

# A World 1421

## Chapter 1421: 1 Shot

The battle platform of Broken Boundary Island occupies half the size of the Chaos World; the other half of the Chaos World is the seat for watching the battle.

Such a huge battlefield is almost bigger than all the continents of God's Domain put together! However, this is very normal in the endless chaos. After all, the fight between the chaotic realm powerhouses can easily spread to or even destroy the entire chaotic world; even if the battle platform is as large as half of the chaotic world, it must be blessed with countless formations. , in order to ensure that the battlefield, and even the entire chaotic world, will not be destroyed in the battle.

“Huh?” An elder from Broken Boundary Island passed by, “Why is the World of Hundred Battles so lively today?”

Every disciple of Broken Boundary Island has to go through a hundred \*\*\*\*\* battles on the battlefield, hence the name “World of Hundred Battles”!

The elder immediately flew to the World of Hundred Wars.

“Elder Tian!”

“Elder Tian!”

All the disciples hurriedly saluted. Even Bei Zhenheng on the battlefield bowed and saluted.

“Bei Zhenheng, are you fighting with someone?” Elder Tian asked.

“Yes!” Bei Zhenheng quickly explained his battle with Xu Ming.

After hearing this, Elder Tian couldn't help but frown slightly: “It's already dark, what about Xu Ming? Could it be that he doesn't dare to fight?”

A disciple next to him said: “Elder Tian, then Xu Ming must not dare to fight! He has to escape even the battle. Such a person is not qualified to be my disciple of the Broken Boundary Island, let alone a disciple of the inner island!”

“Yeah!” Elder Tian nodded and said, “I haven’t come to fight until now, so Xu Ming is indeed not qualified to be my inner island disciple of Boundary Island! As soon as today is over, I will immediately expel him from Boundary Island! ”

“Thank you Elder Tian for upholding justice!” Bei Zhenheng on the battlefield thanked him.

At the same time, Bei Zhenheng still had a trace of killing intent in his eyes, and he snorted coldly: “As long as Xu Ming is expelled from the Broken Boundary Island, it will be even easier for me to kill him!”

...

Night is getting darker.

In every chaotic world in Broken Boundary Island, day and night are the same.

Soon, only the last quarter of an hour was left on the day of the engagement; but Xu Ming still did not appear!

“Xu Ming, that trash, dare not fight!”

“Shame! It’s just a shame among the inner island disciples!”

“This person is not worthy of being my disciple of Broken Boundary Island!”

A disciple of the famous Duanjie Island, his mouth is not polite!

Only the Heavenly Sacrifice Star Lord argued, “No way! My brother Xu Ming must have been delayed by something, so he didn’t come!”

However, the words of the Heavenly Sacrifice Star Lord alone are too slim! In an instant, it was drowned out by the scolding of other disciples.

“Don’t dare to come, just don’t dare to come! How can there be so many excuses!”

“Tianji, you actually call yourself a brother-in-law with a trash who doesn’t even dare to fight? It seems that you are trash too!”

“Xu Ming definitely doesn’t dare to come! Let’s go!”

One after another, the disciples of Broken Boundary Island are preparing to disperse...

At this moment, a thunderous sound resounded throughout the world of Hundred Wars.

“Who said that I, Xu Ming, dare not fight?”

At the end of the sky, a figure stepped into the void, and in a blink of an eye, it was already standing on the battle platform.

“It’s Xu Ming!”

“he came!”

“How dare he come?”

All eyes were a little surprised.

Immediately, these surprised eyes turned into ridicule.

“What if you’re here? It’s nothing more than a death sentence!”

“That’s right! With Xu Ming’s strength, he dares to stand on the battlefield with Bei Zhenheng? It’s really beyond our own power!”

“I just don’t know how to live or die!”

“Oh? This Xu Ming actually dares to appear?” Elder Tian was also a little surprised; however, there was no sign of admiration on Elder Tian’s face, instead, he was very disdainful, “It’s just a death sentence!”

Elder Tian is quite familiar with Bei Zhenheng’s strength!

Among the disciples of the inner island, not many can defeat Bei Zhenheng; what’s more, is Xu Ming, a newcomer who has just been included in Broken Boundary Island?

...

“Oh? Xu Ming, how dare you come?” Bei Zhenheng gave Xu Ming a disdainful look and sneered, “If you don’t come, you can live a little longer!”

“There’s so much nonsense!” Xu Ming glanced at the other masters below the battlefield, including the elder Tian; finally, he set his eyes on Bei Zhenheng, “Can we start?”

“If you want to die early, of course you can start at any time!” Bei Zhenheng sneered, “Just do it!”

“Let me take the first shot?” Xu Ming glanced at Bei Zhenheng in surprise. In his opinion, Bei Zhenheng simply didn’t know whether to live or die!

You must know that Xu Ming’s strength is already stronger than Bei Zhenheng after his breakthrough in retreat and becoming a god! Moreover, Xu Ming has integrated the “Wandao Epiphyllum” marksmanship, and the explosive power is even more terrifying; this Bei Zhenheng dares to let Xu Ming shoot first, what is it if it is not courting death?

Bei Zhenheng had no idea that he was already walking further and further on the road of courting death.

He looked at Xu Ming with his hands behind his back, with a strong posture: “Yes, let you shoot first! If I shoot, you will never have a chance to shoot again!”

“Okay...” Xu Ming took a deep look at Bei Zhenheng who didn’t know whether to live or die. Since the other party was so polite, Xu Ming was also “disrespectful”.

Below the battle platform, there are also Bei Zhenhai and other Beizhen clan disciples, as well as the Waidao disciples under Bei Zhenheng’s vassal; seeing Bei Zhenheng’s elegant demeanor, they couldn’t help but say: “Look, this is the style of a strong man. !”

“With the strength of Senior Brother Bei Zhenheng, to deal with the mere Xu Ming, let alone let him take action first, but let him make ten or a hundred moves, what’s the harm?”

“Xu Ming’s shot this time is probably his last shot!”

Amid the chatter, Xu Ming had already taken out his spear!

“Even if you shoot!” Bei Zhenheng still stood with his hands behind him was light and cloudy, he didn’t take Xu Ming seriously at all. In his opinion, Xu Ming didn’t even have the qualifications to let him show off his weapons!

A trace of pity and ridicule flashed in Xu Ming’s eyes. What a terrible ignorance!

However, Xu Ming would not sympathize with his opponent! Since you are ignorant, then you will die!

One shot!

This gun seems to have no power at all; in fact, all the power is hidden in the gun, just waiting for the “short-lived” outbreak!

“It’s this trick again!” Bei Zhenheng’s mouth twitched in disdain. He had seen Xu Ming use this spear technique when Xu Ming entered the island for the assessment. In his opinion, Xu Ming’s marksmanship can only deal with the fifth-order Chaos Realm at most; for him, it can be broken with only one hand!

thought here. Bei Zhenheng reached out a hand disdainfully, wanting to directly catch the spear with one hand, so that Xu Ming would know what true power is!

“Silly x!” Xu Ming sneered in his heart that Bei Zhenheng was so stupid, making Xu Ming a little embarrassed to kill him!

Of course, if I’m embarrassed to kill, I want to kill!

boom!

The moment the spear touched Bei Zhenheng, the power hidden in the spear completely exploded!

It was short-lived and extremely fast, making Bei Zhenheng too late to react!

“What!?” Only then did Bei Zhenheng realize that Xu Ming’s shot was terrifying, but it was too late!

Bei Zhenheng saw that there seemed to be an incomparably splendid Epiphyllum that erupted at the tip of Xu Ming’s spear! And this is the beautiful picture Bei Zhenheng saw before he died!

The splendid Epiphyllum instantly devoured Bei Zhenheng’s divine body!

Under this momentary outbreak, the defenseless Bei Zhenheng looked extremely vulnerable! With just one shot, the divine body is completely annihilated, and the body is dead!

And this is far from Xu Ming’s full strength! Xu Ming didn’t even show the first form “One Thought” of “Seven Forms of Breaking the World” that he just realized!

Chapter 1422: Broken Boundary Island Lord

In a short period of time, Bei Zhenheng’s divine body completely disappeared, and not even a bit of scum remained.

“what!?”

“This...”

“This is impossible!”

...

Under the battlefield, there were faces of incomparable horror.

Xu Ming only fired one shot, and Bei Zhenheng died. That is to say, Xu Ming killed the existence of the seventh-order Chaos Realm in one shot!

“how can that be!?”

Everyone can't believe this scene, however, it really happened! Xu Ming really only shot one shot and killed Bei Zhenheng! Although this has something to do with Bei Zhenheng being too arrogant and not showing his full strength; however, even if it is replaced with another seventh-order Chaos Realm, it is absolutely impossible to kill Bei Zhenheng in such a situation!

In other words, Xu Ming definitely has the strength of the eighth-order Chaos Realm!

Even, it may have surpassed the eighth order of Chaos Realm!

“how so?”

Under the battlefield, the crowd of disciples watching the battle were all stunned. Almost all of them came to see how Bei Zhenheng ravaged Xu Ming! But in the end... Bei Zhenheng didn't even shoot, and he was killed by Xu Ming's gun!

“too strong...”

Xu Ming's strength is shocking!

Even Elder Tian was so shocked that the corners of his mouth trembled slightly. You must know that Xu Ming has just become a disciple of the inner island! Xu Ming's strength will never exceed one trillion years old!

