

A World 1771

Chapter 1771: Besieged

Cultivation has no time.

From the “Illusory Self Realm” to the “Real Self Level 1”, Xu Ming felt that it was just a snap of time; but in fact, more than 30,000 years have passed!

The main continent of Eternal Battlefield is full of voices about Xu Ming.

“Where’s Xu Mingren?”

“How come he disappeared after entering the main continent? Could it be that he was scared to hide because he knew that there were many strong men going to besiege him?”

“The first-ranked powerhouse on the Immemorial All Things Ranking is so timid!”

“Maybe... Xu Ming has secretly left the battlefield of Eternal Age!”

“Haha! If he really left the Eternal Battlefield, it would be a joke!”

“Don’t be careless! Xu Ming is definitely still in the Eternal Battlefield and has not left! If he leaves the Eternal Battlefield, it is impossible not to be known by others!”

“Not bad! Xu Ming must be hiding somewhere, and he wants to wait until not many people surround him to kill him before killing him!”

...

Xu Ming, who was in retreat, naturally did not know that the entire main continent, the powerhouses who participated in the besieging and killing of him, had reached a million!

Not only the seventh quadrant besieged him, all the other quadrants except the second quadrant had already participated in the besieging and killing of Xu Ming under the guidance of some kind of force.

Xu Ming didn't show his face, but it was miserable for the powerhouses in the second quadrant. After all, the powerhouses in the other seven quadrants all acted in large groups; while the powerhouses in the second quadrant acted in small groups, they were naturally easily bullied. .

In desperation, the powerhouses in the second quadrant can only act in groups.

After more than 30,000 years, Xu Ming has not appeared, but there have been many battles between the various groups.

...

"Phew... out of customs!"

Breaking out, the strength has soared. Xu Ming felt that the world he saw had become a little different.

"Uh?" Suddenly, Xu Ming's expression changed slightly, "Isn't it? It's such a coincidence?"

When Xu Ming broke through the barrier, he didn't observe the surrounding situation; after all, with his strength, he didn't need to observe whether there was any danger around him, even if there was an enemy, he could just step on it to death!

Therefore, when the level was broken, Xu Ming discovered that there was a team of more than 5,000 strong men not far from him. Judging from their aura, they should be strong men in the sixth quadrant.

Needless to say, Xu Ming also knew that these powerhouses were definitely here to surround and kill him.

The more than 5,000 powerhouses in the sixth quadrant naturally discovered Xu Ming who suddenly appeared !

“This is...”

“Xu Ming!?”

“We found Xu Ming!?”

“kill!!”

The powerhouses in the sixth quadrant were a little bit unbelievable for a while; when they realized that it was Xu Ming, they aggressively killed Xu Ming.

When the more than 5,000 strong men in the sixth quadrant were killing Xu Ming, they felt that more than 5,000 evil wolves were rushing towards Xu Ming, a fierce tiger! No matter how strong the tiger is, it cannot hold back the number of wolves!

But in fact, in Xu Ming’s eyes...it felt like there were more than 5,000 little ants crawling towards him!

Xu Ming can trample all these little ants to death with just one lift of his foot!

“More than 5,000 people are a lot of points!” However, Xu Ming resisted the urge to trample them to death. After all, if Xu Ming killed these more than 5,000 strong men easily, other strong men might He was too frightened to besiege Xu Ming again, or even escaped from the main continent; in that case, Xu Ming would have picked sesame seeds and lost the watermelon!

With the points of more than 5,000 powerhouses, Xu Ming still doesn’t like it!

“Since you can’t kill it immediately, then first...show the enemy to be weak!” Xu Ming instantly had an idea, that is to run!

Xu Ming hardly hesitated, turned around and ran.

Moreover, when escaping, Xu Ming also deliberately controlled his speed, so he couldn’t be much faster than the powerhouses who were chasing him. After all, the main purpose of escaping was to

attract more powerhouses to besiege him! Xu Ming couldn't let the powerhouses who besieged him lose him!

But... Xu Ming's escape, in the eyes of the powerhouses in the sixth quadrant, felt like a no-brainer!

yes!

The siege of more than 5,000 strong men!

Even if you are the number one powerhouse on the Primordial All Things Ranking, do you dare not escape?

Suddenly, the powerhouses in the sixth quadrant became more and more murderous!

“kill!”

“Xu Ming, don't think about escaping! You can't escape!”

call out! call out! call out! call out! ...

The overwhelming attack also swept towards Xu Ming, trying to reduce Xu Ming's speed and even hurt Xu Ming.

At the same time, these more than 5,000 powerhouses also sent a message to the other powerhouses in the sixth quadrant: “We are chasing Xu Ming, come and help to encircle and suppress!”

Soon, the hundreds of thousands of powerhouses in the sixth quadrant who participated in the siege of Xu Ming knew about Xu Ming's escape trajectory.

“kill!”

“Let's stop Xu Ming together!”

“Xu Ming will not die for a day! Our powerhouses in the sixth quadrant will not be at ease for a day!”

“Don’t let Xu Ming escape from the main continent! Kill Xu Ming, but you can get a lot of bonus points!”

“Yeah! No. 1 in the Primordial All Things List! As long as you kill every strong person who participates in the siege will probably get a good share of the pie!”

“Haha! Yes! It’s better not to let the powerhouses in the other quadrants know about it! We’d better share this cup in the sixth quadrant!”

...

But, how can there be an airtight wall in the world?

In particular, in this pursuit, the sixth quadrant dispatched hundreds of thousands of strong men; such a movement would naturally be impossible to hide from the eyes and ears of the other quadrants!

“The sixth quadrant has found Xu Ming’s trace!”

“Go! Let’s go besiege Xu Ming together!”

“Yes! You can’t let the sixth quadrant swallow the reward points!”

It didn’t take long for Xu Ming to be besieged and killed in the seven elephants. Millions of powerhouses gathered towards Xu Ming from all directions, as if making dumplings.

In fact... if it was just the ordinary “Immortal All Things List” powerhouse entering the Eternal Battlefield, it wouldn’t cause such a big sensation at all. After all, even though there are a lot of reward points for killing an ordinary Taikoo Ranking powerhouse, it is very limited, and the attraction is simply not enough to inspire a crowd.

But Xu Ming is different! Xu Ming is “No. 1 in the Primordial All Things List”, and the reward points for killing him are very terrifying! In addition, someone deliberately helped fuel the flames behind the scenes, and this was the grand occasion of a million powerhouses besieging and killing Xu Ming!

You must know that every one of these million powerhouses is the strength of the sky list! Moreover, it is still at the top of the ranking list!

With such a powerful army of millions, thinking about it makes people feel that the scalp is too numb!

And Xu Ming, how strong should he be to be besieged and killed by a million army?

Chapter 1772: Imminent Death?

Second quadrant.

One World.

Zhenyu County.

The powerhouses here are the top beings in the entire First Layer world; each one is at the level of the Heavenly Ranking.

Although many strong people in Zhenyu County did not dare to enter the Wangu battlefield, but now that such a big thing happened in the Wangu battlefield, the news naturally spread all over Zhenyu County.

“What? Xu Ming is being hunted down by a million powerhouse?”

“It’s dead! A million-strong! One spit can drown Xu Ming, right?”

“What the **** did Xu Ming do in the Eternal Battlefield? Would it attract the pursuit of millions of powerful people? I’m afraid... Many powerhouses who have been lurking in the Eternal Battlefield for a long time have joined the pursuit, right? ”

Xu Ming really didn't do much in the Eternal Battlefield!

It's just that the title of "No. 1 in the Primordial All Things List" is too valuable; all the powerhouses want to kill Xu Ming and earn some points.

"The pursuit of a million powerhouses... Xu Ming, who has just been born in the sky, is the first in the list of ancient things, is it about to fall into the battlefield of the ancients?"

"The wood is beautiful in the forest, and the wind will destroy it!"

Just hearing that Xu Ming was being hunted down, all the powerhouses in Zhenyu County felt that Xu Ming would definitely die!

No one knew that Xu Ming was actually deliberately trying to lure the powerhouses in the "Anomalous Quadrant" to hunt him down!

