

## Ability 291

Chapter 291: Tactical Armor-Piercing Nuclear Warhead!\_2

When he heard that he got the Emperor's approval, if he still dared to question it, his position as the director of the Volcano Research Institute would undoubtedly be in jeopardy!

The Emperor's decree represents divine will!

No one dares to defy it!

Even if it's not executed, someone will immediately replace him and carry it out!

Yano Yamakawa sighed deeply, the outcome he least wanted to see was coming.

Looking at the figures still being calculated on the big screen in the conference hall, he appeared vacant-eyed and somewhat exhausted.

But he still urgently convened a meeting to start assessing the damage that might be caused by the explosion of a nuclear bomb underground!

And they began discussing the post-disaster plan.

When everyone in the conference room learned of this topic, they were all shocked!

Wasn't all their previous detection work in vain!

If the violent fill-up opened a larger magma chamber underground, wouldn't it cause a bigger magma eruption!?

Previously, just two lightning strikes split one side of the mountain, causing magma to leak out!

And now they were going to violently fill the underground with tactical piercing nuclear bombs!

Various experts in nuclear weapons research and geological disaster monitoring gathered together at this moment for intense discussions.

Time gradually passed, and everyone ate at their positions while endlessly discussing the formulation of the plan!

The whole hall was bustling at this moment, everyone was completely occupied, all kinds of calculation drafts were spread all over the floor, and the noise was no less than that of a busy street!

Yano Yamakawa also stayed glued to his spot, each plan needed his review, pointing out strengths, weaknesses, and general direction.

Meanwhile, the emergency response team stationed at the crater of Jingli Mountain was still holding their posts, waiting for orders.

They waited continuously but received no news.

At Jingli Mountain, thick snow accumulated at the foot of the mountain, while at the top it was as hot as a furnace, the mix of cold and heat caused the team immense suffering!

"Commander, ask again!"

"Yes, Commander, call them again and ask!"

"Waiting like this is not okay!"

"At least we need to know what we should do, feels like we've been forgotten!"

"....."

Some team members were already feeling the pangs of hunger and exhaustion, urging for action.

Kanamoto Taro also felt something unusual, since the initial call, the research institute had gone silent!

Yano Yamakawa's calls were also unanswered!

Logically, they should maintain constant contact with the team at the mountain peak to adjust detection points ensuring accuracy!

Now it seemed they weren't adjusting at all!

A group of people waited in vain, with no news!

Just as Kanamoto Taro hesitated about making an emergency call to the Volcano Research Institute, Yano Yamakawa called!

"Lead the team to withdraw!"

"The cabinet has issued a directive to implement the nuclear bomb fill-up plan!"

"Detection values are now meaningless!"

"Nuclear bomb!!?"

Kanamoto Taro froze on the spot!

Repeatedly confirmed with Yano Yamakawa, but the result was the same!

At this moment, no matter who heard the word "nuclear bomb," the surge of fear inside was indescribable!

The shadow of two nuclear bombs from years past was still not erased!

And now, another one!

When the team saw Kanamoto Taro's empty eyes and the stiff expression on his face, they waved their hands in front of him, but he showed no reaction!

"What's going on, Commander?"

"Did the Volcano Research Institute explode?"

"What's going on, speak up!"

Seeing Kanamoto Taro completely unresponsive, the team members grew anxious!

Not until moments later did Kanamoto Taro snap back from his shock!

"The cabinet has decided to use nuclear bombs!"

"We have to hurry down the mountain!"

"What!? A nuclear bomb!?"

"No way?"

"Is it really at the point of destruction?"

"Things are this serious!?"

Everyone looked at each other, realizing the seriousness from Kanamoto Taro's expression, all were instantly speechless!

This meant, the nation's safety depended on this moment!

Kanamoto Taro led the team down the mountain, now only able to follow orders.

Other matters were beyond his control.

"Commander, what about the detection equipment?"

"Leave it, let's go!"

Kanamoto Taro waved his hand indifferently, heading quickly down the mountain without looking back.

Seeing this, the team hurried down the mountain.

Inside the Volcano Research Institute hall.

A group of people were conducting tight calculations, covering all fields, including post-disaster reconstruction in this plan.

This discussion involved not only the Volcano Research Institute but also six other similar institutes within Divine Light Country, simultaneously discussing and formulating the plan!

Seven institutes in total, connected via network communication, synchronizing the latest progress in real-time!

Thus, the preliminary plan was hastily formulated!

Yano Yamakawa reviewed this plan repeatedly, feeling it had covered the general direction, enough to report to the cabinet.

He then used the red emergency phone to reach the cabinet.

"We have roughly estimated the losses this time!"

"It is expected that Jingli Mountain will completely collapse after the nuclear bomb strike!"

"Surrounding cities will face hazards from earthquakes ranging between magnitude 6 to 9!"

"Various corroborated directions indicate that we can effectively prevent further magma spread, avoiding encounters between the chemical plant and magma!"

"Additionally..."

As Yano Yamakawa reported according to the plan, a staff member hurriedly approached and interrupted his progress!

"Director, new situation!"

"Do you know who I'm talking to? How dare you interrupt me!"

Yano Yamakawa's cold eyes flashed sharply, his anger was evidently expressed through one look!

The staff shivered, hastily retreated a few steps but seemed unwilling to leave!

"Director, the calculation results are out!"

"The magma flow is expected to stop in an hour!"

"What did you say!!?"

Yano Yamakawa looked at the reporting staff in shock, scrutinizing him up and down, feeling a cold sweat realizing it wasn't false!

"What? Go verify quickly!"

"Don't hang up the phone!"

"I'll wait for your news!"

The voice on the other side also heard the report, urging Yano Yamakawa to verify immediately!

Yano Yamakawa dared not delay, instantly approached the experts to repeatedly confirm the values appearing on the big screen!

"Could the detected values be false?"

Experts collectively shook their heads in response to the skepticism!

"Data is very accurate!"

"This calculation model is supported by technology from Atlantis, combined with the latest detectors forming a 128-group monitoring network!"

"The model is established!"

"No mistake!"

"Magma activity inside the volcano has indeed stopped!"

These words left Yano Yamakawa stunned!

Clearly, the magma on the big screen was still flowing down the mountain, showing no signs of stopping!

How could it stop suddenly!

Previously, public statements indicated that the volcanic magma flow of Jingli Mountain might be uncontrollable!

They had even escalated to implementing the worst-case scenario!

"How can this be???"

"Stopped just like that!?"

"Previous detections indicated continued flow, threatening the chemical plant there!"

"Could there be a problem with the calculation model?"

"A problem with the detectors?"

"Check it out quickly!"

"Double-check it!"

"Get it started, no time left!"

Yano Yamakawa's hoarse voice echoed throughout the hall.

The cabinet, receiving this news, also fell silent, hanging up and choosing to wait for the Volcano Research Institute's confirmation.

The remaining six institutes also halted their plan development, coordinating with Yano Yamakawa to further analyze the data from the volcano.

At the same time, Yano Yamakawa called Kanamoto Taro.

"Where are you guys?"

"Just got to the mountain base, what's up?"

"Climb back up fast!"

Chapter 292: Hold an Emergency Meeting!

"Water??"

"I just came down!"

"Is the nuclear bomb coming soon?"

"Am I going up to die, Director?"

"I quit!"

