

## A Killer 6011

Chapter 6011: Dark hand

‘Boom boom boom’

The sound of continuous explosions soon sounded. This burning flame did indeed illuminate a part of the world in front of him, but it also caused a small explosion here.

The miasma continued. After encountering this small ball of fire, he immediately burst out a very decisive reaction, as if he wanted to swallow the whole world, but when he was close to Li Tian, he was controlled by a barrier.

Ximen Yeshou exhaled a long breath, and asked reproachfully, "What are you doing? If you are not careful, the two of us might all die here. Are you crazy? How can you do things like this in a place like this? ."

"What we need to determine now is whether we are safe, and at the same time, I also want to have a clear understanding of what the \*\*\*\*\* of the heavens in front of me is like. This is a more important thing for me, as for the others. "Li Tian shook his head, knowing oneself and the other can win all battles. Their understanding of Li Tian's enemies in this \*\*\*\*\* is still limited to their own fantasy.

But these enemies in front of them are definitely not that simple, especially in such a rumored place, where the strength of the guardian should be even more terrifying.

After the miasma in front of them disappeared completely, they could see what kind of world it was. In this dim world, the only thing they could see was a dilapidated building around, which seemed to have many years of history. same.

"This place seems to have had local residents once, but I don't know what happened later that it became like this." The corners of his mouth rose slightly, looking at the sight of this place in front of him, Li Tian said faintly. Said: "We just move forward slowly. If there is any danger, don't worry, hide it for the first time."

---

Magic Palace:

The devil looked at the following panicked generals with an angry look, and then scolded: "Look at what you are like now, all of them are like bereaved dogs. Is it so difficult for you to complete my task?"

"Lord, there is nothing we can do about it. Princess Princess has been by your side over the years and has learned a lot of the secrets of our demons. It is hard to predict where we are now, leaving no clue at all. , But the only possibility is to go to the Demon Dragon Skeleton Cave. The opening of the secret realm this time has caused many parts of the Northern Cold Land to be integrated. The Devil Dragon Skeleton Cave is the only entrance through which our demons can pass." The leading general still lowered his head, looking like he was lying on the ground.

It can be imagined that they are really quite afraid of the demon in front of them.

This is also a very normal thing. The Demon Lord killed many people who didn't know because of his anger. Now if they really made the Demon Lord in front of him angry, the result would be unimaginable.

"Is this your excuse? Although this girl has indeed learned a lot of secrets from me, she is just an immature child after all. You are all battle-tested generals, looking for Such a little girl shouldn't take much effort, right?" The devil stood up, and finally a touch of impatience appeared on that majestic face: "The plan I originally prepared seems to have changed because of this."

"What does the devil mean?"

"Send people over immediately, but all humans who enter the Devil Dragon Skeleton Cave will be killed without mercy, and no one will stay." There was a fierce light in his eyes, and he sneered, and said: "Don't look at what he is like These human beings have really become bolder over the years, and even dared to run to our chassis to grab things. It's time to let them know that we are great."

"Yes, I will make arrangements!" The general slowly stood up, looked serious, turned and left here quickly.

After these people left, a man hidden in the black air appeared beside him: "His Royal Highness is afraid that she has entered the Devil Dragon Skeleton Cave and competed with them for the Devil Dragon King's eyeballs. This is very dangerous!"

"Do you think so?"

"Humans are extremely dangerous. They can do a lot of things for their own benefit. These are things that our demons disdain to do, but they never get tired of them. Her Royal Highness is not yet mature. I am afraid that she is too innocent. These cunning human deceptions, what will happen then, we too will..."

"You mean, are you going to do it yourself?" When he heard this, an unexpected color flashed in the eyes of the demon king, carefully looking at the black air in front of him, and said: "I don't know how many years it is. I've never seen you take the initiative before, now you're ready to do it yourself?",

"This matter is not worth underestimating. The previous plan of the Lord is indeed very perfect. If they act according to our plan, they will definitely be wiped out by us in the end, and the magic dragon's eyeballs will eventually fall on us. In the hands, but the situation in front of me, I'm afraid you can't continue to act according to the plan." The black man's voice sounded helpless.

For a long time, these immortals who entered the northern cold land naively thought that the demons hadn't noticed them at all, so they had always focused their attention on how to transfer this treasure.

But what they didn't know was that the demons had noticed them a long time ago, and they were all well prepared, how to eliminate them.

If it hadn't been this time that the demon princess had done such a thing, they might have become more relaxed, and it would be easier to eliminate these immortals who entered their range.

This time, not only the immortals with various influences, but also many scattered immortals with no background.

But their purpose of coming here is just to try their luck.

At this moment, things have evolved to the point where they are now, and they can't really change the situation they are now. They can only try their best to find a way to make up for the loopholes they planned to make.

Ximen Yechou and Li Tian on the other side didn't even know at this time that they were in danger, and they might face the danger of death at any time.

However, this is also normal.

In such an environment, they have long been numb to death.

Chapter 6012: Tian Ming Jiang

Two people, Li Tian and Ximen Yechou, were slowly advancing in this hell. After a while, they probably had to try for a long time. They originally thought they might encounter some danger after entering the Heavenly Hell.

So along the way, both of them were very cautious and did not dare to relax.

I'm afraid that because I am not careful, it will start to become difficult to deal with.

Who knows, they didn't encounter anything along the way, but the bleakness here is exactly the same as they imagined. All you can see here are ruined buildings. I don't know how many years have passed. , Can only see that under the ravages of wind and sand, this building began to become more dilapidated, and the whole \*\*\*\* was exuding a desolate feeling.

"We have been walking for so long, and we haven't seen any living creatures here. This is not normal, right?" Ximen Yechou asked suspiciously. The situation before them was still very strange to them. .

This place seems to be a very dangerous place, and there should be a lot of powerful guards, but here they see nothing but these meaningless buildings.

"How do I know why this place is so abnormal? Just don't let your guard down. Who knows what we don't know will appear in the next second? This place looks abnormal, plus the miasma around it. Influence, if there is an enemy, I'm afraid we won't be able to react to it in the first time. If this happens, it's easy to get hurt, and don't be naive to think that we need to face the enemy here. These guards in this hell."