After all, once Xu Ming made a move, the powerhouses in the abnormal quadrant would be too frightened to chase after Xu Ming again; moreover, they would all spread out and hide. In that case, it would be very difficult for Xu Ming to slaughter the "extraordinary quadrant" powerhouses on a large scale!

There is only one chance for Xu Ming to make a move!

Therefore, Xu Ming must take advantage of this shot opportunity, try to attract as many "abnormal quadrant" powerhouses as possible, and then make a shot.

...

The main continent of the eternal battlefield.

Xu Ming's figure quickly cut through the void, looking a little "flustered". The great powers chasing after him have reached more than 50,000!

"Xu Ming, stop struggling!"

“You are already in a tight siege. No matter which direction you flee, it is impossible to escape! Hahahaha... Let’s be honest and kill us!”

“Xu Ming is worthy of being the number one existence on the Primordial All Things List! Being chased and killed by so many of us, how can he endure for so long!”

“It’s just a grasshopper in the autumn! It won’t last long!”

“No. 1 in the Primordial All Things Ranking... Although you are only participating in the pursuit, you should be able to reward a lot of points!”

In the eternal battlefield, there are rules set by superpowers; killing opponents of different strengths will reward different points depending on the situation.

Every powerhouse who has entered the battlefield of eternity is for points. Usually, in order to obtain points, which time is not a life and death fight? Now, just chase and kill Xu Ming, there will be a lot of reward points, don’t be too happy!

“A bunch of idiots!” Xu Ming looked at the strong men who were chasing him behind him, sneered disdainfully, his eyes were even more indifferent, “Since you want to kill me, then prepare to be killed by me!”

In the battlefield of eternity, there is no need to show mercy to the enemies of the “anomalous quadrant”; what’s more, everyone who chases and kills Xu Ming has a murderous intention for Xu Ming; Xu Ming will naturally be even less polite.

“Huh?” Xu Ming suddenly realized that there were also tens of thousands of strong men intercepting him, and they were rushing towards him.

“Go!” Xu Ming changed direction without hesitation, and continued to escape with the help of his “slight” speed advantage.

The powerhouses who were chasing after Xu Ming originally came from the sixth quadrant; but now the ones who were intercepted in front of Xu Ming were from the seventh quadrant.

The sixth and seventh quadrants are also enemies.

After the two armies met, they naturally became wary of each other immediately.

“Everyone in the sixth quadrant!” The number of powerhouses in the seventh quadrant is small, and they are temporarily at a disadvantage, so they took the initiative to say, “Today, we are only chasing Xu Ming, not fighting!”

“Okay!” The powerhouses in the sixth quadrant did not hesitate to reach the point that although they had more than 50,000 powerhouses, they completely crushed the seventh quadrant in number; but they also knew that they really wanted to eat the seventh quadrant. I’m afraid there will be a price to pay! What’s more, the powerhouses in the other quadrants are also approaching rapidly; in such a situation, the sixth quadrant does not dare to start the battle lightly.

As a result, the powerhouses in the sixth and seventh quadrants, after a brief exchange, unified their spearheads and hunted down Xu Ming together.

Not long after Xu Ming “escaped”, he encountered a group of strong men who were intercepted by the fifth quadrant.

Continue to change direction to escape!

Keep changing direction, keep running away!

Of course Xu Ming found that every time he changed directions, the interval became shorter and shorter! This means that his activity space is being compressed smaller and smaller!

The big encirclement is rapidly shrinking!

However, Xu Ming did not panic in the slightest, instead a wicked smile evoked the corner of his mouth: “There are more and more powerhouses surrounding us, and we are about to break through the million mark! It’s almost time to close the net!”

The “Perspective Quadrant” powerhouses who surrounded Xu Ming thought they were about to close the net; but in fact, Xu Ming was about to close the net!

call out! call out! call out! call out! ...

The rhythm of Xu Ming's change of direction is getting faster and faster. There are already overwhelming powerhouses all around him!

Xu Ming finally fell into a tight siege, and there was no way to escape!

“Hahahaha! Finally surrounded!”

“Xu Ming, I see where you can escape now!?”

Except for the second quadrant, the powerhouses in the other seven quadrants all joined forces to surround Xu Ming.

In the second quadrant, there are also more than 100,000 strong people who have arrived nearby. However, when they saw that Xu Ming was surrounded by an army of millions, they did not dare to go forward. After all, the gap in strength was too great!

“Xu Ming!” The powerhouses of the Seven Elephants roared like thunder, “We respect you as the number one existence on the Primordial All Things Ranking, and give you a chance to say your last words!”

Xu Ming didn't speak, he just drew his spear and stood proudly in the air.

“Oh? You still want to struggle!?” The million-strong man couldn't help laughing. Could it be that you still want to fight against a million with one?

At this time, Xu Ming said lightly: “Whoever leaves now, I can let them live!”

Xu Ming is still kind.

However, Xu Ming's kindness sounds like a big joke to a million powerhouse!

“Hahahaha... I’m dying of laughter!”

“You let us live? Hahahaha...”

“Xu Ming, did you not recognize the situation clearly, or were you scared stupid?”

Even the powerhouses in the second quadrant couldn’t help shaking their heads silently. Xu Ming is so crazy! When death is imminent, he is still crazy!

“But then again, if Xu Ming doesn’t get arrogant now, he won’t have the chance to be arrogant!” said a strong man in the second quadrant with a sneer.

“Xu Ming!” The powerhouses of the Seven Elephants were impatient, “Since you don’t cherish the opportunity to say your last words, then die!”

call out! call out! call out! call out! ...

Millions of powerhouses at the top of the list!

The overwhelming variety of attacks hit Xu Ming at almost the same moment!

Chapter 1773: Sacrifice

“Dead!”

“Definitely!”

From the Eight Great Limits, the millions of powerhouses in the top ranks of the Heavenly Ranking are extremely confident.

Millions of attack salvos can already “quantitative change produce qualitative change”! Even if it is a weak Supreme, I am afraid that he may not dare to bear this wave of attacks; although Xu Ming is ranked first in the Primordial All Things Ranking, no matter how strong he is, can there be such a strong Supreme! ?

In the face of such an attack, how could Xu Ming survive?

...

at the same time.

Deep underground directly below Xu Ming.

Grandpa Taihao hid his breath and sneaked into the ground with a puzzled look on his face: “What the **** is Xu Ming doing? Are you courting death?”

Xu Ming would be besieged by so many powerhouses, and Gong Taihao naturally contributed to the flames secretly.

It’s just that what my father-in-law Taihao couldn’t figure out was that when there were only a few thousand or tens of thousands of enemies at the beginning, why didn’t Xu Ming face him? After all, with Xu Ming’s strength, he should be able to beat him head-on!

He had to run around everywhere, and as a result, he was surrounded by millions of troops.

“If Xu Ming dies like this, my plan will fail! Then I’ve been busy for so long!” Grandpa Taihao thought gloomily, “No way! We must protect Xu Ming!”

Gong Taihao, in the past life, he was a very strong existence in the Supreme Realm!

Although he was reincarnated and rebuilt, there are still many treasures left. Relying on these treasures, Gong Taihao can sneak in the underground of the main battlefield! In the same way, relying on these treasures, it is not difficult for Gong Taihao to keep Xu Ming!

“Damn! I actually want me to waste my treasure to protect him!” Grandpa Taihao thought angrily. He obviously didn’t think that Xu Ming could withstand so many attacks.

However, when he thought of what he might get, Grandpa Taihao's mood immediately became more comfortable: "As long as I can get 'that treasure', even if I have all my treasures, what's the harm?"

It was "that treasure" that made Gong Taihao not hesitate to give up his cultivation in the Supreme Realm and reincarnated to rebuild it!

And the value of that treasure is much higher than that of the Supreme Divine Weapon!

"Humph! Xu Ming! I'll save your life! I'll take it as... buy your life!" Grandpa Taihao snorted coldly, and a treasure appeared in each of his hands.

In the left hand is a yellow flag. The pattern on the array flag, as if the yellow sand covered all worlds, is a supreme-level trapped array flag.

The one in the right hand is a miniature transparent pagoda, which is obviously used to protect Xu Ming!

