

Abyssal 811

Chapter 811 Toward the ninth layer

After Zatiel and Ezequiel devoured every iota of energy left after the destruction of the Soul Core of Existence's particles, a blast of force emerged from the duo, generating even more cracks in the already shattered dark dimension.

"¡BOOM!"

"¡BOOM!"

Explosions echoed inside the dark dimension as this one already went beyond the point that it could remain stable even with the help of a powerhouse like Ragnar.

Zatiel, Ezequiel, and Ragnar did not hesitate before using some of the cracks to leave the dark dimension, now that they had completed their mission. Even if they could endure the collapse of it, there was no reason to receive unnecessary wounds.

The trio left just in time to see the implosion of the last remnant of Baator, the Ninth Circle of Hell.

It was spectacular how the black castle that covered all Nexus's landmass twisted, with every deformed piece gathering at the center.

All the powerhouses across the Prima Universe saw that sight with awe and wonder. Even mortals across the countless worlds felt a miracle was happening, as if something wrong with the universe had finally ceased to exist.

Issac, Salomon, Hyperion, Bahamut, Noir, and Nut stared at the trio responsible. Their eyes focused on the one that was the catalyst for everything, the man who could do the impossible and that they could follow to the end.

Finally, when all of Nexus was nothing more than a dot less than two centimeters wide, this one burst, unleashing a shock wave that expanded through the entire universe.

When that happened, the Prima Universe began to tremble. Those with the power to see the law matrix and felt the Universe Will's might saw how these became stronger!

Zatiel's eyes showed some surprise, but he soon understood what had happened.

The Universe Will could not destroy Endless Darkness' Cores of Existences, but it always suppressed them. Now that Baator was gone, the Prima Universe no longer had to endure that cancerous plane and became much stronger.

Zatiel showed a radiant smile when he saw that. The Prima Universe's power was something he would need to rely on for the final battle against the Alpha Universe and the Flame Imperator.

The Neo-Demon Ancestor even turned toward Abyss as bloodlust appeared in his eyes. Erasing Baator and the Soul Core of Existence proved beneficial for the Prima Universe, so it stands to reason that destroying the Body Core of Existence would also be helpful.

However, after some consideration, he chose against it. Charging into Abyss right now would not be wise. They were wounded, and unlike Baator, Ragnar would not enjoy immunity to the Body Core of Existence's pressure.

That meant only Zatiel and Ezequiel could deploy their full power in Abyss, and now that the Body Core of Existence knew what he did in Baator, this one would not hesitate before sending its full power against them.

Not to mention that even if Zatiel and Ezequiel could defeat all the enhanced and suicidal Archdemons, they would still have to face the Champion of Chaos before touching the Body Core of Existence.

There was the possibility of performing a full-power assault by gathering the help of the Justice Primarchs, but the chances of some of them dying was too high, which would be counterproductive.

'Another time will be.' Zatiel shook his head and was no longer bothered about Baator. The Neo-Demon Ancestor knew it was important to enjoy the small victories. Although erasing an evil plane with a Rank 10 Core of Existence as the nucleus that stood from time immemorial could not be considered precisely small.

Now that Baator was gone, Zatiel turned his eyes to another realm, more specifically, the one that held some of the greatest geniuses from the Prima Universe.

A group of thirty-six geniuses had gathered in the eighth layer of the Realm of Madness. They have proven to be the best of the best, charging all the way to the gate into the ninth level that held the two strongest Crazies.

Zatiel and Ezequiel gazed at the Realm of Madness before teleporting toward it.

Ragnar did not follow the duo as he learned a lot during the battles inside Baator and wanted to take full advantage of those experiences. The Viking sat in the void and closed his eyes as the End Stars floating around his forehead began to thrive with power.F

When Zatiel and Ezequiel reached the Realm of Madness void, they saw how the powerhouses that remained there to watch over the geniuses of their races bowed to them.

The duo saw that and nodded as they did not find anything odd in their behavior.

Respect the strong. Age did not matter to life forms that reached their level, only strength. The Supreme Neo-Demon and the Neo-Demon Ancestor had proven that their brute power allowed them to defeat Primarchs, so it was only natural for those powerhouses to bow to the duo.

Zatiel did not waste his time and unleashed the full power of his Omega Law, covering the Realm of Madness. He would ensure that the next battle would not harm the world's foundation and save any of those geniuses if their lives were in danger.

Ezequiel's gaze focused on the sixth layer of the Realm of Madness, where a group of Neo-Demon looked toward the eighth layer.

Numir was among them, and her eyes glowed with fighting spirit. Due to her status, none of those geniuses would dare to refuse if she wanted to join them, but there was no way she would do something so selfish and foolish.

In all fairness, Numir had grown powerful very fast, having reached Peak Rank 7 and the Omega Law forming inside her seemed to have immense potential. Unfortunately, time was no longer on her side, and if she were to join those about to march into the ninth layer, she would only be a burden.

"¡BOOM!"

Suddenly, everybody inside the Realm of Madness looked to the void as they heard a massive thunder and saw a white pillar of lightning piercing the layers and reaching the sixth.

All the Neo-Demons saw how a majestic beast landed in front of them. The creature's eyes focused on Numir, smiling before fusing with the woman.

Numir was surprised to feel how her soul and body grew exponentially more powerful as a white scale armor covered her.

Entropy was a Peak Rank 8 life form, and it was just a matter of time before it entered Rank 9. Fusing with Numir weakened him as his goal was to grant the woman enough power so she could experience the battle on her own.

Numir felt her strength and showed a beautiful smile full of love toward the void before flashing into the eighth layer.

None of the geniuses said anything about Numir joining them in their final fray. She now had the power not only to be of help but be one of the strongest fighters.

As for the fact she obtained her current power due to outside help, everybody understood the importance of background. If they wanted to complain, they could only blame themselves for not having such a powerful backer like Invictus.

However, one among the geniuses narrowed her eyes as she saw Numir's armor.

"Hmph!" Zitra sneered, but she was not doing it toward Numir. She only felt happy for the Neo-Demon to be able to join them.

In the void, the one that was the actual target of Zitra's anger trembled for a moment.

Zatiel turned toward the Supreme Neo-Demon, blaming this one for making him look bad. Ezequiel only looked away as if he did not notice that.

"Go." Zatiel only sighed before saying that, making a pillar of purple flames enter the Realm of Madness.

It reached Zitra and fused with her, covering the woman in flaming bark armor.

After that somewhat comical event, all the geniuses adopted solemn expressions as they marched into the ninth layer.

Chapter 812 Heinz and Nero

Leading the thirty-seven geniuses ready to march into the ninth layer of the Real of Madness and face the two Rank 9 Crazies were the N°1 Sky Breaker and the Prince of the Fallen.

Heinz and Nero stood in the lead not only for their leadership abilities but also because they were the strongest!

The geniuses present in the eighth layer of the Realm Madness were the mightiest of the current generation of the Prima Universe, so the level the destiny of the duo reached was mind-blowing.