Li Tian explained lightly, on the surface it seemed that their current situation seemed very safe.

But such a place where there is nothing is the most dangerous for them. Generally speaking, this kind of place is most likely to be where some strong people are.

Their territorial awareness is very strong, so they will not offend each other.

In this case, they can only think like this on their own.

When the two people were thinking like this, the ground suddenly shook. The surrounding buildings were shaking. Some of the rocks that had already started to loose began to slowly fall, and soon a lot of surroundings appeared. The gray dust, coupled with the green miasma, made the look even stranger here.

"You mortals, dare to come here, do you not want to live?" At this time, a huge figure slowly crawled out of the ground, like a giant sleeping in a lake. Shizheng climbed up from the shore little by little, with a fierce light flashing in his eyes, looking at the two people in front of him. In front of this huge figure, the two people in front of him were like a tiny ant.

Murderous intent appeared in his gleaming green eyes.

"This should be the guard of this place, or is it still the dead soul of the god?"

"Whatever it is, the two of you now have only one choice, leave here, or die here. This is not a place where you mortals can come." The green miasma slowly disappeared, seeming to be dispelled by the powerful aura. In the same way, this huge figure slowly leaned down, and the huge palm of his hand was photographed, to completely pat the two ants in front of him to death.

A violent wind roared in, like a storm fanned by a fan, and even the bodies of the two of them began to shake.

Li Tian held the sword tightly in his hand, squinted at the huge palm that fell on his head, and chuckled: "I'm afraid we can't agree to your request today. We are in this place. You let us It's a bit impossible for two people to leave here!"

"boom!"

The explosion sounded, and a wave of air dissipated everything around him. Li Tian's body slowly sank a little bit, his feet were tightly wrapped in soft mud.

He just didn't focus his attention on this for just a few seconds, and he saw a lot of dead palms suddenly appeared on the ground, grabbing his ankle tightly and trying to get him Pull it down slowly, just like a ghost in hell, pulling all your enemies into the \*\*\*\* you are in.

"Nice young man, if you just look at it from a mortal mind, your strength is already pretty good, but it's a pity that you can't move on here." Tian Ming will slowly raise his right hand. , Staring at Li Tian below, perhaps because he hadn't seen humans for a long time, and he was not particularly anxious to make a move.

At this time, he whispered: "But your mortal physique is still strange. It should be a human being, but you have the unique aura of the demon on your body. Could it be..."

"These have nothing to do with you. Even if I am a mortal, I may not be unable to deal with opponents of your level." Li Tian sneered, and squinted at the huge demon general in front of him. Wearing a dark-green armor, it looks like a thousand catties, covering this huge body with extraordinary aura.

Under the mask, there were two pairs of green eyes, flashing cold light at this time, looking at Li Tian in front of him.

Ximen Yeshou has been naturally ignored by this demon general, and only Li Tian in front of him is born in his eyes. For him, this human woman is nothing special, but this man. It seemed that there were still many secrets, which made him very curious and wanted to figure out what the secret of this man was and how he came to this place.

"Hey, hey, don't ignore me, okay, you guys look at me anyway."

"Human woman, shut your mouth. If it wasn't for the man in front of you that there is something I really want to learn about, now I might just destroy you directly." Tian Ming snorted disdainfully. , Squinted at Li Tian below: "Come on, tell me what secrets you have, haven't you said it?"

"What if I don't say it?"

"If you don't say it, I naturally have a way for you to say it, right?"

Chapter 6013: Withered soul

"This Tian Ming will not look as powerful as we thought. After so many years of precipitation, the soul power in his body is no longer as terrible as it was at the beginning." The voice of the remnant soul of the ancient \*\*\*\* was in Li Tian's mind. It rang out, it seemed to see through.

"Even if the soul is withered, I am afraid that we are not their opponents." Li Tian laughed awkwardly. The so-called soul withered is the Tian Ming general in front of him. After so many years of precipitation, his body The power inside is no longer as terrifying as it was at the beginning. In this way, his original combat effectiveness may have long ceased to exist.

Now the remaining combat power is likely to be only a small part.

But looking at the situation in front of them, it looks completely different from what they imagined.

At this time, Li Tian's feet were still being pulled down by the palms of these evil spirits, but Li Tian's body remained motionless, just like a mountain lying here, no matter how powerful you are, no matter how you do it. , Can't shake him.

Tian Ming will smile: "Aren't you ready to tell me? The palms of these evil ghosts will let you enter the real hell. When you enter this hell, it is not that simple to get out of it alive. Up."

"Come on, come and kill me if there is a kind of thing, or let me see how good you are, you will say this here to embarrass me." sneered, squinted at the Tian Ming general in front of him , The sword in his hand was raised high, although I didn't feel anything in the fight just now, but if they really said the same as the remnant soul of the ancient gods, their soul power here would only become less and less. It will make their current combat effectiveness weaker and weaker.

After all, no one can survive so many years without the slightest change.

"Mortal, I am willing to talk to you like this now just because I see that you, a mortal, have a lot of things that I don't understand. If you continue to go against my meaning like this, then I'll be embarrassed and I can only choose to kill It's up to you." At this time, Tian Mingjiang's tone was already a little impatient, he snorted, and a huge heavy sword appeared in his hand.

'boom'

The moment this giant sword fell, the entire ground began to tremble, and cracks slowly appeared.

Ximen Yechou looked at the huge epee in front of him, and said, "Li Tian, this guy is really not something we can deal with. What kind of opponent is this?"

"General Tian Ming, since he can be the guardian of this place, his fighting power is naturally terrifying." Li Tian shrugged, but the sword in his hand has never been released: "But if we think that we don't have If you can defeat the enemy in front of you, naturally you won't have the slightest chance of winning." He sneered, then stomped his feet, and the clones slowly appeared behind him.

"Very well, it seems that you really want to challenge my authority, so let me try your skills." Tian Ming snorted and grabbed the hilt of his huge epee with both hands. The force of smashing Huashan Mountain, and then smashed down fiercely. The speed is getting faster and faster, and the electric light can be seen faintly. It is obviously the sword body rubbing out of this epee.

Seeing that the situation before him was getting more and more dangerous, Ximen Yechou could only rush forward.

