

A Killer 5611

Chapter 5611: Tianzhou

"Besides, there is nothing you need to pay attention to. I will arrange for the army of New Moon City to take care of your security issues. This way, I will also ensure that you can reach Tianqi City in the shortest possible time. If they encounter any problems on the road, they can help a little bit," Feng Jie said.

"This time you will also take the Tianzhou to go to Tianqi City. There will probably not be any problems on the road, but after arriving in Tianqi City, the problem may not be that simple, so it is best to be prepared on the road. , If you get to Tianqi City, you may encounter contestants from other main cities, so remember not to take the initiative to trouble them."

At this time, Murong Ziqing and Feng Jie settled a lot of their things in a verbose way. All in all, let them know that their current situation is very embarrassing, and it is best not to provoke anyone.

And Li Tian also secretly remembered these things in his heart.

After arranging all this, Li Tian and others came to the back mountain of Shuiyuezhong.

In the few clouds and fog, you can see an ancient warship floating in the air. On the warship, you can see many soldiers wearing golden armor. Every soldier has a very serious expression on his face.

Looking at the ancient warship in front of him, Li Tian even felt like a general about to go out now.

"This is a Tianzhou that is rarely used in the New Moon City. Compared with ordinary mounts, it comes at a very fast speed. The Tianqi City you are going to this time is far away from here, plus time. It is very short, so there is not much time left for you. It is best to reach Tianqi City in the shortest time, and then take the lead in letting you know what the current situation in Tianqi City is." Feng Jie stood by Li Tian. Next to him, I looked at the heavenly ark above his head proudly.

These are all famous warships in Crescent City, and I don't know how many people dream of boarding them.

Whenever you board the Tianzhou, it represents a symbol of strength and power.

If you are a soldier, you can board the Heavenly Ark only if you become an elite soldier.

It is said that the troops led by Tianzhou also played a very important role in the battle during the Great God Emperor War. After that, this means of transportation became the most important thing in the army.

"Unexpectedly, City Master Feng Jie had also put in hard work this time, and he even took out a battleship like Tianzhou."

"There is no other way, who told us to hurry up to go to Tianqi City this time, plus a few beast areas on the road, it is very likely that we will encounter some dangers, protected by such a warship, It's also a good thing." Feng Jie smiled slightly, squinting his eyes and looking at the warship above his head, there was something very proud.

After all, this is a masterpiece of their New Moon City, and only a major city like them can have such a heavenly boat.

"It is magnificent and magnificent. I have only heard many seniors mention Tianzhou before, but I never thought that one day I would also step on the deck of Tianzhou." Ningbing stood beside Li Tian, looking up at the sky. Tianzhou in the middle, the tone is full of bold words.

"Ningbing, if you want, after we come back from Tianqi City this time, I can ask my father to give you Shuiyuezhong a heavenly boat to show our heart." Feng Tianling stepped forward, low. The voice said: "Of course, you can also take this as my dowry."

"Master Tianling, I am now a disciple of Shuiyuezhong. No matter what I do, I have to discuss with the master. You still don't think too much."

"That's right, but it's just a heavenly ark. Do you think the ice is only worth the value of a heavenly ark?" Li Tian also stood aside and said uncomfortably, "Don't think that your family has some abilities, you can do whatever you want. If you want to know that you have to be a low-key person, don't think about pretending to be a big-tailed wolf in front of others, who is like this, and who is not clear about it?"

"Li Tian, what do you mean by this?"

"Of course it doesn't mean anything. I just said it casually. Even if you want to propose marriage to Ningbing, if one day boat is enough, you will have to get seven ships and eight ships."

"What are you young people talking about in a low voice?" At this time, Feng Jie squinted at these three people, with some doubts in his tone.

"It's nothing, it's just that we had some conflicts with each other before, but after this period of time in Shuiyuezhong, we all have a little understanding of each other, and we also know how stupid our previous decisions were. Determined not to make the same mistake again." Li Tian deserves to be a clever fellow, with the same smile on his face at this time, raising his hand to pat Feng Tianling:

"Master Tianling, don't you think? "

"That's right, I also realized that there was something wrong with me before. This time we go to Tianqi City, we must help each other, only in this way can we truly win the quota of this ten-city conference."

Feng Jie saw the expressions on the faces of these young people, although they were a bit weird, but at this time they couldn't say anything.

I could only smile helplessly, and said gratifiedly: "If you really have this kind of thought in your heart, it is really gratifying to me, I am afraid that you are saying something in your mouth and thinking in your heart. , It's very difficult."

Soon, the Tianzhou in the sky also slowly fell down.

As the Tianzhou came down, a sky bridge condensed by immortal power appeared in front of them, which had been connected to the sky boat above. Through this sky bridge, they could go up to the sky boat without any effort.

"This is the sky bridge of Tianzhou. It is usually the easiest way to go to Tianzhou. Besides that, you can only choose airborne. However, there are many barriers around Tianzhou. If you want to go in by air from outside, You can only choose to break through the barrier, but this is not a very simple matter. Even the most powerful master will still have a little powerless when facing the barrier of Tianzhou."

Seeing the doubts on the faces of several young people, Feng Jie explained.

At this time, a young officer came down from the top of Tianzhou: "City Lord, Sect Master Murong."

"This is Situ Shangyan, and the team leader this time. Your safety on the road depends on this one." Feng Jie introduced.

Murong Ziqing also just nodded faintly, without much response.

But Li Tian took a serious look at Situ Shangyan in front of him.

Chapter 5612: Boarding

After all, this action is really dangerous. He knows very well how many people in the God Realm are waiting for him to die. These people are all waiting in a dark corner. As long as they catch a chance, they will definitely not. Let Li Tian go so easily.

Therefore, the strength of their companions on the road this time is also very important.

"Situ Shangyan is considered to be a relatively powerful master in New Moon City. He currently has eight stars in the gods realm. If it hadn't been for his dedication to his duties over the years and had done a lot for New Moon City, he might already be on his cultivation level I have achieved better achievements." Murong Ziqing is so smart, even if this kid Li Tian is just a very ordinary expression, she can find a little bit of tricks from it.

This kid now made it clear that he had a little distrust of Situ Shangyan in front of him, and was very worried that Situ Shangyan would become his own oil bottle.

After all, when on the earth, the more powerful people are, in fact, their status is also very ordinary. After all, everyone knows that the wood is beautiful in the forest and the wind will destroy it. The master will always hide himself in an inconspicuous corner. of.