"Let this commander do it if they want to!"

Gang Taitai Nan directly hung up the phone and angrily threw the cell phone away!

His heart was filled with rage!

The distance from the mountaintop to the base is so far!

He had just come down, hadn't even had a hot meal, hadn't had a chance to rest, and another call came in asking them to go back up!

Eating and resting weren't the most important things; the most important thing was that the nuclear bomb was about to hit Jingli Mountain!

If they didn't run now, there wouldn't be time to escape later!

The command from Shano Yamakawa was not for a helicopter to pick them up but to go up the mountain!

Seeing Gang Taitai Nan so angry, everyone was afraid to ask and followed his stride down the mountain.

But soon, all members of Team 8 received a text message almost simultaneously!

"Dingdong!"

"Dingdong!"

"Dingdong!"

"Dingdong!"

...

"What's going on!!?"

Everyone looked at each other, feeling puzzled!

They quickly opened the text messages!

"According to the data returned from detection, the result shows that the magma inside the volcano has stopped moving, and the flow is expected to cease in an hour! You need to visit the summit again to check the detectors and adjust the arrangements if necessary! ——— Shano Yamakawa"

Everyone compared their phones and found that the messages were identical, all from the number of the Volcano Research Institute's director, Shano Yamakawa!

Then everyone turned their gaze to Gang Taitai Nan!

"Commander, should we... go?"

"Is it true or not?"

"One moment a nuclear bomb, next moment magma stops! It's making everyone panic!"

Gang Taitai Nan looked at the commander's badge he had just put on his shoulder and couldn't help but sigh deeply.

Once people are in high positions, the greater the power they gain, the less they can control, and the more they feel powerless!

In the end, they can't escape the constraints of officialdom.

"Go up? Let's go up!"

Gang Taitai Nan adjusted his emotions and led the team back up to the summit.

Meanwhile, in the hall of the Volcano Research Institute, all the experts analyzed the detected data multidimensionally.

At first, they suspected the computational model from Atlantis was incorrect, then switched back to the initial volcano computation model, but the results were consistent!

The surface activities had stopped! And the detected waveforms were much lower than the values before the volcano's initial eruption!

That meant the magma inside the volcano had receded!

It had flowed back deep underground!

This result was calculated simultaneously by six research institutes and was undoubtedly accurate to this point!

During this time, Gang Taitai Nan's team also ascended Jingli Mountain again, retested the detectors, ensured the layout was correct, and adjusted the parameters accordingly!

The final result indicated the volcano had indeed ceased activity!

Not only had the one-hour deadline passed, but at one hour and two minutes, the magma receded into the mountain and stopped flowing out!

The accuracy of this hour's forecast was chillingly precise!

Shano Yamakawa immediately called the cabinet to inform them of the final computational results, confirming the volcano had stopped!

The phone call from the other side nodded and agreed, and the nuclear bomb plan was thus abandoned.

Shano Yamakawa communicated this result to everyone!

Once the final results were out, the entire hall burst into cheers and instantly became lively!

Even the celebration when the satellite launch succeeded was not half as joyous as now!

More joyous than any other moment!

Everyone felt like they had gone through life and death!

They each left their seats and hugged each other, with some shedding tears of excitement, others dancing joyfully!

The quelling of the volcano had come too hard!

And the people in the research institute were more shaken than anyone!

Because they almost had a nuclear bomb from Atlantis territory fired here!

It was thanks to this group of people who detected the values and prevented it all!

Shano Yamakawa gazed at the large screen, couldn't help but exhale a long breath, finally letting go of the heavy burden in his heart!

Though the reason behind the volcano suddenly stopping couldn't be calculated!

Nonetheless, it was an immense joy for it to have calmed down!

Watching the relieved crowd in the hall cheering and singing, the atmosphere like a festive celebration, Shano Yamakawa revealed a long-lost smile.

On that day, Divine Light Country's Volcano Research Institute submitted a satisfaction-guaranteed report to the citizens.

The government subsequently issued an official notice of the volcano disaster's losses!

This sudden eruption of Jingli Mountain Volcano lasted 16 days!

It caused near-total destruction of all buildings and facilities surrounding Right City District and Central District!

The economic damage was immeasurable!

casualties!

Of which Divine Light Country's domestic death rate reached 89%, Atlantis accounted for 3%...

The notice's end included various compensation clauses, reconstruction plans, and temporary housing measures for destroyed homes...

Additionally, the list of deceased individuals and the situation of unidentified bodies' handovers.

This official notice from Divine Light Country was swiftly republished by global media!

In a short time, it blossomed across forums and live platforms worldwide!

It spread rapidly to every corner of the world, wherever there was internet access, this latest news would appear on the headlines!

Chapter 293: Call an Emergency Meeting!\_2

"The fire has calmed down just like that?"

"The Divine Light Country is just trying to gain attention! They made it seem like the apocalypse was coming, and now they suddenly say the volcano has calmed down out of nowhere!"

"Damn it, scared the hell out of me! I even bought a coffin!"

"You're really overreacting up there. If a disaster were to start, it would begin within the borders of the Divine Light Country. You're far away in the Great Xia Kingdom; buying a coffin is a bit exaggerated!"

"Something's fishy. The students from Imperial Capital University just left, and then the volcano in the Divine Light Country stopped immediately!"

"Now that you mention it, it's really weird!"

"And that figure cultivating at the mouth of the volcano has also disappeared!"

"Could it be that the Divine Light Country intentionally made the volcano look like the end of the world just to divert attention, and that figure cultivating was part of their ploy?"

"What a pity, we didn't get to witness a nation-destroying catastrophe!"

"It's too despicable, their attitude is terrible! If they can't control the volcano, they just let it go to ruin, dragging the entire Earth's ecosystem down with them!"

...

The forums worldwide were flooded with comments, so much so that the screen was completely obscured unless one filtered out the comments.

However, reality wasn't as lively as the comments; some were condemning the actions of the Divine Light Country, some were digging for information about that mysterious figure, and others praised the country's emergency measures for managing to control the casualties so well!

Moreover, countries around the world issued official statements, expressing congratulations.

The people of the Divine Light Country, in particular, celebrated energetically on the day the announcement was made, with the streets brightly lit up and fireworks and firecrackers going off throughout the city. People spontaneously took to the streets, dancing in celebration, creating a festive atmosphere comparable to New Year's Eve!

Many returned to Jingli Mountain to take photos with the volcano-devastated city to make memories.

As for the volcanic ash filling the sky, with the cessation of the volcanic activity, the clouded sky made the area experience a light drizzle.

Previous residents of the destroyed houses also came in groups to witness, only to find the supermarkets they once lived near now unrecognizable!

Traces of lava engulfed everything, and the solidified lava layers swallowed the city like a mudslide.

Officials at all levels of the Divine Light Country finally heaved a sigh of relief.

The strain of the past few days had left them unable to rest; once the definitive news of the volcanic calm was announced, they dozed off at their desks.

...

...

In Atlantis, in a skyscraper towering into the clouds, within an isolated floor.

This floor was inaccessible by elevator and required special credentials along with biometric recognition to pass through layers of security to enter.

It was an extremely secretive organizational base!

In a dimly lit room, a man with vacant eyes watched the news broadcast showing the volcanic eruption in the Divine Light Country that destroyed two cities, caused hundreds of casualties, and resulted in severe economic losses.