But before he moved, he saw a clone of Li Tian appearing beside Ximen Yechou, and stopped him: "He needs a wonderful battle to make himself stronger. Just leave the battle to him alone, no one needs to be involved in this matter."

"How could he be such an opponent of such a behemoth alone? You can see it too. The sword in this guy's hand is enough..."

"I know that these miasma must be problematic. I thought that these miasma are poisonous, but I didn't expect it to make your brain start to think calmly. I told you before. Since this kind of place can exist. For a long time, no one left here alive, it must have a means we can't imagine." Li Tian stretched out his hand and patted her shoulder.

Although it is only a clone, the energy on this clone should not be underestimated. Simon Yechou in front of him slowly calmed down and looked at the huge giant in front of him in surprise.

"This... what's going on?"

"What else is going on, you just inhaled so many miasma, these miasma began to make your brain not be able to think normally, artificially your enemies are very powerful, naturally there will be a kind of panic Emotion, this kind of emotion will make you unable to fight normally, and it is reasonable to lose to anyone." Looking at the surprised expression on Ximen Yechou's face, Li Tian's clone explained.

At this time, a very fierce battle had begun on the front battlefield, and his clones kept appearing, one by one, rushing toward the Tian Ming general in front of him.

However, these clones seem to be just a feeling of replenishment. Before the body was able to get close to Tian Ming, the aura around him was quickly wiped out by Tian Ming, and it could only be turned into a little energy, and then disappeared in this way. Between heaven and earth.

"Hmph, do you expect to rely on these ant-like things to deal with me? It's just a joke, such creatures have no meaning to us." At this time, the sword in the hands of Tian Ming has been smashed to the ground, countless evil Ghosts slowly crawled out from the ground, they are like zombies, they can only have a very instinctive goal, which is to eat Li Tian in front of them.

"It's ridiculous." Li Tian sneered: "After so many years of long history, you have already weakened your soul power. When your soul power disappears completely, that is, you people disappear here. It's time in the world, no matter how powerful a strong person is, there is no way to resist this erosion of time, right?"

"All things in Tianming and Hell are top secret, how can you know?" A look of doubt flashed across Tianming's face, and he looked at Li Tian in front of him for a moment, wondering why this guy knew so much. thing.

"Hehe, why can't we know about the heaven and the hell?"

## Chapter 6014: Little princess

Tian Ming snorted angrily, and Li Tian revealed his weakness, and began to make his heart more angry.

Watching Ximen Yeshou and Li Tian in front of them, they began to slowly stabilize their emotions. They wanted to rely on the two people to kill them before they calmed down, but they didn't expect that the final result would be. It looks like this.

When speaking, the sword in Li Tian's hand had appeared on the shoulder of Tian Mingjiang!

Void leap!

A long-lost move was launched at this time, and it instantly showed terrifying combat power. A sword fell on the shoulder of the Heavenly Pluto. Even this kind of armored shoulders could not withstand such pressure.

All the armor on the shoulders was turned into pieces.

A trace of bright red blood spurted out like this, and the expression in Tian Mingjiang's eyes was full of unbelievable expressions. He did not expect that the human being in front of him could show such terrible combat power, and what it was like just now. He didn't feel anything about his tricks, and he just appeared on his shoulder like this.

"I'm very curious, obviously I didn't feel anything, but at this moment it turned the situation into what it is now." Li Tian smiled and looked at the Tian Ming general in front of him. The surroundings were like corpse tides. The same evil spirits, in his view, have no threatening power at all, and the charms behind them are constantly thrown out, just as if they don't need money.

After Tian Ming saw these spells, it seemed to have understood something: "It turned out to be an ancient spell master's spell. It seems that you, a young man, are really buried in many secrets that we don't know. You can use all the tricks of the spellmaster. It must be in terms of combat effectiveness. You are all much stronger than we thought."

"So, after I know that your power is constantly weakening over time, I already know what's going on." Li Tian was full of confidence at this time, and after hearing that this is hell, he knew Given the horror of this place, there is indeed some tension in my heart. If I am not the opponent of this guy in front of me, there is indeed only a dead end.

In addition, when Tian Ming will appear here, it is a natural feeling of being above and above it, but it makes Li Tian and Ximen Yeshou really think that this is a guy who surpasses their strength by a lot.

They didn't realize until now that things are not like this at all.

After losing his own power, the Heavenly Pluto in front of him can only rely on his own soul power to deal with the two enemies in front of him. As for whether he can overcome it, it depends on whether he can still be able to overcome it over time. How much soul power is left.

It can also be seen from this that the so-called powerhouses at the level of the gods are actually Fengmao water chestnuts, especially at this point, the number of people who have been killed is even rarer. Here in Noda's In Heaven and Hell, there are not many masters of this level.

Ximen Yeshou naturally couldn't show the full power of the funds in this battle, because when facing the man in front of him, his strength did not show the slightest threat.

She doesn't have soul power, but the Tian Ming general in front of her is a guy who relies on soul power to fight, and she is naturally helpless against such an enemy.

But Li Tian is different. This guy has this magical forging technique, plus the time he has practiced in the free space for so long before, he has truly integrated all his strengths. For such an enemy in front of him, there was no even the slightest worry, and the shots were extremely decisive. For a while, the two people actually fought a match.

It can also be seen from this that this so-called Tian Ming general is really powerful. He has no idea how many years he has been here, but he can still maintain such a fighting power. This alone can prove that this Tian Ming general When he was alive, he must be a strong opponent who didn't know what words to describe.

"Human, you hurt me. For so many years, no one has dared to be so arrogant in front of me. You dare to do such a thing to me. I think you, a human being, are simply seeking their own death." When Li Tian hit the Tian Ming general in front of him, his mood completely changed at this moment. If he only wanted to abuse Li Tian before, then he really wants to kill Li Tian in front of him. .

The huge sword in his hand was raised high, and then fell fiercely.

All this came very quickly, almost completed in an instant.

And Li Tian was also taken aback for a while, ready to use his own red behead to resist.

But at this moment, a black figure suddenly flew over and pushed Li Tian aside: "You are crazy, this Tian Ming general has already entered a state of rampage, how could you possibly be Is his opponent?"

