

A Killer 5261

Chapter 5261: Death mission

When your realm improves, naturally you will also have more channels to obtain Sky Coins.

This is exactly a butterfly effect like a snowball.

After the middle-aged man registered Li Tian's name, he beckoned, and a staff member came over and took a look at Li Tian: "Come with me, you will all be set up by us during this time, and your position is also It will become a secret, and no one but your companions will know where you are."

"it is good."

Li Tian followed behind the staff and slowly entered a building in the guild.

This is a place that looks like a dormitory, but everyone has a separate room, and then in front of Li Tian, it is a hall, similar to a living room.

There are about twenty people sitting here.

Coincidentally, three of them, Li Tian, still know each other.

It was Catherine who had just met.

She also found Li Tian, smiled and stood up and walked over, her body pressed against Li Tian, exhaled and said, "I said, we will definitely meet again."

"Hmph, isn't this kid also a desperado. I don't know how many people have been killed in this mission. With his current strength, I am afraid that he will die in the past." Mengsk sitting on the side saw Li Tian. He snorted and said disdainfully: "Don't think that you have killed a few Cloud Channeling Beasts, you can think that you are very powerful. You must know that the monsters we have seen are far more powerful than the ones you have seen. The task is more difficult than every task we have performed in the past."

Li Tian didn't say anything, but got the house number from the staff: "We will leave in two days. You have to wait here for these two days. Of course, the Association will be responsible for giving you the best service conditions. , To let you recharge your energy and cope with the next difficult challenges."

"Thank you." Li Tian nodded, then turned around and went straight into his room.

Mengsk stood up immediately and yelled angrily: "This kid doesn't give a face, I'll beat him up."

"Sit down." Catherine stared, looking at Mengsk, and said: "He is also one of our companions now. It is better not to have any conflicts. The task we are about to face may be the task I have encountered so far. It's the most difficult task to deal with. At this time, we should unite with everyone within us to fight against the enemy this time, instead of choosing to fight with them at this critical time. This is very stupid."

Although Mengsk was still unwilling on his face, he still listened to Catherine very much, muttered softly, and sat down.

As for the others in the hall, some were closing their eyes and resting, while others were wiping their weapons.

Some people are also playing cards to relieve their pressure.

After all, it is a task with a 95% mortality rate and all of them are seriously injured. The pressure in their hearts can be imagined. The chance of surviving in this task is very small, and they may be seriously injured if they survive.

So far no one can come out.

They all know the result, but no one will choose to give up.

They all gamble, gamble for money.

The guild's room is very magnificent and has an ancient feel. The room inside is no different from the room in ancient times on earth. It's just that in the application of many tools, obviously things in the gods are more advanced. There is no candle here, but use A unique energy crystal, by injecting a little energy into it, it can emit a very bright light.

And the temperature of the humming room can also be adjusted with this crystal.

Just a small crystal, there are far more things that can be done than on earth.

Lying on the large bed, Li Tian soon became a little tired.

The high-intensity battle over the past two days made his body a little unbearable. After locking the door, he soon fell asleep.

Time passed, and when he woke up, it was because someone was knocking on the door outside.

So he opened his eyes, got up from the bed, and opened the door of the room.

Catherine stood outside with some meat and wine in her hands: "This is the food tonight. I don't think you came out. You must be tired from the previous task, so I went to rest and asked someone to keep it for you. Some, eat while it's hot."

Li Tian looked at the food, raised his brows, and Xianli slowly explored it.

"Don't worry, these things are not poisoned. I kill you now and will be hunted down by the entire God Realm. I don't want to be charged with such a crime, and we need to cooperate to complete the task next. There won't be any conflict with you." Catherine is a very smart woman. You can tell what the man in front of you is thinking through a few small actions.

When she saw Li Tian hesitating, she knew that he was suspecting that he had poisoned the food, so she explained it straightforwardly.

Regardless of whether Li Tian was willing or not, he pushed the door directly into the room and sat down on a stool on one side.

"Thank you." Li Tian said abruptly.

"Oh, I thought you would only say something that makes people angry."

"..."

"Seriously, you are still young and you are not a bounty. Why do you want to take on such a task? Don't you know that you are likely to die?"

"It is difficult to achieve my goal by hunting cloud beasts. This kind of task will not be released all the time, and finding these creatures is not that simple. I need to find a friend of mine in the shortest time, so I must do everything possible to make a lot of money in a short time." Li Tian thought for a while, and felt that there was nothing wrong with telling Catherine.

"You should investigate this task before you come. Luoyang City has dispatched eight teams to perform the task. One is stronger than the other, but every time it fails miserably." Catherine smiled, seeming to feel the atmosphere a little depressed. He comforted and said: "But this time the situation is different. The guards of the city lord and the leaders of the forbidden army will follow us personally. It can be said that Luoyang City is the most powerful force that can be obtained at present. If this is all. If we fail, we can only turn to those big sects."

"What is the mission?"

"I don't know this. I only know that the target location of this mission is inside the Broken Cloud Mountain Range. All the people who have survived so far are the seriously injured people who have crawled out. There are many people who were eaten by monsters after they climbed halfway." She looked at Li Tian and said in a heavy tone.

Chapter 5262: Strongest team

Li Tian thought of the legend he had heard before, and also thought of what happened on the day Murong Ziqing appeared.

The night wolf shouldn't have appeared in Li Tian's place at the time. Even if it appeared, it would definitely not be such a large number. It seemed that a group of people were migrating. Now that I think about it, the things at that time were already very strange. Why do the ethnic groups that themselves have a huge advantage in numbers choose to migrate suddenly?

Murong Ziqing also said on the same day that an unknown secret had happened in the depths of the Broken Cloud Mountain Range and told him not to approach it easily.

Unexpectedly, he still embarked on this path after all.

Do you want to go inside Broken Cloud Mountain to see what happened inside?

Thinking of those mighty night wolves, such a huge number had been expelled, he even began to question what happened in that world that caused these monsters to migrate out frantically.

"What's wrong, did you think of something?" Catherine was also observing Li Tian. I don't know why. The young man in front of her didn't feel so powerful, but there was a reassuring feeling.

"During my previous mission, I had encountered a large-scale migration of the Yelang ethnic group. There are a large number of them. It may be a very powerful ethnic group. However, they migrated out of the depths in a panic and hunted and killed. It's not necessarily that something indescribable has happened in Yunshan Mountain, otherwise it is impossible to have so many strange phenomena." Li Tian squinted his eyes, and said all the things before.

