

## A Killer 5871

Chapter 5871: Try the risk

The situation in front of him gave Li Tian little chance to react. At this moment, he opened his eyes wide, and then sneered: "It seems that I am destined to make such a decision today. There is no chance for me to choose."

"Okay, I hope your decision is correct. If your decision is wrong, then you really are going to die here." Canglong knew that he definitely couldn't make Li Tian change his situation now. The situation is really not right now. You have to choose. If you don't end this battle soon, the next problem will be too serious to be solved.

I don't know how many wild and wild animals there are. The longer you delay here, the greater the possibility of encountering powerful monsters.

As time passed, Li Tian squinted his eyes and looked at the ghost face demon spider below: "You are watching for me outside. If this guy starts to suffer from pain, don't hesitate to help me get rid of it."

"You should hurry up and consider the things inside. As for the outside situation, just leave it to me, and I promise to help you deal with this monster." Canglong said.

Li Tian swallowed his saliva. Although he looked calm on the surface, he still couldn't calm down his mood. If the void jumped wrongly, he might be directly in the body of the ghost face devil spider and could not come out. No one knows what the result of this monster's body looks like, if it were really teleported in, what the result would be.

He is now gambling, and he doesn't know what kind of result he will encounter next.

It's just that when things have reached this point, a decision has to be made no matter what, he sneered right now, directly used the void to jump, and then disappeared in front of the Ghost Face Demon Spider instantly.

The ghost-faced demon spider had originally focused all its attention on this human being. It was very clear that if this human continued to rise, he might encounter another prehistoric beast next time. Then he would be in trouble. So, I really want to end this battle quickly and eat Li Tian early, lest there be any worries.

At this time, his prey disappeared from his sight like this, I believe this ghost-faced demon spider can't believe that this is a real thing that happened before my eyes.

It looked around, looking for where Li Tian was.

At this time, Li Tian had already reached a slimy and dark place.

'It seems you're really right to bet. This place should be in the belly of the Ghost Face Devil Spider. Whether I can beat this guy, it depends on my luck. He looked at the environment he was in now, couldn't help but frowned, and then silently threw out a sword aura!

"Ho Ho Ho Ho"

The ghost face demon spider, who was still wondering, suddenly roared frantically, and the huge body was constantly rolling on the ground, looking like it was suffering some great pain, and the eight eyes began to change at this time. It has to lose its luster.

The Canglong is already very happy in the air. The connection between it and Li Tian has not been broken. At this time, Li Tian can also be sensed in the body of the Ghost Face Demon Spider. This means that this guy is still alive now. It only needs this little bit. Will suffice.

And the state of the Ghost Face Devil Spider at this time can be said to be the most pitiful, facing the disappearing enemy in front of him, it is simply at a loss, and he has no idea what he should do now to eliminate it.

Li Tian in his body naturally wouldn't retain the slightest affection when attacking the Ghost Face Demon Spider, and his shot meant to kill this guy.

The Ghost Face Demon Spider kept roaring, but it was just so loud. If you want to survive, you have to expel Li Tian from his body, but the process is obviously not as simple as they thought.

It didn't take long for the Ghost Face Demon Spider to slowly stop like this.

When the ghost face and demon spider stopped, Li Tian directly made a hole in his stomach and then got out of it.

His body is full of colorful slime, which looks very disgusting.

"Oh~" Even a man like Li Tian with a strong bearing capacity could not help but almost vomited out.

"Damn it, it's so disgusting in this guy's stomach, I almost vomited it out." Li Tian squinted his eyes and glanced at the Canglong slowly falling from the sky: "How about it, there is no attraction here. Other wild animals come here, right?"

"No, their territorial consciousness is still very strong, and no other creatures are approaching, but this is not a bad thing, right? You have more mucus on your body, which is equivalent to giving yourself a means to hide your breath. , Other guys may think that you are also a wild beast, and don't shoot you so quickly."

"Forget it, these things sticking to my body can only make me sicker."

While talking, he took off his clothes, then took out some drinking water, washed all the mucus on his body, and then changed into a refreshing outfit. Then he said, "Get out of here. According to the map, we probably still need a little bit of time to reach that place, and there should be no hesitation in the process."

"Although theoretically it can take more than an hour to pass, we will definitely waste a lot of time on the road. After all, there are many enemies on this road. It is far more complicated than we thought to kill them. Up."

Indeed, although they are marked on the map, it takes almost an hour to pass, but I don't know how many prehistoric beasts will be encountered along the way. If you encounter these monsters, you must stay and deal with them. How much time needs to be wasted inside is not always certain.

"All in all, staying here is just a waste of time. Let's hurry up and act. I also want to know what kind of things are in front of me and let them be so cautious." Li Tian squinted his eyes and said angrily.

In a word, the most curious thing in my heart is nothing more than what kind of monsters are in front of me. The wild and wild beasts that can survive in this place should all be absolutely powerful creatures. Faced with such terrifying creatures, Isn't it a big challenge?

Chapter 5872: Harpy

On the next road, because of lessons learned, Li Tian didn't dare to stay in one place for too long.

He knows that such places are full of wild and wild animals. If you don't stay in one place for a period of time, it will be easier to expose your position and attract the enemy's attack. In this way, if you want to pass within an hour, It's impossible.

So it can be said that this journey is going all out, and the speed has increased to the extreme.

In this way, after more than an hour passed, they came to the place marked on the map.

This place should be at the foot of a big mountain, and there is a cave under this big mountain, but when Li Tian came here, he found that there was nothing at all.

"What's going on? According to the map, we should have reached the destination now, but there is nothing we were looking for here." When he saw the scene before him, Li Tian was shocked. , This place is simply a rugged rocky hill, there is no cave on the map in their hands, let alone obvious energy fluctuations.

"Is the content on this map different from the time period where we are now? The original cave is gone, do we need to enter in another way?" On this side, Canglong also looked at the map with confusion. In the cave, I don't know what this is all about.

They are quick and cautious along the way.

I am afraid that some problems will arise here.

But in the end, there was still a problem, and it was still the biggest problem.

They simply cannot find the entrance here.

"Damn, I should have doubted the identity of that guy a long time ago." Li Tian patted his head, thinking that the man knew his identity and that there should be nothing wrong. He also knew himself and Murong. Ziqing's transaction should be clear about the content, so there should be no mistakes in what he said.