To him, this stirred no emotions; his face showed no color whatsoever.

It was as if he were watching a very minor event. Currently, his only concern was whether there would be more reports about that mysterious figure.

Ever since that figure escaped the military's helicopter chase and footage, there had been no further information. Additionally, there had been no contact with Helena and Kendia's team!

Two batches of people had been sent successively for investigation and rescue, but still, there was no word about their team!

At this moment, a knock on the door interrupted Griffin's thoughts.

"Come in!"

It was a member of the team sent to rescue Helena's group. Seeing their liaison appear, Griffin's interest was piqued!

"Is there any new information?"

"Yes, Team Leader Griffin, but you better be prepared mentally!"

As he spoke, the liaison handed Griffin a tablet.

Griffin paused, took the tablet, and wondered what news could require him to prepare mentally.

Across the screen appeared a line of text that made his pupils dilate as he reread it word by word!

It was an official death list provided by the Divine Light Country for this Atlantis operation!

There were a dozen bodies whose identities couldn't be confirmed, but judging by their clothing and skin color, they were people from Atlantis!

Pictures were attached at the bottom of the text!

As Griffin enlarged the images, his heart jolted, and his hand trembled, almost losing grip of the tablet!

These corpses had their skulls turned to pure bone!

"Team Leader Griffin, these bodies died under very bizarre circumstances. It's impossible to identify them as Helena's team members by their faces!"

"However, Helena's body has been confirmed! Her appearance remains intact!"

The liaison explained while swiping to a photo of Helena's corpse on the screen.

Her body still had pale skin, with dark blood oozing from the corner of her mouth!

One look made it clear that she had taken the poison hidden in her gum!

"Given that there's been no contact with Kendia and the others, I suspect these bodies may indeed be their team members. Therefore, I have contacted the Divine Light Country to expedite the return of the bodies!"

The latter part of the words fell on deaf ears for Griffin, as he was deep in thought about what had befallen their team!

What had driven Helena's excellent group to the point of taking poison!

At worst, they should have been captured by the Divine Light Country's military after a failed assassination attempt!

"What force drove Helena to take poison!"

"And what caused such horrific corpses!"

Griffin mumbled to himself, clenching his fists tightly!

His face turned even more sinister as a wave of killing intent surged in his eyes!

Never had he felt such hatred towards anything!

Today, he experienced it!

Every encounter with Lin Beichen, his deployed teams faced disaster!

And the specifics of Lin Beichen remained unknown to this day!

It was a colossal humiliation!

The liaison, seeing Griffin turning to look out the window, wisely made an exit without a word.

Griffin was left alone, staring at the bustling city streets, lights intertwining, his mind brewing new plans!

Immediately, he returned to his desk, decisively pressing a hidden red button. A screen sprang up from the desk, displaying a black background.

After a long while, a shadowy figure appeared on the screen, the dim atmosphere on the other end exuding a highly oppressive mood.

Similarly, a low and raspy voice resonated.

"It seems your squad has failed again!"

"My apologies, Minister!!"

"I reached out to you to report that there's a strong possibility of a superhuman existing in the Great Xia Kingdom!"

"Hmm?"

"The Kendia team was handpicked and formed by me; their abilities are definitely not something a young man in his twenties could withstand!"

"Every preparation was perfect, the secrecy impeccable!"

"Yet they still couldn't kill Lin Beichen, and we received news of Helena's team going missing, only to confirm today that Helena's death was by poison!"

"Considering our previous investigations, this boy's behavior is extraordinarily strange, likely possessing the Power of Thunder!"

"The Power of Thunder?"

The shadow on the screen showed renewed interest upon hearing Griffin's explanation, and for once, turned around!

An aged face with cold, piercing eyes, a hollow scar on the left side of the cheek, likely from a bullet wound!

Though he was advanced in age, his aura remained imposing and spirited!

His mere presence made Griffin unable to meet his gaze, making breathing seem difficult with just a glance!

Given the Minister's previous identity and deeds, his ruthlessness was such that Griffin, whose hands were stained with blood, felt like an ant before him!

To Griffin, if the Minister so wished, he could mobilize an entire army!

This wasn't just an assassin organization!

"Prepare for an emergency meeting, I'll be listening in!"

"Make any requests you have!"

The deep voice finished and ceased communication.

Griffin lit a cigarette, taking a heavy drag.

Chapter 294: Beichen Takes Twenty-One Selfies!

At this moment, countless thoughts flashed through his mind!

What he wanted most right now was to capture Lin Beichen alive and bring him back to Atlantis, determined to dissect and study him thoroughly!

To see if the Great Xia Kingdom really had "superhumans"!

And if Lin Beichen was one of those emerging superhumans!

To what scale had they developed so far!

What are their weaknesses? How can they be dealt with!

Griffin's mind was in turmoil. The more he thought about it, the more bizarre it seemed. If superhumans really appeared in this world, how could ordinary people like them cope?

After finishing his cigarette, he lit another one.

Soon, the ashtray on the table was filled with cigarette butts.

The whole room was thick with smoke. Griffin sighed deeply, gathered his thoughts, and walked out of the room.

He saw a large hall filled with rows upon rows of computer monitors!

A group of people wearing headphones, all busy at work, their eyes fixed on their respective screens.

This was one of the surveillance departments Griffin was in charge of!

Responsible for monitoring, eavesdropping, tracking, and investigating information gathered from all over the world in one central location!

This place housed computer experts of all kinds, and even a large number of hackers and top-notch computer experts were kept here!

Any one of them could easily take down a website or an app!

Now they had come together, united as one!

Solely to serve Griffin's organization!

It can be imagined that once a target was identified and tracked by this group, any trace left online could be found!

"Everyone, new target: Lin Beichen from the Great Xia Kingdom!"

"I want all the information on him!"

"Quick, as fast as you can!"

Griffin clapped his hands, getting everyone's attention away from their work and onto him.

He then sent Lin Beichen's photo to all the computers in the hall using his tablet.

Soon, Lin Beichen's photo appeared on their screens!

With Griffin's command, everyone in the hall immediately got busy. Computer screens flickered, and the sound of keyboards clacking filled the room!

The network download peak in the entire hall reached its maximum!

All the hackers and computer experts launched a network trace on the target.

At the same time, the firewalls of major apps and websites in the Great Xia Kingdom detected multiple foreign access links searching for information!

But they found that the target was not to destroy or disrupt, but to look up something!

The firewalls quickly launched an interception and block operation!

The situation was tense, and it was impossible to get immediate results!

But this was already in Griffin's calculations; he had not placed all his hopes here.

Griffin then proceeded to the adjacent hall, which was another vast room filled with various weapons experts and map and terrain specialists!

But Griffin took one look and then turned away, thinking that these forces were not needed yet, as no large-scale combat had occurred!

Only when it came to actual confrontation might they be used!

What Griffin needed now was a top strategist!

Deep inside this building, there was a café!

This room had a large balcony that extended beyond the building itself, with sofas and an open-air swimming pool!

A silhouette sat on the sofa, basking in the sun, lazily watching the clouds in the sky!

In this towering skyscraper, such an open balcony made it seem as if one could touch the clouds with a jump!

Looking down, the entire city's scenery was visible, with cars on the road moving like tiny ants.

