

A Killer 5971

Chapter 5971: Tu Long

‘Qiangqiang’

The crisp sound resounded like a percussion music, constantly resounding in their ears. These sword auras attacked the body of the dragon shadow in front of them, and failed to produce any effect, but made its body appear. Groups of golden sparks, nothing else can be seen.

Seeing this scene before him, Li Tian raised his brows slightly. Although this guy is still in the state of soul, there is really no doubt about his strength.

How terrifying is the power of his sword aura, he himself is quite clear, even if there is no way to kill the dragon shadow in front of him, he should make this guy realize that his strength is terrible.

But this turned it over, and it didn't produce any effect.

"Do you want to hurt me like this with your non-murderous offense? Don't be kidding. I've experienced many battles. What kind of scenes have not been seen before? You rely on the sword spirit in front of you. Just want to hurt me? If you don't have a strong mind, you can't beat me." Long Ying smiled, and then suddenly waved his tail and threw it towards Li Tian.

Don't underestimate it, this is just a flick.

For many people, this may not be dangerous at all, but the truth is not like this. Although there is only a dragon soul in front of them, in any case, it was also a powerful dragon soul back then.

The moment this tail flicked, all the air around them was forced out.

At this time, Li Tian also felt that his breathing began to become difficult, but his eyes were to see the uncomfortable Ximen Yeshou behind him, and he hurriedly fought in front of her: "Go back to the hall. The next battle is not something you can handle."

"My strength is above you. If I can't beat such an opponent, what would it be?" She also held the sword in her hand, with an expression of dissatisfaction in her eyes.

This is also a very helpless expression, as the saying goes, people are more popular than people.

Before, it thought it was at least Li Tianshang's strength. Even if this young man is really a very powerful genius, what can it do, the gap with himself will not be terrible.

But this kind of thinking can no longer continue like this. ,

Li Tian is indeed a genius, and she is indeed the cultivation base of Li Tianzhi.

But when he is really in battle, he will find that the gap between himself and the young man in front of him is too big, and it is even difficult to slowly reverse it with his own efforts. Everything seems to be very difficult. Look like.

Looking at the calm expression on the face of the man in front of him, it seemed that he had already regarded this kind of battle as a normal battle.

"Don't be stupid here. I know you must have experienced something in the Northern Cold Land before. What I can assure you is that I will never die this time. I will live with you. Leaving here."

Li Tian turned around helplessly, looking at the stubborn woman in front of him, and said helplessly.

"You..." I don't know why, when she saw Li Tian's expression in front of her, she instantly felt that something in her heart was touched. She hadn't said anything, but this man seemed to know a lot of things. , I have spoken many questions accurately.

She is indeed very worried about leaving here alone.

"It's really interesting for the two of you. Now that the time has come, you still dare to communicate like this in front of me. Are you really not worried about dying here at all?" The huge tail has already fallen. Down, every movement on the body is naturally accompanied by energy fluctuations, so this indeed seems to be just a simple flick, but it can also bring you devastating damage.

Li Tian, whose aura began to be suppressed in such an instant, was a little breathless.

He hurriedly waved the red sword in his hand, and countless sword auras began to gather from behind him. At this moment, it seemed as if the whole world was about to be destroyed. Looking at the powerful aura in front of him, this The two did not have any particularly serious expressions.

Ximen Yechou just frowned, then squinted at Li Tian in front of him, and asked: "You said, this time you must leave here alive. If you can leave here alive, I will Will tell you what happened to me and why I became the way I am now. Haven't you been curious all the time? I now give you the opportunity to know these things."

"Don't worry, it's not that easy to let me die. I have encountered danger so many times, and I can easily pass through it every time. Of course, this time there will be no exceptions." Li Tian said lightly. He smiled, didn't regard the situation as a dangerous situation at all, an enchantment had appeared in front of him at this time, and he was about to stop it like this.

Ximen Yeshou didn't choose to stay here either. In this battle situation, she seemed to have no way to help her effectively. The gap between the two sides was huge, so naturally there was no way.

The moment she left, she heard a huge roar, and then Li Tian slammed her entire body on the stone tablet. This tail fell down like a big mountain, almost directly giving Li Tian pressure. Breathless.

"In terms of young people, your strength is pretty good, but in my opinion, it's nothing more than that. With this strength, it is just a pipe dream to keep going. You really think I dare not kill here. Are you?" Long Ying squinted at Li Tian, who was injured in front of him. This time, he let him spout a mouthful of blood. In addition, he has not recovered from his previous injuries, and his current state is not as good as before. improved.

But even in this way, he was very slow and stood up from the ground. ,

The body was trembling, and there was still some blood at the corner of his mouth, but none of this could stop Li Tian's belief in continuing to fight.

The red sword in his hand is still shining, and the aura on his body has not been able to dissipate at this time. He is the same as before, and the battle will continue to fight like this. Even if it is hurt like this, it will not be like this. Choose to give up the fight.

Chapter 5972:

"I have never thought that my strength has reached the point, but I have always firmly believed that my own strength is enough to change the current situation." Looking at Long Ying, Li Tian gritted his teeth.

His eyes slowly became blurred at this moment, and a little bit of hostility followed.

These hostile spirits are like being sealed in dust for many years. Once released, it makes people feel very uncomfortable. At this time, his state is enough for Long Ying to realize that this is Li Tian's real ability.

Before, it was just because I didn't expect the attack to become so sudden, so I was hurt all of a sudden.

But now this situation has changed.

The red sword in his hand also began to tremble, and the hostility in the aura became more serious. Even a black external incarnation appeared behind him, and the huge blades of the two teams were like sharp swords. The same, shone with a deep cold light.

‘One generation is stronger than one generation. I thought there should be no genius in the God Realm now. I didn’t expect that these young people are constantly refreshing my view. The talent and strength of this young man are very strong. Long Ying looked at Li Tian in front of him, and said secretly, but at this time he couldn't choose any time to relax, so it rushed straight up.

