

A Killer 5491

Chapter 5491: Yasha Little Monster

Li Tian's body was also a bit cold at this time. On this side, the profound Yin Qi was obviously stronger than outside, and his fairy power began to be consumed wildly.

When they were outside before, the three elders did not do anything, but now a light film of light slowly appeared on their bodies, which looked like a plastic wrap to protect their bodies. surface.

"Everyone is urging their own immortal powers. If you want to continue walking here, you must take out all your abilities, otherwise you can only die here today." Yun Yi snorted. Then he started to walk towards the central pillar.

This is a very sturdy one. It looks like it needs seven or eight people to hug it. On this pillar, you can see a lot of strange rune patterns. These rune patterns are stained with blood, like a lot of life. Same as blood.

If you want to enter the second-tier prison, you must open the teleportation circle on this pillar so that you can continue.

Yunyi is strong and has a lot of knowledge. It is natural to see that above these beads is a teleportation circle, but if this teleportation circle wants to open, it is not so easy. Looking at the blood stains on it, it seems that you want to open this method. Xu Yang consumes a little life before the formation.

'This magic circle looks very old and evil, and it's in a place with heavy yin. If you want to open this place, you may need to shed blood and sacrifice.' Yun Yi thought to himself, then turned around and glanced at Juyue, and said: "You will investigate here to see if there are any strange creatures. After all, this place has reached a level of prison. There must be strange ghosts and spirits. Something."

Ruyue was very reluctant in her heart. Even though they were immortal cultivators, they also didn't like these strange ghosts and spirits. They were just girls after all.

But at this time, Yun Yi gave the order, even if there were one hundred and ten thousand unwillingness in his heart, he could only agree at this time. After nodding dumbly, he began to walk inside.

Except for the huge stone pillar in the center, they could see clearly. At a greater distance from them, they could only see some thick black fog, which covered the whole world.

The team began to settle down at the entrance. Yunyi stood in front, chanting a spell, and slowly condensed a blue ball of light in his hand. The lines on it slowly turned into Watermark, the world in a mirror is slowly forming.

Li Tian can't control their affairs at this time. There is also a force in his own body that is crazily trying to rush out at this time, just like a sharp blade that wants to break out of his body, he can't control it at all. Even the Hong Zhan in his body was also following the faint power, and he could feel that his control over Hong Zhan was gradually becoming weaker.

The previous Hong Zhan was like a real weapon. Although sometimes there were some different emotions in it, but now it is more like an individual existence. The soul inside Hong Zhan seems to be slowing down. Waking up slowly.

Tang Feifei, after entering the God Realm, she has been sleeping in the Red Sword. Li Tian originally thought that her soul should have been thoroughly purified after ascending to the God Realm and became a real sword spirit.

At this time, it seemed that it was not like this. As Li Tian's strength improved little by little, the ability that his body had not shown before, was slowly recovering at this time.

Especially, now, he felt that his body was gradually evolving into another process.

When the team is advancing, Li Tian always sticks to the wall, placing his palm on the wall intentionally or unintentionally. These walls are still very cold before touching them, but at this time, they feel like warm water, always feeling a familiar energy. , Flowing slowly into his body like a liquid, the fighting instinct that had previously appeared on the earth was slowly awakening at this time.

He didn't know the meaning of the existence of the Xuan Yin Temple, but he could actually feel such a change here, which could only show that there may be some connection with the earth.

Only when he was on earth did Li Tian feel such energy.

"Xuan Ning, what are you doing?" Yun He asked angrily when he saw Li Tian leaning on the wall.

Li Tian glanced at Yunhe awkwardly, lowered his head and said nothing.

In fact, he didn't know how to speak. When he killed Xuan Ning before, he was very fast, and he had never heard the tone and tone of this guy. At this moment, Li Tian looked at Yunhe in front of him, It was silent pretending to be afraid. Of course, it is impossible to say anything. Otherwise, once the stuff is revealed, the surrounding area is full of enemies. If he wants to get out alive, he can only hope that a master of the **** emperor level will drop from the sky and save him. Up.

But obviously, such a thing is basically impossible.

Yun He snorted coldly, seemingly dissatisfied: "You kid, be honest with me, don't think about making trouble, if there is any problem, see how I can deal with you."

Seeing the gloating expressions of people around him, Li Tian also had a helpless expression at this time. He thought that Xuanning's staff was really bad. No wonder he has been pretending to be like this, no one can recognize it. Basically, it's a guy that everyone finds annoying. Of course, they don't care how such a guy has changed.

Not to mention that Li Tian's appearance is the same as Xuanning's. Even if there is a little difference, not many people can tell.

This is the sadness of Xuan Ning, in this precept hall, it is equivalent to a dispensable existence.

Seeing Yun He noticed him, Li Tian didn't dare to continue putting his palm on the wall, for fear that Yun He would notice the clue.

Suddenly, there was a noisy sound in front of him, followed by screams one after another. It was the voice of the Shuiyuezhong disciple, and among them was the voice of Ruyue screaming for help. In a moment, the team began to change. It got to be rioted.

Li Tian's eyes were very good, he saw a familiar creature.

Yasha!

And the Yasha here seems to be quite similar to the Yasha clan I have seen before.

'I didn't expect that there really were Yasha clan in the God Realm. I thought they were completely extinct.'

Chapter 5492: Wake up again

The Yasha clan is no stranger to Li Tian. The previous Void Yasha, Feitian Yasha, and Dixing Yasha helped him do many things in the lower realm. He also promised these Yashas, and one day revenge for them.

However, after coming to the God Realm, the three Xiaoyasha seemed to be in the last battle before, in order to protect themselves and destroy the entire Nether Realm together.

Originally thought, they might no longer be in his body.

At this time, there was a kind of throbbing again. It was a kind of life energy fluctuation. It was different from the lives of the previous three Xiaoyashas, but it was quite similar to them. With the appearance of these energy, a rather strange one The voice suddenly rang in his mind: "Master, be merciful, don't let them hurt these Yashas."

"I'm afraid it will be very difficult to help." Li Tian took a look. He is now mixed in this. These Yashas are their enemies. According to the rules of the Discipline Hall, facing these Yashas, they must be unforgivable. They have never been kind to their enemies.

"The Yasha clan itself is already very rare. It is now impossible for us to be reborn again. There is only a ray of divine consciousness that has been preserved by Red Slash. Before, I have been sleeping until I feel the Yasha clan here. Energy fluctuations have allowed us to wake up again from our deep sleep. If the master is willing to promise us to save the remaining Yasha, we are willing to let the master wake up again."

"What does it mean to wake up again?"