The silhouette sipped coffee and wore sunglasses, seemingly enjoying the current atmosphere.

Griffin politely knocked on the door. The door wasn't fully closed, so he gently pushed it open and walked in, making himself a cup of the same coffee at the bar as the silhouette.

Holding the cup, he came over and sat down in front of him, taking a sip. A trace of bitterness spread from his tongue.

"Oh, this coffee is quite bitter. How can you drink it?"

Griffin took just one sip and felt the bitterness.

The silhouette looked up at the clouds in the sky and saw Griffin coming over. He simply took a sip of his coffee, then set it back on the table, adjusted his cuff, and then finally turned his gaze to Griffin.

His movements were graceful!

He was one of the top strategists, ranked third, Kaelmes!

He wore just a pair of beach shorts, his body appearing slightly thin in the sunshine, but his face was taut, highlighting his full facial features.

His short hair and casual demeanor made him look like an unworldly, free-spirited young man.

But his actual age was 52, though he still looked like a young man in his mid-twenties. Perhaps it was because he didn't have much fat on his face, and the tight skin showed no wrinkles.

"Kaelmes, I need your assistance!"

"I know!"

"Wait a bit longer!"

As soon as Griffin spoke, Kaelmes replied casually, as if he already had everything under control!

This left Griffin feeling puzzled but never doubting his abilities!

Griffin knew very well that the man in front of him, ranked third among the top strategists, was even favored by the minister, who met all his demands just to keep him!

Chapter 295: Beichen Takes Twenty-One Selfies!\_2

He even played a key role in planning several major battles!

It shows that he absolutely has extraordinary intelligence!

Unfortunately, he was only temporarily sent by the minister to assist, and someone of his caliber, Griffin knew, couldn't be retained.

"Wait for news?"

"No!"

Faced with Griffin's inquiry, Kaelmes waved his hand to reject it, then stood up, drank the coffee on the table in one gulp, and walked out the door.

He headed straight to the surveillance hall filled with computers!

"How's the progress? Did it trigger the cyber police interception?"

Kaelmes arrived at the hall, clapped his hands to get everyone's attention, and then asked.

His question immediately caused the hackers and computer experts in front of the computers to raise their heads in astonishment and look towards him!

"How did he know the cyber police got involved?"

"This just happened, we haven't had time to report to Griffin yet!"

"He couldn't have guessed it, right? After all, who would think that investigating a student from the Great Xia Kingdom would trigger a cyber police strike!"

"So how does he know?"

The crowd looked at each other and discussed.

"Just answer yes or no!"

Griffin soon came over to the hall, saw everyone discussing, and shouted to stop them.

Then an obese middle-aged man walked up, handed a tablet to the two, and said:

"Look, we followed the images and invaded various mainstream apps and forums in the Great Xia Kingdom to search for information!"

"Initially it went very smoothly, we infiltrated the terminal servers and found traces of our target from various apps!"

"But strangely, any deeper investigation touches the firewall!"

"The firewall isn't built into the apps, we've bypassed their built-in security measures, and they don't detect us!"

"So we tried to break through this firewall, but it's very difficult; we've engaged in fierce attack-defense battles!"

"The peak bandwidth reached 996Gbps, and we still couldn't bypass it! It's very odd!"

"This is definitely a military-grade security network!"

"We need to ask if we should initiate a direct assault!"

"But doing so could expose our identities, even our locations, and... it could be a trap!"

"If we forcefully infiltrate, there might be a force ready to attack our servers, which could render all the computers here useless!"

The obese man explained while operating the layout map on the tablet; red lines zipped across the screen, representing each attack, almost merging into a large red area.

Griffin, listening nearby, was deeply shocked!

Investigating Lin Beichen's background actually encountered a cyber police ambush and blockade!

However, it was still uncertain if it was the Great Xia Kingdom's cyber police, and the identities couldn't be traced!

They're judging based on the strength of the protection!

No ordinary Internet company can withstand their attacks, which led to the conclusion that it was the cyber police intervening!

Otherwise, no ordinary Internet company would spend such resources to protect the detailed background information of an ordinary person!

"Stop immediately! Do not engage with them!"

"Just investigate his daily life, don't go too deep, stay on the edges of the firewall!"

Kaelmes made a decision swiftly, as if everything was within his calculations!

The obese man didn't know him, but seeing Griffin nod, he followed Kaelmes' instructions.

"Judging from this, your target is highly likely what you call a superhuman, and the Great Xia Kingdom has included him in their internal security system; any probe into his background triggers automatic defense!"

Kaelmes explained his speculation to Griffin, who looked alarmed.

"I've seen a similar situation when investigating a covert unit from the Great Xia Kingdom in the Divine Light Country!"

"To be honest, your network team is pathetic!"

"You've only touched on the autonomous defense of the Great Xia's network firewall, and haven't really reached the classified level!"

"Yet your network team is already struggling to cope!"

"Don't stir up big trouble lightly, and don't underestimate the counter-attack ability of the Great Xia's cyber police, otherwise you'll risk implicating the minister!"

Kaelmes finished, patted Griffin's shoulder meaningfully, and returned to his exclusive balcony room.

His words made Griffin break into a cold sweat, unable to resist taking a deep breath, feeling his chest pounding hard!

As Griffin had suspected earlier, in front of the minister, he might be as insignificant as an ant!

He could barely be considered part of a killer organization, but the minister's power is beyond imagination for Griffin!

...

...

Back in the Great Xia Kingdom, at Imperial Capital University, Physics Department.

The math application lessons from the previous day made Lin Beichen famous throughout the Physics Department; on top of his previous title as a top scorer, he earned the nickname "Academic God" again.

Many female students bombarded Lin Beichen's contact information all day!

Han Yuan forcefully dragged Liang Dong to the sports field, where they set up a stall selling Lin Beichen's photos and contact info!

Twenty yuan a piece!

They've already made over ten thousand yuan!

Nearly all the buyers were girls, who also inquired about Lin Beichen's romantic history and preferences while purchasing!

Girls seen as aloof goddesses were now turning into love warriors, proactively showing interest!

Knowing your target well helps you make a move successfully!

Lin Beichen became an idol for many girls!

Of course, this wouldn't be complete without Han Yuan embellishing Lin Beichen's star potential from the side!

Such as having eight-pack abs, being wealthy but frugal and kind-hearted!

An impressive background but down-to-earth!

A limitless future!

These words made the girls' hearts flutter; along with Lin Beichen's handsome photo, many had already seen him in person, spreading his fame rapidly!

"Is what we're doing really okay!"

"If Beichen finds out, won't he kill you!"

Liang Dong felt worried; he actually didn't want to help Han Yuan set up the stall, but he was strapped for cash lately!

Plus, Han Yuan's persistent persuasion pulled him into the team to sell contact cards at the sports field.

"Hmph, Beichen should be thanking me!"

"Think about it, who else gets this treatment!"

"Just today, hundreds of pretty girls bought his photos and contact info, asking about him!"

"We're doing him a favor!"

"Besides, without my embellishments on his profile, we wouldn't have such a scene!"

"He should treat us to a feast to show his gratitude!"

Han Yuan dismissed the concern, and seeing a pretty girl passing by, he loudly promoted Lin Beichen's photos and info with enthusiasm.

It felt as if he was trading Lin Beichen's information!

Liang Dong felt uncomfortable, but his financial needs forced him to go along!

