

## A Killer 5981

Chapter 5981: Dragon body between heaven and earth

Looking at the black dragon in front of me who didn't know how many kilometers stretched, the expressions on their faces all became serious.

On this big mountain, there is no snow at all.

More importantly, such a behemoth could not see the dragon head.

"This black dragon doesn't even have a head on it. Do you think this situation is normal? I think it's not a normal thing anyway." She glanced at Li Tian next to her and said.

"This is of course abnormal, but we seem to be in such a state that there is no way to really find out. This black dragon doesn't know how long it lasts. If we really want to look for it, we don't know how much time it will take. , There are only two roads before us, one is to enter here, the other is to climb over this Black Dragon Mountain.",

In front of them, there was a small hole, which looked more like a wound left after something penetrated through it, and it could only barely let the two of them go in side by side.

It is conceivable that if this is really a wound, it is not a small wound for this magic dragon.

On this huge body, in addition to such a hole, there are also many holes in other places. The body is densely packed with such clearly visible holes, which makes people's mood a lot heavier.

Li Tian squinted his eyes, and his mood became serious at this time. Whether to enter this place is now a very crucial matter.

"What should we do if we go in here and encounter danger? I can be sure that this is a very dangerous place like the previous hall. Although there is no retreat, it makes me so easy. Entering here, I still don't want to do this in my heart." Ximen Yechou glanced at Li Tian next to him, and asked curiously.

"There is no choice. If we continue to move forward like this, there is nothing to say even if we encounter any danger. The current situation is quite unfavorable for us, and we have not many opportunities to choose. Why waste your time on this kind of things, what do you say?" Li Tian squinted his eyes, looked at Simon Yeshou in front of him, and then faintly smiled: "Since they have reached the point where they are now, simply Let me see what this rumored place is like."

The Black Dragon Mountain in front of you does indeed look very magnificent, just crawling here, you will feel your whole person's mood is followed by excitement, just like the waves are constantly beating your heart.

But when he calmed down, he discovered that this is indeed a very dangerous place, and no one can guarantee what kind of danger he will encounter here.

But now, they have very few opportunities to choose.

Time goes slowly, can they still choose?

"The immortal power in our body is about to be unable to persist. Although there are a lot of auras here, if we want to rely on these auras to relieve, we can only keep us in the current state of

consumption, if we encounter a battle I'm afraid we can't deal with it anymore." As he said, he slowly walked forward and placed his right hand on the Black Dragon Mountain in front of him.

The scorching temperature soon began to radiate in his hands. At this time, he discovered why there was no snow on this Black Dragon Mountain. The snow would be evaporated instantly when it fell. Now, the temperature around Heilongshan should be very high.

But the strange thing is that the temperature of this Black Dragon Mountain has always been in a restricted state, otherwise the surroundings may have become a river.

"Forget it, since we have reached this stage now, it is really meaningless for us to think too much. If there is really any danger in this, there is no way to change things next to us thinking about these things. It's better to just go in and let me see what's scary about this kind of place." Ximen Yechou also gritted his teeth. Since the two of them are here, they definitely have no choice now.

After speaking, they slowly entered the black mountain.

As soon as they entered this black dragon mountain, they immediately felt a mysterious force rushing directly towards them, and both of them knelt to the ground in the first place.

He only heard a sound of 'puff,' and it hit the ground heavily.

"This...what's the matter with this inexplicable pressure? I feel like my body cannot be controlled. The whole person...has become difficult." Li Tian squinted his eyes and felt it. The fairy power in his body began to become chaotic. If this continues, it may not be long before he will die here.

My heart also began to become tense.

Ximen Yeshou's situation was even more uncomfortable. Li Tian could still speak. Although he was under great pressure, he could still speak.

But she is not so simple now, even breathing has become difficult, just like someone has blocked her nose and mouth with his own hands, even the pores on her body have been blocked. Similarly, there is no way to continue breathing like this. I just feel that my whole person's mental state has begun to become trance at this moment, and it may be dizzy at any time.

The brains of both people became difficult to think at this time, but this process did not last long.

Otherwise, they might really die here.

Looking at the black stone walls around, Li Tian slowly stood up and exhaled a long breath: "Can you feel it? What happened just now? I have never encountered such pressure before. ."

"Although I have been here once, what we have seen this time is also the first time I have seen it. I have never heard of it before. There is such a creeping path between heaven and earth in the Northern Cold Land. As for Dragon Mountain, this black dragon seems to be a very powerful existence, but it may have died a long time ago, and it will slowly become such a black dragon mountain." She speculated and said, Black Dragon Mountain's The styling also made them think about this aspect.

Chapter 5982: Magic dragon

The fact is indeed like this, they can only use this method to explain what is happening at present.

Such a huge Black Dragon Mountain had never been seen in the God Realm before.

Although there have always been black dragon legends in the God Realm, their records are not very detailed. Even the God Dragon is also a very mysterious existence for these immortals in the God Realm, and ordinary people want to find Such creatures need a lot of effort, not to mention that what they see now is a huge black dragon.

"It's very possible, maybe in a long time, the energy of this black dragon is very terrifying, but after so long, everything is completely different from before." Li Tian smiled and shrugged. Shrug your shoulders. If this black dragon was really a king on this land, then what kind of powerhouse was it that made this black dragon be suppressed here?

Moreover, when they were in the main hall before, that Shen Longyuan must also have a great connection with the powerhouse who killed the black dragon.

"I'm really more and more curious now, where are we really, are we still in the Northern Cold Land? The secrets here seem to be much more than we thought, trying to figure out what happened. Whatever, we must do everything seriously from now on." Ximen Yechou slowly stood up, and after so long of suppression, she also felt a little pressure on her body.

But the current state is not difficult for her to accept.

Squinting at Li Tian in front of him, he said, "We didn't know so many things before, but we have now felt the difference here. I want to figure out what the past is like. of."