"The master is the strongest person in the lower realm, and is also the first supernatural person to ascend in the God Realm for so long. There are still many things in your body that have not been developed. These all require specific conditions to unlock, that is Achieve what I call the awakening. After a little awakening, you will gain the ability again, and it will be stronger than the previous ability. This is also a strengthening of your body in the process of ascension to the gods.

"The strange voice said again.

Li Tian couldn't tell whether it was the voice of Void Yasha or the other two Yasha's, but this sound was more like their voices folded.

His expression was a bit sluggish: "What is the price?"

"Our divine consciousness will completely disappear and become the trigger for the master's awakening."

"Then I would rather not have this awakening power."

"Master, we are just a bonfire inside Red Slash at this time, and there is no possibility of being reborn again. As time goes by, if we don't fall asleep, we will inevitably disappear gradually. In that case, why not let you wake up directly? "

Li Tian was reluctant, but still unwilling.

But this strange voice has a very firm attitude: "The Yasha clan depends on the master. I can feel the anger on them. It is a kind of enslaved anger. These Yashas are now enslaved. If possible, You can conquer all these Yashas and become a big capital for you to conquer the God Realm. Now what we can do is to wake you up again."

Before he refused, his body suddenly trembled.

That was the fluctuations emanating from the inside of Hong Zhan. A gray energy slowly intruded into Li Tian's dantian. The starlight in the dantian was lit up little by little at this time, and then he A strange ability also appeared in his mind.

Different from the previous three Xiaoyasha's abilities.

This is an ability that combines the three of them. It can directly shatter the void and disrupt the space, allowing Li Tian to appear anywhere within a radius of tens of miles. However, the release of this ability will affect the immortal power according to the distance. The consumption is also quite huge.

This is a bit similar to space teleportation, but space teleportation can only make oneself instantaneous, but the current ability can make the enemy or one's own companion teleport.

'If this skill is used well, it will be a magical skill in battle. 'There is a touch of sadness in Li Tian's heart, but there is also some joy at the same time. This is an ability that can give him a huge help in the battle. Although it is the awakening of the three small Yasha's divine minds, it is indeed It brought a lot of help to Li Tian.

Now that their lives have come to an end, they are probably using another way to continue their commitment to themselves and stay by their side.

Li Tian thought about it, then stepped forward and looked at the disciples of the Yasha clan and Shuiyuezhong who had already started fighting: "Master, I have a way to solve these Yashas."

"Do you have a way?" Yunhe didn't realize what was special about Li Tian's voice. Perhaps it was the reason why Xuanning rarely spoke before: "The strength of these Yashas should have been weak, but they were affected by these profound Yin. The influence of anger is indeed very difficult. Our vanguard team has already suffered a heavy loss. What can you do?"

"I learned a spell before that can directly open the tearing space, involving the surrounding creatures, and entering this tearing space, there is only a dead end." Li Tian glanced at Yunhe in front of him. Said.

Yun He looked up and down at Li Tian, frowned: "How did you learn this spell?"

"I just found a trick cheat by accident. I practiced it under curiosity. I didn't expect it to be successful." Li Tian casually fabricated a lie. Anyway, he has now learned the ability to move in the void. This name is also his Based on the characteristics of the ability.

With Void Leap, even if you can't deal with the two elders in front of you, you can still choose to escape.

He is already invincible, and of course he won't worry about anything.

Yun He looked at Li Tian, the expression in his eyes became more and more serious, even with some doubts: "Why didn't I know before, you have this ability?"

"Master, what's so suspicious of this? This idiot usually does things alone. He is a very withdrawn character and rarely communicates with us. We may not know what tricks he will do." A precept next to it. Tang's disciple glanced at Li Tian, and said disdainfully: "If he can really deal with these Yashas, he can give him a try. It would be inappropriate for us to consume so much manpower and material resources here. ."

Li Tian glanced at the disciples in the Discipline Hall, thanked him secretly, but said nothing.

Yunyi seemed to hear something in front, walked over and said, "What's the matter?"

Chapter 5493: Void Jump

"This kid said that he has a way to kill all the Yachas here." Yun He glanced at Yun Yi and said lightly.

To deal with these Yashas, Yunyi is of course not impossible, but the immortal power in their body has been consumed a lot when resisting the aura of the profound Yin. Every time they cast a spell, they will inevitably consume a huge amount of immortal power in their body. What powerful enemy will be waiting for him? In order to ensure that he can continue to go on in the future, Yunyi must retain his strength to meet emergency needs.

In addition, it took some **** sacrifices to open the magic circle before, so he just let the Shuiyuezhong disciples go up and fight against Yasha, but he didn't take any action at all.

The beautiful name is to give them a kind of experience, but in fact, he just wants these cannon fodder to replace himself to consume his strength, and he has to retain his strength to deal with the enemies behind.

At this time, when Li Tian said that he had a way, he raised his brows: "There are hundreds of Yashas here, and the strength is not bad. Are you sure you can deal with it?"

Li Tian nodded: "However, my immortal power alone is not enough to destroy so many Yasha, so I need many senior sisters and younger sisters to help me."

"Ru Yue, immediately gather a team to help Xuan Ning and eliminate the Yacha here." Yun Yi turned around and glanced at the blood-stained Ru Yue in the distance, then looked at Li Tian and said, "I hope you really have Way, otherwise I will let you know the price of nonsense."

Li Tian nodded awkwardly, watching Ruyue select a part of the disciples behind, and then said to Ruyue: "You only need to hold hands and transfer the immortal power from your body into my body. ."

"Is this okay? These Yashas are very powerful. When we cast spells, do we need cover?"

"There is no need to cover, I know how to deal with them." Li Tian said lightly, and he had already made a very bold decision in his heart. He wanted to transfer these Yasha clan to the small world in

his Dantian. , During this period of time, a small world has just formed in his Dantian. Although this world is still barren, there is probably no problem accommodating these Yakshas to survive.

As for the so-called transmission power, he is indeed like this now.

Transferring so many people into his own small world must consume a lot of immortal power. He himself is unwilling to consume his own energy. These Shuiyue sect disciples can help him, this is the best.

Although Ruyue had doubts in her heart, she believed a lot when she saw Li Tian's serious appearance.

Next, Li Tian walked to the front of the team, and as the thick black fog dissipated, they also showed the real appearance of a prison in front of them, which looked like a square, at this time in this square. You can see a lot of tall Yashas, these Yashas look like a little giant, their bodies are much larger than ordinary Yashas, and their shots are very harsh.

Many of the Shuiyue Sect's disciples were directly torn into pieces in their hands, and there was no feeling of pity and pity at all.

