soon appear from the heavenly gate. At that time, there will be four heavenly gods that are much stronger than the quasi-gods.

At this time, these powerhouses in the semi-god realm were even arrogantly clamoring, 'Who else? Who else can be the opponent of our Super God family? '

The mysterious woman dared not neglect, the murderous intent on her body was full, and the attack became more sharp.

Huh!

Huh!

Huh!

The Heavenly Jade Spear in the mysterious woman's hand has attacked a dozen times in a row in just a few seconds. Each attack is sharper than the previous one. Every attack seems to be able to kill Donggong Kun. Instantly kill.

but.....

"Hahaha, what? Are you so capable? Is the Heavenly Qiong Spear in your hand a fire stick? Can't even our Donggong family's Qiankun bag be broken? Weak...it's too weak...ha Haha!" Donggong Kun laughed wildly.

However, handsome in only three seconds.

His laughter hadn't stopped, when the Qiankun bag in Donggongkun's hand suddenly heard a loud noise.

Quasi-artifact, the Qiankun bag was blasted!

This is not the saddest thing!

At the moment Donggong Kun was taken aback, a red light flashed from behind him!

Chapter 5168: Singled out

This red light appeared so suddenly, and it appeared so sharp!

The other strong men wanted to speak out to remind Donggong Kun.

But they found that the speed of the red light was far beyond their imagination, even if they reminded him, Dong Gong Kun would not have time to escape.

Similarly, Donggong Kun, who is at the pinnacle of the Demigod, does not have eyes behind him, but the murderous aura released by this red light is enough to arouse his vigilance, but...this vigilance came too late when he realized the danger At the time, the red light had already been cut on his back!

Huh!

Donggong Kun wanted to look back and see who this despicable sneak attacker was.

Unfortunately, before he came to turn around, he let out a scream before he could see the person behind him clearly, and his body was instantly split in half!

Blood spurted from his body and splashed all over the floor.

The body that had been cut in half fell to the ground and twitched twice, completely losing its vitality.

"Li Tian? Is it Li Tian?"

"Damn it! Why did Li Tian appear here? Hasn't he gone through the gate of the restricted zone to the earth world?"

"Even if it was a sneak attack, Donggongkun, the demigod pinnacle powerhouse, had no power to fight back and was instantly killed in seconds. This shows how powerful Li Tian is!"

"What a terrible guy, if I and Li Tian go one-on-one, I am afraid I am not his opponent!"

"What should I do now? Li Tian appears, the mysterious woman is so powerful, it seems that there is only a dead end to stay here, should I just give up like this?"

Suddenly, these powerhouses of the four super **** families suddenly felt a little messy.

The mysterious woman looked at Li Tian, her eyes were a little calmer!

If there is no Li Tian, the mysterious woman is confident that she can also kill Donggongkun who has lost the Qiankun bag, but I am afraid it will take some time.

But time is the most important thing for the mysterious woman now.

A smile finally appeared on the corner of the mysterious woman's mouth.

...

As soon as Donggongkun died, only San Luyuan, Xiu Yuyin, and Baima were in charge of protecting the big formation.

If, on paper, there are three powerhouses in the pinnacle realm of demigods, their strength is strong enough, but don't forget that they are now facing mysterious women in the realm of quasi-gods, and the strongest under the realm of quasi-gods. Attacking Li Tian.

And Sanlu, Xiuyu, and Baima, these three demigods need to guard the four Patriarchs. In any case, one Patriarch will be exposed to Li Tian or a mysterious woman's attack, and this one is exposed to the attack. The most likely Patriarch under this situation is Donggong Zhentian.

"Block them for me. Our ancestors have already reached the gate of heaven by half of their body. As long as the ancestors go down for a while, then it will be the death of Li Tian and the mysterious woman!" Donggong Zhentian faced Sanluyuan. Waiting for someone to shout.

However, the words are very easy, but if you really want to block Li Tian and the mysterious woman, it is easy to talk.

"The East Palace is shaking, today is your death date!"

Li Tian's figure has appeared around the big formation. He has clearly seen the ancestors of the Donggong family appearing on the Tianmen, and also knows that these are the four super **** families who are asking the gods to go down.

It is clear at a glance who the four super **** families ask the gods to deal with.

As soon as Li Tian's voice fell, his figure appeared next to Donggong Zhentian in a flash, Hong Zhan instantly cut a red light from his body, and went straight to the Donggong Zhentian!