"Maybe what we are seeing now is really just the tip of the iceberg. From now on, this place looks like a terrible place." Li Tian shrugged helplessly. What is certain in his heart now, They seem to have a lot of things they don't know about this place.

When they entered the Black Dragon Mountain, the people in black and white had just arrived in the hall.

At this time, the vortex in the hall was still there.

The two of them looked at each other and snorted: "It seems that what we guessed is not an impossible thing. These people have already left the maze. They didn't expect them to pass by without knowing anything. ."

"It's definitely impossible for us to be in front of them. Now we may have found the location of the Devil Dragon Skeleton Cave. When they really find the treasure, maybe we don't make any sense whatsoever. "The white-clothed man looked at the black-clothed man with a helpless smile, and said: "I didn't expect that it took us so long to find a way to get there. It turned out to be..."

"Don't worry, things will definitely not be that simple. You must know that it is not only the two of us who want to come here, but the big families want to find the treasure. Now they may have reached the Devil Dragon Skeleton Cave. But if you want to pass, you may not be able to get it done. What's more, in the northern cold land, it is still ruled by the demons. If these demons do their hands, things will be instantly different." The man in black is not so pessimistic. , He knew the power of this Devil Dragon Skeleton Cave, even if they found it in advance, they would most likely touch the organ without help.

"Don't you find out now? The people who walked in front of us must be very smart guys. It is very possible that they also have the same abilities as ours. At this point, we have no choice. , I can only bite the bullet and move forward. I will never allow these people to \*\*\*\* our treasures right in front

of us." The white-clothed man began to move forward quickly after speaking. And it seems to know this kind of place very well. In many cases, Li Tian and Ximen Yeshou did not stay as much as before.

Magic Palace:

This place is known as the most powerful place in the Northern Cold Land, not only because it is the strongest palace of the demons, but also because the city where it is located is surrounded by powerful monsters.

In the Dark Demon City where the Demon Palace is located, there are countless powerful monsters. They can already be transformed into human forms. Over the years, they have reached a consensus with the Demon Race and began to form such a weird social group.

At this moment in the Demon Palace, the Demon Lord squinted at the young girl in front of him: "You want to go in person?"

"Yes, father!"

"Do you know that this time there are many issues involved. Many strong people in the human race are all involved in this matter. Do you think I will let you go?" Looking at the beautiful young girl in front of him, the devil Jun's eyes began to gradually become sharp: "Although you are very strong and have the ability to protect yourself, this matter is very dangerous, and I will not promise you."

"Father, you once said that our demons have never had the habit of relying on others. If we want to grow, we must keep fighting and getting stronger. Only in this way can we make ourselves better. To survive in this sinister world, if it's like this, why haven't you let me leave the magic palace easily for so many years? I haven't even been to the Dark City several times."

"What do you girl know, everything I do is for your own good..."

The demon princess and the demon king seemed to have been arguing in the hall for a long time. Of course, the demon princess was defeated in the end. The demon king's ability and majesty were definitely not to be resisted, and she could only choose to retreat.

Of course, this does not mean that things are over.

After only half a day passed, I heard news from the next person that this prestigious princess of the demon clan, even after living in the demon palace for decades, chose to escape quietly. Up.

It seems that staying in the magic palace for these years really made the princess start to tire of it.

At this time, Li Tian didn't know that a black storm against them was slowly brewing. In this storm, anyone could become a very innocent victim.

All forces will make their debut in this storm.

Chapter 5983: Corrodus

When Li Tian and Ximen Yeshou came back to their senses, the two of them really calmed down. In the body of this black dragon, they really felt that their cognition was really very small.

In their eyes, this huge body is simply invincible.

Such an invincible existence would even fail. One can imagine how powerful a strong man who could defeat such a black dragon was.

Before, he didn't think it was the skeleton of a black dragon.

But as they slowly deepened in this cave, they found a lot of things that shouldn't exist. It can be seen that the black dragon that year was really trapped here after being seriously injured and dying, plus so many years. The time has settled, and it slowly turned into a huge Black Dragon Mountain, creeping between the world and the earth, becoming an exceptionally magnificent existence.

Of course, as for where the strong man went, it is still unknown.

After the two of them entered the bones of the dragon, they also felt that the power of the black dragon during his lifetime should be very terrifying. Just being on the aura made them feel a lot of pressure, as they moved towards The position of the head slowly advances, and the pressure of this aura becomes more and more obvious. This is what a strong person naturally exists.

Even if there is no thinking control anymore, this terrible aura can still be displayed. ,

"I really didn't expect such a powerful black dragon to be defeated. I always thought that the creature like Shenlong must be invincible, and the black dragon is rumored to be even more powerful among the race like Shenlong. Their fighting power is equivalent. Horror, this black dragon may have existed at the level of the Black Dragon King." Ximen Yechou touched the surrounding stone walls, and the hot temperature on it made her step back.

"It's not just the black dragon, but the entire dragon clan is a very terrifying existence. Soaring through the clouds, driving the fog and overturning the clouds and rain, they are all very simple little skills. When they want to destroy the world, the world will be fragile in front of them. It's unbearable. In the world I used to have, their descriptions of these dragons were quite respected, and they regarded them as totems of their own race."

"Heir to the dragon?"

"Indeed, it is the descendant of the dragon. We are proud of this, and we also think that this continuous improvement." The two people said, while slowly advancing, the road is very difficult, but very stable.

Nothing terrible happened, and no terrible enemy was encountered.

The only thing that makes them unclear is that at the moment they entered this place, where the terrible pressure they felt came from. This is the only place Li Tian is worried about now. They don't at all. Knowing where their enemies are, and don't know when they will suddenly appear, causing them a heavy blow.

The two can only bite the bullet and move forward, since they have entered, there is definitely no reason to turn back and leave.

This process lasted for about half a day, and they encountered one of the strangest things entering the bones of this monster.