Since the Situ Shangyan in front of him is quite famous in New Moon City, he is obviously a figure who shows his face frequently. Such a task is bound to be impossible to concentrate on cultivation, and it is reasonable that his strength is not strong.

Therefore, Li Tian was really worried, and Feng Jie found them an oil bottle.

However, hearing that Situ Shangyan is now at the level of eight stars in the gods realm, his worries have alleviated a lot. This realm can at least be regarded as a master in the gods.

After all, in this era, the masters of the immortal realm can not be seen casually.

Even in the realm of gods, they can be regarded as first-class masters in the realm of gods, and it is generally not easy to find that.

After all, everyone in the realm of gods has a background. Few people are like Li Tian, just a loose fairy, but they have easily reached the realm of gods.

"Of course I don't have any problems. Although I need someone to protect me this time, I still have to rely on myself for the match this time." Li Tian smiled and said easily.

"Okay, the time is almost there. You should hurry up and get on the ship and arrive at Tianqi City as early as possible. This time the Ten Cities Conference is all up to you." Feng Jie patted Li Tian on

the shoulder and walked over By Feng Tianling's side, he whispered in his ear; "This time you still have to be careful and try to keep a low profile. They won't look at your identity."

"Father, don't worry, I know what I should do and what I should not do." Feng Tianling responded in a low voice.

"This is the best way. This time may be different from what you encountered before. It is very possible to lose your own life a little carelessly." Feng Jie looked at Feng Tianling in front of him, very worried. Said.

He knew very well the key to this Ten Cities Conference, especially the purpose of these gods.

The most important thing is that the young man Li Tian has shown too much potential. It is an absolute danger for them. If they don't figure out the identity of this young man, they will not be very relieved.

Li Tian was the first to board the Tianzhou.

Standing on the Tianzhou, everything under his feet became clearly visible, especially the outline of the entire Shuiyue Sect, which also became exceptionally clear at this time.

Ningbing is the second one to come up.

Standing on the sky boat, they knew how terrifying the area of this warship was. Just like a small square, there was no problem placing an army here.

At this time, there were also such a large number of troops on the Tianzhou.

It can be seen that Feng Jie still values this match very seriously, and he has sent so many people to guard here.

Situ Shangyan then got on the boat with Feng Tianling and smiled and said to Li Tian: "I heard about you a long time ago. I have watched the previous games. It is indeed a very powerful role among young people. It may not be long before you surpass my old antique."

"I don't think it is so mysterious. Although I am quite confident in my own strength, I also know that not everyone can surpass the realm of predecessors in such a short period of time." Although Li Tian is very confident, But for people who respect him, he is also very respectful. The attitude of Situ Shangyan in front of him and the others towards Li Tian are completely different.

The tone of his speech was as if he regarded Li Tian as his own friend. Naturally, he was not good at making others feel that he seemed very arrogant at this time, so his tone of speech was also very polite.

Situ Shangyan smiled and shook his head, then slowly turned around and glanced at the rudder in the distance: "Get ready to go."

Following his order, Tianzhou began to fly slowly, and the entire warship was launched, speeding up suddenly.

When the warship was activated, a very obvious enchantment was also raised around it at the same time, just like the same hands, protecting the entire warship, which also prevents the airflow from affecting the people on the deck. At the same time, if you want If you attack from above, you must also break through this white barrier.

At this time, people standing on the deck, if they are not observing with their eyes, it is difficult to find that the warship is moving.

"I'm surprised, this warship." Situ Shangyan asked.

"I was really surprised. I didn't expect that there would be such a vehicle, a warship that can fly in the air."

"This warship was created by a few very good designers during the Divine Emperor War. It almost assembled the wisdom of the entire gods and immortals. Many powerful weapons and energy operation systems were used. On this warship, the cost of this warship is destined to be very expensive. At the same time, many people do not have a structural drawing of this warship at all."

"Such a powerful warship, if it is really used on the battlefield, it is simply a mobile fortress. If a teleportation array can be built here, then a steady stream of soldiers will be able to parachute from here to the target stronghold. In it, it's terrifying."

"This is of course in theory. In fact, the only thing that is difficult to overcome for this warship is the energy system. Even if we have this idea, if we want to build an energy array here, we need a larger energy resource. At present, in so many places in the God Realm, there is no one suitable for using this energy."

Chapter 5613: Attacked

Li Tian nodded slightly, which is quite normal.

Such a battleship like a mobile fortress, if there is a mobile magic circle on it, it can be completely used as a mobile military field, which can bring infinite possibilities in the war, and the battle will naturally be very difficult.

But obviously it is very difficult to do this.

The operation and flight of the Tianzhou itself has consumed a large wave of energy. If a teleportation array is built on it, it will inevitably consume more energy.

When in the main city before, Li Tian determined that the energy consumption of the teleportation array is very terrible, and it also needs a very large energy conversion and supply system, which requires a very large area to be built. The Tianzhou in front of it is indeed not suitable for such a design. Such a design is completely to add burden to this warship.

"If one day there will be such a wizard telling us how to design, I think a reversal point on the battlefield will be produced like this, but it will be very difficult to come up with this design. After all, it is everyone who finds such energy. All hope, but there is almost no one who can be successfully found." Situ Shangyan smiled and looked at the three people, and explained: "We are ready to stand, we will speed up."

'accelerate? This thought flashed in Li Tian's mind, before he could speak, his body was staggered.

He almost fell to the ground.

At this moment, my mind was completely blank.

In the next second, his body stabilized.

Ning Bing by her side had a cold face, holding the handrail next to her with one hand, which was not embarrassing.

When Li Tian stood up, he found that everything around him had become very terrifying. He didn't expect that the speed of this Tianzhou could be so fast that the surroundings had become colorful.

This is not because the environment around them has changed.

It's because Tianzhou's speed is too fast, even reaching the speed of light. At this speed, everything around it becomes very blurred, and it is impossible to see clearly with ordinary naked eyes. This colorful color will appear.

Li Tian was also surprised at this time that a warship could be so fast.

"This is the speed after the launch of Tianzhou. We are afraid that we will waste a little time in the Tianqi City this time, so we have to arrive very quickly. We can't waste a little time in this process." Situ Shangyan said.

"I didn't expect that the speed of Tianzhou could reach this point. I never thought that the speed of such a huge warship could be so fast." In Li Tian's mind, such a huge warship could still fly. In the air, no matter how they design, they are definitely not very fast, they should use some other means to drive the way.

I didn't know how terrifying the value of such a heavenly boat was until I saw this state of traveling at the speed of light.