Li Tian looked intently. He didn't know when a very beautiful little girl appeared in front of him, with a creamy skin, wearing a black veil-like long dress, small cherry mouth, and willow leaf eyebrows. The look of people's heart is just a little curious in the eyes at this time.

"you are....."

"It doesn't matter who I am. The important thing is that we need to cooperate now to leave this place. The Tian Ming general has already entered a state of rampage. In this state, he consumes more soul power, but Your own strength will also be improved, which is a means of sacrificing your life to fight." The little princess said with a smile.

She did enter this place directly by relying on the Devil Dragon Skeleton Cavern, but she didn't expect that it would be such a place after this. Time and space were chaotic, so that many places were not what they had realized before.

For example, this place in front of them had never been to before.

But since they can see it before their eyes, it is certain that a lot of things that they can't imagine must have happened in the meantime.

When she came here, she happened to see Li Tian preparing to be a car, knowing that she would definitely not be able to deal with these enemies in Heaven and Hell alone, so the little princess had to help. This time, it can be regarded as saving Li Tian's life.

Sure enough, after seeing the little princess again, Tian Ming in front of him was stunned for a moment. The movements in his hands unexpectedly stopped, and then he took a step back.

Chapter 6015: Shin Luo Yin

Tian Ming's huge body, after he exploded, became even more uncontrollable at this time, covering the sky and the sun, just like the most terrifying giant in the world.

Squinting at the huge figure in front of him, Li Tian turned to ask: "How sure are you? Now the combat power of this demon general has already exceeded our imagination. I want to know that we What should I do with this kind of cultivation?"

"Hehe, I just saw that you are not afraid of death. Why do you seem to be a different person when I appear here? Are you still worried that I know the details of your heart?" Looking at Li Tian, who was a little nervous in front of him, Xiao A weird smile appeared on the princess's face. The man used to be fearless and fearless, but in a blink of an eye he changed to what he is now.

It's just that he doesn't want to really put too much effort on this matter, he still knows what the situation is.

Although it was indeed the little princess who appeared to help Li Tian and let him survive.

But just as the little princess said before, the two of them must now cooperate with each other so that they can continue to survive.

Now Li Tian doesn't know the details of the little princess in front of him, so he has not been prepared to show all the power of loving him. If he exposes himself rashly, I am afraid that the result will not be very good.

"The reason why I can come here so quickly is because the news of the idiot who died in the hands of the two of you has reached my ears. Although I don't know much about you, a new genius among human beings, Since they all commented on you like this, I think your combat effectiveness should not be very weak." The little princess pointedly said.

And at this time, the huge Tian Ming general in front of them could no longer bear the situation in front of them, and the huge palms shot directly towards Li Tian in front of them.

With a smile, he slowly raised the Hong Zhan in his hand, but before he did it, he saw a crimson light suddenly burst out.

This ray of light is like piercing a sky monkey. It reaches the sky almost in the blink of an eye, and then a group of red light is released instantly, and the surrounding green miasma begins to dissipate slowly, revealing that they are all A clean world that has never been seen before.

It was a huge seal, but it didn't look like it was actually used for stamping.

It is a treasure similar to a seal, which looks very small, but as the light in the seal slowly releases, the seal is constantly becoming huge, as if the entire world is to be covered by this The seal was broken.

"I have never seen such a magic weapon. Although humans are indeed much stronger over the years, they are still very inferior compared with our demons. You should also be curious about what this magic weapon I threw out is. Right." The little princess turned around triumphantly and said blatantly, which made Li Tian a little embarrassed.

This girl doesn't look very old, it is very likely that she really has no EQ, otherwise she can't say such things here.

The two of them need to work together to defeat the Tian Ming General in front of them, and if one is not careful, both of them may be dragged into the bottomless abyss by this desperate Tian Ming General.

It can be felt now that the aura of this demon general must be different.

If they can't cooperate, then want to defeat the giant in front of them next, it is really not that simple to do.

In this case, what the little princess said indeed had some problems.

Ximen Yeshou was also standing aside and looking dumbfounded at the little princess in front of him, thinking that the little princess's thoughts were really unpredictable, and she was able to say such a thing in a good manner.

This means that Li Tian in front of him is still a man who can better control his emotions. If it is someone else, he might be very angry now.

"Although I am a human being, I have seen a lot of magic weapons. Although I don't know what this magic weapon is, it still doesn't reach the point that surprised me." Li Tian also said helplessly. , Turned to look at the little princess in front of him: "What's more, you are such a behemoth in front of you. Shouldn't you be focusing your attention on dealing with this guy now? It's not appropriate to tell me these things?"

The little princess really did not know how to do things well, and I don't know if it was performed, or if it was really like this.

She just smiled and said, "Oh, I'll just tell you. I'm worried that you will be curious about what kind of trick this is, so I am going to tell you what is going on. This is the magic weapon my previous father gave me. , Shen Luo Yin, it is said that there is a powerful soul sealed inside, and only after truly mastering this magic weapon can this true powerful man be summoned, but for us even if there is no such powerful soul, half of the deal The situation is still more than enough."

"Since this is the case, it seems that I can stand here and take a good look at how you deal with this huge creature in front of me." Li Tian smiled and said, turning around to look at Ximen Yeshou in the distance. There was also a little bit of dissatisfaction on her face. I don't know if it was because of what the little princess said before, or because, seeing this beautiful girl, she now feels some natural hostility. It.

I have to say that although the little princess looks very immature now, many parts of her body have developed. If time is added, she may become more delicate and moving. Such scenes can not be casually performed. Where did you see it.

In the sky, the appearance of Shen Luo Yin at this time was enough to make them aware of the difference between the so-called powerful magic weapon among humans and the magic weapon of the demon race.

The red light, like the same airtight wall, forced Tian Mingjiang in front of him to stop his movements, and then looked at this side cautiously, wondering why a little girl could show With such a terrifying combat power, although the devilish energy on the body is very heavy, it is not so strong that it even makes it impossible for them to find their weaknesses to deal with. ,

Here is the heaven and the hell, are they really going to fail here?

