

The Almighty Dragon General

The Almighty Dragon General Chapter 6921-James looked at him. He smiled but remained silent. This big guy seemed pretty arrogant, but James was not sure about his true strength.

Nevertheless, he found himself looking forward to it.

"I don't like idle chatter," Quince said coldly. "Since you're so stubborn, let's settle things with a fight!"

In the blink of an eye, he swung his leg toward the huge sword sticking out of the ground, sending it flying forward with a hefty swipe. A terrifying Sword Energy blasted straight at James with a deafening roar. It was intense and murderous.

Boom! Under another earth-shattering explosion, dust clouded the air where James had been standing. The dark Sword Light erupted abruptly, sending

shockwaves rippling in every direction, even shaking the Taishi Grand Temple violently.

"Hmph, I thought you were something, the Virtuous Faction supposed..." Before Quince could even finish his sentence, a sacred lotus blossomed amidst the swirling dust, with James seated in a lotus position atop it. The lotus ascended serenely and grandly into the air.

"The Three Treasures Integration is truly impressive." Quince clenched his fists.

"However, showing off won't help you. Strength is what matters in battle." As he spoke, he raised the massive sword high and brought it crashing down with a thunderous boom. Another frightening surge of black Sword Energy surged toward James. However, the Sword Energy was swiftly absorbed entirely by a transparent Energy Wall that rose around James, vanishing without a trace as if swallowed by the void the instant it descended.

Seeing this scene, Quince was consumed by fury. He saw it as a direct affront.

With that, he soared into the air, unleashing a relentless barrage of black talismans toward James, swiftly forming a massive Talisman Formation that completely enveloped him.

The gigantic Talisman Formation erupted into a dazzling purple-black brilliance and was accompanied by countless dark light swords swirling around James as it took shape. They launched a frenzied and vicious assault.

Amidst the sharp clangs of collision, countless dark light swords clashed against James' transparent Energy Wall. In an instant, there were continuous deafening explosions, wreaking havoc all around. Despite the ferocious onslaught, James remained seated cross-legged and unmoved, with not even the slightest damage to the surrounding Energy Wall.

Witnessing this scene, Quince was infuriated to the extreme. "I refuse to believe that your Three Treasures Integration is unbeatable!"

In the next moment, he manifested into hundreds of illusions, wielding his massive sword with terrifying momentum, surrounding James, and launching fierce attacks against the Energy Wall.

One thunderous explosion followed another as the terrifying black Sword Energy hammered against James' Energy Wall, gradually causing countless cracks to appear.

"Break!" Quince roared. He drove hundreds of illusions while wielding his sword.

With another deafening roar, the Energy Wall shattered.

However, what awaited Quince was not James himself, but eighty-one Jade Blossoms, thirty-six Gold Blossoms, and nine colorful Xyrisa Sacred Lotuses.

They surrounded James and formed three dense rotating vortexes, then burst forth with a brilliant and dazzling myriad of Quell Divine Light.

Wherever the Quell Divine Light touched, the illusory shadows that had rushed into James' defensive circle from all directions were shattered and exploded.

This caused blood mist to fill the entire void, and flesh to fly. At this moment, a massive shadow shot out within the light and tumbled into the void before crashing to the ground with a loud bang.

A mouthful of blood sprayed out, revealing Quince's main self. He supported himself with the massive black sword, kneeling on one knee. He lifted his head, bloodshot eyes filled with both sorrow and indignation. "You cowardly scoundrel, you don't have the guts to face me head-on!"

"You're just hiding behind that lotus flower. What kind of skill is that?"

Hearing this, James asked with interest, "Have you run out of tricks?" "If you have the guts, come out from that lotus flower and face me head-on!"

Quince roared furiously.