Since this young man's talent is really great, then this battle must not last too long, so that this young man can have more opportunities to react in the process, and then it is more likely to change the situation. This is the scene it does not want to see.

At this time, he rushed forward very quickly, and the huge claws released a series of celestial powers, like a sharp blade, rushing towards Li Tian, and there were countless flame hurricanes towards him. Up.

All of a sudden, the entire space was filled with sky and darkness, and it looked as if there was no brilliance. All that was left in front of them was the beating flame, except for that. Nothing else can be seen.

Seeing the situation in front of him, Li Tian just smiled faintly, and said: "It seems that you have realized now that I should be regarded as a very dangerous young man in your heart. Give me such a waste. With time, maybe I will let you die here soon, so you are anxious to kill me now, at least to prevent me from continuing to be presumptuous, right?"

Li Tian's face was all with a hideous smile, looking at a smile like a devil.

'Roar'

What followed was that the ground began to tremble, and this sturdy-looking hall was also constantly trembling at this time, as if it might collapse like this at any time. In front of them, the hall was about to collapse. ,

Of course, all of this happened at the moment of the electric light flint, and the battle between the masters may also produce results in an instant.

What's more, this is just a dragon shadow with a dragon soul. Even if the strength is good, it is impossible to really have any chance of fighting with young people like Li Tian.

"Forget it, a dragon soul like you has almost consumed a lot of energy in your body many years ago. I am afraid that there is not much energy in it now. Since it is like this, let me take a look at yours. How about your skills?" Li Tian smiled, and a lot of hostility was added to the sword aura in his hand, and his body was directly incarnate in several clones.

This is the most terrifying sword at the beginning, but as the strength of the enemies he encountered is getting more and more terrifying, now Li Tian wants to use this trick to completely eliminate the enemies in front of him, I am afraid not So easy.

However, the dragon shadow in front of him would definitely not feel good if he insisted on this trick.

"Hmph, I've already told you, I'm just an illusory body, you want to use this kind of fighting method to hurt me is just a daydream, you think you have counted a lot of things, in fact, you don't What I know is that everything of myself is in my calculations." When Long Ying spoke, the air wave had already reached Li Tian.

The explosion sounded like a cruel battlefield constantly resounding, making them feel as if they had entered a terrible battlefield, where life had no meaning.

Seeing the situation in front of him, Li Tian's face was still a little bit nervous.

He should have been very confident right now, but when facing this thing in front of him, it was natural to have such emotions. After all, the dragon in front of him was a creature that existed a long time ago.

‘Boom boom boom’

The burning flame swallowed Li Tian's whole body, and Long Ying's huge claws were about to shatter the entire ground. It was as terrifying as if he were in ***** at once, and the whole air was full of hot feelings.

Ximen Yeshou was in this hall with his hands folded, his eyes closed and he slowly prayed: "Don't let Li Tian go on like this anymore. We are still waiting for this guy to save us. If Li Tian is allowed to die in this battle, what kind of battle will happen next is really not something we people can think about."

She was very worried that Li Tian would continue to lose and retreat as before. Although this guy said swearingly, facing such an ancient creature, it was really an unreasonable idea to defeat them.

But because this is also the only option here, they must defeat the dragon shadow in front of them if they want to pass here, even if this is a difficult thing to choose, they still want to be like this.

Looking at the burning flame in front of him, Long Ying looked very satisfied. He raised his head and said: "I thought you were a very powerful young man, but now it seems that it is just like this. If it's just your strength, I would only deal with you easily and with great momentum, but when faced with a real battle, I couldn't exert the combat power I should have."

Looking at the embarrassed look in front of him, it was obvious that under this kind of fighting situation, no matter how good Li Tian was, he could only die in this place now. ,

Long Ying is very confident of her own strength. There has never been a young man who can take her own trick positively, and then it will be intact.

Chapter 5973: misfortune

For many people, what happened in the northern cold land is not something to think about.

But the Donggong family is really anxious.

This time they originally dispatched a very powerful expeditionary force to take all the key prescriptions of the Baicao Gate, but they did not expect such a thing to happen, which caused their previous plans to fail.

At this moment, a young man stood in front of an old man and said awkwardly: "Old ancestor..."

"I know what happened. You have tried your best in this matter. Therefore, even if we fail in the end, I will not blame you for this matter, but I hope you can pass this matter. I see clearly and understand the horror of this young man. His talent is really terrifying."

"This time things seem to have no direct connection with this young man."

"It looks like this, but if it wasn't for this young man who killed all of you and entered the Baicao Gate by this, could he finally leave with the three children?" Donggongshen's eyes slowly opened. , In those eyes that looked very muddy, there was an unspeakable feeling, like the eyes of a poisonous snake, which made people fearful.

This is one of the strongest people that the Donggong family has relied on the most for so many years. It was the Donggong pardoning the mortal back then, which caused Li Tian some trouble.

However, Li Tian added a lot of trouble to them. Just after the clone of Donggong Amnesty went down, there was a big problem on the body side. Although the ancestor of the Donggong family was not able to be like this after the two battles. He died, but it also caused him to be seriously injured. He has not been relieved for so many years. It is conceivable how terrible the problem encountered at the beginning.

Because Donggong's current strength is not as good as that of the past, many people dare not be too arrogant at this time.

Although the Donggong family is usually very arrogant, they also know what kind of state they are now. Without this ancestor, even if their Donggong family is strong and powerful, it is meaningless. People who are better than them are really everywhere. It's easy to deal with them.

This time the Baicaomen incident has given them a lot of pressure. If they can't find a prescription, I am afraid that some problems will arise.

"What the ancestor said."