Nero and Heinz could not compare with multiversal monsters like Zatiel and Ezequiel. However, they were still mighty enough for the Justice Primarchs to see the next World Tree and Champion of Justice and Order in them.

"Roku, Gwyn, John Erick, Dean, Gabriel, Zinic, Jotun, and Ozman, you are the Shield Team. As discussed earlier, you will take care of the Imperishable Gravity Star Crazy. Your mission is not to win or even injure it, only to buy enough time for the Sword Team to take care of the Collapsing Star Crazy. Remember, if you fail, we could all die."

When the eight heard Heinz's words, they all adopted solemn expressions before nodding. Although their mission only consisted in hindering the Imperishable Gravity Star Crazy, they would still face a killing machine without fear of death.

The Shield Team was actually the one facing the greatest danger, but none of them showed any sign of dissatisfaction. Of all the geniuses, their abilities made it so that they were the ones with the greatest chance of success, so it was natural for them to take this role.

"I think that Numir and Zitra should join the Shield Team," Nero glanced at the void as he spoke those words. He relaxed after seeing that neither Zatiel nor Ezequiel showed anything and then focused on Heinz.

The truth was that the Prince of the Fallen's worries were unfounded. Ezequiel and Zatiel did lend a helping hand to Numir and Zitra, but that was all they would do. If they were to disrupt their battles to reduce the danger they could face, why would they even let them into the Realm of Madness?

The N°1 Sky Breaker pondered for a moment before nodding and glancing at Zitra and Numir. The women did not say a word before going to the side of the Shield Team.

Heinz accepted Nero's proposal because it made perfect sense. After having Entropy and Myriad fuse in them, Numir and Zitra's defensive powers reached an incredible level. They would help more in the Shield Team than in the Sword Team.

"Ready yourselves!"

Heinz shouted those words, and all the geniuses unleashed the full power of their souls, bodies, energies, and Omega Laws. Many also activated their bloodlines' innate racial gifts, increasing their strength even more.

Heinz's body grew muscular as bone armor covered it, and a second flaming sword emerged from his left hand. That was far from all as the cut on his forehead opened, revealing his Chaos Oblivion Eye, raising his power to a whole new level.

Next, a second soul aura emerged from the N°1 Sky Breaker, and everybody saw how a demonic phantom covered the upper side of his body.

Next to Heinz was Nero, and the transformation this one unleashed was just as incredible. The Fallen's ten wings were set ablaze by an azure fire.

Slowly a blue aura that seemed to cover both the inside and outside of Nero materialized, enhancing his body's offensive and defensive powers.

Dozens of flaming feathers emerged from his wings, forming a spear in front of the Fallen. The weapon did not seem remarkable, but once Nero held it and channeled his bloodline power in it, a shocking force emerged, which seemed capable of shattering any obstacle on its path.

All the geniuses who stared at the spear and had fought by Nero's side knew that the stronger the enemy, the more destructive power the spear would unleash. As long as the Fallen's fighting spirit burned with enough power, there was nothing that could stop that weapon.

"GO!"

Nero shouted, and his voice echoed through the entire Realm of Madness as the geniuses charged into the ninth level!

As soon as the geniuses entered the ninth level, where the Realm of Madness's origin stood, a suffocating aura assaulted them.

The Imperishable Gravity Star Crazy and Collapsing Star Crazy stood at this level for decades, unable to move out of it due to the brainwashing of the Destiny Karmic Reincarnation Omega Law. Only now that someone dared to march into their territory could they release their frenzied bloodlust.

"¡BOOM!"

An explosion echoed inside the ninth level, and all the geniuses were surprised to see the Collapsing Star Crazy use the law matrix as a surface and jump toward them at an incredible speed.

The Collapsing Star Bloodline granted immense strength and not speed, but if used correctly, you could transform one into the other.

The one-hundred-meter-tall Crazy was already on top of them by the time the geniuses realized it and fired two blows that could easily destroy entire worlds.

"¡BOOM!"

"¡BOOM!"

Explosions unleashing waves of energy that could have disintegrated Rank 7 life forms filled the ninth level. Luckily for the geniuses, two of them were able to react in time and counter the Rank 9 Collapsing Star Crazy.

A spear bathed in blue energy containing a cosmic force that sought to shatter every obstacle and rise stronger with every victory faced the Rank 9 Collapsing Star Crazy's right fist.

And two swords carrying monstrous flaming soul force with a cosmic force capable of pushing forward faster and faster, breaking all the limits, handled the left fist of the Rank 9 Crazy.

"¡AHHH!"

"¡AHHH!"

Nero and Heinz roared as their bodies trembled, and they used every ounce of power to resist the monstrous strength of the Rank 9 Collapsing Star Crazy.

The rest of the geniuses did not hesitate before joining the fray. The Sword Team unleashed a barrage of spells that pushed the Collapsing Star Crazy back, and the Shield Team flashed toward the Imperishable Star Crazy.

From the beginning, the battle proved incredibly hard and deadly since if not for Nero and Heinz, the Collapsing Star Crazy's attack would have killed at least five of them!

Chapter 813 Sword and Shield

"¡BOOM!"

"¡BOOM!"

"¡BOOM!"

Dozens of explosions echoed inside the ninth level of the Realm of Madness as the geniuses faced the two Rank 9 Crazies. It had already become a death zone for anyone beneath Rank 8, with shock waves that could destroy Void Creators in seconds.

Heinz and Nero clashed continuously against the Collapsing Star Crazy, generating blasts that shattered everything around them. Without the Destiny Karmic Reincarnation Omega Law reinforcing space, they would have provoked immense collateral damage.

Thanks to the immense energy and vitality that flooded the entire Realm of Madness, the N°1 Sky Breaker and the Prince of the Fallen managed to solidify their Inner Universe extremely fast, pushing their cultivation to the Peak Beyond Falsehood Stage.

The duo's abilities allowed them to deploy attacks that could threaten the lives of those at the Beyond Redemption Stage. Each of their Omega Laws allowed their momentum to rise higher and higher the longer they fought, so their strikes were only growing stronger.

Despite all that, Nero and Heinz found themselves in a very dangerous situation, where a single wrong move could end their lives. If it weren't for the geniuses helping them face the Crazy, they would have perished long ago.

The Collapsing Star Crazy's battle instincts were shocking, and the power it could unleash almost reached the Immortal Will Stage!

The transformation significantly increased the Everlasting Stage Archangel's power, making it a greater threat.

Everyone in the Sword Team had a job. Although Heinz and Nero took the front, that did not mean the others were safe, as from time to time, the Collapsing Star Crazy would charge to someone else.

Heinz and Nero had just collided with the Collapsing Star Crazy when a barrage of spells landed on the chest of the last one.

"AHHHH!" The explosion had not even faded when the Collapsing Star Crazy shouted with all his strength, generating a sonic attack that disoriented Nero and Heinz.