At this time Li Tian appeared in front of them. Many Yashas had already pointed their fingers at him. Several Yashas began to rush towards here and the sky, fast, like a small train.

Li Tian's heart was very nervous. It was just that it didn't make any sense to transport these Yashas to the outside of a layer of prison. Since he wanted to save them, he had to move them to a safe place.

And near here, the truly safe place should only be the small world inside Li Tian's body.

Only this small world is a place that no one can enter except Li Tian. Placing these Yashas in their own small world can also make Li Tian truly relieved.

He stepped forward, looked at the Xiaoyasha rushing in front of him, and then silently grabbed the soft hand of Ruyue next to him.

The ice-cold little hands were extremely soft to the touch, making his whole body trembled, and couldn't help but glance at Ruyue next to her. She was also nervous at this time, perhaps she had never touched a man before.

"Don't think about it, Yasha is about to attack, and then quickly transfer your immortal power into my body." Li Tian threw all the thoughts in his mind behind his head, taking what he is now With his appearance and reputation in the precepts hall, I would like to come to Ruyue and would not have any interest in such a man, and would hate Xuan Ning a lot, right?

Following Li Tian's reminder, several of them began to slowly infuse the fairy power into Li Tian's body. The moment the fairy power was transmitted, Li Tian's entire mental state also changed at this time. It was like changing someone, a sharp light flashed in his eyes, and then a black hole that looked like a black appeared behind Li Tian.

The moment this black hole appeared, the expressions of several elders all changed.

They have seen many powerful fighting methods before, but they saw Li Tian's methods in front of them for the first time. When this black hole appeared, it felt like a free space, but this kind of strength Even they can vaguely feel the suction power.

But the Yashas did not have any ability to resist at all.

As the black holes behind Li Tian appeared, black holes appeared one after another behind these Yashas. These black holes were like the mouth of a devil, swallowing all these Yashas in.

In just a few minutes, the Yasha of a layer of prison was swallowed by the black hole.

Li Tian squinted his eyes and then opened his mouth to spit out a mass of congestion. Of course, this mass of congestion was forced out of his body by himself, otherwise the elders would definitely doubt it.

Seeing Li Tian vomiting blood, Yun Yi breathed a sigh of relief. He stepped forward and pressed his shoulders, and a little bit of Xianli came in: "How about it, there is no problem?"

"It's okay, it's just that this spell is very expensive when it is cast, and I can't control it." Li Tian glanced at the Yunyi behind him, and said cautiously.

"You have done a good job today. Let's rest honestly." Yunyi nodded, then stepped forward and whispered, slowly removing the blood of the Shuiyuezhong disciples on the ground. Condensed, there was a solemn look in his eyes.

Chapter 5494: Second-tier prison

The blood of these disciples condensed, like a river of blood, slowly wrapped around the stone pillar.

At this moment, Yunyi's mental state is highly concentrated. He needs to fully condense his strength and slowly inject the blood into the runes on the stone pillars. After these runes are all filled with blood, he can start this formation slowly.

As the blood was injected, the rune gradually became shiny.

Then, in front of everyone, there was a burst of blood red light...

Water Moon Sect:

Back Mountain Forbidden Area:

Murong Ziqing was still sitting in the previous position, like a monument, she hadn't moved, but her face looked very pale, and her whole person had no mental state.

At this time, behind her, a woman appeared.

"You have been locked here for so long, don't you think that your idea is actually wrong?" She looked at Murong Ziqing in front of her and asked.

"Whether it's right or wrong, naturally someone can judge it, you come to me, is there anything to say?" Murongzi slowly opened his eyes, turned to look at the woman behind, and sneered: "You Do you really think I don't know what you did in the Xuan Yin Temple?"

"Even if you know it, what about the people in the entire God Realm are all paying attention to the Ten Cities Competition. Who will put their attention on this kind of thing?" The woman chuckled and sat opposite Murong Ziqing. Come down and say: "Don't try to continue to resist my strength, you will only know that I am unfathomable, and you will never be able to defeat me."

"You are too naive, what is in the Xuan Yin Temple, don't think I don't know, and don't think that people in the entire God Realm don't know, I really want to know, what will the Big Dipper God Emperor think when he knows this?" Murong Ziqing raised her mouth slightly, revealing a scornful smile, looked at the woman in front of him, and said: "And before you acted, I had already told many **** emperors about this matter."

"..." The woman was silent for a long time, then smiled and shook her head: "Do you know what you are doing?"

"Before you and I know the things about Broken Cloud Mountain Range. The problems of the God Realm will soon be revealed. If we cannot work together, the problems will only get worse and worse. If I don't stand up at this time, do I have to wait?" Murong Ziqing stood up, she looked at the woman and said, "Do you really think this forbidden land can imprison me? If I want to leave here, no one can stop me."

"Of course I know that such a small prohibition is impossible to stop you, but you can never leave here now. You need to protect the Shuiyue Sect, and everyone in and up and down the Shuiyue Sect, but unfortunately, they won't recognize you at all, they only know me." The woman snorted, and then turned around: "You stay here to calculate your own conspiracy, but soon you will know that everything you have done is wrong. of."

"Whether it is right or wrong shouldn't be the matter for the two of us at all. If the world is fair, someone will naturally judge it."

Crescent City:

City Lord's Mansion:

The expression on Feng Jie's face was serious. At this time, he completely lost the majesty of the previous city lord, sitting on the side of the hall like a courtier.

And above the main seat of the hall, sitting a very young man, who looks only in his twenties, but sitting here, he has a particularly unique aura, but his calm expression makes the surrounding Many people's expressions became serious.

The young man turned around and glanced at Feng Jie next to him: "Do you know what you did?"

"I know, but all this has been calculated by a man behind the scenes. I don't know any details here." Feng Jie sighed, looking at the young man in front of him, stood up and walked to the middle of the hall. In a low tone, he said, "If you have any problems, you can completely blame me. Feng Tianxiang is still young, and I hope you can make a difference."

"You have been by my side for many years. Basically, you have not made any mistakes. You know it yourself, and of course I know it too. But this time I was really surprised. The relationship between Li Tian and Zhuge's family is very difficult. Clearly, this young man should have been protected long ago, but let him happen in your control zone." The young man stood up and put a hand gently on his shoulder: "But this matter, And it doesn't have much to do with you. I know what they are going to do. Of course, I can't make them do what they want, but we also need to give the people an explanation."

"I am willing to be punished."