At less than one trillion years old, he already has such strength; if Xu Ming is given an "epoch" time, he will not become the Xuanhuang realm! Moreover, it is still a super existence in the Xuanhuang realm, even... the prehistoric realm!

And you must know that this elder Tian, although he is an elder, looks like a coax! But in fact, among the many elders of Broken Boundary Island, he is only ranked at the bottom; in terms of strength, he is only the weakest first-order Xuanhuangjing!

"If you give this kid some time, maybe he can surpass me soon..." Elder Tian couldn't help but think, "And I was not very polite to this kid just now. If he holds revenge..."

Thinking of this, Elder Tian had a trace of fear!

Yes!

Xu Ming's formidable talent has reached the point where the elders of the Xuanhuang realm are afraid!

"Humph!" But then, Elder Tian hummed slightly in his heart, "As long as I don't provoke him in the future, forgive him and he won't dare to have any opinion on me!"

Thinking of this, Elder Tian quietly left the World of Hundred Wars.

...

"Brother Xu Ming..." The Star Lord of Tianji looked at Xu Ming standing proudly on the battlefield, and his eyes were full of admiration. He thought that he had already overestimated Xu Ming; The star master will find out that Xu Ming is far stronger than he imagined!

"This time...Brother Xu Ming has shown his full strength?" Star Lord Tianji couldn't help but think and told him intuitively that this was far from Xu Ming's full strength!

...

“Xu Ming!!”

Under the battlefield, Bei Zhenhai trembled with anger: “You... you actually killed Bei Zhenheng! You dared to kill Bei Zhenheng!”

Although Xu Ming killed Beizhenhe, you must know that in the Beizhen clan, the status of Beizhenhe and Beizhenheng is completely incomparable!

Beizhen River is only a first-order Chaos Realm with its potential exhausted; for Beizhen Clan, even if it dies, it will not be very painful!

But Beizhenheng is different!

Bei Zhenheng, but among the Beizhen clan’s contemporary, the most talented genius! It is the “quasi-core disciple” of Broken Boundary Island, and has the potential to become the Xuanhuangjing!

An existence that is very likely to become the Mysterious Yellow Realm in the future!

just so dead...

The ancestors of the Beizhen clan knew, and I am afraid that they will be mad with anger and tears of distress!

Xu Ming looked at Bei Zhenhai and other Beizhen clan’s disciples indifferently, and said, “On the battlefield, life and death matter! Since Bei Zhenheng wants to kill me, he must prepare for death!”

“You...” Bei Zhenhai was angry and anxious, “Wait! Wait to accept our Beizhen Clan’s anger!”

“Beizhen Clan’s anger?” Xu Ming sneered disdainfully, “I’m a disciple of the inner island of Duanjie Island. Could it be that... Beizhen Clan still dares to enter Duanjie Island to deal with me?”

Bei Zhenhai was suddenly dumbfounded!

yes! Compared with the “aircraft carrier” of Broken Boundary Island, Kita Shinji can only be regarded as a small boat!

“Not to mention...” Xu Ming continued to sneer, “After this battle, I should soon be able to become the core disciple of Duanjie Island, right? You little Beizhen clan, dare to disrespect the core disciple of Duanjie Island. It’s not difficult to destroy your Beizhen clan!”

The core disciples of Duanjie Island are the future successors that Duanjie Island has truly cultivated; their power is no less than that of some of the elders in the lower ranks!

As Xu Ming said, it is not difficult to destroy the Beizhen Clan with the power of core disciples!

“You...” Although the Beizhen Clan’s disciples were extremely angry, they were unable to refute at all;

Xu Ming, on the other hand, looked at the center of Broken Boundary Island with a far-reaching gaze, and thought to himself, “My shot should have attracted the attention of the upper management of Broken Boundary Island, right?”

The reason why Xu Ming killed Bei Zhenheng with such a high-profile shot is to get into the sight of the high-level officials of Duanjie Island as soon as possible become a core disciple as soon as possible!

Bei Zhenheng is just a stepping stone for Xu Ming to become a core disciple!

...

Broken Boundary Island, at the very core of the tens of thousands of chaotic worlds, one by one tyrannical and unbelievable super beings, each occupying a chaotic world!

A chaotic world is a cultivation place for a super existence.

An invisible wave swept across every chaotic world. Immediately, many super-beings in the retreat opened their eyes; only the super-beings in the retreat did not respond.

“Islander, what’s the matter?”

This invisible fluctuation originated from the current owner of Broken Boundary Island.

“There is a genius on the island! He has the potential of the Mysterious Yellow Realm!” The islander thought to sweep through the chaotic worlds, and he saw many geniuses with the potential of the Mysterious Yellow Realm; Genius, also seen a lot! Therefore, even though Xu Ming’s performance was very stunning, he could not arouse the excitement of the island owner.

Of course, this is also because the island owner doesn’t really know Xu Ming!

If he knew, Xu Ming had only cultivated for over a thousand years so far...

If he knew that Xu Ming had developed an “indestructible demon body” or a “ten thousand physique”...

If he knew, Xu Ming also hid the “Wandao Epiphyllum” and other means...

If he knew, Xu Ming even practiced the first form of “Seven Forms of Breaking the World”...

If the Island Master of Breaking the Realm knew about these things, then, his current tone could not be so plain! Too bad he doesn’t know that!

Boundary Island Lord General Xu Ming’s battle images, as well as some information, were passed to the minds of every super existence; then he said, “With such a talent, you can start the assessment of core disciples, right?”

“Absolutely!”

“Absolutely!”

One by one super-existent, without any hesitation, replied.

Chapter 1423: Sub-Question

“Senior Brother Xu Ming!”

“Senior Brother Xu Ming!”

...

Broken Boundary Island, in the World of Hundred Wars.

A disciple from the outer island and disciple from the inner island, looking at Xu Ming, no longer ridiculed before, but all full of awe. The address for Xu Ming has also become “Senior Brother Xu Ming”!

“Ha!” Xu Ming smiled disdainfully and walked straight off the stage.

These awe and pleasing eyes, more or less, have offended Xu Ming; however, Xu Ming is too lazy to care about them! – Just a bunch of ants! With the ants, what is there to care about?

“This is a world where power is respected!” Xu Ming couldn’t help but sigh again.

Whether it’s the world of dust, the realm of the gods, or even the endless chaos... Only power comes first!

Before Xu Ming showed his strength, the entire Broken Boundary Island was mocking him and waiting to see his jokes; but now, Xu Ming showed his strength a little, and he immediately became the object of admiration for all the disciples on the outer islands and the inner islands. !

“But... I’m still too weak!”

Xu Ming was not complacent at all—because now, those who fear him are just ants!

“With my current strength, I can’t help Han Mo at all!” Xu Ming couldn’t help sighing in his heart, “If I had enough strength, it would be more than letting Han Mo be hunted down by the enemy and living in endless chaos...”

Xu Ming’s eyes gradually became firm!

“I must grow up as fast as possible!” Xu Ming vowed secretly, “I want to make those who fear me, not just these ants! I want to make the existences in the Xuanhuang realm, the prehistoric realm, and even beyond the prehistoric realm. All fear me; by then, maybe I will be able to help Han Mo!”

With this firm belief, Xu Ming left the World of Hundred Battles directly, preparing to go back to practice.

However, just after Xu Ming left the World of Hundred Battles, an elder in black came to him.

“Xu Ming!” The black-clothed elder had a look of admiration in his eyes, “You are talented, and the island owner has ordered to start the core disciple assessment for you!”

Core disciple assessment?

Xu Ming was instantly overjoyed – he showed his strength and defeated Zhenheng in seconds, wasn’t that what he was doing?

As long as you become a core disciple, you can use the chaos teleportation array to go to the more prosperous depths of endless chaos!

Xu Ming knows very well: The more prosperous the place, the more resources will be, and the more masters will be!

Compete for better training resources, and learn from the masters – in this way, the strength will increase rapidly!

“How to assess?” Xu Ming asked, looking at the black-clothed elder.

“Come with me!” said the black-clothed elder.

Soon, the black-clothed elder brought Xu Ming to a desolate, chaotic world.

“This is...” Xu Ming saw that the entire chaotic world was depicted as a chessboard—a chessboard comparable in size to the entire Divine Realm!

What surprised Xu Ming even more was that he was very familiar with this chessboard! It is exactly the same as the chessboard of “Jietian Chess Game”!

Moreover, on both sides of this chaotic world, there are many huge black and white chess pieces; each piece is comparable to the size of a divine city in the realm of the gods.

“Could it be...” Xu Ming suddenly had a premonition.

Sure enough, Xu Ming’s hunch was right! The black-clothed elder said: “This chess game is called the ‘Jietian Chess Game’! If you can solve 30,000 games in one trillion years, then you have passed the assessment of the core disciples!”

“It’s really a chess game!” Xu Ming was really speechless when he assessed this core disciple!

Let Brother Ming solve the “Jie Tian Chess Game”?

Do not blow! —Even if the Island Master of the Broken Boundary comes, he may not be able to solve it better than Xu Ming!

For Xu Ming, this core disciple assessment is completely a question of “send points”! If Xu Ming is willing, he can solve all 30,000 innings in minutes!