"You don't know a lot of things, but I want to look a little longer than you. Although we were not able to find those prescriptions this time, it doesn't mean we can't do anything. Li Tian didn't go to the North Cold Land during this time. Is it? What do you think he should be doing?"

"Let's go looking for herbs. Since this kid will go to such a place, it must be because of the three children he saved before. They have the ability of the Baicaomen to refine the medicine, and they also know the formula. What is needed? At this time, let Li Tian run to such a place, it must be to find the materials for making these pills."

"It's not wrong. There is a good saying that being able to make our enemies unable to do what we want to do is a great reward for us, and a lot of things happened in the Northern Cold Land during this time. This is the best opportunity for us to change the situation at this time. Bring some people over to cause trouble."

"Yes, ancestor."

"But there is one thing to keep in mind. Our main goal now is still on the three children. Think of a way to get our people ready to do it. After raising them for so long, we should also let them. It's time to help us do something. If they can succeed this time, they have made a very outstanding contribution to our Donggong family. I can give them a lot of benefits and make them grow up more."

Li Tian, who was far away in the northern cold land, didn't know that the Donggong family had already begun to set his sights on Shuiyuezhong. People are staring at them, and they can be regarded as powerful families in the God Realm. Although their reputation has not been very big, no one dares to look down upon them.

In the God Realm, there are countless kinds of families, and these families do not seem to be very good at ordinary times, but if you really think that this means that these families are very bullied, then you really think too much. It is not easy for a family to be able to mix one acre of land in such a place, and of course there are some individual exceptions.

The Donggong family in front of them is a family that is not very easy to deal with.

These three children are related to whether Donggong Amnesty can recover, and Donggong Amnesty is now the hope of their entire Donggong family, and naturally they also hope that they can grow up at this time.

Seeing the passing of time, Donggong She squinted his eyes and said, "Hurry up and do things."

Water Moon Sect:

At this time, Murong Ziqing was standing in the forbidden ground of the back mountain, and a few female disciples of the sect were kneeling half behind him. They looked at people who should be the elders of Shuiyuezhong. At this time, they all knelt here, as if they encountered some problems same.

"Sect Master, you..."

"How about casualties?"

"The casualties were high. The incident happened suddenly. Many of us didn't expect that our internal was also infiltrated by the enemy. That's why this happened. However, we have killed a few of those traitors now, and the rest are left. How many people have left with their two children, what shall we do now?" The leading elder raised his head and looked at Murong Ziqing, who was facing away from him, his emotions were very tense at this time.

She was up to the temper of the suzerain in front of her. You must be unable to bear your violent temper when you encounter such a thing. They can't imagine what you will say or do later. of.

"Our Shuiyue Sect's rules have always been very strict. Under such circumstances, this kind of thing is happening now, and now this situation is considered very good." Murong Ziqing turned around, looking in his eyes. Murderous auras continue to emerge: "I really didn't expect the Donggong family to be so presumptuous, and their hands and feet should have come to our side. It seems that they have forgotten the power of our Shuiyue Sect, have they?"

"Donggong Pardon has not taken any action after being injured. It seems that they have been trying to find the Baicao Gate for so many years, but there is no result. This time, they will naturally not let it go easily."

Chapter 5974: Fulong

Murong Ziqing clenched her fists. She had been very indifferent for so long, as if everything was under the control of this woman.

Whether in front of Li Tian or in front of other people, she has always been like this, and many people have always naively thought that there is a huge difference between this woman's combat power and what they imagined, which can explain it. , Why in such a tense situation, she can still remain so indifferent, as if nothing matters to herself.

But now it's different. For the first time, her eyes showed such an angry expression. It was a look that wished to release her anger and destroy the entire world.

"It's really like this. This old fox hasn't made any moves for so many years. I thought he wanted to be quiet for a while, but I didn't expect that he was thinking about such things." Murong Ziqing sneered, facing the couple in front of him. An elder said: "You seize the time to send people. If you can get ahead of them, it would be considered a crime and meritorious service to catch those traitors."

"What if it fails?"

"Then we can only be unlucky. We will see what we do when Li Tian comes back from the Northern Cold Land. Fortunately, Nan Mu Ye is still in our hands." Murong Ziqing smiled bitterly and shook his head.

When Li Tian left, he promised to others that there would be no problem.

In the end, this was just a few days after Li Tian had left, and such a thing happened.

But in such a situation, it is not good for them to give up like this.

"Let's go down and arrange someone to do this thing."

"The sooner the better. If we can kill this matter before the Donggong family takes over, we can treat it as nothing happened. What happened in the Shuiyue Sect today, I will let them Donggong in the future. The family paid a heavy price." After Murong Ziqing finished speaking, several elders stood up and left cautiously. Their expressions were also quite solemn.

It can be judged by Murong Ziqing's tone that the lord's opinion on this matter should be quite serious, and their best choice now is to honestly find the traitors.

Otherwise, the next thing is probably not as easy to solve as they imagined, but the question now is, where these traitors are, they are also indescribable.

"Master, now..."

"I was negligent, and I never thought that the old fox would have planted so many people in the Shuiyue Sect all the time. It seems that many things at the beginning were closely related to this old fox. Maybe I should think about it sometimes. More long-term." Murong Ziqing turned around, looked at Shuang'er in front of him, and said, "Don't worry too much, I will give Li Tian an explanation."

"I know that what I am most worried about now is what happened to him in the Northern Cold Land. It has been so long, and he has not moved at all over there."

"Don't worry, he is a guy who keeps creating miracles. Even in places like Borderlands, he has left unharmed. What is there to worry about? This kid has his own aura of luck. It is not so easy. It can be killed." Murongzi said lightly.

In the flames, Li Tian felt that his body was about to be melted away. The crimson hurricanes were like a tiny microbe, and it was possible for Li Tian's body to collapse like this at any time.

But even in this state of fullness, he can still remain very calm to deal with the situation before him.