Among the bones of this magic dragon, some tender red grasses can be seen, which look like grasses such as flytraps. The leaves are covered with various spikes, but their colors are all It was

very conspicuous. Compared with the Venus flytrap, it was about ten times larger. Among the skeletons of this monster, it looked like a half-human size.

After seeing these weird grasses, Li Tian immediately stopped.

Because they saw a lot of human clothes and swords around these weird grasses, which were obviously left behind by the dead.

"The quality of these clothes is very good, but it shouldn't be here recently. They can be well preserved after such a long time. These things may all be very powerful treasures, and their masters must have lived before. It's not a weak person, but he just died here. It seems that it has a lot to do with these strange plants." Li Tian looked at these strange plants in front of him, not knowing why, and his mood followed. At this time, the side became heavy.

"I think it's like this. I don't see any traces of battle around. We haven't encountered any enemies after being here for such a long time. I believe they will definitely not be able to meet enemies. A few grasses may be the things that are most related to them, otherwise we wouldn't be able to explain what happened." Ximen Yeshou also nodded aside, and said seriously.

These grasses really looked weird, and they hadn't seen any relics anywhere else. It was here that they saw so many relics.

Idiots also know what's going on in this matter.

"Be careful, these grasses may be really unusual. If we are not careful, they may be swallowed." Li Tian squinted at the grass in front of him and said.

At this time, the Canglong who had been keeping in good health appeared next to his body, looked at the grasses in front of him, and said, "These grasses look weird. They must be dangerous."

"Boneroth, this is also a plant with a very old history. The most terrifying thing about this plant is that once a creature touches their spikes, they will instantly release a kind of Corrosion of the biological bones with clean liquids, so basically no matter what level of power you are, as long as you are hit, there is bound to be a dead end." At this time, the remnant soul of the ancient \*\*\*\* spoke at this time.

"It seems that we should have entered a very ancient place by mistake, otherwise we wouldn't see this ancient plant in this place, right?" Li Tian asked.

"It is indeed like this."

"This is Bone Eating Grass. It's dangerous. Let's step back." Li Tian glanced at Ximen Yeshou and said.

"How do you know? I have never seen this kind of plant, or even heard of it. How did you know it?" Ximen Yeshou was stunned. He was still observing this plant with Li Tian just now. After such a short period of time, this guy seemed to have seen through the plant in front of him, and even said the name of this plant so clearly?

Chapter 5984: Mystery

"You should know, I participated in the Ten Cities Competition before."

"I know."

"The purpose of my participation in the Ten Cities Competition is not to find a better opportunity for myself. For me, I am very lucky to be able to cultivate to this level at such a young age. In fact, many people are beginning to envy in their hearts. I am, so I am proud enough of all the achievements I have done so far, there is nothing to think about." Li Tian said with a smile.

"Does this have anything to do with this matter?"

"The purpose of my participation in the Ten Cities Conference is to go to Buzhou Mountain. I think what kind of books are hidden in the museum, which makes people so curious, because I have been thinking of ways to study this place for so long in the God Realm. So I still know some of these older plants. I just didn't look at it carefully just now, so I didn't find it. I just remember now that this is a very dangerous plant." Li Tian said as he said. All told Ximen Yechou where the dead soul of the ancient \*\*\*\* told him where the plant was dangerous.

After knowing that this plant is so terrible, even Ximen Yeshou frowned: "Really so powerful?"

"Nature is so powerful, and it's the first time I have encountered such a plant, so I was just stunned and didn't know what it was. Now that we know the power of this plant, let's go around. ":

"Go around? Since this thing is so terrible, why don't we just eliminate it, but choose to bypass it?"

"People are selfish. I don't know if there are other people coming in behind us. Since we can find the underground cave, I believe other people may also find out. And in this short time, the gods The big forces have all come in towards the Northern Cold Land. I am very worried that their purpose is here, but I don't know what else here makes them so persistent." Li Tian shrugged, "Leave these plants behind." This can be a good place to help us resist the chasers behind, and if we really eliminate these plants, no one knows what will happen."

"This kind of plant is usually accompanied by a kind of scavenger beast. This kind of thing is as small as a mouse. It usually hides in a dark corner and waits for the time to come. Most of the time is quiet in the dark. Waiting quietly, if you eliminate these bone-eating weeds, I think these scavengers will be swarmed out. Even if their combat effectiveness is not very strong, but once something is related to the quantity, the problem can be. It's different." The Remnant Soul of the Ancient God added again.

This is why no one wants to destroy the Bone Eating Weeds here for so many years. They don't know how many scavengers are still in the body of this black dragon. Once they are angered, it is really an irrational behavior.

"But for so many years, they all live here? What do they eat?"

"Carrion beasts don't need to report their stomachs. They eat carrion only because of their own instinct. In fact, this kind of creature spends most of the time in a deep sleep state, only when something rotten appears. , They will appear."

After knowing the reason, Li Tian had to take Ximen Yeshou and leave: "In any case, we can't destroy these things, and see if there is really something unlucky behind. I don't know about this matter. We will destroy these things afterwards Eat bones."

After the two people left this neighborhood, the next road became more and more difficult, and there were more and more erodes on this road, but fewer and fewer immortals were killed around the erodes.

Obviously, after having learned from the past, they all began to be careful, and they didn't dare to deal with these plants easily.

As time went by, a huge stone gate slowly appeared in front of them, which looked like it was blocked by someone. The stone gate blocked their way, and the two people had to stop.

"How easy is it, there is such a stone gate in the body of this black dragon?"

"This should be regarded as a mechanism. The strong man who eliminated the black dragon wanted to seal something in the body of the black dragon. That's why he had such a stone gate." Li Tian touched his chin. Squinting his eyes and looking at the huge stone gate in front of him, there is no text on this stone gate, there are no clues, and it looks like an ordinary stone gate that can no longer be ordinary.