“Don’t think that a trillion years is a long time!” The black-clothed elder said, “This assessment is still very difficult! Otherwise, we wouldn’t have only dozens of core disciples in Boundary Breaking Island. !”

“Uh...” Xu Ming could only agree casually, but what he thought in his mind was: ignorance is really scary!

“I’m still very optimistic about you!” The black-clothed elder said again, “You cherish your time and solve the chess game well! I’ll go first!”

Watching the black-clothed elder leave, Xu Ming couldn’t help but think: “If I destroy all the Xietian chess games now, I’m afraid it will scare the great powers of Broken Boundary Island...”

Xu Ming decided to keep a low profile!

“But... no matter how low-key I am, I will only delay for a few decades at most, and I will unlock all 30,000 rounds!”

Xu Ming didn’t want to waste too much time on solving the chess game in order to keep a low profile!

“I hope that when the time comes, the great masters of Broken Boundary Island will not be frightened by me!” Xu Ming secretly said.

At the same time, Xu Ming thought to himself: “Duanjie Island and Cangqiongmen are really incomparable! – Solving the 30,000th game, in Cangqiongmen, they are only the outermost ‘Tsing Yi disciples’; while in Duanjie Island, but can directly become a core disciple!”

Just from the quality of “accepting disciples”, it can be seen that Broken Boundary Island is far worse than Cangqiongmen by more than one or two levels!

and...

You must know that Xu Ming was in the realm of domination, so he solved 30,000 innings before being granted the “Qingqiongmen Tsing Yi Order”!

But now, the assessment of Broken Boundary Island is obviously aimed at the existence of Chaos Realm – that is to say, if you can crack 30,000 rounds of Chaos Realm, you can become a core disciple.

Although, the time limit for the assessment of Broken Boundary Island is relatively tight, only one trillion years; unlike the sky gate, there are several epochs of assessment time! But it can still be seen that Broken Boundary Island is much worse than Heaven’s Vault Gate!

This made Xu Ming even more determined. He wanted to find Cangqiongmen as soon as possible, and he couldn't waste time on Broken Boundary Island!

Xu Ming sat down with his knees crossed and thought to himself, "I'd better pretend to be comprehending the chess game of understanding the sky first! Of course, when pretending, you can't waste time, just in time to comprehend "Breaking the World" The second type of "Seven Forms" 'Time Wall'! Also, I have to think about how to create my own defensive secrets and movement secrets..."

Xu Ming intends to use the time of "comprehension" to study secret skills!

If the high-level officials of Broken Boundary Island knew what Xu Ming was thinking, I really don't know how they would feel...

Of course Xu Ming didn't bother to think about what the senior management would think. At this time, he had already sunk into his mind and started to study the "time wall"!

"The time wall is purely a means of defense! If I can fully understand this trick, then my defense can definitely go to a higher level!"

Soon, Xu Ming devoted himself to cultivation.

The mystery of the time wall was completely understood by him.

You must know that even the successive Island Masters of Breaking the World are definitely not as good as Xu Ming in the practice of "Seven Forms of Breaking the World"! -Xu Ming can complete the incomplete "Seven Forms of Breaking the Boundary", which the previous island owners of Breaking the Boundary can't do!

Chapter 1424: Talent Is So Bad!

Just when Xu Ming was distracted to comprehend the "time wall", many high-level officials of Broken Boundary Island were paying attention to Xu Ming.

“I don’t know if Xu Ming can pass the test and become a core disciple!”

“Not necessarily! After all, there have always been too many talented geniuses who failed to pass the core disciple assessment in the end!”

“But I feel that Xu Ming’s hopes should be relatively high!”

“Look!”

Everyone in the Mysterious Yellow Realm is quietly paying attention to the chaotic world where Xu Ming lives; however, they don’t know that Xu Ming is not studying how to crack the “solving the chess game”, but is pondering other things!

“Look at how fast he cracked the first game!”

“Yes! How fast you can crack the first game, you can basically infer the result!”

All the powers are paying attention to Xu Ming.

Soon, a year has passed.

Xu Ming still sits cross-legged, as quiet as a virgin, as stable as Mount Tai!

“Um?”

The high-level people of Broken Boundary Island are a little disappointed!

“It’s been a year, and Xu Ming still doesn’t move!”

“Can’t solve a game in a year? This talent... is too bad, right?”

“Yeah! It’s much slower than those who failed the assessment!”

“Could it be... Xu Ming’s talent is average? To be able to have the current strength at such a young age, it all depends on chance?”

Endless chaos, no wonder! If there is a big chance, even a mortal may become a Chaos Realm in a short period of time!

Therefore, seeing that Xu Ming couldn’t solve a game in a year, the executives of Broken Boundary Island couldn’t help but question Xu Ming’s talent!

“Looking at this trend, he has no hope of passing this assessment!”

...

Another three years passed.

Xu Ming remained motionless!

“This...”

The high-level people of Broken Boundary Island are all speechless. I have seen slow, never so slow!

“I originally wanted to see how he solved the game! Now it seems that it is a complete waste of time!”

For the existence of Xuanhuangjing, time really has little meaning!

Sometimes, if you just practice casually, or take a nap, hundreds of millions of years will pass! Therefore, these high-level officials of the Boundary Island originally planned to watch the whole process of Xu Ming’s solution! Even if it takes a trillion years, it is only a very short time for them!

But now, four years later, Xu Ming still can’t solve the first game! Immediately, everyone at the top lost interest.

“It seems that this Xu Ming can’t become a core disciple!”

“I’m still expecting him to shine... Still don’t watch it! Practice!”

“Let’s go! I’ve fallen asleep too! I’ve been stuck in the bottleneck for a long time! After a deep sleep, my mind will become clearer, and maybe I can open the bottleneck...”

Disappointed powers, whether cultivating or falling into a deep sleep, no longer pay attention to Xu Ming’s situation.

Only Elder Jun, who was in charge of the “Island Entry Assessment”, was still a little unwilling to give up: “This Xu Ming’s talent has no reason to be so bad! I can’t be wrong!”

Anyway, the years are boring, so Elder Jun will be patient and continue to watch!

Look, it’s another six years!

“It’s been ten years!” Elder Jun looked at Xu Ming in disbelief, “It’s been ten years! I can’t even solve a game... Xu Ming’s talent must be so bad!”

Elder Jun is the only one who is still paying attention to Xu Ming’s assessment!

In the core disciple assessment, only one elder paid attention; speaking of it, this may be the coldest one among the countless core disciple assessments on Broken Boundary Island!

And now, Elder Jun is too lazy to continue watching.

“Don’t watch it, don’t watch it! I overestimated Xu Ming!” Elder Jun was finally ready to give up his attention.

But at this moment, Xu Ming, who had not moved for ten years, suddenly moved!

“Well... it’s been ten years!” Xu Ming felt the passage of time, and secretly said, “It’s really timeless to practice! Just practice casually, and it’s actually been ten years!”

Xu Ming just sighed casually!

You must know that even a star-level god, or even a weaker demigod; a retreat is a hundred times, a thousand times longer than “ten years”!

“Ten years of retreat can be considered a gain! The second style of “Breaking the World”, the second style ‘time wall’, I have already touched the doorway!”

But... it’s just a touch of the doorway!

The second type “Time Wall” is much more difficult than the first type “One Thought”! Also, there are more mutilated parts!

It was incredible that Xu Ming could find the doorway in such a short period of time!

“correct!”

Xu Ming suddenly remembered: “I’m just thinking about the ‘time wall’, and I haven’t even solved a game of Xie Tian chess!”

Since it’s an assessment, Xu Ming still has to put on some looks!

“One game first?” Xu Ming shook his head, “It’s too slow to solve one game in ten years! Then... let’s play three thousand games first!”

For Xu Ming, cracking the “Jie Tian chess game” naturally has no difficulty! After all, Xu Ming has already solved the 103,600 chess games to solve the sky!

Xu Ming’s majestic mental power instantly covered the entire chaotic world After that, the mental power was divided into hundreds of millions of tentacles, and at the same time, it grabbed hundreds of millions of chess pieces as huge as “God City”!

Hundreds of millions of chess pieces suddenly floated over the chaotic world, as if hundreds of millions of divine cities were flying! Such an incredible power is completely unimaginable in God’s

Domain! However, with Xu Ming's current strength, it is naturally easy to control hundreds of millions of chess pieces as huge as a city of gods!

Even if Xu Ming wants to completely destroy a chaotic world, he only needs one shot!

"Compared to the Heaven-solving chess game in the Dark Domain, this game is too simple and rough!" Xu Ming secretly said.

Really rough!

"I'm afraid... the limit of this chess game is to solve 30,000 games, right?" Xu Ming estimated, "At the beginning of the 30,001 games, the power has risen sharply! Such a rough chess game can't bear the ultimate goal. Weird!"

Of course, Xu Ming didn't need to think about what to do with 30,001 rounds; because he only needed to solve 30,000 rounds!

"go!"

Swish! Swish! Swish! Swish! ...

Hundreds of millions of chess pieces as huge as the city of gods, like cannonballs, smashed into all parts of this chaotic world! Every chess piece appears precisely at a point!

"rise!"

Xu Ming runs the chess game, and the evolution of the Supreme Dao is presented on the chess game!

Xietian chess game, the first game, break!

