

A Killer 5241

Chapter 5241: Unable to teach

At this time, Li Tian also had a dumbfounded look. Although he had promised Lord Cang before, he would still be a little at a loss when things really came to this movie.

There are too many things that have happened to him, and he has achieved this kind of achievement now, and it is entirely due to various chances and coincidences that he can get to where he is now, but it is really difficult for him to teach him how to cultivate Shuang'er. Up.

Shuang'er looked at Li Tian seriously and naturally saw the unnatural expression on this guy's face: "Aren't you, don't you want to teach me?"

"You can't say that. I never said that I don't want to teach you." Li Tian shrugged his shoulders, looked at Shuang'er seriously, and said word by word: "It's just that I'm almost different down the road. It's a coincidence. Even I don't know how to teach you everything I know. If you really want to learn the way of cultivation, I'm not a suitable teacher, but you can Help on this road. After we return to Luoyang City this time, I will find a way to find a teacher for you."

"Hmph, it seems that Grandpa really read you wrong. You are a greedy villain. The reason you agreed to Grandpa's request was only to get these entanglements from his hands." Shuang'er kept her hands on her hips, back and forth. A few steps later, he looked at Li Tian hostilely: "I knew when I left the town, what kind of guy you are. Now it seems that my previous views are completely correct. Grandpa would believe you. Such a shameless person is simply..."

"What is it?" Li Tian was already full of black lines. At this time, he looked at this young girl with a very cold eyes, and his tone was very bad: "Are you saying that he is blind so he will entrust you to me? "

The appearance of Li Tian really frightened Shuang'er. At this time, he looked at this guy silly and didn't know what to say.

"If it hadn't been promised to Lord Cang before, I would have thrown you in this place where birds don't shit, and let you survive on your own. I would really like to know how a lady like you lives alone. Go down." He looked at Shuang'er and said coldly: "The reason I promised Master Cang to take care of you is because Master Cang saved me before, and I want to give him back, but now I can't do anything, so I Just let you follow me and protect you, but if you think I am out of interest, then I can entangle you and send you to Luoyang City. I want to see if you can be in Luoyang City. How long will it last?"

"You just don't want to help me. You are arguing. You are obviously a practitioner. Why can't you teach me to practice? The murderer is still drinking hot in Luoyang City, but you are here for your own affairs. Everyone in the town, are you going to die in vain?" Shuang'er didn't know where the courage came from, crying and shouting hysterically: "Why do I know a demon like you, why do you want Torture me like this."

"The people in the small town have nothing to do with me. I don't know their death. If I knew I would never leave. I always do things one person and one person. I will not let others do anything for me. "Li Tian was also ignited in his heart. Everyone gave everything for themselves along the way, but he did nothing. There was a wound in his heart that could never heal.

At this time, Shuang'er was accused of doing this, and the wound was completely torn.

A strong aura enveloped Shuang'er, and even the entire cave began to tremble, as if it was about to collapse next.

Shuang'er felt the pressure on her shoulders, as if a force was pressing on her shoulders, making her a little bit, wanting to kneel on the ground.

But in an instant, this pressure disappeared instantly.

"Everyone has their own choices. We cannot change, nor can we change. The only thing we can do is to make up for the regrets in our hearts as much as possible, instead of using the chance they have finally exchanged for meaningless struggles. "Li Tian sighed a long sigh, and sat down, leaning against the stone wall, and said tiredly: "Master Cang wants me to survive, wants me to be a **** emperor, wants me to protect you, so I These things must be done in order to be worthy of him. With my current strength, even if I find Lu Xiu, I'm just trying to kill myself. Do you think Lord Cang wants to see me like this? For revenge, nothing Wasted this opportunity that he finally bought?"

Shuang'er is not a fool, and she also knows what's going on, but she has been unwilling to accept it. Those uncles and aunts who got along day and night, and grandpa who depended on each other for their lives, just left.

"There will always be all kinds of unsatisfactory things in life. If just one thing will make you lose yourself, then you can only give up halfway along this road." Li Tian looked at her with a kind tone. Many: "Besides, my exercises are not suitable for you. Even if I teach you, it may not be able to help you. There are many big sects in the God Realm. We might as well worship under those big sects. There will naturally be many. The method becomes more powerful, I will remember the hatred of Lord Cang, and one day I will avenge it."

"really?"

"Really, but before that we need to survive. I don't want Master Cang to finally rescue us, but we lost our lives in vain because of our obsession. You have to lose your opinion of me, we two We must help each other in order to survive better." Li Tian grabbed Shuang'er's shoulder and looked at her with piercing eyes: "I know this may be difficult for you. You can continue to hate me psychologically. , But in front of many people you have to put away this kind of thinking."

"I will kill Lu Xiu myself."

"I can help you." Li Tian said.

Shuang'er slowly eased, wiped the tears from the corners of her eyes, and looked at Li Tian: "I will make you pay the price someday."

"Hehe, I hope that day can come sooner, it will also prove that you have become strong enough, I have not let down the trust of Lord Cang to me, this is probably the most reassuring thing for me." Li Tian sighed and sighed sincerely.

Shuang'er hummed and did not continue to talk about this matter.

After stabilizing the girl, Li Tian got up and went outside to collect firewood.

Chapter 5242: Night Wolf

The situation in the Broken Cloud Mountain Range is almost the same as Li Tian imagined. At night, many of the beasts that were active during the day began to stabilize, and then the fierce beasts that only appeared at night appeared. These creatures are powerful. There are weak, but the most famous of them is a creature called the night wolf.

The level of this kind of beast is about 25. It is a very weak single body, but a very terrifying group attack.

The night wolf also lives in the Broken Cloud Mountain Range, but this kind of creature rarely appears within the range that Li Tian is currently in.

After collecting some dry firewood nearby, he found that the sky had dimmed and he didn't dare to continue to delay too long in this mountain forest at the moment. He was a little worried about leaving Shuang'er alone in that cave, even if it was. Some restrictions have been set up near that and it will still be like this.

After arriving in the cave, Li Tian found out that she was asleep.

Sitting down on one side, he took out the dry food that Lord Cang brought him and ate two mouthfuls, barely filling his stomach, leaning weakly against the wall, looking at the top of the cave with dull eyes, and there were many thoughts in his mind.

"Something is approaching." Shuang'er's voice suddenly came from her ear. She didn't know when she woke up. At this time, tears were faintly visible on her face, but her mood improved a lot, and it seemed that she was almost slowly. After thinking about it clearly, there are some things that Li Tian can't decide. There are very few things he can do, just doing his best.

"The only thing close to us now is Warcraft." Li Tian snorted coldly. He just felt that the dry food didn't feel anything at all. Now there are Warcrafts who take the initiative to deliver them to the door. This is a good appetizer.

