51 Shock! A Dragon Robe In The Chest? (5)

Goddammit.

Not the cheap stuff again.

Okay okay, time to cool it, let's see what other clothes this wardrobe holds.

[Ding! Ming dynasty women's Bijia!]

!!

[Also known as a collarless and sleeveless vest, originally from the Yuan dynasty, but favored by women in the northern regions as daily wear.]

[Value: 63 thousand yuan!]

This one was slightly more interesting.

However, to Luo Feng, it was still just an insignificant piece of clothing.

He looked at about 11 pieces of clothing in a row.

Their values ranged between 10 thousand to 20 thousand yuan.

None of them were particularly expensive.

"This doesn't make sense, Mr. Luo!"

Wang Yousheng, the porcelain expert, was still at the scene. Unable to bear this scene any longer, he spoke up.

"What do you mean by that, old man?"

Luo Feng was not ashamed to ask.

"Let's first look at the brass butterfly lock. Although locks like these are commonplace in modern society, it was not something that ordinary families can use back in ancient times!"

"Moreover, this wooden cabinet is also a rare material among ancient wardrobes!"

"Whether it is the pear wood material or the carving of the wardrobe, it is undoubtedly a wardrobe used by wealthy women in the Ming dynasty!"

Wang Yousheng scratched his head and said curiously.

In other words.

Since the wardrobe belonged to a wealthy household, it was supposed to have good clothes.

The clothes that Luo Feng had discovered so far could be worn by ordinary families too, but what kind of rich person would not keep luxury items in their wardrobe?

For example, she could have kept precious clothes that her husband had given her?

Or a wedding dress?

“It really is strange!”

Luo Feng nodded.

However, Luo Feng was not particularly perturbed by it.

He continued taking out the clothes from within the wardrobe.

So far, he had yet to discover any antique clothing which cost more than 100 thousand yuan.

“Hey, old man, is this a hidden layer? Why do I feel like there’s something underneath?”

After taking out the clothes, Luo Feng accidentally knocked on the bottom of the wardrobe.

He felt that the bottom of the wardrobe was hollow.

Thonk thonk thonk.

Wang Yousheng also stretched out his hand and knocked on the bottom a few time before answering, “Indeed, there’s a hidden compartment in there!”

“Shall we open it and take a look?” Luo Feng immediately suggested.

“I’d advise against it, Lil’ Luo. I feel like there’s a high likelihood that the compartment is empty, and if it truly is empty, you would’ve wrecked the wardrobe’s value.”

“It’s fine. It’s merely worth 200 thousand yuan. Even after it’s damaged, it is still worth well over 100 thousand yuan!”

Luo Feng waved his hand indifferently.

He immediately called out to Huang Tianba.

He asked him to prepare a set of tools.

Around three to five minutes later, Huang Tianba had returned with a saw and various other tools.

Luo Feng began to take action.

“Damn, you ain’t playing around, host!”

“lkr, how could he just saw open an antique worth over 200 thousand yuan like that?”

“This streamer is truly impulsive!”

Luo Feng cared not for his viewers’ complaints.

It took more than 20 minutes.

But at long last, he had removed the base of the wardrobe.

“There really is a hidden compartment!”

Luo Feng was overjoyed.

After all, he seemed to have made a winning bet.

[Ding! A purple sandalwood box!]

[Material: purple sandalwood!]

[Completeness: 100%]

...

[Value: 83 thousand yuan]

“Brothers, I’m about to strike it rich again!”

“This wooden box is made out of purple sandalwood!”

“The things inside must be worth their weight in gold!”

“Hahaha!”

Luo Feng laughed heartily.

The viewers all collectively held their breath.

This was an exciting moment.

“How shameless, to think that he would rummage through a woman’s safe!”

Meanwhile, Su Meiji had spent her entire afternoon glued to the stream.

As such, upon seeing this scene, she cursed at Luo Feng.

...

However, while part of her found Luo Feng’s actions distasteful, part of her was also curious about the contents hidden within the box.

The chest indeed looked like it was made of purple sandalwood.

If so, then its contents must surely be valuable.

It was not necessarily only men who hid their money.

Women do the same too.

...

...

Luo Feng took out the box from its hidden compartment.

The box was not locked, likely due to it being hidden.

Only the top and bottom metal box buckles were seen.

Luo Feng opened it with a lift of his hand.

“Wow, such beautiful clothes!”

Luo Feng’s eyes lit up the moment he saw the box’s contents.

Without much thought, he reached in and took out a piece of clothing.

Once the clothing was taken out, everyone could see that it shone a bright yellow color.

There were also some patterns on it.

“Wait a minute... Why is there a dragon embroidered on it?”

“Holy!?”

“Could it be a dragon robe!?”

Luo Feng shouted out loud.

The livestream’s chat instantly exploded.
