

Alpha's Purchased Luna

Chapter 3

Dylan P.O.V

When my beta and I were about to cross the River Moon pack, I heard some poor pack members crying and talking about their former Alpha and his family. He was a good person and a good ruler as well. But bad luck that the rogues attacked his pack and killed his family.

"I heard that Alpha's daughter is really beautiful and unmated. But she is an omega. That's why Rogues Alpha Xander arranged a special auction to sell her. All the Alpha from the East & West sides have come today just to buy a pure virgin omega who is also a head alpha's daughter." Ashar said.

"East side?" I frowned.

"Yes," Asher replied.

The Eastern side was the Lycan realm and I wasn't fond of the king. It's not like I could not destroy his pack or could not protect my pack from Lycans, it's just we had an old history.

I didn't want any packs on my side to try to make any alliance with him. Especially not the rogues.

"Stop the auction," I told my Beta.

"But how? Almost every Alpha has come already." Ashar replied.

"I can't let the auction go well." I smirked.

"You mean you will go there to stop all of this?" Ashar was shocked and asked.

I nodded and we went to the auction.

We sat on the second floor which was very dark. One by one, slaves were sold to different Alphas. I was watching every single move of them.

Omega trafficking was illegal in my pack. My father banned the business when he took the responsibilities into his own hands.

In my pack, everyone was the same for me. They were all fighters. They were afraid of me but respected me more. I trained them so strongly that no one could just attack and win any war.

A strong pack and a powerful leader that's called the Blood Moon pack.

"Alpha of the rogues is very desperate about making allies, huh?" I said.

"Of course. Otherwise, maybe we can destroy his new pack immediately. What do you say?" Ashar said and winked at me.

I was talking with my Beta. Suddenly I felt a very strong scent. My wolf was howling and trying to take over.

My wolf was chanting,

"Mate. Mate. Mate"

"Mate?" I asked.

"What? Your mate is here? Are you feeling anything, Dylan? What happened to you?" Ashar asked nonchalantly.

I couldn't reply to Ashar. I was almost out of control because of the scent. Where was it coming from? I tried to locate it, and suddenly the auctioneer said,

"Here. Let me present to you the Former Alpha's daughter, Alice Harrison. She is beautiful and a pure virgin omega, everyone. Feel free to offer your price."

There she was, entering the stage slowly, looking down. The auctioneer beside her started to talk again, "Start with the pricing,"

I got very angry when I heard what the auctioneer said. Did they dare to sell my mate? Alpha Dylan's mate? I wanted to destroy everything but controlled myself, it was not their time. But their time would come very soon.

She came and stopped in the center of the stage when I said angrily,
"SOLD OUT."

My wolf growled loudly. He started to say,
"Mine, only mine."

I looked at her, she was my mate? A weak omega was my mate? She was wearing dirty clothes, she looked skinny as if she didn't eat for days.

Moon Goddess really made fun of me by giving me a vulnerable Omega as my mate.

"She is my mate. Take her to the pack with you safely. If I don't leave now I will kill all of them." I told Ashar.

Ashar nodded. I looked at the omega for the last time and left from the second entrance.

I left from there and headed to my pack. I told my Theta and Gamma about their Luna. They told me they would arrange everything.

It had been a long time, and my whole pack was waiting for their Luna. A luna was very important for an Alpha. Otherwise, he needed to do everything by himself. A mate was more important, a mate could make an Alpha more powerful just by staying beside him.

I had never in my life thought my mate would be an Omega. A true blood Alpha with an Omega? I couldn't absorb it.

When I arrived at my pack I stopped my car beside the forest and started to run to the dark forest. My wolf wanted to take over so I had to free him.

After running for a long time, I went back to my pack house. All the people in the pack had already known that their Alpha had finally found his fated mate, their real Luna. They wanted to embrace her gracefully with respect.

I took a shower and went downstairs. I sat on the couch as my men gave me all the reports about Alice Harrison. Her past life, her parents, pack, friends and every detail.

Theta Xavier came to me and said, "Alpha, let's throw a party tonight. Finally, we get our Luna. I'm so happy. What about arranging a party for us to enjoy and celebrate?"

I rolled my eyes and said, "She is an Omega."

"So what? Omegas are beautiful." He winked.

"Sure." I replied.

"Stop fucking around, Dylan. I heard she is a pure virgin Omega. You don't need any side chick anymore." Xavier said.

I glared at him and said,

"Respect. She is your luna and my mate."

"Okay okay. Ashar just told me from the mind link that they have arrived. I'm going to receive her, bye." Then he ran outside.

I could feel her scent from inside. She was coming.

When she entered the pack house, she looked at me. She was looking shocked. I bet she had never imagined that she would be Alpha Dylan's mate. What a luck!

"As you told me I brought her, Alpha." I hear Ashar.

I didn't break eye contact with her and stood up. I went too close to her.

She was beautiful as the River Moon pack members said. She had changed her clothes to a nice one and now she looked like a royal lady.

But clothes could change her look but not her rank. She was a weak she-wolf but I had to accept her for the sake of my pack.

She looked at me and asked,

"M-Mate?"

I said, "Welcome to your pack, Luna."

She looked confused and whispered which I heard clearly,

"LUNA?"

Before I could say anything she fell into my arms and fainted.

I was taken aback and told my men,

"Go, call the pack doctor and tell him to come immediately."

"She didn't eat anything for the last two days, maybe that's why she has fainted." Ashar said.

I lifted her in my arms and went to my room.

"Weak, Just as I thought about her."
