Chapter 25

The feeling of watching something that was about to be in your hands slip through your fingers is far more heartbreaking than having no hope of getting it.

Mrs. Walson's face was ironic as she gave Leah a discontented look.

Dominic was used by her. This woman's methods are becoming more and more insidious and sophisticated.

Leah lowered her eyebrows, seemingly not noticing Mrs. Walson's resentment. She was calm on the surface, but inwardly she was extremely shocked.

What makes Selena a shareholder of Olympus Group?

Luke defended her last time, but he even went to the Walson family to personally support Selena.

Leah could not think of an answer, so she could only suppress the jealousy and anxiety in her heart for the time being, and stood outside the circle of people like a background cloth, quietly observing the development.

Luke looked at Dominic with a smile, "Mr. Walson, if you can't produce proof that Selena is keeping a man outside, I can sue you on behalf of Selena based on what you just said."

The lady who had just accused Selena, because she felt guilty, chimed in.

"Mr. Jordan has a point, although Selena is engaged to Mr. Walson, she is a young girl after all, so if Mr. Waison does not have any real evidence, it is better to be cautious in what he says."

Dominic's gaze was shady and full of arrogance as he glanced at Selena and sneered, "Then how do you know that Selena is not keeping a man outside?"

How could a woman as kind and tender as Leah say something like that if she didn't have definite proof?

In addition, Selena is even capable of "promiscuity", so what is impossible to keep a man?

Luke smiled, "After Selena was kicked out of the house, I have been the one who helped her arrange everything, I didn't even know she kept a man, Mr. Walson, you are actually so sure that she has, you don't want to say that man is me, right?"

Oswaldo had always been careful and never made a mistake. If Dominic had the ability to find out about his existence, he would not have been fooled by Leah.

So, Luke was full of confidence in both his expression and tone of voice.

Dominic was slightly stunned, followed by a fierce wrinkling of his brow.

It is well known that although Luke looks like a playboy because of his handsome face, he has never been rumoured to have an affair with any woman.

He and Selena are obviously impossible.

Furthermore, would someone of Luke's stature bother to lie?

He said with such certainty that Selena did not have a man outside, then why did Leah and Molly say that Selena was keeping a man outside?

As Dominic thought about it, his eyes subconsciously glanced in the direction of Leah and Molly.

Halfway through, he remembered that Leah and Molly's original statement was that a man was outside helping Selena carry her luggage when she left home.

It seemed that he had misunderstood and subconsciously felt that Selena had done something wrong to him.

Why couldn't he be the driver that Luke had arranged for Selena?

When Dominic looked at Selena's stunning face and smiling eyes, his face instantly surged with shame.

Although Dominic did not explicitly say so, just that one gesture instantly showed where the source of this news came from.

Immediately, everyone looked at Leah and Molly with shock in their heart.