"Finally solved the first game..." Elder Jun watched silently, "The solution is perfect, even I can't find a single flaw! It's just... ten years to solve a game, it's too slow! It's so slow! The speed of solving the game, he can't pass the test!"

“Forget it, forget it! Don’t watch it!” Elder Jun was about to withdraw his spiritual sense, but he was too lazy to read it.

But at this moment...

Elder Jun saw that Xu Ming actually controlled hundreds of millions of chess pieces again!

“Huh?” Elder Jun was stunned, “This kid, does he want to... solve two games in a row?”

Chapter 1425: Core Disciple

“This kid, does he want to... solve two games in a row?”

Elder Jun was a little surprised.

You must know that cracking the “Resolving the Heavenly Chess Game” is done one game at a time; no one chooses to solve two games in a row, at least Elder Jun has never seen it before.

However, how does Elder Jun know that for Xu Ming, solving two games in a row counts?

Back then, when he was in the dark realm, Brother Ming almost solved 103,600 rounds in one breath, so shocked that the saints and others doubted life! However, Saint Wudi and others have never seen the world; therefore, I don’t know what Xu Ming’s terrifying speed of solving the game means.

“Will he succeed?”

The idea of Elder Jun has just arisen... Xu Ming has already controlled hundreds of millions of chess pieces, cracking the second game in a hurry!

“Yo!” Elder Jun suddenly became interested, “Two games in ten years, this speed is still slow! But... He can solve two games in a row, which shows that his talent is still good!”

Elder Jun was thinking that Xu Ming had already started to crack the third game!

“What!?” Elder Jun was even more startled, “He didn’t want to solve two games in a row, but wanted to solve three games in a row?”

Do not!

Because Elder Jun had just a thought, Xu Ming had already started to solve the fourth game!

too fast!

Xu Ming’s solution speed was much faster than Elder Jun’s “shock”!

Five innings!

Ten rounds!

Fifteen innings!

...

Elder Jun has been shocked and a little numb!

Originally, Elder Jun had some doubts about Xu Ming’s talent; now, he finally had to admit that Xu Ming had the talent to become a core disciple!

“It’s been thirty-five rounds! Even if Xu Ming stops here, it’s already a very good result! Ten years, thirty-five rounds, and it’s still a ‘lian solution’ that I’ve never seen before!”

But then, Elder Jun saw that Xu Ming never stopped!

One hundred rounds!

Two hundred rounds!

Five hundred rounds! ...

When Xu Ming's solution had reached five hundred innings, Elder Jun was so shocked that he was stunned and doubted his life!

"When I solved the game, I only solved fifty games in ten years... Xu Ming's talent is at least ten times stronger than mine!"

Ten times stronger?

More than that!

Immediately, Xu Ming has already solved a thousand games!

At this time, Elder Jun finally realized Xu Ming's talent, it was terrifying!

"Hurry up and tell the island owner!"

The Island Master of Breaking the Boundary was still paying attention to Xu Ming at first, but later, seeing that Xu Ming has not resolved the situation; gradually, he stopped paying attention.

"Island Master, look at Xu Ming, it's incredible!" Elder Jun's terrifying consciousness, which spanned hundreds of thousands of realms, directly transmitted his voice to the Island Master of the Broken Boundaries.

"Amazing?" The Island Master Broken Boundary was about to fall asleep when he received a voice transmission from Elder Jun, and couldn't help but sneer, "After such a long time, the first game could not be cracked, and it's still 'wonderful'?"

Elder Jun continued: "Island owner, you can see if you look at it!"

"Oh?" The Island Master of Broken Realm looked directly at Xu Ming; when he saw it, he was stunned, "This is... 1300 rounds? How could..."

“Yes! One thousand three hundred games!” Elder Jun said in disbelief, “One thousand three hundred games in a row!”

“What! Even the solution!?” The Island Master of the Broken Boundary was also shocked, “It’s only been ten years...”

“Could it be... Xu Ming has cracked the Heaven-solving chess game before?” Elder Jun couldn’t help asking.

“It should be!” Broken Boundary Island Lord nodded, “Only in this way can he explain why he can solve more than a thousand games in a row! But... it doesn’t matter whether he has solved the Heaven-solving chess game or not before; his age was originally It’s small, as long as he can solve 30,000 rounds within a trillion years, then he is qualified to become a core disciple!”

“Yeah!” Elder Jun nodded to the rules of Broken Boundary Island, that’s true! It doesn’t matter if you have solved the Jietian chess game before!

“Look at it!” Originally, the island owner of Boundary Boundary was already disappointed with Xu Ming; now seeing Xu Ming’s outbreak, he suddenly became interested again!

Xu Ming sparked with lightning all the way, and didn’t stop until he solved three thousand innings!

Afterwards, Xu Ming pretended to sit down and continued to sit cross-legged, pretending to be thinking about how to solve the next chess game.

“He has definitely cracked the Heaven-solving chess game before!” The Island Master of Breaking the Realm said with great certainty, “Otherwise, it would be impossible to solve 3,000 games in a short period of ten years!”

“Well!” Elder Jun also said, “He should be recalling now, how to solve the next chess game!”

The Island Master of Broken Boundary said with a smile: “I have been in contact with the Xietian chess game. This Xu Ming either has some origins, or has a lot of chance!”

“It should be the latter!” Elder Jun said, “After all, if he really has a great background, I’m afraid he won’t come to our Broken Boundary Island!”

“That’s right!” said the island’s owner, “The ability to set up a chess game to solve the sky will not be worse than ours! If you have a background, you won’t come to us!”

“I’m afraid I don’t know how long it will take him to practice this time!” Elder Jun said again, “Island Master, otherwise, you should practice first; if there is a situation, I will tell you as soon as possible!”

“No need!” said the Island Master, “It’s not that much of a cultivation time! At my current level Even if I cultivate for hundreds of millions of years, it is difficult to make any progress; just take a look at it. Look, what’s so special about this kid!”

At the level of the Island Master of Breaking the Realm, even if it is hundreds of millions of years, it will be like a flick of a finger!

...

Xu Ming’s second practice lasted for 30 years!

Because he has already found the doorway of the “Time Wall”, Xu Ming has practiced quite smoothly in the past 30 years and has mastered the essence of the “Time Wall”!

“With just a few tests, you should be able to successfully display the ‘time wall’!” Xu Ming secretly said.

Of course, Xu Ming didn’t dare to experiment here! If it is known to others that he has practiced the fragments of “Seven Forms of Breaking the World” that no one has ever mastered, there will definitely be some troubles.

Xu Ming doesn’t want to be troublesome, so it’s better to keep a low profile!

and...

Endless chaos, extremely dangerous! Only the more cards you have in your hand, the more confident you will be!

“Seven Styles of Breaking the Boundary” is undoubtedly Xu Ming’s great trump card!

“Since the ‘time wall’ is almost finished, let’s go out first!” Xu Ming secretly said.

Moreover, Xu Ming has spent 40 years in this core disciple assessment! Xu Ming didn’t want to waste more time on it!

So, in the next step, Xu Ming directly solved the 30,000th game under the shocked eyes of the Island Master and Elder Jun, and successfully passed the assessment of the core disciples.

“Xu Ming!” Elder Jun’s voice transmission sounded directly in Xu Ming’s mind, “You are now a core disciple! Three days later, the island owner will summon you, so be prepared!”

“Island Lord summoned?” Xu Ming was vaguely expecting.

The island owner of Broken Boundary, but the existence of “suspected to be in the prehistoric realm”! Moreover, Xu Ming estimates that if you want to use the Chaos Teleportation Formation, I am afraid that you have to go through the Island Master of Breaking the Realm!

Chapter 1426: Rank 5 Power

Boundary Island.

Tens of thousands of chaotic worlds, condensed into a large vortex array, slowly rotating, shining like a galaxy.

The place where the Broken Boundary Island Lord usually lives is a chaotic world that shines like a diamond at the core.

This chaotic world is said to be a powerful treasure in itself; in terms of value, it is even higher than tens of thousands or even hundreds of thousands of ordinary chaotic worlds!

If the island master of Broken Boundary urges this “treasure of the chaotic world”, it can mobilize the vortex array formed by tens of thousands of chaotic worlds in an instant, and absorb the power of the endless chaotic void to defend against the enemy!

With this treasure of the chaotic world, coupled with the secluded corner of Broken Boundary Island, it can also dominate the range of millions of realms, and no one dares to provoke it!

Three days later.

Xu Ming stepped into this chaotic world.

As soon as the soles of his feet touched the earth of this world, Xu Ming felt his spirits lifted: “It’s a strange feeling! If I can cultivate in this chaotic world for a long time, my cultivation speed should be able to improve a lot!”

Of course, Xu Ming was just thinking about it casually! If you bury your head in cultivation, you will only slowly wipe out your ambition and fighting spirit; only by constantly rushing and comprehending the Way through warfare, can you go further on the road of cultivation!

“Come on!” A very casual voice came from the front.

At the same time, the immortal mist that was lingering in front of Xu Ming gradually branched out to both sides. At the end of the road, a middle-aged man with brows like a sword was quietly making tea.

There were two teacups in front of the middle-aged man, one was prepared for Xu Ming!

“I’ve seen the island owner!” Xu Ming cupped his hands from a distance.

“Come and sit!” The middle-aged man was the Island Master of the Broken Boundary. Although his aura was unusually cold, his words were very kind.

Xu Ming walked over and sat down.