Donggong Zhentian now has only two choices, either he immediately gives up 'please go down to the world', or accepts Li Tian's full blow.

White Horse King Kong couldn't help but let out a slight sigh, and couldn't help but some comfort in his heart.

Li Tian and the mysterious woman were all attacking the East Palace Shaking the sky, so the Patriarch who was beheaded in his Ming Wu should be Dong Gong Shaking the sky.

A dead dao friend does not die a poor dao, this kind of truth remains unchanged.

White Horse King Kong felt that the situation was over.

If... Donggong Zhentian is really beheaded, King Kong White Horse will not hesitate to put away the Patriarch's token, and instantly escape from Wanshen Mountain.

Huh!

The red light cut by Hong Zhan passed with a powerful aura, and it seemed that the surrounding air had solidified at this moment.

At the moment of crisis, Donggong Zhentian raised his head and shouted at the Tianmen in the sky: "Ancestors save me!"

Hum!

This help saved the life of Donggong Zhentian.

In the sky, Donggongshen, the ancestor of the Donggong Super God family, has not completely emerged from the Tianmen, but at this moment, one of his arms rushed out from the Tianmen.

Hearing the sound of Donggong's trembling for help, Donggongshen burst out a flash of light. .

This spiritual light descended from the sky, and instantly appeared in front of the red sword that slashed towards the east palace and shook the sky.

boom!

With a loud noise, the red light released by Li Tian was shattered by this spiritual light.

The red light was shattered, but the spiritual power released by Donggong Amnesty did not completely dissipate.

That spiritual power actually seemed to have life, and flew towards Li Tian.

Strong breath, powerful murderous intent.

Li Tian could feel that even if it was this residual spiritual power, as long as it hit Li Tian, Li Tian felt that he would definitely be injured.

"What a terrible guy, what a powerful strength! Is this the powerhouse of the Quasi-God Realm?"

Li Tian's heart couldn't help but tremble, but he did not flinch.

What about quasi gods?

But you haven't completely come out of the heavenly gate, if only half of the body's attack makes me Li Tian feel scared, then how can I rush to the Quasi-God realm after Li Tian?

The corner of Li Tian's mouth was slightly tilted upwards, and the red cut within his body instantly shot out more than a dozen red lights.

Without exception, these red lights were all cut on the residual spiritual power released by Donggong Amnesty.

boom!

boom!

boom!

The constant explosion sound exploded on the red light and residual spiritual power.

The violent explosion even burst the energy of the surrounding air.

More than a dozen consecutive attacks resolved the inspiration of Donggong's pardon.

Donggong Zhentian finally breathed a sigh of relief!

The ancestor Donggong pardoned half of his body from the Tianmen, and then he could break Li Tian's attack with a single finger, and even attack Li Tian. Donggong Zhentian felt that they had no problems at all, as long as they could hold on for a few more minutes, When the ancestors descended to earth, that would be the end of the mysterious woman and Li Tian.

A smile appeared on the corner of Donggong Zhentian's mouth.

"Quasi-God? Let me also feel the power of Quasi-God Realm first!" Li Tian Yangtian smiled.

In the face of Donggong's pardon, Li Tian did not give in the slightest, his feet lightly touched the ground, and his body instantly appeared several hundred meters in the sky.

"What is this guy doing? Is it going to ascend by day?"

"Idiot, it's just the pinnacle realm of the demigod, who dares to provoke the quasi-god, isn't this seeking death?"

No matter what these powerhouses of the Super God Family think, Li Tian's Red Slash has once again cut more than a dozen red lights. The difference is that this time, Li Tian's Red Slash is to cut to the East Palace!

Huh!

Huh!

Chapter 5169: Blue Dragon Reappears

Suddenly, there was a feeling of moths in the heart of the mysterious woman.

At this time, Li Tian's cultivation realm had reached the peak of a demigod. In addition to possessing the artifact Red Slash, Li Tian could definitely be regarded as the strongest under Quasi-God.

But what can this be?

The strongest under Quasi-God will never be the opponent of Quasi-God.

What's more, Donggong Pardon is a quasi-god from the God Realm. Even if only half of her body is exposed, the mysterious woman can still feel the power of Donggong Pardon, and she can also know that if Donggong Pardon descends to the world, she and Li Tian will suffer in the end. .

For the courage shown by Li Tian, the mysterious woman deserves respect, but the mysterious woman knows that it is impossible for Li Tian to win.