"go!"

Gong Taihao waved his hand, and the two treasures flew towards the ground above.

...

At this moment, Xu Ming was facing the overwhelming attack of millions of attacks.

"I can't stop it!" Xu Ming still has self-knowledge. Although his realm has just broken through to the "first-order real self", his strength has skyrocketed, but Xu Ming still has self-knowledge! Such overwhelming attacks are simply not something he can resist, unless... he uses "Time Pause" to hang up.

However, Xu Ming was not in a hurry to open the "Time Pause".

He is waiting!

Wait for someone!

Xu Ming looked at the millions of attacks that were approaching, but his eyes were extremely calm.

“The father-in-law Taihao I met in Zhenyu County obviously had a plot to trick me into entering the battlefield of the ages! Moreover, there are so many strong men besieging me, and he should be behind the scenes... It’s all to this point, he Not coming out yet?”

Xu Ming didn’t believe it, Gong Taihao would not make a move, and would just watch himself “fall”.

He just waited for his father-in-law Taihao to make a move to see what the other party’s plans were!

Of course, Xu Ming wouldn’t be foolish to wait! Waiting for the attack to get closer, if he hasn’t seen Gong Taihao make a move, Xu Ming will turn on the “time pause” and hang up; otherwise, even Xu Ming will be annihilated under a million attacks.

“I haven’t shot yet...” Xu Ming was about to turn on “Time Pause” and hung up, “Am I guessing wrong? Gong Taihao isn’t here at all?”

at this time

boom!

Around Xu Ming’s divine body, a transparent pagoda suddenly appeared, protecting Xu Ming’s whole body.

On the transparent pagoda, there is an indestructible aura; Xu Ming felt the extraordinaryness of this pagoda when he saw it!

“It’s not what I expected!” Xu Ming smiled.

boom! boom! boom! boom! ...

Millions of attacks landed on the transparent pagoda around Xu Ming, but they failed to shake the pagoda. Inside, even ordinary supreme beings can never break through.

Even the pagoda could not be broken open, Xu Ming was naturally unscathed.

“what is this?”

“Xu Ming still has such a treasure? Can it stop the joint siege of so many of us?”

“No wonder he dares to be arrogant!”

Immediately after...

Suddenly, endless yellow sand swept the sky. Within the ten thousand realms with Xu Ming at the center, the sky is full of yellow sand; the million powerhouses from the Eight Era are also trapped in the yellow sand.

Ten Thousand Realms Yellow Sand Formation! This array flag can only be used once, but even the Supreme can be trapped!

“what happened?”

“We seem to be caught in the formation! Where did the formation come from?”

“What’s wrong?”

Many strong people felt a little fear of this sudden unknown . They wanted to send a message to the outside world, but found that they couldn’t send a message at all.

Some powerhouses tried to break the Myriad Realms Yellow Sand Formation, but found that there was no way to break their million powerhouses, and they were all trapped in this formation!

At this moment, Gong Taihao’s figure emerged from the ground. The powerhouses present noticed him.

“Master Taihao?”

“How did he come out of the ground? The ground of the main continent can’t sneak!”

There are also strong people in the second quadrant who asked directly: “Brother Taihao, did you create this yellow sand formation?”

Grandpa Taihao ignored the surrounding voices. In his eyes, this so-called million-strong powerhouse is not much different from an ant.

Xu Ming also looked at Gong Taihao with some doubts. What did he want to do after spending so much thought and cost?

Of course, no matter what the father-in-law Taihao does, Xu Ming has enough confidence to deal with it! This is his confidence in his own strength!

Suddenly, Grandpa Taihao raised his arms high, and his divine body was burning.

An incomparably deep thought communicated with this world: “In my name, with Xu Ming’s talent, with millions of flesh and blood, sacrifice to the sky...”

boom! boom! boom! boom! ...

The whole world trembled along with it, as if some incredible force was smashing this incomparably tough space-time.

And the look on Gong Taihao’s face became more and more pious and fanatical!

“Come on! Come on...” Gong Taihao kept calling.

The vibration of time and space is also getting more and more violent, as if the entire space and time may be blasted through at any time.

Chapter 1774: The Elephant Is Invisible

“What’s wrong?”

“What is your father-in-law doing?”

“He seems... to use us as a sacrifice of some kind!?”

Millions of powerhouses are panicking!

In fact, the power that is shaking time and space is too terrifying, and it is obviously not something they can resist!

“Hurry up and stop the father-in-law Taihao!”

“Yeah! Stop him! He’s probably going to use us as a sacrifice of some kind!”

Immediately, the million powerhouses no longer dealt with Xu Ming, but turned their heads and launched an attack on Gong Taihao.

call out! call out! call out! call out! ...

The overwhelming attack slammed into Gong Taihao. However, there seems to be an invisible wall around Gong Taihao. No matter how many attacks come, it will disappear when he is a certain distance from Gong Taihao.

And Gong Taihao’s sacrifice is still going on!

Xu Ming didn’t do anything, just squinted and watched: “This gentleman, Tai Hao, is really extraordinary! I don’t know... what his identity is!”

However, Xu Ming was not flustered.

Anyway, Xu Ming has an “immortal mark” hanging on it. Moreover, he has already left “space coordinates” in the First World and the Eternal Battlefield; even if he really falls here, Xu Ming can be resurrected immediately, and then spend some cost to send it over.

No matter what his father-in-law’s identity is, or what his cards are... Xu Ming is invincible!

Moreover, Xu Ming was really curious, what would his father-in-law Taihao sacrifice after spending so much effort.

“Look first!” Xu Ming secretly said.

boom-

Suddenly, the indestructible space of the Eternal Battlefield was directly “boomed” out of a huge black hole.

On the other end of the black hole, an extremely ferocious and **** terrifying breath came: “Who... is calling me with a sacrifice?”

Under the oppression of this ferocious and terrifying atmosphere, almost no one of the top powerhouses in the million-day list can keep calm – this is a kind of fear that comes from the deepest part of the soul!

“It’s me!” Gong Taihao said to the black hole, “I heard that one genius of ‘the true self of the gods’ and ten thousand geniuses of the true self of the emperor can make sacrifices to you! This time, I will, Prepared a ‘real self’ and millions of ‘real self’!”

“I feel it!” On the other side of the black hole, a terrifying breath said, “You sacrificed to me because you want a chance to inherit?”

“Yes!” Mrs. Hao continued.

“Yes! But it’s just an opportunity for inheritance. How much inheritance you can receive and how far you can go depends on your own chance!” On the other side of the black hole, he said again.

“I see!”

“Very well, then come on!” said a hideous voice.

At the same time, the black hole gradually rotated, and there was a terrifying gravitational force. Some of the weaker ones were sucked into the black hole one after another.

Even Xu Ming felt that the gravity was gradually increasing on him; if he didn’t resist, he would soon be sucked away.

Xu Ming thought for a while: “Let’s go and have a look!”

Just now, Xu Ming communicated with Xiaohang privately – the master of the black hole is indeed very strong; however, Xiaohang is stronger!

In any case, Xu Ming has the “immortal imprint” hanging on this trump card.

Just as Xu Ming was about to follow the gravitational force and enter the black hole, a vision suddenly appeared!

“Gong Taihao!” An angry shout seemed to resound from every corner of the world at the same time. This rage was so domineering that even Xu Ming’s divine body was shaken for a while.

Xu Ming was shocked: “Just a sound made my body churn?”

You know, Xu Ming has come into contact with the Supreme Realm powerhouse “Yuan Zun”. But there is no doubt that the master of this angry shout is probably much stronger than Yuan Zun!

The angry shouts from nowhere continued: “Master Taihao, you are really cruel! You are willing to reincarnate and rebuild, and take a big risk to fight for this chance!”

“Master Taihao! Stop it! Such a treasure, you can’t peep at it!” This was another voice, which sounded a bit enchanting; but undoubtedly, it was on the same level as the domineering roar.

“Master Taihao, it’s time to turn back! As long as you are willing to turn back, I will guarantee you to restore the strength of your peak period!” This voice sounded a little sincere.