Chapter 6016: Sit on the mountain and watch the tiger fight

The wind was blowing gently, mixed with the unpleasant smell of gunpowder smoke in the nose.

There are all kinds of destroyed things on the ground, and the sky is full of red light. I really want to dye this world from the previous green to the current blood red. At this time, the Heavenly Lord is not as prestigious as before. Fiercely domineering.

Shen Luo Yin is worthy of being one of the magic weapons in the Demon Race. Now the whole looks very huge, and you can even clearly see the lines on it.

Of course, what worries them most is the situation right now, which really makes them a little bit unable to accept it.

"Little princess of the Demon Race, it is a mistake for you to come to this place, but you actually carry such a magic weapon of the Demon Race. Do you think that you can defeat me?" Tian Ming seemed to think of something Same, I stood up full of my body, squinted at the huge Shenluo Yin in front of me. Although it sounded like jealous, in this guy's eyes, he couldn't find anything at all. Such factors.

Tian Ming held the sword in one hand, and the original damaged place on his body slowly recovered. At this time, the several places that were injured by the Shen Luo Yin began to become blackened, as if they were corroded by something. , But at this time he is recovering a little bit. After all, he is just a spirit-like existence here, so naturally he is terribly powerful.

Li Tian sat down slowly, he didn't put his emotions in the battle at this time, as if all this had nothing to do with him.

"Hmph, it seems that you guy is not an old antique. You still know the magic weapon of our demons. Since you know the magic weapon in front of you, why do you still stand in front of us? Do you naively think you can defeat us? ?" The little princess had a bright face, as if she was proud of the terrible strength she showed now.

Of course, she was able to fight this level of soul at this age, which was indeed enough to surprise many people, but it was enough to prove the power of the Demon Race's talent.

They were destined to be stronger than many people from the moment they were born.

This is why many people have been in awe of the demons for so many years. It is only because they know the terrible aspects of this race. Once they are given a chance to stand up, they may want to rush out now. Up.

However, the Tian Ming general in front of him is obviously not one of these people. At this time, he laughed wildly, his body was constantly emitting white steam, and he looked at the little princess with a grin, and said: "It is indeed, the devil The magic weapon of the clan is very different from the magic weapon of human beings. This magic weapon also makes me feel a bit tricky, but hasn't your father told you? Where is the heaven and the hell?"

"Huh, this princess doesn't care where it is. No one can stop me wherever I want to go. No one can make me change what I want to do." The little princess sneered. With a sound, she narrowed her eyes and looked at the behemoth in front of her. Even though she was like an ant in front of the Heavenly Pluto general, she had no fear at all.

The skeletons on the ground are still burrowing out of the ground continuously, but they died directly before there was any movement.

While the two people here were still in a stalemate, Li Tian came to Ximen Yechou's side: "How do you feel?"

"It feels very bad. In this kind of place, I seem to have become an ordinary person. There is no way to show my true strength. I don't know what is going on." Ximen Yeshou shrugged helplessly. Shoulder, she is a good genius outside at any rate, but it does make her feel a lot of pressure after arriving here.

This place is the \*\*\*\* of heaven and underworld, the place where the soul carries.

When thinking about this, Li Tian seemed to notice something, and then slowly closed his eyes.

"No need to think about it. Unless you have the protection of a magic weapon in this kind of place, there is no way for you to show your true strength. In other words, this place is like a gauze net. People who do not meet the requirements will die. This kind of place, it seems that you have really entered the test of that guy now." The voice of the remnant soul of the ancient \*\*\*\* rang at this time, confirming Li Tian's mind.

Ximen Yeshou couldn't show her full power here, and made herself feel like an ordinary person. The reason was that she had never cultivated soul power.

But Li Tian was different. In the free space, he didn't know how long he had cultivated his soul power.

Standing here at this time, naturally I didn't feel that my strength was much weaker than before. On the contrary, he had a more powerful appearance. Otherwise, when he was fighting with the Tian Ming general in front of him, he might have been killed in seconds.

It was also because the situation was very tense at the time. He didn't think too much about the problem in his head. Now the problem is no longer so serious, and he slowly began to notice this something unexpected.

At this time, the battle between the little princess and the Tian Mingjiang looked fierce. Both of them are strong on one side, and they are also very strong here.

Coupled with the fact that the little princess still has magic weapons such as Shen Luo Yin in the hands of the demon clan, the terrifying ability displayed at this time is also impossible to underestimate.

However, Li Tian was not in a hurry to make a move. At this time, he was sitting on the side like a okay person, quietly watching the two men fighting in front of him. The little princess looked not very old, but the ability displayed was enough for Li. It's an unexpected day. The strength that this little girl has shown is even stronger than her. It seems that the Demon Race has been thinking about making herself stronger these years.

When the demons were sealed in such a place, there was always resentment in their hearts, but they were suffering from not finding a suitable opportunity.

Maybe the eyeballs of the Demon Dragon King in front of you can really change the situation in front of you. Once you find the eyeballs of the Demon Dragon King, maybe a powerful creature will appear in the Demon Race. At that time, once they break through. Once the seal is over, the entire God Realm will inevitably be a waste of life. I don't know how many people will die because of this.

Chapter 6017: A lot of pressure

The little princess and General Tian Ming are inseparable from the battle, and Li Tian still has no movement here.

"Are you not going to make a move? Although the tone of this little girl's previous speech was not very good, it makes people feel uncomfortable, but after all, you two are now in a cooperative relationship. You stay here and do nothing. Is it really good?" Ximen Yeshou also saw the little princess who was fighting hard, although Shen Luo Yin was a powerful magic weapon that suppressed the Tian Ming general in front of him everywhere.

But the gap between the two of them still cannot be made up with a magic weapon.

Although the little princess hasn't shown it yet, they all know that she is weakening bit by bit now.

At this moment, she was very much in need of Li Tian's help, and the situation in front of her definitely couldn't be sustained by one person.

The huge sword in Tian Ming's hand fell straight down like this. Although Shen Luo Yin had already opened a barrier before that to protect the little princess in front of him, it was still too late.

The magic weapon must be very powerful, but the magic weapon also has many things that cannot be done.

