

A Killer 5411

Chapter 5411: Lobby

The atmosphere between the two sides became very weird at this time, and Fan Hong wanted to pull this topic away.

After being accidentally discovered by Li Tian, she has been thinking about how to make up for the current situation and make all this unreal, but she soon discovered that this is simply impossible. .

Li Tian turned out to be very sensitive about this matter. Once he noticed it, he would just bite on the look of unwillingness to let go, and would not give her a little chance to change the subject.

Seeing the solemn expression in his eyes at this time, Fan Hong really wanted to kill Li Tian.

However, the originally very stable plan has become very unstable at this time. There is still an unknown Li Tian in front of him. For this young man, they can understand very little. It is precisely because of this that the two of them Some didn't dare to do it at this time, because they didn't know what Li Tian's current strength was, and it was not clear whether the two men could compete against them.

However, the man who wanted to be able to follow Ningbing's side would certainly not be a weak one, and his strength should be beyond doubt.

In this way, today's things have become a little troublesome. Facing a somewhat tricky Li Tian, it will be difficult for the two of them to get started for a while.

"Do you really think that they will obediently let you leave the ancient world after you have completed your tasks as agreed with you, and then find a place to live in safe and sound seclusion?" Li Tian didn't want to do anything here. In the case of 2V2, he was worried that he would have to expose his identity and strength, so that it would be difficult to deal with subsequent problems.

But if you choose to hide your strength, it is very likely that the ice will also be in danger.

Under this circumstance, he would rather choose to expose his identity than he would never put Ningbing in any danger.

In this way, the best way is to dissolve the alliance between the two enemies from the hearts of the two enemies, and let them start to suspicion each other. In this way, maybe there is no need to continue fighting.

"I know what you want to say, but you want to use this method to provoke our relationship. I advise you to dispel this idea. We know what we are doing." Fan Hong sneered and looked at Li Tian on the ground said, "You should also be very worried about fighting with us. After all, no one knows where an enemy will suddenly appear in a place like this. Even if you can defeat us, you will definitely be seriously injured."

"So if you don't want to die here, quickly disappear from us now. The problem we want to deal with is only the problem with Ningbing, and it has nothing to do with you, but if you take the initiative to find us trouble If you do, don't blame us for being rude to you." Fang Jie also smiled, looking at Li Tian in front of him, and said in a very serious tone.

Li Tian looked at the two people in front of him, shook his head, and said calmly: "I think you two may have made a little mistake in your concepts. The reason why I talk to you like this is only

because you two are now They have been used as chess pieces. After you have been used, there is only one dead end. They are all cultivating immortals. I don't want to see an innocent person die like this."

"What will happen to us, what does it have to do with you, do you need to pretend to be a good person here?"

"Perhaps it has nothing to do with me, but I just like to be a good old man." Li Tian shrugged his shoulders helplessly, then looked at Fan Hong in front of him, and continued: "You have to be clear about this. In the end, you still have to choose a ghost to replace the dead. They can't let you disappear like this, otherwise who will be the culprit in this matter?"

Li Tian's words were very calm, and the key points were very clear. With just a few words, he successfully made Fan Hong realize something.

Looking at Fan Hong, who had gradually become silent, Li Tian knew that his choice was indeed correct. They did not really trust each other, it was just an employment relationship.

This kind of relationship seems very stable, but sometimes it is not necessarily unreliable to use the bond of interest.

"You two are smart people, and you know that Ningbing is now the master sister of Shuiyuezhong, and you also know that this place is in the ancient world of Fengjie, the Lord of the New Moon City, if she is killed by you here If it is dropped, this responsibility must be borne by one person. Are you going to let Feng Jie take it? Or are you coming to the Shuiyue Sect to take it? Obviously this is impossible."

The two were still silent, but there was already thinking in their eyes.

"If this matter has never been able to know who is behind the scenes, many people will probably devote all their energy to investigating this matter. When the time comes to investigate this matter slowly, it may not only be you There are two people, but you two are behind the scenes. Since they will let you do this, it is because they don't want to reveal their identities. Now you don't know that their purpose of sending you here is What?"

"Let you kill Ningbing first, then let you leave the ancient world, and then wait until New Moon City and Shuiyuezhong start investigating this matter, throw the bodies of you two out, you have a reason to fight Ningbing , You have the motive to kill Ningbing, so that if this black pot is on your body, there will be no doubts from anyone, and then they will not continue to expand their thinking to this matter. This is up"

"At that time, do you think the two of you can still get something that belongs to you? You still don't know. You are just a sad ***** in this matter. They don't treat you as their friends at all. , I just want to use you to achieve my goals."

The words were calm, but the views and ideas in it were very clear. After exposing them in this way, both of them were silent, because the two of them could not find any flaws in it.

It was as if Li Tiancai was secretly planning the whole plan, as if he had already known all the thoughts of the black hand behind the scenes.

When Fan Hong looked at the young man in front of him again, the expression on her face had begun to hesitate. Although she hated Ningbing very much, she didn't want to use her life to kill Ningbing.

Chapter 5412: Choice

"I didn't expect your head to be so smart, but you can see so many things from some very subtle details. If you really encounter an enemy like you, it might really become very tricky." Ning Bing, who didn't speak much, didn't raise his hand to brush his hair, and looked at Li Tian in front of him with admiration.

I have to say that this young man has all the good points in his body, and she doesn't know how to describe this man anymore.

Especially in the face of this matter, the handling is simply wonderful.

Just by judging some details, you can find all the clues behind the incident, and even the thoughts of the black hand behind the scenes can be guessed. This kind of thinking logic is indeed very unreasonable, and it is against such people. , Is definitely not a good thing.

And Fan Hong slowly began to lean towards what Li Tian said.

Even if the allies behind the scenes and the benefits guaranteed by themselves are very generous for them two, when the two of them have no lives at all to get such benefits, they gamble their lives here to take risks. , What's the point?

Fan Hong felt that he was still very young. Although his man had left him, it did not mean that he could not find new feelings in the next period of time.

What's more, there is a long way to go. It is impossible for one's own life to be the existence of a man. There will be more things to think about in the future. How can you put everything about yourself on this man?

She now more or less believed the speculations Li Tian said.