"They have tried many ways to regain the consciousness of those who were seriously injured, but obviously they are not just a simple matter of physically suffering severe injuries, but also mentally suffering severe injuries, even if their bodies have fully recovered. After being in a normal state, there is no way to heal her spirit again, she can only be a vegetative for a lifetime." She looked at Li Tian and said.

"For such a dangerous thing, I am afraid that those who come to participate in this mission are determined to die."

"Not so. This time, with the guards and the leaders of the Forbidden Army, our chances of survival have been greatly increased. I think everyone has taken a fancy to this and passed by with a gambling attitude. Like before, there will definitely not be anyone who will follow the past stupidly. Even if they come out of it alive, most of them lose their minds. Even if they are given sky coins, what can they do." Catherine shook her head and stood up. "You have a good rest. In the next few days, they will entertain you with delicious food and drinks. After this period of time, what awaits us is a very hard life."

Li Tian had already seen the climate of the Broken Cloud Mountains and knew that it was indeed cruel to survive in the cracks in that environment.

But for Situ Ningbing, he can tolerate everything.

After Catherine left, Li Tian ate something casually, and then he continued to enter the state of cultivation.

In the next few days, Li Tian locked himself in the room most of the time, and Catherine would come to his room to chat with him when she had nothing to do. After a few days of understanding, he discovered Catherine is not as wild as she looks, but a woman with a very delicate heart, who can find out the thoughts in his heart very accurately.

Finally, on a sunny day, the time for them to act has arrived.

A group of guards wearing black profound armor appeared at the gate of the guild. They all rode on a mount called a dragon horse. It is said that this organism has dragon blood in its body and can travel thousands of miles a day. In short, it is a kind of tolerance. Very strong creatures, so they have received the joy of the vast army. With strong fighters, they have trained a group of very powerful cavalry. In the war of the gods, they can also get perfect performance.

The guards in front of them, in terms of equipment and combat effectiveness, cannot be comparable to those outside.

There was no extra expression on everyone's face, all of them looked like a dead man who was brainwashed, and looked a little bit dull.

Seeing these strange guys in front of this, Li Tian frowned uncontrollably.

I don't know how Lu Xiu trained such a team.

"We are getting ready to go, everyone has followed." The head was a middle-aged man wearing heavy armor and looking very majestic. On his face, there was a line almost spanning most of his cheek. Scars, you can imagine what kind of injuries you have suffered, but even with such terrible injuries, he still survived and became stronger: "I am the leader of the forbidden army, He Jin, and you will follow me in the next few days. Fighting."

"General He Jin seems to have reached the realm of gods. It is said that his strength is very strong, and he is exceptionally brave on the battlefield. There are few rivals." Catherine was beside him, whispering to Li Tian.

Li Tian nodded, but there were not too many accidents.

Instead, he felt that Luoyang City was far less powerful than he thought. After seeing Murong Ziqing's strength, Li Tian can now guess that the realm of that woman has at least surpassed the gods, reached the gods, and even more. At a higher level of the gods, those ancient sects have a history of tens of millions of years, and even have a history of hundreds of millions of years. The heritage of this long history is indeed not imaginable by ordinary sects.

On that day, Murong Ziqing just shot casually and easily defeated the night wolves. You can imagine how powerful the woman is.

Thinking of the horrible mission I performed this time, I might die there. Would Shuang'er be sad for me if I knew about it? Should he use what Murong Ziqing left behind, try to see if he can ask for help?

Soon, all the various thoughts in Li Tian's mind were all thrown away.

In order for them to reach the Broken Cloud Mountain Range faster, each of them is equipped with dragon horses. These trained dragon horses, even if they are riding on a group of strangers, are still incomparably well-behaved.

Li Tian was riding on the dragon horse, feeling this powerful back, thinking that if such a cavalry were placed on the earth, it would be invincible.

Catherine's two slender legs are tightly clamped between Ryoma's belly, her small hand is holding the rein, and she seems to have noticed that Li Tian's gaze is on her, and she has deliberately raised her proud chest and exposed it to him. A smile came.

Li Tian touched the back of his self-sufficient head awkwardly, and hurriedly turned his eyes to the other side.

Chapter 5263: Go out

Because their team was acting secretly this time, the passage they took was also the military passage of Luoyang City.

Ordinary people here don't even have the qualifications to get close.

A whole number of a hundred people, the action is still mighty.

And it's fast.

It originally took about half a day to reach it. They probably took more than an hour to arrive. It seems that the Ryoma's ability is still very outstanding.

After arriving at Broken Cloud Mountain to buy, He Jin raised his hand, and the guards immediately stopped.

Well-trained guards can do it, but those practitioners and bountyers can't.

One by one looks a little messy.

He Jin snorted, and then ordered a few people, among them Li Tian: "You guys, are responsible for opening the way in front of you and being scouts."

Li Tianyi raised his eyebrows and said, "We are here to perform a mission, not to be a scout for you. When the guild released the mission, it didn't tell us to do such a thing as a scout."

"Are you the team leader, or am I the team leader?" He Jin raised his eyebrows, holding the reins in one hand, approaching Li Tian step by step, and asked fiercely: "We are now an integrated team, look at your rubbish. Looks like a fool, thinking you are doing a game? Letting you be a scout is worthy of you. If you don't want to, just give me the fuck."

"We are carrying out the tasks issued by the guild. We are regarded as mercenaries. You have no right to let us leave here." Li Tian said forcefully.

Catherine never thought that this kid should have such a tendon. Before, he thought that he had a contradiction with herself for some reasons. Now it can be determined that this kid has such a personality, a personality that is not afraid of the heavens and the earth, no matter what you are. Who, he has the courage to fight with you, even if you are a god-level powerhouse? He can yell at you all the same.

She stepped forward to stop Li Tian, and said with a smile: "General, he is new to Luoyang City, and he has not done these things before, so many places do not understand, but it is just a scout, he can do ."

Li Tian wanted to say something, but when he saw Catherine intervened, he did not speak.

Mengsk whispered on the side: "This idiot boy, I don't know if he has such a strong ability, but the level of trouble is first-rate. I really don't know what the captain thinks, he is so good to this guy."

He Jin glanced at Catherine and snorted: "Okay, go ahead and open the road right away. We will go all the way to the east. If we encounter problems, we must report to us as soon as possible. If the situation is urgent, we will directly launch this flare."

While talking, he threw a signal bounce into Li Tian's hands.

In normal times, Li Tian would definitely be unhappy, but now he didn't say anything, and honestly put away the flare.