"It really didn't happen to me that there is such a weird flame. Even I can't adapt to this kind of flame. If it was the beginning, I would definitely find a way to swallow it." Li Tian said lightly. The void transition started, and then all the surrounding energy disappeared in an instant. After completing this moment, the sweat on his head still seeped out. ,

All this looks like a long time, but in fact it is only a moment in the flash.

At this time, Long Ying had just finished the blatant remarks, and it turned into what it is now.

Seeing Li Tian wave the sword in his hand, and then the flames in front of him disappeared like this, Long Ying almost wondered if he had read something wrong. How could such a thing happen in a good manner? ?

"Damn, this...what's the situation, why does this happen to you?"

"Why can't something like this happen to me? Isn't it normal for us? Anything can happen, and no one has told you what kind of guy I am." sneered. With a sound, Li Tian slowly raised his head and looked at the dragon shadow in front of him: "You are now restricted by me. If you help me open this place honestly, I can do anything. It has never happened, otherwise don't blame me for being rude to you."

"You're welcome? It's the first time I heard a young kid talk to me like this in so many years. It seems that you are confident of your own strength?"

"This is natural. If I don't even have a little confidence in myself, I would be dreaming of defeating you." Li Tian said with disdain, and the red sword in his hand was now aimed at the one in front of me. Shenlong: "I have given you a chance, but if you are not ready to cherish this opportunity like this, then you can't blame me for being rude to you, right?"

"Roar....."

Long Ying roared wildly, as if he was still preparing to continue fighting like this, apparently taking all these words from Li Tian's mouth as deaf ears.

As a result, before a few seconds were up, I saw a bright light suddenly appeared in front of Li Tian. The external incarnation behind him suddenly stretched out his huge hand and grabbed Long Ying's body in this way. , And then tear it hard.

Only a tragic low roar was heard.

Long Ying dissipated, and was immediately killed by Li Tian.

"I told you that you are not my opponent, and you have to insist on this in front of me. You are just a test tool. If you really are a dragon, I might deal with it seriously, but it is just a phantom of a tool , Will I still be scared?" He sneered and said.

Chapter 5975: Tamron

At this time, the air was still filled with a faint smell of fire. Obviously, although Long Ying's attack was resolved by Li Tian, it does not mean that there is really no connection with this world.

At this time, the scorching air flow was still flowing around them, of course, it was harmless at this time.

Ximen Yeshou was watching the situation carefully from a distance just now. He was always worried about what this man would do if he died here, but he never thought he gave her a little bit of courage. Having defeated the behemoth in front of him, now Simon Yeshou's mood has improved a lot, and his eyes are full of hope.

I believe that after this incident, they can also understand that the strength of the man in front of them will be terrifying. It is really not as simple as they imagined.

‘I didn’t expect him to be so powerful. I just thought that everyone was rumoring him. Now it seems that he does have such a fighting power, so he was rumored like this. ’

At this time, there were countless dragons' voices under Shen Longyuan, and these voices gathered together, and soon one after another saw dragon shadows flying from below.

No one knew what was under Shen Longyuan. When all the dragon shadows were flying from below, Li Tian and Ximen Yeshou's expressions were all stunned. They thought they had just killed them. A dragon shadow is just an appetizer. Now is the time for the real battle. If so many dragon shadows really fight, they are indeed a very difficult opponent.

However, this process did not last long.

These dragon shadows didn't mean anything, it seemed that they were more like souls who had lost their consciousness, but still existed in this world by their own instincts.

One by one, they all returned to their original pillars.

At this moment, the beads in this hall looked normal, and there were no flaws.

"Did I say before? There must be some way to get us out of here. What I didn't expect is that Shen Longyuan's role turned out to be like this. Now that these dragons are all returned, it seems that we can pass here next. "Looking at the beauties on the pillars, the corners of Li Tian's mouth raised slightly, and he felt smart and proud.

"It's really amazing. What kind of character was the person who created this hall in the past that can make a place of this level here. It's hard to believe that this is what happened before our eyes."

Ximen Ye Sorrow looked at the hall in front of him, and still didn't dare to appreciate what he saw with his own eyes in his mind. All this was incredible to them.

"The master of this hall is definitely not a simple character. The only thing we know now is this, but if you want to figure out other things, I don't think it's that simple. If you want to know other content, you need to do more. Obviously we can't do anything at present." Li Tian smiled faintly. They can't really find out if there are other things in this hall now. secret.

When all the dragon shadows returned to their original positions, the whole hall trembled rhythmically at this time, and then a huge arch appeared in front of them. Inside this arch It looks like a black vortex, which should lead somewhere.

It's just that now Li Tian and Ximen Yeshou don't dare to touch them easily, if they missed it.

"This is the path you are going to follow. If you want to continue, you can only pass from here. If you still want to go back, you can go back along the same path, but what I can tell you is It's actually more dangerous to go back down the original road. When this place was built, there was no thought of leaving a way for anyone to retreat. Once it came in, it could only pass forward courageously." Long Ying's voice sounded at this time. It strengthened the mood of the two of them now.

Since there is no way to leave here no matter what, it's better to step forward now and take a good look at these people.

"Seeing the expression on your face now, maybe you also know the seriousness of this matter for you. If it were me, I would not choose to leave here so easily, and finally got to where I am now. If you just turn around and leave like this, then everything is gone, and all the efforts you have gone through have been wasted. This is not a fair choice for you, is it?" Long Ying asked.

"I see. It seems that today can only pass from here." Li Tian looked at the black vortex in front of him. He saw this kind of thing and there was a little psychological shadow in his heart, although he knew that the vortex looked like It really doesn't seem to be a very dangerous trap, but they are in this kind of place now, and just having to make a wrong decision may leave them dead.

"We still don't know whether this vortex is the real path, or the path they deceived us. If you go in like this, you will probably die directly in it. Are you really going to go in like this?" Ximen Ye Seeing the serious expression on this guy's face, Chou expressed that he didn't understand what Li Tian was thinking about.

