Chapter 25 Chapter 25 Dinner ended rather awkwardly. Even she knew she should stop, she still poured herself another glass of wine. Gabriel eyed her glass. "tute you want any more of that?" "It tastes okay." Yes. It does. But you don't seem like someone who who drinks. "I don't, I actually think I I'm a lightweight." She said and Gabriel nodded. "Have you ever been drunk before?" He asked and she nodded. "Once. At prom. Some of my classmates snuck in bottles of beer and poured alcohol into the fruit punch. I think we all got drunk from it." He chuckled.

"How did it felt Oh she could remember the moment as clear as day and it felt horrible when she thought about it. Really horrible. Everyone was either drunk or slightly Tipsy and the school had arm them all home early, "I felt weird, Really... I wasn't that drunk but I kept tripping, even though I wore a short dress and my heels were low." Gabriel chuckled. "But you had fun right?" She nodded. e didn't know mach "Tel. It was fun. Lori finished the rest of her wine, she wanted to go to bed, but she also wanted to sit and talk with Gabriel for hours.

She felt like she about him I feel like I don't know anything about you... She mused and Gabriel raised his eyebrow. "Brally?" She nodded. "Yea. Deel like I know you, but then I don't know a lot of things about you.". "True" Gabriel confirmed. Theres not much to know to be honest. Before Emilia came into my by lafe, all I did was work. It Was that disappointing?" Cabriel asked and Lon nodded. my w w whole life." Chapter 25 "You're a young nich man, I actually expected more She confessed and Gabriel nodded.

There was only little he could tell her, at least without having to go into details about him being a werewolf or an a alpha Much of his life revolved around being an alpha, there was a lot be wanted to tell her but couldn1. There was no way he could tell her about him being a werewolf. At least not presently.. I inherited most of what I have from my parents, my parents inherited what they had from my grandfather.

And all my life Eve been taught how to manage what was given to me, how it came with great responsibility." There was to be no room for failure, or error and somehow along the line I lost myself in all that.... My parents died years ago. Im their only child. I know they meant well, but sometimes I wished they let me live my life how I wanted to Lori reached out and touched his hand, he flinched a little, her fingers cold to the touch "Im sorry. I can't seem to stay warm," She apologized. It was true.

He had noticed it a while ago, she was always cold. Gabriel was a warm blooded creature, being a werewolf meant his temperature was always regulated. Always warm, even during the winter Lori was the opposite, he wondered if it was her nature, "That's okay, I have enough heat for both of us" He said as he took her hand in his and enclosed them in his, His arms were deliciously warm. Slightly toasty. Lori sighed in pleasure. "I think you still have the time to live your life the way you want... have fun and all... She said and Gabriel shook his head.

When he was younger he used to crave that lifestyle, the late nights at the club, the constant partying and the traveling around the world that most of his acquaintances and acquaintances had, but now that he was older, he was actually more content with what he had. He missed the fact that he didn't get to experience that sort of lifestyle, but he didn't crave for it as much as he did. "I don't crave for it like I used to. But, I would like to experience it." "But I'm a father now... I doubt I have time for late night parties when I have a baby." He added and Lori shrugged.

"I think you definitely do. Besides being a parent doesn't mean you shouldn't have fun." Gabriel raised his eyebrows. "Yeah night? What about you? You're twenty two, as old as far as I can tell you didn't do that much partying and clubbing either Oh he was right! That was true. Lori sighed "You're right. I didn't... It was funny how they were both alike in certain ways but different too, "If I'm going to live my life, you should too." He added and Lori shrugged. Oh she didn't think so. She hesitated and Gabriel cut her off "No excuses.

"We should go to a club together when we're back from Canada." 2/5 "Ni... A... I actually have no curfew that would be considered appropriate enough for the club " Gabriel shook his head, he decided, he wasn't going to take no for an answer Then you buy many as you do your cat's Cabinet "I am I'm actually very serious." fine without you for one night.

Jenny or Sylvia would be more than happy to fill in." had not been in one in one before, she was excited as well as scared but Good Then it settled Clubbing, partying, we'll try everything" Together He added as he kissed her hand and gently let it go. Lori's cheeks blushed furiously, suddenly feeling bereft without it the warmth of his hand. Lori shamelessly ogled him. Unable to pull her eyes away. It was hot tonight. He said as he settled into bed and Lon nodded. Really?

Close enough that she could see his face. The stubble on his face and his long long eyelashes. Longer than hers probably. She thought and then felt the inspection. Lon shrugged. "I don't know."

"I just didn't expect" She whispered "would you like me to keep you?" He asked again and Lori slightly nodded. She said and he murmured that she should turn around, when she did he placed his arms around her, almost as if he was wrapping her in a big hug, leaving her spooning her.
