

A Killer 5911

Chapter 5911: misunderstanding

"There are very few people at your age who can cultivate to this level. I can be sure that a young man like you is also a powerful genius in the outside world. These two things are so important that it is worth your bet. Your own life comes to our Baicao Gate?"

"One of them is my savior, and the other is my last support in this world. Anyway, they are the most important in my mind, even if I die for them. I don't hesitate. I'm a man, and I still make some more risky actions. This is also relatively normal. If a person doesn't take risks in his life, how can he know how courage he is."

"Hehe, you are a very interesting young man. If someone else changes your talent, they may not do it, but you can come here at all costs. I admire you." The elder said,

Two people walked on this broad main road. After about ten minutes of walking, they could see a very tall palace group in front of them. It looked like a palace, but the architectural style With a lot of auras mixed in, you don't need to think about it to know that this is the real core of the Baicao Gate. The number of disciples here is much more than what you saw on the city gate before.

"This is the Baicao Gate. I thought they had completely disappeared in this world before. Now it seems that they are not like this at all. After so many years of training and rejuvenation, their strength seems to have increased much more than before. . Li Tian looked at the palace in front of him, and his eyes widened at this moment. For so many years, the Baicao Gate was still so prosperous.

Even if he left here now, he might be able to compete outside and become some big sect.

"This is even the real core position of the Baicao Gate. If this place is breached, all our heritage will be destroyed." The elder chuckled, looking at Li Tian next to him and said: "But I want to do it. At this point, it is impossible for many people to do it. Anyway, we have been in business for so many years. If this is eliminated by others, wouldn't it be a joke?"

What the Great Elder said was actually very correct, and Li Tian also understood it very well.

The Baicaomen has been in the hidden world until now, and I don't know how powerful it has become. Now it seems that there are not many Baicaomen disciples in this place, but if there is a real battle, I don't know how many people will jump out.

This time the number of the expeditionary army of the Donggong family was indeed quite large, but they came here with the mentality of winning.

But if it is just such an expeditionary army, it would be an irrational act to destroy such a large sect. It can only be said that the war this time may be very cruel, and it will bring a lot of impact to both of them. It should be the Baicao Gate. In the past so many years, they have never encountered such a strong enemy, and they have never encountered anyone who would take the initiative to run in front of them, such a challenge.

There are still many people on the main road looking at Li Tian stupidly, seeming to wonder how a young man without any immortal power fluctuations came to such a place.

This is the Baicao Gate, and naturally I don't know what the identity of this young man is.

No one knows what Li Tian did in Tianqi City before.

They all looked at Li Tian in front of him stupidly, very curious.

At this time, in one of the most magnificent halls among the palaces of the Baicao Gate, you can see what eight people are waiting for.

Sitting at the highest position, was a man who looked less than 50 years old, with white sideburns, but no wrinkles on his face. His complexion was ruddy, and his eyes were cut off, which was especially washing, just like the eyes of an eagle. Looking at it will give you a lot of oppression.

On the other two sides, there are six elders, male and female.

Standing in the front is a man wearing a green robes, holding his hands and talking: "According to the following disciple, this kid is probably the spy sent by the Donggong family this time."

"Fang Yu, you have to have evidence to speak and do things. This young man may really be a spy, but we don't have any evidence yet. If this young man is kept in prison like this, think about how we will How to be judged, if it is only because an Donggong family influences us outside, we will change our style of doing things, so I am afraid that more people will feel uneasy inside."

Shangguan Tufeng squinted his eyes and looked. He glanced at Fang Yu, then stood up and came to the center of the hall: "Sect Master, in my opinion, things are far from being allowed to be like this."

"Huh, Tufeng, you don't want to cooperate with me in other places before, and you've got to this point now. You still stand up and oppose my opinion. If this kid is really a spy, he will let him Our entire Baicao Gate is in chaos, and it may even cause the Donggong family to capture a city. At that time, even if you regret it, you will be unable to recover it, right?" Fang Yu squinted his eyes, his mouth hung. With a sneer, he said: "Maybe I say this is a bit too much, but the truth is like this."

"I also think there is nothing wrong with what Fang Yu said this time. Although the number of expeditionary forces sent by the Donggong family is quite large this time, they still think too much about destroying our Baicao Gate. According to our current number and Strength, they can't do this at all. Naturally, they should find some other way to deal with us. In my opinion, this is a good way." At this time, another elder stood up and said: "He This time, we want to disintegrate our defense forces from within. In this way, we will have no strength to fight back when facing the Donggong family."

"I also agree with Elder Yunshuang's opinion."

"I agree."

The elders all stood up at this time, looking at the Sect Master who was squinting in front of them very seriously, not knowing what they were thinking about.

But most of the people sitting here this time think that Li Tian is a spy, and the opinions at this time can also be clearly seen.

Chapter 5912: Unlucky

Li Mingxuan smiled: "You all said that this young man is what we call the spy. The analysis is not unreasonable, but as far as we can see, we don't have enough proof of salvation in our hands. If we really want to Relying on the things we are thinking about now, it would be too silly to determine if this young man is a spy."

A few elders look at me, and I look at you, all seem to be thinking about what the Sect Master meant.

Regardless of whether Li Tian is really a spy this time, they certainly can't allow this young man to approach the center of the Baicao Gate.

And now it seems that the Donggong family outside should also know where the strength gap between themselves and theirs is. It is actually reasonable to choose a way to change this situation at this time.

Killing a general, but you can destroy their entire Baicao Gate, this conversion is not at a loss.

"Well, you don't need to continue arguing below. The Great Elder will bring the young man over soon. Let's just take a look. If you have any questions, you can directly ask the young man if he is not a spy, I think he is willing to tell you all these things he knows." Li Mingxuan waved his hand and made up his mind.

It is indeed like this. If it is just because of the current situation that Li Tian in front of him is guessed as their enemy, this kind of behavior is somewhat inappropriate, even if it is spread out, it will make many people feel very bad.

After so many years of development, the Baicao Gate is no longer the original Baicao Gate.