The place in front of them looks really difficult. If this whirlpool is really a very dangerous place, they would have given up their lives after entering this way.

"I know, so I am also very cautiously choosing whether to enter or not, but you have also seen that there is only such a way here, no matter what, we have no better choice now, and I am not yet I know what kind of creatures are behind us." Li Tian shrugged helplessly. How could he not know that if he continued like this, he might be in danger?

It's just that they are in this state, there is actually no reason to choose these things.

This path is placed in front of them, and the right to decide whether to go or not is still on them. The wrong choice may just die, of course, there may be nothing.

It all depends on their courage.

Chapter 5976: Put to death

"Are you going to stand here and wait for the passage of time? The time we waste here is getting longer and longer, and it will be more and more difficult to fight in the future. This place is very cold and the aura is very thin. It's like fighting the enemy attrition continuously, how can we still defeat our opponent in this state, it should have failed long ago."

Ximen Yeshou knows the state of her body now. She and Li Tian are completely different. This young man is a true genius.

This point can actually be clearly seen in the battle just now. This is indeed a very powerful and intelligent young man, but he is different.

She was indeed a genius, but after so many years of precipitation, she is no longer as good as she was before.

Looking at Li Tian, who is still calm now, she has no way to calm down. The fairy power in her body is constantly being consumed. The temperature here is colder than outside, constantly challenging their body's ability to resist cold. , If this situation continues, it won't be long before they will exhaust all the fairy power in their bodies.

If they reach the bottom, no matter how good they are, it won't work.

In such a place, there is no way to restore their own fairy power again. If their current fairy power disappears like this, then it will never be possible to recover again. ,

So their choice at this time is like gambling.

Once it fails, it is regarded as a failure of the gambling, and naturally there is no way.

"Well, since it's like this, let's try a wave. As the so-called is to die and live, since we are all at this point now, we can only choose a more suitable way to deal with this. This is a problem." Li Tian smiled faintly, then the first step was taken, and then the whole person disappeared into the black whirlpool in the next second.

Ximen Yeshou swallowed, and then he followed in like this.

As soon as the two of them entered this vortex, they felt their entire mental state in a trance. When they opened their eyes again, they found that they had come to a long narrow secret path.

"I thought I could pass the level like this. I didn't expect that after this level there would be such a place for us to continue through the level. I am really more and more curious about what this place is now. Every level has it. A more difficult guy to deal with us, if we continue to go like this, we will face stronger and stronger opponents, but the fairy power in our body will become less and less, which is simply unfair to us. fighting."

"This was originally one of their goals. The reason why the aura of this place is so thin is probably because they really hope that we will make our bodies less and less powerful in the constant battle, and we will soon make ourselves no more. There is no way to continue fighting, but they can

maintain their peak state, so that they can deal with us very easily." Ximen Yechou sneered, thinking that such a method is really good.

They are indeed encountering such a difficult situation now. If it continues as it is now, if there is nothing to do, no one knows what will happen next.

"The guy who created this hall is indeed a difficult talent. I don't dare to say what I can do now. I really don't have any better way to change the situation like this. But now that it's what it is today. For the sake of it, I definitely can't just choose when nothing has happened. We are all in this kind of place. We absolutely can't just turn around and leave like this, can we?"

"Although the words are like this, are you confident about yourself now? If we continue to walk like this, can we change anything? Are you really sure about this?" Ximen Yechou looked at it and asked.

"Even if we can't find this ultimate treasure, we still have to continue like this. Now this step is no longer a question of our easy choice, but a question of whether we should do it or not. I want to create a strong place. The author probably also thought of the various emotions that we would have. Therefore, even if our current mood is very fearful, we still have to choose to continue like this. If we stop here, no matter whether we leave or whatever, it will be a dead end. "

Without thinking too much, there are really not many opportunities left for them now.

There is also a lot of wasted time, and the possibility of winning in the subsequent battles is getting less and less. This is not a joke, but something that can really happen. He now knows exactly what his physical state is like in this place. It's also very clear how long you can last. If you want to change your destiny at this critical time, you can only make your mental state become very calm at this time.

At this time, you must not think about it, once your brain starts to be occupied by fear, then every choice you make next may be wrong.

Seeing the situation in front of him, Li Tian said as he walked: "What we have to do now is to make everything in our mind disappear. The only thing we can do now is to die. And then, what do you think?"

"What do you mean?"

"It doesn't seem like a good choice to continue wasting time like this. Now that we have chosen to move forward, it is better to speed up the pace. There is no time for us to stay here and think about whether this is a trap." When Li Tian spoke, people He has already started to run slowly, and the amount of celestial power in his body is indeed a lot, but even if it is really a lot.

They can't stand the constant fighting. They keep encountering such difficult opponents, so the internal consumption of the body will only increase, and it will take them a long time to completely lose the protection of the immortal power. If that time comes, wanting to defeat your opponent is simply a daydream.

After understanding the situation at hand, the two people chose to let themselves get out of here as quickly as possible, no matter what the situation in front of them. Only in this way can they be truly safe.

This is what they are thinking now.

Chapter 5977: past

I don't know how long the two of them have been running here. It feels like they are going to lose their souls. It is really difficult to persist in this state.

Fortunately, they persisted in the end.

Finally, they came to a barren land, and then the two stopped, looking at the white space in front of them, which seemed to be indistinguishable from the northern cold land outside, a very helpless expression appeared on their faces.

"Why do I feel that the two of us have been deceived now? Isn't this place now the land of the North Cold?" Ximen Yechou also felt it. When they first came out, the two of them might be used to the situation inside. It was too late to get a good feel for the aura outside, but now they can feel it.

Although the aura here is not very strong, it has improved a lot compared to the underground cave.