Who knew it turned out to be like this.

"Maybe, maybe the map is marked with a location many years ago, but after we come here now, it is already a vicissitudes of life, and it is no longer what it looked like on the map." Canglong saw Li. Tian was so angry, he comforted and said, even if we are angry in this situation, it is of no use, we can't change anything.

"Then what to do now, I don't know if there are any powerful wild beasts in this place. The longer time wasted here, the more likely it is to be discovered by the enemy, and it will be more troublesome at that time." I shrugged my shoulders helplessly, his face was anxious, time was waiting for no one, the longer I wasted here, the more dangerous.

"What should we do now, shall we leave here, or continue to search here?"

"What else can I do? At this step, I naturally have to look for it. I want to see what the crystal in their mouth is. It's worth their thoughts for so long." Li Tian said angrily. It's all reached this point now, if nothing happened, it wouldn't suit Li Tian's nature just to turn around and leave here.

Now I definitely can't continue to waste time here, so I have to hurry up and look for it here.

After making a decision, I directly separated several clones and started looking for the entrance in different directions. Although it is a strange rocky place, if it is the location marked on the map, even in the past. After so long, you should be able to find it here.

---

On the top of the big tree branches that go straight into the sky, there are some small wooden houses that look like human buildings.

Of course, there are also some elves' styles.

At this moment, in an old-looking wooden house inside, a harpy with an eagle-like body but a woman-like upper body was chanting a spell with her eyes closed.

At this moment, another harpy from outside broke in: "High Priest, the Dark Moon Altar was found by humans."

The high priest slowly opened his eyes, and a fierce light flashed in those erect eyes: "It has been so many years, humans have not given up their coveting for the Dark Moon Altar, and now they dare Coming here seems to be a lesson to them and let them know what our family's determination is."

"However, most of the people of the tribe now have their own affairs. There have been a lot of wars between the wild beasts in this area during the recent period. Can we now deal with humans?"

"How many humans have come?"

"Now we see only a human young man, but it looks like a scout, I think there may be many enemies behind."

"It doesn't matter, this time I personally dispatched them, so that people like them all come back and forth, and those old guys all know what they should do and won't participate in this war." The high priest snorted coldly. , The wings behind him slowly stirred up, and then slowly flew out of the wooden house, holding a magic wand in his right hand: "You guard here."

"High priest, don't do it, if you encounter any danger, wouldn't it be..."

"Danger?" The high priest sneered, and said disdainfully: "I have survived here for so many years, and the wild and wild animals here are not my opponents. Could it be that a few human boys can defeat me? "

Hearing the high priest's answer, the other harpy fell silent.

"Smok."

"High priest."

"This is the mission of our clan. Even if it is really going to die this time, we still have to go. This is something we can't reverse." The high priest said lightly, then ignored it, and instantly turned into a stream of light. , Passing towards the dark moon altar in the distance, the wand in his hand was

shining with light, and at the same time, a mysterious formation appeared under the huge tree where the Harpy Clan was.

There are a lot of precious crystals inlaid on the hair, shining with dazzling light at this moment, rising from the sky, turning into barriers, protecting the entire tree.

In this way, it is not that simple for outsiders to invade here.

This was the last move of the high priest and the only means used to protect their clan.

"Hope, this time the enemy is really not that difficult to deal with." The high priest glanced at the enchantment behind him and muttered.

Chapter 5873: High priest

"Smok, what's going on?"

Only a few minutes after the enchantment rose, several elderly harpy rushed out of the wooden house, looked at the enchantment in front of them, and then opened their eyes wide, looking at Smoke.

"Humans found the Dark Moon Altar, and the high priest passed."

"Naughty, humans have already wanted to attack the Dark Moon Altar hundreds of years ago. After so long, they may have brewed even more terrifying power in the process, relying on her alone. , Can deal with humans?"

"Elder, we have no choice now. If there is no Darkmoon Altar, it would be difficult for us to control the entire space. These wild beasts are not suppressed by crystals, and there is no way to listen to us." Smok was helpless. Said.

"That's not going to let her go alone." The elder said hoarsely, and wanted to break through this barrier.

But very helpless, once this barrier rises, there is no way to reverse it.

The most powerful existence among the Harpy family is the high priest, so if she fails, it means that the entire Harpy family may be destroyed in the hands of humans in this way, so the high priest will directly They opened their protective barriers, just to save their race, so as not to find humans here and completely wipe them out.

This family has survived here for many years. When this world existed in the memory, these harpy devil had already existed here.

Now that their guardian altar has been attacked, the consequences can be quite serious.

On the other side, none of Li Tian's avatars were able to find where the entrance is, and the label on the map was only a rough label, and it was not clear where the entrance was. The longer the delay, the more The more troublesome it is to leave here.

"It's been ten minutes or so, and we still haven't been able to find where the entrance is. I think these guys are deliberately deceiving me." Li Tian stared at him, holding Hong Zhan in his hand, and squinted. far away.

"Shall we leave?"

"Leave, do you still want to leave when you get here? It's just wishful thinking," the Harpy appeared here when they were thinking about leaving here, leaning down and looking at Li Tian below him, and said: "Humans, it's not that you didn't try to attack the Dark Moon Altar hundreds of years ago, but you failed. Do you want to continue to try our power?"

"When did a talking guy like you appear in the wild monsters?" Li Tian squinted, and the high priest in front of him looked like a monster, but his appearance was absolutely nothing to say.

Harpy is very different from human beings, but they are absolutely outstanding in beauty. Every harpy's face is absolutely devil-level, not to mention the high priest in front of him, just the first glance. One glance almost stunned Li Tian.

"Humans, you leave the altar right now. If you continue to stay here and don't leave, don't blame me for being polite." The high priest was still very polite, just because he saw that this kid didn't look like a human being in the army. One member, more like a confused marcher, came here by accident, without knowing the meaning of this altar.

Otherwise, according to his character, he would have shot directly.

"What is the Dark Moon Altar here? This is clearly a chaotic stone hill. I don't know what the so-called Dark Moon Altar is." Li Tian snorted coldly, looking at the high priest in front of him, and asked.