The island owner of Broken Boundary was brewing tea, and very calmly asked Xu Ming some irrelevant questions: “Have you been used to these days on Broken Boundary Island?”

“Uh...” Xu Ming was a little speechless. He didn’t expect that the Island Master of Boundary Boundary would ask such a trivial question, as if he was here to talk about his family life.

However, Xu Ming understands that this is likely to be a way for the Island Master to win over people’s hearts.

“Not bad!” Xu Ming drank casually.

Three rounds of tea.

Suddenly, the eyes of the island owner of Broken Realm became extremely sharp, as if to see through all Xu Ming’s secrets: “Xu Ming, where did you come from?”

Although the Island Master of Broken Boundary did not deliberately use his aura to oppress Xu Ming, he still made Xu Ming feel a lot of pressure! After all, the Island Master of the Broken Realm is an existence that is “suspected to be in the prehistoric realm”; the difference between Xu Ming and him is like an ant and a giant dragon!

However, Xu Ming was not nervous, and said truthfully: “I was born in a very remote chaotic world. In that world, there was no star master! I got some fortunes before I achieved this achievement!”

“Yeah!” The Island Master of Broken Boundary put away his stern expression and nodded lightly. The reason why he used his aura to oppress Xu Ming was because he didn’t want to hear Xu Ming telling lies. And now, what Xu Ming said was exactly the same as what he had guessed!

“Sure enough, he didn’t come from other forces!” Broken Boundary Island Master secretly rejoiced.

Compared with geniuses from other powers, the island owner of Broken Boundary prefers “indigenous people” like Xu Ming.

The first is because the potential of “indigenous geniuses” is higher. Without the cultivation of major forces, they have achieved achievements that are not inferior to those of the geniuses of major forces; talent and potential are obvious!

The second is because the loyalty of “aboriginal genius” is higher because, if it is a genius cultivated by other forces, even if the original force is not as good as Broken Boundary Island, for example, it is at the level of “Northern True Clan”, or even weaker The level of the “Abyss of Ten Thousand Dragons”; however, more or less the previous forces will be attached to the heart! It is even possible to regard the original power as more important than Breaking the Boundary Island!

And Xu Ming is an “indigenous genius”, which makes the island owner of Broken Boundary like it very much!

only...

What the Broken Boundary Island Master didn't know was that although Xu Ming was an “indigenous genius”, he had already obtained the Golden Clothes Order of Cang Qiong Sect and was the core disciple of Cang Qiong Sect!

And Cang Qiongmen, and Broken Boundary Island have a feud that is close to destroying the door! If it weren't for the Cangqiangmen, Broken Boundary Island was a superpower that dominated one side, so how could it be so downcast as it is now!

If the Island Master of Broken Realm knew that Xu Ming was the core disciple of Cang Qiongmen, then what he wanted to do most now would be to trample Xu Ming to death.

It's a pity that the Islander of the Broken Boundary doesn't know.

“Have you solved the Jietian chess game before?”

“Yes!” Xu Ming said.

“How many games have you solved?”

“Almost 38,000 rounds!” Xu Ming randomly reported the number of rounds.

“Oh?” The Broken Boundary Island Lord’s eyes suddenly lit up, “You are less than a trillion years old! You can solve 38,000 rounds at a young age. It’s amazing! It’s amazing!”

The Island Master of the Broken Boundary boasted again and again.

Fortunately, the Island Master of Breaking the Realm didn’t know Xu Ming’s real age, which was hundreds of billions of times younger than he imagined! Not to mention, Xu Ming’s real number of clears was not 38,000 games, but... 103,600 games were all broken!

But even so, it has already made the island owner of Broken Boundary cherish a genius like Xu Ming very much!

“Xu Ming, I don’t deceive you!” The island owner of the Broken Boundary said directly, “With your talent, it is not difficult to join a larger force than ours! However, even if you go to other bigger ones The power is definitely not as good as staying on the Broken Boundary Island!”

“Oh?” Xu Ming put down the teacup and looked at the Island Master of the Broken Boundary with some doubts.

However, Xu Ming understood it very well in his heart; the reason why the island owner of Broken Boundary told himself this was that he wanted to “brainwash” himself, gain his loyalty, and let himself stay on Broken Boundary Island forever.

However, the owner of the Broken Boundary Island did not know that even if he made a hype about it, Xu Ming would not be able to stay on the Broken Boundary Island forever. If nothing else, the identity of “Golden Clothes Disciple of Cangqiongmen” is probably even more honorable than his identity as “Islander of Boundaries”!

“Why is this?” But on the surface, Xu Ming was still listening.

“Because...” Broken Boundary Island Master said confidently, “Boundary Boundary Island can give you much better growth conditions than other forces!”

The Island Master of Breaking the Boundary paused and continued: “If you join those larger forces, I am afraid that you may not be able to become their core disciple; in terms of cultivation resources,

you will not be able to cultivate with all your strength! And... in the practice method In terms of secret skills, our Broken Boundary Island is definitely much stronger than those of other forces!”

There are more training resources and stronger secret techniques; the island owner of Breaking the Boundary will not believe it, Xu Ming will not give up and stay on the island of Breaking the Boundary!

“Don’t think that Broken Boundary Island is only a third-rank force now! Think of it as a fifth-rank force when our Broken Boundary Island was at its peak!”

Chapter 1427: Brainwashing

Three-level power?

Fifth-grade power?

Xu Ming was a little puzzled.

He really doesn’t know anything about the power level in the endless chaos.

Seeing Xu Ming’s expression, the island owner of Broken Boundary couldn’t help but be more and more sure that Xu Ming was an “indigenous genius” who had never had much contact with the outside world!

“I’ll tell you about the division of forces in the endless chaos!” The Island Master of Boundary Broken said with a smile.

Xu Ming also immediately became interested.

He has long wanted to know about the division of forces in the endless chaos! As now, when Xu Ming travels through the endless chaos, he always feels that his eyes are darkened; even if he has the star map of the beginning of time, he cannot intuitively feel how vast the endless chaos is.

The Island Master of the Broken Boundary took the tea, and popularized it: “In the endless chaos, the higher the power level, the stronger it is! And... the power gap between two different levels is

like a slash in the sky! High-level power Power, with almost no effort, can crush a low-level power!”

Xu Ming listened carefully.

“The lowest-level power is a first-grade force!” said the master of the island, “The minimum requirement for a first-grade power is to have a chaotic realm to sit in! And like those chaotic worlds that only have star masters and no chaos realm, even the first-grade is counted. No, it can only be said to be a ‘no-quality force’!”

“Uh...” Xu Ming knew that the original God Realm didn’t even have a star master, and I am afraid that it is at the bottom of the “Wupin forces”!

Even now, Xu Ming was born; however, God’s Domain is only a very ordinary first-rank power! Of course, Gu Hanmo couldn’t be counted.

“Second-rank powers, you need to have Xuanhuangjing in charge!” Broken Boundary Island Lord continued to explain, “For example, the ‘Beizhen Clan’ within our jurisdiction of Broken Jie Island is a second-grade power!”

“Yeah!” Xu Ming nodded. He remembered the “Star Casting Realm” he had traveled to through the “Wanjie Mall System” before!

“I remember that although there are many saints and star masters in the Star Casting Realm, there are not many Chaos Realm! At most, I am afraid it is only a second-grade force! If there is no Xuanhuangjing, it may even be a first-grade force!”

At the beginning, when Xu Ming went to Casting Star Realm for the first time, he was shocked by the prosperity of Casting Star Realm! But in the blink of an eye, in Xu Ming’s view, the star-casting world was no different.

“Three-rank forces, you need to have a prehistoric realm!” When the island owner said this, he smiled secretly. He said before that Duanjie Island is a third-grade power; it is equivalent to admitting that there is a prehistoric realm in Duanjie Island. Strong! Moreover, it is very likely that the island owner of Boundary Broken Realm himself is the powerhouse of the Great Desolate Realm!

Floodland!

In Xu Ming's eyes, what a distant term! But now, seeing the island owner of Broken Boundary sitting with him drinking tea; Xu Ming felt that the prehistoric realm didn't seem to be anything special!

If Xu Ming's idea was known to the Island Master of Boundary Breaking, I don't know if he would die of anger! The Island Master of Broken Boundary expressed vaguely that he was a strong man in the prehistoric realm, and wanted to shock Xu Ming; but in the end, he was not shocked, but was despised by Xu Ming in his heart.

"Now you know, how big is the gap between the powers of each rank?" Broken Boundary Island Master laughed, "And our Broken Boundary Island used to be a fifth-rank power!"

The gap between the third-grade power and the fifth-grade power is like the gap between the same-grade power and the third-grade power!

At the end, the island owner of Broken Boundary added: "Even the entire Chaos Kingdom is only a fourth-grade force!"

The entire Chaos Kingdom is only a fourth-grade force?

Xu Ming finally felt a little bit how powerful Broken Boundary Island used to be!

However, no matter how powerful it used to be, isn't it still a third-grade force?

Of course, the owner of the island of Breaking the Boundary did not know what Xu Ming was thinking, and he said proudly: "Now, do you know the strength of our Island of Breaking the Boundary? Although we encountered a great disaster on the island of Breaking the Boundary, we almost wiped out the sect; The background of Jiedao is still there!"