Even, because of Li Tian's idiotic behavior, it will also affect his destruction of this 'please send God' formation.

Because, if Li Tian could not stop the attack of Donggong's pardon, then she, the quasi-god, would definitely not be able to sit idly by. Then she might also participate in the battle against Donggong's pardon. Zhentian and the other four Patriarchs can continue to finish it unscrupulously. '

Huh!

Huh!

Huh!

The red light that Li Tianhong chopped out chopped through the clouds, like a precision-guided missile, accurately slicing to the East Palace.

At the gate of heaven, Donggong's face was full of mockery!

"Hahaha, the little trash that has always been like a fly, dare to challenge the dignified gods, really overwhelming!" Donggongshen sneered.

Following Donggongshan's sneer, he slowly raised his arm again, and slashed his fingers against the red light released by Li Tian.

Donggongshen did not rush, his movements seemed very slow, as if it were slow motion, and it seemed to be a slow-motion replay... ahem, but Donggongshen's counterattack was so fast. When he sneered, his fingers The aura ejected from the top had instantly broken the red light that Li Tian had cut out.

Then, the momentum blasted towards Li Tian again.

Li Tian's figure dodged in midair continuously, slashing back continuously while dodge.

boom!

boom!

boom!

The constant blast sounded in the sky, even though Li Tian looked embarrassed under Donggong's counterattack, but Li Tian's face was always smiling.

This is confidence!

I really don't know where this fool's confidence comes from.

This is Donggong Zhentian's true thoughts.

Now, more than half of Donggong's body has come out of the heavenly gate. The mysterious woman wants to attack Donggong and shakes the sky. Donggong's has a way to stop it. As time goes by, the victory of Libra has gradually tilted towards the four super **** families. Donggong Zhentian really didn't understand why Li Tian could still laugh.

"What an idiot, you will cry soon!" Donggong Zhentian sneered in his heart.

...

At this time, the mysterious woman's heart really had 100,000 alpacas crashing past.

She felt that Li Tian was really wasting an excellent opportunity!

If... If Li Tian didn't attack and kill Donggong Kun in a sneak attack, but instead smashed Donggong to shake the sky, perhaps the battle at this time had already ended.

But now?

With the existence of Donggongxue, a guy whose cultivation level has at least reached the pinnacle of Quasi-God, the mysterious woman felt that she was bound everywhere.

Want to kill Donggong Zhentian?

That's not easy said than done.

Even if Donggongshen is attacking Li Tian, Donggongshen also has sufficient strength to protect Donggong's safety.

But... if you don't kill the East Palace Shaking the sky, but deal with other super **** family patriarchs, the mysterious woman also feels that it is impossible in a short time.

The hands of Sanluyuan, Baima Er, and Xiu Yuyin are all possessing quasi-god-class defensive artifacts. Mysterious women want to kill their patrons. First, they must destroy the quasi-sacred tools in their hands and then behead them. Just like now, face their Patriarch directly.

Therefore, the main goal of the mysterious woman is still the East Palace shaking the sky!

Whoosh!

Whoosh!

Whoosh!

The figure of the mysterious woman kept flickering in front of Donggong Zhentian.

The Heavenly Qiong Spear in her hand is constantly piercing the East Palace to shake the sky, but every time the mysterious woman returns without success.

"Hahaha, how come you only have such a little strength? You are a powerhouse in the Quasi-God realm! I am sitting in front of you now, you are here to kill me!"

"Hey, it's a little bit worse. If you can stab me a little bit further, you might hurt me, but you are a stab..."

"The time left for you is running out. You see, our ancestors of the Eastern Palace Super God family are still in the Tianmen with only the last leg left. After a while, the ancestors of our Eastern Palace Super God family will completely pass from the Tianmen. Come out inside, when you say, how should I deal with you?"

"Hey, or you will get it from me. Anyway, I have never played a quasi ***** level woman. If you are comfortable with me, I will let my ancestors spare you not to die..."

"Why are you still angry? You know, you are the enemy who killed hundreds of our four super ***** family powerhouses. Even if you die, you will not be enough to make up for the sins you committed!"

"Come on, come on, come and kill me! Come and stab me! I'm getting a little impatient to wait!"

Donggong Zhentian, the bitch, is constantly provoking the mysterious woman, and in this way it is also disturbing the mysterious woman's thoughts.