Instead of attacking the duo, the Collapsing Star Crazy turned to the origin of that last barrage of spells and charged toward them at an incredible speed.

Among the ones that sent that attack were Sacred Beasts and Buddhas. Before they could attempt to run, the Collapsing Star Crazy appeared in front of a woman and a man.

The man was bald with six diamond tattoos on his forehead, while the woman was a Sacred Beast in humanoid form.

Those geniuses' names were Nito and Pholix, and they had trained their bodies to an impressive level, with their flesh harder than weak Rank 8 Artifacts, but there was no way they could endure the attack of the Collapsing Star Crazy.

Two massive fists charged toward Nito and Pholix, each with the power to destroy their bodies and even Omega Laws, but before the Collapsing Star Crazy's attack could land, two arrows appeared.

None of those arrows had the power to influence in any way the attack of the Collapsing Star Crazy, but it did not matter since that was never their target.

Just as the fists were about to land on Nito and Pholix, the arrows struck them, generating a fluctuation in space-time.

The Collapsing Star Crazy's sinister smile froze when it saw the duo vanish and his attack landing on nothing. He turned to the origin of those arrows and saw a handsome young man with a flaming bow.

And the next second, Nito and Pholix appeared next to the young man. Somehow those arrows broke the seal in space-time of the Collapsing Star Crazy and teleported the duo to safety.

Immense rage appeared in the Collapsing Star Crazy's eyes, but that last attack left it full of opening, and a barrage of spear strikes and sword slashes landed on its back.

"AHHH!" Another shout emerged from the Collapsing Star Crazy, but this one was painful as those attacks pulverized the flesh on his back.

Nero and Heinz were ready to launch a second barrage, but the Collapsing Star Crazy countered their attacks, generating immense explosions. The rest of the Sword Team's geniuses did not lose the chance and continued their onslaught.

Not far from them, another group faced a Rank 9 Crazy, but this one was smaller, making the danger they had to face much greater.

The Imperishable Gravity Star Crazy offensive power was not its forte, but it was still shockingly high, with a point-blank strike more than enough to kill one of the geniuses or at least leave them severely injured.

The ones taking the vanguard role in the Shield Team were the Astral Fiend and a Dragon named Jotun. Both surpassed the others in terms of offensive power and melee battle skills.

Not too far from them were Numir and Zitra, using their spells and the power of their living armor to assist the duo. Entropy and Myriad could have killed the Crazy alone, but that would have defeated the purpose of the women entering the ninth level.

Both beasts used their power to enhance the center of power of Zitra and Numir, allowing them to reach a battle power around the Beyond Limit Stage.

Everything went according to plan with the Imperishable Gravity Star Crazy unable to move freely when this one made its energy explode, unleashing a gravitational force that sent Roku and Jotun flying away.

Before Zitra or Numir could stop it, the Imperishable Gravity Star Crazy lunged toward the rest of the Shield Team, ready to unleash a barrage of strikes.

However, Nero and Heinz put those geniuses in the Shield Team due to their ability to face this kind of threat.

Dean and Gabriel move forward and raise their hands as their Omega Laws combine their power.

"Omega Event Horizon!"

The essence of space-time and annihilation combined into a force that twisted reality around the Imperishable Gravity Star Crazy, freezing its movements for an instant.

The Imperishable Gravity Star Crazy's energy burst as it attempted to break free of this enchantment of space-time and destruction.

Dean and Gabriel trembled as blood leaked from their eyes, and they would not hold on for much longer but luckily, they did not have to.

"¡BOOM!"

Roku and Jotun returned to the fray and landed a heavy blow on the Rank 9 Crazy, pushing it back.

Chapter 814 The last Evil Primarch (I)

Jotun and Roku pushed back the Imperishable Gravity Star Crazy, but just a few dozen meters. Luckily, right after the duo's attack, John Erick flashed forward and punched the Crazy's chest point blank.

Once again, a strike pushed Imperishable Gravity Star Crazy away from the rest of the Shield Team. Using that time, Zittra and Numir reached the Crazy and unleashed a blow covered in light and lightning.

Zittra and Numir fired a combined blow to the Imperishable Gravity Star Crazy's chest, pushing it out of the rest of the Shield Team range.

"AHHHH!" The Imperishable Gravity Star Crazy roared with rage. It suffered superficial injuries at most, but what truly enraged it was its onslaught failing and the desire for destruction in its heart burning non-stop.

Despite the frightening aura of the Imperishable Gravity Star Crazy, none of the Shield Team members showed even an iota of fear. Each of them experienced samsara inside the dream worlds, and the experiences of those lives tempered their willpower to a shocking level.

Gabriel and Dean moved to the back, and the rest of the Shield Team made sure to protect the duo. The ability to freeze in time a Peak Everlasting Stage life form even for a second was shocking, and their best trump card against an enemy with such amazing defenses.

Omega Event Horizon unleashed a power that surpassed the might of even the mightiest black hole in the entire Prima Universe. Still, it also generated an immense burden on Dean and Gabriel's bodies and souls, and they needed to rest before employing it again.

Roku and Jotun took the front of the Shield Team again, using all their power to restrain the Imperishable Gravity Star Crazy to the best of their capacities. Wounds were also accumulating in the duo, but they were sure they would last long enough.

Of course, there was a chance that the Imperishable Gravity Star Crazy could overcome their blockade and charge once again at the rest of the Shield Team, but there were those able to handle it for enough time.

There was one member of the Shield Team whose offensive power could have allowed him to play a significant role in the Sword Team. Still, the nature of his Omega Law made it perfect to counter the Imperishable Gravity Star Bloodline.

Gwyn stared at the Rank 9 Crazy with coldness and absolute focus as the Soul Scourge Flame in his halberd grew more and more powerful. Although unleashing it now would harm the Imperishable Gravity Star Crazy, the Eye Holder was saving it for when the team most needed it.

The battle of the Shield Team against the Imperishable Gravity Star Crazy was slow and steady due to the team's goal of buying time. On the other hand, the fight between the Sword Team and the Collapsing Star Crazy was wilder and much faster!

Nero and Heinz moved around the Collapsing Star Crazy at a shocking speed, unleashing barrages of spear and sword strikes while at the same time restricting the Crazy's movements.

A wave of sword strikes bathed in flaming soul force raining down on the Collapsing Star Crazy, making this one use its arms to protect its head, but in doing so, it left its chest open for attacks.

"Cataclysmic Dragon Breath!"

"Sundering Dragon Breath!"

Two Dragons opened their mouths and fired beams of flames carrying incredibly violent forces. These Dragons were Kiryn and Sureing, who had made a name for themselves hundreds of years ago in Legacy thanks to their outstanding destructive abilities.

That torrent of fire burned the chest of the Collapsing Star Crazy, and before it could even get hold of itself, the duo that it almost killed a few minutes ago came back.

Nito and Pholix both unleashed a palm strike, the first carrying a purging force while the second a fierce and burning light.