"You don't want to accept any punishment, but the only thing to do now is to find Li Tian as much as possible, otherwise this matter will become more and more complicated." The young man said as he walked out of the hall: "The matter of the Junior Heroes Conference will continue to be handed over to you. In the next game, I hope not to see any problems appear, otherwise even me will not forgive you."

When Li Tian opened his eyes, he found that there was a stalactite cave in front of him.

And in the center, you can also see a very huge stone pillar, towering in the center, with some strange runes on it, which is probably the same as the previous one.

Here, after the teleportation circle of the first-tier prison was opened, the second-tier prison entered.

All the rest of the Shuiyue Sect were directly teleported here from the first layer of prison, and their side was pitch black, and the space was wider than before.

Yunyi glanced at Yunhe and said, "Second-tier prison."

"At each next level, the enemy will become stronger and stronger. Can people like them cope with it?" Yun He asked with some worry.

"These have nothing to do with us. If they can't pass this level, what's the point of our coming here?" Yun Yi sneered and looked at the central stone pillar: "Let's let people act and encircle all the ghosts here. , When necessary, directly use the water moon sect's formation, the injured, I will let them leave here."

Yun He nodded, with a smile on his face.

Let them leave?

is it possible?

There are probably not many people who can survive in this team. They were selected as stepping stones and cannon fodder.

Chapter 5495: Blood hell

When Li Tian opened his eyes, Yun Yi and others were already preparing to deal with the second-tier prison problem.

At this time, several people are all paying attention to the second-tier prison. Unlike the first-tier prison, it completely looks like a stalactite cave often seen on earth, except that these stones are dripping. It wasn't any drops of water that came, but **** blood. It looked very sticky, and I didn't know what kind of blood was secreted by a creature.

When the blood fell from above little by little, many people's expressions all became weird.

While observing, Yunyi said, "This is the second layer of the eighteen layers of hell, also called the blood hell. It looks like a **** made of blood. Everything here is bright red, even These stones are the same."

After listening, Li Tian hurriedly turned around and took a look.

Sure enough, it was the same as Yunyi said, not only the dripping blood, but even the stone is also red, and the gleaming light in the entire cave is thick red.

Ignoring their preparations for action, Li Tian is now settling in the Yasha clan in the small world inside the Dantian. These Yashas are all enslaved. They have a very ancient curse on them. Once they betray the owner of the Xuanyin Temple, They will directly lose their original strength and become the most ordinary creatures, and their life span will slowly decay.

Li Tian pretended to sit on the side to recover, and at the same time, in his own small world, he condensed an appearance of himself with his divine mind.

"Who are you?" Among these Yasha, the older leader looked at Li Tian with staring eyes, and when he saw him appear here, he looked at him suspiciously: "Where is this place? Why are we? Will it be here?"

"You are in my little world. There are still some deserted areas here, which are not suitable for your survival." Li Tian looked at the Yasha in front of him, said in a calm tone, and a touch of kindness appeared in his eyes: "I know you are now What you are thinking about is definitely whether I have a threat, but you can rest assured that if I want to hurt you, I won't wait so long."

"What is the purpose of your arresting us here? If you want us to be your slaves, I advise you to save the province. A curse has already been placed on us. We are all that life. It is impossible for a person to become your slave." The leader of Yasha sneered and looked at Li Tian in disdain.

"I brought you here not to ask you to do anything for me. I just want to help you survive. If you continue to fight against those people in the Water Moon Sect in the first floor, you can only be all Killed." Li Tian looked at the leader Yasha in front of him and explained, "The reason why I did this is because I know the prince of your Yasha clan, and it asked me to do this for you."

"Prince? Where is he." Hearing that it was the prince, the leader Yasha in front of him was obviously a little agitated. He looked at him and asked eagerly.

Li Tian shook his head and said, "I'm sorry, my strength is just an ordinary Sanxian in the God Realm. I failed to protect them. In order to make me stronger, they have completely disappeared in this world. Up."

The leader of Yasha squinted his eyes and looked up and down at Li Tian: "You have said this. How do I know if what you said is true or false."

"I have no reason to deceive you. If I really want you to do something for me, I won't tell you these things." Li Tian chuckled, shook his head, and then said: "Believe it or not, things Just like this, you will stay here for a while, and when I leave the Profound Yin Hall, I will send you out of here."

"Xuanyin Temple is not so easy to enter. With your little strength, I tried to find the treasures of Xuanyin Temple here. It's just a dream. Even if you pass through the 18th hell, the opponent behind is definitely not you. It can be dealt with, not to mention your current ability, even if you want to go through the eighteenth hell, I am afraid it is not that simple." The leader Yasha curled his mouth, holding the trident, inserted it on one side of the ground, and then Sitting cross-legged on the ground; "If what you said is true, I can tell you now, hurry up and get out of here."

"You Yasha clan, how long did you stay in a prison?"

"I don't know. We were all arrested long ago. We don't know how long we have been detained here. We just understand that we have a curse that can't be dealt with for a lifetime, so we all gave up leaving. Thoughts, as for what's in it, I know very little, but I understand that there are many strong people behind."

"I didn't come here to enter the Profound Yin Hall. I just want to know if there is a Resurrection Grass." Li Tian touched the stubble on his chin, shrugged his shoulders helplessly, looking at the leader in front of him. Yasha asked, "My purpose here is to find Resurrection Grass. This fairy grass is of great significance to me. If you know where it is, it is the best."

"Although the Xuan Yin Temple is a place where the energy of Xuan Yin is very heavy, we haven't seen any resurrection grass before, but if you really want to find a resurrection grass, you may really have to go through the back. Only those places can be found. After all, this kind of fairy grass must grow in places where the profound Yin Qi is strong. Although the profound Yin Qi here is already very strong, it is still much inferior in comparison."

Li Tian originally thought that the Yasha family might know where the Resurrection Grass is, but now it seems that he is thinking too much.

These Yasha clan have always been trapped in a layer of prison, and what they can do almost every day is to determine whether there are enemies within their territory. Once they appear, they must do their best to kill them. In addition, they can only I spent my life very slowly in boredom.

As for the Resurrection Grass, they had also heard of it long ago.

Judging from the growth environment of this kind of fairy grass, it is indeed possible to exist in the Xuan Yin Temple, but they have not really seen the things in the Xuan Yin Temple, so they do not know what this kind of fairy grass can be Place to find.

Seeing all the blank expressions on their faces, Li Tian had no choice but to give up. After he settled them, he withdrew from the small world.

Chapter 5496: Ghost

Li Tian settled the Yacha clan in his own small world, so naturally he also had his ideas.