But no one knows that if this Shimen is really just so ordinary, it will appear in such a place.

"Be careful, we still don't know what is behind this stone gate, nor do we know what mystery is on this stone gate. If one is not careful, what mechanism may be triggered, I think the strong man back then I really don't want to let us know what's happening here, or let us find what it wants to seal up here. So many things will be placed here when there is hi."

"Then what should we do now, can't we just wait like this?" Ximen Yechou asked.

"Don't worry, there is still plenty of time left for us. We may not encounter any powerful opponents in the future. We only need to figure out whether there is any mechanism on the stone gate." Li Tian said with him. Ximen Yechou stepped back a few steps, and then slowly released a sword aura that directly hit the surface of Shimen, trying to see if it could trigger any mechanism.

Of course, he was disappointed in the end. The Shimen still remained motionless, and even a little dust did not appear. It seemed that his attack had no effect at all.

After seeing this scene, he touched his chin and said, "It seems that my calculations are a bit wrong. Is there really no trap on this stone gate?"

"Maybe, maybe there are other requirements for triggering this trap, but we still don't know what this requirement is." Ximen Yechou also said on the side, they still don't know what the mystery of this Shimen is. , Maybe they can easily trigger the Shimen's mechanism without their attention, but no one knows the result at that time.

Chapter 5985: Gift

The stone gate in front of me looks very historical, and it has a very strong historical atmosphere. Although they can't see any useful elements on it, it is certain that it must be the same as the black dragon skeleton. A long history.

"Even if we know that there must be other mysteries in this door, we can't really go in like this now, but it's definitely impossible to waste time here."

"Of course I know, but the emotions are too tense now, and we can only make a wrong decision for the two of us, and at this critical time, what is the consequence of a wrong decision? No one knows. Things." Li Tian smiled and shook his head, squinting at the Shimen in front of him, and countless thoughts also appeared in his heart. The Shimen in front of him did seem to be somewhat ordinary.

The release of his sword energy did not produce any practical effects. This place still seems to be very different from what they imagined. For a while, it is also difficult to change one's mind. .

After two people stood at the stone gate and watched for a long time, Li Tian took the lead.

Anyway, I couldn't find out where the organ of this place was. Instead of wasting time here, I might as well go up and gamble.

He has the skill of Void Leap. If he really encounters any problems here, he can easily escape from this position. Of course, if he encounters other troubles, then there is no The way things are.

Watching Li Tian slowly approaching in front of him, Ximen Yechou wanted to remind him, but then he thought of the man in front of him who is known to be a man who can perform miracles. He has done many things for so long. Until now, people couldn't easily believe that, the gap in strength is now clearly visible.

Li Tian slowly approached this stone gate. Now few people can understand what his emotions are like now. Although he didn't spend much effort near here, he could feel that his body started at this time. Becoming stiff, it seems that it is because of the tension that makes this kind of situation in his body.

But for him, this is a dispensable thing.

"I think there may be really no danger on the stone gate, but we take it for granted that there must be serious difficulties blocking us in such a place. In fact, there is nothing on the stone gate." When speaking, the others had already reached the front of the stone gate. At a distance of less than 20 centimeters, it can be sensed very clearly here. There is an indescribable aura on this stone door, like the feeling that ancient history is about to be opened.

Stepped forward and gave a slight push.

Shimen is heavy, and it looks like he should be heavier than Qianjin. He is still very confident in his own strength. In addition, he hasn't retained his strength very much at this time, so he is going all out.

But even in this way, Shimen just didn't move, and it seemed to have no effect at all.

Ximen Yechou breathed a sigh of relief after seeing that there was no danger in Shimen. Just now, the whole person's heart was lifted up. The most worried thing was that Li Tian died at the moment he did this.

"It seems that there should be some mechanism that can open this stone gate. My efforts have no effect. This place is still motionless, and I won't let me open it at all." He shrugged helplessly, and the smile on his face was also a little unaware. As a result, the stone gate seemed heavy, but it was not expected that it was really so difficult to open. I thought that there was no mechanism on it, and it should be able to break open easily.

Now it seems that I have taken it for granted, even if it is a mechanism that is not dangerous, there are still ways to make this stone door immobile.

"Let's look for it. I think the key point should still be on this stone gate. What is left here is only this stone gate. If they are really going to arrange some organs and the like here, they will definitely I

want to leave something on it." Ximen Yeshou stepped forward. Women are usually more careful, and it is easy to find some key things in some key places.

Just like now, she also wants to touch it now to see if there is any mechanism on the stone gate that she wants to find. As long as she can easily find the mechanism, the problem will naturally be solved.

At once, the two of them were like a dazed and ignorant child, lying on the stone gate, using all their various methods, but they just wanted to figure out what kind of things are on the stone gate. The organs can allow them to enter inside safely and unharmed.

I don't know if I'm lucky, or that this stone gate really didn't mean to stop them. After two people fumbled on it for a while, it really worked. A depression was found in the upper left corner of the stone gate. At the place where, lightly press it down, and you can feel that the entire Shimen begins to tremble. The two people don't know what the situation is, so it is the first time to step back.

As the sound grew louder, the stone gate in front of me slowly revealed what kind of scenery is behind it.

I only saw a lot of colorful gems appeared on the stone door in front of me. It turned out to be a treasure room with treasures in the sky, piled up like a hill.

Here, the jewels are all shining in your eyes.

When ordinary people see the scenery like this, they will definitely be unable to control their bodies. The only ones who rushed forward were Li Tian and Ximen Yechou. They became very calm at this time and still watched quietly. Focus on this scene.

They all know that this is a place built by the strong. These things are not really powerful things for the strong. How could there be such things after Shimen?

Although it seems more like a gift, they can't believe it in their hearts. Having had previous experiences can make them clearly realize that this place is far more complicated than they thought. Too much, a little carelessness is to step into the bottomless abyss.