"CRACK!"

The sound of bones cracking echoed inside the ninth level, making the Sword Team smile, but they did not lose focus as they knew things were far from over.

The Collapsing Star Crazy had an undying body. To kill it, they would have to destroy it thoroughly, and they were far from that.

More and more attacks landed on the Collapsing Star Crazy, destroying its flesh and breaking its bones, pushing it closer and closer to its death.

From time to time, the Collapsing Star Crazy would manage to push Heinz and Nero away, but the Sword Team's flawless teamwork that they honed in the eighth layer helped them face all those dangerous situations.

As time passed, the battle began to exhaust the Sword Team's energy and stamina, but the smiles on their faces grew larger as they saw the state of the Collapsing Star Crazy's body.

The Collapsing Star Crazy had lost its left arm and right leg. There were holes all over its chest and head, including where its heart and brain should be, and there was not a piece of its body not burned or corroded.

In the void, Ezequiel glanced at the battle, and an odd light appeared in his eyes. Not long ago, he stood at the same level as those geniuses. He might be at the top but was still among their ranks, but now he could only compare with the powerhouses of previous generations.

If he wanted, he could unleash an attack from the void into the ninth level of the Realm of Madness that would destroy those Crazies. It would drain all of Ezequiel's power, but it was something that none of the geniuses could even dream of achieving.

Ezequiel stood up and stared at the distance before flashing forward.

Zatiel opened his eyes and glanced at the Supreme Neo-Demon before shrugging his shoulders and focusing on the Realm of Madness again.

Far from the Realm of Madness, there was the Mind Ruler World that the Immortal Alliance besieged.

Salomon's eyes narrowed when he saw a figure flash past them and crash into the world.

Chapter 815 The last Evil Primarch (II)

Salomon frowned as he saw Ezequiel marching into the Mind Ruler World. With his power, he could resist the pressure from the World Consciousness and retain enough battle power to fight Eligos.

Nevertheless, not only would that battle harm the Mind Ruler World, but Salomon would also have to face the rest of the Rank 7, 8, and 9 Mind Rulers, which could leave him seriously injured.

He understood that Ezequiel was powerful and could use his Omega Law to counter the World Consciousness, but charging alone was not wise.

As Salomon, Nut, and Noir stared at the zone where Ezequiel landed, they saw no humanoid but a mass of black and white lightning that slowly fused with the elements. It did not take long before the air, water, earth, and fire from the entire Mind Ruler World began to glow with black and white arcs of lightning.

Volcanes burst with white lava, black lightning fell from the sky, lightning tornadoes arose all over the landmass, earthquakes shattered the earth and unleashed lightning waves, and giant electric tsunamis ravaged the shores.

In just a few short minutes, devastating natural disasters covered the entire Mind Ruler World, killing trillions of Mind Rulers beneath the Soul Realm. It did not take long for even Rank 6 life forms to perish under those catastrophes' power.

A dark tower made of a unique combination of biological matter and precious metals stood on one of the deepest layers of the Mind Ruler World. It drew energy from the world's origin, granting it incredible might.

Eligos saw the carnage from inside this tower. He was burning with hatred, but he did not dare to leave his fortress, as he was too afraid of dying.

Still, that did not stop the Mind Ruler Primarch from sending out all those at Rank 7 and 8 to handle those natural disasters enhanced by the power of Emptiness. Sadly, no matter what those Void Creator or Beyond the Shackles Mind Rulers did, it was all futile.

If they stopped one natural disaster, another would appear the next second, with even greater strength. It reached the point that the destruction forced even those Rank 7 to seek refuge, as the power of the elements overcame their defenses.

Eligos' eyes narrowed as he wondered what his next step would be when he saw a shadow appear next to a Rank 8 Mind Ruler. That Beyond the Shackles life form did not even have time to react when the figure destroyed his brain, heart, and Omega Law.

And that was only the beginning as more and more shadows began to arise, killing all those that could resist the might of the elements.

"Damm it!" Eligos roared as he saw those shadows kill his people. Those at the Soul and Physical Realm mattered very little to the Mind Ruler Primarch, but the ones that reached the Law Realm were the core of his world's military power, and each death meant losing time and resources.

Despite his rage, Eligos still did not dare to leave the stronghold's protection. His eyes landed on the only other two individuals in the tower, but while he could give them orders in normal times, now he could not afford to antagonize them.

Those two were Rank 9 Mind Rulers, powerhouses that once reigned over trillions and could do whatever they desired, but now they were trapped like dogs.

It would be a lie to say that the duo did not blame Eligos for their current situation, as they could not understand how this one dared to antagonize the Incarnation of Death and Destruction. Of course, the fact they would have done the same did not cross their minds.

More and more Mind Rulers perished. Some sought to enter the tower that contained Eligos and the other two Rank 9 Mind Rules, but the shadows killed them all.

Eligos's rage was reaching its limit as he saw the Mind Rulers at the Law Realm perish, but he also noticed how the world was beginning to change. While those natural disasters were wreaking havoc, they were also changing the earth and sky into something suitable for all life, not only monsters like Mind Rulers.

In less than a day, the natural disaster and shadows erased every Mind Ruler other than the three hiding in the tower.

An entire race that once stood at the Prima Universe's peak was now on the brink of oblivion. Ezequiel's approach was much crueler than Sundered Night's in the Leviathan World. Of course, there was also the critical point that, unlike Mind Ruler, Leviathans were not inherently evil.

After those natural disasters had assailed the entire world, every arc of black and white lightning began to converge around the tower that contained the three Rank 9 Mind Rulers.

The tower unleashed waves of destructive energy against the lightning, but it could not overcome the phenomenon forming around it.

Before Eligos or the other two Rank 9 Mind Rulers could stop it, the black and white lightning storm had surrounded the tower, and to their shock, it somehow managed to cut its connection to the world's origin.

The Mind Ruler Primarch was shocked and could not understand how Ezequiel achieved such an incredible feat. Despite being close to the world's origin and having channels connecting the tower to it, it was as if they were in entirely different worlds.

Ezequiel's Equilibrium of Man and World Omega grew immensely powerful after having consumed the energy left by the Soul Core of Existence. The cosmic force allowed the Supreme Neo-Demon to fuse with the entire world and unleashed an apocalyptic level of destruction.

Once the black and white lightning cocoon completely isolated the biomechanical tower, a humanoid figure began manifesting itself.

As soon as that figure became visible, Eligos and the other two Rank 9 Mind Rulers unleashed their most powerful attack against it, using the energy that remained stored in the tower.

It was an immensely powerful soul invasion attack, destroying all the soul force in the forming humanoid.

When the two Rank 9 Mind Rulers saw that, they showed a vicious smile, but a sense of desperation appeared in Eligos' soul.

Although that attack seemed rushed, Eligos confirmed Invictus' soul force in the humanoid, which is why he unleashed such a powerful attack. He never expected to kill the Supreme Neo-Demon, and the fact the soul in the humanoid vanished told him something went wrong.