He Jin glanced at Catherine, then looked at Li Tian, and said with a joke: "This kid is not easy to discipline. Since he likes listening to a woman so much, then you can go as a scout with him. You two Group, don't let this guy cause me trouble."

Li Tian became angry at once, but before opening his mouth, Catherine ran away.

"You're crazy, that's the leader of the Forbidden Army, who controls most of the entire Luoyang City army. Do you think you can be his opponent?" Catherine looked at the angrily Li Tian and said in a low voice.

"He is totally abusing his power."

"So what? In the eyes of these people, we are a group of parasites, a group of ants, do you still expect him to speak to you?" Catherine looked at the angry Li Tian, and smiled slyly: "If you were just now If you dare to continue to disobey his orders, the Guards will chop off your head. What is your purpose here, don't you remember?"

Li Tian was a little helpless, he didn't know how long he had not endured such treatment.

It's really angry inside.

"You will soon adapt to such an environment. Everything in the God Realm speaks on your own strength. We are not strong, otherwise we don't have to do such desperate tasks. Why not treat us as

human beings. It's normal." Catherine rode forward, carefully leading the way: "Let's go, we have to scout in the front, so as not to blame both of us for any problems."

Li Tian glanced at Catherine, he was like a okay person, and it seemed that what happened just now had no effect on him.

There is inevitably some admiration for this woman's psychological endurance.

If someone else has endured such an insult, who can stand it?

But in Catherine's view, it was like a common meal, and there was no intention to resist at all.

Soon, Li Tian gave up the idea of continuing to struggle, followed behind Catherine, and began to move on.

All morning, the two of them were in charge of leading the way. When it was noon, another group of scouts caught up and told them to return to the camp at the back to rest. It was about two hours before they could move on.

The two had to return to the camp behind.

The Janissaries were sitting together in threes and two, chatting quietly.

He Jin grabbed the hind limbs of a beast in his hand and gnawed upright. When he saw Li Tian and Catherine, he immediately laughed and said, "Yeah, you two must be very proud now. You can become the scouts of our team, It's a striker who kicks us and sees the danger ahead clearly. We must be proud."

Li Tian clenched the rein in his hand and walked forward slowly.

"Hey, boy, can't you hear Lao Tzu talking to you?" He Jin snorted, picked up a stone casually and threw it towards Li Tian.

'Snapped'

The stone hit Longma's body, causing Longma to almost throw Li Tian down.

Li Tian stared at He Jin.

"Not convinced?" He Jin stood up while gnawing his bones, looking at him scornfully: "I tell you, I have seen so many young people these years, and none of them have the courage to be in me. The arrogant person in front of you, since you are a hairy boy, you must know that you are obedient, otherwise you will not understand how you died."

The rein was firmly grasped by him, and it became tighter and tighter, and the dragon horse that was strangling his hips began to feel uneasy.

Catherine pressed his shoulders: "Let's go, let's go and eat something. It's about time to change shifts, so we can't continue to waste time here."

Li Tian nodded and left slowly.

"Hahaha, I thought you were going to do something with me, ***** it!"

Chapter 5264: Corpses everywhere

No matter which world it is in, there will always be some scornful guys in the military.

This is normal and inevitable.

When a person gains strong power, he will naturally despise everything in front of them. Taoism's special self-cultivation means that while possessing strong power, one can hone one's own character and let oneself be able to restrain the body. This force would not turn into a rogue like He Jin.

The only things left for Li Tian and Catherine were some bone soup and steamed buns.

Compared with the previous guards who ate meat and drank alcohol, they were really shabby.

Li Tian just ate a little and couldn't eat anymore.

"Eat quickly, I don't fill my stomach now. How can I keep on doing it in the afternoon when I encounter a fight? Even if you are angry, you have to tolerate it. He Jin is the leader of the forbidden army. Can you really kill him? Kill him, you will become the target of the entire Luoyang City and even the entire God Realm. At that time, no matter how strong you are, you will not be able to survive." Catherine comforted.

"Can't eat, I want to continue practicing for a while." Li Tian stood up and sat down in one corner.

"Captain, this kid is a stubborn idiot. Why are you so interested in this guy?" Monks looked at Li Tian's back and sat down beside Catherine with a grieving expression: "We Sooner or later you will be dragged down by this kid to death. If it weren't for him, you wouldn't need to be a scout."

"Enough, you don't need to take care of me about these things. If you feel that this is not good, you can quit the team. If you let me hear what you say to me, don't blame me for being rude to you.

"Catherine frowned and looked at Mengsk seriously.

Mengsk froze for a moment. He didn't expect that he would warn himself with such a strong attitude. Looking at Li Tian in the distance, he could only sigh and shut his mouth.

At noon, the sun is very dazzling, and the air is also mixed with a very hot breath. Many people will feel very uncomfortable even sitting under the big tree.

"Today's weather is a bit weird than usual."

"Indeed, I don't know why during the recent period, the climate inside the Broken Cloud Mountain Range has also been very different from before. Many people have noticed this problem."

Although the weather in the past was very hot, it was all because of the questions from the sun.

But today, although the sun overhead is very dazzling, the temperature it emits is obviously not from the sky, more like the temperature emitted from the surface of the earth. This feeling is very strong and many people can feel it.

"Okay, I got up and acted." He Jin roared, beckoning everyone to stand up, and then said: "Counsel, follow your chick, and continue to find the way ahead."

This time Li Tian didn't respond, so he stood up very dumbly.

Catherine followed behind him, somewhat surprised.

After the two of them walked away some distance, Li Tiancai said in a very serious tone: "I will kill him and cut his throat with my own hands, absolutely!"

Ryoma's hoof was trampled on the ground, and the whole team was advancing at a very fast speed.

"Don't be stupid, you won't end up with killing him, unless you can assassinate him secretly, but now is not the best time." Catherine looked at Li Tian with a smile: "Actually, I see this. The guy is not pleasing to the eye."

"Don't interfere, I'll be enough to deal with him alone."

The two were still moving forward, but suddenly stopped.

"How is this going....."

In front of them, there are densely packed corpses, there are various beasts, but there is no doubt that these beasts are not absolutely low-level creatures in the Broken Cloud Mountains, and there are even many powerful beasts.

"I'll report."

After Catherine turned and left, Li Tian still sat and looked at the corpses of these monsters on the ground. Every monster seemed to have been completely evaporated. The body was dry without any blood, and the death was very tragic.

But why, so many Warcraft die in this place?

This is the last thing Li Tian can understand right now.

Soon, He Jin led people to the front and looked at the corpses of these monsters on the ground. He also became serious: "Do you know what's going on?"

