

The Alpha Train Novel - Chapter 14

Chapter 14

Chapter 14 I hadn't planned on taking all of the classes . Even when Sebastian and I talked before , he said the Finance and Managing a Pack classes weren't needed unless I intend to take over Dane's pack and I would never do that . I would never undermine my brother that way , nor would I take one of the best Alphas alive away from our pack . My nervousness spikes as I stare at the picture of my bio on the page . " We can talk more tonight , " Sebastian says quietly .

I nod , forcing my attention back to Alpha James . " Let's go ahead and start with Christina , since we're on the topic and we have our Alpha here to answer any of your questions , " Alpha James . says . I've never been on this side of the review before , being considered as a student , not an assistant . I've always listened objectively to what was told to me , but now , being the one who is being discussed , I realize just how personal this is .

" How old were you when your parents passed away , Christina ? " Alpha Will asks me . " I was fifteen , Dane was seventeen . " " So , he took over before he was eighteen ? " Alpha Benjamin asks . " He had to , but everyone understood it was interim position until he could go to the Academy . Unlike Sylvie's son , Dane didn't have our mother to help him . He was alone , young , not quite ready to be Alpha , and now straddled with an underaged sister to care for .

He didn't go to the Academy until nearly five months later . He stayed to make sure that I was okay , that the pack was okay before he left for three months . And then he made damn sure that he passed the Academy , and no one could contest him taking guardianship of me , " I say proudly . It was a terrible time in our lives . I don't know how Dane did it , but it's just the man he is .

He somehow managed to take care of me , our pack , deal with his grief , take on the responsibility of becoming an Alpha before his time , and then he came to the Academy and took number one on the leaderboard . " What is it you call that Sebastian , " Alpha James asks . " Chasing ghosts , " he says , looking at me . " I believe that Christina is chasing the ghost of her brother .

" " You have to admit those big shoes to fill , " I say , feeling vulnerable talking about my family in front of the group here . I need to get used to it . Part of going to the Academy is stripping the Alphas down to their core , then building them back up . I've heard Alpha James say it every time we start a new semester . " They aren't your shoes to fill , though , are they ? " he asks me . " That's why I intend to push you this semester .

I want you walking in your own shoes , " he says with an intensity that I want to shy away from but instead draws on the competitive nature of my Alpha wolf " Okay , let's move on , " Sylvie says , and I could kiss her . Everything became very intense , very quickly . I can

feel the heat of Sebastian's gaze , but I don't look up from my packet . " Right , next up is Alpha Logan . He's the son of Alpha Leo . If he's anything like his father , he's going to be arrogant .

He'll be big and strong , but not flexible and will probably struggle in the sensory and communication classes because he focuses most of his energy on being strong and protecting the pack , not being a well - rounded Alpha . " I look at the picture of the tall , muscular Alpha with short dark hair . Even his smile is arrogant . I decide quickly that he's no competition for mc . " Next up , we have Alpha Liam , son of Alpha Felix . Felix is a good Alpha , but not a great Alpha .

I expect that if Liam is like his father , he ' ll do well , but he won't excel , " Alpha James says . In my first couple of semesters , I thought Alpha James was being judgmental by making decisions about these Alphas before they arrived and he gave them a chance . However , I quickly learned that on his week off and even before that , he studies these young Alphas so he knows what to expect and he is prepared to train them to be better and stronger than they are . I look at Liam's picture .

He's another large , arrogant Alpha . I put him in the same category as I put Logan no competition . " Next is Alpha Noah , son of Alpha Finn . Finn lost his mate two years . ago and he's been drilling it into his son to be ready for the Academy so he can step down as Alpha ever since . " Sebastian looks up at James . " Are you talking with him about becoming an instructor ? " " I plan to visit him at the end of this semester , " Alpha James says . I look at Noah's bio .

He looks like all the other Alphas , big and brawny , but he doesn't have the same arrogant look that Logan and Liam had . I make a note on his bio to look up Alpha Finn . If he becomes an instructor , I'll want to know more about him . I see Sebastian look over and smile at my note . " Our fourth Alpha is Alpha Ezra , son of Alpha Kai . Kai is a good Alpha . He's strong and was number five on the leaderboard .

I expect good things from Ezra , and I believe he'll push himself hard this semester . " I put a star next to his face . He could be my competition this semester . His hair is a light shade of brown but unlike the other Alphas , his face doesn't hold the arrogance that young Alphas usually have . He looks confident and determined . " And finally we have Alpha Tyler Alpha Tyler is the son of Alph Emmett and the brother of Alplan Tanner . " Alpha James says min .