It's no wonder that in the entire God Realm, only these big main cities will have an extremely scarce number of heavenly arks. It takes a long time to manufacture this kind of thing, and at the same time the price is very expensive. General small main cities have no economic resources at all.

"It's a pity that it's not the time to fight, otherwise I can let you see the strength of this Tianzhou." Situ Shangyan said with some regret. Tianzhou is almost a very advanced combat vehicle at present. The speed of action is very fast, and the performance in battle is also absolutely not allowed to be underestimated, but it is a pity that it is not the age of combat, and many things cannot be shown.

"I can imagine that such a huge warship, if it is really thrown into the war, it will definitely bring devastating damage, even in places like the gods. It will cause great losses."

"Let's take a look at the bridge, you probably also want to know what kind of place we will pass this time." Situ Shangyan smiled, and then led the way.

Everyone also followed behind him, slowly moving towards the bridge.

The entire Tianzhou looks like a ship, with a touch of modern technology, and even a little spaceship.

The so-called bridge is a master control center located in the center of the entire Tianzhou. There are many settings here, which can control the actions of the entire Tianzhou and at the same time control the direction of the entire Tianzhou.

When Li Tian entered the bridge, he was also taken aback by the people inside.

In the huge bridge, there are also many soldiers wearing this uniform. Some are controlling Tianzhou, and some are constantly doing other things. In short, everyone now has their own tasks in their hands and looks very busy. .

"This is the inside of the bridge. Another reason why Tianzhou cannot be mass-produced and put into use is because it is difficult to train every member of Tianzhou. They have to figure out how Tianzhou works. At the same time, there are a lot of things to be recorded accurately. This is not something that everyone can do." Situ Shangyan said, continuing to lead them to the front.

"How many such staff are needed on such a Tianzhou?"

"About 300 or so, these people have to be responsible for everything in Tianzhou, and they have to coordinate and cooperate with each other. These are very difficult points, because very few excellent staff are trained, so even if they are There are many Tianzhou, and it is difficult to drive." Situ Shangyan sighed helplessly.

Li Tian didn't feel surprised. This kind of cutting-edge technology Tianzhou is just like a spacecraft on the earth. An excellent astronaut must be trained very hard. This kind of high-tech warship is of course no exception. .

"Okay, this is where we are now. We should enter the Dark Forest in front of us." A few people came to the center of the bridge. Here you can see a large crystal stone projected from it. It is a very three-dimensional terrain modeling, which is a 3D model of the terrain under and around them, which allows them to observe the surrounding environment more intuitively.

The so-called Dark Forest is an amazing forest with a large area.

"The monsters here are terrible." Ning Bing said lightly.

At this moment, Tianzhou suddenly trembled violently.

Situ Shangyan frowned: "What's the matter?"

Li Tian and Feng Tianling glanced at each other, and both of them were very sensitive to perceiving something. They probably had been attacked, but they didn't expect that they would come so quickly.

Chapter 5614: Black

‘Boom Rumble’

Inside the bridge, Li Tian could feel that the whole Tianzhou began to tremble at this time, and many people who wanted to come inside felt it.

And being able to cause such shaking is obviously not an ordinary offense.

Tianzhou's barriers are extremely powerful, and it is not so easy to destroy these barriers.

"General, we have encountered an attack from a monster. I am now projecting the surrounding images onto the phantom crystal." A staff member next to him quickly placed his hands in a universe like the Milky Way, and moved it inside. One by one, the projections they saw in front of them began to slowly change at this time.

Soon, everything around Tianzhou was exposed to their sight.

This is a group of black birds that look like crows, but in fact their bloodlines are much more noble than crows.

Seeing these birds, Situ Shangyan frowned: "Damn, I didn't expect to encounter black crows at this time. These guys are very difficult."

Black crow!

As the name suggests, they have a certain relationship with the Golden Crow, and their bloodlines are more or less related. Then the strength of these black crows must not be underestimated. At this time, the dense black crows cover the entire sky boat like a black cloud. Crazy pecking at the barrier with his sharp beak, the barrier in many places has been destroyed, and even the soldiers on the deck have been attacked.

But in just a short moment, these black crows relied on a suicidal attack to find a bite.

"Arrange for soldiers to guard the destroyed enchantment immediately. A black crow must not be allowed to enter the deck, otherwise it will ask you." Situ Shangyan ordered very seriously, and at the same time, he said: "In addition, Unlock all weapon systems and kill all the black crows around me."

The moment the voice fell, I heard the screams from the deck outside.

"It seems that the black crow has broken through the defense of the barrier." Li Tian squinted. The black crow has seen some records in Lu Xiu's study in Luoyang city long ago. These birds have golden crows. Pedigree, but not very pure.

For them, this is not only not a bad thing, but it is a good thing for them.

That is, the black crows can reproduce very quickly, and the way of attack has become a group attack. In addition, their sharp beaks have certain attributes of devouring, so they can be said to be handy in destroying enchantments. The monster beast in the realm of spiritual cultivation is definitely much more difficult than imagined to deal with, it is just a frontal attack, and the barrier has already collapsed a lot.

This is because the barrier of Tianzhou is really too powerful. If it is just another barrier, it is estimated that a face will be destroyed directly.

It can also be seen from this point that Tianzhou is indeed very powerful on defense.

Although Situ Shangyan was angry at this time, he couldn't see any anxiety on his face.

"General Situ, let's go to the deck to help." Li Tian took the lead in asking for orders.

"This is totally unnecessary. My people know what they should do. They can handle this well. Just watch them here. Next, I will show you the real horror of Tianzhou." Situ Shangyan said lightly, his eyes were always looking at the picture on the Phantom Crystal. The black crows had already broken through the line of defense and entered the deck.

Li Tian clenched his fists, watching the soldiers fall one after another, and his heart was also very tangled at this time.

She knew that she might not be of much help when she went out, but if she just stood here and watched coldly, but it was not his character, these soldiers were innocent.

"I know that the emotions in your heart are uncomfortable, but they are soldiers, different from immortals. When facing danger, what they think is not to save their lives, but to complete their

mission. This is Soldiers' natural responsibility, they know this very well, so even when facing these difficult black crows, they still did not choose to retreat." Situ Shangyan said.

"But watching them just fall on the deck one by one, we couldn't bear it."

"You may make the whole situation more chaotic if you go out now. These soldiers can still cooperate with each other, but if you go out, they still need to focus on protecting you. After all, this time ten. You are the key to the city assembly. We are only responsible for protecting you from the past. If you are injured along the way, I will not be able to explain to the city lord, nor will they be able to explain to me." Situ Shangyan said calmly.