"I don't know, we discovered this situation when we got here."

When Catherine and He Jin explained the matter, Li Tian jumped off his dragon horse, cautiously approached the monsters, and then put his hands on the ground. As expected, the ground was very hot.

It's as if a ball of flame is about to strike out from inside.

Seeing him like this, He Jin jumped off the dragon horse, walked to the body of the monsters, stirred the bodies of these monsters with the sword in his hand, and frowned: "It has dried up, like it has been cooked by something. It's the same, but it doesn't look much damaged."

"It's an attack from inside the body. There may be something in the body of these monsters that can emit heat, so that their blood and other cell tissues are all necrotic and die here." Li Tian looked at the corpse in this place, It is still very spectacular. If they had encountered so many corpses of beasts before, they would definitely do everything possible to find some materials from these beasts to sell.

But now, no one has the courage to touch these beasts, such a strange beast, who dares to touch them easily?

He Jin returned to the dragon horse's back and said lightly: "Go around a little bit. Let's move on. Before dark, you have to feel the depths of the Broken Cloud Mountain Range. You may be in danger tomorrow."

"What I suggest is that we better investigate things here."

"The investigation is very clear. These monsters are dead." He Jin looked at Li Tian with a very tough attitude: "I know what you want to say. You think my idea is incorrect, so what do you want

me to do? Do, waste a lot of time here to study why these monsters died? Please, I don't have so much time wasted on these **** monsters."

Li Tian frowned, and did not continue to pay attention to this guy. To a certain extent, He Jin was already a little unreasonable.

"Well, our task is to investigate what happened inside Broken Cloud Mountain Range, not here to investigate why a group of dead beasts died. They may be killed by other beasts, maybe because of other reasons. Dead, but no matter what the reason, it has nothing to do with us."

Chapter 5265: Night

In Li Tian's heart, he always felt that there might be clues found in the monsters that died here, and it is likely to have a huge connection with their subsequent investigation, so he wanted to stay and figure out what happened here.

But since He Jin refused this request, he can only change his mind.

The team continued to move forward, but when many people passed by, they saw that the monsters in this place still appeared greedy after all. Some bountyers secretly took some materials from these monsters. After thinking about it, I can sell it for a big price.

Li Tian didn't know these things, but along the way, they found it hard to see a monster.

Originally, when they first entered the Broken Cloud Mountain Range, they could still see many monsters, but when they passed through the area of the dead monsters, they found it was difficult to see a monster. In addition, Even the sky dimmed.

But that feeling of blazing heat has never been weakened.

After traveling continuously for about two hours, they entered the depths of the Broken Cloud Mountain Range, which many people call the domain of death. However, if humans enter this domain, they will inevitably be attacked by powerful monsters, and the result is naturally a dead end. One. Most of the bounty and practitioners who died before were killed in this neighborhood. He Jin rode his horse to the front of the team and nodded: "Set up camp here."

"General, it is not a wise choice to camp here. If we calculate according to the time we travel, it shouldn't be night here, but it's dark here. We still have to stay vigilant."

"If you dare to doubt my military order, I will let the Guards execute you, and here I am the leader." He said disdainfully.

"What do you feel?" Catherine stood beside Li Tian, frowning at the night above her head.

"I don't know where the huge changes have taken place here. The source is still unknown, and we don't even know if there are powerful monsters in this field." Li Tian looked carefully, slowly squatting on the ground, Carefully put his hand on it, and as expected, there was still hot energy radiating from the ground: "However, judging by what we saw before, there may be no monsters in front of us."

"I think it should be like this. Those monsters cannot survive in this place. Since so many monsters have died in that place, something that we don't know must have happened here, and the powerful monsters have begun to move outside. Run away."

"But I have never seen those monsters above level 40 in the depths of Broken Cloud Mountain."

The beasts above level 40 are already above the immortal level. These beasts are inherently powerful, but the ability to multiply is also very poor, otherwise the entire God Realm might be such a powerful creature.

However, these creatures have a long life, and they have been living in the depths of the Broken Cloud Mountains.

In previous years, some people accidentally ran here, and they would be quickly killed by this powerful monster.

But the way they came here was simply unobstructed, not only did they not find any traces of such monsters, but even among the powerful dead monsters, they did not see monsters above level 40.

If there are no such powerful monsters in the Broken Cloud Mountain Range, Li Tian would definitely not believe it.

Although the group of corpses before was huge, only the twentieth and thirtieth level monsters were dead, which was equivalent to the level of the gods, and the strength was only relatively speaking.

But now, they didn't even see any powerful monsters.

If there is something wrong, then there is only this point.

"Do you have any idea."

"When we arrive here, we have already arrived at the target location of the mission. Our mission is to investigate what happened here, and then leave here alive. Setting up camp rashly will likely attract other things to approach here. If those powerful monsters are still alive In this case, all the people in this camp of ours are going to die." Li Tian looked at Catherine solemnly. He knew very well that if those monsters existed, even if there were hundreds of people, they would not be their opponents.

This time, Luoyang City's decision was simply a mess. If such a major event happened, it was clear that a city lord could not solve the problem. It was necessary to directly contact the more powerful sect.

Only by dispatching some powerful people with extremely high cultivation levels within the sect, it may be possible to investigate clearly.

It's not bad now. The leader is just a fairy-level plan. They thought they could investigate clearly what happened here. It was simply ignorance. No matter how weak the people who were dispatched before, they were still in this place. The bounty who has been playing for so long, they did not make a mistake and died, but because of their strength, there was no room to fight back.

Otherwise, there are dozens of people, but none of them can escape?

The enemy must be so strong that they can kill these people in an instant, so that no one can run out.

"So?"

"We must be separated from the people on this side of the camp. Let's investigate what happened inside." Li Tian glanced at He Jin who was still giving orders in the distance. This guy had no idea what he was doing in the dark. When a torch was lit, they were like a living target, even if those monsters were idiots, they knew where they were.

When the time comes, the team will be wiped out.

"But the strength of the few of us is not strong. If there are really powerful monsters here, we are not their opponents."

"If it's really that great, it's useless to have one more person or two people, and it's useless to have one more faerie-level powerhouse." Li Tian smiled helplessly. The monsters that appeared here can only be more than forty level. Exist, these beasts, I am afraid that it will take Lu Xiu to come over to solve them personally, even if there is one more, can they survive when facing this kind of beasts?

Obviously impossible.

Catherine thought about it carefully: "I called them over, should I tell others about this matter?"

"No need, they won't believe us." Thinking of these people mocking himself on the road, Li Tian knew that even if he told these people this matter, it wouldn't work. Not only would they not believe themselves, they would laugh at him as a Coward, choose to escape at this time.