"Most of the beasts that act at night have very powerful combat effectiveness, and their hiding ability is definitely not inferior to the average beasts. They shouldn't touch your restrictions." Shuang'er does not have the optimistic idea of Li Tian. You must know night operations. All of the monsters are cautious, they are natural ambushers, they can easily kill any enemy in front of them, but how could they accidentally step on Li Tian's restriction? Unless they are not worried at all and alarm their prey.

What Shuang'er said was not unreasonable. She spent much longer in the God Realm than Li Tian, and of course she knew more about it than Li Tian.

Seeing her seriousness, Li Tian didn't follow her seriously.

If it is really a monster that is not in this range, then it is really not that simple to deal with it.

"Oh~"

There was a long roar from outside the cave, and Li Tian and Shuang'er's expressions all solidified. They were worried about the appearance of the night wolf long ago, but they really didn't think about this kind of beast that is not very common in Broken Cloud Mountain. It will really appear in their sight, night wolves such as creatures will move here, but more often the scope of their activities is in the environment closer to the Broken Cloud Mountain Range, and no one would have thought they would see them here. Night wolf, this was unexpected.

"You stay here and don't move." Li Tian made a decisive decision. He must fight these night wolves, and if he wants to survive, he must fight.

"You can't deal with those creatures alone. Although the individual night wolves are weak, they are all attacking in groups. This time there must be a lot of them. How can you deal with a pack of wolves alone?" Shuang'er looked at Although he was hated before, and even hated the man in front of him, as time went by, she had actually figured out a lot of problems herself, but she was still unwilling to accept it. At this time, she saw Li Tian preparing for one. When people face these night wolves, they also become nervous now.

And Li Tian smiled slightly.

"I was born to fight, not to mention that we are probably surrounded by these beasts now. If we don't fight, we can only passively die here. Are you planning to delay them for a while by relying on my restraining spells? ?"

Maybe those restrictions can prevent the night wolves from breaking through their defenses in a short period of time, but it is only in a short period of time. Since these creatures are out hunting, they will certainly not give up easily. They will go after them. , Broke through the prohibition very madly, and then trapped Li Tian in this cave and swallowed it.

At that time, their situation will be even worse.

"but....."

"You have never only seen me in a real fight. Let me show you today." Li Tian squinted his eyes and slowly raised his right hand, a touch of red blood-like energy began to be on him. Underneath his wrist is flowing, really like blood, but the pure feeling of energy and the state of flow can be clearly seen. This is not some blood, but a very pure energy, which is slowly condensing at this time. To form a unique metal.

Ascending to the God Realm, this was also the first time Li Tian showed his strength.

Even when facing Zhang Yang before, he only used part of his combat power. Under such circumstances, he would definitely not be able to surrender all his life-saving skills, so it was just a small fight.

Otherwise, with his strength, Zhang Yang can be easily killed in seconds.

Thinking of this, he even regretted being so indecisive before. He knew that this publicity would cause so much trouble to him. At that time, Li Tian should directly use his strongest state to kill the idiot instantly, and there would be no aftermath. Of these things happened.

"I have never felt this kind of feeling before, and it seems that my body has undergone tremendous changes after reaching the God Realm." Li Tian closed his eyes, and at this time, he really calmed down, feeling inside himself. The change in power is like a metamorphosis. The previous abilities have completely disappeared, but they have turned into the immortal power in the mouths of these powerhouses in the God Realm, and they are extremely pure. The realm is also suitable for this and has a strong connection.

And the great blue dragon in his body finally woke up at this time, and a ray of spiritual thought passed into Li Tian's mind: 'I feel the changes in the body, are we now in the ***** realm? '

‘Yes, we are in the **** realm now, and I’m in trouble now and need your help.’

‘Hmph, I see, let me see how powerful these monsters in the gods really are.’

"Honghuang Qinglong said disdainfully.

Chapter 5243: Full-form armed

While talking, the first night wolf had already appeared at the entrance of the cave.

It was a monster with white hair, blood-red eyes and pointed fangs. It was surrounded by a deep and cold breath, which made people feel as if their body was about to be frozen when they got closer.

Li Tian looked at it, but didn't make any movements.

He was feeling this physical change. He hadn't really demonstrated his strength when he ascended to the God Realm. It was only when he fully demonstrated it now that he had made such a big change when he ascended to the God Realm. He had to adapt. It will take a while.

The energy on his right wrist had slowly condensed successfully at this time, it was a very strange looking metal sword, it was Red Slash.

Holding this weapon again, Li Tian also felt that the whole person seemed to have returned to the state it used to be. An unmatched aura burst from its body instantly, and the original long black hair began to change at this time. Turned into silver hair, the deep black eyes are like a whirlpool, shining with a faint golden light, a pair of scarlet feather blades blooming behind him, making his body look taller and mighty. The dark red armor is like Shura from hell.

It was the first time that Shuang'er saw Li Tian's appearance, and he was not stunned.

He originally thought that Li Tian would fight in the same way as ordinary gods, but he did not expect that Li Tian in his peak state would look like this. Although he is still three-star strength in the gods, his aura can be The source is beyond this point.

The white night wolf was also looking at Li Tian with his cold eyes. When this monster came to hunt for food, he probably didn't expect to meet a human, let alone the human with weak energy in the original induction. It would show such a terrifying aura.

But it is the king of a race after all, of course it will not be afraid.

With a howl of a wolf, you can see that countless red beast pupils light up in the dark night. There is no emotion in those beast pupils, and they stare at Li Tian like a dead person.

The battle is about to start.

"Although the battle is still like last night, these are a little strange to me." Li Tian shook the red cut in his hand, feeling the surging power, and said to himself: "You stay here for thousands of years. Don't run around, I will keep it outside."

"I want to fight with you." Shuang'er stood up and said unswervingly: "If you die, I will definitely only have a dead end, instead of entrusting my destiny to you here. It would be better for me to join this battle and use my own strength to fight for survival."

"Are you sure? You can stay here safe, but if you want to participate in this battle, you may die miserably. After all, there are so many night wolves, I can't guarantee that you can protect them during the battle. You." Although Li Tian should be no different at this time, wearing a red-winged

**** costume, he will exude a natural king aura, and Shuang'er has already begun to feel a little afraid to face straight. Looking at the man in front of her, she didn't even know why she was afraid of the man in front of her.

But after hearing Li Tian's question, she still responded without hesitation: "For me, it doesn't matter."

"But I promised Master Cang to protect you well, so I must do it. You can't take part in this battle, and I promise that we will never let us die here." Li Tian's tone is beyond doubt, just now. But it was just a small joke with Shuang'er: "I know this is very unfair to you, but since Lord Cang taught you to my side and asked me to take care of you, I will be responsible for these things, absolutely I can't let you have any problems."