For these days, Lin Beichen was the most frustrated; from morning to night, his phone messages kept ringing non-stop!

Opening WeChat, new friend requests reached 99+... he couldn't even approve them all!

Initially, a few were familiar seniors, thinking no harm in approving, but then it grew out of hand, more and more!

"Ding Dong!"

"Ding Dong!"

"Ding Dong!"

"Ding Dong!"

....

"Who's doing this!?"

Lin Beichen couldn't help but shout, yet there was no response; he was alone in the dorm, still working on the problem of Elemental Power, trying to put it into words.

But the constant phone notifications made it impossible to focus on research materials!

Bang!

The dorm door suddenly swung open, and Wu You rushed in,

"Beichen, go to the principal's office!"

"Han Yuan and Liang Dong were taken to the principal's office by the director and are being scolded, they've asked for you to come over!"

Chapter 296: Just a College Physical Test?

"Principal's office?"

Lin Beichen looked confused, wondering if there was something the principal needed to discuss with him since he had just returned from Divine Light Country.

Wu You was very anxious, rushing ahead as she walked with Lin Beichen to the principal's office.

When they reached the principal's office, they saw Han Yuan and Liang Dong bowing their heads and getting reprimanded by Hao Jianhua. The scolding was so loud it could be heard far down the hallway!

"This is a school, what do you think this place is!?"

"Who told you to do this? Was it Lin Beichen!?"

"This is outrageous! Imperial Capital University is not a place for you to flirt and chat!"

"Do you know how few admission spots there are each year? Other people fight tooth and nail to get in, and you guys, what have you done!"

...

Hao Jianhua's relentless reprimand made Han Yuan and Liang Dong lower their heads further.

Wu You followed Lin Beichen into the principal's office, but she stopped at the door and did not go inside.

Seeing Lin Beichen come in, Hao Jianhua tapped a pile of photos on the desk and said, "Tell me, did you participate in this?"

Lin Beichen was shocked, and walked up to take a look at the photos. With just one glance, he instantly understood what was going on!

The photos were his own selfies or candid side profiles, with his WeChat ID printed on the back of each one!

"So that's why I've been getting so many friend requests on WeChat these past few days. It was you two messing around!"

"It's not my fault, the girls came to me asking about you. More and more people started asking, so I... I started charging them!"

"It's all my fault. I wanted a better pair of sneakers for next week's sports meet, but they were too expensive. Plus, my living expenses this month went over budget, so I... I was a bit short on money, so that's why..."

Han Yuan and Liang Dong felt ashamed at this moment. Initially, they did it for fun and to feed their vanity by knowing so many girls.

Later, Hao Jianhua lectured them about the law for over an hour. They finally understood that selling someone's photos and personal information without their consent violated the law!

There are legal consequences for infringing on someone's portrait rights, including imprisonment!

Upon hearing this, Han Yuan realized the severity of the situation!

"Call your parents here to handle your withdrawal procedures!"

Hao Jianhua's face was full of anger. Catching them red-handed just after returning to the country, concerned about the university's image under constant media scrutiny!

When Hao Jianhua said this, his tone was extremely stern!

The atmosphere in the room instantly dropped to freezing point!

To Han Yuan and Liang Dong, it was like a thunderclap. They were so scared that cold sweat beaded on their foreheads!

They were stunned, not knowing what to do!

"I don't want to be expelled, Principal. I won't do it again!"

"We were wrong. I'm sorry, Beichen!"

At this moment, Han Yuan and Liang Dong felt endless remorse, not expecting their actions to lead to expulsion.

Outside the door, Wu You, who had been eavesdropping, also felt her heart tighten. She never expected that the usually kind Principal Hao would be so stern in handling this matter!

"Principal, although I was unaware of this, thankfully it hasn't caused me much trouble!"

"I think they are just my roommates, probably joking around. Since they know their mistake, why not give them a chance to correct it? What do you think, Principal Hao?"

Lin Beichen noticed that Hao Jianhua was giving him the opportunity to soften the situation, so he naturally followed along.

"Hmph, in light of Beichen forgiving you, the expulsion is spared!"

"You'll be publicly reprimanded across the whole school, and you'll write a 10,000-word self-critique and post it on the bulletin board for a week!"

"No, for a year!"

"Now leave!"

At this moment, Hao Jianhua exuded the full authority of a principal. With many years in the position, he was adept at dealing with student discipline.

He struck a perfect balance!

Han Yuan and Liang Dong felt a weight lifted from their hearts when they heard that the expulsion was spared.

As for the 10,000-word self-reflection and public posting for a year—that was a minor issue!

As long as they weren't expelled!

After all, getting into Imperial Capital University wasn't easy!

The two of them walked out of the principal's office dejectedly. Wu You outside the door was happy for them. Lin Beichen told Wu You a few words, asking them to head back first.

Lin Beichen knew that Principal Hao had more to say, so he stayed behind.

After sending the two of them off, Hao Jianhua led Lin Beichen to the innermost part of the office.

"You! Your trip to Divine Light Country really worried me!"

Hao Jianhua sighed. He wanted to scold him but decided to let it go. At least he was fine, and it was indeed his own failure to control the situation.

"Tell me, was that silhouette on Jingli Mountain you?"

"Yes!"

Lin Beichen did not hide it and admitted it truthfully.

After all, he knew about his involvement with the safety bureau.

Hao Jianhua was shocked to confirm this from Lin Beichen's mouth.

He didn't expect the heroic figure on Jingli Mountain, who caught the world's attention, would be him!

The whole world wanted to know the identity of that mysterious figure, and that person was right in front of him!

It was an uncontrollable excitement!

Though Hao Jianhua had seen much in his life, he still regarded Lin Beichen as a precious treasure!

Finally, Hao Jianhua reminded Lin Beichen not to reveal any of his personal information easily!

This, Hao Jianhua believed, was the only way he, as the principal, could protect Lin Beichen!

This ensured that the media had no chance to interview Lin Beichen, and the academy's PR department gradually suppressed the public uproar.

Thus, the global sensation and speculation surrounding Lin Beichen were smoothened over!

Chapter 297: Just a College Physical Test?\_2

All eyes finally shifted away from him.

The next day.

It was PE class.

PE class was the one that all students most looked forward to and enjoyed.

Because it was very free!

The PE teacher took the students to the activity room, which was equipped with complete fitness equipment and various sports facilities, such as basketball courts, soccer fields, badminton, and table tennis, etc...

Anyone could participate in any of the activities, and each one had a professional instructor, no different from a high-end gym.

Far richer than high school PE classes!

This was also a major feature of Imperial Capital University!

And unlike high school, PE class lasted the entire day!

There were four classes per month!

With such luxurious settings, everyone used the PE class to work out and earn a certain number of credits for their physical fitness assessments!

As soon as they entered the activity room, everyone quickly occupied the best fitness equipment, like treadmills, weights, table tennis tables, and punching bags...

At this moment, a dark-skinned but muscular female teacher walked in, holding a registration form in her hand.

"Next week is the preliminary selection for the school sports meet, are there any students from your class who want to sign up?"

She casually glanced around the room.

She didn't expect to find any good candidates for the sports meet from the Physics Department.

It was just a routine question for her job.

"Me!"

"Me!"

"And me!"

"Yes, him too!"