Chapter 5986: Greed

"Why didn't you mean to go in at all to see what was going on? If it's someone else, you can't help it now." Ximen Yechou turned around and looked at Li Tian in front of him with the same face A face full of doubts.

Such a treasure mountain is full of various treasures, and everything you want can be found here.

No matter how calm the person is, a greedy look will appear in his eyes.

As long as you are a normal person, you will feel a little bit uncontrollable in such a scene and want to step forward and tell you all the things in it, but Ximen Yeshou has seen Li Tian before.

This guy's eyes have always been normal and very calm.

It's as if everything happened in front of them, and it seems that it has nothing to do with them, and people's moods don't follow other weirdness.

Ximen Yeshou himself knew that at the moment he did want to go forward and get these treasures, he didn't doubt it at all, but now Li Tian's eyes are clearly fundamental. Never thought of it.

"For me, even if these things are really treasures, they don't make much sense. I don't need treasures, and I am not interested in these things here. Therefore, even if the best things are in front of me, It doesn't necessarily make me feel very excited." Li Tian just smiled faintly. These treasures look very good, but they are not as good as Li Tian's eyes.

Now there are few things in the God Realm that can excite Li Tian in front of him.

He still has an ancient \*\*\*\* relic that he has not been able to explore clearly, because his strength is not strong enough, so this treasure has not been able to be opened early.

When one day, if he can find what he wants in the ruins of the ancient gods, then he can gain even more powerful power, but it will look more magnificent than the Baoshan in front of him.

"that's it?"

"That's it, not to mention that it is definitely impossible to be such a thing after this stone gate. If I am correct in my guess, once I rush forward in the first time and want to get something good from this treasure mountain, first There is a dead end in a moment, and there is absolutely no possibility of surviving. I have no doubt about this." He smiled faintly, and said vowedly.

The Baoshan Mountain in front of you does not seem to be dangerous. After all, you have passed the Shimen test, and then giving you such a gift is a reasonable thing for many people.

Therefore, most people have no way to see whether it is dangerous or safe when encountering such a situation, let alone control themselves.

As long as they can't control themselves to rush forward at this time, the result may be unimaginable. Perhaps it is reasonable to let them die in this way. After all, the secret behind Shimen is No one can tell things clearly.

"It seems that you can calm down and think about things at this time. I thought you would rush forward after seeing these things. I didn't expect you to be able to control yourself not to think about it." Simon Ye The corner of Shou's mouth rose slightly, looking at Li Tian in front of him, and said lightly.

"What's so hard to control? The big scenes I have seen have gone too much. What kind of places have not been seen before, do you really think I will be confused by the Baoshan in front of me?" Li Tian snorted. If the scenes in front of him were enough to surprise him, then he is not the Li Tian of the year.

"Let's wait and see here. If this is really a trap, it will take a long time to reveal his true colors. If this is really a treasure mountain, you can get some things you need, but I don't think there is anything you need among these things." Li Tian smiled, looked at the Baoshan in front of him and said, in their opinion, they already knew what was going on with this Baoshan.

This is likely to be an illusion, or a trap, as long as you accidentally move forward, it may be a dead end.

While the two of them were still in theory, the Baoshan in front of them suddenly began to become illusory. This feeling was like a phantom in the water. Suddenly the feeling of being dropped by a stone, slowly began. Disappeared.

What appeared before them were countless bones.

Looking at the scene before him, Li Tian said: "It seems we have guessed right. This Shimen is just a cover. The Baoshan behind the Shimen is the real killer move. After trying hard to open this Shimen, many people think All of his ideas are to get things on Baoshan in the first time, and the fate that this brings can be imagined. There is only a dead end."

"It's like this." Ximen Yeshou nodded, looking at the many bones in front of him, his heart did not tremble violently, so many people died in this place.

"Look, no matter what kind of strong you are, if your state of mind cannot find a suitable balance, no matter how strong you are, after all, you will still be unable to escape God's punishment. These people want to come. I just didn't believe that I would die someday, so I did it, but I didn't expect that the final result would become the way it is now. They all became a skeleton." Li Tian shook his head helplessly and sighed. Taking a breath, took a step forward slowly.

"Why did they die here?"

"What we saw before should be just an illusion. Once you get close to Baoshan, you will fall deeply into this illusion. No matter how powerful you are, there is no way to get out of this illusion. As a result Naturally it is a dead end." Li Tian looked at so many bones on the ground, and he almost thought of why it was like this.

They probably never thought that the treasure mountain behind this Shimen is not a treasure at all. The level of the treasure in this place must be greater than the so-called Baoshan.

Can control the dragon and wipe out so many powerful creatures, even the strong one who can kill even this ancient Black Dragon King, might store so many treasures here?

For people of his level, these treasures actually have no meaning at all.

Chapter 5987: Elixir

As they spoke, the ground shook again.

Of course, this time the two of them failed to recover, and everything was over.

The stone gate behind him closed.

Seeing that the stone gate in front of him was closed, Li Tian nodded: "The moment the stone gate is opened is the moment the illusion opens. People who can pass the illusion will even pass their test."

"Now we move on? It seems that there is only one way left."

"It's really like this. We only have one choice now." Li Tian said with a smile, and then squinted his eyes and walked forward. After passing the illusion test, they no longer need to worry about the dangers here. But even in this way, the whole person's current state of mind is still highly concentrated, and if something happens around him, he will find out in the first place.

The two people walked in this Black Dragon Mountain, and they didn't know how long it had passed. Finally, there was a place outside them in front of them.

A lot of stone chambers appeared on both sides of the aisle, some of them were places for rest, some were study rooms or even pharmacies, etc., which looked very different.

Li Tian's eyes really lit up when he saw these things in front of him.