"But these are just your speculations. Maybe after we have completed this mission, we can find a very safe environment to survive. Then they will use other methods to uncover this matter. I'm just worried that you two can't beat the two of us. That's why you say so. Otherwise, why are you talking nonsense here? If you two have no problem dealing with the two of us, do you need to spend more time talking here?" Fang Jie glanced at Fan Hong who was already shaking next to him, and hurriedly retorted.

Li Tian smiled and said, "Of course you can think so, and you can have reason to think so, but you think you two know how much the employer behind you knows, they will really follow the previous Do you come to cooperate with you in the same things you said? Believe that not everyone in this world is the way you see them, and their hearts may be more vicious than you think."

At this time, Fan Hong turned to look at Fang Jie next to him, and said, "I think we should just let it go, because even I can't be sure whether they will benefit us in the way they said before. After all, we need to pay too much for this matter, and even our own lives have already bet on this. Maybe those resources for cultivation are very good for us, but giving our lives is obviously not worth it. of."

"You are very smart, and you know that it is the most correct choice to make such a choice at this time." Li Tian smiled with satisfaction, and took a triumphant glance at Ningbing beside him, and said: "When we face the enemy Sometimes you don't need to do it directly, but you have to tell them that they may be used by others, so that maybe you can avoid a battle and casualties."

"What if they don't cooperate?" Ning Bing glanced at Fan Hong and Fang Jie, and said helplessly.

"If they don't cooperate with us, then there is no better solution. We can only choose to kill them." Li Tian glanced at the two people, and then said with a smile.

If things really get to that point, he can only choose to do it, even if he exposes his identity, it doesn't matter.

The strength of these two people is pretty good, but they are much inferior in front of Li Tian and Ning Bing. After all, both of them are outstanding among the younger generation. If you really do something, two pairs of two This will definitely not fall short.

And Fan Hong in front of him probably knew this very well.

First of all, it is still unclear how the fighting power of Li Tian and Ning Bing are together, whether they can deal with the fighting power of the two people after they join forces, if not, then all their performances here today are actually meaningless. of.

"Sister Hong, are you ready to give up like this? We finally found such a good opportunity. When we complete the task this time, we can leave New Moon City with the money and treasures until no one else knows. We live in seclusion in our place, and when we have cultivated very well, who will care about this?" Fang Jie looked at Fan Hong in front of him with an unwilling expression. Both of them have reached the present stage. Should I give up like this?

"Sorry, I don't want to use my life to take risks." Fan Hong shook his head.

"We are all standing here, and our secrets are known by them. Do you think it is possible for us to turn back now? Will the two of them let us go? For them, maybe we are a hidden danger at all. After they left the ancient world, they might be thinking about **** us." Fang Jie still didn't want to give up like this, and continued to persuade.

At this time, Li Tian smiled and said: "At this point, you can actually be completely relieved. Since I have said that I will not deal with you, then I will really not deal with you, as long as you can today. Let's stop here. The two of us can assume that this hasn't happened. You have no problem, Ningbing?"

Ning Bing was stunned for a moment. He was used to dealing with Li Tian and the two men. He didn't expect that he would even ask what he meant at this time, but he nodded quickly and said seriously: "It is indeed this It looks like I still have a lot of important things to do, so I don't want to have any conflicts with you. If you are willing to leave here, I can treat this as nothing happened."

Chapter 5413: Crazy

At this time, Fan Hong was completely shaken.

She didn't know who she should believe in, but knew that no matter what, she couldn't put her life in danger to make this bet. Once she failed, she would really die.

She is just a woman, her wish is very simple, but she is just living a carefree life in this world with her beloved man.

She doesn't want to be an existence above ten thousand people, but she doesn't want to die just like that and become a piece of loess on the ground.

"Fang Jie, forget it, this matter can be regarded as nothing happened here. The two of us have paid a lot, but they never really promised to give us anything. If we continue to work hard like this, it seems to them just an idiot. Are you still willing to do this for them?" Fan Hong shook his head and sighed for a long time: "It's no longer necessary, just like that. Right."

"Sister Hong, we are straightforward and good. After we kill Ningbing, you will find a safe place to live in seclusion with me. Then everything will become stable and we will not be disturbed by outsiders. , We concentrate on cultivating, I am with you, we can live happily, why are you going back now, don't you want to be with me?" Fang Jie's face has begun to become savage, his tone of voice It was also entirely questioning.

Fan Hong glanced at Fang Jie, helpless, and smiled bitterly: "I'm really sorry, I don't want to continue living this kind of fearful life, he is very correct, we can indeed kill them now. , But what happens after killing them, can we really survive in this world? The two of us are just two scattered immortals, and they are completely different existences."

"Hehe, I have paid so much, and I have worked so hard to get such an opportunity, but you told me that." Fang Jie slowly approached Fan Hong with a disappointed expression.

Perhaps it was because he hurt the man in front of him in this way. Seeing Fang Jie approaching him little by little, Fan Hong slowly opened his hands and wanted to hug him: "Trust me, we will leave here now. We find a quiet place and live our own lives. We don't need any money or treasures. As long as we have each other, wouldn't it be better?"

"It's late... everything is too late." The moment Fang Jie approached Fan Hong, his right hand suddenly turned red, and then directly penetrated Fan Hong's chest.

All of this happened at the instant of electric light flint, and even Li Tian and Ningbing did not react.

Fan Hong's eyes widened even more, looking at the man in front of him, who had penetrated his heart with his hands, his eyes were full of puzzlement and pain.

"You never know what I want. If that's the case, you can go to death. I don't need waste like you." Fang Jie smiled grimly, looking at Fan Hong in front of him, appearing increasingly crazy Get up: "Do you really think that I am just a little brother by your side? Everything will follow your arrangements? Everything is obedient. You look down on me too much. I am a man and ambitious. the man."

"why why....."

"They have long known that a woman like you can't accomplish anything at all. They have long known that you might betray them at this critical time. Maybe they will arrange for me to deal with this matter. What you can't do, just Let me do it for you." Looking at the desperate and sad Fan Hong, Fang Jie's face was still very calm. It seemed that there was no remorse at all. It was just very calm. He talked about his hand and withdrew back. .

"Pouch"

The blood spewed frantically along Fan Hong's chest, and the blood was like a fountain, instantly dyeing the entire sky red.

The blood rain accompanied Fan Hong's body, slowly falling from the air.