Han Yuan, with his arms around Lin Beichen, came forward with Liang Dong and Wu You.

The four of them raised their hands, which drew curious looks from the other students in the activity room.

It was rare to see anyone from the Physics Department participate in campus activities. Nobody from previous or current batches had taken the lead.

The stereotype that they were only good at physics research and nothing else was prevalent.

Now, four of them had stepped forward to sign up for the school sports meet.

Although they didn't look like athletes, Liang Dong, with his dark skin, muscular build, and long legs, looked perfect for high jump and track and field!

This was the consensus among the other students.

After registering the four names, the female teacher looked around and asked, "Anyone else?"

"Anyone else want to sign up?"

Everyone she looked at shook their heads, and no one responded.

"Alright then, just you four!"

"Everyone, come over and gather, it's time for the mid-term assessment!"

...

After registering the names, the female teacher launched into the next part of the course.

"Mid-term already?"

Among everyone present, Lin Beichen was the only one surprised.

"You wouldn't know since you've skipped classes. Physical fitness assessments are earlier than other courses! It's normal!"

Han Yuan explained quietly to Lin Beichen, which happened to be overheard by the female teacher.

"You, come here. Why haven't I seen you in class before?"

The female teacher pointed at Lin Beichen and called him out.

"Oh, I see!"

"The perfect scorer, so it's you!"

"Known as the academic god, but physical fitness tests are different from academic exams!"

"You start first, one item at a time!"

"Huh?"

Lin Beichen scratched his head, feeling a bit embarrassed. He really hadn't attended a single PE class.

He had attended all other classes at least once, but he thought PE was just about fitness, which he didn't need. Usually, he used PE class to practice Electric Element.

"What's with the 'huh,' hurry up and start!"

"First item, pull-ups!"

"Timed for six minutes!"

The female teacher didn't give Lin Beichen much time to think and promptly led him to a pull-up bar!

The other students gathered around to see how the perfect scorer would perform in physical fitness.

Han Yuan and Liang Dong watched with amusement, while Wu You was a bit worried since she had never seen Lin Beichen train in this aspect!

"Teacher, how are the scores calculated? How many for a perfect score?"

Lin Beichen stood in front of the pull-up bar, still a bit confused. He knew how to do pull-ups, but he wasn't sure about the assessment criteria, as he was daydreaming during the explanation.

"You, perfect score!"

The female teacher couldn't help but scoff, looking Lin Beichen up and down. He didn't seem to have any muscle, more like a bookworm!

"Each person's assessment criteria vary, divided by weight and gender!"

"You, a hundred in six minutes, that's your perfect score!"

"Fifty in six minutes, that's passing!"

The female teacher casually recited the numbers, seemingly indifferent.

She focused more on top athletes from other departments!

Those who earned extra credit through sports competitions to get into Imperial Capital University were the teacher's main focus!

Even the architecture or civil engineering departments had better athletes than the Physics Department!

"Alright, a hundred it is!"

Once Lin Beichen knew the conditions, things became much simpler!

He reached out, grabbed the bar, and jumped up!

Five minutes, a hundred pull-ups, done, and landed!

The movements were standard, clean, and smooth, without any hint of sloppiness!

Everyone was stunned!

Because they saw Lin Beichen doing pull-ups without ever taking a break, and after he was done, he wasn't even flushed or out of breath!

This level of fitness was impossible for someone who didn't exercise regularly!

What they didn't know was that Lin Beichen was counting carefully.

With his current fitness, he could easily surpass the target several times over. His physical ability far exceeded that of an ordinary person, but he didn't want to show off too much.

He even thought about scoring just a passing grade, but it was too easy for him!

The female teacher was also shocked and checked the clock repeatedly; it was right!

Suppressing her surprise, she said,

"Not bad, perfect score for you!"

"Next item, start!"

Everyone turned their attention to see what the next item was, as the female teacher led them to a fenced square ring.

"Next item, freestyle boxing. A teacher will be your sparring partner, three rounds, hitting three effective points counts as passing, six points as a perfect score!"

After she spoke, a burly male teacher with muscles came up with boxing gloves on.

"No way, fight him?"

"This isn't fair at all!"

"Do you think Beichen might get beaten to death?"

"Ugh, so gory, I can't look!"

"I think we should give up on these credits, it's too crazy, no way we can win!"

"That teacher looks like a professional fighter, see how he moves his fists and stretches, so professional!"

"What if we also have to fight him?"

...

The appearance of the male teacher instantly sparked a commotion, and the activity room buzzed with discussion.

Seeing the male teacher's muscles, the confident boys now looked deflated!

Students started to lose confidence and considered backing out.

"Don't worry, the male teacher won't hit you!"

"He only defends, doesn't attack!"

"So you're safe, you just need to find a way to hit the target points to pass!"

"Of course, girls won't be against him but against me!"

Hearing this, everyone breathed a sigh of relief. At least they wouldn't get beaten up!

It wasn't reasonable to have university students fight what seemed like a professional boxer.

Female students felt less pressured knowing they wouldn't face the male teacher, though the female teacher also seemed formidable!

It didn't change much; both opponents were unbeatable!

"Teacher, what if I knock him down? What score would I get?"

Amid their discussions on how to cheat, Lin Beichen raised his hand and asked.

This question was like a thunderclap in the activity room, bringing instant silence and drawing everyone's attention to him!

Even the male teacher who was stretching stopped and walked over in shock to see what was going on.

Chapter 298: Sorry, I Knocked You Down!

Everyone's eyes inevitably turned towards the scene, forming a circle around it, and all the students in the hall gathered.

They wanted to see who dared to say such arrogant words and what kind of end they would meet!

Even the teaching assistants of various subjects were drawn over by the situation.

The scene was already explosive before any action even started.

This made the female teacher furrow her brow, circling Lin Beichen as she scrutinized him carefully.

She wanted to see what kind of confidence he had to ask such a question.

At the same time, she tentatively pinched Lin Beichen's arm muscles, still finding it hard to believe!

"Beichen, if you're saying this to attract the attention of the girls in our class, then you've succeeded!"

"But I hope you can be more sincere and learn to respect the teachers, especially the one you're about to compete with. You can't just be disrespectful from the start. It's hard to score any points from a teacher you've offended!"

"Now, if you admit you're just trying to get attention and apologize to the teacher on stage, we can pretend this never happened and that you never said those words."

Though the female teacher spoke kindly, there was a hint of anger in her words.

She sensed a student's disrespect towards a teacher and treating this physical fitness test as a joke, especially in the least regarded physics department, which she couldn't tolerate.

Her words, if not pondered deeply, seemed genuinely for Lin Beichen's good and quite normal, considering they didn't know Lin Beichen's true strength.

At this moment, everyone was fully focused, the scene very quiet, silently watching Lin Beichen to see if he was just showing off or seeking attention.

If so, it would surely bring a wave of sighs!

That's the excitement everyone gathered to see, after all, they couldn't believe a student could defeat a professional fighter in free combat!

If that were to happen, it couldn't merely be called a talent — it would be considered a miracle, defying all logic!

"Beichen, apologize now. If you offend the teacher before it even starts, he definitely won't go easy on you!"

"Yeah, Beichen, it's no big deal, no one will hold it against you!"

Han Yuan and Wu You stepped forward and whispered, not quite convinced that Lin Beichen could knock out a professional in the ring either.