This is the soldier, who can still be firm at the most critical moment.

Li Tian knew that he would become like this after he went out, but this uncomfortable feeling in his heart could not be changed. He could only pray quietly in the language of his heart, and don't cause more casualties!

Ningbing seemed to sense Li Tian's current emotions, and stepped forward and gently patted his shoulder: "There is nothing to do. These soldiers are all professionally trained. They will have nothing to do."

"Soldiers were born to die on the battlefield. This is their honor. These people should die and there is nothing to pity." Feng Tianling looked at the dead soldiers with a calm tone: "Only in this way can they prove their worth, and they can prove that they are a real soldier, and they are the role models for our Crescent City."

"I don't want to argue with you, so you better be quiet at this time, otherwise don't blame me for being rude to you."

"You're welcome? I want to see what you can do to me. Do you really think this is still in the Shuiyue Sect? This is Tianzhou. These soldiers are all people from our New Moon City, Situ Shangyan is also my father's subordinate, what can you do to me here?" Feng Tianling sneered, and said disdainfully: "Because of Murong Ziqing's face in the Shuiyue Sect, I might still lose a little bit, but here is me. Site, what can you do?"

Li Tian was almost about to do it, but he forbore it at the most critical moment.

"General, how is it?"

"It's already started. These **** black crows will attack the Tianzhou. It's almost dead and alive. They will soon know that the opponent they challenged this time is definitely not something creatures of their level can handle!"

Chapter 5615: Tianzhou's counterattack

Hei Mist's offensive was quite crazy, and in a short period of time, the number of soldiers' losses began to increase frantically.

Li Tian stared, and could only watch what happened in front of him. Even though he wanted to change everything in his heart, he could only honestly stay inside the bridge and watch the war.

At this time, Tianzhou finally began to fight back.

He didn't know what was going on before, nor did he know how terrifying the fighting power of this Tianzhou was, but at this moment, he finally understood why the process of building this kind of warship was so difficult.

This is simply a super destruction machine.

With the sound of an explosion, from around the deck of the Tianzhou, a lot of fortresses suddenly appeared, but these fortresses were not like those on the earth, but were made of some energy crystals, combined with some of the immortals. The fairy magic array enhances the energy of these turrets, so that the turrets have super destructive power and extremely rapid attack methods.

Although there are a lot of black crows, when it comes to facing the Tianzhou warship, it still seems a little insignificant.

Crimson energy surged crazily at this time, just like a big net, shrouded black black crows after another. When these energies touched the black crows, they would explode directly and wiped out this instantly. Black crow within range.

The Tianzhou warship, which originally seemed to be in a downwind, reversed the entire battle at the moment the attack was launched.

It quickly made the battle different.

All of a sudden, most of the black crows disappeared like this.

"The energy emitted by these artillery cannons is actually made of energy crystals condensed from the samādhi real fire. The energy condensed from these samādhi real fires is quite terrifying. These black crows cannot resist these things at all." Situ The corners of Shang Yan's mouth rose slightly at this time, with a serious smile, and squinted at the deck outside. The war had eased a lot at this time.

"It's no wonder that such a warship is so difficult to build. These things are all top-notch technology, and the destructive power is extremely terrible. Even the ***** emperors are also worried that the large-scale appearance of Tianzhou will reverse the situation of the entire God Realm. Therefore, Firmly control all the materials used to make the Tianzhou in his own hands." Li Tian saw the destructive power of the Tianzhou at this moment, and knew that once the Tianzhou appeared on a large scale, it would become very terrifying. exist.

"It is indeed like this. A lot of the materials are currently in the hands of the ***** emperors of the God Realm. These things have always been very cherished resources. The places explored in the God Realm are all very difficult to find. Rare resources have always been firmly controlled by several ***** emperors, it is not easy to find these things." Situ Shangyan said with a smile.

As the counterattack began, the enchantment around Tianzhou began to be slowly restored. This battle did not last long, and the black crows were easily repelled. .

After discovering that his comrades suffered heavy casualties, even a large number of black crows did not dare to attack rashly at this time.

Knowing the terrifying combat power of this Tianzhou, of course, he must choose to retreat and save his life.

So it didn't take long for the surrounding black crows to run away.

"Hehe, these beasts are smarter. If you continue to stay here to attack us, I will let them disappear completely in this world in a few minutes." Situ Shangyan snorted coldly, and lifted up. The hand beckoned, and a messenger next to him came over: "You send these three distinguished guests to their room to rest, and arrange for someone to take care of them. If you have any needs, you will be satisfied as soon as possible."

"General, don't worry, you can leave this kind of small matter to us." The messenger nodded seriously, and looked at Li Tian and Ning Bing in front of him with a kind smile.

Situ Shangyan turned around and looked at Feng Tianling behind him: "Master Tianling, these next things will not be easy to handle. Please go back to your room and rest."

"Well, you'd better deal with all the problems in the room, and don't make any mistakes. If we have any problems during the journey, it will be bad." Feng Tianling's expression on the top seemed real. It was the commander of this Tianzhou, who did not take Situ Shangyan in front of him seriously in his words.

Fortunately, Situ Shangyan himself is also a very kind person, and only when he is performing a task will he really hold his face. In fact, he is still a very kind person.

Otherwise, the soldiers around him would not follow him willingly.

It is precisely because Situ Shangyan usually communicates very well, and only asks you not to run in the task when you are performing tasks. Therefore, even in the New Moon City, you also have many friends. Many soldiers under the generals treat him quite well. Respect.

Such a character does not need to be too restrictive even when facing Feng Jie.

But Feng Tianling in front of me had such an attitude. If I changed it to someone else, he might have exploded a long time ago. What kind of thing do you dare to bluff like this in front of me.

Fortunately, he has no such thoughts.

"Thank you, Young Master Tianling, for his worry. I have taken over this Tianzhou for many years, and the soldiers under him are very obedient. I think I can handle these things.

"That's the best." Feng Tianling said proudly, seeing the Ningbing standing with Li Tian on the side, knowing that the relationship between these two people is extraordinary at this time, and going up there is nothing more than asking for it. Humiliated, he didn't step forward, but left honestly, thinking to himself: "When the Ten Cities Conference is held this time, you will know who is the real potential stock. I want to see. See if it's that time, would you still ignore me? "

As the son of the City Lord of the Crescent Moon City, he has always been fawning on others, but now he encountered such a situation, of course he was not convinced.