As if giving him the reason, a new humanoid formed, this one much stronger than the last.

Ezequiel's eyes were cold as he stared at the tower and was ready to end things in the Mind Ruler World.

Chapter 816 The last Evil Primarch (III)

Ezequiel knew Eligos and the other two Mind Rulers would unleash a devastating soul invasion spell as soon as he showed up. Although his Lord of Emptiness Bloodline and his True Will granted him spiritual defenses shockingly high, he was not so arrogant as to look down on a Primarch known as a master of soul invasion spells.

That is why Ezequiel first generated a clone composed of 5% of his cells, whose soul aura was indistinguishable from the real one, making it so that the three Rank 9 Mind Rulers would unleash their mighties soul strike against this one.

Ezequiel's plan worked. Now there was no more energy left in that tower, and the lightning storm cut any connection to the outside, so Eligos and the other two would have to face him on their own.

Eligos and the other Rank 9 Mind Rulers seemed to know that staying in the tower would be useless, and they emerged from it. One of the Eternal Detachment Stage Mind Rulers resembled a typical Mind Ruler with an octopus-like face and a dark robe covering his body, while the other was a giant brain covered in black plasma.

"Your Master is preparing for war. Why would you eliminate such a powerful weapon like the three of us? We are willing to join your side if you guarantee us a proper place at the table." Eligos spoke

immediately, and his proposal seemed to surprise even the two Rank 9 Mind Rulers by his side. Although they were shocked at first, it did not take long for the duo to nod and accept Eligos' words, as it was the only path to survival.

From a logical point of view, it made sense to accept Eligos' offer. Of course, the Mind Ruler Primarch was not sincere, but Zatiel would definitely have a way to ensure this one kept his word.

However, the coldness in Ezequiel's eyes only grew as he heard Eligos' words.

"I butchered your entire race, erasing all of them, yet you still want to side with me. If I were to allow something like you among our ranks, how could I call myself a True Godking?" Ezequiel's aura exploded, and his power rose tremendously. Entropy could not help him, but he did not really care, as he came here to train himself.

Eligos and the other two Rank 9 Mind Rulers were surprised to hear Ezequiel's words. They knew that if they surrendered, they would be treated like slaves, yet not even that was enough for Invictus.

The Supreme Neo-Demon was unwilling to let them live and determined to end the Mind Ruler Race.

Eligos understood that negotiations would be futile, but he was still unwilling to simply enter a battle against the Supreme Neo-Demon without some preparations.

"By what I heard and saw, you call yourself the True Godking of Freedom. I understand freedom as choice and opportunity, but our battle has none of that. If we win, you will run away, and Salomon and the others will come to finish the job. Where is the freedom in that?"

Eligos' words were poisonous and cleverly crafted. He wanted to attack the Supreme Neo-Demon's ego, forcing this one to compromise in some way.

His scheme might have affected a Sun Collapser Neo-Demon, as this one had yet to master their Concepts, but it was futile in a True Godking.

"Hahahaha." Ezequiel laughed and did not bother to hide the mockery in it.

"How naive of you to think you can affect my will with something like that. I am the Concept of Freedom. Therefore if I say that severing every path of survival for your putrid race is freedom, then it is."

Eligos' soul burned with fury as he heard that mockery. He was hundreds of millions of years old and stood at the peak of the universe for a long time, yet someone not even thirty thousand years old laughed at him.

Ezequiel did not mock the trio for long as coldness returned to his face.

"You are right in one thing, Mind Ruler. You will die either by my hand or those that stand by Master's side. However, I will not run away if you defeat me. Since you are doomed, you might want to use this opportunity to bring me down with you."

At first, a sense of hopelessness assaulted the trio as they understood that there was no way to survive, but then a hideous killing intent emerged from them.

Since the current Prima Universe did not want them, they would take down the greatest genius of this generation with them.

"Hunun, Sorun, both stay behind me. Support my creations while attacking his soul. His spiritual defenses are shocking, so we will not be able to trap him in an illusion, but we can slow down his speed of thought and affect his senses."

The humanoid Mind Ruler, Hunun, and the brain-like Mind Ruler, Sorun, followed Eligos instructions and formed a triangle formation with the Primarch as the spear's point.

Ezequiel did not wait, and once his aura reached its peak and lightning carrying the power of Emptiness coated his entire body, he flashed forward with all his strength.

The Supreme Neo-Demon had just moved when a force began to intrude in his mind and soul, hindering his senses. Everything became blurry, but he was still able to march forward.

Just as Ezequiel was about to clash with Eligos, monstrous figures materialized in his path and fought with him.

One was a mass of tentacles with poisonous thorns, while the other was a snake-like creature with long spider legs.

Ezequiel sent a blow to each of those creatures and was surprised to see they managed to endure them. While the lightning harmed them, they stood firm despite the immense power behind the Supreme Neo-Demon's fists.

The monsters immediately counter-attacked with immense speed and power, forcing Ezequiel to move back. His eyes narrowed as he understood those creatures were illusions brought to reality by the trio.

Although the offensive power they could unleash was weaker than Eligos' soul invasion spells, the Mind Ruler Primarch understood that was the best path to face the Supreme Neo-Demon.

Chapter 817 Killing a Rank 9 Mind Ruler

The Supreme Neo-Demon and the two monsters were entangled in a ferocious melee battle, generating shock waves that destroyed space-time around them.

Eligos, Hunun, and Sorun channeled the full power of their Mind Force into those monsters while simultaneously pressuring the Supreme Neo-Demo's soul to hinder his movements and speed.

The soul pressure generated by the three Rank 9 Mind Rulers should have been enough to disable weak Primarchs, and even those like Salomon and Issac would find their battle power reduced by at least ten percent.

However, Ezequiel's Concept Sun and his unique Lord of Emptiness constitution allowed him to lose less than five percent of his battle power under the Mind Rulers' soul pressure.

Even with his senses disturbed, Ezequiel's eyes never left the trio, as he understood that the monsters he faced weren't the real enemy. Those creatures would die if he killed Eligos, Hunun, and Sorun. Not to mention that no matter how much damage he did to them, as long as the trio kept supplying them with Mind Force, they would keep fighting.

If Ezequiel was willing to enter a battle of attrition, his chances of winning were very high, but he did not choose that path. The Mind Ruler Primarch was one of the last enemies that could still pose some threat to him in the Prima Universe, and he would use this one to polish his skills.

"Supernova Art!"

Ezequiel's cells began to burn themselves, granting him immense power but also enhancing the speed at which his energy depleted. The black and white lightning bathing his body grew stronger as he began to overwhelm the monsters, moving closer and closer to the trio.

Eligos, Hunun, and Sorun saw that, and dread emerged from their souls, especially the last two. The duo was certain they would not last more than a minute under the Supreme Neo-Demon's onslaught.