"I said this is the Darkmoon Altar, this is the Darkmoon Altar, give you a chance to disappear from my front immediately, otherwise don't blame me for being polite." The high priest was still so indifferent, and said lightly, his tone was also Then it gradually aggravated a lot: "Don't let me think that you kid shamelessly, otherwise, just wait to die here."

"As I said, this is a rocky hill in my eyes. Since it is a rocky hill, then what I do here has nothing to do with you. Unless you are ready to fight with me, you can try Although I'm a human, it doesn't mean I'll be afraid of you." Li Tian also showed his aura when he said here, because he didn't know how powerful the harpy was. Preparation to leave here.

Although he said that he agreed to Murong Ziqing, the situation before him is obviously not that simple. If he died in this place because of the completion of that woman's task, he would have lost more than the gains, and he would definitely not be able to accept this. Thing.

"It seems that you kid doesn't see the coffin and doesn't cry anymore. If you are like this, you can die." The high priest snorted, and the staff in his hand was raised high, and then a trail fell in the air. Another flash of lightning came directly towards Li Tian.

When Li Tian saw this scene before him, his eyes widened unobtrusively: "Damn, this is a difficult opponent."

He wanted to transfer his body, but he realized that he was imprisoned here before he even started to act.

"God's realm? Depending on your age, being able to cultivate to this level at such a young age is considered a powerful genius among humans, but I am very surprised why you appear here, don't you worry about dying here? ?" The high priest squinted his eyes and looked at Li Tian in front of him, and asked suspiciously.

"Do you think I want to run here?" Li Tian raised his head, with an awkward smile, looked at the high priest in front of him, and said: "I want to get out of here alive, I must get the crystal here. , I can't leave here without this crystal, and I don't want to die."

"It seems that you also came for that crystal. Since it is like this, there is nothing left to say. I can only let you die here." The high priest said, the thunder and lightning had hit Li Tian, and it exploded in an instant. Clouds of thick black smoke came, and these thick smoke grew more and more, and soon covered many places around it, and it was impossible to see what was going on inside.

And Li Tian also screamed at this moment. These lightning strikes on his body and almost made his whole person's spirit collapsed. This level of offense is really terrifying.

"Ah..." he yelled, hoarse.

Chapter 5874: Dark hole

"You humans are no longer a day or two, coveting the Dark Moon Crystal of our clan, but as early as hundreds of years ago, an attack they organized was defeated by us. In the following hundreds of years, they They all gave up, because they have seen the greatness of our clan, and now they want to enter the Dark Moon Altar and take away the Dark Moon Crystal of our clan just by relying on a kid like you. Do you think it is possible?"

The Hong Zhan in Li Tian's hand fell to the ground, his hands seemed to be caught by something. At this time, he could only be hung in the air like this, looking helplessly at the high priest in front of him.

There were many wounds on the body. These wounds were all pitch-black, and the flesh inside was rolled out. These were all after fierce clicks, and this was the scene before me.

"Well, now that I know what my abilities are, why bother wasting so long with us? If I were you, I would choose to leave at this time." The high priest looked at the young man in front of him, leading He asked in a teasing tone: "Any resistance in front of me has no meaning and will only make you more and more dangerous."

"No matter what, it's impossible for me to leave here today. I want to leave here only by relying on the Dark Moon Crystal. Without this thing, I can only die here. Anyway, it's just a death. It's better to just die Die here, if you don't want me to take it away, just kill me directly. If you don't kill me directly, I will definitely take this Dark Moon Crystal." Li Tian gritted his teeth and said.

"Since you are so firm, then I will have to let you die. Originally, I was very unwilling to kill a genius like you. If you give you some time, you can cultivate to become stronger, but you don't cherish me. There is no other way but to let you die." The high priest said in a pity that her purpose was only to protect the Dark Moon Crystal, and she had not thought of killing Li Tian.

At this time, Li Tian's mind rang the voice of the remnant soul of the ancient god: "This harpy is not easy. If you are not careful, you may die directly in the hands of this woman."

"What am I going to do now? At this point, I can't change anything. There is no chance of a comeback." Li Tian said helplessly.

"Your purpose is only to take away the Dark Moon Crystal. I have another crystal here. You might as well make a deal with the Harpy and see if they are willing to exchange it like this." The Ancient God Remnant Soul said.

"Etc., etc....."

Just as the high priest was about to take action, Li Tian suddenly yelled, screaming like a pig, and quickly stopped the high priest, looking at Li Tian in front of him with a scrutinizing gaze: " what do you want to say?"

"Don't kill me, if you have something to say, why bother with a knife and a gun like this?"

"You can say what you want to say now. If you can't say anything, don't blame me for being so sorry to you." The high priest snorted and said.

"What is the function of your Dark Moon Crystal?"

"The prehistoric beasts in this space are very powerful, but they have one thing they are very afraid of, and that is the Dark Moon Crystal. Without this crystal, our entire harpy clan would be able to compete with the prehistoric beasts. When the war starts, if it reaches that point, the whole Harpy clan may have only a dead end up and down." When the high priest said this, his emotions began to become very excited.

Of course, they didn't want to die. If this Dark Moon Crystal could help Li Tian, they would be willing to help this young man.

But if it is said that in order to help this young man, their entire harpy clan should be in crisis because of this, it would not be worth the gain. In this space, without the shelter of the Dark Moon Altar, they would not There is no way to survive.

"I also have a crystal in my hand. Although I don't know if the effect is the same, it may have the same effect as the Dark Moon Crystal. You might as well follow me to see why the Dark Moon Crystal plays a very important role here. If possible, I will use this crystal for you." Li Tian said excitedly.

"How do I know if you are deceiving me?"

"This is the time. If I'm deceiving you, you can kill me directly, can't you? With your strength, if you want to kill me, I have absolutely no certainty that I can kill you." Li Tian very I shrugged helplessly, looked at the high priest in front of him, and said embarrassingly: "Your strength is above me. I am like a child in front of you. Isn't it like this?"

Looking at Li Tian in front of him, the high priest hesitated for a while, and said: "There is a formation in the Dark Moon Altar. Only after passing this formation can we see the Dark Moon Crystal. For so many years, our family has also tried to enter. , But all failed. It seems that only you humans know how to unlock this formation. This is why we become so nervous when we meet you humans."

Hearing the high priest say this, Li Tian was relieved now.

As soon as the voice fell, I saw the high priest let go of Li Tian, and then gently waved the staff in his hand.