At this time, on the other side, Li Tian and the Great Elder also went through heavy defenses, and finally came to the door of the hall. While here, the Great Elder said again: "I will continue to tell you if you feel bad now. You can seize the time to leave here and leave the Baicao Gate. We can assume that nothing has happened, but once you enter here, we may be arrested next."

"My purpose is just to help you kill the Donggong family. Even if you control me, it doesn't matter. Time will tell you what my identity is." Li Tian smiled and said with ease. , But just to become a prisoner of some sort, this kind of thing is not unexperienced, and he is very confident about himself now.

He believed that he could find a way to change their opinions.

"It seems that your feelings for those two girls are really very deep. If you are like this, then come in with me. I will help you as much as possible, but you also have a mentality in your heart. Prepare, after all, I am just a person, and I may not really help you to say anything." After the elder said, he took Li Tian into the hall.

When Li Tian entered this hall, he could clearly feel that a lot of his eyes fell on Li Tian's body all at once, and he could feel it without guessing. This should be a very unkind look.

"Hmph, look at this kid, he doesn't look like a good person. How could such a young man enter the land of no owner alone? But all those who enter here are forced to be outside and there is nothing if there is a way, then I think about entering here to find some means to survive. Look at this kid, is he like someone who has no other way?" At this time, Fang Yu who was standing on the side scolded angrily and said .

"Doing things can't just look at the surface. Some things are far more complicated than we imagined. This young man is indeed much younger than we imagined, but this doesn't mean it's impossible for him to enter. The land of no masters." Shangguan Tufeng also stood up at this critical

time: "And he still came with Elder Ling Shuang. Do you think Elder Ling Shuang can't see through these things?"

"That's it, the enemy is now, and the elders should now unite and face the enemy outside together, instead of choosing to quarrel with each other at this critical time. This is a very meaningless move for us, isn't it? Does it look like this?" Li Mingxuan said impatiently when he saw that the people below were making a noise again.

Now there is an enemy outside looking at them, but they have been arguing like this now. I really don't know how to describe it.

Li Tian raised his head, smiled, and said, "You should be the Sect Master of the Baicao Gate. What you mean now is to think that I am a spy and sneak into your place, right?"

"It is indeed like this. You also know that our current situation is very embarrassing, but there is still an enemy looking at us with an eye on the outside. If we do one thing wrong, it may lead to many key points behind. Errors also follow, so at this critical time, we must not make mistakes." Li Mingxuan looked at him and smiled.

"So, what is the basis for you to say that I am a spy? Just because I am a young man, just because I am alone, just because there is an Donggong family outside, I have become a spy in your mouth? If things are true. If it's like this, I'm really a bad guy." When Li Tian said this, he laughed at himself and looked at the opposing elders in front of him: "I really want to know what it is like today. Factors that make you think I am a spy?"

"You are so young that you went to places like Borders alone, and you came here. I really want to know how you did it. You have to know that many young people have come in before, but few. Someone can come here, and in the last few years, the number of young people has decreased. Entering here means death, not an opportunity." Elder Yunshuang stood up and asked with a smile.

Looking at the great elder with the charm in front of him, even Li Tian's eyes started to become straight at this time, but the things in his mind were not taken away at this moment.

"I'm a person who survived all the way from the line of life and death. When I ascended from the lower realm, I even thought that I might as well die like this. Therefore, whether it is death or survival, it has little impact on me."

Chapter 5913: Hard to tell

"is it?"

"You have never felt this way. When you are wandering between the reincarnation of life and death in countless battles, it makes you feel that sometimes you are alive and sometimes you are dead. Gradually, you will become less and less aware of whether you are living or dying. Even if you die one day, it seems normal to you." Li Tian smiled bitterly, and this sentence really said Out of my own feelings.

He has felt it many times that he really has no need to survive in this world.

The people he cherished are all dead. In this world, he has nothing to rely on, no friends, only mutual benefits, and those guys who don't even know what the purpose of these people is.

The only thing left was Situ Ningbing.

"Of course I will not feel like you. Baicao men hasn't experienced any major events for so many years, but if I were to choose, I would not be afraid of death."

"That's right, even an elder in a high position like you would not be afraid. Why would I be afraid of such a place as a young man like me who has nothing?" Li Tian laughed at himself and looked at this place. These elders: "It is indeed the enemy outside. The current situation is indeed very grim, but I am really unlucky because my purpose of coming to Baicao men this time is just to find some prescriptions."

"what do you want?"

"Returning Soul Pill, Condensing Fragrance Liquid." At this time, the Great Elder finally spoke. He looked at these people around him seriously and said: "I have talked a lot with this young man on the road, although I don't know if it is true or not. , But I want to believe this young man, I can feel it, and when he talks about these things, the feeling in his heart is uncomfortable."

"Ling Shuang, do you know what you mean by saying this?"

"Sect Master, of course I know what I mean by speaking like this, but I am still willing to speak like this, because I believe this young man will not put me in an embarrassing situation, and we don't just need a young man to stand out. Can people help us reverse this situation? If we are like this, why not choose to believe the young man in front of us?" Elder Ling Shuang smiled slightly, all he saw from his face were confident eyes.

"Elder, you are starting to be emotionally like this now. This is a little different from what you were before. You must know that you never used to be involved in this kind of thing before, and you were not emotionally involved, but look at your current situation. Looks like you are starting to play emotional cards. If everyone is like you, then what is the use of rules? It's better to hire people directly." Fang Yu said sarcastically, obviously for the elder now The response is very unsatisfactory.

Li Tian squinted his eyes, he could see that very few people here are willing to help himself, and believe in themselves, the Great Elder is one, and there is another elder.

These people who were born had doubts in their eyes, and they obviously didn't believe in Li Tian's identity.

Even if these people were to kill Li Tian now, they wouldn't doubt it at all.

It was quiet in the hall, and everyone was quietly waiting for what would happen next. If this young man were to be locked up like this, it would be a big deal.