"but....."

"No, but you are just a woman who has no power to bind a chicken. Even if you are facing a weak night wolf, it is a very difficult existence for you. Do you think I will let you Are you taking risks in this kind of thing?" Li Tian smiled, then turned around and looked at the white wolf king: "I have long wanted to have a hearty battle. I hope that these beasts today can satisfy my needs. Wish."

Hong Zhan began to make a crisp sound, and Li Tian could feel it. This was a desire for battle.

Leaving Shuang'er in the cave, he held Hong Zhan in his right hand, and kicked his feet on the ground, only to hear a bang, and all the stone fragments on the ground flew out, and Li Tian's The figure was like a cannonball, and he sprinted out quickly.

A dignified look flashed in the eyes of the White Wolf King's beast, and a white air mass condensed from his mouth, which quickly shot towards Li Tian.

One energy group and one energy group collided in the air.

But there was no response.

The energy group was as fragile as a piece of paper in front of Hong Zhan, and it was directly cut open easily, then skipped Li Tian's figure, and directly hit the ridge behind it without the slightest sound.

Li Tianfu was in the air, holding a sword in one hand, looking at the monsters below, the corners of his mouth raised slightly: "Come on, let me see what kind of creatures are like tarsal maggots in the rumored night wolf, your group? How scared is in the attack, come on, let me see."

In the night, he was like a blood-red lantern floating high in the air, and underneath were the night wolves that were engrossed.

They all stared at the human in front of them, thinking about how to knock down the human floating in the air.

The White Wolf King stepped back, his forelegs bent slightly, and then he let out a howling sound, which soon spread throughout the forest, and then, more and more blood-red beast pupils appeared in Li Tian In his line of sight, just the naked eye can tell that this number is almost hundreds of night wolves, even if the individual abilities are really weak, if so many night wolves attack together, the combat effectiveness can be imagined.

The Broken Cloud Mountain Range is indeed vast, but a group with so many night wolves should almost be able to walk sideways here.

Why would such a group come here?

‘Why are such powerful night wolves appearing here, and there is also a white wolf king, they should have hunted in the central area of Broken Cloud Mountain. Li Tian subconsciously doubted whether this was a ghost by Shimada Muren, because these monsters appeared here, which is really surprising.

But this thought didn't last long in his mind.

Chapter 5244: Fight alone

If Shimada Muren can really control these night wolves, there is no need to wait for the opportunity, and he can directly control these night wolves to fight Li Tian.

You must know that the combat power that so many night wolves exert is beyond the ordinary spiritual cultivation.

However, night wolves have always been difficult to control. It is said that there are some tribes in the God Realm who have a kind of animal trainer. They are good at communicating with these creatures between heaven and earth, and they usually raise a kind of beast from an early age. Then use these monsters to defeat the kings of some communities, so that you can indirectly control some of the monsters.

Such things are not without, but very rare.

Obviously Shimada Muren must have no such ability, otherwise this guy would have been eager to do it.

With more and more night wolves, Li Tian's pressure began to increase.

With so many night wolves, he might not be able to kill them all night even with the red behead in his hand. What made him even more suspicious was why so many night wolves appeared here.

'call'

A white hockey puck rushed in, and Li Tian turned his head and dodged easily.

But then, he saw a dense array of hockey pucks.

These night wolves on the ground are now opening their mouths to condense energy balls. These energy ***** directly condense into ice ***** when they come into contact with the air. The temperature on them is very low, and when they are far away I can feel that a chill is constantly eroding my body.

These densely packed ice ***** fell towards Li Tian like raindrops from the sky.

His expression slowly solidified, and the red sword in his hand let out a soft moan. The immortal power in his body was also fully mobilized at this time. As said before, the number of these beasts has exceeded half. Even Li Tian doesn't know how long he can stay here, or if he can defeat these night wolves. The only thing he can hope now is to make the movement as large as possible. Get the attention of others.

The two of them don't have much money, and they seem to be ordinary practitioners.

Even if someone really came over, they wouldn't want to get anything from them.

And there is a huge pack of night wolves in front of them. If someone comes here, Li Tian can also let them help him break down a lot of pressure. After all, with so many night wolves, their food intake is also very large, only Shuang Er and Li Tian are definitely not enough for them.

After figuring this out, Li Tian's next move was shocking and weeping, trying to get as many people as possible to notice the situation here.

‘Boom Rumble’

Hong Zhan fell immediately, and slashed directly on the ground with an incomparable aura. The powerful sword aura caused the entire ground to crack and the gravel splashed. I don't know how many night wolves died in this sword, bright red blood. Flowing out, mixed in the soil, it looks very eye-catching.

The White Wolf King just directed the night wolf under him to continuously launch spell attacks on Li Tian.

This human being has always been high in the air, because he knows that once he falls on the ground and fights with these wild wolves, there is almost no chance of winning. These wild wolves have sharp teeth and sharp claws. Once on the ground, It didn't take long for Li Tian to lose the battle.

Therefore, at this critical time, Li Tian chose to fight in the sky.

With the advantage of being able to fly, it weakens the fighting power of the night wolves little by little.

Red Slash's sword aura raged on the ground, and some night wolves who could not dodge were killed directly in this powerful sword aura. There was no need to consider whether they could survive or not. It was impossible to rely on the very fragile night wolf. With the strength of his body forcibly eating such a powerful impact, Li Tian is also able to fight these night wolves so easily after seeing through this. He believes that with this sword and sword, there will be countless The night wolf died in his own hands.

Although it lasted only a few minutes, the loss of the night wolf pack at this time has made the White Wolf King unable to continue to calm down.

The human in front of him looked more witty than he seemed. He knew very well what his strengths were and what the weaknesses of the night wolves were.

Ice hockey offenses are becoming more frequent and denser.

Even Li Tian, who was able to cope well before, is beginning to feel a little overwhelmed. After all, he is just a person, but under his feet there are hundreds of night wolves attacking him at the same time, and the feather blade behind him incites and leads A whirlwind wants to completely break the puck in front of him.

But Li Tian failed.

After a few minutes of fighting, his consumption is not small at all. On the one hand, he has to keep himself flying in the air, and he has to constantly cut out his sword energy to kill the night wolves below. This kind of battle is for Li Tian. It was a huge consumption, and the body hadn't really fully recovered before, and at this time I already felt some sleepiness.

He watched an ice hockey puck on his shoulder, but there was nothing to do.

The moment the ice hockey touched Li Tian, it was like an octopus, completely stuck to his body, and with the bone-to-heart chill, it directly invaded Li Tian's body. Feeling this chilly cold, Li Tian almost fainted directly.