Xiuyu was lonely, and Sanlu Shangqing's face showed an imperceptible smile at the same time.

"Yes, just continue like this. As long as the mysterious woman is attracted by the East Palace, she will have no time to take care of us!"

"The ancestors of the Eastern Palace Super God Family are coming out soon, and we can finally breathe a sigh of relief."

"The ancestors of our four super ***** families, as long as they can invite one to descend, it is enough to deal with the mysterious woman and Li Tianjun..."

At this time, the two Patriarchs seemed to have seen the dawn of victory, and even the Sanluyuan and Xiuyin who protected them couldn't help but relax slightly.

White Horse King Kong felt a little difficult to understand.

"Is there a mistake in my calculation?"

His understanding is clearly not the end.

However, now that Li Tian idiot is entangled by the Donggong pardon, he has changed from active attack to passive defense, and there is no possibility of getting out.

And the mysterious woman's continuous attacks were blocked by the Donggong Amnesty God. It seemed that it was completely impossible to win the Donggong Shaking the sky first.

King White Horse frowned involuntarily.

His heart is contradictory, his heart is tangled, and his heart is suffering.

Earlier, during the time of 'please go down to the world', King Kong White Horse had already made a mistake. If he made another mistake, then the other three super ***** families would certainly not let him go.

Thinking of this, King Kong White Horse couldn't help shaking his head.

"Now I can only watch..."

Just thinking of this, King Kong White Horse's eyes showed a hint of surprise involuntarily, staring into the sky dumbfounded, and said in surprise: "Li...Li Tian, this guy...My understanding is right... Then I die. Who will it be?"

Chapter 5170: Time is running out

In the sky, the clouds are rolling.

On the clouds, the sky gate shone brightly.

Above the sky gate, a huge prehistoric blue dragon unexpectedly appeared.

"This...this is..."

Everyone was shocked by the sudden appearance of the great blue dragon.

There is no way not to be shocked.

You know, at this time, the dragon power released from this wild blue dragon is also of the Quasi-God level.

"A quasi-god-level primordial blue dragon?"

"How did he do that?"

"Now...will it affect the result?"

The patriarchs of the four super **** families looked up at the sky at the same time, their faces full of shock.

The appearance of the great blue dragon immediately alarmed Donggong's pardon!

Donggongshen, the quasi-god from the realm of God's eyes, was no less shocked than anyone else.

"How is it possible? Why does a prehistoric blue dragon appear in the Underworld?"

"No, this great blue dragon is the same as me now, it's just a condensed spiritual power..."

"Could it...could it be that this guy in front of me condensed it with spiritual power?"

"Hahaha, the little fly in the pinnacle state of the demigod can actually condense the prehistoric blue dragon of the quasi-god state, I really underestimate him!"

"However, how can this be so? Today, I will see how I slay this prehistoric dragon!"

In an instant, the focus of Donggong's attack shifted from Li Tian to Honghuang Qinglong.

boom!

boom!

boom!

This time, Donggongxue's momentum suddenly increased.

A sneer appeared at the corner of Li Tian's mouth.

Everyone thought that Li Tian was an idiot, but Li Tian knew very well in his heart that he just wanted to fight the quasi-god-level powerhouse, knowing the true strength of the quasi-god-level powerhouse, and by the way, let everyone's attention Attracted to him.

Only in this way can he create better opportunities for mysterious women.

It's just a pity that the mysterious woman, the quasi-god, does not seem to be Donggongshen's opponent, and her continuous attacks have failed to break Donggongshen's defense against the movement.

Fortunately, Li Tian has the assassin of Hong Huang Qinglong.

With the emergence of the wild blue dragon, most of Donggong's attention has been focused on the wild blue dragon.

However, the price Li Tian paid for this was that he swallowed a Quasi-God Crystal.

But how can this be?

The side effects of the Quasi-God Crystal on the body Li Tian can now bear.

"good chance!"

The corner of Li Tian's mouth was slightly upward.

With the Great Blue Dragon, Li Tian can already get out to deal with other Patriarchs.

Donggong is shaking the sky?

Sanlv Shangqing?

Repairing fish is lonely?

Or White Horse King Kong?

Li Tian turned around in midair, turned and attacked the East Palace shaking the sky.

Li Tian descended from the sky, like a flying fairy from the sky.

The spiritual power on his body is constantly improving, and the surging spiritual power is constantly burning on his body.

