

The Alpha Train Novel - Chapter 6

Chapter 6

Chapter 6 I'm so fucking turned on by this woman that it's taking every bit of training I've ever had as an Alpha to not try and get her naked and in my bed . She's already challenging me , and I love that . Every Alpha loves a good challenge . But it's more than that , she's already being vulnerable with me and if I didn't know better , I'd say she was worried about disappointing me . It's a heady , intoxicating mix .

I knew being around Christina this semester would be hard , but I'm realizing quickly that she's going to test me as much as I'm going to test her over the next few months . Purchase completed " I know you'll have a busy schedule , but in order for me to be able to teach this class effectively , you and I will have to spend a lot of time together in between classes . You will need to learn to trust me and be able to relax in front of the class while I'm touching you .

I will need to learn everything about your body , your tells , your pain points . I'll need to know when your body is saying that my touch is too much , or when your mind is saying that I'm pushing you too hard or too much . I won't risk breaking the trust I earn , so I need to be able to understand your non - verbal cues while I'm teaching so I can do what is necessary to help you relax again and continue on .

" I'm already starting to figure out when something is uncomfortable for her , so I'm not surprised when I feel her body tense before her next . question . Chapter 6 " Talk to me about making me orgasm by mouth in front of the group . " Even though she's tense , her voice is deeper than normal . I love that she's relaxing because of my touch . She sounds so fucking sexy . I can only imagine what it would sound like if she said my name while I was making her come .

While my wolf loves the idea , the man in me cuts those thoughts off . I'm not some 20 - something Alpha getting ready to take some random woman to bed . I need to start building trust . Tonight . " This isn't a peep show . This isn't the type of situation where the Alphas watch a sexual act and get off on it . It's a delicate line , one that James and I will be monitoring closely as he will be assisting me in that class as well .

If either of us get any indication that an Alpha is getting off on watching you and not using this as the instructional class that it is , they're out , not just out of the class , but out of the Academy . They will be told ahead of time what this class is , and how they are to use the instruction provided .

If you or any of the other she - wolves feel uncomfortable with any of the Alphas , whether it's during class or if anything inappropriate is said outside of class , it will be addressed immediately and if necessary , they will be expelled from the Academy . We take it very seriously , especially in this class .

" I want to make sure she understands that while she will be on display , while I will be bringing her to orgasm in front of the others , I will not tolerate anyone speaking down to her or making offensive or belittling comments to her . None of us will allow any of the Alphas to make sexual slurs or derogatory remarks to anyone , but particularly not the assistant or their partner in this class .

It's an extremely complicated situation and it wouldn't be the first or last time that an Alpha gets expelled from the Academy . For most Alphas , knowing that they can't 13-350 Chapter take over their packs if they don't pass is enough to keep them focused on what they should be doing . Occasionally , there is one who thinks he can get away with his behavior .

I won't say that we've caught every Alpha who acted out because of this class , but we do the best we can at empowering the assistants to come to us if they have a problem with an Alpha during their time at the academy . It's a tricky situation all around . The partners . must agree to having sex with the Alphas , to let them practice becoming the excellent lovers they're expected to be , and the Alphas .

must show them respect and learn how to give their partners the strongest and best orgasms of their life . Added to that , neither of them . can fall in love . They have to keep their distance because once the Alpha finds his mate , he won't want another partner . She will be it for him and any girlfriend or lover will be left behind . I'm sure that's why Dane never allowed any Alpha to date Christina . He was very careful with her , making sure that she never got hurt .

However , that just means that she's never experienced the expertise of a man who knows how to stroke her and tease her until she explodes for him . Something deep inside me is thrilled that I'll be the only Alpha to ever touch Christina . " Sylvie usually has James put up a half curtain . There's no reason for the Alphas to watch me go down on you , but they need to know that if it takes their partner a long time to orgasm , they probably aren't doing . it right .

Usually , it's the arrogant ones who don't believe that you can make a woman orgasm as quickly as you can if you know what you're doing . And that's the part that I need to show them . There is a way to make their partner orgasm , they just need to focus on her and not . themselves . There's a reason the oral stimulation part of the class lasts 13.35 Chapter 6 two weeks . Most men struggle to stimulate a woman's clitoris in a way that makes her orgasm .

I'm pretty sure that Sylvie and Mia will be quite vocal if their partners don't give them an orgasm , " I tell her . Christina chuckles . It's a soft laugh , one that makes me think of late nights talking in bed . Because I can't stop thinking about getting her into bed . I step back , reluctantly taking my hands off of her . She reaches down to get her glass of whiskey , taking a sip before turning back to me . " Do you think it's strange that Sylvie is participating in the class ?

I mean , she and Alpha James seem so close and ... well , maybe I'm just putting my own feelings on it . I know that I wouldn't want to have a man touching me like that while my boyfriend , or whatever they are to each other , was there watching . " " I'm not privy to their relationship any more than you are . It's not my business and I don't ask , but I will say that I'm a bit surprised as well . " She nods , then studies me as she takes another sip of her whiskey .

I like that I surprised her by knowing how she likes it . I noticed in the first week that Christina started on the Train that she liked whiskey . It was a commonality between us , one of many that I've discovered over the last two years . Unlike me , though , she likes her chilled . " So , how does this work ? How do we build the trust needed for me to be your assistant in this class ? " she asks me . I gesture for her to sit again . " We meet like this , every night .

At first 13 35 we'll talk . I'd like to massage you at least three times before our first class , but preferably more . Class only meets two days a week and then the Alphas practice with their partners as often as the partners will allow . That goes for you as well . Our time together is dependent upon your willingness to work with me . You have control of our time . together , just like the other partners .

However , I would ask that if there ever comes a time where I push you to or past your comfort level . rather than cancelling our evening together , you talk to me about it . That's where the trust comes in . I need to trust that you will talk to me . if you have any concerns or are upset by anything that I say or do . And I need you to trust that I will be respectful of you and your boundaries . while giving you the best orgasms of your life . "