Soon, the densely packed hockey pucks almost all fell on him.

Li Tian's body began to become stiff, and the power on these ice **** was far less terrible than imagined. That's because the creatures like night wolves don't rely on spells to survive. Their ice **** are like a buff. Once applied to the enemy, it will slow down the enemy's movements. This is obviously the deadliest in front of the agile and sharp night wolf. By weakening the enemy's combat effectiveness in this regard, the night wolf can also In the next moment, a very powerful combat power broke out.

Li Tian knows the abilities of these creatures very well, so he dodges as much as possible at this time.

But it was too late.

His power could not last for long, and immediately afterwards his body was completely frozen and his moving speed began to slow down a lot, and then he fell directly on the ground, with the red sword in his hand thrusting into the ground fiercely. , A blood-red energy burst out, killing the night wolves who wanted to take the opportunity to get close in an instant, just like lightning, bouncing on the bodies of these night wolves, killing a lot in an instant.

Chapter 5245: No regrets

The White Wolf King looked at the struggling human in front of him, and an incomprehensible look appeared in the beast eyes.

Obviously it has been beaten to this point, why does this human insist on it?

And Li Tian did not mean to give up at this time.

Now that he decided to greet people here, he would definitely not be able to expose his entire wealth. Honghuang Qinglong didn't show his form, but he attached all the power in his body to Red Slash.

At this time, there are traces of cracks on the ground, and there is a strong energy on the red cut that continuously condenses into red lightning bounces towards the surrounding night wolf, and the energy of this red lightning will bounce with it. The number of times gradually weakened, but every bounce can kill two or three night wolves, which may be a drop in the bucket for the night wolves in front of them, but such deterrence can still give Li Tian some opportunities for relaxation, as long as he can persist. , You might get help.

"Since you can leave here on the fly, you can leave here like this, so why bother to protect the woman behind."

"If you promise others, you must do it." Li Tian said, and at the same time, the power in his body was continuously injected into Red Slash, and red lightning appeared more frequently.

Looking at the red lightning, the White Wolf King suddenly began to hesitate whether to continue the attack.

These monsters are different from beasts. Their intelligence may be a little bit inferior to humans, but there are some exceptions. For example, creatures like the White Wolf King are not inferior to humans in intelligence, but may even be better than humans. Human beings are better, especially when they face this kind of battle, they can find a suitable way of fighting in a very short time.

Li Tian squinted his eyes, gasping for breath.

"Oh." At this moment, the White Wolf King called out again.

Immediately afterwards, countless night wolves rushed forward one after another.

Even if it was wiped out by the red lightning, none of the night wolves hesitated, they were like a death squad, constantly attacking.

Li Tian looked at the dense pack of wolves rushing over. Feeling helpless.

Although he has worked very hard to make his weaknesses look less obvious, the White Wolf King was not simply watching the battle before, but observing the way the human fights in front of him, and at the same time looking for Li Tian. Weakness.

I don't know how many night wolves have been lost in the battle with this human, even the White Wolf King feels a little distressed.

When the red lightning killed a few night wolves, the White Wolf King was indeed a little worried, but soon he discovered a weakness. This red lightning does not condense very quickly. If two or two rush up, they will definitely be killed directly, but if dozens of night wolves attack together, even if this red lightning is very powerful, there is nothing to do when facing them. Good way, it doesn't have the ability to destroy so many night wolves in an instant.

But Li Tian had stood up at this time, he knew that the White Wolf King had seen his weakness.

As a result, he could only use the Red Slash in his hand to start slaughtering among these night wolves.

His body was very stiff, as if he had just been released from the thousand-year-old profound ice. He could clearly feel that his body's joints and muscles were a bit stiff, and his brain's command began to be a little slow. In this state, fighting was very It's difficult to fully exert his power perfectly, but Li Tian didn't just give up like this. He knew very well that if he failed, then Shuang'er would die along with him. He didn't want to drag a person in vain, so he just Can fight hard.

Hong Zhan's sword aura spread out, and easily killed those night wolves who tried to get close.

Li Tian's movements are slow, but after all his strength lies here, so many night wolves are indeed difficult to deal with, but they can't kill Li Tian in a short period of time, they can only consume his physical strength little by little. , Making him weaker and weaker in the next battle.

"Li Tian, hurry up, leave me alone." When Shuang'er saw Li Tian flying up, there was nothing to do with the surrounding night wolves. Their ice hockey could indeed hit Li Tian, but if Li Tian wanted to, he could just run away, these night wolves had nothing to do.

But Li Tian did not do this.

Because there is still Shuang'er in that cave, once Li Tian is gone, she must be a dead end.

"If I leave at this time, how can I be worthy of what Lord Cang said to me before? Since I have promised to protect you well, then I absolutely cannot take a step back now. Even if it is the most terrifying wolf pack in front of me, I will not wrinkle a brow." Li Tian smiled and said righteously: "Not to mention just a group of night wolves. If they can't even defeat them, how can I defeat my enemies? In this God Realm. I have many enemies, and I must defeat them."

While he was talking, he was fighting the night wolf.

At the beginning Li Tian could still persist, but as time passed bit by bit, Li Tian could no longer persist. A lot of scars could be seen on his body, facing the siege of so many night wolves. Even the best fighters cannot guarantee that they will not be injured.

But buying a place like this in Broken Cloud Mountain will only make you worse and worse after being injured.

Li Tian's breathing began to become hurried, and the world in front of him was blurred a lot. He knew very well that his body was already very weak at this time. If he could not come out to help, he might really be buried here today. Up.

It was supposed to summon the Great Wild Blue Dragon to fight, but he had always used the power of the Great Wild Blue Dragon to hold on.

Faced with the attack of such a huge night wolf pack, Li Tian was able to hold on for nearly an hour, which was a super terrible thing for many people, but for the White Wolf King, it was very annoying. Things.

In this hour's time, he has no idea how many men he has lost.

Li Tian was like a harvester, madly harvesting the lives of these night wolves. Even if he paid some price himself, in the eyes of the White Wolf King, it was still not worth it.

But since the battle has already begun, the White Wolf King will definitely not let his subordinates die in vain, and today he must destroy Li Tian!

Chapter 5246: There are beautiful women in the north

Li Tian no longer knows how long she has persisted, but this battle is simply a cruel challenge for her.

He was feeling his body losing control little by little and losing consciousness little by little. This feeling was as if he was dead, and it was clearly visible that every movement of his should have been so swift and quick to make the night before him. There is no way for wolves to dodge.

But now, he was like an elderly man, unable to fight fast at all.

Watching more and more night wolves rushing up, he was very tired and helpless, but he still had to keep fighting for Shuang'er.