Speaking of this, there was a trace of anger in the eyes of the island's owner: "If it weren't for the gate of the sky, why would we have fallen to this point?"

When Broken Boundary Island was at its peak, why was it so invincible? However, it is said that at the peak of its prosperity, it was slapped flat by the Cangqiangmen... It's like slapping a mosquito.

And the reason why Broken Boundary Island has not been completely destroyed, and still has a little power to survive, is entirely because... Other people's Cangqiongmen disdain to destroy them!

"Xu Ming, you are already the core disciple of our Broken Boundary Island!" The main subject of Broken Boundary Island said earnestly, "If you encounter a disciple of Cangqiongmen in the future, you must..."

"Killed?" Xu Ming couldn't help but ask that he was the golden-clothed disciple of Cangqiongmen! If he is going to kill a disciple of Cang Qiongmen, does he have to kill himself first?

"Kill?" When the island owner of Broken Realm heard this word, his face changed greatly, "No no no! How to kill? How can you kill?"

"Eh?" Xu Ming wondered.

The Island Master of Broken Boundary said: "The power of Cangqiongmen is so powerful? If we kill their disciples, we will be able to find out soon and trace them; when the time comes, Cangqiongmen will destroy us. It needs to be turned between the palms! Not to mention... the disciple of Cang Qiongmen, do you think you killed it?"

do not kill?

"Then what should I do?" Xu Ming couldn't help asking.

The subject of Broken Boundary Island said earnestly: "Remember, you must go around and hide far away! Also, you must not show disrespect and hatred to the disciples of Cangqiongmen!"

"Uh..." Xu Ming was speechless.

But after thinking about it, I finally felt the power of the sky gate! Powerful enough, even if the Broken Boundary Island was almost destroyed, the Broken Boundary Island would not dare to show hatred!

“Qingqiongmen, what kind of power is it? Even the Broken Boundary Island in its heyday can’t resist the Cangqiongmen!” Xu Ming couldn’t help but think to himself Xu Ming even wanted to call himself “Cangqiongmen” The identity of “Golden Clothes Disciple” is revealed to be dazzling, but after thinking about it, forget it. After all, Xu Ming has never been to Cangqiongmen, and the power of Cangqiongmen probably doesn’t know his existence! If he shows off his identity and is cleaned up by the island owner of Broken Boundaries, it is very likely that the sky gate will not know anything!

All in all, Xu Ming’s identity as a “golden clothed disciple” is still in the dark, so it shouldn’t be high-profile!

Next, the island owner of the Broken Boundary Island bragged about the brilliance and heritage of the Broken Boundary Island!

If Xu Ming is really just an “indigenous genius” who has never seen the world, maybe he has been successfully “brainwashed” by the owner of the island, and he has given up on the island since then.

However, Xu Ming’s secret identity is the golden-clothed disciple of Cang Qiong Sect, and of course he cannot be brainwashed; on the contrary, when Xu Ming heard the brainwashing words of the island owner, he felt that he was... selling out!

“Xu Ming, you are talented and have a promising future! As long as you cultivate well, I will definitely try to cultivate you at all costs; maybe, you will be the next Island Master of Boundary Breaker! You must work hard...” The Island Master of Breaking the Boundary spared no effort to brainwash Xu Ming, “...I hope that in the future, our Island of Breaking the Boundary can flourish in your hands! I don’t want to become a sixth-rank force that overlooks endless chaos like Cang Qiongmen! The ranks of the rank forces, oh no, as long as you become a fourth rank force like Chaos Kingdom, it is also infinite glory...”

In the face of the boasting and brainwashing of the Island Master, Xu Ming could only laugh and pretend that he was listening carefully.

Suddenly, Xu Ming thought of a question: “Island Master, have you heard of the power of the ‘Eternal Palace’?”

Daughter Xu Yin was taken to the “Eternal Palace” by Gu Hanmo!

However, Gu Hanmo only left the three words “Eternal Palace”, and did not tell Xu Ming where the “Eternal Palace” was!

## Chapter 1428: Apologize

“Eternal Palace?” The Island Master of Broken Boundary looked at Xu Ming.

“Yes!” Xu Ming nodded.

“I haven’t heard of it!” said the Island Master of Broken Boundary, “I have basically heard about the powers above the fifth rank; however, I have never heard of the ‘Eternal Palace’! Maybe... just a small power!”

Small power?

Xu Ming didn’t think so much!

As far as the means Gu Hanmo showed, it was simply incredible! – Pause time, travel through the past and the future; these means, even in the prehistoric realm, or even stronger powerhouses, are impossible to show!

Gu Hanmo took Xu Yin to the Eternal Hall, how could it be a small force?

The Island Master of Broken Boundary looked at Xu Ming’s expression, saw Xu Ming’s disbelief, and said, “There is another possibility, and that is... the forces of foreign demons!”

“Extraterritorial demons?” Xu Ming was surprised.

The island owner of Broken Boundary said solemnly: “External demons are ferocious by nature. They often invade the Chaos Kingdom and slaughter hundreds of millions of chaotic worlds! If it is the power of extraterritorial demons, of course I would never have heard of it!”

Will the Eternal Hall be the power of foreign demons?

Xu Ming vaguely felt that no.

But since the Broken Boundary Island Master had never heard of the Eternal Hall, Xu Ming didn't have much to ask.

"What are you doing inquiring about Eternal Hall?"

Xu Ming said casually: "It's nothing! It's just that when I was traveling in chaos, I occasionally heard of this force, so I asked."

The Island Master of Breaking the Boundary didn't have any doubts, but just warned: "If it is the power of foreign demons, it is best not to inquire about it, so as not to lead to disaster!"

"Yes!" Xu Ming said.

"If there is nothing else, then step back first!" said the Island Master.

Xu Ming hesitated for a moment and asked, "Island Master, I want to ask, if I become a core disciple, can I use the Chaos Teleportation Formation?"

"Huh?" Broken Boundary Island Lord glanced at Xu Ming suspiciously, "Are you going to use the Chaos Teleportation Formation? Where are you going?"

Xu Ming had already thought about his words and said, "When I was traveling in the endless chaos, I longed for the Chaos Kingdom for a long time, and I wanted to see it!"

The island owner of Broken Boundary took a deep look at Xu Ming and said with a smile: "Guodu is indeed full of geniuses and innumerable creations; you can look forward to it, but it's normal! But... your current strength is too weak to go to Guodu! Feilong Any genius on the list is much stronger than you! Even many geniuses who can't make it to the Flying Dragon List can easily crush you!"

Between the words of the island owner of the Broken Boundary, it is obvious that he is not optimistic about Xu Ming!

“And... the cost of opening a chaotic teleportation formation is extremely high!” Broken Boundary Island Master said again, “You want to make a special trip to the capital, you can’t afford this price! Wait for the next time, the island will go to the capital to do business. When the time comes, I’ll take you to see and see!”

wait for next time?

Xu Ming couldn’t help asking: “When was that?”

“It won’t be long!” Broken Boundary Island Master said, “It’s as long as tens of billions of years, and as short as a few million years!”

Millions of years, tens of billions of years, for the existences of Chaos Realm and Xuanhuang Realm, it is indeed not a long time, like a flick of a finger! However, when Xu Ming heard this, he wanted to vomit blood!

Xu Ming couldn’t help but ask, “How high is the price of a single teleportation?”

“Heh!” Seeing that Xu Ming wanted to “enter the city” early to see, the owner of Broken Boundary Island said with a teasing smile, “It’s not very high, a million chaotic origin stones!”

“I...” Xu Ming was speechless.

One million Chaos Originium!

That is one million chaotic worlds!

This is also called “not very high”?

The island owner of Broken Boundary said indifferently: “It’s normal! Broken Boundary Island is too far away from the capital! The Chaos Teleportation Array wants to tear apart such a long distance for teleportation, and it needs a lot of energy to support it!”

Xu Ming stepped back silently.

Millions of years, or even tens of billions of years?

Millions of Chaos Originium?

Xu Ming couldn't help but want to fly to Chaos Capital by himself!

However, Xu Ming knew that since the teleportation would cost millions of Chaos Originium, it would definitely be more difficult for him to fly to the Chaos Capital than to get a million Chaos Originium!

Moreover, looking at the instructions on the star map at the beginning of time, Xu Ming knew that if he flew slowly with his own strength, he might not be able to fly to the Chaos Capital in tens of billions of years!

“Endless chaos, it's too vast...” Xu Ming couldn't help but sigh.

It was so vast that Xu Ming felt terrified!

“Still find a way to earn a million pieces of Chaos Originium!”

...

Beizhen Clan's lair is within the control of Broken Boundary Island.

Tens of thousands of chaotic worlds have formed a great array of stars! – Of course, the quality of these chaotic worlds and the level of the star formation are far inferior to those of the Broken Boundary Island!

“What!? Bei Zhenheng was killed?” The ancestor of the Beizhen clan, “Beijing Xuanyi”, got the news just after he left the customs, and he was immediately furious!

Tens of thousands of chaotic worlds trembled together, as if the heavens and the earth were collapsing!

Beizhenhai and Beizhenhe died. To be honest, although Beizhen Xuanyi was angry, he was not very distressed!

But Bei Zhenheng is different!

Bei Zhenheng, but there is hope to become the existence of Xuanhuangjing, and may even be the future successor of their Beizhen clan!