"I think maybe that place is the exit where we left? Or that the hall is the final end, we have already come out of it." Helplessly smiled, at this moment even Li Tian is also Zhang Er's monk confused. , I don't know why this happened, and I feel like I have made a wrong choice.

According to the previous situation, if they want to continue walking, there is indeed only one choice, and that is to go through the vortex and continue to go like this.

"If this is the northern cold land, where exactly are we now? It feels like we are going to be lost." Ximen Yechou looked at Li Tian in front of him and asked suspiciously. , If this is the land of the Northern Cold, it means that they are on the right track now, and there is no need to think about many of the next questions.

"Look, there is the Big Dipper over there, and we can just follow the position of the Big Dipper." Li Tian raised his head, and there was a bright star in the black night sky, which was the Big Dipper.

"Since I have already left, I might as well rest here for a while. If you don't mind, I want to tell you a story."

"Your past? Many people have always had a hard time letting go of their past, so in many cases they don't know what kind of mentality to use to face their past. You will behave like you are now. I don't think it's strange at all, it's a very normal thing for me." Li Tian smiled faintly and said.

"You look as if you know a lot of things."

"The truth is like this. I know that your current state of mind is very different from before. It must be because something unforgivable has happened to you, otherwise it will not cause you to become the way you are now. It looks like, I've been talking coldly to me before, just trying to make me hate you, so that when something really happens, you can survive safely, right?"

"Stop daydreaming. Who would think about letting others live instead of not paying attention to themselves."

"If my guess is correct, you have been here before, and you have been here with many people. They should be regarded as your good partners, but in the end only you left here. Because this appearance changed your state of mind, and there is no way to return to the original self, so you can make yourself the way you are now. I guess right?" Li Tian smiled slightly and squinted his eyes. Ximen

Yeshou in front of him said: "In fact, many things seem very complicated, but you only need to think about it carefully and you will know what is the key to these problems."

"You are like a case judge, as if you are very sensitive to everything."

"It's your own performance that is too obvious, and I seem to have a similar experience with you. My companions are now all dead for protecting me. I can feel this feeling of being alone. Yes, although I have always wanted to change the situation in front of me, when my strength is not enough, it is very possible to lose anything, so I will know after that, if I don't want to make myself repeat the mistakes If you do, you must make yourself stronger. Only a strong person can control these things at will."

"It looks like you have found your goal in life. All the things that happened before are out of your scope."

"Humans, you always need to look forward, don't you? If you always want to think about your past, you will always stop in the same position, so even if you want to There is no way to change myself. I am living in this world not for myself, but for those who want me to live."

Simon thought about it for a long time at night, and then slowly spoke out all the memories in his mind with a sad look.

Very few people know about this matter. She was still one of the more famous geniuses in the entire Shuiyue Sect back then, but it was because this matter had a great influence on her mood, and it made her very uncommon in the future. Described, as time slowly passed, it eventually became what it is now, and there is no way to restore my mentality to its original state.

Because I was very worried about this girl's next performance, Murong Ziqing let her and Li Tian come here.

Revisiting the old place is to use this opportunity to rebuild her self-confidence in her heart, without being affected by what happened before, the only thing this girl can do now is probably just This is all that is left. If there is no way to restore her confidence in this way, then no matter how hard she works, it will be wasted.

Li Tian didn't know these things at the time, but as time passed bit by bit, he gradually understood what was going on in this incident, and why Ximen Yechou hated him so much.

All this is due to the fact that what happened three years ago, that incident was like a devil, directly destroying this genius-like girl, so that she has become the way she is now, no more The way to restore to the original self.

Chapter 5978: memory

Back then, the Shuiyue Sect was not under the control of Murong Ziqing. At that time, the Commandment Hall wanted to make blind medicinal materials, and directly asked their talented disciples to form a team to come to this place in the Northern Cold Land to find Where are the herbs.

At that time, many people were very clear about the situation of the Shuiyue Sect. Although the strength of the Shuiyue Sect was still very strong at that time, it was not at the point where it could stand out from the crowd.

The Northern Cold Land is very dangerous, and this is what they know.

These elders in the commandment hall are not idiots. They know very well what kind of results they will bring after making such a decision, but in the end they did it.

Moreover, every disciple who came to perform a task in the northern cold land was given an order to protect one of them who was able to survive as much as possible, if there was an accident.

They didn't even think that these disciples would all be able to come back alive, where is the Northern Cold Land?

Where the demons were suppressed in the past, the demons have already hated humans for a long time, and they don't know what they will do to humans, but after this team enters the northern cold land, they will definitely meet the demons, this is what was expected.

But the elders of these discipline halls did not think about so many questions on this matter at all.

At that time, the Shuiyue Sect, even these disciples were very confused about these things in their hearts, but there was no way to say it. Even if they said it, no one would help them to change this problem. The final result was still the same as they are now. The result of the order is exactly the same, and if this happens, many people will gradually give up resistance.

This time there are about fifty people in the team, and nearly forty of them are ordinary disciples, and the remaining ten are all elite.

Among the ten people, the youngest is Ximen Yeshou, who is also well taken care of in this team.

They did not encounter any danger on the first day when they entered the Northern Cold Land. Everything seemed to be very safe. They only encountered a few monsters here, but their state at that time was completely relaxed. Loosely killed the monster in front of him, and then time slowly passed. In the next few days, there were continuous casualties.

The notoriety of the Northern Cold Land is evident. As they know it, this place is like a place that eats people without spitting out bones. Once you get here, there is only one dead end.

So many actions made them clearly aware of this, they are here like a humble ant,

The opponents they face will only become stronger and stronger. Every time they feel like they are pushed onto the cliff by someone, these young people want to continue to persist in such a tormented state. It is also completely impossible to go down. As time goes by, they soon only left about a dozen people.

Even among the elite, two or three died.