The White Wolf King had completely relaxed at this time.

The keen sense of smell told him that the state of the human being in front of him at this time was bad enough to not be bad, and the immortal power in his body was almost exhausted. They only need to continue this way, or Li Tian will become them soon. There is no doubt about his defeat.

At this moment, Shuang'er appeared.

She rushed out of the cave and rushed towards Li Tian regardless.

The White Wolf King has been waiting for this opportunity. The relationship between this woman and the human being in front of him is unusual. Of course it can be felt. If it is not for this woman, maybe Li Tian can leave here without fighting them at all. .

As soon as she saw Shuang'er appear, the White Wolf King rushed over, and he wanted to catch Shuang'er.

But at the moment it wanted to get close to Shuang'er, a sword aura slashed over. Li Tian was covered in blood, he could stand while holding his body, his eyes piercingly looked at the White Wolf King in front of him. , Said word by word: "Don't think about getting a step closer to her, otherwise I will definitely take off your head."

Upon hearing the words, the White Wolf King easily avoided Li Tian's attack, and then continued to approach Shuang'er.

Li Tian wanted to help in the past, but there were so many night wolves surrounded by him. It was definitely impossible for them to make Li Tian get what he wanted. They all rushed up to interrupt Li Tian's plan, and watched. Looking at the White Wolf King approaching, but Li Tian now has nothing to do.

As the White Wolf King expected, his strength was already weakened to the extreme at this time, and it was obviously impossible to continue fighting.

With so many faces of the Night Wolf, Li Tian is like the end of a powerful crossbow, he can't even determine how long he can hold on.

Watching the time consumption was a little bit helplessly, he could do nothing.

Just when he was desperate, a blue sword aura fell from the sky.

It was a sword aura from the east, with an aura like a rainbow, repelling the White Wolf King with lightning speed.

In other words, it forced the White Wolf King back.

In the instant when the sword energy fell, the white wolf king's entire body's hair all stood up, and for an instant, he did not dare to stay in his original position, and a fearful expression appeared on his face.

Li Tian knelt on one knee, supporting his body with one hand, so that he did not fall to the ground.

To the east, there was a burst of blue light.

Under the black night sky, it was extremely bright, as if it had illuminated the entire sky, and a woman appeared in Li Tian's sight.

Standing tall like a fairy, condescendingly watching these things happen under her feet.

The corpse of the night wolf on the ground seemed to be telling how cruel the previous battle was. The blood was smeared on the stone and soil, making it look as terrifying as Shura Hell, but on the woman's face, Li Tian saw just indifference.

Her eyes were as bright as azure jewels, but there was not much look.

Wearing a white fairy dress and stepping on a fairy sword, Li Tian only thought of the words 'there are beautiful women in the north' in Li Tian's mind.

The woman in front of you cannot describe her beauty in very detailed words, but when you see her, you will subconsciously think that she is the kind of woman who is so beautiful that there is no way to describe it.

Seeing humans, Li Tian was relieved.

Especially this is still a woman, probably without any malice.

"Thank you." Li Tian said, panting. A powerful woman suddenly appeared, which eased the attack of the night wolves. All of these monsters stepped back a bit, staring at the woman who descended from the east. The White Wolf King also let out a low sorrow at this time.

"It's so late, what are you doing here?" The woman did not answer Li Tian, but looked at the panicked thought of Rushuang, frowning: "You are just an ordinary person, don't you know that Broken Cloud Mountains are all monsters? , You, an ordinary person, will undoubtedly die here."

"She came here with me. It is more dangerous to leave her alone in Luoyang City. Sometimes humans can be more difficult to deal with than Warcraft." Seeing a woman ignore him, Li Tian didn't mean to be angry. She also helped herself a favor. If she hadn't taken the shot at the most critical time, Shuang'er might have been killed now. Although Li Tian's attitude towards her is not cold, he is a kind of person who helped her. Still very tolerant.

The woman glanced at Li Tian and then at Shuang'er: "You will take her with you as long as you plan to?"

"I promised someone to protect her."

"But with your current strength, even if someone really wants to hurt her, I'm afraid you can't protect her at all. If you keep her by your side, not only can you not protect her well, it will make her suffer the harm you can't resist." The woman looked at Li Tian with a calm look, as if she was telling something about to happen: "When you encounter something like this next time, who else do you think will appear to help you?"

"What do you mean?" Li Tian raised his head and looked at the woman in front of him, his tone also becoming serious.

"She will still suffer after being by your side. I learned from Shuiyuezhong. Her qualifications are very good to me. If you don't mind, I can take her back to Shuiyuezhong." Although it sounds like it looked like she was negotiating with Li Tian, but her tone was clear that she was explaining something that must be agreed, and she didn't really mean to let Li Tian decide.

Li Tian looked at Shuang'er and shook his head: "I can't promise you this. Even if I die, I will protect her, but I will not give her to a stranger like you."

The tone was firm, and he was completely unprepared to agree to the request of the woman in front of him, he didn't want to live up to Lord Cang's instructions.

Chapter 5247: The strength of Shuiyuezhong

The woman seemed to have guessed what Li Tian would say, she just snorted: "Since I told you that I belonged to the Shuiyue Sect, then I must have heard my name, and whether I will follow me or not. It shouldn't be your decision either."

"Oh." The White Wolf King was angry. Although the woman in front of him seemed to be terrifying in combat power, as the king of the night wolves, he himself was also a high-ranking existence, and he had to deal with it carefully when he saw many humans. On the contrary, the woman in front of her showed strong combat effectiveness as soon as she appeared, but then she completely ignored her existence and started negotiating conditions with this human being.

The White Wolf King couldn't accept it instinctively.

The woman heard the white wolf king's roar, turned around and glanced, and snorted contemptuously: "You bastard, I didn't want to kill your race, but you have challenged me again and again, since Then I will let you know what makes me angry."

As she said, her right hand was slightly raised, and she was thinking about discovering.

Suddenly, Li Tian also felt a cold current rushing from a distance. The temperature on their side became very cold in an instant, and Li Tian couldn't help shaking.

The White Wolf King likes this cold feeling very much, because their own attributes are like this, the cold will not have any effect on them, but it will make the night wolf clan more powerful, watching women dare to treat themselves Casting such a spell, now more crazily directing the remaining night wolves to continue to attack.

Faced with the siege of so many night wolves, the woman did not show the slightest panic.

This alone made Li Tian understand that the strength of himself and the woman in front of him is worlds apart. Facing the attacks of so many night wolves, even the best fighters in the world will feel a headache, but in front of him The woman's expression seemed to be facing something that she was accustomed to, she could not see the slightest fear on her face, and some were just calm and calm.