“Even if the one who killed Bei Zhenheng was the Inner Island disciple of Duanjie Island, I will definitely avenge this revenge!”

Beizhen Xuanyi still didn’t know that Xu Ming was already a core disciple of Broken Boundary Island; otherwise, he would never have the courage to say these words.

“What happened to the inner island disciple? Didn’t he come out to practice? – As long as he came out to practice, he would be killed! Thinking about it, it is impossible for Broken Boundary Island to spend a lot of money to track down the murderer for an inner island disciple!”

Beizhen Xuanyi gradually restrained his momentum, looked around at the powerful Beizhen clan, and asked, “Who will arrange this matter?”

The members of the Beizhen clan hesitated for a while, and a short, thin man with cold eyes stood up and said, “I’ll come!”

“Well!” Beizhen said mysteriously, “Don’t leave any traces! You can’t let Broken Boundary Island be easily traced! Otherwise, there will be trouble!”

“I understand!” said the gloomy man.

But at this moment, Beizhen Xuanyi received a message, and his face suddenly changed; there was even panic in his expression.

“Ancestor?” All the masters of the Beizhen clan were a little puzzled, not knowing what happened to the ancestor.

Bei Zhen Xuanyi was terrified and said quickly, “Cancel the assassination of Xu Ming!”

“Ancestor, why is this?” The gloomy man asked puzzled.

The future successor of the Beizhen clan died, and the Beizhen clan didn’t even let go of a fart?

Beizhen Xuanyi’s eyes were filled with fear: “Xu Ming is already... the core disciple of Broken Boundary Island!”

“what!?”

“Become a core disciple so soon? How is that possible!?”

All the great powers of Kita Shinji are also shocked!

Generally speaking, to become a core disciple, it takes a long time to crack the Jietian chess game!

“Yeah! He has become a core disciple so soon!” Beizhen said with a profound meaning, “With the speed at which he became a core disciple, he will definitely be held by Duanjie Island as a treasure; even, it is very likely that it will be regarded as the future of Duanjie Island. ‘s successor!—Let’s assassinate a successor of Boundary Island? Looking for death?”

The death of an inner island disciple and the death of a core disciple are completely two concepts!

What’s more, Xu Ming is likely to be the leader among the core disciples!

Let alone the assassination of Xu Ming, the Beizhen clan has already begun to worry that Bei Zhenheng and Bei Zhenhai have offended Xu Ming!

“The position of a core disciple in Broken Boundary Island is no less than that of an elder, and he has great power! If a core disciple is dissatisfied with our Beizhen Clan and insists on destroying our Beizhen Clan; then, the army of Broken Boundary Island, It is very likely that it will enter our Beizhen Clan’s lair!” Beizhen Xuanyi said in horror.

After all, as a third-rank force, Broken Boundary Island, wanting to crush a weak second-rank force like the Beizhen clan, is really as easy as stepping on a bug!

As soon as they heard that Xu Ming had become a core disciple, the Beizhen clan immediately fell into infinite panic.

This is the power of the core disciples of Broken Boundary Island!

Offending the core disciple is very likely to destroy the sect!

Moreover, Duanjie Island also intends to allow the core disciples to maintain this power! In this way, the deterrent power of Broken Boundary Island to the control range will be even greater!

“What should I do now?” All the great masters of the Beizhen clan panicked.

Beizhen Xuanyi gritted his teeth and said, “I’ll bring the apology in person and apologize to Xu Ming! As long as we show enough apology, Broken Boundary Island should not embarrass us!”

## Chapter 1429: Lion Open Mouth

“Hahaha, Beizhen Patriarch, why do you have time to come and sit here? Rare guest, really rare guest!”

Broken Boundary Island, leading the world, Elder Jun laughed, very enthusiastic. However, deep in his eyes, there was a trace of disdain.

Obviously, in Elder Jun’s heart, he doesn’t think much of Beizhen’s mysterious meaning – even if he is the ancestor of the second-rank force “Beijing”.

“Elder Jun, it has been several epochs since the last time Qiongmang Mountain parted!” Beizhen Xuanyi also laughed.

Qiongmang Mountain is a secret realm in the endless chaos.

A few epochs ago, in Qiongmang Mountain, a strange treasure was born; Elder Jun and Beizhen Xuanyi both went in and explored.

“In the depths of the Chaos Thunder Sea, I picked a stalk of Primordial Thunder Tea and brought it to drink with an old friend!” Beizhen said mysteriously, “Elder Jun won’t refuse guests, right?”

“Ancestor Beizhen, you are here, should you have other things?” Elder Jun teased and said, “Please come in!”

Beizhen Xuanyi is the leader of the second-rank forces, although Elder Jun doesn’t look down on him very much, he still needs to give some face.

Soon, the two of them sat down.

“Elder Jun, I really envy your days!” Beizhen Xuanyi said sincerely, “On the island of Duanjie, you are carefree; unlike me, I am surrounded by family trivial matters, and I can’t feel at ease in my practice!— Back then, I stepped into the Mysterious Yellow Realm earlier than you; now, you are already at the third rank of the Mysterious Yellow Realm, but I am still hovering at the first rank of the Mysterious Yellow Realm!”

Elder Jun said indifferently: “I have a lot of trivial matters in Broken Boundary Island; however, the cultivation environment of Broken Boundary Island is much better than the outside world! The third-order Xuanhuangjing, among the elders of Broken Boundary Island, is only It’s just the bottom, not worth mentioning!”

Although Elder Jun’s tone was indifferent, the pride in his words was obvious.

Beizhen Xuanyi looked at Elder Jun enviously: “If I can become the elder of Broken Boundary Island, that would be great!”

“You? Don’t think about it!” Elder Jun proudly said, “It must start from the Chaos Realm or before the Chaos Realm, and grow up to the Xuanhuang Realm on my Broken Boundary Island before you can become an elder! Like you, although it is Xuanhuang Realm, At most, I can only be a guest elder!”

The status and power of guest elders and elders in Broken Boundary Island are very different!

“Hey...” Beizhen Xuanyi obviously knew this, he sighed and changed the subject, “Elder Jun, I’m here this time to ask you to be a middleman!”

Elder Jun anticipated the other party’s intention, and said, “You mean Xu Ming, right?”

“Yes!” Beizhen said with mysterious meaning.

Elder Jun suddenly restrained his smile and said coldly, “Patriarch Beizhen, although you are leading the Beizhen clan, you are on one side! However, you also know the fate of offending the core disciples of Duanjie Island!”

Elder Jun knew that Beizhen Xuanyi was here to apologize to Xu Ming; therefore, his remarks also contained threats. In this way, when we negotiate later, we can also strive for more benefits for Xu Ming.

After all, help inside or outside!

Beizhen Xuanyi smiled helplessly and said, “That’s why I came to ask Elder Jun to act as a middleman, hoping to get Xu Ming’s understanding!”

This is the deterrent power of the core disciples of Broken Boundary Island!

Even if it was Xu Ming who killed the Beizhen clan, the ancestor of the Beizhen clan would come back and apologize!

This is the world where strength is respected!

“Okay! For the sake of you and I’ve known each other for many years, I’ll give you a face and be the middleman!” Elder Jun said.

Soon, Elder Jun came to the chaotic world where Xu Ming was with Beizhen’s profound meaning.

As a core disciple, Xu Ming was directly given a chaotic world as a place to live and practice.

“Xu Ming!” Elder Jun introduced, “This is the ancestor of the Beizhen clan, Beizhen Xuanyi!”

While speaking, Elder Jun also sent a voice transmission to Xu Ming: “Xu Ming, this old boy is here to apologize, don’t be polite to him, just let the lion speak!”

“Uh...” Xu Ming was a little surprised.

Elder Jun said through voice transmission: “The core disciple is the treasure of our Broken Boundary Island, and there is no room for provocation! Whether he intends to offend you or not, he must pay the price! – Don’t worry, the entire Broken Boundary Island, It’s all yours!”

“Then, look, how much apology is more appropriate for me to ask?” Xu Ming asked.

Elder Jun thought for a while and said, “Just ten middle-grade Chaos Origin Stones! He is a first-order Xuanhuang Realm, and ten middle-grade Chaos Origin Stones are enough for his flesh to hurt!”

Chaos Originium is also graded!

A middle-grade chaotic source stone is equivalent to 10,000 low-grade chaotic source stones!

A middle-grade chaotic world created with a middle-grade chaotic source stone is also ten thousand times more precious than a lower-grade chaotic world like God’s Domain!

Like the chaotic world where Xu Ming lives and cultivates now, it is a middle-grade chaotic world!

At this time, Beizhen Xuanyi also clasped his fists at Xu Ming and said, “My Beizhen clan’s children have eyes but don’t know Mount Tai, and offended Brother Xu Ming! You are visiting today, and I hope you can get Brother Xu Ming’s forgiveness!”

Saying that, Beizhen Xuanyi handed over a world ring.

Before Xu Ming could take it, Elder Jun said in a cold voice, “Less! Only 30,000 low-grade Origin Stones of Chaos, how about sending beggars?”

Beizhen Xuanyi was startled, but he still held back his grievance and looked at Xu Ming: “Brother Xu Ming, please report the number!”

Xu Ming said lightly, “Ten middle-grade Chaos Origin Stones!”