“Hahahahaha...” Grandpa Taihao laughed loudly, “Stop it? Keep me back to my peak strength? – Hahahaha, I paid such a high price, even at the risk of falling, for this, that’s not what it is! A piece of heavy treasure, I have to decide! If you have the ability, you will come to the battlefield of the ages!”

In the eternal battlefield, only the cultivation base below the realm of all things can enter – this is the rule of the universe!

Even the existence of the Supreme Realm cannot violate the rules of the universe.

“Damn! Do you really think I dare not come in!?” The domineering voice sounded again.

Immediately afterwards, Xu Ming saw a scene that shocked him beyond belief—I saw an incomparably huge palm suddenly appear above the dome, beyond the endless horizon.

The size of this palm can no longer be described in words! If you insist on saying it, there are only four words to describe it: the elephant is invisible!

too big!

Incredibly big!

You must know that the main continent of the Eternal Battlefield where Xu Ming is currently located is comparable in size to a virtual universe!

And now, Xu Ming feels that the entire main continent is probably about the size of the “thumb” of this palm! In other words... this palm is much bigger than a virtual universe!

Just one palm is already so huge, so what kind of “elephant invisible” existence should the owner of the palm be?

Xu Ming couldn’t imagine it!

But Xu Ming knew—that was the pinnacle of existence in the Supreme Realm!

“I don’t know... Is the owner of this palm strong, or Han Mo?” Xu Ming couldn’t judge.

At the same time, Xu Ming looked at Gong Taihao and secretly said: “Gong Taihao was reincarnated and rebuilt? Then his previous life, I am afraid that the owner of the palm is the same level of existence?”

That level is the real peak existence of the universe!

boom-

The invisible palm of the elephant was directly pressed, and it seemed to crush the entire main continent directly.

However, at this time, a golden chain with the same “invisible elephant” appeared without warning and caught the invisible palm of the elephant! —The golden chain is composed of countless secret patterns that Xu Ming cannot understand! This is the rule chain of the universe!

Any power that violates the rules, even if it is the pinnacle of the Supreme Being, must be bound by the chain of rules!

“No—” The domineering voice roared, but to no avail—his invisible palm was dragged away by the rules and chains; the battlefield of eternity was not a place he could invade.

“Hahahaha... a bunch of idiots!” Gong Taihao’s sneer sounded, mocking the invisible existence of the elephants outside the dome.

Whoosh! Whoosh! Whoosh! ...

At this time, the million powerhouses from the Eight Great Dimension were sucked into the black hole one after another. Xu Ming did not resist, and followed this gravitational force into the black hole.

“Hahahaha! I want this opportunity!” Grandpa Taihao laughed and got into the black hole.

Chapter 1775: Boundary Gun

Gong Taihao laughed, and also got into the black hole.

Passing through a dark space-time distortion channel, Gong Taihao appeared in a vast starry sky; however, there was no one else around.

wow—

A gray airflow converged into a gray figure in front of him.

The gray figure leaned on crutches and stooped, exuding a ferocious and evil terrifying aura.

“The mausoleum guardian!” Gong Taihao said directly, “I sacrificed so many geniuses for you, what belongs to my inheritance?”

The gray figure pointed to an icy star emitting blue light, and said, “That’s where the inheritance lies!”

Father-in-law Tai Hao continued: “By accepting the inheritance, will you be able to obtain that treasure?”

The gray figure smiled faintly, and said lightly: “Then it depends on your strength! If your strength is not enough, it is naturally impossible to obtain the treasure; if you have enough strength, the treasure will naturally be yours!”

“That’s good!” Grandpa Taihao smiled confidently.

strength?

You know, he is the reincarnation of a superpower, and he is naturally very confident in his own strength.

The figure in gray seemed to see through Gong Taihao's thoughts and said with a smile: "Boundary-breaking gun, waiting for its new owner, it's been too long!"

It's just that the laughter of the figure in gray also looked particularly ferocious.

Gong Taihao didn't seem to notice the hideousness in the laughter, and said proudly: "Don't worry, it won't wait for long!"

call out-

After speaking, Gong Taihao flew directly towards the blue icy star.

The figure in gray looked at Gong Taihao's back, and a sneer appeared on the corner of his mouth; he whispered to himself: "Want to get the World Breaker Gun? Oh! What potential can a reincarnated person have, and also try to get the World Breaker Gun?!"

Actually... From the very beginning, the figure in gray didn't want his father-in-law to get the real inheritance. It's just that Gong Taihao didn't know, he thought he would get a big chance soon.

"Let him waste time on the Blue Prisoner first! When he finds the true inheritor, this father-in-law Taihao might still be of some use!" starry sky.

...

This is a vast land as smooth as a mirror.

Xu Ming and the millions of geniuses from the Eight Great Limits appeared on this earth after being sucked into the black hole.

"Where is this?" Even Xu Ming couldn't see the end of this land; beyond the incomparable distance, there was an endless fog that blocked his spiritual sense and sight.

Being in a different place, the fate is unknown; for a while, none of the million powerful people did anything to Xu Ming.

“Where exactly is this place?”

“We seem to have been sacrificed to some terrifying existence! The ground here is as smooth as a mirror, obviously not a normal continent, could it be... We are in an altar now?”

“It’s entirely possible!”

“Not good! If we are in the altar, aren’t we in danger of falling at any time?”

escape?

However, after being sucked into the black hole, if you don’t even know where you are, where can you escape?

Sudden-

“Jie Jie Jie Jie... Hello everyone!” Along with the hideous laughter, a gray airflow gradually converged into gray figures.

Immediately, many geniuses became vigilant – after all, the breath of this gray figure is too terrifying!

“Haha!” The gray-clothed figure laughed, “You don’t need to panic!”

No need to panic?

The words of the figure in gray did not have any consolation effect – after all, before these geniuses were sucked into the black hole, they heard the word “sacrifice” clearly. In addition, this gray-clothed figure doesn’t look like a good thing at first glance, how can people not panic?

Only Xu Ming squinted at the figure in gray, trying to see what the other party’s purpose was.

The figure in gray continued to laugh and said, “Haha! It’s really panicking! The so-called sacrifice is just a cover! To be able to come here, for you, it may not be a disaster, but it may be a big opportunity!”

Big chance?

The super geniuses of the Eight Great Limits, obviously not so easy to fool, shouted after hearing the words: “How do you prove that this is a big opportunity?”

“It’s not necessarily a disaster, what do you mean? That is to say... it might still be a disaster?”

“Speak! What is the purpose of you kidnapping us here!”

...

The grey-clothed figure listened to countless shouts and scolded, and immediately smiled disdainfully: “I don’t need to explain anything to you, you just need to remember – the strong live, the weak die! For the strong, it is naturally a chance; For the weak, it is naturally a disaster!”

As soon as the figure in gray said these words, the audience immediately became quiet—yes! Weak, what qualifications do you have to make a sound?

Not qualified!

Rather than venting his panic with words, it is better to follow what the figure in gray said, and in that case, there might be a way to survive—after all, the current situation is that people are the knife and I am the fish!

“That’s right!” The gray-clothed figure smiled.

It’s just that his laughter seemed particularly ferocious no matter the time.

After a pause, the grey-clothed figure said again, “Do you know what the grandfather Taihao and the superpowers of the real universe are asking for?”

“What?” Every genius looked at the figure in gray.

“A long spear!” said the gray-clothed figure.

A long gun?

Suddenly, many geniuses remembered one thing: “I heard... the main continent of this eternal battlefield is a gun? Is it true!”

The grey-clothed figure said with a grim smile: “That’s right, the main continent of the Eternal Continent is just a gun!”

“what!?”

“Really!?”

Suddenly, millions of geniuses were filled with shock.

Even Xu Ming was stunned – the main continent is obviously disc-shaped! How can there be a long gunlooks like this?

Moreover, how huge is the main continent of the Eternal Battlefield? If a gun is this huge, how can it be used?

“Or...” Xu Ming guessed, “Is this spear hidden in the interior of the main continent?”

At this time, the figure in gray continued: “To be precise... the main continent of the Eternal Battlefield is only a part of this long spear!”

“Part of it!?” There were suspicious voices all over the floor.