Li Tian and Ning Bing didn't move, they just watched quietly, at the poor woman, until the end, she was still a poor woman deceived by a man, hoping to have a trustworthy perfect love, but they didn't. Thinking of believing in the wrong man time and time again, he ended up in such a sad end.

I don't know why, Ning Bing looked at Fan Hong's nonchalant state, and felt a little more sad.

Originally, she had no good feelings about Fan Hong, and she also found this woman quite annoying, but now, she didn't even feel sympathy. After all, this woman was just a poor person.

It is not difficult to get what she wants, but it is a pity that the men she met are unwilling to give up power for the sake of feelings.

Fang Jie looked at the bright red blood in her hand, and then laughed frantically, like a madman, with a particularly magical voice: "This **** woman wants to leave here like this. What a joke, we are all here. , Is it possible to give up like this? I still want to kill Ningbing today. As long as I get rid of Ningbing, I can have a reason to do many things."

"They didn't want your chess piece to do it, but now the situation is out of control, so you will do it, right?" Li Tian smiled and looked at Fang Jie in front of him, although this guy shot and killed Fan Hong , Made him a little puzzled, but he also knew that this was definitely not the best result. It was definitely better for Fan Hong to kill Ningbing than Fang Jie.

But now, there is no room for maneuver.

If Fang Jie didn't reveal his identity, it would be impossible to kill Ningbing today. Fan Hong had been moved by Li Tian and made it clear that he didn't want to continue performing this mission.

But Fang Jie didn't want to give up so easily. They had worked hard for this goal for a long time, and finally got into this warm-up match.

It was hard to find Ning Bing in it. When they thought that they would succeed in this way, they didn't expect to be instigated by Li Tian's short words and directly caused Fan Hong to change his mind.

I have to say that women are fickle creatures.

"It's true. I am definitely not the one who is the most suitable for sale, but since the matter has reached the point where it is now, it has nothing to do with it. We have already severed the connection between the ancient world and Fengjie. Now everything is happening in it. He didn't know at all, and what he saw was just an illusion we presented to him. When Sister Feng recovered, he would only see that Ningbing and Fan Hong were dead, and he killed Fan. The red murderer is you." Fang Jie looked at Li Tian in front of him with a smile, and said, "I didn't expect it to be countless, and the ultimate winner is me."

"You think so easily that you have won in this competition?"

Chapter 5414: No scruples

Knowing that they had cut off contact with Feng Jie, Li Tian at this time basically had no worries.

He is like a completely liberated existence. There is no need to worry about what to do if Feng Jie knows his identity. He almost belongs to a completely hidden existence, even Feng Jie does not. Think of anything that happened in this ancient world during this time.

"Why haven't I won yet? Just because you have two people, do you think I will definitely lose this time?" He sneered, looking at Ningbing and Li Tian in front of him, and then shook his head with a mockery. : "To tell you the truth, I have been with this woman a long time ago, just waiting for such an opportunity. We noticed Ningbing a long time ago, but we have never found a suitable opportunity to do it. ."

There is no doubt about this Li Tian, Ningbing was in the sect for a while, even if he came out, he must have followed people around.

Even if they want to do something, they won't be able to deal with Ningbing for a while. In such a situation, Ningbing might seize the opportunity and beat them back.

Therefore, these people have been prepared early.

And Fang Jie, almost when he noticed Ningbing, found an opportunity to ambush Fan Hong's side just right. As for whether all this around Fan Hong was designed by the man behind the scenes, Li Tian didn't know. If it is, then this may be a game that has been in place for a long time, and the behind-the-scenes man who secretly controls everything, the information in his hands is far more complicated than Li Tian imagined.

I have guessed what will happen during this time a long time ago, and this thinking is also quite scary.

"What is the contradiction between me and you? You want to kill me?" Ning Bing frowned. She has always been the master sister of Shuiyuezhong. Even if she does something with others, it must be reasonable first. I don't know when I offended others, why these people go around such a big circle, design so many traps, just to take her life, what kind of contradiction is there between her and these people? Is it worth it for them to do this to themselves?

She didn't understand, maybe Mu Zitian knew, but he might not tell herself.

"You may not know these things now, because you have forgotten the things that happened long ago, and I don't have to tell you the things before. My current task is just to kill you, other than that. It has nothing to do with me." Fang Jie shrugged, and then moved his side: "No one can see here now, so I can fight here without any scruples."

"I'm sorry, I don't need to worry about anything now. I can show my strength without any scruples." Li Tian smiled and glanced at Ningbing next to him, and said, "I'm sorry to keep hiding. You, but you have to believe that everything I do is not directed at you, but reality forces me to do it. If there is anything in this world that I don't want to do, then it's hurting you, what I did. Everything is for you."

Ning Bing looked at Li Tian awkwardly, wondering what nonsense this guy was talking about.

But in the next second, when a terrible aura erupted from Li Tian, she was taken aback.

I thought that Li Tian I saw in Shuiyue City was already very powerful, but compared with Li Tian now, I can't believe that this is a person's aura, which is even stronger than before. Staring, the pressure is even greater.

As for Fang Jie, his face changed instantly, and the aura on his body exploded naturally, resisting the pressure of Li Tianchang.

At the same time, he was also very strange. What he could be sure of was that Li Tian's strength was even stronger than Ningbing. Such terrifying combat power could be regarded as the most powerful among the younger generation in the God Realm, but he It is certain that I have never seen this man at all, and I have never heard of such a powerful character to participate in this young hero meeting.

"Who are you?" Fang Jie asked, what even Ningbing wants to know now, all these changes are so fast, I thought Li Tian's strength was ordinary before, but who knew blinking In the meantime, even Ning Bing felt a bit creepy in the aura of this ordinary-looking man. It was just Li Tian pointing the offensive front towards Fang Jie. If it were Ning Bing, This feeling may be more serious.

Ningbing also expanded her aura, barely making herself more comfortable, while looking at Li Tian, waiting for the following.

"It doesn't matter who I am, but the important thing is that you can't complete your task today. What you like to do most is to treat others as your own pawns. Whether others are willing or unwilling, you will do that. As if you are the masters of this world, nothing is worth mentioning in front of you." Li Tian stared at the Fang Jie in front of him, and said angrily: "I just hate you like this. Behavior, so today, I will let you know what will make me hate you in your end."