At this time, nearly half a month had passed, they had already died so many, and their team had penetrated into the Northern Cold Land.

Simply at this time, they finally found the herbal medicine they were looking for this time. At this time, everyone was very happy. They were suffering. They didn't know how many companions died along the way, and finally came here. Found this thing.

Now everyone's happy mood is naturally conceivable, and this feeling is like getting a new life.

But Ximen Yeshou couldn't be happy. He knew that the price of all this was that his former companions had all died. He had always been brooding about this matter, and there was no way to completely deal with this matter. Forget about it.

But seeing that all my senior sisters were so happy, they didn't say anything.

As a result, they didn't have such a happy time long before they met the demons.

They had never seen the demons on this road. They thought that the path they chose was perfect, so they didn't meet the demons, but they didn't expect that their every move was always under the control of the demons. in.

They knew about this human team a long time ago, but they didn't rush to make a move, they just wanted to see what kind of big waves this human team can make.

The final result really did not disappoint him. This human team came here to find some herbs.

However, a lot of power was consumed along the way.

This battle was like a battle of great disparity in strength. Several powerful elites all resisted vigorously, and Ximen Yeshou wanted to participate in this battle.

However, it was rejected.

He is the young man who was selected and most likely to survive.

As the battle progressed, her mentality also changed. She began to want to help her senior sisters fight and help them survive, but when she saw the faces she used to be familiar with, they all fell in a pool of blood. The eyes opened looked like unwilling, and the fear that had been suppressed in her heart for so many days broke out like this, and she could no longer keep herself fighting like this.

In this state, she quickly chose to leave here and left without looking back.

She survived.

But in this team, no one survived, they all died among the demons.

It was during this battle that she truly saw the terrifying aspects of this rumored race. What is meant by killing without blinking? These demons are like this, the real murderers do not blink!

To this day, her mind is still constantly reappearing, those Shuiyue sect disciples, covered in blood, are pouring in a pool of blood. Their eyes are wide open, looking like fear and like Just like anger, every time in the middle of the night, there are all such dreams in her mind.

"It seems that over the years, you have been living with your own guilt and want to find an opportunity to make up for it, but there has been no suitable opportunity. Shuiyue sect knew how powerful this place is and did not continue to choose to come to the north. This is the cold land, right?" Li Tian sighed. This is really a very tragic and **** thing.

In fact, these Shuiyue Sect disciples knew what their results would be like as early as when they acted.

They all know what a heavy price they will pay when they enter the Northern Cold Land.

Chapter 5979: Bury the hatchet

"It's indeed like this. I don't know how many intelligent disciples of Shuiyue Sect have been sacrificed this time. The idiot elders of the Commandment Hall also realized how wrong their choice was, and finally became like this. ." Ximen Yeshou nodded, and when she returned to Shuiyue Sect, she began to regret it, although the demons at the time were powerful.

But they have not reached the point where they are invincible. If Ximen Yeshou at that time could step forward to help, maybe everything would be different.

"Don't think about it, I know you think that if you make a move at that time, all your companions can survive, but I can tell you very seriously that this is impossible, Demon Since they found your traces a long time ago, but they haven't done anything because they know that their power is not your opponent, so they waited for the monster beast to consume all of your power before they chose it. In fact, these demons are much smarter than you think."

"It's not like this."

"It's like this, you are still in your own guilt and there is no way to get rid of it. Now you feel that the whole person's mental state is constantly looking back in the state of the time. You always think that if you can go back to that time If you do, you can definitely change something, but in fact you can't change anything. If the Demon Race cannot defeat you, they will not take action. The Demon Race is not willing to sacrifice one of its members."

On this point, Li Tian was very confident, and the Demon Clan definitely didn't want one of his clan members to sacrifice like this.

They were trapped in this ghost place in the past, and they changed their lives in order to compete with the monsters for the territory. I don't know how much the lives of the people were spent. Now, if they are not completely sure of this situation, they are definitely not willing to let themselves easily. The people of the tribe risked their lives to fight, so since they took action, they must have enough confidence in themselves, so that they can take action against you.

At this point, Li Tian is convinced that this is the style of Demon Race.

Ximen Yeshou in front of her is just unwilling to leave in the state of the original. Now Shuiyue Sect is no longer the original Shuiyue Sect, but her state of mind is also unable to return to the original state. In that state.

All of this is actually more like a certain number in the dark.

In order for Ximen Yeshou to overcome the thoughts in her heart, Murong Ziqing could only choose to let her revisit her old place again. This time, she might be able to leave here because of Li Tian alive and let her regain her own confidence. .

Li Tian now understands what this woman is thinking. Although this woman has always loved to calculate herself, she has to say that the way she handles some things really makes Li Tian feel very admired. This woman would have such a means.

After saying so much, Ximen Yeshou's eyes still had a faint sadness and some helplessness.

At that time, if one's own strength could become stronger, maybe the result would be different.

"People will encounter many problems in the process of their own growth. The reason why your companions die is because they have not seen their own strength at all. If you can't think about it

clearly in this kind of place When it comes to his next action, then even if he is killed, it is reasonable. I will not feel that this is something that I cannot accept." Li Tian sneered and said calmly.

Under this very dangerous situation, they should all be very clear about the level of the enemy they are facing, and if they can't always prepare for it, any result is normal.

With a faint smile on the corner of his mouth, Li Tian seemed very calm at this time.

There was already a bonfire in front of them, but there was still no way to warm them up in this vast expanse of whiteness.

"Take a rest early. If there is any problem, I will remind you as soon as possible. It will be much easier for the two of us to leave here." Li Tian is not very sleepy. This is the first time they have come to this place. He didn't understand a lot of things here, and he was also very worried about what would happen once he fell asleep, so he didn't feel sleepy.

Ximen Yeshou glanced at Li Tian and said, "You are the weirdest man among so many men I have ever met."