Daniel , Min , and Mylvic all suck in an " What am I missing ? " Laura anks , looking up " Alpha Tanner is the Alpha that died in that horrible accident about four months ago . " I tell her " Oh no , " she says . " I'm sorry . I don't understand , " Haley says sweetly , looking around . " His brother was the oldest son and became Alpha . He died and now the pack has no Alpha . Tyler is having to take over the pack for his deceased brother , " Will explains kindly .

" Add to that , Alpha Tanner is still on the leaderboard , " Sebastian says grimly . " Son of a bitch . No offense Christina but , to use Sebastian's term , you won't be the only one chasing ghosts this semester , " Daniel says . " Correct . We all need to be prepared to support the young Alpha . Emmett is suffering , his mate is suffering , and Tyler will definitely be suffering , " Alpha James says , turning to me . " His story is similar to Dane's .

He didn't lose his parents , but he's having to take over a pack when he didn't expect to . " I nod and look at picture . He's built like the others , but I can see the pain and sadness in his eyes , like he can't face the truth of what is happening in his life . I put stars all around his picture . If he's anything like Dane , he'll make it to the leaderboard this semester . Tyler just became my biggest competition . " The bios are there . Please become familiar with the Alphas .

The first two will join the Train tomorrow at the first stop . Now , there are some things we need to go over as a group before they join . First , Haley , Emma , and Christina , all of you are joining the sex group for the first time this semester . I need to hear from all of you that you are not virgins . Virgins are NOT allowed in the sex class . Haley ? " She's blushing a bright shade of red . " No , Alpha . " " Emma ? " " No , Alpha . " she says , and he turns to me .

" No , Alpha , " I say , giving him a smile , " I have to confirm , with witnesses , Christina , " he says , smiling at me . Chapter 14 " I understand . " I would hope that no one thought that at twenty - eight I was still a virgin , but since I'm not mated , I understand that Alpha James can't make that assumption . " Second and this is of the utmost importance , do NOT fall in love with these Alphas . They are not here to find relationships .

None of them are old enough to sense their mates yet and believe me when I tell you , that no matter how much they think u no matter how much they think they love you , when they find their mate , any feelings that they have for you will pale in comparison . " I notice Sebastian watching Emma and I swear I see his head nod as if he just confirmed something to himself . When we talk later , I want to find out what he confirmed about her . " Sex is allowed . It's expected in the sex class .

All of you have signed acknowledgement forms , consent forms , and acceptance forms for the class , except you , Christina . Once you agree , you'll sign the forms . However , just because you've consented to the sex class , it does not mean that the Alphas have unlimited access to you . You control when and how you agree to let them practice for the class .

If at any time , time , you feel that your assigned Alpha is taking advantage of the class or is in any way acting inappropriate with you , you come to me . Understood ? " I nod . I don't need the reminder , but it's good for Haley and Emma . I know Sebastian would never be inappropriate with me and he's the only Alpha that will be touching me this semester . " As I said , sex is allowed . We have plenty of condoms on the Train and at the Academy . Use them .

Do not think that you will trap an Alpha into a mate bond by getting pregnant . It is forbidden . Unacceptable behavior such as this will be dealt with harshly , " Alpha James says . This is new and I have to believe that it's for Emma's sake , not Haley's . " Your assigned Alphas for the sex class are in your packets . Emma , you have Noah . Haley , you have Tyler .

If you have any problems with that , please talk to Alpha Will or me , we will work around your we will work around your concerns . " Haley nods , and I watch her pull Alpha Tyler's bio back out . I already know that her sweet nature will want to help Tyler this semester , so I doubt she'll have a problem being paired with him . " Mia . you have Liam and Sylvie , I paired you with Logan .

" I'm not surprised that Alpha James paired the two most experienced women with the most arrogant Alphas in this semester . Those boys are about to get schooled . " Charlotte will be with Ezra and Christina , if you agree , you'll be Sebastian's assistant . " I nod , letting him know that I understand . " We'll be having a similar conversation with the Alphas once they've all boarded the train in three days .

But if you have any questions , please see your assigned instructor , Sebastian , or me . We are all here to work hard and to make sure that these Alphas focus on becoming the best they can be . But we also act like a family . This is a small group and in three weeks , we get very close working side by side all day every day . Again , if it becomes too much , if you need a break , please come see one of us and we'll talk it through with you and decide what the best course of action is .

Any questions ? " When no one has any , he nods . " Let's have a great semester ! Dismissed . " " Are you still good meeting in my room , Christina ? " Sebastian asks . " Yes . " " Good , give me about ten minutes . " " Okuy . " " Should I make you another drink ? " he asks . I look at my empty glass . I shouldn't , but the first stop tomorrow isn't until one o'clock . " Sure . " " See you in a few , " he says , reaching out to take the glass from my hand . His warm , strong fingers brush against mine as he takes the glass and I'm thankful I have a few minutes to wash the arousal off of me again before I meet with him .

If you enjoy this work, please consider supporting me.