At many critical moments, there is no way for them to truly be like a human being and show this feeling of burning jade and stone. ,

Shen Luo Yin's barrier was easily destroyed, and there was no even the slightest friendship. It was directly breached. In this process, there was no sluggish feeling. It was as if the momentum was broken. Easily broke through the barrier in front of you,

The little princess was completely stunned. Even if he is very strong, there will still be many problems when facing actual combat. This is a matter of reason.

Looking at the huge sword that was getting closer and closer in front of her, she was ashamed at this moment.

'This \*\*\*\* guy has reached the point he is now, and he is still looking at him from a distance. Don't you know that if you and I die, neither of you can deal with this guy?

When the little princess is here, she can still feel that Li Tian in the distance is still not moving, although she now hopes that this man will help.

However, in the end he sighed: "Forget it, this guy is a \*\*\*\* at first glance. At this time, he is still thinking about other things. If he knew it was like this, he should have left early. ."

While speaking, the little princess slowly closed her eyes.

Although Shen Luo Yin was still struggling to support, the immediate attack was getting closer and closer. Everyone knew that the little princess was in a dangerous situation, and there was basically no chance of surviving.

But it was this short moment that actually made the little princess feel that this time has passed so long,

Countless thoughts flashed in my mind, and the hard advice of the demon lord before began to come to mind at this time. I told her not to leave the magic palace a long time ago. This world is very dangerous.

But the little princess, who had never gone out much, didn't realize that this sentence was not a joke, but a serious statement.

So that the situation now becomes like this.

I watched as I was about to die in the hands of others. At this moment, there was no other way. Is there any time in my life that is more helpless than this?

"Who told you that I am a counselor?" At this moment, a stalwart figure slowly appeared in front of the little princess, and the \*\*\*\* sword in his hand turned out to be the party behind him. In front of him, he abruptly resisted the attack of Pluto.

"It seems that you are still a little bit courageous." The little princess was panting. After a series of battles just now, she really felt a lot of pressure. Before, I wanted to cooperate with Li Tian, but later discovered that this guy has a different attitude towards him. Very well, the little princess who is used to being held by the stars does not bother to continue communicating with this man. In her eyes, she naturally regards the man in front of her as a very humble creature.

Even at this point, I still have the same thought in my heart, thinking that the man in front of him has no fighting power at all, and naturally he does not need to communicate with this man.

"Really? I only showed a little bit of courage when I said that. Otherwise, I will let you go now and let you be smashed by the giant sword in front of you. Would you feel satisfied?" Li Tian smiled and turned to look at the little princess who was sitting on the ground behind him in a panic. When he spoke, he actually released the giant sword in front of him.

As soon as he pulled out this sword, he heard General Tian Ming let out a cold snort.

"The two young dolls are still arguing here now, and I will let you both die here today." The giant sword was not completely offset by Li Tian, when the red sword in his hand did not continue. At the moment of resistance, the giant sword fell down like lightning, and the violent wind roared, as if it wanted to swallow the whole world.

Seeing the giant sword in front of me getting closer, the little princess roared: "You bastard."

"Don't cry, even if your master is in front of me, you two will die here. You dare to enter the heaven and \*\*\*\* like this. I will tell you today what kind of place it is." When Tian Mingjiang spoke, he suddenly felt a pain on his face, and immediately after his huge body, he staggered back.

In front of him, there was Li Tian's figure, which was just a kick just now, forcibly kicking Tian Ming general in front of him.

The little princess was still very angry. Seeing this scene, the curiosity in her heart suppressed her anger, and asked: "You...what kind of magic weapon are you, how did you do it?"

"Damn it, you kid has been hiding your strength before. Why do I feel such a powerful force in your body?" At this time, General Tian Ming was also full of shocked expressions, and the white energy on his body started unexpectedly. It appeared more quickly, but to their surprise, a small hole appeared on the face of the Heavenly Pluto.

On her face, it looked as if it was a trace of a pimple.

But this small trace is like a tarsal maggot, no matter what he does, there is no way to repair the wound, it has always been like this.

Chapter 6018: The power of the soul

Li Tian smiled and turned around, looked at the stunned little princess behind him, and asked, "It's surprising?"

"Quickly, tell this princess how you did it, why you are only in the realm of gods, how can you show such a strong fighting power, what happened in this is what the princess does not know, now Speak honestly." The little princess said very arrogantly. She was suffocated in her heart, but now she was even more angry when she saw the smug smile on Li Tian's face.

This man didn't know what was going on. The moment this smile appeared on his face made people feel very cheap, and he wanted to work with this guy so that he would know what the sky is.

But Li Tian in front of him didn't take this matter seriously.

He just looked at the little princess in front of him, condescending, like a high king, overlooking the ants in front of him, and even a very serious expression appeared in his speech: "You mean to think that I You don't deserve to have such power, do you think so?"

"Huh, compared to our demons' bodies, human beings are fundamentally fragile, and human life cannot truly be the same as this world. It will last forever. You must have used some powerful magic weapon to stop it just now." The little princess said disdainfully, panting, and slowly standing up from the ground, arrogantly said: "You get out of the way, this princess can deal with this guy alone."

"You have tried it just now. What is the gap between yourself and the behemoth in front of you? I think you have already tried it very clearly. Even if it is like this, you still have to stick to your own thoughts. Fight against the general Tian Ming in front of him?" Li Tian's voice sounded very cold, and at this time his whole body was facing the general Tian Ming in front of him.

Tian Ming will look at this man's back, surprised and angry at the same time.

Before he died, he was a god, a real powerhouse between heaven and earth. He realized the existence of the great avenue of heaven and earth. Even if he encountered a truly powerful opponent, no one would dare to despise him like that.

Looking at the appearance of Li Tian in front of him, it seems that only himself and the little princess are left in his eyes, and Tian Ming will completely become a dispensable existence. ,

Ximen Yeshou also widened his eyes and looked at the very domineering Li Tian in front of him: "This is the first time I saw this guy like this. Before, he always looked very kind, no matter what he was doing. At the time, they all had a calm face. I didn't expect that even this guy would still be so domineering. This girl should be the princess of the demon clan, but in his eyes, it seems to be extremely small."