Now I'm waiting for the remnant soul of the ancient ***** to regain its consciousness. It has been several days since the last time I fell asleep, but it is difficult for the remnant soul of the ancient ***** to recover from this kind of sleep if there is not a serious problem. It was refreshing in the state, so I could only wait for the time to appear, then open the ancient gods relics, and settle the Yasha clan first.

God Realm should not find any place suitable for the survival of the Yasha clan at present. As more and more immortals fly up, the influence of the immortals becomes stronger and stronger, and their territory will naturally become more and more expansive. .

Some creatures like monsters, under this kind of oppression, can only be forced to leave the place where they have lived for a long time and move to some strange places.

As for the Yasha clan, it was obviously impossible to find their territory within the God Realm. Few people would know about this race at all, let alone a race that had disappeared in the long river of history.

Therefore, the ruins of ancient gods may be their most suitable place to stay.

Li Tian was leaning on the rock wall at this time, placing one hand on his belly, and the faint celestial power condensed in his hand, so that he could stabilize his figure in the small world.

After the communication with the Yasha clan ended, he also slowly retreated from his small world.

Opened their eyes and looked around, all of Shuiyuezhong's disciples looked at the huge black shadow in the distance as if they were facing an enemy. In this stalactite cave, the black shadow's body seemed to sway everything around. They were all filled up, like a giant creeping on the ground, with fierce lights gleaming in the two red eyeballs, looking at the immortals in front of them as if looking at their own food.

"You little fairies, if you don't want to die, leave here quickly. My old lady hasn't eaten fresh human flesh for many years. If you don't understand it, I will eat you." The black shadow's voice was very hoarse, carrying a voice. This kind of weird tone sounds so that all the hairs on the whole body are erected.

Yun Yi walked forward slowly, not seeing any panic on his face, but he was much calmer: "Ghost witch, in the age of ancient gods, was indeed one of the very common strange ghosts. But after that you have gradually disappeared on the stage of history, just because you did not have the ability to reproduce, the death of a ghost and witch is a great loss to your race."

"Hmph, the little guy seems to know the history of our ghosts and witches very well, it is true, ghosts and witches are very rare in this world, but it does not mean that we have completely disappeared, nor does it mean that you little guys can be small Look at me." The ghost sneered, his body slowly shaking, and the entire stalactite cave also shook at this moment.

On the top of the stone, the blood flowed faster, like a broken string, falling continuously.

Drop by drop fell on the ground, splashing a coquettish little blood flower.

Li Tian took a deep breath, and then subconsciously stepped back. The oppressive force of the ghost in front of him made him feel a little difficult to breathe. The immortal power consumption in the body has become even greater, and the surrounding Xuan Yin The Qi is stronger than before.

Obviously these strange ghosts live in this environment all year round, and the control over these environments has already exceeded their imagination.

In this situation, they are under a lot of pressure, but the ghost in front of him looks very relaxed. She is like a fish in water in such an environment, without the slightest feeling of difficulty.

Yunyi snorted, and said a spell in his mouth: "It's just a race that should have disappeared in this world. Why should you choose to live in this place? Do you think the longer you live, the easier the race can be? Will it continue? It's ridiculous. The ghosts and witches themselves have no future. You are destined to disappear in this world."

"Huh, little guy, although you seem to be very credible when you say it, it doesn't make any sense to me. No one knows the future of ghosts and witches better than me, but you humans are probably going to disappear soon. She's in the realm of the gods." The ghost said sarcastically. It seems that what Yunyi said made her very angry. The reason why she didn't rush to do it was just because she was not sure about the strength of the people in front of her.

Although ghosts and witches are a kind of strange ghosts and live in a dark and humid environment all year round, they also have their own will and thinking.

Like humans, they can also cultivate, and they can also increase their cultivation to the point where they are invincible in the gods.

Moreover, it is even easier for them to do this than human beings. The talents of the ghosts and witches are unique in the entire world, especially when it comes to cultivation, their comprehension ability can be called BT.

Even if a random member of the ghost and witch clan stood up, his talent and cultivation speed were much faster than those of the same age among humans.

Of course, the world must be fair.

Ghosts and witches have this kind of talent. Correspondingly, they don't have the ability to reproduce. Instead, they can create a new ghost and witch by injecting the foulness in their own bodies into the bodies of others.

Moreover, this process is very strict, and the candidate for this new ghost witch is also very picky.

Because everything is a difficult process, ghosts and witches slowly disappeared in the next few years. Their reproductive ability is poor, and they are destined to be impossible to occupy a place in this world.

Natural selection, the weak and the strong eating, cannot adapt to the rules of the way of heaven, naturally will be eliminated directly by the way of heaven.

This is the fate of the ghost and witch family, but none of them thought that they could see a ghost and witch here, and after so many years of cultivation, the fighting power of the ghost and witch in front of them is definitely not as simple as before.

Yun Yigui is an elder, but he is still cautious when facing the ghost witch in front of him.

This kind of strange ghost's fighting method is very strange, and it is good at all kinds of sneak attacks. Maybe you are just a short-term loss, and they may directly seize this opportunity and kill you.

Therefore, he is also very careful and cautious when facing ghosts and witches.

Chapter 5497: Blood River Dafa

"Tie Tie Tie, you should look like a leader in this team. It's really good to have such strength at a young age, but it's still inferior here. The immortal power in your body is not only used Fighting is also used to fight against the Xuan Yin Qi here. As long as the immortal power in your body is exhausted, you will definitely die here." The ghost witch looked at the cloud in front of him, as if he saw the dawn of victory.

Yunyi's face is still calm and impermanent, it looks like a piece of white paper, and there is no emotion on it.

This is his current ability. He can completely hide his expression. No matter how others look at it, it is impossible for others to see the thoughts in his heart. In this way, the initiative will fall on him. On hand.

"A team, array, destroy this monster that should have died long ago." Yun Yi waved his hand, and the team of Shui Yuezong rushed out behind him. Everyone held a fairy sword in his hand, located in several places around. Standing up, looking solemnly at the ghost witch in front of them, the fairy sword in their hands gradually shone with a faint light, like a rainbow-colored diaphragm wrapped on their fairy sword.

Li Tian knew what formation this was.

It was the formation that I had learned in the hands of a few junior sisters in Ningbing, the Qinglian sword formation, this sword formation will become stronger and stronger as the caster's strength increases.

At this time, with such a sword formation, it is basically possible to determine the combat power of the ghost witch in front of them. It completely exceeds their imagination. In their opinion, it is already difficult to deal with, so they will use the formation method. .

"The fate of so many people here is just to become a stepping stone on the way to success for others. After Yunyi and others get the treasure inside, it is definitely impossible to share this kind of treasure, so follow them here. The fate of Shuiyue sect disciples can be imagined, and even these people in the Discipline Hall may not be able to survive in this environment at all.