Chapter 5266: Shadows under the night

Catherine returned soon with someone.

There are only Mengsk and the killer in the cloak, but Mengsk's innermost muttering look seems to be very dissatisfied with the current situation: "Captain, you don't know what this kid is thinking about, just believe him. intuition?"

"We are also bountyers who have performed so many times. Don't you think this mission is dangerous? What we have before us is probably a trap that we have never thought of. Now in this range We have already arrived in the territory of those super monsters, but the whole team has not seen any powerful monsters at all. Do you think these monsters have left here?" Catherine glanced at Mengsk and knew that this guy had always treated Li Tian. There are deep resentments, but in all aspects, Li Tian's ideas are not necessarily wrong.

The place where they camped was already a crisis-ridden place, but now they are camping here and lighting their lights.

But those who often come out to perform tasks are well aware of the consequences of this.

He Jin may have been a powerful general a long time ago, but the life he enjoyed in Luoyang City over the years has already left this general without his previous heroism and spirit, and he doesn't even know where his strategy was lost.

A dark sky, but they are still as hot as in a volcanic crater.

Even the air is filled with a strange fragrance, and these unique differences are telling them what is happening here, far from being as simple as it seems.

When Catherine said this, Mengsk said nothing.

It was the assassin wearing the cloak, stepped forward and stretched out his left hand. It was a pair of withered, seemingly lifeless right hands: "My name is Xing Jun. I am glad to meet you."

"Li Tian."

The two shook hands and they knew each other.

But Mengsk saw that Xing Jun had accepted Li Tian, so he didn't say anything.

"Find a place to hide. He Jin will soon find out about the fact that we left the camp. I think she might send troops to arrest us." Catherine glanced at the sky and then at the stars in the distance. Lighting up the camp, it can be seen that they didn't take this matter seriously. Perhaps He Jin thought that the previous mission would fail because the bounty who received the mission was too weak.

Now he personally leads the troops, and he is still the guards, even if the enemy is strong, He Jin's eyes are vulnerable.

'boom'

Just as they were about to leave, the ground trembled.

Li Tian lowered his body and said in a low voice: "Hurry down and hide your breath."

Several people hurriedly followed suit.

Under the night, the figure of a giant slowly appeared in their sight. When he saw the figure of this giant, Li Tian did not react for a moment. There is such a tall giant in this world.

He is like an Optimus Prime, just standing here, he feels that he has grasped the sky.

Every time he took a step, the whole earth would tremble.

Catherine looked at the giant, and said with a trembling voice: "Beasts above level 50, uni-eyed orcs."

The fiftieth level of beasts means that they have reached the level of the king of gods. Don't deal with them, just go out and destroy a Luoyang City, which is more than enough. It is just such a huge beast, why they have not discovered at all, How is this Warcraft approaching them.

He Jin also felt the earthquake in the camp.

When he walked out of the camp, the whole person was stunned in place, as if he was struck by lightning, his eyes widened, and he looked stupidly at the black figure approaching step by step.

"This...this is..."

"Level 50 monsters, uni-eyed orcs, run away, everyone." The moment a bounty saw the uni-eyed orcs, there were no more people who wanted to continue fighting. They were just a group of gods and gods. In the face of a powerful monster that is far more powerful than they do not know, the idiot will want to continue fighting under this disadvantaged situation.

"Guardians, everyone who dared to escape, kill them all." He Jin roared, with a disdainful tone in his tone: "Look at you humble bountyers, just a group of people who have never seen the world. It's just a hillbilly. I saw the battle between ***** emperors on the battlefield with his own eyes. This is just a ***** king-level monster, scaring you like this?"

"General He, our purpose of coming here is just to know why all the monsters in the mountains fled outside on a large scale. They didn't come here to die. We have already seen the one-eyed orcs. Isn't that enough? This monster is going crazy, and all of us will die in this barren land." Seeing He Jin in front of him and reluctant to let them leave easily, a bounty explained.

In their impression, the one-eyed orcs did not exist in the Broken Cloud Mountains.

But now it appears here, so the previous mutation can be explained clearly. A monster that shouldn't belong here appears here, breaking the balance of the biological chain here, and naturally causing large-scale migration of various monsters. Scenery, they only need to tell the lords in Luoyang City about this news, and they can get their bounty, so why bother to die here?

"Asshole, you must know that I am your leader. You can't leave this place without my order. Do you think you can escape from this one-eyed orc?" He Jin gave a cold sigh, then looked at the crowd. He glanced at it: "Where's the counselor named Li Tian, I just wanted to call this guy to lead the battle, why didn't I see this guy's shadow."

"General, that group seems to have sneaked away."

"What?" He Jin snorted disdainfully, and squeezed the spear in his hand: "Also, when Lao Tzu kills this one-eyed orc, he must let them act for himself when he returns to Luoyang City. Pay the price."

The bounty who was surrounded by the Guards Corps originally wanted to evacuate the battlefield.

But when they saw the sharp blades in the hands of the Guards, they could only bite the bullet and stay one by one. Compared to the well-equipped and well-trained Guards, their combat effectiveness was far inferior to others.

If you really start to think that you don't need a few face-to-faces, you can lose directly.

Chapter 5267: Little loli on the shoulders of giants

‘Boom Rumble’

The entire Broken Cloud Mountain Range was trembling in the footsteps of the Uni-Eyed Orcs, and the broken stones on the hillside also rolled down from the hillside at this time, and rolled directly into the camp.

The spears in the hands of the guards were exceptionally sharp, and with the help of the immortal energy on them, all the broken stones were broken away easily.

"Now listen to my orders, everyone will prepare the long-range spells you are best at, and aim at the eyes of this one-eyed orc. Although such a huge creature has terrifying destructive power, their body is not so agile, and the one-eyed orc It's all about being slow. There is only one eye. As long as we can destroy the eye of this one-eyed orc, he is a blind man and naturally there is no way to deal with us."

Following He Jin's order, the Guards formed a dash in the second half of the camp. Each soldier was holding a spear tightly in his hands. Faint power emanated from it, and his sight was firmly fixed in the one-eyed eye. The body of the giant has not changed.

"Grandma's, it must be impossible to leave. It seems that we can only fight today. If we let others know that we have killed a god-king level monster, it will be very grand to say it later." A bounty stomped As if he had accepted his fate reluctantly, he took down the wide bow and arrow behind him, then bent the bow and set the arrow, aiming at the eyes of the unicorn.