The corners of Beizhen Xuanyi’s mouth trembled—he was only at the first rank of the Xuanhuang realm; ten middle-grade Chaos Origin Stones, to him, were already cutting flesh!

But even if he cut the meat, Beizhen Xuanyi could only take it with gritted teeth.

“Okay!” Beizhen Xuanyi handed over a world ring again.

There are ten Chaos Originiums in it.

Xu Ming took it unceremoniously, but he thought to himself: It seems that it is not bad to be the core disciple of Broken Boundary Island! Relying on this identity, Bai took ten middle-grade Chaos Origin Stones!

Xu Ming knew that if he didn’t become a core disciple, he wouldn’t be able to get the apology; killing the Beizhen clan’s children without getting revenge would be very good!

“I also ask Brother Xu Ming to expose this matter!” Beizhen said again with mysterious meaning.

Elder Jun said by the side: “Don’t worry, since I have received your apology, I will not make trouble for your Beizhen clan again.”

“Thank you!” Beizhen Xuanyi knew that this matter was over.

Having said that, Beizhen Xuanyi handed the world ring containing 30,000 low-grade Chaos Origin Stones that had been given to Xu Ming before to Elder Jun: “Thank you, Elder Jun!”

Elder Jun disliked it a little and said, “You should also make an apology to Xu Ming!”

Of course Xu Ming would not be polite and accepted it happily.

Murder and get compensation, cool!

...

After leaving Broken Boundary Island, Beizhen Xuanyi didn't have much anger in his heart; more, he felt sad for being weak!

"The reason why I have to bow my head and apologize today is all because my Beizhen clan is not as strong as Broken Boundary Island! One day, I will let my Beizhen clan stand proudly in endless chaos and no longer be deceived!"

Of course, Beizhen Xuanyi knew that if he wanted to "stand proudly in endless chaos", he was still far away!

So far that he can't find his way!

"If there is any opportunity, I must seize it! Even if it is to sell myself to a foreign demon, I will not hesitate!" Deep in Beizhen Xuanyi's heart, there is madness, "When... The humiliation received must be paid back tenfold, a hundredfold!"

only...

There are so many great powers with crazy ideas like Beizhen Xuanyi! However, how many of them can betray themselves to foreign demons?

Chapter 1430: Enhance Strength

After the ancestor of Beizhen left.

Xu Ming made a lot of money and was in a good mood!

Ten middle-grade chaotic origin stones and 30,000 low-grade chaotic origin stones—for Xu Ming, this is definitely a huge sum of money!

You must know that before Xu Ming, there were only a few chaotic origin stones scattered here and there.

“Thank you, Elder Jun!” Xu Ming thanked him.

If it wasn’t for Elder Jun, Xu Ming might not have been able to get such a large apology so smoothly!

“Small thing!” Elder Jun laughed, “Even if I don’t show up, Beizhen old ghost will definitely ask other elders to come forward and apologize to you! – You are now a core disciple, and your status on the island is not at all. Not lower than me!”

Elder Jun’s attitude towards Xu Ming was very kind.

Although Xu Ming’s strength is still far inferior to Elder Jun, his status on the island, a core disciple, is really no lower than that of an ordinary elder.

Moreover, in terms of potential, Xu Ming is much stronger than Elder Jun! – After all, Elder Jun is only the bottom of the elders of the Broken Boundary Island; if it is not the bottom, he will not be assigned to “watch the gate”.

The status is the same, and Xu Ming’s potential is even better; Elder Jun will naturally not put on airs when facing Xu Ming.

“Xu Ming!” Elder Jun said with a smile, “I think in the future, don’t call me ‘Elder Jun’, just call me ‘Jun Ya’!”

Elder Jun took the initiative to reveal the meaning of making friends.

Xu Ming naturally wouldn’t refuse anyone, so he smiled and said, “Okay! Brother Junya!”

“Brother Xu Ming! Haha...”

...

Send away Elder Jun.

Xu Ming happily counted the Chaos Originium.

Before, Xu Ming never thought that the Beizhen Clan would take the initiative to offer compensation; this Primal Chaos Origin Stone can definitely be regarded as a windfall!

“Ten middle-grade chaotic origin stones are equivalent to 100,000 low-grade chaotic Originium stones!” Xu Ming secretly said, “In this way, I already have 130,000 low-grade chaotic Originium stones! And open the chaos teleportation array, teleportation To go to the capital, one million low-grade Chaos Origin Stones are needed!”

It’s still 870,000 yuan!

However, Xu Ming would not be a miser, guarding the Chaos Origin Stone in his hand!

Chaos Originium, it is better to become “strength”!

The stronger the strength, the faster the Chaos Origin Stone can be earned!

“Cultivating directly with the chaotic source stone is a good choice!”

You must know that Xu Ming’s cultivation is only at the level of a saint!

And the Origin Stone of Chaos is a treasure that many Chaos Realm existences are not willing to use for cultivation! The use of Chaos Origin Stone at the sage level will waste a lot of energy; the energy that can really be absorbed, there is no one in a hundred!

There are almost no saints who would practice cultivation in such an extravagant way!

However, Xu Ming didn't feel sorry for the Chaos Originium at all. Anyway, as long as the strength becomes stronger, there is a chance to earn the Origin Stone of Chaos!

“absorb!”

Xu Ming directly inhaled a low-grade Chaos Originium into the divine body and slowly digested it.

At the same time, Xu Ming also placed a few low-grade Chaos Origin Stones at the core of the mind world to cultivate the mind school.

Xu Ming's cultivation in the mind force school is only the dominant level; if the mind force school can also be improved, then Xu Ming's strength will definitely soar again!

“The matter of cultivation can only be figured out slowly, not in a hurry!” Xu Ming secretly said.

If this idea of Xu Ming is known to other practitioners, I am afraid there will be the urge to hit the wall!

In just a few thousand years, he has cultivated from an ordinary person to the level of a saint! Such a cultivation speed, how embarrassed to describe it as “slowly figure it out”?

If Xu Ming is “slowly drawing”, then what are other practitioners? Their countless billions of years of ascetic cultivation, didn't they all cultivate on the dog?

Xu Ming continued to think: “Also, it's not all about cultivation to improve your strength! It's time to upgrade the functions in the plug-in!”

Xu Ming only upgraded to level 5 for various plug-in functions such as “invincible by leaps and bounds”, “life and death”, and “inscription of the ultimate way”; because, starting from level 6, it takes level 15 to be able to upgrade!

And the low-grade Chaos Origin Stone is used to exchange for level 15 hanging points!

Xu Ming checked the plug-in function.

“‘Invincible by leaps and bounds’, from level 5 to level 6, you need 100 points and 15 points! To level 7, add 1,000 points of 15 points! To level 8, add 10,000 points to level 15 hang up...”

Other plug-in functions are basically the same.

In this way, Xu Ming’s hanging points at hand can only upgrade various plug-in functions to level 8 for the time being; because if you upgrade to level 9, you will need hundreds of thousands of points to level 15 hanging points, and you can only upgrade one function, upgrade. Other features are not enough!

“Then let’s go to level 8 first!”

Of course, Xu Ming chose the most cost-effective strength strengthening route!

Say it goes up!

“Leaps the level invincible” hang, directly from level 5 to level 8! From the original “invincible at level 11”, it has become “invincible at level 14”!

It’s so terrifying, it’s not enough to describe the perversion of the plug-in!

“Life or death” hangs up, rise to level 8!

“To Dao Inscription” hangs up and rises to level 8!

...

In the 8th-level Zhidao inscription, the functions of various inscriptions have become more abnormal!

Inscription of Defense: Ignore all attacks below Chaos Realm! Chaos level attacks, .com attenuates 70%! Attacks at the Profound Yellow Realm and above can also be reduced by 50%!

Attack Inscription: During the attack, the power of chaos damages that ignores defense, and there is a probability of “2 to 10 times the critical strike”!

tyrannical!

Very tyrannical!

“Eternal Power” hung, Xu Ming also wanted to change to a more powerful soul. However, in order to summon a soul possessed by the ultimate Chaos Realm, one million points are required for level 15 hanging points, and Xu Ming is still far behind!

If there are so many level 15 hanging points, Xu Ming may not upgrade the plug-in for the time being, but send it to the capital first!

“My current strength...”

Xu Ming felt it.

Before the plug-in upgrade, Xu Ming’s strength was already comparable to the eighth order of Chaos Realm!

Now, after several plug-in functions have been upgraded, his strength is more than the ninth order of Chaos Realm?

Even with bare hands, can you easily crush all Chaos Realm?

“If you use the ‘Seven Forms of Breaking the Realm’, I don’t know if you can fight the Xuanhuangjing?”

Xu Ming didn’t have much confidence.

Chaos Realm, Profound Yellow Realm, Prehistoric Realm, every realm is separated by a moat!

Even if Xu Ming is confident, his current strength is absolutely invincible in Chaos Realm!  
However, I dare not say that I can shake the powerhouse of the Xuanhuang realm!

The gap between Chaos Realm and Xuanhuang Realm is comparable to the gap between Saint and Chaos Realm!

This gap is almost insurmountable!

However, Xu Ming is not in a hurry – even if he can't get over it for the time being, when his cultivation level increases a little or two, won't he easily get over it?

"I must hide my cultivation!" Xu Ming secretly said, "Otherwise, if I let others know that I am still a first-order saint, with such a strong strength, there will definitely be trouble!"