"This kind of alchemy room and study room are the real valuable places we came to look for this time. A powerful person of this level must have countless herbs in his hands that we can't even imagine. As for the knowledge inside the study room, we simply can't imagine Arrived." Li Tian squinted his eyes and rushed to the study almost immediately. To his surprise, many books in the study disappeared.

"It seems that your plan has failed, so sad, so many things have disappeared like this." Ximen Yechou gloated while seeing the lost expression on Li Tian's face.

"How do you know that my plan has failed?" Li Tian squinted his eyes, glanced at Ximen Yechou in front of him, then snorted coldly, and said, "I did not expect that things would turn out to be It looks like this now."

"Hey, sadness is sadness. You don't need to feel unhappy." Ximen Ye said sadly: "It's just that there should be a lot of books in this library, but look at this place in front of us. The books seem to have disappeared like this, don't you think this is a very abnormal thing?"

"Maybe someone came here before. After all, although we saw a lot of bones there before, there are always some amazing guys who don't take these things to heart."

"It is indeed like this. If they pass the illusion, then the things they may like are all different from the guys we imagined. These books or pills are the most important thing for them." Ximen Ye Chou also nodded with deep approval and said, if he really passed the test of the illusion, then he really didn't care about the things on the Baoshan before.

The strength of such a person may exceed their imagination, so these books in the study may be useful. There may be many mysterious books, and there are many elixirs. This is a mysterious thing.

Li Tian squinted his eyes and shrugged helplessly: "Forget it, since we can't find anything here, we don't have to waste time. Let's see if there is anything we need in the alchemy room. Maybe we are lucky and we can find something that no one else has found."

Although they were saying this, the two of them didn't think this way in their hearts. Now it seems that someone must have walked in front of them.

Of course, these people may have come here long ago.

Then they took away these exercise books and elixir elixir here. As for where they went afterwards, this is not known, but for the two people in front of them, their hearts are still extremely heavy.

If you really experienced many difficulties and didn't get any benefits in the end, then they would really be the two most unfortunate people in the world.

Squinting at Li Tian in front of him, Ximen Yechou said, "Are you really sure? How do I feel that those guys seem to be impossible to leave us with anything, and there is a way to the front. Road, maybe there is a bigger treasure ahead."

When Li Tian and Ximen Yechou came to the alchemy room, both of them were stunned.

They thought that everything here was taken away.

But I didn't expect that there were still a lot of pills in the alchemy room.

"Why? They took these books, but they didn't take these panacea. Isn't this kind of thing more precious?"

Li Tian also couldn't figure it out. He stood there thinking for a while, and then laughed: "Two possibilities. First, they don't have enough storage space. The books in the study must have exceeded their imagination. Once those books are gone, there will be no way to take these pills."

"How much space do you have?"

Li Tian wanted to say that if he wanted, even a world could still be freed up, but thinking about it, it seemed a bit unreliable, so he didn't say it, just smiled faintly: "We There shouldn't be a lot of space, and it's better not to take so many things away. There must be a lot of places ahead, and the most useful things for us may still be ahead."

The two of them began to look for the pill they wanted in the vast pill gourd, but the pill outside seemed to be very ordinary. Although they haven't been broken for so many years, they The effect is not very good, even if you get these pills, it is also meaningless.

"I didn't expect that this kind of thing would be obtained in such a place." Ximen Yechou took out a bottle of pill, and saw that the contents of the bottle were not very good, so he casually threw it over.

At this moment, the bottle suddenly fell to the ground.

‘Click’

The sound of the organ suddenly rang like this, and then both of them were taken aback, and looked at each other. They didn't know where the sound of the organ came from, and suddenly it appeared.

Chapter 5988: Secret box

As the voice of the organ rang, both of them were stunned for a moment, and there was a slight surprise in their eyes, and they didn't expect that they would even open such an organ by accident.

At this moment, their eyes all fell on the floor, which was slowly opening.

When the floor was completely opened, a stone box appeared in front of them.

This stone box is covered with dust. It looks like it hasn't been seen again in many years, but it is decorated with many patterns. It is conceivable that this should be an extremely precious thing. It has not been seen by others for so many years. Finding it should still be intact, which is of great significance to them.

"Such a stone box has not been damaged here for so many years. It can be seen that this should be a very precious package, so it can be guaranteed that this stone box has not been destroyed for so many years." Looking in front of them Ximen Yeshou said with squinting eyes, and then slowly squatted down, preparing to open the stone box like this.

"Wait first, although this is a stone box triggered by a mechanism, there should be no danger, but in this place we are now really anything can happen, and an accident may give us It will bring a lot of trouble, be careful." Li Tian saw her in such a hurry and said hurriedly, then slowly squatted down, watching and checking carefully.

"It doesn't look like there is any danger. If there is any danger on the stone box, we would have died long ago."

Ximen Yeshou disagreed, and slowly stretched out his hand to open the stone box.

The moment the stone box opened, they felt an oncoming scent. These scents floated over, and the mental state of the two people concentrated a lot in an instant, and it felt like they were awakened by something.

"What is this?" Ximen Yechou looked at the contents inside, lost in thought.

In this stone box, what they found was not a panacea, but a strange-looking black jade, from which the fragrance wafted.

"Although I don't know what it is, I can see that it should be a very meaningful thing." Li Tian slowly picked up the jade and said with a smile: "Since it is deeply hidden in Such a place means that the meaning of this piece of jade to us must be extraordinary, otherwise it will not be hidden like this. I think that the total of these medicines in this room may not necessarily have this value."

"This kind of thing is not necessarily true. Maybe we don't even know the value of this jade and can't say it." Ximen Ye gave a faint smile, it seemed that he didn't take the value of this jade much.

Li Tian didn't say anything, just put the jade away.

There was only such a stone in such a big stone box. It did make them feel a little surprised, but it was normal after this accident.

The things that are generally cherished a little more, in fact, many people are ignorant.