"Even if you don't say it, I know who you are. You are probably a young man trained by a certain family. It seems that you should be a big family. The strength is indeed very good, but you must know that the battle is changing rapidly. The strength of every person participating in the warm-up match must be limited to the realm of the gods. With your current strength, it is absolutely impossible to be above the realm of the gods, but mine is different." Fang Jie smiled and watched. Li Tian said slowly: "I don't care about your identity so much anymore. Anyway, no matter who you are, the end result is just death in my hands, so your identity is right. For me, it's not that important anymore." He sneered, squinting at Li Tian.

Li Tian also smiled and said, "I just want to see how much you can do now."

"He may really be more difficult to deal with than we thought. If I guess right, this guy should have used some kind of secret method to seal his strength."

Chapter 5415: Full release

At this time, although Li Tian is still the same Li Tian before, the power in his body has become worrying and cautious to many people. Even Fang Jie, who was very arrogant before, is already watching very carefully. In front of him.

"Sometimes it is not a good thing to know something. For example, now, I know too many things, but for myself, it has become an invisible pressure." Li Tian was helpless. After speaking, a pair of wings slowly unfolded behind him, and his body began to slowly fly into the air: "Since everything here has been cut off now, Feng Jie must have begun to worry about it. What happened, naturally I can't continue to waste time with you here, the battle must be settled quickly."

His body actually appeared like a bubble-like shadow, and then one became two, and then the number increased.

It was the most convenient avatar he used. With this move, he didn't know how many powerful enemies he had defeated. In the face of four Li Tian, Fang Jie didn't know what to say.

"They have been looking for you, and they have always wanted to draw you out, but they didn't expect you to be under our noses. If this happened to them, they would be happy to die." Fang Jie saw the pair At the time of Yu Blade, he already knew Li Tian's identity very clearly. In the God Realm, except for Li Tian, the strongest in the lower realm, who could have this ability?

Wearing a red-winged **** costume, two pairs of wings behind him, red cut in his hands.

This is proof of Li Tian's identity. After killing Lu Wenhui in Luoyang City some time ago, he killed Lu Xiu. This incident directly pushed Li Tian to the cusp of the storm. I thought that this guy might have been hiding somewhere. The place, after all, they had been looking for before but there was no good clue. As a result, this kid was under their noses, and he was beside Ningbing.

But thinking about it, it feels very normal. With such a relationship between two people, it's already not easy for Li Tianma to come here non-stop.

And Ning Bing looked at Li Tian with a serious face at this time: "You are Li Tian? That Li Tian who killed Lu Xiu and Lu Wenhui in Luoyang City and retired all over, is it you?"

"Even if you know my identity, you don't need to be so excited, it's not a very powerful move, and there are people around me helping, otherwise, with my strength, how could it be possible to leave so easily? Luoyang City?" Seeing the doubts and excitement on Ning Bing's face, Li Tian smiled helplessly and shrugged his shoulders: "And now it's not the time when we are talking about this, the two of us are going to kill the guy in front of us."

Ning Bing did not respond, but stared at Li Tian, as if looking at a monster. ,

"What do you mean, isn't it because you want to become an enemy with me? If you are prepared to be like this, you can kill me here, or arrest me and send me to Luoyang City to receive a reward. I will not resist."

Ningbing was still silent.

"Haha, I didn't expect the two of you to become like this one day. When you were on earth, Li Tian was extremely arrogant and didn't put anyone in his eyes. Now? You are as pitiful as a mouse crossing the street. , There are many people who want to kill you, even the women around you have forgotten your identity, and even want to catch you." Fang Jie saw the expression on Ning Bing's face and followed the world. Like the funniest joke on the previous page, he laughed straight out, looking at the two of them without leaving any face.

Li Tian frowned and didn't say anything. His main body was looking at Ningbing, and several clones had been staring at Fang Jie at this time. If this guy wanted to sneak attack, he could do it in time. react to.

The lives of the two of them are very important now, and it is absolutely impossible for them to be buried in such a simple place.

"Since you are the most wanted criminal in Luoyang City, why did you come here to find me? Why?"

"I have said before. I have spent a lot of effort looking for you. I don't have the information like them. I can only rely on my eyes and ears to find where you are. As long as I find where you are, I will never give up on you." Li Tian looked at Ning Bing, a touch of affection appeared in his eyes.

Ning Bing frowned, but didn't know what to say.

"I can fight side by side with you, but it doesn't mean that I can ignore everything you do. I just assume that I don't know who you are." She smiled helplessly, knowing that she might choose to be here before. When no one helps, just let two people fight here, and then let Li Tian fend for himself. It is his own ability to defeat the enemy in front of him.

But I don't know why, seeing Li Tian's very serious and affectionate eyes, she couldn't be so cruel at all.

Li Tian laughed, especially happy: "Even if you have lost those memories, your feelings for me are still beautiful and unchanged. These feelings will change your decision subtly. I believe you should It's clear."

"Don't continue to talk nonsense here, there is an enemy watching us in front of us, and we will fight seriously next." Ning Bing was afraid that Li Tian would continue to talk nonsense on this matter, so she changed the subject hastily. , At the same time looking at Fang Jie in front of him coldly: "I don't know why your eyes are on me. Maybe it really has a lot to do with my past, but even this way I don't It's easy for you to succeed. If you want to kill me, you have to think about your own abilities, whether it is enough.

"Okay, very good, if you two don't join forces, it would be too boring to me. If you two join hands, the battle will become more interesting. Let me see the famous Shuiyuezhong master sister. , And the strongest in the lower realm, how powerful is it in the God Realm." Looking at the two people standing on the same front, Fang Jie didn't have the slightest fear, and started to laugh wildly. Then, he also burst out A terrifying force.

Full liberation!

Like Li Tian, they can fully liberate themselves from the battle here without the attention of outsiders, which is bound to be a very fierce and terrifying battle.

Chapter 5416: Power horror

Li Tian squinted his eyes, feeling the terrifying power emanating from Fang Jie's body. At this time, he couldn't help but frown: "This guy really has done everything before he will appear in front of us. They didn't expect me to appear here suddenly, so for Fang Jie, I was still an unknown, he didn't know how to beat me stably."

