...

After speaking, Qin Fang said no more and walked back to his noodle stall, took a piece of dough, and pretended to start making ramen.

"Qin Fang, are you crazy? Your wound just stopped bleeding; you can't engage in vigorous activity!"

Seeing that Qin Fang was actually about to make ramen after his injury had just stabilized, Tang Feifei, who had been hiding on the side and feeling quite embarrassed, couldn't stand it any longer and immediately came over to stop him.

"I'm fine now, I'm a bit hungry, I'll make myself something to eat..."

Seeing Tang Feifei, Qin Fang couldn't help but think of their recent intimate contact, and his face, which had been pale due to excessive blood loss, actually showed a trace of color and felt even hotter.

Of course, Qin Fang couldn't tell Tang Feifei that he wanted to eat a bowl of ramen to recover Life Points, so he resorted to the excuse of being hungry. Their noodle stall always started early and closed late, always busy, and not having time to eat was not uncommon.

"But..."

Tang Feifei wanted to continue persuading him, but Qin Fang's hands were already shaking rapidly, the piece of dough in his hands gradually turning into strands of fine ramen. Even Tang Feifei hadn't finished thinking about what to say next when the ramen in Qin Fang's hands was already boiling in the pot.

After a while, the ramen was ready. Qin Fang lifted the ramen from the pot, topped it with sauce, and leaned in to eat. At once, a fragrant aroma wafted over, and a bowl of delicious ramen was served.

"Fresh and tasty ramen, consumption increases Life Points by three, stamina increases by 30%."

Looking at the bowl of freshly made ramen in front of him, Qin Fang immediately showed a pleased expression; he could actually gain three Life Points instead of the two he had initially guessed.

As for the stamina increase by 30%, Qin Fang didn't care too much. If the Life Points were restored, the body would naturally return to its original condition, and stamina would recover as well. The 30% was clearly nonsense.

"Go on, eat. What are you staring at?"

Tang Feifei gently nudged the dazed Qin Fang. Her charming gaze was quite captivating, and Qin Fang's already restless heart became a bit more unsettled.

"Eat, eat, I'll eat right now..."

Qin Fang regained his composure and started devouring the ramen in the bowl, his movements large and rapid. Those in the know would see Qin Fang eating, but those unaware might think he was battling it out.

"Pfft..."

As Qin Fang began to eat, Tang Feifei quietly sat down, not minding whether the table was clean or not, resting her chin on her hands and silently watching Qin Fang eat. She found this side of Qin Fang incredibly endearing, not sure what was going through her mind, she couldn't help but laugh.

"Er, what's wrong? Tang Feifei."

Qin Fang was busy eating and, perhaps because the previous awkwardness had not completely passed, he dared not stare directly at Tang Feifei too much, only focusing on his food. Suddenly he heard Tang Feifei's laughter,

raised his head to see her flushed face looking rather shy, and without knowing why, he couldn't help but ask.

"Your way of eating is just too..."

Tang Feifei's face turned redder, and she stumbled a bit more when Qin Fang asked, but on her already rosy cheeks, it was hard to tell. She glossed over it with her words, but her gaze flickered with a hint of strangeness.

"Haha, is my eating that ugly? My mom always tells me so... but I'm used to it..."

Qin Fang grinned, showing off a row of white teeth, and his expression was genuine, with no hint of pretense, clearly a reflection of his true personality.

"Actually, this is... pretty good!"

Tang Feifei also smiled, thought for a long time but couldn't come up with any appropriate words, and finally just squeezed out the two words "pretty good".

So beautiful!

Her sweet smile only made the already blooming girl even more beautiful, no wonder she was called the school beauty in school. Even Qin Fang, who dared not have any improper thoughts about women, couldn't help but exclaim in admiration.

As the ramen continuously went down, the sensation of strength returning was so clear, and the Life Points gradually rose from three. After Qin Fang finished his bowl of ramen, he didn't feel full at all; his stomach felt as if he hadn't eaten anything, still empty.

However, the Life Points had indeed increased by three, rising back to six, basically the same as before he got beaten. The tiredness in his spirit also diminished a lot.

"What's wrong? Not full?"

Seeing Qin Fang finish a bowl of ramen but still clutching his stomach with a very strange expression on his face, Tang Feifei couldn't help but ask.

"Seems I'm still a bit hungry, I'll go for another bowl!"

Qin Fang hesitated for a moment, feeling really as if he hadn't eaten the previous bowl at all, still empty, so he said to Tang Feifei.

"Sure, go ahead!"

This time, Tang Feifei didn't stop him; she noticed that after Qin Fang had eaten that bowl of noodles, his whole person seemed much more spirited, and the color had returned to his face, no longer as pale as before.

Looking at the dough in his hand, Qin Fang hesitated for a moment, then still grabbed a bigger chunk and prepared himself an even larger serving of ramen, filling the already oversized bowl to the brim.

"Fresh, tasty, and hearty ramen, consumption can increase Life Points by four, restore 30% physical strength."

While holding this freshly cooked bowl of ramen, Qin Fang naturally did not forget to observe the attributes of these noodles. Compared to the previous bowl, there wasn't a big change, just some slight differences.

For example, adding the term "hearty", which is clearly because this time Qin Fang had given enough ingredients, "increase Life Points by four" probably because of the additional portion.

"Six plus four equals ten, after eating this bowl of noodles my Life Points can be fully restored..."

Seeing this attribute, a slight smile of contentment appeared on Qin Fang's face, and he silently made such a simple calculation.

"Let's hurry up..."

Tang Feifei was still sitting there, propping up her chin, watching Qin Fang devour this larger bowl of ramen. Although she was amazed at Qin Fang's astonishing capacity for food, she didn't pay too much attention to it.

Having a good appetite is a blessing!

Tang Feifei couldn't help but think of these words her grandfather used to say.

Slurp~~~

With such a sound, Qin Fang quickly annihilated the ramen in the bowl, with his Life Points also gradually marching toward the full ten points.

"You can't still be hungry, can you..."

But after finishing another bowl with an even greater portion, Qin Fang once again clutched his stomach, and Tang Feifei exclaimed with an expression as if she had seen a ghost...