In the next second, the entire ground began to tremble crazily, just like the destruction of the world, and an obvious dark hole slowly appeared in their sight at this time.

Li Tian breathed a sigh of relief when he saw the dark hole in front of him.

"This is the entrance to the Dark Moon Altar. After entering, you need to go through the magic circle to continue deepening. If there is nothing you can do, it doesn't make sense to talk so much with me." The high priest said.

Seeing the entrance in front of him, Li Tian smiled: "Don't worry, since you all need to rely on this crystal for protection, I definitely can't harm you because of my own selfish desires. I will find one that can make both of us feel good. Safe way, and then take away this crystal."

"I hope so, if I find out that you have other ideas, I will kill you directly before you get back to my senses, without the slightest hesitation." Harpy's eyes widened. Looking at Li Tian in front of him, he said angrily.

"Don't worry, although I am a human being, I am not as cunning as you imagined. Since I have promised you, I will naturally not do more in this matter. Everything must be done in accordance with our agreement. You can rest assured about this." Li Tian replied with a smile.

#### Chapter 5875: Three Spirits

The entrance to the dark cave is not very big, but it can also accommodate two people at the same time.

Li Tian's was still a little nervous at this time. If he couldn't crack this formation, then wanting to leave here would be nothing more than talking about soldiers on paper, not to mention killing Yi Zhongrong, it was just talking about soldiers on paper.

But this is also the only opportunity in the recent period. Whether you can kill this guy or not depends on what happened here. If you can't kill Yi Zhongrong here, then there will be no possibility. Up.

Leaving Dongtianfudi, there are all people from Tianhu City outside, and wanting to kill a city lord's son under the eyes of everyone is tantamount to dreaming.

After going down from the dark cave, the field of vision in front of me began to blur a lot, and I couldn't see clearly, but only a few seconds later, suddenly a bunch of fires lit up around me. The inside of the dark hole also lit up.

In front of them was a cave that looked no more than tens of square meters in size. Inside this cave was carved a lot of strange characters. These characters looked like the characters of some ancient creatures, but the two of them also I can't tell what it is.

"This is the entrance to the Dark Moon Altar. If you continue from here, you must pass the test. If you pass the formation, you will be forcibly teleported out." The high priest glanced at Li Tian beside him, a little curious. What is the courage of this young man to come to such a place alone, seeing her so young, it is probably impossible to know how to solve this formation, right?

"How do you pass now?"

"It depends on you. From now on, everything is within the scope of the postgraduate entrance examination. You need to judge by yourself how to deal with these things. We can't help." She

shrugged and looked at it grinningly. Li Tian, with a dull look in front of him, probably didn't expect that this kid didn't even know how to get in here.

"So you don't know everything after this?"

"I have tried to enter here, but I have never been able to get in. Although the Dark Moon Altar is the guardian holy place of our clan, it is not accessible to all of us. It is only for our ancestors a long time ago. Passed." The high priest blinked, now looking a little less majestic, a little more playful and coquettish, which is quite eye-catching.

Li Tian turned around and looked at the cave in front of him. The words on the stone wall in it are arranged in an orderly manner. I don't understand what it means, but I want to come and have an inseparable connection with the formation here. , Or else I wouldn't make such a text here.

He squinted, knelt down on the ground, and tapped the floor lightly.

"Stop daydreaming. If it were just a dark room tunnel, we would have found it long ago. We still need you humans to waste so much time?" The high priest squinted and looked at Li Tian in front of him.

Li Tian didn't respond. Some content was mentioned on the map, but he didn't say how to pass here.

'Senior, things have reached the point where they are now. There must be no way to change anything with me alone. It depends on your help. He has nothing to do. At this time, he really can only trouble the remnants of the ancient gods.

Moreover, the Remnant Soul of the Ancient God spoke before, which also means that it might help Li Tian in this matter.

'I knew that you little guy would come to me to deal with this matter. In fact, it can be judged from the text above that this is a very old formation. The name is Sanling Ming formation.'

The voice of the remnant soul of the ancient \*\*\*\*\* echoed slowly from Li Tian's side like a teacher.

The so-called Three Spirits Nether Array is an array that was only used in a very old time. It is usually a huge empire, and it is used to keep some secrets.

As the name suggests, the so-called Three Spirits Nether Formation is actually to train the souls of three strong men to become the formation spirits of this formation. When facing the enemy, they all rely on the terrifying combat power of the formation spirits to resist each other. Therefore, each A three-spirit meditation formation is quite difficult to decipher, just because each of the formation spirits of this formation is different, and the result is not necessarily true if you start it.

Because you don't know what your opponent is like, so there is no way to judge what way you can defeat based on your opponent, so it is difficult to deal with the three spirits.

"How do you start this formation?"

"The ultimate enemy of the Three Spirits Nether Formation is the three formation spirits, but there are two levels ahead. One tests your physical endurance, and the other tests your strong mental power. Only after passing these two tests , You can continue." The Ancient God Remnant Soul said, and then told Li Tian the key to this formation.

'This kid shouldn't really come over to make a joke with me, look at it like this, it seems that there's no way to get rid of this formation. The high priest looked at Li Tian in front of him and began to wonder if this kid really has the ability to open this altar.

As a result, the idea hadn't passed long before they saw a lot of strange runes appeared on the ground, and then these runes shone with dazzling light, and soon formed an exceptionally shining formation in their sight. Immediately afterwards, Li Tian and the high priest were all involved in a white whirlpool.

When they opened their eyes, there was already a white world in front of them.

"You actually know how to start this formation?"

"Of course, I came here for this dark moon crystal. If I can't deal with it myself, wouldn't it be a waste of time?" Li Tian said angrily, and then squinted his eyes. This space: "This should be the inside of the Three Spirits Nether Array. What we need to do now is to pass this first test."

"Three Spirits Nether Formation? What is this?" The high priest had a surprised expression. It was true that Li Tian could not handle it before. When he saw that Li Tian could handle it, a touch of surprise appeared on his face.

"That is the formation we are standing here now. It is an ancient formation called the Three Spirits Nether Formation. It is reasonable if you don't know it." Li Tian turned around and looked at the high priest with a smile. , Said: "It's tricky to get through here."