"What should I do now?" Ning Bing looked at Fang Jie. The power in the guy's body was getting more and more terrifying, and his body was starting to become weird. His skin was getting darker and darker, appearing on it. There were a lot of strange spells, which looked like ancient formations carved on the body, and as these spells became clearer and clearer, Fang Jie's body became darker and darker, and in the end it even became pure black.

But his eyes have turned red, and in the red eyes, there is a yellow vertical pupil.

The clothes on his body were all shattered at this time, and his body slowly turned into a monster, with a lot of bone layers like armor appearing on it. These bone layers covered his body, probably in Absorb a large part of the damage during combat.

The aura swept over like a storm, and the two people stood in the air, and their bodies took a step or two back.

Li Tianyi looked at Fang Jie in front of him with seriousness. They were already prepared. It didn't matter if there was someone around Ningbing protecting him. In his current state, it would be impossible to deal with an ordinary strong man plus a Ningbing. The problem, but unfortunately, Li Tian happened to be by Ningbing's side, so it was actually very difficult for Fang Jie to successfully complete his mission this time.

However, he is still full of confidence now, feeling the strength of his body, looking at the surprise on the faces of the two people in front of him, and said triumphantly: "You certainly didn't expect my power to be so terrifying, maybe you I also think that my strength is only very average compared to yours. In fact, it is not like this at all. I have always been hiding my strength."

"Your current power is only improved with the help of a spell. This spell will definitely cause great damage to your body. You are sure that after you release this power, your body can still stay here. Can you survive this devastating blow? I am very worried that you will become mud after this." Li Tian looked at Fang Jie in front of him. Although his power had become stronger, he couldn't stop. I think this guy is already invincible.

The more powerful the force, the greater the side effects.

Fang Jie's use of spells to gain such a powerful force in his body is itself a test of himself. The body may not be able to withstand such a force that far exceeds the scale of their bodies, but he released it decisively. Coming out, the most likely consequence of this is that Fang Jie died tragically here directly after this battle.

"You don't need to worry about these. I think you still think about what you should do next at this time. I won't have any hands on you." Fang Jie said as he said. Looking up, with her movements, even the sky above their heads began to become darkened with clouds, lightning and thunder, a gust of wind roared, and the young grass on the ground began to bend down.

This terrible scene is not only for them to see.

At this time, many people in the ancient world can see the situation here, a faraway sky, with such a terrible scene, they can even smell the terrible pressure that is slowly emitted from the air. That is a kind of contempt for the strong for the weak.

Many people can feel that the power in their bodies is also greatly affected at this time, and they can't be released perfectly at all.

"We don't have much time here to continue to wait for opportunities. This guy's strength is very terrifying, and there is not much time left for us. If we wait until Fengjie comes over, I might be very dangerous." This happened. After that, Li Tian was basically sure that Feng Jie would come in person, after all, Feng Tianling and Feng Tianxiang were still in the ancient world.

After something like this happened in the ancient world, the first thing Feng Jie needed to worry about was the safety of these two people.

As the sons of the city lord, they are a bargaining chip in the eyes of many people. If these two people can be caught, they can choose to negotiate with Feng Jie. Therefore, for Feng Jie, the safety of these two sons is far away. Far more important than many things.

After he could confirm the safety of Feng Tianling and Feng Tianxiang, he would set his eyes on Ningbing. If the two of them had not ended the battle here, then everything would be unnecessary.

Ningbing nodded, and then rose into the air. At this moment, the Liangyi umbrella in her hand was shining with a blue light, her long hair started to drift wildly, and her eyes also lit up with a blue light. The whole person slowly floated up into the air, looking like a fairy falling from the sky, extraordinarily beautiful.

She and Li Tian stood side by side. Although the auras of the two were different, they were perfectly integrated.

"The most miscalculated one of your calculations this time is probably because you never thought that I was by Ningbing's side, and it is impossible for you to kill both of us at the same time." Li Tian sneered, he was already at this time. Slowly entered the realm of Xin Ru Zhishui, and countless cyan small swords appeared behind him. At this time, the atmosphere had become very serious. Even Fang Jie in front of him did not become cautious.

The combat effectiveness of the two people in front of them in this short moment is very terrifying, and the most important thing is that their two people's powers did not produce a little conflict, and the auras are so perfectly integrated.

As Fang Jie said, he gathered a few small black ***** and threw them directly towards them.

Seeing the small ball slowly flying towards them, Li Tian's mouth was filled with a faint smile, his right hand trembled slightly, Hong Zhan slowly appeared in his hand, followed by a powerful sword energy, from Hong Zhan Gushing out of the surface.

‘Boom Rumble’

Jian Qi lased towards Fang Jie, actually splitting the ground into two halves.

Chapter 5417: Raging

If anyone is here, they will definitely think that everything they see in front of them is not true, and the battle between these two people is simply too intense.

Just the bursting power of the fairy sword in his hand can tear the earth apart. If they cast spells, then how terrifying the destructive power will be, presumably the entire God Realm will suffer along with it.

At this time, Li Tian didn't pay attention to these superfluous things, his eyes still looked at Fang Jie in front of him steadily.

The small black ball was not directly destroyed by the sword qi, but let them fly out in the other two directions, and then hit the ground. At first there was no sound, just like raindrops, moistening things silently. Slowly swallowed all the dirt on the ground.

Immediately afterwards, a black light flashed by, and several people could not help closing their eyes.

In the next second, there was a huge explosion, the sound was no less than the sound of a meteor hitting the ground, a scorching wave of air rushed over and almost caused the two of them to fly upside down.

When the air wave slowly dissipated and the light in front of them disappeared, in front of them, two large craters like craters had appeared.

As for Jian Qi, the castration was unabated at this time, and it had already reached Fang Jie's.

He raised his hands, and under Li Tian's gaze, he directly grasped Li Tian's sword energy with both hands.

"How is this possible?" Ning Bing screamed out, because the scene in front of him looks a bit scary. Although Li Tian's current strength is still in the realm of **** cultivation, the sword energy he wields with a single sword is absolutely impossible. He was a strong man in the realm of gods, and he could completely follow it with his hands, but this scene appeared in front of them so truly.

Moreover, it was their opponents that showed them.

What a terrible physical strength is needed to accomplish such a thing?