"Firefly, dare to fight for glory with Haoyue." The magic formula in her mouth has been completely read, watching these monsters rushing towards her, she just snorted, and then a snapped finger popped out of her right hand.

Then, I saw the blue cold air turned into chains and chains, directly restraining these night wolves.

Suddenly, the wailing voice became the main theme here.

These night wolves were supposed to like the cold very much, but in front of this woman, they shivered like a child who was stripped naked and thrown to the North Pole.

The White Wolf King looked at all of his subordinates like this, and for a while, he would not know what happened.

In the next second, cold air lingered around his body.

Soon, it understood why so many night wolves could not move.

In just a few minutes, all the night wolves were frozen. The white wolf king bent his forelimbs and knelt on the ground. His body was trembling in fright. He no longer dared to look into the eyes of the woman in front of him. He knew he had met. To the most powerful human in the world.

"You have also seen how I dealt with these night wolves, and you also know how easy it is if I want to **** her from your hand." The woman squinted at Li Tian and said proudly: "We You probably know one thing about Shuiyue's rules. Excellent talents have always been included. This girl is a good seed in my opinion. She just wanted to save you from the fire, but since she lacks one Teacher, I'll be a good person to do it to the end."

Li Tian had already confirmed a lot at this time. The woman in front of him was probably from the Shuiyue Sect. He also understood the exercises just now. He knew that it was the housekeeper of Shuiyue Sect. Yue's exercises have reached such a level, just relying on immortal energy can produce the power to freeze everything, this power is simply a terrible means for ordinary beasts.

But he had promised Master Cang that he would protect Shuang'er well. Of course, he wouldn't have any hesitation at this time. Whether he should leave with this woman or not depends on Shuang'er's own ID.

"If you don't want to leave with her, I will definitely not let her take you away." Li Tian looked at this thought as Shuang, he knew that his current strength to protect Shuang'er was indeed a lot worse, and Shuang'er also needed a master. Teaching, he obviously can't do this.

Shuang'er looked at Li Tian and then at the woman.

This is a multiple choice question, once you have made your choice, it is difficult to look back again.

She knows that Li Tian will protect herself, but she also knows that the woman in front of her should have no malice towards her. Judging from her clothes and demeanor, she can already be sure that the woman in front of her is indeed a member of the Shuiyue Sect. It is impossible for ordinary people. With her dress and strength, and the status of a woman in Shuiyue is definitely not very simple.

'Following Li Tian's side is a burden. I still can't learn how to protect myself. Everything depends on Li Tian. If things like this happen again, Li Tian will be dragged down. 'She thought silently in her heart, and then quickly made her own decision, stood up, looked at the woman and said: "I can leave with you, but you must make sure to teach me to become the most powerful Shuiyue Sect Disciple, I need to slash my enemies."

"It's not a good thing to be blinded by hatred at a young age. Our Shuiyue Sect is good at doing what we want, but if you are blinded by hatred, the choice your heart gives you may not be correct. "The woman looked at Shuang'er, and she finally showed a smile that didn't know whether it was good or bad: "But since you have agreed, I can't say anything. I hope you can be clear in the days of Shuiyue Sect. What kind of life do you want?"

"How can I see Shuang'er?"

"Shuiyuezhong prohibits men from entering. When you want to see Shuang'er, you have to wait for her to get down the mountain or find some other means." The woman squinted at Li Tian, and finally He left his name: "Remember, my name is Murong Ziqing."

Murong Ziqing, Li Tian had never heard of this name, but she knew that this person's name was very unusual when she looked confident.

Murong Ziqing set his gaze on the White Wolf King, snapped his fingers, and the White Wolf King instantly turned into a cloud of blood!

Chapter 5248: Cumin all in

Li Tian witnessed everything that happened before him. At this time, he had to admit that the strength of the woman named Murong Ziqing in front of him might be the strongest among so many people he has seen in God Realm so far. Simple methods can easily kill a white wolf king in seconds, and those night wolves can only watch their king be killed but there is no way.

At least Li Tian couldn't do it, he also knew that even if he rose to a level, he would never be able to do it.

Such a person, still in the Shuiyue Sect, can say that her identity and status are both a mystery, but her status is definitely not low.

If Shuang'er can follow this woman, maybe she will really get ahead in the future. At that time, she can rely on her ability to find her parents and pay for Master Cang, and she doesn't have to worry about not being very good. Master Cang's wish has been fulfilled. At least now it seems that he has found a good place for her. As for the future, this is something that no one can say to clear.

"What are you evil animals doing here, why don't you get out?" After killing the White Wolf King, Murong Ziqing's face flashed impatiently, and his eyes swept across the creeping night wolves on the ground. As soon as her words fell, these night wolves were as if they were released from prison, and all disappeared from Li Tian in the blink of an eye, and none of them dared to stay.

This is strength, and in the hearts of these monsters, it is also an irresistible existence.

Murong Ziqing was very satisfied with the methods of these night wolves, and said: "These night wolves should not have appeared in this place. It seems that something has happened in the Broken Cloud Mountain Range. If you have nothing important, I advise you to Get out of here. Once those monsters in the depths of the mountains appear near here, it is completely impossible for you to deal with, you'd better find a place to leave."

Li Tian looked at Murong Ziqing and said: "I know what I am doing, but if I want to continue living, I must complete my task here."

"It's up to you. I will take him back to Shuiyuezhong now. If you have anything later, you can use this to contact me, but there are not many opportunities. You only have two opportunities to ask me for help." Murong Ziqing With that said, he threw a piece of jade pendant that looked like a processed jade into Li Tian's hand, and then put a small hand on Li Tian's shoulder, and poured a celestial spirit into his body, frowning slightly, not Say more.

When Li Tian held the jade pendant in his hand, he could feel a cool temperature.

This piece of jade pendant is extremely creamy, and you can see that it is not a simple thing.

She ignored Li Tian, put a hand on Shuang'er's shoulder, and said, "I will ask you one last time, will you regret following me and leave? Shuiyue's cultivation may be more difficult than you thought. , But on your terms, as long as you work hard, it is not very difficult to become the most powerful disciple of the Shuiyue Sect. Will you regret it?"

"No." Shuang'er said firmly, thinking of revenge in her heart, and also thinking of making herself stronger.

After getting an affirmative answer, Murong Ziqing had no intention of staying anymore, put a hand on Shuang'er's shoulder, and read a magic formula in his mouth, and then the two of them turned into a stream of light and disappeared in Li Tian. In front of.

Seeing the girl who got along day and night just left like this, Li Tian had some regrets for a while, but he quickly cheered up.