Chapter 5876: pressure

"Three Spirits Nether Array?" The high priest stared at the white space in front of him. He didn't know this rumored formation. Long ago, this formation was quite powerful, some of which were more mysterious. The secrets are all hidden by this formation. This shows the power of this formation. At that time, many powerful thieves were unable to crack these formations.

"Yes, Three Spirits Nether Array, but I didn't expect to encounter this kind of formation in such a place. I already knew that this kind of formation is very difficult. One level, when you wait until the last level, you have to face the three formation spirits. If these three formation spirits really start, it won't be that simple." Li Tian squinted at the high priest in front of him. Said.

"What shall we do now?"

When they were speaking, an incredible pressure was suddenly suppressed, making the two of them feel that their breathing began to become rapid.

In this case, the pressure on the two of them is even greater.

This is the terrible thing about the Three Spirits Nether Array. At the very beginning, it will directly cause multiple pressures on your body and mind. If this happens, it will be difficult for you to continue to maintain a peak state to cope with the next The battle is over.

Then, the problem will become more and more difficult to deal with.

With the passage of time, the pressure on Li Tian and the high priest becomes more and more difficult to withstand. In this kind of place, no matter how strong you are, you will be under

pressure equal to your own strength. Why hasn't even a powerhouse of the high priest level been able to enter here for so long?

"How did you open up this formation just now? You should tell me more about the content here at the beginning, so that I have a mental preparation." The high priest turned around, his head covered with fragrance and sweat. , Asked angrily.

"It can be opened through a kind of spell. The reason why you can't enter here is because you can't chant such a spell." Li Tian said lightly, and shrugged his shoulders at the same time: "Whether you do it or not. Be prepared. This kind of pain must be persisted. If you can't persist even this thing, you won't know what will happen next."

"Hmph, if you let me know what other purpose you have for entering the Dark Moon Altar this time, don't blame me for being rude."

"I advise you not to focus your attention on me now. You should think more about how you can persist in this situation. This is what you need to prepare most now." Tian said helplessly, and at the same time a faint light appeared in his eyes: "The two stages at the beginning of this formation are nothing more than consuming our strength."

Time passed bit by bit, and just when the two of them were about to be unable to hold on, suddenly another wave of pressure was directly pressed down, and this wave was a direct mental test.

The strength of the high priest and Li Tian is very different, but Li Tian is quite confident in his soul power, so he doesn't worry that he will not last long in this situation.

I don't know how much time passed before the two of them appeared in another space.

In front of them are three illusory figures.

"I don't know how many years have passed since I saw the stranger again. Do you two know what the result will be when you come here?" The head of a giant who looked about ten meters tall, leaned down to look. Looking at the Li Tian below, he asked: "Where is this place? I think you know what place is here when you enter here?"

"You should be the formation spirits of the Three Spirits Nether Formation." Li Tian raised his head and looked at the huge phantom in front of him. This guy is very tall, but he can't see what this guy looks like.

The moment his eyes passed, he realized that on the shoulders of this huge phantom, there was a small girl sitting on the shoulders, and at this time she was also constantly smiling.

On the other side of the giant, there was a man in a black coat and hat.

"Since you know that this is the Three Spirits Nether Array, you should know that the secrets in it should be preserved and cannot be disclosed to the world in any way, otherwise it will cause a lot of trouble. You should be very clear about this?" The black-clothed man squinted and raised his head. There is also a mask on his face. At this moment, he just showed two sharp gazes and looked at Li Tian in front of him: "Since you know the rules here, you will come here again? Believe that you alone will be the opponent of the three of us?"

"Tongtian Ape Demon, Zi Mingming, and Duan Yunxuan, these are all powerful experts in the ancient times. I didn't expect that the ultimate guardian of the Dark Moon Altar would be these

three powerful experts. No wonder so many powerful people have not come here. Able to get the Dark Moon Crystal." At this time, the high priest exclaimed from the side, and some could not believe the scene before him.

These three were all terrifying opponents who had been famous throughout the God Realm in ancient times, and now they are standing in front of them.

'Indeed, the three guys in front of you are very difficult to get around, don't look at them now as formation spirits, no longer the strength of the past, but even this way is difficult to deal with, even if the \*\*\*\* emperor comes here in person, Relying on his own strength, he couldn't deal with these three spirits at all. Said the remnant soul of the ancient god.

Li Tian was desperate when he heard these answers. Murong Ziqing only told himself what he got here, but he never said what kind of opponent he was facing.

At that time, I was still arrogantly saying that the opponent was not so difficult to deal with. Looking at the three formations in front of you, could opponents of this level be able to defeat it so easily?

"Now your best choice is to seize the time to leave here and disappear from our eyes. Seeing that you two have passed the previous test, we can give you a chance, but if you continue to go on, then we will I can only expel you from here with my hands, this is not a place where anyone can come." The Heavenly Ape Demon leaned down, looked at them, and said.

"I came here today just to get the crystal here. It's about whether I can live or not. If I can't get this thing, even if I leave here, there will be a dead end."

"We can't let you take away the crystal."

Chapter 5877: Outrageous strength

Tongtian Ape Demon's answer was very simple, just telling Li Tian clearly that they could not let Li Tian take the crystal.

And Li Tian raised his head and looked at the three phantoms in front of him. Although he didn't know what to do, he could only bite the bullet at this time.

"Three seniors, the purpose of my coming here this time is just to see if the ancestors of our clan left any clues here. That's it, I don't mean to offend the seniors." She lowered her body and said carefully, these three people were in ancient times, and she now knew that she couldn't have the slightest ability to fight these three people.

"The Harpy Clan? It is true that your ancestors entered here in a very distant period of time. This is almost the only young person in your clan who can enter here at that time. Her strength is very high. Strong, of course the talent is also very strong, maybe you can surpass her." Tongtian Ape Demon smiled honestly, then looked at Li Tian: "As for you, I won't give you face."

"Although I don't know how strong you are, I also know that I can't retreat at this time. I will die anyway. I will fight you today."

When he was speaking, the Red Sword in his hand erupted with the sound of a dragon chant, and the blue dragon directly attached to the sword, and then a sword aura attacked towards the Heavenly Ape Demon.

The sword energy was very fast, and it was almost in front of the Heavenly Ape Demon in a short moment.