But now I can only think about it. After all, this situation will be reversed. After all, with his current status, he is indeed compared with Li Tian. He is in the sky and underground. It is easy for some girls who are more pursuing power to be Confused, it became his possession.

There have been many such examples before, and they are not one or two, so he is also very confident that he can do this.

Chapter 5616: reason

"General, although Heiwu has been repelled, I don't think we can just take it lightly." When Feng Tianling left, Li Tian and Ningbing did not leave the bridge, but stood on the bridge very seriously. Looking outside from here, many soldiers began to support each other and stood up. Some injured soldiers were sent to the infirmary on the Tianzhou.

As for the soldiers who died, they could only be put away in a black bag.

"Is there anything else I need to worry about?" Situ Shangyan turned around and looked at the two people behind him. It was more or less weird. Why did they stay here and did not leave? It was just because of these two people. With his identity, he hasn't made any excessive moves at the moment: "The Black Crow has been repelled. I think our next step is to speed up and leave here."

"The black crow was indeed repelled, but I wondered if a black crow attacked us too suddenly. We just entered the dark forest and we were directly attacked by such a crazy attack, even if it was discovered by the black crow. I am afraid that after we have walked in the Dark Forest for a while, these black crows will attack us, but now it is too fast." Li Tianyi looked at Situ Shangyan seriously. From this incident, you can even smell something unusual.

If they were only discovered when they entered the Dark Forest, it would take a while to gather such a number and attack in a unified manner.

But the reality is that they had just entered the range of the Dark Forest, and they were directly attacked by the Black Crow.

It is inevitable that Li Tian will not be suspicious at this time. It is like a plan already made in advance. These black fogs are like a large open net, waiting for them to jump in by themselves.

"I know what you mean. These black crows attack very fast, and they are still very sudden. They don't look like their survival instinct at all, so you worry that all this is controlled by someone behind the scenes. If we stay silent at this time and don't care about anything, maybe next time, the enemy's attack on us will be even more crazy?" Situ Shangyan smiled and asked Li Tian.

"I really have this idea. I think this is also something that can easily happen in the gods. Many people know our whereabouts this time. Therefore, we set an ambush on our only way and want to be the first Time killed us, but failed. I think in the next short time, they will attack again."

"Not to mention that this idea of yours is actually impossible to realize. Just manipulating these black crows, I don't believe it." Situ Shangyan shook his head with a smile, stepped forward, patted Li Tian on the shoulder, and said: "Of course, there is nothing wrong with your idea. If someone is really plotting against us, it will indeed be such a process, but unfortunately, many things are not explained clearly."

"Why don't I think?" Li Tian stepped forward, looking at Situ Shangyan in front of him with a face full of confusion.

"Because black crow is a creature with strong self-control. The first time they are born, they have wisdom comparable to human beings, and they are still growing. Their spiritual power is the same. It is also one of the most powerful creatures I have ever seen. You tell me now that the black crow is controlled by someone. Of course I can't believe it. As far as I know so far, probably very few people can do this. If someone really can control these black crows, why should he use these creatures and do it directly, we are also not his opponents."

It's a difficult thing to control the black crow.

Before, Li Tian still applauded slowly, but now he doesn't feel that way anymore.

After all, this young man was still a young man, and he was too young to think about the problem. He naively thought that all the black crows in front of him had been manipulated, and they were ambushing them here early.

If it were another creature, maybe he really believed it.

But Heiwu would never believe it. This creature itself has very powerful spiritual power, and its own power is not simple. It can be said to be one of the most difficult creatures in the gods to control. If someone controlled such a large number of black crows, it would actually be like an unnecessary move. There is no need to control the black crows at all. They can be dealt with only by their own strength.

This is the strength of the black crow.

"You don't even know this, right? People in the entire God Realm know that creatures like the Black Crow are difficult to control. Otherwise, if you control a Black Crow Demon King, it is equivalent to controlling. Like an army, the entire God Realm also possesses very terrifying combat effectiveness, so can the God Realm still be so peaceful now?" Ning Bing was also looking at Li Tian blankly.

Heiwu can't be controlled, this is almost something that everyone in the gods knows.

The expressions on these faces are still unwilling to believe that these black crows who take the initiative to launch the attack are controlled by someone. If they are controlled by someone, then even if they are prepared, they must be helpless. of.

Li Tian looked at Situ Shangyan with a serious face, knowing that he definitely didn't want to believe it.

"Then how do we explain it? If all this is really not controlled by anyone behind the scenes, why would these black crows attack us as soon as we entered the Dark Forest? Is it just curiosity? If it's just curiosity If so, it is impossible to launch such a large-scale offensive. This is also a very difficult battle for our Tianzhou."

Li Tian had a completely serious expression at this moment.

He knew that there must be a reason for the appearance of these black crows, and the reason is definitely not simple. Most likely, behind the scenes of these black crows, there is actually a manipulator who has been controlling these black crows. Wu, therefore, the first time they entered the Dark Forest, these black crows also launched an attack on them, and it was still too fast to cover their ears.

"I said before, there is indeed a possibility, but the black crow can't be controlled."

"There is nothing in this world that can't be done, it's just because some people are unwilling to do it. We still have a long way to understand the truth." Li Tian still wants to convince him at this time Situ Shangyan.

Chapter 5617: Dark night

Situ Shangyan didn't want to believe it, or in other words, everyone present didn't want to believe it.

Control the black crow.

It's just like joking. In the blood of this kind of creature, there is the bloodline of the Golden Crow, and it has a great reputation in the gods. The destructive power and offensive forces are too strong. These immortals in the gods are more than once. I want to wipe out these things, but all the actions so far have failed.

Just because this creature is really terrible, and it is still a social creature, if they go to deal with these black crows under normal circumstances, they are basically looking for death.

"Okay, just leave these things on the bridge to me to deal with. Your mission this time is to take a good rest and deal with the next Ten-City Conference." Situ Shangyan smiled and issued an eviction order.

Obviously, he felt that Li Tian was already a little in the way here.

Ning Bing also said in a low voice at this time: "Otherwise, let's go. It doesn't make much sense to stay here. It is true that the black crow can't be controlled. So far, no one can control it for so many years. Control these black crows."

"I still don't want to believe that. What I have always believed in is that as long as you want to accomplish one thing, you will be successful." Li Tian sighed, glanced at Situ Shangyan, and then turned to follow the order. The soldiers left.