Seeing Fang Jie grasping the sword qi with both hands, and then smashing his own sword qi bit by bit, even Li Tian couldn't help frowning. The bone layer on his body might be like some Like crustaceans, there is this bone layer, and his body's defense power is at a very terrifying level. If they want to kill Fang Jie in front of them, they must destroy this bone layer.

"The bone layer on his body should be very scary. Is there any way you can destroy it from the inside? If we only attack from the outside, there may be no way to destroy the bone layer on the surface of this guy, so our attack It won't make any sense, but he can pose a very big threat to us." Li Tian glanced at Ningbing beside him. At this time, Fang Jie was no longer a pure power in the realm of gods, so even It was Li Tian who couldn't guarantee that he could deal with Fang Jie in front of him.

"I have a way, but this spell takes a long time to recite the spell, and I must not be disturbed during this process, can you do it?" Ningbing nodded, the Shuiyue Sect has many types of spells, naturally There is also this kind of spell that launches an attack on the enemy from within the body, but the prelude to this spell is very long, and generally speaking, it is not used.

After all, you need to stand in one place for a long time and cannot resist. For your enemies, they may like this situation the most. Facing such you, they can attack you more unscrupulously.

Therefore, Ning Bing asked his doubts here, how long can Li Tian last by himself in this state?

How terrifying is Fang Jie's strength in front of him. The two of them had already witnessed it with their own eyes before. They were able to crush Li Tian's sword energy with their bare hands. This was enough to prove the terror of this guy. Li Tian alone could deal with it?

"Try it. If we can't destroy the bone layer on the surface of his body, today's battle will never be won." Li Tian frowned, then turned around with a serious face, looking at the person in front of him. Fang Jie, his body began to evolve again at this time, and there were many spikes on the bone layer. These spikes grew slowly and eventually turned into barbs on thorns.

In this way, in the battle, maybe just a worry, may be hurt by this kind of barb.

Li Tian's expression at this time has become very serious. The strength of the enemy in front of him cannot be underestimated, and he also needs to buy a lot of time for Ningbing. At least when Ningbing casts the spell, absolutely let the enemy in front of him. Fang Jie couldn't get close to her. In this way, she would definitely not be able to retain her power anymore, so she directly summoned the Azure Dragon.

From the last battle in Luoyang City to the present, Qinglong has been recovering from his injuries and rarely communicated with Li Tian.

But recently, he has almost completely recovered. In such an important battle today, Qinglong will naturally take part in the battle.

When the huge body appeared in the sky, he subconsciously glanced at Ningbing, who closed his eyes and cast spells, and then asked, "What are you going to do when you summon me out?"

"Ningbing now needs to cast a spell. The two of us must protect her and prevent the guy in front of him from approaching." Li Tian looked at Fang Jie in front of him and said seriously.

"Do you think that with you and a loach, you can stop me? Your current strength is indeed much stronger in the eyes of many people, but in my eyes it is still nothing more than that, like a joke. Do you really think that you can change the whole world like this?" Fang Jie sneered, slowly condensing a ball of black **** in his hand, but at this time, he did not rush to attack.

"Even if I can't succeed, I still have to choose to challenge. Do you want me to be indifferent while watching you kill the two of us?" Li Tian sneered, and the red cut in his hand let out a soft whisper. He probably wanted to continue fighting, his eyes flashed, and then he sneered: "There is not much time, let's end the battle as soon as possible."

Countless cyan small swords attacked Fang Jie, and Li Tian's several clones and main body also attacked at this moment.

The prehistoric blue dragon directly condensed an enchantment and enveloped Ningbing, and then even his body hovered beside Ningbing, so that no matter who it is, who wants to get close to Ningbing, he must destroy the prehistoric blue dragon in front of him. .

However, obviously they can't kill it in a short time.

Chapter 5418: Jade Water True Art

Ning Bing closed her eyes, her long eyelashes beating from time to time, and the black hair behind her was also in the huge energy field, turning like catkins. She stood in her original position, like a fairy. .

The red lips opened slightly, seeming to be thinking of a very ancient and mysterious spell.

As time passed, many blue elements appeared around his body.

These Li Tian can clearly feel that this is the water element, and it should be one of the most powerful methods for freezing ice this time. Using this spell, directly destroy the bone layer of the guy in front of him from the inside. In this way, Li Tian might hurt the guy in front of him in the next battle, and thus truly win this battle.

At this time, he and Fang Jie were fighting each other.

The energy produced by two people is like a nuclear bomb with one nuclear bomb, hitting the ground, causing the entire grassland to become messy at this time, just like the end of the world. Probably many people will not believe in the two powerhouses. The battle between them will be fierce to this extent.

This is indeed the case, even Li Tian couldn't believe that the battle would be so fierce.

When one after another energy **** hit the ground, he was already out of breath. Fighting of this intensity was an extremely arduous consumption for him, and his body was almost unable to withstand it at this time. Stressed out.

No matter how he attacked, he could never destroy the bone layer of Fang Jie's body.

"Don't do useless work anymore. No matter how powerful you are, you are only a fellow at the realm of spiritual cultivation. The gap in this realm cannot be changed with your acquired efforts. You treat me After launching so many attacks, I have probably consumed two-thirds of my body's celestial power. In this state of consumption, I can hardly believe that you can still pose a threat to me in the next battle." Fang Jie smiled and looked at Li Tian in front of him. The feeling of his body was perfect at this moment.

This invincible existence, this unbreakable defense, made his whole person deeply intoxicated.

Faced with such a terrible opponent, the enemy has no way to attack.

"Slow-winded, if you think this is over, then give it a try." Li Tian sneered. Fang Jie didn't know that he was different from ordinary immortals, although this kind of battle consumed the immortal power in his body. , But he himself is very pure Xianli, after his soul power has become very powerful, his body has now surpassed many people's imagination.

If it is according to the general immortal, it has indeed consumed two-thirds of the strength now, so it is undoubtedly very disadvantageous in the next battle.

But for Li Tian, it only consumed one-third of his strength.

He still has a large part of his strength, and he can continue to fight, and even after Ningbing destroys this guy's bone layer, Li Tian can still launch an attack, and he can still attack with equal strength.