“Not bad!” said the figure in gray, “This long spear, called the ‘Boundary Breaking Spear’, is an existence far beyond your understanding and imagination! The long spear is just placed there, it will span the past, the present and the future – the spear tip of the long spear, in the real time of time.

The ‘past section’ of the river; most of the gun barrels are in the ‘future section’ of the real time river; only a very small part is in the ‘now’! That is... the main continent of the eternal battlefield that you see! ”

To put it simply, the main continent of the eternal battlefield is just a small part of the “Boundary Breaking Gun”. And most of the others, because they are not in the “present”, but in the “past” and “future”, therefore, with the strength of Xu Ming and others, they cannot touch those parts at all!

“What kind of long spear is this...” Xu Ming was horrified!

Millions of geniuses are all in shock!

huge?

Incredible?

No matter what kind of vocabulary, there is no way to describe the “Boundary Breaking Gun”!

At this moment, the figure in gray said again: “And you... maybe there is a chance to get the ‘Boundary Breaker Spear’!”

Chapter 1776: I Want To Hit 10 Million!

“And you... maybe there is a chance to get the ‘Boundary Breaker Gun’!”

As soon as the voice of the figure in gray fell, the audience was shocked.

“Do we have a chance to get it?” The eyes of countless geniuses became extremely frenetic.

You know, even a blind man can see how extraordinary the Boundary Breaker is!

Such a treasure, even an ordinary Supreme, is probably not qualified to peep at it; but now, they have a chance to get it! -Although, it must be an extremely slim first-line opportunity! But it’s also an opportunity! It’s crazy enough!

“Boundary-breaking gun, but even the top beings in the supreme are trying to get it! If I can get it, then in addition to getting the treasure, I can definitely get the inheritance, right? Then... it is really equivalent to one step to the sky!”

“If you can control this treasure, its status in the entire universe is probably extremely high!”

“What is an opportunity? This is an opportunity! A great opportunity that will never be encountered in a lifetime of cultivation!”

“I must do my best for such an opportunity! Although it is almost impossible for me to get it, but... what if I get it?”

“Fight! If you don’t fight, you can only be mediocre forever, until one day you die; but if you fight once, maybe you can soar to the sky!”

“If there is a chance to be extraordinary, who is willing to be ordinary? – Fight!”

One after another, they all looked at the figure in gray fiery.

For these geniuses with endless lifespans, they have really looked down on life and death! After all, in their long lives, any life they want to live has been passed a thousand times.

Every genius who came to the battlefield of eternity is tired of mediocrity! In order to become stronger, they are even willing to exchange their lives!

With such an opportunity in front of him, who is a genius who doesn’t want to fight for it?

“Haha!” The gray-clothed figure laughed. The situation in front of him was not what he expected at all.

“But...” At this moment, the figure in gray groaned.

Every genius suddenly became nervous—obviously, the figure in gray was about to announce, how could he qualify for the Boundary Breaker Gun!

“However...” The figure in gray said with a grim smile, “There are too many of you!”

“Too many people?” At this moment, every genius didn’t care about the grim smile of the figure in gray, but asked impatiently.

“Yes! There are too many people!” The gray-clothed figure continued, “I only need 10,000 talents for my assessment; but now you are more than a hundred times more than a hundred times! Hmm... you have to screen it!”

filter!

Immediately, all the geniuses became nervous again – only by being selected and becoming one of the 10,000 geniuses can they hope to get the Boundary Breaking Gun! And those who were eliminated in the screening no longer even have “hope”!

“I must be chosen!”

Each genius has a raging fighting spirit and a monstrous fighting spirit.

At this time, the figure in gray said again: “The screening rules are very fair – I will send you into an independent battle space, and you can choose the number of opponents yourself! Each opponent is the strength of an ordinary ‘high-grade domain master’; Everyone has only one chance to challenge! The 10,000 geniuses who have successfully challenged and challenged the most are eligible to advance to the assessment; and if the challenge fails, or they are not ranked in the top 10,000, then... Jie Jie Jie Jie...”

The laughter of the figure in gray suddenly became gloomy.

Needless to say, those geniuses who did not advance to the assessment will definitely end up miserably.

“Oh?” After listening to Xu Ming, the corners of his mouth twitched slightly, “This challenge to the rules is really ruthless!”

Because everyone enters an independent challenge space, no one can know the “number of challenges” of other geniuses. Moreover, there is only one chance, so every genius must do his best and show his cards when he is challenged – after all, the strength of most geniuses is not much different! If you don’t do your best, you can only be eliminated!

And the fate of being eliminated is very miserable!

Of course – Xu Ming doesn’t have to do his best! He just needs to play casually, and that’s it!

At this time, some geniuses couldn’t help but think about the pros and cons – this is “one in a hundred”, and it’s just a chance to be assessed!

Is it really worth it to take your life to fight for a chance to be assessed?

One genius couldn’t help but ask: “Can I not participate in the screening?”

“Okay!” The gray-clothed figure said with a grim smile.

“Huh...” Immediately, many geniuses breathed a sigh of relief and began to consider whether or not to participate.

But then, the figure in gray said again: “As long as you die, you don’t have to participate in the screening!”

If I die, can I not participate in the screening? -Every genius understands that this is forcing them! Participate in the screening or die!

Moreover, the current situation is obviously “man is the knife and I am the fish”; anyone can see that with the means of the gray-clothed figure, it is possible to easily kill any genius on the field.

No way, all geniuses dare not take chances, but seriously consider their own strength.

A unicorn genius from the eighth quadrant frowned and thought hard: “My strength has reached the ‘half-step world master peak’, which is extremely close to the world master; if it is measured by the sky list~www.readwn.com ~Should be able to rank in the top three of the Heavenly Ranking! And

the strength of an ordinary high-rank Domain Master is equivalent to an ordinary Earthly Ranking genius...”

The strength gap between the Heaven Ranking and the Earth Ranking is still very obvious!

The unicorn genius continued to think: “With my strength, it shouldn’t be a problem to challenge dozens of them! But...if others have all their cards, I’m afraid they can challenge more than me!”

The unicorn genius gritted his teeth: “Fight! When the time comes, I will challenge one hundred and fifty! If I have all the cards, I should be able to challenge successfully!”

Other geniuses are also pondering, it would be better to challenge a few at that time.

Those who can roam in the main continent of the Eternal Battlefield are not too weak; so generally speaking, they can challenge more than one hundred. Even those with strong strength, who are between the “No. 1 in the Heaven” and the “Immortal All Things List”, plan to directly challenge 300 or even 500!

However, there is no genius who will reveal to others the number of challenges he has to challenge. After all, in the current situation, everyone is an opponent!

“Heh!” Xu Ming looked at the geniuses around him, and looked at others with skeptical eyebrows. Obviously, he was estimating the number of challenges from others, and he couldn’t help laughing.

Obviously, each genius is calculating whether he has a chance to win the “screening battle”.

Xu Ming sneered disdainfully, and thought to himself: “Isn’t it just the number of challenges? What’s the point of hiding it? I won’t cover it up!”

Thinking of this, Xu Ming looked directly at the figure in gray, and said loudly, “I’ll come first! I want to fight... 10 million!”

Chapter 1777: This Is Not

“I want to hit ten million!”

Xu Ming's voice resounded across the vast land.

Suddenly, the whispering voices of millions of geniuses fell silent; the whole land suddenly fell into a dead silence—what? Ten million! ?

You know, this is not a thousand, nor ten thousand, but... ten million!

Millions of geniuses, looking at Xu Ming's number of challenges, and thinking about the number of their own challenges, all of a sudden a word flashed in their hearts – the gap!

What is the gap?

This is the difference!

Millions of geniuses were shocked for a long time before they gradually reacted.

“Ten million?”

“Xu Ming is courting death?”

“With the existence of the master level of the upper-level domain, you can't find a few in a virtual universe! Xu Ming actually boasted that he wanted to challenge 10 million?”

“I just don't know how to live or die!”

Although many geniuses said this, they actually felt that Xu Ming had hope of succeeding in the challenge!

After all, if you want to say who can pass the screening battle most safely, it is undoubtedly Xu Ming, the first powerhouse in the Primordial All Things List! With Xu Ming's strength, there is absolutely no need to make an act of courting death!