"Step up, student, there are many others waiting in line!"

"Here's the deal: I won't use my hands to defend. If you can hit me three times, it counts as a perfect score!"

The male teacher on the stage looked over with interest at this moment, leaning on the ring's railing, watching Lin Beichen with an amused expression.

From the male teacher's words, the crowd could more or less tell he was mocking Lin Beichen.

Given that Lin Beichen wanted to defeat a professional as a student, the professional responded by not using his hands to defend. Originally, six effective hits were a perfect score, now he only had to land three!

It was clear Lin Beichen's words had indeed sparked conflict!

However, the teacher's concession seemed exaggerated to everyone, not using hands for defense, relying solely on footwork to dodge!

Even if swung wildly, a few hits could land over three rounds!

This was also a direct counter to Lin Beichen's words!

Lin Beichen couldn't help but chuckle softly, ignoring the teacher's words. He put on his gloves and stepped into the ring.

As he stepped into the ring, the atmosphere instantly ignited!

Hundreds of people cheered loudly, like a live broadcast of a kickboxing match!

And at that moment, the supporters of the teacher or Lin Beichen also took their sides!

But the result was obvious, the vast majority stood on the teacher's side, seeing the overwhelming advantage.

On Lin Beichen's side, there were only a few people, with Wu You, Liang Dong, and Han Yuan making up most of the support.

"Beichen, you got this!"

"Be careful, that teacher seems a bit angry!"

"Yeah, Beichen, although he said he wouldn't retaliate with his hands, he didn't say anything about his feet!"

The three reminded him anxiously, adding to the tension, sweating nervously for Lin Beichen.

This was also the first student in this midterm fitness test, setting a precedent for everyone. No one dared to leave for the bathroom!

Fearing that a moment's absence would cause them to miss an exciting instant.

Some also hoped to gain some experience from this match to approach their turn with more composure.

"Beichen, I'm rooting for you, remember what you said, knock him out!"

The female teacher said meaningfully from below, her tone carrying a hint of stirring the pot.

"Knock him out!"

"Knock him out!"

"Knock him out!"

.....

The students' chant grew loud and clear, raising their hands in cheer!

The sound echoed throughout the building, causing students passing by to stop and linger.

"What's happening in the activity room? Who are they knocking out?"

"Sounds quite grand, I'd love to see!"

"What, it's the physics department? What grand event could they have, probably a bunch of researchers, maybe some crickets fighting!"

Chapter 299: Sorry, I Knocked You Down!\_2

"It makes sense, now that you say it, I'm not curious anymore!"

...

Passersby, initially filled with curiosity, thought the commotion indicated a fierce fight, but since the Physics department people are rarely seen in various places, the curiosity waned.

It was well known throughout Imperial Capital University that they are mostly confined to laboratories, so interest quickly faded.

They walked by briskly, paying no mind.

Inside the activity room.

On the arena stage, the male teacher, as he said, put his hands behind his back and opened his stance!

He raised his forehead and said, "Let me see your moves!"

"Teacher, you really shouldn't do this!"

"I think you really can't beat me!"

"Even with just my hands and feet!"

Lin Beichen spoke his mind honestly, the atmosphere on-site became highly intense, and the male teacher even truly planned not to use his hands!

This was not the scene Lin Beichen wanted to see.

He just wanted to go through the motions, get the credits for this course quickly, and move on to the next item.

This sentence from Lin Beichen sounded casual but brought a touch of anger to the male teacher's face.

A student, repeatedly disrespectful, if he continued to let him flaunt, it would truly grant his wish!

"Alright, you go ahead and show your moves!"

"I won't go easy on you!"

The male teacher posed a defensive stance, already planning to fail Lin Beichen, that is, not letting him score even a point from him!

"Begin!"

Below the stage, the female teacher pressed the stopwatch, with her order, the first round's timing began!

And at that moment, Lin Beichen made his move!

The crowd held their breath, only to see Lin Beichen punching left and right, then delivering a straight kick with his right foot, swiftly attacking the male teacher!

But the male teacher was evidently prepared, preemptively defending against Lin Beichen's attack!

He retreated half a step, ready to grab Lin Beichen's incoming fist, at the same time raising his left foot, aiming his ankle at Lin Beichen's kicking right foot!

Defending by attacking, trying to kick away the incoming foot!

But he miscalculated!

Lin Beichen's fist changed its path upon contact with his palm!

Just missed, the male teacher failed to grab Lin Beichen's arm, and the punch bypassed his defense, hitting his left arm!

And the straight kick, unexpectedly during the pre-set prediction, turned out to be fake rather than real!

A last-minute change!

The male teacher's defensive kick missed!

Lin Beichen crouched to the side, grabbing the male teacher's arm, delivering a heavy shoulder throw that slammed him onto the arena floor!

The on-site atmosphere became outright silent!

Fierce shouts abruptly stopped!

As if space itself had ceased, rendering everyone stunned!

Their mouths formed 'O' shapes in shock, unsure what to shout!

Stunning the entire audience!

The previously uninterested female teacher, who rarely looked directly at the situation on the stage, now had her eyes wide open!

Unable to believe, she tightly stared at the scene!

As if a massive shift had occurred in an instant!

"This, this is impossible!"

"The male teacher has actually been defeated by him!"

"Am I seeing things!"

"This kid must be cheating!"

"I see Lin Beichen's moves changing unpredictably, even faster than the male teacher's!"

"This person is very cunning, with moves that seem real and fake, even the male teacher fell for it!"

" ... "

"This is unbelievable!"

"He must be cheating!"

"It feels like the male teacher underestimated the situation! This must be it!"

...

After a moment of silence, the fierce discussion resumed below the stage!

No one could believe the scene where the robust male teacher was actually slammed to the ground by a student with just a shoulder throw!

Among them, the most shocked was the male teacher himself, who experienced it firsthand!

Only he knew what just happened!

He thought he predicted Lin Beichen's moves, but it turned out Lin Beichen predicted his predictions, in just one round!

With continuous moves, he directly broke his defensive stance and followed with a side approach, delivering a shoulder throw to knock him down!

Everything was so smooth and swift!

It felt like a dream, not yet fully in the state, without even testing his depth, just a face-off and he was knocked down.

The male teacher was not only shocked but also found it unbelievable!

Lin Beichen appeared as a scholarly student, struggling even with kicking sandbags, how suddenly could he explode with such force to throw him, weighing over 180 pounds, so violently!

This scene equally shocked the physical education teachers observing, knowing the male teacher's level, never expecting him to be defeated by a student!

"Teacher, are you alright?"

Lin Beichen stepped forward, reaching his hand out to help him up.

It was at this moment the male teacher snapped out of his shock, surprisingly finding himself still lying on the ground, immediately springing up with a kip-up!

"Fine, fine, you win!"

The male teacher, feeling somewhat unwilling, thought of his carelessness but couldn't break his word, and the most embarrassing part was the students surrounding the arena!

"Teacher, how about this, you attack, I defend!"

"Three effective hits, I'll score zero!"

Lin Beichen noticed the flickering desire and unwillingness in his eyes, using this opportunity to probe his skills, benefiting Wu You, Liang Dong, and Han Yuan with some reference!

"My fists are big, bear with it!"

"Also, call a doctor!"

The male teacher spoke, clearly fired up!