But since this strong man here can slaughter the existence of the level of the Black Dragon King, his combat power must be quite terrifying, and it is reasonable to accomplish something.

Being able to hide this kind of thing here only shows that the value of this thing must have not been found by them.

The two of them moved on with the black jade in their hands, but it didn't take long for them to hear a strange sound from behind them.

"Two friends, I thought I would never see anyone else here."

Li Tian and Ximen Yechou both stopped at the first time, and Li Tian went directly into a state of hostility outbreak. The Red Zhan in his hand even let out a soft moan, watching at any time. It is possible to challenge the two strangers in front of you.

Ximen Yechou also frowned, carefully watching the two people following them.

One of these two men is wearing a black robe, the other is wearing a white robe. It is the man in black and white who followed before, but the two of them really seem to know this place well, and they chased so quickly. Coming up.

Although Li Tian and Ximen Yeshou were nervous now, they didn't mean to fight with these two people in a hurry.

"You two don't seem to know us, right?"

"You don't know me, but I do know you. This one should be a famous young genius in the God Realm before. Your heroic deeds have been circulating in our ears for a long time. I heard that you were here some time ago. The Tianhu City activities seem to be resurrected from the dead. I thought it was just a rumor, but now it doesn't look like this." The man in black squinted at Li Tian in front of him and asked with a smile.

"It doesn't matter if I live or fake, it doesn't seem to have anything to do with you. Even if I am Li Tian, what are you going to do to kill me?" He stared at the two people in front of him, his tone of voice All of them are threatening, and they seem to be moving.

"Of course not, it's just that since we have met here now, we must help each other. You definitely can't get through here alone. Here I can tell you clearly that there will be a lot of things that follow. Every place needs someone who knows what's going on here to get there. You made a mistake in the first few roads, but you can't do it in the back." The white-clothed person said with a smile.

"In that case, the two of you are here also looking for our help, do I have reason to think that you also cannot get through here on your own, so I want to leave here with us, If you think this way, it doesn't seem to be a problem, right?" Li Tian squinted at the two people in front of him and asked with a smile.

"Indeed, the two of us really have no way to successfully pass here by our own strength, but seeing that you have all come to where you are now, we don't want to watch you die like this, so we came up and wanted to follow You cooperate, there is no problem with this explanation, right?" The white-clothed man looked at Li Tian and Ximen Yeshou in front of him with a smile. These two young people didn't look like young people who could pass through this kind of place. Trap, didn't you kill them?

#### Chapter 5989: Accompany

"I'm sorry, you two can't get through here, it doesn't mean that we two can't leave here, just relying on the words you two said here, I believe your words, it's a bit too hasty." Li Tian With a cold snort, a murderous intent flashed in his eyes: "You want to use our strength to get out of here, but we may not necessarily cooperate with you."

"Speaking of this, the two of you are really not ready to cooperate with us. Are you ready to leave here on your own strength?"

"There is also nothing that cannot be done. For me, I can leave here without relying on other people's help. What's more, you say it nicely, but no one knows what your purpose is. If I just want to drag the two of us into the water once, how can I judge?" Li Tian sneered. The black-clothed person and the white-clothed person didn't look like good people.

Their faces are all unclear, and even the sound and shadow sound very hoarse.

And it seems that the black and white colors on this guy feel very strange, just like black and white impermanence, he will naturally regard these two people as his own enemies in his heart, and Li Tian also has the same mentality now. , If it wasn't for the fact that it was really inappropriate to fight in his current position, he might have to fight these two men now.

"Well, if you are really going to leave like this, we have nothing to say. We didn't have any bad intentions, just because we know this place is dangerous, and the next many links may be even more dangerous, although some key places before. You all came here safe and sound, but there is one thing I want to tell you. The one just now is just the beginning." The white-clothed man snorted coldly, as if he was also annoyed by Li Tian's words. Said.

The people in white sounded like they became angry because of their previous attitude, and they could do it at any time.

The man in black patted him on the shoulder and said, "Don't be so anxious. These two people don't know where they are now. It's reasonable to have such emotions. If they know where they are now Locally, there won't be so many things."

"Speaking of it, it seems that you know exactly what this place is." Ximen Yechou asked with a sneer.

"Of course I know what this place is. The Devil Dragon Skeleton Cavern is known as the final destination of a group of many Devil Dragons. The original Devil Dragon King was destroyed by the Heavenly Sage here. Rumors have been passed down here for many days. The treasure of the holy, this is why we are here. This time the treasure of the holy holy is opened, I don't know how many people want to get the treasure here." The man in black proudly said that they are indeed Have done some homework.

Li Tian was also taken aback for a moment. At this time in his mind, he was still thinking about what kind of character this rumored Tiansheng was and why he was respected by so many people.

Moreover, the Black Dragon King seemed to be really terrifying in combat power, and he could be wiped out so easily by the Heavenly Sage. He was also a powerful character if he wanted to.

"Tiansheng, this is a person who is as powerful as a true \*\*\*\*\* in the rumors. We have only heard a lot of rumors about him before, but they are all from the ancient times. Could it be that the existence of this rumors is really true? Appeared in the God Realm?" Ximen Yeshou was stunned. If this place was built by Heavenly Sage, then they would not be so surprised by what they saw now.

After all, this is a rumored powerhouse, and his strength is so high that I don't know how to describe it. Is it normal for such a powerhouse to do different things?

Let alone a Demon Dragon King, even if the God Realm is destroyed, it may be a matter of raising his hand.

"That's just the rumors of others. Although Tiansheng is powerful, it is far from the realm of gods. The power of gods is not what we immortals can imagine. The rumors seem to have reached the realm of gods. There is an immortal existence between heaven and earth." The voice of the remnant soul of the ancient \*\*\*\*\* rang in Li Tian's mind, and it sounded like he was very dissatisfied with this heavenly sage.

"Senior, since this Heavenly Sage appeared in ancient times, you must be very clear about this person, right?"