"You arguing like this is nothing more than worrying that this young man will become a hidden dark hand for us to deal with the Donggong family?" Li Mingxuan sneered, looked at the elders in front of him, then squinted his eyes and said to Li Tian, "I am here. There is a way. I don't know if you are willing to agree. If you are willing to agree, I can help you make these two medicines."

"what?"

"Before the Donggong family was wiped out by us, you were honestly in your room and don't go anywhere. After this matter is over, wherever you want to go is your own business. But it's just wasted a few days of your time. The Donggong family can't get our Baicao Gate, so they will leave.

Then I will ask someone to make these two medicines and give them to you. How about?" Li Mingxuan smiled and said .

"Sect Master, this is not appropriate. This young man should be arrested now. Who knows what he will do during the war..."

"I don't agree to this request. The Baicao Gate does seem to have an advantage now, but you don't know how powerful the Donggong family is. When we were in the lower realm, the Donggong family and I were rivals for many years. All of the plans for the second time were destroyed by me, but I have to admit that they are really difficult guys to deal with. You can't beat them just by relying on the strength of the Baicaomen."

"According to what you mean, do you think you can change this situation by being a young man? This is just nonsense. You don't look at your current strength. And the strength of Baicaomen may be a Can the Donggong family be killed?"

"When I came here, I once saw a ciphertext on the road. The content of this ciphertext is very simple, it is clearly marked. Where is your Baicao Gate? In other words, the Donggong family is entering In the land of no owner, you knew where your Baicao Gate was. If they had no other means, could they find you in such a short time?" Li Tian raised his head and looked at Sect Master said; "Maybe my power alone is really insignificant, but now I still have some power from the Yaksha clan. If you want, they can help us fight. In this way, even within you If something goes wrong, we can deal with it easily. "

"There is a problem inside?" Fang Yu frowned immediately when he heard this sentence, and said with a big smile: "Sect Master, have you seen it? I said it a long time ago. The idea in this kid's heart is definitely It's not as simple as we thought. Take a look. This kid's fox tail is now exposed. This is basically to provoke discord. Don't you know what to do now?"

Li Mingxuan also frowned at this time, very dissatisfied with what Li Tian said now.

The elder stunned for a moment, then smiled and shook his head: "You brat are really straight-hearted."

Chapter 5914: Take in

"What is this, what I think in my heart, naturally I just said it straightforwardly. As for whether you believe it or not, this is your business." Li Tian shrugged helplessly and said: "I can be sure Said that the Donggong family may do a lot of things we can't imagine. After these things happen, it will be very difficult for you to reverse the situation."

"Baicaomen has been isolated from the world for many years, and nothing else has happened again. I believe that nothing will happen for a while after this." Elder Yunshuang sneered and looked at the person in front of him. Li Tian said angrily: "It's you, a young man who doesn't seem like a good thing. You are here to sow discord. If it weren't for the great elder to speak, you would have been locked up by us."

"I am such an outspoken person. Whether you believe it or not, I believe that the Donggong family understands you and controls you in your imagination. You don't want to believe it now, but you will know me soon. These things mentioned are not groundless." Li Tian looked at Li Mingxuan above his head, he knew that everything was under his control at this time.

As long as Li Mingxuan can be persuaded, these things in front of him are nothing.

"Okay, this is the end of the matter. The enemy is not talking about this now. Instead of wasting time on this kind of thing, it is better to hurry up and think about how to deal with our enemy. As for Ling Shuang this time. We must not believe this young man who brought him easily. Let's lock him up for the time being, and let's talk about how to do this later."

"Sect Master, this is not appropriate, in case what this young man said is true..."

"What is true? After so many years, are you still unwilling to believe your brothers? Our Baicao Sect has been united here for so many years, and there has never been any problem. I believe that in the long years to come there won't be any problems in it, so let's get this young man up first." Li Mingxuan said impatiently, and then stood up: "Prepare for a battle with the Donggong family."

"My lord, I know that you are in this position now that you need to consider a lot of issues, but these things I said are not without clues, even if you don't want to believe me, I hope you can seriously consider them. Now, don't let yourself miss the best time to solve these things because of suddenness." Li Tian looked at Li Mingxuan helplessly and said.

He knew that he was definitely going to be a prisoner today, but what worries him most now is that they still don't take these things he said seriously.

I didn't take this matter seriously before I came in, but after I actually came to the hall, I realized that these guys really had a big problem. I was just a young man who just came here. He was even hostile by so many people, and I don't know how many people wanted him to be arrested. It was obvious that there was someone in it who had contact with the Donggong family.

Otherwise, how could it be possible that Li Tian is an enemy only by his own inference?

Li Mingxuan did not answer, but Elder Ling Shuang answered. He patted Li Tian on the shoulder and said, "Let's go, you can't change anything here. It's hard to tell. You know the truth. Now here. No one wants to believe you. It is impossible for you to leave here. You can only wait for the end of this war."

"I also understand such things. Everything is reasonable." Li Tian shrugged helplessly. Are these things still reasonable? As long as there are really traitors here, he will naturally be unable to get forgiveness from these people.

"Stay honestly for a while, I will hurry up to help you develop the medicine you need." When the elder said, he had already left the hall with Li Tian.

Li Mingxuan said: "What you want to see is nothing more than this. I'm here to tell you, don't have any crooked ideas. If I find out, don't blame me for disregarding the feelings of brothers and sisters."
"

Worthy of being the supreme sect master, this sentence came out aggressively, and several elders glanced at each other and didn't say anything.

After all these people were silent, Li Mingxuan snorted and turned away.

The rest of these people breathed a sigh of relief, Fang Yu glanced at Yun Shuang, exhaled, nodded, and then left the hall.

At this time, Li Tian was already being held by several disciples of the Baicao Sect. ,

"In your opinion, how many of us are traitors?"

"The man who has been aiming at me seems to be Fang Yu. That is the guy who looks the most. Most people should look like a conformist mentality. They may think that this is really common sense, but in fact it is not like this at all. , Baicaoomen has been isolated from the world for so many years, it really makes their heads become awkward, thinking about things is also completely unreasonable." Li Tian smiled helplessly.