Since it's not courting death, that's how confident it is!

Moreover, Xu Ming should want to use the screening battle to show his strength; after all, the more strength he shows, the more likely he will eventually get the Boundary Breaker Gun!

Even the ferocious figure in gray was stunned for a while before he asked Xu Ming in disbelief, “How many do you want to challenge?”

Xu Ming said word by word: “Ten million!”

The figure in gray was stunned for a while.

The figure in gray was stunned for a while, and said, “There aren’t that many opponents to challenge you!”

The opponent provided by the figure in gray is a puppet-like existence; even if he dies in battle, he can easily be resurrected and continue to use it. Therefore, the total number of puppets is naturally not too large; after all, if a battle can challenge one or two thousand puppets, it is already very against the sky!

It is the first time to see the figure in gray when he opens his mouth like Xu Ming.

“What? There aren’t so many opponents?” Xu Ming was also taken aback, and said, “This is possible!”

The grey-clothed figure was a little depressed and said, “This is really not true!”

“Really not...” Xu Ming thought about it and said, “Let’s get a little less, give me five million!”

The figure in gray looked bitter: “Five million... not even!”

“Not even five million? There must be one million!” Xu Ming said.

“Cough cough...” The figure in gray said embarrassedly, “No!”

Xu Ming became impatient: “Then how many are there?”

“One hundred thousand!” said the gray-clothed figure.

“One hundred thousand... it’s not enough for me to warm up!” Xu Ming shook his head and said, “Forget it! One hundred thousand is just one hundred thousand! Send me to the battle space!”

“Pfft!” The figure in gray had the urge to vomit blood.

Whoa!

A mysterious force enveloped Xu Ming and instantly transported him to the battle space.

“Can Xu Ming win?”

“One hundred thousand high-grade domain master level combat power! Although it is far less exaggerated than ‘ten million’, it has reached the level of ‘quantitative change leads to qualitative change’! – In my opinion, Xu Ming does not know the 100,000-grade high-grade domain master. How strong is it that you will not know how high the sky is, and you will brag about the sea!”

“That’s right! Lord of the 100,000 high-rank domain! Even if you stand there and let Xu Ming kill him, Xu Ming will kill him for a long time, right?”

“How can you possibly win!”

“Maybe, as soon as Xu Ming entered the battle space, he would regret it!”

...

Millions of geniuses are talking about it.

Not long after, the figure in gray suddenly said, “Next, who wants to challenge?”

Many geniuses were stunned for a moment – aren't all the 100,000 top-rank domain master puppets in Xu Ming's battle space? Not long after that, the figure in grey asked others to challenge him. Could it be that... Xu Ming had already died in the battle space?

After all, if Xu Ming's battle is not over, there will be no puppets to challenge other geniuses!

"Xu Ming is dead?" One genius couldn't help but ask.

The corners of the grey-clothed figure trembled as he said, "Xu Ming...has already won the challenge!"

Challenge to win?

To win the challenge so quickly?

All geniuses can't imagine how Xu Ming did it – after all, a puppet of the 100,000 top-rank domain master level! Even if you just stand there and kill casually, you won't be able to kill it in such a short time, right?

The figure in gray obviously didn't want to explain more, so he randomly selected a hundred talents and sent them directly into the battle space.

...

"here is...?"

The 100,000 high-ranking domain master-level opponents naturally pose no threat to Xu Ming.

Xu Ming easily passed the screening battle and was teleported to an isolated island.

There are many buildings on the isolated island, but it is deserted, and only Xu Ming is alone.

Xu Ming turned around a little, but found nothing, so he sat down on the top of the lonely island with his knees crossed, closed his eyes and waited.

Soon...

Swish! Swish! Swish! Swish! ...

Dozens of figures were teleported here—obviously, they all won the screening battle just like Xu Ming.

Of course, winning does not mean that you have passed the screening; at the end, you will select 10,000 talents with the best results. As for those ranked out of ten thousand, then I don't know what will happen to them.

Xu Ming smiled and said, "How many of your group participated in the screening battle?"

"One hundred people!" said a long-robed swordsman.

"One hundred people?" Xu Ming secretly said, "Then most of them survived!"

"Xu Ming!" The long-robed swordsman's name is "Zhang Mu", from the fourth quadrant, "You really... challenged 100,000 opponents?"

Xu Ming said with a smile: "Is that even a question? – You are too underestimating my strength!"

Zhang Mu sneeredsecretly thought: "I challenged 500 opponents, and I have tried my best to show all my cards; and Xu Ming, actually defeated 100,000 opponents – Xu Ming My strength is a hundred times stronger than mine!"

Zhang Mu seems to see clearly the difference in strength between himself and Xu Ming!

"Hundred times..." Zhang Mu secretly clenched his fists, his eyes were firm, "One day, I will surpass him!"

But suddenly, Zhang Mu was taken aback. He thought of a little problem, and his resolute eyes couldn't help but dimmed – he defeated five hundred because his strength could only defeat five hundred; if there were more than one or two, he would not be able to defeat it! And Xu Ming

defeated 100,000 because... in the battle space, there are only 100,000 puppets in total, and there are no more!

That's the time – the difference in strength between Zhang Mu and Xu Ming is more than a hundredfold?

As for how big the gap is... Zhang Mu has no way of knowing!

At this moment, Zhang Mu couldn't help but doubt himself – he didn't even know how big the gap between him and Xu Ming was, what would he use to compete with Xu Ming?

Soon...

Swish! Swish! Swish! Swish! ...

Chapter 1778: Ancient City

On an isolated island, geniuses gather more and more.

In each batch, one hundred geniuses participated in the screening battle; in each batch, the number of geniuses who could survive the screening battle was uncertain.

After all, only the top 10,000 geniuses are eligible to advance to the assessment stage; other geniuses, even if they don't die in the screening battle, will end up miserably. In this case, besides Xu Ming, who else would dare to Don't work hard?

In the end, there were only more than 200,000 geniuses who survived the screening battle.

“Jie Jie Jie Jie... There are so many!?” The figure in gray appeared in the sky above the isolated island, Jie Jie said with a smile, “This is a bit too much! Only 10,000 people can advance to the assessment stage!”

The geniuses on the isolated island suddenly became nervous—you know, even when they got here, they still didn't dare to let others know how many high-rank domain master puppets they had defeated!

The figure in gray pondered for a while, and said, “I won’t tell you the results of the ten thousand people! I’ll just say the ten thousandth place—those with higher grades will advance to the assessment stage; here Below, just stay here for the time being!”

Staying here, obviously waiting for judgment!

Suddenly, the entire island was silent, and every genius dared not make a sound.

The figure in gray said lightly: “The challenge result for the 10,000th place is – 500 puppet opponents!”

The voice just fell.

Immediately, the faces of most of the geniuses on the isolated island suddenly turned ashen. Obviously, the number of challenges of these geniuses is less than 500 puppet opponents! Their fate is probably not much better than “death”.

The face of the ten thousand talents burst into ecstasy instantly – they passed the screening! Not only will he be able to survive and participate in the assessment, he may also have infinite possibilities!

“Great!” While Zhang Mu was ecstatic, he broke out in a cold sweat. You must know that his challenge result is exactly five hundred puppet opponents; obviously, the one who ranks 10,000th is him!

I have to say, Zhang Mu’s luck is really good!

However at this moment...

boom! !

Zhang Mu was horrified to see that there were four crazy geniuses attacking him at the same time near him. These four geniuses were all unsuccessful in the selection; they noticed the ecstatic expression on Zhang Mu’s face, so they thought Pull Zhang Mu to die together!

The same situation also occurs in many places on the island.

“Huh?” The gray-clothed figure’s face suddenly sank. He just waved his hand lightly, and those geniuses who made crazy shots stopped in place.

Seeing this scene, Xu Ming’s pupils shrank suddenly.

“Time Pause!”

What the figure in gray is displaying is “Time Pause”! Moreover, he is different from Xu Ming – he really relies on his own strength to display the “time pause”.