"Hehe, although I don't know why I've become so weird, I'm still very happy to hear your alternative praise. You should rest for a while. We don't know how long we spent in it, but I His body tells me that we should only have a short day's time now." Li Tian squinted his eyes and said with feeling.

Although they seem to have spent a few days in the maze, they actually only spent a day.

This whole day was spent in that maze. What Li Tian couldn't imagine most now was that the ground looked so weird, why would it let them return to the Northern Cold Land again?

If the whirlpool behind the hall is really a road, why is it here?

"Thank you so much for listening to me. After I said it, I feel a lot better. I thought that no one in this world would like to listen to so many things from me." Ximen Yeshou looked at Li Tian, who was still thinking calmly in front of him, said lightly.

"You don't need to thank me like this. For me, it's just a normal thing. It's just a piece of cake. If you have anything, just tell me. I can listen to you. Of course these things. I will not tell others easily. I still like to respect other people's sex. Without your approval, I would not tell others what happened here today."

"Thank you so much. It seems that this time the Sovereign asked me to come with you and did have my own ideas. Before, I had a narrow view of you. I apologize to you for everything I did before." She looked at Li Tian in front of him said seriously.

Li Tian smiled and waved his hand, he didn't take these issues seriously.

For him, this is just a small problem.

Chapter 5980: Longshan

After that, Ximen Yeshou did not really rest.

She thought that if she really rested like this, it would be an unfair thing for Li Tian, so the two chatted here for one night.

This evening, the friendship between the two of them has deepened a lot at once, which is also an unexpected gain.

By the early morning of the next day, the two of them were still awake. Li Tian looked at the sun slowly rising in the distance. At this time, there were no dense branches and leaves on their heads, and the sun was left. The face was irradiated and looked beautiful.

"It's not right, it's really wrong for us. I believe that many enemies already know the news that we are here, and I don't know when they will appear here to deal with us, but it has been so long. I haven't seen any enemies, I can only say that there must be some secrets in this place that we don't know." Li Tian stood up and said strangely.

Both of them were chatting last night, so there is nothing special about this kind of key thing.

But now that I am sober, I feel the difference in this matter. Even if the luck is really good, it won't be so good.

"If you say it like this, it seems that it is indeed like this. We did not encounter any danger for one night here, and there was not even a shadow of a monster beast. There is indeed something abnormal." Ximen Ye Chou also nodded, holding the fairy sword in one hand, squinting his eyes and looking around: "Maybe there is something in this place that we don't know."

Li Tian stood up and slowly unfolded his spiritual thoughts, wanting to see what was going on around him.

However, in just a few seconds, he came back to his senses at once: "It seems that we have really entered an incredible place. I can't feel any energy fluctuations in this place, that is to say, near here. There may be no living things, but I feel that there is a very clearly visible barrier behind us. This barrier is very strong, and my spiritual thoughts cannot penetrate it."

Ximen Yeshou was very clear about the strength of Li Tian's soul power in front of him, and such a powerful soul power also meant that he must have quite a terrible place in this respect.

But now Li Tian has no way to penetrate this barrier, one can imagine how serious the problem now has become.

Seeing him so serious, it was obvious that he was not joking at all.

"Then what to do now, can it be said that after we passed through the hall, we really entered the next link, but we didn't find it before. In fact, we have already entered the next link. Do you mean this?" She asked, squinting at Li Tian in front of her.

"It is indeed like this. It seems that we can only use this way to explain what is happening to us. Although I don't know what is going on, I also know that the current situation is for us. It should be very complicated." Li Tian shrugged helplessly, and squinted at Ximen Yechou in front of him: "If this is really another place, then what is this place? ?"

Both of them don't know where they are now, but they clearly understand that this is a rather strange world.

Maybe in this world, they are just the only two living entities that survive.

Of course, they still know some other things. They should still be in the Northern Cold Land, and the place in front of them may also be a very mysterious place in the Northern Cold Land. There

must be no way for ordinary people to pass outside. Those who have entered this is why there is no trace of any monster beast in this, because there is actually no monster beast in it.

If it is really like this, the two of them can be much easier, and they will not be cautious all the time on the road.

However, the surrounding area is full of snowfields, except for the blizzard that is constantly being blown up, nothing can be seen. If there are monsters close to them, they can also find the existence of the enemy in a very short time.

After this, Li Tian and Ximen Yeshou continued to choose to move forward. ,

Although the place in front of me looks strange, I can't just choose to leave this place. I have to keep moving when I want to move on. Now that they have reached the point where they are now, they obviously can't find anything to move back. The road is gone, and now they can only bite the bullet and move on. If there is really any danger ahead, it is something they cannot avoid.

Both of them appeared to be relatively silent on this road, saying nothing, just like this, waiting for the passage of time bit by bit.

I don't know how much time has passed, they have walked through the endless snowy field, and finally came to the foot of a big mountain, this big mountain looks magnificent and majestic, as if supporting the entire sky, just like this towering between heaven and earth , Extremely powerful.

Standing in front of the mountain, the attention of the two of them was not on the mountain at all.

It was the appearance of this big mountain, which looked endless, crawling on the ground like a huge black dragon.

"Have you seen it? This big mountain looks like a black dragon crawling here. I think there must be something we are looking for here." Li Tian stood at the foot of this big mountain, looking at this. The magnificent mountain on the left also surging inwardly in his heart.

This big mountain seemed to make people feel very excited, and he himself didn't know why he had such emotions.

And between this white world, such a continuous black mountain looks particularly conspicuous.

"It's strange to say, why can't I see any traces of wind and snow on the top of this big mountain? Shouldn't it be because there are many traces of wind and snow on this **** mountain? But I have everything now I can't see it, what's going on?" On the other side, Ximen Yeshou was also surprised by the appearance of the mountain, but they were still wondering why there was no snow on the mountain.

And there is no dragon head on this black dragon.