"But it's just a genius, but it's just that. If this sage is really so powerful, then it will be something after me. I know very little about this person, but if he really arrives I definitely don't want to believe the words of God's domain. Among the many people at the time, maybe others could do it, but this kid definitely couldn't do it." The ancient god's remnant soul said slowly. The unremitting, it feels like there is something contradictory with this heavenly saint.

Li Tian couldn't help but want to laugh after hearing this.

"Forget it, since they know what's going on here, it's better for us to stay with them for the time being. If there is any danger, we can help each other, so that we are more likely to go further. What do you think?" Ximen Yeshou came to Li Tian's side and saw that this guy's face was very calm, as if he didn't realize how dangerous the two men around him were.

Seeing the expression on his face, Li Tian smiled helplessly and said: "In my opinion, these two people are not simple at all. If we cooperate with them, it is not certain what will happen afterwards. When it's in danger, what should we do? Who should be hired to make sense."

"Forget it, since the two don't want to go with companions, we can just separate like this. There is just a fork in the road ahead, we can separate..."

"Who said that we don't want to go with you? My purpose of saying this is just to ask, what if you have a little bit of unruly heart toward us?" Li Tian heard a fork in the road ahead, There was an uneasy expression on his face immediately. Since it was a fork in the road, the two of them should know how to get there.

"If we are a little bit unruly towards you, you can deal with both of us whatever you want."

Chapter 5990: For no reason

Looking at the expressions of the two people in front of them, it really didn't look like they were joking, but even in this way, I still couldn't let go of the matter in my heart.

If you are not careful, the two of them may be sold as fools.

If it wasn't because there was something really helpless in front of him, he wouldn't choose to cooperate with the two people in front of him like this. They don't look like good people. If they really go to the back, what will happen. .

Of course, what is in front of them is a fork in the road, and these two people may really have a little effect.

Driven by interests, Li Tian reluctantly agreed to their request, but he didn't expect that the purpose of these two people teaming up with them was to use them both, and both of them had this purpose. It looks very simple.

On the next journey, everyone had a ghost in their hearts, but they didn't want the other person to see it, they all moved forward cautiously.

Li Tian and Ximen Yechou walked side by side in front of them, but their spiritual thoughts have always been in control of the actions of the two behind them, and the white-clothed person and the black-clothed person are still unpredictable. What means is there in young people that they haven't figured out yet, and it's not too late for them to start after all this is figured out.

Although their strength is not weak, but at this time they dare not easily do it. Isn't it because of Li Tian in front of him?

This kid has created a lot of miracles in many places before. Everyone knows that the most worrying thing about this young man is the unknown now. You never know that this young man will take it out in the next second. What kind of means, so if you can't figure out this young man's fighting style, don't choose to fight this young man anyway.

This is something that many people in the entire God Realm know now, and it is also a principle that they have always followed.

Offending such a young man is really a bad choice.

Soon, they came to this so-called fork in the road. When standing at this fork in the road, Li Tian's brows also frowned: "You said before, do you know how to get this fork in the road?"

"This must be impossible. Although we know a little bit about this Devil Dragon Skeleton Cavern, it is after all a place created by a strong man. The places we can guess are also quite limited. You can never take your own Hope it all rests on us, we still need both of us to use our brains, so that we can better pass here." He looked at Li Tian in front of him, and said with a smile.

Li Tian also squinted at the two people in front of him: "Since you have said this before, I believe you must be a little sure about this path. You go ahead and we follow behind you. If we really encounter any danger, we will face it together as individuals. We have always been in front of you before. If we trust you, it is time for you to trust us."

It was only now that Ximen Yeshou understood why this guy kept asking himself to follow her and lead the way.

It turned out that the puzzle was thrown here. Now they are embarrassed. They are all talking about it. If these two people are not willing to go ahead, then they must be here. At war.

This place is very wide and is a more suitable place for fighting in Li Tian's ideals.

'Damn it, I thought it would be easy to deal with this young man, but I didn't expect it to become like this in the end. It is exactly the same as their rumor, you never know what this young man's mind is. what. ;' Looking at this resolute Li Tian in front of him, the people in black and white knew what would happen if they refused here.

I still don't know what the young man's methods are. The best way is to do nothing.

But they don't know what will happen after they pass this fork in the road. After all, this is the space created by the Heavenly Sage, and this Heavenly Sage was a powerful and powerful person long ago, and his reputation is very high. There must be a lot of dangers that they don't know about in this place. If you just proceed like this, you should not only consider what kind of danger you will encounter in the next second.

It is also necessary to consider whether the two young people in front of them will do anything when they act.

"Why, don't you two want to do this now? I have entrusted all of our trust to you. I think you should also realize how much confidence we need to make such a decision. What we can do, the two of you should also be able to do it easily. Of course, if you don't want to, then it doesn't matter. We will decide a winner here and choose a way to leave. When the time comes, life and death are all our own business, how about it?" Li Tian began to put on his signature smile again, which looked harmless to humans and animals, but no one knew that behind this smile was a murderer. The winking demon.

What this young man did before is still a terrifying thing for them now.

They killed an immortal when he was in the realm of gods, and now he has reached the realm of \*\*\*\* cultivation, and they don't know the specific level of \*\*\*\* cultivation. They look at Li Tian in front of them as if they were looking at a mystery. There is no way to find the slightest clue in this young man. If it is just like this, it is indeed a very rational thing for them to choose to cooperate with this young man now.

Both the man in black and the man in white smiled bitterly. They thought that Li Tian and Ximen Yeshou's actions were just for no reason, subconsciously.

But now I found out that the young man had started to set them on from the beginning. It is ridiculous that the two of them were still looking for the weakness of the young man. The young man had already begun to deal with them.

It's no wonder that such a smart guy can make so many people be careful with him.

"It seems that this one seems to be online, we are already a bit inferior."