"Hey, this young man is really bold. We have already warned him. He even dared to attack us. He is really a newborn calf who is not afraid of tigers and is not worried about being killed by us?" Duan Yunxuan With a cold snort, he slowly stood up from the shoulder of the Tongtian Ape Demon, then stomped his feet, and easily shattered the sword energy in front of him.

'The power of horror, just relying on the power of this foot can directly wipe out my strength, it is unbelievable that this is the strength of the rumored strong? There are all black lines on Li Tian's head. Since he came to the God Realm, he has been a history of sadness and abuse. Somehow others can fight with people who are similar to him, and they can raise their eyebrows.

But look at Li Tian, since he entered the God Realm, he has been facing very powerful opponents, and every time he encounters such an opponent, it is very difficult.

"Leave here, they won't let you live in the past. If you are still obsessed, you can only die here." Zi Ming helped his hat and squinted at Li Tian: "This place is not Young people like you can come here casually. Why should you let yourself die here for nothing? You can become stronger after cultivating outside for a period of time. It will not be easy to leave here at that time."

The Canglong roared and turned into a tweet inside Hong Zhan, even after Li Tian was immersed in this state.

His hair slowly turned white, and his clothes began to swell up, as if a hurricane was about to burst out of his clothes. The red cut lost its dazzling light, but there was A deep red and cyan color combined, like a stream of light, circulated inside the red blade.

A very sharp sword aura appeared on Li Tian, and the surrounding temperature also dropped.

'It seems that we really underestimated this young man's abilities, he reached the realm of gods at a young age, and the power of this kind of aura is quite terrifying even in the cultivation of soul power. "Tongtian Ape Demon squinted at Li Tian below, while communicating with his companions in his mind: "Do you think this kid will be that legendary guy?" '

"Just looking at the current situation, I can't see anything. Although this kid has many clues that are very similar, it doesn't mean that this kid is the guy we want." Zi helped herself tomorrow. Li's hat, slowly stood up: "Come on, let's see how this young man is."

"Don't you guys, leave this little guy to me. This young lady hasn't fought against such a little guy in many years." At this time, Duan Yunxuan also stood up and slowly moved from the shoulders of Tongtian Yuanmo I flew down from above, looked at Li Tian, and said, "Little guy, don't say my sister bullies you, I just want to see how good you are."

"It's useless for any of you to come today. Don't try to stop me from entering unless you kill me."

"Yeah, young people don't just say what they do. You have to know what you do. You should have a talent like you to protect yourself. Give you some time and you can let yourself. The strength is

even higher, why bother to fight and kill in such a hurry?" Duan Yunxuan said, then stepped on his feet, and his body shot out in an instant.

However, in a short moment, he was directly in front of Li Tian, and then the white palms were pressed directly on Li Tian's face.

Li Tian's expression slowly solidified, and the Hong Zhan in his hand slammed upwards, and at the same time, a series of sword aura shot out from behind his body, and passed towards Duan Yunxuan from all directions.

'Yes, there is rarely such a calm feeling among young people, and this kind of aura is really strong, and it's even compared with those \*\*\*\* kings who have been practicing for a while, right? Ziming touched her chin and said with interest.

'Maybe this kid is really the young man we have been waiting for. This kid is really good. If he is really that person, his future talents will be hard to measure. The Heavenly Ape Demon also said very seriously. Both of these two spirits looked at Li Tian in front of him seriously, as if they had seen something.

'It's a good choice to have such a person to follow. '

On the other side of the battlefield, although Li Tian and Duan Yunxuan in front of him seemed to be on the same level, it was only because Duan Yunxuan had not had time to show all his combat power at this time. The feeling of molesting is completely using Li Tian in front of him as his own training prop, and he never thought of killing Li Tian.

The high priest on the other side didn't know what was going on, and looked at it unexpectedly at this time.

Chapter 5878: Clearance?

As time passed, Li Weather was panting, his body was already covered with sweat, and even his aura began to become unstable at this time.

"Look, the previous two levels are still very stressful for the two of you. It is impossible for you to continue to defeat us because of the way you are now. Even in this state, you still have to ....."

Duan Yunxuan looked at Li Tian who was panting in front of him, thinking that this guy has no strength anymore, because this is also normal.

When these two people entered this level, they had already spent a lot of effort to cope with the previous test.

The three of them knew what kind of state would remain after going through that kind of test.

Especially Li Tian, now I can be more sure that this kid doesn't have much strength to continue in this state, so she has relaxed a lot at this time.

But at this moment, a huge lightsaber suddenly appeared behind Li Tian.

This lightsaber is just fleeting.

Just before Duan Yunxuan came back, a black hole appeared in front of her, and the lightsaber had flown over.

‘Boom boom boom’

The explosion sounded endlessly, and the expressions of Tongtian Yuan Demon and Zi Mingming both solidified: "It really is this kid."

"You should know now. Don't underestimate your opponent at any time. You never know what kind of combat power your opponent will show in the next second." Li Tian is true. He is very tired, and he needs to bear a lot of pressure to deal with such an opponent. It is still the strong man in front of him who retains his strength and does not really want to kill him.

When the energy wave dissipated and the smoke disappeared, Duan Yunxuan appeared in front of them a little embarrassed.

Now Li Tian was very helpless, thinking that his move might really hurt Duan Yunxuan in front of him, but now it seems that it is not like this. Some of the strong ones can't deal with it.

"Really a powerful little guy, I almost got hurt by you guy." She patted the stains on her body, then squinted at Li Tian before her, and then said: "You two have seen it too. The strength of this kid is the same as we imagined. They are a bit too strong. It is not that simple for them to deal with this kid in front of the same strength."

"Indeed, we have already seen the strength of this kid, and it is not that simple to deal with this young man in the same realm." Tongtian Yuan Demon also said seriously at this time.

Zi stood up tomorrow, "Say, OK, I can let you in."

"Can you let me in?" At this time, Li Tian started to become very confused. He looked at these people in front of him silly and asked curiously: "Can I get in so soon?"

"This was originally a test. What we waited for a long time ago is today. One day there will be a young man who will come here to take the Dark Moon Crystal. This is something that has been prophesied long ago. "The Heavenly Ape Demon glanced at the high priest and said faintly: "But you don't have to worry too much. The reason why your Harpy Clan can control these wild and wild beasts in this space is only because of the formation here. This dark moon crystal is just a function of energy, just replace it with some other crystals."