"The Sovereign must also know the true situation of this matter, but I definitely can't just doubt it very decisively. Everything depends on the evidence. If you really don't find any clues, you can only say it today. They didn't hear these words." Ling Shuang glanced at the two disciples who were holding Li Tian, and said, "What you heard today, it's best to not hear anything."

"Great Elder, did you say anything?"

Seeing the performance of these disciples, the elder nodded with satisfaction, and looked at Li Tian: "After getting the medicine, hurry up and leave here. As for whether you can leave the land without a host alive, this is not what I can do. Control things."

"I have confidence in myself."

"I hope so. You know that this place is easy to get in, but it is difficult to get out. The exit is constantly changing. If you can't find the law of this change, you will soon get lost in this place. This is a place where all kinds of dangerous wild beasts constantly appear. Getting lost here is equivalent to death. This is why so many people have appeared over the years. After entering here, they have not been able to leave alive, and they are all lost. I'm in this, and then killed by the wild and wild animals here." The elder warned, "I hope you can treat it a little bit more carefully."

Chapter 5915: Surprise

The elder was also very helpless. Originally, he wanted to do something to help Li Tian this time, but things have reached the point where they want to change it is already very difficult, and all such things will depend on Li Tian himself. Now that he has the ability to change this type of problem, it depends on what changes he can make in the next period of time.

"It's ridiculous. I didn't expect that one day I would become someone else's prisoner. This time I came here thinking that I might get your support, but I didn't expect such support."

"This kind of thing is also impossible. The Baicao Gate is no longer the Baicao Gate of the year. Even I myself will start to become confused at some point." The elder shrugged his shoulders. I could see a very weak feeling in my eyes, and I probably didn't expect my sect to be like this one day.

Now that foreign aggression is at the forefront, there seems to be some internal problems.

In this way, it would be even more difficult for them to deal with these enemies outside. I believe that those guys in the Donggong family should also know this inside the Baicao Gate, so they chose to attack at this time.

After coming out of the palace group, Li Tian began to become silent.

He is thinking about how he can change this situation. He and the Donggong family are old friends and have seen a lot of their methods before. At this time, he actually knew a little bit about what they would do. I can believe that this is all true.

If a big sect like the Baicao Gate can't even see such small means, it is really hopeless.

That is, with the help of their current internal instability, this has created the situation like this, Li Tian is very clear.

At this time in the street, many people are very careful to look at Li Tian in front of them, standing in the distance and pointing. They seem to be curious why this young man has just entered and was arrested again, but they dare not take the initiative to go. Asked before, so everyone was watching carefully from a long distance, except for curiosity and indifference in their eyes. In such a city, there is no pity for outsiders.

"Sure enough, you have not chosen to communicate with the outside world over the years, so that many of the ideas here are far behind. People don't want to make progress. If this is the case, it will be very difficult to continue to develop. No wonder you have become this. Looks like, this is indeed a reasonable thing." Seeing the eyes of these people in front of him, Li Tian knew that if the Donggong family's plan was successful this time, the Baicao Gate would suffer severe damage.

"These things are no longer something that we people can change at will. I can only say that I will change this situation as much as possible, but whether I can succeed or not, it is no longer my responsibility." The elder smiled helplessly. He wanted to change, but the rules of their Baicao Gate for so many years must not be easily broken. Since they had promised to stay here forever, naturally they could not choose to leave.

They dare not easily violate the rules left by their ancestors.

"I'm really curious about where the seniors who left the Baicao Gate back then have gone. If they saw this scene before them, wouldn't it be..."

"Most people have already died. Some powerful wild animals will appear here every once in a while. Over the years, we also need to spend our own strength to fight against them. Although the casualties are usually very small, but when this day comes It will pay a very huge price. In order to change this situation, many powerful people set up an enchantment here many years ago, so that the main city of the Baicaomen will continue to move with the land of no owner, and there is also a Enchantment, if we were not willing, it would not be that simple to enter here, but the strong who did this kind of thing, all because they spent too much energy, slowly aged."

In this way, it is equivalent to these people giving their lives. This ensures that so many people here can survive safely. This is something that Li Tian admires very much.

However, in Li Mingxuan and others, he did not see such a quality.

These people are still too cautious. Just take a look at it and know that these guys have never experienced the big scene. Therefore, they become so overwhelmed when facing this situation and don't know what they should be like. The right thing to do is to do, and these are all things that make sense.

The prison where Li Tian is located is actually a temporary confinement room for handling affairs. Compared with other prisons, the environment here is quite good.

The most important thing is that he actually saw some ordinary people here, so it was much better.

I was worried that I would not be able to take action in this prison alone. Now that there are so many people, at least I can communicate here. Knowing the current situation of Baicaomen, he can also let these people help him leave when something happens outside This place is now.

There was an enchantment on the prison, but when the elder left, he secretly helped to remove it: "I hope you leave here when you need it, not at this time."

Li Tian nodded, this is a surprise to himself, he also didn't expect that the great elder would do this.

Although other people can be seen in the imprisonment room, he was arranged in a separate room. This enchantment was originally very powerful, and it was specifically designed to deal with people like him with immortal power. Now he is directly eliminated. Lost.

"Thank you, Grand Elder."

"We have been in Borderlands for so many years, even before we were a united team, but after so many years, I believe there should be many discordant voices inside, and we want to leave this place. There are not a few people who choose to do what they do at this critical time. This is also not within our thinking. I just want to leave myself an extra means. If you really can If you do, maybe you can really save the Baicaomen from the fire and water." He looked at Li Tian with piercing eyes, as if he had entrusted this important burden to the young man in front of him. The same just smiled indifferently, and then slowly left this place of right and wrong.

Chapter 5916: Internal decay

"I really didn't expect that war is about to start outside. They still have the mind to arrest all of us. You must know that if all the people in the main city are united, it will be a very powerful force." In one of the rooms, a middle-aged man didn't know what he was talking about. This man was of medium build but had a thick beard.