This kind of aura seemed to have the power of contagion. Soon, all the bountyers took off their weapons and prepared to attack.

In the distance, Li Tian, lying on the ground, was witnessing all this.

"How many chances do they have?" He glanced at Catherine and asked.

"Although the one-eyed orcs have a huge body, their awkwardness is even higher than that of other huge monsters. Coupled with their very slow reaction nerves, if He Jin commands well, there may be a little room for survival. , But most of the people in the camp will die. This kind of warcraft is terrifying. Even without eyes, random fighting can accidentally injure several people." Catherine thought for a while, and got a very impressive answer.

There are not many one-eyed orcs in the ***** realm. It is said that they also ascended from the lower realm at the beginning, but I don't know why their bloodline in the lower realm has become extinct, and no one-eyed orcs have soared up since then.

And these one-eyed orcs in the God Realm slowly multiplied, hid in the forest, and became a kind of beast.

Infant one-eyed orcs can reach the realm of gods, and when they fully grow up, they will become a powerful beast of the ***** king level.

This kind of beast has a very hard skin on the surface of its body, and it is absolutely impossible for any weapon to hit these skins to bring him a little typhoid, but the one-eyed orcs have some helplessness in magic.

If there is any weakness in his body, it is nothing more than his eyes and ankles.

A one-eyed orc who is blind and can't stand up is calculated to be a group of fighters who are not powerful, and can be easily handled.

At this time, He Jin is making such calculations.

'It's just a one-eyed orc. I have seen the gods and emperors on the battlefield with his own eyes. Would he still be afraid of a clumsy beast here? He Jin thought to himself that if there was not a one-eyed orc in front of him, but a small, very agile God King level monster, they would choose to retreat without hesitation.

But the one-eyed orcs are different.

Although the battle suffered heavy losses, they could also defeat the uni-eyed orc in front of them.

"He Jin's idea seems to be right, but I feel that his plan will soon come to nothing." Li Tian found an unusual place, sitting on the shoulder of the one-eyed orc without anyone else discovering it. There was a very small figure, because it was under the curtain of night, they even saw the one-eyed orcs vaguely, let alone the figure sitting on the shoulder.

"what happened?"

"There is a figure on the shoulder of the unicorn, who looks like a child. I have heard that this kind of beast is very aggressive to humans, but at this time there is a child sitting on his shoulder. I can only say This one-eyed orc may not be able to infer from the usual." Li Tian looked at the one-eyed orcs, perhaps because they put most of their energy on the group of people in the camp, so they did not find Li Tian hiding here. Et al.

However, the powerful Wia of the one-eyed orcs still gave them a lot of pressure.

The frequency of the ground shaking is getting faster and faster, and it seems that the one-eyed orcs have lost some patience and are ready to use all their strength to attack.

Li Tian slapped on the ground, and he could feel his cheeks hitting the ground constantly. That was because of the earthquake, he would always hit the ground uncontrollably subconsciously, and his cheeks were hot and painful.

"He is ready to start the offensive. He Jin will command the team to kill this one-eyed orc soon, and then lead the remaining survivors back to Luoyang City. By then, we will be the one who is unlucky. I was a deserter when I planted."

"If they can survive, they will die in our hands." Li Tian turned around, glanced at Mengsk, and said in a very serious tone; "I will not allow anyone to threaten my life. ."

Although it is hard to see clearly in the night.

But Meng Si Ke still felt very clearly, the murderous aura in Li Tian's body, and the determination in his eyes.

He has no doubts.

If there are really survivors, then they will become the souls of Li Tian's men.

Unfortunately, they can't do it.

As the uni-eyed orcs got closer and closer, Li Tian finally saw clearly what kind of creature was sitting on the uni-eyed orcs. On the shoulders of the uni-eyed orcs, there was a seven or eight-year-old little loli sitting. Li Tian couldn't tell the clothes on his body, but he was sure that it was a little loli.

A girl with an evil smile on her face and the figure of a little loli, but who looked more like an old witch.

The one-eyed orc just allowed her to sit on his shoulders, without any intention to resist.

Seeing this, Li Tian seemed to have seen what He Jin's fate would be. This little loli must be the key to reversing the situation that everyone had never thought of.

Chapter 5268: Butcher

"Listen to my orders!"

He Jin raised the spear in his hand and stared at the one-eyed orc who was walking in front of him, his whole body was also mobilized.

"3"

"2"

"1"

"attack!"

Suddenly, all kinds of sounds roared over the camp, and the fire attack by hundreds of people was not huge. Even the night was torn apart, with a rare bright color.

In this rare light, everyone saw a scene that they will never forget.

That little loli sitting on the one-eyed orc was also discovered by everyone for the first time at this time.

When He Jin saw this little Lolita for the first time, he seemed to have felt some unusual feelings, and subconsciously wanted to direct the second round of offense.

But they have no chance.

Only seeing the one-eyed orcs stomped on the ground fiercely, the ground in front of them cracked directly. Several unsuspecting bountyers were instantly swallowed by the cracked ground, and the screams lasted for a short time. It was gone in a few seconds.

The sudden crack on the ground successfully disrupted the formation of the camp.

People began to panic, and even fled in panic.

Some people were waiting for the moment when the unicorn fell.

It's just that the sky full of energy gathered into a seven-color rainbow, which looked spectacular and seemed to be invincible, but as soon as the uni-eyed man was approaching, I saw that little loli jump up and waved, Those seven colors of energy did not know why, but they bounced back intact.

Suddenly, the camp was completely chaotic.

There was also a hint of panic on He Jin's face, but at the moment of the enemy, he knew that as the master, he would never lose his mind.

"Offensive, calm me down and continue to attack..."

"Run... The Warcraft is showing off."

"Run away."

At this time, the gap between the bounty and the Guards was obvious. The bounty started to flee almost as soon as they found that the one-eyed orcs could not deal with them, and the Guards still maintained their original formation.

These bountyers didn't have any sense of reason at all, and regardless of what the situation was in front of them, they all fled like crazy.

They exposed their backs in front of this monster.

Immediately afterwards, the fairy qi that covered the sky and sunk through the space and fell into the camp.

‘Boom Rumble’

The dust was flying, and more cracks appeared on the ground, and these cracks swallowed many bountyers.

When seeing the chaos in the camp, Li Tian no longer had the thought of continuing to watch: "We still have a high level of these guys. If they don't run away in a hurry, they might be able to leave here carefully, but look at them. The appearance of escaping, completely ignored, exposed his back in front of the enemy, and let the enemy's attack fall on them. Just this wave alone does not know how many people will be lost."