Looking at Li Tian's back, Ning Bing turned around helplessly, and said to Situ Shangyan:

"General, Li Tian is this character, and I hope that the general will not take this matter to heart."

"It doesn't matter. I still have a little understanding of this young man. His thinking this time is indeed no problem. The appearance and attack of these black crows is too abrupt, even we have a little worry." Situ Shangyan raised his mouth slightly at this time, looked at Ning Bing, and said with a smile: "It's a pity that this time the attacker is Black Crow, so that's why I feel a little bit against his thoughts."

"It's also said that the black crow is noble, and maybe it is impossible to be controlled by someone from birth. How could someone control such a large number of black crows and attack us?"

After leaving the bridge, Li Tian followed behind Chuan Lingbing and walked a staircase to the inside of Tianzhou.

You can see a lot of soldiers' dormitories here. The rows of rooms are neatly arranged, but in these rooms you can also see many luxurious rooms, all of which belong to higher-ranking officers.

If you lean a little further inside, you can see some very spacious rooms.

Setting up such a room on the Tianzhou occupies a lot of space and also squeezes the entire Tianzhou's capacity for soldiers.

This shows that the value of these rooms is still not small.

The messenger brought Li Tian to a room on the other side, and then smiled and said, "This is your room. I hope you can rest in the room for a while. If you have any problems, please don't hesitate to

order. Our people will always be waiting outside. If there is a problem, it will be solved for you as soon as possible." He smiled and looked at Li Tian and said.

Li Tian's mood was not very good at this time, but he nodded lightly.

In my heart, I have always been brooding about today's affairs. The black black attacked on a large scale, and it was still a very abrupt attack. They had not seen the black black appear beforehand. These things were more like ambushing them.

All of this gave Li Tian a vigilance.

He knew that his journey to Tianqi City this time was definitely a journey of a lifetime of nine deaths. The beginning of this lifetime of nine deaths was not in Tianqi City, but could be anywhere in this God Realm.

If someone really wants to attack Li Tian, they will definitely choose a suitable opportunity.

Instead of choosing a suitable location.

Heiwu's shot this time was very inexplicable, and without any prior reason, he believed that there must be someone secretly manipulating it.

Even if he himself knew that it was not easy to control Black Crow, he still couldn't change his judgment on this matter. When he was in Broken Cloud Mountain Range, didn't he just see a lot of things that violated common sense?

Although these immortals in the God Realm have lived here for a long time, but in Li Tian's view, their understanding of this God Realm is still very small.

Just like scientists on Earth, their understanding of the entire universe is also minimal.

The existence of this kind of thing far exceeds the imagination of many people. It is simply unscientific to want to make certain things the truth just by relying on their own ideas.

Li Tian squinted his eyes and sat in his room, slowly entering the state of cultivation.

Tianzhou continued to move forward, and it is estimated that at this time tomorrow, he could almost reach Tianqi City.

Even with the fast speed of Tianzhou, it takes so long to reach Tianqi City. It can be imagined that the distance of Tianqi City is also beyond many people's imagination.

Time slowly passed, and no one came to look for Li Tian while he was in the room.

Everything on the Tianzhou seemed to be calm again. After the Black Crow's attack, probably everyone felt very sleepy, so they chose to rest for a while at this time.

But this year did not last long before Li Tian was overturned.

It seems that tonight, it's really not that no one came to the door.

Although it was inside the battleship, Li Tian still really felt a different wave of immortal power, like a magical voice, constantly teasing Li Tian, making him unable to calm down.

I originally wanted to stay in the warship, but now it seems that I have to go out and see.

After such a long time, I haven't felt the movement of other people. It seems that no one has sensed what happened on the battleship, right?

Li Tian squeezed his fists, then stood up and opened the door carefully.

The guard outside was lying on the ground and fell asleep, shouting like thunder. He pushed it with his hand, but he didn't see the person waking up. He should be asleep.

"These soldiers should all know what they should do at this time, why did they fall asleep at this time?" He looked puzzled. According to the truth, the soldiers on the Tianzhou knew what they should do when. Things, sleeping at this time, but to be punished.

Chapter 5618: See the little witch again

"Come on, don't watch, they are all in a deep sleep and cannot wake up. If you want to know what's going on, come out and meet me." At this time, a very young voice was in Li Tian. Rang in his ears.

Li Tian frowned, as if thinking of something, a cold sweat came out of his entire back.

If you say that you don't want to fight against someone in your life, it should be that person.

But at this time, all the people on the Tianzhou were in a deep sleep. Obviously that person did it. He has no way to change this situation now, only to see what this person wants to do.

While thinking about it, he directly summoned the Red Wing Divine Costume and entered the state of the full costume.

He knows very well that the opponent he is going to face this time is very powerful. If he really wants to deal with himself, maybe a face-to-face can kill him in seconds. Therefore, he must make a perfect plan before the battle begins. It's really going to happen, and it's good to have a preparation so that you don't get defeated directly. If you can't do anything, the battle will be ended.

In the silent night, there were only a little bit of light around, and a thick black cloud. When Li Tian walked out of the Tianzhou, he found that the entire Tianzhou had stopped moving at this time, and all around was lying. Soldiers sleeping on the ground.

On the edge of the deck, a little girl was sitting on it, her feet slumped in the air, swinging like playing in the water, with a wicked smile on her mouth, especially the ghostly eyes, making Li Tian once again I felt the horrible feeling before.

"Are you scared?"

"who are you?"

"It doesn't matter who I am and who I am not. It doesn't make any sense to you. Even if I tell you, you won't find any news about me." The little witch smiled, and then lifted one. With his fingers, a gleam of light pierced Li Tian's eyebrows directly: "Hey, I didn't expect that there is still a trace of the remnant soul of the ancient **** in your body. It's a pity that the remnant soul of the ancient **** is not very powerful. , The conversation between us, can't let him hear."

Li Tian was even more stunned. The little witch had already shown terrifying strength when she was in Broken Cloud Mountain Range. Now she even knows that she has the remnant soul of the ancient **** in her body, Li God has seen so many people, but no one can ever know the secret of his body.

"How did you know?"

"It's my personal ability. Although the remnant soul of the ancient gods is placed in your body, the methods are extraordinarily concealed. Even the **** emperor can't find this, so you don't need to worry too much." The witch smiled wryly and looked at him: "There is no need to be afraid of anything. If I really want to kill you, now that you are dead, how could you still be standing here."

"Since you are not going to kill me, what is the purpose of coming to me this time? Just let me see the scene before me and let me know how good you are?"