In his heart, he was ready to bear the medical expenses!

This made the female teacher feel worried, fearing for Lin Beichen's safety as she noticed the anger on the male teacher's face!

Embarrassing him in front of students, knowing the male teacher, Lin Beichen would face severe retaliation next!

The female teacher didn't delay, immediately called the doctor on duty in this building to bring a first aid kit to the site.

"Be careful, he is still a student!"

The female teacher couldn't help but remind the male teacher on stage.

"Don't worry, I'll be careful!"

The male teacher assured, stating he was just having fun.

This exchange instantly heightened the tension on-site to the extreme!

Everyone's heartbeat accelerated with the changing situation!

At first, if Lin Beichen said such arrogant words, asking the male teacher to attack him while he defended, it would seem like Lin Beichen was courting death!

Through the shoulder throw earlier, everyone on-site gained a newfound recognition of Lin Beichen, no longer seeing his words as attention-seeking but genuinely having some confident strength!

Soon, the doctor in a white coat arrived with the first aid kit, puzzled looking at the arena surrounded by a crowd.

Approaching the female teacher, she asked with confusion:

"What happened? Why was I asked to bring the first aid kit, what's going on?"

"Nothing, nothing, just here for precaution!"

The female teacher explained, then fixed her eyes back on the arena.

The doctor remained puzzled but looked at the arena following the female teacher's gaze, seemingly understanding the situation.

On the stage, the male teacher made his final stretches, already rubbing his fists, just waiting for the start bell to ring!

Dong Dong Dong!

"Start!"

The female teacher pressed the stopwatch and simultaneously rang the bell, the scene turned silent instantly, with all eyes fixed on each move on stage.

With the start bell ringing, the male teacher revealed an excited smile, it seemed his hunting moment had arrived.

He tilted his neck and made an offensive stance, approaching Lin Beichen.

"I'm ready to knock you down!"

The male teacher's voice was small enough to be heard only by them.

But Lin Beichen didn't care much, hoping the male teacher could knock him down, giving him a chance for enlightenment, feeling more advanced fighting techniques!

The male teacher saw Lin Beichen's calm expression, his anger grew slightly more.

Immediately he gathered strength, executing a fierce left swing toward Lin Beichen's cheek!

Followed by a right hook!

Back kick!

A flying kick in mid-air!

Left side kick!

Attacks toward lower body, upper body, targeting head, abdomen, and neck!

Each move ferocious, with no holding back!

Chapter 300: It's All Due to Han Yuan's False Advertising!

Anyone who understands these techniques can see that they are extremely swift and fierce, with no hint of holding back against Lin Beichen!

But surprisingly, no matter how fierce or swift the male instructor's moves were, they all ended up hitting thin air!

Lin Beichen stood on the stage with his hands behind his back, exuding an exceptional calm.

His body was as nimble and slippery as an eel, dodging every attack at the last moment!

Round one!

Round two!

Round three!

Ding ding ding!!!!

....

At the end of the three rounds, the male instructor's forehead was covered in sweat. Dragging his exhausted body to the edge of the stage, he looked at the scoreboard and was shocked into silence!

"Not a single effective hit!?"

"Did you make a mistake!"

"Are you sure you didn't see wrong!"

The male instructor felt a surge of anger, clearly having launched hundreds of attacks, yet not a single effective hit!

He was about to jump off the stage to question the female instructor in charge of scoring!

But after calming down for a moment, his exhausted body told him that he indeed had not hit Lin Beichen once!

Otherwise, he wouldn't have ended up exerting himself and getting so exhausted!

Lin Beichen's movements were like an eel's; each time it seemed like he was nearly caught, but he would slip away at the last moment.

"Teacher, you don't have to be discouraged. I'm not only the top scorer in literature, but also in martial arts. It's just never been publicized!"

Lin Beichen stepped forward to offer comfort, and his words stirred up a commotion among the audience. His figure seemed to radiate a charming light!

The female students in the audience instantly became his fans, casting admiring glances his way!

This also made the male instructor completely submit, shaking his head while sitting on the ground, taking a moment's rest. The past three rounds felt as exhausting as a professional competition for him!

"Beichen, congratulations!"

"You don't have to participate in the following tests. For this subject, you get full marks!"

The female teacher stepped forward, handed him an evaluation form, and asked Lin Beichen to sign to confirm.

She had completely changed her perception of Lin Beichen. Two consecutive extraordinary performances were enough to convince her that it wasn't luck but exceptional talent!

...

...

Meanwhile in Atlantis, in Griffin's surveillance hall.

"Team Finn!"

"We've got news on the human search target you asked for!"

The previously mentioned overweight middle-aged man hurriedly approached Griffin's office, holding a tablet.

In the office, Griffin was selecting new international assassins, while Kaelmes was also in the meeting. Upon hearing there was news about Lin Beichen, both immediately ceased their discussion!

"Spare no detail, quickly!"

The overweight man hurriedly handed the tablet to Griffin and said:

"Team Finn, the investigation is complete!!"

"This kid is a freshman in the physics department at Imperial Capital University in the Great Xia Kingdom!"

He then navigated the tablet to open a file!

The file listed detailed information about Lin Beichen.

[Lin Beichen, male, single!]

[Top scorer in both literature and martial arts, exceptional appearance, tall and dashing! Wealthy background yet highly frugal, family holds high positions yet remains humble and approachable!]

[Father: Lin Xiangdong, Mayor of North Third City!]

[Mother: Zheng Xia, Chief Justice of North Third City Supreme Court!]

As Griffin read this information, he increasingly sensed that something was off!

The content was obviously exaggerated, completely different from the previous knowledge!

"What the hell is this nonsense, where did you get this from?"

"It looks completely fabricated!"

Griffin couldn't hold back and angrily rebuked the overweight man, while Kaelmes silently observed.

The overweight man scratched his head and continued scrolling through the tablet, explaining:

"I originally wanted to hack into Imperial Capital University's teaching network, but they've recently strengthened their firewall. You said to avoid leaving traces and not to clash with the Great Xia military's network!"

"So I hacked into his roommate Han Yuan's phone to get this information!"

"However, we hacked over thirty phones, and the information was consistent!"

"There's also offline information trading; you can buy it for 20 yuans!"

"Look, here are about seventy or eighty photos of Lin Beichen!"

The overweight man kept scrolling, revealing numerous photos of Lin Beichen's everyday life on the screen!

Griffin scrutinized the photos; they were indeed of Lin Beichen!

But the more he looked, the less he could tolerate it.

Griffin took a deep breath, eyed the overweight man angrily, but decided to let it go after a moment of adjustment, then said:

"Do you think there's a chance that he made all this up just to impress girls?"

Kaelmes took the tablet from the overweight man and quickly went through the compiled files.

Kaelmes swiftly scrolled through the screen, eyes fixed intently, as if imprinting every image into his mind.

After a while, Kaelmes returned the tablet and said:

"That's all, you can go now. I'll discuss it further with Team Finn!"

The overweight man was a bit stunned. Didn't he need to explain the collected information? Nonetheless, seeing Kaelms look so serious, he relented and left without further questions.

Once he left, Kaelmes remarked, "Your assistant may specialize in networking, but his intelligence leaves much to be desired!"

"What's your take?" Griffin didn't respond and instead invited Kaelmes to continue while lighting a cigar.