This is the advantage of strong soul power. Even when his body is in battle, it will still be in an instinctive state, absorbing all the free energy in the air and transforming it in Li Tian's body. Become an immortal force, so for Li Tian, he hasn't changed at all at all, and the power in his body is constantly getting bigger.

It's just that this process is very slow.

As for Fang Jie in front of him, he must not be able to detect such a thing, so he still naively believes that the immortal power in Li Tian's body is almost exhausted, and the ice on the other side is still at this time In the state of casting the spell, it still seems to take a while.

"The celestial power in your body is almost exhausted, and I can also feel that you are already in pain now. Why should I keep on doing this? It's better to give up honestly and let me kill easily. If you two, so you don't have to endure this kind of pain, and I don't need to continue to waste time

on both of you. Isn't this a two-shot thing? Why do you idiot want to fight me like this." Fang Jie Staring, looking angrily at Li Tian in front of him, he asked very puzzled.

"Don't be proud of it too early now, I haven't failed yet." Li Tian roared, the red blade in his hand lit up with a bright red light, as bright as blood, and then with the roaring wind, fiercely The cut down. 'boom'

The dirt on the ground under the feet of the two people splashed, and a gully that was chopped down by the fairy sword appeared instantly. The two sides were separated by a distance of about five meters, and they were not bottomed. They may have been opened directly near the crust.

But it was such a terrifying sword that Fang Jie easily grasped at this time.

"I really don't know good or bad boy, I just want you to leave this world happily, so that you will not feel any pain, but in your opinion, thinking like this is an insult to you Same." Fang Jie smiled grimly, looked at Li Tian in front of him, and asked with some doubts.

"Of course, the two of us have not yet fully demonstrated our strengths. It is impossible for you to defeat the two of us like this." Li Tian's Hong Zhan is still one by one. Pointed towards the bottom, but Fang Jie's power was also very strong. Holding Hong Zhan tightly with both hands, Li Tian couldn't get into a millimeter at all.

It was really terrifying strength. At this time, even Li Tian had to say that when facing Fang Jie in front of him, he really felt pressure that he had never had before.

But at this moment, Ning Bing suddenly opened his eyes and shouted: "Xuanyin's witty words Hua Qiankun, one finger points to thousands of mountains, hundreds of birds return to their nests and phoenix is auspicious, one sword points to ten thousand Yuhua.

As the sound rang, an emerald blue water element turned into a dragon, twisting its body in the air, and flew toward Fang Jie.

And Fang Jie's eyes flashed with fear at this moment: "No...impossible..."

Jade Water True Art is a very famous spell of Shuiyuezhong. It specifically launches an attack from the inside of opponents, destroying their bodies from the inside out. Of course, although this spell is very destructive, it is also highly criticized. It takes a long time to chant the spell to activate this spell. If it is a one-on-one battle, who will give you this opportunity?

Chapter 5419: The armor is broken

After all, everything in the battle changes rapidly, and perhaps just a moment of negligence may cost you your life.

Ning Bing almost completely blocked Li Tian's fate just now. She knew very well that if the bone layer on Fang Jie's body could not be destroyed, no matter how powerful the spells they used together would be meaningless. The bone layer of this guy is extraordinarily weird and terrifying, it is not the existence they can imagine, and ordinary power attacks on it will not produce any effect at all.

In this way, Ningbing can only choose Yushui True Art.

However, it took a long time for the spell to be cast, and in order to delay the time, the battle between Li Tian and Fang Jie was obviously quite intense.

Seeing Fang Jie's body intact, and Li Tian's body has many scars, it is not difficult to see that this guy should have been injured in the previous battle, and it is really not good to face such an enemy. Deal with it, but even at this moment Li Tian didn't choose to take a step back, he always stood firmly in his position, working very hard to protect Ningbing.

The ground is in a mess, just like a battlefield in a world war.

At this time, Fang Jie was working hard to open a barrier in front of her: "This is impossible, this is impossible. How can your spells be released so quickly? I don't believe anyone can do this. To the point."

"Is this kind of thing very unexpected to you? But it is not so unexpected to me. I spend a lot of time on chanting spells every day, so that I can perform these faster in battle. Spells." Ningbing smiled and looked at Fang Jie in front of him, and exhaled deeply. For her, Yu Shui Zhen tactic was also very expensive.

But all this is worthwhile, as long as it can destroy the bone layer of the guy in front of him, all these efforts are not in vain.

"Impossible, ah..." Fang Jie still didn't want to believe it, but it didn't make any sense, because the energy had entered his body, and immediately after his screams, his body started Many bamboo shoots of turquoise energy jade appeared, these jade like bamboo shoots after rain, slowly growing out of his body, completely destroying their body surface.

At this time, Li Tian's expression had become very serious.

He looked at the jade that grew out of Fang Jie's body, and at the same time, he was not surprised at the power of these spells. Such a hard bone layer was like a thin piece of paper in front of this spell. It didn't have any effect, it was easily destroyed by Ningbing. If it was just an ordinary fairy, wouldn't it be dead now?

When Li Tian thought of this, his heart was cold, it was because such spells were too scary for them.

Fortunately, they are not without the power to fight back against such spells.

"What are you doing in a daze? The bone layer on his body has been destroyed. This is the best opportunity for us to launch an attack." Ning Bing saw Li Tian still stunned, as if thinking about something, hurriedly. Reminded this time.

Now Fang Jie was still immersed in physical pain, and there was no way to escape from this pain.

Just as the two of them said before, although this kind of charm enhanced his physical ability, but the same also caused him a lot of trouble, just like this.

The destruction of these bone layers may not be so painful for ordinary people, but because of the spell, for Fang Jie, such pain is magnified geometrically. Who can bear such pain?

Fang Jie's current feeling was as if his skin had been peeled off forcibly.

Such a terrible feeling, of course, would make him unable to wake up.

"We can't kill this guy. I want to know where the black hand is behind the scenes and who is planning this series of things." Li Tian slowly raised his right hand, and in his hand, a handful of

emerald green The little sword slowly condensed, he glanced at Ningbing, and said: "Next, leave it to me to do it, you don't care."

"Why should I do nothing at this time?"

"You haven't recovered your previous memories. Even if you know these things, they are just adding trouble to you. I don't want to see such things happen, so I can worry about these things alone. , You don't have to worry about anything." Li Tian said as he slapped his left hand fiercely, huge energy surged directly from his hand, pushing Fang Jie's body towards the ground.