Moreover, to put it lightly, it caused tens of thousands of geniuses to fall into a state of “time suspension” at the same time; this strength is definitely much stronger than the “Original No. 1 Powerhouse on the Primordial All Things List” that Xu Ming defeated before!

“The strength of this figure in gray is definitely very strong!” Xu Ming secretly said, “I’m afraid... it is the existence of the supreme level!”

However, Xu Ming was not too afraid.

Supreme?

so what? Anyway, Xu Ming has an “immortal mark” hanging on it, and he is an existence that is not afraid of death and will not die!

“Let’s go!” The figure in gray sneered disdainfully, and a strange force enveloped Xu Ming and other 10,000 selected geniuses, and disappeared directly on the island.

Xu Ming only felt that things were changing in front of him. When he saw the scene in front of him again, he found that he was already above an ancient city.

“This is...?” Xu Ming observed secretly.

This ancient city stands on a barren land. The surrounding earth seems to have been sucked dry by the ancient city, and the ground is endlessly dry and cracked.

The clouds above the ancient city are also extremely gloomy. A line of golden light shines through the thick clouds, shining on the ancient and majestic city of God.

Some of the other geniuses couldn't help but say, "Is there something special about this ancient city?"

"There must be something special, but... the scope of this ancient city is not very large! It's only a land!"

"Assessment here?"

...

To these voices, the figure in gray ignored them, just smiled faintly: "This ancient city comes from... the real universe!"

Whoa!

Suddenly, the geniuses who spoke all shut up!

From the real universe?

You must know that for the geniuses of the virtual universe, the real universe is an extremely mysterious place! For example, the "Cosmic Flower Sea" that all the powerhouses in the heavenly list are striving for is because there is special soil from the real universe, so the flowers of the true self can grow, which is extremely mysterious!

In the world of First Layer, although there are also geniuses from the real universe! However, the geniuses of the real universe are all very aloof, and they don't seem to care about the geniuses of the universe at all; let alone tell the geniuses of the virtual universe why they want to enter the world of the first layer of heaven.

Even Xu Ming was a little shocked – after all, Xu Ming knew that it would not be easy for even an ordinary Supreme to go to the real universe! And now, a city of gods from the real universe has been brought here; what a great magical power this is!

The figure in gray continued: “This ancient city was used to cultivate geniuses in the real universe!”

“Cultivating genius?”

“Yes! Cultivate the genius of the true universe!” The man in gray said, “Do you know why those true universe geniuses who appeared in the first layer of heaven are so powerful? – Even the weakest are comparable to the ancient list of all things. ; It is not difficult to even challenge the first place in the Primordial All Things Ranking!”

The true cosmos geniuses in the world of the First Layer are indeed extremely powerful—if they hadn’t been able to challenge the Primordial All Things List, then I am afraid that the entire Primordial All Things List would be geniuses from the true universe!

The grey-clothed figure said again, “The reason why the real genius of the universe is so tyrannical is because it is similar to the place where geniuses are cultivated in this ancient city!”

To put it bluntly, this ancient city is equivalent to a “school” in the real universe.

The figure in gray continued: “Actually... there are quite a few geniuses born in the virtual universe, and their aptitude is not weaker than that of the real universe genius! However, being born in the virtual universe is inherently a disadvantage; in addition, the virtual universe has no real talents after all. In an environment like the universe, it is impossible to build the kind of talent cultivation place of the real universe! In this way, the gap between the genius of the virtual universe and the genius of the real universe will naturally become larger and larger!”

“And now...” The gray-clothed figure looked away from the ancient city and turned to Xu Ming and other 10,000 geniuses, “I’ll give you the same training environment as true universe geniuses!”

Chapter 1779: Xu Yin Complete!

“I’ll give you the same training environment as a true cosmic genius!”

Where is the genius of the true universe?

One is origin!

Born in the real universe, he has a unique advantage in “comprehending the real self”.

The second is resources!

You must know that in the real universe, some places will even grow “true flowers” naturally!

Whether it is internal conditions or external resources, the geniuses of the true universe have taken too many advantages!

In the virtual universe, there are very few geniuses who can comprehend the “superior real self”; as for the superlative real self and the emperor’s real self, even if all the eight great limits are added up, there are not many in the same period.

In the real universe... Basically, the starting point is “the best true self”, and the geniuses who are a little more powerful are all the best true self and the emperor’s true self! And the true cosmic geniuses who are qualified to enter the world of the first layer of heaven are often “the true self of the gods”!

This is the difference!

In terms of the quality of genius, the virtual universe is far, far worse than the real universe!

but...

The virtual universe also has the advantages of the virtual universe! -Although our quality is poor, we have a lot of “quantity”!

The number of geniuses in the virtual universe, the number of powerhouses, and the real universe are definitely not the same level! Thousands of times, billions of times more!

“If we are given the training conditions equivalent to true cosmos geniuses...” Many geniuses couldn’t help but get excited – this time the opportunity is too great! The ancient city below is probably even more valuable than the sea of cosmic flowers!

Why are the geniuses who are at the top of the list in the sky fighting to the death on the battlefield of eternity? The reason is that after entering the sea of cosmic flowers, you can spend more time in it?

And now, this ancient city is more valuable than the universe of flowers! This makes these geniuses, how can they not be excited?

At this time, the figure in gray said again: “This ancient city below is the place for your first round of assessments! This first round of assessments will test your ‘talent’; out of ten thousand of you, there are only one hundred people. able to pass!”

Ten thousand take one hundred!

cream of the crop!

The figure in gray continued: “Because this ancient city was ‘moved’ from the real universe, it will cost a lot to maintain the operation of the ancient city after leaving the real universe; therefore, this assessment will only last for 10,000 years! – The flow of time here is relatively slow, 10,000 years is equivalent to a hundred years in the outside world.”

a thousand years!

Being able to stay in the ancient city for 10,000 years is beyond the expectations of the geniuses! They thought that it would be good to stay here for a year!

Then, the figure in gray spoke about the rules: “After entering the ancient city, each genius can challenge any other genius once, or be challenged once! Remember, with the same opponent, only one battle can happen— Either you take the initiative to challenge, or you are challenged!”

In other words, a genius can fight at most 9,999 times!

“The challenged must fight; if he does not fight within a year, he will be directly judged to lose! The winner will get one point; the loser will deduct one point. If neither of them challenged each other, then neither points nor deductions. Finally, when the 10,000-year period expires, the 100 geniuses with the highest points will enter the second round of assessment; the rest will be eliminated!”

The rules are simple.

Immediately, many talented geniuses with top-notch strength have their eyes wide open and are gearing up for action; they are strong and powerful. As long as they challenge all the weaker geniuses first, won't they be able to get ahead in points? – The idea is beautiful!

“However...” The grey-clothed figure said again, “You 10,000 people have strengths and weaknesses; moreover, some people's strength is based on foreign objects, not their own real strength!”

When the figure in gray said this, his eyes turned to Xu Ming intentionally or unintentionally.

When Xu Ming was screening the battle, he naturally used “time pause”, so he could easily defeat ten thousand.

In the eyes of the figure in gray, Xu Ming must have used some kind of treasure; otherwise, how could he be so perverted by the “time suspension” that he casts in the realm of all things? – The figure in gray guessed right, plug-ins are, after all, a kind of “foreign object”.

“Our second round of assessment is mainly to test ‘talent’! This way, it seems unfair!” The man in gray said.

Immediately, the expressions of those top-notch geniuses changed—their beautiful ideas seemed to be in vain!

And those weak geniuses suddenly had hope.

“So...” The figure in gray continued, “I want to suppress and weaken the powerful geniuses; let your strength of ten thousand people return to the same starting point!”

“That’s great!” Zhang Mu’s eyes lit up when he heard it—you must know that the number of puppets he challenged in the screening battle was only 500! Others don’t know his actual situation, but he himself knows that he is the weakest among the ten thousand geniuses!

“How to suppress and weaken...” The figure in gray pondered for a while, and said, “Let’s follow the old rules – use the strength of the genius ranked last in the screening battle as the benchmark; use this to compare the strength of other geniuses, Suppress!”