"Hmph, I have already said very clearly before, this princess does not need you as a human to intervene, even if the Tian Ming general in front of you is really powerful, this princess can also rely on her own strength to defeat, but before It's just that there have been some accidents, but it doesn't mean that the princess really has nothing to do." When the little princess spoke, she slowly raised the sword in her hand and stared at the general Tian Ming in front of her.

At this time, Li Tian let go of his position: "Do it."

Tian Ming general snorted coldly, and he was really not polite.

But when the sword in his hand fell, he heard a cold snort.

A very mischievous smile appeared on Li Tian's face, just like a strong player in the game world. No matter what kind of existence you are, in the eyes of the man in front of you, it's just a \*\*\*\* of yourself. It is impossible for a man to give you any respect. Li Tian is like this now, without the slightest respect in his tone.

It's just abuse!

"I told you to do it, you really did it, you really are a very well-behaved dog." He said faintly, this indifferent voice is like Shura in the Nine Nether Hell, making people's back Then he got cold.

In the next second, the sword in his hand was swung straightly like this.

"Damn boy, do you think you can stop me with your strength alone? Today I will let you two die here, and let you be the dead without any exception among these people who came here." Tian Ming will roar, and then hold the sword in his hands tightly with both hands, and then fall down quickly.

At this time, Li Tian still looked at the little princess in the distance with a very indifferent expression: "Hey, you demon boy is optimistic, uncle is going to tell you today, what is the real power of human beings? In such battles, we are indeed different from your demons, because we seldom place our hopes in things like magic weapons. Magic weapons are just a tool for us, but they are definitely not the hope of saving ourselves."

"The arrogant!"

"nonsense."

Tian Mingjiang and the little princess all had expressions of disdain.

The man in front of him did have some differences, but if this man could break through the rules of the ages, no one would want to believe it.

Suddenly, a huge black figure emerged from behind Li Tian. ,

The aura that broke out in an instant caused both Ximen Yechou and the little princess to fly upside down quickly. After flying for a while, the little princess was hit by Ximen Yechou's body severely. Reluctantly using the immortal power in his body, he slowly stabilized his figure, then pushed aside Ximen Yechou in front of him, staring at Li Tian in the distance.

At this time, Ximen Yeshou could only reluctantly release some of his strength, fixing his body on the ground.

The sword was almost submerged into the entire ground, but it still kept cracking on the ground, as if it might be blown away by the gusts of wind continuously released in front of it at any time.

And the little princess was even more disbelief at this moment: "Hey, woman, do you know what's going on? This guy must have a very powerful magic weapon among your humans, or rely on him as a human How could it be possible to show such terrifying combat effectiveness?"

"You don't even know how terrifying the strength of the man you met in front of you." Ximen Yechou just said lightly, clutching the sword in his hand with both hands.

Chapter 6019: Magic way

The huge black shadow has completely enveloped Li Tian at this time, and at this time, his body has slowly floated to the position of the black shadow's eyebrows, looking like a wisdom that controls the entire shadow action.

That huge body was all under Li Tian's control at this time.

The battle has reached this point, and it seems that there is no suspense.

The phantom was dark, but there was a layer of red armor on his body. It was the red winged divine suit. The two pairs of feather blades behind him were extremely wide. A slight movement could make the wind swept here.

Ximen Yeshou and the little princess can only barely grasp a protruding object on the ground at this time, and it takes a lot of effort to keep themselves in this way, otherwise an accidental one may just disappear. Here it is.

What can be imagined is how terrifying the storm that Li Tian generated at the moment of transformation.

Even Tian Ming took a step back with such a huge body.

‘What kind of things have happened to this human being? Why can a human being display such a terrifying ability? The aura generated at this moment makes people feel terrified. He is still not as strong as before. After so many years of erosion, his soul power has already withered a lot.

Now that he felt the powerful soul power of Li Tian, he naturally didn't understand what was going on.

After the transformation, Li Tian's aura is even more terrifying. No matter where you are, all will exert an invisible pressure on you, just like a pair of huge palms covering your head, giving you a kind of The feeling of suffocation.

This is what Ximen Yeshou feels most intuitively now. She is still lying on the ground, but her condition is getting worse and worse.

When it was about to fly out again, the wind stopped.

Immediately after that, the whole world stopped. At this moment, it seemed that space and time had all reached a critical point.

Suddenly, another gust of wind came.

"Ah..." Ximen Yechou screamed, and the whole person flew out. The little princess frowned. Although she was very unwilling, she still pulled Ximen Yechou and let the Shenluo in front of her. Seal, blocking the violent wind released by Li Tian.

Enchantments appeared in front of the two of them, but they couldn't hold on for a few seconds, and they broke directly.

"This...this is impossible. This is a powerful magic weapon of our demons. My father said that this magic weapon can help me through many difficulties. Why does this happen in front of me? This man is in the end What kind of secrets are there to achieve this point? In her mind, it's all about Li Tian now.

The strength displayed by this man really made them feel terrified. If a genius among humans can show such a terrifying combat power, then the inherent advantages of their demons may be meaningless.

Human beings have such a terrible reproductive ability, and the possibility of such a genius must be much better than the demons.

I don't know how long it has passed, the immortal power of Shen Luo Yin is almost exhausted, if we continue to persist in this way, the little princess will definitely wither away her power.

At this time, Li Tian turned around, smiled playfully, and asked: "How about, the little princess of the demon clan, can you feel the gap between us? You can rely on a magic weapon. I barely show my strength here, but I only need to rely on my own efforts to stand here and look down upon the heroes. I don't need magic weapons, because this kind of thing is a burden to me."

If it is in normal times, it must be considered by others to be bragging.

But now, no one thinks so.

This man has proven to them by his terrifying combat power that he really doesn't need any magic weapon to help him, he can fight very smartly here.

"Damn fellow, don't look around when fighting, who do you look down on, am I not an enemy you deserve to be taken seriously?" Tian Ming will be angry. This is not the first time he has been ignored, this man It was simply a fuse, constantly letting the anger in his heart roar out. At this time, seeing this kid ignoring himself again, the anger in his heart could no longer be restrained.

He roared, his body flashed quickly, and soon he reached Li Tian's front, and an offensive mixed with electric light flint fell.