They learned about the secrets in this Xuan Yin Temple, in order to ensure that all this can last forever, killing people and killing their mouths is the best choice.

Li Tian was very sure that as long as they didn't have anything worth using, they would become victims in the hands of the three elders. This was originally their destiny, and most people thought they would encounter some opportunities here.

It may indeed be there, but they are definitely not qualified to see it. Their task here is to talk about the risks of their lives.

As the Qinglian sword array slowly unfolded, the inside of the stalactite cave began to shake violently, and even some stone fragments on the head also fell. The whole ground seemed to be shaking, and many people were shaking. Yes, I almost fell directly to the ground.

And around the ghost and witch as the center, a formation can be seen completely condensing.

Unlike the Qinglian Sword Formation used to deal with Li Tian before, the Qinglian Sword Formation in front of me looks more solid than the previous one, and its power must be much stronger than the previous one.

Even Li Tian, who was sitting far away, couldn't help frowning at this time.

The power of the Qinglian sword formation in front of him is indeed not small, and there may be a little way to deal with the ghost and witch in front of him.

I was still thinking about it before, Yun Yi was really too much, let these people go to death like this, the ghost in front of me is definitely not something that these Shuiyue Sect disciples can deal with.

Now that the Qinglian Sword Formation has been displayed, it shows that they have more or less certainty in their hearts. Facing the ghost in front of them, there may be no chance of winning.

But the next scene happened, but Li Tian didn't know what to say.

The blood that originally dripped on the ground now flows slowly, just like a small stream. The difference is that the water flows to the lower part, and the blood is all condensed towards the upper part.

The speed is very fast, and it can be observed with the naked eye. The blood on the ground is rapidly condensing and slowly injecting into the ghost witch's body.

"Although I don't know what this formation is, but I can feel it a little bit. This formation is more difficult to deal with than I imagined, but if you think it ends like this, it would be naive. The strength of other people may change with the change of the number of **** layers, and my strength can be said to be among the top five existences among the eighteen layers of hell. You really think that this can defeat me. ?"

Yun Yi's expression was very solemn. At this moment, he looked at the ghost and witch with a completely different power from the previous one, and whispered: "Blood River**, this is also the housekeeping skill of many ghosts and witches. Blood to enhance your own strength, if your own strength is already very strong, this strength will make your original strength stronger."

"This is not easy to deal with, Blood River **, we have heard that once these ghosts are displayed to Blood River **, they are like a beast that has been mad, such an opponent is only afraid of destroying the world. The strength of these little guys, I'm afraid there is no way to deal with such a behemoth." Yun He stepped forward, looking at the Shuiyuezhong disciple in the formation with some worry.

"There is no retreat now. The strength of the ghost witch in front of us is much stronger than we imagined. If we choose to retreat at this time, we will never be able to defeat him again." Yun Yi squinted his eyes, slowly. Slowly stepped forward, chanting the spell while motioning with his eyes.

The few of them have basically had this kind of tacit understanding with each other for so long, and they only need a look to see what they need to do with each other.

The two sides just took a look, and then began the next action.

Both Yunhe and Yunji stepped forward and stood side by side with Yunyi.

The three of them originally wanted to retain their fighting power, but now it seems unrealistic. The ghost witch in front of him has indeed surpassed the strength that it should have in the second-tier prison.

Perhaps just as he said, among the eighteen layers of hell, his strength is already quite terrifying. Such terrifying creatures are naturally not something they can easily deal with by paddling.

Chapter 5498: strength

The combination of the three can be said to be much stronger than the combined combat power of the team in front of them.

After all, in their state, even if it is only a slight difference, it may be a qualitative change. This is unquestionable, and no one will doubt it.

At this time, the Qinglian Sword Formation was formed.

The blood river of the ghost and witch also fully demonstrated its own effects at this time. A crimson blood mist appeared all over the body, like countless tiny dust, madly hitting the

surrounding green lotus sword array. Above, with the impact of these blood mists, it can be seen that the light on the Qinglian Sword Formation is gradually dimming, and even the lines of the Qinglian Sword Formation that appeared on the original site are also fading one by one. The dot is destroyed.

Li Tian squinted his eyes and whispered in a low voice: "It's really terrifying. Just by relying on his aura, the sword formation in front of him is about to be broken. If he is given a little more time, it may be this sword formation. Those who set up the formation outside will also be directly obliterated."

This is the terrifying strength of ghosts and witches. Once they release this blood river, they are equivalent to stimulating the potential in their bodies, and they will suddenly become completely different from before.

Facing such a terrifying opponent, these young Shuiyuezong disciples may not be able to deal with them.

"Tao Dao Da, really a group of young little guys, it just happened that I haven't eaten human flesh for so long. You take the initiative to send it to the door, so don't blame me for being impolite." The ghost witch laughed loudly and followed her. With laughter, the exit behind them was slowly closed at this time. Now they must kill the ghost in front of them, otherwise they might be trapped here for the rest of their lives.

"Who killed who? I don't know yet." Yun Yi said coldly. Since they have the courage to run into the Xuan Yin Hall, they naturally have a certain degree of understanding of the things here, although they can't say that they are here. The structure is well understood, but some information is still very clear. The ghost in front of him is also in the information, so they do not need to be nervous.

I have been prepared to deal with ghosts and witches a long time ago. What is the point of being nervous now?

"Tietie, you can rest assured, I won't let you all die so soon, I will torture you slowly, I've been cultivating here alone for such a long time, and I finally waited for you. These humans, of course, have to play with you well, only in this way can I satisfy my boring heart." The ghost witch said while shaking his body.

"Pouch"

A cloud of blood mist penetrated the sword formation and directly wrapped a Shuiyuezong disciple.

A sharp scream sounded, and the female disciple of Shuiyuezong seemed to be divided by five horses. The cry was particularly miserable. With the hot blood splashing out of the blood mist, her voice stopped abruptly.

"Patter"

An arm was thrown on the ground, stained with blood, and some broken tendons could even be seen on it.

The scene was exceptionally bloody.

And the ghost witch, at this time, is completely enjoying the voice: "Wonderful, really wonderful, I did not expect that after so many years, the fairy is still so delicious, and the flesh and blood on your body is really delicious for us. "

One female disciple was killed, and soon another substitute came up.

They have no way out at this time. If they don't kill the ghost in front of them, then everyone here will die.

Even if the ghost witch did not kill them, Yun Yi would not let them go.