"Hey, I am not as superficial as you think. This time I came to you just to see how your current performance is. If I can catch a strongest from the lower realm and become my puppet army, then that would be A very good choice." The little witch's eyes flashed with greed, and the look in Li Tian's eyes seemed to be looking at a human, but like looking at her own toy.

This look made Li Tian's whole body creepy, and he had no doubt whether the little witch in front of him had such strength.

She had already shown such terrifying strength when she was in Broken Cloud Mountain Range before.

Of course, it should be only a trivial part for this little witch, and it is truly powerful in front of her. On this ship, there are many strong men and many soldiers, and there is a master who is close to the realm of gods.

But there was still no way to stop the little witch, let her enter the Tianzhou easily as if she had entered the land of no one.

"I see, you actually controlled the black crow before."

"Hey, you are very smart, and you know that nothing in this world is immutable. It's a pity that these idiots will not understand this. If they hadn't repaired the barrier in time, I wouldn't have been so relaxed. Come in." The little witch sneered, looked at Li Tian, and asked: "But, I'm lucky, I see you now."

"Even if you want to control me as your puppet, I will not easily surrender to you. I would rather commit suicide than be your puppet."

"This is not for you. Of course, you don't need to worry about it now. Although you are very good, you have reached the realm of gods, but you are barely enough to be a little toy of mine, but obviously this is not you. The limit of potential, so I will give you more time for you to grow up. When you really satisfy me, I will kill you and make you my puppet toy." The little witch was talking Still smiling.

This little loli seems to have a little cute feeling, but the feeling of speaking is really creepy, and if you don't agree, it will kill you.

Even Li Tian was full of nervousness at this moment, looking at the little witch in front of him, he didn't know what to say.

"So I can still live now." Li Tian asked embarrassedly.

"Now your strength is not enough to make me value you, but now the person you need to worry about the most is not me. There are still many people in the God Realm who want to kill you. There

is even a ***** emperor in it. Master, this trip to Tianqi City is a challenge for you. If you are not careful, you will die in their hands." Little Lori whispered, "So, this time I come to you. I also want to see how strong your little guy is now and whether he can survive."

"What do you want to think?"

"Of course, I asked you to fight my little pet. If you win, I will wake up all these people. If you lose, then you can only give up this ten-city meeting, and everything here People will die because of you." Little Lori stared at him and said solemnly: "So whether these people are dead or alive depends on how you perform this time."

Li Tian clenched his fist and looked at the little witch, feeling very uncomfortable.

Chapter 5619: Azure Moon Wolf King

Li Tian looked at the little witch in front of him, feeling very upset in his heart.

He didn't know what his opponent was this time, but he knew that this time he definitely couldn't just fail like this. If it was just these people, it didn't matter to Li Tian.

But the ice is also on this warship.

"Don't worry, this little toy is not a challenge for you. As long as your strength is improved, you can easily overcome it. If it doesn't work, then I can't help you." The little witch sneered.

Li Tian frowned, and slowly summoned Hong Zhan: "Come on, with my current strength, I am definitely not your opponent. Now I can only listen to you honestly. It depends on whether I can survive. Own luck."

"Oh, it seems that you are very clear about your current situation, but don't worry too much. I know the importance of this woman to you, so this time it is not very difficult." The little witch said, slowly touching He clicked on his ring, and then, a magic wolf with bright silver hair appeared slowly, and the two fangs at the corners of his mouth flashed with cold light.

Azure Moon Wolf King.

This was originally a type of monster, but obviously the appearance of the Azure Moon Wolf King in front of him is different from usual. The colors of his two eyes are completely different, one is red, the other is gray, and The little witch has a very evil look. Seeing Li Tian, she also showed a weird smile, just like a cat who can laugh.

A glance will make your hair creepy.

The little witch looked at Li Tian with a smile, as if she was very proud: "You must be very curious, this one, the Azure Moon Wolf King, is different from the records you have seen before."

"I'm used to it. Since it has become your toy, can it still look the same as before?" Li Tian chuckled, looking at the Cangyue Wolf King in front of him, he already knew something.

The little witch smiled, then stretched out her hand to touch the Cangyue Wolf King's head, squinted and said: "Little guy, this time you have to fight well, let me see clearly how strong the little guy in front of me is. , Whether he can become your companion depends on your performance this time."

As the voice of the little witch fell, Cangyue Wolf King raised his head and roared, and then quickly rushed towards Li Tian.

When Li Tian saw the Cangyue Wolf King, he was always preparing. The moment Cangyue Wolf King rushed over, he directly pulled out the Red Slash in his hand, and the sword aura was madly released.

‘Boom Rumble’

There were bursts of explosions around. Although Li Tian’s sword aura was raging, there was no problem with the Azure Moon Wolf King. The hair on his body was also erected at this time, becoming like a silver needle, fast He shot towards Li Tian.

The Void Leap was activated in an instant, and Li Tian's figure flashed, and he had already reached the Cangyue Wolf King.

The Cangyue Wolf King had also made preparations a long time ago. When Li Tian appeared in front of him, a cloud of corrosive venom spewed out of his mouth and sprayed directly on Li Tian's body.

"Chichichichi"

The Red Wing God on Li Tian pretended to emit a burst of smoke, and he quickly backed away a few steps. The Red Blade in his hand trembled slightly, and he squinted at the liquid on his left arm. Although the liquid is very corrosive Sex, but obviously the defensive power of Li Tian's red wing ***** outfit is also quite terrifying.

"Not bad. It seems that this set of equipment on your body is really good. You are indeed a strong man who rose from the lower realm. This strength does make many people jealous, but it seems that you have fallen in Downwind, if you lose in this way, you are going to let all these people die here today." As the little witch said, her left hand began to condense a black whirlpool.

Let’s talk. Seeing this movement, I immediately said anxiously: "I won’t lose."

"Are you sure?"

"Of course I am sure. If I lose here today, I won't be called Li Tian." He snorted coldly, and the red sword in his hand began to absorb the power of immortality frantically, and then the sword in his hand began to explode terribly. The aura comes.

Seeing this, the little witch was satisfied a lot: "This is almost the same, you have to let me see your strength anyway, if you only fight at the simplest level, how do I know how much you have grown during this time? What?"

Li Tian is also daring to be angry and dare not to speak, this little witch holds so many lives in her hands, and it is still a heavenly boat.