"This is the disparity between the mob and the real army." Catherine said with emotion looking at the guards still in order.

"Today they will all be wiped out here. I don't know what the identity of that little girl is, but the strength currently shown is far from what we can contend. A beast of the ***** king level must listen to her. This The strength of the little girl has at least reached the level of the gods. Now these people in front of us cannot be the opponent of this little girl." Li Tian looked disappointed, and then carefully stepped back: "Wait until their battle is over. , We rushed back overnight."

"Don't stay and figure it out?" Mengsk asked on the side. Since there are such powerful characters here, maybe something like magic weapon appeared in the Yunshan Mountains. If it can be obtained, it is also good. s Choice.

"Just because of the four of us, it's not enough to even squeeze our teeth. We came here just to see what happened. Although this is not a clear investigation, we can tell them what happened inside this mountain. As for the next thing, let the people in the sect do it. We definitely can't do anything now." Li Tian shook his head. He knows his strength and his abilities. These are beyond the scope of their abilities.

Stay here, there is only a dead end.

"What Li Tian said is right. We can't do anything here. We have seen this one-eyed orc and how amazing the little girl is. For us, the task has been completed, as long as we go back honestly. Just tell him the situation here." Catherine nodded and said with deep experience.

At the same time, the one-eyed orcs had rushed into the camp.

Ever since, a real feast of killing began like this.

No matter how powerful and elite the Guards are, in the final analysis their individual strength is not very strong, just some small soldiers on the battlefield, facing such a behemoth in front of them, even if they are neatly lined up, they can't treat the unicorns.

But these guards didn't mean to retreat at all. Following He Jin's order, they frantically launched a death charge.

And He Jin took a few guards to retreat.

But the moment he made this move, he heard a cold voice from the horizon: "You are a general, leading so many soldiers, but now you are leaving your soldiers to escape. I think you are still Stay here."

'boom'

A ball of fire fell from the sky, like a shooting star.

He Jin looked at the fireball falling towards him, and lightly tapped his legs on the horseback, and his whole body followed into the air. With a flick of the spear in his hand, a fairy energy rushed into the fireball.

There was an explosion sound in the air, followed by countless sparks scattered around, igniting the dead wood branches on the ground.

"Little girl, do you dare to be true to me?" He Jin held a gun in his right hand, staring at his eyes, and said fiercely: "I will personally...ah..."

Before he could finish his words, he was caught by the one-eyed orc directly from the ground with one hand. The fireball was just a cover to lure He Jin to stop, so that the one-eyed orc could launch an attack.

No one would have thought that a one-eyed orc who was supposed to be clumsy would move like lightning, very flexible.

He squeezed He Jin fiercely in his hand, and then threw him on the ground as if throwing a mass of mud, blood splashing...

The ground is cracking, and what rises from below the ground is an unbreakable wall of flames!

Chapter 5269: Survive

Catherine covered her mouth, watching the unilateral massacre in front of her, not knowing what to say.

It was the first time she saw such a tragic situation.

Those bountyers who wanted to retreat directly hit the wall of flames, and their bodies instantly turned into a cloud of smoke. Those who did not have time to escape will be caught by the one-eyed orcs, like a thrown ball, littered everywhere.

Suddenly, there was mud all over the ground...

The battle lasted only ten minutes, and the entire camp was in a mess.

The destructive power of the one-eyed orcs and the little girl is evident. It seems that no one can stand up in the camp.

The burning camp made the world under the night look much brighter, and the **** corpses on the ground were shocking.

Li Tian, Catherine and others lay on the ground, sneaking at the Cyclops.

At this moment, the little girl suddenly turned her head and showed a wicked smile at Li Tian. At that moment, he seemed to feel the cold sweat coming out of his back, and he wanted to stand up uncontrollably. Run away frantically.

But Catherine stretched out her right hand in time and pressed Li Tian.

"Don't move," she whispered.

After the little girl just glanced at it like this, Li Tian was sweating all over. He doesn't even give you an idea now. How did He Jin stabilize his emotions when he was face to face with the little girl?

He was very worried. The little girl had spotted them just now.

No, it cannot be said to be worried, but to say, for sure!

But I don't know why, the one-eyed orcs didn't even walk towards them, but turned and left in the direction they came, step by step, shaking the mountains and slowly disappearing into Li Tian's sight.

Under the night, there is only a burning camp, telling everything that has happened.

Li Tian turned over, facing the sky, looking at the dark night sky, gasping for breath, "She found us."

"But they didn't shoot us." Catherine also knew that the little girl had spotted them.

"Perhaps because the opponents who come here are too weak every time, she needs a more challenging opponent." Xing Jun said in an unprecedented manner. Judging from the face of the little girl, she is obviously very Those who like this kind of killing moment, even if they don't do it themselves, will feel the same passion when watching this monster under their seat.

Li Tian waited for a long time before standing up from the ground. The little girl's eyes remained lingering in his mind until now. He swears that this is the first time he has seen such terrifying eyes in his life.

"Go and see inside the camp. If anyone is still alive, try to take them away." Catherine looked at the camp that was already in a mess and didn't know how many people were still alive.

"I also want to see whether He Jin is alive or dead." There is only one thought in Li Tian's mind, that is to see if He Jin is still alive. The grudge between the two of them must be One is broken.

The four people approached the camp cautiously, and only after making sure that there were no monsters around, did they enter the camp.

The ground was full of stumps and arms, bloody, but Catherine seemed to be accustomed to it, not particularly uncomfortable, and Li Tian was more accustomed to this scene.

At this moment, there was a painful groan in the corner.

Li Tian followed the voice and looked over and laughed.

It can be said that good and evil will be rewarded.

It was not someone else who survived, but He Jin.

Lying weakly on the ground at this time, he could see that he was seriously injured.

"Li Tian...help me...help me..."

"General He, how magnificent you were before, how come you have become like this now?" Li Tian squatted down and looked at He Jin in front of him. His legs had been completely broken during the battle. It was all red blood, and the armor on his body was tattered. If he was allowed to lie here alone, he would be completely dead before long.

"I...I'm sorry to you, but for the sake of what I am now, you shouldn't care about these things with me. I have already paid the price. Why should you continue to care about me." He Jin looked at Li Tian with pitiful eyes and said.

"It is not impossible for us to take you back, but if we send you back, what should you do if you frame us?" Li Tian squinted his eyes and asked He Jin in front of him.