After the previous battle with the Yasha clan, the female disciples of the Shuiyue Sect gradually calmed down, and all of them had expressions like dead men. They knew that they had entered the Profound Yin Hall. He opened the bow without turning his head back. Now that you have already entered it, don't think about leaving here now, let alone getting the treasure without any problems.

Only by living, it is possible to leave here.

At this time, Yun Yi snorted coldly, and lifted his right hand. An emerald green fairy sword rose into the air from behind him and directly joined the Qinglian sword formation. The position was in the center of the sword formation, as this fairy sword appeared. , The eyes of this sword formation slowly appeared. This emerald green little sword looked like a very ordinary one, but it contained very pure power.

The ghost who was still laughing presumptuously, at this moment finally put away his voice.

She could feel that the emerald green small sword that suddenly appeared in this sword formation made this sword formation that originally seemed only a little threatening extremely threatening.

It may be just a very simple fairy sword, but it has formed an eye here.

A sword formation with an array of eyes and a sword formation without an array of eyes are completely two extremes.

With Yunyi's eyes joined in, the Qinglian sword formation in front of him was completely transformed, and it became two different grades from before. Even Li Tian can feel it from a distance, Qinglian The feeling of the sword formation is completely different. If it was just an unsheathed sword before, then it is already a sharp sword now.

Yun Ji and Yun He looked at each other, and they seemed to see the same expression in each other's eyes. While smiling, they summoned a fairy sword.

These two fairy swords did not merge into the sword formation, but were unique. They cooperated with each other to form an enchantment. This enchantment protected the Qinglian sword formation and at the same time prevented the blood mist from emitting from inside.

‘Damn it, I still underestimated these humans, their strength still makes me a little unpredictable. The ghost witch looked at the completely different Qinglian sword formation in front of him. With the appearance of the formation eyes, the sharpness of the sword formation was about to destroy the energy layer of her body, and the body also felt a pain.

Yun Yi looked at the ghost witch in front of him and said, "If you admit defeat now and let us go to the next level, you may still survive, otherwise I will kill you. Don't hesitate whether I can deal with you now, just a stable answer from you, I can kill you now."

"Gaoying, but it's just a sword formation with a formation eye. If you think that this can kill me, that's really naive." The ghost squinted his eyes, looked at Yunyi, and then snorted. , Stood up slowly.

Chapter 5499: Runaway

‘Boom Rumble’

The entire stalactite cave shook violently at this time. Originally, the body was full of black misty ghosts. At this time, the body became bigger and bigger, as if it was infused with gas, and the body grew a lot bigger little by little.

Yun Yi frowned and whispered in a low voice: "This guy should be killed by us now. Why does it seem to be more and more energetic? Is it because our means are not enough to deal with this guy?"

"It is true. I am also a little surprised how he is getting stronger and stronger." Yunhe nodded his head. The power of the ghost witch was stable before, but now it is like a volcanic eruption. I don't know at all. What extent will it explode next, especially her eyes. At this time, there is a group of red fire, and the huge body is swelling little by little.

"Kakka"

The stones on the top of the head fell one by one, and many of the Shuiyue Sect's disciples finally couldn't stand at this time, and began to slowly fall to the ground.

What's more, he knelt on the ground, his whole body trembling crazily.

Li Tian originally sat aside and watched quietly what was happening in front of him, but now he also feels a bit tricky. The aura from the ghost and witch crazily impacts their minds, the expressions on the faces of several people They weren't very beautiful, as if they had just crawled out of the coffin, his face was pale, with no trace of blood.

'boom'

A strong impact suddenly broke out from the Qinglian sword formation. The emerald green small sword in the eyes of the formation was exploded by this force. Several Shuiyue sect disciples standing next to them also screamed. He flew out directly, hit the surrounding walls heavily, and vomited a mouthful of blood.

Yun Yi was covering his mouth, but blood also leaked out.

‘Damn, the strength of this ghost witch is a little beyond our imagination. I thought that Qinglian Sword Formation could easily kill the ghost witch in front of me, but I didn't expect it to be the result.’

Yun He and Yun Ji did not have direct contact with the Qinglian Sword Formation, so this time the backlash of the sword formation, both of them suffered the least impact.

But in the next second, a black shadow flashed.

A cloud of blood spurted out of Yun He's chest, he groaned, and then fell to one side of the ground.

The ghost witch did not know when he became a little girl-sized body, wearing a black cloak, and only two groups of red eyeballs were left exposed. It looked fierce, and it was dry at this time. There was blood flowing on the palm of the hand, and the smell of blood filled the stalactite cave: "Daily, really, the taste of your blood seems to be more delicious."

Yun Yi stepped back slowly and helped Yun He up from the ground: "How is the situation?"

"Fortunately, it's just a little bit of injury. It's not very serious." Yun He touched his chest with one hand, blood kept flowing out, his bones were still exposed, his brows were twisted together. It seems to be very painful.

"Isn't it serious? You have to know that there is corpse poison on my body, and now you yourself have been infected with my corpse poison, if you continue like this, I am afraid that your life will be lost soon. Now I have to say, isn't it very serious?" The ghost witch smiled grimly, looked at Yunhe and Yunyi in front of him, and said: "I told you before, now don't think you have won."

"Your injury, is it really okay?" Yun Yi looked at Yun He next to him with some worry. The feelings of the few of them are very good. Even if all the people here are dead, Yun He and Yun Ji must not be able to show any signs. The question, in Yunyi's mind, the two of them are extremely important: "If you need my help, just tell me."

"Where is this place? The Yin Qi in the Xuan Yin Temple is very heavy, which is most suitable for nourishing the corpse poison, and there is no detoxification thing around you. After being caught by my corpse poison, you still want to live?" The ghost sneered There was a sound, and then slowly raised her hand. There was a terrible power brewing in her body at this time, which was a geometric multiple of growth compared to before.

Yun Yi stood up, and the corners of his mouth raised slightly: "It is true that we did not expect that we still have very little information about you, and indeed did not expect that you could enter a state of rampage."

At this time, the ghosts and witches have entered a rare runaway state, in which their power will increase exponentially.

The three elders thought that they had stabilized the situation before, so they did not take the ghosts and witches in front of them to heart. Who knew that at this critical time, the ghosts and witches had directly exploded that they could not have exploded. The power has entered a state of rampage, and the Qinglian Sword Formation can't have any effect on the ghost in this state.

Even if Yunyi had already made a burst of eyes, it was still of no avail.

Li Tian stood up slowly and looked around carefully. The previous secret road can be entered from every hell, and the secret road on this side is in a passage on the left hand side of the ghost witch. Inside, as long as he carefully sneaked into it, he could directly enter the Shura Hall through the secret path. He wanted to find the Reincarnation Grass here before, but now it seems a bit difficult.