The powerful murderous aura was released from Li Tian's body and pressed against the east palace from the sky to shake the sky.

"It's not so close..."

"It's not so close..."

Donggong Zhentian has been waiting for the ancestor Donggongxie to come out of the Tianmen completely, but...now that Donggongxie's foot is still in the Tianmen.

"Deserve to die, am I going to die here?"

Donggong Zhentian's face showed a trace of panic, a trace of panic, a trace of fear.

Li Tian is getting closer, Donggong Zhentian feels that Li Tian, this guy is like a ***** of death, has locked him.

At the critical juncture, Donggong Zhentian once again shouted to the sky: "Ancestors save me!"

Hum!

Suddenly, a powerful spiritual force spread out from the sky to the surroundings.

At the very moment, the **** of Donggong Xie finally walked out of the gate.

"Who dares to hurt my descendants?"

The sound of thunder rolling from the sky came down.

Donggongshen's heart moved.

Whoosh!

A divine thought was in front of Donggong Zhentian, forming a golden light curtain of spiritual power and blocking it in front of Donggong Zhentian.

"It succeeded! Haha, we finally succeeded!"

"Go down, we finally did it!"

"Now that the ancestors of my Eastern Palace Super God Family are here, who else can kill me?"

There was a trace of ecstasy on Donggong Zhentian's face, and he couldn't help laughing wildly.

The mysterious woman only felt her body tremble, and her heart instantly fell to the bottom.

Quasi-God-level peak powerhouses have appeared, and it has become completely impossible to kill Donggong Zhentian.

Even if he turns around to deal with other Patriarchs now, I am afraid it is already in no hurry.

The Donggong pardon has already dealt with the prehistoric Qinglong with all its strength.

The prehistoric blue dragon that was so powerful that it seemed so embarrassed in front of the quasi-god-level peak realm powerhouse of Donggong Xie.

Ouch!

Ouch!

The Honghuang Qinglong screamed this.

After just a few encounters, the dragon scales on the prehistoric blue dragon formed by the condensed spiritual power were bombarded by less than half.

Although these are just condensed by spiritual power, it looks miserable and miserable.

More importantly, at this time, the figure of the Great Blue Dragon was constantly flapping, and it seemed that it might be bombarded and killed at any time.

The Tianmen was still pushing open. After Donggongshen appeared, the ancestor of the Sanlu Super God family also showed half of his head, looking down at the ground thinking.

How to do?

Wouldn't it be impossible to just accept this reality?

Do not!

The mysterious woman knows that things are still turning around.

As long as she can join forces with Honghuang Qinglong to temporarily withstand Donggong's attack and let Li Tian pull out to deal with Donggong Zhentian, then they will still have a chance.

The mysterious woman hesitated for a while, her figure flashed, and instantly rushed into the sky, and joined the battle between Donggong She and Honghuang Qinglong.

...

Cang!

Cang!

Cang!

The dozens of red lights released from the red cut inside Li Tian's body all slashed towards Donggong Zhentian, but... these red lights were all blocked by the spiritual mask outside Donggong Zhentian's body. Resisted, Li Tian's sneak attack returned without success this time.

"Hahaha, Li Tian, this is the spiritual defense of a quasi-god-level powerhouse, and even your three-legged cat's cultivation also wants to kill me, go dream!"

As Donggong pardon was asked to leave the gate, Donggong Zhentian became more and more proud.

Although the mysterious woman and Honghuang Qinglong went to deal with Donggong's pardon, Donggong Zhentian knew very well that the mysterious woman and Honghuang Qinglong were not the opponents of Donggong's pardon at all.

The mysterious woman was beheaded, it was only a matter of time.

Whoosh!

Li Tian fell on the ground, his eyes quickly swept across the large array of "please go down to the earth," his mind was running and analyzing rapidly.

Donggong Zhentian has a protective cover, but Sanlu Shangqing, White Horse King Kong, and Xiuyu are lonely!

Do they have the guardian of the demigod peak realm?

Can this be so?

Li Tian beheaded the demigod pinnacle realm powerhouse.

It is necessary to make a quick battle and kill a demigod peak realm powerhouse who is responsible for the defense at the fastest speed, and then ***** one of the Patriarchs before the East Palace Pardons God!

Li Tian's sight instantly locked the loneliness of Xiuyu, "The loneliness of Xiuyu! The hatred of the Sea-Monster tribe being attacked should also be counted! Today next year will be your anniversary of death!"