The look in his eyes is like a falcon, always showing a little light.

After taking a look, Li Tian noticed the man, but he didn't say anything at this time, he just sat down on the bed, leaned against the wall, and closed his eyes.

As time passed slowly, he was waiting for opportunities to come.

Fortunately, the environment inside the confinement room is not as bad as they thought. It can be regarded as a good place. Of course, if you have to say that this is a prison, it is also understandable.

After all, you have no freedom in life here.

Originally, the middle-aged man was very excited, but he found that Li Tian closed his eyes and did not seem to hear the lively discussion on their side. He was curious and asked directly: "Hey, the new young man, Don't you want to know when you can leave?"

"What can I do if I leave, and what can I do if I don't leave? What can be done no matter where I am, if I can't do it, I can't do it even if I leave here." He opened his eyes, leaving a strange arc at the corner of his mouth, and said a word that made these people in front of him all be monk Zhang Er puzzled.

The middle-aged man looked at him and asked, "Why were you sent in?"

"They thought I was a spy and worried that I would sabotage them from the inside, so they arrested me, thinking that this would change their current embarrassment." Li Tian didn't have the consciousness of choosing to keep it, and intuitively told him, This middle-aged man knows a lot more than he knows.

"Destroy them?" Sure enough, after hearing this sentence, the middle-aged man quickly showed a disdainful expression on his face: "These guys will really put gold on their faces. Hundreds of years ago, the internal instability of the Baicao Gate had appeared. Many people wanted to leave here, but many people wanted to stop them. After all, the ancestors' rules have been followed for so many years, and it is impossible to give up so easily. .

Of course, these guys who want to leave here must not be so obedient, they will do everything possible to leave here, so naturally they will destroy the current rule.

You are worried that you will destroy the entire interior. In fact, their interior has already rotted, and differences have appeared between them. They are no longer the united and harmonious Baicao Gate of the year. If the Baicao Gate is still the same as the Baicao Gate of the year. If the door is the same, what should an expeditionary army of the Donggong family worry about? Even if a few more expeditionary troops come, they are not the opponent of Baicaomen. "

Seeing the helpless expression on the middle-aged man's face, Li Tian knew that his bet was not wrong.

"You seem to know a lot of content?"

"In fact, many people have already seen these things. As long as you are not an idiot, you can find what you want from some of the details of these things. The instability inside the Baicao Gate has appeared long ago. It's not that they haven't tried to change it, but they have not been able to do it. The internal problems are still too difficult to solve."

"Then in your opinion, can they deal with the Donggong family this time."

"It's very difficult. The Donggong family is coming this time fiercely. Although it sent an envoy at the beginning, it is not the feeling of imposing imperfections. It is more like ordering you to do something from a high level. Such an expeditionary army, you Don't you think their self-confidence is a bit too much? How can you say that the Baicaomen are all famous and authentic hundreds of years ago, might they be underestimated?"

When he heard the middle-aged man's explanation, Li Tianqi had already guessed some problems.

As they said before, the entire interior of the Baicao Gate may have been rotten, and various problems have arisen. This is something that cannot be avoided.

If something went wrong inside the Baicao Gate, it would be reasonable for the Donggong family to be so confident. After all, they already knew that your internal part was corrupted and contradicted each other. It is easy to attack you, a sect that has no way to gather all of its strength.

Even if it was a very powerful sect many years ago, what can it be?

If the Baicao Gate is united, of course, the Donggong family cannot be easily destroyed, but if their internal contradictions are very fierce, when the Donggong family attacked, they were still in various chaotic states.

It is not that simple to defend the Donggong family.

"It seems that this time things are very difficult. Whether you can get the prescription from here is also very difficult. If you don't succeed, I'm afraid..." Canglong said helplessly.

"I will try my best to change this result. Even if they are now rotten internally, even if many people inside have begun to collude with the Donggong family, it doesn't matter. I don't believe in their Baicaomen. There is nothing ancient. The strong stay, and if these strong make a move at this time, they will definitely be the strongest." Li Tian squinted his eyes and said vowedly.

Generally, there must be some ancestor-level powerhouses inside this kind of big sect. Such powerhouses do not usually appear, but they will shoot when it is critical, and they can turn the tide at the moment of shooting.

If this time is really going to face the Donggong family, Li Tian also believes that these ancestors will stand up at this most critical time.

Even if they don't want to show their faces, they can't continue to practice at this time. The whole sect will be killed by others. They are still cultivating. Isn't this just a joke?

This time of life and death is precisely the time when a powerhouse of their level is needed to change the situation.

And the middle-aged man saw that Li Tian was silent again and did not speak, he just smiled, his voice was relatively low, and he didn't seem to be ready to let Li Tian listen anymore.

It seems that this person's interest in Li Tian ends here, and there is no interest in continuing to communicate with him.

Chapter 5917: means

Expeditionary barracks account:

Donggong Ye Wu has been sitting in his position for a whole day and night. No one knows how tired he is now, but he still has to stick to it.

He was waiting, waiting for a very serious news.

If there is no way to convey this news, there will be no way for them to take the initiative to attack. This news is a clarion call.

"Marshal, I think we are pinning our hopes on those people, or the game is too simple. If they are really ready to help us, the plan should have been successful now. It has been so long and nothing has happened. As the news comes, we might as well directly launch a storm. After so many years, I don't believe that the Baicao Gate can be as terrible as it was before."

An unconvinced expression appeared on a general's face, as if he was reluctant to wait like this.

It is also reasonable. After all, the situation before them is much more complicated than they thought. To waste a day here means that they are getting farther and farther away from the goal. The next problem will only become more and more complicated and more difficult to solve. The time they waste so long here can only lead to the failure of the next action.

This situation is unacceptable to them, since they have already led the troops here, this time they will definitely take the Baicao Gate.