Not only is there no benefit for Shuang'er to be by her side, but will be affected by all aspects. In this regard, this is not what Cangye wants to see, nor is it what Li Tian wants to see.

So letting Shuang'er leave with Murong Ziqing might indeed be a very good choice.

Feeling that the fairy qi in his body was helping him slowly get better, Li Tian couldn't help but start to wonder at this time, what kind of existence would a woman with such strength be in Shuiyue?

Why did I have heard so many names of famous people in Shuiyue Sect before, but the only thing I had never heard of this Murong Ziqing?

The jade pendant in his hand did not know how to make it, and Li Tian did not know how to use it.

This Murong Ziqing's personality is a bit cold, and no matter who he looks at, he has a feeling of underestimation. Except for a few more words with Shuang'er, there is almost no communication between her and Li Tian, nor did she tell Li Tian. How should I use this jade pendant?

But in short, this thing is still useful in your hand.

As a well-known sect in the entire God Realm, Shuiyue's strength can be seen. If one day encounters trouble, maybe he can rely on this jade pendant to tide over the difficulties.

Looking at the mess on the ground, and the night wolves that disappeared.

Li Tian was truly relieved at this time, and at the same time became more interested in the things inside Broken Cloud Mountain Range. Murong Ziqing's strength lies here, since she knows that these night wolves do not rely on her instinct to move. Here, then it must be something else that happened inside Broken Cloud Mountain Range, maybe those powerful monsters that have never appeared are all resurrected.

Li Tian is still not sure, and he doesn't have much time and certainty to determine this kind of thing.

The only thing to do now is to do everything possible to complete the task at hand, and at the same time be careful to deal with the upcoming Shimada Muren.

Just a night wolf has already forced Li Tian to this point. When Shimada Muren takes action later, he can't even imagine how he will be forced to the point. Presumably Shimada Muren is definitely not the same. Very good guy.

Back in the cave, a bonfire rose, Li Tian slowly began to enter the state of cultivation.

He no longer had the arrogant attitude he had before. After these things happened tonight, he quickly understood a truth that this world really belongs to another world, and everything here starts from scratch. The only advantage he has is just a little bit higher than others. If he doesn't know how to keep a low profile, then he may only die next time.

Don't be afraid that the enemy is genius, but that the enemy is more talented than you and harder than you.

With a sense of crisis, Li Tian is absolutely unwilling to give up any opportunity to practice. He has to work hard to completely transform the various abilities in his body into immortal power, and then become more powerful!

Chapter 5249: First day

The next day, Li Tian opened his eyes.

The immortal power in the body has become much more refined after a night of cultivation. This feeling is very sensitive to Li Tian. He can feel very clearly that after a night of cultivation, the strength in the body has become Very powerful.

However, his cultivation speed is still very slow.

Compared to the time on earth, the speed of cultivation is fast, but in places like the God Realm, it is still very slow at present.

Cultivation here has become more difficult. Geniuses like Li Tian can hardly make rapid progress here. I am afraid that if there is no special adventure, they need to rely on if they want to become stronger next. Tens of millions of years have been accumulated, and after such a long time, Li Tian was afraid that he would have forgotten his original thoughts.

So at this time, she became more anxious, no matter what, she must become stronger in the shortest time.

Stand up and look at the sun outside.

This was the first time that he watched the sun rising slowly in the God Realm so seriously.

It seems that there is not much difference from the earth, and the clouds on the horizon have also become white.

Li Tian was sitting at the entrance of the cave. At this time, he was alone, and he had to consider everything for himself, and no longer need to worry about whether Shuang'er would be harmed.

However, this is also a good thing. I have many enemies in the God Realm. Not only those City Lords who want to capture him, but also some great nobles, and enemies in the Lower Realm are also here. If he lets Shuang Shuang It was really dangerous for her to follow her. Now she was sent to Shuiyuezhong. No matter what happens in the future, Shuang'er must be safe now.

The wound on his body has completely healed after a night of practice.

Li Tian's body became more resistant to beatings than before, and his self-healing ability was faster. Like those practitioners in the God Realm, after being injured, they can cultivate their wounds to heal slowly, thereby Achieve the effect of complete recovery.

He is almost in a state of recovery now.

After almost touching the time, he got up and started to enter the Broken Cloud Mountain Range to find the Cloud Beast.

The battle of the night wolves last night was probably the best chance to kill him, but Shimada Muren didn't make a move. Li Tian didn't know what was in this guy's mind, but he was always on guard.

In the morning, I almost made a circle around this mountain range, without finding any news about Cloud Channeling Beast.

Sure enough, it is exactly the same as described in the mission. The combat effectiveness of this kind of monster is indeed not strong, but it is really very difficult to find them. If you don't have some experience or means, you can only rely on your own luck to touch it. .

There was no harvest all morning, but Li Tian didn't feel very discouraged.

Just a lot of anxiety in my heart.

It has been a long time since Situ Ningbing entered the God Realm, and every moment of these days, he was thinking about how to find Situ Ningbing, and he didn't dare to delay the task in his hand.

He is very clear that these tasks are his own opportunities.

If he can find a little bit to save enough sky coins, he can find Situ Ningbing.

It's a pity that Cloud Channel Beast is really hard to find.

Randomly hunted down a monster at noon. After peeling it, he found an open space to set up a barbecue grill and began to barbecue.

After a full meal, Li Tian quickly plunged into the search for Cloud Beast.

But this time I'm going to be a lot lucky. In the afternoon, Li Tian found the traces of the Cloud Channeling Beast by chance. It was the footprints of the Cloud Channeling Beast, which proved that there was a Cloud Channeling Beast moving around here. And looking at the location of the footprints, it is very likely that this place is near the nest. Li Tianbian chose to lie in ambush here. Since this is a nest, the Cloud Channeling Beast will definitely be back today.

When he launches an attack in the dark, he will be successful.

Li Tian ambushed himself, and then completely reduced the aura on his body. Now he was ready and only owed the east wind, waiting for the cloud beast to appear, and then he shot the beast to kill.

As time passed bit by bit, Li Tian did not see the shadow of Cloud Channeling Beast all afternoon.

The sky is getting darker and the temperature is getting lower and lower.

Li Tian, who was lying on the ground, could also feel that the cold air was penetrating into his body a little bit. This feeling must be very uncomfortable, but in order to be able to complete the task, he still clenched his teeth and persisted.

Finally, the effort paid off, he saw the rumors of the cloud beast.

It looks like a lizard, but with two wings on its back. Some are like giant dragons described in the West, but there is still a small gap. The size of the cloud beast is small, and it looks more like one. The mouse is as smart as the mouse. The red-yellow beast pupils are all cautious. The two pairs of meat wings are inciting even after falling on the ground. If it encounters an enemy, it will run away as soon as possible.