The monsters were essentially illusions, so they were extraordinarily resilient against physical attacks, but the power of Emptiness in Ezequiel's lightning could destroy everything.

The three Rank 9 Mind Rulers grew desperate enough to burn their life force, granting the monster even more power. That was not all since Eligos overexerted himself to launch a devastating soul invasion spell.

"ROAR!"

"ROAR!"

As their power grew, both monsters unleashed feral roars and attacked with everything they had.

Ezequiel moved back to avoid a barrage of spider legs when a force hit his mind and soul, making everything dark for an instant. He regained his senses almost immediately, but the tentacle monster had appeared behind him. Before he could do anything, the monster swallowed his entire body and began to squeeze.

A flash of happiness appeared in the Rank 9 Mind Rulers, and they began to inject even more Mind Force into the tentacle monster.

The monster grew stronger as it formed a cocoon around the Supreme Neo-Demon, and its thorns aimed at the center, trying to impale this one.

Ezequiel felt how an immense force was exerted on him from every direction while those poisonous thorns attempted to pierce his skin. He used all his strength to resist the pressure, but the tentacle monster was too powerful.

However, as space around Ezequiel began to shrink and he grew immobilized, his eyes started to glow with silver flames, and the Sun of Freedom manifested. Anything that dared to deprive the True Godking of Freedom from his liberty would burn!

The Sun of Freedom burned with more and more force as the Concept of Freedom filled Ezequiel with energy, granting him the brute power to break free of his prison.

All the happiness on Eligos, Hunun, and Sorun vanished as flashes of silver light emerged from the monstrous cocoon. The Sun of Freedom grew larger, pushing away tentacles, and showing Ezequiel's bloody figure.

"AHHH!" Ezequiel shouted as an immensely powerful shock wave emerged from his body, bursting the tentacle monster away from him.

Since the three Rank 9 Mind Rulers had been sending so much Mind Force into the tentacle monster, the sudden destruction of this one generated a backlash.

Eligos resisted the backlash without much problem, but Hunun and Sorun could not say the same.

"Look out!"

Hunun and Sorun grew disoriented and did not know what happened, but they clearly heard Eligos' scream, meaning they were in incredible danger,

Sorun, the Rank 9 Mind Ruler that resembled a giant brain covered in black plasma, regained his focus only to see Ezequiel appear in front of him.

"WAIT!" Sorun screamed, begging the Supreme Neo-Demon for mercy, but the only thing that answered his plea was a fist charged in black and white lightning that penetrated his body.

Eligos and Hunun did not hesitate before using their full power, attempting to stop Ezequiel from destroying Sorun's body. They reformed the tentacle monster and sent it forward along with the one that resembled a snake.

The Supreme Neo-Demon felt the monster charging toward him, but he refused to let go of Sorun's body. His eyes glowed with power as twelve avatars emerged from him.

"Emptiness Avatar Shield!"

Each avatar burst with power, generating a dodecahedron lightning shield that contained both Ezequiel and Sorun.

"¡BOOM!"

"¡BOOM!"

Thunderous explosions echoed as the monsters attempted to break the Emptiness Avatar Shield, but although they filled it with cracks, it would hold on long enough.

"Save me!" Those were Sorun's last words as Ezequiel unleashed blasts of black and white lightning with the power of the Emptiness inside his body.

Sorun howled in pain as the lightning destroyed him from the inside out, but there was nothing he could do. While powerful in terms of soul invasion spells, his melee capabilities were pitiful.

"CRACK!"

Finally, after almost thirty seconds, the monsters managed to shatter the Emptiness Avatar Shield, lunging at Ezequiel immediately after.

The Supreme Neo-Demon's eyes narrowed as he felt the monsters' tentacles and spider legs about to reach his back. At the last second, he flashed away, dodging them.

Eligos and Hunun made the Supreme Neo-Demon move back, but hopelessness filled their souls since they arrived too late. Sorun was nothing more than a roasted corpse now.

Chapter 818 It begins (I)

The death of Sorun shattered the delicate balance between the Mind Rulers and Ezequiel. Not only were the monsters weaker now, but with only Eligos and Hunun fuelling it, the soul pressure sent against the Supreme Neo-Demon failed to hinder his senses.

Ezequiel smiled coldly toward the Rank 9 Mind Rulers as the black and white lightning bathing his body burst with power and flashed forward with incredible momentum.

Eligos and Hunun understood the severity of their situation. Still, they also were sure that Ezequiel must have drained a significant portion of his energy to form that shield and destroy Sorun's body and soul so fast.

The duo was not wrong, and Ezequiel had spent a lot of energy up to this point. His body did not show injuries due to his instant healing ability, but that would not last for long.

Nevertheless, the chances of Eligos and Hunun withstanding until the Supreme Neo-Demon exhausted himself were not great, to put it mildly.

The monster lunged toward Ezequiel, fearless and full of killing intent. The desperation of their creators was starting to impregnate their existences.

Ezequiel saw the snake coming at him, and his hand glowed with silver light and lightning as he fired a palm strike, blasting the monster out of his path.

Once Ezequiel took care of the snake, the tentacle monster opened its grotesque body, forming some sort of shield in front of him.

The Supreme Neo-Demon did not diminish his momentum. Instead, he flashed forward even faster, but not without twisting his body, transforming into a lightning drill.

Eligos and Hunun saw with shock how the Supreme Neo-Demon pierced through the tentacle monster before reaching them.

Ezequiel chose to take care of Hunun first, appearing before this one and sending a fist carrying all his power.

Hunun put all sorts of energy shields in front of him, but against the power of Emptiness in the black and white lightning, it was like dead leaves facing flames.

Ezequiel's fist overcame all obstacles before reaching the Hunun's head, blasting it to pieces!

That attack was incredibly powerful and neutralized the Rank 9 Mind Ruler's body but did not fully kill him, as the True Soul managed to flee.

Ezequiel saw the humanoid figure running toward Eligos but did not care. Hunun's True Soul was too weak and would not be able to affect the battle.

His cold eyes turned toward Eligos, and there was certainty in them. Even without Entropy, he had the power to kill an ancient Primarch.

Eligos could not hide the horror and dread invading his soul, but that desperation turned into something the Mind Ruler Primarch, a master of the soul and legendary schemer, had never felt since he rose above the laws.

A pure state of craziness.

"AHHHH!" Eligos roared as he burned his vitality and soul. He opened his mouth and devoured Hunun's True Soul before entering a state of overdrive, making the two monsters fuse with his flesh.

The Mind Ruler Primarch had already given up any notion of surviving, and the only thing he wanted was to punish the monstrous genius that pushed him to this end.

Ezequiel saw how the Mind Ruler Primarch reached a level of physical might that could compare with Hyperion, but the only thing that appeared on his face was a smile.

Without hesitation, Ezequiel lunged toward the Mind Ruler Primarch while this one underwent his metamorphosis.