"Do you really think it's that simple? If we can easily break the Hundred Grass Gate, why should I wait so long?" Donggong Ye Wu snorted, squinting at the general below, and said: "Never underestimate your opponent. Even if our Donggong family is so powerful, it does not mean that we can truly ignore the enemy."

"With all due respect, if such an opponent can be regarded as an opponent of our Donggong Clan, it would really underestimate us."

"Okay, okay, don't talk nonsense here. Compared to the marshal, you are like a child. You must have never participated in a battle of this level for so many years, so you don't know. What kind of horrible existence I am facing is also a matter of reason." Another general stood up at this moment and said with a sorrowful smile.

At this moment, a dark figure appeared: "Everyone is here."

The black shadow's voice is very hoarse, and it has been specially processed to make his voice sound like this, and he is probably worried about his identity being exposed like this.

After Donggong Ye Wu saw the black shadow in front of him, he nodded in satisfaction: "You all go down, you don't need you anymore, if there is any problem, I will call you to come."

"Yes, Marshal!" A few people arched their hands, then looked at the dark figure in front of them seriously, and left slowly like this.

After all the people inside the camp had finished walking, Sombra found a place to sit down and said, "Now I have done what I promised you. That young man was arrested by me."

"Yun Fanhui is dead. You should also know what this means to us. In this kind of place, if we don't have this kid, it's not so easy to leave the cooked food here, so if you are not prepared to cooperate with us If you're acting, it's..."

"Don't worry, since we have made such a deal with you, we definitely can't go back at this critical time. You can rest assured at this point." Soi Ying smiled and said: "But do you have any now? confidence?"

"As long as you accomplish what I need you to do, everything else will become very easy. I can kill them easily."

"That's it. Tomorrow evening is the best opportunity to start acting. Now this young man is still under our control. You must have no problem acting at this time. Although you don't know what you are worried about, this young man It won't cause you trouble." Black Shadow looked at Donggong Ye Wu in front of him, and there was some curiosity in his eyes.

But at this time, Donggong Yewu said: "I really don't know much about this young man, but I also know that this young man is the one who caused our ancestor clone to suffer heavy losses. He already has such strength in the lower realm. Not to mention what kind of situation will become after the God Realm. If we really underestimate this young man, we may pay a heavy price. Obviously I am not willing to pay such a heavy price. Since it is this It looks like you can only choose to be more careful at this time."

"Don't worry, this kid is still in the confinement room. What things can be changed by himself? The favorite thing for you guys is the fuss. In fact, these problems are not a problem for us, are they not?"

Look like this?" Seeing Donggong Ye Wu who was so nervous before him, the black shadow looked very relaxed, and he didn't feel that the whole thing was taken seriously.

Seeing this guy so swearing, Donggong Ye Wu sneered in his heart. Although he didn't say anything, he couldn't really take Li Tian seriously in his heart. Lost young people, the talents below are already terrifying. Now that they have reached the God Realm, their strength may be even more terrifying than before.

If they all look down on such a young man, then what enemies in this world need them to be cautious?

"Well, I am here this time just to convey the news to you. Since you already know the news, there is nothing to worry about. Just hurry up and prepare." Sombra stood slowly. Get up: "Tomorrow evening, we will also follow you. At that time, we hope that our joint operations will not have any accidents."

"It will be successful. Baicaomen has been so many years old, and it should be to let them know that they are not in charge here." Donggong Yewu smiled confidently, and then watched the shadow leave, hum Screamed.

At this time, Li Tian didn't even know that tomorrow evening would be the beginning of the big action.

Now he is still communicating with the remnant soul of the ancient god, preparing to release the Yasha clan from the ancient **** ruins and participate in this battle.

Chapter 5918: fling in teeth

"You want the Yasha clan to participate in this battle. You are not joking. You also know the strength of those guys. You know the current situation of the Yasha clan more clearly, so that they can participate in this war. Coming in, it is likely to cause a lot of losses." After hearing Li Tian's request, the remnant soul of the ancient gods was also full of unclear what was going on.

The current state of the Yasha clan can be said to be quite unstable. If they were to participate in this event, they still don't know what will happen.

"So what is there to worry about? With our current strength, isn't it a piece of cake to change this situation?" Li Tian sneered. From this guy's face, you can see that he is not at all. I thought about what kind of huge losses this time would cause: "It is now certain that there is also a problem with the interior of the Baicao Gate, and it is time for us to take action at this time."

"Although it is said, it is not that simple to do it. Since it is an internal problem of Baicaomen, it is obviously not possible to change anything by you alone. Even the Yaksha clan will definitely not help. The gap is already obvious. There is no way for a large sect like Baicaomen that has been in business for so many years. What can you do?"

The Old God Remnant Soul also made Li Tian aware of some problems, but he still would not believe that he could not change this situation.

He glanced at the middle-aged man with his eyes closed in the distance, and suddenly said loudly, "Hey, have you rested?"

The middle-aged man opened his eyes, glanced at him, and asked, "Is there anything you want to ask? If so, hurry up and say it. I have to rest after answering your questions."

"Can I reverse the situation alone?"

"No." After hearing his question, the middle-aged man answered very decisively, and then said with a mockery: "I see how good you are now, how long the history of Baicaomen is. It's already difficult to count them. The development of this place in Borderlands for so many years has brought their strength to a higher level. It is reasonable to see this situation now."

Baicaomen has been living in seclusion until now. It is not known how long it has passed. The young people in them, as well as some masters with powerful cultivation bases, have gradually been unwilling to be bound by the ancient rules.

No one had conflicts before, just because their strength was not strong enough, and they didn't believe that they could survive without being here.

But now it is different. The Baicao Gate can be said that it is the time when the sun is in the sky. As long as they work together and leave the Borderless Land together, they will inevitably become an existence in the outside God Realm that changes the overall situation.

But it's a pity that such an idea is only owned by a few of them, and several people in the upper echelons are unwilling to do this.

In this way, these few people have no choice but to choose this method, and if internal problems arise, they can leave here like this.

So far, it seems to be like this, but no one knows what's going on here.