The ghost ran away, Yun He was seriously injured, and Yunyi and Yun Ji were left. The two might not be able to deal with the ghost in front of him.

And these Shuiyuezhong disciples, although there are a large number of them, they are nothing but cannon fodder-level combat effectiveness. It is basically impossible for them to display their combat effectiveness when it comes to fighting at this level.

He stood up slowly, sighed helplessly, ready to leave here first.

As for the resurrection grass, I can only hope that they grow at the gate of the Asura Hall, so that Li Tian doesn't need to continue to spend time.

With a helpless smile on the corner of his mouth, Li Tian was carefully moving towards the other side.

At this time, Yun Yi snorted coldly: "However, even if we know very little about you, it doesn't mean we don't know how to make you die. You are on Yunhe, and I will not let you go today. ."

"Oh? Even now that you can say something like this, I really want to see what you can do to restrict me?" The ghost snorted disdainfully, even though the cloud in front of him said it well. Very serious, but she doesn't believe that these two guys in front of me can do what about themselves, knowing that this is her territory, how easy is it to be defeated?

Chapter 5500: Seal of Soullock

The violent ghost witch is indeed strong.

Judging from Li Tian's current vision, these people here today may really be unlucky. The fighting power of this ghost witch is completely beyond their imagination. Today, it is possible that all the people of the Shuiyue Sect will die here. coming.

He is already preparing to leave.

But hearing Yunyi's words made him somewhat curious. Looking at Elder Yunyi in front of him, since this guy said such words unscrupulously, he must still be a little confident, and since they can know If there are any opponents here, they must also have certain preventive measures against them.

Sure enough, Yun Yi looked at the ghost witch in front of him, and the smile on the corner of his mouth became more and more weird.

The ghost snorted, and the figure quickly flickered around. Every time it flickered, a Shuiyuezhong disciple would inevitably fall.

She was like a dead ghost, no one could see where she appeared.

In the blink of an eye, dozens of Shuiyuezhong disciples fell to the ground.

Li Tian is protected by everyone in the circle at this time, but he doesn't have to worry about ghosts attacking him, and the ghosts currently attacking are all the disciples of Shuiyuezhong standing in front. This guy has a strong purpose and seems to be provoking Yunyi. The same, but all Shuiyuezhong disciples close to Yunyi were killed in the first place.

It seems that this ghost witch is very purposeful. He knows that the most powerful of these people is Yunyi, and what he has to do now is to provoke Yunyi. As long as Yunyi is angry, he will definitely perform abnormally.

In this way, the survivability of the ghost witch will be much stronger.

It seems that the ghost witch is still very clear about his current situation. Although Yunhe was seriously injured at the first time, there are Yunyi and Yunji here. These two characters are also not so easy to deal with. If you are not serious, I am afraid that they will be killed today. The elders from the Shuiyue Sect in front of them will definitely not come here without knowing anything.

The ghost witch knew this and killed an elder from the start.

But the expression on Yun Yi's face at this time was a little cold, as if he had lost the last bit of patience: "Do you think that if you make me angry, you can expose the flaws and give you a chance?"

"Tietie, it seems that you have seen through my strategy, but even so, what are you going to do? With your current situation, you can't protect these guys around you at all." The ghost sneered, still unscrupulous. Although he was very careful before, he didn't really believe what these elders could do. It was just for stability that he chose to be excited like before.

However, Elder Yunyi is the elder of Shuiyue Sect after all, and his strength is not bad, of course it is impossible to easily expose his weaknesses.

The ghost witch saw that his strategy didn't make much sense, so he didn't mean to continue wasting time here. In his opinion, these Shuiyue Sect disciples were not as powerful as he had imagined, and there was no need to be afraid of them. What needs to be worried is the three elders in front of me, especially Yun Yi, who is probably the strongest of these people, so after giving up slaughtering these disciples, her first goal is Yun Yi!

Thick black fog spewed out from his body, and quickly filled the surrounding environment like gunpowder.

Standing in the thick fog, Yunyi raised his mouth slightly, with a sneer: "I have told you before. I already know how to deal with you, so why bother to keep on doing this?"

"If you really have a way, you can show me your means." The ghost said with a sneer. At this time, the thick black fog slowly turned into two illusory arms, and the huge palms seemed to be able to As if covering the sky and the sun, he pressed it down towards Yunyi's head.

Yunyi took out a crystal shining with purple light all over the floor, and said a spell in his mouth: "I didn't want to do this, but you have been forcing me to explode all my strength. Now I can't blame me for not giving it. You lose face, just die obediently like this, save you later and cause more casualties, or die early."

After seeing the purple crystal in Elder Yunyi's hand, the ghost witch immediately let out a scream: "Seal of Soul Lock, you...you actually carry this thing?"

"Do you really think we can't do anything about it?" Yunyi sneered. The reason why the ghosts and witches were wiped out so quickly was not only because of their poor reproductive ability, but also because of a natural restraint of crystal. It is the seal of the soul lock in his hand that can directly attack the souls of ghosts and witches, even if their bodies are spirit bodies, they still have no meaning.

At this moment Yun Yi took it out, and she could imagine how much influence it had on the ghost witch in front of her. She had never thought of seeing this thing in Yun Yi's hand.

As the dictation slowly came out, the light of the seal of the soul lock became stronger and stronger, like a rising sun, the light became more and more dazzling, even the blood red around it followed at this time. It was dyed purple.

Li Tian took a look, exhaled, and then sat down next to him: "It seems that there will probably be no problems this time. Since the seal of the soul lock is so scared of even this ghost and witch, he probably moved a person There won't be any difficulties with this guy."

Sure enough, his idea was not wrong.

The seal of the soul lock is worthy of natural restraint of the ghosts and witches. This light burst out instantly, and directly wiped out the thick black fog around the ghosts and witches. After the ghosts were exposed to this light, their bodies immediately uttered a 'chill' The sound of 'chichi' is like the sound of a red iron being thrown into a pool, it is particularly loud.

The ghost witch's body kept retreating. At this time, even the scarlet eyes showed a panic expression, looking at Yunyi in front of him, he didn't know what to say.

I thought I had the upper hand before, but who would have thought that this elder Yunyi still had a seal of soul lock in his hands. For their ghosts and witches, the seal of soul lock was the deadliest, and it could directly attack them. The power of the soul is an absolutely deadly existence for them. At this time, this power has already begun to affect the combat effectiveness of the ghost and witch.

"Damn it, you actually use this kind of thing against me, so even if you kill me, what can you do?"