Eligos had grown almost fifteen meters tall, with arms covered in sharp spikes and tentacles coming out of his back. He saw the Supreme Neo-Demon coming at him and sent a barrage of attacks, but he was mid-transformation, so his offensive failed.

Ezequiel managed to get next to the Mind Ruler Primarch and get hold of this one. However, he did not interfere with the process but instead used all the energy stored in the lightning cocoon to teleport the two away, just like he did in his battle with Venganza.

A powerful shock wave made the entire Mind Ruler World tremble as the lightning cocoon shattered, and Ezequiel and Eligos vanished.

In less than a second, the duo appeared above a plane so immense that it would not be wrong to call it a super universe.

Ezequiel teleported the duo above the Prima-Eldritch Universe Final Battlefield.

"BOOM!" The duo had just appeared when an explosion echoed through the void. Eligos punched Ezequiel with immense power and ferocity.

That explosion had the power to overwhelm the lightning cocoon, generating immense damage to the Mind Ruler World, which is why Ezequiel brought the two out of it.

Ezequiel puked blood and felt that punch almost broke some of his bones, but he managed to endure and did not separate from the Mind Ruler Primarch.

An amazing melee battle began between the Mind Ruler Primarch and the True Godking of Freedom. Each of their attacks carried pure brute power, and there was nothing of skill in them.

Eligos could barely think properly in his state, and Ezequiel wanted only to rely on the power of his body.

The Prima-Eldritch Universe Final Battlefield was not empty. After the fall of the King in Yellow and the offensive of the Dark Tower Alliance and Immortal Alliance, Prima Universe life forms filled it.

They all looked at the sky and saw how the duo unleashed a brute power that collapsed the void and shattered the laws.

The battle between Eligos and Ezequiel was not the only one drawing attention across the Prima Universe. The fight between the geniuses and the two Rank 9 Crazies also reached its climax.

Zatiel saw all of that and could not be happier. The Realm of Madness would raise the next generation of geniuses to a level where they could influence the scale in the final war, while Ezequiel reached the point where he could become one of the major players in it.

Everything presented itself as a net gain for the Prima Universe, so it was no wonder that Zatiel smiled. But then it happened, a clear reminder of the danger they were facing.

Chapter 819 It begins (II)

"BOOOOOOOOOMMMMMMMMMMM!"

It was an explosion like no other, and not even the one that generated a crack in the Final Gate could compare.

A solemn expression appeared on Zatiel's face as his instincts were screaming non-stop, and for the first time in a very long time, he felt a wisp of fear.

All life forms with the power to feel the laws, no matter their state, even the wild Rank 9 Crazies and the enraged Eligos, turned to blast origin.

"BOOOOOOOOOOMMMMMMMMMMMMM!"

"BOOOOOOOOOOMMMMMMMMMMMMM!"

"BOOOOOOOOOOMMMMMMMMMMMMM!"

It did not end with one or two, and those that heard them could swear the punches of an individual caused them. However, that raised a question: who was powerful enough to cause such destruction with their fists?

They originated around the portal connecting the Alpha Universe and Prima Universe, each generating cracks that extended for countless light years.

As the explosion carried on, the level of destruction it generated spread over the Cosmic Wall's section dividing the Prima Universe and Alpha Universe.

A Cosmic Wall could very well be considered a Rank 10 Artifact, as its durability was something Extreme Rank 9 would find hard to overcome even after continuously striking it for months. Those like the Champion of Justice and Order and the World Tree would be lucky if they made a small hole in it before exhausting all their power. There was no way any of them could achieve that level of destruction.

Nevertheless, despite the might of the strikes, it seemed that the Crystal Wall would not shatter in just a few minutes.

Ezequiel was shocked by the sudden events, just like anyone else, but regained his composure sooner than Eligos.

"Fall into Emptiness!" The Supreme Neo-Demon took the chance to unleash an onslaught on the Mind Ruler Primarch, ready to end this one as fast as possible. There wasn't time to waste as those blasts were like the war bells ringing.

Those in the Realm of Madness' ninth level also felt a sense of urgency and did not hesitate to overexert themselves. All of them understood that this lucky chance was to prepare them for something, and that event had finally come!

"Ahhh!"

"Ahhh!"

Nero and Heinz fired their most powerful strikes on the Collapsing Star Crazy, one that unleashed all the momentum they had harnessed during the entire battle.

All the other geniuses in the Sword Team did the same, generating a stream of spells and attacks that overwhelmed the Collapsing Star Crazy.

That final barrage was the straw that broke the camel's back, and the Collapsing Star Crazy began to disintegrate as Samsara Essence spread to all the geniuses present in the ninth level.

There was no happiness among the geniuses after the demise of the Collapsing Star Crazy. They still had to take care of the Imperishable Gravity Star Crazy and do it fast.

However, they were surprised to see how Destiny Karmic Reincarnation Omega Law departed from the Realm of Madness and how Myriad emerged from Zitira before flashing at the void.

Zitira stared into the void and saw Myriad return to Zatiel before this one vanished. She did not care about losing her armor, but there was no way to hide the concern in her eyes.

Not long after, Numir's body moved on her own, sending the Neo-Demon back into the eighth level before Entropy exited her body and left.

Although Numir would have liked to finish the battle against the Imperishable Gravity Star Crazy, she understood the severity of the situation. Besides, she gained valuable experience, and a great deal of Samsara Essence after the Sword Team ended the Collapsing Star Crazy.

Zatiel moved at an incredible speed, using karma to teleport through the Prima Universe. It did not take long before he reached the void near the portal connecting both super universes.

The Neo-Demon Ancestor could feel the shock waves coming from the blast. Despite being lightyears away and having a physique stronger than Rank 9 life forms, he felt his body trembling.

"ZNNNN!"

"ZNNNN!"

Space-time vibrated, and the Justice Primarchs appeared, all adopting a battle formation around Zatiel. Salomon and Issac were the closest to the Neo-Demon Ancestor as they were the strongest.

The Immortal Primarch and Magus Primarch stared at Zatiel but remained silent for the moment.

Shortly after, the Justice Primarchs saw a slash in space-time above their head, and Ragnar came out of it. The Viking nodded to the people present, but he soon focused on the portal.

Another disturbance in space-time occurred as dozens of Rank 9 powerhouses appeared. Among them were Ivar, Eve, and Apex.

Everyone present was a legend who had experienced countless life and death battles, but there was not a single one of them that could hide the pressure assaulting their minds and souls.

The cracks around the portal were growing larger. Since the origin seemed to come from the Alpha Universe's side, there was nothing anyone could do to stop them.

A giant arc of lightning approached the group, and everyone saw the bloody figure of Ezequiel appear. All the Rank 9 powerhouses move aside, allowing this one to take his place among the Justice Primarchs.

Invictus had already proven that he had the power to kill ancient Primarchs, putting him a step above them.

Zatiel did not even glance at Ezequiel, as it seemed that there was nothing else in the universe in his sight other than the Cosmic Wall's cracks. Still, he sent a wave of purple flames into the Supreme Neo-Demon, helping this one recover.