"But I really want to change everything on my own, and I don't want to watch the Baicao Gate disappear like this." Li Tian said seriously.

The middle-aged man was shocked for a while, and then laughed out: "Do you want to change this situation by yourself? Please, you are not a child anymore. How could it be so naive, if you rely on it? If the power of one person, or two or three people can change this situation, why should the Donggong family outside be so confident?"

"Even if I know that the possibility is not great, but I still want to try it. If I don't even have the idea of trying at this time, then there is really nothing to fight."

"Okay, okay, since you don't believe me, then you can give it a try, but the ugly words are in front. Don't blame me for not reminding you that it's impossible to change anything with your own strength. You don't. You know how powerful this Hundred Grass Gate is, and you will understand when you realize this clearly. All of what I am talking about now is for your own good." I shrugged helplessly. Looking at the shoulder, it seemed that there was no way for Li Tian in front of him. After saying this, the middle-aged man closed his eyes.

But his ridicule still lingered in Li Tian's mind.

I don't know why he cares so much about the feelings of this middle-aged man. He always feels that the identity of this middle-aged man looks very different from what they imagined.

But where is the specific difference can not be described.

I just feel that this guy's news is very well-informed. Even if the officials are in this place, they still know a lot about the outside world.

He exhaled: "Forget it, when they do, I will do it. Even if it can't be saved, I have to take something back from the Baicao, so I can't make this trip for nothing."

The last thought in his mind was still like this.

Isn't the reason why I came here to find a medicine to treat Ningbing and Guo Xiangyi? It seems that this result should still be satisfactory.

"I advise you not to have any thoughts in your heart. You will understand when things really happen. In fact, the inside of Baicaomen is far more complicated than you think." The middle-aged man said lightly, also I don't know who it is for.

As for Li Tian, he remained silent at this time.

In the hall, Li Mingxuan sat alone in his place, squinting his eyes and looking down, as if his whole soul had been pulled out at this moment.

It didn't take long before Fang Yu came to the main hall, raised his head and looked at Li Mingxuan above, and said, "Sect Master, don't you have to rest at this late hour?"

"The battle is coming, how can I fall asleep? Whenever I close my eyes, I seem to see it all. The hard work of our Baicao Gate for so many years has been ruined in my hands. How can I endure it?" He saw Looking at Fang Yu below, saying like this, it's just that what the meaning of these words really means, now I don't know, it sounds like a complaint, but in fact, it is more powerless and painful groaning.

Even if you know the internal problems, as the Sovereign, what you can do now is far from enough.

Chapter 5919: Internal and external troubles

"Anything exists for a reason. Our Baicao Gate has been in this way for so many years. Of course, it also has the reason for our existence. Now this world does not need us, and naturally we have to follow them and disappear. , This is not something that is reasonable." Fang Yu looked calm, sat down, and smiled helplessly.

"Do you think so?"

"Yeah, we can't do enough. We can only do what we should do when it is critical. As for whether we can save anything, this is not something we need to think about, does it?"

"Hehe, there seems to be nothing wrong with that."

"If we can unite up and down, naturally we don't need to worry about anything. The little witch has nothing to do with us, let alone an Donggong family. It is a pity that the current Baicaomen is no longer the Baicaomen of the year. , The war is about to come, so let's take a good rest, and fight for the last time for all the things you cherish."

After Fang Yu said a few words, he stood up like this and walked away lazily.

Li Mingxuan's eyes flashed, and he laughed at himself: "Funny, ridiculous, I still haven't thought of what I should do until now. If I changed to ancestors, I must know what to do now. This situation is to cut the mess quickly."

He smiled, and suddenly he cried like this.

Let this hall be filled with a bleak smell.

The spring of Baicaomen is no longer.

The fallen leaves were withered and it was time for them to finally take a look at the world.

I don't know how much time has passed, Li Mingxuan stood up, twisted a mechanism in his place, and a tunnel appeared behind him, and then walked in slowly like this...

Li Tian didn't know when he fainted yesterday, as if he had been confused by someone and slept to death.

When I opened my eyes, I found that the confinement room was still lively and crowded. The soldiers outside were crushing the territory. When the expeditionary army entered this main city, many people would definitely die because of it.

But these people in the prison cell were more relaxed than he thought.

Especially middle-aged people can even laugh and chat with others at this time. From the first time he saw this middle-aged man, this guy has always been like this. It seems that everything happening around him is nothing like him. What is the same.

"Woke up?"

"Yep."

"Aren't you going to save time? I think it's almost time. The Donggong family outside has waited for so long, and now they are about to get out of their heads. Today they are going to make a move."

"You are here, how can you know so much?"

"I am here, but my brain is not here. Do you think it is interesting for an expeditionary army to consume with you outside? You didn't even find out. Since you entered this city, the guards here have been increasing. , And there are fewer and fewer guards in the prison room. What does this mean? This means that the outside defense is getting tighter, and it means that the war is about to begin."

"Aren't you afraid?" Li Tian looked at the middle-aged man curiously. Now that he knew that the war was about to begin, this guy should be very nervous now, how could he still be so relaxed?

"Why should I be afraid? This thing sounds like a terrible thing. There are no eggs in the nest, but unfortunately I have confidence in myself. Even if the Donggong family comes in, I can't kill me. I want Leaving here, no one can stop me." The middle-aged man looked confident, looking at the feeling that he didn't know where it came from, Li Tian squinted his eyes, on the contrary, he felt that this guy was really not easy.

Perhaps it is really the nurturing of the scene. Many people here don't feel that worried. They all look indifferent.

When it was about to arrive in the evening, another person came into the confinement room, Fang Yu.

This elder had always been hostile to Li Tian before, but now he looked better. He came to Li Tian and then looked at the young man in front of him.

"What do you want to tell me?" Li Tian asked.

"There is nothing to say, I just want to tell you that even if it is what happens next, you had better not participate in this matter. This is an internal problem of Baicaomen. These problems have existed for a long time. It needs to be solved internally. You, an outsider, are not involved in it."