"Can this be?"

"Of course, it's just that once this crystal is taken away, the rules of this world will also change, and it will no longer be a place where humans can control it and use it as a place to cultivate the cave." Zi Ming said.

---

Yi Zhongrong has been here for about two days. In these two days, he has hunted a lot of monsters, and the effect is very good. Looking at this time, he will definitely become the first.

It's just that he has always been worried during this process.

"Master, I think that kid didn't follow us in at all. If he had followed in, he would have taken the shot long ago. Why wait so long?"

"Maybe so, what happened to what I asked you to do?"

"It's all done, and we can leave here in two days. I found a cave in front of me. It is full of spiritual energy. I can just use this time to let the young master break through his realm. If I can enter the gods. In terms of realm, that is our hope for the future of Tianhu City as a whole. You know, Lord City Lord has great hopes for the young master." The subordinate standing next to him said flatly, wishing to say all his flattering words. , Let Yi Zhongrong know how terrifying his talent is.

Looking at this guy, Yi Zhongrong smiled faintly: "Those so-called geniuses are just a lot better than my usual conditions. If you give me time, defeating these guys will also be a big deal."

"Of course, the young master's talent must be the most powerful in Tianhu City. As long as you give you time, what kind of things can't be done?"

In the distance, Ruan Ruo was secretly looking at Yi Zhongrong here, holding the kit in his hand, and swallowing saliva...

On the other side, Li Tian in the Dark Moon Altar, relying on the crystal given to him by the remnant soul of the ancient god, successfully got the Dark Moon Crystal in his hand, but to his surprise, this Three Spirits Nether Formation was actually depicted in It's no wonder that the strength of these powerhouses is so terrifying on this dark moon crystal, and the energy contained in this crystal alone makes people hard to believe it.

"Although you have obtained this crystal, you are not in a hurry to break the rules. Once you break the rules here, this place cannot exist as a parallel space. At that time, everything will be chaotic. It is difficult. Control." Zi will turn into a ray of soul and follow Li Tian at this time tomorrow, protecting him from here.

Just having this strong man by his side is enough to make Li Tian's next journey smooth.

It is impossible for any wild animal to come up and fight them.

"I know that when I have completed my task, I will naturally use Dark Moon Crystal to break the rules here, and then leave this ghost place." Li Tian said lightly, the corner of his mouth slightly raised, and the Dark Moon Crystal was in his hand. , Can be regarded as really relaxed.

Chapter 5879: find

"Did that kid succeed, do you think?" The white-clothed man sat in front of Murong Ziqing and asked curiously.

"What do you mean?"

"I think it's very mysterious. We really don't know much about that place. We were about to open up the secret when we saw me, but we were destroyed by those harpies. After so many years, it must be this. The strength of the Harpy is even more terrifying, can you deal with those guys alone with him?" The white-clothed man asked curiously.

"Some things are far from being judged by what we think. The purpose of the Harpy is only to protect this formation so that this race can continue. As for the crystal, it is not what they want.

"Murong Ziqing said with a smile.

"You are really bold enough, you finally found such a genius, you arranged this kid to do this kind of thing, if it were me..."

"It was he who wanted to kill Yi Zhongrong. Originally, I never thought about letting him go. Hurry up and prepare. I think it's almost time for the storm to come, if Li Tian is really killed. With Yi Zhongrong, there will be chaos in Tianhu City by then, and the problem will become more serious. This will be left to you to deal with." Murong Zi said calmly.

The white-clothed man snorted angrily: "You are more and more able to instigate me now, and I won't listen to you easily before changing."

"Hehe, go ahead, why waste time here?"

---

It was night, the sky was dotted with stars, it looked very beautiful.

The temperature tonight is not very high, making people a little cold. Yi Zhongrong sat in the cave alone, and the rich spiritual energy in it enveloped him at this time, making him feel that he can get twice the result with half the effort while practicing.

As time passed, a few subordinates outside suddenly discovered a strange thing.

The previous subordinate ran in: "Master, we found a kid around, who seems to have been watching us around all the time, as if he wanted to act on us, what should we do now?"

"Oh, who is so bold, even we want to do it. This is the first time I have seen such a brave kid in so many days." Yi Zhongrong opened his eyes and asked curiously.

During this period of time, they are basically like a landlord. Even if they bully others, absolutely no one will resist them. Everyone knows that these people are very strong, plus he is still in Tianhu City. The city lord, as long as he is not an idiot, will not make trouble with them. If he fails to fight, he can only hide. Once he is caught, he can only admit that he is unlucky. They can't resist anyway.

"It looks like it was the coward who followed Chi Mi before. In fact, we had discovered it before. At that time, we just thought this kid was curious, so he followed us, but he hasn't left yet. It looks like we have to wait. When we let down our vigilance, he started to attack us. This kid is really innocent. He really thought we would expose him a little bit of weakness."

"Huh, it's really interesting. It's so bold to follow that Chimi. Could it be that Chimi is also with this kid?"

"What we can be sure of is that this kid is a person, and Chi Mi is not by this kid's side at all. Even we don't know why this kid is so courageous and will come to us to attack us. Should we take the initiative now? What's wrong?" Yi Zhongrong asked curiously.

"I don't know anymore. Seeing this kid's appearance really means he wants to do something. Isn't this just coming in a hurry, have you asked me?"

"Since this is the case, let's take the initiative. Let us also see how this kid is capable and whether he can change anything." Yi Zhongrong stood up and moved his body: "I hope he will do this during this time. Get rid of a few wild and wild animals, otherwise it would be meaningless for us to do it this time."

Poor Ruan Ruo, they haven't realized that he has been discovered by them yet.

He naturally knows that this is the team of the city lord's son, but now he feels a little bit slant. He really wants to make himself a leader among the beast sacrifices this time. Only in this way can he become more. Only when he is strong can he protect himself better. Without the strength, he is just a small person in front of others, and no one cares about the life and death of a small person.

So what he was thinking at this time was how to make himself stronger.

This time the Hundred Beast Festival, there will be no real casualties. He also has a signal flare. If it is really not the opponent of these people in front of him, he only needs to launch the flare.

But if you don't do anything all the time, it is even more impossible to be the leader of the Hundred Beast Festival this time. Since it is like this, it is better to gamble at this time.

See if you can change this situation.