Li Tian did not rush to attack.

He knows how powerful the Cloud Beast is. If he chooses to attack rashly at this time, he may startle the Cloud Beast. By then, this guy will fully show his strength, and Li Tian knows that he can never be in front of him. The only way for this little monster's opponent is to wait until it completely relaxes its vigilance before continuing to attack.

Although his speed is dissatisfied, it may be much inferior to the little monster in front of him.

The patient Li Tian was still lying on the stone without any movement, just waiting quietly.

After falling to the ground, the cloud beast did not return to its cave in a hurry, but stopped outside, as if investigating the surrounding environment. This creature does not have strong power, but it has a good mind. And speed, it's no wonder that some very powerful masters have difficulty catching this kind of creature. This kind of creature is fast and very smart. If you don't have good patience, it's definitely impossible to catch them. .

'You're a little thing more difficult than I thought, but that's fine, the more difficult you are to deal with, the more valuable you are. It seems that my mission is not wrong this time. Li Tian thought in his heart, all the guild wanted was the spar inside the cloud beast's head, and the other parts were not in the task. Li Tian was going to sell the other parts directly.

Anyway, for many people, Cloud Channeling Beast is a treasure all over, and they also want to find these materials from this little monster.

Chapter 5250: Mantis catching cicada

Li Tian cautiously observed the cloud channeling beast in front of him. This guy has been squatting outside and not returning to his lair in a hurry.

The temperature is getting lower and lower. If this situation continues to continue, Li Tian must have no way to persist. This temperature is undoubtedly a torment for him, and his whole body is about to be unable to persist.

'Damn it, how long will this guy stay outside? 'Time is slowly passing by, but the Cloud Beast has no intention of returning to the lair. This guy crawled down in place like this, and a blue light appeared on his body, looking at the deep blue like the ocean. , These energies condense around its body, and then become stronger little by little.

Li Tian felt that he was about to freeze to death. If this situation continues, he must be dragged to death here alive.

The cold outside is getting stronger and stronger, and he has to use his own fairy power to ensure that there is sufficient heat in his body so that he can barely resist the low temperature here, but no one can judge how long this situation can last.

Finally, just when he was about to lose hope, Cloud Beast began to stand up.

It seemed to be just a ceremony before.

After it was over, it swaggered into its lair.

Li Tian finally breathed a sigh of relief. After waiting for about a few minutes, he stood up from the grass and couldn't help but wiped the cold sweat on his forehead. For him, this process was extremely tormenting, if not relying on it. Looking for the faith of Situ Ningbing, perhaps at this time he is ready to give up this task, not only must have courage, but also have enough patience.

The Beast of Cloud Channeling Beast deserves to be regarded as one of the most difficult to catch. Even Li Tian had to admire their thinking and carefulness at this time.

Such a cautious ethnic group, it is no wonder that they can be passed down unfailingly.

With a very strong ability to reproduce, coupled with such a cautious attitude, even if countless people in the God Realm are doing everything possible to find their traces, these cloud channeling beasts can also survive in the cracks. This kind of survival Li Litian had to admire them.

Although the Cloud Channeling Beast had entered the lair, Li Tian was now confident enough to deal with it.

But he was not in a hurry to make a move, because he knew that there was another person behind him waiting to do it. Shimada must know his whereabouts well, but so far he has no intention of making a move. Li Tian is also not clear about this young man. What are you thinking about in your mind, maybe he really wants to wait for him to kill the Cloud Beast before he will appear at this critical moment?

Such an idea may not be impossible, Shimada Muren's strength is definitely weaker than Li Tian.

But now Li Tian is not sure enough to deal with this guy who has never met before, and can only think of some other ways to deal with it in his mind.

Shimada Muren looked at the cloud beast's lair, but his eyes fell on the other side. The battle between him and Li Tian would definitely startle the cloud beast. If the two really fight at that time, I'm afraid it will be within a few seconds. The target Cloud Cloud Beast will be lost within a period of time. At that time, even if he kills Li Tian, it doesn't make much sense, and he needs to fight with others for this task again.

'Damn boy, it's already this time and I still don't make a move. Are you afraid that I will make a move against you?' He thought secretly in his heart, and at the same time there was some anxiety why Li Tian was unwilling to take action against the Cloud Beast at this time. He clearly had everything ready and only owed the east wind, but Li Tian had been quiet and still lurking in the dark. Waiting everywhere.

At this moment, Shimada Muren saw Li Tian doing something.

He slowly stood up from one corner, moving his body, and cautiously approaching the lair. He looked like he was ready to do it.

‘Hmph, the brat can’t bear it after all. When you kill this cloud beast, this is my best chance to kill you. Shimada Muren did not rush to do anything, but continued to wait. Although he looks shameless, he is not an idiot. He knows what patience is. Only a person with real patience can deal with powerful enemies.

"It seems that the Cloud Channeling Beast hasn't noticed me approaching yet." Li Tian was standing at the door of the lair at this time, Xianli covering everything here like a spider web. If this Cloud Channeling Beast has any thoughts, Will be known to Li Tian the first time.

However, his actions can be described as cautious, and it can be determined that the Cloud Beast did not find a powerful enemy slowly approaching in the lair.

After confirming that the Cloud Beast did not find himself, Li Tian cautiously touched it in.

The inside of the cave is more spacious than he imagined. It looks like a small palace, and the surrounding walls are also very smooth. It seems hard to imagine that this is a nest of monsters, but it looks like it was carefully made by a practitioner. Like Xianfu, even the walls have some strange runes. Li Tian can't understand the contents, but he also knows that they are definitely not ordinary things.

It was the first time he had dealt with Cloud Drifting Beast, but at this time he felt like he had fallen into a trap.

‘This place seems to be different than previously thought. Since Yunyun Beast chose to open a nest here, they must have their own ideas. 'Li Tian thought about it, and continued to move inward. The first thing he faced was this kind of creature, and he didn't know about their abilities or anything. But at that time, it was certain that the fighting power of Cloud Cloud Beast was definitely not that he thought of. So powerful.

As he moved forward a little bit, the promenade of the cave began to become more and more spacious, and the runes on it began to become more and more mysterious.

A very mysterious mural appeared for the first time in front of Li Tian. It was a mural of a cloud beast, crawling in front of a nine-clawed golden dragon. Although it is not very clear, the details of the above are still told. Li Tian's secret about this mural.

I don't know how long it has passed before the first fork in the road appeared in front of him.

Perhaps the lair he thought he had entered was not that huge.

But now it seems that he was completely wrong. The cloud beast’s lair is like a huge maze, displayed intricately throughout the mountain range. If you want to really enter it, I’m afraid it’s not what he thought. Simple things.