"I know you will hate me, but it doesn't matter. You will never be my opponent. Even if you continue to grow up, you will only find that your strength is just ants in front of me, so I advise you to Honestly, don't choose to be an enemy with me, otherwise you'd better regret it." The little witch cocked her legs and said disdainfully.

Li Tian snorted, and Hong Zhan waved in his hand.

Hearing a 'swish', an enchantment appeared around Cangyue Wolf King's body.

But even so, his sword aura only broke this barrier, making Cangyue Wolf King take a step back.

Of course, Li Tian couldn't miss this opportunity. The sword in the hands of the direct controller quickly rushed over, and then slashed with a sword.

His movements were very fast, so the Azure Moon Wolf King failed to react in time.

However, the little witch reacted. The moment Li Tian's sword fell, her little hands actually caught Hong Zhan.

It was also powerless to resist. The moment the little witch caught Hong Zhan, Li Tian knew that she had no power to fight back now. Her hands looked like fragile hands, but the power on them was Li Tian couldn't resist.

"Alright, alright, you have proven your strength now, and it's not bad, are you still going to let my toys break because of you?" The little witch saw Li Tian's serious look and endured. He couldn't help but snorted and asked.

Li Tiansan smiled wryly: "So, have I passed your test now?"

"Forget it, your performance this time is pretty good, you barely passed my test, because of your hard work, these people can survive, you should feel it, very happy." As he said, he slowly put away the Cangyue Wolf King: "These two moves are not bad, and they are also very good strength in the realm of gods."

Li Tian breathed a sigh of relief, looking at the little witch in front of him, finally he was not as worried as before.

Chapter 5620: A dream trance

Although he knew something that he didn't want to know, for Li Tian, the current ending was pretty good. If the little witch wanted to kill herself, that would be the most terrifying thing.

She will not take action against herself yet, on the contrary, she will help Li Tian solve some problems, because she needs Li Tian to become stronger, so as to be qualified to become her puppet.

In this way, it was actually a good thing for him in this ten-city meeting.

"You won't kill me now, just don't worry at all that one day I will become stronger and become an existence beyond your control. Then how are you going to deal with me?" Knowing that the little witch in front of me has no intention of killing herself, The red wing **** outfit on Li Tian was also lifted, and the red sword in his hand was put away: "I saw a lot of stories before. The big boss allowed the protagonist to grow up. In the end, the protagonist became a more powerful existence than the boss. Kill the boss and the whole story will end. Don't you worry?"

"What do I have to worry about? If you can really grow up to that point, I would love to hear it. I haven't seen an opponent that impresses me for a long time. If you are confident that you have such strength, You can give it a try." The little witch did not show any panic in the face of Li Tian's provocation. It seemed that all this was insignificant to her.

At this time, Li Tian didn't know what to say.

When I saw this little Lolita in Broken Cloud Mountain Range before, I felt that this was a very dangerous character. After that, although the Tianluo Sect sent people to pass, it still didn't have any effect.

Even Lu Xiu was defeated in a battle in Broken Cloud Mountain Range.

No one knows what happened to them in the depths of Broken Cloud Mountain. Only Li Tian understood that this must have an inseparable relationship with the little Lolita in front of him.

At such a young age, but with such terrifying strength.

It's hard to imagine that there will be a little loli standing in front of him. In Li Tian's view, the strength of this little loli is probably much stronger than most people in the entire God Realm.

She said before that she hadn't met an opponent who could make her interested in a long time, just because these years the ***** emperors were all honestly resting in their own territory, rarely going out to do anything, and rarely interacting with each other. Fighting, so little loli is very boring.

If it were to fight, this little loli would probably also have the strength of a ***** emperor.

"Don't think about my level. In short, you can't look up to the existence of this little rookie. Although your strength is already very good now, there is still a long way to go. Don't think you are going. It's very far away." The little witch saw Li Tian's eyes twirl, she could easily see through the thoughts in this kid's heart, and slapped her disdainfully: "The honest cultivation is what you need to do most now. Things, don't think about challenging me."

"You made so many people fall asleep here today. When they wake up, how can I explain to them?"

"This is your business. It has nothing to do with me. You can say anything, but they certainly can't detect how long they have been sleeping on this warship. They only need me to release my spells. They will wake up directly, and they still don't remember everything that happened before, so you don't need to worry too much, probably no one will notice any problems." The little witch thought for a while and patted Li Tian on the shoulder. .

Li Tian also breathed a sigh of relief at this time: "So, I have passed the test now?"

"Reluctantly. Since the last meeting in Broken Cloud Mountain Range, your strength has indeed increased a lot. For me, I am very satisfied with your growth, but it is still too slow. You also need to make progress faster, so if someone chooses to be your enemy on this road, I will help appropriately, but don't think that with my help, you will be fearless. You can handle some things yourself. If you do, I won't do anything, even if you die, it doesn't matter. To me you are just a little toy.

Li Tian understood. Although the little witch promised to protect herself, she didn't stand up to protect Li Tian as soon as anything happened. She was very tasteful.

If it was just a normal enemy, she would not even bother to stand up and fight.

At this time, Li Tian needs to stand up and face these enemies. Whether life or death depends on his own destiny. If he dies like this, he can only say that he has bad luck and is not qualified to blame anyone.

But if you encounter a master at the ***** emperor level, or a master at the ***** king level, maybe the little witch will be interested in taking action at this time and protect Li Tian.

Feeling, this Shangfang sword, is not invincible.

"Well, I have seen your growth. I will pay close attention to you at the Ten Cities Conference this time. I hope not to let me down. There is not much time left for you. If you still want your If the little lover is alive, you must work hard to improve your strength. If one day you can defeat me, maybe I can give up the idea of making you my toy." The little witch stood up slowly while talking. , And then walked toward the outside of the deck step by step: "Yes, you only have two minutes to go back to your room, so they won't know what happened before."

Hearing these words, Li Tian also recovered for the first time, and quickly moved towards the inside of the warship.

The little witch stepped on the void, and then walked out of the heavenly ark slowly like this.

When Li Tian returned to the room, he immediately felt the chaos on the entire battleship, and many soldiers began to move.

Li Tian hurried out, pretending to be very sleepy, and asked: "What's the matter?"

"I don't know why, all the people on Tianzhou seemed to have fallen asleep before, and Tianzhou also stopped. Something seems to have happened." The soldier standing at the door looked at Li Tian and said in fear.

No matter who encounters this situation, it will definitely feel terrible.

The inexplicable appearance of the enemy is not something they can easily find out. Therefore, the entire Tianzhou, at this moment, has become a chaos, and no one knows what happened just now.