"I have my military seal in my pocket. Losing this thing is to decapitate. If I want to deal with you, you can use the military seal to threaten me." He Jin said this with a very sincere expression in his eyes, but But there is another thought in his mind. He and Lu Xiu have a very good relationship. Even if the military seal in his hand is lost, he will not be punished. Moreover, it can be said that these people in front of him stole his military seal. Up.

Li Tian looked at He Jin and smiled slightly: "He Jiangjun, do you think I am like an idiot?"

"What do you mean."

"If I take your military seal and go back, there will be no more than a dead end. This is not the result I want." Li Tian squinted his eyes and looked at him: "But if you die, all this will happen. It makes sense. You can rest assured that I will tell the Lord Lord of you about you, and I will tell them that you fought a desperate battle with Beasts at the last moment, and you died here in the end."

"you....."

He Jin's words were still not finished after all, the dagger in Li Tian's hand had already cut his throat.

"Just kill it?"

"Things are already in hand. After we have this military seal, we can make up something casually no matter what, but if you are wronged to smear some blood here, it is best to make us disguise as if we are injured. When we arrived, we also had a lot of opinions." Li Tian glanced at Catherine, then took out a military seal from He Jin's body, looked at the corpse on the ground, and sneered: "If he knew to be polite to me before, I won't die in my hands."

"Don't you worry, shall we expose this matter?"

"You watched me kill this guy with your own eyes. If you want to expose it, you will definitely be implicated." Li Tian looked at Mengsk, and didn't even take this guy's words to heart. What can be done if Lu Xiu knows it, it's just a big deal to tear his face with them.

Chapter 5270: doubt

In the silent camp, there was not a trace of vitality. The only four of them who performed this mission survived.

Li Tian looked at He Jin, who was already dead, without any guilt in his heart. This guy was all about targeting himself on the road. He didn't get rid of He Jin earlier, just because they were at a disadvantage, so he looked for opportunities first. Of course it is impossible to let this guy go.

They smeared some blood on their bodies in the camp, and then made some wounds on each other.

In this way, several of them looked as if they had just retreated from the battlefield, completely unable to tell whether the wounds on their bodies were left behind by the monsters or in other ways.

"In this way, even if their minds are full of doubts about us, the wounds left on our bodies can also make them speechless." Although Li Tian and their current state are not serious injuries, they At least it looks like they have really come down from the battlefield. Even if those people doubt it, they must first show evidence to prove it.

But all the people in this camp have been killed, and it is impossible for a second person to know what happened at that time.

"This is almost enough to deal with them. After returning to Luoyang City this time, the few of us will inevitably become curious existences in many people's minds. At that time, we are afraid that we need to face more problems." Catherine glanced at Li Tian. The fact that several of them can survive such a battle is enough for them to prove their uniqueness in this team.

Li Tian and Catherine led the way, and Xing Jun and Mengsk followed behind.

The four of them didn't say anything on the way. They were very anxious along the way. They were also worried that they would encounter Beasts when they left Broken Cloud Mountain Range. However, their thoughts were overwhelming. They went to the periphery of Broken Cloud Mountain Range and they still did not encounter it. A Warcraft.

When you get to the main road, go straight to the official road.

They did not stop, and finally arrived in Luoyang City in the evening.

The deep part of the Broken Cloud Mountain Range is indeed controlled by a mysterious force, so it looks like a shady curtain covering the sky and sun in their eyes. After they leave the Broken Cloud Mountain Range, the outside world is still bright.

When he reached the gate of the city, he had already seen the guards waiting at the gate.

The guards also found them at this time.

Li Tian held up the military seal in his hands and roared loudly: "I want to see the city lord, we have very important things to report."

Several guards looked at each other. One of them saw the military seal in his hand, and quickly recognized it: "It is General He's military seal. The investigation team has returned, and immediately report to Lord City Lord, open the city gate, and let them in. ."

The guards quickly became busy. When they saw the four people who were bloodied and extremely tired, they did not show their admiring eyes.

They also knew that the mission in the legend, some of the people who had returned before, some went crazy very quickly, and while some remained sane, they couldn't be disgusted. Life only lasts for a few hours before death.

No one knows what happened in that unknown area.

No one knew what happened inside Broken Cloud Mountain Range.

But now, they see hope.

This group of people came back alive. Although they were also injured, they seemed to have come back more sensibly and could speak, which meant that the secret could finally be revealed.

Li Tian and others were trapped in the guarded camp and could not enter.

But soon, I saw a team of guards quickly rushed to this side, driving away all the pedestrians on the road, and a knight wearing dark silver armor headed over and came: "Is that you? "

"It's us."

The knight looked at Li Tian up and down. The young man in front of him didn't seem to be so powerful, and he didn't have a dangerous aura on his body, but his eyes always gave people a dangerous strangeness. feel.

Of the three remaining people, one looked like a dangerous killer.

A big boss.

A hot beauty.

How did these three people survive? ,

"Why is General He's military seal in your hands? What happened on this mission? What kind of enemies did you encounter?" He asked three questions in a row. One of the guards was missing. Even General He didn't know where she was, making her a little suspicious of these young people in front of her, and there was a sense of questioning in her tone.

"We will report these to the Lord City Lord truthfully, but if you ask them to talk to you about such things, I am afraid you are not qualified to hear such secret things?" Li Tian looked at the knight in front of him with a serious The tone said: "When General He entrusted this matter to us, he told us to tell the matter only to Lord City Lord, no matter who it is, no one can get information from us."

The knight held the reins, and the eyes hidden under the helmet were a little bit contemptuous and unhappy: "How can I trust you?"

"General He's military seal is in our hands. You should also know that this military seal could not have been stolen by us. If General He hadn't handed it to us personally, I would undoubtedly be seeking my own death by taking out this thing here. This time the matter is of great importance to us. If we can't handle it well, the problems that follow will be unimaginable. If you don't want to cause trouble, just take us to see Lord City Lord. "Li Tiancai will not care about the knight in front of you. What did he think in his heart? He had to meet Lu Xiu in the shortest possible time and tell them about it.

In any case, the things in the Broken Cloud Mountain Range have exceeded their imagination, and the guild must be immediately arranged to stop publishing tasks.

At the same time, send someone to bring in the support of the big sect.

Thinking of the size of the one-eyed orc and the evil smile of the little loli, Li Tian felt that his body would still have goose bumps now, it was an uncomfortable feeling rising from the depths of his heart.

"Captain, these people came with General He's army seal after all. If we delay things, it will be difficult to explain to Lord City Lord."

"Take them to the City Lord's Mansion, but help them bandage while on the road, find a place to clean it, this look is very improper to see the City Lord." The knight snorted coldly, and could only compromise.