“For example... the genius ranked last in the screening battle, the number of puppets defeated is 500; and the other genius, the number of puppets defeated is 1,000. Then—the genius who defeated a thousand puppets, The strength suppression has been weakened to half of the original!”

Suddenly, the expressions of those geniuses who defeated a thousand puppets suddenly changed!

The strength is directly suppressed and weakened to half of the original! ?

It’s too overwhelming...

Hit them directly from the “top” to the “bottom”! How can these top geniuses dare to challenge other geniuses easily?

And those low-level geniuses are all happy in their hearts, don’t be too happy – as soon as this rule comes out, no one will dare to challenge them from the beginning!

As for later...

Cultivating in the ancient city, everyone’s strength will definitely improve a lot! If the strength of the top-level geniuses is suppressed by half, then the strength of the later cultivation and improvement will be “discounted”; while the bottom-level geniuses, on the contrary, the strength of the later cultivation and improvement will not be discounted – that is to say, the further back you go, the bottom-level geniuses may be reversed. The more dominant!

“Hahaha...that’s fair!” Zhang Mu couldn’t stop laughing in his heart – he was at the bottom, and his strength didn’t need to be suppressed in the slightest! In this way, he, who was at the bottom, has become the most potential!

“This is the chance! I must seize it!” Zhang Mu knew that his chance had really come.

Suddenly, Zhang Mu couldn’t help but look at Xu Ming.

The other nearly 10,000 geniuses also seemed to have thought of something. They all looked at Xu Ming—you know, Xu Ming has defeated 100,000 puppets! How many times will his strength be suppressed?

Two hundred times!

What is the concept of two-hundred-fold suppression?

“Xu Ming is about to be crushed to the point of never turning over!”

“Xu Ming is finished!”

Chapter 1780: Real Me Character

All geniuses felt that Xu Ming was finished!

You know, this is a two-hundred-fold suppression! Even if Xu Ming has the strength of “No. 1 in the Primordial All Things List”, I am afraid he will be crushed into a dog!

Even some geniuses were eager to try, wondering whether to challenge Xu Ming after entering the ancient city. After all... Xu Ming seems to be quite bullying.

“This...” Xu Ming couldn’t help but be stunned, “Suppressing it two hundred times? This is a pit!”

Xu Ming even felt that this rule was a bit aimed at him.

But Xu Ming doesn’t matter – no matter how many times his strength is suppressed, anyway, once the “time pause” is suspended, other geniuses can only let him attack.

What Xu Ming cares about is how much insight he can gain in the ancient city below.

The figure in gray gave Xu Ming a meaningful look, and then said, “Go! Go to the ancient city below and explore your opportunities!”

call out! call out! call out! call out! ...

One after another figure, all flew towards the ancient city.

The figure in gray looked at these ten thousand geniuses, and a smile appeared on the corner of his mouth: “You should be able to see which geniuses are better soon! Hmph, it’s not so easy to get the master’s inheritance. what!”

...

swoosh—

The 10,000 geniuses were separated by a tacit understanding during the landing process.

Xu Ming randomly found a direction and fell towards the ancient city.

Bang!

Xu Ming stepped on the bluestone pavement and observed this ancient city: “It seems... I can’t see anything special!”

After walking on the street for a while, Xu Ming walked directly into an ancient house.

“Here...” When Xu Ming came in, he found that the ancient house was extremely empty, not even a table or chair; however, there were many futons placed on the floor of the empty room, “Is this a lecture hall?”

Suddenly, Xu Ming discovered that strange characters were carved on the walls of the house. Like words, like some kind of symbol.

“What are these?” Xu Ming observed for a while, but couldn’t see anything tricky, so he left the house embarrassingly.

Immediately, Xu Ming entered another house next to him.

It was a similar layout—the room was empty, and the walls were filled with all kinds of strange characters; however, Xu Ming couldn’t understand a single character.

The same goes for the third room.

I entered many rooms in a row, and it was like this.

“This is the ancient city where true geniuses of the universe are cultivated?” Xu Ming couldn’t help but wonder, “It can’t be so simple!”

Went to the next room again, still the same.

Xu Ming was about to turn around and leave when suddenly, he was attracted by a character on the wall—this character seemed to be just a random stroke, but if he looked closely, there seemed to be infinite mystery in this stroke.

Looking at it, Xu Ming felt that this simple character gradually unfolded into a world in front of his eyes.

Countless extremely mysterious scenes appeared in front of Xu Ming at the same time; Xu Ming couldn’t understand what these mysterious scenes meant, but his understanding of “the realm of the true self” was improved unknowingly.

“How could this be?” Xu Ming had no idea what was going on.

It didn’t take long for other characters in this room to “live” in Xu Ming’s eyes.

Xu Ming seemed to be in a huge and vast world, unable to extricate himself.

“Oh?” Over the ancient city, the face of the figure in gray couldn’t help flashing a look of shock, “I didn’t have any guidance, just looking at these characters, I realized something so quickly? This talent... is too scary?”

“Or...” The figure in gray couldn’t help but guess, “He has been in contact with ‘real self characters’ before? – Impossible! Real self characters cannot exist stably in the virtual universe; like this ancient city, it costs a lot of money It can only be opened once! He has never been to the real universe, how could he have come into contact with the real character?”

The real character is a special character created by the superpowers in the real universe to teach the “real self”.

Although everyone’s “true self” is different, there are still many similarities among countless “true selfs”. These similarities are actually the foundation of the “real self”; the geniuses of the true universe are precisely because they have learned the true self characters and the “basic knowledge” written by the true self characters, so they understand “” The realm of me”, the grade will be so high.

And the biggest opportunity in this ancient city is also the “true self characters” and the “basic knowledge” between those true self.

However, what the figure in gray didn’t expect was that Xu Ming had not yet learned the word “true character”, but he just looked at it casually, and he actually understood it!

Such talent is not terrible!

...

The other nearly 10,000 geniuses naturally do not have the same understanding as Xu Ming. They have been in the ancient city for a long time, but they have not achieved the slightest gain.

Gradually, many geniuses began to search the ancient city on a large scale.

Finally, a genius discovered several special buildings in the ancient city.

“The Void Battlefield? – It seems that the challenge in the ancient city must be carried out on the Void Battlefield!”

“My Tower? – Here, you can prove your strength!”

“True Self Book Pavilion! – There are all kinds of secret books to enhance the ‘real self realm’!”

The geniuses who found the “Real My Book Pavilion” were immediately excited—there is no doubt that the True Self Book Pavilion is definitely a place where great opportunities are hidden!

These geniuses can’t wait to pick a secret book that suits them right away.

However, after these geniuses entered the True Self Book Pavilion, they were told that they had to prove their strength in the “Pagoda of Ming Self” before they were eligible to receive books from the “True Self Book Pavilion”.

Passing through the first floor of the Tower of Myself, you can get the Book of True Self Characters.

Passing through the second floor of the Tower of the Self, you can get the “Basic of the Realm of Self”.

Pass through the third floor of the Tower of the Self ~ www.readwn.com~ to obtain the “Complete Solution to the Realm of Self”.

In the True Book Pavilion, only these three classics are kept; as for more opportunities, you can only find and enlighten yourself in the ancient city.

Immediately, many geniuses began to challenge the “Tower of Myself”.

The first two floors of the Tower of Myself are not difficult to break through; the geniuses present can basically break through. However, the third floor is a little more difficult, and you have to have the strength of the Primordial All Things List before you can pass.

In the entire ancient city, except for Xu Ming, the strength of other geniuses in their peak state has not yet reached the level of the “Immortal Ancient List of All Things”; what’s more, many geniuses are now suppressed and weakened, and it is even more impossible to pass the third floor. .

However, even these two books on the first two floors are enough for these geniuses to comprehend for a while.

boom! boom! boom! boom! ...

In the ancient city, there are always geniuses who get these two secret books.

You must know that the genius who can participate in the assessment is definitely the top genius in the universe! In terms of talent, these geniuses are probably not inferior to the geniuses of the real universe at all; it is only because there has been no training conditions like the genius of the real universe, so the strength stops at the heavenly list.

Now, with two classics from the real universe, many geniuses have some comprehension; the grade of “true self” has also begun to change from “imperial” to “sacred”.