"Are you worried that I will disrupt your plans after I go out and make you feel helpless?" Li Tian looked at Fang Yu in front of him with a hostile face and snorted, "Do you think you are in control of everything? It's just a joke, even You have mastered part of the power, but as long as I leave here, the same..."

"Forget it, you are still too naive." Fang Yu chuckled, and then reactivated the barrier: "That fellow Ling Shuang also expects you to leave here and do anything, he is not worried at all. Your participation in these things will cause us any trouble, but I am very worried, so please stay here honestly, and we will handle our internal affairs ourselves."?

"But the conflict between me and the Donggong family also requires me to stand up."

"Without you, we can handle these things by ourselves, but it's just an Donggong family. We haven't put them in our eyes yet. You just need to stay here honestly and don't do anything stupid. Others We can handle the problem ourselves."

"Yes, you and the Donggong family are in the same group. Of course you think so, but I don't think so. If you are really the traitors of the Baicaomen, I will let you..."

Without saying anything, Fang Yu seemed to have lost the **** with Li Tian, so he turned around and left disappointed.

When he was leaving, he stopped in the confinement room of the middle-aged person, staring at the middle-aged person inside, startled.

And the middle-aged man didn't know if he didn't find it, or was pretending to be stupid, and didn't respond.

After a while, Fang Yu coughed before leaving the confinement room.

Only left, the smell of gunpowder on the eve of the war filled the confinement room, making people breathless.

Chapter 5920: Inside and outside

I don't know why, Li Tian can always feel that this guy came here for no reason.

And how did he know that Ling Shuang unlocked the prohibition for himself?

Looking at the reactivated restriction in front of him, he was a little worried, but it was very difficult to achieve this situation at this time.

"Boy, I think you'd better give up your ridiculous idea. How much can you do by yourself? If you really have the ability to outsmart the crowd, I won't say anything, but you are obviously If you

don't have the ability, you won't be able to do anything even if you leave here, so it's better to stay here honestly." The middle-aged man said while smiling.

Hearing this tone seemed to be mocking Li Tian's feeling in front of him, but Li Tian didn't even care about this guy at all now, he just wanted to leave here with all his heart.

"Of course you think so, and you said so, but it has nothing to do with me. The things I decide will never change. Since I said I want to help If I do something here, I must do something, but it is just a small barrier. If I can be trapped by this barrier, there is no need to stay here. Now." Li Tian said seriously.

The middle-aged man didn't speak any more, and he didn't even continue to talk to these people beside him.

Although Fang Yu didn't say anything, Li Tian could feel that since Fang Yu came here, things in this place have become more complicated than before.

He already had his own thoughts in his mind. When he wanted to come this time, the traitors could only be Fang Yu. He did not expect that a dignified sect master like Li Mingxuan would have no way to stop such internal chaos. It made Li Tian very disappointed, but in the current situation, even if it was disappointed, there was no way to do it. He had to hurry up and leave here to prevent everything from happening before.

Although he didn't know what was going on outside now, his instincts had already told Li Tian that what would happen next was something he couldn't even think of.

As time went by, and I don't know how much time passed, there was a little screaming sound outside.

At this time, Li Tian roared, and the iron door in front of him was melted directly by him. He squinted his eyes, then walked out of his confinement room and glanced at the middle-aged man: "Just wait here. , I will soon let you know that everything I say will become true, but I never like to joke with others."

"I hope it is like this, but you are so happy now, it is too early, there are many things you don't know."

Ignoring what the middle-aged man said, Li Tian left the cell in a swagger.

The guards outside saw that a young man had come out, and immediately raised their weapons to prepare for the attack.

"If you really have a little respect for this city in your heart, then you should hurry up and participate in the battle now, instead of wasting time here for an insignificant person like me, isn't it? "He looked at the young fairy in front of him, smiled bitterly and shook his head: "Even if you kill me, you can't change the outcome of this battle.":

"Hmph, we got the order to keep you people trapped here and unable to leave. Now you still want to let us let you go. If I really let you go, you will definitely do something amazing. In order to prevent such things from happening, it is impossible for me to let you go like this today, and it is also impossible for me to assume that nothing has happened. I advise you to give up this idea." He stared. Look at Li Tian in front of him like a demon.

Perhaps in their eyes, the current Li Tianzhen is still no different from a demon, and he can stand here alone with his own strength, and this alone is enough to make them feel at a loss.

When there were chaotic sounds inside the main city, they all knew that the war had begun, but what they didn't expect was that the beginning of this war did not come from outside, but from inside. These screams in the city, their mood is very dignified, and they are guarding this place very carefully, but everyone who approaches here will fall cautiously.

But now it is a little easier, at least they can be sure of their enemies, and there is no intention to attack here for the time being.

Of course, this is just a little bit easier.

After all the things inside the main city have been changed, the next problem may not be something that a small character like them can change. Now many people are still very heavy.

And at this moment, seeing a prisoner coming out of the cell, they naturally wanted to pour all their anger on this young man.

"I know you are very angry now, but I also know that your current state is very unstable to me. If I were you, I would never be like this now." The corners of the mouth rose slightly, revealing a very helpless smile on his face, Li Tian looked at the young man in front of him. The boy was too nervous, and now even my arms with this weapon began to tremble. ,

After all, they are young people who have grown up in such a place. Their psychological endurance is still far worse than those in the God Realm. There is no such thing as the weak and the strong. Naturally, they have created what they are now. situation.

He watched the enemy come out from where he was guarding, and watched the chaos inside the main city, but he couldn't do anything now, the only thing he could do was to use his own words to intimidate Li Tian in front of him.

It's just that such a method has no effect on Li Tian, he didn't take these things into his mind at all.

"Give up, look at how nervous you are now. If you continue to do something, you will definitely have to worry about it. You are already in this situation. Why bother to support it? Just a few of you. Do you think it will be my opponent?" The moment he spoke, the aura on his body was like a volcanic eruption, all of a sudden erupted, causing the young people in front of him to sit down on the ground. .