"Wow"

The attack was cool, but Li Tian used his left hand to easily pinch it, and there was only a little light on the giant sword, and then it disappeared.

Li Tian asked contemptuously: "That's it..."

"This... how is this possible? This trick is rushing to the thunder. If you use your own body to eat it hard, you will definitely be seriously injured. How did you do it, I don't believe it, I don't believe it, humans are At any time, it can be so strong." Tian Ming will continue to shake his head, and his body will continue to recede, obviously unable to accept the phenomenon in front of him.

How could a Sanxian who entered the realm of the gods and hells show such terrible power?

There are two kinds of black qi flashing in Li Tian's body, one is black and red, the other is pure black, these two qi, entangled together, and then turned into a purer black. The black that cannot be described in words.

"You probably don't know yet, there is actually another existence in this world that is completely different from the way of heaven."

"Magic Way?"

"Ah, I thought I was the first to know about this." Li Tian slowly raised his hands, waved it slightly, and directly pushed out Tian Mingjiang. He Looking at my hands, he said: "Here, my soul power can be released without reservation. You don't know how long I have been cultivating in the free space. Naturally, you can't imagine how powerful I am now. , What level is it?"

"This is impossible. The human body cannot withstand such an impact..."

"Yeah, this is why I slowly become what I am now after I came here. After the transformation, I can no longer be regarded as a pure human being, or that I am now superior to many people. Come on, do you understand this?"

Chapter 6020: Step on the sky

Like a demon god, the terrible aura released from Li Tian's body makes people unable to calm down. Ximen Yeshou and the little princess are completely filled with the feeling of confusion at this time, and they don't understand what happened before them. What kind of thing.

How could this man show such terrifying fighting power in front of them?

"In the hearts of you guys, the so-called humans and the so-called mortals are all trivial. They are all small creatures in your eyes. If you want, you can kill them at will. There is no need to worry about the consequences. Is that right?" Li Tian smiled, looking at the two guys in front of him who were still surprised, and asked faintly.

The murderous look in his eyes at this moment was Ling Ran, as if the two enemies in front of him would be completely wiped out in the next second.

Tian Ming is very clear about his strength. He has reached the peak of the immortal realm, or even higher. Although the loss of time has continuously weakened his soul power over the years, even without his own body , He can also show absolutely terrifying combat effectiveness.

Now facing the young man in front of him, some indescribable problems have appeared instead, and the state of the whole person is not as perfect as before.

"A mortal is a mortal. No matter how hard they work, the gap with us will never be changed. There is no doubt about this. Even if you don't want to admit it, this is the truth." Tian Ming will squint his eyes. Looking at Li Tian in front of him, although the terrifying combat power displayed by this young man did surprise them, it was not easy for a mortal outside of him to fight them to such a point.

He slowly raised his hand and said, "However, the strength you showed as a kid really made us people a little bit of a surprise. Relying on our own low ability, we did a lot. I really want to know how you did it. The wound on my body has not been able to heal. Such a thing has never happened before."

"For me, this is just a normal thing. My immortal power now has an attribute that can swallow everything. Even if your recovery ability is very strong, you can't resist me. Swallowing power, so if you start your hands, you are still not my opponents." Li Tian's body was exposed sideways, standing here really like a demon god.

The moment the blood-red eyes swept past your body, it would make people feel that all the hairs on your body stood upright.

"Has this guy been in this state before? How come I look like this guy has become like this for the first time." The little princess looked at Li Tian in front of him from a distance, and her mind was all about this man. Doubts, completely don't understand what this man's current state is.

The people in white and black before, used their own lives to leak out Li Tian's information.

The purpose is to put Simon Yeshou and Li Tian on a dead end.

But now it seems that what they imagined is too simple.

"What does this have to do with you? Didn't you still look down on us before?" Ximen Yechou sneered, looking at the little princess in front of him, his face was full of disdain, and his attitude towards the little princess was not very good.

The little princess didn't like to treat anyone as a creature of her own level by nature, so now that she heard the little princess's questioning, she certainly wouldn't give the eldest lady a bit of a good face. The tone of her speech sounds, really I want to be like the little princess.

"I just want to know what's going on. Look at what you are like now, as if you are my enemy." The little princess didn't understand. She had chosen to cooperate with these two humans before. It was them. He didn't want to fight with him, and this became the situation like this. Listening to Simon Yeshou's meaning, it seems that the main problem is all to blame on the little princess.

But at this time, Li Tian also started to move.

General Tian Ming still couldn't believe that there was a big gap between himself and Li Tian, so the battle between these two men had become a very fierce battle.

At the beginning, Li Tian was only passively defensive. It seemed that it was really just like thunder and heavy rain. It gave people the impression that this young man's combat effectiveness had been greatly improved, but in fact it was still just an ordinary person. Of mortals.

The current general Tian Ming also thought the same way, sneered, and said: "I thought you were what kind of powerhouse, how powerful you are in this state, and now it seems that it is just like this. , I want to defeat you is not easy."

"Can you really do this?" Li Tian, who was passively defending, suddenly widened his eyes, then raised his left hand, and then slowly passed towards Tian Mingjiang in front of him.

His speed is not very fast, it looks like he is full of his speed.

In this way, he slowly attacked the Tian Ming general in front of him. As long as he was a normal person, he could easily dodge the past. Besides, there was still a very powerful Tian Ming general in front of him.

At this time, Tian Mingjiang also didn't know what was going on with the young man in front of him. Such an offense was too weak for him. You only need to move his body a little to dodge it easily, but look. Looking at this guy's slowness, coupled with his previous momentum, I really can't believe it, is he really such a simple trick?

Because he had suffered a few small losses before, now Tian Ming would also start to become cautious.

This kid did not know how much trouble he caused them by his own wit before, and now he dare not really be too arrogant with this guy.

After a lot of postponement, the movements of the two people seemed very slow and simple, but they made the entire Heaven and Hell tremble. The battle between the two giants was about to give these buildings around them. It was destroyed, Ximen Yeshou and the little princess were looking at this side more carefully at this time, and they were very worried about what it would look like next.

The little princess raised her head while breathing, and then her eyes widened.

The sky above their heads was actually shattered at this time, did even the sky begin to shatter at this time?