At the same time, the cyan little sword swooped down and hit Fang Jie's body fiercely.

The moment the small sword hit Fang Jie's body, Fang Jie's screams had become more tragic. The bone layer on his body, like the surface of a rock that had been destroyed, was falling off piece by piece. , And there is a layer of meat like peeled shrimp. At this time, the blood is permeating out bit by bit, which looks particularly nauseous.

Soon, Fang Jie was really a real person, and turned into a humanoid shrimp, and the blood stains on her body were even more terrifying.

"It's not impossible that you want to live, but as long as you explain the black hand behind you, where he is, I can let you live." Li Tian looked at Fang Jie in front of him and asked coldly. Tao.

"Ha...haha, you...you won, your strength is indeed unimaginable...whoop, but you want to...boom..."

Before Fang Jie had finished speaking, the whole person exploded.

An enchantment was opened in front of Li Tian in time, so that he was not contaminated by the filth of these flesh and blood, but at this time he also frowned. This behind-the-scenes method is a bit terrifying, even now. He didn't want to let Fang Jie go in front of him, or that he hadn't thought of letting Fang Jie walk out of the ancient world alive from the beginning. This person's heart was really vicious.

Turned around and glanced at Ningbing, she was also looking here, but there was a moment of confusion in her eyes.

Li Tian shook his head and said, "It seems that we have failed. This man behind the scenes is far more careful than we thought. There is no way to find any clues from him."

Chapter 5420: Feng family

Li Tian looked at the blood stains before him, and couldn't help frowning.

I originally thought that I was almost the same, and this time I was able to grasp the handle of the black hand behind the scenes, but if I worked hard, I should be able to successfully expose this guy to his feet.

Controlling Fang Jie, he also had many ways to find a little clue from this guy.

Who would have thought that there would be such a terrifying vicious spell on Fang Jie's body. The moment he failed, it also marked that Fang Jie had only a dead end in front of him, and the black hand behind the scenes would definitely not be left to him. His slightest chance.

Even Li Tian has some admiration for how careful this person is doing things.

From the beginning of the layout to the present, there is basically no clue left to them. It seems that they have already calculated all the things that may happen later, so they have begun to avoid the future before all this has happened. Risks are gone, and such an opponent is enough to make Li Tian find it difficult to deal with, and at the beginning, he can calculate all possible things.

"Maybe it's just that we think it's too difficult, maybe the opponent doesn't have too much thoughts on this matter at all." Ningbing next to him looked at the solemn expression on his face, and whispered at this time: " They just did this kind of backhand very often, and killed their assassins after things failed, or that they didn't intend to let Fang Jie leave the ancient world."

Just like what Li Tian said before, after this incident, Feng Jie must investigate what happened.

In order to ensure that they are not exposed, they must leave a person behind.

Obviously Fang Jie is such a poor creature. No matter whether he can successfully kill Ningbing today or not, they will all die here. It is impossible to leave the ancient world, and the companion they have been expecting never thought of letting go. Pass them.

Thinking of this, Li Tian sighed uncontrollably. The fierceness of his opponent was one of the few people he had ever seen. He arranged his subordinates on a mortal path. It's terrible.

"Since they can do such a thing, it is very likely that they will do something more excessive. I think you still have to be careful of these people around you in the next period of time." Li Tian looked at it. Glancing at Ningbing, she still didn't know how terrifying their enemies were. She also knew that they were in the God Realm and there were many enemies hiding in the dark.

After Li Tian came to the God Realm, he naively thought that he would probably have a long time to practice well and make himself stronger.

As for the enemies in the lower realm, although they know that they will set their sights on the two of them, after all, the time of their ascension cannot be determined, and no one knows where Li Tian and Ningbing have ascended to. , It is certainly an impossible thing to use such a simple method to find the two of them in this vast God Realm.

So from the beginning to the present, Li Tian didn't care about it.

It was until today that this incident made him truly realize that danger has always lurked by their side. These enemies, who have never shown their feet, are even more dangerous for them. These people do not do anything. Forget it, once you start, you must have everything designed. By then, it will be difficult for them to restore this situation despite all the disadvantages.

"Can't you tell me what is going on? Even knowing these things is not very good for me, but if I think nothing happened at this time, my heart will still be very natural. To think about the whole thing."

"These questions can't just tell you one-sidedly. The whole thing has a very clear outline. Even I don't know how to tell you, just let you know that we still have many enemies in the gods. , It's just that they are very clever and didn't choose to do it. Instead, they waited for us to reveal a little flaw and seize the details of this short moment to start with us." Li Tian shook his head. It is more difficult to calm my mood afterwards.

"Don't you worry about me telling others about your identity? I didn't expect you to be Li Tian who was making a fuss in Luoyang City. If you let them know about this, you will definitely feel very

surprised." Ning Bing smiled and looked at Li Tian in front of him and said, she knew that this man must be very worried that she would say all these things today.

Therefore, at this time, I want to use this method to threaten Li Tian obediently.

But she still underestimated Li Tian's firm willpower in such matters. Since she said she was unwilling to say it, Li Tian would definitely not tell Ning Bing the matter under inappropriate circumstances.

"Although I don't know what happened to you, there are some things you should understand. You have lost a very important memory in your mind. It is impossible for me to tell these things until your memory is restored. Yours, even if you threaten me in this way, I won't tell you." Li Tian shook his head, smiled, and said seriously.

Ning Bing looked at him, a little frustrated, and when he looked at Li Tian's eyes, he knew that this guy didn't seem to be joking with him at all.

If this method can't make Li Tian obediently admit defeat, then she has no better way.

"You are not at all afraid that I will really expose your identity. Then you will become the target of many people. Just in the New Moon City, you don't know how many people will want to kill you." Ning Bing looked at him and said solemnly.

"I believe you, if you choose to betray me at this time, then I have nothing to say. When I fully demonstrate my strength, I have already made such preparations." Li Tianyi said solemnly. Then, he slowly put away the Great Blue Dragon. During this process, he always had a very calm expression, without any worries at all.

Ning Bing looked at his expression thoughtfully.

But at this moment, the sound of a sword sound came from a distance quickly, flashing through the air like thunder and lightning, and then I saw a blue fairy sword attacking Li Tian from the air. come.