He naturally didn't know that everything he did here was actually under the control of others, and it would not be long before he would be in deep danger. At this time, he was still naively observing the team in front of him. , Looking for weaknesses to deal with them.

On the other side, Li Tian had successfully returned to the enchantment.

When he went out, he leapt on the void, and when he came back, he also looked like this, and he also made some blindfolds, which made it even more impossible to be easily discovered.

Back inside the enchantment, it was only then that he was helpless to find that there was not much time left.

This time the Hundred Beast Festival lasted only for nearly a week. Of course, with the progress of the progress, this time the Hundred Beast Festival may also end at any time.

The three powerhouses have all returned to the Dark Moon Crystal at this time, and if there is any danger this time, don't even think about letting them take the initiative.

"I finally came back, the task now is simple, as long as I hurry to find where Yi Zhongrong is, then kill this guy, leave this ghost place and go to the land of no owner to do my own thing." He touched He had already made a decision with his chin, thinking that he must hurry up and finish this matter this time. Too much time has been wasted on Tianhu City, and he cannot continue to wait like this.

Time doesn't treat people.

Chapter 5880: Wind blows

"This is my last chance. If I can't make any achievements this time, I'm afraid it will be like this for the rest of my life and keep going." Ruan Ruo squatted in the corner while touching his chin. On the one hand, waiting for the guys in the camps like Yi Zhongrong to lose consciousness for a moment, and then he could seize this opportunity to do something.

As a result, Yi Zhongrong's people already appeared before him.

"Boy, you have been with us for so long, do you think we haven't found you yet?" Situ Nuo didn't know when he ran behind this guy. At this moment, he was holding a crystal in his hand and the corner of his mouth was slightly raised. With an evil smile, just staring straight at the prostrate opponent in front of him, Ruan Ruo couldn't resist at this moment.

"You... how did you find me?"

"Please, you have been behind us for so long, and you haven't thought about hiding your breath. You think we are all idiots, what can we do if you are such a living person following us? Don't know?" Situ Nuo stood beside another Yi Zhongrong's subordinate. In addition to these two powerful masters, nearly ten elites were brought in this time, which can be regarded as giving Yi Zhongrong absolute protection. .

Although Yi Ze said something that Li Tian had left here, he was still very nervous in his heart. He was always worried that if Li Tian had this opportunity to kill Yi Zhongrong, he would definitely be there for the rest of his life. I have passed through my own self-blame, so I arranged so many masters around Yi Zhongrong, that is, I want to completely put an end to those who want to attack him.

This one really caught one.

It's a pity that this kid is too weak.

"Zize, it doesn't make sense for you to waste so much time with this kid?" Situ Nuo glanced at Qi Ze, and said lightly: "Master said, catch this kid back, maybe there will be some gain."

"Hehe, what is there to catch this kid back? Since he wants to make trouble for us, he should just get rid of it. Without looking at his identity, he came to us and wanted to assassinate us. It was a joke." Qi Ze sneered, his eyes were full of dismissive feelings, and when he spoke, he had to kill Ruan Ruo in front of him.

"You can't do this... You can't kill me. This time the Hundred Beast Sacrifice has regulations and cannot happen..."

"Can't life happen? The rule just says that if we don't kill you after you fire the flare, but you haven't fired the flare yet, there will be no problem if we kill you at this time. After all, you don't even give up like this Resistance, since we haven't given up resistance, it's normal to die in our hands." When Zize spoke, he raised the sword in his hand.

Seeing that this sharp sword was about to fall, if it were to fall, he would definitely be a dead end.

Ruan Ruo wanted to move at this time.

But my body was paralyzed, and it felt like being controlled by something. There was no way to show my true strength. I could only watch the death sickle moving more and more towards me. Near.

Situ Nuo frowned. Although he had reminded him before, he didn't have time to stop him.

"Stop it." At this critical moment, a loud and majestic voice rang: "I remember telling you what to do before. This kid is a very good chess piece for me. We rely on this kid. We can find a lot of clues we want. Who would let you, who are so important to us, start like this?"

Yi Zhongrong squinted his eyes and walked slowly over. The moment he was speaking, Qi Ze stopped, and then stood aside honestly not daring to speak.

"Master, I don't think there is any need at all. You want to know what we will help you find. As long as we are still in this \*\*\*\*\* realm, we can easily find clues. Why waste time on such a small person?" Qi Ze muttered quietly.

"You know what a shit, this kid was with the guy named Chi Mi before. That guy named Chi Mi is the opponent I really need to pay attention to. Now this guy's companion is in my hands, so naturally I can use this Come and let this guy named Chi Mi know how good we are." Yi Zhongrong's mouth raised slightly, stepped forward, and then squatted down and looked at Ruan Ruo who was kneeling on the ground.

"Don't kill me, please don't kill me, I just want to try my luck... Absolutely... There is absolutely no other idea." Ruan Ruo shook his head frantically, as if going crazy. I dare not look at Yi Zhongrong in front of me.

Seeing this guy so timid, Yi Zhongrong's eyes flashed with disdain.

'It's really a waste, but just such a small scene makes this guy scared like this. If one day I really want to see a more powerful scene, wouldn't I have to pee my pants? Although I was very dismissive in my heart, I also knew that the kid in front of me must know a lot of things he didn't know, and the words were much milder at the moment: "Don't be so anxious, of course I will not kill you."

"You...really?"

"Of course, what I promised you will naturally not deceive you. I only need you to cooperate with me. We can discuss the next thing, right?" Yi Zhongrong said with a strange smile.

---

At the same time, Li Tian, who was on the other side of the barrier, hadn't noticed that anyone was eyeing him.

He was looking for any clues about Yi Zhongrong in the entire enchantment, but the contestants who met Yi Zhongrong before basically failed and were sent away. His current behavior is the same as finding a needle in a haystack. It is a bit difficult.

But under such circumstances, he still did not give up.

'I don't believe it anymore. The scope of this enchantment is just such a tiny bit. Could it be possible for him to run somewhere that I can't find? With an unhappy expression on Li Tian's face, he thought to himself, and at the same time he began to carefully look for clues around. According to his own guess, Yi Zhongrong must have a large number of teams following Yi Zhongrong. It is impossible for's team to hide in this enchantment like this.

If you want to catch them, naturally you have to start with this number of people, just find a team similar to them.