"BOOOOOOOOOMMMMMMMMMMM!"

"BOOOOOOOOOMMMMMMMMMMM!"

The cracks in the Cosmic Wall had already covered every piece that divided the Alpha Universe and Prima Universe when two more figures acted. One emerged from an invisible abode near the Titan World, while the other emerged from the White Sun in the Neo-Demon Realm.

En and the Champion of Justice and Order show themselves, generating an aura that eclipsed everybody else. When Salomon and Issac saw the duo, they moved, allowing the two Fourth Evolution Extreme Rank 9 to stay beside the Neo-Demon Ancestor.

The World Tree spent all his time healing while the Champion of Justice and Order purged the evil curse, but neither of them could give themselves the luxury of ignoring this.

Less than a minute after the arrival of the two, it finally happened. The section of the Cosmic Wall that divided the Alpha Universe and Prima Universe collapsed!

Chapter 820 True Rank 10

"BOOOOOOOMMMMMMMMMMMMMMM!"

A final explosion echoed through the Prima Universe as the section of the Cosmica Wall connecting to the Alpha Universe shattered into billions of pieces.

It was a sight that would be engraved in the mind of all those powerhouses. A breach that covered a fourth of the Cosmic Wall formed, allowing everybody to see what was on the other side.

A super universe just as majestic as theirs, with countless worlds and even more life. It was beautiful, as the light of the heavenly bodies painted its surface.

However, that marvelous sight soon stopped being the Prima Universe's powerhouses' center of attention as they saw the army on the other side. It was composed of ten thousand warriors with incredibly powerful bloodlines and an aura of unity that made everybody think they were a single entity.

At the head of that army was a group of nine individuals, each with a crown of at least nine Silvers Star of Origin. Every one of the Justice Primarchs recognized the man standing in front, Chrollo.

The Empyrean Primordial had grown incredibly powerful, to the point that even En and the Champion of Justice and Order felt threatened by him. And yet, there was nothing but devotion in his eyes as he stared at the man responsible for all.

At first, the Justice Primarchs and the Rank 9 powerhouses had failed to notice that man since they could not even perceive his aura, but when they followed Chrollo's sight, they saw him, and a sense of utter shock assaulted their soul.

The Justice Primarchs and everybody else stared at the man responsible for shattering the Cosmic Wall before turning to Zatiel. Other than their wings and eyes, they were exactly the same!

None of them had to ask who that man was, as he could not be other than the Alpha Universe Leader, the Flame Emperor.

Zatiel did not bother with the glances of anyone else, and his eyes did not leave the Flame Emperor. There was a sharp light in his eyes as he stared at that man, and his Rex Somnorum Eye told him the truth.

At least when it came to their souls and egos, they both had the same origin!

That could only mean one thing. At one point in Zatiel Daybreak's life, he and the Flame Emperor were one person!

"ROAR!"

"¡AHHH!"

Two similar but different roars echoed moments after the Flame Emperor shattered the part of the Cosmic Wall dividing the Alpha Universe and Prima Universe.

The Universe Wills from both super universes made an act of presence, unleashing a force that surpassed even Fourth Evolution Extreme Rank 9 life form. None of them had to contain themselves as they faced an alien invader.

"RUMBLE!!!"

Every corner of both super universes trembled as the Universe Wills clashed. Both unleashed pressures that could crush Principal Worlds, but none could overwhelm the other in their domains, so they could not help their people in a battle of invasion.

That was excellent news for the Prima Universe. They did not lose in terms of powerhouses, but when it came to facing the monster capable of shattering a Cosmic Wall, no one could match him.

En, the Champion of Justice and Order, the Justice Primarchs, and everybody else took a breath of relief as they saw that, but not Zatiel.

The Neo-Demon Ancestor knew that a Universe Will would not have been enough to stop him, and it would not be enough to stop his counterpart.

There was some amusement in the Flame Emperor's face as he saw the Universe Wills fighting. The entities unleashed pure brute power but no control or skill. It was like a master of martial arts watching two drunk men fight.

After around ten minutes, the super universe stopped trembling as the Universe Wills retreated. The zone filled with pieces of the Cosmic Wall became no-man's land.

The Flame Emperor stared at Zatiel and walked forward.

Seeing the man walking toward them made all the powerhouses of the Prima Universe adopt solemn expressions and ready themselves to go all out.

As long as they have the Universe Will suppressing that monster, they would have a chance, or at least they would give him a good fight.

However, the Flame Emperor did not cross into the Prima Universe. Instead, he stopped right between both super universes before smiling.

Zatiel could not help but tremble as he saw that smile. He knew that something he could not have expected would happen.

"¡AHHH!"

The Flame Emperor did not disappoint, and along with that roar that sent shock waves capable of erasing Rank 8 life forms, multicolored energy emerged from his body.

That energy fused with the Cosmic Wall's pieces but did not end there. Cracks opened above and beneath him, and he drew a black-white force.

Ezequiel's eyes widened as he saw that. The Flame Emperor made more portals in the Cosmic Wall and drew the power of Emptiness.

More and more energy emerged from the Flame Emperor, combining the Cosmic Wall's pieces with the power of Emptiness, and soon a plane began to materialize!

None of the Prima Universe's warriors could even reach the Flame Emperor, much less stop him, so they could only see.

It was small at first but soon covered the entire section of the Cosmic Wall that once divided both super universes.

The power of this plane was much greater than that of the Prima-Eldritch Universe Final Battlefield, with laws and forces at a level the others could not even compare, but that was far from being the most crucial part.

It used the fabrics of both the Prima Universe and Alpha Universe as its foundation!

At first, the powerhouses did not understand, but then a flash of enlightenment appeared in the eyes of En and the Champion of Justice and Order.

"That is not just a battlefield... It is the seed of a new universe."

"And it will grow nonstop until it devours both the Alpha Universe and Prima Universe!"

When the rest heard the words of the two Fourth Evolution Extreme Rank 9, their faces became pale. If they were right, the Flame Emperor would not need to invade, as that new universe would eventually devour the entire Prima Universe.

The Flame Emperor descended to the ground of the new plane. He was beyond exhausted, but the smile on his face only grew larger.

The Supreme Neo-Demon was about to open his mouth to speak, but when he saw the severity of the expression on Zatiel's face, he got his answer like everybody else.

The Prima Universe's powerhouses knew the ability to create a new universe that would reunify the two super universes was a scheme that escaped reason and a feat of incredible power that no one at the Law Realm could achieve.

After a few seconds, the Flame Emperor straightened his body and stared at the Prima Universe's powerhouses before raising his hand and signaling them to come at him!

He had shattered part of a Cosmic Wall, connecting two super universes before creating another. Nevertheless, instead of taking a moment to rest, he challenged everybody on the opposite side.

It was only one man, but it was also a True Rank 10 life form!
